1	Q.	Good morning,
2	A.	Good morning.
3	Q.	How are you employed?
4	A.	I work for the special public defender's
5	offiœ.	
6	Q.	What are your duties there?
7	A.	I'm a mitigation investigator. I assist the
8	attorney for	finding mitigation in murder and capital
9	mirder cases	
10	Q.	Have you worked on James tase?
13	A.	Yes.
12	Q.	And did you have an opportunity to travel to
13	Lansing earl	ier this year?
14	A.	Yes.
15	Q.	While you were there did you perform any
16	interviews w	ith witnesses?
17	À.	Yes.
18	Q.	Would two of those witnesses be Ivory
19	Morrell and	James Ford?
20	À.	Correct.
21	Q.	I'm going to show you what's been marked as
22		hibit Q. Do you recognize these two
23	gentlemen?	
24	A.	Yes.
25	Q.	Could you tell us who they are?
		5
ı	λ.	This is James Ford. And this is Ivory
2	Morrell.	•
3	Q.	Now, were Mr. Ford Mr. Morrell, did they
4	travel to La	s Vegas to testify in this matter?
5	A.	Yes.
6	Q.	And do you know when they got to Las
7	Vegas?	
8	A.	Last Tuesday.
9	Q.	When did they leave?
10	A.	Saturday.
11	Q.	Are you aware of the circumstances under
12	which it was	that they had to leave us?
13	A.	Yes. They we made every attempt to have)
14	them stay th	rough the trial to testify, but Ivory had
15	commitments :	in Lansing and had to get back to work on
16	Monday. Jam	es, we called his employer to see if he could (
17		today, possibly, and we basically got a call
18		s job Friday evening and they said that if he \int
19	want at work	Monday morning he would be fired.
20	Q.	Now, did they travel to Las Vegas willingly
21	to testify?	
22	A.	Absolutely.
23	Q.	How did they feel when they had to go home
24	perore they h	ad that opportunity?

They were very upset and very disappointed

25

that they come here to testify to the jury. As we previously talked about, you had the 3 opportunity to talk to both of these gentlemen while in 1 Lansing? A. Correct. If you could, could you give a summary of Q. 7 what they told you and what they would have testified to 8 had they had the opportunity? Sure. Well, it was actually through James, this gentleman that I was able to coordinate all the meetings with all of rest of the family and the friends 12 that we met with. And he was very willing to talk to us. 13 He coordinated -- it was actually a Tuesday night that we id got into Lansing. He coordinated the rest of the group to 15 meet there. We had several hours of delay in Chicago, and they 16 1? still stayed in the home where they were meeting us. And 18 while we were there we talked about their up-bringing and 19 as you have already heard, this was a very close-knit 20 community. They're just friends. They're not blood 21 related. At least Ivory and James to James. And they were willing to help. They were willing to talk to us. And they grew up in the same general area. They 24 knew -- their mothers know each other and are close 25 friends. The parents still live in the same neighborhood I as they lived growing up. We talked about how they would hang out at James' i grandmother's house and how James was such a wonderful 4 cook, and how they would know grandma's time of leaving 5 work or coming home from bingo games, and they would € just — they know the times so when grandma was around the 7 corner they all leave. It was just — that's what we initially started to talk about was their childhood. Did either one of them tell you any stories 9 10 about James as they were growing up? Yeah, I mean, the way that they hung out. 12 How they met while they were very little and since 13 elementary school and junior high school. How they grew 14 up in the same neighborhood. Specifically, I remember Ivory said that when they 15 16 would go to school dances when they were in junior high 17 school Ivory, maybe kids were picking fights with them and 18 it was always James who would try and calm the situation 19 down or remove his friends from the fights. Did either one of them know Debbie? 20 Q. Both of them did. 21 Α. Were either of them around Debbie and James

   Certainly, he was no threat to this individual.
                                                                     20

                   Number 5, life imprisonment with the
   possibility of parole is a sentence of life imprisonment
 5 which provides that a defendant would be eligible for
   parole after a period of 40 years. This does not mean he
   will be paroled after 40 years, but only that he may be
   eligible after that period of time.
                   Life imprisonment without the possibility

Evidence of omission is not necessary. Sexual intercourse is the placing of the penis of the percetrator into the vagina of the victim. 10 fellatio is the placing of the pents of the perpetrator 11 into the mouth of the victim. 12 Number 9, physical force is not a 13 necessary ingredient in the commission of the crime of 14 sexual assault. The question is not whether the victim 15 was penetrated by physical force, but whether the act was 16 committed without her consent and/or under conditions in 17 which the defendant knew or should have known the victim 18 was incapable of giving her consent or understanding the 19 nature of the act. 20 Number 10, the victim of a sexual assault 21 is not required to do more than her age, strength, 22 surrounding facts and attending circumstances making it 23 reasonable for her to manifest her opposition. Number 11, there is no consent where the

1 death or serious bodily injury.

41

2 Number 12, mitigating circumstances are 3 those factors which, while they do not constitute a legal 4 justification or excuse for the commission of the offense 5 in question, may be considered in the estimation of the 6 jury in fairness and mercy as extenuating or reducing the 7 degree of a defendant's moral culpability. Any aspect of 8 the defendant's character or record, or any of the 9 circumstances of the offence, including any desire you may 10 have to extend mercy to the defendant may be considered by 11 you as a mitigating factor. 12 In balancing aggravating and mitigating

13 circumstance, it is not the mere number of aggravating circumstance or mitigating circumstance that control. 15 Number 13, in determining whether mitigating circumstances exist, jurors have an obligation to make an independent and objective analysis of all the 17 relevant evidence. Arguments of counsel or a party do not

19 relieve jurors of this responsibility. Jurors must consider the totality of circumstances of the crime and

the defendant as established by the evidence presented in

22 the guilty penalty phases of the trial.

Neither the prosecution nor the 24 defendant's insistence on the existence or nonexistence of 25 mitigating circumstances is binding upon the jurors.

We were told how she loved older people. 7 children. We saw the pictures how she liked to dress up 8 like a clown. We heard about how she liked to collect 9 clowns. We heard about how she liked hanging out with people from work. How she liked to take her children and they would go on picnics, go the Disneyland and all the 12 other activities she had to work so hard as a single mother to be able to provide for them. And still deal 14 with the things that the defendant put her through over this entire time. It's just stunning, what she went 16 through.

And it's so important to think about this 17 18 whole picture of what Dehbie went through as you are 19 approaching the task that you now have. 2C You heard from a number of her friends and

21 people from Tucson, from Las Vegas. We heard about how 22 down in Arizona she would come to work with the bruising 23 on her face, or maybe not on her face, about on her arms 24 and her neck area, and she put extra make up on it to try 25 and disguise it. 3 We heard about the thing with the dresser 5 and some of these other things that occurred that she had 6 the deal with. Dina talked about how she would get these phone calls late at night from Debbie. She heard the 8 defendant's voice, Chappell's voice in the background, 9 don't ever "F" around my kids because I will kill your 10 ass, he's yelling. I'll do an O.J. Simpson on you. We heard from Lisa Duran, Mike Pollard, 11 12 Michelle Mancha, friends that worked at G.E. Capital with 13 Debbie. Who is she laying underneath, the defendant 14 demands on the phone. She is not going have to any 15 friends. She's not going to have any life, and that 16 includes you. If I can't have her, no one will.

17 Mike Pollard talked about when he saw the 18 defendant take his hand and slap it across Debbie's face.

19 She got out of the car, trying not to cry, went into work.

1 come around work, and they have to post security there.

Michelle Mancha talked about the choke

3 marks that she saw on the neck area and how Debbie talked

to her about the knife that he held to her throat. Claire

talked about that incident, June 1st. The defendant held

a knife to Debbie's throat and demanded things from her

and if Claire hadn't gone up to the door it would have

progressed and gotten worse from there.

There was an interruption on June 1st,

10 1995. There was no interruption of his activities of

11 violence against Debbie August 31, 1995. There was no

12 Claire McQuire to knock on the door and interrupt him from

13 completing the desire of his heart. The desire of his

14 heart was a manifestation of his jealousy, his rage, his

15 selfishness, his greed, and his need to control Debbie.

16 Because his choices were all about himself and notody

17 else.

We've listened to days now, from people 18

19 that knew him, both sides of this, and some people in the 20 middle of it, some people that just went out there. The

21 police, observed it. Weren't friends of Debbie. Weren't

22 friend of his. Other individuals that saw this thing, and

23 the way that he was acting and the way he was treating

24 Debbie. And there was nothing, nothing redeeming about

25 this man that came out.

We had days to present that. He's a

2 despicable_human being. We're talking about a guy that

3 sells his baby's diapers. It's just appalling. You've

4 got little children, they get same shoes from the shoe

5 store. And this guy is out there taking all the

6 children's shoes back. Their mother goes to Disneyland

7 and gets shirts for the kids. Takes them home. The

8 defendant takes the shirts out and sells them so he can

9 get money for himself, take care of his needs, because he

10 thinks he's more important and his needs should come

11 first.

1

It is not enough that he just abuses these

13 people. He now wants to hide behind them, and he wants to

14 portray himself as a good father. He wants to still use

15 them. He wants to still abuse them, even in this

16 proceeding, ten, eleven years later It's just

17 appalling.

18 Blame, we heard a lot about blame in this

19 case. Some of it was very up front, some of it was very

subtly hidden in a lot of questioning you heard. But

21 there was an attempt to place the blame in this case for

22 what happened everywhere but where it should be placed,

23 everywhere but where it should be placed.

24 What did we hear about. We heard that the

25 defendant — and we got this from his testimony in the

56

```
: prior hearing. He said it to Dr. Etcoff, Dr. Etcoff's
 2 report, things he told other people, his actions other
 3 people witnessed, his actions that police witnessed, his
 4 letters that he wrote. I mean, we heard a whole bunch of
 5 different things, even people that we heard from yesterday
 6 that knew him.
                   What do we hear, yeah, I had a lot of jobs
 8 but it's not my fault, they wouldn't give me a raise. Or,
   yeah, we had to leave Tucson because the job was getting
10 too much into our private lives. Debbie was coming into
11 the police department where she worked with bruises all
12 over her and the police were seeing her as a victim where
13 they would be pulled aside, talk to the officer at the
14 time of the dresser, and was pulled aside and the officer,
15 out of concern, asked her what it was about, and Debbie
16 broke down and started crying.
17
                   Told how she just bought this dresser for
18 her daughter and the defendant had taken it back to get
19 money for himself.
                   But what's the problem with Tucson, not
20
21 the defendant we're told. The defendant tells Dr. Etcoff
22 in his testimony, well the job was just intruding into our
23 private lives. In other words, what I want to do is my
24 business. If I want to abuse my children or abuse my wife,
25 that's my private business. All of these people need to
```

keep their nose out of it.
 Well, our noses are in it now, ladies and
 gentlemen. It was in it ten years ago when he was

arrested. It's too little too late for Debbie Panos.
 But you can make some corrections now. We

6 can't bring Debbie back, but we can see that justice is 7 done. We're going to talk about justice in a few

8 minutes.

9 You heard about that cup beating incident 10 on January 9th of '95. The medical records are in

11 evidence. Take a look at those. She had a laceration

12 across her forehead. Her nose was broken and busted open.

13 He said he just through a cup at her and was as surprised

13 the sector the linear contraction of contract section was as sortherised

14 as anyone else when it happened to hit her mose. That's

15 not what she told the doctor. That's not consistent with

16 the injuries she received.

25

Once again he wants to blame somebody
18 else. He says the beating was an accident -- the cup

19 beating. It's an accident. These things happen.

20 Ignoring the fact that they happen to him and Debbie on a

21 weekly basis, this one just was an accident. It was

22 police abuse, he says. They were unfair to him. They

23 embarrassed him. They treated him poorly. What an

24 appalling perspective he has on himself and on life,

They arrested me in front of my children,

1 how dare they do that. That K-Mart incident, the gross

2 misdemeanor -- by the way, we put that into evidence

It was one of the last exhibits. You can take a

I look at that. It's a pre-sentence report. There's two of

5 them in there. One was prepared for that gross

6 misdemeanor conviction he suffered in the spring of 1995.

7 The other one was prepared in conjunction with this

3 case.

You'll see in there there's areas where

1) the -- Parole and Probation goes and they do background.

II family information, things like that. Look at the one

12 involving that gross misdemeanor and you'll see in there

13 that he makes a promise to the court, just give me a

14 chance at probation. At first he says, I didn't do any of

15 this. I mean, they made it up. It's bogus, but since I

16 plod quilty, give me probation. Why? Because I promise

17 this will never happen again. I love my family, just give

18 me this one chance and I'll be good from now on. And the

19 court gave him a chance. Just like the system had always

20 given him a chance and given him a chance until they gave

21 him the chance to kill Debbie, ultimately.

22 What were they doing? What chance was he

23 getting, when he snuck off and went to Debbie's home,

24 instead of where he was supposed to be. It was drug

25 rehab. The system was trying to reach out to the

5

1 defendant in his needs. And the consequence was death of 2 this nice young mother. Blame.

3 Then we heard from one of his friends

4 yesterday that said that Debbie -- well, actually it was

5 the -- we heard from the friend yesterday that Debbie was

6 the one that was controlling, and Debbie was the one that

7 was abusing the defendant throughout this relationship. I

8 mean, my goodness, just incredible.

But it was Dr. Etcoff that said how the

.10 defendant told him he was upset at Debbie for leading him 11 to do this. Stabbing her fourteen times. Debbie's fault,

if to do unis. Stationing net fourteen times. Denote's faul

12 because she led him to do this. Blame.

13 Than we heard about the grandhother. Now

14 at the last hearing ten years ago the grandmother came in

15 and testified, and you hear her testimony today where she

16 came in and appealed on behalf of her grandson. She

17 talked about how she did her best to try to take care of

10 him and his siblings. She made a plea on his behalf.

19 What do we hear in this case. Despite the

20 fact that the defendant in those PSIs that you have,

21 characterizes his up bringing as good. He talks -- he

22 said he got whooped, but he says that he didn't want for

23 anything and he considered it to be good. Take a look at

23 anything and he considered it to be good. Take a look at 24 those.

