DISTRICT COURT

CLARK COUNTY NEVADA

LAS VEGAS REVIEW-JOURNAL,

Case No.: A-18-775378-W

Petitioner,

Dept. No.: XV

v.

LAS VEGAS METROPOLITAN POLICE
DEPARTMENT,

**SUPPLEMENTAL BRIEF IN
SUPPORT OF PUBLIC RECORDS
ACT APPLICATION PURSUANT
TO NEV. REV. STAT. § 239.001/
PETITION FOR WRIT OF
MANDAMUS**

Respondent.

**Hearing Date: August 22, 2018
Hearing Time: 9:00 a.m.**

Pursuant to this Court's directives at the hearing held on this matter on August 8, 2018, Petitioner the Las Vegas Review-Journal by and through its undersigned counsel, hereby submits this Supplemental Brief in support of its Petition for Writ of Mandamus. This Supplemental Brief is supported by the attached memorandum of points and authorities, any argument allowed by the Court, the attached exhibits, and the pleadings and papers on file with this Court.

DATED this the 20th of August, 2018.

/s/ Margaret A. McLetchie

MARGARET A MCLEATCHIE, Nevada Bar No. 10931
MCLEATCHIE SHELL LLC
Counsel for Petitioner, Las Vegas Review-Journal

MEMORANDUM OF POINTS AND AUTHORITIES

I. INTRODUCTION

The Las Vegas Review-Journal (the “Review-Journal”) filed its Public Records Act Application Pursuant to Nev. Rev. Stat. § 239.001/ Petition for Writ of Mandamus (the “Petition”) on May 31, 2018. Following the Court’s August 8, 2018 hearing on the Petition (the “Petition Hearing”), the Review-Journal and the Las Vegas Metropolitan Police Department (“Metro”) conducted a meet and confer on August 15, 2018. As set forth in the parties’ stipulation and proposed order (the “Stipulation”), the parties have agreed in principle on certain matters—including a mechanism to (finally) facilitate expeditious and efficient production of sex trafficking investigative files. While the Review-Journal is pleased with this progress, the parties continue to disagree as to the fees Metro can charge in this matter as well as other issues.

With the exception of unit assignments, Metro has conceded that the records at issue are public records. (*See, e.g.,* Exh. 87;¹ 08/08/2018 Transcript, p.35:23 (Mr. Crosby, Metro counsel, explaining to the Court that “[w]hat this boiled down to was the cost.”).) However, the fees Metro has demanded served to bar access due both to how much Metro demanded before it would provide records and due to concerns about the fact that the Review-Journal was being charged for impermissible redactions. The Review-Journal is willing to pay the direct costs of reproduction for copies such as the limited costs associated with any electronic copies it requests, which is what the law allows. The Review-Journal has also been willing to consider reasonable compromises to facilitate resolution. However, during the Meet and Confer, the “best offer” from Metro was a thirty one cent per page fee. (Declaration of Margaret A. McLetchie (“McLetchie Dec.”), ¶ 7.) This fee is unsupported by any evidence that it actually costs Metro that much to make copies. Moreover, no such fee is

¹ Exhibits 68-87 are attached hereto. “Pet. Exh.” refers to exhibits that were attached to the 5/31/18 Petition.

1 permissible here because the Review-Journal is willing to inspect the records. Neither Nev.
2 Rev. Stat. § 239.052 (allowing for a copying charge, not to exceed actual cost of
3 reproduction) nor Nev. Rev. Stat. § 239.055 (allowing for “extraordinary use” fee for copies)
4 contemplate a fee for inspection. Contrary to Metro’s assertions, just because it prefers to
5 redact and provide the records on hard copy, it cannot require the Review-Journal to
6 compensate it for staff time incurred in redacting records or an associated copying fee. In
7 short, Metro cannot be permitted to charge for withholding information from the Review-
8 Journal. The law does not allow for a redaction fee, which would hinder access—the goal of
9 the NPRA. *See, e.g.*, Nev. Rev. Stat. § 239.001(1).

10 Indeed, this case provides a textbook example of exactly why a governmental entity
11 cannot be permitted to charge for redactions. As detailed below, Metro previously provided
12 a heavily redacted sample sex trafficking investigative file to the Review-Journal. As it turns
13 out, the case went to court and the witness victim testified. Even more striking: the victim
14 has even been interviewed on television. Thus, the vast majority of the redactions in the file
15 are impermissible because the information was not confidential. Yet it is Metro’s position
16 that it should be able to charge for the very redactions that are not legally supported.²

17 Rather than just indiscriminately redacting and demanding that its staff time
18 incurred in doing so be borne by a requester, Metro is obligated under the NPRA to act in
19 good faith and determine what can and cannot be properly redacted. It has not done so. The
20 Review-Journal has proposed a solution. After Metro provides names associated with files,
21 the Review-Journal will determine which cases went to trial and which witnesses testified—
22 and provide that information to Metro to assist it in making appropriate redactions.³ This
23
24
25
26

27 ² The problem is exacerbated because Metro did not provide a log specifically justifying
28 redactions or other withheld information in this matter.

³ Of course, Metro would have to justify and support any remaining redactions.

1 solution,⁴ which is set forth in the parties Stipulation, will expedite matters. Most centrally,
2 it should also resolve the key concerns Metro has expressed to justify the exorbitant fees it
3 demanded: the time involved in redacting and the need to ensure victims are protected. In
4 light of the Review-Journal's willingness to do Metro's work of determining what does not
5 need to be redacted, it would be especially inappropriate to allow Metro to charge to redact.

6 In addition to the fees issue, the parties disagree about whether officer assignment
7 information is a public record and whether a custodian of records deposition is necessary.
8 Metro has failed to provide evidence sufficient to overcome the presumption in favor of
9 access to officer assignment information.⁵ Accordingly, these records should be produced.
10 Metro also contends that the SCOPE information requested is not in its possession. This
11 Court should order its release.

12 Finally, the parties disagree that a custodian of records deposition is appropriate.
13 As the facts detailed below reflect, a custodian of records deposition is in fact necessary to
14 ensure both that the location of responsive records is determined and that records are
15 produced in the most cost-efficient—and usable—manner.

16 **II. FACTS AND PROCEDURAL HISTORY**

17 **A. Meet and Confer**

18 After this Court held a hearing on August 8, 2018 and directed the parties to
19 endeavor to work together, the Review-Journal immediately reached out to Metro to set up
20 a meet and confer.⁶ (*See* Exhibit ("Exh.") 68). The Review-Journal specifically suggested
21

22
23 ⁴ While this is Metro's responsibility, the Review-Journal is eager to assist to get records and
24 to avoid improper redactions. The Review-Journal has also agreed to limit the initial
25 production to certain key records (the "Limited File").

26 ⁵ Moreover, it is the Review-Journal's position that any evidence should have been submitted
27 in conjunction with Metro's Response to the Petition and that it should not now have the
28 opportunity to do so.

⁶ In light of the Court's directives to Metro's counsel at the prior hearing, the Review-Journal
expected Metro would immediately order the transcript. To ensure it was ordered, the
undersigned reached out to Metro's counsel (on 8/10/18) to inquire regarding ordering the

1 having an in-person meeting with client representatives from both sides present. (*Id.*) The
 2 Review-Journal also offered to go to Metro headquarters or the offices of Metro's counsel in
 3 this matter to facilitate Metro doing so. (Exh. 69.) Metro declined an in-person meeting and
 4 would not provide a client representative for the meeting. However, counsel for Metro (Mr.
 5 Crosby and Ms. Nichols) and the Review-Journal (the undersigned) as well as Review-
 6 Journal reporter Brian Joseph participated in a phone meeting on Wednesday, August 15,
 7 2018. (Exh. 70.) During that call, the parties came to a number of agreements and tentative
 8 agreements but were unable to resolve all issues. (*See* Stipulation.) Because a Metro client
 9 representative was not on the call, Metro's counsel was required to follow up with their client
 10 after the call. (*See* McLetchie Dec., ¶ 6(b).) The parties have exchanged various emails since
 11 the time of the Meet and Confer. (Exhs. 72-77.)

12 This Supplemental Brief follows.

13 **B. Agreements Regarding Production**

14 The chart below summarizes the Meet and Confer discussion regarding the records
 15 at issue, as well as subsequent email discussions regarding the records. For the records that
 16 are not the subject of the Stipulation, the Review-Journal also indicates below the specific
 17 relief it seeks from the Court.

REQUEST	SUMMARY OF STATUS
02/23/2017 request for investigative case files for sex trafficking cases closed in 2014, 2015 and 2016 with the names of victims	<u>Subject of stipulation.</u>

18
 19
 20
 21
 22
 23
 24
 25 transcript. Metro did then order the transcript (the following Monday). Metro said it was
 26 willing to split the costs. (*See* Exh. 71.) The Review-Journal took the position that it was
 27 appropriate for Metro to pay the fees (especially the expedite premium) in light of the Court's
 28 directives but agreed to share the costs to avoid wasting time. (*Id.*) The Review-Journal sent
 counsel for Metro payment (*see* McLetchie Dec., ¶ 8.) but, on August 20, 2018, learned that
 the court reporter had sent Metro the transcript on August 15, 2018 but had failed to provide
 the Review. (Exh. 78.)

REQUEST	SUMMARY OF STATUS
who have not testified in court redacted (Pet. Exh. 1).	
PRIORITY RECORDS	
02/23/2017 request for request reports for solicitation or trespass that were produced in calendar years 2014, 2015, and 2016 (Pet. Exh. 1).	<u>Subject of Stipulation.</u>
PRIORIRTY RECORDS	
09/07/2017 statistical information pertaining to the numbers of men and women arrested for engaging in prostitution, soliciting for prostitution, and sex trafficking for 2014, 2015, and 2016 (Pet. Ex 51).	<u>Subject of Stipulation.</u>
PRIORITY RECORDS	
02/23/2017 request for all names, badge numbers, and unit assignments of all officers employed by Metro on January 1 of 2014, 2015, and 2016 (Pet. Exh. 1).	During the meet and confer, the Review-Journal offered to initially limit this request to unit assignments for patrol officer and to pick a date. The Review-Journal then provided a date (Exh. 72.) After conferring with their client, Metro counsel indicated Metro was still not willing to provide any unit assignments whatsoever. (Exh. 73.)
PRIORITY RECORDS	The Court should order Metro to produce these records without delay.
02/27/2018 The search and data fields within Metro's SCOPE database (Pet. Exh. 8).	The parties discussed these records during the Meet and Confer, and the Review-Journal asked for training materials or other information concerning how Metro staff is taught to input data (which should show data fields). The Review-Journal also agreed to provide samples of a database schema and database dictionary that could be used as samples to explain to the client what is needed.
PRIORIRTY RECORDS	

REQUEST	SUMMARY OF STATUS
	<p>The Review-Journal provided the samples the same day as the Meet and Confer. (Exh. 72.)</p> <p>In the same email, the Review-Journal also followed up to formally request any manuals or training materials that pertain to LVMP's use of SCOPE, which were also requested during the Meet and Confer.</p> <p>On 8/17/18, Metro resumed taking the position that Clark County had the information. (Exh. 73.)</p> <p>After another inquiry from the Review-Journal, Metro said it would work on getting the manuals and materials pertaining to SCOPE "next week." The undersigned then indicated a need to get the materials without delay. (Exh. 75.)</p> <p>The Court should order Metro to produce the records and should require a Custodian of Records deposition.</p>
03/03/2017 request for all Metro arrest reports for Category B grand larcenies in casinos that were produced in calendar years 2014, 2015 and 2016 (Pet. Ex. 10).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (as to dates or as to particular arrest reports) and in the manner (inspection, hard copy, or electronic copy) and sequence requested by the Review-Journal.</i></p>

REQUEST	SUMMARY OF STATUS
05/19/2017 request for investigative case files for all Metro pandering and accepting earnings of a prostitute investigations that were closed in calendar years 2014, 2015, and 2016 with the names of victims who have not testified in court redacted (Pet. Ex. 40).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (both as to dates and as to portions of the file) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>
05/31/2017 request for all police reports filed by citizens, in which the home address is listed as 1 West Owens, North Las Vegas, NV 89030, from Jan. 1, 2014 through May 31, 2017 (Pet. Exh. 42).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (as to dates or as to particular arrest reports) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>

REQUEST	SUMMARY OF STATUS
07/12/2017 request for Grand B larcenies in casinos – 2014, 2015, 2016 (Pet. Exh. 45).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (as to dates or as to particular arrest reports) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>
08/18/2017 request for all arrest reports, audio and video recordings, interview transcripts, investigatory records, incident reports, notes, records, documents and memos related to all incidents or reports of trespassing at the Aria Resort and Casino on May 28, 2014, with the names of any victims who have not testified in court redacted (Pet. Exh. 49).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (as to dates or as to particular arrest reports) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>

REQUEST	SUMMARY OF STATUS
09/15/2017 request for any and all arrest reports, audio and video recordings, interview transcripts, investigatory records, incident reports, notes, records, documents and memos involving Poppy Wellman, including her 12/7/2005 arrest (Pet. Exh. 52).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records until the Priority Records discussed above are produced.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (both as to dates and as to portions of the file) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>
09/15/2017 request for any and all arrest reports, audio and video recordings, interview transcripts, investigatory records, incident reports, notes, records, documents and memos involving Kariah Heiden including her arrests on 6/11/2013, 9/23/2013, 9/23/2014, 8/24/2016, and 1/22/2017 (Pet. Exh. 52).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (both as to dates and as to portions of the file) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>

REQUEST	SUMMARY OF STATUS
12/12/2017 request for any and all arrest reports, audio and video recordings, interview transcripts, investigatory records, incident reports, notes, records, documents and memos involving Brittani Stugart, including her arrest on 5/20/2011 (Pet. Exh. 57).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (both as to dates and as to portions of the file) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>
12/12/2017 request for any and all arrest reports, audio and video recordings, interview transcripts, investigatory records, incident reports, notes, records, documents and memos involving Megan Lundstrom, including her arrests on 10/3/2011, 10/17/2011, 12/18/2011, 1/3/2012, 1/6/2012, 1/28/20012, 2/4/2012, and 5/16/2012 (Pet. Exh. 57).	<p><i>This request should be read as including 2017 and 2018.</i></p> <p><i>During the Meet and Confer, the Review-Journal indicated a willingness to wait to receive these records.</i></p> <p><i>The Court should order Metro to produce these records/ make these records available after the Priority Records are produced and subject to limitations determined by the Review-Journal (both as to dates and as to portions of the file) and in the manner (inspection, hard copy, or electronic copy) and order requested by the Review-Journal.</i></p>

C. The Review-Journal’s Efforts to Obtain Additional Information to Resolve Issues; Metro’s Refusals to Fulfill Requests.

During and after the Meet and Confer, the Review-Journal asked for copies of: (1) a cost study Metro indicated had been performed to justify the various fees it demands the public pay for access to public records (*see, e.g.*, Exh. 74); and (2) training materials and manuals regarding SCOPE. (Exh. 72.) After the Review-Journal followed up again about these records on August 17, 2018, counsel for Metro said it would work on the requests “next week.” (Exh. 73.) The undersigned responded on August 19, 2018 and asked to receive copies by the morning of August 20, 2018. (Exh. 76 at LVRJ915.) The parties also discussed

1 them via phone on August 20, 2018. (McLetchie Dec., ¶ 9.). Metro has not provided them.
2 (*Id.*)

3 **D. No Agreement On Costs**

4 During the Meet and Confer, Metro indicated it was willing to provide hard copies
5 of the records at thirty one cents a page. (McLetchie Dec., ¶ 7.) The Review-Journal has
6 requested any evidence supporting the proposition that it “actual costs” are thirty one cents
7 a page, including specifically a copy of a cost study Metro contends supports its claims for
8 costs. Metro has not provided the cost study. (McLetchie Dec., ¶ 7.)

