- Ma'am, did you prepare a statement for 11

- 13 A.
- Could you read that.
- "Wy name is Norma Penfield, and I live in 15
- 16 Tucson, Arizona with my three grandchildren, Chantelle,
- 17 JP, and Anthony."
- Debra Panos was my only child. We loved her so 18
- 19 much, and we miss her dearly every day. In August of
- 20 1995, I had just begun the grievance over losing my
- 21 haisband Dalle, who passed away suddenly in 1993. He was my
- 22 partner and my best friends, and it was devastating when I
- 23 lost him. I closed myself in my home for almost two years
- grieving over his loss."

25

"When I was contacted on August 31, 1995, that my

- I only child had been mandered, I thought someone was
- 2 playing a really, really had joke. I couldn't stay on the
- 3 line to find out any details they could provide. All I
- 4 knew was that someone said my daughter was dead."
- "My thoughts went to my grandchildren and I prayed
- to God to give me strength and energy I would need to
- endure this great tragedy" 7
- 8 "But even with all of the energy and strength I
- 9 had, I knew I would have to have a lot of help. I had to
- 10 go to court to be granted legal guardian of the children.
- 11 to be able to bring them back to Arizona to reside with
- 12 me. As not a young person at age 50, I only hoped I could
- 13 give them the home and up bringing they deserved to have.
- 14 I knew I had to be a parent, a grandparent, and more
- 15 importantly now, their best friend. A friend they could
- 16 trust and console with and be assured no harm would ever
- 17 ome to them."
- "I was fortunate to have my sister and her 18
- 39 husband living in Tucson also. I don't know what I would
- 20 have done without them. They were my left annuall the way
- through this tragedy. Their support and confort and still
- is ever so greatly appreciated."
- "Debbie was so young and her death was 23
- 24 brutal and senseless I remember special instructions from
- 25 the funeral home about appeal they needed so the wounds

233

- 1 did not show. I just can't imagine how one human being
- 2 could be so harmful to another."
- "My family kept most of the details of her
- death to spare me further grief. Knowing my only child
- 5 was gone was more than I thought I could possibly endure."
- I had some questions that ran through my
- 7 mind daily, what and how can I explain to tell any of this
- to my grandchildren. How do you tell them they won't see
- 9 their Kommy any more because something bad that had
- 10 happened."
- 11 'My granddaughter was only three at the
- time she lost her Moon and never understood where she went 13
- and why she couldn't see her anymore."
- "When she was told her Moon was dead, she
- 15 believed she could resolve the problem by somehow dying
- berself and that she could go to heaven to see her." 16
- This isn't in the statement, but her 17
- 18 brothers tried to tell her why she didn't want to die.
- "Debra was such a caring person about 19
- 20 others. She loved her job as a 911 operator. She also
- 21 had a special place in her heart for her grandwother who
- 22 lived with her also. She had a feel for older people and
- 23 children that I can't explain. There is so many ways that

Wa had one habysitter by the name of Marge, 5 6 but I do believe that my mother fired her so it was like basically on our own. Is that pretty much the situation the whole time I lived there on Wellers Court with your grandoother? 11 A. Yes, sir. Now you said she did provide necessities for Q. 12 the children? 13 Yes. sic. I mean that was basically we all hung together. We all did what we wanted to do basically. What were the conditions of the houses on 5 Mellers Court? A. They were run down. You say run down, can you be more Q. descriptive? I just -- I called it the hood. I mean, Д. 10 basically every house bad roaches. Easically every house 1) was gun down, no good aiding, no good paint in side the 12 homes, nothing. Q. Were any of the hones empty and abandoned? 13 Yes, most of them. Yeah. 14 A. Was this like a dead end or a cul-da-sac 15 16 type of --Yes, you only get out one way. 17 A, What was it the other way? 18 Q. ă. Like once we left our house you go to the 19 20 end of the road, but wasn't nothing there but trees and 2) brush. Then we can out to the right and go over the hill 22 be on the next street. Is that street where the Fords and the Deans Q. 71 24 Lived?

A.

Yes, sir.

- Were there railroad tracks in the 1 Q. 2 neighborhood? Sat right behind our house. Α. Right behind your house, how close behind Q. your house? A. Like right behind the house. If the train comes by the house, you can feel the house vibrating. That's how close it was. Were there trains that went by often? Yeah. Primerily in the day, but not like 10 À. 11 every hour. Maybe 4 to 5 hours, yeah. Was there one set of railroad tracks or more 17 Q. i3 than one? I really can't say. The only thing I would λ. 15 say is the railroad tracks went around by our house, 16 around the corner, and down wherever it went. So I say 1) one way, because they go this way, some one this way. But 10 not a double track like this, two tracks. You said that your grandnother worker, and 20 provided with heat, clothing, and food for the house, but 21 the house was in bad shape, is that a fair statement? 22 Ä. That's a fair statement. But it was 23 clean. Who kept the house clean? Q. We did. A. 323 What would take place while your grantha was 2 at work or bingo somewhere else? We probably be having music blasting 4 watching MTV. All the kids be at our house. It was like 5 a hangout house. Smoking weed, drinking, whatever we --6 whatever we wanted to do. Did you have ever see James get any Q. affection or hugs from your grandhother? None of us did. 10 What about discipline, how did discipline 11 take place in the house there on Wellers Court? I know James and my sister Carla and brother Rick would get whooped by extension com's or switches. 14 She had us go get our cam switches, or -- that's basically. 15 it. She never really whooped me with an extension cord,
- 16 it was always a switch. When she would whip the others with 17 Q. 38 extensions cords, would that leave marks? 19 Α. Yes, sir.
- 20
 - Q, You'd have to go to school with the marks?
- 21 Α. Yes, sir.
- 22 Q. How often would that happen?
- 23 A, Whenever she felt like they were being
- 24 disciplined. If we got into her stuff, or if they did
- 25 samething and it got reported to her. Other them that she

- 1 want there to really discipline you. If we got caught 2 doing something, yeah.
- Q. Shat about verbal abuse, verbal discipline,
 how would that go?
- 5 A. I don't think she ever had anything nice to 6 say, always stupid or idiot, or can't you do scrething 1 right. Se was never the type of grandrother where if you 8 came in and said I have a good job, she would't by like
- 9 that's good. She would be like, well, how long do you to think you're going to have it and stuff like that.
- 11 Q, How did James do in school.
- 12 A. I believe we all -1 know for a fact we all 13 did poorly in actual.
- 14 Q. Who was the best in school out of the four 15 of you?

 - Q. What kind of teasing would he get?
- 5 A. Called slow, or be just wasn't as mart as 6 everybody else was.
- 7 Q. What about your grandmother, how would she 8 refer to him?
- A. Sometimes she call him stupid, or when it
 was time for a conference to go to see his teachers she
 never really had time to go to any of our conferences, so
- 12 I guess she just -- I can really say how she felt. But I
- 13 know that I don't think she put as much effort into it as
- 14 a mother should.
- $\ensuremath{\mathsf{Q}}.$ Was it hard on her raising four kids at her $\ensuremath{\mathsf{16}}$ age?
- 17 å. From our point of view, I believe so. But I 18 don't think that it's that hard. I have six children of

INSTRUCTION NO.: _	ے ک

Life imprisonment with the possibility of parole is a sentence of life imprisonment which provides that a defendant would be eligible for parole after a period of forty years. This does not mean that he would be paroled after forty years, but only that he may be eligible after that period of time.

Life imprisonment without the possibility of parole means exactly what it says, that a defendant shall never be paroled.

If you sentence a defendant to death, you must assume that the sentence will be carried out.

The State has alleged that one aggravating circumstance is present in this case.

The Defendant has alleged certain mitigating circumstances are present in this case. It shall be your duty to determine:

- (a) whether the aggravating circumstance is found to exist; and
- (b) whether a mitigating circumstance or circumstances are found to exist; and
- (c) based upon these findings, whether the Defendant should be sentenced to a definite term of 100 years imprisonment, life imprisonment with or without the possibility of parole or death.

The jury may consider a sentence of death only if (1) the jurors unanimously find at least one aggravating circumstance has been established beyond a reasonable doubt and (2) the jurors unanimously find that there are no mitigating circumstances sufficient to outweigh the aggravating circumstance or circumstances found.

A mitigating circumstance itself need not be agreed to unanimously; that is, any one juror can find a mitigating circumstance without the agreement of any other juror or jurors. The entire jury must agree unanimously, however, as to whether the aggravating circumstances outweigh the mitigating circumstances.

Otherwise, the punishment imposed shall be imprisonment in the State Prison for a definite term of 100 years imprisonment, with eligibility for parole beginning when a minimum of 40 years has been served or life with or without the possibility of parole.

INSTRUCTION NO. _______

You are instructed that the following factors are circumstances by which Murder of the First Degree may be aggravated:

The murder was committed during the perpetration of a sexual assault.

€.	>
-7	. >

INSTRUCTION NO.

ļ

A person who subjects another person to sexual penetration against the victim's will or under conditions in which the perpetrator knows or should know that the victim is mentally or physically incapable of resisting or understanding the nature of his conduct, is guilty of sexual assault.

"Sexual penetration" includes any intrusion, however slight, of any part of a person's body or any object manipulated or inserted by a person into the genital or anal openings of the body of another, including sexual intercourse in its ordinary meaning. Evidence of the emission is not necessary.

Sexual intercourse is the placing of the penis of the perpetrator into the vagina of the víctim.

Fellatio is the placing of the penis of the perpetrator into the mouth of the victim.

Physical force is not necessary ingredient in the commission of the crime of sexual assault. The question is not whether the victim was penetrated by physical force, but whether the act was committed without her consent and/or under conditions in which Defendant knew or should have known, the victim was incapable of giving her consent or understanding the nature of the act.

The victim of a sexual assault is not required to do more than her age, strength, surrounding facts and attending circumstances make it reasonable for her to do to manifest her opposition.

l

INSTRUCTION NO.	-(1)
11115) LICO CERCIN INC.	

There is no consent where the victim is induced to submit to sexual acts through fear of death or serious bodily injury.

INSTRUCTION NO.:	17	

Mitigating circumstances are those factors which, while they do not constitute a legal justification or excuse for the commission of the offense in question, may be considered, in the estimation of the jury, in fairness and mercy, as extenuating or reducing the degree of the Defendant's moral culpability.

Any aspect of the defendant's character or record and any of the circumstances of the offense, including any desire you may have to extend mercy to the defendant, may be considered by you as a mitigating factor.

In balancing aggravating and mitigating circumstances, it is not the mere number of aggravating circumstances or mitigating circumstances that controls.

INSTRUCTION NO. __13

In determining whether mitigating circumstances exist, jurors have an obligation to make an independent and objective analysis of all the relevant evidence. Arguments of counsel or a party do not relieve jurors of this responsibility. Jurors must consider the totality of the circumstances of the crime and the defendant, as established by the evidence presented in the guilt and penalty phases of the trial. Neither the prosecution's nor the defendant's insistence on the existence or nonexistence of mitigating circumstances is binding upon the jurors.

INSTRUCTION NO. 15

A reasonable doubt is one based on reason. It is not mere possible doubt, but is such a doubt as would govern or control a person in the more weighty affairs of life. If the minds of the jurors, after the entire comparison and consideration of all the evidence, are in such a condition that they can say they feel an abiding conviction of the truth of the charge, there is not a reasonable doubt. Doubt to be reasonable must be actual, not mere possibility or speculation.

INSTRUCTION NO.:	16
------------------	----

The jury is instructed that in determining the appropriate sentence in this matter that it may consider all evidence introduced at both the penalty hearing phase of these proceedings and at the trial of this matter.

•	,

INSTRUCTION NO.;

In deciding on an appropriate sentence for the defendant, you will consider three types of evidence: evidence relevant to the existence of aggravating circumstances, evidence relevant to the existence of mitigating circumstances, and other evidence presented against the defendant. You must consider each type of evidence for its appropriate purposes.

In determining unanimously whether any aggravating circumstance has been proven beyond a reasonable doubt, you are to consider only evidence relevant to that aggravating circumstance. You are not to consider other evidence against the defendant.

In determining individually whether any mitigating circumstance exists, you are to consider only evidence relevant to that mitigating circumstance. You are not to consider other evidence presented against the defendant.

In determining individually whether any mitigating circumstances outweigh any aggravating circumstances, you are to consider only evidence relevant to any mitigating and aggravating circumstances. You are not to consider other evidence presented against the defendant.

If you find unanimously and beyond a reasonable doubt that at least one aggravating circumstance exists and each of you determines that any mitigating circumstances do not outweigh the aggravating circumstances, the defendant is eligible for a death sentence. At this point, you are to consider all three types of evidence, and you still have the discretion to impose a sentence less than death. You must decide on a sentence unanimously.

If you do not decide unanimously that at least one aggravating circumstance has been proven beyond a reasonable doubt or if at least one of you determines that the mitigating circumstances outweigh the aggravating, the defendant is not eligible for a death sentence. Upon determining that the defendant is not eligible for death, you are to consider all three types of evidence in determining a sentence other than death, and you must decide on such a sentence unanimously.

INSTRUCTION NO. 18

In your deliberation you may not discuss or consider the subject of guilt or innocence of a Defendant, as that issue has already been decided.

ı

INSTRUCTION NO. $_{-}$ † $^{\circ}$

The credibility or believability of a witness should be determined by his manner upon the stand, his relationship to the parties, his fears, motives, interests or feelings, his opportunity to have observed the matter to which he testified, the reasonableness of his statements and the strength or weakness of his recollections.

If you believe that a witness has lied about any material fact in the case, you may disregard the entire testimony of that witness or any portion of his testimony which is not proved by other evidence.

Although you are to consider only the evidence in the case in reaching a verdict, you must bring to the consideration of the evidence your everyday common sense and judgment as reasonable men and women. Thus, you are not limited solely to what you see and hear as the witnesses testify. You may draw reasonable inferences from the evidence which you feel are justified in the light of common experience, keeping in mind that such inferences should not be based on speculation or guess.

A verdict may never be influenced by prejudice or public opinion. Your decision should be the product of sincere judgment and sound discretion in accordance with these rules of law.

INSTRUCTION NO. 21

During your deliberation, you will have all the exhibits which were admitted into evidence, these written instructions and forms of verdict which have been prepared for your convenience.

- A. Fire and medical had already been dispatched
 J and arrived prior to me arriving. I was first patrolman
 on the scene.
- 5 Q. So there was an autolance there, I take 6 it?
- ່ A. Yes, ຕຄ່າວກ.
- 6 Q. When you first got to the location what did 9 you do first?
- 10 A. Upon arrival it's a long approach to the
 11 trailer where I was, and as I drove in I could see the
 12 ambulance and I could see two med teches cutside and a
 13 female being loaded in the back of an ambulance. So when
 14 I responded I drove right up to the ambulance and
 15 ophacted them first.
- 16 Q. When you made contact with the ambulance, 17 did you speak to the woman who was being leaded into the 18 ambulance, I guess, on a gurney?
- 19 A. Yes, I did.
- 20 Q. Can you describe her appearance physically 21 what you saw her?
- 23 A. When I saw her she was strapped down onto 23 the bed with the safety restraints on. She had the white 24 sheet pulled up to about mid level of her chest. She was
- 25 laying on her back. Her face was swollen and covered in
- 1 blood. And the same with her hair. It was all up over 2 her head on the pillow and it was soaked with blood.
- Q. Could you see if she had obviously there's blood — but could you see what her injuries where on her face?
- 6 A. Yes. She had two really predominant injury 7 on her face at the time. She had a large cut that was
- a over her eye and her nose was swollen to a point that it
- 9 looked like it just covered the front half of her face.
- 10 Q. So her mose would have been extremely 11 enlarged because of swelling?
- 12 A. Yeah. Her nose would have been about the 13 size of my closed fist at the time on her face. It was 14 that swellen.
- 15 Q. And also you mentioned there was a
- 16 laceration, a bleeding injury on the top of her eye?
- 17 A. Right. It was over -- I believe it was over 18 her right eye. There was a lot of blood coming out of her
- 18 her right eye. There was a lot of block coming out of her 19 head and face still.
- 20 Q. Did you speak with this woman?
- 21 A, Yes, I did.
- 22 Q, What did she tell you?
- 23 A. She stated that she had gotten into a Eight 24 with her live-in boyfriend and that he had hit her in the
- 25 face with a cap.