Remember what Dr. Etcoff said about that.

60

He told Dr. Etcoff the same thing about his grandmother.
What did we hear in court, blame the grandmother. She was abusive. And we hear, my goodness, physical abuse. And she -- it's child negligent. And it's the grandmother's fault.

Then the last thing, and one of the more
ranzing things in this whole case going all the way
through it now, just this morning we had the issue of race
injected into these proceedings. I's almost like an
afterthought. We hear that not only is the mother of the
deceased person, Debbie, she was a bigot, she was a
raciest and that's part of the problem going in. But that
Debbie herself was a raciest. We heard that from one of
the individuals.

Just amazing all the blame that's going to cut every direction from the defendant, but back to where trailing to be in this case.

People aren't perfect. Systems aren't perfect. But it's time, ladies and gentlemen, for the blame to stop and for there to be accountability. Yes, the defendant had difficulties in his early life. But they're not uncommon things. A lot of people grow up humbly. A lot of people grow up without a mother or a father or some other parent. There's grandparents raising kids all over the place these days.

One commentator once said, pain is
inevitable, but suffering is optional. We came back to
the individuals we got in this case. In light of all
these circumstances, yes, pain is inevitable Everybody is
going to have pain. Everybody is going to have
difficulty. But how do we address that. Do we go around
blaming everybody else and doing whatever we selfishly
want to do, or do we rise above it. Because it's possible
to become a better person, as a consequence of pain, not
just get through it. Everybody knows that. We know
that.

Those that have suffered through the
travails of life and risen above them and conquered them

13 travails of life and risen above them and conquered them
14 know that you can become a better person. Debbie did
15 that.

Debbie was a great person, because she
dealt with her difficulty. The defendant, Mr. Chappell,
did not. He chose the easy course. He chose the selfish
course. He chose to not suffer. He chose to inflict
suffering on other people.

21 Dr. Victor Frankle (ph) has been around 22 for decades. He was a holocaust victim. A psychiatrist. 23 He lives in Vienna. He thought long and hard while he was

23 He lives in Vienna. He thought long and hard while he was 24 in the concentration camp -- he had lost his wife, lost

25 both parents to the fascists -- about the idea of life and

1 its meaning, and how you can have meaning when you're so

2 confined and so restricted and so oppressed in a situation

3 like he was in. He watched other people. He counseled

4 people while he was in the concentration camp about

5 suicide and things of that nature.

6 It's important I think to take a look at 7 some of the differences in opinions in this profession.

8 Because we had Dr. Etooff come in. He did a two-hour

9 interview. He gave a few tests, and this is months and

 $10\,$ months after the crime, that was based on a situation that

11 had been going on a dynamic for years, and he comes in and 12 basically has opinions where all he really did was

13 requirgitate some self-serving things the defendant told

14 him. What kind of analysis can you give the man.

15 It's not that psychiatrists don't have a 16 good role in helping people. They do great things. But

17 what we heard in this courtroom was only what the doctor

18 did not know. And it became so obvious to all of us who

19 have sat through this proceeding, you've heard the

20 evidence, the things that he didn't know, to come in and

21 give assessments based upon a two-hour interview, when you

22 see the enormity of what was going in this case, it just

23 doesn't cut it. It doesn't even come close.

We have Dr. Frankle talked about human suffering, and said even in the most absurd, painful, and

au. Guu

1 dehumanized situation, suffering is meaningful. A human

2 being is graced with the power of self-definition. His

3 path, his destiny, he decides himself. Even in

4 concentration camps, you can have people that choose to be

5 decent and people that chose to be not decent people, to

6 be evil people, basically.

61

We had Dr. Etcoff talking about he has

8 less free will than the rest of us. You know, is there

9 anybody that has less free will then somebody who was in

10 one of the fascists concentration camps, where there was

11 psychological torture, physical torture, death, losing

12 loved ones. And we hear from a survivor of this, a

13 psychiatrist; both alternatives are hidden in a person,

14 and which will be realized depends on decisions and not on

15 conditions. Decisions, not conditions.

16 We've heard a lot about blame. We've

17 heard at lot about conditions from the defendant. Ladies

18 and gentlemen, what we need to sentence the defendant on

19 is decisions that he made, and he made them. He made them

19 is decisions that he made, and he made them. He made them
20 one after another.

21 That shows his true intent. And that's

22 the fair basis for assessing the appropriate penalty in

23 this case.

24 Opposition is a principle that has always

25 been with us. And a lot of times, when you really think

```
1 about it, it's the decisions we make against opposition
2 that really define us. Easy choices don't define us, do
3 they. It's choices that people make in times of
4 difficulty. Those are the people we call heroes. Like
5 the grandwother here, maybe both grandwothers, who stepped
6 in a situation that was thrust upon them and stood up and
7 did a very heroic thing for these children.
8 The ripple affect of the defendant's
9 actions are just amazing. I mean, it's more than just
10 Debbie's death and the horrible way she died. It's a
11 horror, that she was gurgling in her own blood. There is
12 no way to sugarcoat that. I don't care if it was 15
13 second of 15 minutes, it was a horror. And like her
14 mother said on the stand or her aunt, probably the last
```

18 so much — the ripple affect.
19 It's the difficult decisions that define
20 our actions. We saw the time line. We talked about these
21 incidents. We hit the high points in our opening. You
22 heard a lot more details in between. We told Dr. Etcoff
23 about 15 arrests for breaking and entering and other
24 things that started when he was about thirteen years of
25 age, choices he made. You heard about the incident back

thing she was thinking of was her children. What would

she be thinking. Who is going to take care of them. I'm not going the be there to take care of them. I love them

1 in 1988, where he threw a brick at an individual and2 struck him with it over a confrontation.

We heard about incidents that occurred

down in Arizona and Tucson. The time line talks about

some of the major ones, the notes and threats to kill her,

that were heard in the background by Dina. Selling the

dresser. Threatening to do an O.J. Simpson on Debbie

before they ever came to Las Vegas. But there were a lot

of other things that occurred in Tucson between that

You've got the records here in Exhibit No. 129, that

details some of these thing.

Now, the police weren't there every other
week when she was getting beaten like we've heard about.

But the time they were there, they were able to document
some of these incidents of theft, taking care of himself,
stealing things, and abusing the people around him
physically and emotionally and mentally.

18 Back in '92, there's documents of domestic
19 violence, laceration to the forehead. You'll see that
20 Debbie didn't want to report these as something he did.
21 She tried to make up excuses for him and cover for him.
22 '93 another domestic violence, another

23 disorderly conduct. We've got kicking from the defendant 24 when she confronted him about the chest. His response was

25 to throw her down and start kicking her.

1 Theft of her dresser for the refund. The 2 phone call to co-worker. The defendant demanding the car 3 and money wanting the keys to the car or he was going to 4 do an O.J. Simpson on her.

5 Then we have that move to Las Vegas 6 because the police department in Tucson became involved 7 and that became bothersome to his way of life.

and that became bothersome to his way of life.

We talked about some of the bigger things
that happened here in Las Vegas that were documented by
the police. The broken nose that happened. The slap
across the face. The knife attack. The letters he sent
with the threats. The direct threat to her the day before
when she went to testify against him in court. There's a
lot of other things that went on there. And cnce again
they're documented in the book and in those two judgments
of conviction that go into it a little bit and the

17 history. And we see a lot of other thing that were going 18 on in between, vehicle stops, traffic warrants, petty

19 larceny -- even after that incident on June 1st, he's on

20 probation for a gross misdemeanor at that point in time.
21 He gives that beating on -- go to the next screen -- June

22 lst, and than on June 11th, he's back out and he's doing a

23 petty larceny and stealing a bunch of T-shirts.
 24 Then he goes in for that and gets

25 arrested. He's back out on June 26th, committing a petty

1 larceny where hes stealing clothing at K-Mart. It's at

 $\ensuremath{\mathbf{2}}$ that point in time when he goes back in they finally book

3 him for a probation violation. And he's got a hold on him

4 from city court, and that's when he starts writing the

 ${\tt 5}\,$ letters to Debbie threatening her and demanding why she

6 isn't coming to see him, and who she has been seeing, and7 all the other threatening things he said.

8 She's not going to have any friends in her

9 life. If I can't have her, no one will. And it's in the confusion of the booking when the judge decides to give

11 him a chance at drug counseling without putting a detainer

12 on him, he goes to city on their warrants -- traffic
13 warrants -- they're reading to release him, because he's

 $\ensuremath{\mbox{\scriptsize 14}}$ done his time on those, and instead of sending back to

15 county they're dumping him on P&P. He's trying to find

16 out what's going on with him and they get their wires

17 crossed, and he sees this opportunity to get out and to

18 have his vengeance against Debbie, and that's exactly what 19 he does.

20 Those are the facts. That's the time

21 line. It's not one thing. It's not two things. Ladies

22 and gentlemen, we're not talking about a couple here that

23 had a disagreement and been fighting and drinking all

24 afternoon and one of them gets so upset at the other and a 25 kmife is involved and one of them gets stabled. "That's

25 knife is involved and one of them gets stabbed. "That's

```
I the classic domestic violence we hear about.
                   Domestic violence can to be repetitive
 2
 3 too. It can happen over a period of time. What we have
 4 here when you look at these fact, is terror. It's terror.
 5 And it's calculated. It's designed over years period of
 6 time to give somebody selfish satisfaction. It's many,
   many opportunities to reform, that are rejected.
                   The Defendant was a problem always, yet,
 9 he's the one that call everyone else a liar. We talked
10 about this with Dr. Etcoff a little bit. He blamed
II everyone else. He called everyone else a liar. He said he
   didn't kick her at the dresser incident. He said he never
   did that. He said Ms. Freeman is lying about the O.J.
   comment. The victim is lying about getting kicked. The
15 victim is lying about the cup beating. That was just an
16 accident. He didn't do a dance, he didn't do a jig after
17 the murder. They're lying about that. He didn't go to
18 Lucky's to commit a shoplift. He just went over there to
19 buy a newspapers. He never told Lisa, if I couldn't have
20 her nobody else could. All these other people are
21 lying.
                   He's the one that's being truthful. All
22
23 these other people are to blame. He's the one that
24 doesn't have any blame. It's an accident. And yet, look
25 at his convenient memory. He comes up with excuses. He
```

1 comes up with some sort of stories that don't make any sense in light of the evidence -- and we'll talk about that in a minute.

And he's the one when it actually comes 5 down to the point of the murder, all of a sudden has a 6 memory lapse so that he don't -- the last time he 7 testified doesn't have to explain what he's thinking of and the impossible explanation of how he picked up that 9 knife and plunged it into her body in the way that he did. How convenient. But he's not a liar, it's everybody II else.

Let's talk about the facts. You heard a 12 13 lot about the home. Le's put some of these together. You 14 heard about the location of things in the room. How he 15 crawled through that front window in the master bedroom 16 that had the bath attached to it. How Debbie's body was 17 found right inside the door to the living room. We had 16 all of these letters right down around the back wall of 19 that master bedroom, letters he had written.

21 top of Debbie's head. That's the knife used to kill her. 22 Then his — or blood in the bathroom here, demonstrating 23 the clean up that occurred after. He says he panicked and 24 ran straight outside afterwards because he couldn't deal 25 with it. But the evidence says conclusively that he went

20

We had the knife positioned right by the

1 into the bathroom and did a clean up after that occurred. And than avails himself of her purse and 3 his own children's social security cards, which he tried 4 to dump at the Lucky store. He was trying to get rid of 5 those things. So we had the scene in the living room and 6 in the master bedroom.

We have these letters, threatening letters 8 he had write to her. And he says that he, when he went in 9 that room, didn't create that problem. He just grabbed 10 them later and threw them at her. That he wasn't going 11 through the letters. But we have Sheri Smith, Latrona 12 Smith -- is the name she goes by now -- heard her, the 13 victim on the phone, Debbie, asking her for help, begging 14 for help, asking to come up with a plain so she could 15 leave the residence and go get her kids and get away from 16 the defendant.

17 The defendant has this whole story about 10 how he finds this other letter in the car. There is 19 another letter, ladies and gentlemen, but he did not find 20 it in the car. Does it make sense that all the letters 21 are in one place in the bedroom here and they're disturbed 22 and thrown all over the floor, but the one letter that 23 they end up fighting over is in another location. We know he's going through the room,

25 because he's heard by Sheri when she's on the phone with

1 the victim demanding money. Well, at least she hears the 2 victim saying, I don't have any money. But the day care 3 worker can hear his voice in the back room. We come back to the area of the scene.

5 There's a lot of physical evidence there that's important 6 to take a look at. The physical evidence, ladies and 7 gentlemen, does not lie. It is what it is. It is where 8 it was. We know from the DNA that he had vaginal sex with 9 Debbie and ejaculated. Yet, the story that we hear from

10 the defendant in his testimony and Dr. Etcoff, is that he 11 did not ejaculate during sexual intercourse. He comes up

12 with this whole thing that he thought she'd been with 13 other men. She's messy, and so he withdraws and walks

14 away. And she comes to him, because he's so lovable that

15 everybody always wants to keep him happy. I don't know if 16 you see that threat in the way he thinks about things.

But she wants to please him. And she 17 16 feels bad because she knows she got caught. So she offers 19 him oral sex. And that's how they consummate sex.

20 But you heard about the physical evidence 21 in the case. That's not what happened, plain and simple.

22 That did not happen. He came in and had sex, forced sex

23 with Debbie. And we know that for a lot of different

24 reasons. We know that she's in a fetal position in Mr.

