JANETTE M. BLOOM  
CLERK OF SUPREME COURT  
BY *J. Bloom*  
CHIEF DEPUTY CLERK

Realizing the December 3 2007 cut off for comment on judges sealing cases I hope my email will be heard. As a resident of Nevada for over twenty years I am shocked to know there is such a good old boy network in place. As the residents of Nevada are bombarded with attorney adds twenty four hours a day it is ever so relevant that the regular people know the attorney they hire is legitimate. To seal a case just to protect the upper crust of society is unthinkable and makes one wonder where has our state gone in the last few years? I would concede there are "rare" exceptions to sealing part of a case and rarer cases to sealing an entire case. It is time now to take favor granting judges and incompetent judges out of the process and have strict rules for them to abide by. In closing protect all of Nevada's residents not just the chosen few.