9 **III. ARGUMENT**

10 Pursuant to the NPRA, all governmental records are presumed to be public unless
11 explicitly deemed confidential by law. Nev. Rev. Stat. § 239.010. To overcome that
12 presumption, a governmental entity bears a heavy burden. In this case, Metro did not provide
13 timely notice of the legal bases for its assertion that the records requested are confidential.
14 Nev. Rev. Stat. § 239.0107(1)(d)(2). Thus, Metro has waived its right to assert that privilege
15 attaches to any of the withheld records. Then, even after litigation commenced, Metro has
16 produced zero evidence supporting any of its claims.⁷ It has also refused to provide a log.
17 Even after being required to meet and confer, Metro is continuing to refuse access to records
18 it has failed to establish are confidential. Further, the evidence reflects that Metro was
19 intending to heavily over-redact files and Metro has still failed to provide information
20 justifying its continued demands for costs.

21 Accordingly, while the Review-Journal is pleased that some records may be produced
22 without further delay pursuant to the Stipulation, this Court’s involvement is necessary to
23 resolve the following:

- 24
 - Records showing unit assignments and documents reflecting SCOPE’s data

25
26
27
28 ⁷ Because Metro should have done so already, it should not be permitted to suddenly produce
evidence with Supplement.

fields are public records, and should be produced without delay;

- Metro should not be permitted to charge for redacting, and is limited to the costs of the electronic medium on which it provides records; and
- a custodian of records deposition is necessary so that the Review-Journal can discern what records actually exist and how they are kept. This will ensure not only that the Review-Journal is able to access records responsive to the NPRA requests at issue in this Petition but also that records are obtained and produced in the most cost-efficient manner and in a manner

It is vital that the Court resolve these issues without delay. The NPRA provides for expeditious access to public records (Nev. Rev. Stat. § 239.011(2)) and this case also implicates the First Amendment right of the Review-Journal to report on how Metro investigates and fights sex trafficking crimes. *Cf. Nebraska Press Assoc. v. Stuart*, 427 U.S. 539 (1976) (First Amendment right of access raises “profound constitutional implications demanding immediate resolution”). The Review-Journal first began seeking records in February of 2017 (Pet. Exh. 1)—and should not have to wait any longer. Pet. Exh. 1.

A. This Court Should Order Metro to Produce Unit Assignments.

As this Court noted at the Petition Hearing, Metro has not provided any evidence to support any of its claims with regard to confidentiality. Its opportunity to do so has now passed. Despite the fact that Metro has not provided any evidence to support its arguments against disclosure of the unit assignments for officers, the Review-Journal endeavored to compromise. Metro has claimed that providing unit assignments would jeopardize undercover officers. To address this concern, at the Meet and Confer, the Review-Journal proposed limiting the request to patrol officers. (McLetchie Dec., ¶ 5.) After the Meet and Confer, Metro indicated it was unwilling to provide any unit assignments whatsoever. (Exh. 73.) Thus, for all the reasons previously provided by the Review-Journal, this Court should order Metro to provide the records without further delay.

///

///

B. This Court Should Order Metro to Produce Records Regarding Scope.

As noted above, the Review-Journal has endeavored to provide information to Metro to assist it on locating the SCOPE information the Review-Journal seeks. (*See* Pet. Exh. 8.) However, Metro has returned to taking the position that it does not have the records, and that the Review-Journal needs to get the information from Clark County. (Exh. 9; Pet. Exh. 60.) The Review-Journal has tried seeking the information from the County, to no avail. (*See* Exh. 11.) As noted above, to resolve the mystery at hand, during and after the Meet and Confer, the Review-Journal asked Metro for records that which the Review-Journal believes will help provide the information it seeks—or help locate it. Metro has not provided it as of the submission of this Supplement (*see* McLetchie Dec., ¶ 9), and instead indicated “I hope to get you information on that next week” (Exh. 75 at LVRJ911).

That there are no records that explain how to enter data into SCOPE is not a credible position. Metro should be ordered to produce the records.

C. Metro Is Not Entitled to the Costs and Fees It Is Demanding.

1. Summary of Applicable Laws and Fees.

A requester can seek access to records two ways; a requester can inspect in person or can seek copies. *See, e.g.*, Nev. Rev. Stat. § 239.010(1) (“...all public books and public records of a governmental entity must be open at all times during office hours to inspection by any person, and may be fully copied or an abstract or memorandum may be prepared from those public books and public record...”). As previously briefed the only fees a governmental entity can generally⁸ charge a requester are limited to costs incurred in connection with a request for copies. *See* Nev. Rev. Stat. § 239.052(1) (allowing for a copying fee not to exceed actual cost of reproduction)⁹ and NRS 239.055 (allowing for “extraordinary use” fee for

⁸ There are other provisions that address fees that are not applicable to this case. *See, e.g.*, Nev. Rev. Stat. § 239.054 (pertaining to fees for requests seeking information from a geographical information system).

⁹ Nev. Rev. Stat. § 239.052 allows a governmental entity to charge its “actual costs” for making a copy. Nev. Rev. Stat. § 239.005(2) in turn states:

1 copies if the request would require extraordinary resources; fee not to exceed reasonable
2 costs actually incurred and not to exceed 50 cents a page).

3 As these provisions make clear, a governmental entity may pass on to the requester
4 the actual cost of a copy and may also pass on costs of up to 50 cents per page if a request
5 involves the extraordinary use of resources. No fees can be charged for inspection because
6 the only charges authorized by the NPRA are the copying fees and the extraordinary use
7 provisions for copies.

8 No fees can be charged for redactions, let alone any hourly rate. Not only is there
9 no provision in the NPRA allowing for such a fee, allowing for one would run afoul of the
10 legislative mandates contained in the NPRA and, as this case illustrates, would have bizarre
11 consequences antithetical to the NPRA's purpose.

12 This is the law. It is not vague; it is straightforward and plain. This Court should
13 only allow charges in connection with the production of records in this case as follows:

- 14 • Metro cannot assess charges for redacting records.
- 15 • Metro cannot charge for copies if the LVRJ is willing to inspect records.
- 16 • If the LVRJ requests copies, Metro can charge a per page charge for paper
17 copies, based on any actual costs related to the copies (e.g., if Metro leases
18 copiers, the per page cost that the company owns the copying machine
19 charges Metro). However, Metro has failed to produce evidence justifying
20 its per-page copying cost and it is thus not entitled to it.
- 21 • If copies are provided via an electronic medium, the Review-Journal may
22 provide a USB drive or other medium, or Metro may assess a charge based
23 on the actual cost of the medium.

24
25
26 “Actual cost” means the direct cost related to the reproduction of a public
27 record. The term does not include a cost that a governmental entity incurs
28 regardless of whether or not a person requests a copy of a particular public
record.

2. Metro's Planned Approach Reflects that Allowing Compensation for Redaction Is At Odds with the NPRA.

During pre-litigations negotiations between the parties, Metro provided a sample sex trafficking investigative file to the Review-Journal that was heavily redacted. (Pet. Exh. 21.) The case pertained to the Robert Sharpe III/Kariah Heiden case. The case against Sharpe went to court and the witness victim testified. (Exhs. 85-86.) Moreover, the victim, Autumn Richards, agreed to be interviewed (including on camera) and photographed.¹⁰ Thus, there is nothing confidential to protect with regard to the victim.

Yet this file was heavily redacted. As noted above, the Review-Journal has agreed to limit the initial production to the "Limited File," arrest reports, case reports, and requests for prosecution. *See also* Stipulation. For the portions of the sample sex trafficking investigative file Metro previously provided (Pet. Exh. 21) that correspond to the Limited File (*id.* at LVRJ377-385; 386-394; 397-401), only three pages had information that required redaction (Pet. Exh. 21 at LVRJ377, LVRJ386, and LVRJ400.) These three pages contained social security numbers, dates of birth, and telephone numbers of the person arrested. (*Id.*) By contrast, the narrative portion of the reports do not contain social security numbers, dates of birth, or telephone numbers. (Pet. Exh. 21) However, Metro spent considerable time and effort redacting Ms. Richards' name—information that was not confidential—from the narrative portion of the arrest reports. In fact, Metro only needs to redact two or three lines of the report cover page. Over-redacting is simply a waste of time—and it violates the NPRA.

///

///

///

¹⁰ See Exh. 79: <https://news3lv.com/news/local/exclusive-victim-forced-into-prostitution-shares-her-traumatic-experience> (last checked 8/20/18); Exh. 80: <https://www.reviewjournal.com/local/local-las-vegas/woman-testifies-against-alleged-pimp-accused-of-torturing-her-i-was-just-trying-to-keep-alive/> (last checked 8/20/18); and Exh. 81: <https://www.reviewjournal.com/local/local-las-vegas/jury-deliberates-las-vegas-pimps-alleged-torture-of-woman-forced-into-prostitution/> (last checked 8/20/18).

1 As this reveals,¹¹ the vast majority of the redactions in the file are impermissible
2 and unnecessary. Yet Metro wanted to charge the Review-Journal for the time involved in
3 making these redactions. This case illustrates in practical form the legal reasons why a
4 governmental entity cannot be permitted to charge for redactions—especially where a
5 governmental entity has not in good faith endeavored to only redact truly confidential
6 information.

7 **3. A Custodian of Records Deposition Is Necessary.**

8 This Court has the authority to require that Metro provide one or more custodian
9 of records (“COR”) deponents to address the Review-Journal’s still-unanswered questions
10 regarding Metro’s systems and how it stores records. Nev. Rev. Stat. § 34.300 (“Rules of
11 practice in mandamus proceedings”) states:

12 Except as otherwise provided in NRS 34.150 to 34.290, inclusive, the
13 provisions of NRS and Nevada Rules of Civil Procedure relative to civil
14 actions in the district court are applicable to and constitute the rules of
15 practice in the proceedings mentioned in NRS 34.150 to 34.290, inclusive.

16 There are no limitations that bar discovery in this case. *See* Nev. Rev. Stat, § 34.150-34.290.
17 Accordingly, the Court can require that Metro submit to a deposition. And it should do so for
18 multiple reasons.

19 First and foremost, a COR deposition would allow the Review-Journal to
20 continue its efforts to discern the most cost-effective manner of obtaining access to the now
21 long-withheld records. Second, it would allow the Review-Journal to definitively
22 determine if, in fact, responsive records exist.

23 This Court noted the potential need for a COR Deposition and the need for Metro
24 to explain how their system works. (*See, e.g.*, Exh. 87 (08/08/2018 Transcript), p. 3:4:13.)
25 A COR deposition is in fact necessary for this very reason. Metro has not provided full

26 _____
27
28 ¹¹ In light of the fact that the LVRJ has devised a method to quickly determine whether
witnesses in sex trafficking files have testified, Metro should also have been able to do so.

1 information, and did not provide any Metro IT staff or other client representative for the
2 Meet and Confer. As a result, the Review-Journal still has unanswered questions. To date,
3 the only information has been provided via counsel and some of the representations belie
4 belief.

5 While the undersigned is not asserting that Metro's counsel is intentionally
6 misrepresenting the facts, it is more than possible that information is being lost in
7 translation. Ms. Nichols' argument at the August 8, 2018 Hearing reflects the game of
8 "telephone" that has occurred:

9 NICHOLS: The problem, Your Honor, is that this is not just one single
10 division or one single bureau that controls these records. So, I'm having to
11 speak with general counsel who essentially speaks with several different
12 divisions and several different bureaus within the Department and then
13 reports back to me. And, so, I would essentially have to -- and it would take
14 me at least a month, if not two, to get declarations or affidavits from each
15 person within a division or bureau to show how these records are searched
16 for. ... --

17 (*Id.* at p. 22, 22:32.) While the Review-Journal contends that it should be possible to obtain
18 information about the records requested in a more efficient manner, it is clear that it cannot
19 be left to Metro counsel to collect information and convey it to the Review-Journal.

20 For whatever reason, much of the information—which is just assertions of
21 counsel and not evidence—does not square with common sense or facts that the Review-
22 Journal has been able to gather.

23 For example, Metro has contended that there are no electronic file versions of the
24 sex trafficking investigative files—but the Review-Journal has uncovered information
25 suggesting that this is not so.¹² Thus, Metro has contended that making a copy is necessary
26 in order to review and redact the records. It is 2018. That an incredibly important unit of
27 our police department has no electronic records is an incredible assertion. Moreover, Metro
28

¹² Part of the expense and difficulty in this case stems from the fact that Metro claims that the sex trafficking investigative files only exist in hard copy form.

1 does in fact have digitized records.

2 As noted above, the Review-Journal has agreed to limit its initial review to the
3 “Limited File” described above: arrest reports, case reports, and requests for prosecution. All
4 of these records likely exist in electronic format. Metro’s 2017 Law Enforcement Support
5 Technician (LEST) Guide (Exh. 82)¹³ supports this conclusion. LESTs assist with records at
6 Metro, including electronic records. (Exh.83.)¹⁴

7 According to the LEST Guide, Metro uses a program called “Premier One (P1)” to
8 store and index records, including records such as arrest reports. Under the heading
9 “Introduction to Law Enforcement Support Technician Informational Guide,” the LEST
10 Guide explains:

11 **PREMIER ONE (P1)**

12 Premier One is a computerized system that manages the recording,
13 indexing, and tracking of detailed information related to reported incidents.
14 The LEST assigned to Records and Fingerprint enters reports of crimes into
15 this database. Any handwritten reports taken by officers in the field are
16 scanned into OnBase, and depending upon the type of report, are entered
17 into Premier One by either a LEST assigned to Tourist Safety and
18 Community Policing Divisions or Records and Fingerprint Bureau.

19 (Exh. 82, p. 12.) “OnBase” appears to be a program in which records such as any handwritten
20 reports are scanned, uploaded, and stored. (*Id.*; see also p. 7 (in a sample description of LEST
21 duties, the LEST Guide includes “Scanning – batch, scan, index and quality control all
22 paperwork turned in to the Bureau for OnBase entry. Scanning will also prepare criminal
23 packets for court and process criminal citations.”). While this pre-employment general guide
24 regarding the LEST position does not specifically mention the VICE unit, it certainly

25
26 ¹³ Also available at: <https://www.lvmpd.com/en-us/.../2017%20LEST%20Informational%20Guide.pdf> (last checked 8/20/18).

27 ¹⁴ Also available at:
28 <https://agency.governmentjobs.com/lvmpd/default.cfm?action=specbulletin&ClassSpecID=1020269&headerfooter=0> (last checked 8/20/18).

1 suggests that the records sought in this case should exist in OnBase and P1, or other electronic
2 form.¹⁵

3 **IV. CONCLUSION**

4 For all the reasons set forth above, the Review-Journal respectfully requests that,
5 in addition to approving the Stipulation, this Court grant the following relief:

- 6 • Order the production of the SCOPE records (Pet. Exh. 8);
7 • Order the production of the unit assignments (Pet. Exh. 1) as of January 1, 2017;
8 • Require Metro to provide a witness or witnesses to testify regarding topics
9 including:
10 ○ Metro's system for creating, uploading, storing, and maintaining all the
11 records at issue in this case including but not limited to: (1) arrest reports;
12 (2) sex trafficking files; and (3) statistics regarding solicitation, engaging
13 in prostitution, and "trick rolls;"
14 ○ Metro's retention policies; and
15 ○ Metro's policies and procedures regarding the use (input of data into)
16 SCOPE.