- Q. When she was speaking with you, what was her demeanor emotionally?
- 3 A. She was extremely upset, crying, heavy 4 breathing, a bit irrational. You could tell she was 5 emotionally distraught. And she had trouble just trying 6 to get her message access to me.
- Q. Has it hand for her to talk because of being a emotional or because of her injury?
- A. The emotional phayed a part. But I believe to because of the injuries it made it hard to breathe and the speak and everything she said was muffled. Kind of a small guigle sound you get from that type of a face injury.
- 14 Q. So from the bleeding from her nose?
- A. Yes, ma'are.
- 16 Q. After she related to you that her boyfrlend
- 17 had hit her, did you attempt to make contact with the
- 10 boyfriend?

19

- A. Yes, I did.
- 20 Q. And was he out in the ambulance area at that 21 point with her?
- 22 A. No, ma'an. I asked her initially where he 20 was, and she said she believed he was still within the 24 mobile home — in the trailer within the mobile home park.
- 25 At this time I made contact with him inside the trailer

ı still.

- Q. How did you go about trying to make contact 3 with him?
- 4 A. Walked up to around the side of the trailer,
- 5 the door was open to the trailer. Knocked on the door and 6 you can look into the open door, and I could see the male
- 7 half sitting in the living room with his back to me
- € watching TV.
- 9 Q. Did he appear to be by himself inside the 10 trailer watching TV?
- 11 A. Yes, he was alone.
- 12 $\,$ Q. When you were knocking did you annumce you
- 13 were a police officer?
- 14 A. Yes
- 15 Q. Were you speaking in a fairly audible loud
- 16 wrice?
 - A. Yes
- 18 Q. After you knocked and announced you were a 19 police officer, what did the individual do that you were 20 trying to talk to?
- 21 A. Initially, I stepped up to him and I asked 22 him what happened, and he was just sitting in his chair 33 eating a bowl of cereal. And he replied to me, something
- 24 to the effect, I hit that bitch in the face.

- A. That could be.

113

- Q. So Diersdorf also is a liar?

- 1 I was sitting there watching TV, that was false.
- 10 Q. So you were standing watching TV?
- 11 A. No. When they opened the door, I sat down.
- 12 He came inside -- two of them came inside and they grabbed
- 13 me. My son James Panos seen the entire incident and was

                    We'll be in recess. Let's try and be back
   so we can get started no later than 1:30.
                   Okay.
                   Thank you, very much.
                   THE COURT: Back on the record in
 7 C-131341, State of Nevada versus James Chappell.
                   The record will reflect the presence of
 9 Mr. Chappell, with his attorneys, the State's attorneys,
10
   cutside the presence of the jury.
                   SCHIBCK: Your Honor, we had seven
11
12 witnesses here from Lansing, Michigan that were results of
13 some pretty extensive investigation we had done both on
   post-conviction and getting preparation for this trial.
                   Two of the witnesses Ivory Morzell, whose
15
16 name we actually heard in here because James gave his name
17 when he was arrested at the Yocky's shoplifting. And the
18 other is James Ford, who lived up the block from where Mr.
   Chappell grew up in Lansing.
19
                   Both of those individuals had been here
20
21 since Tuesday night. We expected the trial -- the hearing
22 was going to last one week, and come Friday they were both
23 in a situation that they would lose their employment if
21 they did not return to work. They had been -- in fact, we
25 had talked to Mr. Yord's district supervisor on Priday
                                                           153
 A evening to try to convince him to allow Mr. Ford to
 2 remain, and hasically was told, be here or be fired.
                   When we were back in Lansing, I was

    impressed with the employment depression in the area.

 5 There are hope parking areas surrounding shut down
 6 factories in Lansing due to the state of the automobile
 7 industry. Lansing is besically an automobile town. The
 a unamployment rate is extremely high there.
                   Both Mr. Ford and Mr. Morrell could not
10 afford to lose their jobs. In fact, Mr. Pord indicated
11 that he would likely be going to jail for non-payment of
12 child support if he did not get back and start working
11 immediately, because there's a date he's due in URESA (ph)
is court -- whatever they call that -- the court for child
15 support. He's on a monthly thing, if you don't pay when
16 you come to court, you go to jail. So he was not only
17 facing lose of employment, he was facing incarceration.
                   It was our decision to allow them -- we
19 had them here and we could have enforced the subposena on
20 them, causing them to lose their work and causing
21 difficulty with our client, and causing them to lose their

I provided through other witnesses because hearsay is
 2 admissible. We do have still here three other individuals
 3 that grew up along with Mr. Chappell, along with Mr. Ford,
 4 and along with Mr. Morrell. They were sort of a group of
 5 individuals. So all of the same testimony is still.
  6 available.
                   The reason I wanted to make a clear record
 a on this is because Mr. Mornell and Mr. Dean were two of
 9 the witnesses that were not called at the first penalty
 10 hearing and formed part of the basis of our claim of
il ineffective assistance of counsel.
12
                   I don't want the record to appear that I'my
13 building an imeffective assistance in this record by not
M calling those two witnesses. We are confident that our
15 other witnesses will provide the necessary testimony that
16 Mr. Morrell and Mr. Ford talked about on
17 post-conviction.
16
                   Specifically we now have Mira available to
19 testify. That's a younger sister of Mr. Chappell, who was,
20 also a witness that was not available, or was not called
2: in the first penalty hearing and was not available at the
22 post-conviction investigation because of her circumstances
2) back in Lansing at that time.
                   We also have available here to testify,
24
25 Mr. Chappell's older brother who can relate a lot of the
 1 family background that Hr. Morrell and Hr. Ford knew, will
 2 be Rick Chappell, who was in prison at the time of the
 3 previous penalty hearing.
                   In fact, has just gotten out on parole
 5 very recently. In fact, we've been constantly in contact
 6 and negotiation with his parole officer that he is here
 7 outside his parole jurisdiction in Michigan for the sole
 # purpose of testifying in this penalty hearing.
                   So those additional witnesses -- in
10 addition to that, we also have Fred Dean, who is the
il closest contemporary in age to Mr. Chappell, from the
12 group of individuals that resided in the Lansing area
13 where Mr. Chappell grew up that has a lot of the same
11 knowledge of Nr. Chappell and Ms. Panos, which we thought
15 was important to be presented, because Mr. Dean was the
16 same age group -- was closest in age to Mr. Chappell,
17
                   In fact, at times provided rides to
18 Ms. Panos, returning her to her parent's house, picking
19 her up, providing rides for her and Mr. Chappell.
                   So I just want to make it clear the fact
20
11 the Mr. Morrell and Mr. Ford are not going to testify, in
22 no way, in my opinion, effects the testimony in evidence
23 that we can present at this penalty hearing, that wasn't
24 presented at the first penalty hearing.

On the first day of September 1995, you Q. 2 performed an autopsy on Debra Panos? À. And that was done over at the coroner's 0. s office? Α. And your autopsy usually involved a visual Q, examination, external examination, and internal examination? A. That's correct. 30 I would like to take those one at a time, if 0. 11 you would. First, if you would give us the physical 12 characteristics of the victim in this case? The body of this lady, she looked fairly 14 young, mid 20s perhaps, about 5 feet 5 inches tall, 140 pounds, well-developed, well-nourished. What did you notice in your external LŽ examination of Debbie Panos? First it was very obvious she had suffered 39 20 injuries to the neck and scattered areas of other parts of

1 wounds, a total of 13.

24

23 bruising around the neck also.

Ten were concentrated in the neck and upper chest J area, over about three-and-a-half inches in diareter, roughly the size of my palm.

21 the body. Mainly concentrated in the neck area. There was

25 hand, back of the right wrist. She also had multiple stab

Scattered bruises on the right arm, shoulder, right

22 a lot of bruising, particularly of the face. Some

One in the abdomen right next to the umbilious or naval. Another lower down in the right groin area, and one -- a small one over here on the left side of the neck, below and behind the left ear.

Did you also find evidence of abrasions? Q.

Abrasions on the face. I think one on one A. bΠ of the knees, a very small one. 11

When you say abrasions, what is that 12 Q.

13 exactly?

An abrasion is simply a scraping wourd. 14 15 We've all had them at one time or another. For example,

16 if we have short sleeves on walked down a hall with rough

17 plaster and banged the elbow into the rough plaster you're

going to get an abcasion. 18

You mentioned that you saw evidence of 13 19 stab wounds total, most of them were in the upper chest 20 and neck area? 21

A. 22

25

How about lower on her body, what did you 23 Q. 24 see?

One in the aboxinen, and one down in the A.

1 right groin.

Did you conduct an internal examination Q.

3 Linen?

Α. Yes.

What did you find out when you conducted the Q. internal exam?

Let's take care of those two wounds lower A, 8 down, one in the abdomen, one in the groin. The one in 9 the abdomen had penetrated through the abdominal cavity to

10 the back wall of the abdominal cavity, but it didn't hit

11 anything significant. No vital organs. There was bleeding around that area.

Q. So it went all the way through to the back 14 will?

To the back wall of the abdomen. That's not 15 very far, three or four inches. 16

Your're indicating three or four inches. 17

18 Oray

19 But that's variable because you can compress that considerably with not much pressure.

Okay. Q. 21

So anyway, this one did penetrate to the 22

23 back wall of the abdomen, but as I said, didn't hit

2) anything major, some bleeding. I would not consider it a

25 really major wound.

163

So a person could survive that injury 2 alone?

Yes. I think if you were hospitalized for a few days, put a drain in it so any finid can escape,

5 antibiotics, you'd be able to walk home.

What else did you see? Q.

In the wound in the lower groin, right in Α.

I the crease between the abdomen and the thigh, this is

penetrated about two inches. Again, did not strike

anything important, very little bleeding. Another one you

could create very readily and not worry about it.

So there was nothing life threatening about 12 13 the stab to the groin area?

14 A.

Q.

What else did you see on your internal

16 exam?

15

Internally everything looked normal, Ŋ

10 certainly in the abdomen. The right side of the chest,

is the heart was normal and healthy. Looking at the left

20 side of the chest between the lung and the chest wall had

quite a bit of blood, almost a quart. The stab wound had

22 penetrated just underneath the left collar bone and slid

21 in between the first and the second rib, went through the

24 upper part of the left lung, hit a rib in the back of the

25 chest cavity. Total distance probably not more than

164

three and a half, four inches, perhaps.

Penetration of the lung didn't look very serious, 2 but it was. It resulted in very considerable bleeding. I was rather surprised at the amount of bleeding.

- That's what accounted for the blood you Q. 6 found in the left side of the chest cavity?
 - A. Yes

7

- Okay. What else? Q. 8
- Internally, that was about it until you get A. to the neck. 10
- Yell us about the neck? Q. 11
- Okay. In examining the internal structures 12 13 of the neck, we have these ten stab wounds in here. We 14 have one that cut the right internal jugular vein, about is half into.
- One that hit the right internal right common 16 11 carotid artery in here. Cut it, but not completely 10 through.

Other one did the same thing on the left on the 19 20 left common carotid artery. We had one that hit the 2) thyroid gland and went in through the airway, went through

22 the larynx -- the voice box. Again, into the aimsay. So 23 we have major damage to several very, very important

24 structures here.

25

3

What are the carotid atteties? Q,

- The carotid is the actory with supplies ? blood to the head and most of the brain.
 - So what is the affect of having that cut? 0.
- The brain loses its blood supply because 5 with a partial or complete severance of the artery, there & is no blood pressure above that point. The heart may keep ? pumping for a little bit, but you can't move blood to the e brain.

Blood carries the conven to all parts of our body, 9 10 including the brain. If the brain doesn't get a normal 11 blood supply, normal exygen supply it has a very limited 12 oxygen reserve. On average it's got fourteen seconds 13 hefore the person losing consciousness.

If that continues for a total four to five minutes, 14 15 we begin to get irreversible cellular damage to the brain 16 and even if we were to resuscitate this individual, there 17 would be some residual brain impairment.

If we go on without establishing circulation of 16 much longer then that, there is no chance of recovery. 19

- What kind of arterial bleeding would be 20
- present with this type of injury? 21
- It would be very profuse. A. 27
- Can you explain that for us? 21 Q.
- Lots and lots of blood around the neck,
- 25 head, floor, carpet whatever she was on.

- Would you have that affect of the spurting Q. 1 2 of the blood out for a distance?
- This would depend on the location, nature of (the wound, position the head is in, if it's compressing 5 the tissue around an injury, or it's opening it up. I
- But you could have that kind of bleed? Q.
- A.

wouldn't try to predict.

- ٥. There would be bleeding internally as
- well. 10

11

12

- A. Yes.
 - What about the jugular Wein? Q.
- The jugular, this is a major vein returning 13 A. 10 blood from one side of the head and upper neck back to the 15 heart. Lose this, and you're going to lose a lot of blood
- 16 Mean would the affect of that be on the 17
- 10 brain? It would not be as much of an affect as the 19 A. 20 arterial damage. In other words, the brain - if this was
- 21 the only injury we have, one jugular vein cut, the brain 22 would have a much longer period of survival because the
- 23 artery is coming not back to the heart, but pretty scon
- you have heart failure and death.
- You would have bleeding both internally and 167

1 externally?

165

- Externally there would be a little breeding. A.
- 3 Internally not much pressure in the vecous system, very
- a minimal pressure, so it's not going to force block out
- 5 into the tilssues.
- You mentioned the trachea had been injury as D. I well?
- A.
- What would by the affect of that injury in ŷ, the context of the juqular and carotid arteries?
- The tracheal wound, the trachea being the 31
- 12 windpipe, is a serious thing. And in this case we have a
- 13 fair amount of blood in the traches blocking the airway.
- 14 So that's a major problem.
- So she would have had blood in her air 15 16 system?
- In her upper airway, yes. 17 A.
- Based upon the examination that you Q, Н
- 19 conducted, external and internal, did you come to a
- conclusion about the cause of Debra Panos' death? 20
- ŽŁ à.
- 0, What is that? 22
- She died as a result of stab wounds to the 23 A.
- 24 neck
 - And the manner of death being? Q.

- In my coimion hamicide. A. Q. You also, as a part of your examination, 2 would have examined the reproductive organs externally and internally? A. Yes. You didn't see any evidence of damage or Q, 7 anything unusual there? I saw no injury. В A. A sexual assault kit was taken by crime 9 0. 10 scene analyst for later testing? I believe it was. That is their job. I 11 12 will assist or do what I can to help them, but it's 13 basically their responsibility. Q. Okay. 14 MR. OMENS: I ask that the next exhibit be 15 16 135 for identification. THE COURT: Sure. 17 MR. CMENS: If I could, with the court's 10 permission, have the doctor to step down. 15 THE COURT: Dr. Green, go ahead and step 20 21 down, please, sir. 22 BY MR. OMENS: This chart that I'm putting up, you are Q, 24 famillar with this. This is a chart you use quite a 169
- 25 bit7 This is an enlargement of the standard 2 anatomical chart that we use. Many, many offices use the 3 same thing. There's lots of different charts, male body, ♦ various body parts, and so on. We use these to show 5 external changes. We have three different colors, I think that 7 you have got before court. Pull out the brown one, what 8 I'd like to have you do is identify the areas of bruising 9 or contusions on the body of the Debra Rancs on this dart. 10 MR. Schieck: Your Honor, could we angle 12 it about three inches more and we'd be able to see it. MR. OWENS: How's that? 13 MR. Schieck: Is it okay from over there? 14 THE COUNT: Thank you. 15 16 MR. Schieck: Thank you, very much. THE NITNESS: Otay, bruises. 11 Let's start with the forehead. We had an 18 19 area of bruising here. We have an area of bruising up in 20 here a couple of inches or so in diameter. A little bit of scraping, not a whole 21 22 lot.

