

Permit 76802

**AMENDED**  
**THE STATE OF NEVADA**

**PERMIT TO CHANGE THE PUBLIC WATERS OF THE  
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: **KOBEH VALLEY RANCH, LLC**  
Source: **UNDERGROUND**  
Basin: **DIAMOND VALLEY**  
Manner of Use: **MINING, MILLING AND DEWATERING**  
Period of Use: **JANUARY 1ST TO DECEMBER 31ST**  
Priority Date: **06/03/1960**

\*\*\*\*\*

**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76005 is issued subject to the terms and conditions imposed in said Permit 76005 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 76802

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13, 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

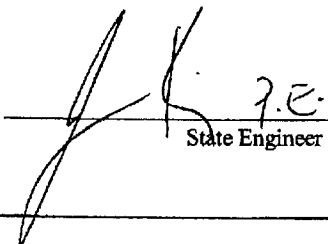

December 13, 2016

Map in support of proof of beneficial use shall be filed on or before:

#### **APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76006 is issued subject to the terms and conditions imposed in said Permit 76006 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 76803

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.**

#### **APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76007 is issued subject to the terms and conditions imposed in said Permit 76007 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 76804

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 147.6 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 92.25 acre-feet, can be diverted annually. Additional diversion up to the total 147.6 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 92.25 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.66 cubic feet per second or 147.6 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13, 2013

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76009 is issued subject to the terms and conditions imposed in said Permit 76009 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 76805

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 303.08 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 189.43 acre-feet, can be diverted annually. Additional diversion up to the total 303.08 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 189.43 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.02 cubic feet per second or 303.08 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13, 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 76803 is issued subject to the terms and conditions imposed in said Permit 76803 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 78424

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 57.5 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 35.94 acre-feet, can be diverted annually. Additional diversion up to the total 57.5 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 35.94 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1525 cubic feet per second or 57.5 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1142.40 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 771.12 acre-feet, can be diverted annually. Additional diversion up to the total 1142.40 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 771.12 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 4.7 cubic feet per second or 1142.4 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72697 is issued subject to the terms and conditions imposed in said Permit 72697 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 2,000.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75996 is issued subject to the terms and conditions imposed in said Permit 75996 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 300.76 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 203.01 acre-feet, can be diverted annually. Additional diversion up to the total 300.76 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 203.01 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.45 cubic feet per second or 300.76 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75999 is issued subject to the terms and conditions imposed in said Permit 75999 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 211.25 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 142.59 acre-feet, can be diverted annually. Additional diversion up to the total 211.25 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 142.59 acre-feet to be exceeded..

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second or 211.25 acre-feet annually.

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75989 is issued subject to the terms and conditions imposed in said Permit 75989 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76989 is issued subject to the terms and conditions imposed in said Permit 76989 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79923

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 474 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 176.96 acre-feet, can be diverted annually. Additional diversion up to the total 474 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 176.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.6554 cubic feet per second or 474.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75995 is issued subject to the terms and conditions imposed in said Permit 75995 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79924

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second or 272.64 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76000 is issued subject to the terms and conditions imposed in said Permit 76000 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 842.91 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 568.96 acre-feet, can be diverted annually. Additional diversion up to the total 842.91 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 568.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.99 cubic feet per second or 842.91 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

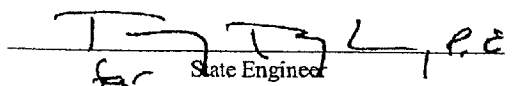

December 13 2016

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76002 is issued subject to the terms and conditions imposed in said Permit 76002 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 300.76 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 203.01 acre-feet, can be diverted annually. Additional diversion up to the total 300.76 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 203.01 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.82 cubic feet per second or 300.76 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

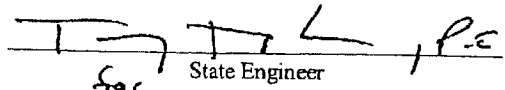

December 13 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 73545 is issued subject to the terms and conditions imposed in said Permit 73545 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79928

