- 1 A. Depending on how I move or my position, it
- 2 will come and go from that.
- 3 Q. Overall has the pain in your neck and your
- ā right buttocks decreased over time or increased over
- time since the fall?
- A. Increased. Excuse me. That's not exactly 6
- accurate. The pain in my neck has increased, and the 7
- pain in my buttocks is about the same. 8
- Q. The pain in your buttocks, is it sciatica? 9
- A. I've been told that it's sciatica. 10
- 11 Q. And, I'm sorry, the pain in your neck has
- increased and the pain in your buttocks has decreased; 12
- is that correct? 13
- 14 A. No, that's about the same.
- 15 Q. It's about the same. Okay. I'm sorry.
- 16 Do you have an understanding as to why your 17 neck hurts?
- A. A general understanding. 18
- Q. What is that understanding? 19
- 20 A. My discs are damaged and I have nerve
- 21 compression.
- Q. Are you currently under any treatment 22
- 23 relating to your neck?
- 24 A. I need to see other doctors and then I'm
- going to get the surgery on my neck.

A. Yes. 1

9

15

22

- Q. And what do you understand the surgery on 2
- your back to involve? 3
- A. He says I have three flat discs. I mean, he 4
- 5 says they're like flat tires.
- 6 Q. Okay. And do you have any specific
- 7 understanding as to what the surgical procedure would
- be to resolve that issue or to fix those discs? 8
 - A. Only that it's even harder than the neck.
- Q. Do you have the neck surgery scheduled as of 10 11 now?
- 12 A. I can't. He said for me to get an eye
- 13 clearance first.
- 14 Q. What is an eye clearance?
 - A. After the MRIs my eyes started detaching --
- the left eye started detaching, and so now both of
- 17 them are detaching.
- Q. Okay. So before you can schedule the neck 18
- surgery, the doctor wants to make sure your eyes 19 20
 - are --
- 21 A. That has to stop detaching.
 - Q. Okay. And by "detaching" do you have an
- 23 understanding what that means just from a layman's
- 24 perspective so I understand it?
- 25 A. There's a risk of the retina detaching.

- Q. And have either of your retinas in your eyes
- be on your neck? Is it going to be a fusion or --

O. And what do you understand that surgery to

- A. Three discs.
- Q. And they're going to fuse three discs? 4
- A. Well, they're going to -- I can't tell you 5
- specifically, but they're going to work on three 6
- Q. Okay. And the pain in your neck, do you 8
- contribute that to the fall at the Wynn on February 9
- 8th of 2010? 10
- A. Yes. 11

1

- Q. And with regard to pain in your buttocks, 12
- are you currently seeking treatment for that? 13
- A. That -- with the same doctor after the neck 14
- 15 surgery, then he'll do the back surgery.
- 16 Q. Your understanding is that the pain you're
- 17 experiencing relates to your back but travels down
- 1.8 into your buttocks?
- A. Yes. 19
- O. And that's Dr. Cash as well? 20
- 21 A. No.
- 22 O. Who is that doctor?
- 23 A. Dr. Dunn.
- Q. And would Dr. Dunn be the one performing the 24
- surgery both on your neck and your back?

- 1 detached? 2
- 3 A. I need to go back and get it checked again
- because, you know, they're monitoring it for that. 4
- Q. Okay. But as of now are they normal? Are 5
- there issues with your --6
- A. They're not normal.
- Q. Okay. When did you begin having issues with 8
- your eyes? 9
- 10 A. The issue we're talking about?
- Yes. 11 Q.
- After the MRIs in June. 12
- 13 Q. June of 2014?
- 14 Yes. Α.
- 15 Q. Okay. Do you attribute the current issues
 - with your eyes to the fall that took place on February
- 17 8th of 2010 at the Wynn?
- 18 A. Maybe to the treatment that was necessary
- 19 after that.
- O. The treatment on your eyes after that? 20
- 21 A. Like X-rays and MRIs.
 - O. Okay. But that doesn't specifically relate
- 23 to your eyes, does it?
 - A. I'm sorry?
 - Q. Well, and backing up, so do you know what

- 6 A. Before?
- 7 Q. Yes.
- 8 A. No, I started with that, I believe.

- 11 Q. Did you valet or --
- 12 A. No.
- 13 Q. So you parked in the self-park. Do you know
- 14 which garage it was?
- 15 A. No. I mean, I don't know what you call
- 16 it.
- 17 Q. Where was it located, to the best you
- 18 recall?
- 19 A. I usually parked in that garage. I parked
- 20 there many, many times, same garage, and it's the one
- 21 that when you park there, you go into the Wynn and you
- 22 pass, I think, the Ferrari place.

- A. Could have been more than two hours.
- 2 O. Okay. And then at the conclusion of lunch
 - who paid the bill, do you recall?
- 4 A. I think I got a comp.
 - Q. Okay. Why would you get a comp?
 - A. Because it was -- my usual routine I'd go
- 7 and they'd give me a comp for lunch and give me some 8 play money.
 - Q. Do you have a Red Card with Wynn?
- A. I did.
 - Q. And did you gamble at Wynn?
- 12 A. That day?
 - Q. No. Generally speaking.
- 14 A. Yes.
- 15 Q. Okay. Did you gamble that day?
- 16 A. Not really.
 - Q. What does that mean, "not really"?
- A. It means that when I was trying to get back
- 19 to my car, I sat at a lot of machines that I typically
- don't play, and so I sat there, and it took like
- 21 probably -- I don't recall right now, but a couple
- 22 hours to get to my car and sitting at a lot of
- 23 machines. So if I gambled, it was just very little of
- 24 pressing the button.
- Q. And this would have been after the fall but

Page 42

- Q. So when you arrived at the Wynn, you parked 1 before you got to your car?
 - A. Trying to work my way to my car.
 - Q. Okay. And you do believe you think you
 - 4 gambled at that point in time?
 - A. Maybe the amount that they put in my card.
 - 6 Q. Okay. So it would have been comped play or
 - 7 something like that?
 - A. I think so.
 - 9 Q. Okay. Is there a particular reason why you
 - 10 chose the Wynn buffet on that particular day? Was it
 - 11 because you had a comp or just wanted to go to the
 - 12 buffet?
 - A. It's my favorite buffet.
 - 14 Q. When you were to gamble at Wynn, what games
 - 15 did you play?
 - A. Just the video poker.
 - 17 Q. Did you always use your Red Card?
 - A. I tried to.
 - 19 Q. How often would you go frequent the Wynn
 - prior to the fall?
 - A. I know I was there a couple weeks before
 - 22 that. And I was there many times since they opened.
 - Q. Was that your favorite place to gamble?
 - A. No, not necessarily. It's my favorite place
 - 25 to eat.

- 1 Q. Okay. Then after you retrieved your coat, where did you go?
- A. Then I went out of my way to go through the gardens.
- Q. All right. When you say you went out of your way to go through the gardens, what do you mean by that?
- 8 A. I meant instead of taking the direct route
 9 to where I was going, I went around to go through the
 10 gardens because they usually have it decorated really
 11 pretty.
- Q. Where would you have exited the Wynn to go on your walk? Would it have been through the mall?
- A. At this time you would have to show me a picture, but I would have gone a different way, through the casino, I think.
- 17 Q. Okay. So you started walking through the 18 area where all the plants are.
- 19 A. Yes.
- Q. Did you have any eye issues on that particular day?
- A. No, other than I wear glasses to drive,
- 23 that's it.

- Q. Was it your normal practice to go the Wynn, eat at the buffet and go for a walk?
- 3 A. Yes.
- Q. Would you generally eat alone or would you go with someone?
- 6 A. Well, I would eat alone or go with my

- Q. Okay.
- A. I went with my boyfriend a lot and I went
- 10 alone a lot.
- Q. And is it fair to say that you were familiar with the layout of the Wynn and its exits and

 - A. Well, just my routine.
- Q. Your routine. And was it your routine to always walk through the arboretum, I guess is what I'd call it, inside?
 - A. The gardens?
- 19 Q. The gardens, that's fine.
 - A. Yes.

 - A. Yes.
 - Q. Okay. I'm going to give you a pen --
 - although there's pens right in front of me -- could you place an arrow from the general location you were coming from and the direction you were traveling to?
- A. Yes. I started over here (indicating). Do you want an arrow?
- 15 Q. Yes. Yes, please.
 - A. Okay. Start here and then I keep arrowing the way I went?
 - Q. Yes, sure. Your general route, that's fine.

- 6 A. I'm not sure how long they kept me there,
- 7 sitting there. It was -- I wasn't aware of the time
- other than Miss Elias had given a time and I
- believe -- because I had written it down; it was 2:30.
- So after they finished up, I don't know how long I was 10 with them. 11
 - Q. Was it longer than an hour? Less than --
- 13 A. Oh, no, no. It was just long enough for him
- 14 to fill out his report and, you know, for them to
- 15 question me, and he took his picture. And so I'm not

 - A. So no.
- Q. Let me have you turn to 479 of Exhibit 1. 9 10 Okay. Do you recognize this document?
- 11 Well, I've seen it recently.
- 12 Q. Okay. What is it?
- 13 A. It says, "Guest Accident or Illness Report."
- O. Did you fill out this document or somebody 14

- 16 A. Somebody else.
- 17 Q. Who?
- 18 The security officer. Is that Corey?
- 19 Q. I don't know who it is offhand, so -- okay.
- But you didn't handwrite this out at all? 20

- Q. And what did you say in response?
- A. And I said it was hurting to sit, my foot
- was hurting, my hands and arms hurt, and I couldn't --
- so that's why he filled out the form, and I was
- 9
 - Q. You told him you were dazed?
- 11 A. I told him that I wasn't able to -- I
 - believe I told him I wasn't really able to -- well,
- 13 fill out the forms or - so he did things for me. So 14
 - he did that for me.
- 15 O. Okay. Then what happened with the
- 16 discussion between you and the security guards? Was
- 17 there one or just two -- or was it two or was there
 - just one security guard?
- 19 A. I believe there was one.
 - Q. Okay. Go ahead and continue as far as what your communications were with the security guard.
- A. Okay. So I told him it hurt to sit, my foot 22
- was hurting, hands and arms were hurting and -- you 23 24
 - know, my shoulder, my hands and arms.
 - So he took the picture of my foot, and then

- 3 Q. I'm going to jump around a little bit, so I 4 apologize.

In looking at page 470 of Exhibit 1, you had previously marked the location of the liquid substance on the floor. Is there any particular reason why, when you were walking, you were hugging, I guess, this sort of raised divider near the garden?

- A. Oh, because I was turning the corner. 10

 - Q. Okay. You didn't see any additional people walking through or anything like that?
 - A. If there were any, it wasn't very many.
- 11 Q. Okay. And then after your interaction with 12 the security officer, Mr. Prowell, you previously
- 13 testified that it took you a period of time to go from
- 14 the casino to your car, and I believe you had 15 testified that you had gambled or you thought you had

- Q. But other than the anxiety, nothing else? 13
- 14 A. I believe that was it.

- A. How I describe what I was experiencing.
- Q. And this was back in the '80s?
- A. Late '80s. 10

12

- 11 O. Late '80s. Okay.
 - What is hypermobility syndrome?
- 13 A. It's just that because of cleaning teeth and 14 because my fingers were extra limber, they move more.
- So it's just limber, and at that time I just didn't 15
- have the strength to keep them from bending anymore 16

- Q. But you were diagnosed with having 22
- 23 hypermobility syndrome?
- A. No. 24
- Q. Is that just something you -- is that 25

- A. Yeah. I was told, "Well, you're limber.
- Maybe you have that." But those two things, those are
- hypermobility syndromes. That's, you know -- they
- said "You're limber. Maybe that's"...
- Q. Okay. And at some point in time prior to

- A. Only in that I don't take drugs.
- g Q. It's just a conscious decision on your part 10 not to take --
- A. Conscious decision. I try to do the best 11
- way possible. If I need an antibiotic, I need an 12
- 13 antibiotic, but. . .
 - Q. So your reluctance to take pharmaceutical medications, that's purely your choice? There's no medical reason for it?
- 17 A. Well, if it's something that will help me, 18 I'll take it.
- Q. When you're prescribed medication by medical 19 professionals, does that mean that medication is 20 21 needed by you?
 - MS. MORRIS: Object to foundation.

- 15 O. What were those tests?
 - A. Well, I know some of them. They did a CAT
- 17 scan.
- 18 Q. Okay.
- A. And I'm not sure which other ones they take, 19

EXHIBIT 4

IN THE SUPREME COURT OF THE STATE OF NEVADA

SCOTT MOSTAD,
Appellant,
vs.
PARK PLACE ENTERTAINMENT
CORPORATION; PARBALL
CORPORATION; AND BALLY'S - LAS
VEGAS, D/B/A BALLY'S OF LAS
VEGAS.

Respondents.

No. 46597

FLED

NOV. 1 3 2007.

CLERK OF SUPRIME COURT

DEPUTY CLERK

ORDER OF AFFIRMANCE

This is an appeal from a district court summary judgment in a tort action. Eighth Judicial District Court, Clark County; Michelle Leavitt, Judge.

After appellant Scott Mostad slipped and fell, allegedly having stepped on an unknown foreign substance in the buffet area at Bally's Hotel and Casino, Mostad filed a complaint against respondents Park Place Entertainment Corporation, Parball Corporation, and Bally's-Las Vegas (collectively, "Bally's"), alleging that Bally's had negligently maintained its premises.

Bally's filed a summary judgment motion, arguing that Mostad's negligence claim failed as a matter of law because Mostad had failed to demonstrate any factual issues with respect to whether Bally's was responsible for the foreign substance on the property or had any actual or constructive notice of its existence. Bally's noted that Mostad failed to present any deposition testimony, affidavits, or other evidence demonstrating how the substance got on the floor or that Bally's had actual or constructive notice of the substance's presence.

Mostad opposed the motion, arguing that he would present evidence and witness testimony supporting his claims at trial.

Supreme Court of Nevaca

(O) 1947A -

07-24660

On December 7, 2005, based on Bally's arguments, the district court granted Bally's motion for summary judgment. Mostad's timely appeal followed.

This court reviews orders granting summary judgment de novo.¹ Summary judgment was appropriate here if the pleadings and other evidence on file, viewed in the light most favorable to Mostad, demonstrate that no genuine issue of material fact remained in dispute and that Bally's was entitled to judgment as a matter of law.² To withstand summary judgment, Mostad could not rely solely on the general allegations and conclusions set forth in his complaint, but must instead have presented specific facts demonstrating the existence of a genuine factual issue supporting his claims.³

Upon our review of the record and consideration of the parties' appellate arguments,⁴ we perceive no error in the district court's summary judgment. Although the presence of a foreign substance on the floor may be contrary to ordinary care,⁵ liability for any injuries Mostad sustained

¹See Wood v. Safeway, Inc., 121 Nev. 724, 729, 121 P.3d 1026, 1029 (2005).

²Id.

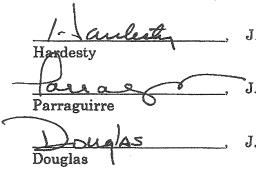

³<u>Id.</u> at 731, 121 P.3d at 1030-31.

⁴We decline to consider any issues that Mostad presented in his reply brief that were not first raised in his opening brief. <u>See City of Elko v. Zillich</u>, 100 Nev. 366, 371, 683 P.2d 5, 8 (1984) (providing that a party may not raise a new issue or argument for the first time in the reply brief).

⁵See Asmussen v. New Golden Hotel Co., 80 Nev. 260, 262, 392 P.2d 49, 49 (1964) (noting that a business owes its customers a duty to keep its premises in a reasonably safe condition for the customers use).

after slipping in the substance and falling may be found only if Bally's employees created the condition or had actual or constructive notice of its existence.⁶ Thus, in order to defeat Bally's summary judgment motion, Mostad was required to offer evidence suggesting that the employees had spilled or otherwise deposited the substance on the floor, or that they had constructive notice of its existence.⁷ Accordingly, because Mostad failed to do so, he failed to demonstrate any material factual issues with regard to Bally's negligence, and we

SUPREME COURT OF NEVADA

⁶<u>Id.</u> at 262, 392 P.2d at 50; <u>Sprague v. Lucky Stores, Inc.</u>, 109 Nev. 247, 250, 849 P.2d 320, 322-23 (1993).

⁷<u>Wood</u>, 121 Nev. at 731, 121 P.3d at 1030-31; <u>Sprague</u>, 109 Nev. at 250, 849 P.2d at 322-23.

⁸We reject Mostad's view that a foreign substance on the floor created a per se inference that Bally's was responsible or had actual or constructive knowledge of the substance's presence on the floor before Mostad's slip and fall. "The nonmoving party 'is not entitled to build a case on the gossamer threads of whimsy, speculation, and conjecture." Wood, 121 Nev. at 732, 121 P.3d at 1031 (quoting Bulbman, Inc. v. Nevada Bell, 108 Nev. 105, 110, 825 P.2d 588, 591 (1992)).

DEPARTMENT NO. V

PLAINTIFF'S ERRATA TO OPPOSITION TO DEFENDANT'S MOTION FOR SUMMARY JUDGMENT

Hearing Date: 09/17/2015 Hearing Time: 9:00 a.m.

COMES NOW, Plaintiff YVONNE O'CONNELL, by and through her counsel Brian D. Nettles, Esq. and Christian M. Morris, Esq., of the Nettles Law Firm, and hereby submits the following Errata to Plaintiff's Opposition to Defendant's Motion for Summary Judgment filed on July 27, 2015, to include Gary A. Presswood, ScD, PE's expert report dated April 10 2015 which was inadvertently omitted. Mr. Presswood's report should have been included as Exhibit 6 to the Opposition and is further evidence that Wynn was on notice that the walkway upon which Plaintiff fell was hazardous due to the nature of the marble. Plaintiff's expert, Gary Presswood, stated in his report, that the walkway where Plaintiff Yvonne O'Connell fell "should be

Re:

YVONNE O'CONNEL vs. WYNN LAS VEGAS, LLC

Case No. A-12-655992-C

Dear Ms. Morris:

At your request, I analyzed the site of an incident wherein your client, Yvonne O'Connell, slipped, fell, and sustained significant injuries. Pursuant to this assignment, I reviewed data provided by your office in addition to technical publications contained within my professional library. I also inspected the site of this event wherein I tested for the traction on the walkway where this incident occurred. This letter shall serve as my report.

INCIDENT

On February 8, 2010, Yvonne O'Connell was a patron at WYNN LAS VEGAS (hotel and casino) located at 3131 Las Vegas Boulevard South, Las Vegas, (Clark County), Nevada. At approximately 2:30 in the afternoon she slipped and fell into a landscape display within the foyer adjacent to the south valet. Ms. O'Connel reported a "large liquid substance on the floor" which, according to the Incident Data (Incident File #IN20100002152), was verified by "Manager (Yanet) Elias who, according to Security Officer Corey Prowell, "stated upon her arrival, she noticed the liquid substance on the floor; she immediately assigned an attendant to clean up the area in order to prevent further incidents.....1."

Reportedly, security video cameras failed to capture this event.

ANALYSIS

I inspected the site of Ms. O'Connell's slip and fall on April 1, 2015, at which time I photographed and measured critical site elements. I also measured for the walkway's slip-resistance in the area of her fall.

I tested for the slip-resistance or traction qualities in two areas of the walkway, within close proximity to each other. Both areas tested were within the building, near the south valet entrance, and close to a curbed landscaped feature. One area tested was along a decorative mosaic tiled surface. The second area tested was along a smooth marble surfaced section of walkway. Both walkways were found to be clean and were located slightly beyond and to the west of a carpeted oval along the walkway entrance.

Incident File Full Report, Page 1 of 3, Bates; WYNN-O'CONNELL00511-00513.

Inspection/Slip-resistance.

I tested the floor surface for the static coefficient of friction (SCOF) which is a determination of the relative slipperiness or quality of traction along a walkway. A Horizontal Pull Slipmeter (HPS) was used in accordance with strict test protocol as established by the American Society of Testing and Materials (ASTM) in accordance with ASTM Stnd. F609 which requires the use of neolite as a test specimen. I also tested with ASTM mandated leather for specification testing as established by ASTM Stnd. D-2047.