The larger bruise covering much of the

24 right temple area, getting down on the right cheek bone on

25 the right cheek, this is about 5 inches across here, 5

23

1 inches up and down. Bruising over here on the right cheek. 7 3 Something that I recall about an inch-and-a-half in diameter. A lot of bruising on the right ear. That's teally puffy. Bruising of the neck, particularly, I think something in here. Those are the major areas of 3 bruising on the head. Now, we also have some bruising on the 13 right upper aims, kind of patchy and irregular. Some — 11 bruising on the back of the right hand and over here on 12 the wrist as well. Those are the primary areas of 13 braising. IA BY MR. OWENS: There was one bruise or abrasion to the 15 16 knee? 13 That was a little abrasion on — I think it 18 was on the left knee. 0. Hold off on that. You've got the orange 19 20 one. We'll see if that works. Go ahead and identify, if 21 the orange one is working, the area of abrasions? À. If not I have a back up here. 23 Q. Let's see here. On the left knee -- and A. 24 25 this wasn't very big, half an inch whatever. 171

Abrasions -- let's see. We had some abrasions up 2 here in association with a bruise. We had a very 3 prominent abrasion at the point of the chin here. That 4 would be three quarters of an inch to an inch meximum. Yes, we had abrasions over here, about the 6 angle of the right jaw. If you can take a moment and explain what e type of a mechanism would cause the type of trauma you've 9 indicated here, this bruising and abrasions? 10 A bruise, obviously, is forceful contact ii between our skin and something either striking the skin or 12 we're striking the object. The fact is we break a lot of 13 little capillaries undermeath. We leak blood. What gives If us the red color. If they leaked very much, we get is swelling. The tissue reaction is more fluid pours out of is the tissue and makes the swelling worse. The amount of if color change is pretty much a function of how hard you us were hit, or how hard we hit whatever it is. The abrasion I mentioned earlier is a 19 to skidding, sliding type of injury. The bruises, we've all had them. Anybody not have a bruise? You all know what 22 I'm talking about. The bruising, can be caused by what kinds of 23 ٥. 24 objections? Any solid object, you name it. If it's

172

3/19/2007 CHAPPELL STATE vs. Page: 3673

- solid and it hits the skin, it can cause a bruise. We see

 tremendous bruising in motor vehicle accidents. I've seen
 bruises that took three-and-a-half months to disappear. I
 know, my wife had one once -- seat belt injury to her
 hip.
- 6 Q. Bruising from this kind of injury could have 7 been caused by a fist?
- s A, Possible.
- 9 Q. Or some other blunt object?
- 10 A. A fist is a good possibility. But I
- 11 couldn't say it's the only possibility.
 - 0. Now about the abrasions?
- 13 A. The abrasions may come in conjunction with 14 or as a result of the impact. The impact skids a little 15 bit, it may take some skin off and gets a scraping 16 affect.
- 17 Q. So in this case it could be the same type of 18 mechanism that caused both the abrasions and the
- 19 bruising?

- 20 A. That's possible, certainly.
- 2: Q. You also identified and talked about certain
- 22 areas of cutting -- the stab wounds?
- 23 A. Yes.
- 2) Q. And the wounds you have described, were
- 25 these all stabbing rather then the slashing type wound?
- 1 A. Correct, We don't have any shashing 2 wounds.
- Q. Okay. If you could get your red pen out.
 I'll have you identify the knife wounds or the cutting
 wounds you saw.
- A. Okay. We have this one in the groin, just
 above the crease. That penetrated a couple of inches.
- We have one by the navel. That's the one that went into the abdominal cavity.
- We have a total of ten up here in the neck, from the neck and the upper chest. But the chest we have one right about here, right over the top of the breast bone.
- Another one right here. This is the one that slid 14 in between the two ribs and got the left lung.
- 15 We have one over here. A couple up here. Three 16 there. A couple over in here.
- And finally, there's a little one in the left side 18 of the neck, just below the ear.
- 19 I think we have a total of 13.
- 20 Q. You've got 13 total on there, doctor?
- 21 A. I betieve we did.
- 22 Q. If you can kind of stand out to the side and
- 23 sort of identify which ones they are that you've drawn in
- 24 the redipen.

25

A. Okay, These we have talked about. This is

- 1 the one that got the left lung and caused that large 2 amount of bleeding in the left side of the chest cavity.
- This one here over the breast bone didn't do any 4 great haum.
- 5 These you can't really tell which one did which.
- 6 They are so close together and overlapping, but one of
- 7 these got the right external jugular vein. One got the
- 8 right carotid artery. One of these over here got the left
- 9 carotid artery. One or two of them bled into the airway,
- 10 larynw, trachea. Which one did which, I don't think we
- n can -- anyfody could do it.
 - Q. What do you mean by that?
- 13 A. When they are crisscrossing in a small
- 14 space, you've got damage to multiple structures, which are
- is pretty mobile. The airway, for example, we can move that
- 16 around. It would be pretty hazardous to try and say this
- 17 one on the outside did this on the inside, when you've got 16 a kunch in there.
 - Q. These were fairly concentrated?
- A. They were, yes.
- 2) Q. What kind of a weapon would cause these
- 22 types of injuries?
- 23 A. Most likely a knife with a + probably a
- 24 fairly narrow blace.

173

- Q. What can you tell us about the intervals of
- 1 the wounds that you put up here, the bruising, the
- 2 contusions and the knife wounds, time-wise?
- 3 A. Well, the boile wounds in the neck are the
- (clear cut cause of death. The brudses take some time to
- 5 develop. I would think, to put a minimum time, between
- $\boldsymbol{\epsilon}$ the bruises, say, on the forehead and the face and the
- 7 time of death, we're looking probably at 15 to 30 minutes
- nindram. Somewhere in that ballpark. It could be a
- hittle more. Probably not much of any less.
- Q. The bouising the bruising trauma would
- 11 have preceded the injuries to the neck caused by the
- iz cuttáng?
- 13 A. Yes, Berause it couldn't come afterwards.
- 14 You can't bruise a dead body. You can hit it, it won't
- 15 bruise. It won't give you anything you can see.
- Q. What about the knife wounds themselves. You
 mentioned there were a couple down lower on the hody, the
- 18 abdomen and the groin area that were not life threatening.
- 19 Can you tell anything about those, and the other serious
- 2) Imife wounds up around the neck as far as the progress of
- 21 those wounds or pattern of timing?
- 22 A. The wound to the abokminal cavity may well.
- 23 have been early in the game here. We have some internal
- 24 henogrhage gesulting from this. If this had been
- 25 inflicted at or after the time of death you would not have

- 1 had any hemographage. So I think this one came earlier, 2 then the ones which killed her.
- Q. Winy wouldn't you have hemorrhaging in the a abdominal one if it was at the same time as the ones on 5 the neck?
 - A. We're going to lose blood pressure here.
 - Q. Pointing to the neck area?
- 8. The neck area. If you get the carotid
 9 artery, the pressure goes down very, very quickly and
 10 circulation essentially stops.
- 11 Q. Other then that time difference, is it your 12 sense that the knife wounds were largely contemporanious 13 with each other?
- 14 A. Those in the neck, yes.
- 15 Q. Why would you say that?
- 16 A. The appearance of them. There's certainly
 17 not a long time interval between any two of them. They're
 18 clustered very close together, which argues for rapid
 19 repeated action of the assailant.
- 20 So I think it's safe to assume that these came at 21 or about the same time.
- 22 Q. All right. There a number of photos that
- 2) were taken at the autopsy of this case.
- 24 A. Yes

You have had a chance to review those prior

1 to your testimony?

- 2 A. Yes.
- Q. You reviewed them when you testified ten
- 4 years ago, as well?
- s A. Probably did.
- 6 Q. If I can have you step over here in the 7 middle between the chart and the screen there, Doctor.
- ı A. Okay.
- 9 Q. I'll pull this chart this way and give you
- 10 some room. If I can direct your attention to the screen.
- 11 MR. SCHIECK: For the record, we have an
- 12 objection we'd like to preserve on that.
- 13 THE COURT: Objection noted for the
- 14 record.
- 15 BY KAR. CONTINUE:
- 16 Q. For the record, I'm putting Exhibit No. 31,
- i? on the screen. Are you able to see that, Doctor?
- 18 A. Yes
- 19 Q. If you can tell us what we're looking at
- 20 here as far as the injuries on your chart?
- 21 A. Here is a very obvious bruise of her left
- 22 cheek. See all this red discoloration, huge patch here,
- 23 extends up into the temporal. We have this brownish area,
- 24 these are abrasions. They're dry.
- 25 So we have a combined effort and this suggests some

- ; kind of abrasion or sliding over here. It may have been
- 2 due to some fabric she had been lying on?
- 3 Anyway we have some bruising here, discoloration.
- We don't see -- we don't see that little stab wound to the 5 neck. That's possibly back here?
- 6 We do see several of the stab wounds in front of
- 🕆 the neck and just barely you can see this abrasion, scrap
- A of the chin. I think that's pretty much what we have
- 9 here.

11

17

- 10 Q. It's your testimony, Coctor, that the same
- 11 object, whether it be a fist or some other blunt object
- could have caused the abrasions as well as the bruises
- 1) that we see here?
 - A. Yes, definitely.
- 15 Q. Let me put another -- for the record we're
- 16 looking in this photo of the left side of victim's face.
 - A. Right.
- 18 Q. %e'll put Exhibit No. 38, on the screen now.
- 19 Still the left side but a little further down the ceck is
- 20 visible?
- 2) A. It's essentially upside down. Here we have
- 22 the left ear. Somebody holding a nuler. And the nuler
- 23 here is for photographic purposes. The scale is metric.
- 24 You have one centimeter intervals. One centimeter being
- 25 almost exactly two inches. And here is the little stab
 - 17
- 1 wound to the neck, half a centimeter long, perhaps.
- 2 This one went inside and really didn't do
- 3 a lot of damage.
 - Showing you what is marked as Exhibit No.
- 5 39. This is the left forehead area.
- 6 A. Yes, yes. Mainly the scraping injuries.
- ? This is the deepest wound that we had. Again there's
- 8 scattered scrapes and bruising. You see the bruise -- big
- 9 bruise on the forehead in this picture.
- 10 Q. You say a first is capable of causing that II type of abrasion?
- 12 λ . It can happen. It's kind of surprising to
- 13 see one this deep, but not impossible.

 13 China over to the other side you. The right
- 16 Q. Going over to the other side now. The right 15 side of the face, Exhibit No. 42, on the screen. What are
- if we seeing in this one, Doctor?
 - Here we have the right side of the face.
- 18 The right ear. I think I mentioned earlier a lot of
- 19 bruising of this right ear. It's red. It's a little
- 20 puffy. We have combined scraping, abrasions and bruising
- 21 here going around the angle of the jaw.
- 22 You can see some of the other stain wounds of the
- 23 neck. A little bruise down here. Here are the two in the
- 24 chest. This is the one that just hit the breastbone and
- 25 didn't do anything serious. This is the one that went in

- 1 and nicked the left lung.
- We have a view now in Exhibit 40, looking up Ź toward the face and chest area.
- Mere we are looking upward at the face.
- 5 This is a big abrasion of the chin. The other areas of
- 6 damage on the skin. And here we have several of these
- 7 wounds of the neck. Four here. Two here. One here.
- I think we have some over here. We don't see the
- 9 one we've got the one that got the left lung. That's
- 10 the best picture we have of the injury to the front of the
- The abrasion undermeath the chir, that's Q. 12
- 1) scrething that could be caused by a first is your
- 14 testimony?
- Quite possible. The skin at this point is A. 15
- 16 fairly thin. There's not a lot of padding under here at
- 17 this point of the chin, so that can't get compressed
- 18 between striking an object and the bone very well.
- Then the exhibit marked No. 46, a view of Q. 19
- 20 the abdomen area?
- 21 A.
- What are we seeing in this one, Doctor? 22 0.
- Here we have the mavel. It doesn't show Д. 23
- 24 really well. This is the stab wound right next to it.
- 25 This is the one that went into the abdominal cavity I
- 1 mentioned earlier, but did not produce any major injury.
- What sort of pain would be associated with
- 3 an injury like that?
- I don't know. A really sharp knife very Α.
- 5 rapidly used doesn't produce enounces accents of pain, not
- 6 like if it was slowly applied. But a quick stab, yes,
- you'd know it. It would hurt a little bit. You wouldn't
- 8 think of it as a commental life threatening thing. You'd
- 9 know it happened, yes.
- But if you were a medical person -- if you Q,
- 11 weren't a medical person, you might think that was more
- 12 fatal?
- Sure, you'd worry about it. A. 13
- 0. Exhibit No. 47, on the screen now, the one 14 15 of the groin area.
- Yeah. Here's the right groin area here.
- If Here is the stab wound.
- That doesn't reflect the shape of the knife, Q. 10
- 19 it's been stretched a little?
- À. Not necessarily. Because basically the
- 21 knife blade produces a slit, like you saw in the neck.
- 22 Initially we have the same thing, yet, the body is flat
- 23 and the tissue plains have been severed, they're going to
- 24 fall apart.

Marked now as Exhibit No. 48, looking at the Q.

- : Anee area.
- The left knee, a little scrape here, a scar 2 A.
- t here.
 - That's an older scar?
- A. Partion inc.
- Older scar? Q.
 - For quite a hile. A little discoloration. À.
- a I'm not sure what that is. This is, I think, the only
- y significant thing, that's a very small thing.
- 10 Q. What would cause a scrap like that?
- Again, bumping into anything. Occepying to 11 A.
- 12 the floor.

15

19

161

- So if you fell down, your knee could rub
- ic against the surface?
 - Yes. À.
- Exhibit No. 44, now, looking at, I think, 0, 16
- 17 the right elbow area. See that?
- A. Yes. 18
 - 0. What are we seeing there?
- A little abrasion here. A little reaction 26 À.
- 21 around it. Not much color change, small scrap, fallly
- 22 deep. Probably close to the time of death.
- What would cause that kind of a scrap? Q. 23
- A. Almost any solid object. You think it might и
- 25 perhaps have a corner to it, like you have right here. If
- 1 you hit that hard enough it can produce a thing like
- 2 that.
- If a person were falling down and their arm ! contacted a harder object it could cause that?
 - A, Possibly.
- I would like to show you Exhibit 43, the Q.
- 7 upper right arm area of Debbie Pancs. What is visible in
- a this. What can we see?
- The upper arm, here's a big red bruise and a A.
- If smaller one, Little big ones around these. I think this
- 11 is very significant. This is a pretty good size bruise
- 12 here. We're looking at two-and-a-half, maybe three inches
- 13 across.
- Once again same type of mechanism a fist or Q.
- 15 blunt object?
- Score kind of blunt trauma. 16 A.
- Number 45 now. We're looking at the right 17
- 18 wrist and arm.
- Okay. Primary thing here is the right hand 19
- 20 has a red, pumple bruising. Scattered small bruises.
- 21 Pretty good size one here on the right wrist. A little
- 22 over here toward the medial aspect of the wrist. This is
- 23 the primary thing you're looking at. So you definitely do
- 24 have a fair amount of bruising on this right hand and
- 25 wrist.

- As a pathologist with many years of ì Q, 2 experience, this type of injury holds a special significance or interest for you?
- In a case like this where there has been an 5 assault on a victin we think of these as possible injuries 6 impurred in some kind of defensive action. Sometimes they 7 chydrously are, sometimes they're not so clear. But this a is the kind of a thing we would expect a person holds up an arm and gets struck.
- Q. Prying to protect their body from other ነቡ 11 injuries?
- Yes. 12 A.
- So the bruise ends up on their hand or 13 14 axm?
- It's a fairly common pattern. I think the A. 15 16 chances are very good that this can be classified as a if defensive injury.
- All right. Now, I'll put the last photo up 18 19 here, Doctor. Exhibit No. 41, which is an over all view
- of the major knife wounds; is that correct?
- Yes. We have the right upper body. You can 21 22 see a fair number of these head wounds, at least seven.
- Okay. With the court's permission I want to 23 24 open the contents of Exhibit No. 68.
- THE COURT: Okay. 25

1 BY MR. OWENS:

- I'm showing you number 68. And, Doctor, 0. 3 you're are welcomed to grab that. This being the builte 4 recovered from the scene near the victim. If you take a 5 look at that item, is that item consistent with the wounds 6 that we're seeing in the photographs you testified to?
- It could have been caused by this or any 8 similar object. We have a very slender blade. It's 9 entirely consistent with an instrument like this.
- When you look at this particular knife it 10 Q. 11 appears like the blade has been bent a little bit?
- 12 À.
- 13 0. You know what caused that bending?
- 11 ٨.
- You don't know how that could have 15 Q.
- 16 happened?
- No, because we don't know whether it 17 A.
- 18 happened at the time of death or a year before.
- Okay. In your experience it's not unusual 19 0.
- 70 to see knife blades being bent sometimes in attacks on
- 21 people?
- I'll pass on that. Most of the time we 22 A. don't see the knife at all.
- Q. You don't recover it? 24
- 25
 - No, that's a police job. A.