17 Respectfully submitted this the 20th of August, 2018.

CERTIFICATE OF SERVICE

I hereby certify that on this the 20th of August, 2018, pursuant to Administrative Order 14-2 and N.E.F.C.R. 9, I did cause a true copy of the foregoing OPENING BRIEF IN SUPPORT OF AMENDED PUBLIC RECORDS ACT APPLICATION PURSUANT TO NEV. REV. STAT. § 239.001/ PETITION FOR WRIT OF MANDAMUS in *Las Vegas Review-Journal v. Las Vegas Metropolitan Police Department*, Clark County District Court Case No. A-18-775378-W, to be served electronically using the Odyssey File & Serve electronic filing service system, to all parties with an email address on record.

I hereby further certify that on this the 20th of August, 2018, pursuant to Nev. R. Civ. P. 5(b)(2)(B), I mailed a true and correct copy of the foregoing OPENING BRIEF IN SUPPORT OF AMENDED PUBLIC RECORDS ACT APPLICATION PURSUANT TO NEV. REV. STAT. § 239.001/ PETITION FOR WRIT OF MANDAMUS by depositing the same in the United States mail, first-class postage pre-paid, to the following:

Craig R. Anderson, Nick D. Crosby, and Jackie V. Nichols
MARQUIS AURBACH COFFING

Attorneys for Las Vegas Metropolitan Police Department

/s/ Pharan Burchfield
An Employee of MCLETSCHIE SHELL LLC

DECLARATION OF MARGARET A. MCLETCHIE

I, MARGARET A. MCLETCHIE, declare, pursuant to Nev. Rev. Stat. § 53.330, as follows:

1. I have personal knowledge of the facts set forth below, and, if called as a witness, could testify to them.

2. I am an attorney duly licensed to practice law in Nevada.

3. I am a partner at the law firm of McLetchie Shell, LLC, and I am lead counsel for the Las Vegas Review-Journal in *Las Vegas Review-Journal v. Las Vegas Metropolitan Police Department*, Clark County District Court Case No. A-18-775378-W.

4. I am making this declaration to provide information in this case, to authenticate documents attached as exhibits in support of Petitioner Las Vegas Review-Journal's Supplemental brief in Support of Public Records Act Application Pursuant to Nev. Rev. Stat. § 239.001/ Petition for Writ of Mandamus, and to verify factual representations contained in the Motion.

5. Despite the fact that Metro has not provided any evidence to support its arguments against disclosure of the unit assignments for officers, the Review-Journal has endeavored to compromise. Metro has claimed that providing unit assignments would jeopardize undercover officers. To address this concern, at the August 15, 2018 meet and confer, the Review-Journal proposed limiting the request to patrol officers.

6. Mr. Crosby, Ms. Nichols, Las Vegas Review-Journal reporter Brian Joseph, and I participated in a meet and confer phone meeting on Wednesday, August 15, 2018.

a. During that call, the parties came to a number of agreements and tentative agreements but were unable to resolve all issues.

b. Because a Metro client representative was not on the call, Metro's counsel was required to follow up with their client after the call.

c. The parties have exchanged various emails since the time of the Meet and Confer.

1 d. Exhibits 68-78 are true and correct copies of emails between myself
2 and counsel maintained by my office in regular course of business.

3 7. During the Meet and Confer, Metro also indicated it was willing to
4 provide hard copies of the records at thirty-one cents a page. The Review-Journal then
5 requested evidence supporting the proposition that it “actual costs” are thirty-one cents a
6 page, including specifically a copy of a cost study Metro contends supports this claim.
7 Metro has not provided the cost study.

8 8. On August 16, 2018, I sent counsel for Metro payment for the August 8,
9 2018 hearing transcript but I did not receive the transcript until August 20, 2018 at around
10 2:45 p.m. — the date the attached brief was due to the court.

11 9. On August 20, 2018, I also asked Ms. Jackie Nichols in a telephone call
12 for copies of a cost study Metro indicated had been performed to justify the various fees it
13 demands the public pay for access to public records and training materials and manuals
14 regarding SCOPE. Metro has not provided the information.

15 10. Exhibit 79 is a true and correct copy of a 5/18/16 New 3 Las Vegas Article:
16 “EXCLUSIVE: Victim Forced into Prostitution Shares Her Traumatic Experience” by
17 Fatima Rahmatullah (downloaded from [https://news3lv.com/news/local/exclusive-victim-](https://news3lv.com/news/local/exclusive-victim-forced-into-prostitution-shares-her-traumatic-experience)
18 [forced-into-prostitution-shares-her-traumatic-experience](https://news3lv.com/news/local/exclusive-victim-forced-into-prostitution-shares-her-traumatic-experience)).

19 11. Exhibit 80 is a true and correct copy of a 3/7/16 Las Vegas Review-Journal
20 Article: “Woman Testifies Against Alleged Pimp Accused of Torturing Her: ‘I Was Just
21 Trying to Keep Alive’” by David Ferrara (downloaded from
22 [https://www.reviewjournal.com/local/local-las-vegas/woman-testifies-against-alleged-](https://www.reviewjournal.com/local/local-las-vegas/woman-testifies-against-alleged-pimp-accused-of-torturing-her-i-was-just-trying-to-keep-alive/)
23 [pimp-accused-of-torturing-her-i-was-just-trying-to-keep-alive/](https://www.reviewjournal.com/local/local-las-vegas/woman-testifies-against-alleged-pimp-accused-of-torturing-her-i-was-just-trying-to-keep-alive/)).

24 12. Exhibit 81 is a true and correct copy of a 3/11/16 Las Vegas Review-Journal
25 Article: “Jury Deliberates Las Vegas Pimp’s Alleged Torture of Woman Forced into
26 Prostitution” by David Ferrara (downloaded from:
27 [https://www.reviewjournal.com/local/local-las-vegas/jury-deliberates-las-vegas-pimps-](https://www.reviewjournal.com/local/local-las-vegas/jury-deliberates-las-vegas-pimps-alleged-torture-of-woman-forced-into-prostitution)
28 [alleged-torture-of-woman-forced-into-prostitution](https://www.reviewjournal.com/local/local-las-vegas/jury-deliberates-las-vegas-pimps-alleged-torture-of-woman-forced-into-prostitution)).

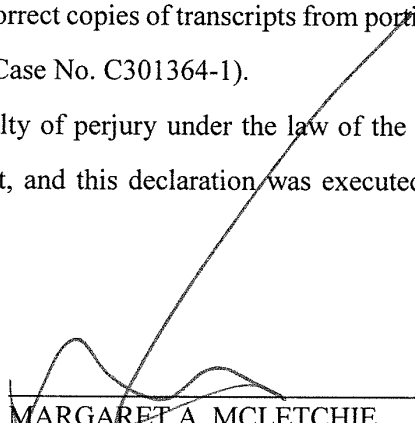

13. Exhibit 82 is a true and correct copy of a 3/21/17 Las Vegas Metropolitan Police Department's 2017 Law Enforcement Support Technician (LEST) Guide (downloaded from <https://www.lvmpd.com/en-us/.../2017%20LEST%20Informational%20Guide.pdf>).

14. Exhibit 83 is a true and correct copy of a Las Vegas Metropolitan Police Department's Class Specification Bulletin for Law Enforcement Support Technician Supervisor) Guide (downloaded from <https://agency.governmentjobs.com/lvmpd/default.cfm?action=specbulletin&ClassSpecID=1020269&headerfooter=0>).

15. Exhibit 84 is a true and correct copy of Las Vegas Metropolitan Police Department's Final Budget FY 2018-2019 (downloaded from https://www.lvmpd.com/en-us/Documents/Budgets/FY2018-2019_FinalBudget.pdf).

16. Exhibits 85-87 are true and correct copies of transcripts from portions of the trial in *State of Nevada v. Robert Sharpe III* (Case No. C301364-1).

I certify and declare under the penalty of perjury under the law of the State of Nevada that the foregoing is true and correct, and this declaration was executed at Las Vegas, Nevada, the 20th day of August 2018.

Nick and Jackie: How about this Thursday or Friday? If not, how about Wednesday afternoon or Thursday (so we can either get a stipulation or separate statements on file by 8/20)? [I have an appellate brief due Monday, a Supreme Court settlement conference Tuesday, and a hearing Wednesday.] I would also like to have Brian Joseph (the reporter) on the phone with me and will check in about his schedule. Will you have a client representative with you? I am also happy to meet in person.

Hi Maggie-

Nick is arbitration all day today and we did not get the opportunity to discuss the details of the hearing with our client yesterday. However, we did confirm that we would not be filing an emergency Writ. For the meet and confer, next Wednesday should work. Nick and I are open, what time works best for you?

With respect to the 1 October Appeal, would you be willing to stipulate to extend briefing out 30 days? Our opening brief is due August 27th and, in addition to this case, I have two summary judgment oppositions due that same week. Let me know and I can prepare the stipulation.

Thanks,

Jackie

Subject: RE: LVRJ v. Metro - Sex trafficking [IWOV-iManage.FID1013982]

Hi Maggie-

Nick is arbitration all day today and we did not get the opportunity to discuss the details of the hearing with our client yesterday. However, we did confirm that we would not be filing an emergency Writ. For the meet and confer, next Wednesday should work. Nick and I are open, what time works best for you?

With respect to the 1 October Appeal, would you be willing to stipulate to extend briefing out 30 days? Our opening brief is due August 27th and, in addition to this case, I have two summary judgment oppositions due that same week. Let me know and I can prepare the stipulation.

Thanks,

Jackie

Subject: LVRJ v. Metro - Sex trafficking

Nick and Jackie: How about this Thursday or Friday? If not, how about Wednesday afternoon or Thursday (so we can either get a stipulation or separate statements on file by 8/20)? [I have an appellate brief due Monday, a Supreme Court settlement conference Tuesday, and a hearing Wednesday.] I would also like to have Brian Joseph (the reporter) on the

phone with me and will check in about his schedule. Will you have a client representative with you? I am also happy to meet in person.

Dear Ms. McLetchie:

Please be advise, we Just received the invoice from Judge Hardy's recorder for the request of transcript copy regarding the above matter. The total cost for the transcript is \$230.98 – \$40 for recording fee and \$190.38 for the actual transcript. A copy of this invoice is attached for your review. In order to expedite receipt of this transcript, our office will be submitting the total amount of payment directly to the clerk. As such and at your earliest opportunity, please issue our firm a check in the amount of \$115.49 which represents half of the fees charged for same.

In the meantime, should you have any additional questions regarding the above, please do not hesitate to contact our office.

Thank you,

Suzanne Boggs

Nick and Jackie:

The date we'd like patrol officer assignments for is 1/1/2017. Attached is: (1) a sample data dictionary; and (2) a sample database schema. Again, I also think it would be helpful if you could provide any manuals or training materials that pertain to LVMP's use of SCOPE (please consider this a formal request pursuant to the NPRA on behalf of the LVRJ, although I would like the records before the 5-day response deadline). Thank you both again for your cooperation.

Maggie

	CHARGE	0	
1 CHARGE_ID		System generated number to uniquely identify this particular charge	
2 ARREST_ID		System generated number used to identify a particular arrest	
3 ASSOCIATE_FINE_SW		Y/N switch to indicate if there is a fine associated with the arrest	
4 ATTEMPTED_SWITCH		Y/N switch to indicate if the charge was an attempt	
5 CITED_SWITCH		Y/N switch to denote whether or not that this is a citation	
6 CHARGE_CODE		Pick list value of the actual charge for which the juvenile is being arrested	
7 NUM_OF_COUNTS			
8 PERSON_ROLE_CODE			

Table Name	Field Name	Description
CHARGE	9 DEGREE_CODE	Pick list value of the category of the charge, ie Felony, Gross misdemeanor, Mis
CHARGE	10 OFFENSE_DATE	Date field to record the date of the offense
CHARGE	11 OFFENSE_TIME	Time field to record the time of the offense
CHARGE	12 LAST_UPDATE_DATE	
CHARGE	13 LAST_UPDATE_ID	
CHARGE	14 JURISDICTION	Pick list value of the agency that has jurisdiction for this charge
CHARGE	15 CURRENT_STATUS	Code value
CHARGE	16 CHARGE_TYPE_CODE	Number field for code that denotes an arrest or citation
CHARGE	17 DOMESTIC_VIOLENCE_SW	Y/N switch to indicate if domestic violence was involved with this charge
CHARGE	18 EVENT_NUM	Text field for Agency Daily Report or Event number
CHARGE	19 INVESTIGATING_OFFICER	
CHARGE	20 OFFENSE_LOCATION	Text field to describe the offense location
CHARGE	21 OFFENSE_REMARKS	Text field to describe any particular remarks associated with this charge
CHARGE	22 ADDITIONAL_CHARGE_SW	Y/N switch to indicate if an additional charge was added
CHARGE	23 PETITION_NUM	
CHARGE	24 CHARGE_PETITION_DATE	
CHARGE	25 CITATION_NUMBER	
CHARGE	26 FINGERPRINT_PCN_SEQ	Text field for the actual citation number if this charge is a result of a citati
CHARGE_ASSOCIATION	0	
CHARGE_ASSOCIATION	1 CHARGE_ID	fracs generated id number assigned to each row of charges that has been entered
CHARGE_ASSOCIATION	2 CHRQ_FIND_SEQUENCE_NUM	Number used to sequentially identify individual records
CHARGE_ASSOCIATION	3 NEW_CHARGE_ID	fracs generated id number assigned to a new charge
CHARGE_ASSOCIATION	4 LAST_UPDATE_DATE	date that a charge was last updated
CHARGE_ASSOCIATION	5 LAST_UPDATE_ID	fracs user id name of dty's staff that last updated a charge
CHARGE_ASSOCIATION	6 TYPE	
CHARGE_BALANCESVIEW	0	
CHARGE_BALANCESVIEW	1 ARREST_ID	Used to calculate balance owed for a particular arrest/charge combination.
CHARGE_BALANCESVIEW	2 CHARGE_ID	System generated number used to identify a particular arrest
CHARGE_BALANCESVIEW	3 TOTAL_FINE_AMOUNT	
CHARGE_BALANCESVIEW	4 BALANCE_DUE	
CHARGE_CATEGORY	0	
CHARGE_CATEGORY	1 CHARGE_CODE	
CHARGE_CATEGORY	2 CHARGE_CATEGORY_CODE	Code value
CHARGE_CATEGORY	3 LAST_UPDATE_DATE	
CHARGE_CATEGORY	4 LAST_UPDATE_ID	
CHARGE_CATEGORY	5 START_DATE	Network system id of last user to add or update record
CHARGE_CATEGORY	6 END_DATE	
CHARGE_CODE	0	
CHARGE_CODE	1 CHARGE_CODE	System generated number, unique for every charge.
CHARGE_CODE	2 CHARGE_DEGREE	Picklist value describing the degree of the charge
CHARGE_CODE	3 CONSPIRATOR_DEGREE	
CHARGE_CODE	4 LAST_UPDATE_DATE	
CHARGE_CODE	5 LAST_UPDATE_ID	
CHARGE_CODE	6 START_DATE	
CHARGE_CODE	7 END_DATE	date field that starts the use of that charge in the system.
CHARGE_CODE	8 CHARGE_DESCRIPTION	date field that ends the use of that charge in the system.
CHARGE_CODE	9 CHARGE_CATEGORY_CODE	Text field describing the charge
CHARGE_CODE	10 NRS_ORD	Picklist value describing the category for the charge
CHARGE_CODE	11 CC_ORD	field contains the corresponding nrs code