The minimum permissible SCOF value for a *slip-resistant* walkway as defined by ASTM Stnd. D-2047 is 0.5 (read, "zero, point five"). Greater values indicate higher degrees of slip-resistance while values lower that 0.5 indicate slippery surfaces, the lower the value, the less traction. Note, while other sources may reference the requirement of a "slip-resistant" walkway without definition or minimum acceptable value, ASTM Stnd. D2047 is the only credible source where the 0.5 standard for slip-resistance can be found.

I tested in an "in situ" or "as found" condition for both neolite and leather. Following the initial utilization of neolite as a test material, I tested both areas with the Federally designated leather (Federal standard KK-L-165C). Neolite was used because that material is referenced in the current F609 standard and is also used by some other testing devices; however, there is no credible standard of slip-resistance for neolite or any test material other than the Federally designated leather. There is, however, an acceptable standard for leather (Federal standard KK-L-165C) as described in ASTM Stnd. D2047.

Note the tests for the mosaic tile are available but unreliable due to the small tile sizes (3/4" square +/-) which results in higher than realistic readings due to the tile edges "catching" the test feet thus yielding inconsistent readings. The following indicates the results of my tests on the smooth marble section of walkway.

SCOF_{dry}

	Neolite/in situ	Leather/in situ
Max.	0.38	0.26
Min.	0.33	0.25
Avg.	0.36	0.26-

The low test values obtained on the clean dry surface (i.e., less than 0.50), indicate a slippery surface in the best of conditions (i.e., clean and dry). As a result of my tests and technical evaluation, the subject floor should be considered potentially hazardous to pedestrians.

In the event a floor is wet as reported, I have found the SCOF of a walkway wetted with distilled water is typically about 70% that of the tested dry value; however, I did not test for a wet surface at the site of this event since (1) the referenced ASTM test standards do not permit testing on any debris covered or wetted surface for specification determination (2), the quantity and quality of the contaminant and other unknown variables are often unknown and (3), there is no acceptable standard of slip-resistance for a wet surface. Tests for any wet or contaminated surface would be speculative at best and not expected to provide

scientifically credible and reliable results except, by analogy, to relate a wet walkway to roadway surface conditions following a Las Vegas area rain. I suggest most everyone would recognize the increased degree of slipperiness and hazard on a rain-surfaced local street as should also exist for a wet walkway.

To reiterate, the actual precise referenced 0.5 value for slip-resistance is contained in only one credible source as a standard for a "slip-resistant" walkway surface. In ASTM Standard D2047 which contains the test protocol for a "James Machine," sections 3, 4, & 5 contain detailed reference to 0.5 as an acceptable value of "slip-resistance" and defines "leather, conforming to Federal Specification KK-L-165C" as the only material to be used for "specification testing" (such as the 0.5 specification).

I am critical of test devices with support the use of neolite as a test specimen particularly since there is no reliable standard for neolite. One of these devices, still in use by some, was withdrawn by the ASTM in 2006 as an approved test protocol. Within the ASTM D2047 standard there is also found the following critical caution:

Note 3—The static coefficient of friction measured with elastomeric compositions are frequently as much as 0.3 to 0.5 higher than leather.

Elastomeric compositions include neolite and rubber and are not suited for specification testing.

Although the purpose of ASTM Standard D 2047 is for the James Machine (a laboratory device), it is critical to emphasize that this standard is the only credible standard which dictates a minimum acceptable value for the determination of the static coefficient of friction. Furthermore, this standard mandates a single test material (i.e., Federal standard KK-L-165C leather) for determination of a value of "specification." Any other test material (such as neolite) is not supported by any recognized and credible entity for "specification" testing.

The excessively smooth floor found in the area of Ms. O'Connell's slip, fall, and injuries, provides only minimal traction and is hazardous to pedestrians especially when wet. It has also been my experience that most slips and falls occur on relatively smooth walkway surfaces as found at the site of this event although additives which are virtually undetected can be added to a potentially slippery floor surface and significantly increase the safety of a smooth walkway.

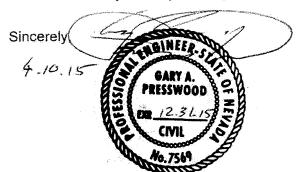

OPINION

It is therefore my opinion, as a licensed professional engineer in the State of Nevada and other states, and as one proficient in the analysis and evaluation of safe pedestrian walkways, that the marble walkway where Yvonne O'Connell slipped, fell, and sustained significant injuries should be considered hazardous to pedestrians especially when wet as evidenced and verified by Wynn employees. Finally, the evidence does not indicate that Ms. O'Connell contributed to this event in any way except to have walked in an area she expected to be free of unexpected hazards...

This concludes my report; however, you are encouraged to contact me if you require additional information or clarification. During the course of this litigation, I reserve the right to augment this report especially if additional information becomes available. I assure you, the opinions expressed herein are rendered with a high degree of engineering and

scientific certainty. Finally, thank you for selecting us for this task.

DETAILED ROADWAY EXPERIENCE

Gary A. Presswood, ScD, PE

A licensed Civil Engineer (in 6 states), Dr. Presswood designed and directed the design, construction, and maintenance of numerous roadways in many states and some foreign countries.

1975-1984 City Engineer, City of Mt. Vernon, Illinois

As City Engineer for Mt. Vernon, Illinois, Dr. Presswood had ultimate technical authority over the design approval for new municipal streets. He also directed all street maintenance and was a principal participant in Mt. Vernon's award of a \$6.43 million Urban Development Action Grant (UDAG) which included development of major access roads and utilities for industrial development.

1984-1987 Site Development Department Head, Reynolds, Smith and Hills, Jacksonville, Florida

Site Development Department Head for the international architectural, engineering and planning firm of Reynolds, Smith, and Hills, Dr. Presswood designed numerous local roads and street, collector routes, arterial roadways and interstate highways. The majority of roadway design was for Southeast U.S. locations and clients including U.S. Departments of the Army and Navy and NASA (Shuttle Rocket Booster Rehab. Facility). Dr. Presswood also designed roadways for projects located in the Bahamas, Spain and Saudi Arabia.

1987-1992 City Engineer, City of Las Vegas, Nevada

Las Vegas City Engineer, Gary Presswood, had ultimate authority for the design, construction and maintenance for all roadways within the City, including the widening of West Sahara Avenue and the design and construction of the Summerlin Parkway and related streets, intersections, and traffic control devices. Summerlin is a major master-planned community (30,000 +/-) for which Dr. Presswood was the City's designated authority for all development and approval. The Summerlin roadway system included innovative "roundabouts", typically a European roadway development.

1992-Present President, Gary Presswood Inc. dba The Accident Expert™, Las Vegas, Nevada

Dr. Presswood is the principal in the forensic and design firm of Gary Presswood Inc. He has served as a forensic engineer and expert witness in over 1,000 cases, approximately 40% of which relate to vehicle accident reconstruction and/or roadway design and maintenance. Dr. Presswood also serves as a design and construction consultant for land development projects which include roadway design and construction and traffic control (i.e., signage, striping, lighting, etc.)

BUSINESS STATEMENT

To provide the most expeditious, convenient and highest quality service to our clients, **The Accident Expert™** (Gary A. Presswood Inc.) operates with the latest information and telecommunications technology. We encourage you to use email or our central toll-free numbers for phone and FAX. This will assure your case will be processed quickly, and immediately directed to the appropriate office location. (888.XPRT123 Office &

888.XPRT456 FAX)

When you are ready to retain our services, we ask you to provide relevant data such as complaint documentation, deposition transcripts, statements, photos, and other items you may determine to be critical to your needs.

Our goal is to treat each assignment with the expertise it deserves, without compromising quality. In addition to meeting your technical requirements, we will provide you with timely financial statements, on a monthly basis, detailing financial obligations under our contract. Please note that our work may cease, or be suspended temporarily, on any assignment with an outstanding balance due in excess of \$3,000. In addition, all our fees must be paid in full prior to attendance for Depositions, Hearings, Trial, or other court appearances. Under ethical obligations and standards mandated by the engineering profession, at no time will our charges be reduced as a result of the outcome of a case.

Thank you for choosing **The Accident Expert**™ (Gary Presswood Inc.) and accepting the terms of this BUSINESS STATEMENT as part of our contract.

Please Note: It has come to our attention that recently, reference to this firm and/or the name "Gary Presswood", has occasionally been made to opposing attorneys as having been retained as a technical consultant or expert regarding a particular case without our knowledge or retention. In addition and although rarely, refund of retainers have occasionally been requested wherein a case may settle prior to any significant technical input by this firm although our firm may have been referenced in a professional capacity. Obviously we appreciate your trust in our experience and expertise however; we cannot allow our firm to be used in such a manner. Accordingly, while we believe these to be rare occurrences, retainers will not be returned based on outcome of a case or our minimal involvement.

As in the past, retainers serve to primarily secure exclusive representation as your agent regarding a particular case and to initiate case review and research as needed. We trust you understand our position and thank you for your interest in our firm. Finally, we offer best wishes for the success of your respective businesses.

MEMORANDUM OF POINTS AND AUTHORITIES

I. INTRODUCTION

This is a simple slip and fall case. Plaintiff alleges she sustained injuries when she slipped on an unidentified liquid ("foreign substance") on the mosaic tile in the atrium of Wynn's property in February 2010 (the "Incident"). Plaintiff has brought a claim for Negligence against Wynn.

Presswood, Plaintiff's purported expert witness, should be precluded from testifying at trial in this case because he cannot meet the "Assistance Requirement" of NRS 50.275. Specifically, 1) Presswood's purported expert opinion is irrelevant because he failed to analyze the area where Plaintiff unequivocally claims she slipped in Wynn's atrium; 2) his test results are completely unreliable because Presswood failed to properly prepare and calibrate the device that he utilized to conduct his slip-resistance testing at Wynn's property; 3) Presswood concedes there is no acceptable standard of slip-resistance for a wet surface, making his testing entirely speculative; and 4) his alleged laboratory testing, which he bases his opinion, is not the product of reliable methodology.

Therefore, Presswood should be precluded from testifying as an expert witness because he cannot meet the stringent requirements of *Hallmark v. Eldridge*, 124 Nev. 492, 189 P.3d 646, 650 (2008).

II. PERTINENT FACTUAL BACKGROUND

On February 8, 2010, at approximately 2:30 p.m., Plaintiff was allegedly walking through the atrium of Wynn's property. As she was walking and not particularly paying attention where she was walking, Plaintiff allegedly slipped on the foreign substance in Wynn's atrium. (Deposition of Yvonne O'Connell, 60:12-62:2, pertinent portions attached hereto as **Exhibit 2**.) Plaintiff claims the foreign substance was green in color and sticky. (*Id.* at 62:10-15, 65:19-21.) Plaintiff alleges she slipped on the flower mosaic tile in Wynn's atrium as opposed to the other marble surface:

11	O'CONNELL00470-473, attached hereto as Exhibit 3.)		
12	On April 1, 2015, Presswood conducted a site inspection of Wynn's property in the area		
13	that Plaintiff allegedly slipped and fell. (Presswood's Expert Report, attached hereto as Exhibit		
14	4.) According to his purported expert report, Presswood photographed and measured "site		
15	elements" and "measured for the walkway's slip-resistance in the area of [Plaintiff's] fall." (Id.)		
16	Specifically, Presswood measured the slip-resistance of two areas of the walkway in Wynn's		
17	atrium: 1) the flower tile mosaic where Plaintiff unequivocally claims she slipped and 2) the		
18	smooth marble surface in the walkway. (Id.)		
19	Presswood utilized a Horizontal Pull Slipmeter (hereinafter "HPS") to test these areas fo		
20	the static coefficient of friction. (Id.) However, Presswood's expert report only provides his		
21	purported test results for the smooth marble surface in the walkway, which is not where Plaintif		
22	alleges she slipped. (Id.) Again, Plaintiff alleges she slipped on the tile flower mosaic tile in		
23	Wynn's atrium. (Ex. 2, 60:12-62:2.)		
24	For the reasons set forth below, the Court should not permit Presswood to testify at	trial.

III. EXPERT WITNESS STANDARD

"[I]n Nevada, NRS 50.275 is the blueprint for the admissibility of expert witness testimony." *Higgs v. State*, 222 P.3d 648, 658 (Nev. 2010). "To testify as an expert witness under NRS 50.275, the witness must satisfy the following three requirements:"

- (1) He or she must be qualified in an area of "scientific, technical or other specialized knowledge" (the qualification requirement);
- (2) His or her specialized knowledge must "assist the trier of fact to understand the evidence or to determine a fact in issue" (the assistance requirement); and
- (3) His or her testimony must be limited "to matters within the scope of [his or her] specialized knowledge" (the limited scope requirement).

Hallmark, 124 Nev. at 498, 189 P.3d at 650 (emphasis added). An expert's testimony will assist the trier of fact only when it is relevant and the product of reliable methodology." *Id.* at 651. "Just because a witness may be qualified as an expert does not automatically qualify him to give an opinion necessarily based on facts beyond his knowledge." *Choat v. McDorman*, 86 Nev. 332, 335 (1970).

Expert testimony may be considered unless it consists of a "legal conclusion." *U.S. v. Scholl*, 166 F.3d 964, 973 (9th Cir. 1999); *Aguilar v. International Longshoremen's Union*, 966 F.2d 443, 447 (9th Cir. 1992) (noting matters of law are for the court's determination, not that of an expert witness); see also *Marx & Co. v. Diners' Club, Inc.*, 550 F.2d 505, 509-10 (2d Cir. 1977) (expert testimony consisting of legal conclusions inadmissible). "[A]n expert witness cannot give an opinion as to her legal conclusion, i.e., an opinion on an ultimate issue of law. Similarly, instructing the jury as to the applicable law is the distinct and exclusive province of the court." *Hangarter v. Provident Life and Accident Ins. Co.*, 373 F.3d 998, 1016 (9th Cir. 2004) (internal quotation and citation omitted).

Moreover, for a witness specifically retained to provide expert testimony, the expert is required to provide a written report containing, among other things, "a complete statement of all opinions to be expressed and the basis and reasons therefor" and "the data or other information considered by the witness in forming the opinions[.]" Nev. R. Civ. P. 16.1(a)(2)(B). An expert

witness cannot testify to information and opinions outside the expert report. *FCH1*, *LLC v*. *Rodriguez*, 326 P.3d 440 (Nev. 2014).

Based on this standard, Presswood should be precluded from testifying as an expert witness because he cannot meet the requirements under Nevada law.

IV. ARGUMENT

A. Presswood Cannot Meet the Assistance Requirement Because He Fails to
Analyze the Tile Flower Mosaic Where Plaintiff Alleges She Slipped, Making
His Opinions Irrelevant and Inadmissible for Any Purpose

Presswood's purported expert opinion is completely irrelevant because his expert report is based entirely on his testing of the marble walkway in Wynn's atrium, which is not where Plaintiff alleges she slipped. (See Ex. 3.) Plaintiff unambiguously claims she slipped on the flower mosaic tile in Wynn's atrium. (Ex. 2, 60:12-62:2.) Yet, Presswood does not provide test results for the tile flower mosaic. (Ex. 3, pg. 2.) Therefore, Presswood's purported expert opinion is irrelevant and will not assist the jury because he fails to analyze the area where Plaintiff alleges she slipped in Wynn's atrium.

B. Presswood's Purported Results Are Entirely Unreliable Because His Testing Device Was Not Calibrated and He Failed to Properly Sand the Test Foots Before Conducting His Testing

Prior to conducting his tests at Wynn's property, Presswood failed to calibrate the Chatillon gage of the HPS that he utilized to conduct his purported slip-resistance testing. (Ex. 5, pg. 3; Picture of Presswood's Chatillon Gage from Rebuttal Expert Report, attached hereto as **Exhibit 6.**) The standard procedure is to calibrate the Chatillon gage annually by sending the unit to the factory or service center. (Ex. 5, pg. 3.) After re-calibration, an updated label is affixed to the unit by the factory or service center. (*Id.*)

¹ Presswood asserts that "the tests for the mosaic tile are available but unreliable due to the small tile sizes (3/4" square +/-) which results in higher than realistic readings due to the tile edges 'catching' the test feet thus yielding inconsistent readings." (Ex. 3, p. 2.) Put differently, Presswood's testing of the tile flower mosaic found it to be slip-resistant, obviously something he did not want to disclose. (Wynn's Rebuttal Expert Report of N. Opfer, pgs. 3-4, attached hereto as **Exhibit 5**.)

28

Incredibly, Presswood has not calibrated his device for over 18 years. (Id.) According to his device, it was last calibrated on August 1, 1995, and was due for re-calibration on August 1, 1996. (Ex. 6.) For this reason, his test results obviously cannot be reliable if he has failed to calibrate his device for 18 years. Therefore, the Court should preclude Presswood from testifying since his measurements are erroneous.

More reason exists to seriously doubt the accuracy of Presswood's measurements. Before conducting his floor tests, it appears Presswood failed to adhere to the ATSM F-609 standards when preparing the test foot of the HPS. (Ex. 5, pg. 3.) ASTM F-609 states the "sanding procedure [of the test foot] should consist of five strokes of 5 to 6 in. in length, parallel to the friction measurement direction, followed by five strokes of 5 to 6 in. in length, perpendicular to the friction measurement direction." Wynn's expert witness, Neil Opfer, did not observe Presswood conduct the second set of sanding perpendicular to the friction measurement direction. (Id.) Consequently, Presswood's test results are invalid and the Court should preclude Presswood from testifying at trial.

Presswood's Opinions Are Irrelevant and Inadmissible Because There Is No C. Applicable Standard Upon Which He Can Reply to Support His Conclusions

Presswood concedes "there is no acceptable standard of slip-resistance for a wet surface." (Ex. 3, pg. 2.) Further, Presswood "did not test for a wet surface at the site of this event since (1) the referenced ASTM test standards do not permit testing on any debris covered or wetted surface for specification determination (2), the quantity and quality of the contaminant and other unknown variable are often unknown " (Id.) Therefore, Presswood's conclusions cannot assist the jury since there is no mandatory standard for wet floor test results.

Tellingly, Presswood seemingly tries to overcome the irrelevance of his testimony/expert report by creating his own standard. Presswood states: "In the event a floor is wet as reported, I have found the SCOF of a walkway wetted with distilled water is typically about 70% that of the tested dry value " (Id.) However, Presswood failed to produce a copy of his alleged tests or provide any other information relating to his alleged tests, making his tests unverifiable. Because

Presswood's conclusions are based on unverifiable tests, his purported expert opinions should be excluded.

D. <u>Presswood's Alleged Laboratory Tests Will Not Assist the Jury Because It Is</u> Not Based on Reliable Methodology and Is Irrelevant

To determine whether an expert's opinion is based upon reliable methodology, the Nevada Supreme Court has instructed a district court to consider whether the opinion is:

(1) within a recognized field of expertise; (2) testable and has been tested; (3) published and subjected to peer review; (4) generally accepted in the scientific community (not always determinative); and (5) based more on particularized facts rather than assumption, conjecture, or generalization. If the expert formed his or her opinion based upon the results of a technique, experiment, or calculation, then a district court should also consider whether (1) the technique, experiment, or calculation was controlled by known standards; (2) the testing conditions were similar to the conditions at the time of the incident; (3) the technique, experiment, or calculation had a known error rate; and (4) it was developed by the proffered expert for purposes of the present dispute.

Hallmark, 124 Nev. at 500-502, 189 P.3d at 651-652 (citations omitted) (emphasis added). These factors are not exhaustive and may be accorded varying weights depending on the case. *Id*.

Here, Presswood's testimony will not assist the jury because it is clearly not the product of reliable methodology. First, Wynn could not locate any cases that have recognized the HPS's use as a recognized field of expertise. Assuming *arguendo* that HPS testing is a recognized field of expertise, there is no evidence that Presswood's alleged laboratory results are testable and have in fact been tested. As such, Presswood undoubtedly fails to meet the first two factors in considering whether his testing is the product of reliable methodology.

Second, Presswood's laboratory tests have not been published or subjected to peer review based on the information disclosed to Wynn. For example, his Curriculum Vitae does not list laboratory testing for wet SCOFF or peer review of the same.

