REPORTED BY: LISA BRENSKE, CCR #186

ALSO PRESENT AT THE REQUEST OF THE GRAND JURY: MICHAEL STAUDAHER, ESQ. Deputy District Attorney

JEFFREY SEGAL, ESQ., (On behalf of the witness)

WITNESSES EXAMINED ANN MARIE LOBIONDO

LAS VEGAS, NEVADA, THURSDAY, MAY 6, 2010 * * * * * *

LISA BRENSKE,

having been first duly sworn to faithfully and accurately transcribe the following proceedings to the best of her ability.

MR. STAUDAHER: On the record again in the case of state of Nevada versus Dipak Kantilal Desai, Ronald Ernest Lakeman and Keith H. Mathahs, grand jury case number 09BGJ049A through C.

Ladies and gentlemen, as in the previous presentations that have been before the Grand Jury I have to tell you two things or I have to at least discuss two issues with you. First of all for those of you who were not here during any portion of the prior proceedings it is incumbent upon you prior to deliberating — and you will not be asked to deliberate today -- but prior to deliberating in order to deliberate all of you must have read all the transcripts or been present for the entirety of the Grand Jury proceeding. Is that understood? THE JURY MEMBERS: Yes.

MR. STAUDAHER: You have been afforded at various times and will before this case is done an opportunity to have a chance to review those transcripts if you haven't done so. And the evidence that's before you that's marked as all the exhibits that you have.

In addition I told you at the outset of each and every presentation that I would ask each of you if after hearing the presentations from the prior time or any time before that or if anything has come about since the last proceeding, if any of you have changed your prior view as to being in a position where you can remain unbiased, I wanted you to tell me. Is there anyone now who has had something happen, come across any information, heard any testimony or reviewed any evidence which changes their belief or opinion that they can remain unbiased in this case and just listen to the evidence and render a deliberation based on that evidence? General acknowledgment that they still can remain unbiased; is that correct? THE JURY MEMBERS: Yes.

the next witness. Ladies and gentlemen, I only anticipate this one witness for today. So if after this proceeding is done you have some time and want to continue to look at any of the transcripts or any of the evidence you may do it and from that point we'll go forward.

THE FOREPERSON: Would you please remain standing and raise your right hand.

You do solemnly swear that the testimony you are about to give upon the investigation of this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: Yes.

THE FOREPERSON: You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses and racketeering involving Dipak Desai, Ronald Ernest Lakeman and Keith H. Mathahs.

Do you understand this advisement?

THE WITNESS: Yes, I do.

THE FOREPERSON: Could you please state your first and last names spelling them for the record.

THE WITNESS: My first name is Ann Marie,

8

7

A-n-n M-a-r-i-e. My last name is Lobiondo, L-o-b-i-o-n-d-o.

THE FOREPERSON: Thank you.

MR. STAUDAHER: And, ladies and gentlemen of the Grand Jury, in addition to having Miss Lobiondo here she's accompanied by her attorney Mr. Segal.

If you could put your name on the record for the Grand Jury.

MR. SEGAL: Jeffrey Segal, S-e-g-a-l.

MR. STAUDAHER: With that I will bring in

MR. STAUDAHER: Mr. Segal is aware that he cannot participate in this proceeding but he is here to give advice to his client if she so desires during the proceeding.

That being said, ladies and gentlemen, the testimony that you are going to hear from this witness I need to ask a couple of predicate questions of this witness to make sure that she's aware of what the obligations are, what her at least belief is as to the circumstances that she has relating to her testimony.

ANN MARIE LOBIONDO,

having been first duly sworn by the Foreperson of the Grand Jury to testify to the truth, the whole truth, and nothing but the truth, testified as follows:

EXAMINATION

BY MR. STAUDAHER:

Miss Lobiondo, you are going to give testimony in this case today; is that correct?

Α.

Are you aware that you have been granted use immunity for your testimony today by both the State and the federal authorities?

> Α. Yes.

And as a matter of fact did I not communicate with you a couple of days ago that I'd spoken with the U.S. attorney Crame Pomerantz who informed me that in fact you were not only not a target in the federal investigation but that nothing you say today could or would be used against you in any federal prosecution?

Α.

And are you aware that I am now giving you also that same immunity from state prosecution?

Α.

MR. STAUDAHER: Any issues with that,

Mr. Segal?

MR, SEGAL: No.

Q. That being said I want to go ahead and ask you a few questions of background at the beginning. Can you tell us first of all what your profession is, what you do for a living?

I am a certified registered nurse A. anesthetist.

> 0. What is a nurse anesthetist?

I have gone through -- I have a Bachelor's of Science degree in nursing, it was a four-year degree. After that I worked as an RN in critical care situations. I went back to school after that for a master's degree at Columbia University as a pediatric -- my master's degree in nursing with a major in pediatric nurse practitioner. So I was a nurse practitioner first.

I worked in that profession and then I went back to school for another two years for another master's degree program which was as a nurse anesthetist which included a residency in anesthesia. So I also took a certifying exam with the American Association of Nurse Anesthetists and I'm certified by any state that I wish to practice in.

I applied for a certification through --I'm certified in Nevada and California right now to

practice as a nurse anesthetist which means I give --I'm able to assess patients preoperatively, administer anesthesia for surgical procedures and assess them postoperatively and provide anesthesia care throughout a surgical experience.

Now, that being said you mentioned some places that you had been trained in your background, your bachelor's degree and your master's and so forth. Where were the locations you had your training?

I did my undergraduate work at the State University of New York at Downstate Medical Center. I then worked at Memorial Sloan Kettering Cancer Center. I worked at several hospitals in the New York City area; Cornell, St. Vincent's, several hospitals.

Then I went to school at Columbia University in New York and that's where I got my master's degree. That included a lot of clinical experience in the hospitals affiliated with Columbia Presbyterian, St. Luke's Roosevelt -- the Columbia Presbyterian hospitals. After that I did work again at Memorial Sloan Kettering Cancer Center, I worked in the bone marrow transplant center unit, the critical care, ICU. I worked at a place called New Alternatives for Children, children who face chronic illnesses to help them transition from the hospital to home.

I also then went back to school at the State University of New York, Downstate Medical Center, Kings County School of Anesthesia and after that I was employed as a nurse anesthetist at New York University Hospital.

When was that?

That was in 1990. A.

When did you come out to Las Vegas?

After that I went to Los Angeles, California in 19 -- late '91, 1992. I worked in Los Angeles at the Veteran's Administration Hospital at Long Beach. I also worked per diem at Kaiser Permanente Hospitals and I also worked for two private groups called Beverly Hills Anesthesia and Nigel Anesthesia in Los Angeles.

So when did you actually get out to Las Q. Vegas?

I moved to Las Vegas in 1994.

When you came to Vegas what position did Q. you take?

I was a nurse anesthetist at Southwest Medical Center and I left there when I was -- I got pregnant and then I continued to work again on a per diem basis. I worked for a group of orthopaedic spine surgeons and I did anesthesia. It was at that time

called Lake Mead Hospital which is now renamed North Vista Hospital. I worked with the spine and 3 orthopaedic surgeons there. And then I had two children so I came and left various times. And I worked also for several pain management physicians in Las Vegas at different facilities. Do you want to know --

That's fine. Let me ask you a couple additional questions in there. Do you know an individual by the name of Dipak Desai?

> A. Yes.

Did you ever work for him? 0.

Yes, I did. Α.

How was it that you came to work for him?

I worked for him -- began working for him in September of 2000. I met him -- I was working -prior to September of 2000 I was working a short period of time for a plastic surgeon named Dr. Gordan and a physician came into that facility and asked me if I would be interested in working full-time for Dr. Dipak Desai at the gastroenterology center. So I went over and interviewed with him.

23 Q. Now, the person that came over, was that 24 Dr. Desai?

No. It was Dr. Maduka.

1	Q.	So when you went over to the was it the	
2	gastroenterology center?		
3	A.	Yes.	
4	Q.	When you went over to that location did	
5	you actually	meet with Dr. Desai?	
6	A.	I did.	
7	Q.	Did he hire you?	
8	A.	Yes, he did.	
9	Q.	Is this back in September of 2000?	
10	A.	Yes, it is.	
11	Q.	Is that when you actually started work for	
12	him?		
13	A.	Yes. I began working for him in September	
14	of 2000.		
15	Q.	What kind of work did he have you do?	
16	A.	I was providing anesthesia to patients	
17	undergoing endoscopy procedures, upper endoscopies and		
18	EGDs, esophagogastroduodenoscopies, and colonoscopies.		
19	Q.	Now, the name that you just said,	
20	esophagogast	roduodenoscopy, does that refer to the path	
21	that you tak	e down the esophagus into the stomach and	
22	into the duodenum?		
23	A.	Yes.	
24	Q.	So that's the place that the scope or

23

24

Yes, that's correct. 1 Α. 2 Q. And then there's the other thing, the 3 colonoscopy; is that correct? 4 A. Yes. 5 And I assume that looks in the colon? ٥. 6 Α. 7 So both ends? 8 A. Yes. 9 Is that primarily what you did, was do 10 anesthesia work for those types of procedures at the 11 clinic? 12 Yes. I also maybe about a year after that began rotating to the hospital which was Lake Mead 13 subsequently North Vista Hospital and I would do 14 anesthesia for the same type of procedures at the hospital. 16 17 Did you work out of all of the clinics? 18 Eventually I was the person that rotated, 19 covered, and others did it, but I was the only one that 20 went to the hospital and I also went to the Desert 21 Shadow location, the one that is near Desert Springs 22 Hospitai. 23 What about the Shadow Lane location? Q. 24 Well, Shadow Lane was where I worked in September of 2000 where I worked most of the time.

Now, if I understand you correctly, though, you would rotate to other locations during the

15

whatever would go to look at things; is that correct?

Yes.

time you worked; is that correct?

So is it fair to say that you didn't work at Shadow Lane or Desert Shadow or the hospital full-time?

It's fair to say that I started to rotate A. to other facilities when they hired the second CRNA.

Were you the first CRNA that was hired?

Yes, I was. A.

0. So prior to --

As far as I know I was. Α.

0. Well, when you came into the facility were there other CRNAs?

> Α. There were no other CRNAs.

Just to make it a little easier the court reporter here is taking down all the words that are being said so it's important that you let me finish my question and I'll try and let you finish your answer because it's kind of hard for her to take down when we're talking over each other.

I'm sorry.

No, that's all right. I do it too. So I'll try to do my part if you do yours.

Getting back to the facility and how many CRNAs they had, you're the first, or at least the only one that's present when you come to work, correct?

> Α. Yes.

25

Were there other anesthesiologists, ٥. doctor, MD anesthesiologists working at the clinic from time to time when you were there?

Yes. They would cover -- when I was there from 2000 until 2004 there was only one procedure room. so they would cover when I was not available when I had to take a day off or go elsewhere.

So primarily were you the one that was doing the procedures, the anesthesia procedures unless you were gone and had to be covered?

I was until they hired the second CRNA.

Yes. Well, that's what I meant. Q.

Α.

0. So the second CRNA, when approximately did that person get hired, if you remember?

I don't really remember the exact timing of that.

Was it a year, two years later, how long?

It was approximately a year or two years later.

Eventually did you leave the Endoscopy

16

RA000376

Center?

- A. I left in early 2004.
- Q. What was the reason for leaving?
- A. I left to work at another facility. I mean there were reasons that I really didn't like working there.
 - Q. Why did you not like working there?
- A. It got very stressful. It started out with 20 patients a day and it went to 40 or more.
 - Q. In one room?
 - A. In one room, yes.
 - Q. And that's stressful?
 - A. Pardon me?
 - O. Is that stressful?
- A. Well, you're working very hard non-stop. It's very stressful. It's stressful to the people, all the employees, it was stressful to the staff, it was stressful also to the patients.
- 19 Q. So you leave in 2004. Do you come back at 20 any time?
 - A. I came back in 2000 -- I'm trying to remember the exact. 2006. September of 2006.
 - Q. And how long did you stay at that time?
 - A. I took same time off that November for personal health problems. My dad passed away and so I

came back probably not until January or February of 2006 -- I mean seven. And then since I left in 2004 when I came back, I came back as a per diem employee which means I worked three days a week usually and I worked wherever they told me they needed me.

- $\ensuremath{\mathtt{Q}}.$ So when you say per diem, does that mean by the day?
- A. By the day. I was not a full-time employee with benefits. I was working by the day, by the hour.
- Q. So are you telling me that after that 2007 time when you finally came back after the personal reasons were you pretty much working at the facility at that time thereafter or did you have another break somewhere in between?
- A. I left again in June of 2007 I believe. Yes, it was June of 2007 and I never returned after that.
- Q. So the last time you quit working period for Dr. Desai was in June of 2007?
 - A. Yes.
- 22 Q. And what was the reason why you left at 23 that time?
 - A. I accepted another position at a surgical facility working for Centennial Spine and Pain Center.

I was not happy with the working conditions there at Dr. Desai's facility.

- Q. Now let's talk about a couple things regarding that facility. When you first came in you're the only CRNA at the facility working, correct?
 - A. Yes.
 - Q. Who was your supervisor at the time?
- A. I considered Dr. Desai to be my supervisor.
- Q. And were you associated with any MD anesthesiologist at any time during the periods that you worked for Dr. Desai?
 - A. No. As far as being supervising my work?
 - Q. Yes.
 - A. No.
- Q. If some issue came up and you needed to question someone about that or ask, who would you ask? And I'm talking about anesthesia related things.
- A. I would consult colleagues that I've known over the years but not that have any supervisory or any administrative duties over me in the Endoscopy Center. If I had a question I would consult a colleague of my own. There was no one in the facility to refer to.
- Q. And what I mean by that also is if, for example, you had a patient that you're working on and

there's some problem you need to consult right now, would you turn to Dr. Desai or someone else to get help?

- $\hbox{A.} \qquad \hbox{I would turn to whatever physician was} \\$ there, yes.
- Q. Were any of the physicians that were in the practice ever designated as being somebody who was your immediate supervisor beside Dr. Desai?
- A. Towards the end of my employment they started to -- the administration started to say that, which was in 2007, that Dr. Carol was the person to go to for any issues, but again he's not an anesthesiologist so I didn't feel that goes with the issues we were going to him for. But he was the person -- it always -- it's always been Dr. Desai ran the facility.
 - Q. So he called the shots so to speak?
 - A. Yes
- Q. As far as that issue did you ever see him delegate responsibility for hiring, firing, doing anything like that to anybody else?
- $\hbox{A.} \qquad \hbox{I believe he would delegate to Tonya} \\ \hbox{Rushing the administrator.}$
- ${\tt Q.} \qquad \hbox{So she had some say in the practice as well?}$

A. Yes.

Q. When it came to actually managing even small aspects of the practice, though, who was the person or persons that were involved with that?

A. Mostly Dr. Desai.

Q. Let's move on a little bit here. Now, you had mentioned the procedures, the colonoscopies and upper endoscopies; do you recall that?

A. Yes, sir.

Q. During the time that you were administering anesthesia for those types of procedures, and I'm not talking about initially when there were MD anesthesiologists that were coming in to cover you when you couldn't be there, but at any time when you were there or even after they started hiring other CRNAs did you ever see an MD anesthesiologist anywhere on site doing work?

A. No.

Q. If you were there were you the person that would do the anesthesia work ever initially?

A. Yes.

Q. And you understand how anesthesia billing goes, correct?

A. Yes. I never had to do my own billing, but I understand that there are units.

Q. And we'll get to that in a minute. I just wanted to know if you were familiar with it.

Now, you had mentioned that you didn't particularly like working in the facility because of the numbers and volume and things like that. Did that ever get better?

A. No. It just got worse.

Q. When you left in June of '06 were you still in this just one room at that Shadow Lane facility?

A. When I had left in 2004 they were starting to work on reconstructing the other side of the building to make two surgical suites and when I came back in 2006 that was completed. I don't know exactly the date they completed it and started using it. And then they had also hired other CRNAs.

Q. So when you came back to the facility they've got now two suites that they're using?

A. Uh-huh.

Q. Were the numbers of the patients still down in the 40 range then?

A. No

Q. What do you remember as being the average number of patients that you guys would do in a day before you left?

A. I would say -- before I left in 2004?

Q. In six, before you left in 2006.

A. It was up to 60 to 80 a day.

Q. Sometimes more than that possibly?

A. Sometimes even more I would say.

Q. And I know you said you didn't particularly like that whole process, the number of patients and so forth, but what was the general atmosphere within the practice?

A. You mean at the surgery center?

O. Yes.

A. Rushed, hurried, sametimes chaotic, just very busy.

Q. Did you ever feel any pressure to do your work and do it quickly?

A. Yes.

Q. Ever feel any other pressure to try and move things along, keep the schedule from bogging down at all?

A. Yes.

Q. Was there a person or persons who were involved in the pressure to hurry up and keep going?

A. Usually that would be Dr. Desai.

Q. And how would you get that? Would he say things that would tell you that he wanted you to move

and get going or how would that happen?

A. He would say things, yes.

Q. Now, who decided how many patients a day were on that schedule?

A. I believe it was Dr. Desai.

Q. And why do you say that?

A. He was always coming over and looking at the schedule and just — I think he dictated how many patients were scheduled for the day.

Q. Is that based on your observations of seeing him involved in looking at the schedules and doing things with related to the schedule?

A. Yes.

Q. Did you ever see him add patients to the schedule during the day because there weren't enough patients?

A. He would at times add to the schedule patients that he had seen in the clinic.

Q. So on the medicine side you mean?

A. Yes.

Q. For the very same day you mean?

A. Yes. Usually -- well, they had to be the upper endoscopy. You couldn't add a colonoscopy because the patient wasn't prepped.

Q. Did you ever get in trouble for not moving

fast enough?

A. Not in trouble, but he could reprimand you, yes.

- Q. What do you mean by reprimand? What would he do to reprimand you for not moving fast enough?
 - A. He would tell you.
 - Q. You mean verbal type reprimand?
 - A. Verbal, yes.
 - Q. But it was coming from him specifically?
 - Yes.
- Q. Did you ever have any of the other doctors come to you and try and push the schedule along or say you needed to move faster?
- A. I'd say there were times when other doctors tried to move us along, but I think it was the general -- it was just the general mood there. Everybody had to move fast.
- Q. Was there ever an instance where you were written up for exerting your medical judgment in not doing a patient?
 - A. Yes.
 - Q. Can you describe that situation.
- A. There was a time when I refused to give a patient anesthesia because I had seen the patient drinking water and that means they weren't NPO.

- O. What does NPO mean?
- A. It's a Latin word which means nothing to eat or drink after midnight.
 - Q. Why is that a problem?
- A. Because then if there's something in your stomach it changes the PH of your stomach, stomach fluids when you're not in control of your airway, which would be under anesthesia, or if there's going to be a surgical procedure, if the patient is not in control of their airway, stomach contents can go from their esophagus into their lungs and cause an aspiration pneumonitis they call it. But aspiration.
- Q. Does aspiration mean stuff moving from the stomach into the lungs essentially?
 - A. Yes.

- Q. I assume that's a bad thing?
- A. It's a bad thing. You can wind up in the hospital on a ventilator for that. I mean that's the worst case.
- Q. So if you saw a patient that you were about to give anesthesia to eating or drinking, would that make you concerned?
 - A. Yes. I absolutely wouldn't do it.
- Q. And in the instance you're referring to did you refuse to do anesthesia on that patient?

- A. I did.
- Q. What happened as a result of that?
- A. An argument ensued.
- Q. With who?
- A. With Dr. Desai. Tonya Rushing showed up. Others were involved. I know that one of the medical assistants was there and the patient also got upset because the patient wanted to have the procedure, but I absolutely refused and said I wasn't going to do it and that I would -- as they insisted. I said well, then I am going to leave the facility. I'm not going to do it.
- Q. Now, just so I'm clear on this, Dr. Desai was insisting that you proceed anyway?
- $\mbox{A.} \quad \mbox{Dr. Desai was, Tonya Rushing was, both of } \\ \mbox{them.}$
 - Q. And did you in fact leave the facility?
 - A. I left. I left the facility.
 - Q. Were you fired or what happened?
- A. I went into the parking lot and got in my car and Tonya followed me out and said if you leave we're going to get the lawyers.
 - Q. You still continued to work --
 - A. But I did leave. I didn't do it.
 - Q. Did that kind of thing happen, maybe not

- to that extreme level, but did that kind of thing happen during the time that you were there on a regular basis where you would have a patient that you thought for one reason or another should not have anesthesia that day and there was pressure to go ahead and give them anesthesia anyway?
- A. There were times when those situations would come up.
- Q. And who was the person or persons that were mainly involved in wanting you to go forward?
- A. I would say would be Dr. Desai. If it were other physicians and you had a medical issue what normally would happen there would be a discussion and you would work it out. Dr. Desai, if he insisted, sometimes he would talk to the patient and if they agreed, he would do the procedure without anesthesia, if the patient agreed to it. There were those situations.
- $\label{eq:Q.} \text{\ensuremath{\mbox{Q}}.} \quad \text{How often in a week would this kind of thing happen?}$
 - A. Two to three times maybe.
 - Q. So it wasn't an infrequent thing to occur?
 - A. No.
- Q. I mean I know you have large numbers; is that correct?

22

23

24

A. Yes.

Q. And you told us that eventually is that the reason why you left primarily was because of the numbers and volume and so forth?

Yes. Everyone -- the general atmosphere everyone is complaining and nobody likes the high numbers.

Now, if you weren't happy about the high numbers and the situation why did you ever come back to the center anyway?

Well, the reality is that there aren't many positions for CRNAs in Las Vegas. I needed to work and I felt that I could maintain what I thought was a good -- I could take good care of my patients and despite that atmosphere just do my best and provide my patients with good anesthesia care and try to maintain my standards. But basically I needed to work.

So is that the reason why you went back?

Yeah, and I needed a schedule where I could work and take care of my kids.

Did you look for another job where that might work for you too during this whole process?

I always was looking for another job and eventually I found a job that I was very happy when I had left in 2007. I don't think I ever would have gone back.

24

25

Now, you said you left in 2007, correct? Q.

A. Yes.

Now, while you were there beside the physicians I know you said that Dr. Desai was your main supervisor you thought, correct?

> Α. Yes.

Q. Were there any other nurses that supervised you or supervised the CRNAs? And I'll give you an example, do the names Katie Maley and Jeff Krueger ring a bell to you?

A. Yeah, both of those nurses were supervisors of nurses; however --

0. You're a nurse, aren't you?

I am an RN and a CRNA.

Did they supervise the CRNAs?

They would make rules for the facility 18 that affected CRNAs which I didn't think was their -- I 19 didn't think it was in their jurisdiction or I didn't 20 think it was their place.

> Q. Were you pretty vocal about that?

Α.

I want to take you into sort of the medical realm for just a minute. I assume you're familiar with the drug propofol; is that correct?

31

29

A. Yes.

And what is that drug, what does it do?

It is a drug that's a class of drug called an alkylphenol and it sedates a patient, it's used for sedation during surgical procedures. We use it to induce general anesthesia, but it also is used as a sole agent also during short procedures to maintain sedation.

> Q. Like a colonoscopy or endoscopy?

Yes.

Now, as far as the drugs that you first started with when you were there back in I think you said 2000 was it when you came to work for Dr. Desai?

Were you using propofol at that time? 0.

Α. No. We used Versed which is also called midazolam which is a classic drug called a benzodiazepine which is kind of in the Valium group. And also we used Demerol which is an opioid and we used those two medications at that time.

Eventually was there a shift to using 0. propofol?

> Α. Yes.

After the shift was made did you go back 0. and use Demerol and Versed on occasion?

On occasion if there were a patient that for some reason had had a reaction to propofel or sulfa drugs which there's a preservative in propofol that has a sulfite in it.

Is it an important thing to know how a Ο. patient reacts to anesthetic agents and drugs?

> Α. Yes.

Q. I mean from an anesthesiologist's standpoint.

I'm sorry?

Is that an important thing to know if a patient would have an adverse reaction, bad reaction to a drug?

A.

So if a patient tells you that yeah, I've had this drug and they gave it to me for like three hours or something in the procedure, would you feel comfortable giving that patient that drug again?

If they said?

20 If they said I had this drug before during ٥. 21 this type of procedure?

Α.

I wouldn't have a problem with it? Q.

A. Yes, of course.

But if they said they had a problem during

32

30

RA000380

some point during the procedure, that would be important for you to know I assume?

- A. Yes.
- Q. Now let's walk through a typical procedure that you were involved with. We already know a layout of the rooms, we've got a map over there if you need to look at it at any time, it's in evidence. We know the way the rooms were laid out. We know there was a preop area and postoperative area as well as the procedure room, correct?
 - A. Yes.
- Q. Where did you float within that room? Where did you pretty much work?
- A. I would mostly work in the patient room. If I had time or depending where the patient was, how many CRNAs were in the facility, I would speak to a patient I would always speak to a patient first and obtain a preoperative assessment, but sometimes it would be done in the preoperative area or it would be done in the patient room.
- $\ensuremath{\mathtt{Q}}.$ You mean where they take them after the procedure you mean?
- A. Yeah. Where they took them after was pre and postoperative. And you could also find a patient they also had an IV preparation room.

Sometimes you could interview a patient there also.

- Q. Now, with the volume of patients that were running through the facility and knowing the pressure to keep things moving did you have a lot of time to go out and deal with patients outside the procedure room?
- A. Well, as the situation necessitated whatever --
- Q. Let me ask it a different way. Typical day, let's take 80 patients are rolling through the facility. That's a lot of patients in one day, right, correct?
 - A. Yes.
- Q. So 80 patients rolling through the facility do you have a lot of time even 60 patients rolling through the facility do you have a lot of time to go out into the preop area and deal with the patient and then follow them out to the postop area and deal with them for awhile or are you pretty much tied to the room that you're doing the procedures in most often?
- A. You're most often in the room where you're doing the procedures, but if a procedure is taking long and there's more than two CRNAs, then you can feasibly go out into the preoperative area and interview a patient. But most of the time you're in the procedure room

- Q. So let's walk through what would typically happen during a procedure. Let's just assume at this point that you're in the procedure room. A patient gets wheeled into the room. Tell us what happens.
- A. I would get their chart and review it, review any medical records, lab values, any medications that they're on, previous procedures that they've done and if there's just review it for any pertinent information. And then I would start talking to the patient and do a preoperative assessment and fill out a record for that.
- Q. And then what happens? Doctor comes in the room at some point?
- A. And then also if the patient has an IV, that's fine, I would look at it and make sure it's patent, it's working. And if they didn't have one, I would place one.
 - Q. And patent means open?
- A. Open, working, it's not clotted, the vein is good.
- Q. So now you've done your little assessment thing, correct? About how long does that process take?
- A. Anywhere from five to ten minutes, although there was pressure not to take ten minutes.
 - Did it ever really take ten minutes by and

large?

- A. Well, there were same patients there were language barriers --
- Q. I'm not talking about some patients here and there.
 - A. Okay.
- Q. I'm saying about the average patient rolling through. How long is your prep time before the doctor rolls in to do the procedure?
- A. It's about I'd say five minutes is where they wanted you to keep it.
- Q. So around five minutes. Now, once the procedure is done about how long does it take before the patient gets wheeled out of the room?
- A. You look while the patient is in the room we missed the part where we put the monitors on. But of course you put monitors on before you start a procedure, you check their vital signs and you get a baseline. And after the procedure I would always get at least one set of vital signs just to make sure that they're okay after the procedure and there are no adverse reactions, blood pressure drops, heart rate changes, oxygen saturation, all those things.
- Q. So same physicians do the procedures at different rates than others within the group?

A. Yes.

î

Q. Who was the fastest?

A. Dr. Desai.

Q. Just a little bit faster or a lot faster?

A. A lot faster.

Q. Typically for him to do an upper endoscopy how much time are we talking about to do the procedure roughly on average?

A. I wish I knew an average and I would say it's very fast, though. Maybe --

Q. Well, are we talking about ten minutes or are we talking about two minutes, what are we talking about?

A. Maybe five minutes. I'm not sure exactly.

 $\mathbb{Q}.$ What about a colonoscopy, did you do more of those with him?

A. I don't know more, but I did -- yes.

Q. How much time did it take him on average to do a colonoscopy?

A. Well, those were always longer. Your colon is longer and it depended on what was found. If there were polyps to remove, biopsies to take, if the patient was well prepped or not. I mean but generally he was faster than any of the other physicians.

Q. I am going to ask you that question one

more time. Roughly how long did it take him to do a procedure and I'm talking about a colonoscopy-type procedure? Are we talking about twenty minutes or less or more, what are we roughly talking about?

A. I would say less. Much less.

Q. Do you remember telling people that you thought the low end or the fastest end was around four minutes or so that he might do a procedure, a colonoscopy?

A. He might have done one in four minutes.

Q. So on average was it around that time, a little longer?

 $\mbox{A.} \quad \mbox{On average I think it would be longer than} \\ \mbox{that.}$

Q. Would it be unusual for him to do a colonoscopy lasting more than ten or fifteen minutes?

A. That again would be unusual for him unless
he had several polyps or biopsies to take. But
normally he would do them faster than that.

Q. As far as the other physicians did they generally take longer time to do those procedures?

A. Yes

Q. In a typical hour in the room that you were in how many patients would roll through there for procedures, typical hour in a day? And I know we're

talking about differences between upper endoscopies taking a shorter period of time and colonoscopies taking a longer period of time.

A. So in an hour in one room for me?

Q. How many patients? Would you see one patient or would you see ten patients? I mean how many patients are going to roll through in an hour?

A. With Dr. Desai?

Q. Let's talk about Dr. Desai first. With Dr. Desai how many patients in an hour roughly?

A. It could be anywhere from three to five.

Q. With the other physicians, let's say Dr. Carrera, how many patients could be do in about an hour?

A. One and a half maybe.

Q. And same of the other doctors, did they range in between there?

A. Yes.

Q. As far as the use of drugs within the facility primarily for anesthetic you're using proposfol, correct?

A. Yes

Q. Propofol, do you know how that came, what were the sizes of the bottles that you used?

When I first started there it was only

20CC vials.

Q. So did that change at some point?

A. When I worked there in 2000 -- I believe it was 2006 or seven -- there were other size vials available. I mean there were 50CC vials available at that time.

Q. So you did use 50s?

A. They started to order those and, yeah, I always complained about it and sometimes they would have both sizes there and they'd say well, you have to use the 50s first.

Q. Why did you complain about that?

A. Because I didn't like -- because propofol is -- once you open a vial you want to use that vial on one patient and I didn't like having that vial open. So I would do what I did and drop, if it was a 2000 vial, two 1000 syringes so it would be two sterile syringes. If it was 5000s I would drop five, but I didn't like having all that propofol in use at one time.

Q. We'll get to issues regarding propofol a little more extensively, but just in general at this point are you aware of whether or not that was considered a multi use or a single use drug?

It's a single use drug.

q

- Q. So do you know if there's any packaging on either the inside labeling or the exterior labeling of the bottles that indicates it's a single use only drug?
 - A. I believe it says that on the bottle.
- Q. When you say single use, are you talking about single patient use drug?
 - A. Yes.
- Q. So you could actually use the propofol from a bottle on a patient but not necessarily use that same bottle on the next patient; is that right?
 - A. Can you repeat that?
 - Q. Sure. Single use to you means what?
 - A. Use on one patient.
 - Q. So you got one bottle, one patient?
 - A. Yes.
- Q. Do you ever have a situation where you think that it's appropriate to use a bottle of propofol for one patient and then if there's any left over use it on the next patient?
- A. The only situation where I would do that is if I removed all the contents from the bottle in two separate syringes because we had 10CC syringes. So I would remove, if it were a 20CC vial, two 10CC syringes in a sterile manner with separate syringes, separate needles, and if it were a 50CC vial, I would remove

five 1000 syringes prior to starting the procedure with any patient.

- Q. So on each patient --
- A. I would set it up that way.
- On each patient you would be using a minimum then of two syringes for each patient because each one of those vials is going to be 2000s minimum, correct?
 - A. What I'm saying is I would take two sterile syringes separately and if it's a clean vial you go into it with a sterile syringe and a sterile needle, you take out 10CCs, you put it down in your area and you take another sterile syringe with a sterile needle and take out another 10CC syringes -- I mean 10CCs in one syringe so that you have two 10CC syringes from that bottle and they're both clean. If you want to use 10 on one patient you can, and then you can use the other 10 on the other patient.
 - $\ensuremath{\mathbb{Q}}.$ But for that patient then you might only use one syringe, correct?
 - A. Yes.
 - Q. Would you ever have a situation where you would take a syringe that you had drawn up from a bottle, use it on a patient and then take that same syringe and re-enter that vial to draw out more drug?

- A. If it were a 2000 vial and it's one patient, the same patient, you can, and we would do it everywhere in all the hospitals. If it's the same patient and that vial is for that patient.
 - Q. So nothing wrong with that?
- A. No. I would always change the needle in between just to make sure that -- lesson the chance of anyone getting stuck with a needle that's already been used. But if it were the same patient you can go into that vial because that's how it was distributed everywhere for years and that's how it was at the hospital, come out of machines and if you had one patient, you get one 2000 vial, you would use that vial for that patient. If you had to go in twice. At the end if you had some left, you throw the vial away.
 - Q. Is that what you typically did?
- A. I did do that. Yes. I did do that, but I usually would empty the vial so that I didn't have to throw it away because there was pressure not to waste any.
- Q. And we'll get to that in a minute also, but sticking with what we're talking about here regarding the withdrawal, so it's not really a problem to take a bottle, 5000, 2000 bottle, open it up and use one syringe, go in and out of that bottle for a single

patient as long as that bottle doesn't move onto the next patient, correct?

- A. If you're only going in one time with one syringe —
- Q. I'll take it in parts. I just want you to follow me for just a minute. You've got a single bottle, it doesn't matter what size, 50, 20, whatever, you draw out with a single syringe. You inject the patient. You go back into the bottle because the patient needs more anesthetic. You go back into the patient. That bottle now you've been into twice. Are you with me?
 - A. Uh-huh.
- Q. Would it ever be appropriate to then take that bottle and use it on the next patient?
 - A. No.
 - Q. Did you ever do that?
 - A. No.
- Q. Now, so according to you would that be below the standard of care?
 - A. Yes.
- 22 Q. So now you've got a bottle, you draw out 23 the two syringes that are sterile without touching a 24 patient or anything. You could use one of the syringes 25 on this patient and then use the second syringe on

q

another patient?

7.4

- A. Yes
- Q. As long as you didn't enter any bottles and do anything like that?
 - A. Right.
 - Q. That would be okay?
 - A. Yes.
- Q. Let's say you drew up 1000s out of a 5000 bottle and you used that on a patient but you never went back into the bottle so the bottle has only been entered one time with the sterile syringe -- are you with me?
 - A. Yes.
- Q. -- would it be appropriate to use that bottle on the next patient?
- A. If you haven't gone into it with anything else like you said.
- Q. So even though it says single use that wouldn't be something that wouldn't be unheard of?
- A. Right. But again if you don't mind me saying I would empty that bottle out so there's never any question and take everything out of the 500C or 20CC bottle to start with so there's never any question.
 - Q. I'm just asking you not necessarily about

what you do but what your experience is and what the standard of care would be in this case.

- A. Okay.
- Q. Single use means single use, does it not?
- A. Yes.
- Q. You could do it certainly, there wouldn't be a contamination issue for the patient in that particular case, right?
 - A. No.
- Q. So even though you wouldn't do it that way, if somebody were to take a 50CC bottle, draw out 10CCs, give it to patient, not ever go into that bottle again, theoretically could that leftover 40CCs of propofol be used on the next patient?
- A. It could be because if that's all you're given that's how someone may have made it work.
- 17 Q. If the warning label had not been single 18 use, it had been like a saline bottle, is that 19 permissible to do just the way I just described it?
 - A. It's not ideal.
 - Q. But is it permissible?
 - A. I know that it's done because for years you would get in other drugs too in 50CC but you have to -- that's why I think you have to empty out the bottle so that you know what's in your syringes.

- Q. Did you ever reuse syringes while you were there, and when I say reuse, I'm not talking about the same patient but I'm talking about between patients?
 - A. Never.
- $\ensuremath{\mathtt{Q}}.$ Would that be below the standard of care to do that?
 - A. Yes.
- Q. I know you talked about the method that you take propofol out of the bottles. Did you ever do like I described where you take some out of the bottle and then use that bottle on a subsequent patient?
- A. Again I would try not to do it that way because there's too many chances of I wouldn't want that bottle to be unopened.
- Q. So there's a risk potentially if that happens?
- A. I think so -- with a larger bottle I think it's a lot more risky.
- Q. Now, were you ever during the time that you were in the clinic ever offered partially full bottles of propofol to use on patients?
 - A. Yes, I was offered.
 - Q. Would you ever use them?
 - A. No.
 - Q. Was there a reason why you wouldn't do

that?

- A. Because I don't know what is the integrity of that bottle. I don't know.
- Q. Was that an occasional thing or did that happen on a regular basis?
 - A. I would say occasional.
- Q. Was it more toward the end of the day or the beginning of the day that that would happen?
 - A. I'd say definitely at the end of the day.
- Q. Now, were you aware of anybody else in the practice that was doing the kinds of things I described where using one part of a bottle on one patient and then using the rest of the bottle on the next patient?
- A. Honestly I didn't really look at how they were doing their anesthesia because we're in the rooms alone. I'm not in the room with them when they're doing it.
 - Q. I'm just asking personal observations.
 - A. I am not aware of it.
- Q. So I'm not asking you for anything anybody said to you, just did you ever see that kind of thing happening?
- A. I didn't see it -- you know, again, I
 wasn't really watching anyone else give anesthesia in
 the room.

23

24

- 0. Fair enough. Now, I want to move onto a different area. Do you recall an issue with Dr. Desai regarding saline flushes of the heplocks, the little places where you push the anesthetic into the patient?
 - Α. Yes.
 - Tell me about that.
- There was a time in 2000 that I think it was six when this began, it may have been later, I'm not sure of the exact time, but there was an idea I believe it was of Dr. Desai that we would flush each heplock after we gave the propofol with 5CCs of saline solution.
 - What was the rationale behind that? 0.
- I questioned it. I never got a reliable answer. And I never did it because I didn't see the rationale, but I believe that Dr. Desai's rationale was to push the propofol in faster so that it would work faster so that the patient would be ready faster and he could begin without waiting the couple seconds that it takes or minutes for the drug to be active.
- 0. Did you ever hear him voice this to anybody?
 - Yes.
- So when you say you believe, that's based on what you heard from him?

- What I heard from him, yes. And others. Α.
- Specifically related to that you never did that procedure, though, correct?
 - No. I never did.
- Let's talk about the anesthetic procedures themselves with Dr. Desai I'm talking about specifically at this point. Did you ever experience times when Dr. Desai would start procedures before you had the anesthetic into the patient?
 - A.
 - 0. Did that happen a number of times?
- A. Yes.

- Q. Was that a problem?
- Α.
 - Did you tell Dr. Desai this?
 - Α. Yes.
 - Q. Did this happen with other doctors?
- 18 Α. Not frequently, no. I mean, most of them 19 would wait for you to tell them.
 - How often would this happen with Dr. Desai?
 - Frequently. On a daily basis. Α.
 - When I say starting a procedure before somebody is given anesthesia, I'm saying before you actually injected anything into the patient?

51

- Oh, I mean that was more rare. He would see you injecting but not wait.
- So he would see you inject but not be able to say okay, the patient's ready to go or something like that?
- Α. Yes. He would not wait until the patient was ready.
- Q. You mentioned that was a problem. Why was that a problem?
- A. Well, I mean obviously because the patient is not asleep yet and the patient may feel the pain.
- Did the patients react to what he was doing in that situation?
- There were many times when a patient would actually say I'm not asleep yet. Or ouch.
- Was this for both the upper endoscopies and the lower or just one or the other?
- A. Mostly for the lower because it's really difficult to do an upper endoscopy. A patient has a mouthpiece in and if they're not sleeping they are going to move. And in either case you can perforate either the esophagus or the colon with patient movement. But with the upper procedures he would wait longer.
 - So it poses a risk to the patient to have

them writhing around on the table or whatever when the scope is going into them?