Table Name	Field Name	Description
CHARGE_DISPOSITION	20 COM_SERVICE_HR_COMP	
CHARGE_ENHANCEMENT	0	
CHARGE_ENHANCEMENT	1 CHARGE_ID	
CHARGE_ENHANCEMENT	2 SEQUENCE_NUM	
CHARGE_ENHANCEMENT	3 LAST_UPDATE_DATE	
CHARGE_ENHANCEMENT	4 LAST_UPDATE_ID	
CHARGE_ENHANCEMENT	5 ENHANCEMENT_CODE	
CHARGE_FINDING	0	
CHARGE_FINDING	1 CHARGE_ID	Unique number that identifies each charge in an arrest
CHARGE_FINDING	2 SEQUENCE_NUM	Program generated # to show order of entry
CHARGE_FINDING	3 FINDING_SOURCE_CODE	Pcklist of who made finding - DA, Intake, Court
CHARGE_FINDING	4 FINDING_CODE	Pcklist of possible findings for each count
CHARGE_FINDING	5 LAST_UPDATE_DATE	Date screen was last updated
CHARGE_FINDING	6 LAST_UPDATE_ID	Staff ID of person to do last update
CHARGE_FINDING	7 CERTIFIED_AS_ADULT_SW	Y/N switch to indicate if the minor has been certified as an adult
CHARGE_FINDING	8 CERTIFIED_AS_JUVENILE_SW	Y/N switch to show if the minor has been certified as a juvenile
CHARGE_FINDING	9 FINDING_DATE	Date of finding
CHARGE_FINDING	10 STAFF_ID	Staff ID of person who entered data
CHARGE_FINDING	11 REASON_CODE	Code value
CHARGE_FINDING	12 NUM_OF_COUNTS	Number of charges in the arrest
CHARGE_FINDING	13 HEARING_ID	Unique number that identifies a specific hearing
CHARGE_FINDING	14 MINOR_PLEA	Code value
CHARGE_FINDING	15 RESULT_TEXT	
CHARGE_FINDING	16 CERT_PRES	
CHARGE_FINDING	17 CERT_DSC	
CHARGE_FINESVIEW	0	
CHARGE_FINESVIEW	1 ARREST_ID	Used to calculate the total amount of fines or restitution owed for an arrest
CHARGE_FINESVIEW	2 CHARGE_ID	System generated number used to identify a particular arrest
CHARGE_FINESVIEW	3 TOTAL_FINE_AMOUNT	
CHARGE_HEARING	0	
CHARGE_HEARING	1 CHARGE_ID	System generated # that uniquely identifies charge
CHARGE_HEARING	2 LAST_UPDATE_DATE	
CHARGE_HEARING	3 LAST_UPDATE_ID	
CHARGE_HEARING	4 PLEA	
CHARGE_HEARING	5 HEARING_ID	
CHARGE_HEARING	6 PETITION_NUM	System generated # that uniquely identifies charge
CHARGE_HEARING	7 CHARGE_PETITION_DATE	Petitions are number sequentially and assigned a # by the Clerk
CHARGE_HEARING	8 PETITION_DISPOSITION_DATE	Date that Petition is filed
CHARGE_HEARING	9 PETITION_DISPOSITION_CODE	Date that Petition is disposed by the court
CHARGE_HEARING	10 WARRANT_CODE	Pcklist value that indicates the disposition of filed allegations
CHARGE_HEARING		Code that indicates a warrant is issued and what type
CHARGE_PAYMENTSVIEW	0	
CHARGE_PAYMENTSVIEW	1 ARREST_ID	Used to calculate the total amount of payments made for a particular arrest
CHARGE_PAYMENTSVIEW	2 CHARGE_ID	System generated number used to identify a particular arrest
CHARGE_PAYMENTSVIEW	3 PAYMENT	
CHARGE_PROPERTY	0	
CHARGE_PROPERTY	1 CHARGE_ID	
CHARGE_PROPERTY	2 PROPERTY_CODE	Code value

Description

Network system id of last user to add or update record.

fracs generated id number assigned to each charge.
fracs code id identifying if the charge specific is for property offense or sub
fracs code id identifying the type of charge specific - such as - money, jewelry
date that the specific section of the charges tab was last updated.
fracs user id name of the dfts staff that last updated the specific section of

System generated number used to identify a particular arrest
Number used to sequentially identify individual records
Code value

Network system id of last user to add or update record
System generated number that uniquely identifies

fracs generated id number assigned to each charge
fracs generated sequence number assigned to each charge weapon that has been ad
fracs code id identifying the kind of weapon category that has been added to a
date the weapon category section of a charge was last updated.
fracs user id name of the dfts staff that last updated the weapon category sect
fracs code id identifying type of weapon that has been added to a charge - such

Unique system generated # used to identify count order associated with charge
Unique # generated by program to show order of entry
Unique number used to identify each charge
Date table was last updated
Staff ID of person who did last update

fracs generated id number assigned to each child developmental assessment

fracs generated id number assigned to each child developmental assessment

Table Name

Field Name

CHILD_HEAVEN_ASSESS	2 PERSON_ID	Description
CHILD_HEAVEN_ASSESS	3 REFERRAL_ID	fracs generated person id number identifying the client that a 7-17 yr old chil
CHILD_HEAVEN_ASSESS	4 REMOVED_FR_SCHOOL_SW	fracs generated cps case number that a 7-17 yr old child developmental assessme
CHILD_HEAVEN_ASSESS	5 SOCIAL_BEHAVIOUR_TEXT	Yes/No switch indicating if a client was removed from school while in child haven
CHILD_HEAVEN_ASSESS	6 ENURIES_SW	Yes/No switch indicating if the client has suffered from enuresis while in child haven
CHILD_HEAVEN_ASSESS	7 ENURIES_REASON_CODE	Yes/No switch indicating if the client has suffered from enuresis while in child haven
CHILD_HEAVEN_ASSESS	8 ENCOPRESIS_SW	Yes/No switch indicating if the client has suffered from encopresis while in child haven
CHILD_HEAVEN_ASSESS	9 ENCOPRESIS_REASON_CODE	Yes/No switch indicating if the client has suffered from encopresis while in child haven
CHILD_HEAVEN_ASSESS	10 CASE_REFERRED_SW	fracs generated person id number of the child or psychologist
CHILD_HEAVEN_ASSESS	11 COMMENTS	text field to enter additional comments regarding the assessment.
CHILD_HEAVEN_ASSESS	12 EVALUATOR_ID	fracs generated person id number of the dlys staff that entered the assessment
CHILD_HEAVEN_ASSESS	13 EVALUATED_DATE	date field to enter the date the assessment was completed
CHILD_HEAVEN_ASSESS	14 LAST_UPDATE_DATE	date that the assessment was last updated
CHILD_HEAVEN_ASSESS	15 LAST_UPDATE_ID	fracs user id name of the dlys staff that last updated the assessment.
CHILD_HEAVEN_ASSESS	16 COMMENT_ON_SCHOOL	text field to enter information regarding the school behavior of a client while
CHILD_HEAVEN_ASSESS	17 VERSION_NUMBER	fracs generated number identifying the version of the assessment - assessments
CHILD_HEAVEN_ASSESS_RATING	0	
CHILD_HEAVEN_ASSESS_RATING	1 ASSESS_ID	fracs generated id number assigned to each child developmental assessment
CHILD_HEAVEN_ASSESS_RATING	2 ASSESSMENT_CODE	Fracs code identifying the assessment category - such as interpret direction
CHILD_HEAVEN_ASSESS_RATING	3 GRADE	fracs code id identifying the level that a client demonstrates for each assessm
CHILD_HEAVEN_ASSESS_RATING	4 COMMENTS	text field to enter comments regarding the developmental/skill level of a client
CHILD_HEAVEN_ASSESS_RATING	5 SCORE_CODE	fracs code id identifying the score of an assessment category - such as demonst
CHILD_HEAVEN_ASSESS_RATING	6 LAST_UPDATE_ID	fracs user id name of the dlys staff that last updated an assessment category.
CHILD_HEAVEN_ASSESS_RATING	7 LAST_UPDATE_DATE	date that an assessment category was last updated

CLIENT_PSYCH_MAYSI	0	Unique identifier that assists in identifying a MAYSI test.
CLIENT_PSYCH_MAYSI	1 MAYSI_ID	Identifier of client that took the test.
CLIENT_PSYCH_MAYSI	2 PERSON_ID	System generated number used to identify a particular arrest.
CLIENT_PSYCH_MAYSI	3 ARREST_ID	Date that test was taken.
CLIENT_PSYCH_MAYSI	4 TEST_DATE	Code between 1 and 4 for how long client was detained before taking test.
CLIENT_PSYCH_MAYSI	5 TIME_CODE	Total score of Angry-Irritable questions chosen by the client.
CLIENT_PSYCH_MAYSI	6 AL_SCORE	Whether there is a warning or caution flag for the Angry-Irritable section.
CLIENT_PSYCH_MAYSI	7 AL_FLAG	Total score of Thought Disturbance questions chosen by client - boys only.
CLIENT_PSYCH_MAYSI	8 TD_SCORE	Whether there is a Warning or Caution flagged for Thought Disturbance section -
CLIENT_PSYCH_MAYSI	9 TD_FLAG	Total score of Somatic Complaints questions chosen by client.
CLIENT_PSYCH_MAYSI	10 SC_SCORE	Whether there is a Warning or Caution flagged for Somatic Complaints section.
CLIENT_PSYCH_MAYSI	11 SC_FLAG	Total score of Substance Abuse (Alcohol/Drug) test that was taken by the client.
CLIENT_PSYCH_MAYSI	12 AD_SCORE	Whether there is a Warning or Caution flagged for Substance Abuse (Alcohol/Drug)
CLIENT_PSYCH_MAYSI	13 AD_FLAG	Whether there is a Warning or Caution flagged for Suicidal Ideation section.
CLIENT_PSYCH_MAYSI	14 SI_SCORE	Whether there is a Warning or Caution flagged for Suicidal Ideation section.
CLIENT_PSYCH_MAYSI	15 SI_FLAG	Total score of Traumatic Experiences questions chosen by client.
CLIENT_PSYCH_MAYSI	16 TE_SCORE	Whether there is a Warning or Caution flagged for Traumatic Experiences section.
CLIENT_PSYCH_MAYSI	17 TE_FLAG	Total score of Depressed Mood questions chosen by client.
CLIENT_PSYCH_MAYSI	18 DA_SCORE	Whether there is a Warning or Caution flagged for Depressed Mood section.
CLIENT_PSYCH_MAYSI	19 DA_FLAG	Reason test was not administered if client did not take one.
CLIENT_PSYCH_MAYSI	20 NO_TEST_REASON	Mandatory text if the reason no test was given is Other.
CLIENT_PSYCH_MAYSI	21 NO_TEST_TEXT	Date action was taken by staff after test has been given.
CLIENT_PSYCH_MAYSI	22 ACTION_DATE	Action that was taken by staff after test has been given.
CLIENT_PSYCH_MAYSI	23 ACTION_TAKEN	Mandatory text if the action taken reason is Other.
CLIENT_PSYCH_MAYSI	24 ACTION_TEXT	

Table Name		Field Name	Description
CLIENT_PSYCH_MAYSI	CLIENT_PSYCH_MAYSI	25 LAST_UPDATE_ID	Identifier of staff that last updated record.
		26 LAST_UPDATE_DATE	Date record was last updated.
CLIENT_PSYCH_MAYSI_QUESTIONS	CLIENT_PSYCH_MAYSI_QUESTIONS	0	Unique Identifier for questions on the MAYSI test.
		1 MAYSI_QUESTION_ID	Question number on the MAYSI test.
		2 QUESTION_ID	Text of question on the MAYSI test.
		3 QUESTION_DESCRIPTION	Date the question is first used.
		4 START_DATE	Date the question is no longer used.
		5 END_DATE	Identifier of staff that last updated record.
		6 LAST_UPDATE_ID	Date record was last updated.
CLIENT_PSYCH_MAYSI_QUESTIONS	CLIENT_PSYCH_MAYSI_QUESTIONS	7 LAST_UPDATE_DATE	
		0	Unique Identifier that assists in identifying a MAYSI test.
		1 MAYSI_ID	Question number chosen on the MAYSI test.
		2 QUESTION_ID	MAYSI test question category.
		3 CATEGORY	Identifier of staff that last updated record.
		4 LAST_UPDATE_ID	Date record was last updated.
		5 LAST_UPDATE_DATE	
CLIENT_PSYCH_MAYSI_SCORES	CLIENT_PSYCH_MAYSI_SCORES	0	Unique Identifier that assists in identifying a MAYSI Summary test.
		1 MAYSI_SUMRY_ID	Identifier that assists in connecting a SUMMARY test to the original MAYSI test.
		2 MAYSI_ID	Identifier of staff completing the Summary test.
		3 STAFF_ID_COMPLETING_FORM	Date that Summary test was given.
		4 SCREENING_DATE	Whether Depressed-Anxious questions were given on this Summary.
		5 DA_FLAG	Whether Somatic Complaints questions were given on this Summary.
		6 SC_FLAG	Whether Suicide Ideation questions were given on this Summary.
		7 SI_FLAG	Whether there is a warning or caution flag for the Angry-Irritable section.
		8 AI_FLAG	Whether Thought Disturbance questions were given on this Summary.
		9 AD_FLAG	Whether there is a Warning or Caution flagged for Substance Abuse (Alcohol/Drug).
		10 TD_FLAG	Y/N switch to indicate if an action was taken.
		11 ACTION_TAKEN_SW	Date action was taken by staff after test has been given.
		12 ACTION_DATE	Action that was taken by staff after test has been given.
		13 ACTION_TAKEN	Identifier of staff that last updated record.
		14 LAST_UPDATE_ID	Date record was last updated.
CLIENT_PSYCH_MAYSI_SUMMARY	CLIENT_PSYCH_MAYSI_SUMMARY	15 LAST_UPDATE_DATE	
		0	ID of report done by Psy. Depart.
		1 PSYCH_REFERRAL_ID	text field of date report needed
		2 DATE_SUBMITTED	drop down code indicating type of evaluation
		3 EVALUATION_TYPE_CODE	text field of date report needed
		4 DATE_REQUIRED	text field reason why evaluation needed
		5 REFERRAL_REASON_TEXT	unique system generated # for proposed recommendation
		6 PROPOSED_INTERVENTION_CODE	text field indicating recommendation for intervention
		7 PROPOSED_INTERVENTION_TEXT	date of last update entered

Field Name

Description

CONTACT	1 CONTACT_ID	Unique number that identifies the contact record
CONTACT	2 SUPERVISED_SW	Y/N switch to indicate if the contact was supervised or not.
CONTACT	3 CONTACT_LOCATION_CODE	drop down code indicating location of the contact
CONTACT	4 CONTACT_DATE	date that the contact occurred
CONTACT	5 CONTACT_BEGIN_TIME	time that the contact began
CONTACT	6 LAST_UPDATE_DATE	Date of last up-date
CONTACT	7 LAST_UPDATE_ID	Staff ID of last person to update arrest
CONTACT	8 STATUS_CATEGORY_CODE	drop down code indicating whether the contact was completed, attempted, or no sn
CONTACT	9 CONTACT_TYPE_CODE	drop down code indicating type of contact ie in person, phone
CONTACT	10 CONTACT_END_TIME	time that the contact ended
CONTACT	11 PERSON_ID_INITIATED_BY	person id of the staff member making the contact
CONTACT	12 FAMILY_ID	Unique number that identifies the family for the contact
CONTACT	13 REFERRAL_ID	Unique number that identifies the referral for this contact
CONTACT	14 ARREST_ID	System generated number used to identify a particular arrest
CONTACT	15 WORD_DOCUMENT_TEXT	A narrative description which records other persons involved in
CONTACT	16 OTHER_CONTACT_TEXT	Text field for adding notes relating to the contact
CONTACT	17 COMMENT_TEXT	internal code indicating what is the status of the case when the contact was made
CONTACT	18 SOURCE_CODE	Unique number that identifies the deliver case for this contact
CONTACT	19 DELIVER_ID	
CONTACT	20 ENTERED_DATE