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the monitoring, management and mitigation plan that is required by the State Engineer as per State Engineer's Ruling 6127 prior to the diversion of any water.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 2,000.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75993 is issued subject to the terms and conditions imposed in said Permit 75993 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 02/25/2005

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75994 is issued subject to the terms and conditions imposed in said Permit 75994 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79931

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75998 is issued subject to the terms and conditions imposed in said Permit 75998 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 500.00 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 337.50 acre-feet, can be diverted annually. Additional diversion up to the total 500.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 337.50 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.0 cubic feet per second or 500.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 73546 is issued subject to the terms and conditions imposed in said Permit 73546 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76745 is issued subject to the terms and conditions imposed in said Permit 76745 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79934 totally abrogates Permit 76745.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permits 79934 and 79941 are approved for the entire total combined duty of 819.24 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 552.99 acre-feet, can be diverted annually. Additional diversion up to the total 819.24 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 552.99 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.22 cubic feet per second or 565.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76990 is issued subject to the terms and conditions imposed in said Permit 76990 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79935 totally abrogates Permit 76990.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 322.5 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount for 65.54 acres of the base right, 176.96 acre-feet, can be diverted annually. Additional diversion up to the total 322.5 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 176.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.76 cubic feet per second or 322.5 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75990 is issued subject to the terms and conditions imposed in said Permit 75990 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually. The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79936 totally abrogates Permit 75990.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 272.64 acre-feet annually.**

Source: UNDERGROUND  
Basin: KOBEB VALLEY  
Manner of Use: MINING AND MILLING  
Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 02/25/2005

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75991 is issued subject to the terms and conditions imposed in said Permit 75991 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79937 totally abrogates Permit 75991.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second or 565.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions;

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 74587 is issued subject to the terms and conditions imposed in said Permit 74587 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79938 abrogates 1.0 cubic feet per second and 723.97 acre-feet from Permit 74587.

(Continued on Page 2)

Permit No. 79938

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 565.0 acre-feet annually.**

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 73547 is issued subject to the terms and conditions imposed in said Permit 73547 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The total combined duty of water under Permits 79934, 79935, 79936, 79937, 79938 and 79939 being from the same well shall not exceed 565 acre-feet annually.

The issuance of Permit 79939 totally abrogates Permit 73547.

(Continued on Page 2)

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76746 is issued subject to the terms and conditions imposed in said Permit 76746 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permits 79934 and 79941 are approved for the entire total combined duty of 819.24 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 552.99 acre-feet, can be diverted annually. Additional diversion up to the total 819.24 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 552.99 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.24 cubic feet per second or 819.24 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

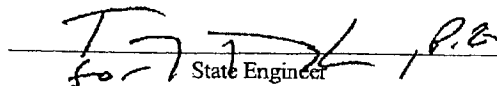

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76001 is issued subject to the terms and conditions imposed in said Permit 76001 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.00 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 864.00 acre-feet, can be diverted annually. Additional diversion up to the total 1,280.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 864.00 acre-feet to be exceeded..

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.72 cubic feet per second or 1280.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

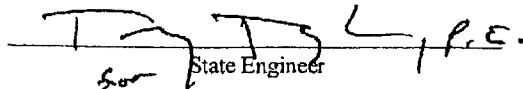

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 76803 is issued subject to the terms and conditions imposed in said Permit 76803 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit No. 78424

Permit 76008 is approved for the entire 57.5 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 35.94 acre-feet, can be diverted annually. Additional diversion up to the total 57.5 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 35.94 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.1525 cubic feet per second or 57.5 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 14 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

### **PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED**

**Name of Permittee:** KOBEB VALLEY RANCH, LLC  
**Source:** UNDERGROUND  
**Basin:** DIAMOND VALLEY  
**Manner of Use:** MINING, MILLING AND DEWATERING  
**Period of Use:** JANUARY 1ST TO DECEMBER 31ST  
**Priority Date:** 09/19/1961

\*\*\*\*\*

#### **APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 57835 is issued subject to the terms and conditions imposed in said Permit 57835 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