Third, it is very clear that Presswood's conclusions are not accepted in the scientific community. As stated previously, Presswood admits "there is no acceptable standard of slip-resistance for a wet surface." (Ex. 3, pg. 2.) Quite tellingly, Presswood fails to include a copy of the F-609 Standard for HPS testing despite stating the HPS "was used in accordance with strict

test protocol as established by the American Society of Testing and Materials (ASTM) in accordance with ASTM Stnd. F609 which requires the use of neolite as a test specimen." (Id.) The reason Presswood did not include a copy of the F-609 Standard with his report, despite "strictly" complying with it, is as follows:

> The [HPS] is a laboratory and field instrument designed to provide information about the slip index characteristics between walkway surfaces and a test foot material under dry conditions. The HPS cannot be used on wet surfaces.

> Slip index, as determined by the HPS, most likely will not give useful information for evaluating liquid contaminated surfaces, and therefore, will not provide an effective assessment of a potential slipping hazard on a walkway surface under these conditions.

(Emphasis added). Therefore, it is clear Presswood did not "strictly" comply with the test protocol in accordance with the F-609 Standard or follow the conclusions accepted by the scientific community by using the HPS to test the SCOF of a wet floor.

Fourth, because Presswood's opinions are based upon the results of an experiment or calculation, he has to prove that the experiment, i.e., his laboratory testing, was controlled by known standards. See Hallmark, 124 Nev. at 502, 189 P.3d at 652. Yet, he could not do that. The F-609 Standard specifically states the HPS will not provide an effective assessment of a potential slipping hazard on a wet floor.

Fifth, Presswood's testing conditions were not remotely similar to those at the time of the Incident. Plaintiff testified the foreign substance was green in color and sticky. (Ex. 2 at 62:10-15, 65:19-21.) A Wynn employee wrote in her statement that it was "syrupy." Presswood's alleged laboratory testing, however, utilized "distilled water." (Ex. 3, pg. 2.) Besides being sticky and syrupy, it is highly unlikely that a tourist (or whoever spilled the alleged substance) spilled distilled water. Further, Presswood fails to state what type of flooring he utilized in his laboratory testing, let alone whether it was the same type of flooring in this case, i.e., marble mosaic tiling. Even more importantly is Presswood's admission that "the quantity and quality of the contaminant and other unknown variables are often unknown" and "[t]ests for any wet or contaminated surface would be speculative at best and not expected to provide scientifically credible and reliable results

...." Id. Thus, it is clear Presswood's testing cannot assist the jury since the conditions were not remotely comparable to those at the time of the Incident.

Sixth, there is no evidence to suggest that Presswood's laboratory testing had a known error rate and, since there is no standard for the HPS on wet floors, it is impossible for Presswood to have an accepted base rate upon which to test an error rate. Hallmark, 124 Nev. at 502, 189 P.3d at 652.

Seventh, Presswood clearly did not design his alleged laboratory testing for the present lawsuit. See id. He specifically states that he did not test for a wet surface at the site of the Incident.

Finally, Presswood conclusion that the "marble walkway where [Plaintiff] slipped . . . should be considered hazardous to pedestrians especially when wet" is highly speculative, not based on specialized, technical or scientific knowledge and will not assist the jury in understanding the evidence or in determining a fact issue. Hallmark, 124 Nev. at 502, 189 P.3d at 652. For these reasons, Presswood's testimony will not assist the jury because it is clearly not the product of reliable methodology.

V. CONCLUSION

Based on the foregoing, the Court should grant Wynn's Motion in Limine [#1] and preclude Presswood from testifying at trial in this case.

DECLARATION OF CHRISTOPHER D. KIRCHER, ESO. IN SUPPORT OF PLAINTIFF'S MOTION IN LIMINE (#1) TO EXCLUDE PURPORTED EXPERT WITNESS GARY PRESSWOOD

I, CHRISTOPHER D. KIRCHER, ESQ., states and declares as follows:

- 1. My law firm represents Defendant Wynn Las Vegas, LLC d/b/a Wynn Las Vegas ("Wynn") in its lawsuit against Plaintiff Yvonne O'Connell ("Plaintiff"). I make this Declaration in support of Plaintiff's Motion in Limine (#1) to Exclude Purported Expert Witness Gary Presswood ("Motion"). All of the statements contained in this Declaration are made on the basis of personal knowledge and I am competent to testify as to the truth of these statements if called upon do to so.
- 2. On Wednesday, August 12, 2015 at 3:30 p.m., I held a telephone conference with Plaintiff's counsel, Christian Morris, Esq., and conducted an EDCR 2.47 conference in a good faith effort to confer on the subject of Wynn's Motion, the other motions in limine that Wynn intends to file and Plaintiff's motion in limine that she intends to file with the Court.
- 3. During the EDCR 2.47, the parties were unable to resolve this matter satisfactorily because Plaintiff's counsel would not agree to exclude Presswood from testifying at trial.
- 4. At this time, the parties are unable to resolve the pending issues relating to Wynn's Motion and the other motions in limine. As such, Wynn is filing the instant Motion and its other motions in limine. Wynn's Motion is not brought for any proper purpose or to delay these proceedings.

I declare under the penalty of perjury under the laws of the State of Nevada that the foregoing is true and correct.

EXECUTED on this 13th day of August, 2015, at Las Vegas, Nevada.

1	Deposition of Yvonne O'Connell
2	Thursday, March 19, 2015
3	(Prior to the commencement of the
4	deposition, all counsel present agreed to waive
5	statements by the court reporter pursuant to Rule
6	30(b)(4) of the NRCP.)
7	YVONNE O'CONNELL, having been first duly
8	sworn, was examined and testified as follows:
9	
10	EXAMINATION
11	BY MR. SEMENZA:
12	Q. Good morning, Ms. O'Connell.
13	A. Good morning.
14	Q. My name is L.J. Semenza, and I represent the
15	Wynn here today. Also with me is Chris Kircher, who
16	works with me in my office.
17	Have you ever had your deposition taken
18	before?
19	A. Yes.
20	Q. When was that?
21	A. In the '90s.
22	Q. How many times have you had your deposition
23	taken?
24	A. Several times.
25	Q. Okay. Can you tell me what instances that

1	fell you weren't looking down at where you were
2	walking?
3	A. No.
4	Q. That's not fair to say?
5	A. That's not fair to say.
6	Q. So immediately prior to the fall you were
7	looking down at where you were walking?
8	A. I was rounding the corner; so I probably was
9	looking closer to where the floor.
10	Q. But you don't recall specifically where you
11	were looking, though?
12	A. No.
13	Q. Could I does 470 depict the location of
14	where the liquid was or the alleged liquid was?
15	A. Yes.
16	Q. Okay. Could you generally place a circle
17	in outline where you believe the spill to have
18	taken place or where it was located?
19	A. Yes. The whole spill I'm sorry. I think
20	I didn't understand your question.
21	Q. Okay. Could you just outline on this
22	photograph with your pen the location of where you
23	believe the liquid was?
24	A. Okay. Yeah, the entire part?
25	Q. Yes.

1	A. Okay. Yes. (Writing.)
2	Okay. This is pen and I wasn't able to
3	correct those other lines, so
4	Q. That's okay.
5	A. It was closer to this. Those don't count
6	(indicating).
7	Q. Put an X on the location of those lines that
8	don't count. Just X them out.
9	A. (Writing.)
10	Q. Okay. So what you've drawn on here is where
11	you believe the liquid substance to have been located?
12	A. Yes.
13	Q. After you fell, did you see the liquid
14	substance?
15	A. Yes.
16	Q. Okay.
17	A. Part of it.
18	Q. Part of it. Explain that to me.
19	A. They left me standing on part of it. So I
20	looked down and I saw part of it was nearly dry and
21	extending to my right; so I could see that. Couldn't
22	really see towards the left because some of it was
23	into here, and that part wasn't dry (indicating).
24	Q. Okay. So just for reference, you see this
25	individual here at the bottom of the photograph

1	(indicating)?
2	A. Yes.
3	Q. What you were explaining was that the liquid
4	substance that was on the floor was drying in the
5	location or at the in the direction of this
6	individual (indicating)?
7	A. Yes.
8	Q. And in the opposite direction back towards
9	the flowers that are on the floor, the substance was
10	still liquid?
11	A. Yes.
12	Q. Okay. And do you recall on what part of the
13	liquid substance you fell on? Was it the drying part
14	or the liquid part?
15	A. Oh, the liquid part.
16	Q. Okay. The position where you fell, was that
17	on the mosaic flowers or on the other portion of the
18	floor?
19	A. The colored part wait. I'm sorry. I
20	misunderstood the question.
21	Q. That's fine.
22	Where did you fall? Did you fall on the
23	flower part, the mosaic part, or the other part of the
24	floor?
25	A. Specifically are you asking where I landed

1	or what
2	Q. Where you slipped and fell.
3	A. Where I started where I
4	Q. Where you started, that's fine.
5	A started to slip.
6	Q. Let's start there. On the flowers or on
7	the
8	A. Oh, on the flowers.
9	Q. Okay. On the mosaic flowers.
10	A. Yes.
11	Q. And then when you were falling, were you
12	falling from the position of being on the flowers or
13	on the general floor?
14	A. Oh, it happened suddenly so
15	Q. You don't know.
16	A. No.
17	Q. When you slipped, was it an immediate fall
18	or did you and it's difficult to sort of
19	characterize, but did you immediately fall once you
20	slipped or was there a slight delay where you were
21	trying to regain your balance?
22	A. It happened suddenly.
23	Q. Okay. Just so I'm clear and that the record
24	is clear, you started slipping on the portion of the
25	floor that contained the mosaic which includes the

1	flowers; right?
2	A. Yes.
3	Q. Okay. Do you recall the mechanics of your
4	fall, meaning did your right leg slip? Did your left
5	leg slip? Did your legs fall behind you or in front
6	of you?
7	A. It happened suddenly.
8	Q. Okay.
9	A. I just know I was on the ground.
10	Q. Okay. Was the liquid substance in any way
11	colored?
12	A. The drying part of it had a very slight tint
13	of color.
14	Q. And what was that color?
15	A. Just a hint of green.
16	Q. Okay. Did you see, after you fell, whether
17	there were any empty glasses or any cups that were
18	located in that immediate area where you fell?
19	A. There was nothing.
20	Q. Immediately prior to your slip, were you
21	doing anything in a distracted fashion? Were you on
22	the phone? Were you texting? Were you in your purse
23	for any particular reason?
24	A. No.
25	Q. Did you have your coat on at that point?

1	A.	No.
2	Q.	Were you holding your coat?
3	A.	I assume you know, no, I wouldn't have
4	had my cc	oat on. I must have been holding it.
5	Q.	What did you have with you on that day? You
6	had a pur	se?
7	A.	A purse.
8	Q.	Okay. And your coat? Anything else?
9	A.	No.
10	Q.	No bags or anything like that?
11	Α.	No.
12	Q.	And are you left-handed or right-handed?
13	A.	Right-handed.
14	Q.	Is there a particular hand that you normally
15	carry you	r purse?
16	A.	Shoulder.
17	Q.	Okay. Do you recall how you were
18	configure	d, if you will, immediately before your fall,
19	whether y	ou had your coat on your shoulder, whether
20	you were	carrying it with your left hand and holding
21	your purs	e with your right or had your purse on your
22	shoulder?	Do you recall any of that?
23	A.	Oh, no, I don't.
24	Q.	The liquid substance that was on the floor,
25	you don't	know what the liquid substance was, do you?

1	A. I believe I do.
2	Q. You do. What was it?
3	A. I believe it was water.
4	Q. And on what basis do you believe that it was
5	water?
6	A. Could you rephrase that, please.
7	Q. Why do you think it was water?
8	A. Because when I was on the ground I thought
9	it was water, and now I'm more convinced it was
10	water.
11	Q. Even though it had a green tint to it?
12	A. Yes.
13	Q. Do you have any understanding as to why it
14	would have been it would have had a green tint if
15	it was water?
16	A. I have my belief.
17	Q. What is that?
18	A. That it had been on the either running
19	through or over the plants and out of the drain or
20	around the drain and so that's why it had the greenish
21	tint.
22	Q. Well, okay, and I understand that, but why
23	would it have been what is the significance of the
24	greenish tint then?
25	A. Maybe it had fertilizer in it. But I

believe it was coming from water off the plants or out 1 2 of the drain. 3 ο. Immediately after the fall did you see any liquid leaking from planters onto the walkway? 4 5 Α. It was absolutely up against the planters, 6 so that's why I thought it came from there. 7 Q. Okay. But there was no liquid substance 8 coming from the planters that you saw onto the 9 walkway, onto the mosaic? 10 Α. I could just see it up against. I didn't --11 so I just assumed it was from there. I'm sorry. I 12 think I didn't understand that question. 13 Okay. You didn't see any continuing or -well, you didn't see any liquid running from the 14 15 planters onto the --16 Α. Running? Running water? 17 Q. Yes. 18 Α. I didn't see any running liquid. 19 And you had identified that the substance Ο. 20 was sticky as well, the liquid? 21 Yes, a little sticky. A. 22 Q. Water would not have been sticky, would it 23 have been? Sure, if it would have been -- it wasn't 24 25 that sticky. It -- it -- if it had come off the

MEMORANDUM OF POINTS AND AUTHORITIES

M.

STATEMENT OF FACTS

The present case arises out of a an incident on or about February 8, 2010, where Plaintiff Yvonne O'Connell was a customer and invited guest of Defendant Wynn Las Vegas at their hotel and casino located at 3131 Las Vegas Boulevard South, Las Vegas, Nevada. Plaintiff was at the location on this day for purposes of gambling and dining. When Plaintiff was walking near the south entrance of the casino through the Atrium Walkway, on the shadowed, multi-colored floor, she suddenly and unexpectedly slipped and fell in a large pool of liquid substance present on the floor. As a result of the fall the Plaintiff sustained injuries.

The pool of liquid which caused the fall had been present on the floor for such a long period of time that it had footprints in it and had begun to dry. All evidence presented shows the pool of liquid substance was approximately seven (7) feet long. The substance on the floor was witnessed by multiple employees of Wynn as well as the Plaintiff.

The area where Plaintiff fell is a beautiful walkway which leads to the shops and casino, and is surrounded by trees, plants and flowers. Wynn employees admit they were tasked with monitoring the area to ensure there were no dangerous conditions; however, there was no set

schedule and they were only required to walk through the area every "hour or two." Wynn has been unable to identify the individuals responsible for maintaining the area at the time Plaintiff fell. Wynn also admits that there was a substance on the floor and the substance had been on the floor long enough to dry in certain areas and become sticky. Wynn's Porter Supervisor, Yanet Elias, also admits that there was an employee in the direct vicinity of Plaintiff when she fell.

The instant Motion for Summary Judgment alleges that Yvonne has failed to present triable issues of fact on the claims of liability. Despite the allegations contained in Defendant's Motion for Summary Judgment, there are multiple issues of triable fact showing that Defendant was negligent and that negligence caused injury to Plaintiff.

CONCISE STATEMENTS / UNDISPUTED FACTS

The Liquid Substance Was Approximately Seven (7) Feet Long and so Large that a Sweeper Machine Was Unable to Cover the Entire Area:

See, June 9, 2015, deposition transcript of Plaintiff Yvonne O'Connell at pg. 271 ll. 2-10, attached as Exhibit 1.

- And did he have any equipment with him when he came over? Q:
- He had that large sweeper. A:
- And - and what did he do with that large sweeper, if anything, if you Q: remember?
- After he came and apologized, he took the large sweeper, he went to my left, and A: - - and to - - to the back of me, and placed his machines at the end of the liquid.

See, March 24, 2015, deposition transcript of Yanet Elias at pg. 16, ll. 21-25, attached hereto as Exhibit 2.

- So where was the sweeper placed? The sweeper machine that you talked about, O: from what you just said, I think you said they put it over the substance on the floor?
- A: Yes.

2	Started to D	ry and Contained Footprints:

4	15-23, pg. 60), ll. 8-15 and pg. 61 l. 9, Exhibit 3.
5	Q:	After you fell, did you see the liquid substance?
6	A:	They left me standing on part of it. So I looked down and I saw part of it was
7		nearly dry and extending to my right; so I could see that. Couldn't really see
8		towards the left because some of it was into here, and that part wasn't dry
9		(indicating).
10	Q.	And in the opposite direction back towards the flowers that are on the floor, the
11		substance was still liquid?
12	A.	Yes.
13	Q.	Okay. And do you recall on what part of the liquid substance you fell on? Was i
14		the drying part or the liquid part?
15	A.	Oh, the liquid part.
16	Q.	Okay. On the mosaic flowers.
17	See,	March 19, 2015 deposition transcript of Plaintiff Yvonne O'Connell, at pg. 67, l
18	9-14, Exhibi	t 3.
19	Q.	Okay. You don't know how long that liquid substance was present on that floor
20		before you slipped on it, do you?
21	A.	I know that it was on the floor long enough for part of it to almost dry and
22	Las ramanas promoteras.	accumulate some footprints.
23	See,	March 19, 2015, deposition transcript of Plaintiff Yvonne O'Connell, at pg. 115
24	II. 13-25, Ex	hibit 3.
25	Q.	The liquid substance that you testified to that was on the floor, you had mentioned
26		that there were footprints in it; is that correct?
27	A.	Yes.
28	Q.	How many footprints were at that location where the sticky substance was?
	A.	Oh, I didn't count them. A few.
	1	-4-

The Liquid Substance had been on the Floor for Such a Long Period of Time it Had

A:

No.

Q.	There were a few? Okay. And were they dark in color? Is that how you were
	able to see them?
A.	Dirty footprints. Like after you mop your floor, you walk on it and it leaves dirty
	footprints.
S	ee, June 9, 2015, deposition transcript of Plaintiff Yvonne O'Connell, at pg. 275, ll. 9-
25, pg. 2	76 II. 1-21, Exhibit 1.
Q.	The area that you were standing, you said you were still standing in the liquid
	while they were cleaning the other end of the liquid; is that correct?
A.	Yes.
Q.	And how could you tell that you were still standing in the liquid?
A.	Well, it - the liquid covered a large area, at least 7 feet. And the part that I
	slipped on in the walkway towards the back of me was still really slippery. And
	the part - once the people picked me up, the part over here in the open, two
	different pathways because it was - it was like a diagonal. So that part in the
	open under the lights, it had like - at least a 3-foot part of it had almost dried
	already. And so I was standing on the part, it wasn't slippery anymore. Little bit
	sticky and some footprints around it."
V	Vynn Admits Employees Should Have Monitored the Area Where Plaintiff Fell;
But Can	't Identify the Employees:
S	See, March 24, 2015, deposition transcript of Yanet Elias at pg. 74, ll. 1-5, and pg. 32,
ll. 10-14	, Exhibit 2.
Ç	Okay. So, it's my understanding from your testimony that it's the public areas
	department that is responsible for ensuring that the floor is clean and free of
	debris.
Α	A: Yes.
Ç	Now, it's been stated that there were two attendants in the area where Miss.
	O'Connell fell that were continuously inspecting the property and the grounds.

-5-

Do you know who those attendants were?

Wynn Failed to Maintain a Sweep Log of the Area Where Plaintiff Fell:

See, March 24, 2015, deposition transcript of Yanet Elias at pg. 51, ll. 1-11 and pg. 52, ll. 5-17, Exhibit 2.

- Q: Do you know if the porters have to maintain something called like a sweep log to show that they've been to a certain area and that it's clean or that there was something there?
- A: They don't have -- they don't have a log. They have to walk in the area, check the area, make sure the area is clear before they can move to the other area.
- Q. How do you know or ensure, as an assistant manager and now as a shift manager, that that porter has actually gone to a certain area and ensured it's clean?
- A. Because our responsibility is to walk in these areas, in different locations, like walk in the retail, pass by the gardens, check the areas of the casino, and then they go back in the I cannot say an hour or two hours. It all depend how long they take to go around the casino to go back to these areas.
- Q. Any other way that you are ensured that they have gone to the areas that they need to go to?
- A. This is the only way for right now. They don't have a schedule to, like, you have to be in the garden every hour, it's like –
- Q. There's not that, right?
- A. No.
- Q. Okay. Is there any kind of documentation to show what areas have been essentially checked for safety purposes?
- A. When I know, no.

III.