25 Pollard's apartment only minutes before she tries to run

```
1 back and get the kids thing. He can see her sitting there
 2 at Mike's house. Nike wants me to wait. The longer I
 3 wait the more the chance is he'll get there before me. If
 4 I run back now, Mike's trying the get out of the shower.
   You see why she takes off. So Debbie goes.
                   She goes over there. He's already there.
 7 He's going through the letters. He's found the letter and
 8 he's mad at her. She comes in, and the confrontation is
   on. There's a beating that occurs we know 15 minutes or
   more before the fatal wounds are given to her neck.
10
                   Why two episodes of physical violence
11
12 against her. Because there's compulsion. Thinks about
13 those injuries to that upper arm -- her upper arm. That's
   the kind of injury you get when you're grabbing somebody
   to try to get compliance for somebody. That's the kind of
   injury that she would have received back in June when he
   was kneeling on her arms, grabbing her arm and holding the
   knife to her throat trying to get information about
19 boyfriends.
                   That's exactly the kind of injury you
21 would see after finding the letter and confronting her,
22 fighting over the letter, and it gets torm up in this
23 room, ladies and gentlemen. But it gets torn up at a time
```

1 car. The pieces are in this room right here by the 2 letter — by her head, right outside by the door jam and 3 outside that door where she got the door open to try and get away from the defendant. Maybe right before the 5 confrontation, maybe right at the time of the 6 confrontation, or right after tearing the letter, she tried to get out the door. One of her shoes is outside on the porch.

24 when the door is open. Right there at the door, not in

25 the car. There's no pieces of the letter that are in the

You'll see that in the photos. One of her shoes is 10 inside. When he dragged her back in and threw her on the It floor, all of those pieces and all of that evidence is 12 consistent with the attack occurring right there, 13 including the blood pattern evidence that we've talked about. Nothing in the car is consistent with that story 15 the defendant tells. 16 So why does he tell it. Because he wants

17 to convince the police, the doctors, you, that the rape was consensual and everything was just hunky-dory until a certain point when he found that letter. Because he needs 20 a reason for going off, and that's what later sends him

21 into a rage.

22 Nothing in the physical evidence in this 23 case supports that version of events. It's simply not 24 true. Dr. Etcoff could see that as he was hearing the 25 evidence as well that he'd been coned and that essentially 1 lied to by the defendant in his interview.

You can't see the red in this real well, 3 but you see in the photograph down on the floor here, 4 Detective Vaccaro talked about the blood pattern evidence.

How that would line up with her stomach.

It was at some point when she was stabbed, 1 we know the beatings are 15 minute before the fatal wounds

8 in the neck and the chest area. That wound there Dr.

9 Green testified would bleed for awhile. And it did bleed

10 for awhile, which it wouldn't have been able to do if it

11 had been administered at the same time as the neck

12 wound.

And if she had turned over with that 14 bleeding on her side to her front to try and crawl away, 15 or get away, or protect herself and he had to turn her 16 back over to get on her for the fatal stab, it would leave 17 that exact kind of pattern there on the floor and on the 18 chair from the arterial bleeding.

19 Remember the chart we had, Exhibit No. 20 135. This physical evidence is important here, ladies and 21 gentlemen, because the aggravating circumstance in this 22 case is that this crime occurred during the commission of 23 a sexual assault. And sexual assault is an unconsensual 24 sexual penetration, or sexual penetration under

25 circumstances where the assailant knew that his victim was

1 incapable of resisting an assault. It doesn't require 2 damage to the vaginal area, anything of that nature, it's 3 non-consensual or under non-consensual circumstances. 4 That's the appravating circumstance. The defense in their open statement said

6 several times about, well, the state never charged that as 7 a crime in this case. Well, as the court has instructed 8 you the state is not required to allege it as a crime in 9 Order to utilize it as an aggravating circumstance that 10 would merit the imposition at the death penalty hearing. You have to remember in light of the facts 11

12 of this case, the DNA evidence, and the other evidence 13 they were getting developed wasn't known at the beginning 14 of the case when we filed the initial charges about the 15 robbery and some of the other things they knew about

16 initially, burglary and murder. It came along later after

17 a hearing and after the case progressed. So the state made the sexual assault an 18

19 appravating circumstance and didn't choose to include it as one of the counts where it really wasn't -- when you've 21 got the murder and all the other things, it wasn't as

22 critical to charge it in the original plea.

But it is a decision that you have to make 24 in this case, beyond a reasonable doubt, that sexual

25 assault occurred. And that's why we're talking about it

1 now. And that's why they emphasized that in their opening 2 statement.

But based upon the evidence in this case, 4 ladies and gentlemen, there's no question that a woman who 5 is in a fetal position shaking, who has been told the day 6 before he's going to kill her, who calls the jail every 7 day to see if he's gotten out, is planning on moving out 8 as soon as she can, who spent hours to talking to is probation officer telling her that she thinks he's going 10 to kill her, is not going to have consensual sex with this 11 man who crawls through her window while she's trying to 12 gatherer up clothes and get back to a place of safety. If we didn't know anything else about all 14 of the physical evidence and his lies about how the rape 15 occurred, you'd know that this is a sexual assault that 16 occurred here. We look at the injuries to the victim. See all of that bruising, abrasions up 17 18 around the head and chest area. We've got that shot to 19 the abdomen. There is a pattern here that really jumps 20 out. It really jumps out. Because when you look at the 21 spread of the knife wounds, you can think, well, you know, 22 maybe he's a bad aim. We've got one in the grain. We've 23 got one in the stomach. He's not a bad aim. He hits 24 exactly what he wants to hit. I mean, look at how 25 concentrated these are. They're so concentrated Dr. Green

1 said that it was hard on the internal exam to tell which 2 direction each cut went. He just does a number on her

3 neck. No problem with his aim there.

So why do we have one down here and one 5 here random. This is a message, ladies and gentlemen. 6 This a message that he's giving to her in his rage. That

7 message is intereded -- that shot in the abdomen in

8 intended to cause pain. And he hit right at the core of

9 her being and who she is and he put all of his anger into

That shot down in the groin area, he

10 that cut.

11

25

12 doesn't hit it exactly, but it definitely down in that 13 area, maybe she moved or twisted, it doesn't line up with 14 the bleeding we've got here on the floor, but that is a 15 symbol of his control over her that's so present and 16 visible throughout all of those letters that he sent to 17 her, all those phone calls about who are you with now, and

18 his desire to control her sexual, that's that shot that he

19 takes there.

20 He's got time to think about this, ladies 21 and gentlemen, before those fatal shots to her neck to 22 take her life span down to 15 seconds. It was a rape.

23 ladies and gentlemen. It was a sexual assault. And

24 that's the aggravator that we have in this case.

It's been proven beyond a reasonable

1 doubt. And once it's proven beyond a reasonable doubt,

2 the next step you do is you balance the mitigators against

3 that aggravator, in this case, to see if that aggravator

4 is outweighed by the mitigator. There's a whole list of

5 mitigators that are being given to you by the defense

6 about how he grew up and this or that. These are sad

7 things that occur, some of them. But nothing in that list

8 outweighs the enormity of what they did to Debbie Panos on

9 August 31st, 2001.

So we're at the point where we always had 10 11 to be. You couldn't know that at the beginning of this 12 case, but the evidence here mandates it. It mandates that 13 you would always have this choice. You would come to the 14 point where death would be on the table.

It doesn't mean that you have to select 16 death, but there's no question that death is on the table 17 as an option in this case. That's why we ask so many 13 questions about this at the beginning.

19 I ask you to bear with me for a couple 20 more minutes while we talk about why death is the 21 appropriate and the fair consequence in light of all the 22 facts and circumstances of this case.

I had a little philosophical discussion 24 with Dr. Etcoff. I hope I didn't boor you. Maybe you got 25 fed up with it. We talked about free will, and choices,

I percentages. You know, our system of criminal justice,

2 ladies and gentlemen, is based on accountability. We can

3 say we're going to take the utilitarian approach. You

4 can't live in this society, we're not going to comment did

5 you do it, you didn't mean to do it, this is a proven

E risk, to separate you from society. And that's it. Kind

7 of like no fault criminal law.

We could do that, but we don't. We could 9 say, well, you know, it's not very cost affective to 10 separate you from society. You know, why pay for that.

11 You can't function in society, why pay for that, we'll

12 just execute everybody and that way we won't have to pay

13 the cost. We can put it to work helping people that could

14 be helped that can live with other people, put them into

15 those kinds of things, people that can be saved. Trat's

16 the utilitarian approach. We don't have that.

We've got a fault based system. We have a 18 system that's based upon choices people make and being

19 held accountable for their choices. That's what we call

20 justice. Aristotle said that justice is giving to every

21 man their due -- what they're due. I'm not talking about

22 the defendant here just getting his due of an eye for an

23 eye, or a tooth for a tooth. He take a life, so we're

24 going to take a life. That's not the due.

Due means in light of all the circumstance

```
of the case, what's fair, what's appropriate. It's important to be that way. It's important to be that way, because it needs to be a decision. It needs to be something people can live with. People can be comfortable with, so we feel good about ourselves and give society an application of laws.
```

7 It's clear that everybody should be
8 entitled to protections of the law. It's clear that
9 everybody should be liable to the rules of law. We talk
10 about less free will or more free will, I mean, it's
11 something that kind of cuts at the heart of what we're
12 about in the criminal justice system. I mean, the intent
13 is the thing here. And that's what we look about in our
14 system of justice.

Merle's ghost told Scrooge on that first night before Scrooge knew the enormity of what he was getting into there, in the Christmas Carol, "I wear the chain I forged in life, replied the ghost. I made it link by link, and yard by yard. I girdered on of my own free will." Link by link and yard by yard, and we have that in this case.

You don't see in this case just one narrow
spectrum of how he came and killed her. You've seen years
of abuse and horror and terror that he subjected this
woman to and her children. And you can consider that in

1 assessing what is an appropriate penalty.

2 Each man his due, not for revenge, not by
3 default, those are poor reasons. Revenge is something you
4 feel good in the moment, but we don't impose the death
5 penalty because we are upset. There's a lot of reasons to
6 be upset in this case when you see what happened here and
7 just react. But that's not what we're about here. That's
8 why we take the time to look and examine and deliberate,
9 not for revenge. But not because it's the only choice
10 left, or it's maybe the easiest choice in some minds or
11 the hardest choice. But because it's the right choice.
12 That's the only test that is really going to be fairly
13 applied in this case.

We shouldn't impose a different sentence
then death because it's a little easier. It isn't as
difficult for us to do it and not as emotional. It's not

18 I submit, ladies and gentlemen, under the
19 entire facts of this case, life without the possibility of
20 parole is not enough. It's not enough for what he
21 subjected this woman to. It's not enough for the
22 intention of the act that occurred here, and the terror
23 that was involved, and the selfishness. Yes, good ol'
24 fashion motives that we're all familiar with: greed,

25 control, jealousy, a choice for selfishness.

As Dr. Etcoff admitted in the end, he

2 chose evil. Is there a place for mercy in murder cases.

3 There is. That's something that you need to

4 consider. Mercy is something that comes in sideways based

5 upon some circumstances, and then it's decided that it

6 will apply. And it will kind of take over the demands of

7 justice, which would normally be a life for a life.

8 But there are things that compel mercy.

9 What would those things be. A person recognizes what they

10 did was wrong, maybe. Somebody that really understands

11 the enormity of what they did. That really truly feels

12 bad about it. That feels remorseful, truly remorseful. I

13 don't mean just lip service after you're in trouble, but

ik true remorse.

15 And how do we know remorse. You look at a 16 person's conduct. You look how they acted right after the 17 event. And then some time later and you listen to them.

18 Anybody can get up and say I'm sorry, I wish I hadn't done

19 that. When you look at all the document in this case, and

20 when you look at the acts -- one said actions speak so

21 much louder than words -- you can't hear what you're

22 saying because you know your actions are in the way. They

23 really do. And when you look at the facts and

24 circumstance and actions of the defendant in this case,

25 that little jig that he danced at the end, his conduct

1 right after, the way that even in the times he got caught

2 his intention to blame everybody else, blame everybody but

him. That's not true remorse.
 There's nothing about this man that

5 recommends to you mercy in this particular case. He had a 6 mother that died at an early age. Are we prepared to

7 immunize everybody from the death penalty that had a

8 mother that died at an early age or dich't know their

o moder that area at an early age of each t most entire

9 father. Maybe he had a father that wasn't nice to them,

10 or say that's enough right there, not going to get the

11 death penalty.

12 Everybody has mothers. All mothers and

13 father are different. All grandhothers, grandfathers are

14 different. Some people have ups, some people have downs.

15 And it's what you do with it, that makes all of the

16 difference.

17 But those things do not recommend and

18 campel mercy. We have that phone off the hook. Debbie

19 tried to crawl or get over to that area again, maybe after

20 she set up the plan, she didn't get all the way outside

21 the door. The mercy the defendant gave her, the jury

22 trial the defendant gave her, the sentence the defendant

23 gave her, ladies and gentlemen, this is Debbie Panos'

24 parole eligibility right here, none.