- Α. Yes.
- What was his response when you would say wait or the patient isn't asleep yet or something along those lines? Would he stop and say oh, my gosh, I didn't realize this or what would he do?
- Α. Sometimes he would wait and sometimes he would continue.
- 0. Now, how would you characterize Dr. Desai's colonoscopies, let's talk about those for a minute. Was he faster going in or faster coming out?
 - A. Faster coming out.
- Let's talk about the coming out part. Was there ever an issue with him removing the scopes quickly?
 - Α. Yes.
 - Describe the issue with regard to that.
- You mean that I think it's dangerous or 20 the issue that how he did it?
 - Just tell us how he did it and why you thought that was a problem, if at all.
 - He would pull scopes out very quickly.
 - What would happen when he would pull the scopes out quickly?

 $\mbox{A.} \quad \mbox{Well, we would all be shocked.} \quad \mbox{I think it's dangerous for the patients.}$

 $\ensuremath{\mathbb{Q}}.$ But was there anything that happened as a result of that?

A. Oh, I mean, well, when you do a colonoscopy there's body fluids, fecal matter, blood, mucous, things would splatter.

Q. Would it get on you sometimes?

A. Yes.

Q. Would it get on other people?

A. Yes

Q. Would it get on the places in the room?

A. Yes

O. The floor, the walls, whatever?

15 A. Ye.

Q. Anybody else do that? And when I say anybody else, I'm talking about the doctors.

A. I never saw anybody else do it that way.

Q. Was that an infrequent or frequent

20 occurrence?

A. I'd say frequent.

Q. Let's talk about anesthesia time for a second. You know what anesthesia time is, correct?

A. Yes.

Q. What is it?

A. The billing for anesthesia is directly related to anesthesia time. Each procedure is assigned a number of units according to what the procedure is and then there's another assignment of units which I mean billing units, how they can charge for a procedure according to increments of 15 minutes.

Q. So let's say that there was a procedure where the base was five units. You would then add units on for the actual time of the procedure on top of that?

A. Yeah. That's how it was done. We weren't responsible for — we'd just fill out the records. But I know that that's how it was done.

14 Q. So every fifteen minute increment is a 15 unit then?

A. Yes.

Q. Beyond the baseline?

A. Yes.

Q. Now, do you ever recall Dr. Desai — and I'm asking you specifically about Dr. Desai right now — do you ever recall Dr. Desai making any mention of specific times that needed to be placed on the anesthesia records?

A. Yes. It didn't start until 2005.

Q. And them what would that be?

A. Or six. But that would be to make sure that each procedure was -- that you wrote down your anesthesia time was 31 minutes.

Q. Did he actually say that?

A. Yes.

Q. On more than one occasion?

A. Yes.

Q. On a regular occasion?

A. Yes.

Q. When would he say those kind of things?

A. Usually as he was leaving the room or just if he was passing through the facility he'd tell you, remember 31 minutes.

Q. He'd actually say that?

A. Yes.

Q. Now, anesthesia time, when does it start, when does it stop? Typically the average facility.

A. Typically anesthesia time starts when you take a patient into the room and you begin putting on monitors, the anesthesia provider and the RN in the room will confer times. It's up to the anesthesia provider to say — the nurse will say anesthesia, what's your time in and you both look at the clock or you look at your clock and say this is the time. That's when the procedure starts.

Q. When does the procedure end?

A. The procedure ends when you take a patient to recovery room and you and the nurse who is in the room who walked to the recovery room with you, the nurse who is in the recovery room and anesthesia, the three of you, confer after you've given the patient to the recovery room nurse and the vital signs are taken and everyone is in agreement that the patient is okay and you can safely leave the patient with the recovery room nurse, you all look at the clock and say this is the time out. And that's the time out.

Q. So once you do that, if you get a chance to do it, you go back to the room and start the next procedure but your anesthesia time should have stopped?

A. It's ended. When you leave the patient.

Q. Is that typically when it happens for most facilities?

A. For any other facility I've ever been in that's how it happens.

Q. You said any other facility. Is that the way it happened at the endoscopy clinic?

A. No

 $\ensuremath{\mathbb{Q}}.$ Tell us how it happened in the endoscopy clinic.

A. It was a little less organized. You would

actually write your anesthesia start time on the record. I would always talk to the nurse, tell the nurse what my time in was going to be, my start time. And again that's when you're with the patient putting on the monitors, the patient is in the procedure room. And it could be that you're still taking a history then, but that's still the time that the patient is actually in the procedure room.

And then the time out wasn't in the recovery room there because we were moving so fast there wasn't time for us to even -- most of the time walk the patient into the recovery room. So you'd have to take your time out and then go look at your patient and make sure it was okay or know that the nurses would tell you if there were any concerns for you to go back and check a patient. But we did not -- it wasn't -the time out wasn't that organized there. We didn't have time to go to recovery room.

- The typical procedure lasted less than 30 minutes, though, correct? I'm talking about anesthesia time.
- I would say typically, yes, but there are other longer procedures.
- Let's just talk about a single day and we talked about 60, 80 patients in a day, is that right,

something like that?

24

25

- A.
- Sixty being the low end of the patient range, correct?
 - A.
- If you had this 31 minutes that you're talking about that Desai is saying and you added that up for 60 patients and you said there are two rooms, right?
- A. Yes.
 - Q. So 30 patients roughly in each room?
- Α. Yes.
 - And that's the low end, correct?
- So 30 patients at 30 plus minutes a day or ٥. 30 plus minutes ends up to be quite a long time, doesn't it?
 - A. Yes.
- So that's actually more hours than you were working in the facility on that day?
 - I would agree to that usually.
- So if he bumped it up to 80, it would be 23 | even worse, correct, if they were all 30 some odd minutes?
 - Yes.

- But it's your testimony that Dr. Desai is saying all the anesthesia records need to be 31 minutes or more?
 - A. Yes.
 - Q. He says that on a regular basis?
 - A.
- So you would put your start time down so if you were putting 31 minutes down on the records, did you just put the start time and then just calculate what it would be to 31 and put that time down?
 - I didn't always do that.
 - Did you do it sometimes at least?
- I did it sometimes, but I didn't do it all the time. I didn't consistently do that.
- Q. If you didn't do that, if you left a time off or didn't have it at that level, would people come back and talk to you about it or have you address your anesthesia records?
- They would give you anesthesia records. I'd usually have a pile to finish or they'd circle in yellow highlighter what you needed to fix on there.
 - Would you do it all the time?
- If I didn't complete a time -- and a lot of times that would happen because we were so busy and I was rushing and I didn't put the ending time down, I

would look at my record and check my vital signs and check the nurse's record to see. I mean, it's not always -- you can't remember after weeks later.

- Was there pressure to put down 31 or more 0. minutes on the anesthesia records?
 - Yes. A.
 - Did you feel pressure to do so? 0.
 - Α.
- Did you do so because of that pressure at least some of the time?
- I would say yes, but I didn't consistently do it. I didn't do a lot of the things that Dr. Desai requested.
 - 0. Like what?
- Well, I didn't flush the IVs, I never flushed it with any of those 500 syringes. I took my time with the patient as best I could and I spent a lot of time with patients afterwards to lay anxiety and just to -- a lot of times patients were upset afterwards because maybe the doctor didn't talk to them so I would spend time with patients as much as I could.
- 22 When you heard Dr. Desai say 31 minutes, make sure it's 31 minutes, whatever it was, something along those lines, was he talking directly to you or was he talking to someone else?

it.

17

18

19

20

21

22

23

24

25

- Sometimes he would say it to me and sametimes he would say it to the nurses, the other CRNAs and he would just say it, remember 31 minutes.
- Was this something that was generally well-known throughout all levels of the practice?
 - I think it was.
- And I'm talking about the CRNAs, the nurses, the techs, everybody?
- Yeah. I don't know how much the techs --Α. I'd say the nurses, the CRNAs.
- Was there ever an issue regarding Pacificare patients about how they should be brought in or scheduled?
- Α. Again, when I had come back in 2006 I remember the other CRNAs telling me you can't do two Pacificare patients together and the nurses would also say that and everybody would be looking at the schedule and say not two Pacificare together and I always questioned that and never really got an adequate answer. But that was something that they would say.
- So in general it was kind of known that you did not schedule two Pacificare patients back to back?
- Or if they were scheduled that you wouldn't do their procedures back to back.

- That you'd put somebody in between?
- Α.

- 0. Do you know why there was this issue with 31 minutes?
- Well, I believe it was a billing issue, although I did ask and I asked Tonya and I never got an answer
- 8 I was going to say don't tell us what she 9 said. But in general you thought it was a billing 10 thing?
 - A. Yes.
 - So if you go from 30 minutes, which would be two units, correct, to 31 minutes, what would that mean?
- 15 Α. That would be another unit of time that 16 you could bill.
- 17 And specifically did you tell other 18 investigators that you believed that colonoscopies for 19 Desai were for the most part in the four- to 20 five-minute range?
 - I said that's how short -- I believe that's what I said, that's how short he could do one.
 - And again so I'm clear did you or did you not feel pressured to put 30 plus minutes on those records?

- I did feel pressured. I didn't always do
- 0. And who was the person giving you the pressure?
 - Dr. Desai. Α.
- Now, clearly you would agree I hope that if you put 31 minutes down on a procedure on an anesthesia record for billing purposes and that is not the correct time, it's less than that, that would mean that that was a fraudulent time being placed on the record, correct?
 - Can you just say that again.
- That would be falsifying the record essentially, you would be putting something down that was not correct and you knew that was going to go for billing purposes?
 - I think that would be true. Α.
- Obviously you don't like that situation I think you've said, correct?
- No. I tried to rationalize all the time. I would actually try to spend that time with the patient.
- Did you feel your job was ever in jeopardy Q. if you did not do that?
 - Yes. I mean you wanted to cooperate, you

wanted to get along with him.

- 2 Q. Is it fair to say then that units 3 essentially equals money, you bill more units, you get 4 more money?
 - A.
 - Did any of the other physicians in the practice come by and say 31 minutes or make sure you put 31 minutes on the record, anything like that?
 - No.
 - 0. So just Dr. Desai?
 - Α.
 - Now let's move forward to the scopes and was there any issue regarding the use of scopes in the facility with Dr. Desai?
 - A. Can you be more specific?
 - Certainly. Was there ever an issue where the schedule was moving along, there was the need of a scope and one was not available, had not been processed yet or was not ready to be used?
 - He would get very upset.
 - What would he typically do in that kind of a situation?
- He would actually go into the scope 24 cleaning room and come out with a scope sometimes.
 - Now, if I understand you correctly this is

at a point where there may not be a scope ready to go?

A. Yeah. I didn't know where or how he got that scope scnetimes.

- Q. And I'm not asking you to speculate.
- A. Right.
- Q. Just that scopes aren't ready, he goes into the room, comes back -
 - A. Comes out with a scope.
 - Q. Did that more than once?
 - A. Yes
 - Q. Happen a number of times?
- A. Yes

- Q. Did that give you concern?
- A. Yes
- Q. Were you concerned about any of the people that were actually processing the scopes?
 - A. Yes, I was.
 - Q. Why were you concerned about that?
- A. Because I felt that some people weren't adequately trained. I didn't know what their credentials were. I knew that some were medical assistants who aren't trained, they're not GI technicians. GI technician is specialized as surgical technicians are specialized. There's special training for that and I didn't see a lot of them going through

that training.

I thought people were hired in who weren't trained and maybe trained on the job, but I didn't think they were adequately trained. And there also were students from the technical institutes who would be working and a lot of times they were left alone and I would complain about that all the time.

- Q. Was there any issue about the order of the patients, I'm talking about patients that may have had an infectious disease like known, when you go through your records or they were a patient of the clinic's or something like that, but any issue of how those patients should be scheduled in the day with a known infectious disease like HIV or Hepatitis B or Heptatitis C or anything like that?
- A. Yes. That bothered me when I first started working there in 2000 and I asked if we could make a policy at that time where if we had a known infected patient, a known infected with Hepatitis B or C or HIV, if we could do them at the end of the day and I asked the doctors and the staff if we could schedule that. I had to get it okayed with Dr. Desai. And at first everybody went along with it I thought but then kind of they told me well -- because I used to get upset if I found it wasn't --

- Q. I want to be cautious about when you say they told me. At this point my concern would be the individuals, either if Ronald Lakeman said something like that to you or Keith Mathahs or Dr. Desai, any of those people, if they said it to you. If it was somebody else, I don't really want you to say that.
 - A. Okay.
- Q. Did any of those three persons tell you that it didn't matter or we're going to divert from that policy or whatever?
 - A. I'd say Dr. Desai.
- Q. Now, you had just said that you'd previously talked to Dr. Desai about why you wanted to do it that way, correct?
 - A. Yes.
- Q. And you mentioned that even if there was a breach in universal precautions or something then maybe having a patient at the end of the day would be less chance of that person infecting somebody else?
 - A. Yes.
 - Q. Is that right?
- A. That's what my feeling was, just in case. I mean there's never any absolute. Just to minimize anything that might happen.
 - And you did actually institute that policy

as of when?

- A. It was sometime when I first started there in 2000 and I don't know exactly and people did go along with it for awhile.
- Q. And you actually had to get that okayed by Dr. Desai to institute that?
- A. I believe it was Dr. Desai. Yes. He made all the rules.
 - Q. Did you ever talk to him about this issue?
- A. Yes
 - Q. Did he agree with it?
 - A. He did initially.
- Q. And then later on did he change his tune or what?
- A. Later on it just stopped happening and then it totally wasn't even an issue when I returned to the facility after 2004, it was not an issue at all.
- Q. Let's talk about Dr. Desai and who is in charge of the facility. Who was in charge of the facilities?
 - A. Dr. Desai.
- Q. Did he manage different aspects or all aspects of the practice?
- $\mbox{A.} \qquad \mbox{I think he managed all aspects.} \ \mbox{I} \\ \mbox{believe.} \\$

Would you consider him a micromanager of 0. 1 2 the practice at all? 3 Α. 4 And you know what I mean by that? 5 He's in every detail. Α. 6 0. Yes. Is that a fair assessment? Α. 8 I am going to ask you some questions about 9 some specific things. Was there ever a discussion, I'm talking about specific discussions or communications or 10 11 interactions with Dr. Desai on this, was there ever an 12 issue about the use of alcohol wipes for example? 13 He would always tell me not to use so many 14 alcohol wipes or not to use another alcohol wipe. 15 What are you using them for, what's the 16 purpose? 17 Α. If you're putting in an IV, you are going 18 to clean the patient's skin vigorously with an alcohol 19 wipe and if you're wiping off a port or a bottle or 20 samething. 21 Q. So it was for aseptic technique essentially? 22 23 A. 24 Trying to prevent infection? 25

static. 2 Q. He was saying you shouldn't use so many of 3 those? 4 A. 5 Q. Are they big expensive items? 6 That's what I said to him. I said it's 7 just pennies. And I would laugh. 8 Did that seem to matter though? 9 No. Α. To him? 0. 11 Α. Nο. 12 What about masks and gowns, things like 0. 13 that? 14 He would not like us using a lot of any 15 masks or gowns and there was one physician who used to 16 use them every time and he would always --Q. When you say "he", are you talking about 18 Dr. Desai? 19 A. Dr. Desai would always kind of reprimand 20 him for that. 21 Are these gowns that would get stuff on Q. 22 them like fecal material and things like that? 23 Yes, that's why that doctor used them.

71

Q. If I understand you correctly, just so I know what these are for the Grand Jury, are they a square-type pad that is plastic on one side and absorbent on the other side?

Trying to prevent infection. Bacteria

Α. Yes.

What was the issue related to those?

He thought we were using too many of those so he would have someone cut them in half with the scissors so he could use less.

What about propofol, the drug?

Well, I mean you knew that -- he would say he didn't want you to use a lot, just sometimes he'd tell you how much to use on each patient, but he didn't want you to use a lot on each patient. You knew that that was a cost issue.

Was there any issue about wasting that drug?

I don't remember him ever telling me to -he would say don't waste it but not to reuse it and if he did, I don't know if anyone would listen to that.

> Q. Was there pressure not to waste the drug?

Now, did you feel comfortable if you were in a room and let's say you had a 5000 bottle of the

drug and you hadn't done your five syringe thing that you talked about and you drew up some and you never re-entered the bottle, you use it on a patient and gosh, there's 30 or 40CCs left, would you feel comfortable while he was in the room discarding that?

What about things called Chux?

Chux, blue pads that they put under the

Α.

Q.

Α.

7 ٥. What would you do typically if you were in 8 a situation like that?

9 If I had to disregard it I would do it 10 after he left the room.

Is that because you didn't want him to see Q. you discard it?

A. Yes.

What about bite blocks?

Initially when I worked there he would reuse bite blocks. I think they did the whole time. I don't know if that ever changed, but they would wash them or sterilize them, the techs would be in charge of that. But they were reused.

0. They would go into the room where the scopes were and be cleaned?

Washed, cleaned. Α.

And then what about forceps, I'm talking Q. about disposable type forceps?

Again during the first years of my

72

RA000390

employment there in 2000 they were reusing and supposedly resterilizing or cleaning the forceps.

- Q. Did you ever see that continue on?
- A. I know that they had stopped doing it. I don't know exactly when, but they weren't doing it when I came back and I always was very adamant about it and I complained about it but I don't know when exactly they stopped doing it. But they did stop doing that.
 - Q. Why were you complaining about it?
- A. Because I didn't know how well they were cleaning and if they could even clean them well enough. They're like little clips and stuff -- it's hard to clean that.
- Q. I want to ask you about an incident and this goes back to the use of propofol with Dr. Desai. Were there times when you were in the procedure room and procedures are going on and you think based on the patient is reacting or acting that you need to give more anesthesia to this patient.
 - A. Yes.
- Q. In situations like that would Desai ever chime in as to his view as to whether you should give or not give anesthesia?
 - A. Frequently.
 - Q. What would he say?

- A. Don't give more.
- Q. Do you know why he would say that, did he tell you?
- A. I would hope it would be he was concerned about the patient, but usually it was because he didn't want you to waste use any more of the drug.
- Q. So patient in your opinion needs more anesthetic and he's telling you do not give it?
 - A. Yes.

- Q. Do you abide by that?
- A. Most of the time I didn't. I would try to quickly do what I thought was right and he would express his he would disagree with me and get mad.
- Q. So he would get mad at you for doing that, giving the patient additional anesthetic?
 - A. Uh-huh.
- Q. Did you feel it was medically appropriate for them to give the patient additional anesthetic at that point?
- $\mbox{A.} \quad \mbox{Yes. If I was getting ready to do that,} \\ \mbox{yes.} \quad \mbox{} \mbox{ } \mbox{} \mbox{}$
 - Q. Was this a fairly frequent occurrence?
 - A. Yes.
- Q. With regard to that particular issue were there any instances where Dr. Desai was working on a

patient that either hadn't had anesthetic on board enough yet meaning you either hadn't given it at all or you were just starting it where there caused a problem and you got injured as a result?

- A. Yes. There was a time when I needed to give the patient more anesthetic because they were moving and I was trying to hold the patient and give anesthetic at the same time he was telling me not to and the patient moved and I got stuck with a dirty needle. I wrote an incident report and had to get tested and still do get tested. And I also had to ask the patient to get their blood drawn and get tested after that.
 - Q. Did that make you pretty unhappy?
 - A. Yes, of course.
- Q. Now, let's just address this billing thing again, the 31 minutes for three billing increments. Are you with me?
 - A. Yes.

- Q. Did you know if that was a goal or a desire of Desai to be able to bill for that many units?
 - A. I believed it was.
- Q. Was that based on what he was telling you or what he was saying when he wanted you to put that much time down and that kind of thing?

- A. You know, I thought that that's what he was implying and I asked him and, you know, he would say it's bill for 31 minutes. So I knew that that's what he was thinking, but I would continually ask him and I never really got a direct answer.
- Q. Did Dr. Desai ever ask you to recommend a supervising anesthesiologist for --
- A. Yes. He asked me a lot if I had any -- if I knew anyone that would work with him and again I didn't really understand what capacity because we were all able to work without a supervising anesthesiologist. But yes, he would ask me.
 - Q. Did you ever give him names?
 - A. No.
- Q. Did you ever see any supervising anesthesiologists on site during the time that you were there?
- A. You know, again, no, I never saw any, but I think I may have once mentioned a name to him but he didn't use that person. So I just wanted to be clear on that.

THE FOREPERSON: Excuse me. It's 3:30 and we need to call a break.

MR. STAUDAHER: I'm just about done with her and I'd like to finish with her if that's all

right. I'll make it quick. BY MR. STAUDAHER:

Did the CRNAs ever move from room to room?

Yes

What was the reason or reasons? 0.

A. If there were only one of them in there, two doctors doing procedures?

The situation where two procedure rooms, two CRNAs going --

> To cover for breaks? Α.

Or go to the bathroom, things like that.

Go to the bathroom, go to lunch.

So there were times when they would move 0. from room to room?

A.

MR. STAUDAHER: I have nothing further of this witness.

THE FOREPERSON: Any questions from the

jury? 20 BY A JUROR:

> Q. Just one quick one. When you walked out into the parking lot where you were going to leave when you had that incident --

> > Oh, I left. Α.

Yeah, when you said you left and the

office manager I think followed you?

Α. Yes.

And she had mentioned we'll get the lawyers. What did you infer that to mean? What did that mean to you?

I wasn't really sure. I thought that she meant that I was not cooperating or they were going to fire me.

THE FOREPERSON: Bob.

It sounds like basically you were a very ethical person, but my question is why are they granting you immunity, for what cause?

MR. STAUDAHER: I am not going to allow her to answer that question. Her reasons for wanting immunity are her own and that's not a proper question.

THE FOREPERSON: Steve.

BY A JUROR:

What was Dr. Desai's response when you said I want to give this patient more propofol and he said no, don't, and you did anyway? I mean, you're directly saying no to your boss and you said this happens quite often.

> A. Well, he would get angry.

Did he say you're going to do it or else?

- Things happened a little bit more quickly and if I thought the patient needed -- if they were moving or reacting and I gave it to them and if I did it, it was usually done. So I know that he was angry at me and it kind of ended there.
- You're still doing it and you say it ended there. If one of my subordinates -- if I said no and one of my subordinates did it once, twice, three, four times, I wouldn't just leave it in the air. He didn't do anything? He just says I told you not to and forgot about it?

Α. Yes. Basically. I mean there were times when he would, you know, tell me that I was driving him crazy and that I would complain too much. But I mean yes, that's basically the situation is done, the patient got their anesthetic, the patient wakes up and yes, basically that's the end of it.

THE FOREPERSON: Bianca.

BY A JUROR:

Just a quick follow-up to that. We've 0. heard previous testimony prior to yours a lot of people seem very -- or they stated that they were intimidated by Dr. Desai. And they were afraid and couldn't be themselves. So if it was dismissed as simply as how you're saying oh, well, that was the end of it, why

wasn't everybody on the same page with that? You cannot speak for everybody, you can only speak for yourself, but there's a confusion there even among the Grand Jurors that he never -- it never came across from previous testimony that he was the type of individual that if you did not do what he said and you did it, by your own admission multiple times, that that was just the way he let it go, he never fired you or disciplined you or I'm just -- little clarity to that.

- I know that in a situation -- sometimes I would give the drug, sometimes I wouldn't and I'd wind up being the person not happy and mad. But if I did give it and I was going against his orders, I mean, there would be kind of nothing he could do at that point, the drug is already in. I mean, as far as, you know, I think that I was working there the longest and a lot of times he would --
- So is it safe to say, Miss Lobiondo, that average you think there were more times that you complied with what he wanted as opposed to not complying?
- I'd say yes. I was very vociferous, I was loud, I complained probably more than anyone. He had told me that several times.
 - But overall you complied more than you

I tried to keep the peace with him. I A. tried not to, you know, go against what he said. He was very intimidating and he was brutal and he was just a difficult person to work with. But you try to do your best and take care of the patients first and I would say that that's what I tried to do. And that's why I always didn't enjoy working there.

THE FOREPERSON: Lisa.

BY A JUROR:

- Were you aware that CRNAs are required to be supervised by a medical doctor that is on site and available during procedures?
- Well, I believe there's something called captain of the ship doctrine where the doctor in the facility is in charge, whether they were all MDs performing the procedures, it's either an MD or a surgeon and that I think satisfies that requirement.
- And at this facility that you worked at as a CRNA was there an MD anesthesiologist on site supervising the CRNAs?
- No, not always. Actually I've worked in other states and it's -- each state can have their own rules regarding that and in California we could work independently. Of course like I said there is an MD

performing the procedure in the room with you, but we could work independently in California and in New York. I don't know if the laws have changed since I've been practicing there, but -- and also in Las Vegas.

- So Dr. Desai, other than the cost of the propofol, he may have a good reason for not letting you inject a patient with more propofol, correct? There could be medical reasons that he said do not inject the patient?
- Well, I would never touch a patient, go near a patient, put an IV in a patient without talking to them, getting a history, finding out what medications they're on, what underlying conditions that they have, what diseases they have, how they've reacted to anesthesia in the past. I take vital signs before I'm monitoring them, during the procedure I at least have oxygen tubing on them and I'm administering oxygen and I wouldn't -- that's what I've spent all these years learning and doing. So I wouldn't be there unless I was taking all this into account before I wanted to give a patient more medication. And if a patient is moving and they're complaining and they're starting to speak and complain that something hurts, I'm there as the patient's advocate and I am taking into account all these conditions. If their blood

83

pressure is dropping, then I can't give them more, even if they are moving. Or if something -- if their vital signs are changing, then I can't give them more, but in those situations if I've made my assessment that's why I wanted to give the patient more.

- You said then Dr. Desai, for example, is the MD supervising you at this point, correct?
 - Right.
- And if the MD that's supervising you said do not give a patient more propofol, then since he's the doctor we should listen to the doctor or -- because he may have a medical reason, correct, other than cost?
- Again, if I'm the one that assessed the patient and spent so much time with a preop interview and if I'm the one watching the patient during the procedure while he's watching the scope and the camera and the video and looking at the patient's colon, then I'm the one -- I'm there for the patient. I've made my assessment. I'm in this position and I have this --
- MR. STAUDAHER: Let me interrupt and ask one additional follow-up and maybe it'll help with

BY MR. STAUDAHER:

If you follow the advice and give additional anesthetic, at that point does that mean the patient is going to be in the room longer?

- Yeah, it would take longer.
- So the patient's going to at least be anesthetized to some degree and it'll take longer for them to recover and leave the room; is that correct?
- Definitely. And I think that was why he didn't want me to give more because it would take longer and then time is money.
- Let's follow up with that. In the instances when he said he didn't want you to give more, did he ever voice a medical reason for not doing that?
- A. No, because -- no. If there were medical reasons I'd be aware of it too. If a patient is debilitated or frail and, you know, it's clear you're just going to give a little bit, but then I wouldn't be wanting to give the patient more in that case. I mean I'm talking about a healthy individual who is clearly uncomfortable.

19 BY A JUROR:

- We can't read Dr. Desai's mind to know whether or whether or not that was the case, correct?
- Yeah, I can't arque with that statement. 23 BY MR. STAUDAHER:
 - Q. Let me follow up one last thing on that. Did you ever see Dr. Desai himself give propofol to a

patient? Did he go give anesthesia to the patients?

I don't know. I would hope not. I don't know of any situations that he did that.

- Do you ever remember walking by a room with another gastroenterologist during a procedure and seeing Dr. Desai sitting where you would normally sit giving anesthesia to a patient?
- I can't recall a situation like that. That would really shock me because it's kind of known that -- again, I've done anesthesia for many years in many facilities, many situations and I would have the most experienced surgeon there and if there were an airway problem or a problem with the patient, I would be the first one to try to -- I'm an airway expert, I'm an expert in anesthesia and it's how a patient reacts to it and I would be the person taking care of the patient. So I mean I would think that was extremely wrong and out of his realm. He's not trained in anesthesia and he is not doing it all the time. He may have trained during his residency, but he's not practicing anesthesia. So that would be that -- I'd be very unhappy with that situation. THE FOREPERSON: Anne.

BY A JUROR:

excused.

When you would indicate that you wanted to 0.

administer more anesthesia, what would be his reaction to that? Would he bother to look at the patient to confirm any of your concerns, would he slow the procedure down, speed it up, do anything? What would be his reaction?

Α. Sometimes he would slow down, sometimes he would stop the procedure if the patient was moving too much, sometimes he would just continue. I mean, it varied.

THE FOREPERSON: Are there any further questions from the jury? There are none.

By law these proceedings are secret and you are prohibited from disclosing to anyone anything that has transpired before us, including evidence and statements presented to the Grand Jury, any event occurring or statement made in the presence of the Grand Jury, and information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000.00 fine. In addition, you may be held in contempt of court punishable by an additional \$500.00 fine and 25 days in the Clark County Detention Center.

> Do you understand this admonition? THE WITNESS: Yes.

THE FOREPERSON: Thank you. You may be

(Proceedings adjourned to reconvene. at a later undetermined time.)

LAS VEGAS, NEVADA, THURSDAY, APRIL 22, 2010

б

MARCIA J. LEONARD,

having been first duly sworn to faithfully and accurately transcribe the following proceedings to the best of her ability.

 $\label{the foreperson: Okay. Please raise your right hand.} The FOREPERSON: Okay. Please raise your right hand.$

Do you solemnly swear that the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: I do.

 $\label{the foreperson: Thank you. You may be seated.} The FOREPERSON: Thank you. You may be seated.$

You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakeman, and Keith H. Mathahs.

Do you understand this advisement?

THE WITNESS: Yes.

THE FOREPERSON: Could you please state both your first and last names, spelling them for the record.

6 THE WITNESS: My name is Yereny,
7 Y-E-R-E-N-Y, Dueñas, D-U-E-N tilde A-S.

 $\mbox{A JUROR: } \mbox{$I$$'m sorry. Can you just do the} \\ \mbox{last name again? Sorry.}$

THE WITNESS: That's okay. D-U-E-N, with a tilde, A-S.

YERENY DUENAS,

having been first duly sworn by the Foreperson of the Grand Jury to tell the truth, the whole truth, and nothing but the truth, testified as follows:

EXAMINATION

19 BY MR. STAUDAHER:

Q. And how do you pronounce your last name, ma'am?

A. Dueñas.

Q. Dueñas.

Ms. Dueñas, what do you do for a living?

A. I am the claim team leader for ABPA, the

third-party administrator for the Culinary Health Fund.

- Q. So the Culinary insurance, you do the third-party administration work?
- A. We process their claims, administer their benefits, provide customer service, handle their eliquibility, yes.
- Q. So, in other words, do you receive claims from providers of care, health care?
 - A. Yes.
 - Q. And then make payments on those claims?
 - A. That is correct.
- Q. Is that per the agreement that Culinary has with whoever the -- either the provider and/or the actual participant, plan member?
 - A. Correct.
- Q. Okay. In your capacity as the claims -- claims leader I think $\,$
 - A. Claims team leader.
- $\mbox{Q.} \qquad \mbox{-- what kinds of things do you do in that} \\ \mbox{capacity?}$
- A. We process claims. We receive them.

 Either a hard copy, EDI. We pend for information from participants. Request additional information from providers if we need them. We process hospital claims.
 - . When you said EDI, what do you mean by

that?

- A. Claims are submitted electronically through the system. We don't actually get a hard copy dropped. It's actually done all through the system. It's filed electronic.
- Q. So when a provider sends in a claim form for some sort of service that's been provided to a plan member, is that a certain type of form?
 - A. Yes, it is a HICFA form.
- Q. And does it have a particular number and type associated with it?
 - A. Yes, a HICFA 1500.
- Q. Is that pretty standard that most claims come in under this HICFA 1500 designation?
- A. Yes, for medical physicians. Hospitals use UB, UBs.
- Q. Okay. And the particular case that I'm going to talk to you about today relates to a plan member, a Culinary plan member by the name of Sonia Alfaro-Orellana.

Are you familiar with the claim and the payment for the claim made by the Endoscopy Center of Southern Nevada related to that individual?

- A. The anesthesia claim?
 - Q. Yes. Well, we'll get to that in a minute.

Some claims --The claims submitted for her, yes. And I guess that was a poor question. I assume she may have had some other things as well, correct?

Yes, other claims. So let me define that a little more and Q. make it a little easier for you,

Okay.

A.

21

22

23

24

25

My questions are going to be confined to ο. procedures that were performed for colonoscopy and anesthesia related to colonoscopies on that particular plan member at the Gastroenterology Center of Southern Nevada by Dipak Desai's organization. Are you with me?

A.

Okay. Did you, as part of your normal activities, do you have access to the records you've described, such as claim forms or electronic submission forms and payment information?

> A. Yes, we do. Yes, I do.

Q. Did you look up or bring with you or provide at some point that type of information to the police and to this Grand Jury?

> A. Yes, we did.

Q. Okay. I'm showing you what has been marked as State's Exhibit 30B and ask you if you recognize that item?

3 Yes, this is the EDI screen, which is in our system claim fax, which mimics the hard copy of a 5 HICFA 1500 in our HF screen when a claim is submitted 6 electronically.

7 Okay. I want you to thumb through all the pages and make sure you're familiar with them.

Okay.

19

20

21

22

23

24

25

And I believe there are four pages to this 1.0 ο. particular exhibit document? 11

A. And a HICFA starts with Box 1, and Box 1 is there.

0. On page 1 of that document, correct?

Yes. Page 1. Page 2.

16 At this point, I just want you to flip 17 through and see if you are familiar with them. Then 18 we'll go through the documents.

> Okay. Yes. Α.

Now, is this the claim actually that was submitted that we're talking about for Ms. Orellana regarding her -- the anesthesia portion of her procedure?

Yes, it is based on page 3.

Q. Based on page 3.

11

Okay. Let's start off with page 1.

A. Okay.

Tell us what we're looking at and how you know that -- let's talk about the date, the type of procedure, whatever it is?

Okay. Based on page 1, is the -- Box 1A A. is the member's social security number.

Do I need to read anything out?

0.

Okav. Α.

You don't have to read out the social security numbers. I'm just trying to find out when it happened, when the form was submitted --

> Okay. A.

-- and who it's related to. ο.

Okay. The patient's name is Sonia Orellana-Alfaro. The insured's name is Sonia as well. Her address. Her date of birth.

> O. When was the claim submitted?

The claim is submitted -- let me see -- is not on this. It is not on this form.

0. Okay. The form, not on that particular exhibit?

Yes. Α.

> Q. Do you have the information about when the

claim was submitted?

I would have to look and see what you've provided.

4 Q. Okay. This is the -- you need to look at Grand Jury Exhibit 30A to do so. You can do so at that 5 6

It was received 9/25 of 2007.

So that's when the claim was actually ٥. submitted?

Correct. Α.

And you're looking at this time on the third page of Exhibit 30B, correct?

Correct.

Now, are those documents, and I assume you looked through that one as well, is that something that is part of the records of the Culinary Union or at least the third party, your third party --

> A. Yes.

-- sort of entity? 0.

Yes, sir. A.

Now, let's talk about the procedure itself. Was this for an anesthesia procedure for a colonoscopy?

I would have to pull the other dates of service, the other services provided for this date of

service.

18

19

20

21

22

23

24

But this is specifically for an anesthesia billing, correct?

> A. Yes, yes.

Now, on this particular -- do you have any of those documents with you if you need to look at them?

> Α. Thelieve Tdo.

Okay. And I have got some as well. If you need to refer to any documents of your own that you brought with you at any time, just let us know you're doing so and tell us what you're looking at. Okay?

> A. Okav.

But those are not going to be admitted necessarily as exhibits.

> Okay. Α.

If you need to refer to any document you Q. have at this time, go ahead and do so just to refresh to make sure we're talking about the right document. Okay?

> Okay. Α.

Now, what were you just looking at just for the record?

I was looking at the copies that we had Α. provided you and new printouts that I made this morning of modifiers that are associated with the claim.

Okav. So you're interpreting things on the exhibit based on your review of records in your business?

Yes.

Okay. Did that help refresh your 0. memory -

A. Yes.

1

20

21

24

-- as to what those items were?

Α. Yes. it did.

11 Q. Okay. Put that aside, if you would, what 12 you brought with you.

And now if you could testify about what we're looking at here on Exhibit Number 30B?

> A. Okav.

16 And I think we're on the third page of the 17 document.

> That is correct. A.

Okay. ٥.

Okay. So this basically tells us that we Α. received a claim for date of service 9/21 of 2007, for place of service 24, which is an outpatient, outpatient facility, AC facility. For ASA code, which is an anesthesia code of 00810. Billed with three different modifiers, QZ, QS and P2, in the amount of \$560 for 33

15

minutes.

So if I understand you correctly, the dollar amount of the claim was \$560; is that correct?

That is correct.

So that's what they say, hey, look this is what it cost or what we're using as the cost for an anesthesia; is that correct?

That is what they're using as the billed charges.

٥. Billed charge? Okay. Sorry about that.

Billed charges.

Now, you had mentioned that there was a time that was also submitted as well.

> A. Correct.

And you said -ο.

Thirty-three minutes.

-- 33. Is that -- now, that dollar amount 0. and that minutes charge, that was actually submitted in the claim?

> A. Yes.

Go ahead.

Okay. So that's basically what this screen is telling me, that that is the code, the billed charges and the minutes billed by the doctor.

The doctor's name is on the second -- on

the last page, which is the fourth page, which is for 2 Keith Mathahs.

0. What's the address and the business?

The address is 700 Shadow Lane, 165A, Las A. Vegas, Nevada 89106. And the services were rendered at the Endoscopy Center of Southern Nevada, 700 Shadow Lane, 165, Las Vegas, Nevada 89106.

Okay. Now, that document there talks -is basically the information related to the claim itself being submitted by the Endocscopy Center, correct?

This is the claim for the anesthesia.

The anesthesia portion of that procedure, ٥. correct?

A. Correct.

Okay. Now, if you move on to the next document, which is 30A, can you tell us what this is?

> Okay. Α.

Q. And I think it's multi pages as well; is that correct?

A. Yes, it is three pages.

22 Okay. Tell us what we're looking at on 23 this particular document.

Okay. This document is the member explanation of benefits that lets the member know how

we process the claim.

 $\label{eq:Q.Q.So} \mbox{Q.} \quad \mbox{So in other words, is that called an EOB, } \\ \mbox{then?}$

A. Yes, an EOB, explanation of benefits. It is in Spanish. The second page is — it looks like it's — this might have been submitted by the doctor's office.

Q. So the second page is not one of your documents itself?

A. Huh-huh.

A. Huh-huh.

Q. Okay. So just so we're clear, the second page of that particular exhibit is not something submitted or that you're testifying about today, correct?

A. Correct.

Q. Okay. And what is the last page?

A. The last page is the screen printout, it looks like, from our customer service desktop when providers or participants call to check the status of their claim on the website.

 $\mbox{Q.} \quad \mbox{Okay.} \quad \mbox{Do any of those documents indicate} \\ \mbox{how much money was actually paid on the claim} \\$

submitted?

A. Yes, it does.

Q. How much money was paid?

We paid \$306.

Q. Was that paid back to the Endoscopy Center of Southern Nevada where the claim came from?

A. This claim was paid actually to Dr. Mathahs, the \$306.

9 Q. At the location where he was working,

A. Correct.

Q. Okay. And I just want to be clear. Even though you're the third-party administrator for Culinary, you're the ones that were responsible for receiving the claims and then paying the benefits on those claims for Culinary; is that correct?

A. That is correct.

And I just want to be clear that this claim is for Dr. Mathahs. The \$306 were Dr. Mathahs, the anesthesiologist, CRNA, where he rendered the services at the Endoscopy Center.

Q. Got it.

Now, beside just coming and testifying about the records, the claim, and the submission of everything or the payment of the money on the claim, is

there any other item there of importance to you regarding what was done or handled in this particular case by your organization?

A. No.

Q. I think you mentioned the minute charges of being submitted as 33 minutes, correct?

A. That's correct.

Q. Now, hypothetically, if the minute charges had come in less than that, would the claim necessarily have been paid for a lesser amount?

A. Yes, it would have.

Q. So the number of minutes was significant as far as the dollar amount paid on the claim?

A. I'm sorry. Can you repeat the question?

Q. So the number of minutes was -- correlates to how much money was actually going to be paid?

A. Correct.

Q. If, in fact, you had received a bill that was down in the seven-minute range, would the payment have been less?

A. Yes, it would have.

 $$\operatorname{MR.}$ STAUDAHER: I have nothing further for this witness, ladies and gentlemen.

By law these proceedings are secret. And you are prohibited from disclosing to anyone anything that transpired before us, including evidence presented to the Grand Jury, any event occurring or a statement made in the presence of the Grand Jury, or information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000 fine. In addition, you may be held in contempt of court punishable by an additional \$500 fine, and 25 days in the Clark County Detention Center.

Do you understand this admonition?