- All right. You talked about how the victim 2 would lose blood rapidly and lose consciousness. I think 3 you said within 14 or 15 seconds in your opinion?
- Within that time frame, with at least one, if not both, carotid acteries being cut, yes.
- You said there would be blood that would get. ٥. 7 into the windpipe and tracksa?
 - Yes. From at least two of the wounds. A.
- What type of death would that be for the 0.
- 10 victim?

14

1

12

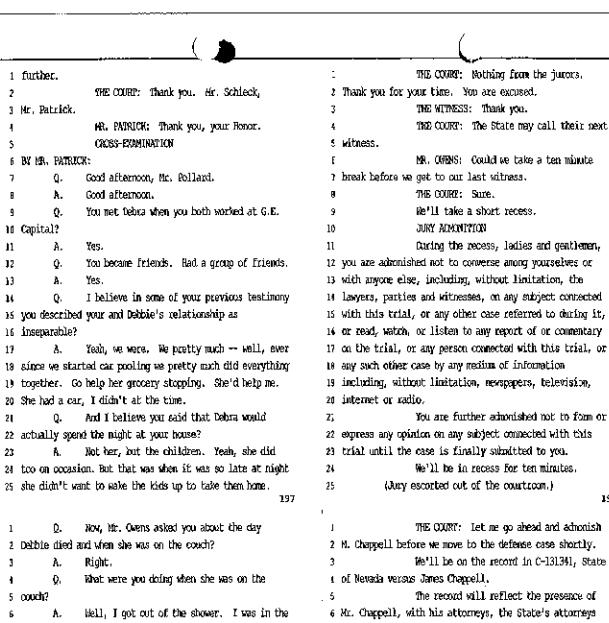

- Very autok. 11
- So you think the death would occur in about 12 0.
- 13 14 or 15 seconds time or omsciousness?
 - Consciousness would, yes. A.
- 0. And during that 14 or 15 seconds the person 15 16 would be aware?
- Certainly be aware of a very unpleasant 17 18 situation, but whether they're not aware that it's life 19 threatening, we don't really know because we don't know
- 20 the sequence of these injuries. I'm sure it would be a
- 21 fearful thing.
- 22 ٥. So they would be aware of the nature of the 23 injuries?
- 24 A.
- That it's life threatening? 25 Q.

107

- A. Yes.
- Q, How would the be able — would they be able 3 to breathe, what would they be going through in those last i few seconds?
- A. As the pressure falls off the brain starts 6 to lose oxygen, lose the ability to -- lose the ability to 7 defend ourselves.
- At that point in time just before that, she would have been aspirating some blood? 9
- Yes___ 10 A.
- Q. She would have had difficulty breathing? 11
 - A.
- . 13 She would have lost consciousness a few 14 seconds later?
- Yes. It would all happen in very, very 15 A. 16 zapid sequence.
- 17 All right. 0.

7 A. Sorry.

Q. What were Dabbie's favorite things?

A. Her favorite things. Debbie lowed to

M collect clowns of all kinds. She had a \sim we'd buy her -

11 we knew that so we would try and buy her, when we were

42 scmeplace special, or whatever, if we seen a clown, some 13 little knickknack, she loved collecting clowns. We tried

M to build her a collection of clowns.

15 There were some reason — for some reason she 16 didn't have them all when she died, but we were able to 17 retrieve a few of them, which we kept to pass on to keep 10 for her children, if they wish to keep them.

19 Q. Some things that are boxed away for the

20 children?

21 A. Yes. Yes, a long with other things that 22 were hers. I had bought her a pink we pink was one of her

23 favorite colors -- I bought her a pink pearl necklace and

24 earrings that went with her pink suit that we laid away.

zs I said I would buy it and put it on her and kept it for

1 her daughter Chantelle later in Life.

7

Q. How did you find out about Debbie's death?

) A. I was coming home from work one day and we

+ have a five-foot high fence around our home that's gated.

5 And you have to get out of your vehicle and open the gate

6 and manually, it's not automatic, before you can pull into

the garage. And I got out and opened the gate, and I

8 wondered why my husband was in the garage and he come out

g and he just started yelling, don't close the gate, we have

If to leave. And he was just as white as a ghost.

11 And he digh't say anything. I said what's the 12 matter. And he said Norma had called and said Debbie was 13 dead.

14 I said no. You must have heard her wrong. There 15 has to be a mistake. He said, no, I don't think so. We 16 have to go to Wormes right away.

So we jumped back in the car and went to my sisters

And she was in hysterics. And I tried to get as much

13 information from her as I could to find out what happened

20 and she said someone from Las Vegas called, and I believe

21 at first she said it was a neighbor of Debbie's told her

22 that Debbie had been shot. I said, no, you must have

23 misunderstood. That can't be right.

24 So I called Debbie's house number and an officer 25 answered the phone. And I explained who I was, that we

21

) were trying -- we were at Debbie's mother's house and

2 about the phone call she had, and said we're trying to --

3 I'm trying to fin out what's going on, what's happened.

And he said, well, I'm sorry you had to hear it

5 that way — she had to hear it that way from the neighbor,

6 but he said, no, she wasn't shot, but she has been

1 mardered.

I did not go into any details, because I had — I
had to give the prone to my husband and he talked to the
officer. And from them it was just like a mightmare, just
something you don't ever expect to happen.

12 Q. What sort of things did you have to do over 13 the next few days?

14 A. The first thing we had to do was come pick 15 up the children. Find out where they were at. We did

16 Find out through telephone conversations with the police

10 department that they were being taken care of in the care 18 of the state. But at that time they still hadn't.

19 apprehended the person that killed her. So we had fear

20 that this person would be on their way to Thusson, until

21 later on when we were notified that they had apprehended 22 him.

23 So it was just getting our belongings together, at 24 first, to come and pick up the children. My sister had to 25 go to court to secure legal quandianship so we could take

-) them hack to Tucson. And from their it was making funeral
- 2 arzangements to take Debbie to Michigan to be buried
- 3 beside her grandzother, her uncle, and her step father.
 - Q. That was back in Lansing?
- 5 A. Yes
- 6 Q. Did you have a service for her?
- 1 A. Yes, we did.
- 0 Q. Where was that held?
- 9 A. It was very sad, of course, because she's so
- 10 young. And it was so hard and still is to believe that we
- 11 lost her. It was very, very heart breaking.
- 12 Q. Who was it that made the arrangements and
- 13 made all of these things happen in those days right after
- 14 her death?
- 15 A. I helped my sister make them.
- 16 Q. How did your sister seem to be dealing with
- 17 it?
- 18 A. Sorry.
- 19 Q. Now did your sister seem to be dealing with
- 20 it?
- 21 A. She dight at first. And I say that only
- 12 because she had just lost her husband two years before
- 23 that, and she had just spent those -- almost two whole
- 24 years keeping herself closed up in her own home. She
- 25 wouldn't even open a drape to let in the light. She was/
-) just so lost without Dale. And she no more -- was
- 2 getting -- finally getting over grieving from his loss,
- 1 that she lost her child.
- There's no way you can describe that. There's no
- 5 way I can imagine what she felt like inside, as close as
- 6 ve are. I just cannot imagine.
- 7 Q. Did you feel that you needed to be the
- 8 strong one to help her?
- 9 A. You bet I did. Yes.
- 10 Q. What was the impact of Debbie's death on
- 11 your husband and other family members?
- 12 A. Well, a lot of the family lives -- most of
- 1) her cousins and our family live in Michigan. We still
- 14 have some in Pennsylvania where we were born and raised.
- 15 She had an uncle in Virginia. Our impact on my husband
- 16 and I was just like we had no \sim from that time on, we
- 17 couldn't just think of the two of us as a marriage, or as
- 18 a comple to do what we wanted to do. Not that we regret
- 19 or ever would helping her in any way we could, but it took
- 20 a toll on our marriage too, because of the time involved,
- 21 that we also had to provide to her and to the children in
- 22 order to give that a decent up bringing.
- 23 She drove very little. She was in a comple of bad
- 24 car accidents, and it left her just scared to death to
- 25 drive a lot. And her husband, Dale, would just -- he

- I would do all of the driving, so there was a few years
- 2 before his death that she didn't do any driving at all,
- 3 because she just become so dependant on him doing the
- 4 Oriving And she still is that way to this day. She can
- 5 drive some, but she's just very, very nervous and will not
- 6 do it. So we had to be her wheels.
- 7 Q. You have been very actively involved in the
- B raising of the children?
 - A. Yes.
- 10 Q. Now, when you testified ten years aço, there
- 13 were a couple of family members that didn't feel like they
 13 would be able to come here and testify, why was itat?
 -) A. I'm sotx,
 - Q. Why was that?
- 15 A. I'm sorry. I didn't hear what you said
- 15 before.

- 17 Q. There were a comple of family members you
- 18 talked about that weren't able to come. Why weren't they
- 19 able to come?
- 20 A. They had families of their own. My sister
- 21 would have come, but she had her oldest son who was in a
- 22 semi-comma since he had been 18 years old in a bad car
- 23 incident, which required 24-hour care. And she won't fly.
- 2) You would not get her on an airplane.
- 25 Her daughter also had family obligations and young 21
- 1 children of her own that she was unable to come out. So
- 2 we just asked them to make -- if they would just make
- statements.
 - Q. Were they close to Debbie?
- 5 A. Absolutely. That was the family that my
- 6 sister had five children of her own and Dehbie grow up
- 7 with those five children as though she was the sixth.
- 0. What's the sister's name?
-) A. Doris Weskowski.
- 10 Q. So you read a couple of letters in last
- If time?
- 12 A. Yes,
- 13 MR. OWENS: Your Honor for the record, I
- 14 think those were marked as exhibits 91 and 92. With the
- 15 permission of the court, I would like to approach the
- 16 witness.

My name is Christina 16 Weskowski-Reese, and I'm Debbie's cousin. We lived only 17 two blocks from each other most of ours lives. We were 19 more like sisters then cousins. We did so many things 19 together. We went shopping together, movies, I even 20 generater teaching Deb how to drive. Debbie was my made of 21 Monor at my warding, and even after my marriage Deb still 22 did things with me and my children. We went on a lot of 23 trips together like Cedar Point. "Debbie enjoined big family get-togethers 2 and having lots of people around. She was very much a 3 people person. I don't think I have ever met anyone that did not like her. She still has good friends from school 5 and many of the places that she worked. She made friends 6 easily and kept them. There is so much to say about Deb, 7 that I can't sum it up in a letter."

"I hope that this helps in some way to 9 let you know how much Deb was loved and will be missed. 10 It's a shame that her children will never know the 11 worderful person I had.* "Enclosed are some photos of Deb with our 12

"Debbie loved birthday parties, dinners, anything

Q. Would you like to read that at this time? A. Yes. "My name the Caroline Monson, and I , 3 work and reside in Tucson, Arizona. I'm providing this statement on behalf of Debra Banos, who was my migos." "Our family was large and consisted of many 6 close-init relatives. Debbie was the only child of my 7 sister Norma. There were always family get-togethers 8 There were always family gatherings for birthdays, 9 holidays, or just-because events. Debbie loved to having 10 family get-togethers, and even though she was an only It child she was never alone in life. In fact, she was like 12 the sixth child of my sister Doris and her husband John, 13 whom had five children of their own,"

"All of the kids grew up together and were very 15 close to each other. Debbie was a fine young lady who was 16 very bright and excelled in her school years. Learning 11 came easy for her. She loved to collect clowns of all 19 sorts. I think of Debbie any time I see one. We saved 19 what collection was left to keep for her children." "Debbie had a special feeling for the elderly and 20 21 children. Probably her most outstanding virtue was that 22 she cared about people who were less fortunate them she. 23 If she could help them in any way she would." "I can recall her seeing an elderly couple walking

i don't they look cute." 'She would go up to her 2 grandnother and give her a pinch on the cheek and say, 3 'grandma, you're so oute'." "She loved her grandmother who lived with 5 her as she grew up. I truly believe Debbie's care to help 6 others was why she chose to be a 911 operator." "It has been almost 12 years since 8 Dembie's death at age 26. Her death was a tragic shock to 9 our family. My memory gets weak at times growing older, 10 but I remember the tragedy as though it happened 11 yesterday. I came home from work at my usual time, but 12 when I opened our gate to pull in the garage my husband 13 came out running out of the door, saying not to close the gate because we had to leave." "I asked him what was wrong, and he was as to white as snow, he said, Worma called crying hysterically 17 saying Debbie is dead. We have to get over there." "I didn't believe what he said. I kept 19 saying no, no, Norma made a mistake and misunderstood 20 someone, just could not believe this was happening to our 2: family." 22 "Unfortunately, it was not a mistake and 2) from that moment on it's like a horror story. Our first 24 thoughts and concerns where of the children, and where

25 they were, and who was caring for them. We know we had to

1 get to Vegas to be with them." "Debbie was so brutally killed I can't I even begin to imagine what her last thoughts were, but I'm t sure they would have been for her children. Her killing 5 was senseless and I just don't understand what happened." "I still remember when my husband and I 7 were taken to Debbie's home where it happened to get 0 clothes and items for the kids. I will never forget 9 seeing the floor in her living room. The officer was most 10 kind to quickly pick up some towels and put them over the 1) stains. I wept the whole time I was there and it was so 12 hard to believe shat was happening. Unfortunately, I 13 still have many, many mightmares of what I saw that day." "Debbie's death has had such a major 15 change in our lives. My sister had just gotten over the 16 loss of her husband when this tragedy happened. She lost 17 her only child. Doctor, I'll remind you you are still 1 2 under oath, sir. THE WITNESS: Yes. 3 THE COURT: Mr. Owens. 4 CROSS-EXAMINATION 5 BY MR. OWENS: 6 Good morning, Dr. Etcoff?_ Q. 7 Good morning. Α. В How much free will do you have? ο. 9 Depends upon the day, depends upon the A. 10 situation -- a lot. 11 You can't put a number on it? 12 Q. Α. No. 13 Say you are over 90 percent in the free-will 14 ø. 15 category? I don't know of any static like that. 16 Α. You were talking about some people having 17 Q. less free will than other people, and you said the 18 defendant has less free will, what do you mean by less 19 free will? What percentage are we talking about? 20 I can't put a percentage on it. I was just Α. 21 trying to say that free will is a term that, you know, 22 depends on what your connotation is. How -- if what 23 you're trying to describe is at any given moment in your 24 life how in control are you of making a decision, those --25

the amount of that control is different for you, depending upon the situation, depending upon how smart you are, depending upon whether you have psychiatric problems, depending upon whether you have drug problems, depending upon whether you have all of these different variables, you just think, and think, and think.

So I don't know. I've never heard of someone putting a percentage on free will. You've probably had times where it's difficult for you to make a decision. You're ambivalent. You go one way, you go another way. It's hard to make a decision. You have free will, but it's hard to make a decision. So it's a really hard thing to put a number on.

- Q. Well, then you're equating free will with difficulty of making a decision?
 - A. Yeah, yeah.
- Q. So I would say I've got a hundred percent free will. There's no options that aren't available. I may just need more time to do it. I can still choose, though, right?
- A. Well, I'm glad you've got a hundred percent free will, but I doubt whether you really do.
 - O. Where am I at?
- A. I have no clue where you're at, I just met you.