What about her family. What about her

84

```
1 little children. Her daughter said she wanted to die so
 2 that she could be with her mother. The ripple affect in
 3 this, where is the parole for the rest of her family.
   They have no parole.
                   They can't go and visit Debbie in an
 6 institution. They can't give her presents that she could
 7 respond to. They can't have conversations with her. If
   you put the defendant in jail or the rest of his life, his
   family will still have those opportunities. We put the
   visitations logs in pertaining to this defendant. There's
11 been just a few people that have come over the years to
   visit with him, but he has that access in the prison
   system. Where is that access for the family members that
   are left picking up the pieces of their lives.
15
                   I don't care if it's ten minutes after the
   crime, ten years after the crime, the enomity of what he
   did is no different. Nothing has changed and we saw that
   as these people where on the stand. We saw their anguish,
   even after all this time they're living with in Tucson.
   They keep her picture in the police department.
20
                   Some of these people held up well. Some
22 lost it right toward the end. It's amazing after this
23 much time this woman's life still has this kind of affect
24 on people. Made all the worse by the fat she was so
25 violently taken from them.
```

85 We're back to blame. We're black, 2 hopefully, now to choice and accountability, because 3 that's what this is about. Choices the defendant made and 4 you're holding him accountable for those choices with the 5 ultimate punishment here, and that is the death penalty. 6 That is the/penalty that is fair and appropriate. And anything else is selling short what he did. It's time to put the blame where the defendant does not want to put it, to put it back on Mr. James Chappell and nobody else. And your verdict of the 11 death penalty, will do that. And it will be a verdict 12 that speaks to fairness in this case, and a verdict that speaks to equality under the law, and a verdict that speaks to being balanced with the totality of what he did 15 in wrecking and destroying so many lives, and, yet, lives 16 so different from his, these people have been able to 17 stand up and do everything that he didn't do, and rise 18 above it. Don't be coned. It's interesting, Dr. 19 20 Etcoff in the beginning of his testimony said, you know, 21 the defendant, he's just not sophisticated enough to lie. 22 I would know that. Then we heard on cross-examination all 23 of these things the defendant flat out lied to him about, 24 that the doctor didn't know. And here's a Ph.D person who 25 just got totally coned by the defendant, and he coned the

1 system, and he coned Mr. Duffy, sat across from him for 2 two hours saying he really wanted to do something about 3 that drug problem enough that Duffy let him go, and he went straight out over to kill Debbie. He would like to see you coned in this 6 case, ladies and gentlemen. Don't be comed. Don't sell 7 it short. Please, don't go for the lesser things because 8 it's easier. Do the right thing, even though it's the 9 harder thing, and that would be an imposition of the death 10 penalty. Because ladies and gentlemen, the evidence in 11 this case indicates this is the appropriate penalty in 12 this case. It is the only appropriate penalty in this 13 case. 14 Thank you. THE COURT: Thank you, Mr. Owens. 15 16 Mr. Schieck or Mr. Patrick. CLOSING SUMMATION 17 18 BY MR. PATRICK: All I have to say is Mr. Owens didn't get 19 20 one thing right. There is absolute nothing that compels 21 you to give the death penalty to James. Is not having a 22 mother or is not having a father enough to show mercy. Of 23 course, it is. The judge told you that when he read the 25 instructions to you. Why are you here today. What is 1 your job. Your job so to determine what punishment James 2 deserves for killing Debbie Panos. His girlfriend of ten years. Kis lover, 4 His rock. His confident. And the mother of his three 5 children. What you are not here to do is to determine if 6 James killed Debbie. You were told that over a week ago. 7 The State wants you to impose the death penalty or James. 8 In order to do this, as you've heard, you must find an 9 aggravating circumstance beyond a reasonable doubt You 10 have to do that as a jury in a unanimous vote. Now the only aggravator that we have for 12 you to consider is that the murder was committed curing 13 the perpetration of a sexual assault. What you need to 14 ask yourself when you go back to the jury room is has the 15 state proved that. 16 Over the last week the State has proved to 17 you that James killed Debbie. But you already knew that. 18 The State has proved to you that James beat Debbie. You

18 The State has proved to you that James beat Debbie. You 19 already knew. They have proved to you that Debbie's death 20 was very tragic and it affected a lot of people. But you 21 knew that a week ago also. So what the State has proven 22 to you is nothing that you did not already now when you 23 first sat in those seats a week ago today.

24 So what they tried to do is to confuse 25 you, to mix it up and go off on tangents, because there

4

I was a lot of evidence presented that they could not 2 impeach. They tried to hide the ball from you, and 3 possibly the worst thing they did was they took every 4 opportunity they could to show you gruesome photographs, 5 gruesome photographs of the autopsy, and gruesome 6 photographs of Debbie laying on the carpet of her and James' trailer house. They dich't need to show you those. Those are used to prove that James killed Debbie. But you knew 10 that. Now, if you decide correctly that over the 11 12 last week the State has not proven to you the aggravator 13 that they've alleged, you don't even have to consider the 14 death penalty. That's the first thing you need to do as a jury. Before you consider the history of domestic violence, before you consider James' criminal arrest, you need to determine if that aggravator has been proven and if you even need to consider the death penalty. If you don't find the State has proven 19 20 that, then you can give James a life sentence with parole 21 or without. And you're finished. 22 I'm going to talk to you about the State's 2) arguments, how they tried to hide the ball as it applies 24 to the doctors that the defense called and had you listen 25 to. 89

We call Dr. Etcoff for a very specific 2 issue. He was here to explain to you James' personality, 3 his conditions, and possibly how he thinks and reacts. 4 Dr. Etcoff performed a forensic evaluation on James. 5 That's all he was asked to do. He was not asked to do 6 therapy. He was not asked to do anything else, but to 7 give a forensic evaluation to tell what's good about James 8 and what's bad about James no matter how the chips would 9 fall. Now the State had a copy of Dr. Etcoff's 10 11 report from ten years ago. They know what his testimony 12 would by this time, because it mirrors the testimony he gave last time. Unfortunately, for the defense Dr. Etcoff 14 is a very busy man and his scheduling would not allow him 15 the testify when we would like him to and that's why you 16 heard him out of order. But now after hearing from James' friends 17 18 and family, Dr. Etcoff's testimony should be clearer to 19 you. Everything James told Dr. Etcoff about his childhood

But now after hearing from James' friends
and family, Dr. Etcoff's testimony should be clearer to
you. Everything James told Dr. Etcoff about his childhoo
tas validated not only by the school records that Dr.
Etcoff had that the State had, but by James' friends and
family on this stand over the last few days.

In fact, listening to the family and
listening to what James told Dr. Etcoff, it seems that
James actually down played how bad his childhood was to

I the doctor. Now Dr. Etcoff also administered tests to 3 James. These tests were valid. We know that because the 4 tests have built in invalidity indicators. And all of 5 those indicators showed that James was honest and truthful 6 and his tried best when he took those tests. So the key points you need to think about when you are thinking about 8 deliberating regarding Dr. Etcoff's testimony are these: There's no reason to question the accuracy of James' 10 history that was given to you and Dr. Etcoff by James' 11 school records. The history given in those school records 12 was also confirmed by James' friends and family on the 13 stand. The tests given by Dr. Etcoff to James in 14 15 forming his opinions were valid. And that Dr. Etcoff was 16 testifying to a very specific question posed to him by James' defense, and that was to explain James, his personality, and how his childhood would possibly affect 19 the rest of his life. Now James' mother died very young. She 20 21 was run over by a police care. According to the State, 22 that's not uncommon to have your parents killed by the 2) cops. His mother was addicted to drugs and alcohol, and

1 around. James first met his father when he was ten years 2 old. The most significant father son bonding incident was 3 when James' father asked him to rob a bank. And again as 4 the State just told you, that's not uncommon for your 5 father to ask you to help him rob a bank. Luckily James denied his father's request 7 and did not help him rob that bank. Next James turned to his older brother 9 Rick, You saw Rick testified. But unfortunately Rick was 10 not a good role model either. He grew up in the same It household, under the same circumstances that James did. 12 And James, Rick had problems with drugs and going to 13 prison. The only other male role model James had 15 an attempt to bond with was his uncle Anthony But his 16 uncle Anthony was brutally stabbed to death while James 17 was at a young age. James and his three sibling were sent to 18 19 live with their grandmother. A grandmother who was both 2) verbally and physical abusive. Psychological torture, 21 physical torture, maybe, maybe not. Unfortunately, for

22 James, unlike the doctor that lived in a concentration

23 champ, he did not have the mental capability to pull his

24 way out of that and become a better person by the age of

24 it's quite possible that she was using either drugs and/or 25 alcohol while she was pregnant. James' father was never

CHAPPELL 3/20/2007

25 26.

```
Grandma constantly berated the kids in her
 1
 2 care. She would beat them with sticks and extension
 3 cords. And while Dr. Etcoff said that spanking is fine,
 4 but a beating with a stick or extension cord to the extent
 5 it leaves marks, that sounds more like abuse then a
   spanking.
                   Grandma leaves them at home alone for
 8 hours Because of this their house was the party house on
   the block. All the kids in the neighborhood knew there
   was no adult supervision. They knew they could go to the
11 house and partake in alcohol, do drugs, didn't matter what
12 their ages were, grandha was out playing bingo. They knew
   when she would be back, they cleaned the house, out the
   back door. Nobody was any the wiser.
15
                   Now, to their credit the Lansing School
16 District did try to help James. We learned from Dr.
17 Etcoff that as early as the fourth grade social workers
   were involved with James' development. The report from
   the fourth grade social worker noted that James would not
   respond when spoken to. He was in the fourth grade, but
21 functioning at a second grade level. He had difficulty
22 forming meaningful relationships, and she thought he
23 should receive individual therapy outside the school
24 district. However, James never received that therapy.
```

After that James was placed in a severe

25

93 1 learning disabled class, special education. The special 2 education teachers were concerned because of his low self 3 concept and his trouble verbalizing his concerns to 4 others. Somehow James made it to high school. At Sexton 5 High School he was seen again by a social worker, seen by 6 the school psychologist. That psychologist gave James an 7 extensive interview and revealed that James had little 8 hope of succeeding in life. He does not have many copying skills. He 10 could not deal with problems. He would intend to withdraw 11 and avoid problems and would take the easy way out. 12 Compared to the evaluation given of James three years earlier, James has made little progress. We still had the 14 low self concept. He was distrustful. Depressed, had 15 poor problem solving skills, and few copying skills. 16 Again, the psychologist recommended 17 psychotherapeutic intervention. And again James was not 18 afforded this help. James also told Dr. Etcoff about his long 19 20 history with drug abuse. Starting with marijuana as a 21 young teenager, alcohol abuse before school, to finally 22 free basing or smoking crack cocaine by the time he was 18 23 years old. 24 When Dr. Etcoff learned from James and the 25 Lansing School District, Dr. Etcoff administered several

3 below average, borderline score on his verbal IQ of 77. 4 And Dr. Etcoff explained, that placed him in the 7th percentile, which means that James' ability to understand 6 words, understand concepts, and to express himself with 7 words in a logical fashion is worse than 94 out of 100 people. But the State tells us James is a genius 10 with words. He comed everyone. He comed Dr. Etcoff. A 11 well-known licensed psychologist with years of experience 12 dealing with people, just like James. Well, he coned 13 Mr. Duffy, the P&P officer. But James has trouble 14 explaining himself. How is he -- ask yourself, how is he going to communicate in a way that is going to con people 16 who are used to dealing with people who are on probation, 17 and who used to deal with board a certified psychologist 18 with people just like him. Next, Dr. Etcoff told you about James' 19 20 full scale IQ of 80. That falls at the bottom of the low 21 average range and places him in the 9th percentile. That 22 means that 91 out of 100 people of James' age will show 23 superior intellectual capabilities compared to James. So 24 What the State is telling you, that out of the 91 people 25 Dr. Etcoff and Mr. Duffy from P&P, aren't one of them.

1 tests. One that he talked about was the Wexler Abult

2 Intelligence Scale IQ test. On this test James scored

Dr. Etcoff also administered the Milan 2 Clinical Multi-axial Inventory II Personality test. 3 However, they do an anagram to that, I'd hate to say that 4 a bunch. Now, James' test was found to be valid and 6 reliable. Now because of James' difficulty with reading 7 and words and comprehension Dr. Etcoff had to give him the 3 test via audio tape, From this test Dr. Etcoff told you 9 that you he found James to be sensitive to humiliation and 10 rejection. Simultaneously James would be very 11 distrustful, he would still have a strong need to be 12 dependant upon another person. This was due to his 13 feelings that he could not function independently. 14 Now in Dr. Etcoff's opinion, these traits 15 were enormously important in regards to James' motive for 16 killing Debbie. If he thought Debbie was leaving him, he 17 would be scared of losing her due to his dependency needs 18 that started all the way back when his mother was 19 tragically killed. He would have difficulty functioning 20 alone, but at the same time he would be prone to mistrust 21 her. 22 Dr. Etcoff also told you he found James to 2) be socially uncomfortable and he would depend on others to 24 assume responsibilities that James didn't feel he had the

94

25 ability to shoulder.

```
He had a conflict between becoming to
detached from Debbie and being too close to her, because
neither the closeness nor the detachment for fear of
losing someone that he was dependant on was emotionally
tolerant for James. That sounds an awful like the
motorcycle syndrome that Dr. Danton talked about. The
need to need a relationship.

Dr. Etcoff told you about how James'
dependency issues again came from the loss of his mother
at a very young age. The fact that he never had a father
figure, whether it's his own dad or any other male
relatives. That he had a less than adequate parent figure
```

13 in grandma.

14 As to James' drug use, we learned that the
15 cocaine dependency was understandable. As it was a way
16 for James to escape. It would help ease his feelings of
17 inadequacy and low self-worth.
18 As a result of the cocaine dependency

20 cope with his many problems. Now, Or. Etcoff ended his 21 testimony about statements about memory loss and free 22 will. James said he does not remember the actual events 23 of stabbing Debbie. Now as for you as a jury to decide 24 the weight and importance to give to that statement, 25 everyone has a tendency to block traumatic painful events

19 James was not afforded the opportunity to learn how to

i from your memory. Either consciously or unconsciously.

2 Ask yourself if any of you have ever done that. Then ask 3 yourself an even more relevant question, does it matter.

4 James has always admitted that he killed Debbie.

That's not the question before you,
whether or not James killed her or whether he didn't kill

7 her. You heard that in Mr. Schieck's opening statement.

8 So what difference does it really make if he remembers the

9 actual stabbing.

10 Free will, Mr. Owens described it as a 11 philosophical discussion with Dr. Etcoff. But again, it's

12 an attempt by the State to hide the ball, go off on
13 tangent to get you to confused about what Dr. Etcoff was

14 truly testifying about. Dr. Etcoff did not once sit on

15 that stand and tell you that James did not have a choice

16 whether or not to $kill\ \mbox{Debbie.}$ Everyone has an ability to

17 make choices. What he told you was the thought process in

18 making those choices or free will is different in

19 everyone. Under the same circumstances, you would not

20 necessarily make the same choice as a person sitting next

21 to you.

22 As Dr. Etcoff pointed out, this decision

23 making process or free will is influenced by many factors.

24 First one was a low verbal IQ. The ability not to be able

25 to sit and talk things out.

