

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. Asking about your views at this time is a routine part of the procedure to be followed in all cases in which death is sought as a possible punishment.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

ATTITUDES REGARDING THE DEATH PENALTY

The defendant in this case has been convicted with Two Counts of First Degree Murder with use of a deadly weapon. - C. Life imprisonment without the possibility of parole; or
- D. The death penalty.

The law requires that whenever the District Attorney seeks death as a possible punishment for a charge, prospective jurors may be asked to express their views on both the death penalty and the penalty of life in prison with or without the possibility of parole, and a term of years. Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

Dear Prospective Juror:

You have been placed under oath. Please answer all questions truthfully and completely as though the questions were being asked of you in open court. You may be asked additional questions in open court during the jury selection process. Some of the questions asked in court may be similar to the questions included in the questionnaire. Every effort will be made to keep duplication of questions to a minimum.

All questions asked, either by way of this questionnaire or by way of oral examination, are intended to facilitate the selection of a fair and impartial jury to hear this case. The answers provided in response to the written questions will be made available to counsel for both the State and the defense. Your answers will also become part of the Court's permanent record and therefore, a public document. If you cannot answer a question, please leave the response area blank. During regular questioning by the court and the attorneys you will be given an opportunity to explain or expand upon any answers, if necessary.

To assist the Court and counsel in evaluating any knowledge you may have concerning this case, please read the brief synopsis of this case provided with this questionnaire. Because this questionnaire is part of the jury selection process, you must answer the questions under penalty of perjury and you must fill out the questionnaire by yourself. After you have completed filling out the questionnaire, please leave it with a jury assistant.

If you wish to make further comments regarding any of your answers, please do so on the last page of this questionnaire. If you need additional pages, please ask a jury assistant and they will be provided to you. As you answer the questions that follow, please keep in mind that every person is fully entitled to his or her own opinions and feelings, and that there is no right or wrong answers, only complete and incomplete answers. Complete answers are far more helpful than incomplete answers because they make long and tiresome questioning unnecessary, therefore, shortening the time it takes to select a jury.

Your answers will be used solely in the selection of a jury and for no other purpose.

The defendant in this case has been convicted with Two Counts of First Degree Murder with use of a deadly weapon.