ARGUMENT

Standard of Review

Summary judgment is only appropriate when, after reviewing the record in a light most favorable to the non-moving party, there remain no issues of material fact and the moving party

is entitled to judgment as a matter of law. Nev. R. Civ. P. 56(c); Rockwell v. Sue Harbor Budget Suites, 112 Nev. 1217, 1222, 925 P.2d 1175, 1179 (1996). "In determining whether summary judgment is proper, the nonmoving party is entitled to have the evidence and all reasonable inferences accepted as true." Id. (emphasis added). The court shall accept as true the allegations and affirmations favorable to the position of the plaintiff. Parman v. Petricciani, 70 Nev. 427, 430, 272 P.2d 492, 493 (1954). Summary judgment under NRCP 56 may not be used as a shortcut to resolution of disputes upon facts material to a determination of the legal rights of a party. Id. at 436, 272 P.2d at 496. A genuine issue of material fact exists where the evidence is such that a reasonable jury could return a verdict for the non-moving party. Valley Bank v. Marble, 105 Nev. 366, 367, 775 P.2d 1278, 1279 (1989).

In *Tolan v. Cotton*, the Court broke from its normal routine of refusing to hear summary judgment appeals to "correct a clear misapprehension of summary judgment standards." 134 S. Ct. 1861, 1867–1868 (May 5, 2014) (per curiam) (vacating grant of summary judgment to defendant in civil rights action). The Court's decision in *Tolan* clarifies the degree to which reasonable inferences must be drawn in favor of the non-moving party and competent evidence, even when circumstantial, is enough to survive summary judgment. *Id.* at 1868.

Additionally, the Nevada Supreme Court sought strong preference for the evidence of a party opposing summary judgment in *Angel v. Cruse*, 130 Nev. Adv. Op. 25, 7, (2014) (vacating summary judgment for defendant). Explaining its decision to vacate in *Angel*, the Court repeatedly emphasized the need to construe evidence in favor of the non-moving party. *Id.* at 7, 8, 10. Together, *Tolan* and *Angel* stand as efforts by the Courts to strengthen the preference district courts give to non-moving party's evidence so that disputes may be "resolved by juries." *Tolan* 134 S.Ct. at 1868.

In a negligence action, summary judgment should be considered with caution. *Id.* "[C]ourts are reluctant to grant summary judgment in negligence cases because foreseeability,

¹ Admittedly, the issues here are unrelated to Tolan's civil rights issues. Nevertheless, Tolan's

¹ Admittedly, the issues here are unrelated to *Tolan*'s civil rights issues. Nevertheless, *Tolan* supports this Opposition to the extent it steers lower courts toward a more non-moving-party friendly application of the summary judgment standard.

duty, proximate cause and reasonableness usually are questions of fact for the jury." Lee v. GNLV Corp., 117 Nev. 291, 295-96, 22 P.3d 209, 212 (2001). Summary judgment is only appropriate when a plaintiff, as a matter of law, cannot recover. Id. Moreover, in the recent case of Rios v. Wal-Mart Stores, Inc., the Plaintiff slipped and fell in spilled yogurt; Wal-Mart filed a Motion for Summary Judgment to which the Court denied stating "the evidence of constructive notice provided by Rios isn't strong, but it is enough to establish a genuine issue of dispute for trial." 2014 WL 1413639 at *1 (noting a Nevada district court judge's earlier ruling).

The deposition testimonies demonstrate there are genuine issues of material fact that preclude summary judgment as a matter of law, and the cited case law supports Plaintiff's position, not the Defendant's. The cited case law emphasizes that the issues presented, notice and breach of duty, are issues of fact for the jury, not matters of law. The cases have holdings that support Defendants' liability for Yvonne's slip and fall because the law, as applied to this case, indicates that Defendants indeed had actual or constructive notice of the dangerous condition on the floor. Also, there is indeed evidence of both notice and breach of duty caused by the subject incident. Because genuine issues of material fact exist regarding Defendants' constructive or actual notice of the substance on the floor on which Yvonne fell, summary judgment should not be granted as a matter of law and Defendants' Motion for Summary Judgment should be denied.

A. Genuine Issues of Material Fact Exist Regarding Defendant's Notice of the Dangerous Condition, Thus Summary Judgment Should Not Be Granted as a Matter of Law

The four elements of a negligence claim are: (1) duty, (2) breach, (3) proximate causation, and (4) damages. *Doud v. Las Vegas Hilton Corp.*, 109 Nev. 1096, 1100, 864 P.2d 796, 798 (1993). A proprietor owes an invitee a duty to use reasonable care to keep the premises in a reasonably safe condition for use. *Doud v. Las Vegas Hilton Corp.*, 109 Nev. 1096, 1101, 864 P.2d 796, 799 (1993). The proprietor has a duty to an invitee to inspect the premises to discover dangerous conditions not known to him and to "take reasonable precautions to protect

² The four elements a plaintiff must establish to succeed on a negligence claim for liability are: (1) duty, (2) breach, (3) proximate causation, and (4) damages. *Doud v. Las Vegas Hilton Corp.*, 109 Nev. 1096, 1100, 864 P.2d 796, 798 (1993).

the invitee from dangers which are foreseeable from the arrangement or use." *Twardowski v. Westward Ho Motels*, 86 Nev. 784, 787, 476 P.2d 946, 947-48 (1970).

"The presence of a foreign substance on a floor generally is not compatible with the standard of ordinary care." *Asmussen v. New Golden Hotel Co.*, 80 Nev. 260, 262, 392 P.2d 49, 50 (1964). If one slips and falls because of a foreign substance, liability may be found if the condition was created by the proprietor or his agent or, if created by another, the proprietor had actual or constructive notice of its existence. *Id.* If a peril is hidden or latent, such as water on the floor, ordinary care requires a proprietor with actual or constructive knowledge of the peril to warn the invited guest who is without such knowledge. *Worth v. Reed*, 79 Nev. 351, 354, 384 P.2d 1017, 1018 (1963).

"Whether [a defendant] was under constructive notice of the hazardous condition is, in accordance with the general rule, a question of fact properly left for the jury." Sprague v. Lucky Stores, 109 Nev. 247, 250, 849 P.2d 320, 323 (1993) (emphasis added). None of the cases cited by Defendants regarding slip and falls and summary judgment rule that notice is a subject appropriate for summary judgment. The Supreme Court of Nevada in Sprague, 109 Nev. 247, 849 P.2d 320, reversed the district court's grant of summary judgment, and the U.S. District Court of Nevada in Linnell v. Carrabba's Italian Grill, LLC, 833 F. Supp. 2d 1235 (D. Nev. 2011) denied summary judgment. In their motion, Defendants cite an unpublished Order in an attempt to draw comparisons to the case at hand. See, Exhibit 4. Contrary to the Defendant's motion, this Order is not binding authority, nor is it comparable to the instant case. Unlike Mostad, Plaintiff has proactively produced evidence that includes depositions, affidavits, and a retained expert to show that Defendant had notice. Considering there is no law to support Defendant's argument that Plaintiff's claims should be summarily adjudicated as a matter of law, Defendant's Motion should be denied.

Although there is no law to support Defendant's request, in an abundance of caution Plaintiff will also address the issues of material fact showing that Defendant indeed had notice of the foreign substance on the floor on which Plaintiff slipped and fell.

Contrary to Defendant's representation, the Nevada Supreme Court has not "defined" constructive notice as whether Defendant "could have known 1) that the hazard in question was

frequently on the floor in the subject area, 2) that the presence of this condition was a hazard to customers, and 3) that sweeping (or mopping) could not wholly keep the floor free of debris." See, Defendants' Motion, at p. 11:1-7 (citing Sprague, 109 Nev. at 251, 849 P.2d at 323). The Court ruled that evidence presented by the plaintiff supported the denial of summary judgment because "a reasonable jury could have found that Lucky knew that produce was frequently on the floor, that this produce created a hazard to shoppers, and that sweeping the floor could not wholly keep the floor free of debris." Sprague, 109 Nev. at 251, 849 P.2d at 323. The Court held that the district court erred in granting summary judgment because "material issues of fact exist[ed] as to whether: (1) there was a continual build-up of debris on Lucky's produce department floor; (2) Lucky, because of the debris, had constructive notice that a hazardous condition might exist at any given time; and (3) Lucky failed to exercise reasonable care in not providing skid mats to counter the continuous spillage of produce." Id. Sprague thus does not define constructive notice or provide elements that must be satisfied, as Defendant represents and argues in it's Motion, thus the law and argument does not support summary judgment. Rather, Sprague sets forth factors that evidence genuine issues of material facts that preclude summary judgment. Sprague, 109 Nev. at 251, 849 P.2d at 323. They are not elements that must be met in a case in order to prove constructive notice and/or present claims of negligence to a jury, nor are they an exhaustive or exclusive list of factors that may indicate a defendant had constructive notice of a dangerous condition.

In this case, there is a multitude of evidence that indicates Defendant had constructive notice of the foreign substance on which Plaintiff slipped and fell. Defendant highlights the Plaintiff's misidentification of an audio speaker as a lack of evidence of the foreign substance's source. However, where the substance came from is not the issue; the issue is whether Defendant had actual or constructive notice of it. The substance may have come from a guest or an employee. It does not matter as long as Plaintiff provides evidence that Defendant knew (actual notice) or should have known (constructive notice), of the dangerous condition.

B. Plaintiff Slipped In A "Continuous Risk" Or "Recurrent Risk" Area Located On A "Special Use" Walkway That Wynn Created To Attract Guests To Walk Through Their Indoor Garden.

The recurrent risk approach was laid out in Sprague v. Lucky Stores, Inc. In Sprague, the Nevada Supreme Court held that whether the property owner had knowledge of "chronic hazard" of debris on floor in produce department, was an issue for the jury to decide.

In considering whether reasonable care was taken, the fact-finder must also take into account the surrounding circumstances, such as whether nearby [store] displays were distracting and whether the landowner had reason to suspect that the entrant would proceed despite a known or obvious danger." Foster v. Costco Wholesale Corp., 291 P.3d 150, 156, 2012 Nev. LEXIS 123, *7-8, 128 Nev. Adv. Rep. 71, 2012 WL 6754112 (Nev. 2012).

In this case, Wynn created a "special use" walkway through their indoor gardens to attract customers to walk through and under their trees and view their decorations and plants. The walkway was dark and the trees cast shadows on the slippery, multi-colored tile. See Photographs of Atrium area attached hereto as Exhibit 5. The walkway leads to the shops, the casino, the south entrance and the Parasol Up Bar. There is deposition testimony the indoor atrium was watered regularly by the horticulture department, and there was a multitude of guests attracted to the area to view the flower displays and access the bar, casino and shops. All of these factors create a "continuous risk" or "recurrent risk" area. The risk of there being a liquid substance in the area where Plaintiff fell is continuous.

Wynn specifically created an attraction to draw the public to walk through the Atrium area. The area is designed for people to look at the flowers and the trees and not on the ground. Moreover, the mosaic tiled floor with its multiple colors and designs masks liquid or debris on the floor, making it difficult for patrons to determine whether there is something on the floor that can create a hazard.

Based on the foregoing, it is clear that this Atrium Area Walkway was a special use walkway. Additionally, Plaintiff has testified that the liquid substance was starting to dry and had footprints in it. This is solid evidence that the liquid had been there for quite some time. In an area, like this Atrium, which attracts guests and is subject to watering of plants the likelihood of recurrent hazardous conditions is extremely high; therefore, there must be a defined sweep log schedule to ensure the area is hazard free. The failure of Wynn to implement a sweep schedule,

and simply allow the employees to walk through "every hour or two" was insufficient, and rises to the level of negligence.

The Large Liquid Substance was Located in the Atrium Area Walkway Designed to Attract Guests

In considering the Sprague factors of constructive notice, first, the substance in this case was located within the atrium area, on a tiled marble floor adjacent to the botanical landscape. Public Area Department Shift Manager, Yanet Elias, testified that the Horticulture Department would "work in the gardens" taking care of all the plants and water them by using a cart and little container with water. She further testified that they would have a container with a stick, and the stick would have water coming out of it. See, Exhibit 2 at pg. 39, Il. 18-20. Thus, it is foreseeable based on the location of the walkway were Plaintiff fell to the Atrium that requires watering, that there may be liquid on the floor and therefore it must be carefully monitored.

Also, it is foreseeable that the Defendant had notice in the atrium area because of its likelihood to attract many visiting guests, as well as proximity to the entrance/exit of the premises, the casino, and various retail shops. The Atrium area is beautiful with different floral designs changed out often to continue to attract guests to that area. Additionally, the atrium itself serves as a walkway for navigating through the premises. Similar to Sprague, where the Court found that a reasonable jury could conclude that the produce section of a store would frequently result in produce on the floor just by virtue of the environment, a reasonable jury in the instant case could find that the nature and position of the atrium guests frequently walk through the atrium, and liquid spills might occur.

It is Undisputed that a Seven (7) Foot Pool of a Liquid Substance in a Walkway Constitutes a Hazard

Second, liquid spills on the floor are slip or trip hazards to invitees. This is evidenced by the fact Defendant hires employees to clean the premises to prevent any such incidents from occurring. Similar to Sprague, where the Court found that a reasonable jury could conclude that produce on the floor was a slip hazard, a reasonable jury in the instant case could find that liquid on the tiled floor is a slip/trip hazard. In every case that Plaintiff found, there was no question

that water or any liquid on the floor was a hazardous condition; the question was whether the substance was obvious to the plaintiff or a hidden/latent condition. *See, e.g., Worth v. Reed,* 79 Nev. 351, 354, 384 P.2d 1017, 1018 (1963) (concerning water on the floor and stating that "If a peril is hidden, latent or concealed, ordinary care requires an owner, with actual or constructive knowledge of the peril, to warn the invited guest who is without such knowledge"). Thus, it is clear that the foreign substance on the floor would be hazardous, or at the very least, a question to submit to the jury. It is unreasonable to argue that this Court should rule, as a matter of law, that the foreign substance on the floor in this case was not hazardous. *Worth*, 79 Nev. at 354, 384 P.2d at, 1018-19 ("the peril (water on a tiled floor) cannot, in good sense, be deemed 'obvious' as a matter of law").

Sweep Logs Are Required to Ensure the Walkway through the Atrium was Free from Hazardous Conditions

Third, it is evident in this case that merely sweeping or mopping was insufficient to prevent spills on the floor and thus prevent hazards because deponent Yanet Elias testified that the staff has no sweep logs, no inspection schedule; nothing maintained by the janitorial staff to evidence any such inspections were completed by Wynn Employees.

- Q: Do you know if the porters have to maintain something called like a sweep log to show that they've been to a certain area and that it's clean or that there was something there?
- A: They don't have -- they don't have a log. They have to walk in the area, check the area, make sure the area is clear before they can move to the other area."

See, March 24, 2015, deposition transcript of Yanet Elias at pg. 50, ll. 18-25, Exhibit 2. Checking the Atrium Walkway Area Every Couple of Hours in Insufficient

When asked what is done to ensure that the Atrium Walkway area is cleaned and free from hazards, the individual in charge of the porters on the casino floor stated that there is no set schedule and they just walk through every hour or two hours.

See, March 24, 2015, deposition transcript of Yanet Elias at pg. 51, ll. 5-11, Exhibit 2.

A: Because our responsibility is to walk in these areas, in different locations, like walk in the retail, pass by the gardens, check the areas of the casino, and then they

go back in the – I cannot say an hour or two hours. It all depend how long they take to go around the casino to go back to these areas.

This shows that the Defendant did not provide evidence to show they checked the area in question to clear any spill. It is their burden to prove that there are undisputed facts that they indeed performed such duties. Here, the Defendant did not meet this burden. Similar to Sprague, where the Court found that a reasonable jury could conclude that the defendant knew their cleaning policy was not sufficient to prevent hazards and it should have taken additional precautions, a reasonable jury in the instant case could find that Defendant did not clean the spill, and/or that Defendant's cleaning was insufficient to prevent slip/trip hazards and they should have taken additional precautionary measures, such as cleaning more frequently.

Defendant's duty of care to Plaintiff and their other convention guests is dictated by law. Plaintiff provides extensive case law above that supports denying summary judgment as to Defendant's liability and notice of a hazardous condition because they are issues of material facts proper for the jury, and not matters of law. Defendant provides no law that states notice of a hazardous condition is a matter of law appropriate for summary judgment. Rather, Defendant referred to unbinding Orders that do not reflect the instant case. For example, the unpublished Order found that the Plaintiff did not present any evidence demonstrating how the Defendant was negligent for their slip and fall in a buffet. Here, Plaintiff completed several depositions, affidavits, and produced an expert witness. Defendant must exercise reasonable care to keep their premises in a reasonably safe condition for their guests' use, including Plaintiff's, and Defendant must inspect the premises to discover dangerous conditions, as well as take reasonable precautions to protect Plaintiff and other invited guests from such conditions. A foreign substance on the floor indicates that Defendant did not meet its standard of care towards Plaintiff, and evidence in this case shows that they did not inspect the premises adequately and they should have known of the substance on which Plaintiff slipped. The exact factors and evidence that show Defendant had (or did not have) constructive notice of the dangerous condition, and whether its actions satisfied its duties to maintain and inspect the premises, are specifically for the jury to determine. They are not matters of law appropriate for summary judgment. There is enough evidence in this case indicating that Defendant did not comply with

the applicable standards of care and create genuine issues of fact that should be presented to the jury. Therefore, summary judgment should not be granted as a matter of law and Defendant's Motion should be denied.

The Nevada Supreme Court repeatedly rules that the courts' preference is to resolve cases upon the merits rather than dispositive motions. See, e.g. Intermountain Lumber and Builders Supply, Inc. v. Glen Falls Ins. Co., 83 Nev. 126, 130, 525 P.2d 884, 886 (1967). The issues presented in Defendant's Motion may be appropriate for cross-examination or motions in limine, but they are not proper subjects for summary judgment. Defendant does not provide law with binding authority to support its request for summary judgment. Because there are genuine issues of material fact regarding liability in this case and the law does not support Defendant's request, summary judgment should not be granted as a matter of law and Defendant's Motion should be denied.

IV.

CONCLUSION

Based on the foregoing law, facts, and analysis, Plaintiff respectfully requests this Court to DENY Defendant's Motion for Summary Judgment.

1	LAS VEGAS, NEVADA, TUESDAY, JUNE 9, 2015;	1	A. I maybe maybe I got a date wrong.
2	1:03 P.M.	2	Q. Right, right. I think when I read it
3	-000-	3	yesterday, you kind of prefaced some of your answers
4		4	with this is what I kind of remember, but I'm not
5	(In an off-the-record discussion held	5	really sure, and I need to look at the medical records
6	prior to the commencement of the	6	or you can look at those. So that's fine.

11	,	11	A. Yes.
12	Thereupon	12	Q. Sitting here today, are you still in some
13	YVONNE O'CONNELL,	13	pain?
14	11 1	14	A. Yes.
15	sworn, was examined and testified as follows:	15	Q. Okay. And what where are you feeling pain
16		16	at?
17	EXAMINATION	17	A. Well, while I was getting ready to to
18	BY MR. KIRCHER:	18	come, my my back down to my foot started hurting.
19	Q. Ms. O'Connell, my name's Chris Kircher. I	19	And then I had to drive here, and I guess I didn't keep
20	met you the last time. I'm one of the attorneys for	20	my legs straight enough because now my knee is hurting
21	Wynn Las Vegas. I won't go over everything that we	21	and it feels like it's swelling. And my back my
22	went over previously about the deposition. I'm	22	seat, now my foot hurts. And also when I was driving,
23	assuming you remember a lot of it. This is a	23	I had to turn my head too much. So my neck popped and
24	question-and-answer session. I'm going to ask you some	24	made me dizzy, and now the pain's going from my neck up
25	questions. You give me your best answer. Try not to	25	to my head. It's affecting my eye. And it's it's

- Q. And here you go. And I've handed you which
- 6 is Exhibit 3, and this is entitled Plaintiff's Second
- Supplement to Initial 16.1 disclosures. And I want to 7
- go over some of the witnesses that you've identified or
- 9 that your attorney has identified on your behalf.

10 Can you turn to page 12.

- 11 Thank you.
- 12 Q. And I'm looking at No. 21. I just want to go
- over the witnesses that have been identified and what 13
- 14 their relationship is to you and how you know them and
- 15 some of the background.
- A. Yes. 16
- Q. So Troy Valdez is identified as your brother? 17
- 18 A. Yes.
- Q. Okay. And he lives in California? 19
- A. Yes. 20
- Q. And is he your full brother by blood? 21
- A. Yes. 22
- Q. Okay. Same parents? 23
- A. Yes. 24
- Q. Okay. And how often do you talk to him? 25

And then when he comes to visit you, does he 1 generally stay with you or does he get a hotel? 2

- A. He gets a hotel.
- Q. Okay. And his family, he has children?
- 5 A. Yes.