THE WITNESS: Yes, I do.

THE FOREPERSON: Okay. Thank you. You

can be excused.

 $\label{eq:Please remain standing and raise your} % \[\frac{1}{2} \left(\frac{1}{2} \right) + \frac{1}{2} \left(\frac{1}{2} \right)$

Do you solemnly swear that the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: I do.

THE FOREPERSON: Thank you. You may be

seated. 1 2 You are advised that you are here today to 3 give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of persons or property, criminal neglect of patients, 5 6 insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakeman, and Keith H. Mathahs. 8 9 Do you understand this advisement? THE WITNESS: Yes, I do. 10 11 THE FOREPERSON: Could you please state both your first and last names and spell them for the 12 13 THE WITNESS: First name is Anne, A-N-N-E. 14 15 Last name is Yost, Y-O-S-T. 16 THE FOREPERSON: Thank you. 17 18 ANNE YOST,

having been first duly sworn by the Foreperson of the

Grand Jury to tell the truth, the whole truth, and

nothing but the truth, testified as follows:

Q. Ms. Yost, what do you do for a living?

A. I'm a registered nurse.

Q. How long have you been a nurse?

A. Two years.

Q. Where did you get your training and when

did you graduate?

9 A. I want to correct that. It's three years.
10 Three years.

11 I got my training at the Community College
12 of Southern Nevada.

Q. And when did you graduate?

A. I graduated in May of 2007.

Q. Okay. What type of a nurse are you?

Currently, I am a psychiatric nurse.

Q. Are you an LPN, RN?

A. RN.

Q. RN. Okay.

And you're working at a psychiatric unit

21 or building or facility?

A. City jail.

23 Q. City jail. Okay. I'm going to go back in 24 time a little bit.

After you graduated, where did you go to

23

work?

 $\mbox{A.} \qquad \mbox{After I graduated, I started working at} \\ \mbox{the Endoscopy Center.}$

 ${\tt Q.} \qquad \hbox{Do you know when you started working at the $\tt Endocscopy Center?}$

A. Yes, it was July of 2007.

Q. Do you know the specific date?

 $\mbox{A.} \qquad \mbox{I would say second, third and fifth of } \mbox{\sc July.}$

Q. Okay. So over the Fourth of July period, right in that range?

A. Right.

Q. You described a three-day period. Is that all that you worked at that facility?

A. Right.

Q. Were you terminated from the facility?

A. No, I resigned my position.

Q. When you first went to work at the facility, who did you meet with to hire you or deal with?

A. Katie Maley was the director of nursing.

O. So she was the one that interviewed you?

A. Yes.

Q. And just for the ease of the court reporter, and I'll try to do this, sometimes I make the

mistake as well, I'm going to ask you to let me finish my question, and then I'll try to let you finish your answer. Okay?

A. Okay.

Q. Because it's hard, if we talk over each other, for her to take down all the words.

A. Okay.

Q. Okay. So you're at — so Katie Maley is the one that interviews you. Does she hire you on the spot, or do you come back a couple weeks later? How did that go?

12 A. I believe it was a week later. Well, she 13 hired me on the spot. I started about a week later.

Q. So when you come into the facility, what is the job that you're going to do?

 $\mbox{A.} \quad \mbox{I was in the procedure rooms where they} \\ \mbox{perform the endoscopies.}$

 $\ensuremath{\mathtt{Q}}.$ And what was your role in the procedure room?

A. Mainly charting and paperwork.

Q. So did you have hands—on patient activity at that point?

A. No, mainly talking to the patient about how they were feeling about the procedure and documenting the condition that they were in.

A. Yes, they did.

Q. When you came into the facility, that's what you actually started doing then?

A. Right.

R

Q. Was there any kind of a training period for you to be able to chart, or did you learn that when you were in school?

A. The three days that I was there I learned their specific way of charting.

Q. Okay. And we'll get to that in a minute.

But as far as your job, was this the first job that you had after you graduated?

A. Yes, it was.

Q. After you left that facility, were you able to find another job?

A. Yes.

Q. How long after that three-day period did it take you to locate another position?

A. I started looking for a position right

1 away. I don't believe I was hired until a couple 2 months later.

Q. So you started looking -- I mean, how soon after you actually start working did you start looking for a new position?

6 A. As soon as I had resigned, I started
7 looking for another position.

Q. Okay. It didn't take you a long, long time, though, to find one?

A. No.

11 Q. Now, I'm going to start asking you about
12 what you actually did and what the issues were, if any,
13 that relate to why you left the facility. Okay?

A. Okay.

Q. Were there personal or professional reasons why you left the facility?

A. Yes, the professional reason was that they were encouraging me to pre-chart, and pre-charting is documenting on a patient before you've actually seen them

Q. Now, when you say they encouraged you, was it one person, more than one person, how prevalent was this practice?

A. I was trained by two nurses, and both of them had encouraged the same thing.

Q. Okay. Did you see other persons do the same thing there?

A. Just primarily the two that had trained me, and then also in pre-op.

Q. Now, we're going to get into the specifics about how things work in the facility, but when that happened, when you had people come up to you and get you to try and do this, did that surprise you?

A. Yes, it did.

Q. Did it affect you in any way?

A. Yes, I felt -- I was appalled by it.

Q. Did you express at the time that this was something that you didn't agree with, you didn't want to do?

A. Yes. I told the nurses that were training me that I didn't want to document on a patient before I had actually seen them.

Q. When you talk about documentation, what kind of documentation are we talking about?

A. Basically, the condition of the patient, anxiety, let's see, if the person has a strange color to them, looks like they are having difficulty breathing.

Q. Did you ever — when you saw -- I assume that you weren't the primary person dealing with the

person initially, correct?

A. Right.

Q. You're in the procedure room. Was there a room or a place that the patients went before they got to the procedure room?

A. Yes, pre-op.

Q. In the pre-op area, did you go out and do any charting or any work out there?

A. No, I didn't.

Q. When the patients came from the pre-op area to the procedure room, did they have paperwork with them?

A. Yes, they did.

Q. When you saw the paperwork coming, did at times you see anything unusual about that paperwork?

A. Sometimes the nurses from pre-op had completed the charting that would have been done in the procedure room. They would have started some of that charting ahead of time.

Q. For you?

A. For the -- yes, the procedure room.

Q. What about you, as far as if something had already been filled out for you, what did you do then?

 $\hbox{A.} \hspace{0.5cm} \hbox{I would ask why the paperwork was already} \\ \hbox{filled out, and then the nurse training me would say}$

that that was done so that the turning could be done quicker.

- Okay. And, again, at this point, you said 0. that this had a pretty significant affect on you; is that right?
 - A. Right.

MR. STAUDAHER: That last statement and any statements related to that one that she elicits are hearsay statements, ladies and gentlemen. They are being offered for the truth of the matter at this point under a hearsay exception, which is the effect on the listener, how these things that happened to her affected her and what she did as a result of them.

So with that, I would like to continue on. BY MR. STAUDAHER:

- So during your training, had that ever occurred to you before? Had anybody ever come up to you and given you something that was already filled out on the condition of the patient or what the patient was experiencing or not experiencing before you ever actually saw them?
 - You mean prior to working? A.
 - At the Endoscopy Center?
- They had discussed it in nursing school A. that that was improper procedure.

So you were actually taught that that was Q. not proper?

> Yes. A.

24

25

- So when you saw it on your first job on your first day, what was going through your mind?
- That I didn't want to work in a place like that because I don't want to risk my license doing the same thing.
- 9 Okay. Now, when you raised this to these 10 nurses, I mean did you -- did anybody else work with you at the time that was new? 11
 - No. Α.
 - Did you, during the three days you were there, were there any other additional nurses or personnel that came on that were also in the same position as you were in?
 - A. No.
- Did you ever work with people who were 18 19 already at the clinic who were in the same position 20 that you were in?
 - Α. I'm not sure.
 - I mean as nurses, charting, things like that in procedure rooms?
 - Α.
 - Now, when you said that the charting was Q.

31

done beforehand, or when the -- when some of the stuff came to you. I mean we're talking about filled out documents on patients that you have not seen yet?

- Right. A.
- Now, that's different than them just handing you a blank document and saying, you know, go ahead and start filling out vital signs or whatever on this patient, even before he's wheeled in the door?
 - Right. A.
 - Q. Did both of those things happen, though?
 - Α. Yes, both happened.
- What about the documentation after the patient leaves your sort of area and goes out into the post-care area?
- A. Again, in training, I was encouraged to start charting post-op information on a patient to save time.
- Okay. And when you say training, you're talking about training at the Endoscopy Center?
 - Yes. A.
- Again, did that affect you in any way as far as being something that concerned you?
 - It did because that's still pre-charting.
- So you -- if I understand you correctly, you were encouraged to pre-chart for other persons down

the line as well?

- Right, right.
- Now, as far as the types of things that were being pre-charted or that you were encouraged to pre-chart, did that include start times and stop times for procedures, and things like that?
 - Yes, it did.
- Did it include vital signs or, like you said, how the patient was doing, things like that?
- Not vital signs, but yes, how the patient Α. was doing.
- 0. As far as the condition of the patient, had you had a chance, when asked to just go ahead and fill out stuff about the patients, to actually maybe step out and look at the patient in the post-op area just to confirm that that was the way they were?
 - A. No.
- What happened if you -- well, I guess let ο. me step back.

If you were encouraged to pre-chart the condition of the patient, was the condition supposed to be a certain way all the time?

- Generally, it was documented the same way A. every time.
 - And how was that documented?

during the time around the people that you were working 1 2 with --3 Yes. Α. 4 -- that this was going on? Did you ever get the impression that just 5 what was happening with you was an isolated thing, and 6 7 this was not happening elsewhere in the practice? No, I felt it was general to the practice. 9 Did you ever see Desai? 10 No, I didn't. 11 So during the three days that you're there, you didn't work with him as a doctor during any 12 13 of these procedures? 14 No. I never saw him. 15 Never interviewed with him? 16 Α. 17 When you left, did you see him? 18 A. 19 0. So this whole operation, the way you 20 described it, was able to run without him being 21 present? 22 Yes. A. 23 Do you know if vital signs at any time

35

Q. You had said that people were described as being happy or being healthy, everybody was supposed to be in good condition, things like that, correct?

And was this pervasive amongst the --

A. Correct.

wouldn't pre-chart.

Q.

Q. Do you recall having an interview with the police?

A. Yes, I do.

Q. Was that interview taped?

A. Yes, it was.

Q. Was that interview provided to you in advance of this testimony today so that you could review it?

A. Yes, it was.

Q. I'm showing you what has been -- I think the front page of it. It's not an exhibit. The front page of it bears your name; is that correct?

A. Yes.

Q. And the date of the 29th of May of 2008?

A. Ye

Q. Does that look like the transcription of the -- not the testimony but the statement that you gave to the police?

A. Yes, it does.

Q. I'm going to ask you to — or ask you to review page 8, the bottom of it. When you're done, let

me know. Just turn that over, give it back to me, and then I'll ask you if that refreshes your memory as to the issue regarding vital signs.

No, I don't recall any of that.

A. Okay.

would be faked on charts?

Q. Okay. Does that refresh your memory?

A. Yes, it does.

Q. I'll ask you the question again. Were you aware of or told to document fake vital signs on patients?

A. No.

24

25

Q. Do you see what the words were there and asked? Can you explain what you meant by that?

A. Sure. I was responding yes to the second portion where he asked if the patient was bluish.

Q. Okay. What you're talking about is the condition of the patient?

A. The condition of the patient.

Q. So not vital signs?

A. Right.

Q. So with regard to that, were you told — what were you told to do as far as charting the patient then in a situation like that where the patient came in and they weren't happy, healthy, and doing well?

A. I'm not understanding.

Q. Well, if you had a patient come in, you

said that you would -- you would actually do your own thing. You would re-chart or fix the chart so that it would reflect that.

But were you ever instructed on what to do in a situation like that?

- No, I wasn't.
- So you just -- that everybody's supposed to be in good shape?
 - Right.

2

3

21

23

Now, as far as propofol, let me ask you some questions about that. And, actually, let me go back just a minute and ask you some things about some safety issues.

Did you have, beside that whole pre-charting thing, did you have any concerns about safety issues within the practice, the things that you saw in your limited three days you were there?

- At the time, I didn't.
- Ο. Was there anything about the speed of the procedures or the volume of procedures that were being done?
- Yes. I did have some concern about that. People were going in pretty rapidly. It seemed like sometimes seven minutes' time would pass and the procedure would be over. I wouldn't be done charting,

and they would be moving another patient in the room.

- Now, the CRNA that was present, the person giving the anesthesia, did you ever see that person get up and walk out and administer to the patients out in the recovery area?
- I saw them leave the procedure room, yes. I didn't have a view of the recovery area.
- Okay. Would they leave after every single patient?
 - Α.

20

21

22

23

25

- 11 0. How often would they leave and why, if you 12 know?
- 13 I don't know how often they would leave or 14 whv.
 - Were they in the room more often than not? I mean how was it going? Did they reside in the room most of the time, or did they get up and leave after every patient?
 - A. The majority of the time they would stay in the room and would not leave. Occasionally, they would leave for about 30 seconds at a time maybe.
 - Was there ever an incident that you recall regarding a scope, a special request for a scope?
 - Yes, there was a doctor who was requesting a special type of scope. And from the room where the

39

scopes are being cleaned, somebody said that scope is not ready.

- Q. Okay.
- And then all of a sudden that scope came A. out, and it was handed to the doctor.
 - Did that give you concern at the time? 0.
- It did because I wondered how it wasn't ready and then all of a sudden it was ready.
- Did you know that there was a specific amount of time that was needed to process the scopes after they had been used?
 - I'm not aware of the length of time, no.
 - But that there was some time?
 - There is some time.
- Now, let's move on to the issue of propofol. You're familiar with that drug, I assume, or at least it's used at that time in the facility?
 - A.
- 0. Did you notice how propofol was used at that facility when you were in the room?
- I did. There were roughly two vials of it at any given time. They were in a drawer. The doctor would pull them out. I mean, sorry, not the doctor. The CRNA would take them out and draw from the two vials at any given time.

Would that -- would there be a vial maybe or two left on the table when a patient was moved out of the room and a new patient was moved in?

Α. Yeah, the same two vials.

0. Okay. Would you see those subsequent vials being used on another patient?

> Α. Yes.

O. Not the subsequent vials, but the vials that remained used on a subsequent patient?

> Α. Right.

Did you see them being drawn up individually out of different vials for the same syringe, so to speak?

A. I didn't see the syringe actually taking from the propofol, but I know that at any given time there were only two vials that were being drawn from.

Did you see the new ones being opened up periodically or not?

A.

Do you remember the sizes of the bottles that were up there?

I could show with my hand I guess the size. I'm not sure of the milligrams or anything.

24 Okay. Just were they big bottles or small bottles?

1

2

25

or not?

٥.

A.

1	Α.	They were larger, yes.		
2	Q.	Now, as far as the multiple patients,		
3	multiple use of propofol, you actually saw this, right?			
4	A.	Yes.		
5	Q.	What about syringe reuse, did you ever see		
6	syringes being used on more than one patient?			
7	A.	No, I couldn't see the syringe use, how		
8	they CRNA was using the syringes.			
9	Q.	Is that because of your positioning in the		
10	room?			
11	A.	Yeah, because of my position.		
12	Q.	So you're still in the room, you're doing		
13	your charting. Did you ever see the CRNAs move from			
14	room to room?			
15	A.	At lunchtime they would switch from one		
16	room to another to fill in for each other.			
17	Ω.	Did you ever see the CRNAs leave the room		
18	when a patie	ent was unconscious?		
19	A.	I did.		

Was the doctor still in the room at this

So the CRNA might leave the room. Was he

point or was nobody in the room beside you?

About 30 seconds.

The doctor was there.

gone for a very short time or for a longer time?

Α.

Α.

Α.

3 Did you ever see when the CRNAs moved from room to room for lunch or whatever that they carried anything with them, syringes, propofol, anything like 5 7 No, I didn't see that. 8 Okay. What was your concern -- what was your sort of observation about the cleanliness and 9 sanitation of the rooms? 10 11 There was no cleaning crew between the procedures. One person would -- one patient would come 12 in, the procedure would be done, then the patient would 13 be taken out and someone else would be brought in 14 15 without the room being cleaned. 16 What about the table that the patient had 17 been lying on having the procedure? Were they wiped 18 down and cleaned? 19 They had their own individual gurneys that 20 we brought in, individual bed. They would already 21 start on the bed and then that would be brought in. Then that would be wheeled out, so they would be on the same bed the whole time. 23 24 Q. Okay. 25 A. Now, when we had spare time, the nurses

Then would come back?

43

were training me to try to clean the rails on the beds to, you know, just for cleanliness. Did you have a lot of spare time? No. Α. Now, after you left the facility, and did you leave the facility because of the things we've described? A. Yes, I did. When you left the facility, did you tell anybody about this or try to? Α. In my resignation letter, I specified why I was leaving. So the resignation letter to the facility? 0. Who was that addressed to? 0. Katie Maley. You specifically mentioned this 0. pre-charting stuff that was a concern? Yes, I did. Ever get a response back from them? 0. Ω. Did anybody ever call you up to even talk

to you about trying to come back or anything?

After you sent the -- or put that

information in the resignation letter, did you ever try 1 2 and tell anybody else? A. Yes, I reported it to the State Board of 3 4 Nursing. 5 And what happened with that? 6 I was told that I had to specifically pick 7 a certain nurse that was doing it. 8 MR. STAUDAHER: And I'm going to caution 9 the Grand Jury, that statement is not being offered for the truth of the matter, just for what happens next and 10 11 why. 12 BY MR. STAUDAHER: 13 Q. Go ahead. 14 A. And at the time, we only knew each other 15 by first names, that's how we worked together. You 16 know, it was Jane or Bob, so I didn't know the nurses' 17 last names. There was no way to specifically pick a nurse to report to the State Board of Nursing. 18 19 So because you didn't have a name to report to them, is that why it didn't go any further 20 21 than that? 22 Right. They said they couldn't process it 23 any further without somebody to point a finger at. Q. Okay. Did you ever follow-up after that 24

I sent a couple emails saying that this was a practice that was occurring there and hopefully that someone would follow-up with it.

And just so I'm clear, you're there during, I think it was -- what was the date that -- you said it was in January, or excuse me, July, right around the Fourth of July?

> A. Right.

21 22

23

24

Of 2007?

Right.

0. Okay. So on July 25th, you actually weren't there, though?

> Α. Right.

Now, as far as the postoperative area, did 0. you ever see doctors in there seeing the patients or taking care of the patients out there?

> I didn't see it, no. A.

Did you ever see that there was any changes in paperwork if a biopsy was done, for example?

During a procedure, a doctor would be possibly looking at a biopsy, and then they might discover something else going on with the patient, and we would have to change some paperwork to update the condition, say there was a mal polyp that they had discovered, so then the paperwork would change to

document the polyp.

19

20

21

22

23

24

25

0. So that's a time when it might change?

As far as the change, who would do that? Would that be something you were supposed to do or 6

7 Yes, the doctor would say, "Okay, now we have a polyp," and then we would have to pull out specific paperwork and start completing that.

Now, walk me through, just if you would, you're sitting in the room before the patient actually rolls in. Let's say the patient you just have done a procedure on has just left the room. CRNA still present in the room, right? Is that correct?

> Α. Yes.

Did the doctor walk out or would the 16 doctor have still been hanging around at that point? 17

The doctor is still there.

Okay. And you're there? 0.

> Yes. A.

21 0. Is there a tech there also? Somebody

22 helping the doctor with the scopes, or did they already 23 take the scope away?

> Α. I don't recall.

Okay. So roughly the three of you are 0.

47

still there?

Α. Yes.

What was the process at that point until the next patient actually was wheeled out of the door? Kind of walk us through it. What you would do? When the patient would come in, what would happen? Just kind of tell us what would happen.

The patient would come in, and we would document their condition and find out who their family physician was so we could send them the information on their records.

Ask the patient their name, of course, how they were feeling. If they're anxious. Set up -start charting like the time that the patient had entered the room.

Then, you know, the doctor would come in and the anesthesiologist would be there, and he would start to put the patient under, and then we would document on how the patient was doing.

And then that was about it. And then when the procedure was done, we would document the time that it's over.

Now, as far as the procedure itself, procedure times and so forth like that, was there any issue about being careful about over - you know, the 48

1 times that you were documenting, not overlapping with 2 other patients?

Right. With the pre-charting issue, we Α. would have the situation where, let's say that it's 9:45. The procedure isn't supposed to start until 10:19 and you already have the chart. That -- it's 9:45 now, but make sure you write 10:00 so that you're not documenting on what the previous nurse

MR. STAUDAHER: Now, again, I caution the Grand Jury about that.

BY MR. STAUDAHER:

0. Did this statement, the way that they were describing this, and how to handle that, did that have an affect on you as far as what you're doing and whether that's proper or not?

Yes, it did.

And, obviously, gave you concern, I assume; is that correct?

> A. Right.

Okay.

MR. STAUDAHER: With that, ladies and gentlemen, that statement is being offered for the effect on this listener as to how she's supposed to do her job and the issues that that may have caused with her, you know, mentally and emotionally at the time.

BY MR. STAUDAHER:

R

TΩ

Q. So if you're being told to do that, you're given specifics on how not to overlap patients essentially, correct?

A. Yes.

Q. Now if I understand you correctly, you have a -- and I just want to walk through this so I understand it. You have a patient that, let's say, the information you're getting from the pre-procedure room has a time on it of say 10:00 o'clock. And it currently in your room is 9:45.

A. Yes.

Q. In that situation, you're still writing something down on the chart, correct?

A. Encouraged to, yes.

Q. Okay. Encouraged to.

What are you — how are you supposed to handle that situation if the times on the chart at the point you get it says 10:00 o'clock and you know that it's not 10:00 o'clock yet, what do you do?

A. I refused to write the incorrect time.

Q. What were you supposed to do based on the policy or what was going on at the time?

A. Based on what I was encouraged to do, I should have written 10:00 o'clock when it was 9:45 to

be able to start the chart earlier.

Q. So you would match whatever the time was coming in or put it a little bit, few minutes ahead?

A. Yeah, make sure that the times don't overlap. Excuse me. Like if it's 9:45 and that nurse previously is still working on the chart, make sure that you give enough leeway so that by the time the patient gets into your room you've documented the correct time.

10 Q. Now, I want to be clear on this. Desai is
11 not standing there during this process, correct?

A. Right.

Q. All of this is going on, all of these people are doing all of this stuff without him being present?

A. Right.

Q. Now, at the point that that level of deception is going on, I mean, are you telling people about this, saying "I'm not going to do this," or at least expressing some concern and about that issue?

A. I was a new nurse, and I was anxious. I wasn't sure of how procedures were done like that. I thought it was maybe just how this particular office did it, but I expressed that I wasn't going to do it improperly.

Q. You're there three days during July. Do you see that happen on all those days?

A. Yes.

 $\label{eq:Q.Def} \text{Q.} \qquad \text{Do you see it happen more than once on all} \\ \text{those days?}$

A. Yes.

 ${\tt Q.} \qquad \hbox{Did it appear to be a regular thing on} \\$ each day you were there?

A. Yes.

Q. Was there ever any issue of the pre-charting thing and overlapping of times related to specific insurance companies, like Pacific Care, for example?

A. No.

 $\label{eq:Q.Just} \text{Q.} \quad \text{Just in general this is the way you} \ \text{did} \\ \text{it?}$

A. Right.

Q. As far as the times that were in the room that you -- or times that you were supposed to document, what times in the record were you supposed to document?

I mean, I assume there is a place in the chart or the record where a patient comes in and you're supposed to write down when the patient is in the room, when the patient is out of the room, various things

during the process?

A. Uh-huh.

Q. Are you the one responsible to put all that information in at the time?

A. Yes, I am.

Q. Now, beside you doing your work, does the doctor do things with his record as well?

A. Yes.

 ${\tt Q.} \qquad \hbox{Does the anesthesia or anesthesia person} \\$ do things with their record?

A. Yes

Q. Are there machine tapes and things that are handed to you that have times and things stamped on them?

A. Yes.

Q. Did you ever look at all those times?

A. N

Q. So you don't know if they were all the same time or if they were all different?

A. Right.

Q. Would it surprise you to find out that they were all different times?

It would not surprise me.

Q. Did you ever have a situation occur where you saw patients waking up prematurely on the table?

is that normal and she said yes, that happens,
sometimes people will sit up during the procedure and
not know it.

Q. Okay. Did it kind of startle you when
that happened?

A. Yes, it did.

MR. STAUDAHER: Again, that statement is
offered for the effect on the listener at this time,

not offered for the truth of the matter. 1 2 At this stage, I have nothing further for 3 this witness. 4 THE FOREPERSON: Are there any questions from the jury? None at this time? 5 6 A JUROR: I have one. 7 You talk about this 9:45, 10:00 o'clock. 8 If the procedures stopped at 9:45, were you ever told to put down 10:00 o'clock? 9 THE WITNESS: No. 10 11 A JUROR: So you were never told to 12 lengthen the procedure? 13 THE WITNESS: No. Not ever to lengthen 14 it. 15 THE FOREPERSON: Any further questions? 16 None. 17 By law these proceedings are secret. You 18 are prohibited from disclosing to anyone anything that 19 transpired before us, including evidence presented to 20 the Grand Jury, any event occurring or a statement made in the presence of the Grand Jury, or information 21 obtained by the Grand Jury. 22 23 Failure to comply with this admonition is

Okay. At this time, I would like to call for our lunch break, please, for an hour and a half.

 $\mbox{MR. STAUDAHER:} \quad \mbox{I have three more}$ witnesses here right now. We can just keep going if you would like.

(A lunch recess was taken.)

THE FOREPERSON: Sir, can you raise your right hand, please? Thank you.

Do you solemnly swear the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: Yes.

THE FOREPERSON: Thank you. You may be

22 seated.

You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of

persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakeman, and Keith H. Mathahs.

a gross misdemeanor punishable by a year in the Clark

County Detention Center and a \$2,000 fine. In

Do you understand this advisement?

THE WITNESS: Yes.

THE FOREPERSON: Could you please state both your first and last names and spell them for the record.

THE WITNESS: My first name is Vincent, V-I-N-C-E-N-T. My last name is Sagendorf, S-A-G-E-N-D-O-R-F.

THE FOREPERSON: Thank you.

VINCENT SAGENDORF,

having been first duly sworn by the Foreperson of the Grand Jury to tell the truth, the whole truth, and nothing but the truth, testified as follows:

EXAMINATION

21 BY MR. STAUDAHER:

22 Q. Mr. Sagendorf, what do you do for a 23 living?

 $\label{eq:A.Improve} A, \qquad \mbox{I'm a certified registered nurse}$ an esthetist.

 O. Can you give us a brief synopsis of your

 $\mbox{Q.} \qquad \mbox{Can you give us a brief synopsis of your} \\ \mbox{background and training?}$

A. I went to Middlesex County College in New Jersey for my RN. I went to Jersey Shore Medical Center Hospital in 1970 for my CRNA for my anesthesia training. I graduated in 1972, took my boards and came to California.

Q. Okay. And you eventually got to Las Vegas?

A. Yes.

Q. And how was that? Not by car or boat or whatever.

A. I had worked in San Luis Obispo for approximately 36 years. My wife and I were looking for a place to retire so we thought we would take a look at Las Vegas, so I quit my job in California. I came out here. I got an apartment, and I started working for Gastroenterology of Nevada.

 $$\operatorname{MR}, \operatorname{STAUDAHER}:$$ And can everybody hear this witness?

THE FOREPERSON: Yes.

25

Q. Sir, now you -- that was your first job that you had when you came to Las Vegas then is the Gastroenterology Center?

A. Yes.

Q. And who was the individual who was in charge of that center at the time?

A. Desai.

Q. Is that Dipak Desai?

A. Dipak Desai. I'm sorry.

Q. And as far as your -- let's just touch on your background just one minute for just a -- or just a second.

A. Okay.

Q. You said that you're a nurse primarily by training at one point, and then you went and later got your anesthesia portion of that, or was it one program altogether?

19 A. No, it was two programs, but I immediately 20 went from the nursing program to the anesthesia 21 program.

Q. The anesthesia program itself, how long is that?

24 A. Two years.

Q. The program that you -- is it all focused

59

specifically on anesthesia?

A. Yes.

Q. Do you work in a hospital or some sort of setting where you're giving anesthesia to patients during that time?

A. Yes, hospital.

Q. Do you do any kind of apprentice program afterward or are you able to just go to work?

A. No, you have to take boards. And if you pass boards, you get to practice anesthesia.

 $\begin{tabular}{ll} Q. & Now, when you go to facilities, and I \\ assume you can practice in hospitals and clinics and things like that if you need to; is that correct? \\ \end{tabular}$

A. Yes.

Q. Do you work with any other physicians when you perform your services?

A. Not necessarily.

Q. So you can independently perform anesthesia services?

A. Yes. As long as there is a physician or a dentist there.

Q. Okay. And I guess that's what I meant, not necessarily an anesthesia doctor --

A. Right.

Q. -- but an MD or something --

A. Right.

Q. -- or dentist, at least in the facility doing the procedure with you?

A. Right.

Q. So if I understand you correctly, you would not just be able to go set up shop on Las Vegas Boulevard and give anesthesia to Michael Jackson or anybody else that came by?

A. No. Good name, but no.

Q. Okay. As far as this particular case is concerned, I know that you're familiar with the circumstances surrounding the endoscopy matter; is that correct?

A. Yes.

Q. With regard to your time with Dr. Desai when you first came to work here, when was that again?

A. I started October 1, 2007.

Q. And how long did you work at that

19 facility?

A. The facility closed March 4 of 2008. I was paid through April the 25th of 2008.

22 Q. So you -- did you stay in town or did you 23 leave at that point?

A. Well, I had a seven-month lease on the apartment so I went back and forth to California.

		61	
1	Q.	Okay. And is that where you currently	
2	live is in California?		
3	A.	Yes.	
4	Q.	Are you performing anesthesia services in	
5	California?		
6	A.	Yes.	
7	Q.	Where do you work currently?	
8	A.	I work at Pain Management Specialists in	
9	San Luis Obispo and in Santa Maria, California.		
10	Q.	Do you work with physicians in that	
11	location		
12	A.	Yes.	
13	Q.	or those locations? I guess you said	
14	two, correct?		
15	A.	Two.	
16	Q.	Now, as far as the time that you were with	
17	Desai, that period		
18	Α.	Uh-huh.	
19	Q.	And when I say Desai, I'm talking about	
20	the Endoscopy Center.		
21	Α.	Right.	
22	Q.	He had a number of clinics in town, did he	
23	not?		

And did you work at all of them or just

24

Α.

0.

Yes.

1 one or two or ... 2 I was mainly at Shadow, but I did get to Burnham, and then there was one over on Flamingo that 3 they opened just before we were closed up, and I don't remember the name of it. Okay. But, primarily, you were working at 6 Q. 7 the Shadow Lane clinic? Yes. Α. 9 Now, at the Shadow Lane clinic, what were your job duties exactly? 10 11 Just to put the endoscopy patients to sleep -- the colonoscopies and the endoscopies. 12 Beside doing the anesthesia portion, did 13 you do any nursing functions as well? 14 15 No. 16 ٥. Just anesthesia? 17 Just anesthesia. 18 At any time after you came to the clinic, 19 did you work with an anesthesiologist, an MD 20 anesthesiologist at the time? 21 Α. Never. 22 Did you work with MD physicians that were Q. in the practice, the gastroenterologists? 23

Were they the only physicians that you

63

24

25

Α.

Q.