- Q. If you talked to me for two hours, give me a few tests, could you put a percentage on it?
- A. That's what I'm saying. I can't -- all I'm saying is there are limitations to making -- I mean, if you want to talk theoretically we have -- everybody can make -- have free will. Everyone can make a decision at any moment in time in any situation, but if you're a human being and you've lived any number of years, you realize that although you have free will, there are limitations to your ability to make a decision in a certain circumstance at a certain time given what's going on in your life. That's all I'm saying.
- Q. Well, the law puts limitations on people certainly?
 - A. Yes.

- Q. And if you're confined physically that would put limitations on you?
 - A. Yes.
- Q. This is your term, free will. You're the one that used that here. I'm trying to find out what you mean by that,
- A. I guess I mean the extent to which at any moment in time you're able to make an adaptive decision that is smart, good for you, gets you somewhere, in a nut shell.

1	Q. You pick up a pen, I've got innumerable
2	options concerning this pen, don't I?
3	A, Yes.
4	Q. I can write with the pen, stare at it, put
5	it behind my ear, I can throw it across the courtroom, I
6	can take it apart and put some new cartridge in it. Can
7	you think of some options that are not available to me in
8	my free will concerning this pen?
9	A. Not off the top of my head, I mean no.
10	Q. Well, when we get down to the defendant at
11	the time of the crime, you said he had less free will, how
12	much less, what options didn't he have?
13	A. I can answer that question.
14	Q. Well, don't you have to answer that question
15	before you can come up with an opinion that he has less
16	than normal?
17	A. No. I said he had limitations on his
18	abilities to make adaptive decisions, but I can't put a
19	percentage on it and I can't tell you, I wasn't there at
20	that moment to know exactly what was going on in his
21	mind.
22	I can only talk generally about what he is like as
23	a human being and try to put together a picture of what it
24	must have been like at that moment for him, but I can give
25	you number,

Q. While we're putting together a picture for us then, you're saying that he had less ability of free will, but you can't say how it was less, so your picture is kind of incomplete on that subject.

- A. I can say how it was less.
- Q. How?

A. He was, as I've already said, not too -- he doesn't think well in words. He was having a good amount of irrational chronic thoughts in his mind that made him too emotional and not logical. He assumed terrible things about this woman, many of which were probably -- or possibly untrue. He didn't apparently have the capacity to say, as mad at her as I am, or as frightened as I am she's leaving me, I certainly can't kill her, because not only would that be against the law and takes a person's life, which is wrong, period, but it would leave my three kids without a mother, and it will put me in prison, if not put me to death.

So all of those things that most of us would never ever, ever, ever find ourselves doing, some people end up doing. And I guess that's my way of saying they're not mentally equipped or emotionally equipped to make those hard decisions that the rest of us could easily avoid making and never get ourselves in those situations -- we hope.

1	Q. The rest of us being?
2	A. The majority of human beings.
3	Q. People that don't commit crimes. Because
4	what you just described are people that commit crimes,
5	pretty much, haven't you?
6	A. Well, I was talking about murder.
7	Q. Right.
8	A, That crime. I mean there's lots of other
9	people with lots of IQs that commit lots of crime all the
10	time because they're greedy.
11	Q. So what we've got with people that commit
12	crimes, in part, is simply it's not that they're greedy,
13	it's not that they're maybe just jealous, it's not that
14	they don't want to control their tempers, it's just they
15	don't have as much free will as the rest of us?
16	A. If that they can't call it free will, I call
17	it they don't have the ability at the time that they
18	need to make this decision to stop them, to inhibit the
19	anger, or inhibit the action of throwing a pen at the jury
20	or at me, that was absent with this man at that moment,
21	and unfortunately it seems absent with lots of people all
22	around the world all the time, or there wouldn't be such
23	horrible headlines in the paper every day.
24	Q. Because if people really had free will then

Page: 3523

25

we wouldn't have to worry about them making decisions like

this, we wouldn't see this kinds of results? 1 No, I'm not saying that. People have free Α. 2 will, but they are not perfect in making -- it's not as if 3 I -- I guess you could say people have free will to be 4 evil. 5 Some may choose evil? 6 Q_{\star} Some may choose evil. There are lots of 7 8 examples of people who have a lot of in intelligence, normal childhoods, that weren't addicted to drugs and 9 they're terrible human beings who have committed vicious 10 crimes and so we know of that. 11 Choosing evil, that's a choice, is it not, 12 Q. doctor? 13 14 Α. It is a choice, yes. And a person has the will to make that Q. 15 16 choice? Yes, but not -- I'm not going to argue with 17 Α. I have been -- I have been in this situation too 18 19 many times and have been through this too many times to know that you will say, and prosecutors will say, that if 20 you are able to pick up a gun and point it, you had a 21 thought in your mind and that was enough to show intent. 22 Yeah, simplistically correct. 23 24 But all I'm trying to tell the jury is sometimes

Page: 3524

the decisions that we make are not altogether rational and

good for ourselves or other people, because we can't apply 1 2 the right thinking and the inhibition of a behavior at 3 that moment. So I'm not sure we all have perfect free will. 4 5 I'm just saying that people are less than perfect and really at times under certain stresses are capable of 6 making horrible choices that they would take back in a 7 θ blink of an eye, if they could.

- Q. Well, we'll come back to that in just a little bit. What is the American Board of Medical Psychotherapist?
- A. It's a board on psychology diagnosticians. It's a board -- it's an organization in which people who are from different medical or allied health specialties, like medicine, dentistry, chiropractors, psychologists work and can join and go to conferences and earn a diploma from.
- Q. And you're a diplomat of this organization?
 - A. Yes.

- Q. How do you become a diplomat of the American Board of Psychotherapists?
- A. You put in an application. You give references. You have reference letters. You show that you have had certain experiences in diagnostics or

psychotherapy, and then the board decides whether your 1 experiences, letters of reference, and your degree, and 2 your written essays are good enough to be granted that 3 statosu 4 5 Ο. So it's not exactly a certification process? 6 It's not. I wouldn't call it a stringent 7 certification process. My diplomat in neuropsychology was 8 a lot more stringent, but in this day in age there's a lot 9 more in psychology and different areas of professions 10 11 there are boards that are easier to become board certified 12 or diplomats in and boards that are extremely difficult to be board certified in. 13 This is one of the easier one? 14 Q. 1.5 Α. Yes. You were asked to become involved in this 1.6 ο. 17 case by the defense attorneys that were representing the 18 defendant about ten years ago? 19 Α. Yes. And you weren't brought in, of course, 20 Q. 21 around the time of that this happened it was sometime later after the crime happened? 22 23 Α. Yes, How much later? 24 Q. 25 Looks to be about eight months later. Α.

1	Q. s	o eight months after the crime, you were
2	asked to come i	n. They were going to hire you to do
3	something for t	hem?
4	A. T	o evaluated him psychologically, yes.
5	Q. I	s that what they told you, evaluate the
6	defendant psych	ologically?
7	A, I	mean, I don't remember exactly what they
8	said, but that'	s what any attorney would say in that
9	situation, so,	yes.
10	Q. T	hey didn't tell you anything more specific.
11	They didn't ask	you to evaluate him for legal
12	competency?	
13	A. I	don't believe so.
14	Q. 0	r to evaluate his mental state at the time
15	of the crime?	
16	A. N	o. I would have had that in the report.
17	Q. J	ust a general evaluation?
18	Α. Ι	believe that Mr. Brooks, at the time that
19	I worked with o	n I think one or two cases in the past knew
20	that this was a	murder case, and in a murder case you guys
21	have to ask for	a lot more information, a lot more
22	evaluations the	n you would in a case that isn't life and
23	death so to spe	ak.
24	So I thi	nk it's just I don't know if there's a
25	law or rule tha	t if you have a murder case you really have

to look into every possible variable that could make the difference between someone who's, once they're convicted, put to death or life in prison without the possibility of parole.

So in those cases psychologists, psychiatrists, and neurologists are commonly retained by, usually the defense, to see if there are mitigating factors, something that would explain why this person did something so terrible.

- Q. Are you usually retained by the defense in criminal matters?
 - A. Yes.

- Q. Are you always retained by the defense in criminal matters?
- A. I think that I may have once been retained by the DA's office, but basically the DA's office to my knowledge isn't very interested in psychological functioning of someone they're trying to put in jail, and the defense always is.
 - Q. Defense kind of likes using you?
- A. They don't use me anymore, so I don't know if they like me now.
 - Q. You were paid to come in on the case?
 - A. Yes.
 - Q. You didn't feel compelled to do it?

1 Α. No. 2 So exercising your free will at the time, Q. 3 you took the assignment? Α. I agree. 4 And have you done anything on this case 5 Q. 6 since your initial evaluation? 7 Α. No, sir. 8 Q. You gave testimony back then, ten years 9 ago? 10 That was the last of it. Α. 11 Now, you're a clinical psychologist? Q. 12 Α. Correct. 13 So your practice is focused upon the Q. treatment of individuals? 14 15 Um, remember when I was first introduced, I evaluate, I don't do -- by treatment you mean counseling, 16 17 biofeedback, psychotherapy, I don't do that. Treatment 18 includes you come to me with your child and say Johnny is 19 doing bad in school and seems depressed, that I do. But I 20 call it evaluation. 21 You are responding to somebody's concern Q. 22 about an individual that they brought to you? 23 Α. Yes. 24 Q. That's different them somebody that the 25 forensically certified?

A. Yes.

Q. Somebody that has a practice that is forensically oriented, what's the difference?

If you are engaged in a forensic practice, Α. as any type of psychologist, whether you're a social psychologist, developmental psychologist, clinical psychologist, engineer, physician, any professional, then you are -- there are whole sets -- you're looking completely -- you're not an advocate for the person. are trying to -- that person isn't your patient, that person is an examinee. Your job when you are hired forensically -- which is always by one side or the other, but that's irrelevant, hopefully -- to figure out how an event took place and how it occurred, or what its effect was on someone, and to give that side that retains you the bad news and the good news for their side, depending on whether they are going to like it or don't like it. So you just give them everything.

- Q. Whereas a clinical psychologist, somebody that doesn't specialize in forensics generally, they are hired to be an advocate for a side?
- A. In a -- what type of case are you talking about.
 - Q. In a case like this?
 - A. Well, there are -- in fact one of my former

employees does just that. She is a psychologist who will be retained by someone's attorney to see a person who is on trial for murder or as been convicted of murder, but not yet in prison, to see them in counseling and therapy to prevent them from becoming suicidal, or if they're very depressed to manage them as human beings at the time they are here in jail. But that -- I don't do that.

- Q. Did you come into this case with a particular frame of mind or a bias?
- A. Well, I think I'm honest enough to say that there's always a bias. We know -- you're always biased, even if you don't know you're biased, you're biased. So I'm not going to sit here and tell the jury that I don't have a bias, but I try to understand that when I am asked to do a case forensically I have to control whatever bias I may have at that time and be as fair and balanced about everything as I possible can. So that's what I attempt to do. I may not always be great at it, but I try really hard to keep that in mind.
- Q. Was there anything about the nature of this particular case that caused an ethical bias for you?
 - A. No, not to my knowledge.
- Q. The things that you did to prepare your evaluation included some tests that you described?
 - A. Yes.

	•
1	Q. And a two hour interview with the
2	defendant?
3	A. Yes.
4	Q. And one of those tests was given, I think,
5	on a tape or something?
6	A. Yes.
7	Q. How did that work?
8	A. Well, let's say there were 150 statements on
9	that test. There would be a person who the test company
10	hired to read those statements off twice in a row at a
11	slow rate so that people who weren't capable of reading
12	could still take the test, because they were capable of
13	understanding the questions read to them. And that's what
14	Mr. Chappell's administration entailed.
15	Q. So how was that actually done?
16	A. In a room with a tape recorder and him
17	sitting there answering, number one question number
18	one, I sleep well, I sleep well, and he would put true or
19	false, and then question number two, and it would go like
20	that.
21	Q. Where were you at the time?
22	A. In my office.
23	Q. Which was?
24	A. At that time on Decatur Boulevard.
25	Q. Was he over in your office there?

1	A. I think he must have been, yes.
2	Q. You don't have a memory of that?
3	A. I don't have a memory of last week, I can't
4	tell you ten years ago. But he was everybody who takes
5	these tests are in my office. I can't tell you which room
6	he was in.
7	Q. So we had some testing that was done. We
8	had a two hour questioning that you did. Did you take an
9	opportunity to interview family members?
10	A. None were provided. It would have been
11	important, and possibly important, and I would have
12	enjoyed doing so, but none were around at that time.
13	Q. When you are looking at obtaining a family
14	history of an individual how important is that that you
L5	get accurate information?
16	A. It is important.
17	Q. And you're supposed to try to get
18	independent sources for the information that you are
19	given, aren't you?
20	A. Yes.
21	Q. And I think you said on direct examination
55	that you need a collateral opinion on these things?
23	A. I don't know if it was a collateral opinion,
24	I just need when you're doing a forensic evaluation you
25	are skeptical because there's something in it for someone

not to be necessarily truthful, plus nobody has a perfect memory. And if I talk to you and ask you questions about your past, then I dug up records, you might be telling me the truth, but inaccurate, because you don't have a perfect memory.

So that's why at least I asked them to get records they did get, which were all of the school records which gave me a better sense of what he was like as a kid from people who had evaluated him then.

But his family members weren't available to me and that would have been important, or ultimately it would have been useful to have met them and seen whether they had said things about him that he said to me, or whether they said, no, no, what he told you is completely untrue.

- Q. You mentioned school records, do you have those with you?
 - A. No.

В

- Q. You were referring to them earlier on direct examination?
 - A. In my report.
 - Q. So you don't actually have the records?
 - A, Correct.

MR. OWENS: Your Honor, I'd make inquiry if the records are available and to take a look at them.

1 Thank you. BY MR. OWENS: 2 3 While he's getting those, without the family Q. to be an independent source or other sources, you are 4 5 basically left with the defendant's version of events? The defendant's version, and in this case 6 7 all of the school records. That was a legitimate collateral source. If I had no collateral, you're right, 8 all I would have is the defendant and my clinical skill in 9 saying this is what he said to me, it's believable, it 10 isn't believable. 11 12 What do the records say about his Q. grandmother being physically abusive? 1.3 I don't believe that's mentioned. 14 Α. But you said that on direct examination? 15 ٥. That's what I was told. 16 Α. 17 Told by? Q. 18 A, Good question, who was I told by. Either it was in the school records or Mr. Chappell told me that she 19 20 was abusive more to his older siblings then to him. 21 You used the term physical abuse, and it's 22 on page 6 of the report, discussing the subject. Physical 23 abuse is not mentioned in there, is it doctor? 24 If not on page 6, it's on another page. Α.

Page: 3535

We printed it out with different computers

25

ο.

so our pages might not be right. 1 2 Α. I can try to find it for you. Sure. I've got my copy. 3 Q. I'm sorry, it was on page 4 of my report, Α. 4 5 and in Mr. Chappell's interview with him he said, quote, "she spanked us with switches a lot, took care of us and 6 7 gave us food and clothing." 8 He said he didn't feel love, because the grandmother never gave the kids birthday parties. 9 10 And she played bingo on the weekends and came home late at night. 11 12 She apparently used physical punishment a great deal, with most of the worst punishment for older brother 13 Ricky, who's age 28, who's presently in prison in 14 15 Michigan, and Carla, the oldest daughter, present age 30. 16 0. I'm reading from the same page you are. 17 Where do you get that phrase physical abuse? 18 Α. Physical abuse, I use that term for physical punishment as what Mr. Chappell told me, the switches that 19 his grandmother used and the two older siblings getting 20 physical punishment. 21 What kind of physical punishment? 22 Q, 23 A. I don't know. There's no details in there? 24 Q٠

Correct.

25

A.