A difficult and abusive childhood, with no

2 parents, no father figure, a less than adequate

3 grandhother as a primary care giver, constant drug use to

4 escape reality, and any number of the personality

5 disorders that Dr. Etcoff testified that James has. So

6 ask yourselves, does a person with a background such as

7 this have the same ability to make the same choices, have

8 the same free will, as you do. And if you take nothing

9 else from Dr. Etcoff's testimony, take one statement. He

10 said, I think he is one of the minority of people who

11 kill, who would actually do anything to turn back the

12 clock and undo what he did.

1

Dr. Etcoff testified to his opinions.

14 Opinions that he believed from tests, school records, and

is talking to James. The State was unable to repudiate

16 Dr. Etcoff's findings. The findings of a well-respected

17 neuropsychologist with years of experience in dealing with

18 people exactly like James. So they went out on tangents

19 in cross-examination, simply trying to confuse the

20 situation and get you off point of why Dr. Etcoff was

21 hired and what he was telling you.

Dr. Denton came in and testified. He was

23 another psychologist that was hired by the defense team

24 for a very specific purpose. He was here to talk to you

25 about domestic violence in general and possibly give a

9

1 little insight as to James and Debbie's relationship.

2 He talked about the domestic violence

3 cycle and how it is exactly that, a cycle. It goes from

4 good to, bad, back to good again. The cycle can be

5 entered into at any point, but once entered into it's

6 extremely difficult to break.

I think Dr. Denton summed it up

8 beautifully. Love the abuser, hate the abuse. Dr. Denton

9 also explained to you the motorcycle syndrome, how a

10 person needs to need the want of a relationship, and how a

II person with attachment problems will be attracted to

12 somebody who is initially cold to them, but when the

13 valationship gate gains gate along the names with

13 relationship gets going, gets close, the person with the

14 motorcycle syndrome will start pushing away that person.

15 It's not the actual relationship they want, it's just the

16 need to need a relationship.

17 Ask yourself from what you know of how

18 James and Debbie fit into this. We just talked about

19 Dr. Etcoff pretty much summed up that James really fits

20 into that. Dr. Denton told that if Debbie happened to be

2: someone that had a strange relationship with her father or

22 step father figure, that she could fit into the classic

23 example of the motorcycle syndrome.

24 Next Dr. Denton gave you insight as to why

25 Debbie would consent to have sex with James, even after

```
1 this domestic violence cycle had started. He mentioned
 2 things like guilt, appeasement to decrease the threat,
 3 learned helplessness, the Stockholm syndrome, and force.
 4 Well, if Debbie was seeing other men, guilt would seem to
 5 be a pretty powerful motivator. Appeasement, well, we
   know from Mr. Etcoff, James had very limited verbal
   skills. Dr. Denton, in what little time he was able to
   spend with James confirmed this.
                   He told you that James would not be the
 9
   person to sit down and rationally talk out problems. He
   didn't have that ability. James and Debbie, they both
   thought would have the very physical relationship. They
   would use sex to make up, sex to calm things down.
                   Now think about this, the day that Debbie
14
15 died. James was upset. Debbie hadn't visited him, hadn't
16 call him in jail. They started to fight. Debbie knows
   that using sex has calmed him down in the past. James
   does not have the capability to verbalize why he was mad.
   So like always, Debbie would voluntarily use sex to calm
   things down and make up, or simply to change the
   subject.
                   If you really think about it, from all
22
23 you've heard over the last week, that's kind of a scenario
24 that would make the most sense.
                   Dr. Denton also told you a little about
25
 1 James' drug use. How James would use drugs to control his
   emotions and to hide from reality. This fits in with Dr.
   Etcoff's assessment of low self-worth and abandoment
   issues. The drugs would help the pain.
                   So not unexpectedly after the most painful
 6 thing that's ever happened to James in his life, the first
   thing he does is go to a place where he knows he can get
 7
 В
   druxs.
                   Now, again, the State could not directly
10 attack Dr. Denton's professional findings. They had to
   attack Dr. Denton. And, again, trying to deflect your
   attention away from the facts. Then once again, the State
   could provide no evidence to repudiate anything Dr. Denton
   told you.
14
15
                   Dr. Denton spent a very short time with
   James. That was because the specific reason he was here
```

was to talk more about domestic violence in general. What

he gave you about James and Debbie was just what he had

gleaned off a very short time of talking to him. But

again he wasn't here to give James a full and complete

21 psychological evaluation. He was here mostly to talk to

you about domestic violence in general. That's why

23 Dr. Denton did not go into every minute detail of James

and Debbie and their history of domestic violence. But

that in no way diminishes his testimony in regards to the

1 damestic violence issues. As with both the psychologist, we brought 3 Dr. Grey in to testify about a very specific finding, and I that was the fact that there was no physical evidence that 5 James sexually assaulted Debbie. Mr. Schieck will talk to 6 you in a minute about Dr. Grey. We brought him up to show you once again the tactics used by the State to confuse 8 and mislead you and to get you off the testimony provided 9 by Dr. Gray. Again, they could not repudiate Cr. Gray's 11 findings. Dr. Green was on the stand. He was called by 12 the State He said nothing in his testimony to repudiate 13 what Dr. Gray told you regarding physical evidence of 14 sexual abuse. So essentially they couldn't tell you that 15 Dr. Gray's testimony was wrong, they simply used him as 16 another time to show you the gruesome photographs of 17 Debbie's autoosy. They did that simply for shock affect, 18 to hide the ball, because, again, you are not here to 19 determine if James killed Debbie, because you already knew 20 that. So when you go back and deliberate, 21 22 please, just remember why you are here, and what your job 23 is. It's not to determine if James killed Debbie. It's to 24 determine what punishment James should receive for that 25 crime. No one is going to stand here and no one had told 1 over the course of this trial that James should not be 2 punished for what he did. But what is appropriate. The death penalty should only be used on 4 the worst of the worst. Ask yourselves, if what really 5 fits here. Certainly Debbie's death is tragic. It was 6 horrible. But for now and what you know about James and 7 his childhood, his lack of parents, lack of an acequate 8 parental figure, and his lack of a positive role model, 9 his learning disabilities, his low IQ, and his constant 10 drug usage from age 13, and probably most importantly, his 11 true regret and remorse, ask yourselves, is James Chappell 12 truly one of the worst of the worst. You heard testimony from James' friends 13 14 and family. Most of them had drug problems. Most of them 15 had prison time. As they have matured, they of changed 16 their lives for the better and are trying to make better 17 lives for them and their family. The James that sits 18 before you today is not the James of 12 years ago. He is 19 not the 26-yearold kid that killed Debbie. James has 20 worked to better himself while he's been in prison, and he 21 would like to continue to do so. James knows that no matter what sentence 23 you give him, it's very unlikely he will ever get out of 24 prison.

                                                                     14 reasonable doubt. But it's a factor that you can
                   And these are rules of law that have been
15
                                                                     15 consider. So if you do find the aggravator, and you get
16 set down by our legislature the court instructs you on so
                                                                     16 to the mitigators, you each have to make that decision and
17 that there is a structure to what takes place when you go
                                                                     17 discuss it among yourselves as what you believe is

                                                                     18 mitigation and what maybe the others believe is

```

Then you take one aggravator that you 21 found under this scenario, and you take the mitigators 22 that each of you found, and you weigh those. And this is 2) where the law sort of becomes vague, for lack of a better 24 word, it doesn't tell you how to weigh those. It doesn't 25 say one aggravator two mitigators, the mitigators 108 3/20/2007

22 possible sentences you can impose. The first thing that

23 you have to decide is whether or not there is an

25 reasonable doubt. You have to make that decision

24 aggravating circumstance that's been proven beyond a

1 outweigh. One aggravator can outweigh two mitigators. 2 One aggravator can outweigh five mitigators. That's up to 3 you to decide the weight to give the aggravator, and the weight to give mitigators.

So this weighing process is very subjective for each juror. What comes out of this weighing process however has to be a conclusion reached by the entire jury beyond a reasonable doubt, unanimously, that the aggravator outweighs the mitigator, or the mitigators don't outweigh the aggravator, before you know whether or not the death penalty is available and you go to the next step. Or you go to the next step and only have three other options.

So there's that process you must go 14 15 determine if there is an aggravator, if not you just go 16 consider the three forms of punishment. If you find there is an aggravator you go to mitigators, consider those, decide what weight to apply to them in weighing against the aggravators. If you decide the mitigators outweigh, then you only have the three options available. If you decide that the aggravator outweighs any of the mitigators that you each found, you have all four options available. 22 23 Then you go to the last step, which is the 24 step where you decide what punishment to choose from those 25 available to you. When you get to that last step, you're

1 going to either have three punishments available to you, 2 that being 40 years minimum to a hundred year maximum in 3 prison, or life in prison with parole eligibility no sooner than 40 years, or life without parole under one 5 scenario. And if you made it through all the steps and 6 get to the point where death is an option, then the fourth option would be the death penalty.

That's sort of the break down of the procedures you go through. 9

10 Now, we have to factor into that the 11 information that you can consider of each step of the process, and that's spelled out for you in Instruction No. 17, which tell you there's three types of evidence for you 14 to consider at a penalty hearing.

There is first, the evidence that's 15 16 relevant to the appravating circumstance. That's only 17 that evidence that relates to this case, whether or not there was a sexual assault during the perpetration of the murder. So you can consider only those facts that relate to the aggravator in deciding whether they have proven the 21 aggravator.

22 You than have evidence of mitigators. You 23 can only consider the evidence of mitigators in support of 24 mitigation in the case. That's the second thing.

25

The third type Of evidence is called a

1 variety of things, but it's really other evidence.

2 Evidence in this case that would consist of other acts

such as doing illegal drugs, shoplifting, acts of domestic

violence, which are misdemeanors that James was accested

for, possession of drug paraphernalia, the other acts you

heard about from the various witnesses called by the

State. That other evidence, that body of evidence that

relates to -- and Mr. Owens, in his presentation put up

the two screens, on of them had the incidents in Tucson,

they had the dates highlighted in blue, then the letter in

11 white It broke down the various events, shoplifting, the

12 traffic violations, the incident where the police were

13 call from the convenience store because James sold the

dresser. That other type of evidence, you don't consider

15 that evidence in deciding whether or not the aggravator is

16 present, because it doesn't go to prove anything to do

17 with the aggravator. It doesn't go to prove anything

18 about the sexual assault. So you have to hold all of that

19 body of information to the side while you decide whether

20 or not the aggravator is present, the mitigators are

present. And in weighing those, they don't go into the

22 weighing process.

You don't say, we've got this aggravator

24 and we found our mitigators now let's weigh, and in doing

25 the weighing less consider the fact that James was caught

: with drugs, James was caught with paraphernalia, James was

2 a shoplifter. That doesn't go into weighing process. You

3 have to weigh and reach the last step before you use this

! other evidence.

I know it sound difficult. The law

6 scretimes is difficult. But that's the procedure you must

7 go through. And that's these instructions try to tell

8 you, which, over the years, have been written to the best

9 of legal ability so that people like yourselves on juries

10 can understand what you need to go through in order to

11 decide a sentence in a particular case.

12 Now I'm going to go back, now that you

13 understand sort of the procedure you must go through, I'm

14 going to walk through those steps with you as quickly as I 15 can, highlighting certain factors that we feel you should

16 consider in making those decisions.

First is whether or not an aggravating

18 circumstance has been proven in this case. Mr. Owens, in

19 his presentation, talked a lot and he had the photograph

20 up of Debra in the mobile home, horribly tragically

2: deceased. A terrible act. Shouldn't have happened. But

22 they needed to show you some of those in order that you

23 understand what had transpired. And he kind of - when

24 talking about sexual assault, came up with a theory that,

25 well, the letter must have been with the other letters and

110

```
1 always in the house and this going out to the car never
 2 happened. And if you'll look at the photograph, you'll
   see there's a shoe outside and there's a shoe inside.
                   You've got the photographs. They're in
   evidence. You can look and see the shoes that are there,
 6 and buy looking at those you'll find that the shoe that's
 7 outside doesn't match the shoes that's inside next to
   Debra's body. It's not any evidence of anything taking
   place, as the State would have you speculate.
 9
10
                   That's the thing you don't want to do in a
11 case like this is engage in speculation or quess, or maybe
   it happened this way, or it could have happened this way,
   when you're considering the aggravating circumstance,
   because that's the fact in this case. They must prove to
   you beyond a reasonable doubt based on the evidence of
16 sexual assault. What is the evidence of sexual assault.
17
                   The evidence in the case from Dr. Gray was
18 there is no physical evidence to support, per se, sexual
   assault. The type of things you would expect to see if
   there was forced intercourse. The bruising of the legs or
21 areas below the waist, things that would indicate that
   there was trauma inflicted during the perpetration of some
   act of sex by force. You do't see those.
24
                   Dr. Gray said he didn't see them. He
```

25 complimented Dr. Green as being a very fine pathologist.

113 1 Dr. Green was in here and gave you his findings. He 2 didn't relate anything that said this shows me there was 3 sexual assault. We have the presence of DNA that shows 4 there was sexual contact of some nature between James and 5 Debbie, but nothing that would show that it was sexual 6 assault as defined in the instruction given to you. Now, the State says, we've got all these 8 bruises -- and we've left this chart up here, 9 intentionally left it up here, because we can talk about 10 those bruises. We have bruises on the hands, the arms, 11 contusions to the face. There were blows struck. She was 12 hit at some point, and Dr. Gray said at least 15 minutes 13 prior to the stabbing. Dr. Green, I believe was a little 14 bit longer. He said 15 to thirty minutes before the 15 stabbing. 16 Why is that important in considering the 17 aggravating circumstance in this case. It's important 10 because the aggravating circumstance is sexual assault 19 during the perpetration of the killing. The killing was 20 the stabbing. What happened thirty minutes before was not 21 during the perpetration of the killing. Use your common 22 sense in looking at the aggravating circumstance, the way 23 it's worded. It's during the perpetration of the killing. 24 The killing took place after the bruises were inflicted by 25 fifteen to thirty minutes, at least, said Dr. Green.