- Q. Okay. And -- okay. And it states that he's 8
- going to testify regarding your health and
- circumstances prior to and after the -- after the 10 incident? 11
- A. Yes. 12
 - Q. Okay. So he generally knows about how you -how physically active you were prior to the incident?

16 MS. MORRIS: Going to object to foundation.

17 BY MR. KIRCHER:

18 Q. Okay. And the same question: He generally 19 knows the -- how it affected you -- the incident affected you physically afterwards? 20

MS. MORRIS: Object to foundation.

THE WITNESS: What he knows is he used to see me a lot before, and he knew how I was then. And so he

knows that I'm -- everything's changed. 24

Page 171

BY MR. KIRCHER:

Q. And he saw you a lot before. 2

How often would he see you?

A. Well, they all came in July. I went there in 4

October. They all came I think November, December. So 5

every couple months, we'd see each other, and we were

very active. We stayed on The Strip and did a lot of

things together. 8

Q. So you would see each other maybe three or 9 four times a year roughly? 10

A. Well, the year before the accident, we saw 11

each other quite a few times. 12

Q. Okay. And have you told him anything about

your incident at the Wynn Las Vegas? 14 15

A. He knows I fell.

Q. Okay. What else does he know about it?

17 A. Well, he knows that I just -- because of

18 that, I've just changed, and that's why I haven't been 19 able to go see him in California since.

20 Q. Did you tell him anything about the actual 21 fall at the Wynn?

- A. Other than -- than I fell, I don't think so.
- Q. Have you told him anything about your medical 23 treatment that you received since then? 24
 - A. Only that I need surgeries.

A. Well, definitely all the holidays and 1 birthdays and sometime in between. 2

Q. And how often do you see each other? 3

A. Actually, unfortunately, I haven't seen him 4 in a year. 5

Q. Okay. And the last time you saw him, did he

- come to Las Vegas or did you go visit him? 7 A. He came here.
- Q. And if you can estimate, how many times have you seen him since the incident at the Wynn Las Vegas 10
- in 2010? 11

6

20

- A. Oh, since the incident? 12
- 13 Q. Yeah. Yes, sorry.
- A. He and his family came once since then. 14
- Q. Okay. 15
- 16 A. Or, excuse me, maybe twice since then.
- 17 Q. Twice. Okay. Do you remember how long he stayed or did he stay with you? 18
- A. You know, I'm so sorry. You asked me how 19 many times I've seen him since the incident.
- 21 Q. Correct.
- A. Okay. I think he and his family came
- 23 probably twice since then, and then he came last year by himself. 24
- Q. Okay. Makes sense. 25

Page 177

Page 174

- 1 Q. Okay. Did you tell him the specific
- 2 surgeries that you need?
- A. I doubt it. I don't know how specific I got.
- 4 I basically don't get specific with him. I just told
- 5 him I need surgeries.
- 6 Q. And then looking at No. 22, it's Holly
- 7 Valdez.
- 8 Is that his wife?
- 9 A. Yes.
- 10 Q. And you mentioned that they've came twice,
- 11 his whole family, since the incident at Wynn Las Vegas?
- A. Since the incident, the whole family came I
- 13 believe twice.
- 14 Q. Okay. And you consider yourself close with
- 15 his wife?
- 16 A. Yes.
- 17 Q. Okay. How long have you known her for?
- A. Well, he first brought her here to meet me in
- 19 July of 2009.
- Q. How long have they been married for?
- A. They got married in October 2009.
- Q. And are the children, they have those two
- 23 children together?
- A. One is theirs together, and the other one
- 25 Holly had when they got married.

1 after the incident at Wynn Las Vegas?

- 2 A. It was after.
- 3 Q. Do you remember the substance of your
- 4 conversation?
- 5 A. Excuse me?
 - Q. What did you talk about?
- 7 A. What did we talk about? Oh, I told him about
- 8 the accident.

6

- 9 Q. Okay. Okay. And since that time you haven't
- 10 talked to him?
- 11 A. Correct.
- Q. Okay. And then going to 24 is Gaye Brobeck?
- 13 A. Yes.
- 14 Q. Holly's mother?
- 15 A. Yes.
- Q. I'm assuming you met her at the wedding in
- 17 October of 2009 as well?
- A. At the wedding and at her home for dinner the
- 19 night before.
- Q. Okay. And how many times have you talked to
- 21 her since the wedding?
- A. Since the wedding, I haven't talked to her.
- 23 Q. And then 25, David Brobeck, Holly's brother?
- 24 A. Yes.
- Q. When was the first time you met him?

Page 175

- Q. And have you discussed with her the incident
- 2 at Wynn Las Vegas?
- 3 A. The -- basically the same thing I told my
- 4 brother.

1

- 5 Q. Have you discussed your medical treatment
- 6 with her?
- 7 A. The same things that I told my brother.
- 8 Q. And then going to 23, it looks like Dave
- 9 Brobeck, Holly's father?
- 10 A. Yes.
- 11 Q. Okay. How long have you known him for?
- A. I met him at their wedding in October, and I
- went to their house the same time. October of 2009
- 14 when they got married.
- 15 Q. Okay. And how many times have you seen him
- 16 since -- after the wedding?
- A. I haven't been able to go. So I haven't seen
- 18 him.
- Q. Do you talk to him on the phone?
- A. I talked to him once.
- 21 Q. I'm sorry. You said once?
- A. Once since the wedding.
- 23 Q. Okay. When was that?
- A. I believe it was in February of 2010.
- Q. Okay. Do you remember if it was before or

- 1 A. We met at the wedding.
- 2 Q. And have you talked to him since the wedding?
- з A. No.
- 4 Q. And I'm turning the page to 213, and is it
- 5 Mele Brobeck? Did I pronounce it --
- 6 A. Mele.
- 7 Q. Mele. And that's Holly's sister-in-law?
- A. Yes.
- 9 Q. So is that David's wife?
- 10 A. Yes.
- Q. Okay. Did you meet her at the wedding as
- 12 well?
- 13 A. Yes.
- Q. Have you talked to her since the wedding?
- 15 A. No.
- 16 Q. And next is Larry Muro?
- 17 A. Yes.
- Q. M-u-r-o. And this is Troy Valdez's friend?
- 19 A. Yes.
- 20 Q. Okay. And how long have you known him for?
 - A. Well, he's -- he's Troy's childhood friend,
- 22 so many years.
- Q. How old is your brother, Troy?
- **A.** He's around 53.

 - MS. MORRIS: Object to foundation.

THE WITNESS: The doctor told me I had bruises there. So I asked him to take pictures.

- BY MR. KIRCHER: 12
 - Q. What doctor told you that?
- A. The doctor at UMC.
- 15 Q. So this was after the fall at the Wynn
- 16 Las Vegas?
 - A. Couple of days after.
- 18 Q. And then after you saw the first doctor, you
- 19 took these pictures?
- 20 A. Yeah. I saw the first doctor couple of days
- later, the 10th. And then when Sal got back -- he was 21
- gone. So when he came back, then he took those. 22 Q. Okay. And the bottom picture on PLTF000720, 23

 - Q. Do you remember what his response was?

doing that, the pain will subside. 1

- 2 Q. And in September of 2012, when you met with S.P.O.R.T.S. Physical Therapy, do you remember what 3 positions caused you this Level 10 pain?
- A. The positions he was putting me in, I don't 5 6 specifically know, or I don't remember what positions 7 or where he was touching me. I don't remember that. Q. And then going down the pain scale, it says, 8
 - On a scale of 0 to 10, with 10 being the worst and 0 being the best, currently is 10 100 percent of the time, the patient states.

So was it in certain positions you were at a Level 10, or is it all the time you were at a Level 10 in September of 2012?

A. For sure, in certain ways that I move, in certain positions that I am in can increase the pain. And -- and also, when I get the -- the pain at my neck into my head, if I don't do what I need to do to make that subside, it will turn into a pain that doesn't stop for a couple of days. And that -- that pain is unbearable.

Q. And is that still the case today?

A. If I do the moves and put myself in those 23 24 positions that -- that cause that, yes, it gets there. 25 But I have learned how to make it subside.

Page 191

Q. What do you do to make it subside?

- A. Well, I have to stop moving. I have to lie 2 down, rest my neck, put it -- you know, the special 3
- pillows, put it in a certain position, and I have to
- just keep all the pressure off it, stop the movement,
- until it subsides.
- O. And --7
- A. If I -- if I catch it early. But then if I 8 don't, if I don't take care of it -- and which I didn't know at the time, but if I don't catch it on time and 10 11 let it go into -- then it's just out of control for too
- 12 long. But I've learned.

13 Q. When did you learn that if you did that, that 14 your pain would subside? 15

A. Well, there are certain things that physical therapists told me to do, certain moves, and so of course I did them. And then I would get that extreme pain going up my neck into my head. First time I didn't know where that came from. But then I went to another physical therapist, they told me to do the same thing. Of course, I did it. The pain into the head, I got that again. So then I figured it out. I can't --I can't move my arms like that.

Q. How many physical therapists have you seen since the incident at the Wynn?

- Q. Okay. So he did a physical examination of 1 you? 2
- Well, he moved me around and ... 3 A.
 - Did he ask where it hurt?
- Yes. 5
- Q. Okay. And as he moved you around, did he ask 6 you if this hurt if you moved your leg this way? 7
- A. Yes.
- Q. Okay. And then looking at this, it's about 10 halfway in the middle of the page, it says, Increases 11 pain at this time with everything. I am always in 12 pain, a 10, everywhere on my body.

Do you see that?

- 14 A. Yes, I see it.
 - Q. Okay. Is this something that you told him?
- A. Well, I'm sure I told him that when I move, 16
- 17 certain ways that I move, certain positions I'm in, cause extreme pain. 18
- 19 Q. And you -- it's caused to a Level 10 out 10?
- A. If I move wrong, if I move in certain 20
- positions -- I mean, move certain ways or if I'm in a 21
- 22 certain position, it will cause that. I mean, I'm
- not -- I don't know what a 10 is. But -- but certain 23 movements, certain positions cause more pain. And --
- and if I -- if I get out of those positions and stop

- 1 A. Well, I've been to four physical therapy
- offices, but then of course when you go there, 2
- 3 sometimes you see more than one physical therapist.
- Q. Okay. And roughly how many physical therapy 4
- sessions have you completed since? 5
- A. Around 45.
- Q. Do you still attend any physical therapy sessions? 8
- A. Not right now. 9
- Q. When was the last time you went to a physical 10 therapy? 11
- A. When I went to the pool therapy, I believe. 12
- I mean, I exercise every day. I spend a lot of time 13 exercising every day. But actually going to the 14
- physical therapist, the pool session was the last. 15
- Q. Do you roughly remember when that was? 16
- 17 A. Yes.

1

12

13

14

- Q. When was that? 18
- A. Sometime around the end or beginning of --19 end of 2012, beginning of 2013. 20
- Q. How many pool therapy sessions did you do? 21
- A. I believe 20, around there. 22
- 23 Q. Do you believe they helped with your pain?
- 24 A. Then again, there were certain movements I
- 25 could not do. Otherwise, that would cause pain. And,

Page 196

Then -- then I try -- there's other exercises. Then I do Oi Gong.

Q. How do you spell that?

- A. I believe it's Q-i G-o-n-g. I do that almost 4
- every day. And then I -- I do a little bit of stepping 5
- very carefully. You know, in the way that I can do it. 6
- 7 And so just several hours throughout the whole day.
- 8 Otherwise, I wouldn't be able to stand up straight.
 - Q. Okay. Going to the -- talking about the stretching, what part of -- what parts of your body do you stretch? You kind of leaned forward. It looked like you were stretching your neck. Do you stretch

your neck? 13

- A. Well, it's all the way down, you know, to -it eventually gets my back. That stretch pretty much 15 gets your whole body. The Qi Gong pretty much gets your whole body. It's the arms and it's everything. It's a deep breathing.
- Q. And can you explain to me what Qi Gong is? 19 20 I'm sorry.
- A. It's -- I think it's kind of, like, a form of 21 22 Tai Chi. You know, it's the slow movements a certain way and the deep breathing.
- 24 Q. And then stepping, what is stepping?
 - A. Well, you know, I try to lift my feet and --

Page 195

- so I was very careful with the movements I did. In
- general, pool therapy, you know, makes you stronger in general, but -- but I had certain moves that I could 3
- not do because that would cause the pain. 4
- Q. And did you tell the therapist that you 6 couldn't do certain moves when they asked you to do 7 them?
- 8 A. I tried them. And then I would tell them, 9 well, I'm doing this, and I'm getting more pain wherever. So then -- so then they'd say, well, then 10 try it this way and don't do this, and ... 11
 - Q. You mentioned you exercised daily.

What do you do to exercise every day? What kind of exercises do you do?

- A. Oh, well, I do -- I spend hours throughout 15 the day. I -- I can't -- like, in the middle of the 16
- night, I wake up in pain, so I have to sit up for at 17
- 18 least a half hour. And it's stretching over, and --19
- and so it's a lot of stretching until the pain
- 20 subsides. And then when I get up, I can't -- you know, get up for the day, I can't stand up straight, and I 21
- wake up and my back and my leg are hurting. So I have 22
- 23 to sit up again, and I do the stretches and -- over and
- up. So it takes me at least an hour to stretch and to
- where I'm able to stand up straight.

1 and, you know, step.

Q. Are you standing or sitting when you're doing 2 3 this stepping?

A. Oh, well, that one, I'm standing, and then --

then there's the one where I'm sitting, and I put my 5 legs -- you know, my leg up to try to strengthen my

knees. I do that every day. 7

And I have to do my back exercises. I have to do that every day, you know, the knees to the chest. And then one knee to the chest and back and forth like that with your legs up (witness indicating). I -- I work on every part of my body that I can.

- Q. And do you do those exercises to help you become more active, or is it because you're in pain and that's the only thing that alleviates the pain?
- A. The most important thing is it alleviates the pain, and I have no choice but to do them. However, I was always very physically active, and I always exercised. And so in addition to I have to do them, it makes me feel good to be able to do them.
- Q. I think you mentioned that other physical therapists have hurt you with some of their exercises or some of the exercises they told you to do were painful; is that correct?
- A. Yes.

Q. Okay. And do you remember specifically what

exercises or what part of the body you were exercising 2

- that was giving you pain? 3
- A. Yes. 4
- Q. What -- what are -- what parts of the body 5
- was that?
- A. Well, I didn't realize that it affected my
- neck. But what they were giving me -- they had me do 8
- arm exercises and pulling on, you know, the -- the 9
- 10 bands, and -- and pulling on, you know a towel and
- 11 doing the -- what do you call it? But pulling on
- 12 things with your arms up in -- and that -- you know,
- with the arms straight up and -- and pulling a certain 13
- way. And that -- that gave me an extreme pain in my 14
- neck and it popped. And -- and -- and the pain just 15
- got all the way up my head, and so that's -- that's an 16 17 exercise I can't do.
- Q. Was there any other exercise that you can't 18 do? 19
- 20 A. Well, then a physical therapist -- I let him
- do everything he needed to do to evaluate me, you know, 21
- 22 move me every which way he wanted to. And when my leg
- or my arms are moved a certain way, it gives me a 23

4 Q. Okay. What's in front of you has been marked as Exhibit 6. 5

Do you recognize this?

- A. Okay. I -- it's my handwriting, so yes. 7
 - Q. Okay. So this is a document you completed?
 - A. Yes.
- Q. And in the upper left, it looks like The Hand 10 11 Institute; is that correct?
- 12 A. Yes.
 - Q. I don't see a date when it was completed. Do you remember when you completed this
- 15 document?
- A. There's no date? 16
 - Q. I'm not seeing one.
- A. Well, oh, okay. I know with my hand surgeon, 18
- Dr. Sorelle, and I saw him in 2012. So it would be 19
- when I was -- you know, around the time I saw him. 20
 - Q. So this was completed probably sometime in 2012?
 - A. Yes.
- 24 Q. Okay. And looking at the first page, Bates

- I misstate this at all -- Slip and fall, February 8th,
- 2010. 2/8/10, healthy, exercised daily, swing danced
- four to six hours a week, controlled LBS or IBS? 10
- A. IBS. 11
- 12 Q. And controlled stress disorder.
- 13 Is that correct?
 - Α. Yes.

14

- 15 Q. Okay. And what's the stress disorder that 16 you're talking about right here?
- 17 A. I -- when I lost my husband around 2002 and
- 18 he was sick a year before that, I was very stressed. 19
- And -- and I went to Nellis, and they told me, well --
- I just had like constipation and I was just stressed. 20
- 21 So -- so I was referring pretty much to that. And now 22 I'm -- I was faced with a very life changing -- another
- life-changing problem here, and I was letting them 23
- know, like, I'm stressed over this. 24
 - Q. You said you went to Nellis.

25 Q. Okay.

- They told me that's all it was.
- Q. Okay. And it's just from the stresses of why you were there? 8
 - A. Yeah, I was losing my husband.
- 10 Q. Of course. I'm sorry.

And so you considered this, the event, another life-changing event; is that correct?

- A. Yes. It ruined my life.
- Q. Why do you say it ruined your life? 14
- A. Well, it had -- I had -- why do I say it 15
- ruined my life? 16
- 17 O. Yes.
- A. Oh, okay. Well, I was a lucky woman. I had 18
- a great life and I loved it. I was happy. It robbed 19
- 20 me of that life. It changed the way that I plan on
- living the rest of my life. I couldn't do anything to 21
- 22 the level I could do before the accident. I -- I had a
- great -- you know, I had -- my late husband and I, we 23
- went on long walks. We traveled. We had a lot of fun, 24
- 25 and then I was lucky enough to find another man. We

June 9, 2015

I could easily take care of myself. Now everything I do is difficult.

So it changed my life. It robbed me of it. 3

- Q. And you attribute -- attribute all of that to the fall at the Wynn?
- A. I was a totally different person. I was
- happy. I was completely different. And after I fell,
- I had there immediate pain, and my life has never been
- the same. So I didn't have all of this. I didn't even have a doctor. I didn't go to doctors. 10
 - Q. And have you had a doctor tell you what's causing you all this pain over the last four or five years, like why you have so much pain from this?
- A. Well, I've been to different specialists for 14 15 different parts of the body.
 - Q. Okay. And you say you are losing the use of your left hand.

Do you know why that's occurring?

A. Well, I know that ever since I fell, a few days later, I had -- I had symptoms on the left side of my face and my left arm went numb, and I know that certain positions, when I move my neck a certain way, put them in different movement, different positions, then the pain will start going down my arm into my hands. My -- they'll go numb. I know that.

Page 203

went on long walks. We traveled. And we had a lot of fun, but we also swing danced several hours a week for

years. Now I use a walker and I'm afraid to travel because it causes more pain and it bothers my head. And we had a great physical relationship. Now I don't want him to touch me because I'm in pain. My boyfriend and I, we were always around people, on the go. Now

it's difficult for me to leave my house. It's 10 difficult for me to get around, and I should be able to 11 do it. So -- so my boyfriend and I broke up four years 12

I used to be able to drive for hours. We traveled all over. I drive all over. And now I'm afraid to drive. It -- it hurts my neck when I turn my head, and my neck will pop and the pain will go all the way up my head into my eye and I get dizzy, and then the pain goes from neck down my arms into my hands. My back hurts all the way down to my foot. And I used to run up and down -- I loved running up and down my

21 stairs. Now I can barely get around in my own house. 22 I used to sleep well. Now I don't. I could breathe

easily through my nose. Now I breathe through my

24 mouth. I could type really fast and play the piano.