1	Q. So switching, you mean spanked them with a
2	switch?
3	A. Yes.
4	Q. And something else happened with the
5	siblings?
6	A. Yes.
7	Q. That was similar to that, and you're
8	characterizing that as physical abuse?
9	A. It appeared that's what I thought it was at
10	that time, yes. I mean, it sounded that to me.
11	Q. Does it sound that way now?
12	A. It could have yeah. There is nothing :
13	don't know what she did. If the kids are around and they
14	can come in and testify, then the jury will know. I don'
15	know if what grandma did and whether it was, in fact,
16	physically abusive. When Mr. Chappell told me about it is
17	sounded in a way he presented it in a way that made me
18	say physically abusive.
19	Q. Well, it doesn't come across that way in the
20	report, does it?
21	A. How is that?
22	Q. Well, does it sound like physical abuse the
23	way you say it in here?
24	A. I said, apparently used physical punishment
25	a great deal with most of the worst punishment with older

1 brother Ricky and older sister. They were hit with 2 extension cords and sticks. I guess that's physical abuse 3 in my way of looking at it. Q. You have to agree that physical abuse is a 4 5 rather -- well, it has a rather violent connotation to it 6 and if you are talking about something essentially like 7 spanking is what it sounds like is that something what you В call physical abuse in the home? 9 Α. I don't know. I wouldn't call spanking 10 necessarily physical abusive, but I would call being hit 11 with sticks and an extension cord physically abusive. Ι 12 might be wrong. 13 Q. You also use the term that she was 1.4 neglectful? 15 As Mr. Chappell described her. Ά. 16 Q. Reading from that same section there, it says she took care of us and gave us food and clothing? 17 18 Α. Yes. And his older sister said, I'll find a 19 place for us, I'll find daddy, meaning that she wanted to 20 get out of grandma's home where she was being physically 21 abused and where the other kids were getting hit. 22 my understanding from what Mr. Chappell said. 23 That's what Mr. Chappell told you? Q. 24 Ά.

Page: 3538

Because you didn't talk to any of the other

Yes.

٥.

1 family members? 2 Α. That's what Mr. Chappell told me 3 because that's what Mr. Chappell told me. The fact that I didn't talk to any of the other family members -- I wanted 4 5 to. I would have had they been available. Now this was a grandmother that took over 6 7 responsibility for how many of her grandchildren? 8 Α. I believe four. 9 Q. And the defendant was getting in trouble and 10 acting out from a young age? 11 Α. Yes. 12 0. And there was an older brother that was 13 having even more problems then the defendant? 14 Α. Okay. 15 Ο. And she was trying to raise them on her 16 own? 17 I think so. Α. 18 And you are characterizing what we just read Q. in here then as physical abuse or child neglect? 19 20 For those actions I'm not says that she wasn't a saint for taking four kids in and trying her darn 21 22 best to give them a life, but -- and if the kids were that 23 badly behaved I can understand that. If she where on 24 trial for beating the crap out of them, I might be here

Page: 3539

saying look what he had to go through. She was a grandma

taking care of four children. They were uncontrollable 1 2 and does it -- it makes sense that she lost control of 3 herself. I'm not calling her a bad person. I'm saying 4 she took four kids. She had good days and bad days and that's it. 5 6 Well, you just described about every parent Q. 7 out there, didn't you? Α. Yeah. 8 9 Q. Good days and bad days? Absolutely. 10 Α. 11 More physical sometimes then they want to Q. 12 be, feel bad about it later? 13 Α. Yes. 1.4 Q. Neglectful parents? 15 Α, Yeah. 16 Q, Abusive parent? 17 Α. Every parent can be somewhat neglectful, abusive, do the wrong things, yes, absolutely. 18 19 Q. Any parent can? 20 Α. Any parent can. 21 Even the defendant's grandmother? Q. 22 Α. Absolutely. Did you find a tendency in the defendant to 23 Q. 24 put the blame for his decisions on other people during 25 your interview?

1	A. Well, yes and no. Yes, in the sense that he
2	blamed Ms. Panos for dumping him or going out with other
3	guys and making him lose control of himself. And no,
4	because he, at the same time, essentially felt terrible
5	that he knew what he had done was horrible.
6	Q. Well, were you here when he testified
7	before?
в	A. No.
9	Q. Did you get a copy of the transcript of his
10	testimony to review before testifying here?
11	A. No.
12	Q. If he said in his prior interview that he
13	had a lot of different jobs that he lost, but it wasn't
L4	his fault because they wouldn't give him a raise. Does
15	that sound about right for his perspective on life?
16	A. I don't know if that sounds right, but it
17	certainly not an uncommon thing I hear from lots of
18	people. It's not uncommon for human beings to blame
19	someone else when they're not making it.
20	Q. He testified that when he moved he had to
21	move because the job was getting into their private
22	lives?
23	A. Sounds paramoid.
24	Q. That during the cup beating accident, the

Page: 3541

one that you alluded to back in January of '95, that that

BY MR. OWENS:

1	Q. On one of his thefts at the K-Mart incident
2	resulted in a gross misdemeanor. Did you read his
3	statement to the Department of Parole and Probation?
4	A. I wasn't given that.
5	Q. In that statement he denies doing anything
6	wrong, and says that the police are to be blamed because
7	they acted badly. Based upon your two-hour interview with
8	him, is that consistent with the way he puts blame on
9	everyone else for things that he does?
10	A. I would say that that statement is an
11	irresponsible statement for him to make. He's clearly
12	projecting blame onto the police for something that he
13	doesn't want to take responsibility for And it is
14	consistent with him being so weak and ineffectual that he
15	doesn't even realize that saying something like that is
16	ridiculous.
17	Q. It is ridiculous, isn't it?
18	A. Of course it's ridiculous.
19	Q. But the statement you made on direct
20	examination about this crime that the defendant was upset
21	with her Debbie Panos for leaving him to do this. Well,
22	ridiculous doesn't even begin to talk about that
23	statement, does it?
24	A. I don't how are you using the word

ridiculous?

1	Q. You used the word a moment ago?
2	A. I know, but I'm not understanding your
3	question.
4	Q. This is beyond ridiculous, this kind of
5	blame throwing to put this on the murder victim, that she
6	led him to knife her like that?
7	A. No. That is you could use the word
8	ridiculous for that, but as a psychologist I'm just trying
9	to testify that it doesn't make logical sense. He can't
10	blame her for leaving him as a I can murder you,
11	because you're leaving me. That makes no sense. That's
12	irrational. It's wrong. It's not truthful. But in his
13	mind, he's so
14	Q. Remorseful, doctor?
15	A. Not at the time.
16	Q. <u>No.</u>
17	A. Not at the time. And I never said he was.
18	Afterwards, yes.
L9	Q. In fact, the Defendant was in trouble all
20	the time. He'd been involved in juvenile hearings,
21	camps, foster homes, jail. I think he said about 15
22	arrests as a juvenile. He told you about that?
23	A. He mentioned that number, yes.
24	Q. That included burglary, trespasses; is that
25	right?

1	Α.	I didn't inquire into all of the different
2	times he was a	arrested, so I don't know.
3	Q.	This began back around the age of 13, these
4	are things he	told you?
5	A.	Yes.
б	Q.	He only told you about one prior incident
7	where he hit)	ner in Arizona?
8	Α.	Yes.
9	Q.	When you testified on direct examination you
10	said that you	were familiar with the incident in January
11	of '95 in Las	Vegas, right?
12	A.	I think so. Correct.
13	Q.	He also told you about some other incidents,
14	including the	June 1st incidents?
15	A.	Yes.
16	Ω.	But he hadn't told you about that one, had
17	he?	
18	Α.	I don't know. It's been ten years.
19	Q,	Do you have a copy of transcript from the
20	last time you	testified ten years ago?
21	Α.	I do.
22	Q.	Let's go over to page 52. I believe it is.
23	It may assist	you to look at that as I'm asking
24	questions?	
25	You wer	re unaware of the threats that other

witnesses described in which this defendant had directed 1 threats at Debbie Panos? 2 3 Α. Yes. 4 ο. He did admit that he hit her? I said, yes. 5 Α. 6 Q. So you were aware to some extent that there 7 was a history of domestic violence? I said, correct. 8 Α. The defendant told you that he was arrested 9 That was the only domestic violence 10 once in Arizona. 11 arrest that he explained to, wasn't it? I believe it was. 12 Α. That is the only one that you alluded to in 13. Ο. your report; is that correct? 14 Yes. 15 Ά. It is the only one you remember specifically 16 Q. 17 him advising you of? Α. Yes. 18 19 Now, he told you -- or he didn't tell you he Q. 20 was arrested in Las Vegas on several occasions, did he? I don't believe he did. 21 Α. 22 And the incident he had mentioned in Arizona 23 was he had slapped her a couple of times had arguments 24 about the way her parents treated him? 25 Yes. A.

Q. If we go over to page 54, just to refresh your memory. That June 1st incident of 1995, where he described -- he did not describe the situation where it he'd gone into the bedroom of the mobile home, pushed her down on the bed, got on top of her, pinned her arms down, and threatened her with a knife?

- A. Yes. He didn't say that.
- Q. You were not aware of that incident at the time?
 - A. Correct.

θ

1.3

- Q. Assuming for a moment that the omission by the defendant when he talked to you describing the act of domestic violence that occurred on June the 1st, was deliberate on his part, would that affect your opinion about how cooperative he was being and credible he is?
- A. It very well could. But I want to also inform the jury that I didn't, at the time, purposely ask him to tell me about every time -- every time he had been convicted or arrested of a crime. So had I and had he left out three or four arrests or convictions, I would be more -- I would be in a better position to say he didn't want to tell me certain things, which is very common in cases like this. And in other civil forensic cases people will not tell you things that they don't want you to know, even when you specifically ask.

1	Q. How important was it to know the full
2	history of their relationship in your opinion here,
3	doctor?
4	A. I think it would be a good thing to know the
5	full history. And I always ask, whoever retains me, to
6	provide as much as many records and as many documents
7	from court proceedings or witness statements as possible
8	so that I can get a good feel for the case.
9	MR. OWENS: We have documents I would like
10	to have marked as an exhibit, your Honor, next order.
11	They can start with a different number.
12	THE CLERK: All of them or just one?
13	MR. OWENS: The whole thing.
14	THE COURT: We'll mark the file next in
15	order.
16	BY MR. OWENS:
17	Q. As a matter of fact, you had testified in
18	the previous proceeding that you would agree that at least
19	partial opinions you formed would be invalidated if you
20	weren't receiving accurate information from the
21	defendant?
22	A. Yeah, that is very possible. If he told me
23	stuff that turns out to be wrong, then and I based my
24	opinions on believing something that is wrong, then I
25	would change my opinions given other information.

1	MR. OWENS: Your Honor, for the record
2	these are certified reports of incidents. We've heard
3	about a lot of them already. One is from Tucson in red,
4	chronologically backwards. And the yellow from Las Vegas.
5	And I would move for their admission at this time.
6	Counsel had the opportunity to see them.
7	MR. PATRICK: No objection, your Honor.
8	THE COURT: Those will be admitted as
9	exhibit
10	THE CLERK: 129.
11	THE COURT: 129.
12	MR. OWENS: Thank you. If I may approach,
13	your Honor.
14	THE COURT: Yes.
15	BY MR. OWENS:
16	Q. These are a number of reported incidents, if
17	you could you don't have to read them. But just take a
18	look at the number of reported incidents, contacts with
19	the police over a period of only about, maybe, 2 years,
20	involving the defendant while they were living in Tucson
21	and in Las Vegas.
22	You were told about one incident, You think it
23	would have been helpful if you had all of these additional
24	incidents to review before formulating your opinion?
25	MR. PATRICK: I'll object, because the

question is misleading. A number of those involve petty 1 2 larcenies and such, as opposed to possession of drug They're not all domestic violence cases. 3 paraphernalia. MR. OWENS: I never said they were 4 5 domestic violence totally. What I'm asking is about criminal history of arrests. Wouldn't that have been 6 7 important to you to have before formulating your θ opinion. 9 THE COURT: For the record the objection 10 is overruled. Any of those things can be cleared up on 11 redirect. 12 THE WITNESS: The answer is, yes. BY MR. OWENS: 1.3 Because in your report, in your opinion you 1.4 Q. 15 gave after this two-hour interview you gave the defendant, 16 you were of the opinion that this splitting up was 17 something that was new that just started happening in the last few months before the death of Debbie Panos? 18 19 Α. Yes. 20 Q. And, in fact, this was something that had 21 been going on, and on, and on, again, and again for 22 years? 23 Α, Okay. 24 That was information that you didn't have? ٥. 25 Α. Yes.

1	Q. You said in your report that they started
2	drifting apart months before the murder. The problems
3	began just shortly before that when the girlfriends began
4	to move in?
5	A. That is what Mr. Chappell told me.
6	Q. But, in fact, there were problems that had
7	been going back for years and year, you were unaware of
8	that?
9	A. Correct.
10	Q. We've heard testimony from a number of
11	individuals that have cataloged domestic violence on a
12	weekly basis, seeing bruises on the body of Debbie Panos,
13	spanning half a decade or more where she didn't call the
14	police. These are incidents in addition to what you
15	didn't have in the exhibit. These were things you didn't
16	know about?
17	A, Correct.
18	Q. Important for you to know about those in
19	formulating your opinion about the defendant's conduct and
20	free will in this situation?
21	A. Correct.
22	Q. But you didn't know about them?
23	A. Yes, correct.
24	Q. A lot of your opinions about his conduct

here was based upon the fact that he felt the victim was

25

1	going to be deserting him?
2	A. Yes.
3	Q. But she had left or stayed away from him
4	before. You were not aware of that?
5	A. Correct.
6	Q. And he hadn't killed her on those
7	occasions?
В	A. Correct.
9	Q. That June 1st accident that he did not tell
10	you about, are you familiar with how close the facts of
11	that were to the facts in this case?
12	A. No.
13	Q. Same trailer, climbed on top of her, held
14	her arms down, put a knife to her throat, and was
15	threatening her. You've never heard those facts before?
16	A. I did at the trial.
17	Q. That was the first time you heard about
10	them?
19	A. Yes.
20	Q. And that time he exercised his free will to
21	put the knife down. Were you aware of that? You didn't
22	read his testimony?
23	A. I didn't.
24	Q. In his testimony he actually explained the
25	mental process that he went through when he held the knife

to her throat trying to find out information form her and he decided that wasn't working so he set the knife down, okay. When a girlfriend came in and knocked on the door it interrupted him, and he was able to get off of Debbie Panos and exist the bedroom. There wasn't any violence on that occasion. Is that something that would have been important for you to know in assessing his free will on the date in question?

A. Yes.

- Q. Which you didn't know that?
- A. Correct.

В

- Q. All of these other people that we've been hearing from for the last few days, people that were really close to the situation. We had Michelle Moncha, Mike Pollard testified in the prior trial, we read his testimony. Lisa Duran, we had Dina Richardson -- or Dina Freeman. We heard from police officers that had contact in these situations. Did you interview any of these people about this background?
 - A. No.
- Q. Were you provided by the defense, back then when you were making the evaluation, any of this information?
 - A. No.
 - Q. And in the ten years since you last

1	testified, have they given you additional information of
2	this sort?
3	A. No.
4	Q. So you are coming in and you're testifying
5	based upon what appears now to be very limited data that
б	you had ten years ago?
7	A. Yes. I mean, I my report was based upon
В	the time I spent with him, the test results about his
9	personality functioning, intellectual functioning and what
LO	I had seen in his school records. But all of that other
L 1	information that you've just pointed out, which would be
L2	relevant for a psychologist to see, wasn't available to
13	me.
1.4	Q. And the facts that he gave you about what
15	happened on the time of the murder, they're wrong, aren't
16	they, doctor?
L7	A, The night versus day.
18	Q. That's just the beginning. He told you it
19	happened at night, it wasn't at night?
20	A. Could have been assuming, I might have
21	${ t made}$ that ${ t mistake}$ ${ t myself.}$
22	Q. But that was your testimony last time?
23	A, I know.
24	Q. Did you look at the police reports in the
25	case?