Yes.

```
worked with in the practice?
1
2
                 Yes.
           Α.
3
                 Were there specific physicians that you
           Q.
    worked with more than others?
 4
5
 6
           0.
                 And who were they?
                 Dr. Carrol, Dr. Faris, and Dr. Carrera.
                 Now, did you work with other physicians
 8
     within the practice beside those three?
 9
                 Yes, Dr. McCurdy, Dr. Sharma and Dr. - I
10
11
    forget his name. It starts with a Y, so ...
12
           Q.
                 Y?
                 Yeah.
13
           Α.
14
                 Okay. Did you ever work with Dr. Desai?
                 I worked with Dr. Desai a few times, maybe
15
16
    half a dozen to a dozen times.
17
                 So, primarily, when you were at the
    facility, he either was not there or there infrequently
18
    or how -- or how did that work?
19
20
               When I first got there, he was recovering
21
    from what was supposed to be a stroke. And so we
22
    didn't see him for the first two or two-and-a-half
23
    months.
24
                 And then he came in, and he wanted to see
    if he still had the hands to do the endoscopies so he
```

```
had Dr. Carrol come in the room with him. I happened
1
2
    to be there and he did one colonoscopy.
3
                 How did that go?
           Q.
 4
                 It went okay.
           Α.
                 So he seemed to be functional and able to
 5
           0.
6
     do that work?
 7
           A.
                 Uh-huh.
8
           0.
                 Any problems associated with the
9
     procedure?
10
           Α.
                 No.
                  Now, as far as the procedures that
11
           Q.
12
     followed after that, was he then back at full strength
13
     or was he doing work intermittently?
14
                 Intermittently.
15
                 Now, prior to his return to the clinic,
16
     had you noticed that there was any kind of a volume
17
     decrease at the clinic?
18
           A.
                 No.
19
           Q.
                 So when you start, when you were working
20
     with him, when did you start working in proximity to
21
     when he had his stroke?
22
           A. Well, I don't know exactly when he had his
23
     stroke. He was out of the country, but he came back
     like two-and-a-half months after I got there. We had
24
25
     the same volume of patients from day one that I got

After he comes back fully into the practice which happens at a later date; is that correct?

> A. Uh-huh.

Did you notice that the patient load 0. increased?

> No. A.

So from your standpoint, it was always about the same?

A.

Now, did you work full time at the Shadow Q. Lane clinic primarily?

When you were working at the clinic, were 0. there other certified nurse anesthetists that worked at the clinic as well?

Α.

Did you work with all of them or just a 0. few?

Eventually I worked with all of them, but A. mainly with Keith Mathahs and Linda Hubbard.

Was there a supervisor amongst the anesthesia individuals?

> Α. When I first got there, it was Ron

Lakeman, but he left two weeks after I got there or approximately two weeks after I got there, and then it fell to Keith Mathahs.

And, again, I know you told me this already, but could you tell me once again the date that you actually arrived in October?

October 1 of 2007.

Now, you're aware that as part of this case that there were two specific incident days on July 25th of 2007 and September 21st of 2007?

11 I wasn't aware of the July one but now I 12 am.

Well, if I represent that to you, at either of those two dates, I know that you didn't start work, but had you visited the clinic and done any locum tenens work or anything like that at that time?

I visited the clinic to apply for the job, but I had never done any locum tenens or done any anesthesia until October 1 of 2007.

So, basically, the questions that I have will be from that short period from October through the time that you left the clinic the following year, mid year, so you're only working at the clinic for half a year roughly?

> Five months. A.

67

- Five months. 0.
- A.
- Now, during the time you were with the clinic, did you -- when you came to work there, who did you interview with?
 - Α. Tonya Rushing.
- Did you ever interview with Dr. Desai at any point?

I did. After I interviewed with Tonya Rushing, she told me to go down and talk with Dr. Desai so Ron Lakeman took me down there.

Dr. Desai asked me if, you know, I had used propofol before, and I told him I was working in a pain center where we did approximately five to 10,000 cases since I was there for 10 years, 11 years. And he said the job is yours, and that was the end of the interview.

So when he found out that you used 0. propofol, he hired you on the spot?

A.

Yes.

Okay. As far as the use of propofol, I am assuming you're familiar with the drug; is that

23 correct? 24

A.

Had you used it many, many times in the ٥.

past over those years?

Yeah. I work in a pain center again, and when I worked at Desai's, I did 3600 cases, which is in the report, and I have been doing 70 cases a week since I went back. So I'm constantly using propofol every day.

And I assume you're aware that the package insert on the medication has some wording as to whether it's single use or multi use; is that right?

> Α. Yes.

And what is your understanding as to whether it's a single —

It says single use.

And just for the -- I know that you're being -- trying to answer the questions, but for the court reporter, who is sitting here taking down all the words, if you'll let me finish my question before you answer —

> Α. Okay.

-- I'll try to do the same thing for you.

A. Okay. I'm sorry.

It just makes it harder for her to take down everything if we're talking over each other.

I'm sorry. A.

Okay. Now, single use only, I think you

said, for that drug?

18

19

20

21

22

23

24

- Yes. Α.
- The label actually says that on the package or on the bottles in which they're contained?
- Q. As far as that drug is concerned, was there any other -- I mean, I know that that was the primary drug that you used in the facility, and I'm talking about the Shadow Lane clinic that you worked primarily with; is that right?
 - Α. Yes.
- ο. Were there other drugs used for anesthesia at that location?
- A. For the rare patient who would be allergic to eggs or lecithin or sulfa, not so much sulfa but the eggs, if there was a patient who was highly allergic to eggs, we would have to use something different besides propofol, and so we had some Versed and Fentanyl there that we would use in lieu of it.
- And you said that Keith Mathahs was kind of in charge of the CRNAs at the time at least that you were working there?
 - A. Yes.
- Q. And that Mr. Lakeman, I think, had been the one in charge prior to that time?

A. Yes.

1

6

7

8

9

10

11

19

20

21

24

25

Now, let me ask you a couple questions about just the process by which the procedure got done at the facility or was done.

Where typically would you stay in the facility? Would you be in the room where the procedure was done primarily, or would you circulate? How did you interact at the facility?

- I would circulate until the patient was rolling into the room. Then I would be in the room.
- Okay. Now, in the -- during the day, there were lots of patients that came through, were there not?
 - Yes.
- Once the patient started rolling through, ο. did you primarily stay in the room and just administer to the patients that came in and then after they left the next patient that came in after that?
- Did you ever go out to the recovery area 0. and follow patients out there and take care of them out there?
- Yes, I would try and see most of my patients. At least I would walk by and look behind the curtain and see, make sure they are doing okay.

71

- Okay. Now, was this primarily every time a patient left, or would this be periodically walking out to try and check on some of the patients?
- Just periodically walking out to check on the patients.
- So is it fair to say that primarily your time was spent in the room?
- Now, as far as the procedure itself was concerned, tell me how you did a procedure, I mean from the anesthesia side.

You've got a patient that is about to, let's say, either is the first patient of the day just rolling into the room, or the last patient you have just done has left the room and they are about to bring that next patient in.

Tell me what happens from your side.

- Okay. I would usually fill two syringes, one with propofol and Xylocaine and one with just propofol because propofol by itself is acidic, and it hurts a lot when you inject it into a patient's vein, so we would add the Xylocaine to cut down the amount of pain.
- If I had the time, I would go out and talk to the patient and try and get a part of the history

and physical done in the PI or actually the bed's across from the door.

- Okay. And a PI is what?
 - Preinduction room. Α.
- Induction meaning anesthesia? Q.
 - A. Yes.
- So the area where the patients are held 0. before they are brought to you?
- It served both as preinduction and Α. recovery.
 - 0. Oh, same area?
- 12 Okay. Our door was here and eight feet away were six beds. 13
- 14 Q. Okay. And here you, just for the record, 15 you kind of motioned in reference to closer to this 16 person, and then the area that you -- that the patients 17 were coming from and going to was a few feet away, 18
 - eight or so feet away?
 - Yes. Α.
 - ٥. Is that correct?
- 22 ٥. Now, the patients come into the room, into 23 the procedure room from that area?
 - Α.
 - Q. Once the patient gets into the room, what

5

15

16

17 18

19 20

21

22 23

24 25 do you do, besides drawing up those two syringes?

We place the patient on the table, and the physician necessary for the procedure, being an endo, they would be sitting up. Or being a colonoscopy, they would be lateral, on their side, usually on their right side.

And I would put -- they would put the blood pressure cup on, EKG leads, o2 sat monitor, and then I would wait for the doctor to come in the room and I would take and give the propofol.

- Would you ever go ahead and start the Q. propofol before the physician got into the room?
 - Not usually. A.
- Was there ever situations where you maybe started anesthesia and the physician left the room for some reason?
- A. Yes. And as I told you, that's a little different than what I had said in there.
- And, again, for the record, what are you referring to, your statement to the police?
 - My statement to the police. A.
 - Okay. 0.
- In reflection, there were a couple of instances when Dr. Carrol would be in the room and I would start the anesthetic. I would turn around and he

would be gone.

2 I would say, "Where is Dr. Carrol?" And the nurses would usually say, "Well, he had a meeting 3 4 with Dr. Desai." And I'd say, "So when was somebody going to tell me this?" And I would say, "Go get him. 5 6 I have a patient asleep on the table."

7 MR. STAUDAHER: And, again, ladies and gentlemen, none of that is offered for the truth of the 8 matter, just to answer the question about why he did 9 what he did at this point. 10

11 BY MR. STAUDAHER:

- Q. So that's a correction to the statement that you made to the police?
- Exactly.
- Any other issues regarding that particular statement?
- A. No.
- 18 0. Okay. And you don't have in front of you at the moment as you're testifying your statement 19 20 sitting in front of you referring to it?
 - Α. No.
- 22 If you need to look at that statement to ٥. 23 refresh your memory at any time during this proceeding, 24 just let me know and I can provide it to you. Okay?
 - Okay.

75

- Now, patient in the room, positioned, you're ready to give anesthesia, waiting for the doctor. Are you with me?
 - Right.
- What is the next thing that happens? Doctor comes in the room, and then what goes on?
- He usually types in a few things into the computer, and then he goes ahead and starts the procedure.
- What -- as far as the bottles of propofol that you were using, do you remember the sizes that you were using at that time?
- It was either 20s or 50s. It depended on the cost at the time.
- Did you use predominantly one versus the other?
 - Predominantly 50s. A.
 - So let's say you have a 50cc syringe --0.
- They're not syringe, but a bottle of A. propofol.
 - Right. ο.
 - Open that up, draw out your syringes.
 - Uh-huh. A.
- They're not drawn up, your syringes, both of them: is that correct?

Uh-huh.

- 2 Now, at any time, would you use, in doing 3 that, a syringe that you had used on a prior patient?
 - No.
 - ο. Would at times you use the same syringe on the same patient?
 - Α.
 - So you always got rid of the syringes?
 - Yes. Α.
 - ٥. Was that a general practice or your specific practice?
 - It's supposed to be general practice.
 - Was it your specific practice? 0.
 - It was my specific practice. Α.
- 15 Now, once the syringes are drawn up, 16 though, obviously if you're using a 50, I mean what 17 size syringes are these?
 - Α. These are 10cc syringes.
- 19 So there is approximately 30cc's left in 0. 20 the bottle?
 - A.
- 22 Now, at that point, it's clean? 0.
 - It's still sterile.
 - You could potentially use it on this Q.

25 patient again?

77 Α. Yes Could you use it on another patient? 2 Ο. 3 Α. 4 ο. Did you do that? 5 6 Now, before we get to that, let's stick 0. with where we're at with the patient rolling in the room. You have two syringes drawn up. Doctor's ready 8 9 to start the procedure. What do you do? 10 I take -- pick up the syringe with the Xylocaine, I give that, usually the 10cc's, depending 11 on the ability of the patient. Older patients receive 12 13 less. Alcoholic patients receive more just depending on how their reaction was to the drug. 14 And then I would take that syringe, put it 15 16 in the sharps container, take the next syringe, uncap it, and put it into the line. 17 18

So when you say put it into the line, are we talking about like one of the heplocks that are --

> Yes. A.

-- at the IV access ports?

Yes. A.

And, again, if you can wait until I'm

24 done --

19 20

21

22

23

25

1

2

3

4

5

6

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

1

I'm sorry. A.

-- just to make it a little easier. 1 2 You say that you would hook it up to that 3 port, or would it be, a needle be penetrating the 4 actual port itself? 5 A. 6 So if I understand you correctly, I have a 7 picture in my mind of a patient with a heplock in a vein and the procedure beginning and you taking the 8 second syringe with the needle on it and basically 9 inserting it into the heplock; is that correct? 10 11 A. 12 Q. So now the syringe is connected to the 13 patient? 14 Yes. Α. 15 Once that is done, I assume as the patient 0. 16 needs additional anesthesia would you give some? 17 Yes. Α. So you monitor the patient for their needs 18 ο. 19 and do that? 20 A. Exactly. 21 At the end of the procedure, if you hadn't

given all of the propofol in that particular syringe,

squirt the remainder into the garbage can and put the

I would take it out of the line, I would

what would you do with the syringe?

79

needle and the syringe in the trash container.

Okay. Would you ever, after that had been connected up like that to the patient, take the syringe out with propofol in it or empty, remove the needle, put a new needle on it, and re-enter the propofol container?

> Never. A.

Why would you never do that?

Because you don't know what's -- what's happening with that out of the -- that syringe out of the patient. You don't want to cross contaminate anything.

And if you're going to use that method, blood is drawn up into the old -- to the syringe, so you could contaminate. If you have to go back and get more propofol, and you're not using the sterile syringe, which I always did, you would contaminate the propofol.

So you saw that there was at least a risk of that happening; is that correct?

A.

0. Now, were you told by anyone to reuse syringes?

A.

0. And you did not do that as part of your practice I think you said?

Α.

22

23

24

25

1

2

3

4

5

6

7

11

14

15

16

17

21

22

23

24

Α. Right.

Now, you've left now, the patient is done. Let's say that you've either wasted the remainder of the propofol and the one syringe where you've used it, and those syringes are discarded?

> Α. Uh-huh.

8 Patient leaves the room. And you have a 9 bottle, a 50cc bottle that has roughly 30cc's 10 remaining, correct?

> Α. Yes.

12 Q. New patient is rolled into the room. What do you do? 13

I draw up two more syringes of propofol, one with Xylocaine, from that bottle because it's still sterile with two sterile syringes and needles and proceed.

18 Okay. Was that common practice to 19 continue to use the propofol until it was gone on the 20 next -- on subsequent patients?

Every place I have been, yes.

Including this clinic? 0.

A.

Now, the practice that you described, the o. technique that you used, would that be termed a septic

80

syringe, would that, even for use on the same patient,

Yes.

25

Possibly contaminated? ο.

could that bottle be contaminated?

- Yes.
- If you had ever done something like that, 0. would you have used that propofol on a subsequent patient?
 - Α. No.
- 0. Would that be the appropriate method of dealing with that situation?
- You should never try -- you never cross contaminate anybody.
- Now, were you told to reuse propofol on subsequent patients?
 - A. Yes.

And who told you that? ο.

Mr. Mathahs. A.

1

14

15

16

17

18

19

24

Specifically? 0.

Well, he told me that that was Dr. Desai's 4 A. 5 order.

- And did you try to carry out that order? Q.
- Not always. Α.
 - Q. When would you not carry it out?
- Well, if I had a hepatitis patient or an 9 HIV patient, I would throw everything away that I had. 10
- So would there be times that you would actually know that you had a patient like that? 12
 - Oh, yes. Because you knew the history and physical on them.
 - So they would tell you that they had those 0. conditions?
 - A. Yes.
- Were there situations in which the clinic 18 doctors were actually treating patients for conditions 19 like Hepatitis C that came in for procedures? 20
 - Α. No.
 - That you were aware of anyway? Ο.
 - Well, we just did them one time for a colonoscopy or upper endoscopy. The liver situation was treated by somebody else.

83

- Do you know, in fact, if any of the clinic doctors treated those kinds of conditions on patients?
 - I don't know.
 - So it's possible that they did that? Q.
 - A. Yes.
 - o. Now --
 - Can I make a point? A.
 - Certainly.
- None of the other doctors cared whether you kept or threw away the propofol, only Dr. Desai.
 - 0. How do you know that?
- Because they never said a word to me, and I would throw it away. So I just assumed that he was -- he was -- that was something that they weren't going to pay attention to.
- So they never mentioned it to you, and 0. they don't object when you throw it away?
 - No. A.
 - Did you throw it away when he was around?
 - When he would leave the room. Α.
- Okay. Did he ever talk to you about that 21 or admonish you about throwing away propofol? 22
 - A.
 - Did he even know that you were doing it? Q.
 - A.

- Now, we talked already about the bottles being labeled as single use?
 - Yes.
- Do you know if you ever witnessed or were 0. involved with propofol being moved from room to room at any time during the days?
- Usually at the end of the day, if one of the other practitioners would usually have bottles partially filled with propofol, and she would bring them over and lay them on my counter and say, you know, "If you have another patient, you can use these."
- And I would usually ask the nurse for another clean bottle of propofol, and I would throw all those away because I don't draw out from bottles that I didn't draw from in the first place, and I don't give anything I haven't drawn up personally.
- Did you see that that happened on a few 0. occasions at least?
- No. Α.
- 20 As far as you just mentioned that Q. 21 sometimes they would bring those bottles --
- 22 Oh, they would bring the bottles to me, 23 but I never saw anybody use those bottles.
 - My point is, did you see the propofol from one room was at least brought to another room?

Yes. 1 A. 2 Okay. Did that happen on more than one 0. 3 occasion? 4 A. And but you said you would never use that? 5 0. 6 A. No. If I don't draw it up, I don't give 7 it. 8 As far as the lunch breaks and any other break that you might give to a fellow CRNA, go into 9 their room, were there times when you did that that you 10 11 walked into the room and saw propofol syringes drawn up or open bottles of propofol? 12 13 A. Yes. In situations like that, would you use 14 o. those open bottles of propofol or syringes to 15 16 administer anesthesia to a patient? 17 No. A. 18 Did you always start fresh with your own 19 stuff if you were there? 20 Yes. 21 Did you have a discussion with Mr. Mathahs 0. about not throwing away propofol on more than one 22 23 occasion? 24 No.

Yes. Α. 2 ٥. Did he indicate what would happen if you 3 didn't try to use all the propofol? 4 Well, his term was that Dr. Desai would 5 have a hissy fit. 6 Did he tell you why or did you know? 0. 7 Α. 8 Now, we talked about the lunch issue. I'm 9 going to ask you about some other issues regarding some 1.0 other items besides propofol. 11 Α. Okav. 12 ο. Did you ever witness the reuse of bite 13 blocks? And you know what bite blocks are? Yes. 14 A. 15 And so you know what they are? Q. 16 Α. Yes. 17 And did you ever witness the use -- reuse of those items? 18 19 Α. 20 Q. What would happen with those? How would 21 they get reused? 22 Well, they would take them and they would wash them, and I don't know, they may have sterilized 23 24 them. I don't know that, but they would bring them 25 back in and use them, yeah.

87

Q. Okay. We're talking about the --

So he told you that initially?

A. Single use bite blocks.

Q. The things that you put around the scope, so that you don't bite the scope?

A. Well, you put it in the mouth. It's got a hole in it. You put the scope in there so the patient can't bite down on the \$30,000 scope.

Q. To try to protect the scope then?

A. Yes, but also that protects the teeth,

10 so ...

25

1

2

3

4

5

6 7

8

9

12

13

14

15

16

17

18

19

20

21

23

24

Q.

Q. And then you saw those washed or whatever and processed in some way?

A. They were processed in some way and brought back, yes.

Q. Did you ever see any other items like airway tubes or anything like that reused or washed?

 $\mbox{A.} \qquad \mbox{Yes. Single use airways were washed and} \label{eq:A.}$ reused.

Q. And what is an airway?

A. Airway is a device that keeps the tongue from falling back and obstructing the trachea. So during a situation where the patient is not breathing on their own, or you have to bag them or whatever with the ambu bag, you put it in the mouth, it keeps the tongue away from the epiglottis, and it also gives you

an airway.

1

2

3

9

10

11

12

13

14

19

20

21

22

23

24

25

 $\ensuremath{\mathtt{Q}}.$ So this is not a tube that goes into the trachea then?

A. No

Q. This is just one of those little plastic things that keeps the tongue down essentially?

A. Exactly.

Q. Are those really expensive items?

A. No. They are a nickel.

Q. But you guys would rewash and reuse those?

A. Yes.

Q. Was there ever an issue or concern that you had regarding the handling of certain items in the endoscopy suites, such as forceps, anything like that?

15 A. Yes. The techs tended to not pay
16 attention to what those things were touching, and they
17 may touch the floor, they may drag them across the
18 patient or they may hit me in the head with them.

It's a long, long cable with scissors-type handle, and it goes through the scope. And you can take bites of things and move things out of the way or whatever. And they just — their sterility technique was questionable.

Q. So you actually saw these things contacting the floor and the various things you talked

24

Q. As far as the -- that situation, did you ever try and tell anybody about that or get anything done regarding that issue?

A. I told Mr. Kruger, who was the head nurse.

O. Okav.

A. And he said he would take care of it.

 $\label{eq:Q. Well, I was going to say without getting} % \begin{center} \begin{$

 $\label{eq:mr.staudher:} \mbox{And } \mbox{I would ask the Grand} \\ \mbox{Jury to disregard that statement.}$

BY MR. STAUDAHER:

 $\label{eq:Q.You at least sought out somebody to take care of that?}$

A. Yes

Q. To your knowledge, did the practice change?

A. No

Q. Now, I'm going to ask you specifically about -- I know that you didn't work extensively with Dr. Desai, but specifically, I want to ask you about any issues you ever had with him with trying to start a procedure before anesthesia was actually on board on a patient?

A. I think two instances for upper endoscopies. I turned around to administer the propofol, and he was already inserting the endoscope into the esophagus.

Q. Did you indicate to him that you hadn't given anesthesia yet?

A. I said, "We're not ready." And he just kept on like I wasn't there so I gave the propofol as fast as I could.

Q. In those instances when you yell out to him what you just said, did he tell you he was just going to go forward anyway I mean or just do it?

A. No, he would just ignore me.

Q. So what was — how was the patient reacting during these times?

The patient was gagging and bucking.

Q. Was he, in those instances, those couple of instances, were they both upper endoscopies you said?

A. Yes.

Q. How long a procedure did that take to do those with the patient bucking and writhing like you said?

A. Well, two or three minutes.

Q. So those would be done within that time

91

period. Was the patient still writhing or had the anesthesia taken effect by that time?

A. Well, by the last minute, it had worked.

Q. Okay. Now, as far as upper endoscopies are concerned for most of the doctors in the group, I mean what were the average times for doing that? And I'm not talking about Desai or Carrol, who I believe also was pretty fast.

A. Well, if you averaged it out, an endoscopy would be 15 minutes. A colonoscopy would be 20 minutes, tops.

Q. Okay.

A. Except for the slower ones.

Q. And when you say slower ones, are you talking about slower doctors?

A. Slower doctors.

Q. And who were the slower doctors?

A. Dr. Manuel. He was a new physician out of school. He was quite cautious and quite slow.

Dr. Faris was another one who was slow. Those are the two slowest.

Q. How did Dr. Carrera fare in that group?

A. He was in the middle.

 $\label{eq:Q.Q.And} \mbox{Q.} \quad \mbox{ And then on the faster end, who are we talking about?}$

A. Dr. Desai and Dr. Carrol.

Q. Who was the fastest in the group?

A. Dr. Desai.

Q. Noticeably faster than the rest?

A. Yes

Q. For him to do — and how long did it take?
You said the average colonoscopy was around 20 minutes or so?

A. Yes

Q. How long did it take Dr. Desai to do an average colonoscopy?

A. Six, seven minutes.

Q. What about an upper endoscopy?

A. Minute or two.

Q. Now, did you ever have a situation happen where a patient woke up during the time that the procedure was going on and started having trouble while a procedure was actually happening?

A. Yes.

Q. What happened? What typically would happen?

A. They would either have a spasm because they got light. It looked like the doctor might be finishing, so you would start cutting back on the titration, and they would spasm or just buck a little

bit or move around a little bit, and then we would just give them more propofol.

- Q. Now, did you ever have any issues with regard to how patients were moved out of rooms to the recovery area and the way they were positioned out there?
- A. I had big situation with that because the protective equipment for the patient is on the far wall. And that means that the oxygen was there, the suction was there, the ambu bag was there.
 - Q. And what is an ambu bag?
- A. Ambu bag is a bag that you see the rescue squads use, you put a mask over it, and then they pump on it --
- $\label{eq:Q.Q.So} \mbox{Q. it has a portion of the bag that you} \\ \mbox{can squeeze?}$
- $\mbox{A.} \qquad \mbox{Right.} \mbox{ And you're forcing air up to the } \label{eq:Andyou're forcing}$

All that equipment was on the far wall, and they would push the patients in feet fist. So the equipment that was necessary to take care of them if there was a problem was at the other end of the bed and it wouldn't stretch.

So if you had a problem, you would have to pull the patient out, turn the bed around, and shove

the patient back in.

23

24

25

- Q. Why didn't they just bring the patients in headfirst to begin with?
 - A. We're lazy.
- Q. Was there -- was speed any portion of
 - That was the whole thing.
- 8 Q. So was that the resuscitation kind of 9 equipment if there was a problem with the patient that 10 needed help?
 - A. Yes.

And I made mention of that, and they said that's the way we've always done it.

- 14 Q. What about issues regarding suction tubing 15 on canisters and so forth?
- 16 A. When I first got there, there were no 17 canisters.
- 18 Q. And what are we talking about when we 19 say --
 - A. Canister is attached to a vacuum and fluid are sucked up out of the patient's pharynx and it goes to this canister, which collects it.
- 23 Q. Is that an important thing to have 24 available?
 - A. It is because it maintains the vacuum for

95

the suction.

1

18

19

20

21

22 23

24

25

 $\label{eq:Q.But why is the suction in itself even important --} \text{ }$

A. Because the patient may be having a problem with saliva or lauren's spasm or they are bleeding or, you never know, they are vomiting, and you want to get that out of the trachea or out of the posterior pharynx so you need the suction. It's one of the most important pieces of equipment.

- Q. So posterior pharynx, just so we're clear, is the back part of the throat; is that right? Is it the back part of the throat?
 - A. Yes, yes, I'm sorry.
- Q. So if fluids or things, whatever, collected in that area, would the potential be to breathe that into your lungs?
 - A. Yes.
- $\ensuremath{\mathtt{Q}}.$ $\ensuremath{\mathtt{Is}}$ that why you would want to try and suck it out?
- A. Yes, or they would have a lauren's spasm, which means that the vocal cords clamp together, and then you have to get the ambu bag to breathe for them.
- Q. Now, as far as this suction tubing then, you said the canisters didn't even exist when you first got there?

A. They weren't on the wall.

 $\label{eq:Q. How was it that they later came to be on the wall?}$

Because I insisted.

Q. Now, did they work in that current condition with just being hooked up to the wall?

A. Yeah.

8 Q. Okay. Were they usable by you at that 9 point?

A. Yes

11 Q. Did you require anything else like tubing 12 to utilize them?

A. Yes.

Q. Was there an issue regarding the tubing?

15 A. Not the tubing on those, but the tubing on 16 the ventilator. The tubing on the ventilator had dry 17 rotted from years of -- we didn't use a ventilator very 18 much, but the tubes were all dry rotted.

And I had noticed that one day and said,
Thow are you going to use this piece of equipment?
The head nurse said ---

Q. And, again, I don't want to get into --

A. Okav.

Q. Who was the head nurse? Was this Mathahs?

A. N

Who was it? 1 Q. 2 Α. Kruger. 3 Q. Kruger. Okay. I don't want to get into 4 what he said. 5 A. Okay. You pointed it out? 6 Q. 7 Α. Was that corrected at some point? 8 0. 9 Α. 10 Q. Okay. Now, after but beside that issue, 11 any other concern you had with regard to how things 12 were done, sterility, cleanliness, anything like that? 13 Well, overall the facility itself was --Α. sterility wasn't one of the main concerns. 14 And I guess sterility may not have been 15 because this wasn't necessarily — colonoscopies aren't 16 17 a sterile procedure? They are not a sterile procedure, but you 18 A. 19 can make them clean. 20 And was the facility clean? 0. 21 Relatively, yes. Were there any problems with that that you 22 0. were concerned about? 23 24 A. Not that I recollect. 25 Q. Now, I want to move to another area

regarding anesthesia times and start times and stop 1 2 3 You do this type of work, and you know, I assume, what anesthesia start times and stop times are supposed to be, correct? 5 6 Α. Yes. 7 0. When is anesthesia start times supposed to begin from your perspective? 8 9 When you give the anesthetic. 10 So does it begin when you first make 11 contact with the patient or when they enter your room or anything like that? 12 13 Α. 14 ٥. Okay. So at some point when you're ready 15 to give anesthetic, that's when your anesthesia would 16 start? 17 Α. Yes. Is that what you would typically document 18 ٥. 19 on paperwork? 20 Α. 21 What about anesthesia stop time, when o. 22 would that supposedly happen? 23 That would be when you turn the patient

99

97

100

98

instances the patient, you didn't follow the patients out. They would leave the room. Would it be then when they left the room?

A. Yes.

 ${\tt Q.} \qquad \hbox{So start time beginning of an esthesia,} \\ {\tt stop time beginning patient leave the room?} \\$

A. Yes.

 $\ensuremath{\mathtt{Q}}.$ Was there an issue with the stop times and the start times --

A. Yes.

Q. -- of anesthesia?

And tell us about that.

A. When I got there on the first day, I went downstairs and to get the lay of the land from Mr. Mathahs. And he told me that Dr. Desai insisted that the cases last at least 31 minutes. So we juggled the numbers usually to make sure that it always came up to 31 minutes or close to it.

Q. Now, when he told you this, did it have some -- did it have an affect on you as far as what was going on?

A. Yeah. I knew it was wrong, but I had quit my job in California. I had a wife, and I had house payments, and I needed that job.

Okay. So as far as the times that you

actually witnessed from all of these doctors, the procedures, would you say they typically went 31 minutes or more or less?

So in this instance, you said most

A. Less.

over to the recovery room nurse.

Q. Significantly less than that?

A. Yes.

Q. Did you see any that went above 30

minutes?

21

22

23

A. Yes

Q. Was that a rare event?

A. Except for Dr. Manuel.

12 Q. Excluding Dr. Manuel?

A. Yes.

Q. For most of the other doctors?

Ask me the question again.

Q. I said excluding Dr. Manuel, from most of the other doctors, was that a rare event?

A. Yes

Q. Now, when you said you had to juggle the numbers, tell me how you guys would juggle the numbers.

A. Well, we would -- you could start by when the patient -- when you went out and saw the patient for the history and physical.

And then you could just add, at the end, you could add some, whatever you needed to make up for

the 31. 1 2 So was it pretty clear that you were 0. 3 having to do that on pretty much every single patient that came through? 4 5 Yes. A. 6 The -- I assume -- well, again, I Ο. 7 shouldn't assume. 8 Did you know if you were the only one that 9 was doing this in the practice? 10 Everybody was doing it. And was it pretty well a common occurrence 11 0. 12 then? 13 Yes, and if I didn't put down the correct A. numbers, either the nurses would tell me that I hadn't, 14 or a young lady from upstairs would come down and say 15 you forgot to sign this and the times are wrong. 16 When that would happen, would that cause 17 some affect on your person as well? 18 19 I didn't feel good about it. 20 Now, did you then correct the sheets? 0. 21 A. I corrected them to the day. I left the 31 minutes. 22 23 ο. Was it always 31 or was it sometimes 32 or 24 33? 25 Sometimes 32, sometimes 33. A.

Would you have put your start time down at 1 2 some point and then just calculate how many minutes it 3 was beyond that to get your stop time? 4 Yes. Α. 5 Now, on the anesthesia records that you're keeping track of, there are also vital signs being 6 tracked during that entire 31, 32, 33-minute period; is 8 that correct? 9 Α. Yes. And, obviously, the patient isn't even in 10 ٥. 11 your care during that whole time? 12 Right. 13 So the documents that were being produced, ο. 14 did they contain accurate patient information? 15 Α. No. 16 Did you know what was happening with those 17 anesthesia records? 18 A. Did you involve yourself at all in the 19 0. 20 billing? 21 Never. 22 And why was that? 0. I made a point when I started in 23 24 anesthesia to never find out or know about what things

103

- Q. So are you aware that there is, usually based on whatever the code is for the procedure, that there is a base number of units that's assigned to that procedure, and then your time is added on to that in increments?
 - A. I know that.
- Q. Okay. And what are the typical increments that are time added on?
 - A. That I don't know.
- Q. So it could be one minute, five minutes, ten minutes?
 - A. Exactly.
- Q. If I represented to you that the increment typically is 15 minutes, would that surprise you?
 - A. No.
- Q. So in a situation where a person was billing for 31, 32, 33 minutes, in that scenario,

hypothetically, you could bill for three anesthesia units on top of the base, correct?

cost or what the billing was all about. I don't

- A. Correct.
- Q. If you were using 15 minutes as the increment?
 - A. Right.
- Q. Now, did you ever get the actual -- when the bills went in, I know you weren't involved with the actual mechanics or nuts and bolts of doing that, but when the anesthesia bills went in to get paid to whatever insurance company it was, did you ever get any of that money directly back to you?
 - A. No.
- Q. Did you ever get bonuses or other remuneration based on the number of procedures you did or the amount of minutes that were billed to your knowledge?
 - A. N
- 19 Q. What kind of bonuses, if any, did you 20 receive?
 - A. Non
- 22 Q. The entire time you were there?
 - Entire time I was there.
 - Q. Now, when you first got there, were you under the impression that there would be some bonuses?

105 1 They said that they always gave out Α. 2 quarterly bonuses. 3 But you never got one? Ο. 4 Α. As far as the anesthesia records, although 5 Q. 6 you weren't involved with the actual billing itself, I 7 assume you knew that they were used for billing 8 purposes? 9 Yes. 10 That those would be submitted in some way 0. 11 to an insurance company and they would make a determination based on that to provide money back to 12 13 the practice? 14 A. Yes. 15 O. Was it general knowledge that those --16 well, I think you've already testified that it was 17 general knowledge that you guys were fudging the time, so to speak; is that correct? 18 19 Α. Yes. 20 Did everybody realize that those bills

if you didn't know, I know you said you were going out 2 there and you're using -- adding on a few minutes. 3 Did you ever have to extrapolate times 4 like to get out to that 31, 32, 33 minutes? 5 Yeah. Α. 6 Okay. As far as the people that would 7 come down from billing or whoever they were, was Tonya Rushing ever one of those persons that would come to 9 you with the records and say you need to fix this? 10 I know that young lady worked directly Α. 11 with Tonya, but I don't know if Tonya sent her down. So she never came down and actually --12 13 Α. 14 -- did that with you? 15 Okay. As far as the records themselves, 16 did -- were there times where somebody would change the 17 record for you? 18 On a couple instances, the nurses would say, you didn't get this time right. Do you want me to 19 20 change it for you? And I would say yes. 21 Was it a well-known fact that Desai wanted 22 at least 31 minutes put on those anesthesia records? 23 Yes. Α. 24 ο. Did everyone work within the practice to

Α.

Q.

Α.

Q.

That you were aware of or that you saw

were going to insurance companies, generally?

And you did, certainly?

Now, as far as the times were concerned,

I would think so.

Yeah.

happen?

I just knew about the nurses. I don't know about the supervisors.

Okay. Why did you do that? I know you said the things about your job and your family. Is that the main reason why this was going on?

I needed that job. And like I had said to you earlier I had to -- another job that I had applied for, and I was about -- after three weeks there because I wanted to leave.

So you actually get into Desai's practice and then you start applying for another position?

> Α. Exactly.

Talk to me about that for a minute.

When I got there, there was a -- there was some openings over at Southwest. So I went over there and I talked to one of the CRNAs over there, and I talked to their hiring people, and they had me take a battery of tests on line for executive positions.

And I guess I passed all of those. And

then I had a round-table discussion and interviews, and then I was offered the job and told what the salary would be and what the benefits would be and that I was first in line and that there were two jobs.

And so I assumed that I would be leaving posthaste, but United came in and said they were buying the business and that they suspended all contracts. Nobody could sign a new contract.

And by the time January rolled around and they still hadn't called me because they still had the moratorium on the contracts, the CDC came and laid that bomb on the group, and I wasn't hireable anywhere.

So that's after, at least, the CDC comes 0. in to do the investigation, is that what you're talking about?

And it gets reported in the papers and on the news and so on. I couldn't get a job as a janitor.

As far as the work that you were doing, so initially you come in in October of the prior year, 107. This practice is going on pretty regularly and rampantly at that time?

Α.

0. Is that fair to say?

Α.

0. Am I clear that within three weeks of that you were out looking for another job?

A. Yes.

- Q. Was it because of that stuff that was going on in the practice?
- A. That was part of it. Plus when I came to work there, I was told it was an eight-hour-a-day job, five days a week. And I never got out of there with at least 10, 11, 12, 13 hours, and I worked 56 hours in the first week. Well, that's two more days over 40 hours.

So I was looking -- I was -- I'm not a youngster anymore, and I needed to find something else to do because I couldn't handle that kind of schedule.

- $\mbox{Q.} \quad \mbox{Just be careful of this microphone. I} \\ \mbox{think it's hurting some ears in the room.} \\$
 - A. I'm sorry.
- Q. As far as the story, you said that once it broke that that became an impossibility, correct?
 - A. Yes
- Q. As far as the story itself, when you have that happen, when this starts coming out, are you guys at some point talked to by the administrative personnel?
 - A. We were talked to by Tonya Rushing.
 - Q. Okay. Now, was that at a meeting or was

that individually?

- It was at a meeting.
- Q. How many people were at the meeting?
- A. I think four.
- Q. Four people total?
- A. Five with Tonya.
- Q. And who were the people at the meeting except Tonya?
- 9 A. I think it was myself and Keith and Vinnie 10 Mione, and Ralph.
 - Q. I believe it's M-I-O-N-E.

Now, before we get to the part about what
may or may not have been said at that meeting, at this
point, you know what's been going on in the practice
and what you've been doing?

- A. Yes.
 - Q. The CDC has come?
- A. Yes
- 19 Q. They have left, and they have they have 20 given you kind of a report, correct?
 - A. Ye
 - Q. This has been in the news?
 - A. Yes
- Q. Were you concerned at this point?
 - A. I was because all this was coming out.

111

- Q. So when Tonya Rushing comes down to talk to you, or gathers you together to talk to you, without telling us what she said at this moment, when she said those words, did that affect you in some way?
- A. Yes, because I knew that this was -- that this was all going to be coming out and we were in a lot of trouble.
- Q. So did you see the implications of what was about to happen?
 - A. Yes, I did.
- Q. Did you see the implications of what she was about to say to you or what she said to you? What it potentially meant?
 - A. Yes.
 - Q. What did she say to you?

MR. STAUDAHER: And, ladies and gentlemen, at this time, this is going to be a hearsay statement, but it's being offered for the affect on this listener, how it affected him in relation to hearing the words that were said, not necessarily for the truth of the matter, although they are offered for that at this point, but the affect on the listener.

- 23 BY MR. STAUDAHER:

- 1 A. She said that no one is allowed to mention 2 Dr. Desai's 31-minute add on times.
 - Q. Was that pretty much it?
 - A. Yeah.
 - Q. So the whole meeting was about that particular issue?
 - Exactly.
- 8 Q. So what did you do after you after that 9 was said to you? What was going through your mind?
- A. Well, that we were, you know, they knew about that, and we had been doing it, and we were in a lot of trouble for it and life was not going to be the same.
 - Q. So a significant affect on you, basically?
 - A. Oh, yes.

MR. STAUDAHER: I have nothing further for this witness, ladies and gentlemen.

THE FOREPERSON: Are there any questions from the jury?

Yes.

21 A JUROR: How many patients a day did you 22 work on approximately?

THE WITNESS: Sixty to 70.

24 A JUROR: Okay. Now, how did they justify

31 minutes a person? Let's just use your lower figure

60. That's 30 hours. THE WITNESS: Yes. A JUROR: Right? At 31 minutes a piece, that's 30 hours. MR. STAUDAHER: I'm going to interrupt for just a second. BY MR. STAUDAHER: I think they did run two rooms; is that correct? We ran two rooms, yes. A JUROR: Okay. Well, still that's 15 hours then, let's say cutting it in half. I don't know how they could justify the time or juggle your sheets to show 31 minutes on each sheet and have that many people in a day, in a 10-hour, 12-hour --THE WITNESS: I don't have an answer for that. I know that the numbers were juggled, and whatever they did upstairs in billing was totally out of my hands. So they may have hedged funds then -those just the same way. MR. STAUDAHER: And I would admonish the Grand Jury not to take that speculation at issue here or to consider it in your deliberations later on. THE FOREPERSON: Bianca? A JUROR: So, Mr. Sagendorf, all of the

other things that they asked you to do at the Endoscopy
Center, you didn't do morally, reusing propofol and
things like that.

Just out of curiosity, you had a lot of
concern for your job, your security. If you didn't do
those items, why did you juggle the numbers?

7 THE WITNESS: All I had was my job
8 security. That's the only excuse I have for juggling
9 the numbers. Why I didn't — why I didn't do the
10 propofol thing is --

A JUROR: No, that's not what I'm asking. I'm sorry to cut you off, but what I'm asking you is all of the -- you didn't do those things because morally you knew that it wasn't the right thing to do.

So in regards to that juggling the numbers, would you say it's fair to say it wasn't morally correct either?

Were you not concerned about your job security when you refused to do those other things with propofol or reusing items or where you would throw things away behind Dr. Desai's back? I'm just trying to understand why the juggling of the numbers weighed differently?

THE WITNESS: Well, it was morally wrong, yes. But the other things I couldn't do directly to a

patient because I had never done them. I had never done this either, but I don't have a real good answer for you. It was wrong. I was wrong. What I did was wrong.

A JUROR: Did you ever at any time report or try to report that facility to a higher authority?

THE WITNESS: No.

 $\mbox{ THE FOREPERSON: Are there any further } \\ \mbox{ questions? There are none.}$

 $$\operatorname{MR}.$$ STAUDAHER: I have one related to that that I just want to clarify.

BY MR. STAUDAHER:

Q. The fudging of the numbers did not have a direct impact on patient care; is that correct?

A. Right.

Q. The reuse of a syringe or the reuse of propofol that might be contaminated would have a direct impact to a patient's potential health and outcome; correct?

A. Most definitely.

Q. Okay. Is that part of the reason why that is the line you would not cross?

A. Right.

MR. STAUDAHER: I have nothing further.
THE FOREPERSON: Yes.

A JUFOR: Did you ever discuss with the other nurse anesthesiologist about this timing problem?

THE WITNESS: No. We were all doing it.

A JUROR: You were all doing it. But how can you say that? You were in one room, they are in another room, how do you know they were doing it in the other room?

THE WITNESS: I wouldn't know. I just know that they weren't getting hollered at so I assumed that they were doing it, too, because they were the ones that told me they -- you know, at least Keith was the one told me to do it.

A JUROR: So you never discussed it over a cup of coffee or a drink or anything?

THE WITNESS: No.

 $\label{the foreperson: Any further questions?} There is none.$

By law these proceedings are secret. You are prohibited from disclosing to anyone anything that transpired before us, including evidence presented to the Grand Jury, any event occurring or a statement made in the presence of the Grand Jury, or information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark

County Detention Center and a \$2,000 fine. In 1 2 addition, you may be held in contempt of court 3 punishable by an additional \$500 fine, and 25 days in the Clark County Detention Center. 4 5 Do you understand this admonition? THE WITNESS: Yes. 6 THE FOREPERSON: Thank you. You may be 7 8 excused. 9 THE WITNESS: Thank you very much. 10 THE FOREPERSON: You're welcome. 11 Okay. We're going to call a ten-minute 12 break. 13 (A recess was taken.) 14 THE FOREPERSON: Please remain standing and raise your right hand. 15 Do you solemnly swear that the testimony 16 17 you are about to give upon the investigation now 18 pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you 19 20 God? 21 THE WITNESS: Yes. 22 THE FOREPERSON: Thank you. 23

24

- Did you get a job in a business that did some medical billing around that time, July/August of that year?
 - Yes, I did.
- And if you could, tell us what the name of the -- excuse me. Excuse me. If you could, tell us what the name of the business was, if you know?
 - Health Care Business Solutions. Α.
 - Who was the owner of that business? Q.
 - Tonya Rushing. A.
 - Where was the business located at?
 - Chevenne and Tenaya. Α.
- There was not -- or was it associated in Q. any way that you know of with the Endoscopy Clinics of Southern Nevada, anything like that?
 - Yes. A.
 - And how was it associated with them? 0.
 - We did the billing for them.
- Okay. Physical location, though, was it the same or different? Obviously, the Tenaya address isn't on Shadow Lane.

Yeah, it was different. Α.

2 Okay. Who was the owner of the business 0. to your knowledge?

> Which business? Α.

The one you worked at.

A. Tonya Rushing.

How did you come to work in that facility?

8 I knew her son and I just graduated high school so, you know, I needed a job. I didn't really 10 want to go to college. I was -- I could type fast so, you know, he brought me to his mam, I spoke with her, 12 and she interviewed me and got me started.

Now, once you go to the Tenaya facility, ٥. you said Cheyenne and Tenaya, correct?

> Α. Yes.

What kind of place was that? Was it an office building? Home?

> A. Yes, it was a little office building.

How many people worked in the facility, roughly, if you know?

> Around six or seven. Α.

ο. What was your job specifically?

Well, the medical billing. The data entry and ICD 9 coding.

What is ICD 9?

Basically, the coding of the diagnosis that we got from the anesthesia records. So at this point, if I understand you correctly, you get records from some source, and then do some coding, and then take those records and bill the insurance companies? Α. What kind of records did you bill from? What kind of records did you get to bill with? Like how, what do you mean? Well, you had mentioned anesthesia 0. records. Α. Yeah Were there other types of records that you billed beside anesthesia? Well, it was just a packet of it, yeah, and then the anesthesia records basically. Did you ever do colonoscopy billing or endoscopy, upper endoscopy billings, EGDs? Yes. A. So those as well as the anesthesia? Yes. Α, When you would get those, would they

then be in like stacks and then they would be handed to 1 2 us. Was this every day that you would get 3 4 these? 5 A. Yes. 6 And how many days a week did you work? 0. 7 Monday through Friday. 8 How many would you typically get from say the Endoscopy Center of Southern Nevada on Shadow Lane, 9 10 that clinic? 11 A. A day? 12 Q. Yeah. 13 A. Probably roughly around maybe a hundred or 14 more, around a hundred. So you would get a lot of them? 15 ٥. 16 17 When you got those from that center, tell Q. me how -- I know you said that the courier brings them 18 over, they are in stacks. When they get to the 19 20 business, are you the one that actually takes them? 21 Well, they were brought to me, but yeah. 22 So you actually get them at some point, 23 though? 24 Α. Yes. 25 0. What do you do with them when you get

123

them?

A.

23

24

25

There is a sheet that we fill out, and basically you would fill it out, patient's name, and then you would enter their data entry, like their name, address, and you would look at the anesthesia time, get the time, the diagnosis, the ASA classification.

come -- how would they arrive in your office?

They would be brought in by a courier, and

What is ASA? 0.

It's -- I really don't know. It's just like a Pl, P2, P3 or P4.

ο. So whatever it said, you just put down on the records?

> A. Yeah, exactly.

So one of the items that you mentioned that you specifically looked at and utilized was the anesthesia billing time; is that correct?

> Α. Yes.

What did you do with the -- was it in 0. minutes or what?

> Α. It was in minutes.

What would you do with that? 0.

Well, basically, depending on the minutes, where it ranged, around 30, you know, 28 up through about 34, was depending on how much the anesthesia billing would be.

Were they billed -- were the increments --

were the billing increments in 15-minute levels or increments at that point?

When I had first started, no. But then later on as I was working there, yeah, they had dropped to about ten minutes, around that area.

Okay. I'm not talking about what the ο. actual minutes that came in were. I'm saying the amount that you would then bill to the insurance company or code, was that based on a certain number of -- like an increment, a 15-minute increment?

> A. Yes.

Okay. So for a 31-minute or 32-minute or whatever it was, was that the typical number that you were seeing?

> Α. Yeah.

For ones that were in that range, how many units were you talking about?

> It would be like \$560. Α.

So would that relate to three separate 15-minute increments, though?

No, no, not that I know. I mean it would just be from 31 and up would be 560.

So you knew it by just looking at the 0. minutes, period?

Yeah, there is a paper that we had been

given with the times and what they would be money-wise, 1 2 how much they would cost. So when you saw 31 minutes or more, you 3 4 would bill \$560? 5 A. Yes. 0. Every single patient? 7 Yes. Α. Now, if the minutes were less than 30 but 8 9 more than 15, what would be the amount that you would 10 bill? 11 A. 490. And if you know, below 15 minutes, what 12 ٥. 13 would you typically bill? 14 Well, what I can remember was 150. Α. 15 Okay. Is it possible that it's a little bit different than that but close to it? 16 17 Okay. When you were working for -- and 18 Q. 19 you worked there from this -- you said you thought it was around July/August or so of 2008 until when? 20 21 Well, I worked --A. 22 I think I meant July/August of

So that would have put it around January or so of the following year? Yeah, it might have been a little bit after that sometime. Okay. At some point in early 2008, you stopped working there; is that right?

> Α. Yeah.

23

Why did you stop working there?

I just -- well, it wasn't for me really. I didn't enjoy sitting there doing that all day. It was kind of boring for me.

Now, during the time that you worked there, did the stacks of papers that came from the Endoscopy Center with the billing minute times on them, were they all about the same or did they vary?

Yeah, they were all around 31 around, 16 Α. 17 yeah.

If there had been some big differences in that, would that have been something that you would have noticed?

A.

So if you're getting upwards of a hundred 0. of these a day, you're coding them and writing those \$560 charges for all of these during that time, pretty much it's 560 for every one of them?

127

Well, yeah, about 560 or 490.

Well, six months. Six months at least I

Okay. So if it fell below that 30, was 0.

A. Thirty-one.

it —

'07 until --

know that.

A.

Α.

If it fell below, you would have to charge ٥. 490?

A. Yes, from what I remember. Yeah, I'm pretty sure.

Now, somewhere down the road, did you notice that the actual anesthesia records that were coming in had changed dramatically?

> Yeah, they had changed. Α.

Do you remember roughly about when that was?

No, I don't really remember around what time because I wasn't, you know, I was just --

Was it around the time that all of this 0. endoscopy thing was hitting the news?

Not that I remember. I mean, I wasn't, no, not that I know of.

> Was it in 2008 that that happened? 0.

Okay. So in 2008, and obviously you left in early 2008, so it had to have happened before you left?