And now I am losing the use of my left hand. And I --

Page 205

- Q. And has a doctor told you why you're having 1 this pain on the left side of your body? 2
- 3 A. Well, I have it on the right side too, but I
- was specifically talking about that. Well, I need 4
- surgery on the hands, both of them. 5
 - Q. And why do you need surgery on the hands?
- A. Well -- okay. One is trigger finger in the left. 8
 - Q. You were diagnosed with trigger finger?
 - A. Yes.
 - Q. Were you diagnosed with anything else?
- 11 A. Carpal tunnel on both. And also I was told 12
- 13 that the neck -- because the -- the neck is -- there's
- severe damage in my neck that causes -- it's causing 14 my -- the numbness. 15

Q. Have you had a doctor tell you that your fall at the Wynn Las Vegas caused the carpal tunnel?

A. Well, I know that I didn't have this symptom before. I was a swing dancer. And then there, at the Wynn when I was there, then all of a sudden after -after -- immediately after the accident, my arms and hands, shoulder hurt so much. I couldn't even take my camera out of my purse and take pictures. And I couldn't fill out the form. The security guard wanted

25 me to fill out his forms. I couldn't even do that.

Page 206

So -- so I'm perfectly capable and healthy, 1

- and then I fall right there and I can't do that? 2
- Q. But have you had a doctor tell you that your 3
- carpal tunnel was caused by the fall? 4
- A. I was told that the injury causes that.
- Q. The -- what injury are you talking about
- right now? The fall?
- A. That was my understanding.
- Q. Okay. Do you remember which doctor told you 9
- that? 10

6

- A. I believe Dr. Sorelle said that. 11
- Q. And did a doctor tell you that the trigger 12
- finger issue was caused by the fall at the Wynn 13
- Las Vegas? 14
- A. Oh, yeah, that -- that happened right then. 15
- 16 Q. Which doctor?
- 17 A. It was hurting right then.
- 18 Q. What doctor told you that the fall caused the
- 19 trigger finger?
- A. Well, that's my hand doctor. The injury 20
- 21 caused that.
- Q. So Dr. Sorelle told you that? 22
- 23 A. I believe he did.
- Q. Do you remember if he specifically told you
- that or not?

there, immediately after -- after the fall, I had all

- 11 say.

- 12 A. It looks like it's from my hand surgeon.
- Q. Okay. And then turning to the second page, 13
- Plaintiff's 6, so this is your hand surgeon, Minimally 14
- Invasive Hand Institute; is that correct? 15
- 16 A. Yes.
- Q. Okay. In the upper right, it looks like you 17
- were seen by Jonathan Sorrelle? 18
- A. Yes. 19
- Q. On -- this is February 14th, 2012; is that 20
- 21 correct?
- A. I'm sorry. I missed it. Oh, yeah. Okay. 22
- 23 Up on top?
- 24 Q. Yes.
- 25 A. Yes.

Page 207

- A. I believe he did. That was my under -- it 1
- was my understanding, and I -- and I told -- I know I
- 3 told him I never had that, and then immediately after I
- fell, I -- I had all this pain. 4
- Q. And you said you had severe damage in your 5
- neck; is that correct? 6
- A. Yes.
- Q. And did a doctor ever tell you that that was 8 caused by the slip and fall at Wynn Las Vegas?
- A. I'm positive that I didn't have the pain or 10
- the symptoms or any of that when I went there to the 11
- Wynn. 12
- Q. But a doctor hasn't told you that that's what 13 caused the pain; is that correct? 14
- A. It was my understanding that -- that I --15
- that's what they said. It's my understanding that 16
- 17 that's what they said.
- 18 Q. Who said that for the neck pain?
- A. Well, I believe Dr. Cash said that the 19
- 20 injury -- an injury causes this.
- 21 Q. Did he specifically say that the fall is what 22 caused this?
- A. Well, I specifically told him I was perfectly 23
- healthy. I didn't have any of this when I was -- when
- I went to the Wynn, and then immediately when I was

- Q. Okay. At one point, it says, The patient had 1 a life-altering fall on 2/8/2010. The fall was from 2
- standing height. The patient is very tangential with a 3 4

- Do you know what he's talking about when he 5 6 said the patient is very tangential with a number of her symptoms? 7
 - A. No.

8

13

14

15

- Q. Okay. And then looking at the, I guess,
- 9 second-to-last paragraph, at one point, it says, The 10 11 patient has not tried NSAIDS for this problem, and 12 she's deathly afraid of all medical treatments and/or
 - diagnostic studies.

Are you afraid of all medical treatments and -- and -- and/or diagnostic studies?

- 16 A. If they're going to help me and heal me, I
- 17 need them. If they're going to hurt me, I don't want
- them or, you know, if we are -- they're going to do --18
- injure me, of course I don't want them. I don't want 19 20
- to take drugs just to take drugs. O. Did you ever tell them that, that you were 21 deathly afraid of medical treatments? 22
 - I'm not sure.

- A. Apparently he got that impression. 1
 - Q. And I guess February, 14th, 2012, do you
- remember what kind of medical treatment Dr. Sorelle 3
- wanted to give you?
- A. Well, Dr. Sorelle, I just went to him for my
- hands, and -- and what he said what I needed is surgery 6
- on both hands.
- Q. Okay. And then I'm looking at Plaintiff's 8.
- A. Page 8.
- Q. Page 8, yes. Actually, can you turn to 10 11 page 9.
- 12 A. (Witness complies.)
- Q. At the very top, it says -- it was cut off on 13
- page 8 -- The patient has the above symptoms which have 14
- not improved. The patient now mentions she has fallen
- on her right shoulder a while back, and she has never 16
- had X rays performed. The patient has not tried 17
- 18 NSAIDS.

19 What -- what fall are they talking about on the right shoulder? 20

- 21 A. Well, the fall at Wynn on February 8th, 2010.
- Q. He's talking about that fall? 22
- A. Yes. 23
- Q. Have you --24
- A. That was -- that was an immediate injury and

neck. And then 2011, they took more X rays. And so

- basically the MRI and a lot of X rays. Right now, 2
- 3 that's what I remember.
- Q. Okay. And the pain that you had with your 4
- 5 neck MRI, that was pain in your head? Is that that
- pain that you were having during the MRI? 6
- A. Yes. 7
- 8 Q. Like headache kind of pain or ...
- A. Well, it wasn't merely a headache. It was a 9
- lot of pain in my head. 10
 - Q. Felt pressure in your head?
- A. Well, just a lot of pain, and they had to get 12
- 13 me out.

11

15

17

- Q. Have you had a neck MRI done since then? 14
 - A. Oh, yes.
- Q. Okay. Do you remember what the results were? 16
 - A. Yes.
- Q. What were those results? 18
- A. A lot of damage to the disks, and I think the 19
- 20 nerves.
- 21 Q. I guess talking about the test you did in
- 22 2010, do you remember what the tests revealed?
- 23 A. Oh, also they did X rays of my hip.
- O. In 2010? 24
- 25 A. Yes.

- Q. Have you fell since that time?
- A. No. I -- I -- my leg and my knees give out
- on me, but I haven't had complete falls. So I use my
- walker so I don't fall. 5
- Q. Okay. That was all the questions I had on 6 that one. 7

And after the fall at Wynn, do you remember 8 going through numerous tests by Steinberg Diagnostics?

- A. Yes. 10
- 11 Q. Okay. Do you remember what those tests were?
- A. Yes. Well, you know, most of them. 12
- 13 Q. Can you list those for me.
- A. Steinberg? 14
- Q. Yes. 15
- 16 A. Yeah, I've had -- specifically Steinberg?
- 17 Q. Yes.
- 18 A. Well, MRIs. They did an MRI on my back, and
- 19 they tried to do an MRI on my neck, but they couldn't.
- 20 They had to get me out because it caused extreme pain,
- and they had to get me out. My head was -- I couldn't
- stand it. So -- so they weren't able to finish that 22
- 23 one.
- Then they took a lot of X rays. They took --24 in 2010, they took X rays of my knee, my chest, my 25

- 7 excuse me in 2010, right.
- Q. Yeah, we're talking 2010 right now. 8
 - A. Yeah.
- Q. And then the chest X ray they did? 10
- A. Just something about the thoracic thing, just 11
 - a little something. I forget what it said.
- 12
- Q. Okay. And neck X ray, was there anything 13 wrong? 14
- A. Yes. 15
- Q. What was that? 16
- 17 A. Damage to my disks and nerves.
- 18 Q. Have you received treatment for the damage to 19 your disks?
- 20 A. Not yet. I mean -- I mean, I went to
- 21 physical therapy a lot, but I haven't had any treatment 22 yet.
- 23 Q. Okay. Are you planning on receiving treatment in the future? 24
 - A. Yes.

25

Page 214

1 Q. What kind of treatment have you been told you need? 2

3 A. I need surgery on three of my disks in my

neck, three of my disks in my back -- you know, I'm 4

really sorry. What was your question?

Q. What kind of treatment do you need for your 7 neck?

A. Oh, for my neck? Yeah, three of my disks in 8 9 my neck.

10 Q. Okay. And what's the issue with the neck? 11 Was it an injury that was attributed to the fall at the

Wynn Las Vegas? 12

A. Yes. 13

Q. Well, and --14

A. I had -- I hadn't -- okay. I had no issue 15

16 with my neck at all. I was a swing dancer. When I

went there to the Wynn, I was perfectly healthy. After

18 the fall, immediately there, I had all this pain and -and symptoms. 19

Q. But has a doctor told you that your neck 20 problems are from the fall at the Wynn? 21

A. Well, I told him that I had no symptoms 22

23 and -- and how healthy I was and that I had,

24 immediately right there, the -- the symptoms and the

pain. 25

Q. So you were having pain at this time? 4

A. Yes. 5

Q. Okay. And the impression -- on the

Impression part, it says, Straightening of the normal

cervical lordosis and nonspecific major positional or

due to muscle spasm. And No. 2, he says, Moderate mid 9

10 cervical degeneration.

Do you know what No. 2 means?

12 A. Not really.

Q. Has a doctor ever discussed this with you,

the mid cervical degeneration?

A. I'm sorry?

Q. Have you ever talked to a -- has a doctor discussed the mid cervical degeneration with you?

A. Are you talking about this thing -- this --

this -- did they discuss this document with me? Is 19 20 that what you're saying?

Q. Yes. It looks like one of your doctors

requested that you have some tests done; is that 22

23 correct?

24 A. Yes.

25 Q. And then you went to Steinberg and had some

Do you know anything about that?

A. I'm sorry?

Q. You have some kind of degenerative -- let's see if I can find -- with your disks. I believe in --

20 Q. Do you remember having a service done on

March 19th, 2010? 21

A. Well, I know that that's one of the X rays I 22

23 had.

Q. Okay. And the one I'm looking at, it says 24

tests done?

A. Oh, yeah. Okay. The -- it says right here 2

that Dr. Subramanyam requested this. This is my

primary doctor, and he sent me for this X ray. And

5 then when the X ray came back, then he said that I

needed to go see the orthopedic surgeon. 6

Q. And who did he refer you to? 7

A. Dr. Cash.

9 O. Dr. Cash. Okav.

Then turning to 29. Are you there?

A. Yes.

12 Q. And on the top, it looks like it says,

13 Physician Andrew Cash.

Do you see that?

A. Yes.

16 Q. Okay. And so did Dr. Cash have you do an MRI

of the lumbar spine -- lumbar spine it looks like?

Q. Okay. And it says, Date of service:

4/8/2010. 20

Does that sound about right?

22

Q. Okay. And says Clinical History: Right

buttock and right leg pain; is that correct? 24

A. Yes.

Do you see that?

- A. Yes. 5

- Dr. Cash about what this meant? 7
- A. Oh, he just told me that my disks and nerves were damaged. 9

- Q. Okay. Did he ever talk to you about whether your fall at the Wynn caused these disk issues or if 12 the fall at the Wynn could have contributed to these disk issues at all?
 - A. I don't think he went into that detail.
- 16 Q. Okay. Did you ever ask him the question? 17 Like, why is this occurring to me or ...
- 18 A. Well, I knew why it was occurring to me. To
- 19 me, I was perfectly healthy. I didn't have any of
- 20 this. A swing dancer -- in fact, I swing danced
- several hours just before that. I mean, I was 21

- Q. And what -- who sent this letter? 9
- A. Excuse me. It says Dr. Fotedar. 10
- 11 Q. And who is Dr. Fotedar and is he one of your physicians? 12
 - A. Yes. He was a -- well, he's a cardiologist
- that I went to for a second opinion. 14
- Q. When did you go to him for a second opinion? 15
- 16 A. On this day that -- what does he say?
- 17 Well --
- 18 Q. September 7th, 2012, on the top or --
 - A. Well -- well, that's when he wrote the
- 20 letter. So around then when I went. I just saw him 21 the once.
- 22 Q. Okay. And what did he give you a second opinion regarding? 23
- A. I told him about the fall and the symptoms 24 25 that I had and that I still was having the chest pain,
- Do you know what that means?
- 19 A. Well, I just told you that my nerves were affected by now. 20

stenosis or neural foraminal narrowing.

- Q. So this relates to your nerve in your spine? 21
- A. The disk and the nerves. That's my understanding. 23
- Q. What did Dr. Cash tell you specifically? 24
- 25 A. Well, my general understanding is that my

- and that the first echocardiogram had showed damage to
- my valve. And then the second echocardiogram showed
- 3 that it had damage -- that the -- that the damage went
- from one valve into two valves now. So I needed to 4
- know what was going on. 5
- б Q. Do you remember when you had the first 7 echocardiogram?
- A. I know that Dr. Subramanyam, when he first
- saw me, he took a heart test. That may not have been 9
- the echocardiogram, but then he referred me to the 10
- cardiologist, Dr. Wesley. So this was, you know, 11 after -- shortly after the accident because I had the 12
- 13 chest pains. I believe that's when Dr. Wesley had the
- echocardiogram done, you know, shortly after the 14 accident. 15
- 16 Q. And when and how far --
- 17 A. I'm sorry. I'm sorry. I forgot your
- 18 question, but that was the first echocardiogram.
- Q. Correct? 19
- A. Okay. 20
- Q. And then when did you have the second one 21 taken? Was it shortly after that? 22
- 23 A. I believe after I -- after I went to the
- physical therapist and Dr. Suarez, and, you know, the 24
- 25 movement triggered the pain in the chest, and he said

Page 224

- Is that the way that you remember the conversation you had with him?

- Q. So what did he tell you about it?
- 5 A. Well, first of all, the first echocardiogram
- only had one valve. So if he's talking about the 6
- second echocardiogram, which now has two valves, 7
 - that -- that isn't fine. I mean, it -- if it
- progresses from one valve being affected to the second 9
- 10 valve being affected, that's not fine.
 - Q. What -- what did he describe to you on that date on what was wrong with you, for lack of a better word?
- 14 A. Well, he said, yes, the first valve, when
- 15 that's affected -- I mean, these aren't his exact
- words -- when that is affected, yes, that can start 16
- 17 affecting the second valve. And he said that I needed
- to have a follow-up -- follow-up echocardiogram and 18
- also a stress test or something like that. So 19
- basically that's what he said. 20
 - Q. So do you disagree with his statement that he wrote that said "she had a normal echocardiogram" -echocardiogram? Sorry, mispronouncing that.
 - A. I think you're reading it -- you're reading it differently than I am.

Page 225

- 1 that I needed to go to a cardiologist before he did -touched me. And I -- that's when I went back to 2
- Dr. Wesley. And that was, you know, 2012. And that's 3
- when Dr. Wesley did a lot of tests. So I believe that 4
- that's when the second echocardiogram was done.
- 6 Q. Okay. And have you ever read this Exhibit 9?
 - Have you read this letter before? A. Yes, I have.
- Q. Okay. Have you read it recently? 9
- 10

7

11

- Q. I guess turning to the second page,
- Plaintiff's 77. On the Recommendations, No. 1, just 12 want to read that real quick just to refresh your 13
- memory before I start asking you a few questions. 14 15 A. Oh, you want me to read the whole thing? Can
- you just ask me specific questions? 16 17
 - Q. Okay. That's fine. Well, it says he had a long discussion with the patient. I basically tried to
- 18 assure her that she had a normal echocardiogram and her 19
- 20 mitral and tricuspid regurgitation described on that 21 echocardiogram were qualified and physiological. The
- patient was not very happy with this and thought that I 22
- 23 was not paying a lot of attention to her echocardio
- symptoms and signs. The way I'm reading this is he's
- saying that your echocardiogram was fine.

- Q. How are you reading it?
- A. I'm reading it that -- well, this -- this is
- 3 what I got from what he told me. He wasn't alarmed.
- 4 That yes, it was progressing, but he wasn't alarmed.
- 5 And just to get another follow-up echocardiogram and
- get the stress test. 6
 - Q. And he wrote that you were unhappy with the way that he reviewed your echocardiogram.

Do you remember not being happy with his recommendations?

- A. Well, I remember that the reason he spent time with me talking is because in the beginning, he didn't address the echocardiogram. Then I had to tell
- 14 him, Well, Doctor, if the first one just has one and the second one shows now it's progressed to two, why is 15
 - this? And so then -- then he did. He was very nice and then he did take the time. And then he explained
 - to me, and explained to me, well, you need to have another follow-up. But -- but he wasn't alarmed. So -- so he was very nice and -- and calmed me down.
 - Q. Then, I guess, keep going. He says, I spent more than 30 minutes with her trying to explain to her that she does not have significant valvular heart disease at this point in time based on the -- based on
 - echocardiogram from April and on clinical examination

1 and maybe her symptoms cannot be explained from that. 2 Do you remember talking -- him talking to you 3 about that?

- A. Yes. He told -- told me he wasn't alarmed, 4
- 5 and that the chest pain maybe wasn't from this.
- 6 Q. I guess you keep talking about how it went 7 from one valve to two valves; is that correct?
 - A. Yes.

8

19

20

- 9 Q. And I guess I'm seeing in here where he's
- mentioning that there was some kind of progression from 10 one valve to two valves or any problem that you had at 11
- 12 that time just reading this.
- A. You just read that to me. 13
- O. I had a long discussion with the patient, and 14
- I basically tried to assure her that she had a normal 15
- echocardiogram and her mitral and tricuspid 16
- 17 regurgitation described on that echocardiogram was qualified physiological. 1.8

I guess just confusion there. I just -- it doesn't sound like he's saying what you're saying.

- A. I think he addressed it there. Well, he 21
- 22 knew -- I think it's in there. I can't see it right
- 23 now. But the whole point was, I asked him, well, the
- 24 first one showed one, now the second one is showing
- 25 it's progressed to two, and -- and that was what I was

Page 228 Q. Did Dr. Wesley ever tell you that these kind

- 2 of problems could happen from a fall like you had at the Wynn? 3
- A. I'm sorry. I don't -- I don't recall him 4
- 5 saying -- I don't recall what he said about that.
- Q. Okay. Did Dr. Fotedar ever tell you that? 6
- 7 A. Well, I saw him the one time, and I don't --
- I just know that I told him the same. I didn't have
- 9 the -- these issues -- these heart issues or any
- 10 symptoms before. And then after I did, immediately I 11 did.

MR. KIRCHER: Have this marked as Exhibit 10, please.

(Defendant's Exhibit 10 was marked.)

BY MR. KIRCHER:

17 Q. What's in front of you has been marked as Exhibit 10. First page is Plaintiff's 392. 18

Do you recognize these -- this document or 19 20 documents?

- A. Yes.
- 22 Q. And it looks like it's from Advanced
- Orthopedics & Sports Medicine; is that correct? 23
- A. Yes. 24
 - Q. Do you remember who -- what doctor you saw at

- asking him about. And that's what he was -- that's why 1 2
- he took the time so that -- and telling me that he
- wasn't alarmed by it, but just to have the follow-up 3
- echocardiogram and get -- and follow it.
- 5 Q. And you only saw him that once?
 - Α. Yes.