1	A. Back then, but I no longer have them. So I
2	don't recall them.
3	Q. Didn't you notice the discrepancies between
4	the story the defendant was telling you and the physical
5	evidence at the scene?
6	A. I don't have it's been I haven't seen
7	him in years. I can't answer any questions about those
θ	reports. I wouldn't know anything about what was in
9	them.
10	Q. How about the defendant climbing in through
11	a window, didn't that seem bizarre in light of what he
12	said, she was accepting him?
13	A. Yes.
14	Q. I mean, how did you deal with that. Did you
15	just accept his word for it?
16	A, I don't recall 11 years ago. But it was
17	definitely not usual.
18	Q. Didn't make sense, did it?
19	A. Not a lot.
20	Q. You're not aware that the last time you
21	testified that he had threatened her the day before in
22	court saying, I'm going to kill you?
23	A. I wasn't aware of that either.
24	Q. And that a few minutes before she went over
25	there and he caught her there, she had been over at a

1 friend's house where she was distressed having just 2 learned he'd gotten out of custody. She was in a fetal position on his sofa shaking and crying about hearing 3 4 that, and was just going to run home and get some kids 5 clothes before he got there. 6 You weren't aware of that either? 7 Α. Correct. 8 Q. Well, this whole story that he tells you 9 about coming in and Debbie Panos welcoming him with open 10 arms, wanting to have consensual sex with him, based upon 11 those facts, doesn't make sense, does it? 12 Α. Yes. You're right. 13 ο. And he told you that he didn't like having 14 the sexual intercourse with her because he immediately 15 thought she'd been with other men? 16 Α. He said that. That's correct. 17 Q. And so at that point in time he said that 18 she offered to give him sex in his favorite position, or 19 offered to give him oral sex? 20 That's what he said. A. 21 And did that make sense to you at the ο. 22 time? 23 I don't recall, but given everything you've Α.

just said about what had been going on, it doesn't make sense now.

1	Q. How about the fact that the DNA evidence in
2	this case showed that there was semen in the vaginal vault
3	of the victim. That would directly contradict his story
4	that he did not ejaculate in the victim. Wouldn't it?
5	A. Yes. If it was his semen. Yes.
6	Q. It makes that whole story afterwards just
7	sound kind of bogus?
8	A. Yes, it does.
9	Q. He told you about a letter that was found in
10	the car that was the thing that set him off. He said he
11	went into a rage or something, right? And he says they
12	began fighting over the letter in the car and that he
13	dragged her out and took her in the house?
14	A. Yes.
15	Q. Did you read the reports. Did you look
16	at the photos in this case?
17	A. I don't believe I was given photos.
18	Q. But you notice in the impound report where
19	he discussed that letter that was found on the floor that
20	it was torn up. That that was found inside the trailer
21	home, not out in the car. Were you aware of that?
22	A. No.
23	Q. And the pieces of the letter that were found
24	that were torn off, were found not in the car where
25	supposedly this fight over the letter occurred, but in the

1	home?
2	A. Okay.
3	THE COURT: Which exhibits are those, for
4	the record.
5	MR. OWENS: Sorry, your Honor. For the
6	record 26 and 31.
7	THE COURT: Thank you.
8	BY MR. OWENS:
9	Q. So this whole story about a fight over a
10	letter being found in the car, based upon these facts, it
11	is not making any sense, is it?
12	A. It's making less sense to me.
13	Q. And if you join that with the fact that
14	there were a whole lot of letters he written, and you're
15	familiar with those. You saw the threatening letters he
16	written to her?
17	A. If I did, I have no recollection now. I
18	don't I don't recall.
19	Q. You may remember this one quote, he said,
20	"at some point
21	MR. PATRICK: Where are we at?
22	MR. OWENS: This is a quote on the
23	letter.
24	"One day soon I'll be at the front door
25	and what in God's name will you do then."

I Do you remember that letter he wrote to 2 her a few weeks before his release? 3 THE WITNESS: I don't. But that doesn't 4 mean I didn't read it. 5 BY MR. OWENS: 6 Well, those threatening letter were found in 7 a disheveled condition in the bedroom that he climbed through the window in. So if he found the letter, it 8 9 makes more sense that's where he found it, then out in the 10 car? 11 MR. PATRICK: Objection, that calls for a 12 conclusion. 13 I'll sustained the objection THE COURT: 14 as calling for speculation. 15 BY MR. OWENS: 1.6 ο. But you were accepting at the time of your evaluation, you were accepting the facts the defendant was 17 giving to you. 18 19 I -- it's not that I accepted them as true, 20 I accepted that that is what he was telling true, true. 21 me, but typically if I had other information I could then 22 weigh whether what he was telling me was true or not. 23 It's not as if I believed everything he said as he said it 24 because some of it was a little bizarre, like her giving 25 him oral sex and him coming through the window.

1	Q. Didn't you find his memory, other then
2	outright at odds with the physical evidence, which you not
3	know, a little convenient when it came to the actual
4	crime?
5	A. Well, if the facts are that he represented
6	what happened to me inaccurately, that, yeah. I mean, I
7	don't you all know what happened. I didn't. So if
8	that's if what he told me happened didn't happen the
9	way he said it happened, then that's pretty convenient
10	that he told me that way.
11	Q. Even during your testimony at the last trial
12	ten years ago, you didn't believe him. Now today you were
13	talking about how people can have blackouts, that can
14	happen. But you were suspicious of them back then. Have
15	you reviewed your testimony on that?
16	A. Yeah. Suspicious not like suspicious.
17	But I know that people don't forget terrible things they
18	do. It's still there.
19	Q. And you agreed that the defendant's loss of
20	memory referring to page 67 in your transcript
21	there that the defendant's loss of memory at the time
22	of murder could indicate selective memory. When we say
23	selective memory, what are we referring to?
24	A. Remembering what's easier to remember, what
25	you want to remember, and forgetting the things that

you want to remember, and forgetting the things that

1 aren't in your best interest to remember. So kind of letting the bad stuff go and keeping the good stuff 2 there. 3 And you know when you're charged with a 4 Q. 5 crime where you maybe have a lot of explaining to do, you get down to the actual core of what you did, it becomes a 6 7 lot easier if you have a memory loss there, doesn't it? It could be helpful, if you don't -- yeah. A. 8 Because them you don't have to explain 9 ٥. everything as to why you did everything and what your 10 thought processes were? 11 12 Α. True. 13 Q. You can just say, I don't remember, I blacked out? 14 True. 15 Α. 16 ο. It is a fairly common thing in the forensic environment? 17 Α. I think so. 18 A lot of people that are charged with a 19 20 crime blacked out at the critical moment and a few minutes later, all of a sudden, they got their memory back? 21 22 I'll take your word for that. I think that Α. 23 makes sense psychologically. You thought he had a memory, but he just 24 Q.,

Page: 3561

didn't not want to remember the things. It's convenient

25

for him not to remember? 1 2 Α. Yes. 3 Q. And despite his version of the facts not fitting anything else, he doesn't have a problem saying 4 5 that everyone else is a liar. Did he do that with you 6 during the interview? 7 I don't remember him saying that, unless I В put it in my report. 9 Well, during his testimony he referred to --Q. 10. he said Freeman was lying, the victim was lying on the dresser incident, they were all lying about the cup 11 12 incident, that they were lying about what he did 1.3 afterwards, there was no Lucky shoplifting, he was just 14 going over there to buy a newspaper. For having the kind 15 of distortion of facts, he doesn't have any hesitation for 16 finding other people that are lying around him all the 17 time. Did you notice that in your interview with him? 18 Α. I didn't. We didn't go into that area, I 19 quess. 20 Q. He told you that he was never violent as a 21 result of his cocaine habit, didn't he? 22 Α. I don't recall. Is that in my report 23 somewhere? 24 Ο. Page 7 of my report. It may take you a 25 minute to find it.

Yes, he denied ever behaving violently as a 1 2 result of smoking cocaine. 3 Q. Isn't it true that persons who are charged with serious crimes often try to justify what they did? 4 5 Α. Yes. 0. They've got every reason in the world, 6 7 especially somebody in the defendant's position facing capital punishment. They've got every reason to make up 8 9 things and distorted the truth, don't they? 10 Α. It would be self-protective. 11 Q. And I think that it was your testimony --12 I'm referring to page 49 at the last hearing, top of the page -- "if he was directly lying or telling you half. 13 1.4 truths, then you would say corroboration would be a 15 mischaracterization." 16 And your answer was, "I would say I would have to 17 rethink by opinion. And I might have the say that in 18 certain parts of the interview he was cooperative, and in 19 certain parts of the interview he was lying." 20 Is that your testimony at the time? 21 Α. Yes. And then -- we covered it just a moment 22 Q. 23 ago -- if he was lying to you with regard to portions of 24 interview, that might cause you the have to rethink your

Page: 3563

conclusions in this case?

25

1	A. Correct.	
2	Q. We talked about remorse on direct	
3	examination. You had questions about that. I think	you
4	had said that the defendant had told you, along with	all
5	of these other things, he was telling you that he fel	lt bac
6	for the way that he had screwed up Debra's life, the	ķids
7	lives, and his life, right?	
В	A. Yes.	
9	Q. Screwed up Debbie's life doesn't began	to
10	say what he did, does it, he took her life?	
11	A. Correct.	
12	Q. Big difference?	
13	A. Big difference.	
14	Q. And him telling you that he felt bad the	nat he
15	had screwed up her life, didn't that give you the ser	ıse
16	that he doesn't really understand the enormity of wha	at he
17	had done there?	
18	A. It might. I don't know now what that	
19	means.	
20	Q. Well, it doesn't sound like remorse, do	es
21	it?	
22	A. He was remorseful at that moment, as I	
23	recalled and wrote.	
24	Q. But you thought he was being truthful w	/ith
25	you also, didn't you?	

1	A. For some of it. But obviously I didn't
2	believe everything he said happened that happened at
3	the house.
Á	Q. Well, you believe it a lot less now, don't
5	you?
6	A. I am definitely believing less about what he
7	portrayed to have occurred at that house then when I had
8	seen him. Absolutely.
9	Q. When he is talking about remorse when he is
10	throwing himself in the picture, feeling bad for screwing
11	up his life. Because when you look at the pattern here,
12	it's in your report, it's through his testimony, his whole
13	attitude is to blame everybody else, characterizing
14	everyone else as liars and to try to control other people.
15	That doesn't sound anything like what people would
16	consider to be remorseful, does it?
17	A. If that is accurate, then I would then
18	it's very possible that his profession of, or his crying
19	in my office was selfish, in the sense that, yes, I took
20	her life, but look at my life too.
21	Q. That's not really remorse?
22	A. It is not it is not much remorse for
23	sure, if that is correct.
24	Q. What about him dancing this jig?
25	A. What jig?

1	Q.	Well, we heard some testimony read from a
2	couple of peop	ple that had testified last time. I think
3	Ms. Turner and	d Ms. Jackson, some people he knew. After
4	the crime he	went over to their apartment complex and they
5	saw him lister	ning to music, dancing and jigging and happy.
6	This isn't con	nduct as being remorseful, is it?
7	A.	You are right.
8	Q.	So we're back now to that issue that we
9	started with	dealing with free will. So let's talk about
10	that for a sec	cond before we conclude. You said you didn't
11	have a chance	to take a look at the autopsy photos. We
12	have over a do	ozen knife wounds in Debbie Panos. Did you
13	read about the	ose?
14	A.	Yes, I believe so.
15	۵.	There was a wound to her groin area, do you
16	remember that	?
17	A.	Yes.
18	Q.	There was a wound to her stomach area, her
19	abdomen?	
20	Α.	Yes.
21	٥,	All of the other wounds were centered right
2 2	up around her	neck and chest area. Did you notice
23	those?	
24	A.	I see them.
25	Q.	Were you aware that she had been beaten

1 severely before -- maybe 15 minutes or more before the 2 knife attack? 3 Α. No. ٥. At least the knife attack that we're seeing 4 5 in the picture here. You weren't aware of that? A. No. 6 7 Ο. What part of what the defendant did here 8 wasn't free will? 9 I guess, what I said before, if he was -- if Α. 10 he hadn't led the life he had led, and had better 11 intellectual and thinking skills, and wasn't as 12 personality disordered and drug dependant as he had been, 13 this never would have taken place. And that -- all of 14 those factors decreased his ability to refrain from doing 15 anything like that. That's a psychologist talking about 16 why something like this occurs. 17 He had to go to her house, right? Q. 18 Yes. A. 19 Q. That was a decision. He could have gone 20 where he was supposed to go, since the system was trying to give him a chance at drug rehab? 21 22 Α. Why. 23 Q. He made a decision there, didn't he? 24 Yes. Α. 25 He had one choice? Q.

I think you understand what I'm saying. ٦ Α. 2 Q, I'm not sure I do, doctor? I think you do. If you want to say every 3 Α. movement of the human body involves a conscious decision, 4 5 that's not true. We do a lot of things automatically. All I'm saying is, yes, he did this. Had he -- and he had 6 7 to have taken the knife and stabbed all of those different times, clearly that had to happen. 8 9 Q, We're not even there. I mean he had to -he sent her threats, right, he sent her threats? 10 11 Α. I don't -- I don't recall. I haven't seen this in ten years. I don't know. 12 13 He told her he was going to kill her the day 14 before? 15 Α. Which is what you said. 16 He had to get on his bicycle and ride over Ο. 17 there? 18 I know. Α. 19 ο. He had to go get in the window. He had to find a knife. 20 21 Α. He was intent --22 He had to find a fist or an object and hit Q. 23 her with it. You're saying each one -- he had reasoning 24 to do this. It wasn't that he thought his grandmother 25 switched him when he acted up. He told you about reasons.

You saw reasons in there, didn't you? 1 2 Α. Yes. He thought that she was cheating on him, and he was really upset, angry, and freaking out that 3 he would leave him when he needed her. 4 5 Q. Anger? Α. б Anger. 7 Ο. Jealousy? Jealousy. 8 A. 9 0. These are not uncommon emotions? 10 Α. Not at all. 11 They are emotions that millions or billions Q. 12 of us deal with every day of the week, aren't they? 13 Α. Yes. 14 And we make choices? Q. 15 Α. Yes. 16 Q. And as you said in the beginning some people choose evil? 17 Yes. 18 Α. 19 ο. And the defendant chose evil here on this 20 occasion with Debbie, didn't he? 21 That's -- yeah. I mean, he did something 22 that is unjustifiable. All -- as a psychologist, all I'm 23 trying to explain is how could someone gets to a point of 24 doing something like that when everybody else and this

Page: 3569

jury says I wouldn't do this to an animal. I mean, there

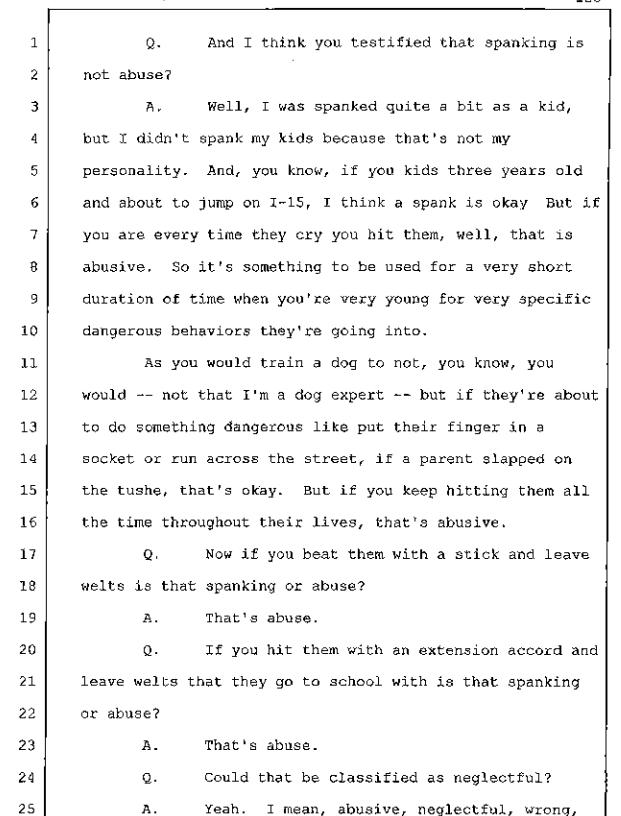

25

1	is just no way how do you explain this. And that's
2	what I have attempted to do.
3	Q. It is evil?
4	A. It is.
5	Q. And he chose it?
6	A. He chose it with the proviso that he has
7	limitations that made those choices occur.
8	Q. You know when you look at that picture,
9	doctor, does it look like he had a lot of limitations
10	there in his choice of conduct? Does that look limited
11	to you at all?
12	A. I think you understand what I'm saying.
13	That's terrible.
14	MR. OWENS: Thank you. That's all I have,
15	your Honor.
16	THE COURT: Thank you.
17	MR. PATRICK: Court's indulgence.
18	THE COURT: All right.
19	REDIRECT EXAMINATION
20	8Y MR. PATRICK;
21	Q. Dr. Etcoff, are you board certified in the
22	State of Nevada?
23	A. No there no such thing.
24	Q. But you are certified to be a psychologist
25	in the State of Nevada?