Α. Yeah.

So at some point, you said that the times Q. dramatically changed. What are we talking about as far as dramatically changed?

A. Well, the anesthesia times were around like 10, 12 minutes. They were roughly around there like all of the stacks that we were getting.

So instead of 31 plus, they are now down to the 10, 12, even up to 15 possibly?

> Α. Yeah, up to 15, yeah.

Okay. At that point of this, of all these 11 stacks that were being billed, how much were you then 13 billing out to the insurance companies to pay?

A. From what I remember, 150.

So big difference between 150 and 560?

Yeah. Α.

Were there many that were - I mean, of all, let's say, out of a hundred that you received on average that were down in that range, how many of those would be in this 12-to-15 range and how many of them would be higher than that?

Well, I remember getting a few stacks of them. All of them were like that, so ...

24 So at this point, was it unusual to see one that was higher? 25

1 Yeah, it was. 2 When you saw that happen, did that kind of O. 3 get your attention? Yeah. I had brought it to my supervisor's 4 5 attention because, you know, the billing is different, you know, the times and it's not normal for me. I 6 haven't seen that. You know, I don't know if I should 8 send it to the insurance or not, you know. 9 And if I understand you correctly, your job is to take that, code it, and then actually send it 10 off to the insurance with that dollar amount in it; is 11 12 that correct? 13 A. Yeah, on the computer, yeah. 14 Without getting into what people told you, after your conversations and raising this, did you ever 15 16 go back to the 30-plus minute billing or did you stick 17 with what was actually showing up on the forms? Α. 18 I stuck with what was on the form then and 19 billed it out that way. 20 Did that stay like it was until you quit? Q. 21 I don't know. I don't remember. A. Okav. 22 0. MR. STAUDAHER: I have nothing further for 23 24 this witness, ladies and gentlemen.

from the jury? 1 2 A JUROR: To your knowledge, did Health 3 Care Business Solutions have any other clients or do 4 5 any other billing for anybody other than the endoscopy 6 or gastroenterology? 7 THE WITNESS: Well, from what I know is 8 Desert Shadow and the Endocscopy Center. 9 A JUROR: Okav. 10 THE FOREPERSON: Any further questions? 11 None. 12 A JUROR: I have one. 13 THE FOREPERSON: Yes. Go ahead. 14 A JUROR: Did you ever think that the 15 billing time was quite extensive based on how many claims you got each day? 16 17 In other words, did you feel that the 18 billing hours were more than what was actually -- had 19 actually occurred based on the claim forms you got? 20 THE WITNESS: No, not -- when they were 21 normal or --22 A JUROR: No. When they were at the 31 23 minutes, I'm talking about. 24 THE WITNESS: On the 31 minutes, no, that 25 was normal.

131

A JUROR: How many people would you say there were claims for at 31 minutes or thereabouts? How many a day on the average?

> THE WITNESS: About a hundred a day. MR. STAUDAHER: And I'm going to ask a

THE FOREPERSON: Are there any questions

follow-up to that.

By law these proceedings are secret. You are prohibited from disclosing to anyone anything that transpired before us, including evidence presented to the Grand Jury, any event occurring or a statement made in the presence of the Grand Jury, or information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000 fine. In addition, you may be held in contempt of court punishable by an additional \$500 fine, and 25 days in the Clark County Detention Center.

Do you understand this admonition?

THE WITNESS: Yes.

THE FOREPERSON: Thank you. You may be

excused. 18

(A recess was taken.)

THE FOREPERSON: Please remain standing and raise your right hand.

Do you solemnly swear the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: Yes, I swear.

 $\label{the foreperson: Thank you. You may be seated.} The FOREPERSON: Thank you. You may be seated.$

You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakeman, and Keith H. Mathahs.

Do you understand this advisement? THE WITNESS: Yes, I do.

THE FOREPERSON: Could you please state both your first and last names and spell them for the record?

THE WITNESS: It's Marion VanDruff.

M-A-R-I-O-N. V-A-N, capital D-R-U-F, as in Frank, F, as in Frank.

THE FOREPERSON: Thank you.

MARION VAN DRUFF.

having been first duly sworn by the Foreperson of the Grand Jury to tell the truth, the whole truth, and nothing but the truth, testified as follows:

EXAMINATION

BY MR. STAUDAHER:

Q. Mr. VanDruff, I'm going to go back and ask you a couple questions about your background.

- A. Okay.
- Q. What do you do for a living currently?
- A. Right now I'm a customer service specialist at Sitel.
- Q. I direct your attention back to February of '06. Did you graduate from the Nevada Career Institute?
- A. Yes, I did.
 - Q. What did you graduate with?
 - A. Just a diploma for medical assisting.
- Q. Okay. And after you had that, was it a certificate or degree or what was it?
- A. It was just a diploma. It was essentially the same as like a high school diploma, just like a halfway between high school and college.
- 20 Q. Okay. So had you gone to college yet or 21 was this just a step after high school?
 - A. There was a step after high school.
- 23 Q. What did you do after you got that 24 diploma?
 - A. I -- first thing I did was while trying to

find work as a medical assistant, just because it was a little bit more difficult than I thought it was going to be, I worked at Glamour Shots, and then started looking for positions as a medical assistant.

First place I worked was Medical Group at Sun City. After being let go from there, I just got out on foot looking for another job just because I found out my fiancee at the time was pregnant, so I needed to be able to support a child.

Walked into the 700 Shadow Lane building and passed out my resumes, and Endoscopy Center called me back in the next day.

- Q. Okay. When you went back in the next day, are we talking about just shortly after your graduation or was it later on?
 - A. This is about a year after I graduated.
- ${\tt Q.} \qquad {\tt Okay.} \quad {\tt When were you actually hired by the} \\ {\tt Encloscopy Center?}$
 - A. It was May of '07.
 - Q. And you worked with them until when?
- A. Up until up until the center got closed down by the mayor.
 - Q. So in '08; is that correct?
 - A. Yeah. I think it was in May or something.
 - Q. So you worked for them just about a year

then?

- A. Yeah.
- Q. Now, as far as the things that you did for the center, were you assisting with patients?
- A. Well, yeah, I was assisting with patient care. When I first started out there, I was just bringing patients back, triaging them, getting them ready for the procedures, making sure that they had done all their prep and everything properly, making sure that they were ready and getting them into the examination rooms.

After about a month or so, I actually started assisting with the doctors and cleaning the scopes during the procedures and after the procedures.

- Q. Okay. And at the time that you finally left the clinic, is that what you were primarily doing then is assisting with the doctors in the procedure rooms and doing the scope work?
- A. Well, we would alternate, so it was, you know, one day you would be out on the floor. The next day you would be in back. Or depending on the week, you would spend the first half of the day on the floor. The second half of the day you would be in the procedure rooms and the scope room.
 - Q. Okay. Let's talk a little bit about the

procedure room when you were there?

A. Okay.

 $\label{eq:Q.We'll get to the scope room in a little bit.} We'll get to the scope room in a little bit.$

But when you were in the procedure room, what was your job? What did you do?

A. Just assisting, giving the doctor whatever he needed for the procedure, whether it be getting forceps, giving swabs, just water flushes with the syringe.

It was just, you know -- you watch a medical show and, you know, a doctor calls for a scalpel or scmething like that, that's essentially what I was doing.

Q. Did you handle the scopes both before they were used and after they were done using them?

A. Yes, I did.

Q. And then what did you do with the scopes after they were done?

A. We would take them into the scope room. Whoever the technician was in the scope room, would be the one responsible for cleaning it.

Q. Now, during the procedure itself, are you helping the doctor then actually do the procedure?

A. Doctor -- the doctor is doing the

procedure. The only thing I'm doing is, I'm essentially an extra arm.

Like if he had to take a — if one of the doctors had to take a biopsy of a polyp or cancerous part of the colon, I would hand them the forceps. He would squeeze it in.

It was just like this long snake-like thing that had teeth at the end, and there is a little plunger, and my only job would be to open and close the forceps.

The doctor would go ahead and pull the forceps to take the sample, and then I would put it in a specimen bottle.

Q. When you were doing that particular type of work, I mean was there any single physician that you worked with, or did you work with all of them?

 $\hbox{A.} \qquad \hbox{When it came to the Shadow Lane office, I} \\$ worked -- I worked with every one of the physicians.

Q. Did you note a difference in, for example, the speed at which they operated, the different doctors?

A. Some were slower, some were faster. There were certain doctors that just based on the caseload that we were hoping that we wouldn't be working with that day just because they had a reputation for being

slower.

And, obviously, now after this all happened and doing my own research, just reading on line on like what the typical time should take, found out that the slower doctors —

 ${\tt Q.}\quad {\tt I'm}$ not going to ask you to bring — I mean that was just public information you were just looking at then?

A. Yeah.

Q. Okay.

A. Just like web MD and stuff like that.

Q. Okay. And beside, you know, whatever your research may have been on the computer, and I don't really want to get into that at this point —

A. Okay.

Q. — but your observation of what a normal procedure would take. I'm not talking about the faster doctors, I'm just saying on an average, how long would they take in a clinic to do? Colonoscopy? Upper endoscopy?

A. Colonoscopy, you're saying pretty much like if I was to take one of the slower doctors versus one of the faster doctors, the average time between the two^2

Q. Yeah.

A. Average time between the two would probably be about eight, nine minutes for a colonoscopy. Five, six minutes for an upper endoscopy.

Q. Okay. And was that — what about the faster doctors, who were they?

A. The faster doctors in the clinic were -- well, the two fastest were Dr. Carrol and Dr. Desai.

Q. Who was the fastest?

A. Desai.

Q. Noticeably faster?

A. Yeah.

Q. How long did it take him to do those two procedures on average?

A. Usually, if I was in the procedure room with Dr. Desai and we were doing a colonoscopy, we would be done with the colonoscopy in five minutes, unless it was something that really caught his attention when it came to cancer and stuff like that.

When it came to the upper endoscopies, those were usually done in about three minutes.

Q. So three to five minutes is what we're talking about?

A. Yeah.

Q. For both types of procedures?

A. Well, like I said, the colonoscopy would

be five minutes. Three minutes for the upper.

Q. Fair enough.

Now, related to Dr. Desai, when he was dealing with the scopes, if he's doing them that quickly, when it comes time to remove the scope, what was the procedure that you had to get involved yourself with as far as he was concerned?

A. He would pull the scope out and hand it to us and take it back in. I mean unless there was — again, this was unless there was something that, you know, really caught his attention. Then he's like, Okay. We have to make sure that we get that on the way out. Then I would usually get it.

But, typically, on a day-to-day basis, if I was working with Dr. Desai, scope came right out within under a minute and into my hands.

- Q. Okay. When he was actually physically taking the scope out, how fast would he typically do that? Would that be a slow process, rapid process, what was it?
- A. It was pretty quick. It was we joked on the floor that it was almost like he was cracking a whip when he would take the scope out.
- Q. Okay. When the scope came out, were you responsible to kind of catch the scope then?

A. Yeah.

Q. Is that a fair description?

A. Yeah, it's pretty fair. I had to — I had to change garb quite a bit just because we couldn't clean off residue and couldn't sterilize afterwards,

Q. What do you mean you had to change garb?

A. Well, we had protective — we had protective barriers we had to wear over our scrubs.

Typically, in a day we'd change them maybe two or three times a day. Working with Dr. Desai, that number could have easily doubled.

Q. Why was that?

A. Because it just — he swings out and you get fecal matter all over it, and then you don't really want to wear that into the next procedure.

Q. Okay. So if I understand you correctly, were you getting this fecal matter on your person because of the speed that he was taking the scope out of the body?

A. On occasion.

Q. Okay. And was this a general sort of joke around the sort of center that he was pulling them out like cracking a whip?

A. It was said a couple of times.

- Q. Now, as far as the procedure times and so forth, did you ever see Dr. or Dr. Desai start procedures before anesthesia was on, administered to the patient?
- A. I don't necessarily know if anesthesia was admitted. Sorry. I don't know if anesthesia was necessarily not administered to the patient yet. Some people just take longer to go under when it comes to anesthesia.

He would start the procedure before they were completely sedated before, though. I had seen that before

- A. In my experience with him, it was probably one in every 20 procedures.
- Q. Okay. And in situations like that, would there be any communication between the CRNA and Dr. Desai about that issue?
- A. There is there was communications. I do recall the CRNAs actually tell me, you know, can you hold on? The patient's not even completely asleep yet, so ...
- Q. Were they kind of emphatic about saying that, or was it just normal speech, you know, wait for

a little bit, or --

A. It was -- to me it was real concern. It was, you know, pretty much they were looking at it in a situation of, you know, if that was them on the table, they would want to be completely asleep before the procedure was to start.

Q. Okay. And so about one in every 20 procedures you saw you thought?

A. Yeah.

 $\mbox{Q.} \qquad \mbox{Did that happen with the other doctors in} \\ \mbox{the group?}$

A. Not as often. I mean it would happen just on occasion, just out of, I don't know if I ever should really say negligence, but it did. I would say it would happen just out of, you know, general negligence. It's you don't quite realize that the patient's not asleep yet.

Usually other doctors, though, would actually look over the patient, since they are behind the patient, look over, make sure that they are asleep before actually inserting the scope.

Q. Okay. On the instances when the scope was inserted and the CRNAs made some comment about this patient not being asleep yet, did Dr. Desai stop what he was doing?

A. No. I don't think he even heard the CRNA saying the patient wasn't even asleep yet.

- Q. You were there?
- A. Yeah.

- Q. You heard it?
- A. Uh-huh.
- Q. He was standing next to you?
- $\label{eq:A. Uh-huh, but I just don't think he was paying attention.} A.$
- Q. Okay. What about reuse of various items in the sort of the procedure room? And I'm talking about, kind of go through them, bite blocks, did you ever see those reused on patients and washed off or whatever?
- A. Unless the patient had a sexually transmitted disease, we would go ahead and wash and sanitize them through our scope cleaning machine. And then go ahead and reuse them on the next patient.
- Q. So if I understand you correctly, the scopes that have been in somebody's bottom --
 - A. Uh-huh.
- $\label{eq:Q. --- so to speak, were put into a machine for cleaning?}$
- A. Well, it's -- we had a -- we had a process we had to go through. We had to first go ahead and

actually clean the outside by hand of the scope, when it came to actually cleaning the scopes.

It would go into a first — it would first go into a tub with some machines connected to it that would actually go ahead and just flush the solution through it to make sure that it's completely flushed out and cleaned out.

Go through another solution to rinse it, and then into the scope machine to actually go ahead and go through the sterilization process.

- Q. Okay. Did the bite blocks go through that same process then?
- A. Without flushing them, but we did wash them by hand, make sure they were rinsed, and then put them in the sterilization machine.
- Q. So once the scopes have gone through this flushing and whatever, they are put together with the bite blocks and processed; is that right?
 - A. Yes.
- 20 Q. Okay. So the same scopes that go in the 21 bottom, the mouth things are in the same
 - A. Uh-huh.
- 23 Q. -- together?
 - A. Yes.
 - Q. Now, as far as the other items that were

potentially reused, did you notice anything, any forceps or any snares or anything like that that were ever reused?

A. Forceps and snares we did not reuse. We made sure that they went into biohazard sharps to be disposed of properly.

The only thing that I could actually say that on a personal level that I did reuse because I was instructed to use were just syringes for the purposes of flushing water, cleaning out the actual — the actual beaker, container, whatever it was called, that we would actually use to go ahead and suction up the water with the syringe.

And cleaning out another container, we had to go ahead and actually prewash, kind of prerinse the scope in the procedure room before we brought it into the scope room.

- Q. What about the solutions that were used to clean the scopes? Was there any issue with that?
- A. We -- pretty much we were told -- well, I was told by other techs, by other GI techs on the floor who were the ones that were assisting me and telling me how to do this, that we were supposed to do it by sight.
 - MR. STAUDAHER: Okay. And I don't want to

necessarily — that's — I'm going to admonish the Grand Jury on that particular statement about it being a hearsay statement about something related to what he was supposed to do.

BY MR. STAUDAHER:

- Q. That's not offered for the truth of the matter, just for what you did or did not do?
 - A. Okay.
- Q. Based on whatever you were trained or told, how did you handle the solutions?
- A. Solutions, if they became the solutions were like a very bright blue whenever they were completely clean, fresh out of the bottle.

I was told whenever they got murky to a point where you couldn't tell that they were blue, or where you could -- it was -- you were able to no longer tell that they were going to be blue for too much longer, then you go ahead and dump it and refill it.

- Q. How often would that be? How many scopes would you process through before that would occur?
- A. Depending on the procedure, depending on the cleanliness of the procedures, it would be -- sorry -- anywhere from 10 to 20 scopes.
- Q. And when the CDC came in, you were there when that occurred, right?

A

5 6 7

 A. Yes, I was.

Q. Did that process change?

A. When the CDC was in there, we were told to go ahead, and this is what I was doing is I was actually cleaning four scopes, and then dumping it.

Found out from the CDC while they were there, though, that we were supposed to be dumping it after every two scopes.

 $\mbox{Q.} \qquad \mbox{Did that process then get initiated after} \\ \mbox{that?}$

A. Yes, it did.

Q. Okay. As far as the bite blocks are concerned, just re-visit that for a second. How many of those would you typically open up in a day?

A. Six.

Q. And that was to service everybody for the whole day?

A. Uh-huh. As I said, unless — it was six at the beginning of the day, unless, as I said, they had, you know, a sexually transmitted disease or a communicable disease, then that bite block would be thrown away and a new one would be opened up for the rest of the day.

Q. Now, when the state CDC were coming in to sort of look at what was going on in the clinic, was

there some discussion about that before they actually arrived?

A. We were told that there were going to be visitors who were coming in, that we would have to change procedures a little bit, such as making sure that after every four scopes were cleaned, that we went ahead and dumped the cleaning solution and re-did it.

We were told that we would be -- we would need to go ahead and change the aprons that we were using during procedures after every procedure and make sure that we were wearing a mask during the procedures.

Q. Okay. Did you actually do those things?

13 A. Yes, I did.

Q. Now, prior to the state coming in, that, I assume, was not the practice, though?

A. Like I said, it was -- usually you would go through like maybe three aprons in a day before the state had come in.

And I would only ever wear a mask if I was feeling sick as a protective barrier, just to protect other patients from myself, just because I had never worked in the GI field before.

I had never worked doing endoscopies or any other surgical procedures for that matter, so I didn't know that this was really something that I $\,$

should be wearing the face masks through every procedure until this happened.

Q. Now, when you -- so I guess where I'm going with this is, when -- before the CDC and the state show up, is there some discussion about at least tightening up procedures?

A. Yeah.

Q. So when they show up, the CDC and the state, did they see the way things had been actually happening in the clinic prior to their arrival?

A. No.

Q. Okay. Had the sort of procedures improved by the time the state actually got there?

A. When the state actually got there, even the doctors that would go, you know, a little bit quicker, would actually slow down and went at the rate of the doctors who were actually going slower, so ...

Q. Was Desai working during any of that time?

A. I don't remember if he was or wasn't actually.

Q. Do you remember during any of the period, and they were there about a week or so; is that correct?

A. Yes

Q. Do you recall ever seeing Desai work

during that whole time?

A. I mean I hate to say just because it's something on a personal level, but it's my son was actually -- I was actually having my son be born around the same time. So it's most -- my attention was pulled away to that. I really don't remember if Dr. Desai was working during that week or not.

 $\ensuremath{\mathtt{Q}}, \quad \ensuremath{\mathtt{Fair}} \mbox{ enough.} \mbox{ And that's fine. We'll move to another area.}$

Once the state came and left, though, did the process or the procedures that had been recommended by them, did you guys institute those?

A. We -- yeah, we instituted those. We were under the impression that it was going to be happening again, that they might be dropping by randomly. So we made sure that we continued to do exactly what we were doing prior to them coming in.

We weren't even told why they were coming in. We were just told it was essentially just another inspection that any medical clinic would go through to make sure that they can keep their license to be open.

Q. Okay. Now, I'm going to ask you a couple questions about propofol. You know what that is, do you not?

A. Yes, I do.

another procedure?

Α.

colon, and the doctor themselves, just so I could know what's going on.

From my understanding -- well, I really shouldn't give what my understanding of what's going on because you said you wanted to know what I actually

used from one patient to another.

Q. Is that because of your positioning in the room --

saw. So I can't really tell you if the syringes were

A. Yeah.

Q. — and what you could see?
Okay. That's fine.

A. I was aware of the CRNA, but I wasn't really paying attention to what the CRNA was doing.

Q. Did Dr. Desai ever talk about syringe use or reuse or anything like that at any time, either before or after the CDC came?

No, not that I know of.

Q. Did you ever hear him discuss any of this stuff, about propofol use or anything like that?

A. Honestly, when it came to procedures and policies of what was going to be going on inside the clinic, I had no interaction with Dr. Desai.

 $\hbox{ It was $--$ it all came down the ladder of } \\$ okay, well, this is what we're doing. This is what

155

your job is, so this is the information that you get to know is what's going on because it pertains to your job.

So I never really heard anything of what Dr. Desai was saying about reusing any of the equipment.

syringe used during this procedure and then used on

the monitor that showed us what was going on inside the

My direction was mostly on the patient,

Q. How many patients would you typically be seeing in a day, dealing with?

A. If I remember correctly, a minimum of 60.

Q. Was it more than that at times?

A. Oh, yeah.

Q. You said, "Oh, yeah," were there a lot more?

A. There was quite a few days that even with patients canceling and patients being added on the day of we would end up seeing 90 patients in the day.

Q. And that's procedures done on patients --

A. Yes.

Q. -- is that right?

Now, did you ever see CRNAs move from room

to room?

A. Yes.

Q. How would that happen? And was it during breaks, was it the end of the day, beginning of the day, what?

A. Typically, there was one doctor working. Okay. Usually I would only see this in the morning or if the CRNAS — if we were breaking out for lunch because we would only have two CRNAs there.

So for the first two hours of the day, there would be one CRNA and one doctor. So since there is one CRNA and one doctor and we are doing procedures, the CRNA would follow the doctor back and forth to be able to give the anesthesia for the procedure.

If a doctor was -- if we were during our lunch -- if we were during the lunchtime, we would go back to only having one doctor on the floor, and then the CRNA would swap out, half hour for one CRNA, half hour for the other, and then they would go back, but usually it was just from one room to another after the procedure.

 $\mbox{Q.} \qquad \mbox{So you did see the CRNAs move at least} \\ \mbox{from room to room for various reasons during the day?}$

A. Yeah.

Q. During the time that you saw the CRNAs go from room to room, did they carry anything with them?
Did they carry any syringes, drugs, toolboxes, anything like that?

A. They had like a tackle box that had the medicines that they would use for the day.

g

Q. And they would take that with them from one room to the other?

A. Yes.

- Q. Beside that was that a fairly regular occurrence?
 - A. Yeah.
- Q. Beside that, did you ever see a CRNA that came from a different room come into a procedure room that you were in and use propofol or set up or drugs or anything that were in that room already?
- A. Typically, what I saw -- okay. So you're asking if a CRNA would come into a room and handle supplies that they didn't set up?
 - O. Yes.
 - A. I don't think I ever saw that happen.
- $\label{eq:Q. So they would bring their own stuff to the room?} Q. \qquad \text{So they would bring their own stuff to the room?}$
 - A. Yes.
- Q. So did you ever see, when that occurred, a bottle of propofol, for example, that had some propofol in it just sitting on the -- on the table or wherever, where the anesthesia person would be?
- A. I would only see that happening if we were just setting up the procedure and it was the CRNA that's been in the room the whole time.

Q. Okay. Who was in charge of the facility?

A. When I was hired in, Katie Maley was the office manager. Shortly after, she was going on to assist in opening up the other clinic that they were opening in the Spanish Hills.

 $\label{eq:And then Jeff Kruger was the nurse in charge of the facility, and he was the one that I would be taking orders from pretty much.$

- Q. Okay. As far as procedural stuff that went on in the clinic, who made the shots or who called the shots, so to speak?
- A. The doctors. I mean, it's -- I mean I don't think I actually understand the question.
- Q. Okay. Was somebody else able to make the decisions as to what happened and how things occurred and what to order and all that stuff in the office?
- 17 A. Well, the -- Jeff and then later Janine, 18 whenever she became head nurse, would actually do the 19 supply ordering.

But when it came to how to do the procedures and everything, that was something that was completely handled by the doctors.

Q. Okay. Did you ever deal with the administration and how things, you know, beyond just working in the scope room and the procedures dealing

with the doctors. Did you ever deal with any of the other parts of the clinic?

- A. No. I didn't.
- Q. Okay. When you were there, was there anything there beside the things we talked about that were -- that you saw that were concerning to you or that gave you pause?
- A. I just thought that we were doing too many patients in a day honestly, and it was -- I'm an adaptable person. I just shrugged it off and learned how to cope with it.

But there wasn't a whole lot that I really paid attention to during the day. I just kind of did my job and was hoping that one day I would be able to move on to another clinic because I didn't really like the work.

- Q. Did you feel pressure in any way to maintain that schedule and that patient load?
 - A. Yeah.
- Q. And I'm talking about even back in the scope room when you were cleaning scopes, did you feel like you were pushed to, you know, get them ready, keep them available, that kind of thing?
- A. Yeah. I mean there was a couple of times, just because we had procedures going on that were just

going on really quick, that it's - I can't - I'm processing the scopes for the full time that they are supposed to be processed, but I have them piling up on me, and we have no scopes left available.

So we're getting backed up because they are waiting for me to get scopes finished and cleaned and dried before they can hang up for the next procedure.

- Q. So did that sometimes sort of cause trouble with the whole machine?
 - A. Yeah.
- Q. When that happened what would occur? Would somebody come back and talk to you about it, yell at you, anything?
- A. They just said, you know, you have to pick up the pace and everything. And it's just, me being just, you know, a typical worker that your boss comes in and tells you that, hey, you need to pick up this pace.

You're just kind of thinking to yourself, hey, you should come back here and do this yourself if you think I'm not doing it that well.

But, like I said, I — when it comes to medicine, the one thing that I was definitely taught was that you don't do anything to compromise

cleanliness.

5

Ŕ

So I wasn't going to cut corners or anything like that just to try to catch up, and I wasn't told to, but it just kind of seemed like that's what was expected to me. But just because of the way I was taught that wasn't going to happen, so ...

- Q. So you didn't engage in that, but you felt pressure to do that. Is that what you're saying?
 - A Yeah
- Q. And if I understand you correctly, the actual things that you were doing back there had fixed times associated with them. You couldn't process -- if you put the machine -- what was the machine that you put the scopes into called?
- A. Oh, I don't even remember what that machine was called. It was just a scope-processing machine. I don't remember the actual name of what the machine was called.
 - Q. Does medivator sound familiar to you?
 - A. Yeah.
- Q. Okay. When the scopes went into that machine, did they have to be in there for a fixed period of time?
- A. Yeah. There was just a button you pushed, and it went ahead and did it. It went through the

whole cycle for you.

I mean you could open the machine up, but the machine could possibly fail if you opened the machine up before it finished processing.

- Q. But even though that's a fixed amount of time, you're still getting pressure to get the scopes out of the machine?
- $\mbox{A.} \qquad \mbox{Yeah, but I was waiting until the time was} \label{eq:A.}$ over.
- Q. Okay. Anything else that concerned you about anything that was going on with the clinic and what Dr. Desai was doing?
- A. Not really. If I had more experience as a surgical tech or as a gastro tech, I probably would have been a little more concerned. But like I said, this was the first job I worked at as a GI technician, so I wasn't really familiar with what should be going

 $\label{eq:mr.staudaher:} \mbox{M. STAUDAHER:} \quad \mbox{I have nothing further.}$ THE FOREPERSON: Are there any questions from the jury?

Yes

A JUROR: At any time did they tell you, they being one of the doctors or one of the supervisors, tell you take shortcuts if you have to to

get us the scopes, get us mouthpieces faster?

THE WITNESS: No. Like I said, it wasn't exactly something that was actually said to me to, you know, well, get this done, you know, get the machine out quicker, you know, and everything like that.

It was just something that, as I said, in any job, you have your boss hovering over you. You would kind of feel pressured to get things done quicker, but, as I said, when it comes to cleanliness, I'm not going to sacrifice that at all.

THE FOREPERSON: Ann?

A JUROR: You said you felt pressure that they told you you needed to pick up the pace.

Did they in any way instruct you on how they felt you should do that?

THE WITNESS: No. So I just continued doing what I was doing.

THE FOREPERSON: Okay.

Steve?

A JUROR: And back to the same question, are you aware of any of your coworkers taking shortcuts because of that pressure?

THE WITNESS: No.

THE FOREPERSON: I have a question. On the bite blocks and scopes being

cleaned, were they being cleaned together in the same solution at the same time?

THE WITNESS: Yes.

 $\label{thm:constraint} THE \mbox{ FOREPERSON: } All \mbox{ right. } \mbox{ Are there any} \\ \mbox{further questions? } \mbox{ I do have one more.}$

When the scope was removed from the patient by Dr. Desai, when you said he came out so fast you got fecal matter on your garments --

THE WITNESS: Yes.

THE FOREPERSON: Did it sometimes go beyond you and splatter around?

THE WITNESS: It would occasionally get on like on the floor or the walls. And, you know, just being the procedure room technician, after I got the scope into the scope room, I would have to go ahead and make sure that that was cleaned up and everything like that

Going through with actual hospital grade disinfectants and hospital grade sanitizers to go ahead and clean it up and make sure that there was no trace of it before the next patient got in.

THE FOREPERSON: No visible trace?

THE WITNESS: No visible trace. And like
I said, it was actually -- we actually used hospital
grade disinfectants and cleaners, that if you went into

a hospital, you would see them all around to make sure 1 2 that it was cleaned up. THE FOREPERSON: Thank you. Any other 3 questions? None. 5 By law these proceedings are secret. You 6 are prohibited from disclosing to anyone anything that 7 transpired before us, including evidence presented to 8 the Grand Jury, any event occurring or a statement made 9 in the presence of the Grand Jury, or information obtained by the Grand Jury. 10 11 Failure to comply with this admonition is 12 a gross misdemeanor punishable by a year in the Clark 13 County Detention Center and a \$2,000 fine. In 14 addition, you may be held in contempt of court punishable by an additional \$500 fine, and 25 days in 15 16 the Clark County Detention Center. Do you understand this admonition? 17 18 THE WITNESS: Yes, I do. THE FOREPERSON: Thank you. You may be 19 20 excused.

We are off the record now.

DANETTE L. ANIONACCI,

having been first duly sworn to faithfully and accurately transcribe the following proceedings to the best of her ability.

THE FOREPERSON: Let the record reflect that I have canvassed the waiting area and no one has appeared in response to Notice of Intent to Seek Indictment.

MR. STAUDAHER: Ladies and gentlemen of the Grand Jury, this is the continuation of Grand Jury case number 09BGJ049A-C, State of Nevada versus Dipak Kantilal Desai, Ronald Ermest Lakeman and Keith H. Mathahs.

As I have said before in the previous presentations to you I told you that I would address you each and every time to make sure that there was, we address the issue of potential bias. If after the testimony that occurred last time and between now and then you have developed any or harbor any new biases now based on that testimony which would cloud your judgment or your impartiality in rendering a decision when you're

asked to do so down the road as to whether or not the State has met its burden in this case on the charges or not, that's the issue that I have to address each time. So with that being said, does any Grand Juror now present, have they developed or has anything came into their mind that would prevent them from being completely unbiased and just listening to the facts and applying them to the charges as presented?

A JUROR: No.

THE FOREPERSON: No.

MR. STAUDAHER: There is a general consensus that there has been no change in that as there has been in the previous presentations as well.

That being said, are there any questions that the Grand Jury has at this time regarding the law pertaining to any of the charges that have been presented? And I will revisit the law at the very end to make sure there is no question as to what law you are to follow. You all have copies of the statutes and they are an exhibit, I think Exhibit Number 2 in this particular case. Any issues with any questions thus far regarding the law?

THE FOREPERSON: No.

MR. STAUDAHER: Are there any questions that the Grand Jury has at this time that they would

like answered if I can?

THE FOREPERSON: No.

MR. STAUDAHER: With that we'll go ahead and continue the testimony.

THE FOREPERSON: Please raise your right

hand. Thank you.

You do solemnly swear the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: I do.

THE FOREPERSON: Thank you. You may be seated.

You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act of reckless disregard of persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakeman and Keith H. Mathahs.

Do you understand this advisement?

THE WITNESS: Yes, I do.

THE FOREPERSON: Thank you. Could you please state both your first and last names and spell them for the record.

THE WITNESS: Elaine Myers. E-L-A-I-N-E, M-Y-E-R-S

THE FOREPERSON: Thank you.

MR. STAUDAHER: And ladies and gentlemen of the Grand Jury, before I get started with this witness I do want to refer you to the criminal complaint, or rather the Indictment I think is what we have up there right now before you, the testimony of this particular witness will pertain specifically to Counts, 14, 23, 44, 53, and 18, 27, 48 and 57. The two patients in question will be Rudolfo Meana and Gwendolyn Martin. In addition the racketeering counts will be referred to as well from this testimony which are Counts 28 and 29 and Counts 58 and 59 and that's with the information or the Indictment as it's currently constituted.

ELAINE MYERS,

having been first duly sworn by the Foreperson of the Grand Jury to testify to the truth, the whole truth, and nothing but the truth, testified as follows:

BY MR. STAUDAHER:

Now, that being said, ma'am, what do you do for a living?

Now Pacific Care is what, an insurance company?

Pacific Care is a HMO. We pay the HMO claims. It's an insurance company for HMO products. They have both a commercial and senior product.

Can you tell us what the commercial product is called?

> It's Pacific Care Commercial. Α.

What is the senior called?

Secure Horizon. A.

If we see something called Secure Horizon that is in fact Pacific Care?

> That is Pacific Care. Α.

Now directing your attention to -- well, before I do that let me ask you just a couple more predicate questions regarding what your company does.

You say you take in claims and so forth and then pay those claims?

> Yes, sir. Α.

How does that work? I mean you're sitting in your office or your company is and how does a claim come in, how does it get processed and then paid?

Grand Jury Exhibit Number 35. It's a six-page document. So if you are referring to this document during your testimony and you're referring to a specific page I ask that you identify which page of the exhibit you're referring to. Fair enough?

> A. Yes.

I'm going to hand that to you and ask you to flip through it generally at this time and just tell me if you recognize the document itself or series of document I quess.

> A. Yes, I do.

Okay. What are those series of documents? Let's start off with page 1, what is it?

That's a HCVA 1500, it's the name of the claim form that providers submit claims for professional services.

Is that the claim that was submitted for that patient for the date of the 21st of September of 20072

> Yes, it is. A.

Company received that. Did your company process that claim?

> Yes, we did. A.

After the claim was processed did you actually make a payment on that claim as it was

The provider submits the claim via mail, we receive hard copy claims, and then we process those claims, we take them in, date stamp them and then put them through a computer adjudication system that pays the claim.

0. And when you pay the claim do you pay it back to that provider that sent it to you originally?

That's correct.

9 0. I'm going to direct your attention to 10 specific instances involving two patients. Let's start off with one, I believe it's a Secure Horizon product, 12 it was an individual by the name of Rudolfo Meana.

> A. Yes.

Is that one of the individuals that your company dealt with as far as dealing with the claim and payment for a claim?

Q. Specifically I'm going to direct you to a time period of September 21st of 2007, a claim regarding that day. Did you have a chance to review any information in your company pertaining to that claim?

Yes, I have.

Now I'm going to be showing you some documents specifically related to that particular person and that particular claim. They have been marked as

submitted to you? 1

And do you have other documents that show what payment was made on that claim?

A.

And you're referring now to another page of 0. the document?

To page 2 of the exhibit, explanation of A. benefits.

And how much money was paid on that particular claim?

> A. \$131.20.

Now the amount that was actually submitted 0. as a bill was greater than that was it not?

Yes, it was.

What was the amount submitted initially? o.

\$560. Α.

I'm going to take this claim form from you Q. for a moment and the associated document and I'm going to display them for the Grand Jury and I'm going to ask you some specifics about what we're looking at.

Now at the top of the form it says 1500 insurance claim form. Is this where you get your designation of the HCVA 1500?

A. Yes, it is.

Q. Under number 2 on that form we have a name, that's Rudolfo Meana, is that what designates this patient as being on that claim form?

A. Yes, it is.

Q. I'm going to move down the claim form to the section, I believe it is, it looks like it's section 24, do you see that here?

A. Yes.

1

2

15

16

17

18

19

20 21

22

23

24

25

Q. And then below that where it's talking about date of service and so forth.

A. Yes.

O. Date of service on that form?

A. 9/21/07.

 $\,$ Q. Now there is a designation for, I believe it's under section D, procedure and services. Do you see that?

A. Yes.

Q. It's got a number there 00810, what does that designate?

A. That's an endoscopy procedure.

Q. So a specific type, upper, lower endoscopy?

A. Yes

Q. If we move to the end of the claim I see under charges, and I believe that's section F of that portion, there is a dollar amount?

15

on that claim form for that patient it's 33 minutes; is that right?

A. That's correct.

Q. Do you know how anesthesia is billed and how it comes in and you pay on it?

Yes. Anesthesia is paid by units and the A. one unit is equal to 15 minutes. There are base units, every unique procedure code, the 00810 signifies a procedure and there is a base unit assigned to that procedure. That base unit is five, an increment of five units. In addition to that there are the 33 minutes. And for every 15 minutes that's one unit. So 15 minutes is one unit, 30 minutes is two units, 45 minutes is three units. It is always rounded up. So 33 minutes is equal to three units. So that claim was paid based on five base units which includes like set-up and the preliminary plan that the anesthesiologist does and then three base units for a total of eight units. That is multiplied then times whatever the contracted rate per unit is by whichever health insurance company.

Q. So let me understand this correctly. That particular bill that we're looking at for Rudolfo Meana which says 33 minutes of anesthesia time, they would have five base units, plus for this particular one an additional three units for a total of eight?

A. Yes.

1

2

3

5

6

7

В

11

16

17

18

19

20

21

22

23

24

25

O. How much is that?

A. \$560, that is the billed amount.

Q. The amount that actually came from the center?

A. Yes.

Q. To your office for a charge or as a charge to be paid?

A. Yes

Q. And then next to that, specifically I want to ask you about section G across there where it says days or units, that portion. You see that?

A. Yes.

Q. There is a designation of a number there. What is that number?

A. It's blurry, I'm sorry, I can't ---

17 Q. That's fine, I'll show you the document and 18 we'll put it back up. Handing you the direct document.

A. Thirty-three.

Q. Now I'll display that once again for the Grand Jury. I know it's typed and a little difficult to read, but 33, does that designate some sort of unit or minute or something like that?

A. It signifies minutes.

Q. Let's talk about minutes for a minute. So

A. Yes, that's correct.

Q. Now if the submitted amount minutes on this
particular form had been let's say 29 minutes, how many
units would have been paid on by, or first of all how
many units would have been billed and how many would
have been paid on?

 $\mbox{A.} \qquad \mbox{Twenty-nine minutes would have been billed}$ and two units would have been paid.

9 Q. So it would have been seven instead of 10 eight?

A. It would have been seven instead of eight.

12 Q. If it was 12 minutes how many units would 13 be paid?

A. A total of six because it would be five

Q. One unit for the time?

A. -- one time unit.

Q. Is it fair to say then if the submitted claim form contained an increased or fraudulent number of minutes, meaning more than what's used on the actual patient, that your company would pay a claim, pay more money than they should have?

A. Yes, that's correct.

Q. And conversely if you had received this claim form and it had said 22 minutes would you have

paid a lesser amount of money than you did on this particular claim?

- A. Yes, we would have.
- Q. Do you pay your claims based on your belief that the information contained on the claims that are submitted to you is accurate?
 - A. Yes, we do.

1

2

3

13

14

15

16

17

18

19

20

21

25

- Q. If you found that the information was inaccurate or fraudulently placed on those forms would your company pay the claim or do something about it?
 - A. We would do samething about it.
- Q. Now I will note on the very bottom of this form, and I think we're talking about boxes 32 and 33, do you see those?
 - A. Yes
- Q. In those boxes we have some designations of, it says service facility under 32, and what is that, service facility?
- A. That's where the service actually took place. It's the facility in which the service took place.
- Q. And it says Endoscopy Center of S. Nevada LLC?
- A. Yes.
 - O. 700 Shadow Lane?

Q. Does that payment pertain to the claim form that we had seen earlier?

A. Yes, it does.

- Q. And you said that the actual paid amount for this claim was \$131.20, right?
 - A. Yes, it was.
- Q. So that's money that actually left your company and went to the Endoscopy Center?
 - A. That's correct.
- Q. The \$560 does that correlate with how much was actually billed?
 - A. That's correct.
- Q. And what is the reason why there is a difference between those two numbers?
- A. Because our contracted rate, we have a, we had a contracted rate with Endoscopy Center that paid \$16.40 per unit per 15 minutes churing that time period.
- Q. Okay. So it would have been an increase if there would have been more units and a decrease if there had been fewer?
 - A. Correct.
- Q. Because you have a contracted rate it's less money than you actually have to pay than what they submit?
 - A. Correct.

1 A. Yes. 2 Q. In Las Vegas? 3 Α. 4 Is that where the bill came from? o. 5 Α. 6 Now under the next one where it says ٥. 7 billing provider there is a name over there. 8 Α. 9 And it has a designation of CRNA. Do you ٥. 10 see that? 11 Yes. A. What name is designated there? 12 Q. 13 Mathahs. A. 14 0. First name? Keith. 15 16 0. So is that the provider on this form? 17 That's the anesthesiologist that performed, Α. 18 that provided the service. 19 Now I want to flip to that explanation of benefits portion which I think you said was on page 2. 20 21 A.

22 Q. Of Exhibit 35. And explain that for the 23 Grand Jury. Again does that have Mr. Meana's name on 24 it?

A. Yes.

25

1

2

3

4

5

6

7

8

9

10

16

17

18

19

20

21

22

23

24 25

19

Q. Is the \$560, is that a three unit charge?
Was that your experience that it was a three unit charge
from, I mean time charge from the Endoscopy Center?

A. Yes

Q. Did every claim that you had come in that was in the three unit charge range have a dollar figure of \$560?

A. I'm not sure.

Q. The ones that you have looked at.

A. Yes, the ones I reviewed all had the \$560

11 billed amount for three time units.

12 Q. Fair enough. Now I know that we have gone
13 through what we just did on this particular patient. I
14 want to move to the next one which is Gwendolyn Martin I
15 believe you said; is that correct?

A. Yes.

Q. I'm going to hand you what has been marked as Grand Jury Exhibit Number 34. Flip through that again and do the same thing, tell me if you recognize the forms that are there and what they are.

A. Yes, I do.

Q. What are they?

A. Again it's the HCVA 1500 with billed charges for endoscopy services.

Q. Okay. And are there two separate groups

21 being the HCVA 1500 form and then an explanation of 2 benefits saying what you actually paid? 3 A. 4 Are they all for the same patient Gwendolyn 5 Martin? 6 They're all for the same patient. There's 7 two HCVA 1500s for two separate services on two separate dates of service. 8 9 o. Fair enough. Showing the first page of 10 Grand Jury Exhibit Number 34, and I know we've gone 11 through the exhibit, I'll go through it quickly. Does it show on the form the name of the patient? 12 13 A. Yes. 14 o. We're looking at the 1500 HCVA form; is 15 that correct? 16 Yes, we are. 17 And then if we go down does it show the 0. 18 procedure date? 19 Yes, 9/20/07. A. 20 So according to this form the procedure 21 occurred on 9/20 of '07? 22 Α. Yes. 23 Still an endoscopy procedure? Q.

particular form, the amount being charged is I think \$560 according to this? A. And the number of minutes billed is 31 minutes? A. Yes-Endoscopy Center of Southern Nevada still? 0. A. And Mr. Lakeman being the anesthesia person? Α. Yes. Now on that particular form, going to page o. 3 of the exhibit, does page 3 relate to the actual, what's called the explanation of benefits form showing the amount paid by your company for this claim? Yes, it does. A. And how much was paid on that particular 0. claim? \$304. A. Even? Q. A. Yes. So \$304. And the charged amount was how ο. much? Five hundred sixty. Α. Now I notice between the first product we Q.

looked at on Miss, I think it was Miss Meana's form, or excuse me, Rudolfo Meana's form and this one that there are difference in what you paid based on the same billed charge.

The point I want to get to on this

24

25

2

3

4

6

7

9

10

11

12

13

14

15

16

17

18

22

23

24

25

A.

- Q. Can you explain that?
- Mr. Meana's was, is a senior and his contracted rate was \$16.40. The commercial -- this member --
- Q. Per unit you mean?
- Α. Per unit. This member is a commercial member so they're a working employed member with commercial insurance and that rate is \$38, was \$38 per unit at that time.
 - 0. So it was much higher?
 - A. It was much higher.
- So is that why there is a difference between how much you have to pay?
- 19 That's why there's a difference in payment. So the units are the same, eight units, but multiplied 20 by a different contracted rate. 21
 - Fair enough. And if you could, if you 0. could let me finish my question before --
 - I'm sorry.

-- you answer that would help the court

reporter taking down what's being said.

Certainly.

3 Now I want to move to page 4 of Exhibit 34 4 which is the, I think another one of these HCVA claim 5 forms; is that correct?

> Yes, it is. A.

It still has Miss Martin's name on it?

Α.

If we move down we see that it looks like 9 this was a claim on the following day, the 21st of 10 11 September of 2007; is that correct?

Yes, it is.

13 Now I notice that the number here under section D on box, under the box, large box 24 --14

Α. Yes.

16 -- has a different procedure type code. Is o. 17 that still an endoscopy procedure?

> Α. Yes, it is.

0. Is that an upper or lower or do you know?

I'm not sure. A.

> But clearly there were two different ο.

22 endoscopy type procedures?

> Α. Yes.

If we move across we see the billed amount ο. is still \$560?

1

2

19

20

21

23

24

25

25 1 Yes. Α. 2 And the minutes that were submitted to your 3 company on this particular claim were 32? 4 A. Yes The CRNA at the bottom in box 33 is I 5 6 believe Keith Mathahs; correct? 7 8 And then box 32, this was a claim that came from the Endoscopy Center? Q, 10 A. Yes. 11 Move to I believe it's page 6 of the 12 exhibit which is titled explanation of benefits. Do you 13 see that? 14 Α. Yes ο. What is the date for this particular, the 15 procedure related to this payment of claim? 16 17 9/21/07. 18 ٥. Does that refer to the HCVA form we just 19 saw a moment again? 20 A. Yes, it does. 21 Same patient's name? 22 Dollar amount that was billed? 23 0. 24 \$560. Α. 25 The amount paid? Q.

\$304. 1 A. 2 So if I understand you correctly this 3 patient had procedures on the 20th and the 21st and that 4 on those two days the amount of anesthesia billed was the same: correct? 5 6 A. 7 The amount of payment for each procedure 8 was the same? 9 Α. Yes. 10 ο. If the person had had a, let's say just on 11 the 21st for example had had both the upper and the 12 lower endoscopy done at the same time, would there have 13 been one anesthesia charge or two? One. One base unit charge. 14 A. 15 But not two separate? ο. 16 Not two separate base units. 17 And then the time for doing both would have 18 been certainly added together; correct? 19 Α. Correct. 20 0. Are those the only two patients that you 21 reviewed in relation to this particular case? 22 23 MR. STAUDAHER: I have nothing further for 24 this witness. 25 THE FOREPERSON: Are there any questions?

27

BY A JUROR:

22

23 24

25

Miss Myers, there is a commercial product and a senior product?

> Α. Yes.

0. On the senior product is Medicare billed for a portion of that as well?

No. What Secure Horizons Pacific Care senior product is a Medicare managed, Medicare advantage product. So Medicare subcontracts to other HMO insurance companies to provide health care to their members. So Medicare relinquishes their billing rights to the insurance company that they have contracted, subcontracted with.

> ο. Thank you.

Does that --

THE FOREPERSON: Any further questions?

17 BY A JUROR:

> If there was a patient without insurance of 0. any sort would that patient pay the full \$560.

Q. No discounts to the patient?

Well, that actually is a provider question.

I'm not, I'm only speaking as an insurance company.

But you have paid claims for the full amount?

They have insurance, if I receive their A. claim they have insurance.

0. They have insurance. I see.

And they are contracted with us.

I understand. Thank you. 0.

To provide that.

BY A JUROR:

1

2

3

4 5

6

7

Я

9

10

11

12

13

14

15

16

17

18

19

21 22

23

24

25

0. Does your billing company or your insurance company require anesthesia records or any other medical records be submitted with the HCVA or do you request those only on a case that you may need them?

Only a case that they're required. One of the other items on the form is actually the time. Above the area there is a time.

MR. STAUDAHER: And so that we're clear on this I'm going to hand her back both of the exhibits. I don't know if she needs to refer to both. But if you would tell us which one you're looking at.

THE WITNESS: I'm looking at Rudolfo Meana.

20 MR. STAUDAHER: So that for the record is

Grand Jury Exhibit Number 35 and she's referring to the first page of the exhibit.

THE WITNESS: And above the procedure code there actually is a time entered and this one is 10:30 to 11:03.

RA000317

31