System generated number used to identify a particular arrest

Table Name	Field Name	Description
CONTACT_PURPOSE	0	
	1 CONTACT_ID	unique ID relating to contact
	2 CONTACT_PURPOSE_CODE	drop down as to purpose of contact
	3 LAST_UPDATE_ID	Numerical ID of staff who last updated contact
CONTACT_PURPOSE	4 LAST_UPDATE_DATE	Date that contact was last updated
	0	
	1 CONTACT_ID	System Generated number that uniquely identifies
	2 SEQUENCE_NUM	Number used to sequentially identify individual records
CONTACT_TEXT	3 LAST_UPDATE_DATE	
	4 LAST_UPDATE_ID	Network system id of last user to add or update record.
	5 COMMENT_TEXT	Long text
COURT_ADDENDUM_REPORT	0	
	1 COURT_ADDENDUM_REPORT_ID	
	2 CLIENT_ID	
	3 FAMILY_ID	
	4 REPORT_DATE	
	5 REPORT_STATUS_CODE	
	6 CREATED_BY_STAFF_ID	
	7 CASE_WORKER_ID	
	8 LAST_UPDATE_DATE	
	9 LAST_UPDATE_ID	
	10 OCCUPANT_SEQUENCE_NUM	
COURT_HEARING	0	
	1 NEXT_HEARING_LOCATION	Court Room that next hearing will be set in
	2 NEXT_HEARING_DATE	Date of next hearing
	3 FAMILY_ID	System generated # that identifies individual family
	4 CASE_NUM	
	5 HEARING_ID	
	6 HEARING_DATE	System generated # that uniquely identifies each hearing
	7 JURISDICTION_CODE	Date hearing is to occur
	8 HEARING_CODE	Picklist of which court has jurisdiction - such as Juvenile
	9 CONTINUANCE_REQUEST_SW	Code that identifies type of hearing
	10 LAST_UPDATE_DATE	Switch that generates a continued hearing
	11 LAST_UPDATE_ID	
	12 NOTIFICATION_TO_TRIBE_TEXT	
	13 CONTINUANCE_REASON_TEXT	Switch that indicates Tribe was notified if child is Native American
	14 PARTICIPANTS_TO_HEARING_TEXT	Picklist of reasons that a hearing be continued
	15 NOTIFICATION_TEXT	
	16 PETITION_NUM	
	17 NEXT_HEARING_CODE	Picklist for Type of Hearing
	18 JUDGE_ID	Picklist of Judges to identify Judge that heard case.
	19 ATTORNEY_ID	
	20 HEARING_RESULT	Overall outcome of the hearing
	21 NOTIFICATION_TO_FAMILY_SW	Switch that indicates family was notified of Court
	22 TRIBAL_NOTIFICATION_DATE	Date of Tribal notification
	23 COURTROOM	Identifies which court room the hearing takes place in
	24 HEARING_TIME	Time of hearing
	25 NEXT_HEARING_TIME	Time of next hearing
	26 HEARING_COMMENTS_TEXT	Text Box for any special conditions or circumstances

Table Name	Field Name	Description
COURT_ORDER	4 LAST_UPDATE_DATE	Date of last up-date
COURT_ORDER	5 LAST_UPDATE_ID	Staff ID of last person to update arrest
COURT_ORDER	6 START_DATE	date the court order was issued
COURT_ORDER	7 DUE_DATE	date the court order was ordered to be completed by.
COURT_ORDER	8 COMPLETION_DATE	date the court order was completed
COURT_ORDER	9 SPECIAL_INSTRUCTIONS_TEXT	comment field to allow extra information relating to the court order
COURT_ORDER	10 ORDER_NUMBER	some code, only used once (value of 2)
COURT_ORDER	11 SPECIAL_CONDITION_SW	Y/N switch, indicating if there are special conditions
COURT_ORDER	12 REQUIRED_HOURS_NUM	old field for containing the community hours
COURT_ORDER	13 WEEKDAY_CURFEW_HOUR	contains the time the youth is ordered to be home on weekdays
COURT_ORDER	14 WEEKEND_CURFEW_HOUR	contains the time the youth is ordered to be home on weekends
COURT_ORDER	15 FINE_AMOUNT	contains the amount of the fine ordered
COURT_ORDER	16 REVIEW_DATE	date the court will review the order
COURT_ORDER	17 REVIEW_TIME	time the court will review the order
COURT_ORDER	18 PERSON_ID_CUSTODY_OF	person id of the person granted custody of the youth
COURT_ORDER	19 WAIVED_SW	Y/N switch, indicating if the court order was waived
COURT_ORDER	20 SUBSTITUTED_SW	Code that indicates the status of attendance
COURT_ORDER	21 ATTENDANCE_CODE	picklist code, indicating the status of compliance
COURT_ORDER	22 OUTCOME_CODE	contains the amount of community hours assigned
COURT_ORDER	23 COM_SERVICE_HR_ASSIGN	contains the amount of community hours completed
COURT_ORDER	24 COM_SERVICE_HR_COMP	
COURT_ORDER_CLIENT	0	
COURT_ORDER_CLIENT	1 CRT_ORDER_ID	System generated # that uniquely identifies a specific order
COURT_ORDER_CLIENT	2 PERSON_ID	Unique identifier of person associated with order
COURT_ORDER_CLIENT	3 LAST_UPDATE_DATE	Date that screen was last updated
COURT_ORDER_CLIENT	4 LAST_UPDATE_ID	Staff identifier of person who last updated screen

COURT_REPORT_ORDER	0	
COURT_REPORT_ORDER	1 CRT_RPT_ORD_ID	The Primary Key Identifier that associates the order to a specific file for the r
COURT_REPORT_ORDER	2 CREATION_DATE	Date the order was created
COURT_REPORT_ORDER	3 HEARING_ID	The Hearing Id that associates the order to the specific referral or arrest hear
COURT_REPORT_ORDER	4 STATUS_CODE	Indicates draft or final version
COURT_REPORT_ORDER	5 TYPE_CODE	Indicates type of order
COURT_REPORT_ORDER	6 LAST_UPDATE_ID	The FamilyTRACS id of the person doing the last update
COURT_REPORT_ORDER	7 LAST_UPDATE_DATE	The date the order was last updated. Actually, created as they are not updated u
COURT_REPORT_ORDER_CLIENT	0	
COURT_REPORT_ORDER_CLIENT	1 CRT_RPT_ORD_ID	Unique Identifier for each court report order generated
COURT_REPORT_ORDER_CLIENT	2 PERSON_ID	Id of the person the report is about
COURT_REPORT_ORDER_CLIENT	3 LAST_UPDATE_ID	ID of person making las update
COURT_REPORT_ORDER_CLIENT	4 LAST_UPDATE_DATE	Date of last update before finalizing
COURT_REPT_RECOMMENDATION	0	
COURT_REPT_RECOMMENDATION	1 CRT_RPT_RECMD_ID	Computer generated # that uniquely identifies a specific court report
COURT_REPT_RECOMMENDATION	2 RECOMMENDATION_CODE	Date that screen was last updated
COURT_REPT_RECOMMENDATION	3 CRT_RPT_ID	Numeric Identifier of staff who last updated screen
COURT_REPT_RECOMMENDATION	4 LAST_UPDATE_DATE	Y/N switch indicated minor associated to referral/arrest is a Ward of the State
COURT_REPT_RECOMMENDATION	5 LAST_UPDATE_ID	
COURT_REPT_RECOMMENDATION	6 WARDSHIP_CODE	
COURT_REPT_RECOMMENDATION	7 CUSTODY_CODE	Computer generated # that uniquely identifies a specific order generated
COURT_REPT_RECOMMENDATION	8 CRT_RPT_ORD_ID	# that uniquely identifies a specific termination report associated to a deliver
COURT_REPT_RECOMMENDATION	9 TERM_RPT_ID	
COURT_RESULT	0	
COURT_RESULT	1 HEARING_ID	Unique Identifier for each court hearing
COURT_RESULT	2 HEARING_RESULT_CODE	Picklist for result of hearing
COURT_RESULT	3 LAST_UPDATE_DATE	Date of last update to screen

Description

The number identifying a law enforcement officer

date declaration is created - default sysdate
sequence number of declaration
whether declaration is final - default is N

- Retitled
Deliver ID assigned to each Deliver
Start Date of the Deliver
End Date of the Deliver
text field indicating comment of completion of service program
system generated ID for staff member name
User ID of last person to update Deliver Table
Date Deliver table was last updated
Family Tracs family ID for the Deliver

Unique ID given to the closure request
Unique ID of the arrest or referral that has linked to the Family ID
System generated number used to identify a particular arrest
ID of the child welfare case involved
Similar to Sequence Number, shows uniquely the order of Deliver closures for the
Drop down of recommendations, i.e. close format in forms, Probation Terminated
Any followup services, etc. given at closure to client (Text Field)
Drop down value - reason why the Deliver case is being closed
Date that the entire Family Deliver action was closed as completed
Unique ID of the staff making the last update to the table
Date of the last modifications to the table

familytracs person id number of the staff that requested the closure of a deliv
familytracs generated number assigned to each deliver event
familytracs person id number assigned to person who is the offender in a juvenile
familytracs generated number assigned to the family in a deliver event
date that the deliver case was requested for closure
familytracs person id number of the staff that requested case closure of a deliv
Familytracs person id number of the supervisor that approved
Date of approval
text field to enter a date that the court denied a deliver case for case closure
text field to enter information regarding why the court denied a deliver case f
familytracs user id name of the staff that last updated the request for closure

Table Name	Field Name	Description
DELIVER_CLOSE_REQUEST	12 LAST_UPDATE_DATE	indicates the last time the request for closure screen was updated.
DELIVER_CLOSE_REQUEST	13 ASSIGNMENT_ID	Familytracs generated number that identifies an assignment
DELIVER_CLOSE_REQUEST	14 END_DATE	
DELIVER_EVENT	0	- Retooled
DELIVER_EVENT	1 DELIVER_ID	ID number for a Deliver
DELIVER_EVENT	2 ASSIGNMENT_ID	Familytracs generated number that identifies an assignment
DELIVER_EVENT	3 START_DATE	start date of Deliver event
DELIVER_EVENT	4 END_DATE	End date for Deliver Event
DELIVER_EVENT	5 RECOMMENDATION	Deliver plan that addresses termination of services. Ordered
DELIVER_EVENT	6 ARREST_ID	System generated number used to identify a particular arrest
DELIVER_EVENT	7 REFERRAL_ID	family Tracks Referral ID
DELIVER_EVENT	8 LAST_UPDATE_ID	User ID of Deliver who last updated Deliver event start
DELIVER_EVENT	9 LAST_UPDATE_DATE	Date that the Deliver Event tab was updated

FAMILY	0	
FAMILY	1 FAMILY_ID	System generated # to identify a specific family
FAMILY	2 ADDRESS_FORMAT_CATEGORY_CODE	A code to determine postal designation (i.e. Street, Foreign Address, P.O.)
FAMILY	3 PO_BOX_NUM	Box number if address category is P.O. Box
FAMILY	4 RURAL_ROUTE_TEXT	Rural Route #
FAMILY	5 RURAL_ROUTE_BOX_NUM	Box number if address category is a Rural Route
FAMILY	6 ADDITIONAL_ADDRESS_HEADER_TEXT	Text field to describe additional information about the address (name of apt or subdivision)
FAMILY	7 STREET_NUM	The house number associated with the street name
FAMILY	8 STREET_SUFFIX_CODE	Name of street where address is located
FAMILY	9 UNIT_CODE	Designation of type of address such as street, avenue, blvd, etc.
FAMILY	10 UNIT_NUM	Pick list of type of Unit - such as apartment, etc.
FAMILY	11 POSTDIR_CODE	Number of Unit if address is for a multi-residence location - such as (apartment)
FAMILY	12 CITY_NAME	Pick list of the one or two letter postal directional abbreviation following the
FAMILY	13 STATE_CODE	City in which address is located
FAMILY	14 STATE_CODE	Pick list of state in which address is located
FAMILY	15 ZIP_NUM	Address Zip Code #
FAMILY	16 COUNTY_CODE	Pick list of County in which address is located
FAMILY	17 PREDIR_CODE	Pick list of the one or two letter postal directional abbreviation preceding the
FAMILY	18 ADDRESS_COMMENT_TEXT	Text field used to describe warnings/alerts and special circumstances about an address
FAMILY	19 ZIP_SUFFIX_NUM	Last 4 numbers of Zip Code if Zip is over 5 digits
FAMILY	20 GROSS_UN_INC_AMOUNT	
FAMILY	21 SOUNDINDEX_CODE	Soundex search code generated based on Family name
FAMILY	22 FAMILY_NAME	
FAMILY	23 LAST_UPDATE_DATE	
FAMILY	24 LAST_UPDATE_ID	
FAMILY	25 SENSITIVE_INFORMATION_SW	Switch that activates sensitive security for case
FAMILY	26 LAST_CONTACT_CODE	
FAMILY	27 CONTACT_PHONE_NUM	Phone number of person in focus including area code
FAMILY	28 CONTACT_PHONE_EXTENSION_NUM	Any extension number to be dialed after main phone number

THIS TABLE IS CONNECTED TO THE CLIENT SCREEN (ROLE)

The role a client plays in the family, ie, son, father or daughter.

Primary role as caretaker switch (check box)

Order that family role was entered into the database

Not used at this time

Picklist to show same, different, or unknown household residence

Defaults to current date, can be changed

The date that a relationship ends

A unique identifier for each client in the application.