6

- 7 Q. Why did you not go back to him again?
- R A. Oh, because I only went to him for a second
- opinion, and I'm going to go back to Dr. Wesley.
- Q. In your mind, did he give the same -- did he 10 11 have the same opinion as Dr. Wesley?
- A. I don't know what Dr. Wesley's opinion is. 12
- Q. And do you attribute these valve issues to 13
- 14 the fall at the Wynn? A. I'm positive that I didn't have chest pains 15
- 16 before I -- I fell at the Wynn.
- Q. So you do, then? 17
- A. I'm sorry? 18
- 19 Q. So you do attribute the chest pains you're
- having to the fall at the Wynn? 20
- 21 A. I'm -- I'm positive that I didn't have the
- 22 chest pains before. And I'm -- and then after I fell,
- and -- and I had the immediate pain and injuries right 23
- there. I had the pain in the shoulder which is, you 24

- A. Yes. 2
- 3 Q. Who was that?
- A. Dr. Trainor. 4
- Q. This is Dr. Trainor. Okay. 5

And then turning to the second page, 393. On

- the top, it's kind of cut off, but I think it says 7 8 today's date is 2/10/12.
- 9 Do you see that?
 - A. Yes.
- 11 Q. Do you remember going to visit them on
- 12 February 10th, 2012?
- 13 A. I remember seeing Dr. Trainor.
- Q. Okay. I believe you circled it as well. All 14
- right. And then turning to 395. 1.5
- A. (Witness complies.) 16
- 17 Q. Do you remember why you went to Dr. Trainor
- on that date? 18
- 19 A. Yes.
- Q. Why did you go? 20
- A. Because Dr. Subramanyam referred him -- me to 21 22 him because my hip and my knees were still hurting.
 - Q. Which knees and which -- right knee?
- 24 A. Well, both of my knees were hurting. But
- 25 specifically he was just looking at my hip and my right

- knee that day. 1
- 2 Q. Okay. And then looking at these, did you
- fill out this document that's marked 395?
- 5 Q. So this is your handwriting?
- 6 A. Yes.
- Q. And -- and just looking at this document, it
- looks like there's a bunch of times you wrote slip and 8
- fall. 9
- Do you see that? Like, just all over the 10 place? 11
- 12 A. All over the place? Okay. I believe you. I mean, yes. Okay. 13
- 14 Q. I presume you're referring to the -- your fall at the Wynn? 15
- 16 A. Yes.
- 17 Q. And there's parts where you wrote and
- circled -- you know, they're asking you, Have you ever
- had any of these symptoms? If no, mark none. And 19
- there's parts where you circled them, and wrote slip 20
- and fall -- or squared them. 21
- 22 Do you see that?
- 23
- 24 Q. So under No. 1, GI, you wrote -- there's
- blood in stool and you had slip and fall above it and

2 This is two years after the fall at the Wynn;

is that correct? 3

- A. Yes. 4
- 5 Okay. And you still have blurred vision?
 - Well -- well --A.
 - Q. Or do you still --
 - A. I still get it. I get it -- it comes and
- goes. You know, with the neck pain, the certain 9
- 10 movements, and if I don't -- if I don't lie down and
- 11 let it subside, it starts going up my neck and then
- 12 affecting into my head, and then it affects my eyes.
- 13 So I still get it. So what I was saying is since the
- slip and fall I was getting these symptoms in my head. 14 15
 - Q. So this isn't something that's constant.
- It's something that comes on --16 A. It comes -- it comes and goes. I mean, now I 17
- know how to make it subside. I didn't know at the time. I mean, when it happened, I didn't know what was 19 20 going on.
- Q. The next one, No. 5, trouble swallowing, and 21 22 I think it says sinus growth?
 - A. Yes.
 - Q. Can you explain that for me?
 - A. Yes. Before that date -- when I went there

Page 231

- nausea. 1
- 2 A. Yes.
- Q. What does that mean? 3
- A. I meant that -- that when I had the slip and
- 5 fall, after I slipped and fell, that I had nausea,
- and -- and I had, you know, a problem with my -- my 7 system.
- R Q. Okay. And then --
- 9 A. Specifically, I was completely constipated.
- I had a problem. It's like it stopped working. 10
- 11 Q. And then under No. 4I, it says -- it looks 12 like you squared blurred vision?
- A. Yes. 13
- 14 Q. And that started happening after this fall at the Wynn? 15
- 16 A. After I fell and I hit my head and I was dazed right there. 17
- Q. Where? I'm sorry? 18
- 19 A. Immediately there at the Wynn, that was one
- of the things that I had the immediate thing. I had --20
- I was dazed. And my -- my eyes were blurry. And when 21
- they -- he gave me the form to fill out, I wasn't able 22
- to, and when he had me sign it, I was -- it was blurry, 23 24 so I had that problem right then.
 - Q. And this was filled out on February 10th,

- that day, I was healthy. I was a swing dancer. I had
- no issues, no symptoms. I had no issues with my head, 2
- 3 no problems with my eyes or my head. And when I fell,
- I immediately had these symptoms and pain and I was
- 5 dazed, and I had this -- my head, had problems with my
- head and neck and the rest. 6
- Q. Okay. What does sinus growth mean? 7
 - A. The doctor said that I have eight, like, a --
- I don't remember his exact words, but it's like a -- a
- 10
- balloon that swells up and goes back down, something 11 like that.
- 12 Q. Have you received any treatment for that?
- 13 A. No.
- 14 Q. How often does it blow up or swell up?
 - A. On a regular basis. I mean, it's always
- there, but just comes and goes. 16
- 17 Q. Okay. I guess -- I think I skipped some of
- these. When I look on the right, it says "Year," and I 19 think you marked some of these. It says slip and fall 20 caused -- kind of look right here, just so we're on the
- same --22 A. Okay.
- Q. So slip and fall caused internal injuries, 23 hernia and/or ulcers. 24
 - Do you see what I'm --

problems and it felt like they were -- the tissues were 22

6 Q. Have you received treatment for that? For any sort of depression? 7

A. No. I mean, I'm just depressed because I 9 have to go through all this. I wish I didn't. I wish 10 it hadn't happened.

Q. Have you been prescribed any drugs for depression?

A. No. I mean, doctors offer drugs. But I haven't been -- I mean, they offer them, but I haven't

15 been prescribed them, and I'm not taking them. 16

Q. Have you been to a psychiatrist?

A. No. I mean, what, ever in my life?

Q. In the last five years? 18

19 A. No.

20 Q. Okay. It looks like throughout this document, you're attributing a lot of these symptoms to 21 22 the fall at the Wynn; is that correct?

MS. MORRIS: Object to form.

THE WITNESS: What is correct is -- what I'm trying to say here is I was healthy. I had no

A. No. Specifically, they said, We can't tell 3

what you it is without the tests.

Q. And is that true with the ulcer as well?

A. Yes.

6

7 Q. Okay.

A. They just said, well, it could be a hernia,

could be this, could be that, but we need to give you the tests.

11 Q. And below that, it says, And/or aneurysm; is 12 that correct?

A. Yes. 13 Q. Same thing. This is something that a 14

 10 then you wrote something to the right of that.

Do you see where I'm talking about?

- A. Okay. What exactly -- okay. I see the area.

 So what are you -- exactly are you asking?
- Q. So do you see where it says heart attack, year, and you put no -- is that "No?"
- A. Yes. I'm -- I put -- I didn't know if after the fall, that -- that what I had was a heart attack.
- 18 I didn't know if -- if that's what I had. That --
- 19 that's the question.
- Q. But when did you have a heart attack or when did you think you possibly had a heart attack?
- A. Well, I had the chest pains. And a couple of
- days later, I had symptoms on the whole -- on the
- entire left side of my face and my arm and hand went
- 25 numb.

- I took those drugs.
- Q. Have you seen -- have you had a stroke in the last -- since 2012?
- A. Not that I know of.
 - Q. Have you had a heart attack since 2012?
- A. Not that I know of.
- Q. I'm thinking somewhere in this medical record it's mentioned a drug intolerance.

Do you have some sort of drug intolerance?

- A. In that I will take drugs if the doctors tell
- 21 me that they will heal me. But if the doctors tell me 22 that they'll -- they won't heal me and they'll just
- cause more problems, then I won't take them. I'm not
- 24 going to take drugs just to take drugs.

 A. Oh, sure. It's all over their papers. It's
- 3 all kinds of warnings.
- 4 Q. So you're talking about the side effects?
 - A. Right.
- 6 Q. Do you have some chronic anxiety disorder?
- 7 A. Only in like -- like I explained, when I was
- 8 losing my husband, it is extremely emotional time. And
- 9 when this happened, the fall and, you know, my system
- 10 stopped working, and I didn't know what was going on,
- 11 it was extremely emotional time.
- 12 Q. And I know I've asked you this, and sorry, 13 you lost your husband in 2002?
 - A. Yes.
- Q. And so the fall, did it bring back some issues with the chronic anxiety disorder?
- A. In that I remembered that, yeah, it kind of felt like I did at that time. Like, you know, I -- I
- 19 wasn't able to control what was going on.
- Q. Do you remember seeing Dr. Thompson shortly after the fall?
- 22 A. Yes.
 - Q. Okay. Who -- what kind of doctor is he?
- A. I believe he's a D.O.
 - Q. And why did you go see him?

- Q. Did a -- has a doctor ever -- tell you thatyou had a stroke after the fall?
- 9 A. I didn't go for those symptoms. I took the drugs and I went to bed.
- Q. I guess underneath there, it says, Will go back to the cardiologist.
- Did you ever go back to the cardiologist for the stroke or heart attack?
- A. Oh, yes. Then I went -- right. That's when I went to Dr. Wesley, and he did all of those tests.
- Q. Did he find any -- that you had a stroke?
- A. What he did say is all the tests looked good and all I had was that echocardiogram with the -- with
- Q. So all the tests looked good for a stroke, I guess?

the frontal view, on the right arm, right shoulder,

these bodies?

A. It looks like I was just trying to show that

1 I just had pain.

Q. Okay. And I guess just looking at the two 2 exhibits, 11 and 12, it looks like that you said pain

in pretty much a lot of the same areas; is that

correct?

A. Yes.

Q. So and not -- in almost two years, nothing really changed regarding where you were having pain on

your body?

11

17

1

2

3

10

17

18

A. Basically I think about the same places. 10

Q. So you consider this pretty accurate?

12 A. Oh, I'm not saying it's accurate. It looks

1.3 like I just got tired and just started crossing everything. 14

Q. Looking at the 2012 one, do you think there's 15 16 somewhere that's marked that should have been marked?

A. I'm sorry. Are you still on these bodies?

18 Q. On -- on the 2012, on the four bodies, Exhibit 12. 19

A. I'm sorry. Could you be more specific? 20

21 Q. Sure. There's Xs on these four different 22

views of the body. 23 A. Right.

Q. You put these Xs on the body; is that 24

correct? 25

Page 248

my -- my chest. You know, I still get that. If I move a certain way, I get that pain, and I still get that

pain in the ribs when I move a certain way. 3

4 Q. So in -- in the -- I guess, you know, between 2010 when you had the fall and 2012, you went to 5

б numerous medical providers; is that correct? 7

A. Well, what's numerous? I mean, I went for my hands. I went for my hip and knee. I went back to

the -- back to Dr. Wesley for -- for the heart tests

that he wanted to do. And there was another one I 11 think.

12 Q. That's fine.

24

So during this time, you received some medical treatment; correct?

A. You're talking about the 2012?

Q. Between 2010, the fall, and 2012.

A. Oh, yeah. I went to a lot of -- I went to 17 18 doctors. I went to them several times, and, you know,

19 I got the -- I got the X rays, the MRIs. And I went for physical therapy. 20

Is that what you're asking?

22 Q. Yes. Yes.

> Yes. Α.

Q. So did any of the physical therapy or any 25 other treatments, whether it be drugs, physical

Page 247

A. Yes. I mean, yes.

Q. And is there anywhere you put an X on any of these four views of the body that you think is

incorrect? And we're still talking about 2012.

A. I'm -- okay. I -- it looks like I was just

6 tired and I was just marking everything. And my whole

point was that I have pain and basically, I just --8

basically it's the same areas that I had the pain in in 9 the beginning. But right here, I'm just -- it looks

like I'm just marking everything up.

11 Q. Okay. So do you think the Exhibit 11 body on PLTF402 is a more accurate representation of where you 12 had pain in 2012 as well? 13

A. I tried to be more accurate there, but it was 15 too much. So just basically tried to hit the -- the main areas. 16

Q. I guess I'm just trying to figure out in 2012 where you were having pain. If it was the same areas two years later. Was -- had anything improved at all?

20 A. Well, basically I still have the same areas that are bothering me. When -- that day, when I fell 21 22 and I had the immediate pain, and basically those are

the places that hurt. Still my neck up to my head. 23 Still my back down to my foot. Still my neck down to

my hands. Basically that's it. And -- and of course

therapy, did any of it alleviate the pain in that

two-year period is what I'm trying to ask?

A. Oh. I still have those -- the pain when I 3 4 move a certain way and in certain positions. So I

still have that. 5

Q. So nothing's changed in between 2010 -- the 6 7 fall of 2010 and today?

A. I still have the pain in the neck. And it -and it goes up to my head. Still have the pain in my 9

back. Goes down to my foot. But -- but the certain 10

11 moves, certain positions trigger more pain. And now I

12 now how to make it subside. I just have to stop

13 moving, lie down, and -- and let it subside. Because

14 if I keep moving and keep doing -- making those moves

15 that are triggering it and sitting or standing up in

those positions, it will just keep getting worse. So

17 now I know how to make it subside. 18 Q. But if you didn't do those movement or things that you know now, would your pain be just as bad as it 19

was in 2010? 20

A. Yes. It will keep going.

Q. Has a doctor explained to you why you're experiencing so much pain?

A. My -- my general understanding is because -okay, because my disks and the nerves are damaged, my

- Q. So that didn't happen until last year? 13 14
 - A. Right after the MRIs last year.
- 15 Q. Okay. So you don't attribute whatever they diagnosed you with the -- with the detaching eyes to 16
 - the fall at the Wynn, do you?
- 18 A. I'm really sorry.
- Q. It was a bad question. I'm sorry. 19
- Do you attribute the problems you're having 20 21 with your eyes to your fall at the Wynn?
 - A. The detaching eyes?
 - Q. Yes.
- 24 A. Only in that the timing. I had the MRIs, and 25 then I had the flashing. And so I don't know if the

flashing was because of the MRIs. I know for a fact

- that in March, around there, in 2010 when I had the
- MRI, the neck MRI, they couldn't finish. They had to
- get me out because it affected my head. It was the
- extreme pain. So I was afraid to get more MRIs after 5
- that time.

So I finally did get more MRIs last year, and 8 then this is what happens. I mean, the timing is just 9 too close.

10 Q. The timing is too close to what? The 11 timing --

A. I get the MRIs and then I have a problem with 12 my eyes. 13

14 Q. So the problems with the -- the MRIs are causing the problems with your eyes? 15

16 A. It just -- it happened after the MRIs. And I was afraid to get the MRIs because I'd already had a 17 18 problem -- the MRI had already caused that pain in my 19

Q. Okay. Do you blame any of your eye issues with your fall at the Wynn?

22 A. Only in that that day, I had all these head symptoms, and a few days later, I had the symptoms on 23

24 my left side of my face which included the eye. And --

and my whole left arm was numb. 25

8 you know, caused the pain up my head. You know, I told you you have the bands and the -- okay. So I couldn't

10 do that anymore.

> The other exercises, generally they strength -- make you stronger, I think. But -- but it didn't take away the pain from my back down to my foot. I still have that in my seat.

Q. Did it help you in any other way?

A. Well, it didn't -- it didn't take away the 16 17 problem I have in my neck and my back down to my foot 18 or my seat. It didn't take that away. But I believe 19 that, you know, in general, exercise is good. That's

20 why I do it all day long -- I mean, throughout the day. 21

Q. Right. You know, you said you went there over 20 times. If you're going somewhere 20 times, I just want to know if it actually helped you or didn't help you.

A. It didn't take away the problem. It didn't

- A. Shortly after the accident, Dr. Cash sent me 6 7 there. And so I went 20-some times.

- 9 A. Twenty-some.
- 10 Q. Twenty-some. Okay. Wasn't sure if you said 27 or 20-some. 11

MR. KIRCHER: Let's mark this as Exhibit 15, 12 13 please.

Q. And we're looking at Exhibit 15, and the 2 3 visit date on the top right says May 3rd, 2010.

Do you remember going to Matt Smith in May of 2010?

A. Well, I know I did go there around that time.

Q. Do you remember approximately the dates you 7 visited Matt Smith Physical Therapy? 8

A. Okay. So it would be here; right? Is it --9 is it in this document? 10

11 Q. On -- yeah, on the top. This one has the specific date May 3rd, 2010. 12

A. Oh, this might be the first one? This could be the first one or beginning because I went over a

period of time and -- over 20-some times, so ...

Q. Was it 27 times --

A. Some.

O. -- or 20-some times over a couple-month 18 period? 19

- 20 A. It was over a few months.
 - Q. How many times a week did you go?
- 22 A. I believe it was two to three times.
- O. And then on the second page, Assessment, it 23 24 says, The client tolerated today's

of pain and difficulty which required abbreviation of the planned course of treatment. Presentation: Pain 3 behavior inconsistent with injury DX.

Do you know what "pain behavior inconsistent 4 with injury DX" means? 5

A. No.

6

- Q. Did you ever have any kind of conversation 8 with the therapist or Matt Smith about your pain
- behavior being inconsistent with your injury diagnosis? 9
- 1 0 A. The -- I believe that in -- maybe I'm not 11 answering your question. I'm sorry. But the
- conversation was the moves that he was having me do was 12 13 causing more pain.
- Q. And you told him that? 14

- 16 I -- there's certain moves that I can't do because
- they -- they create more pain and they make my arms go 17 18
- Q. I'm talking about when you visited Matt Smith 19 when -- when you did certain moves that caused more 20 pain, did you tell him that? 21

- A. Dr. Martin.
- Q. Martin. And do you attribute your knee 9 problems to the fall at Wynn in 2010?
 - A. Oh, absolutely. That -- that was one of the immediate injuries I had.
 - Q. Okay.
- 14 A. I mean, my knees were good, and then -- then 15 I fell, and immediately, that was one of the -- the 16
- Q. Okay. I don't know if I asked you this: Has 17 a doctor told you that that fall caused your knee 18 problems? 19
- A. I'm positive that when I went there, I didn't 20 21 have any knee problems at all.
 - Q. My question is: Has the doctor told you that, though, that the fall at the Wynn caused your knee problems?
 - A. I'm positive that I told the doctors right

Page 265

- Q. Do you know what complex regional pain 1 syndrome is? 2
 - A. Not really.
- Q. Do you know if a doctor has ever diagnosed vou with that?
- A. I know that Dr. Trainor said that maybe I 6 7 have it.
 - Q. What else did he tell you about it?
- A. I don't recall him really telling me about it. I only went to him once. 10
- Q. Okay. Did any other doctor tell you that you 11 possibly had complex regional pain syndrome? 12
 - A. I don't think so.
- Q. Okay. And you were never curious on exactly what that is?
- A. Well, because he didn't say I do have it, not 16 really. 17
- 18 Q. What's the status of your treatment today? I know the last -- during your deposition, you kind of
- 20 had -- you had to see somebody before you saw somebody
- so you could get certain things done. I believe you 21 22
- had a -- I think you testified earlier you had three 23 disks damaged; correct?
- A. I need the surgery on three disks in my neck, and I need surgery three discs in my back.

- after the fall. I told them at UMC two days later
- 2 about the knee. And all the -- several doctors
- throughout that time. So I don't think that I 3
- specifically asked them if a fall tore my knees because 4
- I had no problems with my knees when I went there. 5
- Then I fell, and immediately my knees are hurting? 6
 - Q. So doctors never told you that your knee problems were caused by the fall?
 - A. I don't believe I asked them.
 - Q. Okay. And what about your neck problems? Has a doctor ever told you that your neck disk issue was caused by the fall?
- 13 A. I believe that they did. I believe that
- 14 because I told them I didn't have this, I didn't have
 - the symptoms, I didn't have a doctor, I had no
 - problems, and all of a sudden, immediately, I have all
 - this pain? And -- and -- and my limbs are going numb,
 - Q. Okay. And has a doctor ever told you the three discs in your back, the issues you're having with that was caused by the fall at Wynn?
 - A. I believe that because I told them that I didn't have these symptoms before I fell, and -- and that I had these immediate symptoms right after I fell, I believe that they didn't -- they for sure didn't tell

1 me, oh, well -- I don't remember their exact words.

But I have -- I was healthy. I didn't have it, and

3 then immediately, I have the issues -- the pain and the 4 symptoms there.

So I know that no one ever told me that, oh, no, that wasn't caused by the fall. But specific words, I can't tell you their specific words.

Q. Has a doctor told you any of these medical 9 issues you're having were caused directly by the fall 10 at the Wynn?

A. My understanding is that because of the injuries, my disks and nerves are damaged. That's my understanding that -- I believe that that was what I was told. Not in those exact words.