```
MR. STAUDAHER: And I'll display that to
1
   the Grand Jury so that we can make sure we see what
2
    you're referring to. And I'll zoom in on it actually.
4
                 So can you say that once again now that
   this is displayed for the Grand Jury.
5
                 THE WITNESS: Yes. So when we receive the
6
7
    claim we see the 10:30 to 11:03 and that equates to the
    33 minutes and as long as that is on the form and it's
8
9
    our contracted provider and there is no reason to have
    an indication that it's not accurate that is what is
10
11
12
                 A JUROR: Thank you.
13
                 THE FOREPERSON: Any further questions?
                 MR. STAUDAHER: I now have a follow-up
14
    question to that.
15
                 THE FOREPERSON: Okay.
16
17
    BY MR. STAUDAHER:
18
                 Related to that particular item that you
    just designated, is that also present on Grand Jury
19
20
    Exhibit Number 34?
21
           A.
                 Yes, it is.
                I'm going to place that up there so that
22
    the Grand Jury can see that as well.
23
                 So there is a specific time frame listed;
24
25
    is that correct?
```

That's correct. This procedure took place 1 2 between 12:20 and 12:51. And this is the procedure I believe on the 3 20th; correct? 4 5 Α. 6 And the other one which you mentioned was 10:30 to 11:03 was on the 21st? 7 Correct. 8 A. And that was Grand Jury Exhibit Number 35; 9 0. 10 correct? THE FOREPERSON: Yes. 11 MR. STAIDAHER: One second, I'm not done. 12 13 With relation to that, did your company 14 require that the actual minute time or the time designated for the anesthesia be submitted along with 15 16 the bills? 17 A. Yes. That was something specific to Pacific 18 0. 19 Care? 20 That was something specific to our A. 21 processing of the claim, yes. So if other insurance companies had that or 22 didn't have that you wouldn't really know? 23 I wouldn't know. 24 25 It was just something that your company

required? 2 That's correct. 3 MR. STAUDAHER: Okay. BY A JUROR: 4 Did you have anyone audit those time ο. 5 factors to see if there was any overlap? 6 No, we did not. THE FOREPERSON: Any further questions? 8 9 None? 10 A JUROR: I have one. THE FOREPERSON: Okay. 11 12 BY A JUROR: I kind of was confused on the contracted 13 ο. rates that you had. When you said you had it with Dr. 14 Desai, so you guys agreed that this is the amount that 15 you're going to pay for this, that's what it meant? 16 17 Α. Correct. Okay. So different people, different 18 insurers do different rates with different doctors? 19 Correct. 20 That's what it meant? 21 0. Correct, different insurance companies have 22 different payment methodologies and contracts with 23 providers. 24 25 Okay. Q.

BY MR. STAUDAHER: 1 I'm sorry, I have one additional follow-up. 2 0. I just want to be clear on this. I showed you, and I 3 just want to go, we're looking currently on the screen at Exhibit 35, is that correct? And let me go to that section. We're looking at box 24, section or column D. 6 Correct? 7 A. 9 The number designations on that are 10.30 to 11.03? 10 11 A. Yes. And this is Rudolfo Meana; correct? 12 Q. 13 Α. And the 21st --14 0. 15 A. Yes. Q. -- of September of 2007? 16 17 18 Q. Now on Gwendolyn Martin, I think I showed you -- and this is Exhibit Number 34. 19 20 A. First page, Gwendolyn Martin, I'll zoom 21 o. back out so we can see where we're at here. 9/20 of 07? 22 23 Yes. And the time that you're talking about is 24 25 12:20 to 12:51?

Yes. Α.

2

3

4

6

7

8

13

14

16

17

18

19

20

21

22

23

24

25

Now page 4 of that exhibit, and I'll show it to you here, it's still Gwendolyn Martin; correct?

> Α. Yes.

And the date is 9/21 of '07? ο.

o. And there are specific times listed there. What are they?

This is 13:15 to 13:47, that is 1:15 to A. 1:47.

Now one question. When you receive these claims in --

A.

-- if you received a series of claims. I assume if you had a lot of Pacific Care patients or Secure Horizon patients who came into a facility on a day for a number of procedures, and since you're having specific times placed on those forms as a requirement, do you ever look at those to see if there is any problem with them, if they overlap, anything like that?

Normally they're processed on an individual basis.

Q. But if somebody had a couple of forms in front of them --

> A. Yes.

> > 35

That's correct, unless a red flag had been raised and we proceeded to investigate.

> Q. Okay.

> > THE FOREPERSON: Any further questions?

None?

By law, these proceedings are secret and you are prohibited from disclosing to anyone anything that has transpired before us, including evidence and statements presented to the Grand Jury, any event occurring or statement made in the presence of the Grand Jury, and information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000 fine. In addition, you may be held in contempt of court punishable by an additional \$500 fine and 25 days in the Clark County Detention Center.

Do you understand this admonition?

THE WITNESS: I do.

THE FOREPERSON: Thank you. You can be

excused.

MR. STAUDAHER: And ladies and gentlemen, I was a little remiss at the beginning. Before I bring in the next witness I just want to reiterate the fact that I know there are a couple of Grand Jurors missing this

-- and they look at them and for example ٥. we're looking at the time range of 1315 to 1347 --

0 - if someone had a form the next form over that says 1330 to 13 whatever, same claim, same company, would that raise a red flag?

Yes, it would.

MR. STAUDAHER: I have nothing further? THE FOREPERSON: Are there any further

10 questions?

BY A JUROR:

Yeah, I do have one.

All right. Based on what Mike said here it would raise a question, I understand. But you wouldn't necessarily handle both claims though, would you? I mean there might be another person sitting down the aisle from you or something.

That's correct. I have, there are multiple claims examiners so two claims for the same time period could be processed by two individual people. We were a manual claim shop meaning that we, a person data entered the information from the HCVA into the computer system and it could have been two different people.

Yeah. So you wouldn't, based on that you 0. may never catch the overlap?

morning, we still have 12 to proceed on, but I want to reiterate that before you deliberate, if you were absent from any of these proceedings you must read the transcripts of any portion or the entirety of any presentation that you have not been present for. Do I have general acknowledgment that you will do that in this particular case?

THE FOREPERSON: Yes.

MR. STAUDAHER: I don't see anybody saying otherwise on the record. Is that true, Madame Foreman?

THE FOREPERSON: Yes.

12 MR. STAUDAHER: With that I'll bring in the 13 next witness.

14 THE FOREPERSON: Please raise your right 15

hand.

You do solemnly swear the testimony you are about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: Yes.

THE FOREPERSON: Thank you. You may be

22 seated.

> You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of

persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ernest Lakemen and Keith H. Mathahs.

Do you understand this advisement? THE WITNESS: Yes.

 $\mbox{ THE FOREPERSON:} \quad \mbox{Please state both your} \\ \mbox{first and last names and spell them for the record.} \\$

THE WITNESS: Corrine Spaeth. First name spelled C-O-R-R-I-N-E, last name Spaeth, S-P-A-E-T-H.

THE FOREPERSON: Thank you.

MR. STAUDAHER: And ladies and gentlemen of the Grand Jury, the testimony of this witness will pertain to the racketeering charges as I've said before, 28, 29, 58 and 59, but in addition to that specifically they will relate to Counts 13, 22, 43 and 52, as well as Counts 17, 26, 47 and 56.

CORRINE SPAETH

having been first duly sworn by the Foreperson of the Grand Jury to testify to the truth, the whole truth, and nothing but the truth, testified as follows:

EXAMINATION

BY MR. STAUDAHER:

Λ

q

Q. Miss Spaeth, what do you do for a living?

about some HCVA 1500 forms. But if I understand you correctly that's where the claim comes from a provider

to your company and then you pay on those claims?

Q. Now when you pay on the claims is that kind of the revenue cycle from your organization, you're the insurance company that insures, you get the claim, you look at it, you decide what your contracted amount is or whatever and you pay on it?

Yes, we do. And yes, it does.

A. Yes, and the member benefits as well.

Q. Got it.

I'm going to direct your attention to two specific patients, specifically Carole Grueskin and Stacy Hutchison. Were they patients with HPN at the time?

A. They were our members, yes.

Q. And did you receive claims from them on the, both of them, on the 21st of September of 2007?

A. Dates of service were September 21, 2007.

Q. Is that what I said?

A. I thought you said received. I'm sorry.

Q. I'm sorry, dates of service. That's what I

meant.

 $\label{eq:Impoint} I'\text{m going to hand you a couple of packets}$ of information here. I'm going to start off with the

 $\mbox{A.} \qquad \mbox{I'm the director of the claims department} \\ \mbox{for Sierra Health Services.} \\$

Q. And Sierra Health Services, do they go by other names as well?

A. Yes, they sell different products. Health Plan of Nevada, Sierra Health and Life Insurance Company, and we have, we're recently purchased by United Health Care.

Q. So you're associated with them as well?

A. Yes.

q

Q. So if you have a claim coming in from one of those different entities or to one of those entities like HFN or Sierra Health it would still come to your company?

A. Yes, it would.

Q. Can you explain to us what happens when a claim comes in and — is it a certain type of form for example?

A. Differences between the two companies?

Q. No. I'm talking about in general when a claim comes in does it come in on a certain type of form?

A. Yes. In-patient claims come in UB forms and physician forms come in on HCVA 1500 forms.

Q. I'm going to specifically be asking you

first one which has been marked as Grand Jury
Exhibit 37. It bears the name of Stacy Hutchison and
I'm going to ask you some questions about that if I
could.

Now if you would flip through that and tell me if you recognize the documents and tell me generally what they are.

A. Yes, I do recognize these documents. The first two pages are claim forms for Stacy Hutchison, one is for date of service 9/21 and one is for 9/28. They are each from CRNA, who is a registered, certified nurse anesthetist, and it is a charge for him performing anesthesia for her services on these dates at the Endoscopy Center.

Q. Okay. And the other pages, what are those?

A. Those are the BOB that we generate after we make the payment that are mailed back to the patients.

Q. What is an EOB?

A. It's an explanation of benefits.

Q. Is that the actual explanation to the patient of what you actually paid to the provider?

A. Yes, it is. And what they would owe if they owe anything.

Q. I'm going to display this for the Grand Jury. And they have been through these forms, ma'am,

41 1 and I know you're familiar with them too so I'm just 2 going to kind of run through the form. 3 Is this in fact, this is the first page of 4 Grand Jury Exhibit Number 37, is this what you just 5 designated as the 1500 claim form? 6 Yes, it is. 7 Whose name is on the form? 8 Α. Stacy Hutchison. 9 I'm going to move down the form to I 10 believe it's box 24, that column or that row going 11 across, do you see that? 12 Yes, I do. A. 13 ٥. Date of service is? 14 9/21/2007. 15 I'm looking at box D. Does that have a 16 procedure code in it? 17 A. Yes. 18 What kind of code is that? ο. 19 It's an anesthesia procedure code. 20 For a? 21 A. For a colonoscopy. 22 If we move across to the charge for that, 23 how much was billed to your company for that service?

And what was the number of minutes or

24

25

43 Q. For Stacy Hutchison? 1 2 A. Yes. 3 We go down to that same line in box 24, it says date of service on this particular one was 9/28 of 5 '07; is that right? 6 A. Yes, it is. ο. Same type of procedure, an endoscopy type 8 procedure? 9 It's an endoscopy type procedure, yes. 10 Q. Under the billed amount the charge that was submitted to you? 11 12 Α. Now here I note that instead of 31 minutes 13 14 it appears to be 32 minutes; is that correct? 15 Yes, it is. Is that what you refer to as sometimes o. 16 variation in the amount of time that is submitted to 17 18 you? 19 A. Yes. If somebody submitted a lower bill to you, 20 21 for example like two minutes, would typically the amount 22 billed under section F be charged at a lower amount? 23 Would that typically show up as a billed amount which 24 would be lower? 25 It should be because if it's a ten minute

1 whatever that are were listed there? 2 A. The number of minutes for this procedure 3 that he billed us for were 31 minutes. 4 Does that, do those numbers vary, I mean 5 charges and minutes and so forth vary on typical charges 6 that come in for procedures? 7 A. Yes, they can vary. 8 ο. Moving to the bottom, box 30, what is the 9 entity that submitted this claim form to you? 10 Endoscopy -- well, Ron Lakeman is the 11 entity that submitted it. And he performed it at the 12 Endoscopy Center of Southern Nevada. 13 Is that located at a particular address 14 indicated on that form? 15 A. Yes. 16 Q. What is it? 17 700 Shadow Lane. Α. Here in Las Vegas? 18 ο. 19 Yes, here in Las Vegas. A. 20 So if I understand you correctly that's the Q. 21 form that you get? 22 A. Yes, it is. 23 Okay. Now on page 2 of this document still 0. says, it's still another one of these HCVA 1500 forms? 24 25 Yes, it is.

1

21

22

23

24

25

or two minute procedure then yes the dollar should be lower.

Okay. Now on the bottom, and I know that the CRNA here is Linda Hubbard I think you designated box 33; correct?

A.

Does it still come from the Endoscopy ο. Center of Southern Nevada?

Yes, it does.

Now moving to what you described as the explanation of benefits form for the procedure for Stacy Hutchison on I think it's the 21st. And I'll zoom in on that a little bit because I know it's hard to read.

Is that the procedure -- based on the explanation of benefits the payment for that procedure on the 21st?

17 Yes. No, that's the bill charge 18 highlighted there, \$560. And if you go over --

Under the column indicating, and it's hard to read but it says description, what is described there?

Anesthesia intestinal endoscopy.

Now I'm going to take you down to the lower right hand corner of the section where the billing occurs. Do you see a dollar amount there?

1 Yes. A. 2 ο. What is that dollar amount? 3 A. Are you speaking of the very last column? 4 o. Yes. A. That is the allowed amount, the amount we 6 paid on this particular claim which is \$90. 7 I want to talk about that for just a β minute. Now \$90 as you say the amount you actually paid; correct? 9 10 A. 11 Now before we go any further with that I 12 want to go to the next page which is another EOB form I think; correct? 13 14 Α. Yes, it is. 15 0. And the date on this one is the 28th of 2007? 16 17 A. Yes. 18 Q. Description? 19 Anesthesia upper gastrointestinal. A. 20 Same dollar amount billed? 21 Same dollar amount billed. 22 0. But you pay the same amount; is that

23 correct? 24 Α. Yes, we did. 25 Still \$90?

2

3

4

6

7

R

9

18

19

20

21

22

23

24

25

1500 claim form itself?

Yes, it is.

0. But is it important to get accurate information? A. Absolutely. In some respects does, at the end of a -- I assume that you, you said the contracted amount or something along those lines; is that right? Yes, it's a contracted amount. I know you're probably not involved in the actual contract negotiations; is that right? No. I'm not. But is it your understanding or do you have knowledge of the fact that what a provider basically eventually says is what work they had to put in over a period of years or over a period of a year for certain services, that that might factor into what they contract out later on for how much you pay them? Absolutely, the history of claims is looked at to renegotiate contracts. So when you say history of claims, is that

stuff that is, or information that is contained on the

example that was only taking two minutes but they kept

submitting bills for 30 or 31 or 32 minutes or something

So if somebody was doing a procedure for

46 1 Α. Yes. 2 Q. In the payment, I know that the amount that 3 was submitted to you was for either 32 or I think it 4 was --5 A. Thirty-one. 6 Thirty-one minutes, 31 or 32 minutes, and the billed amount was 560 on both of those, but you paid 8 the same amount on both; is that correct? 9 Yes, it is. 10 If they had billed, or if they had billed 11 out, I don't know, \$120 for ten minutes of anesthesia 12 time, how much would you have paid? 13 We would have still paid \$90. 14 ٥. So are you telling us that you paid a flat amount of \$90 regardless of what was billed to you? 15 16 Yes, we did. A. 17 So did it matter how many minutes were 18 placed in the boxes? 19 It still matters but it wouldn't have in 20 regard to the payment out the door it would not have 21 changed it. 22 So the dollar amount coming back to the 23 Endoscopy Center would not have changed regardless of 24 what they put in?

1 along those lines, when it came to negotiate would that 2 go into, be a factor, at least considered in whether or 3 not to raise the reimbursement or lower the

Correct.

4 reimbursement?

A.

A.

25

5

9

10

11

12

14

15

16

17

21

22

23

24

25

6 Okay. Now beside those two, or that 7 patient, was there another one that you dealt with beside Miss or Mr. Hutchison? 8

> Yes, there is a third. Α.

Yes, it would.

α. And who was that?

It's -- I need to pull this name out. It's A. Carole Grueskin.

13 ٥. I'm showing you is what is marked as Grand Jury Exhibit 36. Just flip through both pages of it and tell me if you recognize what's there.

> Α. Yes, I do.

What is that document?

18 Α. It is the claim form again on a HCVA 1500, 19 it is the explanation of benefits that we generate at 20 the time of making the payment.

> o. Okav.

And this one looks a little bit different because this is one of our Senior Dimension members, the explanation of benefits.

Got it. And I'll ask you about that in

47

51

just a second. 1 2 So I'm going to display this for the Grand Jury. This is the first page of Grand Jury Exhibit 3 4 Number 36. Again you said it was a HCVA 1500 form? 5 Yes, it is. 6 It mentions Carole Grueskin as being the 7 patient? 8 q Q. Slide down again to box 24, the first line across, do you see that? 10 11 Yes. I do. A. 12 Q. Date? 13 9/21/2007. 14 0. Under the type of procedure? It's the anesthesia procedure code 00810, 15 A. 16 colonoscopy. 17 And then if we move across, the dollar 18 amount charged in the minutes, can you tell us what those are? 19 20 The charges are \$560 once again and 31 21 minutes in time that he's stating that he provided for 22 the procedure. 23 Q. And then on the bottom? 24 Again the claim is from Ron Lakeman, CRNA, and he performed it at the Endoscopy Center of Southern 25

1 Nevada. 2 Q. 700 Shadow Lane, Las Vegas? 3 1 ٥. Moving to page 2, this is the one you said had a little bit different look to it as far as the 5 6 explanation of benefits. 7 It does, yes. It's a OMS requirement that 8 the font sizes be larger, et cetera, so we have to ٩ revise the EOB somewhat for this membership. 10 0. What is CMS? Centers for Medicare and Medicaid Services. 11 A. 12 And do you know why they want the font size 13 bigger on those forms? I believe just so the, it's just easier for 14 A. 15 the members to read. And is this group typically an elderly type 16 Q. 17 person? 18 A. Yes, it is. 19 As far as the payment, I notice there's a ο. 20 difference in the amount. You told us earlier that it was \$90 that you paid on these flat fee kind of 21 22 services. 23 A. Yes. And this is still \$90 in allowable 24 but the member had a cost sharing of \$20 or a \$20 co-25 payment.

2 this claim would have been \$90? 3 Had the member had no responsibility, yes, but the member has a \$20 responsibility. So the date on this is still the 21st? 5 ο. Yes, it is. 6 A. 7 Of September of 2007? 8 Yes, it is. The amount billed? 9 ο. 10 Α. Ts 560. 11 But the amount paid is only? 12 \$70. 13 MR. STAUDAHER: I have nothing further of this witness. 14 15 THE FOREPERSON: Are there any questions 16 from the jury? None? 17 By law, these proceedings are secret and 18 you are prohibited from disclosing to anyone anything 19 that has transpired before us, including evidence and statements presented to the Grand Jury, any event 21 occurring or statement made in the presence of the Grand 22 Jury, and information obtained by the Grand Jury. 23 Failure to comply with this admonition is a 24 gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000 fine. In addition,

So the amount that would have been paid on

1

ο.

1 you may be held in contempt of court punishable by an additional \$500 fine and 25 days in the Clark County 3 Detention Center. 4 Do you understand this admonition? THE WITNESS: I do. 5 THE FOREPERSON: Thank you. You can be 6 7 excused now. Ten minute break. We'd like to call a ten Я 9 minute break. 10 MR. STAUDAHER: We could. If it would be 11 possible if I could just put on the next witness who 12 will be a relatively short witness and then take a ten 13 minute break. If that would be okay. 14 THE FOREPERSON: Okay. (At this time, Juror Yolanda Parker enters 15 16 the proceedings.) 17 THE FOREPERSON: Please raise your right 18 hand. 19 You do solemnly swear the testimony you are 20 about to give upon the investigation now pending before this Grand Jury shall be the truth, the whole truth, and 21 nothing but the truth, so help you God? 22 23 THE WITNESS: I do. 24 THE FOREPERSON: Thank you. You may be 25 seated. Over by the microphone.

- Q. Miss Gonzalez, what do you do for a living?
- A. I do contracting for Blue Cross Blue Shield. I'm the director of network management.

that pertain to him. Is that okay?

- A. Yes
- Q. Showing you what has been previously marked as Grand Jury Exhibit Number 31. It's a three page document. Just flip through that if you would and tell me if you recognize the forms that are contained in that exhibit.
 - A. Yes.
- Q. Now I will display those momentarily here but before we do that I wanted to ask you a couple of things. The first page of that exhibit is a certain type of form. What do you call that form?
 - A. HCVA 1500.
- Q. Is that typically the type of information that, or claim type information that is submitted to your company for payment for services rendered to a member?
 - A. Yes.
- Q. And you said Mr. Ziyad was a member of Blue Cross Blue Shield; is that right?
 - A. Yes.
 - Q. This first page of the exhibit that's being displayed before the Grand Jury right now, is that the form that was submitted for Sharrieff Ziyad on the date in question?

Q. In your job at Blue Cross Blue Shield do you deal or have access to claim forms, payment, EOB forms and things like that?

A. Yes.

Q. And just as we go forward on this if you can let me finish my question before you answer that will help the court reporter because she's taking down the words and it's difficult for her to take it down if we're talking over each other.

I understand.

Q. In that process of doing that work I assume you see that kind of form, you look at the claims, things like that; is that right?

A. Correct.

Q. I'm going to direct your attention to three specific patients and ask if they are associated in any way with your insurance company Blue Cross Blue Shield as far as members? The first one being Patty Aspinwall.

A. Yes.

20 Q. The second being Kenneth Rubino.

A. Yes.

22 Q. And the third being Sharrieff Ziyad.

A. Yes

Q. I'm going to start off with Sharrieff Ziyad and ask you some questions about him and some claims

55_

A. Yes.

Q. And if we go down a little bit we can see the date I believe on box 24, line 1, do you see that?

A. Yes.

Q. What is the date that the service was rendered on this particular procedure?

A. 7/25 of '07.

8 Q. Okay. And if we go across to column D
9 there is a procedure code listed there. Do you know
10 what that's for?

A. Yes

Q. And what is that?

A. Colonoscopy.

Q. The anesthesia for it a I assume?

Yes, the anesthesia for a colonoscopy.

Q. If we move across to column F there is a dollar amount listed. What is that dollar amount?

A. \$560.

19 Q. And as far as the dollar amount is
20 concerned, what is that? Is that how much is actually
21 submitted by the entity to your insurance company for
22 billing purposes?

A. That is correct.

Q. The charge so to speak?

A. Yes, the billed charges.

2

3

4

5

6

7

20

21

22

23

24

25

1

2

5

6

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

Q. Typically on procedures that are done, the anesthesia portion of procedures, do they get billed out in minutes or in units?

A. In minutes.

Q. And do you know what the difference is between minutes and units?

A. Yes.

Q. Go ahead.

A. Every 15 minutes equals one unit.

Q. As far as a base number of units do you start off with, for an endoscopy type procedure is there a base that you start with?

A. Yes.

O. What is the base?

A. Five.

Q. The base of five and then additional time would then be added to that base of five in the term of increments of 15 minutes; is that correct?

A. That is correct.

Q. So if there was eight units billed would that be three units on top of the base?

A. Yes.

and then we'll come back to the other one because I think it's a little bit easier to read. This is really small. I'll try to zoom in a little bit.

First of all what are we looking at? What form is this?

A. This is the explanation of payment.

Q. And I'm going to, I just zoomed into the portion of the line which is entitled anesthesia which is the top line of the two, the next line down is totals. Do you see what it said we paid at the top of that column?

A. Yes.

Q. Is that what you actually paid on this particular claim?

A. Yes.

Q. What is the dollar amount that you paid?

A. \$206.82.

Q. And that's on a charge of \$560 for what appears to be eight units; is that correct?

A. Correct.

Q. Now I'm going to flip back to the preceding page, a little bit easier to read. Does it have the same information on it?

A. Yes.

Q. On the left hand side of the column it says

Q. For a total of eight?

A. Correct.

Q. We see the number 8 in that designation. Do you know if that was submitted as eight units or minutes? I'm not asking how you interpret it at this point but how you believe it was submitted based on the dollar amount you see billed for it.

A. Right, eight units.

Q. Looking at the bottom of the screen, I think we're on boxes, both in box 32 and 33, there are providers and locations of service; is that correct?

A. That is correct.

Q. And who are, who is designated as the provider who performed the service?

A. On box 33 Ron Lickman (sic).

Q. Lakeman?

A. Yes.

Q. And the location where the service took place?

A. The Endoscopy Center of Southern Nevada.

Q. Is that on 700 Shadow Lane in Las Vegas?

22 A. Yes, that is correct.

Q. And I'm going to turn to the next page.

24 Actually the next two pages have I think similar

25 information on them. I'll turn to the last page 3 first

anesthesia under description?

A. Correct.

Q. Billed charge is 560?

A. Yes

Q. And it says service paid is \$206.82?

A. Correct.

Q. Is that what you actually paid for the anesthesia billed to you at 560 on this particular patient?

A. Ye

Q. I'm going to show you some others in just a moment but one of the things I wanted to ask you is this. If you received a payment, your company, if you received a billed amount minute wise for services, for anesthesia that were let's say the 31 minutes, you said already that that would be considered eight units; is that correct?

A. Yes, that is correct.

19 Q. If you had a claim come in that say was 22 minutes, how many units would that be?

A. Seven.

Q. Would you pay a lesser amount on that claim than you would on a 31 minute submitted bill?

A. Yes.

Q. Would that relate to the fact that you're

RA000325

paying on seven units versus eight units?

A. Correct.

1 2

19

20

21

22

24

25

Q. If a charge came in that was at 12 minutes how many units would you pay on in that instance?

A. Six.

Q. Would that charge, the amount paid be less than it would for either the 22 minute or the 31 minute charge?

A. Correct.

Q. So if in fact information is put on one of these forms which indicates a higher number of minutes than was actually done in the procedure would that translate into a larger charge if it went into the next unit area?

A. Yes

Q. Would that be something that your company would just go ahead and pay anyway and not care about?

A. We would pay the amount that's on the claim. If a member came in and said they weren't, you know, there that long, at that time we would ask for medical records to validate the time.

Q. Okay. So you would do something if it was called to your attention that there was a problem?

A. Yes.

Q. If you learned that a claim came in that

was say at 31 minutes and it was in fact only 12 minutes but they were billing at that higher amount, would somebody investigate that?

A. Yes.

21

22

23

24

25

Q. I assume you don't want to pay more money than you have to for procedures; correct?

A. Correct.

Q. I'm going to show you -- and is it the same for all claims?

A. Yes

Q. I'm going to show you the next exhibit which is marked as Grand Jury Exhibit Number 32 and have you — this is for I believe Kenneth Rubino. Would you flip through that set of documents and just tell me if you recognize them.

A. Yes

 $\ensuremath{\mathtt{Q}}.$ I'm going to display these for the Grand Jury.

This is the first page of this eight page exhibit. And is this that 1500 HCVA form that you mentioned earlier?

A. That is correct.

A. Yes.

63

Q. And that patient is who?

A. Kevin (sic) Rubino.

A. Yes

Q. First line. What is the date of the

service?

A. 9/21/07.

Q. Is this has a procedure code of 00810 under

10 column D?

A. Yes.

Q. Is that -- what is that?

A. The anesthesia for colonoscopy.

Q. Is there a difference between the codes for colonoscopies versus upper endoscopies?

A. The code itself is different, the base is the same.

Q. Okay. So it's still five unit base for each procedure?

A. Yes

 $\mbox{Q.} \qquad \mbox{In this particular instance I see, if we} \\ \mbox{move over to column F, that the charge is the same,} \\$

23 \$560. Do you see that?

A. Yes.

Q. But in this case it looks like there is a

three instead of the eight. Do you think that is designating minutes instead of units?

A. Yes.

Q. If we move to the bottom of this page, boxes 32 and 33, who is the provider and where was the service provided?

A. Provider on box 33 is Kenneth, or Keith Mathias, or I'm sorry, Mathans, M-A-T-H-A-N-S, and Endoscopy Center of Southern Nevada is where the procedure was provided.

Q. 700 Shadow Lane?

A. Yes.

Q. And I think you said M-A-T-H-A-N-S. Is it M-A-T-H-A-H-S? And I'll show you the actual exhibit.

A. Yes, it is.

Q. I just wanted to make sure we had that wrate.

I'm going to move to the very last page which I believe would be page 8 of the exhibit and I'll display that to the Grand Jury.

 $\label{eq:Improve} I\text{'m zoom back out a little bit so we can}$ see what we're looking at.

Can you tell us what this is?

Our explanation of payment.

Q. Okay. I will zoom in on -- well, can you

65 tell us how much the charge was again? If this is the 1 2 explanation of payment for the previous HCVA form that 3 we saw. 4 A. Yes. 5 Same date, same procedure code, same dollar 6 amount charged, that kind of thing? 7 That is correct. A. 8 Does it show how much you actually paid on 9 the claim? 10 A. How much did you pay on the claim? 11 ο. 12 \$245.12. A. Is that the portion at the very end of 13 14 this? 15 A. Yes. So the 245.12 is for, is it based on a 16 0. 17 charge of 560? 18 It's based on 32 minutes. 19 But again the billed amount of 560; is that right? 20 21 Yes. Α. 22 Q. So that was the actual amount paid back to 23 the Endoscopy Center?

amount would have been less would there have been less money paid to the company?

A. Yes.

1

2

3

5

6

8

9

10

11

12

13

10

11

12

16

17

18

19

20

21

22

23

Q. Now I noticed when I'm looking between the two of these that between, for example Kenneth Rubino's which is Exhibit Number 32, and 2iyad Sharrieff's which is Exhibit 31, that although the charge was the same for the same type of procedure the dollar amount paid was different. Do you know why?

A. Yes. Because the eight was interpreted as minutes and it would have been paid as six units, not eight.

Q. So even though the charge is the same you actually paid out less on that particular claim; is that right?

A. Correct.

Q. As far as the, so there is no difference in their actual coverage, just in how it was interpreted in your company at the time?

A. Correct.

Q. Now let's look to the last one which is Patty Aspinwall. I think you haven't looked at this one yet. This is Grand Jury Exhibit Number 33. Just look through that and tell me if that is recognizable to you and what those documents are.

67

A. Yes.

A.

0.

Yes.

24

25

2

3

6

8

10 11

12

13

14

15 16

17

22

23

24

25

- Q. What are these documents?
- A. It's the HCVA 1500. We were a secondary payer so it's the primary explanation of payment and our explanation of payment.

Again if the billed amount, billed minute

- Q. Okay. Now when you say you're the secondary payer, can you explain that to us?
- A. The member has two insurance companies and based on the insurance company they decide who is primary and who is secondary. The primary would pay first. As the secondary payer we pay the member's responsibility.
- Q. Do you get some form from the primary insurer saying what they paid on this claim so you know what to pay yourself?
- $\mbox{A.} \qquad \mbox{The provider submits that information with } \\ \mbox{the claim.} \\$
- Q. So let's go through this briefly here.

 Moving to, looking at the first page of Exhibit

 Number 33, is this, again is this that HCVA 1500 claim

 form?
 - A. That is correct.
 - Q. Under box 2 the patient's name?
 - A. Patty Aspinall.
 - Q. Aspinwall?

A. Aspinwall.

Q. And then moving down to box 24, line 1, do you see that?

A. Yes

Q. In that particular instance do you see the date on that?

A. Yes, 9/21/07.

Q. Procedure date?

A. Yes.

Q. And if we move over we see that there is a procedure charge or procedure code; is that right?

A. Correct.

Q. Now above that I actually see that there's some, of that procedure code do you see that there's a time listed here?

A. Correct

Q. Is that the time that relates to what is designated over on box I believe it's G which designates the number of minutes?

A. Yes, correct.

A. Correct.

Q. As far as the charges, the charged amount is how much?

25

25

0.

Care.

And the primary, are they the ones -- did 2 you get this form as part of the claim that came to you? 3 4 Is that so that you knew exactly what they Q. 5 had paid so you could know what you were going to have 6 to pay? 7 A. Yes. 8 So in this particular instance, I'm going 0. 9 to zoom down here to under where it says service detail, 10 do you see that? 11 A. 12 0. Patient's name listed; correct? 13 Α. Correct. 14 And I assume this form goes with that HCVA 0. 15 form we saw earlier? 16 Correct. A. 17 Date of procedure? Q. 9/21/07. 18 A. 19 o. Amount charged, billed? 20 A. \$560. 21 Moving across. Now it says paid to provider. Do you see that column? 22 23 Yes. Α. 24 ٥. It looks like there is an amount of 25 \$249.92. Is that what you paid?

1 No, that's what United Health Care paid. 2 Q. So the primary paid that amount on the claim? 3 4 Correct. A. 5 Now the portion over here that says patient responsibility \$62.48, is that what you would pay, the 7 whole amount? 8 A. Yes. You would pay on that whole amount rather? ο. 10 A. 11 0. Did you pay a full amount of \$62 on that 12 claim? 13 No. A. Okay. So let's go to the very last page 14 15 which I believe is page 8 of the exhibit and I'm going to zoom out so you can see what form we're talking about 16 here. Are you familiar with that form? 17 18 A. 19 ο. What is that? That is the explanation of payment from 20 Anthem Blue Cross Blue Shield. 21 Okay. Now patient's name same, date of 22 0. 23 service same, that kind of stuff? 24 Correct.

Do you see where it says total billed under

71

1 the patient's name? 2 A. Is that amount -- what is that amount? 3 o. A. Now I'm going to go to the line, the first line that, or row that goes across. Do you see that? 6 A. 8 Under type of service here, do you see Q. 9 that? 10 Yes. A. What is it? 11 Q. 12 A. Anesthesia. 13 Total billed? O. 14 Five hundred and sixty. 15 Now if we move over to the one that says other amount, is that that \$249.92 amount, is that what 16 17 the primary paid? 18 That is correct. If we move to the last column which says 19 payment amount, what dollar amount is listed there? 20 21 A. Payment amount is 56.48. Is that what your company actually paid on 22 Q. 23 this claim? 24 A. 25 So United Health Care pays theirs, you pay 0.

yours for a total combined?

A. Correct.

1

2

3

4

5

6

7

13

15

16

19

20

21

22

23

24

25

Q. And is the patient responsible for any remaining balance?

A. No

Q. So that's just what was paid on the claim at that point?

A. Yes.

Q. Again if this had come in and the amount had been, the billing amount had been less minutes or whatever, would you have paid less on the claim?

A. Yes.

Q. As evidenced by that first one we saw where there was actually, you paid it out of eight minutes because it said eight, even though you think that's units; is that correct?

A. Correct.

Q. As far as this particular one, the amount that was paid out for the claim is different obviously than the previous two that you've looked at. Is that because there was a primary insurer involved as well?

A. That is correct.

Q. So if the primary insurer had not been involved and it would have been your company would you have paid a higher amount on that claim?

A. Yes.

18

19

20

22

23

Q. Do you know how much you would have paid out on the base claim if the primary insurer would not have been there?

A. Yes

Q. What would you have paid out? If you know.

A. We would have paid 245.12.

 $$\operatorname{MR}.$$ STAUDAHER: I have nothing further of this witness.

THE FOREPERSON: Are there any questions?

12 BY A JUROR:

Q. Who determines on a claim form whether it's minutes or units, who determines that?

A. The providers for anesthesia are told on our provider manual to bill it as minutes.

17 Q. Okay. Did I see two different, one up 18 there for minutes and one for units, right?

A. Yes

Q. For the same procedure or different procedure?

A. Same procedure. Two different claims.

23 Q. Understand. But not to your company 24 though, right?

A. Yes.

75

Q. I guess you're losing me here somewhere. BY MR. STAUDAHER:

 $\label{eq:Q.Let me ask a couple of clarifying questions.} \\$

When we looked at the forms, the charges were the same for all of them.

A. Yes.

Q. Every claim that came through, \$560.

A. Correct.

 $\ensuremath{\mathsf{Q}}.$ With the exception of one claim that had an eight on it.

11 eight on it.
12 A.

A. Yes.

Q. All the charges were above 30 minutes;

14 correct?

A. Yes.

Q. On the one claim that had an eight designated the charge was still \$560?

17 designated the char 18 A. Yes.

Q. Which was the same as the previous ones that had been submitted at 31 plus minutes?

7 Vos

Q. If the provider makes a mistake and puts down the number of units which 31, 32, 33 minutes would be; correct?

A. Yes.

Q. If they put down eight units instead, because you have an agreement with them to put down minutes you'll pay them a lower amount based on the minutes there?

A. Correct.

Q. So they make a mistake, you're not going to pay them more because you say look, we told you minutes, you put down eight, I don't care if it's units or not, that's what we're billing you at is eight minutes; is that correct?

A. Correct.

12 MR. STAUDAHER: Does that help?

13 BY A JUROR:

14 Q. Did someone then make a mistake in putting 15 down units versus minutes?

MR. STAUDAHER: I'm going to ask her not —
that would be speculation at this point. We don't know
what the billing person who submitted the form actually
did and I think that goes beyond the scope of what her
testimony could be.

21 BY THE FOREPERSON:

Q. I have a question.

A. Uh-huh.

 $\mbox{Q.} \qquad \mbox{Was Ron Lakeman the CRNA for Rubino and} \label{eq:Q.}$ Ziyad?

24 25

RA000329

You mentioned for Rubino? 1 2 ο. Dh-huh 3 For Rubino it was Keith Mathahs. A. And for the other gentleman or woman Zivad. I might be saying the name wrong. Ron Lakeman. Α. THE FOREPERSON: Thank you. Yes. BY A JUROR: ο. clarification. about here. A JUROR: Days or units. units.

6 7 8 Are there any further questions? None? 10 11 Yes. Can we look at that form again and 12 see the box that says units minutes. Is it described in 13 the block, is it units or units/minutes or -- just for 14 15 MR. STAUDAHER: Based on the Grand Juror's question I'm going to display Exhibit Number 31, the 16 17 first page of that exhibit which is the HCVA form. I 18 will zoom in on it so we can see what's being talked 19 20 21 A JUROR: Okay. So it's listed as days or 22 23 MR. STAUDAHER: That's correct. But I'll 24 ask a follow-up question. 25 0. But it was your agreement with the

1

7

8

9

10

11

13

15

18

providers that they would put in that box not just the 2 units but the minutes? 3 Correct. A. Ο. And that's what you would bill at? Correct. A. Every bill that you saw come through that 7 you have reviewed which was written in minutes being greater than 30, meaning 31, 32, 33 minutes for all the 8 9 claims, whether they are these claims or others 10 pertaining to the Endoscopy Center, were they all billed 11 out at a \$560 charge? 12 Δ. Correct. 13 ο. Would that \$560 charge translate into eight 14 units of anesthesia, five for the base and three for the time period? 15 16 A. 17 MR. STAUDAHER: Okay. Does that help? 18 A JUROR: Yes, sir. Thank you. 19 THE FOREPERSON: Are there any further 20 questions? None? 21 By law, these proceedings are secret and 22 you are prohibited from disclosing to anyone anything

79