A unique identifier for each group of clients in the application that belongs to

Check box to designate the client is participating as a child in the referral or

Determines whether legal family (client tab) or collateral (collateral tab)

Not used at this time

First five digits

Refers to the clients in the family, ie, 01=Mom, 02=Dad

System generated number used to identify a particular arrest

Field Name

Description

ICPC_100A	4 CREATED_DATE	Date records was created.
ICPC_100A	5 REQUEST_DATE	Date ICPC was requested
ICPC_100A	6 RECEIVING_STATE_CODE	Code to identify the State where client is to be received
ICPC_100A	7 RECEIVING_STATE_STREET	Currently Not Used Street address
ICPC_100A	8 RECEIVING_STATE_CITY	Currently Not Used City Name
ICPC_100A	9 RECEIVING_STATE_ZIP	Currently Not Used Zip code
ICPC_100A	10 PERSON_AGENCY_RESPONSIBLE_NAME	Name of Agency responsible for client (i.e., DFYS, DCFS)
ICPC_100A	11 AGENCY_RESPONSIBLE_STREET	Currently Not Used Street address
ICPC_100A	12 AGENCY_RESPONSIBLE_CITY	Currently Not Used City Name
ICPC_100A	13 AGENCY_RESPONSIBLE_ZIP	Currently Not Used Zip code
ICPC_100A	14 AGENCY_RESPONSIBLE_STATE_CODE	Code to identify state of responsible agency
ICPC_100A	15 AGENCY_RESPONSIBLE_PHONE	Currently Not Used Phone Number
ICPC_100A	16 AGENCY_FINANCE_NAME	Picklist Name of Agency financially responsible for child.
ICPC_100A	17 AGENCY_FINANCE_STREET	Currently Not Used Street address
ICPC_100A	18 AGENCY_FINANCE_CITY	Currently Not Used City Name
ICPC_100A	19 AGENCY_FINANCE_STATE_CODE	Code to identify state of responsible agency
ICPC_100A	20 AGENCY_FINANCE_ZIP	Currently Not Used Zip code
ICPC_100A	21 AGENCY_FINANCE_TELEPHONE	Currently Not Used Phone Number
ICPC_100A	22 COLLATERAL_PERSON_ID	Person identifier of person the client is to be placed with
ICPC_100A	23 COLLATERAL_BEST_CONTACT_TIME	Time of day best to contact collateral
ICPC_100A	24 CARE_TYPE_CODE	Code to identify the type of care (i.e., Foster Family, Group, Relative)
ICPC_100A	25 CARE_TYPE_TEXT	Free form text field to record caretakers relationship to client.
ICPC_100A	26 TO_COMPLETED_IN_STATE_CODE	Currently Not Used.
ICPC_100A	27 LEGAL_STATUS_CODE	Code to determine legal status (i.e., Court Jurisdiction Only, Guardianship.
ICPC_100A	28 INITIAL_REPORT_CODE	Code to determine report category (i.e., Parent Home Study, Foster Home Study)
ICPC_100A	29 SUPERVISORY_SERVICE_CODE	Code to determine how services will be addressed (i.e., Sending Agency to Superv
ICPC_100A	30 SUPERVISORY_REPORT_CODE	Code to determine reporting requirements (i.e., quarterly, Semi-Annually)
ICPC_100A	31 SSN_ENCLOSED_SW	Yes/No indicator that determines if Social History is enclosed with ICPC 100A do
ICPC_100A	32 PLACEMENT_RESOURCE_ENCLOSED_SW	Yes/No indicator that determines if Home Study Placement information is enclosed
ICPC_100A	33 COURT_ORDER_ENCLOSED_SW	Yes/No indicator that determines if Court Order is information is enclosed
ICPC_100A	34 OTHER_ENCLOSURES_SW	Yes/No indicator that determines other information is enclosed in ICPC 100A docu
ICPC_100A	35 LAST_UPDATE_DATE	Date that indicates that last instance this record was updated.
ICPC_100A	36 LAST_UPDATE_ID	User name of person that last updated this record.
ICPC_100A	37 DELETE_SW	Yes/No indicator that determines if this record is considered deleted
ICPC_100A	38 SUBSIDY_SW	Yes/No indicator that determines if there is a subsidy associated with this ICPC
ICPC_100A	39 FAMILY_ID	Family Identifier of client associated with this ICPC
ICPC_100A	40 SUPERVISORY_REPORT	Currently Not Used
ICPC_100B	0	
ICPC_100B	1 ICPC_ID	Identifier to associate ICPC 100B records to ICPC 100A records
ICPC_100B	2 CREATION_DATE	Date records was created.
ICPC_100B	3 WITHDRAW_REQUEST_DATE	Date Placement Request was withdrawn
ICPC_100B	4 PLACEMENT_WITHDRAWAL_SW	Yes/No indicator that determines if placement was withdrawn
ICPC_100B	5 INITIAL_PLACEMENT_TEXT	Records initial placement comments
ICPC_100B	6 PLACEMENT_CHANGE_DATE	Date of placement change
ICPC_100B	7 PLACEMENT_CHANGE_SW	Yes/No indicator that determines that a change of placement has occurred.
ICPC_100B	8 PLACEMENT_CHANGE_TEXT	Records placement change comments
ICPC_100B	9 COLLATERAL_PERSON_ID	
ICPC_100B	10 CARE_TYPE_CODE	Code to determine the type of care (i.e., Adoption, Foster Family Care)
ICPC_100B	11 REASON_CODE	Code to determine reason for ICPC 100B (i.e., Adoption Finalized, Child returned
ICPC_100B	12 DATE_OF_TERMINATION	Date of termination
ICPC_100B	13 ADOPTION_FINALUSE_STATE_CODE	Code to determine the state of an adoption (i.e., Sending State, Receiving State
ICPC_100B	14 LEGAL_CUSTODY_PERSON_ID	Person identifier of person with legal guardianship

Table Name	Field Name	Description
ICPC_100B	15 UNILATERAL_SW	77777?
ICPC_100B	16 OTHER_REASON_TEXT	Records other comment Reasons
ICPC_100B	17 LAST_UPDATE_DATE	Date record was last updated
ICPC_100B	18 LAST_UPDATE_ID	User name of person that last updated record
ICPC_100B	19 DELETE_SW	Yes/No indicator that determines if this records should be considered deleted
ICPC_100B	20 SEQ_NUMBER	Sequence number to further distinguish ICPCB records
ICPC_100B	21 PLACEMENT_RESOURCE_PERSON_ID	Person identifier of person where the client is placed
ICPC_100B	22 FAMILY_ID	Family Identifier for the client associated to ICPC
ICPC_COVER_SHEET	0	
ICPC_COVER_SHEET	1 REFERRAL_ID	Case Identifier that associates referral to ICPC
ICPC_COVER_SHEET	2 REASON_FOR_REQUEST_1_SW	Yes/No indicator that determines if Clark County DFYS is requesting a ICPC Home
ICPC_COVER_SHEET	3 REASON_FOR_REQUEST_2_SW	Yes/No indicator that determines if Clark County DFYS is requesting a ICPC Home
ICPC_COVER_SHEET	4 REASON_FOR_REQUEST_3_SW	Yes/No indicator for a Priority Placement Request
ICPC_COVER_SHEET	5 REPLACEMENT_SOURCE_PERSON_ID	Person Identifier for placement resource
ICPC_COVER_SHEET	6 TIME_TO_CONTACT	Time of Date to contact placement resource
ICPC_COVER_SHEET	7 EMPLOYER_NAME	Placement resource work phone

ICPC_COVER_SHEET	19 OVERALL_COMMENT	Overall family dynamic comments
ICPC_COVER_SHEET	20 MENTAL_HISTORY_TEXT	Mental History comments
ICPC_COVER_SHEET	21 REASON_FOR_DFYS_INVOLVEMENT	Reason for DFYS involvement comments
ICPC_COVER_SHEET	22 PETITION_ATTACHED_SW	Yes/No indicator that notes whether petition is attached
ICPC_COVER_SHEET	23 PRIOR_HISTORY_TEXT	Previous history comments
ICPC_COVER_SHEET	24 SPECIFY_PREV_SERVICE_OFFERED	Previous services offered comments
ICPC_COVER_SHEET	25 PREVIOUS_TREATMENT_TEXT	Prior treatment comments
ICPC_COVER_SHEET	26 SPECIAL_NEEDS_FOR_CHILD	Special needs comments
ICPC_COVER_SHEET	27 SCHOOL_RECORDS_ATTACHED_SW	Yes/No indicator that notes whether school records are attached
ICPC_COVER_SHEET	28 PRIOR_PLACEMENT_TEXT	Previous placement comments
ICPC_COVER_SHEET	29 CASE_PLAN_ATTACHED_SW	Yes/No indicator that notes whether case plan information is attached
ICPC_COVER_SHEET	30 CASE_PLAN_TEXT	Case plan comments
ICPC_COVER_SHEET	31 LAST_UPDATE_DATE	Date record was last updated
ICPC_COVER_SHEET	32 LAST_UPDATE_ID	Username of person that last updated record
ICPC_COVER_SHEET	33 DELETE_SW	Yes/No indicator that determines if record should be considered deleted
ICPC_COVER_SHEET	34 REASON_FOR_REQUEST_DATE	Date of request
ICPC_COVER_SHEET	35 REASON_FOR_REQUEST_TEXT	Reason of placement request comments
ICPC_COVER_SHEET	36 FAMILY_ID	Family Identifier for the clients associated to ICPC
ICPC_COVER_SHEET	37 DATE_PHYSICAL_EXAM	Date for physical examination
ICPC_COVER_SHEET	38 DATE_DENTAL_EXAM	Date for Dental examination
ICPC_COVER_SHEET_DETAIL	0	
ICPC_COVER_SHEET_DETAIL	1 FAMILY_ID	Family Identifier for client associated with ICPC
ICPC_COVER_SHEET_DETAIL	2 PERSON_ID	Person Identifier of client
ICPC_COVER_SHEET_DETAIL	3 PHYSICAL_EXAM_DATE	Date of Physical Examination

Table Name	Field Name	Description
ICPC_COVER_SHEET_DETAIL	4 PHYSICAL_EXAM_COMMENTS	Physical Examination comments
ICPC_COVER_SHEET_DETAIL	5 DENTAL_EXAM_DATE	Date of Dental Examination
ICPC_COVER_SHEET_DETAIL	6 DENTAL_EXAM_COMMENTS	Dental Examination comments
ICPC_COVER_SHEET_DETAIL	7 HOSPITALIZATION_COMMENTS	Hospitalization comments
ICPC_COVER_SHEET_DETAIL	8 PRIOR_COUNSELING_SW	Yes/No indicator that determines if client has received prior counseling
ICPC_COVER_SHEET_DETAIL	9 COUNSELING_AGENCY	Name of Counseling Agency
ICPC_COVER_SHEET_DETAIL	10 PSYCHOLOGICAL_SW	Yes/No indicator that determines if client has received psychological testing.
ICPC_COVER_SHEET_DETAIL	11 JUVENILE_HISTORY_SW	Yes/No indicator that determines if the client has a juvenile justice history.
ICPC_COVER_SHEET_DETAIL	12 JUVENILE_HISTORY_COMMENTS	Juvenile Justice history comments.
ICPC_COVER_SHEET_DETAIL	13 SPECIAL_EDUCATION_SW	Yes/No indicator that determines if the client has received special education so
ICPC_COVER_SHEET_DETAIL	14 SCHOOL_RECORDS_ATTACH_SW	Yes/No indicator that notes if client school records are attached
ICPC_COVER_SHEET_DETAIL	15 PREVIOUS_TREATMENT_COMMENTS	Client previous treatment comments.
ICPC_COVER_SHEET_DETAIL	16 PHYSICAL_CONDITION_COMMENTS	Client physical condition comments.
ICPC_COVER_SHEET_DETAIL	17 PRIOR_PLACEMENT_COMMENTS	Client prior placement comments
ICPC_COVER_SHEET_DETAIL	18 SPECIAL_NEEDS_COMMENTS	Client special needs comments.
ICPC_COVER_SHEET_DETAIL	19 PHYSICAL_DISAB_SW	Yes/No indicator that notes whether the client has a physical disability.
ICPC_COVER_SHEET_DETAIL	20 PHYSICAL_DISAB_COMMENTS	Client physical disability comments.
ICPC_COVER_SHEET_DETAIL	21 EMOTIONAL_DISAB_SW	Yes/No indicator that notes whether the client has a emotional disability.
ICPC_COVER_SHEET_DETAIL	22 EMOTIONAL_DISAB_COMMENTS	Client emotional disability comments
ICPC_COVER_SHEET_DETAIL	23 LEARNING_DISAB_SW	Yes/No indicator that notes whether the client has a learning disability.
ICPC_COVER_SHEET_DETAIL	24 LEARNING_DISAB_COMMENTS	Client disability comments.
ICPC_COVER_SHEET_DETAIL	25 LAST_UPDATE_ID	User name of person that last updated record
ICPC_COVER_SHEET_DETAIL	26 LAST_UPDATE_DATE	Date record was last updated.
ICPC_COVER_SHEET_DETAIL	27 PSYCHOLOGICAL_COMMENTS	Psychological comments.
ICPC_MEDICAL_FINANCE_PLAN	0	
ICPC_MEDICAL_FINANCE_PLAN	1 ICPC_ID	ICPC identifier that associates to a ICPC 100A record.
ICPC_MEDICAL_FINANCE_PLAN	2 PLACEMENT_RESPONSIBILITY_SW	Yes/No indicator that determines if there is a responsibility for placement
ICPC_MEDICAL_FINANCE_PLAN	3 PLACEMENT_1_SW	Yes/No indicator that determines if DFYS maintains a placement responsibility
ICPC_MEDICAL_FINANCE_PLAN	4 PLACEMENT_2_SW	Yes/No indicator that determines if placement responsibilities will be transfer
ICPC_MEDICAL_FINANCE_PLAN	5 PLACEMENT_RESPONSIBILITY_CODE	Text field that records date custody is transferred to DCFs
ICPC_MEDICAL_FINANCE_PLAN	6 PLACEMENT_RESPONSIBILITY_TEXT	Text field that records the name of DCFs caseworker
ICPC_MEDICAL_FINANCE_PLAN	7 MEDICAL_PLAN_SW	Yes/No indicator that notes whether there is a medical plan
ICPC_MEDICAL_FINANCE_PLAN	8 MEDICAL_1_SW	Yes/No indicator that notes that Title IV eligibility has not been determined by
ICPC_MEDICAL_FINANCE_PLAN	9 MEDICAL_2_SW	Yes/No indicator that notes that Title IV eligibility will be determined at the t
ICPC_MEDICAL_FINANCE_PLAN	10 MEDICAL_3_SW	Yes/No indicator that the client has other health insurance coverage.
ICPC_MEDICAL_FINANCE_PLAN	11 MEDICAL_PLAN_CODE	Text field that records the when eligibility will be determined at the time of tr
ICPC_MEDICAL_FINANCE_PLAN	12 MEDICAL_PLAN_TEXT	Records the clients other policy information.
ICPC_MEDICAL_FINANCE_PLAN	13 FINANCIAL_PLAN_1_SW	Yes/No indicator that determines that the placement resource will apply for TANF
ICPC_MEDICAL_FINANCE_PLAN	14 FINANCIAL_PLAN_2_SW	Yes/No indicator that notes whether there is a financial plan.
ICPC_MEDICAL_FINANCE_PLAN	15 FINANCIAL_PLAN_SW	Date record was last updated
ICPC_MEDICAL_FINANCE_PLAN	16 LAST_UPDATE_DATE	User name of person that last updated record
ICPC_MEDICAL_FINANCE_PLAN	17 LAST_UPDATE_ID	Yes/No indicator that determines if record should be considered deleted.
ICPC_MEDICAL_FINANCE_PLAN	18 DELETE_SW	Family Identifier for client associated to this ICPC

INSTITUTIONAL_ABUSE	10 JOB_TITLE	Job title of person related to institutional abuse case
	0	
INTAKE_HISTORY	1 INTAKE_DATE	Date that appointment in Intake is scheduled
	2 INTAKE_TIME	Time of Intake appointment
	3 INTAKE_ID	Unique computer generated # that associates Intake appointment to that arrest.
	4 ARREST_ID	System generated number used to identify a particular arrest
	5 LAST_UPDATE_DATE	Date that appointment was last updated
	6 LAST_UPDATE_ID	Numerical ID of staff who last update screen
	7 REFERRAL_ID	system generated unique number
	8 PERSON_ID_SCHEDULED_BY	Numerical ID of staff who scheduled Intake appointment
INTERVIEW	0	
	1 INVESTIGATION_ID	Number to link interview to investigation record
	2 SEQUENCE_NUM	Number used along with investigation id for key
	3 INTERVIEW_DATE	Date of interview
	4 INTERVIEW_STATUS_CODE	Code that reveals the status of the interview.
	5 CLIENT_ID	Client Identifier
	6 CONTACT_CODE	Code that determines the type of contact (i.e., Face to Face)
	7 INTERVIEWEE_CATEGORY_CODE	Code that determines the category of the client (i.e., Alleged Perpetrator)
	8 LAST_UPDATE_ID	User identifier of individual that last modified this record
	9 LAST_UPDATE_DATE	Date that indicates the last date this record was modified
	10 INTERVIEW_TIME	Time of interview
	11 INTERVIEW_TIME_CODE	Code that relates to the time of the interview
	12 RECEIVE_OR_ASSESS_CODE	Code that determines if interview as conducted during Receive or Assess.
	13 LOCATION_TEXT	Text field to capture interview location information
	14 DOCUMENT_FILE_NAME_TEXT	Text name for related document file
	15 OTHERS_PRESENT_IN_INTERVIEW	Text field that records other individuals present at interview
	16 STAFF_ID	Staff person identifier
	17 MIRANDIZED_SW	Y or N to indicate whether client was mirandized
	18 MIRANDIZED_BY	Field to record the staff that mirandized the client
INTERVIEW_PARTICIPANT	0	
	1 INTRV_PART_ID	System generated number that uniquely identifies
	2 LAST_UPDATE_DATE	