(Continued on Page 2)

Amended Permit No. 76008

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 in Kobeh Valley and Permits 76008, 76802, 76803, 76804, 76805 and 78424 in Diamond Valley shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 in Kobeh Valley shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

This permit is approved for the entire 155.48 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 97.18 acre-feet, can be diverted annually. Additional diversion up to the total 155.48 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 97.18 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.66 cubic feet per second or 155.48 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1, 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

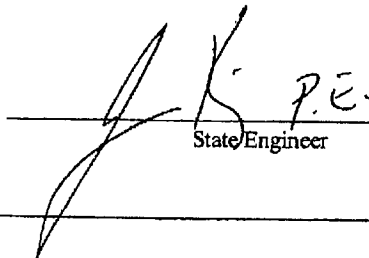

December 1, 2016

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 300.76 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 203.01 acre-feet, can be diverted annually. Additional diversion up to the total 300.76 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 203.01 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The issuance of this permit expires Temporary Permit 80884T.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.45 cubic feet per second or 300.76 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72581 is issued subject to the terms and conditions imposed in said Permit 72581 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,142.4 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 771.12 acre-feet, can be diverted annually. Additional diversion up to the total 1,142.40 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 771.12 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 4.7 cubic feet per second or 1,142.4 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

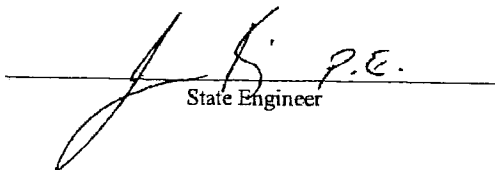

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72582 is issued subject to the terms and conditions imposed in said Permit 72582 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 500.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 337.50 acre-feet, can be diverted annually. Additional diversion up to the total 500.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 337.5 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.0 cubic feet per second or 500.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72583 is issued subject to the terms and conditions imposed in said Permit 72583 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 211.25 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 142.59 acre-feet, can be diverted annually. Additional diversion up to the total 211.25 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 142.59 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 211.25 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72584 is issued subject to the terms and conditions imposed in said Permit 72584 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 842.91 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 568.96 acre-feet, can be diverted annually. Additional diversion up to the total 842.91 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 568.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.99 cubic feet per second or 842.91 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72585 is issued subject to the terms and conditions imposed in said Permit 72585 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 864.0 acre-feet, can be diverted annually. Additional diversion up to the total 1,280.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 864.00 acre-feet to be exceeded..

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.72 cubic feet per second or 1280.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

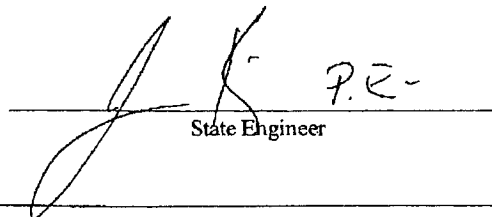

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72586 is issued subject to the terms and conditions imposed in said Permit 72586 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 300.76 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 203.01 acre-feet, can be diverted annually. Additional diversion up to the total 300.76 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 203.01 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.82 cubic feet per second or 300.76 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

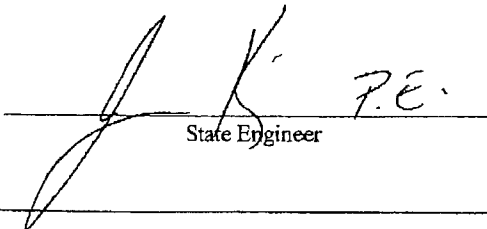

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72587 is issued subject to the terms and conditions imposed in said Permit 72587 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 864.0 acre-feet, can be diverted annually. Additional diversion up to the total 1,280.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 864.0 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.0 cubic feet per second or 1,280.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