Jury, and information obtained by the Grand Jury. 2 Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark 3 County Detention Center and a \$2,000 fine. In addition, you may be held in contempt of court punishable by an additional \$500 fine and 25 days in the Clark County 6 Detention Center. Do you understand this admonition? THE WITNESS: Yes. THE FOREPERSON: Thank you. You may be excused. 12 THE WITNESS: Thank you. THE FOREPERSON: You're welcome. 14 MR. STAUDAHER: And we can go off the record so you can take your break. THE FOREPERSON: Okay. Fifteen minutes. 16 17 MR. STAUDAHER: Ladies and gentlemen of the 19 Grand Jury, we're back from your break. I want to put on the record that prior to the last witness, or from 20 21 the witness testifying about I think it was Gwendolyn, 22 Carole Grueskin rather, we had one of the Grand Jurors 23 return to the Grand Jury proceeding. I just need to, as 24 I've told the Grand Jurors in the past, to make sure 25 that although you were not present for the first portion

1 of the presentation today that you acknowledge at least that you will review the transcripts of that portion that you missed before deliberating in this case.

that has transpired before us, including evidence and

occurring or statement made in the presence of the Grand

statements presented to the Grand Jury, any event

A JUROR: Yes.

MR. STAUDAHER: Okay. And also I asked the other Grand Jurors at the beginning of this proceeding but I did not ask you if in the interim between the last presentation and this presentation if there's been anything that's happened, any testimony that you've heard in this particular case that has caused you to no longer be able to be unbiased. Is there a problem with that at this time?

A JUROR: No.

MR. STAUDAHER: So you can listen to the evidence presented, render a verdict, not a verdict, but deliberate in this particular case based on just that evidence and applying it to the law given to you?

A JUROR: Yes.

MR. STAUDAHER: Thank you. With that we'll continue.

THE FOREPERSON: Please raise your right

22

23 You do solemnly swear the testimony you are about to give upon the investigation now pending before 24 25 this Grand Jury shall be the truth, the whole truth, and nothing but the truth, so help you God?

THE WITNESS: Thank you.

THE FOREPERSON: You are advised that you are here today to give testimony in the investigation pertaining to the offenses of performance of act in reckless disregard of persons or property, criminal neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak Kantilal Desai, Ronald Ermest Lakeman and Keith H. Mathahs.

> Do you understand this advisement? THE WITNESS: Yes.

THE FOREPERSON: Can you please state your first and last names and spell them for the record. THE WITNESS: My first name is Nancy,

N-A-N-C-Y, my last name is Sampson, S-A-M-P-S-O-N.

THE FOREPERSON: Thank you.

NANCY SAMPSON,

having been first duly sworn by the Foreperson of the Grand Jury to testify to the truth, the whole truth, and nothing but the truth, testified as follows:

this case; is that correct?

That's correct.

Now I know that since you're no longer working at Metro you don't have a job at Metro so I'm going to ask you during the time that you were investigating what was your position?

I was an analyst and my focus was as a financial analyst.

And when you say financial analyst I assume you look at bank records, things like that?

ο. Do you look at other things too as part of the analysis you do in typical cases?

I generally look at all the documents, all the evidence, I go through the interviews the detectives do, I prepare association charts, I will schedule out bank records and track money.

Are you present for things like search 0. warrants and things like that as well?

Yes, I've been on a number of search warrants and I was on this search warrant.

So there was a search warrant done in this 0. case?

> Yes, that's correct. A.

Before we get to that let's do a little bit

Miss Sampson, I'm going to take you back in time a little bit to an investigation regarding the Endoscopy Center of Southern Nevada. Were you involved in that in some way?

> A. Yes, I was.

What time frame were you working in that capacity as an investigator on this particular case?

I was working at Las Vegas Metropolitan Police Department, this case happened in the beginning of 2008, so when it was made public and I got involved with it shortly after it was made public.

How long did you continue on with the case?

Until we submitted it to the District Α. Attorney's Office in November of last year.

Q. Now you are no longer working for Metro; is that correct?

> A. That's correct.

And the reason -- did you retire, quit, what happened?

> A. I retired in January.

ο. Prior to that time though you were actively involved in the investigation and analysis done in the

more background.

So you do that kind of work. What kind of training or background do you have in that?

I was a, I have a Bachelor of Science Α. Degree in Criminal Justice from Arizona State University. I worked as a commissioned peace officer for the Arizona State Attorney General's Office. I was in that position for nine years when I got the position at Metro. The position I had at Metro, it started as a financial investigator which is a civilian position and after awhile it was reclassified to analyst which was an appointed position with Metro and I was in that position until I retired in January.

Okay. So I assume you've been involved in other cases beside just this one then over your time?

Α. Oh yes.

Now let's get into this particular case. How was it that you became involved with it in the first place?

I was assigned to the public integrity unit in the criminal intelligence section at Metro. Brian Labus and the health district did a briefing to law enforcement, I was not at that briefing, it was on my day off, and when I came back to work on Tuesday we were preparing to do a search warrant and the case was

ο. So let's go to the search warrant situation. Do you know where it took place?

We had several locations. I was at two of the locations. I was at the search warrant on Shadow Lane, 700 Shadow Lane, and also at the location on Tenava.

> So were there others as well? 0.

Q. Where were all the search warrants served?

There was, I think there was six. So there was the Shadow Lane, the one on Burnham, one on Lake Mead, one on Tenaya and one on Rainbow. That's five.

Now you mentioned the two. Let's talk about the Shadow Lane one. You said you were present for that one; correct?

> A. Yes, I was at Shadow Lane.

Tell us about that. What did you do as part of the search warrant execution?

Once they had secured, the officers had secured the location, the business had been shutdown so there was no one there, we had to get into the office and once they secured it then I was assigned by the lead detective Robert Whiteley to inventory the documents that were taken and put an inventory in all of the packaging. So I did that. I also went up to the fourth floor to those offices up there and looked at same records that they had found up there and then I was in the clinic side of the location also.

Okay. Before we get too far into what all you found or did at the search warrant locations I'm going to show you what has been previously marked as Grand Jury Exhibit Number 38. It looks like a series of diagrams and so forth. Can you tell us what those are?

These are diagrams that are made at the time of the search warrant to identify the locations that we were at. So the cover sheet, the first sheet is 700 Shadow Lane which is the map of the clinic.

> o. And the next page?

Next one is 700 Shadow Lane, Suite 470, which are their business offices which were upstairs.

And you went to those offices you said?

I did. A.

> ο. And then the next page?

3150 North Tenaya Way. A.

> ٥. And I assume -- have you seen all of these

87

documents before?

Α.

And the next page?

A. 4275 Burnham Avenue.

Next page? Ο.

A. 4275 Burnham Avenue.

Next page?

2610 West Horizon Ridge Parkway.

O. Next page?

> 1815 East Lake Mead. A.

And last page? Actually the second to the

12 last. I'm sorry.

> A. 5915 South Rainbow.

0. And last page?

Last one is 700 Shadow Lane and this is the doctors' offices location.

So if I understand you correctly the first two pages and the very last page pertain to 700 Shadow Lane?

A.

You didn't draw any of these maps; is that Q.

22 correct?

> No. A.

ο. When I say maps they're really diagrams.

That's correct.

Q. The diagrams that are here though to the 2 best of your knowledge, you've been at these facilities; 3 correct?

I've been at two of them, yes.

o. Which ones again?

I was at Shadow Lane and the Tenaya. A.

But you've seen these at least submitted as part of the diagrams for the other facilities as well?

A. Yes.

I'm not going to ask you questions about the other facilities right now. I'm primarily focused with you on the 700 Shadow Lane.

> A. Okay.

14 And the three maps pertaining to that. You 15 were in those locations?

> A. That is correct.

Do they fairly and accurately, when I say accurately, they're not to scale I assume; is that correct?

That's correct.

They show the location of the rooms and how they're laid out in comparison to each other?

> Yes. A.

I'm going to show you the first page here. And this is the first page of Grand Jury Exhibit

1 Number 2 can zoo

Number 38. I want to get the whole thing on and then we can zoom in on it a little bit later.

What are we looking at here?

- A. This is the clinic where the procedures were performed.
- $\ensuremath{{\rm Q.}}$ $\ensuremath{{\rm I'm}}$ going to stand over here as we go through it.

I note here that on the top portion of this that there's an area where there's a waiting room. Do you know where the front entrance was to the building based on this?

- A. The front entrance to this location was a hallway that was just on the other side of that first row of offices. So the front door was into the waiting room.
- Q. So this area right here at the top right hand portion of the screen?
 - A. Yes.
- Q. So this is not from the outside of the building in, it's from a hallway on the inside of the building?
 - A. Yes.
- Q. So you enter the suite area or this area, the patient area so to speak from the waiting room and then come into the rest of the facility based on that?

the second page of this exhibit which again is Exhibit 38, nine page exhibit. What are we looking at here?

- $\label{eq:A.} \textbf{A.} \quad \text{These are the business offices that were on } \\ \text{the fourth floor.}$
- Q. So you went up to the fourth floor. Did you gain records or do things up there as well?
- A. I was asked to look at some records up there. Detectives were searching those offices and securing the evidence. I didn't get into all of the offices. I couldn't even tell you which offices I got into.
- Q. Where were these records that they asked you to look at?
 - A. They were either in office 5 or office 6.
- Q. So down here in the lower right, or left hand corner rather of this screen?
- A. Yes. And I believe I was in office either 7 or 8.
 - Q. As well?
 - A. Yes.
- Q. What were you asked to do? What kind of records did they want you to come up and take a look at?
- A. They were, I believe they were contracts, they were some business records. I looked at them quickly. I knew we were taking them so I didn't really

A. Yes.

Q. As far as your involvement here, I notice that there is a procedure room 1 and a procedure room 2 listed; is that correct?

A. That's correct.

Q. And also a patient area and a pre-op room; is that correct?

A. Yes

Q. All those rooms exist, they look like they kind of match the map in the area you were at when you examined them?

A. Yes. Same of the -- I didn't go into the pre-op room or the restroom at this end. I was mainly working with the records that were being taken and the other evidence in the other areas.

Q. Okay. As far as the patient procedure rooms do those later factor into some of the analysis that you did?

A. Yes.

Q. And what I mean by that is that there were in fact two procedure rooms and how they were oriented, things like that.

A. That's correct.

Q. Beside that particular diagram you mentioned that there was another one. I think that was

91

study anything.

Q. Were there any patient files up there?

A. There might have been, I didn't see any.

Q. You said there was another location you went to as well; is that correct?

A. Yes.

Q. I think that was on the last page of Exhibit 38. I'm turning to that now.

I'll zoom back out a bit.

And what are we looking at here?

A. This is the doctors' offices at 700 Shadow
Lane. This is where the doctors had their offices, the
patients were seen, and then there was a connection
between the waiting room here and the waiting room on
the clinic side, you could walk back and forth.

Q. So this is located on the same floor --

A. Ye

Q. -- as the very first picture that we saw?

A. That's correct.

Q. But a separate complete area?

A. Yes

Q. Now I see that on this particular diagram that there are exam rooms listed, as well as restrooms, lots of exam rooms; is that correct?

A. Yes.

a

Q. And check-out areas. Was this the medical side of things?

A. This was the medical side where they had the patient files, the doctors all had offices and they did, and they had the exam rooms, yes.

Q. And I notice in the lower right hand corner of that screen there is a room designated as Dipak Desai's office.

A. Yes, that's correct.

Q. And on the opposite side, the left corner, left lower corner of that diagram is Clifford Carrol's office.

A. Yes.

q

q

Q. And then there is one in between them.

A. Yes

Q. Up at the very top of the screen, not the waiting room, there's a large two room with a connector between the two called records room I think; is that correct?

A. Yes, that's correct.

Q. I'm going to talk about this area for a minute. Did you do anything, find anything in this area, look at any records?

A. All of these exam rooms and the doctors' offices were searched. There were patient records found

they were in manila colored file folders and we call those the patient files.

Q. Right.

A. Okay. Then there were files everywhere. There were files in the doctors' offices, there were files in the nurses station, there were files in the check—out area, there were patient files everywhere in this area.

Then on the clinic side they had --

Q. When you say clinic you're referring to where the endoscopy procedures are done?

A. Yes, where the procedures were done.

O. Okav.

A. They had more patient files that were in green manila, green file folders, and we called those the procedure files in order to differentiate when we talked about these, where the files were located, and they contained different information.

Q. So there was a difference between the procedure file and the patient file?

A. That's correct.

Q. Now the patient file contained what, what kind of stuff was in there?

A. The patient file had information the patients would give when they signed in, their insurance

in all of those. So I was in exam room 10. Next to that is a storage room that was full of boxed records that were older, we took all of those. I don't believe there were any records in exam rooms 5, 6, 7, 8 and 9 on the side. We took records from Clifford Carrol's office, from office 3, from Dipak Desai's office, Dr. Carrera's office. There were some patient files around the nurses stations and then the main patient file area was where the records room is and the check-out area.

Q. At any time in any of these locations did you come across patient files that were of interest to you?

A. In the clinic side they had boxes of -- let me explain how the patient files were set up.

O. Okav.

A. In this room they had patient files.

19 A. In this particular area where the doctors'20 offices were.

Q. So the medical side, we're talking about the last page of Exhibit 38.

A. Right. Mainly the check-out area and the records room, they had patient files that were on shelves, they were alphabetical for the most part and

information, their addresses, their contact information, it would have copies of reports from the procedure files, it would have the doctor's notes. What I would consider a typical patient file.

Q. And then the procedure file itself, what was in there?

A. The procedure files had the reports from the procedures, they had the anesthesia records, they had the information when the patient checked in at the reception area.

Q. Now obviously you find these in two different locations then?

A. Yes.

Q. So did the procedure files primarily remain on what you called the clinic side where the procedures were done or did they intermix?

A. They were intermixed and they were also intermixed at the other location I was at on Tenaya.

Q. Okay. Now that's what the files generally look like and where they were; correct?

A. Right.

Q. When you were going through the search process did you ever locate a grouping of files of patients that were of interest to you?

A. There was a post office box, a United

States Post Office I believe, and there were the patient files that had been identified by the health department as the victims in this case.

- Q. Now let's talk about that. Is that location anywhere on these diagrams that you --
 - A. It would be on the clinic side.
- Q. Let's go back to that one. Referring back to page 1 then of Exhibit 38. What area are you talking about?
- A. I didn't find them. I believe they were located in a file room reception area.
 - Q. Did you see them at some point?
 - A. I did see them at some point.
- Q. You didn't find them initially but then did you did see them together?
- A. Right. There were some other of the victim files, we called them victims, located in Dr. Carrol's office on the other side.
- Q. Okay. So two different locations where these were grouped?
 - A. Yes.

- Q. So you find -- and these were all patient files essentially or procedure files that were related to $-\!\!\!\!\!-$
 - A. They were both.
- A. After all the evidence was at our office I went through all of the evidence. I went through it looking for business records, bank records, anything related to any of our patients that had been identified as victims.
- Q. And did you generate any kind of analyzes or reports or anything like that as a result of doing that work?
 - A. I did, I generated several.
- Q. Okay. Why don't we just kind of walk through them. What were some of the reports or some of the things that you looked at and generated?
- A. I started with the patient files because we were trying to get a handle on the sequence.
- Q. When you say the sequence what are you talking about?
- A. Of what patients were seen first and second and how long the procedures lasted, who was involved in their procedures.
- Q. And did you put that in some sort of form so you could look at it or compare between patients?
 - A. I did, I put them in an Excel spreadsheet.
- Q. I'm showing you what has been marked as Grand Jury Exhibit 43, I know that this is going to be difficult for the Grand Jury, it's in the spreadsheet

- Q. They were both. To what the CDC or what the health district had been focusing on as far as patients go?
- A. The patients they had identified from September 21st and July 25th.
- Q. They were all kind of grouped together in those two locations?
 - A. Yes
- Q. Did you recover those items, not you specifically necessarily, but did the police recover those items?
- A. We recovered all of the patient files from those two areas.
- Q. And it was up to you to sort of document and categorize all this information?
- A. I focused on the patient files that were our victims from the 21st, all of the patients from September 21st and all of the patients from July 25th.
- Q. So not just the ones focused on as potential victims being infected but all of the patients period?
- For those two days, yes.
- Q. Now beside the things you just mentioned did you do anything else related to the search warrant execution or recovery of records or anything like that?

form but we'll make it available and the Grand Jury can look at it at any time.

But can you tell us what this item is?

- A. This is how I compiled the information from the patient procedure files.
 - Q. What date does this information come from?
 - A. This is July 25, 2007.
- Q. So tell us what we're kind of looking at here. First of all is this all the patients listed for that day?
- A. This is all of the patients listed for that day. One of the files was missing was Bruce Young so his information is just -- I couldn't find it.
- Q. So he was a patient listed for the day but you couldn't find the information?
 - A. Right.
 - Q. Okay.
- A. I got the names of all the patients for the
 day from their endoscopy logs which were maintained at
 the, on the clinic side. The endoscopy logs are big
 books, they're about this big and --
- Q. And for the record she's measuring it looks
 like about two feet by, what, one and a half feet,
 something like that?
 - A. Yeah, one foot. They were too big to copy

so I had to work off the originals. They had all of the patients listed, it was handwritten by name for the dates, and they had assigned them patient number and this number was also the number on the procedure files.

And you're referring to the right hand column; is that correct?

A. Well, the second column in, the patient file number column.

We're talking moving from right to left on this spreadsheet; is that correct?

Moving from left to right.

Excuse me. I'm turned around, left to Ο. right. Sorry.

My perspective, not yours. Q. Go ahead.

I took the information out of the patient. the procedure files which included an anesthesia record and that's the first record that is summarized here. There was also a chart where they noted the procedure time, when it started.

As you go across as you're mentioning things if you'd just give us what the column heading is you're referring to.

All of the anesthesia records are

And I sorted it by doctor, I sorted it by CRNA, I sorted it by time, and nothing worked because it was, we could not determine what room the patients were in. And then we received information from the Board of Medical Examiners that there was a computer glitch in the reports that were generated, they were generated by a computer. And the glitch actually is this blue column. Those are the report times, the start times and the end times, and that's what this was finally sorted on were those report times. The glitch was in one of the procedure rooms the computer had the wrong date and so we were able to go back through and put all of the rooms, designate all of the rooms that had that glitch as room 1 or room 2.

O. that information?

0. Did you in fact see the computer glitch that you'd been given some information about?

A.

o. So did they pretty much divide up the rooms when you did that?

> A. Yes.

I'm going to look at one thing here before

summarized off of, where it says medicine, chart procedure start time, chart procedure end time, and then I calculated using Excel the minutes for the procedure.

And why did you do that?

Because we saw a pattern and we had been told that they --

o. First of all at this point I don't want to get into anything that you were told by someone else. But based on information you had received in your investigation you focused in certain areas; correct?

> A. Right.

You focused on those areas. Did you see the pattern that you were looking for?

Yes. Excel is a spreadsheet that will calculate, it adds and subtracts and so I put in a formula to calculate the time when the procedure started and when it ended, and they were all 30 to 33 minutes on the average for all the rooms I averaged. The one room was 30 minutes, the other room was 31 minutes.

Now you said there was a difference in rooms. There were different times for different rooms?

When I, the first time I did this I, we tried to figure out what rooms the different patients were in.

> ο. Okay.

103

So you could separate them out based on

I ask you another question.

Now on this particular diagram I note on, where you did your minute calculation, I note that virtually all of them are either 31 or 32 minutes; is that correct?

> A. That's correct.

With the exception of one patient, Carolyn Clark, who is listed at 30 minutes, and a patient named Katie Lawson who is listed at 14 minutes; is that correct?

Α. Yes.

Q. And so the rest of them are either 31 minutes or higher?

Right. That was from the anesthesia logs.

And it shows that a total of 65 patients ο. were done that day?

> Yes. A.

Is that right? Q.

Α. Yes.

And does the first top portion of the 0. chart, does that correspond to one room and the bottom portion to another room? Or how did you designate that?

Uhm, you know what, I have to look at this.

23 Let me put it up here, maybe make it a ٥. 24 little easier. Well I don't know if it's easier or not.

I'll just let you take care of it.

It doesn't work with bifocals.

On this particular day, the 25th, the computer glitch wasn't, it didn't apply to this day, it applied to the other one. And so these are sorted by CRNA.

- Okay. In this particular diagram, this o. exhibit, you don't have them sorted by that computer alitch?
- That's correct, it didn't show up on the reports. The reports had the right date for both rooms.
- So at this point we don't know which room is which?
- Now were you ever able to sort out which room was which for this date, the 25th?
 - A. No.
- 17 As far as the breaking up then you only 18 have two, or how many different CRNAs do you have for 19 that day?
 - Α. We had two CRNAs.
 - Was it your understanding based on the Q. review of the records that they primarily stayed in one room for the majority of the day?
 - A. Yes.
 - So when you sort them by the nurse 0.

- Do we see that the infected patient Michael Washington follows him in time?
 - A. Yes.
- And in fact he is the same anesthesiologist or, not anesthesiologist but nurse anesthetist as the one that performed both of those procedures; is that correct?
 - That's correct. A.
- What about the doctor involved, did that 0. change?
 - The doctor was Dr. Desai on both of them.
- Now beside that information pertaining to this diagram, I mean you were able to at least sort this as best you could by the times, you said that all of these times varied depending on what you would look at, whether it was I think it was procedure time, machine time, all of that stuff. Is that correct?
- Right. I took the times from the procedure files, from the anesthetist log which is the first columns here, the chart, the medicine, the chart procedure start time, procedure end time, and then I added them up.
 - Is that the green column? ٥.
- That's the green column. The green column is my addition on all of those.

anesthetist does that generally group them according to what your analysis was and record review as to the room that they were in?

- A. Pretty much.
- o. Now with the exception of I assume they take breaks and so forth?
 - That's what we were told, yes.
- Again I want to stay away from things you were told specifically, just things that you did in your investigation. And anything you mention that you were told I'm admonishing the Grand Jury is not offered for the truth of the matter, just to show how she got to the next step in her investigation.

So let's move forward. So what else did you do in this particular situation with this exhibit?

- In this particular day we had one victim, his name was Michael Washington, and the genetic testing had been done by CDC and they identified the source and the source was Sharrieff Ziyad.
- So on this diagram Sharrieff Ziyad is listed here and I think that that is line or patient number what?
 - A. Patient number 35.
 - ο. Patient 35.
 - Uh-huh. A.

The next column is what kind of procedure it was. If it was an endoscopy those were E, if it was a colonoscopy those were C. The doctor was from the report and the signatures. The nurse was also from the report and the signatures. They had the GI tech so those were all listed on the reports.

- So each one of these entities has its own time?
- Well, these were the people, these were the players that were on that procedure.
 - I see. Okay. Q.
- Then the different logs started with the times. So the nurse filled out a log, in that she noted the procedure start time and end time, and I calculated the minutes from that. I took what scope they had used because that was written on there, on the file. They had a place where they put what time the physician was at the bedside so I took that time. What time they were discharged, I took that time. I calculated the time from that. Then the nurse who signed off on it, on that discharge. Then we had monitor tapes, one was from a heart monitor and one was from another monitor, so I have tape reading 1 and tape reading 2, and I took those times, and then I have the report time and that's what this is sorted on, the CRNA and the report time. And

then I have what time it ended and then how long it took.

Q. Okay. So that was how you ended up sorting this?

A. Right.

- Q. Did you ever have a feel for how accurate the times were that you were looking at, whether they be the taped time or machine time or the doctor's time or the nurse's time or the procedure time or whatever?
- A. Well, in order to try to make sense of that and to figure out the order everything happened in I sorted this spreadsheet on all of the times and they were different, it just didn't, it didn't match. So when we got the information about the report time that's what I went with for the sorts.
- Q. I note on this particular diagram that there, beside Ziyad Sharrieff which is line or row 35, and Michael Washington which is line, or rather row 39, you have Ziyad Sharrieff in it appears to be sort of orange—ish?
 - A. That's correct.
- Q. And Michael Washington who is the infected patient who is designated in green?
 - A. Yes.
 - Q. There are some other lines up here that are

also in orange. What relationship do those have?

- A. On the anesthetist log they would note if a patient had a disease and so those are the ones that were designated on the anesthetist log as having Hepatitis C.
- Q. So on that particular day we have four patients that are Hepatitis C positive at the facility?
 - A. That they knew of, yes.
- $\mbox{Q.} \qquad \mbox{When you say an esthetist form do you mean} \\ \mbox{the an esthesia record?}$
 - A. The anesthesia log is what they called it.
- Q. Okay. So one of the persons that had been designated that day as being Hepatitis C positive was in fact I think Ziyad Sharrieff?
 - A. Yes.
- Q. And then Michael Washington follows Ziyad Sharrieff after it looks like three patients?
 - A. Yes
- Q. Now beside the information here, I mean one of the columns I want to go back to is this column designated anesthesia minutes calculated from the records. And you designate that off of chart procedure start time, chart procedure end time?
- A. That's correct.
 - Q. Do those times come from the anesthesia

record?

A. Yes.

- Q. So all of the ones designated as 31, 32 minutes and so forth down that line come from that document?
- A. Yes, they noted the start time and the end time.
- Q. Did you ever add up all that time to see how much it added up to?
 - A. How many minutes in the day?
 - Q. Yes.
 - A. No, I never did.
 - Q. Did it look like it was possible?
 - A. No
- Q. Okay. As far as the 25th did you do any other analysis other than what you talked about thus far related to that?
 - A. On the 25th?
 - No.
- Q. Okay. You said that you moved, you also looked at the same types of information for the 21st of September of 2007; is that correct?
 - A. Correct.
- Q. I'm going to go ahead and change out the exhibit right now.

And I will lay this out here, this exhibit, which is again Exhibit 43, it will be available, it's an admitted exhibit now and it's available for the Grand Jury for review and I'll lay it out on the table.

Okay. Showing you what has been marked as Grand Jury Exhibit Number 42, what are we looking at here?

- A. This is the spreadsheet for September 21st. All of the information was taken from the patient procedure files. Same columns as on the 25th. I started with the anesthesia chart, I moved across taking all the information. This is the day that had the computer glitch so we were able to identify the patients that were in one room and the patients that were in the second room.
 - Q. Was there more than two CRNAs on that day?
- A. I don't think so.
- Q. Or were there rather.
- A. No. We had Keith Mathahs and Ronald
 Lakeman.
 - Q. The only two CRNAs on that day?
 - A. Yes.
- 23 Q. So when you sort them in this particular 24 instance, although you've got your blue line here under 25 report procedure start time, are these sorted by that or

not?

A. Yes. They're sorted by the room and the time.

Q. So is the top grouping one room and the bottom grouping another room?

A. That is correct.

 $\ensuremath{\mathbb{Q}}.$ On this particular spreadsheet we have colored rows.

A. Yes.

Q. Can you tell us what the colors indicate?

A. The orange are the hepatitis, the people that were identified with hepatitis off the anesthesia logs.

Q. So we have two for that day; is that correct?

A. Yes.

Q. One appears at the end of the day and I believe that is who?

A. Trina Smith.

Q. And one is at the very top of the day and that is who?

A. Kenneth Rubino.

Q. So Kenneth Rubino. Did he have any significance to any of the other patients later on?

A. He was shown to be the source patient

these the ones that are genetically matched?

A. Yes, those are genetically matched.

 $\mbox{Q.} \qquad \mbox{Now you have designated these in two} \\ \mbox{separate rooms; correct?}$

A. That's correct.

Q. I note that there are, there is a source patient on the top half and then it appears to be infected patients below that person.

A. Yes.

Q. And those infected patients are whom? Do you want to read off -- I'm talking about the ones in green.

A. Rudolfo Meana, Sonia Orellana, Gwendolyn Martin.

Q. Let's stop there. Those are the ones in the one room where the source patient was?

A. Right.

Q. We also have three patients listed in the other room as well?

A. Right.

Q. And who are they?

A. Stacy Hutchison, Patty Aspinwall and Carole Grueskin.

Q. Now was there any indication based on your review of things and all of the analysis that you did as

through the genetic testing.

-4

Q. So the patients that follow after Kenneth Rubino are the infected patients?

A. That's correct.

Q. That turn up positive that is.

A. That's correct.

Q. What is the yellow designation?

A. There were two patients who showed up with Hepatitis C but there was not enough genetic material to show the source of their infection.

Q. When you say enough genetic material, the CDC couldn't make a match or they didn't have the resources to be able to do so on those patients?

A. My understanding is the hepatitis virus mutates and it adapts to the host, the person that it's in, so it changes, and there wasn't enough, whether it was too long in time or whatever reason I don't know, but those two people they were not able to genetically link to the source.

Q. But we see that one of those persons directly follows Mr. Rubino; correct?

A. That's correct.

Q. Now what are the green lines?

A. Green lines are the infected patients.

Q. And when you say infected patients are

to any cross movement of any personnel or any supplies or anything from one room to the other during the day?

A. Well, we really struggled with this because it was very difficult to try to figure out how it happened. Once we were able to separate the two rooms we looked at the times. So Kenneth Rubino started — I can't tell what time that is. His procedure started at 9:50 in the morning and it was over at 10 o'clock and Stacy Hutchison who was in the other room started at 9:52 and she was finished at 10:06.

Q. According to the records anyway?

A. According to the computer-generated report. Those were the times I went off of to do this. So we have the CRNA for Kenneth Rubino was Keith Mathahs and the CRNA for Stacy Hutchison was Ronald Lakeman. The next patient after Stacy Hutchison in the second room was Renate Blemings and Renate Blemings records show that Keith Mathahs was her CRNA. So what we have is Keith Mathahs starting up here.

Q. When you say up here you're designating in one room at the top; correct?

A. In the first room and ending up in the second room right after Stacy Mutchison.

Q. So right about that time then somewhere according to the records he at least moves over to that

room?

25

Right.

And I wouldn't want you to speculate as to how, what he brought with him or didn't bring with him or whatever, but at least we have the CRNA, if I understand you correctly, we have the CRNA where the source patient originates and infected patients after that in that same room?

> Α. Yes.

And then we have around the time that the ο. infection start in the second room we have evidence that shows that Mr. Mathahs is the CRNA that moves to that room at least for a period of time?

> Α. That's correct.

O. Now was there any indication that he in fact had been involved in any way with Stacy Hutchison's procedure?

A. Not according to the records. And the records that I used were the ones that were generated and signed off on in the procedure files.

But you said not according to the records. Did you have any other source of information that led you to a different conclusion?

A. One of the depositions I read in the civil litigation that's going on.

22

o. Is that correct?

Α.

So we at least have movement and infections follow from thereon after?

> Α. Yes.

And if I need to leave this up here I can. But I'm talking about the exhibit again, Exhibit 42 if you still need to refer to that.

But the patients that follow in that room, the second room, those patients, the anesthesiologist or the anesthesia person, the nurse anesthetist at least of record for those three procedures was who?

> Α. Ronald Lakeman.

So Mr. Mathahs at least according to the records had returned back to his room at some point?

> Yes, but he shows up again. A.

o. Go ahead.

A. We were told that they covered each other for lunch.

Okay. And again that's not offered for the truth of the matter.

Based on that information did you see anything that reflected that kind of thing in the records that you reviewed?

Well, Keith Mathahs is in this room, in

And I don't want to get into specifics about what other people said, but were you able to follow-up on any information based on any deposition that you read?

Well, the information that I got made this a little clearer for me.

> Okay. o.

Α. The person that was deposed said that when they started the computer-generated report they had a drop down list and they would click off who was in the room and I noticed on some of these reports that the person that was listed on the report was not the person who signed off.

And ladies and gentlemen of the Grand Jury, that information is not offered for the truth of the matter and I would ask you not to consider that hearsay statement in your deliberation, just for why this individual, this particular witness was analyzing the things as she did in this particular case.

That being said, did you, you obviously had indication that at least right at the time that Stacy Hutchison's procedure is either finished or sometime within the procedure that Mr. Mathahs moves from the room he was in to the second procedure room?

> A. Yes.

room 1 until noon, about noon, 11:57, when Ronald Lakeman took this procedure and then Keith Mathahs is back. And then in the other room Keith Mathahs shows up for this procedure after Stacy Hutchin -- Renate Blemings at 10:13, then he comes back again at 11:34.

6 O. Did that look like it was around a lunch 7 break then?

That's what it looked like to me.

So the prior time when he's actually moved over to that room you don't know why he came over?

> A. No.

And he's only over there for one recorded procedure; is that right?

A.

And that procedure immediately follows ٥. Stacy Hutchison's procedure?

A.

18 Ω. So you don't know if he came in there 19 before Stacy Hutchison or during the procedure at all?

Α.

Any other information related to this Q. exhibit?

23 On my comments, the last column, I call it comment, and that's what I use for myself to make notes 24 25 or to notice something that is interesting. So we have

R

where I would say that in this case Linda McGreevy was listed on the report as the nurse but Karen Richvalsky off on it. So --

- Q. And could you spell Richvalsky?
- A. R-I-C-H-V-A-L-S-K-Y, Karen.

So that was another discrepancy that I tried to note on the spreadsheets where the names didn't quite match up with the signatures.

- Q. So if I understand you correctly, and just so I can reiterate, that sometimes signatures and who was supposed to be in the room didn't match up; is that what you're saying?
 - A. Yes.

- $\ensuremath{\mathbb{Q}}.$ And you saw that also around the time that Mr. Mathahs moves to the room with Stacy Hutchison or not?
- A. I don't remember. I know he was on Renate Blemings' report. Or on her procedure file. I don't remember if he was on the report or not.
- Q. Okay. Now let's move on. So you do all that analysis work, you lay it all out, that's part of those exhibits that you've got, what is the next thing you do as far as analysis goes in the case?
- $\hbox{A.} \qquad \hbox{We tried to see from the procedure files if}$ there was another way this infection could have been

transmitted and it could have possibly been in the, when they had the heplock administered to them.

- .Q. So somebody had raised that issue to you and I assume that meant you went back and tried to find any evidence to support it; correct?
 - A. That's correct.
- Q. What did you do to try to either look at that problem and support it or discount it?
- A. Well, I went back to the patient, the procedure files, and I noted who had signed off as the heplock nurse, the person who had inserted the heplock.
- Q. And are you all hearing this by the way? I mean can you hear what she's saying?

Try to speak up a little bit into the microphone.

- A. Okay. The procedure file shows Lynette Campbell was the heplock nurse for Kenneth Rubino.
 - Q. What day are we talking about first of all?
- A. We're talking about September 21st, this day. So Lynette Campbell was --