Table Name	Field Name	Description
INTERVIEW_PARTICIPANT	3 LAST_UPDATE_ID	Network system in of last user to add or update record.
INTERVIEW_PARTICIPANT	4 OTHER_CONTACT_NAME	Concatenated full name
INTERVIEW_PARTICIPANT	5 INVESTIGATION_ID	
INTERVIEW_PARTICIPANT	6 INTERVIEW_SEQUENCE_NUM	
INTERVIEW_PARTICIPANT	7 PERSON_ID	
INTERVIEW_TEXT	0	
INTERVIEW_TEXT	1 INVESTIGATION_ID	The Investigation ID. Interview_Sequence_Num and Sequence_Num fields, associate
INTERVIEW_TEXT	2 INTERVIEW_SEQUENCE_NUM	The Investigation ID. Interview_Sequence_Num and Sequence_Num fields, associate
INTERVIEW_TEXT	3 SEQUENCE_NUM	The Sequence Num. Interview_Sequence_Num, and Investigation ID fields, associat
INTERVIEW_TEXT	4 LAST_UPDATE_DATE	Date record was last updated.
INTERVIEW_TEXT	5 LAST_UPDATE_ID	User name of person that last updated record.
INTERVIEW_TEXT	6 INTERVIEW_TEXT_DESCRIPTION	Interview comments.
INTERVIEW_TEXT	7 TEXT_TYPE_CODE	Code that determines text type (i.e., Statement of Subject Minor, Motive)
INVESTIGATION	0	
INVESTIGATION	1 INVESTIGATION_ID	System generated unique investigation record key.
INVESTIGATION	2 FAMILY_ID	Family identifier of clients associated to case. (see also Family Table)
INVESTIGATION	3 STAFF_ID	Person identifier of staff that created investigation record
INVESTIGATION	4 BEGIN_DATE	Date investigation record created
INVESTIGATION	5 LAST_UPDATE_DATE	Date investigation record was last modified investigation record
INVESTIGATION	6 LAST_UPDATE_ID	User login identifier of staff that last modified investigation record
INVESTIGATION	7 REFERRAL_ID	Referral identifier. Populated if investigation relates to a child welfare case
INVESTIGATION	8 ARREST_ID	System generated number used to identify a particular arrest
INVESTIGATION	9 EXTENSION_REQUESTED_SW	
INVESTIGATION	10 EXTENSION_APPROVED_SW	
INVESTIGATION	11 RECOMMENDATION_TEXT	Stores case recommendation text.
INVESTIGATION	12 OVERALL_DISPOSITION_CODE	Picklist that determines overall disposition (i.e., Substantiated, Not Substanti
INVESTIGATION	13 CLOSURE_REASON_CODE	Picklist that determines the reason for closure (i.e., Charges dismissed)
INVESTIGATION	14 DOCUMENT_FILE_NAME_TEXT	
INVESTIGATION	15 ACCEPTED_INVESTIGATION_CODE	
INVESTIGATION	16 RECOMMEND_LINK_TO_FAMILY	
INVESTIGATION	17 PROTECTIVE_SERV_BOOK_SW	
INVESTIGATION	18 APPROVAL_DATE	Date of approval
INVESTIGATION	19 APPROVING_SUPERVISOR_ID	Person identifier of the supervisor that approved
INVESTIGATION	20 CLOSE_DATE	Date investigation closed
INVESTIGATION	21 CLOSE_STAFF_ID	Person identifier number of staff that closed investigation
INVESTIGATION	22 CLOSE_APPROVAL_DATE	Date investigation was approved for closure
INVESTIGATION	23 FINDINGS_TEXT	Describes over all disposition or referral
INVESTIGATION	24 CLOSE_SUPERVISOR_ID	Person identifier number of supervisor that approved closure of investigation
INVESTIGATION	25 RECOMMENDATION_CODE	Picklist that determines case recommendation (i.e Poole, Refer to ICQ)
INVESTIGATION	26 OTHER_AGENCY_NAME	Stores agency names in addition to miscellaneous case information.
INVESTIGATION	27 OVERALL_DISPOSITION_DATE	Date overall disposition entered
INVESTIGATION_EXTENSION	0	
INVESTIGATION_EXTENSION	1 INVESTIGATION_ID	
INVESTIGATION_EXTENSION	2 LAST_UPDATE_DATE	
INVESTIGATION_EXTENSION	3 LAST_UPDATE_ID	
INVESTIGATION_EXTENSION	4 EXTENSION_APPROVED_SW	
INVESTIGATION_EXTENSION	5 DAYS_OF_EXTENSION_NUM	
INVESTIGATION_EXTENSION	6 EXTENSION_REASON_CODE	
INVESTIGATION_EXTENSION	7 REQUEST_DATE	
INVESTIGATION_EXTENSION	8 REQUEST_STAFF_ID	

Table Name	Field Name	Description
INVESTIGATION_EXTENSION	9 APPROVAL_DATE	Date of approval
	10 APPROVING_SUPERVISOR_ID	Person identifier of the supervisor that approved
	11 REFERRAL_ID	
	12 EXTENSION_INFORMATION_TEXT	
INVESTIGATION_TEXT	0	
	1 INVESTIGATION_ID

	7 REPORT_FILED_WITH_ID	
	8 REPORT_RECEIVED_DATE	
	9 REPORT_RECEIVED_FROM_ID	
	10 REFERRAL_AGENCY_ID	
	0	
	1 JJ_FACTOR_ID	FamilyTRACS generated unique JJ Staffing Factor record identifier.
	2 JJ_STAFFING_ID	Links JJ Staffing Factor records to a specific JJ Factor record.
JJ_FACTOR	3 LOGICAL_TABLE_NAME	Category of JJ Staffing Factors (i.e., Staff History, Family Relation)
	4 CODE_ID	Code identifier for specific factor (i.e., Parole, Emotional Abuse, Drug Related)
	5 LAST_UPDATE_DATE	date record was last updated.
	6 LAST_UPDATE_ID	User name of person to last update record
	0	
	1 JJ_STAFFING_ID	FamilyTRACS generated unique Juvenile Justice Staffing identifier
JJ_STAFFING	2 PERSON_ID	Person identifier associated with Juvenile Justice Staffing
	3 ARREST_ID	System generated number used to identify a particular arrest
	4 STAFFING_DATE	Date of Juvenile Justice Staffing
	5 REFERRED_BY	Person identifier of staff initiating Juvenile Justice Staffing
	6 PRIOR_PLACEMENT_CODE	Code that identifies prior placement (i.e., Spring Mountain Youth Camp)
	7 REASON_FOR_RECOMMENDATION	Reason for recommendation comments
	8 PHYSICAL_COMPLETED_SW	Yes/No indicator that determines if client completed a physical
	9 COUNTY_COMMITMENT_SW	Yes/No indicator that determines if placement is a transfer or County Commitment
	10 PAROLE_SW	Yes/No indicator that determines if client is on Parole
	11 DETAINED_SW	Yes/No indicator to determines if the client was detained
JJ_STAFFING	12 RESIDING_WITH	Picklist Code that determines who the client resides with (i.e., Mother, Brother)
	13 CUSTODY_WITH	Picklist Code that determines client custody (i.e., Mother, Brother)
	14 COOPERATION_LEVEL_COMMENTS	Family Cooperation Level comments
	15 MEDICATION_SW	Yes/No indicator to determines if the client is on medication.
	16 PRIOR_PLACEMENT_SW	Yes/No indicator to determines if the client has a prior placement
	17 COMMITTEE_RECOMMENDATION	Committee recommendation comments
	18 LAST_UPDATE_DATE	Date record was last updated
	19 LAST_UPDATE_ID	User name of person that last updated record
	20 PROBATION_SW	Yes/No indicator to determines if the client is on probation

Table Name	Field Name	Description
JJ_STAFFING	21 RECOMMENDATION_CODE	Picklist/code that specifies committee recommendations (i.e., Alternate Living
JJ_STAFFING	22 REPORT_STATUS_CODE	Code that determines if Juvenile Justice report is in Final or Draft form.
JJ_STAFFING	23 PLACED_AT	Comments for where the client will be placed
JJ_STAFFING	24 SCHEDULE_DATE	schedule Date for Juvenile Justice staffing.
JJ_STAFFING	25 PSYCH_COMPLETED_SW	
JJ_STAFFING	26 PSYCH_SCHEDULE_DATE	
JJ_STAFFING	27 FELONY_COUNT	
JJ_STAFFING	28 MISDEMEANOR_COUNT	
JJ_STAFFING	29 DELINQUENT_REFERRALS_COUNT

JOB_INTERVIEW	3 INTERVIEW_DATE	
JOB_INTERVIEW	4 LAST_UPDATE_DATE	
JOB_INTERVIEW	5 LAST_UPDATE_ID	
JOB_INTERVIEW	6 INTERVIEW_LOCATION_CODE	
JSO_CHARGE_DETAIL	0	Associates JJ Charge Detail record to a specific charge record.
JSO_CHARGE_DETAIL	1 CHARGE_ID	Juvenile Sex Offender code types (i.e., Physical Force Involved)
JSO_CHARGE_DETAIL	2 JSO_CHARGE_CODE	Date record was last updated.
JSO_CHARGE_DETAIL	3 LAST_UPDATE_DATE	User name of person to last update record.
JSO_CHARGE_DETAIL	4 LAST_UPDATE_ID	
JSO_VICTIM_DETAIL	0	Associates JSO Victim Detail data to a JSO Victim Information record
JSO_VICTIM_DETAIL	1 VICTIM_ID	Code that determines offenses against victim (i.e., Fendled)
JSO_VICTIM_DETAIL	2 JSO_VICTIM_CODE	Date record was last update.
JSO_VICTIM_DETAIL	3 LAST_UPDATE_DATE	User name of person that last updated record.
JSO_VICTIM_DETAIL	4 LAST_UPDATE_ID	

Table Name	Field Name	Description
JUVENILE_ARREST	0	
JUVENILE_ARREST	1 ARREST_ID	System generated number used to identify a particular arrest
JUVENILE_ARREST	2 EVENT_NUM	
JUVENILE_ARREST	3 PERSON_ID	Person_id number from FamilyTRACS that uniquely identifies this particular juv
JUVENILE_ARREST	4 ARREST_DATE	Date field that indicates the date that the arrest occurred
JUVENILE_ARREST	5 ARRESTING_OFFICER	Text field for name of officer who initiated the arrest
JUVENILE_ARREST	6 ARREST_LOCATION	Text field to describe the location of the arrest;
JUVENILE_ARREST	7 LAST_UPDATE_DATE	
JUVENILE_ARREST	8 LAST_UPDATE_ID	
JUVENILE_ARREST	9 MIRANDA_SWITCH	A Y/N indicator to signify whether or not the juvenile is detained
JUVENILE_ARREST	10 DETAINED_SW	Time field to record the time of the arrest
JUVENILE_ARREST	11 ARREST_TIME	
JUVENILE_ARREST	12 MIRANDIZED_BY	selected from a pick list, the name of the law enforcement agency that performed
JUVENILE_ARREST	13 ARREST_AGENCY	Text field for the name of the officer that actually brought the child to DFYS a
JUVENILE_ARREST	14 TRANSPORT_OFFICER	Person_id of the staff member who did the booking, comes from a pick list of nam
JUVENILE_ARREST	15 BOOKING_OFFICER	Pick list value of the name of the actual agency responsible for bringing the ju
JUVENILE_ARREST	16 TRANSPORT_AGENCY	
JUVENILE_ARREST	17 ARREST_UNIT	a Y/N indicator to signify whether or not the juvenile is eligible to be detain
JUVENILE_ARREST	18 ELIGIBLE_TO_DETAIN_SW	
JUVENILE_ARREST	19 MOST_SERIOUS_CHARGE_CODE	
JUVENILE_ARREST	20 OVERRIDE_DETAIN_SW	
JUVENILE_ARREST	21 OVERRIDE_DESCRIPTION	
JUVENILE_ARREST	22 OVERRIDE_AUTHORIZED_BY	
JUVENILE_ARREST	23 OVERRIDE_DATE	
JUVENILE_ARREST	24 OVERRIDE_TIME	
JUVENILE_ARREST	25 DECLARE_ARREST_ID	The number of the declaration of arrest report that is associated with this arre
JUVENILE_ARREST	26 ARREST_WARRANT_SW	Y/N switch to indicate if an actual arrest warrant was issued by a judge for the arrest
JUVENILE_ARREST	27 ARREST_STATUS_CODE	Number from the code_value table that denotes the arrest case status
JUVENILE_ARREST	28 TOXICOLOGY_REPORT_SW	
JUVENILE_ARREST	29 ARREST_BADGE_ID	Text field for the badge number of the officer who performed the arrest
JUVENILE_ARREST	30 INDIAN_LAND_SW	
JUVENILE_ARREST	31 CRIME_REPORT_SW	
JUVENILE_ARREST	32 OFFENSE_REPORT_SW	
JUVENILE_ARREST	33 ARREST_REPORT_SW

JUVENILE_ARREST	35 INITIAL_RETURN_DATE	
JUVENILE_ARREST	36 INITIAL_RETURN_TIME	
JUVENILE_ARREST	37 ARREST_WARRANT_SERVED_SW	Y/N switch to indicate if the juvenile was arrested on an arrest warrant
JUVENILE_ARREST	38 FAMILY_ID	FamilyTRACS family_id number that this juvenile belongs to
JUVENILE_ARREST	39 ACCEPTANCE_CODE	
JUVENILE_ARREST	40 ACCEPTANCE_DATE	
JUVENILE_ARREST	41 DA_APPROVED_SW	
JUVENILE_ARREST	42 PERSON_ID_ROUTE_OVERRIDE_BY	Y/N switch to indicate whether or not a breathalyzer test was administered
JUVENILE_ARREST	43 BREATHALYZER_SW	Date field for the date that the juvenile was booked into Clark County Juvenile
JUVENILE_ARREST	44 BOOKING_DATE	Time field for the time that the juvenile was booked
JUVENILE_ARREST	45 BOOKING_TIME	Y/N switch to indicate if the juvenile was arrested on a bench warrant
JUVENILE_ARREST	46 BENCH_WARRANT_SERVED_SW	
JUVENILE_ARREST	47 SENSITIVE_SW	
JUVENILE_ARREST	48 RELEASED_SW	
JUVENILE_ARREST	49 DETAIN_RELEASE_DETAIL	Text field to describe the detail of either the detainment or release of the juv
JUVENILE_ARREST	50 TRAFFIC_WARRANT_SW	Check box Y/N if an actual traffic warrant was issued by a judge for the arrest
JUVENILE_ARREST	51 TRAFFIC_WARRANT_DATE	

Table Name	Field Name	Description
JUVENILE_ARREST	52 NEW_DATE	
JUVENILE_ARREST	53 BENCH_WARRANT_SW	Check box Y/N if an actual bench warrant was issued by a judge for the arrest of
JUVENILE_ARREST	54 TRAFFIC_WARRANT_SERVED_SW	Check box Y/N set if juvenile was arrested on a traffic warrant
JUVENILE_ARREST	55 CLOSURE_REASON_TEXT	
JUVENILE_ARREST	56 WARRANT_SERVED_DATE	Date field for the date the warrant was served, defaults to todays date
JUVENILE_ARREST	57 WARRANT_ISSUED_DATE	Date field for the date the warrant was issued, defaults to todays date
JUVENILE_ARREST	58 SPECIAL_WARRANT_INSTRUCTIONS	Text field used to described any special instructions that may be involved with
JUVENILE_ARREST	59 CITATION_NUMBER	Text field to record the citation number associated with this arrest
JUVENILE_ARREST	60 FINGERPRINT_PCN	
JUVENILE_ARREST	61 TRAFF_WARRANT_QUASHED_SW	
JUVENILE_ARREST	62 AYL_WARRANT_QUASHED_SW