```
1
                    There is an interval in between the
 2 killing and the bruising. We submit, that the evidence
 3 does not support that there was any sexual assault. There
 4 was an altercation. There was domestic violence. But no
 5 indication of sexual assault as part of that altercation
 6 or as part of those bruising. In other words, there's
    nothing to tie the bruising to the sexual assault.
                   If you accept the State's sort of theory
 9 that the bruising was part of a beating that was part of a
10 sexual assault, that was not the act of killing. The
11 bruising did not cause the death, contusions did not cause
12 the death, the knife wounds caused the death.
                   What do we know about those knife wounds.
14 They are inflected while she was fully clothed, because we
15 have the knife wound -- certainly this one -- goes through
16 both her stretch black pants -- you've see them ir. the
17 photographs -- and her under garments. And they line up
18 directly with the stab wounds. She was fully clothed at
19 the time she was stabbed. Anything that happened of a
2) sexual nature took place before she was ever stabbed.
21 Obviously, while she was undressed, because of the
22 presence of DNA, indicating vaginal contact.
                   So she had already gotten dressed after
24 any form of sexual contact had occurred, prior to being
25 stabbed. She was not killed as part of a sexual assault.
```

I Even if you believe there was a sexual assault it was not 2 during the act of killing, therefore there is no 3 aggravating circumstance. As horrible as the case may be, as 5 tremendous and wrong as those injuries were, the law tells 6 us there's not an aggravating circumstance here. That 7 should be your first and last step in that analysis. 8 Finding that there was not a killing during the 9 perpetration of a sexual assault, the only aggravating 10 circumstance set forth by the State. In the absence of 11 that aggravating circumstance you then proceed to choose 12 between the three remaining punishments available to 13 you. 14 And as Mr. Owens told you, you need to

15 make the right decision in deciding that. We will leave 16 that to you, based on James' past, based on the history 17 between the two of them, based on all he factors in this 18 case to decide the appropriate punishment when you get to 19 that point and there's only three available to you. 20 You can certainly reassert that the 21 evidence doesn't support the aggravator, and you'll never 22 have to consider the death penalty in this case. 23 However, I would be remiss if I didn't

24 continue to argue to you concerning the other factors that 25 you need to consider, should you not agree with my

1 aggravating circumstance, you don't have to do the

```
1 discussion concerning the aggravating circumstances.
 2
                   And that is the mitigating circumstances.
 3 A mitigating circumstance is sort of a concept that
 4 depends on every different case and every different jury.
 5 And they're defined for you in Instructions 12, 13, and
 6 14. You need to understand, mitigating circumstance is
 7 not offered by the defense in this case as a justification
   for having committed first degree murder. It's not
   justification for first degree murder. It's not an excuse
   for first degree murder. It's not a defense for first
11 degree murder. They're just factors that the jury needs
12 to have in order to make the appropriate decision as to
   penalty in any case.
14
                   And they're defined for you as factors,
   while they do not constitute a legal justification or
16 excuse, may be considered in the estimation of the jury in
   fairness and mercy as extenuating or reducing the degree
18 of moral culpability.
19
                   You are also told that in determining
20
   whether mitigating circumstances exist, jurors -- and this
21 is Instruction 13 -- jurors have an obligation to make an
22 independent and objective analysis of all the relevant
23 evidence. Arguments of counsel do not relieve jurors of
24 their responsibilities. Jurors must consider the totality
25 of the circumstances of the crime, and the defendant. And
```

1 neither the prosecution nor the defendants insistence on 2 the existence or non-existence is binding on the jury. Number 13 basically tell you you can find 4 whatever you want to find or not find in this case as a 5 mitigating circumstance. With that in mind, Instruction 6 14, lists a number of factors in this case that are 7 present, or may be present in the opinions of some of you 8 for you to consider. The last one of those -- and it goes 9 from James' substance abuse problems to his relationship 10 with his children, or at least with JP, with the loss of 11 his mother, the absence of the father, the household, all 12 those factors are listed as possible mitigating 13 circumstances. 14 The last one is any other mitigating 15 circumstance. And that relates back to the previous 16 instruction. Instruction No. 13, actually corresponds to 17 mitigating circumstance 13, which is any other mitigating 18 circumstance Which means anything you find is a 19 mitigating circumstance, you can rely upon. 20 On the verdict forms -- you'll have these 21 back there with you. The verdict forms go through the 22 same process I've just gone through with you. The first

23 one is whether or not you find the aggravating

25

24 circumstance. That's the step one I just went through,

If you don't find the presence of an

2 weighing. You can skip to the last verdict form, which is the three possible forms of punishment. đ One of the verdict -- special verdict 5 forms has lines for you to list the mitigating 6 circumstances that you find. Whoever is selected as the 7 foremen in the case should fill that in on whatever 8 mitigating circumstance or circumstances are found. And 9 if you need more room or more pages, I'm sure the court 10 would assist you in that. But there are plenty of blank 11 spaces to fill in. 12 Then the third verdict form would be, do 13 to mitigators outweigh or do the aggravators outweigh, 14 which is the third step I talked to you about. So the 15 special verdict form pretty much mirrors the order that 16 we've discussed the evidence in the case. 17 Now the State and Mr. Patrick touched upon 18 this a little bit as it portrayed James as being able to 19 con Dr. Etcoff and conning Mr. Duffy and asked that he not 20 con you, that you not somehow fall victim to a con. But 2: in analyzing the evidence in this case, there are some 22 factors you need to take into account in really 23 determining that James was not of the sophisticated nature 24 to be able to perpetrate this crime and come up with a 25 scenario that somehow explains away his conduct, that 119 I explains the fact that he had gone out to the car and the

2 note was in the car. That he was able to come up with 3 this scheme to make it look other than exactly as it is, 4 which is they did go out to the car and found the note, 5 which explains why the note is outside and in different 6 condition in different rooms then the other letters that 7 were found. They want you to believe he is 9 sophisticated enough to con Mr. Duffy, yet, in making up 10 this story he doesn't -- in his testimony -- he didn't say 11 I went and got drunk and I was so high I didn't know what 12 I was doing. In fact, he testified he was sober and he 13 denied he had done any drugs. He had the opportunity to 14 say, yes, there was beer there and I had the beer. He 15 denied having beer. So this individual who they want to 16 say is sophisticated enough to con everybody in this case, 17 isn't so sophisticated as not to say I wasn't intoxicated, 18 I was sober. I didn't drink, and I didn't have drugs at 19 the time. But I did become enraged, uncontrollably 20 enraged. And those wounds don't show anything other 22 than uncontrolled rage. There's no pattern there. 23 There's no -- if you'll look in the photographs, Dr. Green

24 sort of drew them in. But if you look at the photographs,

25 you'll see the angles and how frenzied it must have been

3/20/2007

Page: 3795

```
in a very sort period of time. Not a thinking act. Not a premeditated act. An act of uncontrollable rage that factored in all of his shortcoming in his life, his disabilities, his inability to cope with situations that involve loss of loved one, attachment disorders, learning disabilities, inability to verbalize what he's feeling, the fear of loss of a loved one, all those thing that factored into frenzied unthinking conduct that we see in this case.

This sophisticated person at was comning
```

This sophisticated person at was coming
everyone takes the car and drives to a location where he's
well-known then has contact with people and rents the car
out in order to get money for cocaine to these two ladies.
You heard their testimony read from the previous trial.
That's how sophisticated he was. He ran to the nearest
place where everybody would know him, so he could get
caught quickly I suppose. There's no conning going on
there. It's, at that point, self-medication is what he
needed.

He needed to hide from himself because of 21 what he had done and knew he had done. And he went to the 22 one place he knew he could get what he needed at that 23 point in time and that was something to make him not 24 remember what he had done.

25

What does he do the next day. He goes to

121

the Lucky store that's right there in the neighborhood and comments some shoplifting. You'll see the photographs of the things he was shoplifting. Clearly was an invitation to get caught with the items that he had. And he does so, carrying the names on he social security cards of Debra and the children to be sure that if he is caught shoplifting he could be linked to the homicide that just happened the day before just up the street.

Now, is that a sophisticated person with the ability to con anyone by his conduct or by his words, or, again, someone looking to get the necessary quick money to continue to self-medicate to calm what he must be feeling for what he had done.

You'll have the letters he wrote to Debra

15 in there from the jail. And they only highlighted some of 16 the bad thing that were in those letters. I tried to 17 bring out some of the things that he was writing to Debra, 18 I love you, I myself you, I need you. Then the next 19 sentence is calling her a slut.

20 Look at those and consider how
21 sophisticated and how conwise this individual was, as
22 opposed to very confused, very afraid young man, that

23 didn't want to lose probably the longest relationship he 24 had in his life at that point with an adult person, that

25 being with Debra. They'd been together for nine or ten

l years at that point in time. And the fear and the anger

2 and the need for love that he expresses in those letters

3 is what you need to consider is in his mind when these

4 terrible events happened.

5 Mr. Owens talked about, with respect to 6 Debra, that she had been in a living hell, there were

7 weekly beatings. That she had tried to hide. We can't

8 ignore in considering what is the appropriate punishment

9 in this case, the real dynamics that this relationship

10 had. They had been together all this time. If it was a

II living hell, they won't have been together all thus time.

12 There was something there that kept them together, that

13 sired three children, that caused Debra to even -- when 14 she came to Las Vegas -- to tell -- I believe it was Dira

15 or maybe Lisa Duran -- that coming to Las Vegas was a

16 chance to have a fresh start with James She wasn't

17 running from James. She was coming to Las Vegas with

18 James, still trying to make this relationship work,

19 despite what had happened in Tucson.

2) You can see that there was something in 21 this relationship that was more to the two of them then

2? just a living hell. And certainly I don't mean to down

23 play how difficult and wrongfully difficult it must have

24 been for Debra to deal with James' addictions and

25 shortcomings and his attachment disabilities and inability

12

1 to hold a job. She had to deal with that. But there was 2 something there that caused them to, at least, want to try

something there that caused them to, at least, want to try
 to stay together.
 Perhaps wrongfully and they shouldn't

5 have. But there was more to that then just saying this

 $\ensuremath{\mathsf{6}}$ was a living hell that she was subjected to on a constant

7 basis. She had the opportunities not to be with James,

8 must at some level, loved him in order to stay with him

9 through this and stay with him through all of the bad

10 things that he had done, and try to help him.

11 Certainly that doesn't mitigate James'
12 conduct. I don't mean to imply that it does. It sort of

13 explains the dynamics of this relationship when you're

16 considering what punishment are we going to give to James,

15 given that dynamic of that relationship, if you get to

16 that point. Is death really the appropriate punishment or

17 is life in prison a sufficient severe punishment for James

16 to deal with the relationship that had gone so terribly

19 wrong. But at one point, at least, was a relationship

20 that they desired to foster between themselves,

21 It goes without saying that my argument to

22 you is that the mitigators outweigh the aggravators, and

23 the conclusion of that was the dynamics of that

24 relationship is something to consider in deciding

25 punishment in this case as possible mitigation.

```
I want to make clear in concluding that
 2 nothing that we have done in this case was ever meant to
 3 be harmful in portraying the relationship, and whether we
 # felt it was necessary to portray that entire relationship
 5 to point out that it, for instance, in the same letters
 6 where James said bad things, James says loving things and
 ? conversational things about his daily existence there in
    jail. That it's not necessary, and the right verdict is
   not the death sentence in this case. If you even make it
    to that point.
11
                   That in fact life in prison is severe
12 punishment for James. A punishment that should be imposed
   in this case.
                   Thank you.

                   We'll continue with closing arguments at
                    When the defendant, James Chappell, was
19 convicted of burglary, robbery, and marder these were his
20 comments of remorse. "I have no comment on my case, but
2) to say that I got convicted of the wrong charges. I'm the
22 only one who knows what I did and to have these people
23 convict me on false charges hurts really bad. But what
24 can I do. No one ever has listened to me and never will.
25 I guess I'm going to have to write my on book some day. I
```