Q. Has a doctor ever told you that some of these injuries or medical issues you had could have been caused by something else?

MS. MORRIS: Object to form. 18

THE WITNESS: Because I told the doctors that 19 I didn't have the symptoms before and that that day, 20 immediately, I did have them, I don't believe any 21 22 doctor told me what you just said.

BY MR. KIRCHER: 23

24 Q. Okay. How much do you think the -- the Wynn 25 should compensate you for the fall that you had at its

Q. And that was unsuccessful, you would say?

2 A. Yes. I've been told that what I have doesn't heal. 3

Q. So even if you have a surgery, it's not going 4 5 to heal?

MS. MORRIS: Object to form and foundation. THE WITNESS: No. I was told that surgeries will help me. I was told that I'm not going to heal by myself. Oh, and also, that the physical therapy -like, Dr. Cash, he -- he wouldn't even send me back to physical therapy, because -- because of the nerves.

BY MR. KIRCHER: 12

> Q. Did he ever give you a diagnosis with the nerves or whatever nerve issue you're having?

A. Well, you know, he put them in the reports.

Q. So you're talking about the --

17 A. Well, you know, in the MRIs. They're in the MRIs and his reports. 18

19 Q. Are the nerve issues you're having causing 20 you the pain?

A. I've been told that they are.

22 Q. Told by Dr. Cash?

A. I believe so. That was my understanding.

Q. Are you taking any pain medications currently?

MS. MORRIS: Object to form.

THE WITNESS: What I want is my health back.

4 BY MR. KIRCHER:

5 Q. What do you think you need to do to get your 6 health back?

7 MS. MORRIS: Object to form.

ρ THE WITNESS: I know that I need surgeries, but I'm -- I know I'm not going to be 100 percent.

BY MR. KIRCHER:

Q. Has a doctor told you that? 11

12 A. Yes.

Q. Which doctors? 1.3

A. Dr. Dunn said he could help me with the

surgeries, but I won't be 100 percent.

Q. You haven't had a surgery between 2010 and 16 today, have you? 17

A. Correct. 18

> Q. Okay. Why -- if you know, why has it taken five years for a surgery to occur?

21 A. Because the specialists sent me to four

22 physical therapists and they didn't rush to surgery.

23 Q. So they were trying to do alternative methods 24 of healing you?

25 A. Yes.

A. No. 1

Q. Have you taken any since -- between 2010, 2 3 your fall, and today?

A. Pain medication? 4

5 Q. Yes.

6 A. UMC prescribed it, so I took -- took what 7 they prescribed.

Q. Do you know how long you took it for?

A. Well, I took most of them. They prescribed three drugs. I took almost all of them.

Q. Has another doctor tried -- tried to prescribe you pain medication and did you decline?

A. Most of the doctors offer drugs. And if they tell me that they're going to heal me, I'll take them. If they tell me they're not going to heal me, and --

and I've been told me just -- the pain drugs, then I'll 16 17 just have another problem. So if it's going to cause more problems and it's not going to heal me, so I don't 18

take them.

20 MR. KIRCHER: I think that's all I have. 21 MS. MORRIS: I have a couple of quick

22 questions. 23

EXAMINATION

- 2 BY MS. MORRIS:
- 3 Q. Yvonne, earlier you testified that the fall
- 4 at the Wynn ruined your life; is that accurate?
- 5 A. Well, it robbed me -- I had a great life, and
- 6 I loved it and I was happy. It robbed me of that.
- 7 Q. Okay. It didn't -- I mean, the statement is 8 pretty profound, it ruined your life.
- 9 Did you mean it literally ruined your entire 10 life?
- 11 A. It changed my life completely.
- 12 Q. So it changed your life.
- A. It changed my life. It changed the way that
- 14 I planned to live the rest of my life.
- Q. I want to just clarify a couple of things that were stated in the deposition that you had earlier, the first half of your deposition. I want to
- be clear on the fall that you had.

 At the time that you fell do
 - At the time that you fell, do you recall the identity of the first person who was employed by Wynn, to your knowledge, to come over to where you had fallen?
- 23 A. Yes.

20

21

22

- Q. Who was that?
- A. Terry, I believe his name's -- last name's

- A Yes
- 2 Q. And did anyone else come over to the area
- 3 where you had fallen that was employed by Wynn, to your
- 4 knowledge?
- 5 A. Yes.

1

6

8

10

11

13

- O. Who was that?
- 7 A. He was a man who had the same kind of uniform
 - that Ms. Ellias had, and he was stocky, dark
- 9 complected, and had a dark mustache.
 - Q. Do you know his name?
 - A. I didn't get his name.
- Q. And did you talk with him?
 - A. Yes.
- 14 Q. What was that conversation?
- A. I told him that they were already cleaning up
- the liquid, and that I -- I -- I wanted pictures, but I
 wasn't able to take pictures. I physically wasn't able
- to get my camera out. And he said, Oh, don't worry, we
- 18 to get my camera out. And he said, On, don't worry, we have it all on camera, and then he pointed up above us.
- 20 And he said, See the camera. We have it all on camera.
- 21 So he assured me they were going to -- well, my
- 22 understanding preserve all the evidence and get all the
- 23 pictures, they'd have it.
- Q. When you were standing near the area where you fell, did any security guard from Wynn come over to

Page 271

- that area where you fell?
 A. I don't think so. I mean, not when I'm
- 3 standing there, no.
- 4 Q. Did a security guard ever go over to you and
- 5 take some information from you after you fell at the
- 6 Wynn?
- 7 A. Yes. After I limped to the -- to the left to
- the closest machine to sit, after I sat there for some
- 9 time, then Corey, the security guard, came up to me and
- 10 talked to me.
- 11 Q. Okay. Is that the man who took pictures of 12 your feet?
- 13 A. Yes.
- Q. Okay. Did anyone else employed by the Wynn approach you and talk to you after you fell aside from
- the people that you've told us about?
- A. Well, Corey was there, and then Yvette came
- up to where Corey was where I was sitting, and then
- 19 Terry came with his report. But as far as other people
- 20 coming from the Wynn coming and talking to me, I think
- 21 that was it. But I did see that while we were
- 22 sitting -- while I was sitting there and Corey was
- there, I saw a group of Wynn employees around the area where I fell.
- 24 where I fell.25 O. So while you
 - Q. So while you were sitting over near the

r age

- 1 Rubio. He was the sweeper.
- 2 Q. And did he have any equipment with him when
- 3 he came over?
- 4 A. He had that large sweeper.
- Q. And -- and what did he do with that largesweeper, if anything, if you remember?
- 7 A. After he came and apologized, he took the
- 8 large sweeper, he went to my left, and -- and to -- to
- 9 the back of me, and placed his machine at the end of 10 the liquid.
- Q. Okay. And who was the next person, if
- anyone, that came to -- over to where you fell that was employed by the Wynn?
- A. There was a short little lady who came with a mop, and she came to the left of me, and -- you know,
- between me and Terry, and started mopping up theliquid.
- Q. And who is the next person, if you can
- 19 recall, who was employed by Wynn that came over to the 20 area where you fell?
- 21 A. Lynnette Ellias.
- Q. And when Ms. Ellias was there, was the woman
- 23 with the mop still cleaning up the liquid?
- 24 A. Yes.
- Q. And was Terry still there at the time?

1 machines with the security guard, you -- you were

2 looking over to the area where you'd fallen and you're

3 seeing Wynn employees over there?

A. Actually, maybe Corey hadn't come yet. Just while I was waiting, I -- yeah, while I was waiting,

6 and -- and I was looking over there, that's when I saw

7 the group of people talking -- discussing it.

Q. Do you know how -- approximately how long it
was that you sat at the machine before Corey got

10 to-- to you?

21

5

6

7

10

11

12

13

11 A. It was -- it was some time, but I don't remember exactly.

Q. When you left the scene where you had fallen -- when you left the area where you fell and went over to the machine, was the liquid still being cleaned up on the floor or had they completed the

17 cleanup of the liquid on the floor?

A. No, the liquid was still there. They were still cleaning, and they hadn't even started cleaning the part that I was standing on.

Q. What part were they cleaning?

A. The liquid -- the part that was still very -- the part that I slipped on and to the back of me inside that walkway, the slippery part.

Q. Okay. And was it just the one woman with the

Page 276

A. So I was standing on it, and that part wasn't slippery. And the people who picked me up, they left their footprints.

Q. Okay. Do you know that those were the footprints of the people that picked you up or could they have been footprints from other people?

A. There weren't that many footprints. So I believe, because I was standing and I looked down, and I saw the kind of footprints I was making. And -- and the footprints that were in that 3-foot part, approximately, they looked about the same. So I believe that they were just made at the time that they picked me up and, you know, at the time that I was standing in them.

Q. Okay.

MS. MORRIS: All right. I don't have any other questions.

MR. KIRCHER: Nothing.

mop cleaning it up or was Terry doing anything that youcould see?

A. At that time, I just saw the woman with the mop cleaning it, and I just saw Terry standing there with his machine.

Q. With -- the woman with the mop, did she have a bucket with her?

A. Not sure.

Q. The area that you were standing, you said you were still standing in the liquid while they were cleaning the other end of the liquid; is that correct?

A. Yes.

Q. And how could you tell that you were still standing in the liquid?

14 standing in the liquid? A. Well, it -- the liquid covered a large area, 15 16 at least 7 feet. And the part that I slipped on in the 17 walkway towards the back of me was still really slippery. And the part -- once the people picked me 18 up, the part over here in the open, two different 19 pathways because it was -- it was like a diagonal. So 20 that part in the open under the lights, it had like --21

at least a 3-foot part of it had almost dried already.
And so I was standing on the part, it wasn't slippery
anymore. Little bit sticky and some footprints around
it.

10	For the Defendant:	11	BY MS. MORRIS:
	LAWRENCE J. SEMENZA, III, P.C.	12	Q. All right, can you please state your full

14	702.920.8669 Fax cdk@semenzalaw.com	17	Q. All right. We're here for your deposition
15	owned office Mark to Oth	18	today. I introduced myself before the deposition, but
16	Also Present: CHRISTINA ESPINOSA	19	my name is Christian Morris, and I represent the
17 18		20	plaintiff in a matter. Her name is Yvonne O'Connell.
19		21	
20			We're here today at the Wynn for your deposition, and
21		22	I want to know if you've ever had your deposition
22		23	taken before.
24		24	A. No.
25		25	Q. Okay. So the oath that you took is the same
1			

- Page 5
 1 oath that you would take in a court of law, holds with
 2 it the same obligations to tell the truth as well as
- 3 the same penalties as perjury; do you understand that?
- 4 A. Yes.
- Q. The court reporter is taking down everything
 that we're saying in the room today, so it's important
 that we try not to speak over one another. If you are
- 8 anticipating what my question is going to be, still
- 9 let me complete asking it, and then you can answer the10 question.

When we talk over each other, it gets
confusing in the transcript, so as much as we're -we're both going to try to help each other out because
sometimes I start to talk over people as well.

Counsel might have an objection. Allow him to state his objection, and you'll continue and try and answer the question, if you're capable, unless he instructs you not to answer it; does that make sense?

- 19 A. Yes.
- 20 Q. Great. If you don't understand a question 21 that I've asked, I want you to tell me that you don't
- 22 understand it, okay?
- 23 A. Okay.
- 24 Q. If you don't recall something, because we're
- 25 talking about things that happened back in 2010,

-- we always, as attorneys, use this idea of lengths,
 so if you were comfortable giving me a length, and
 we're sitting here at this table, and you'd say, Well,
 my best estimate of the length of the table is, blank,
 then I'm entitled to that.

But if I asked you to give me the length of the desk in my office, and you've never been in my office, that would be a complete guess.

9 So where I'll ask you, say, approximately, 10 say, in this case, we're talking about liquid, you

- 11 know, how large was it, if you can give me your best
- 12 estimate because you saw it, then I'm entitled to
- 13 that, but I never want you to guess, as giving me
- 14 information that you have absolutely no basis of
- 15 knowledge for.

6

7

18

Page 6

Do you understand the difference between aguess and an estimate?

- A. Yes.
- 19 Q. Great. Are you on any kind of medication20 that would affect your memory or your ability to give
- 21 your most accurate and honest testimony today?
- 22 A. No.
- 23 Q. What did you review to prepare for today's
- 24 deposition?
- 25 A. My review?

Page 8

- 1 telling me that you don't recall it is a perfectly
- 2 fine answer; do you understand that?
- 3 A. Yes.
- 4 Q. I never want you to guess in the deposition,
- 5 so if you are -- I'm asking you a question and you
- 6 don't have any basis of knowledge to answer it, I want
- 7 you to tell me, That would be a guess, and so because
- 8 it's your testimony under oath, I never want you to
- 9 guess; does that make sense?
- 10 A. Yes.
- 11 Q. Okay. Also, you're doing a great job with
- 12 your verbal responses. Try as best you can to not say
- 13 "uh-huh" or "uh-uh" or even kind of "okay," because
- 14 that can be misconstrued when you're reading the
- 15 transcript later.
- 16 I can see you now and I can hear the
 17 inflection in your voice and I think I know what
 18 you're saying, uh-huh as in yes, but to the best of
- 19 your ability, where it's applicable, if you could use20 yes or no, then it will clearly represent your
- 21 testimony in the transcript; does that make sense?
 - A. Yes.

22

- Q. Great. I am entitled to your best estimateduring this deposition. So if you can give me your
- 25 best recollection or your best estimate of something

- 1 Q. What did you look at? Did you look at any
- 2 documents to prepare for today's deposition?
- 3 A. Only my statement.
- 4 Q. Your handwritten statement?
 - A. Yes.

5

9

11

- Q. Okay. I'll hand you -- we'll mark it as
- 7 Plaintiff's Exhibit 1. Is this the handwritten
- 8 statement that you were talking about?
 - A. Yes.
- 10 Q. Okay. And when did you review that document?
 - A. This morning.
- 12 Q. Did you review anything else, any pictures or
- 13 anything, to prepare for today?
- 14 A. No.
- 15 Q. Did you look at any video?
- 16 A. No.
- 17 Q. Now, when you reviewed --
- 18 A. Sorry.
- 19 Q. No. When you reviewed this statement today.
- 20 did that refresh your recollection of what happened
- 21 back on February 8th, 2010?
- 22 A. Not too much.
- 23 Q. Okay. Do you have a memory of that day? Do
- 24 you remember being there and seeing Miss O'Connell and
- 25 liquid on the floor?

chemicals, they can spray and they can -- the area 2 they can be dry complete.

3 If it's something like a very sticky like 4 soda or drink, when it's like a sugar, they have to clean with a dry -- with a wet towels, never use mop 5 6 in daytime or swing shift.

They always use the machine in graveyard, early in the morning, and that is the machines they have the water, but they have a squishy behind the machine when they pick up all the water, and they always have to put the signs to make sure.

12 Q. So there's different procedures for each 13 area?

14 A. Each shift, yes.

15 Q. Is that correct?

16 A. Yes.

7

8

9

10

11

17 Q. Okay.

18 A. And each shift is different.

19 Q. Is this a written policy for each shift and

20 each department? Is this somewhere in writing?

21 A. Yes.

22 Q. That says if you're working graveyard and

23 you're in the gardens, you need to do this?

24

25 Q. Is it in this packet that I gave you? certain area during a certain shift?

2 A. Specifically in what kind of cleaning, the cleaning?

4 Q. So from my understanding, porters are assigned to certain areas; is that correct? 5

A. Um-hum.

7 Q. Is there a policy that says, Okay, porter, you're working in the garden area today and you're on

the swing shift, these are your duties, these are what 9

10 you should be doing?

A. In writing?

12 Q. Yes.

13 A. No.

11

14

10

Q. How are they trained?

A. Before, with the new employees coming to 15

16 work, they training in how they can work in the

17 casino, they're training how they can work in the

restrooms, how have to use when they go in the

different areas of the casino. After they training,

20 they let the people the areas when they have to work.

21

Q. Is there any kind of policy and procedure

22 that's given out, if you know --

23 A. Every night?

Q. No, when, say, an employee starts and they're

trained on how to work.

Page 68

A. I don't know if it's in the packet, but when

2 the people they working in the areas, they have to

training how they can use equipment, what they need to

put when they working with equipment. This is the

marble. This is in the marble. This is a dust mop

6 and the mop.

Before they use like some dust -- the dust mop is not -- how can I explain how is the dust mop?

It's a little stick with the dust mop, is like a long piece of material, not wet. They pick up all the

11 debris. They don't have water on it.

12 Q. Okay.

13 A. This is the dust mop.

14 Q. And is that used on a specific shift and a

15 specific time?

16 A. The dust mop they can use in day shift 17 because there's no water, like you go in the marble 18 like with the little stick with the dust and they go

19 around the marble to pick up all the debris. When you

finish to clean the floor, they have to use like a pan 21 and broom to pick up whatever they have in the dust

22 mop.

Q. Can you look through the rest of that packet 23 for me and tell me if somewhere in this packet there

is instructions as to what a porter needs to do in a

A. They give you this book.

2 Q. They give you this book?

A. Yes, these policies.

Q. Is there a separate book that says, If you're

assigned to the garden area, you need to do this

during these shifts?

A. They know because before they go into the casino, they tell the employee what they need to do in

the different areas when they work.

Q. So they're only verbally told that?

A. Before they training to working with some of 11

the employees when they work -- like say you are new

in our department; before I let you work alone in one

area, you have to training with some of the managers.

walking in the areas, explain exactly what they need

to do, and before you go in there, you work with one

employee where they have like previous years working

18 in the casino, that they know the area really well.

19 and then explain you exactly what they need to do, and

you working with this person maybe one or two days.

21 all depends how you feel comfort to be alone in the 22 area.

23 Q. So this packet that we're looking through

24 right now, can you finish looking through it and tell

me if this is the complete policies and procedures

O.	JONNELL VS. WYNN LAS VEGAS

3	A. I think they make this more simple because
4	they have how they use the equipment when they clear
5	the marble, the dust mop, Wet Spill signs, and they
6	have in here Wet Floor signs, when they use it.
7	Q. Have you seen this kind of printed out Power

How were you trained, or if you were, on what 17 to do in the event a guest is injured on the property? 18 A. The training when I got when I'm starting in 19 here is like if you see a guest fall, go and try to 20 help the guest, whatever you can. Don't move. Don't 21 touch. Ask how he feel. Wait for security to help 22 the guest. 23 If they need maybe paramedic or maybe they 24 need different kind assistance is depend the 25 situations, but I have to wait to see the security 1 finish to make his job, and then our part, if there's 2 something that have to be cleaned, they have to clean, 3 or things to be removed, like if it's blood, have to 4 wait for the guys to come in and clean the bio or use 5 the proper equipment to clean the bio, and it just all

KIRCHER: Good job. MS. MORRIS: You have an option: You can review your transcript and read through it, essentially to ensure its accuracy, and you can make changes to it if you'd like. However, if you make changes to the transcript after it's been created, and those changes are substantive, you know, to the issue that we've been talking about, primarily this substance on the floor, we can comment on those changes because you're making changes to a deposition transcript. You don't have to make any changes; you can read through it and sign it. But you either read through it and sign it or you waive your right to read through it and sign it. I don't know what you'd like to do. If you waive your right, it stands as it's created today. THE DEPONENT: Can I wait?	3 .4 .5 .6 .7 .8 .9 .10 .11 .12 .13 .14 .15 .16 .17 .18 .19 .20 .21 .22 .23 .24	CERTIFICATE OF REPORTER STATE OF NEVADA)) ss: COUNTY OF CLARK) I, Gary F. Decoster, a Certified Court Reporter licensed by the State of Nevada, do hereby certify: That I reported the deposition of YANET ELIAS, on Tuesday, March 24, 2015, commencing at 10:30 a.m. That prior to being deposed, the witness was duly sworn by me to testify to the truth. That I thereafter transcribed my said stenographic notes via computer-aided transcription into written form, and that the typewritten transcript is a complete, true and accurate transcription of my said stenographic notes. That review of the transcript was requested. I further certify that I am not a relative, employee or independent contractor of counsel or of any of the parties involved in the proceeding, nor a person financially interested in the proceeding, nor do I have any other relationship that may reasonably cause my impartiality to be questioned. IN WITNESS WHEREOF, I have set my hand in my office in the County of Clark, State of Nevada,