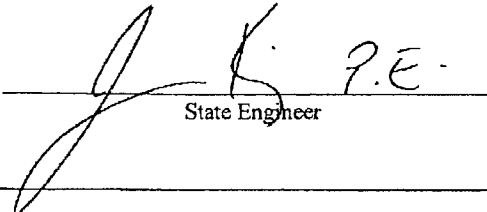

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72588 is issued subject to the terms and conditions imposed in said Permit 72588 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.0 acre-feet annually as requested. #### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 57840 is issued subject to the terms and conditions imposed in said Permit 57840 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76005, 76006, 76007, 76008 and 76009 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.0 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.0 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76005 is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

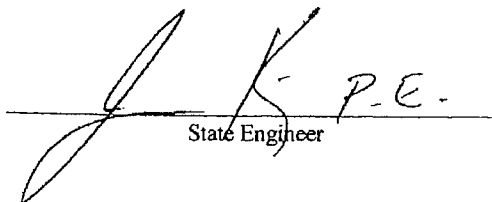

December 1 2012

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 57839 is issued subject to the terms and conditions imposed in said Permit 57839 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76005, 76006, 76007, 76008 and 76009 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.0 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.0 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76006 is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 57836 is issued subject to the terms and conditions imposed in said Permit 57836 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76005, 76006, 76007, 76008 and 76009 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.0 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.0 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76007 is approved for the entire 147.6 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 92.25 acre-feet, can be diverted annually. Additional diversion up to the total 147.6 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 92.25 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.66 cubic feet per second or 147.6 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

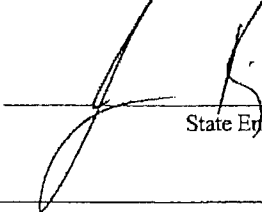

December 1 2012

## THE STATE OF NEVADA

### PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: KOBEH VALLEY RANCH, LLC  
Source: UNDERGROUND  
Basin: DIAMOND VALLEY  
Manner of Use: MINING, MILLING AND DEWATERING  
Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 09/19/1961

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 57835 is issued subject to the terms and conditions imposed in said Permit 57835 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.0 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.0 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76008 is approved for the entire 155.48 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 97.18 acre-feet, can be diverted annually. Additional diversion up to the total 155.48 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 97.18 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.66 cubic feet per second or 155.48 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2013

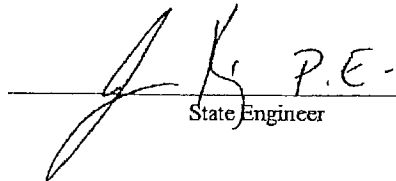

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 1 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 66062 is issued subject to the terms and conditions imposed in said Permit 66062 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76005, 76006, 76007, 76008 and 76009 are approved for a total combined duty of 616.0 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.0 acre-feet, can be diverted annually. Additional diversion up to the total 616.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.0 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76009 is approved for the entire 303.08 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 189.43 acre-feet, can be diverted annually. Additional diversion up to the total 303.08 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 189.43 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.02 cubic feet per second or 303.08 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

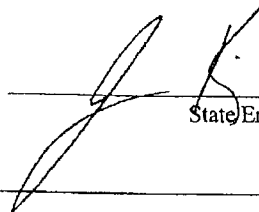

December 1 2012

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 35866 is issued subject to the terms and conditions imposed in said Permit 35866 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permits 76745 and 76746 are approved for the entire total combined duty of 819.24 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 552.99 acre-feet, can be diverted annually. Additional diversion up to the total 819.24 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 552.99 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.21 cubic feet per second or 819.24 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