```
1 went through so much shit that I'm surprised I lost
 2 control in '95. I'm extremely sorry for what I've done.
 3 but there's nothing I can do. The victim in my case meant
 4 everything to me and meant the whole world to me, and she
 5 knew that. But she still made a bad choice and got
 6 caught. I guess she thought I would have let her get away
 7 with it, since I let her get away with so much in the
   past."
                   Those were his comments of remorse. She
10 got caught and he wasn't going to let her get away with
ii. And he's going to write a book. Undoubtedly,
12 recounting all the wrong that have been done to James
13 Chappell over the years. It's offensive.
14
                   I plays into every extremely out-dated
15 sexist view of violence in life. There's a tendercy to
16 down play this murder because they knew each other. It
17 was a domestic. And we've even shortened the phrase
10 throughout the trial, this was a DV. There was some
19 relationship, discord between the two. The two had a
20 troubled relationship.
21
                   The trouble in this relationship was, he
22 kept hitting her. The trouble in this relationship was he
23 broke her nose. The trouble in this relationship was he
24 killed her.
25
                   It's probably a certain prejudice that we
 i all sort of intermalize to some degree the idea that a
```

2 muzder between two people who knew each other isn't that 3 bad. It's not as bad or scary as a stranger murder. 4 Because if a stranger had climbed through Debbie Panos' 5 window, raped her, had beat her up, stabbed her to death 6 and then stole her car, there wouldn't by a whole lot of 7 commentary about marijuana houses on the street he grew up 3 on. There wouldn't be a whole lot of commentary about, 9 well, maybe she liked him, or maybe she wanted him back. 10 Wouldn't we discussing that at all. We'd be discussing 1! the violence of the act of that day. And that's what this 12 case is about. 13 The fact that this defendant knew his 14 victim doesn't minimize what he did. It doesn't water down 15 what he did. It doesn't make it less violent. This 16 murder was torturous and it was cruel. It was an 17 outrage. The fact that he knew who he was doing it 19 to, the person who had supported him for ten years. The 20 person who he had children with. The person who had given 21 him chance, after chance, after chance. What does he do, 22 that's the person he kills. It makes it worse. And he 23 knew, he knew when he did that who it would impact the 24 most, and he chose to do it anyway. It was the ultimate act of selfishness If

If Debbie was going to be out of his life, 6 she was going to be out of everybody's life, because he 7 had some hurt feelings. He felt abandoned. He had a

8 troubled childhood. He was confused. He was afraid.

9 Gosh, poor James. Why on earth would Debbie ever have 10 wanted to leave him. The quy who call her a slut. The

11 person who called her a whore. Why would she ever leave

12 this person. Why did she decide to move out that day.

13 Why would she have ever left the guy that pulled a knife 14 on her. The guy that broke her nose. What must she have

15 been thinking.

Mr. Patrick talked to you about the
psychologist that was called by the defense in this case,
B. Dr. Danton, who hypothesized that what happen in this case
was a situation of appearement sex, or sex out of guilt.
Because certainly there's no indication that Debbie Panos

21 may have not wanted to have sex with the defendant that 22 day.

Dr. Danton was sort of a interesting
 witness. He talked about the need to need a relationship.

25 He talked about this motorcycle syndrome, and maybe she

1 had it, maybe he had it. But there was a sort of vague $\,$

2 quality about what he was saying throughout his testimony, 3 and they say the state is trying to hide the ball. It was

4 curious he formed this hypothesis about a ten year

5 relationship after a two-hour interview with the defendant

6 and after reviewing no police reports, no witness

7 statements, no interviews with her family, nothing but the

8 defendant's version of events. But it's the state,

according to Mr. Patrick who's trying to hide the ball,

How accurate could any assessment be by

11 this doctor who purposely shielded himself from all the

12 relevant evidence in the case. Like the crime scene

13 photos, like the autopsy photos, so he could assess

14 Whether or not the defendant's version of events where he

15 offered up that this relationship was always, always 16 healed by sex, was truly what happened in this case.

17 He didn't review anything, and then when

18 confronted with his shortcomings, when confronted with the

19 fact that the version of events offered to him didn't

20 match the physical evidence of the scene, what was his

21 answer to that. Well, this is just a hypothesis. Well,

22 that's really convenient, this hypothesis that you throw

23 out there that doesn't match any of the evidence in the 24 case. The hypothesis that suggests that Debbie went from

25 being shaken and scared and rolled up in a ball on a couch

130

1 and 20 minutes later was so excited that the defendant

2 showed up so she could have sex with him. This typothesis

3 was meaningless. He didn't evaluate any of the evident,

4 and shouldn't be anything that you rely upon in deciding

5 what happened in the case.

Mr. Patrick made an interest comment. He

7 said, well, what happened in this case was that Debbie

8 tried to heal the relationship with sex, like she always9 did. Do you recall the testimony of Dr. Danton. Even he

:0 admitted that after a two-hour interview with the

11 defendant there wasn't a single incident where sex was

12 described as the healing force in the relationship.

When there was conflict in this

14 relationship, we all know what happened. He hurt Debbie,

15 and Debbie typically called for help. She called her

16 friends. She called the police. She left the house and

17 flagged down the police. There is no healing with sex

18 ever. This relationship had violent acts and Debbie asking

19 for help.

23 She call her Dina Freeman when the

21 defendant threatened to do an O.J. Simpson on her. When

22 they fought over the dresser, what did she do. Did she

23 heal the relationship with sex. No. She went down to

24 where she knew an off-duty officer was working and she

25 asked for help. When he slapped her in the face, did she

1 heal the relationship by hugging him in the car, or trying 2 to be affectionate with him. No. She got out of the car

3 and ran to the safety of her co-workers.

How about the night he broke her nose.

5 Was that healing with sex. No. She got a restraining

6 order right after that incident occurred. And when he 7 dragged her into the bedroom, threw her on her bed and

8 straddled her and held a knife on her to, as he put it,

9 get some information out of her. Was that healed by sex.

10 No. That was healed by the police coming and Claire

11 knocking on the door. There should be no surprise to

12 anyone that on the day that Debbie Panos was murdered by

13 James Chappell, she made a call for help and that call was

14 to Latrona Smith, and you all heard her testify.

15 She wasn't healing anything with sex. She

16 was't trying to appease anyone. She was calling for help,
17 help. But all of this didn't fit in with Dr. Danton's

10 heap. But all or this clon't fit in with or. Danton's
18 hypothesis, so when Mr. Patrick asked why the state chose

19 to cross-examine him, why state questioned the conclusions

20 he drew, it's because he didn't examine the evidence.

21 It's because he ignored the history of the relationship.

22 It's because his hypothesis didn't rely on any factual

23 information relevant to this case. But it's the state 24 that's hiding the hall.

We also heard from Dr. Etcoff. He did an

132

```
1 examination of the defendant ten years ago, did some
 2 psychological testing on him and asked James Chappell to
 3 describe the events that occurred and came to the
 4 conclusion that he had been truthful and honest with
                   Mr. Owens asked Dr. Etcoff about free
7 will, the percentage of free will that we all have at
 8 various moments. And Dr. Etcoff really didn't want to get
 9 into that conversation, because he didn't want to concede
10 that really James Chappell had free will throughout his
11 life. He made decisions on the 31st. He made a decision
   to threaten her on the 30th. He made a decision to give a
   false name to the police on the first. He was always
   acting with free will.
                   But it's the state that's hiding the ball,
15
16 Not Dr. Etcoff, who won't put a percentage on when you
17 have free will and when you don't. These sort of
   amorphous theories about how in control or not in control
19 we all are of our own lives. Instead he makes excuses for
   the defendant. He wasn't capable of making a positive
21 adaptive decision that day. Really. He was mad at Debbie
22 Panos for leaving him. He didn't want her to do that, and
   so he killed her. He solved his problem on the 31st.
                   Dr. Etcoff also talked about the bad
24
25 childhood that James Chappell had, his father, apparently
```

1 asked him to participate in criminal activity. We heard 2 from his brother, who had his own criminal history, and he 3 talked about an uncle who had been murdered. And 4 certainly there's no question that the defendant in this 5 case did not have an ideal childhood. He dich't have a 6 great experience growing up. But none of that outweighs 7 the violence that he inflected on Debbie Panos on the θ Dr. Etcoff talked about Mr. Chappell's 10 abusive grandmother, the corporal punishment that she 11 used. And certainly there's probably great debate about 12 the extent of corporeal punishment and how -- when it goes 13 over the line, or when it's appropriate and when it's 11 not. 15 But it's important to remember that this 16 crime wasn't done by a 9-year-old boy. This crime wasn't 17 done by a 10-year-old boy. This crime was done by a 18 26-year-old man, who wasn't living at home, who was living 19 with the mother of his three children. And this is done 20 by a 26-year-old man who had been given chance, after 21 chance, after chance in the criminal justice system. He 22 was arrested on felony charges. They got reduced to gross 2) misdemeanors. When he was getting sentenced on the gross 24 misdemeanor, he could have been sent to jail, could have 25 got probation, he got another chance.

When he messed up on probation, he could 2 have been sent back to jail, but he got another chance. A 3 chance to go to drug counseling. These were decisions 4 that a 26-year-old man made on August 31st. He chose not 5 to go to the drug counseling program. He chose to make a 6 right turn and head for Debbie Panos' house. We heard about the defendant who attended 8 special ed. We heard that to some extent the school 9 system seemed to address some of those issues. In fact, 10 he was going to a normal high school by the time he 11 reached that age. But that's when his drug problems 12 start. Now certainly the fact that he had this 13 :4 troubled up-bringing and he was in an environment that is apparently a lot of people were doing drugs than, would 16 make his life more difficult. But it doesn't erase what 17 he did on August 31st. And it doesn't mean that he didn't 18 have chance, after chance, after chance to address the 19 very drug problems that the defense now asks you to give 20 him some credit for. It doesn't erase what he did. It's just 22 part of his background. And most of us have a background 23 that is less than ideal. Most of us have had parents or 24 were raised be people who dich't do a perfect job. But it 25 doesn't diminish what we do as adults. It doesn't take 135 1 away his actions. Mr. Patrick asked an interesting question. 3 He said the state spent all this time asking these two doctors for the — about the defendant's version of the

5 events. You recall that. We went through that with Dr. 6 Etcoff, as well a Dr. Danton. Step by step, minute by 7 minute how this murder occurred. And according to the 8 defense this was just a waste of time. Why on earth would 9 the state spend time on that. But the answer is 10 completely obvious. If the defendant was not being honest

12 about what occurred, if he didn't describe events 13 accurately and honestly, how can you trust any of the 14 conclusions offered by these two doctors, who, of course, 15 relied solely on the defendant himself in making their 16 evaluations or these conclusions. 17 The issue is was he honest when he gave 18 those versions of events to the doctors. And you know by 19 now he was completely not honest. You know what he

20 described doesn't match the crime scene photos. So you 21 have to ask yourself, do you think Debbie Panos was truly 22 happy to see him on the 31st, when he climbed through that 23 window. Do you think Debbie Panos was truly waiting to

24 offer him oral sex after he accused her of being with

25 scheone else and claims that, well, I sensed schething