- $\mbox{Q.} \qquad \mbox{And before we go any further, I can see} \\ \mbox{you're referring to a document.}$
 - A. Yes.
 - Is that correct?
 This is Grand Jury Exhibit Number 39. What

is this document first of all?

- A. This is an association chart that I prepared using software we have at Metro called Analyst Notebook.
- Q. Did you take this information in preparing this particular exhibit based on the information you had qotten in your investigation?
 - A. Yes.
- Q. I'm going to go ahead and display that up
 - A. Oh. good.
- Q. -- for the Grand Jury. And then you can tell us about it as we go through it and if you need me to zoom in on a particular section let me know,
 - A. Okay.
- Q. Right now I'm zooming out so we have the entirety of the document showing. And if you can tell us kind of what we're looking at.
- A. Okay. This room is room 1 and this room is room 2.
- Q. And just for the record she's referring to the designations of those things on the document.
- A. Right. So based on the sort from the reports we have these people who were these victims and the source Kenneth Rubino who were in procedure room 1.

Q. And for the record she referred to all of the persons along the top portion of the screen going from left to right.

A. And then we have the people who were in the other procedure room, Stacy Hutchison, Patty Aspinwall and Carole Grueskin.

- Q. And they are designated on the bottom of the screen for the record.
- A. In the center I have Lynette Campbell who was the heplock nurse, she's the person who initialed off that she had given, inserted the heplock into them before the procedure and she did the heplock for Kenneth Rubino, Rudolfo Meana, Sonia Orellana, Gwendolyn Martin and Nguygen I don't know how to pronounce his name, it's Vietnamese, he was one of our yellow that we didn't have the genetic matches for.
- ${\tt Q.} \qquad {\tt And \ when \ you \ say \ yellow \ are \ you \ referring}$ to the yellow ${\tt marking} \ {\tt ---}$
- A. Yes.
- Q. -- on the spreadsheet on Exhibit -21 whatever it is.
 - A. Then we had Jeff Krueger who was,

 administered the heplock for Stacy Hutchison, Lakota

 Quanah, and he signed off on those.

In the interviews that detectives conducted

Я

Patty Aspinwall identified Jeff Krueger, she described him as the person who had given her the heplock.

- Q. But you also have a line in that diagram going to Miss Campbell as well; is that right?
 - A. Right.

- Q. Why is that?
- A. Well, she signed off on it on the records. Patty Aspinwall described Jeff Krueger.
- Q. So tell us what -- I mean I see what you've just described, but how does this, what does this mean?
- A. This was to try to show that the same person had given all of the heplocks and that didn't happen because we have Jeff Krueger who signed off on two of them and was identified on a third. It also brought into my mind whether the records were correct or not.
- Q. Okay. So at least on this date we have for sure Stacy Hutchison who was not administered a heplock by Miss Campbell; correct?
 - A. That's correct.
- Q. And actually the CRNA Jeff Krueger, not CRNA, the nurse rather, Jeff Krueger, was the one who administered that heplock?
 - A. That's correct.
 - Q. And then Miss Campbell seems to be tied at

indication that there was overlap, there was some person who was common between, or persons who were common between all of these people?

- A. Well, there wasn't one person who was common between all of them, no.
- Q. And in fact on the 25th there was, it sounds like Mr., not Mr. Washington -- who is the source patient?
 - A. Ziyad.
- Q. Ziyad Sharrieff was the individual who didn't even go to the procedure room, he just went, or not the procedure room, to the pre-op room, he went straight to the procedure room?
 - A. That is correct.
- Q. Now what was the next thing you did in your analysis or the next portion you went to?
- A. I did a financial analysis to track the money that Doctors Desai, Carrol and Carrera received in 2007.
- Q. Now when you say financial analysis what do
- A. I took, I went through the evidence that we had taken in the search warrant and I identified the bank accounts that they had and in the bank accounts summaries they also had listed all of the checks and who

least to the remainder and possibly Miss Aspinwall?

- A. That's correct.
- Q. You can sit down again if you would.

 Now let's talk about this related to the
 25th. Did you look at that issue possibly for the 25th
 of July of 2007 as well?
 - A. Yes, we did.
- Q. Did you find that there had been a commonality between either Mr. Krueger or Miss Campbell related to that particular procedure date?
- A. No. On that procedure date the records show that the CRNA administered the heplock to the source patient Sharrieff Ziyad and somebody else administered Michael Washington.
- Q. So two different people administered the heplock?
 - A. Right.
- Q. But the key thing here I want to make sure I'm clear on is that the source patient for the 25th was actually, had his heplock put in by the CRNA who did his procedure?
- A. That is correct.
 - Q. Go ahead. Anything else about that?
 - A. No.
 - Q. So based on that did you have any

they were paid to, so I took the accounts that had payments to the doctors and I got a Grand Jury subpoena for those bank records from the bank and I scheduled those out to try to determine how much the doctors had received in income for 2007.

- Q. What was the purpose of that? Were you trying to find out who was the main player or the minor players or what?
- 9 A. Well that, to verify who the main player
 10 was. Also to see if there was a financial incentive for
 11 this infection.
- 12 Q. Okay. And you're looking at a document 13 here, it's marked as Grand Jury Exhibit Number 40, and 14 what is this document?
 - A. This is the summary page of my analysis with all of the bank records. So I show that for 2007 Dr. Dipak Desai received \$6,809,003.74.
- 18 Q. What about the other two doctors that you 19 mentioned?
 - A. Dr. Clifford Carrol received \$1,967,446.17.
 - Q. And what about Dr. Carrera?
 - A. Dr. Carrera received \$1,403,010.64.
- Q. So if I have it correct it looks like DipakDesai made the lion's share of the money?
 - A. That's correct.

Now the next page, page 3 of the exhibit, the bottom, there is also some numbers listed there is are there not? A. Q. What are those? These were amounts that came from one of the bank accounts. When we took the records in the search warrant one of the file folders said CRNA and it was a bank account with Wells Fargo. So it was listed, its title was CRNA? Α. The handwritten title on the folder was CRNA. The bank account's name was not CRNA. What was the bank account's name? ο. I don't remember. A. But it was different? Q.

A.

Yes.

Q. Do you know who had control of that account?

A. Dr. Desai.
Q. Can you tell us what you found in that account? Are we talking about just one year or more years than that?

A. We're just talking about 2007. I looked at this file folder at the first because I thought it would show bonuses or payments made to the nurse anesthetist,

the CRNAs, and in fact there were no payments to the nurse anesthetists, there were only payments to doctors. So I pulled out these three doctors because they were involved in our infections and it shows that Dr. Desai received \$250,000 from that account, Dr. Carrol received 125,000 from that account, and Dr. Carrera received 25,000 from that account.

Q. But based on what you said earlier it would have been Dr. Desai that would have made the disbursements; is that correct?

A. That's correct.

Q. So he was the one who controlled the account?

A. That's correct.

 $\label{eq:Q.} \text{\ensuremath{\text{Now}}} \text{\ensuremath{\text{beside}}} \text{\ensuremath{\text{that}}} \text{\ensuremath{\text{analysis}}} \text{\ensuremath{\text{what}}} \text{\ensuremath{\text{else}}} \text{\ensuremath{\text{did}}} \text{\ensuremath{\text{you}}}$ do?

A. We had allegations that they had reused supplies, propofol, so I took all of their medical supplies on those categories and I looked at the vendors who had provided the propofol, the bite blocks and the syringes and I did an analysis to see if they had ordered enough supplies to provide a vial per person without reusing it, adequate number of syringes and adequate number of bite blocks.

Q. And just, you have a document in front of

ĸ

you, it's quite large, but it is Grand Jury Exhibit Number 41. So if you need to refer to that at any time just let us know you're doing it. It's here available to you and it is available to the Grand Jury as well.

So is that a summary report of that particular analysis?

A. Yes.

Q. And tell us what it is you found related to each one of those categories you mentioned.

A. Okay. I started with trying to determine how many patients had been seen in 2006 and 2007 and the reason I included 2006 was to see if they had an existing inventory of supplies. So I counted the number of patients in the endoscopy log book and we had the registers for both the Burnham clinic and the Shadow Lane clinic.

Q. Before you go on I just want to make sure, you say you're using the endoscopy log books which is the record from the business itself; correct?

A. The big book, yes.

Q. And that was information contained in the search warrant?

A. That's right. And then we also served a Grand Jury subpoena on the custodian for the Endoscopy Center to get the ones we hadn't gotten in the search

warrant from the Burnham clinic, so we had all of the endoscopy registers.

Q. And then beside that what other records did you look at in tabulating and coming up with the information that you're about to testify to?

A. I used the vendor files from the search warrant, identified all of the vendors that provided the propofol, the syringes and the bite blocks, and we subpoenaed those records from the vendors to make sure that I had all of the information. And then I was worried that I had, I might miss a vendor so we subpoenaed that information also from the custodian of records for the Endoscopy Center so that I would make sure I had all of the vendors.

Q. After you did all that did you have a compilation of all the records you were aware of that were related to what you're discussing?

A. Yes, I did.

Q. Okay. Go ahead.

A. Okay. In 2006 there was no existing inventory for the bite blocks or the propofol or the syringes. So in 2007 they had 7,521 endoscopy procedures where they would have used bite blocks and they —

Q. And let me make sure I'm clear on that.

You know there is a difference between a colonoscopy and an upper endoscopy; correct?

A. Correct.

Я

1.3

- Q. In a colonoscopy they don't use a bite block.
 - A. That's correct.
 - Q. On an upper endoscopy they do.
 - A. Yes.
- Q. I assume you know that's to supposedly protect a patient's teeth or protect the scope or both or something along those lines?
 - A. That's correct.
- Q. When you did your analysis, when you say procedures that would have required a bite block, are you talking about strictly upper endoscopy procedures?
 - A. Yes.
 - O. Okav. Go ahead.
- A. And I identified those by counting them in the endoscopy logs. So there were 7,521 upper endoscopy procedures and they ordered 3,250 bite blocks. So based on those numbers I did a ratio of the procedures to the bite blocks and it was two to one, two procedures for every bite block.
 - Q. Go on.
 - A. I did the same for propofol logs. They

- Q. And there were just two facilities that did endoscopy procedures primarily?
- A. There was a third one, it was the one on Rainbow, it opened in late 2007 after our infections.
 - Q. And then it closed?
 - A. Yes.
 - Q. Go ahead.
- A. The propofol logs were the sign out logs for the vials of propofol that the CRNAs used every day and they wrote how many they checked out and how many they returned so I was able to calculate how many vials they had used for the day.
 - O. Okay.
- A. The logs that I used were the 50-milliliter logs and after I prepared this report I went back and I found the 20 milliliter vials that they had also checked out
- Q. So this report just deals with the 50 but you've also looked into the 20 as well?
- Q. Okay. But you do know the information from the addendum report?
 - A. Yes, I do.
 - Q. Okay.

used propofol as the anesthetic for the procedures and the CRNAs or nurses signed out the propofol logs every day. The propofol vials, excuse me, every day.

- Q. And before you get to that I want to ask you if during your analysis and research you ever looked into how propofol is distributed, the size, the amount of container, or the size in the various containers that were available at least for purchase.
- A. We did. I did same research on the intermet, I looked up AstraZeneca and I got their information for propofol, they were the manufacturers.
 - Q. Do you know what it comes in size wise?
- A. They come in 10-milliliter vials, 20-milliliter vials and 50-milliliter vials.
- Q. Are you aware of any larger quantity, up to 10000?
 - A. I'm not.
- Q. At the Endoscopy Center specifically did you look at what they had or what they were using at any of the centers but specifically the Shadow Lane center?
- A. Yes, they ordered 20-milliliter and 50 milliliter vials.
- Q. Generally through all the facilities or just the one?
 - A. For both the facilities.
- A. So the ratio of patients to propofol vials for July 25th was three to one. So they had one vial of propofol they used for every three patients. And the ratio of patients to vials for September 21st was also three to one.
- Q. Now what about the 20-milliliter containers?
- A. Twenty milliliter containers on the 21st, they checked out two which did not impact the ratio significantly, and they didn't check out any on the 25th.
- Q. Okay. So let's talk about the total number of patients and the total number of vials on those two days.
 - A. Okay.
- Q. And just for the record she's referring to page 9 designated as DA-endoscopy bates number 5211.
- A. So on July 25th they had 65 patients. Two of those patients had two procedures so they had 67 procedures. But when I did my analysis I just used the number of patients because there should, the vials were for single use, one patient only. Ronald Lakeman signed out five vials and did not return any. Then he signed out 20 vials and returned five. So the total number of vials they used that day was 20. So the ratio of

patients to vials for July 25th was 3.25 patients to one vial.

- Q. So if I understand you correctly 20 vials total that were used or just checked out?
- A. They were checked out and I'm assuming that they were used.
 - Q. So 20 checked out that didn't get returned?
 - A. Right.

- Q. And they had 65 patients that day?
- A. That's correct.
 - Q. Let's move to the 21st.
- A. Okay. On the 21st they had 63 patients and they had 64 procedures, one patient had both procedures. So I counted 63 patients. CRNA Keith Mathahs signed out 18 vials and returned none. CRNA Mathahs signed out 20 vials and returned 14. So the total number of vials signed out was 24. So the ratio of patients to vials for this day was 2.62 to one. And then if you include the other two vials that are in the addendum report it doesn't change it significantly, it's still around three.
- Q. So it was actually a total of 26 vials that were checked out then?
 - A. Yes.
 - Q. Including those two 20 ml ones?

patients and all the vials ordered by both clinics?

- A. That's correct.
- Q. Okay. Go on.
- A. I also looked at the syringes to see, because we had allegations that they reused syringes, so I took both clinics once again for this because they shared medical supplies. So on the two days in 2007 when they spread the infection I counted the number of injections off of the anesthesia logs that they used and there were --
- Q. When you say injections you would mean drawing up a syringe from a bottle, injecting that, discarding that syringe and then drawing up from possibly the same bottle with a new syringe for another injection; is that right?
- A. Well, I counted the number of injections that they had listed on the, the CRNAs had listed on their anesthesia logs.
 - Q. Okay. That's fine.
- A. So I did that in order to get a ratio for the number of injections that they should have had.

 Just a minute. Let me make sure this is

23 the right page.

Okay

Q. And just for the record we're referring to

- A. Right.
- Q. And there was a total of 63 patients?
- A. Yes.

- Q. Those are the ones you looked at for those two days; correct?
 - A. That's correct.
- Q. Did you do any analysis for any other propofol use on any other days or in general?
- A. I looked at the propofol in general to see if they had ordered enough propofol vials for the number of patients that they saw. In 2007 there were 23,576 patients seen at both clinics. We had information that they shared medical supplies between the two clinics so I included both sets of numbers in this analysis. They ordered 11,844 vials of propofol and that would be both the 50-milliliter and the 20-milliliter, and so that's the ratio of patients to vials is two to one. They had two patients for every vial of propofol that they ordered.
- Q. Okay. And that's giving at least the benefit of two clinics seeing patients?
- A. Right.
 - Q. Is that correct?
- A. That's correct.
 -). Okay. And then just combining all the

page 13 of the document designated as DA-endoscopy bates number 5215.

A. I took the number of injections, I counted the number of injections that all of the patients received on both of those two days. On July 25th there were 123 injections and there were 65 patients. So I took that and averaged it to 1.9 injections for that day. On September 21st there were 63 patients and 185 injections so on that day the average was 2.93. And I took an average of both of those averages and I got 1.92, or 2. — I'm sorry, 2.425. So every patient should have received 2.4 injections for their procedures.

Then I took how many patients Burnham

15 had --

- Q. Referring to page 14, DA-endoscopy 5216.
- A. and for 2007 they had 8,619 patients, they ordered 18,900 syringes, so the ratio of patients to syringes was one patient to 2.19. My developed ratio was one patient to 2.4. So the Burnham clinic was close, close to the ratio that I had developed as to how many injections were actually given.
- 23 The Shadow clinic, they had 14,957 patients 24 and they ordered 17,100 syringes, so their actual ratio 25 was one patient to 1.14 syringe. So they weren't even

close to the developed ratio I had.

Q. When you talked about syringes were you talking about all types of syringes ordered by the clinic?

A. I'm talking about the 1000 syringes that --

- Q. Were typically used?
- A. were typically used for the injection, injecting propofol.

Q. Okay. Anything else regarding that analysis?

- A. I don't think so. I looked at 2008 to see if the ordering changed after they were notified by the health district and in 2008 they ordered more bite blocks. In 2008 they ordered 1400 bite blocks for five weeks. Or for six weeks.
- Q. And how many patients during that time if you know?
 - A. I didn't count them.
 - Q. Okay.
- A. And in 2007 they ordered, for the entire year they ordered 3,250. So they ordered significantly more bite blocks in 2008 than they did in 2007.

The propofol logs show that 38 vials, in 2008 38 vials were checked out for 34 patients, which meant the ratio of patient to propofol vials was one

more than they had in 2007. And that also followed through for the number of vials that they ordered. They ordered 3,125 vials of propofol and they had ordered 11,844 for the entire year of 2007. So the average number of vials ordered per week in 2007 was 228, the number of vials ordered for the six weeks in 2008 was approximately 521 per week.

Q. So at least double?

patient to every 1.1 vial. So they started ordering

A. Double, yes. And the same thing happened for the syringes. The orders in 2008 changed, for the period in five or six weeks in 2008 they ordered 5200 syringes and they ordered 36,000 for the entire year in 2007.

A. I did. Number of syringes ordered per week in 2007 was approximately 692, number of syringes ordered per week for five weeks in 2008 was approximately 1,040.

Q. Now beside the analysis of those three items that you've described was there anything else of significance contained in this report?

I don't believe there was.

Q. Now beside that analysis and the financial

one and the spreadsheets, things like that that you did, what else, if anything, did you do in this case?

A. I went through all of the evidence, I went through all of the interviews and indexed them by topics.

Q. Did you do any further analysis work of any type?

A. No, these were the two that I focused on.

Q. Okay. And when you say two, you're talking about the financial analysis and the medical supplies analysis?

A. That's correct.

 $\ensuremath{\mathtt{Q}}.$ You also did the actual patient records analysis too?

A. Yes, I did.

 $\ensuremath{\mathsf{MR}}.$ STAUDAHER: I have nothing further for this witness.

THE FOREPERSON: Are there any questions from the Grand Jury?

We'll start over here with Bob.

21 BY A JUROR:

Q. In 2008 when they realized they were under investigation and they ordered more vials of propofol, what size did they order, the 20 or the 50?

A. They ordered the 20. They sent back all of

1 the 50 that they had.

 $\label{eq:the_foreperson:} \mbox{ Okay. On this side, Lisa.}$ BY A JUROR:

Q. And when you developed your ratios of patients to supplies, you know, the bite blocks, the propofol and the syringes, did you take into account beginning inventory of 2007 of these supplies and ending inventory in 2007?

A. There was no beginning inventory because I looked at 2006 and they didn't order enough of any of the supplies to have any inventory left over.

Q. Did you take into account beginning inventory in 2006 to see if they ordered enough? I mean because they could have had a significant amount beginning of 2006 to where they didn't need to order as much in 2007.

A. They could have. And there was one period
where they ordered in 2006 a significant number of
propofol vials, but they didn't, they wouldn't have
lasted until 2007.

Q. Were there -- this was a partner, do you know what type of entity this was? Was it a partnership or a corporation?

A. There were several agreements that changed over the years so some of the partners and --

Q. Okay. I guess --

A. Same of the partners were early on and they continued through, like I think Dr. Carrol had started early on, but as partners dropped off those agreements changed.

- Q. What I'm trying to get at was there a balance sheet where you could go in and see where they had taken an inventory, did you look at a balance sheet?
 - A. An inventory of what?
- Q. Well, a balance sheet for the, for whatever this entity was, did they take a physical inventory at the end of the year that you looked at?
 - A. I didn't see one.
- \mathbb{Q} . They didn't have a balance sheet that they published for the partners or --
- A. No. One of the doctors that we interviewed, I was present for, he described it that they were employees, the other doctors were employees and Desai, Dr. Desai determined how much they would be paid and how much they would get from the CRNA account.
- Q. Okay. So bottom line -MR. STAUDAHER: And again, ladies and
 gentlemen, I'm going to admonish you about that
 statement. I want you to disregard that particular

6 vears? 7 I didn't find one in going through the 8 records. 9 Q. Thank you. 10 You're welcome. A. 11 THE FOREPERSON: Shelley. 12 BY A JUROR: 13 You said in 2007 that, referring to the 14 syringes, that, you gave the two numbers of 1.4 and then

So there was no inventory that we could

statement for your deliberation. It's a hearsay

look at to say beginning or ending for the calendar

didn't match, but by what percentage ratio though? 16 17 I developed a ratio based on these, the two days that I had scheduled out, I counted all the 18 19 injections, and that ratio was one patient and 2.4 20 syringes. Then I took the number of syringes and the 21 number of patients at the Burnham clinic and that ratio was one patient for 2.19 syringes. And then I applied 22 23 the same developed ratio that I had to the number of

1. I think it was 9, and you said that the numbers

25 patient for every 1.14 syringe. So my developed ratio

patients and syringes at Shadow and that ratio was one

147

was one patient for every 2.4 syringes and the number of syringes that they used at Shadow wasn't even close to what it should have been.

Does that answer your question?

- Q. I'm not a math person. It just sounds like numbers to me. I was hoping it would be more like if you could give me an answer of they issued so many syringes per person or they didn't.
- A. They, at Burnham they used 2.19 syringes per patient.
 - Q. Is that good or bad?

A. Well --

MR. STAUDAHER: And she can't make a qualification on that. She's just here to give you the information based on the analysis she did so I would ask her not to answer that particular question. Just telling you how many of whatever was used on the patients that were at the clinic when she did the analysis.

20 BY A JUROR:

- Q. Okay. What's average amount of injections does one patient normally get?
- A. Well, that varied because the propofol was given according to their size and the duration of the procedure.

O. Okav.

THE FOREPERSON: Are there any further questions?

Yes, Lisa.

5 BY A JUROR:

- Q. Perhaps you can answer this, perhaps you can't. But we know that they would have needed at least two syringes for their heplock, one for the saline and one for the propofol; correct?
 - A. That's correct.
 - Q. Okay. So they, so --

12 BY MR. STAUDAHER:

Q. With the distinction — I think I need to add and clarify — when I asked the witness about the size of the syringe I believe that the size for the syringe that was used for injection of the drug propofol may have been different than for the injection of the flushes. Is that correct?

A. That's correct.

- Q. So they would have been two different types of syringes. You only looked at the 10CC syringes which were typically used for the injection of the propofol drug alone?
 - A. That's correct.
 - Q. So there were other syringes used in the

practice, 500C syringes and smaller syringes and things like that?

- A. That's right.
- Q. You didn't look at any of those?
- A. No.

MR. STAUDAHER: Okay.

 $\label{eq:THE FOREPERSON: Are there any further questions? Yes.} \endaligned \begin{picture}(100,00) \put(0,0){\line(0,0){100}} \put(0,0){\line(0,0)$

BY A JUROR:

Я

- Q. All the analysis you done were only, was only on 25 July and on September 21st, right? There was no, you didn't randomly pick another date and run an analysis as a baseline to correlate these two?
- A. Not of a complete day, but I did do some additional work on information that we got from the health district. They provided us a list of the patients that had responded to a questionnaire that said that they were infected. I put those on a spreadsheet, I was looking for another cluster date and I found I think three dates where there were two patients infected on two of those dates and three patients infected on a third.

MR. STAUDAHER: And again I'm going to admonish the Grand Jury at this time there is not evidence that they were infected at the clinic on those

days but just patients that reported infection had procedures on those dates.

Is that correct?

THE WITNESS: That's correct.

THE FOREPERSON: Yes.

BY A JUROR:

- Q. How did you know that they only used the 10 ml for the propofol or that they only used 10 ml for the propofol injections?
- A. In the interviews that detectives conducted with the CRNAs.
- Q. Okay.

BY MR. STAUDAHER:

- Q. And one last question I have related to the one that the Grand Juror asked. Typically if you had a large inventory, let's say you had box, case after case of propofol on January 1st of 2006, would you expect to normally see ordering of propofol on a regular basis with a large inventory in place?
 - A. Yes.
 - O. Yes?
- A. Well, no, not with a large inventory in place. And I did look at those ordering records and I noticed that one large order in 2006, but they had continued ordering propofol all along.

- Q. So there wasn't like January of that year that they didn't have to order any propofol because they had so much left over from the year before?
 - A. No.
- Q. So they kept ordering in January and February and March and April, all the months?
 - A. Yes.
- Q. And then one month along there mid year they ordered actually larger amount than they had even on different months before and after that?
 - A. That's correct.
- Q. Okay. But by the time they got to the end of the year the amount they had ordered throughout the whole year I think you said was not enough to do what they needed to do?
 - A. Right.
 - Q. If they had used one per patient?
 - A. That's right.
 - THE FOREPERSON: Any further questions?

20 None?

THE WITNESS: I'd like to add one thing. The standard I used on this was one patient, one vial, a syringe per injection, one syringe per injection. So I used that standard care, medical practice, to apply to this ratio also.

BY MR. STAUDAHER:

- Q. Was that what you were at least operating on as accepted aseptic technique for handling drugs in the way they were used in that type of practice?
 - A. Yes.
- Q. So every time the vial is entered it should have been entered with a new syringe, that's why if they had a second injection of the drug you would have attributed that to a new syringe?
 - A. That's correct.

THE FOREPERSON: Any further comment? Questions? Okay.

By law, these proceedings are secret and you are prohibited from disclosing to anyone anything that has transpired before us, including evidence and statements presented to the Grand Jury, any event occurring or statement made in the presence of the Grand Jury, and information obtained by the Grand Jury.

Failure to comply with this admonition is a gross misdemeanor punishable by a year in the Clark County Detention Center and a \$2,000 fine. In addition, you may be held in contempt of court punishable by an additional \$500 fine and 25 days in the Clark County Detention Center.

Do you understand this admonition?

1 THE WITNESS: Yes, I do. 2 THE FOREPERSON: Thank you. You may be 3 excused. 4 THE WITNESS: Thank you. 5 THE FOREPERSON: You're welcome. 6 MR. STAUDAHER: One second ladies and 7 centlemen. 8 Ladies and gentlemen, that concludes it. 9 Thank you for coming over. I will have one witness after -- they are going to present that case. So it's 10 11 probably going to be about two hours for them to present 12 it, I believe they're coming back at 1:30 or thereabouts. I know we went over a little bit so I'll 13 14 let you decide when you want to come back. I know it's an important case for them. They anticipate two hours. 15 I have one witness who is relatively short like the 16 17 morning witness after that so we should be finished 18 relatively early. So I know they'll be back here at 19 1:30. 20 (Recess.) 21 (Juror Agnes Parker exits the proceedings.) 22 MR. STAUDAHER: Ladies and gentlemen of the 23 Grand Jury, we're back in case 09BGJ049A-C, Dipak Kantilal Desai, Ronald Ernest Lakeman, Keith H. Mathahs, 24 25 State versus those individuals. We have one additional

1 witness to provide to you after you had your break 2 earlier today. I'll call that witness in now. 3 THE FOREPERSON: Please raise your right 4 hand. Thank you. 5 You do solemnly swear the testimony you are about to give upon the investigation now pending before 6 7 this Grand Jury shall be the truth, the whole truth, and 8 nothing but the truth, so help you God? 9 THE WITNESS: Yes, ma'am. 10 THE FOREPERSON: Thank you. You may be 11 seated. 12 THE WITNESS: Thank you. 13 THE FOREPERSON: You are advised that you 14 are here today to give testimony in the investigation pertaining to the offenses of performance of act in 15 16 reckless disregard of persons or property, criminal 17 neglect of patients, insurance fraud, obtaining money under false pretenses, and racketeering, involving Dipak 19 Kantilal Desai, Ronald Ernest Lakeman and Keith H. 20 Mathahs. 21 Do you understand this advisement? 22 THE WITNESS: Yes, ma'am. 23 THE FOREPERSON: Could you please state 24 both your first and last names spelling them for the 25 record.

155

THE WITNESS: First name is Joanne,
J-O-A-N-N-E, last name Sams, S-A-M-S.

THE FOREPERSON: Thank you.

THE WITNESS: You're welcome.

JOANNE SAMS,

having been first duly sworn by the Foreperson of the Grand Jury to testify to the truth, the whole truth, and nothing but the truth, testified as follows:

- O. Miss Sams, what do you do for a living?
- A. I'm a certified coder for the Veterans $\label{eq:Administration.} Administration.$
 - Q. What do you do as a coder for them?
- A. What I do is I take medical documentation and I turn it into codes for billing and for reporting purposes.
- Q. Okay. In that process do you receive forms called HCVA 1500 forms from different providers?
 - A. Yes, sir.
- Q. Do you take the information off that form and then base I assume that's a claim coming in:

A. Yes, sir.

- Q. Do you then formulate what you would reimburse based off that claim?
 - A. That's correct.
- Q. And then go through the process of actually paying out the vendor?
- A. And validating that the codes are verified by the documentation submitted.
- 9 Q. Okay. I'm going to show you what has been 10 marked as Grand Jury Exhibit Number 44, ask you to just 11 flip through that document and tell me if you recognize 12 it.
 - A. Yes, I do recognize this.
- 14 Q. Look at all the pages. I think there are 15 five or six pages.
 - A. Yes.
 - Q. Five page document.
 - A. Yes, sir.
- 19 Q. What is this document, ma'am?
 - A. This is a sample of a HCVA 1500 form.
 - Q. Page 1.
 - A. Page 1. Page 2 is a payment history for a veteran.
 - Q. And who is that veteran?
 - A. Michael Washington.

24

25

- A. Absolutely, that's correct.
- Q. Have you gone back and looked at this information to see if it conformed or if it matched this operative report that was provided as well?
 - Yes, I have.
 - Does it?
 - Yes, it does, it does match. Α.
- I notice on page 3 of this document there is an operative report from the Endoscopy Center of Southern Nevada; is that correct?
 - A.
- Q. I'll show it to you right here. And again we're still looking for the record at Exhibit 44.

Is that a requirement from the Veterans Administration that they provide an operative report of the procedure done and the dates and times and all that stuff associated with it?

- Yes, it's for continuity of care and to validate that the services were in fact rendered to a particular patient, yes.
- 0. Who was the information pertaining to on that particular form?
 - This is for the patient Michael Washington. A.
 - Who was the doctor who actually performed ο.

159

the procedure?

- A. Dr. Desai.
- Dipak Desai? Q.
- Α. Dipak Desai, yes.
- Who was the individual who performed the anesthesia services?
- Anesthesia was provided by Ronald Lakeman, A. CRNA.
 - What procedure was performed?
 - A. A colonoscopy.
 - Ω. What was the procedure date?
 - 7/25/2007.
- Now beside that information on the
- operative report, you mentioned on page 4 that this was information pertaining to this specific claim; is that correct?
 - That's correct.
 - What information is on that page?
- The CPT code which is the procedure code, the description of that code, the modifiers that the provider billed us with the anesthesia time and the units billed.
- Q. Okay. I'm going to display this for the Grand Jury so that we know what we're talking about as we follow along.

I'm going to go back to page -- we'll start off with page 1. And this is just, I think you said just the blank -

- It's the sample form, yes, sir.
- Page 2. And I note that up in the left hand corner, upper left hand corner is Michael Washington's name; is that correct?
 - That's correct. Α.
- What is the information on this form 10 showing us?
 - A. It is showing us, the first entry is the surgical center that they billed for the services, for the use of their facility, vendor identified as Endoscopic Center of Southern Nevada. The second entry is the vendor, the Gastroenterology Center, it is an office call, the date of service is 2/1/08.
 - And I think what I'd like to do is move down to the actual date for the procedure.
 - A. The 7/25?
 - Yes, the 7/25 date. ο.
 - Α. The highlighted 7/25/07 is the, 00810 is the anesthesia code.
 - For what? Q.
 - For the colonoscopy performed on that day.
 - Let's move to the next page. I know you've

line.

- ο. And it shows the Endoscopy Center of Southern Nevada, 700 Shadow Lane?
- That's correct. Michael Washington as the patient, it shows your procedure date of 7/24/07.
 - 7/24? Ο.
- 7/25, I'm sorry, '07. It shows the Α. attending physician is Dr. Dipak Desai and the medication used and their findings of the procedure.
- Now one other thing I wanted to point out to you. Under the indications does it also have, or the providers, does it also have CRNA Ronald Lakeman's name?
 - Yes, sir. A.
 - Beside that type of anesthesia --
 - Is the propofol.
 - 0. What does that mean exactly?
- That was the type of medication, the
- anesthesia, that they administered to the patient.
- Okay. Next page which I just want to make sure we have is page 1, 2, 3, 4 I believe, this is the spreadsheet information that you said came from this particular claim?

A. That's correct.

And tell us what we're looking at here ο. specifically.

Okay. What I did is I took the procedure A. codes from the previous page and I just did a description showing what the procedure was, as a lower intestinal endoscopic procedure, the modifiers that were billed and the total units billed being eight, the total anesthesia time as 31 minutes for a total of three units.

0. So explain the difference between three units versus the total eight being billed.

Okay. The anesthesia code, the anesthesia services comes with a base code, base unit value of five, it's in the very first block, I identified that as five, that is added to the times units.

So if the base is five and the time is three that would be a total of eight?

19 Total of eight. And that's what they 20 billed us for was a total of eight units.

And the total time they billed you for was?

Thirty-one minutes.

Let's go to the last page of this exhibit and we'll start at the top. There's a lot of stuff here so why don't you walk us through what we're looking at

163

just generally and I would like you to focus on just that procedure date at this point.

Okay. Again this is the claims history for Michael Washington with the date of service of 7/25/2007, the anesthesia, the 00810, showing the P3 modifier, the -- what I did was I expanded that view to show the procedure code, the amount that the Veterans Administration paid --

So if I understand you correctly this number 4 listed in the middle of the page refers back to this number 4 here?

- A. That's correct.
- Is that correct? Ο.
- That's correct. Α.
- And that's the date of 7/25/07?
 - Correct.
 - 0. And then down below --
 - It gives you more detail to that particular A.
- 20 So you just expand out number 4?
 - That's correct. A.
 - Let's talk about that for a moment. On Ο. number 4 walk us through what we're looking at.
 - Okay. What it's showing you is the amount that was paid to the provider, it shows the amount of

units that was paid, total number of eight, it shows you the anesthesia time as 31 minutes and any of the modifiers, the QZ, the QS and the P3 modifiers that were also billed.

- ο. What are those?
- Those identify that it was monitored A. anesthesia care, that it was provided by, services performed by a CRNA, and that the patient has a systemic disease, he's categorized as having a severe systemic disease.
- 0. Okay. Let's talk about the top. It says service provided, that's 00810?
 - That's correct.
- Is that a colonoscopy? 0.
- Α. That's --
 - Or anesthesia for a colonoscopy?
- A. Anesthesia code for colonoscopy, yes.
- Got it. And below that it says amount
- 19 paid. What does that mean? Is that the actual dollar 20 amount paid to the clinic?
 - That's correct. A.
- 22 And how much is that? ο.
 - That's a hundred dollars. Α.
- 24 Now if we move over where it says, on the 25 right hand side of that expanded section, it says amount

claimed. Do you see that? 1 2 Yes, sir. A. 3 It also has another number there. What is 4 that number? 5 A. That is also a hundred dollars. 6 0. Is that what was actually claimed on this? 7 That's right, they billed a hundred dollars Α. 8 and they were paid a hundred dollars. 9 Now if we go down to the bottom we see it 10 says units paid and it has a number there. 11 Α. Yes, sir, 12 What is that? ο. 13 That is the number 8. 14 ٥. And anesthesia time? Was 31 minutes. 15 Α. 16 So even though the amount billed was a ο. 17 hundred dollars and the amount claimed was a hundred 18 dollars, this 30, I just want to be clear, this 19 anesthesia time of 31 minutes and the units that they 20 claimed were eight, were actually, that's the 21 information that was contained in the form that was 22 submitted to you for payment? 23 That's correct, uh-huh. 24 So if this was an incorrect amount, if it 25 really wasn't 31 minutes, that would be something that

1 would be incorrect on the form that was submitted to 2 vou? 3 A. That's correct, ves. 4 Now did you have anything else to do with 5 this particular claim or work or are you just providing 6 this information to us today? 7 That's it, uh-huh. 8 MR. STAUDAHER: I have nothing further for 9 10 THE FOREPERSON: Are there any questions 11 from the jury? 12 There are none. 13 By law, these proceedings are secret and 14 you are prohibited from disclosing to anyone anything 15 that has transpired before us, including evidence and statements presented to the Grand Jury, any event 16 17 occurring or statement made in the presence of the Grand 18 Jury, and information obtained by the Grand Jury. 19 Failure to comply with this admonition is a 20 gross misdemeanor punishable by a year in the Clark 21 County Detention Center and a \$2,000 fine. In addition, 22 you may be held in contempt of court punishable by an 23 additional \$500 fine and 25 days in the Clark County

Do you understand this admonition?

REPORTER'S CERTIFICATE

THE WITNESS: Yes, ma'am. THE FOREPERSON: Thank you. You may be excused. THE WITNESS: Thank you very much. MR. STAUDAHER: One second ladies and centlemen.