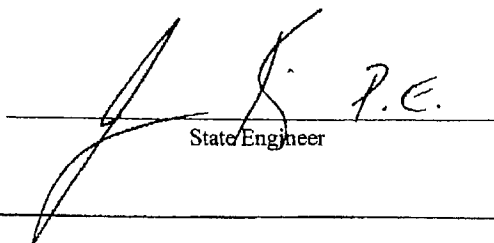

December 1 2012

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 64616 is issued subject to the terms and conditions imposed in said Permit 64616 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permits 76745 and 76746 are approved for the entire total combined duty of 819.24 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 552.99 acre-feet, can be diverted annually. Additional diversion up to the total 819.24 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 552.99 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.24 cubic feet per second or 819.24 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 9682, Certificate 2780, is issued subject to the terms and conditions imposed in said Permit 9682, Certificate 2780 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 474 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 176.96 acre-feet, can be diverted annually. Additional diversion up to the total 474 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 176.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.6554 cubic feet per second or 474.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 11072, Certificate 2880, is issued subject to the terms and conditions imposed in said Permit 11072, Certificate 2880 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 322.5 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount for 65.54 acres of the base right, 176.96 acre-feet, can be diverted annually. Additional diversion up to the total 322.5 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 176.96 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The issuance of this permit totally abrogates 132.76 acres and 322.5 acre-feet in the name of Kobeh Valley Ranch from the base right, Permit 11072, Certificate 2880.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.76 cubic feet per second or 322.5 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76005 is issued subject to the terms and conditions imposed in said Permit 76005 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76008 is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Priority Date: 06/03/1960

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76006 is issued subject to the terms and conditions imposed in said Permit 76006 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76008 is approved for the entire 164.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 102.5 acre-feet, can be diverted annually. Additional diversion up to the total 164.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 102.5 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.435 cubic feet per second or 164.0 acre-feet annually.**

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76007 is issued subject to the terms and conditions imposed in said Permit 76007 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

Permit 76008 is approved for the entire 147.6 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 92.25 acre-feet, can be diverted annually. Additional diversion up to the total 147.6 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 92.25 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.66 cubic feet per second or 147.6 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 76009 is issued subject to the terms and conditions imposed in said Permit 76009 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Permits 76008, 76802, 76803, 76804, 76805 and 78424 are approved for a total combined duty of 616.00 acre-feet annually. However, pursuant to NRS 533.3703, initially only the net consumptive use amount, 385.00 acre-feet, can be diverted annually. Additional diversion up to the total 616.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 385.00 acre-feet to be exceeded. The place of use of these permits is limited to the Diamond Valley Hydrographic Basin (153).

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

(Continued on Page 2)

This permit is approved for the entire 303.08 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 189.43 acre-feet, can be diverted annually. Additional diversion up to the total 303.08 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 189.43 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.02 cubic feet per second or 303.08 acre-feet annually.**

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 73551 is issued subject to the terms and conditions imposed in said Permit 73551 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79911

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 6.0 cubic feet per second or 2,669.50 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76004 is issued subject to the terms and conditions imposed in said Permit 76004 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.00 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 864.00 acre-feet, can be diverted annually. Additional diversion up to the total 1,280.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 864.00 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 5.0 cubic feet per second or 1,280.00 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72695 is issued subject to the terms and conditions imposed in said Permit 72695 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 79914

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 2,000.00 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Map in support of proof of beneficial use shall be filed on or before:

## THE STATE OF NEVADA

### PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: KOBEB VALLEY RANCH, LLC  
Source: UNDERGROUND  
Basin: KOBEB VALLEY  
Manner of Use: MINING AND MILLING  
Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 05/27/1980

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 76003 is issued subject to the terms and conditions imposed in said Permit 76003 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the entire 1,280.00 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 864.00 acre-feet, can be diverted annually. Additional diversion up to the total 1,280.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 864.00 acre-feet to be exceeded.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 5.0 cubic feet per second or 1280.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 13 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 13 2016

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 75997 is issued subject to the terms and conditions imposed in said Permit 75997 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits 79913, 79915, 79917, 79920, 79921, 79923, 79926, 79927, 79932, 79934, 79935, 79941 and 79942 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 73548, 73549, 73550, 79911, 79912, 79914, 79916, 79918, 79919, 79922, 79924, 79925, 79928, 79929, 79930, 79931, 79933, 79936, 79937, 79938, 79939 and 79940 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

### PERMIT TO APPROPRIATE WATER

**Name of Permittee:** KOBEH VALLEY RANCH, LLC  
**Source:** UNDERGROUND  
**Basin:** KOBEH VALLEY  
**Manner of Use:** MINING, MILLING AND DEWATERING  
**Period of Use:** JANUARY 1ST TO DECEMBER 31ST  
**Priority Date:** 05/03/2005