```
1 different when I was having intercourse with her. Do you
2 think he was being truly honest when he said Debbie Panos
3 suggested that they two go get those kids together from
4 the day care. The place where she didn't have him on the
  pick-up list.
```

You think he was being truthful when he 7 said he found this letter conveniently enough away from 8 every other letter in the car and that the two struggled 9 over it. You think he was truthful about that, the struggle that occur in the car. It doesn't match the 1) physical evidence. That letter is not in the car. And all the pieces are outside of it.

13 If he is not being truthful about what he 14 described to those doctors, then his version of events is 15 completely suspect and of course that relates to the 16 sexual assault.

The sexual assault in this case is a 17 10 really simple question. You know they had sex. His ENA is found in her vagina. No questions about that, Sexual intercourse occurred that day. So your duty, or your job as jurors is to decide a really simple question. Do you 22 think she consented to it that day. Do you think Debbie 23 Panos went from Mike Pollard's couch into the arms of the 24 defendant thrilled to be having sex with him. The man who 25 threatened to kill her the day before. The one she was

1 planning on leaving,

You think Debbie Panos changed her mind 3 that quickly, went from shaking in a ball on the couch to, 4 gee, I'm glad to see you honey. It's like a prom date, he 5 came through a window and surprised her. What a happy day 6 that must have been.

The defendant actually offered a version 8 of event that contradicts completely the physical evidence 9 in the case, because of course according to him he never

10 even ejaculated in her. Well, that doesn't match the

1) evidence at all. So could be being honest. Is it

12 possible maybe he's describing something that didn't

13 occur, didn't occur how he described it. 14 The defendant says that Debbie Panos was 15 home when he got there. Detective Vaccaro testified about 16 the time it would take for him to walk from the Department 17 of Parole and Probation over to the Vera Johnson 18 apartments and get the bike. And you know of course that 19 Debbie Panos made a call at 12:30 in the afternoon. You 20 know where she was at about 12:00 o'clock. She was at 21 Mike Pollard's house.

22 So defendant got there before she did. He 23 surprised her and when she got there the fight was on. He 24 had gone through the letters. He was mad at her. He had 25 threatened to kill her. And he knew that he was losing

1 control over her. He knew it was done and she was leaving 2 him.

3 The defendant says that when he got in the 4 car with Debbie Panos he was upset because there were beer

5 cans all over the inside of the car. Look at the photos. 6 You have the inside of the car films. It's has been

captured by the police. Theres no beer can in there.

He's lying about that.

The defendant says that he was upset 10 because he saw this box of empty beer cans around the side ii of the house. You have the crime scene photos. There is 12 no box. There's no box of beer cans. The defendant said 13 that he fought over the letter and Debbie Panos and he 14 struggled over it in car. She got ahold of it, But we 15 know the letter was not in the car. So nothing he is

16 describing is matching the physical evidence at the

17 scene.

18 So you have to wonder why it is he's 19 trying to account for a sexual contact with Debbie Panos. 20 And of course that's because he knew what the aggravating 21 circumstance was by the time he offered his version of 22 events. And he's trying to account for the evidence. But he tells such a poor story, such an 24 incredible version of events, that even the defense 25 witnesses had to concede on cross-examination that that

139

1 does sound a little odd. You bet it does.

Someone does go from being petrified and 2 3 afraid of someone, someone who's threaten is kill them, 4 to, hey, great honey, let's have sex, I'm really glad you 5 are home from jail. I've totally forgotten all those 6 threats you've made against me.

7 The next argument that Mr. Schieck made 8 with regard to the sexual assault was that there was some 9 time gap in between the sexual assault that occurred and 10 the actual act of killing. That's a pretty convenient 11 argument. So I guess the defense's position has shifted 12 slightly in that if there was a sexual assault, because it 13 didn't occur at the exact same time as the carotid stab. 14 that somehow this sexual assault didn't occur at the same 15 time as the murder. But of course you know that on August 16 31st of 1995, there was a single criminal transaction. He 17 burglarized her house when he climbed through that window,

18 and from them he was angry at her and the fight was on.

19 Look at every single one of those autopsy photos. To you

20 think anything that happened to Debbie Panos on that day

21 was done with her consent.

22 The fact that there weren't findings on 23 her genital region doesn't change the fact that she was 24 sexually assaulted. The instructions tell you, submitting

25 to sex for fear of bodily harm or submitting to sex

1 because someone is holding a knife on you, or submitting 2 to sex because somebody is beating you up, that's not 3 consent. It still counts as a sexual assault. And that's exactly what occurred in this case.

And the defendant's suggestion that 6 somehow she willingly engaged in sex, and he decided that ? somehow he felt something different about her is just 8 absolutely ridiculous. And it's insulting. And the terminology that he used to describe that encounter speaks volumes about how he thought about Debbie Panos, this piece of property, this person who was there to service 12 his needs.

Mr. Patrick spent time telling you that 13 14 James Chappell is a remorseful man, and if he could he 15 would turn back the clock. He would take it all back. 16 Well, that's quite a gesture on his part. It's really easy to offer the impossible, offer Debbie Panos, if she's out there, I would change places with you, I'd turn back 19 the clock.

When considering how remorseful or 20 21 genuinely remorseful you think this defendant is, remember 22 what he told the parole and probation officer Duffy, he 23 told him that he's tired of being in jail. He told him he 24 was ready to address his drug problem. He told him he had 25 genuinely changed his attitude. He also told him, I'll be

1 back by 1:00 o'clock. Was any of that true. He got out 2 the door and made a right turn to Debbie Panos' house. And it wasn't just Dr. Duffy that got 4 snowed by the defendant. Dr. Etcoff was snowed just as 5 well. The doctor who assessed truthfulness, the doctor who 6 applied these validity tests to the defendant's comments. 7 He said on cross-examination that had he known all of the 8 information, had he heard about the witness statements, 9 had he reviewed the autopsy photos, he might have reached 10 a different conclusion. That's probably a very accurate ii statement and probably an understatement at that. You know this defendants prior behavior.

17 cup. Does that seem like an accurate portrayal of what 18 happened when he smashed her noise and lacerated her eye 19 with an object. Was that an accident. Like these two were suddenly a couple and made some wrong turn and an

13 I'm sure he would say a bunch of things about that. He

15 referred to that in his testimony which was read to you.

16 He called it the accident that Debbie and I had with the

14 would say he's sorry about breaking her nose. In fact, he

21 accident occurred between the two of them.

This was him breaking her nose. But he's 22 23 a remorseful guy. I'm sure he'd say he's sorry about 24 pulling a knife on her and stracklling her in June. She 25 asked for that. I'm sure he was sorry about all of these

1 incidents. I'm sure he was really sad when he went in her 2 bathroom and washed off her blood. And ask yourself, how 3 much remorse do you think he felt when he said, I'll just 4 take the car because that's a quicker getaway than the

5 bike.

You know the facts of this case. You know 7 the facts suggest that he wasn't remorseful at all. How 8 remorseful do you think he was when he got to the Vera Johnson Apartments and started negotiating with LaDonna 10 Jackson and Debra Turner about the price of the car 11 rental. There had to be some real grief their as he was 12 selling them some shrimp and a pie, probably overcome with 13 grief. The reality was he was their friend, the 14

15 guy they nicknamed hip hop, and they saw him dancing 16 around acting like nothing happened. Sure he was 17 devastated. Ask yourself as he was sitting there

19 getting high that night, how much grief he was feeling 2) over the fact that his children were spending the night in 21 Child Haven. How about his statement after the death --22 23 this statement, she got caught and she probably thought I

24 was going to let her get away with schething. There's 25 some real remorse there. That's someone who truly 1 understands the gravity of what he's done.

When the defense tells you that James

3 Chappell is this troubled quy, and he's got a low IQ. He 4 doesn't have any trouble maneuvering through the system.

5 He didn't have any trouble convincing a judge to give him

6 the benefit of probation. He didn't have any trouble

7 convincing a P&P officer -- parole and probation

B officer -- to give him another chance, let him go to drug

9 treatment for himself. He was smart enough to realize

10 when he got caught for shoplifting right after the murder 11 he should give a fake name and he did. He was smart

12 enough to know he should try to ditch those social

13 security cards. And he tried to do that as well.

The defense in this case has asked you for 15 mercy on behalf of this defendant. They suggested to you

16 that he warrants mercy because of his troubled childhood.

17 And, again, you know I don't think anyone is really

18 disputing that his childhood was less than perfect.

The other main reason for mercy, according 20 to the defense, is that he had this drug problem. But, of

21 course, he made the decisions about drugs. It was his 22 decision to become involved in drugs. It was his decision

23 not to take advance of treatment. And certainly he wasn't

24 on drugs the night that he did -- or the day he did the

25 murder. He even says that.

144

143

So the question for you as jurors is not really do you have it in yourselves, or are you a merciful person because as jurors you are serving a different role in this case. You don't just owe James Chappell the consideration of mercy, you owe the victims and the State of Nevada a just sentence as well. It's probably tempting in this case to give life without, that seems like a realistic sentence. You probably would feel like you are not giving him any breaks at all with a life without sentence.

11

But you need to ask yourself, is that

12 truly justice for what he did over the years. What
13 punishment reflects what he did to Debbie Panos, not just
14 that day, but over time. What punishment reflects how he
15 degraded her by calling her bitch and slut. What
16 punishment compensates for breaking her nose. She had to
17 go to work with that object on her nose after it was
18 broken and tell her friends what happened. He humiliated
19 her. What punishment compensates her for holding a knife
20 to her in her own home so he could get information because
21 he thought she was gone too long that day.
22 This from the person who spent his days
23 taking her money and going and getting high for the day.

21 he thought she was gone too long that day.
22 This from the person who spent his days
23 taking her money and going and getting high for the day.
24 What punishment accounts for all of that. What punishment
25 is justified for taking the life of a 26-year-old young
14.

woman, a mother of three. Or how about what punishment
caccounts for Norma Penfield's loss the day. She lost her
daughter. James Chappell brutally murdered her only child
that day. What compensates her.

Ras that changed for her over ten years.
boes she still bear that loss, that burden ten years
later. I mean, really the reality is it was easy for him
after he got arrested on September 1st, '95. It was all
done for him at that point. He didn't have to deal with
the aftermath of the devastation he caused. He didn't
have to look two little boys in the face and tell then
their mother wasn't coming back. He didn't have to listen
to an eight-year-old boy ask for sleeping pills. He

the artermath of the devastation he caused. He didn't
have to look two little boys in the face and tell then
their mother wasn't coming back. He didn't have to listen
to an eight-year-old boy ask for sleeping pills. He
didn't have to listen to any of that. He didn't have to
listen to a four-year-old girl talk about — asking her
grandrother to sing like mom did. He didn't have to see
any of his children's faces when they wanted their mother
over the years when they missed her. He didn't have to
arrange, at all, for Debbie Panos; body to be transported
to Michigan. He was spared all of that. Those pieces
were picked up by Norma Penfield.

He got to sit and worry about himself and
formulate the best spin on events, the best version. And

25 tell the doctors about his problems and his troubled

) childhood. It's so typical of how he spent his whole 2 life.

He sells those children's coats and shoes,
and Debbie works three jobs so she can buy more. He beat
bebbie in Tucson and she decides to move to Las Vegas so
they can get a fresh start. He treats Debbie badly, and
she tells her own mother, well, his grandmother wasn't
nice to him, she threw him out. But the problem is what
he did on that day, on August 31st, is so treacherous and
so selfish and so evil there's truly no fixing what he
did.

There will never by exact punishment for what he did on that day. He won't be invaded in his own home no matter what punishment you impose. No matter what punishment you impose, he won't be violated before the punishment is imposed on him. No matter what you choose he won't have to endure someone beating him. He won't have his upper ann bruised. He won't have his ear bruised. He won't be hit repeatedly in the face, and he won't be aspirating, spitting up his own blood wondering where his children were. He'll be spared all of that, no matter what you choose.

23 Most importantly, no matter what 24 pumishment you choose to impose on the defendant, it won't 25 be unjustified punishment. Debbie's murder was the

: opposite. It was unjustified. She was killed for no

When you impose the punishment on him, it

2 reason. The only reason why Debbie got killed that day is 3 because he didn't like her leaving the relationship.

9 Punishment is different than that.

7 go to drug treatment that day. He chose to climb through 8 that window. He chose to pick up a that knife. He chose 9 to violate her. He chose to kill her. And then he chose 10 to leave it all behind. But now you're the decision 11 maker. He's not the decision maker anymore. And he

6 will be because of things he chose to do. He chose not to

 $\ensuremath{\mathbf{12}}$ doesn't get to dictate the end, the final chapter of the

13 relationship between James Chappell and Debbie Pancs.

14 That's your decision. That's your call, collectively.

15 All those decisions that James made over

16 the years to spend money, to hit Debble, to sell her 17 children's clothes, he's out of the decision at this

18 point, and that's your role as jurors.

18 point, and that's your rore as jurors.

19 We've all said and you all know at this 20 point that the punishment should fit the crime. And when

21 you consider the decade of torment that he inflicted on 22 this woman, the loss that he imposed on three young

23 children, the loss that he imposed on her mother, and his

24 attitude after the fact, there's only one punishment and

25 that's the death penalty.

this back to testify in this proceeding. That was all. THE COURT: Mr. Schieck.

of those witnesses of the eight or nine that they sent

MR. SCHIECK: Your Honor, I don't know --10 I haven't reviewed the Supreme Court opinion for some 11 time. Some of those witnesses related to the original 12 petition and supplemental petition, which address both 13 quilt and penalty phase issues. Certainly I'm familiar 14 with all of the names of those witnesses, and there were 15 reason why most was -- that weren't called, weren't 16 called.

17 But James Ford and Ivory Morrell were 18 here, ready, willing, and able to testify. However we ran 19 rather long. They had to go back. We already made a 20 record on that.

21 We did have Fred Dean, Benjamin Dean, and 22 Charles Dean testify. Their mother, Barbara Dean is very 23 ill on three times a week dialysis and can't travel.

24 Clara Axon, is deceased. Mr. Bardo is gone somewhere that

25 no one can find. We did speak with him years and years

1 ago in preparation for the supplemental petition, but he 2 disappeared before we could get him to sign an

3 affidavit.

Likewise, with Mr. Green also. He has 5 resurfaced. He's in prison in Arizona and wouldn't have 6 been available. We didn't feel he would be a good witness 7 to call.

So of all of those names of the witnesses 9 we called the witnesses we felt were necessary and 10 appropriate in this penalty hearing.

11 THE COURT: Just for the record, you all 12 were the ones that pursued the post-conviction relief on 13 behalf of Mr. Chappell in front of Judge Douglas, 14 correct.

MR. SCHIECK: Correct. That was me in 15 16 private practice, your Honor.

17 THE COURT: So I trust that in pursuing 18 that claim, then subsequently prevailing on this 19 post-conviction claim as to the penalty hearing and 20 undertaking an investigation of the same thing that you 21 were able to contact everybody that was available for 22 contact, investigated in the manner you felt was 23 appropriate to put together witnesses you thought were

24 appropriate for the hearing we've had over the last 25 week-and-a-half.

MR. SCHIECK: That's correct, your

2 Honor.

I can state that in preparing the 4 post-conviction petition alleging ineffective counsel and 5 going to investigate, you tend to make a lot of 6 allegations concerning what should have been done by trial 7 counsel. When you actually get down to later on in the 8 proceeding where you're actually making decisions on who 9 to call and who not to call, scretimes you make different 10 decisions The point in this case is none of those people II were even talked to. That was the original complaint, 12 none of these people were -- these names were provided to 13 previous counsel and were never even contacted or talked

THE COURT: That was --15 16 MR. SCHIECK: That was the basis of the 17 allegations to begin with, which eventually ended up in 18 the Supreme Court.

THE COURT: That was the issue I raised 20 that with a broad stroke on post-conviction you'll -- when 21 there hasn't been any or little investigation you don't 22 know even all these names provide who's got the

23 information that's relevant to present during the hearing.

24 So bring of the post-conviction claim and alleging that

25 none of these witnesses were contacted, you kind of have

to do that without nothing everything everybody is going

2 to say, nobody talked to them in the beginning. So to the extent that after defense

I prevailed on the issue then you undertook to investigate 5 to prepare for a new penalty hearing, the fact that things

6 get whittle down to what they were today, is not 7 unreasonable, but obviously appropriate as well.

I'll just state for the record, there was 9 a great deal of testimony from a number of people that 10 grew up with Mr. Chappell, family members, as well as

11 friends to explain his childhood and the dynamics of 12 things in his home with his grandmother as well as,

13 siblings testifying to a certain degree, and some of his

14 friends testifying and information from affidavits being

15 brought out about similar things.

16 In addition to the three expert witnesses 17 that defense produced. So -- anything else, Mr. Owens.

18 MR. OWENS: No, thank you, your Honor. 19 THE COURT: All right. Thank you all very

20 much.

2: (Jury deliberating.)

What I'm going to tell the attorneys is that after I release you here -- I'll be available to talk to you for a few minutes, if you wish -- I'll have Leslie take you back downstairs so you can get your vouchers, and if the attorneys wish to try to you for a few minutes they can meet you downstairs. I would advise you that, to the extent you have a little bit of time and can give them a few minutes, please go ahead and talk to them. It's very valuable for the attorneys, and the best way for us as attorneys to learn a little about, not only our performance as attorneys, but things you think about the case, the way things are presented, is to talk to you all because you are the representatives of the community that hear the trial, watch the process unfold and can give them the best input on how that unfolded in this particular case.

I know it's been a long week-and-a-half, but nonetheless, if you have a few minutes, I'd appreciate it if you would talk to them, and just chat with them for a few moments.

With that, I will tell you that it's obviously been a very difficult case. I realize that. It's never an easy thing to sit as a jury on a capital

penalty hearing. Nonetheless, over the last 1, 2 week-and-a-half you have everything expected of you, not 3 only by the court and the attorneys, but by your fellow 4 community members as well. 5 I thank you for the service you have given to the court system and the community. 6 7 You are free to talk to whomever you want 8 I encourage you to chat with the attorneys, but 9 whether it's the attorneys or anybody else, you do not 10 have to talk to anybody that you do not want to. But to the extent somebody persists in 11 12 trying to talk to you after you told them you do not wish 13 to talk to them about the case, let Leslie know that, if 14 it's today or any other day, you can contact my chambers 15 and we'll do what we need to to help you out in that 16 regard as well. But that's your decision. 17 Co-workers, family members, friends, you 18 can talk to whoever you want to now. But you certainly don't have to. 19 20 Thank you, very much. You all can go with 21 Leslie. 22 Still on the record, outside the presence. 23 Does anybody have anything for the record? 24 MS. WECKERLy: Not on behalf of the 25 State.

1	MR. SCHIECK: Your Honor, I don't know if
2	the court would consider remanding him back to High Desert
3	as opposed to being held here at the Detention Center, due
4	to his custody status.
5	THE COURT: I don't have a problem with
6	that. Does the State have a problem?
7	MR. OWENS: I won't take a position on
8	that.
9	THE COURT: I will order that Mr. Chappell
10	be returned to High Desert State Prison. If the State
11	would prepare a transport order and have him come back on
12	May 10th, for formal sentencing.
13	We'll be in recess. Thank you all very
14	much.
