Dear Chief Justice Maupin:

ADKT 297
ADKT 413

On June 18, 2007, Nevada Judges' Association President Stephen Dahl wrote a letter to you expressing the views and comments of the Association pertaining to proposed administrative docket matters of June 21.

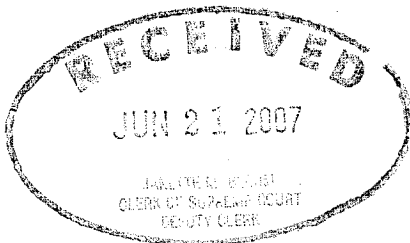

First, I favor retention of the existing system pertaining to the judicial council system. It is a wonderful council that offers the opportunity for judges to have contact with the Supreme Court and the council meetings provide an opportunity to express our views in an open forum with debate, discussion and vote.

Second, I do not favor any rules that call for limitations on raising funds and/or seeking public support of a judge. I believe and argue that such will interfere with our First Amendment rights. Needless to say, respectfully, I do read that amendment to grant to me an abundant amount of rights which may not be limited. Additionally, I just want to attempt to preserve my perceived rights and not foreclose their existence by silence.

Thanks so much for giving me the opportunity to express my comments.

Yours truly,