1	Α.	It's called licensed.
2	Q.	Sorry. That T s something that the state
3	does?	
4	Α.	Yes.
5	٥.	And that's very difficult to obtain, isn't
6	it?	
7	A.	Well, yeah.
8	Q.	You're a professional, correct?
9	A.	Yes.
10	Q.	You get paid to do what you do?
11	A.	I do.
12	Q.	I get paid to do what I do. Mr. Owens, we
13	are all profe	ssionals, we all get paid to do our jobs?
14	Α,	Yes.
15	Q.	Now, when you evaluated James, were you
16	approaching t	his as a forensic evaluation?
17	A.	Yes,
18	Q.	And did you consider James a patient or a
19	examinee?	
20	А.	Examinee.
21	Q.	So you would have given Mr. Brooks good news
22	or bad news?	
23	A.	I did, I think.
24	Q.	So you weren't you did not askew your
25	report simply	to make James look any better or worse than

1	he was?
2	A, No.
3	Q. Now, James was given IQ testing,
4	neuropsychology testing, and a few other tests
5	personality tests?
6	A. Not neuropsychology, just IQ achievement and
7	personality.
8	Q. Thank you. And I think we talked about
9	before that at least one of those tests had a validity
10	indicator?
11	A. Yes.
12	Q. And that according to that James was telling
13	the truth on that test?
14	A. Yeah, depicting himself in a valid
15	fashion.
16	Q. Now, those tests, those tests just the
17	tests, do you still feel that the tests are valid?
18	A. Yeah, they're definitely valid.
19	Q. And that the results are results you can
20	believe?
21	A. Yes.
22	Q. Now, are in the school records that
23	you've got, I believe we talked, he was seen by a social
24	worker and a psychiatrist?
25	A. A school psychologist.

1	Q. School psychologist. There was some family
2	history in those school records?
3	A. Yes.
4	Q. Now, the school records would be would
5	you classify them as an independent source of
6	information?
7	A. Yes.
8	Q. And a lot of did a lot of what James tell
9	you match what you found in those school records?
10	A. Yes.
11	Q. Now there was some questions about whether
12	or not James' grandmother was neglectful. Mr. Owens
13	pointed out that she gave them food and clothing,
14	therefore she must not be neglectful?
15	A. Yeah.
16	Q. Is it possible that a parent can be
17	neglectful but still provide clothing, shelter, and
18	food?
19	A. Happens all the time.
20	Q. Are you a parent doctor?
21	A. Yes.
22	Q. And have you ever discipline your kids?
23	A. My wife is here. Well, she'd say not as
24	much as I should have. I'm pretty easy going and lenient,
25	maybe too much. So she was the heavy.

1 just not a good way of behaving. If you left four small children at home 2 Q. 3 alone at night so you could go play bingo, could you go with that being neglectful? 4 5 Α. Yes. 6 Ο. If you were gone so much that the 7 neighborhood kids came over to your house and smoked drugs 8 all hours of the day and night, would that be 9 neglectful? 10 Α. Yes. 11 Q. After the test and talking to James, does it 12 surprise you that he's been in trouble with the law most 1.3 of his life? 14 A. No. 15 And Mr. Owens showed you a stack of arrests 16 for whatever, does take fit in with what you know about 17 James? 18 A. Yeah. I mean, people who grow up in the 19 circumstances he grew up in often are in exactly these 20 types of predicaments and have these types of records. 21 This is very common, very common, unfortunately. 22 You were aware that James had been in 23 trouble with the police a great deal when you talked to 24 him ten years ago?

Page: 3575

I didn't know the extent to which, I didn't

25

Α.

1	know the charges, I didn't know if he had gone to trial, I
2	knew he had been arrested several times.
3	Q. And you knew he had a long history of
4	domestic violence with Debbie?
5	A. I don't know if I knew. I don't believe I
6	knew he had a long history of domestic violence and what
7	it entailed. I don't believe I knew that stuff.
8	Q. Okay. Now, Mr. Owens tried to get us to
9	believe that they'd been splitting up for years, and that
10	they had problems for years and years. Couples have
11	problems, don't they?
12	A. Yeah.
13	Q. And if you have an argument with your wife,
14	does that mean you are going to split up the next day?
15	MR. OWENS: Your Honor, I object to the
16	leading nature of question.
17	THE COURT: Sustained.
18	BY MR. PATRICK:
19	Q. Do you argue with your wife?
20	A, Sometimes, yes.
21	MR. OWENS: Objection, relevancy.
22	THE COURT: What's the relevancy?
23	MR. PATRICK: Your Honor, it goes to the
24	fact that just because they had arguments or James slapped
25	her doesn't mean that they're in the process of breaking

1	up.
2	Mr. Owens said they were breaking up for
3	at least five years.
4	MR. OWENS: That mischaracterizes the
5	THE COURT: I'll sustained the objection.
6	I don't think Dr. Etcoff's relationship is relevant to the
7	issues here.
8	BY MR. PATRICK:
9	Q. Now, Mr. Owens read you off a list of names
10	of friends of Debbie's?
11	A. Yes.
12	Q. And they've all been in here as witnesses
13	for the prosecution?
14	A. Okay.
15	Q. In your experience do people who come in and
16	testify for the prosecution, do they want to be helpful to
17	you to help the defendant?
18	MR. OWENS: Objection, leading.
19	THE COURT: Sustained.
20	BY MR. PATRICK:
21	Q. Have you ever had a witness for the
22	prosecution come in and tell you that they want to help
23	the defendant?
24	MR. OWENS: Objection, foundation,
25	relevance.
J	

1 MR. PATRICK: Well, the relevancy, your 2 Honor, is Mr. Owens brought up all these people that Dr. 3 Etcoff didn't interview. And the relevancy is he didn't 4 get the interview them because they're not going to come 5 in and allow him to interview them because that would be б helping James. 7 THE COURT: Hold on a second. There is not any evidence as to why he didn't talk to anybody. So 8 9 let's confine it to folks in this case and the facts of 10 this case, please. 11 MR. PATRICK: Okay. 12 BY MR. PATRICK: 13 Now there was some talk about the fact that Ο. James entered the trailer that day through the window? 14 15 Α. Yes. 16 Ο. You said that that sounded funny? 17 Α. Yes. 18 Q. Would it change your opinion to know that 19 several people have testified and said that's the way 20 James always entered that trailer? 21 Α. That's different. But if that's true, that 22 is unusual. 23 Q. Did James ever deny to you that he killed 24 Debbie? 25 Α. No.

1	Q. Did he ever tell you he had a memory loss
2	that it was him that killed Debbie?
3	A. No.
4	Q. The only memory loss he had was of what?
5	A. Details.
6	Q. Do you find that unusual?
7	A. It's not unusual. As I testified
8	previously, to want to forget doing what you saw in those
9	pictures. But, again, when you do something bad like that
10	you tend to have some recollection of it. It may not be
11	everything you did, but you know you did it, you know you
12	were there, you know some of what you did, and you know
13	what it looked like.
14	Q. Going back to the question that Mr. Owens
15	asked you about the fact that James denied being violent
16	when he smoked cocaine. That was on page 7 of your report
17	under the heading of substance abuse history, second
18	paragraph.
19	A. Yep.
20	Q. About like two lines above where or the
21	line above where he said he denied ever being violent.
22	But he did say that you can get really tickled off?
23	A. Yes.
24	Q. And in your opinion would that be angry?
25	A, Yes.

1	Q. And that that could lead to violence?
2	MR. OWENS: Objection to leading, your
3	Honor.
4	THE COURT: Sustained.
5	BY MR. PATRICK:
6	Q. In your opinion could that lead to
7	violence?
8	MR. OWENS: Objection.
9	THE COURT: In your opinion, what could
10	that lead to, doctor?
11	THE WITNESS: Well, if you keep smoking
12	cocaine it's a very good chance you'll get irritated,
13	angry and lead to violence no matter who you are.
14	BY MR. PATRICK:
15	Q. Now, I think Mr. Owens was also talking
16	about people who people deal with jealousy and anger on
17	a daily basis?
18	A. Yes.
19	Q. And would you say that we all deal with that
20	on a daily basis?
21	MR. OWENS: Objection, leading.
22	THE COURT: Sustained.
23	BY MR, PATRICK:
24	Q. What are some of the emotions that people
25	have to deal with on a daily basis?

1	A. Frustration, sadness, happiness, anxiety, if
2	you loose someone, grief. But on a daily basis where
3	nothing horrible happens, irritability, frustration,
4	sadness, sometimes anxiety would be major, besides the
5	good ones.
6	Q. Okay. And if something horrible happened
7	what would be some of the emotions people have to deal
8	with on a daily basis?
9	A. It could be big anger, depression, grief,
10	being just really cognitively out of it.
11	Q. If a person had a long history of drug
12	abuse, if they had a bad childhood, if they had a low IQ,
13	would that affect how they deal with these things?
14	A. Yes.
15	Q. And in your testing and evaluation of James,
16	does he suffer from those?
17	A. As I stated before, he is intellectually not
18	well adapted to make good decisions, to think rationally.
19	His life events and life history have been just filled
20	with disappointment and frustration, anger, upset,
21	dependency. He has just had a lot of bad things happen in
22	his life, and obviously some he's made happened.
23	Q. Would that affect how he deals with those
24	emotions you were just talking about?

Page: 3581

A. Yes.

25

1 MR. PATRICK: That's all I have, your 2 Honor. 3 THE COURT: Mr. Owens. 4 RECROSS-EXAMINATION 5 BY MR. OWENS: 6 Q. The lifestyle we heard in here on the 7 defendant was he was able to not have to go to work, was 8 taken care of, had a place to go to, and did whatever he 9 wants whenever he wanted to, took money from people all 10 the time. Is that the kind of not-going-his-way lifestyle 11 you're talking about? 12 A. He may be smarter than I thought. 13 Q. Yeah. If anybody was dishing out misery to 14 other people, it was the defendant, wasn't it? 15 Well, it sounds like he was dishing out 16 misery to people and it sounds like he was miserable 1.7 himself. Both are true. 18 Well, he was living whatever lifestyle he wanted to live, wasn't he? 19 20 I don't know if he was. I don't know if --21 you know, if that's what he wanted to do, then you're 22 right. But if he wanted to do other things but was 23 frustrated he couldn't, then he was miserable and that's 24 the lifestyle that was left to him. I don't know. 25 Did he tell you he wanted to do something Ο.

1	different?
2	A. We didn't have a discussion about future
3	occupational possibilities, given the fact that he had
4	none.
5	Q. So apparently having free room and board and
6	being able to get things from other people and steal and
7	lie and do dope, that was the life he wanted to lead and
8	he was living life, wasn't he?
9	A. I don't know.
10	Q. It was Debbie that was paying the price for
11	his enjoyment.
12	MR. SCHIECK: Objection, your Honor. I
13	ask that it be stricken.
14	THE COURT: I'll sustain the objection
15	stricken.
16	MR. OWENS: Nothing further,
17	THE COURT: Anything further, Mr.
18	Patrick.
19	MR. PATRICK: Just one, your Honor.
20	BY MR. PATRICK:
21	Q. We talked about all of the things you
22	discovered about James, would any of those affect the
23	things that Mr. Owens was just talking about, how he chose
24	to live his life?

Page: 3583

It's really common for people, even children

who are doing lousy in school, who don't have parents at home, where there's a lot going on and there's some neglect or their siblings are in trouble, for them to have limited aspirations for the future or believe that they can't ever graduate high school or never have a good job or there's nothing left for them but to be a failure. I see it all the time in kids that have much better lives then he ever had.

So it is very common when you are having bad things happen early on in life that your outcomes or what your aspirations or what you think you can do shrinks and

So it is very common when you are having bad things happen early on in life that your outcomes or what your aspirations or what you think you can do shrinks and continues to shrink until you see drop-out rates in high school over 25 percent. Which is amazing that only 75 out of hundred graduate high school in this town. That's just the tip of the iceberg.

MR. PATRICK: Thank you, doctor. That's all I have.

THE COURT: Anything else.

MR, OWENS: No.

Hold on a second.

(Discussion held at the bench.)

THE COURT: Let me ask you a few

questions.

If Mr. Chappell did not understand a question on the validity test, could be have asked for

1 help or more explanation? 2 THE WITNESS: Yes. 3 THE COURT: Can you have these delusions from crack if you are not high on crack if you have been 4 5 addicted for years? 6 THE WITNESS: I am not a physician, so I 7 am not -- I think there are withdrawal if it hasn't 8 been -- you know what, I don't know. That's the safest 9 thing to say. 10 THE COURT: Okay. Mr. Patrick, any 11 questions based upon mine. 12 MR. PATRICK: No, your Honor. 13 THE COURT: Mr. Owens. 14 BY MR. OWENS: 15 On the last one the word delusion in there. Q. 16 That is a clinical term? 17 Yes. A delusion is a fixed irrational A. 18 belief that you believe is absolutely true, like you've 19 seen -- the CIA is after me. Well, you believe the CIA is 20 after you, but in reality it isn't. But you are darn well 21 convinced it is and you are living your life based upon 22 that. That is a delusion. 23 Q. You did not render any opinions about 24 delusions? 25 Α. I didn't perceive -- I didn't diagnose him

with a paranoid delusional condition. 1 So there wasn't any testimony about him 2 ο. 3 having delusional ideations? There was personality test results A. 4 5 suggesting that in times of stress he could become 6 delusional, but that it didn't stay as a permanent state. 7 But that he would get delusional if there was enough going on that was troubling him. 8 But you didn't see evidence of that in your 9 Q. 10 examination with regard to this case? 11 Α. I did. I mentioned -- I mean that is a hard 12 thing to talk about. When he said he had sex with her, 13 and he could tell that other people had been with her, 14 that's bizarre, delusional, crazy, disgusting, 15 delusional. 16 So you see that as delusional? Q. 17 Α. Yes. 18 0. Could it be simple fabrication? 19 I would bet anything that it is not Α, 20 fabrication, that is just delusional. 21 That whole thing that he said because that 22 goes back doctor to his claim that he did not ejaculate 23 into the victim, because she was -- he thought she had

A. Its delusional, sorry.

been with other men?

24

25

1	Q. Okay. So hes not making that up. Re
2	ejaculated and was delusional about that?
3	A. The way he described how he knew she was
4	having sex with someone else was crazy, delusional
5	thinking and not a lie. He might have lied about other
6	things, but that was crazy.
7	Q. But he had a reason to lie about that at the
8	time?
9	A. If you say so.
10	Q. I'm asking you?
11	A. He was delusional.
12	MR. OWENS: I don't have anything
13	further.
14	THE COURT: Mr. Patrick.
15	MR. PATRICK: No, judge.
16	THE COURT: All right, Dr. Etcoff I
17	appreciate your time. You may step down. You are
18	excused.
19	THE COURT: We'll be in recess for the
20	afternoon.
21	JURY ADMONITION
22	During the recess, ladies and gentlemen,
23	you are admonished not to converse among yourselves or

7	You are further admonished not to form or

10	We'll be in recess. Try to get back and
11	we'll get started at 2:00 o'clock.
12	Thank you all.
13	Anything outside the presence.
14	MR. OWENS: No.
15	MR. PATRICK: No, judge.
16	THE COURT: We'll be in recess.