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 3.0 cubic feet per second or 2,000.00 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

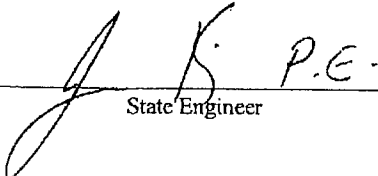

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

Permit No. 73547

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

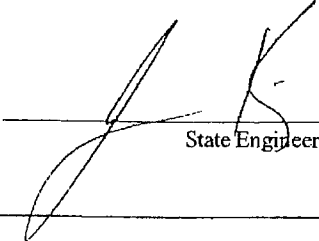

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

December 1 2012

**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 6.0 cubic feet per second or 2,669.50 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 6.0 cubic feet per second or 3,223.97 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

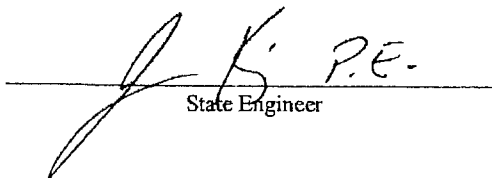

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

### PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: KOBEB VALLEY RANCH, LLC  
Source: UNDERGROUND  
Basin: KOBEB VALLEY  
Manner of Use: MINING AND MILLING  
Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 10/17/1989

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 54093 is issued subject to the terms and conditions imposed in said Permit 54093 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

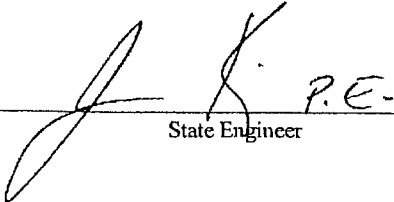

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 54094 is issued subject to the terms and conditions imposed in said Permit 54094 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 60281 is issued subject to the terms and conditions imposed in said Permit 60281 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 272.64 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 60282 is issued subject to the terms and conditions imposed in said Permit 60282 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 60285 is issued subject to the terms and conditions imposed in said Permit 60285 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 723.97 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

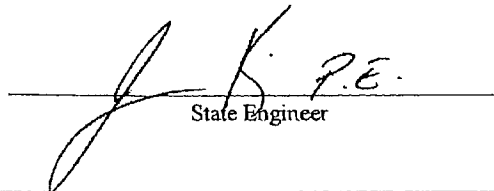

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

## THE STATE OF NEVADA

### PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: KOBEB VALLEY RANCH, LLC  
Source: UNDERGROUND  
Basin: KOBEB VALLEY  
Manner of Use: MINING AND MILLING  
Period of Use: JANUARY 1ST TO DECEMBER 31ST  
Priority Date: 02/25/2005

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 60286 is issued subject to the terms and conditions imposed in said Permit 60286 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.

(Continued on Page 2)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to the approval of a monitoring, management and mitigation plan by the State Engineer before any water is developed for mining.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 272.64 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 1 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

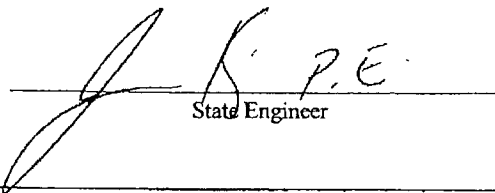

December 1 2012

Map in support of proof of beneficial use shall be filed on or before:

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 72580 is issued subject to the terms and conditions imposed in said Permit 72580 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined consumptive duty of water under Permits, 75996, 75997, 75998, 75999, 76000, 76001, 76002, 76003, 76004, 76745, 76746, 76989 and 76990 shall not exceed 5,007.64 acre-feet annually.

The total combined duty of water under Permits 72695, 72696, 72697, 72698, 73545, 73546, 73547, 73548, 73549, 73550, 73551, 73552, 74587, 75988, 75989, 75990, 75991, 75992, 75993, 75994 and 75995 shall not exceed 6,292.36 acre-feet annually.

The total combined duty of all of the above listed permits shall not exceed 11,300 acre-feet annually.