MAINTENANCE_LOG	0	
MAINTENANCE_LOG	1 ACTIVITY_CODE	code that determines the type of system clean up (i.e., Family Merge, Person Mler
MAINTENANCE_LOG	2 USER_ID	User identifier of person performing system clean up
MAINTENANCE_LOG	3 TS	Date timestamp of clean up
MAINTENANCE_LOG	4 ID	Depending a the value in the activity code field this field will contain a perso
MAINTENANCE_LOG	5 MERGE_TO	Depending a the value in the activity code field this field will contain a perso
MAINTENANCE_LOG	6 MERGE_FROM	
MEDICAL_EXAM	0	
MEDICAL_EXAM	1 MED_EXAM_ID	FamilyTRACS generated unique Medical Exam record identifier
MEDICAL_EXAM	2 PERSON_ID	Person identifier for the client receiving medical exam
MEDICAL_EXAM	3 METRO_INVOLVED_SW	Yes/no indicator that determines if Police were involved

Table Name

Field Name

MEDICAL_EXAM	4 FOLLOWUP_REQUIRED_SW	Yes/No indicator that determines if medical exam follow up is required
MEDICAL_EXAM	5 HOSPITALIZATION_SW	Yes/No indicator that determines if hospitalization is required
MEDICAL_EXAM	6 LAST_UPDATE_DATE	Date record was last updated
MEDICAL_EXAM	7 LAST_UPDATE_ID	User name of person that last updated record
MEDICAL_EXAM	8 SCHEDULE_TYPE_CODE	Code that determines the schedule type (i.e., Emergency, Schedule)
MEDICAL_EXAM	9 EXAM_DATE	Date of Exam
MEDICAL_EXAM	10 EXAM_RESULT	Code that categorizes the exam results (i.e., Probable Sexual Abuse, Negative, N
MEDICAL_EXAM	11 NEXT_APPOINTMENT_DATE	Date of next appointment
MEDICAL_EXAM	12 EXPECTED_LENGTH_OF_STAY	Expected length of stay comments
MEDICAL_EXAM	13 PERSON_ID_RECORDED_BY	Person identifier of staff that recorded medical exam
MEDICAL_EXAM	14 PERSON_ID_PERFORMED_BY	Person identifier of staff that performed medical exam
MEDICAL_EXAM	15 ARREST_ID	System generated number used to identify a particular arrest
MEDICAL_EXAM	16 REFERRAL_ID	Referral identifier associated to medical exam
MEDICAL_EXAM	17 RESOURCE_ID	Not Used Agency Identifier
MEDICAL_EXAM	18 EXAMINER_TEXT	Examiner comments on medical exam
MEDICAL_EXAM	19 OTHER_PERFORMED_BY	Name of person other than staff performing exam
MEDICAL_EXAM	20 OTHER_FINDINGS_TEXT	Other medical exam findings comments
MEDICAL_EXAM	21 REFERRAL_TYPE_CODE	Code that determines the referral type (i.e., Sexual Abuse, Commitment Physical)
MEDICAL_EXAM	22 AGENCY_TYPE_CODE	Resource/Agency identifier where exam was conducted
MEDICAL_EXAM	23 EXAM_TIME	Time of exam
MEDICAL_EXAM	24 NEXT_APPOINTMENT_TIME	Next exam appointment time
MEDICAL_EXAM	25 EXAM_VIDEO_SW	Yes/No indicator that determines if there is video associated with exam
MEDICAL_EXAM_TEST	0	
MEDICAL_EXAM_TEST	1 MED_EXAM_ID	Associates Medical Exam Test records to specific Medical Exam record
MEDICAL_EXAM_TEST	2 TEST_TYPE_CODE	Code that determines the type of medical exam test (i.e., Bone Scan, EEG)
MEDICAL_EXAM_TEST	3 PERFORMANCE_DATE	Record creation date
MEDICAL_EXAM_TEST	4 LAST_UPDATE_DATE	Date record was last updated
MEDICAL_EXAM_TEST	5 LAST_UPDATE_ID	User name of person to last update record
MEDICAL_EXAM_TEST	6 TEST_RESULT_CODE	
MEDICAL_EXAM_TEST	7 RESULT_DATE	
MEDICAL_EXAM_TEST	8 TEST_RESULT_TEXT	
MESSAGE	0	
MESSAGE	1 MESSAGE_ID	FamilyTRACS generated unique Message record identifier

Description

fracs generated person id number of the client that an observation was complete
fracs generated number that is associated to each observation
fracs generated number identifying each row of observations that were entered to date that an observation text was last updated
text field to enter observation information

THIS TABLE IS RELATED TO CLIENTS THAT HAVE BEEN PLACED

A unique identifier for each client being placed (see Person id on Person table)
Order that client was entered into the database.
Fracs code identifying the name of a building/facility

A check box to be checked if this substance to Placement is requested by another
Fracs generated ID number assigned to each building
The room number of a child or youth in Placement (Placement tab)
Under Placement: Living Arrangement, the start date for the placement of a youth
Under Placement: Living Arrangement, the end date for the placement of a youth
This text field allows for brief details of the Courtesy Hold to be recorded.
RONS IDEA>>>

Under Placement: Living Arrangement, the start time for the placement of a youth
Under Placement: Living Arrangement, the end time for the placement of a youth
System generated number used to identify a particular arrest
Referral id that a placement was made in
Used to id Detention Awareness Teams each client is assigned to.
System generated number. Along with Client id, has occupant records with client
A client or collateral to whom a child or youth in Placement is released to. (P)
id of User who created the living arrangement (same as Novell log in id)
Date of creation of Occupant record

table to store allegations associated with a particular affiant
Fracs generated number assigned to a specific allegation
referral id
Drop down list to select abuse/neglect categories
Drop down list for abuse/neglect type (dependent upon the abuser/neglect category)
Date of reported allegation
time of allegation
location of allegation
event number
date record was last updated - trigger entered
id of last person updating record - trigger entered
sequence number matching declaration of arrest number
declare arrest id matching declaration of arrest arrest id
whether case is dfys abuse - default is N
whether case is institutional abuse - default is N

Table Name	Field Name	Description
OFF_AFFIDAVIT_CHARGE	0	table to store charges associated with a particular affidavit
OFF_AFFIDAVIT_CHARGE	1 CHARGE_ID	charge id
OFF_AFFIDAVIT_CHARGE	2 ARREST_ID	System generated number used to identify a particular arrest

Table Name	Field Name	Description
PERSON	15 CITIZEN_STATUS_CODE	pick list indicating the persons citizenship
PERSON	16 WEIGHT_OZ_NUM	weight of person in family by ounces
PERSON	17 WEIGHT_POUND_NUM	weight of person in family by pounds
PERSON	18 SECONDARY_ETHNICITY_CODE	
PERSON	19 PRIMARY_TRIBAL_CODE	pick list of Indian tribe
PERSON	20 BIRTH_STATE_CODE	State in which person born
PERSON	21 LAST_UPDATE_DATE	
PERSON	22 LAST_UPDATE_ID	
PERSON	23 CREATION_DATE	date person created in system
PERSON	24 SENSITIVE_INFO_PAPER_FILE	yn switch
PERSON	25 GENDER_CODE	pick list to enter client gender
PERSON	26 NEED_INTERPRETER_SWITCH	yn switch in Hearing tab indicating a person needs an interpreter and what lang
PERSON	27 US_CITIZEN_SWITCH	pick list indicating individual is a US citizenship
PERSON	28 MERGE_CLIENT_SWITCH	yn switch indicating client merge
PERSON	29 SSN_NUM	Social Security #
PERSON	30 BIRTH_DATE	Date of Birth in the Client tab
PERSON	31 PRIMARY_ETHNICITY_CODE	pick list of race of person
PERSON	32 EYE_COLOR_CODE	
PERSON	33 CURRENT_HEIGHT_TEXT	pick list on persons height
PERSON	34 BIRTH_CITY_NAME	text field indicating City a person was born
PERSON	35 BIRTH_HOSPITAL_NAME	text field indicating the hospital, City and State person born
PERSON	36 HAIR_COLOR_CODE	pick list to select client color of hair
PERSON	37 BIRTH_DATE_VERIFIED_SW	text field indicng that the DOB has been verified with documentation
PERSON	38 APPROXIMATE_AGE_NUM_YR	text field to enter approx. years of age on client tab
PERSON	39 APPROXIMATE_AGE_NUM_MM	
PERSON	40 APPROXIMATE_AGE_TEXT	
PERSON	41 HISPANIC_ORIGIN_CODE	pick list to select whether person is of Hispanic origin
PERSON	42 PRIMARY_LANGUAGE_CODE	pick list of main language of person
PERSON	43 CURRENT_LIVING_ARRANGEMENT	pick list where person is living
PERSON	44 SECONDARY_TRIBAL_CODE	drop down list
PERSON	45 TRIBAL_VERIFICATION_DATE	text field for ICWA
PERSON	46 TRIBAL_VERIFICATION_METHOD	verification by Indian Tribe card
PERSON	47 RELIGION_CODE	a drop down to indicate religious preference
PERSON	48 AGE_ADOPTED_CODE	yn switch indicating in Details and Demographics what age client was adopted
PERSON	49 PRIOR_ADOPTION_SW	yn switch of age adoption occurred
PERSON	50 COMMENT_TEXT	text field about specifics of a person
PERSON	51 PUBLIC_ASSISTANCE_SW	a yn switch to indicate public assistance
PERSON	52 SOURCEINDEX_FIRST_NAME	system generated code when searching for first name
PERSON	53 FINGERPRINT_ON_FILE_SW	yn switch on whether Fingers prints taken on person
PERSON	54 PHOTO_ON_FILE_SW	Bruce A. will do this
PERSON	55 ARREST_WARRANT_SW	yn switch identifying if Arrest Warrant issued
PERSON	56 BENCH_WARRANT_SW	yn switch identifying if Arrest Warrant issued
PERSON	57 PROBATION_SW	yn switch set by system
PERSON	58 JUVI_FAMILY	customer or system generated 5 digit code identifying a family in old JUVI syste
PERSON	59 JUVI_SUFFIX	numbers added in old JuvI system identifying name suffix
PERSON	60 FINGERPRINT_SENT_STATE_SW	yn switch on wheither Fingers prints sent
PERSON	61 SENSITIVE_CASE_SW	yn switch to indicate case sensitive
PERSON	62 DEATH_VERIFICATION_METHOD	pick list how death was verified
PERSON	63 BIRTH_COUNTRY_NAME	text field indicating Country were Person was born
PERSON	64 ADULT_CONVICTION_SW	yn switch identifying information showing Convicted as an Adult
PERSON	65 ADULT_ARREST_SW	yn switch identifying information showing Booked as an Adult
PERSON	66 TRAFFIC_WARRANT_SW	Switch indicating a Traffic Warrant issued for an individual
PERSON	67 DECEASED_SW	yn switch to check if person is deceased

PROSPECTIVE_RESOURCE_CHILD	7 SPECIFIC_CHILD_LAST_NAME	
PROSPECTIVE_RESOURCE_CHILD	8 RELATION_TO_CHILD	
QUESTIONNAIRE	0	Unique FamilyTRACS generated questionnaire identifier
QUESTIONNAIRE	1 QUESTIONNAIRE_ID	Person identifier of client related to questionnaire
QUESTIONNAIRE	2 PERSON_ID	Sequential number per client questionnaire
QUESTIONNAIRE	3 SEQUENCE_NUM	Staff identifier of employee conducting review.
QUESTIONNAIRE	4 STAFF_ID	Date of review
QUESTIONNAIRE	5 REVIEW_DATE	User name of person that last updated record.
QUESTIONNAIRE	6 LAST_UPDATE_ID	Date record was last updated
QUESTIONNAIRE	7 LAST_UPDATE_DATE	
RAL_STATSSVIEW	0	
RAL_STATSSVIEW	1 PERSON_ID	
RAL_STATSSVIEW	2 ARREST_ID	
RAL_STATSSVIEW	3 START_DATE	System generated number used to identify a particular arrest
RAL_STATSSVIEW	4 GENDER	
RAL_STATSSVIEW	5 RACE	
RAL_STATSSVIEW	6 MAKEUP	
RAL_STATSSVIEW	7 NATURAL_PARENT	
RAL_STATSSVIEW	8 INCOME_GRP	
RAL_STATSSVIEW	9 INCOME	
RAL_STATSSVIEW	10 AGE	
RAL_STATSSVIEW	11 SERIOUS	
RAL_STATSSVIEW	12 OVERRIDE	
RAL_STATSSVIEW	13 ZIP	
RAL_STATSSVIEW	14 MAX_CHARGE	
REFERRAL	0	System generated unique identifier key for each referral record
REFERRAL	1 REFERRAL_ID	Date referral was created
REFERRAL	2 REFERRAL_DATE	Records the Time this referral was created
REFERRAL	3 REFERRAL_TIME	
REFERRAL	4 REFERRAL_TYPE_CODE	Contains a code that describes how referral was received (i.e., Telephone, Fax)
REFERRAL	5 RECEIVED_TYPE_CODE	Y/N indicator that determines if incident occurred on indian land
REFERRAL	6 INDIAN_LAND_SW	Y/N security indicator that determines if referral is considered sensitive
REFERRAL	7 SENSITIVE_INFORMATION_SW	Y/N indicator that determines if abuse occurred at an DFYS institution
REFERRAL	8 PUBLIC_HEALTH_NURSE_SW	Y/N indicator that determines if incident is an institutional abuse case
REFERRAL	9 DFYS_INSTITUTIONAL_SW	Y/N indicator that determines if the police have been contacted
REFERRAL	10 INSTITUTIONAL_ABUSE_SW	Y/N indicator that determines if case will display from a search
REFERRAL	11 CROSS_REPORT_REQUIRED_SW	Y/N indicator that determines if adult law enforcement linked to case
REFERRAL	12 POLICE_NOTIFIED_SWITCH	Y/N indicator that determines if adult police records were received
REFERRAL	13 SEARCH_SW	Date referral record last updated
REFERRAL	14 ZIP_CODE_VERIFIED_SW	User login id or staff that last updated record
REFERRAL	15 ADULT_RECORD_SW	Code to determine processing stage of case Use Referral Status table instead
REFERRAL	16 ADULT_RECORD_RECEIVED_SW	
REFERRAL	17 LAST_UPDATE_DATE	
REFERRAL	18 LAST_UPDATE_ID	
REFERRAL	19 REFERRAL_STATUS_CODE	
REFERRAL	20 ACCEPT_REFERRAL_CATEGORY_CODE	
REFERRAL	21 FAMILY_NAME	Initial family last name Family Table captures law along with changes to name
REFERRAL	22 ZONE_CODE	
REFERRAL	23 INCIDENT_COUNTY_CODE	

Table Name

Field Name

REFERRAL	Field Name	Description
REFERRAL	24 SCREENER_ID	Staff user login identifier that screened out referral case
REFERRAL	25 PRIORITY_RESPONSE_CODE	Picklist that determines response urgency (i.e., Emergency, 3 days)
REFERRAL	26 SOUNDEX_CODE	SounDEX code for family name held on referral. SounDEX is used in searches
REFERRAL	27 ACCEPT_REFERRAL_SW	Y/N indicator that determines if case was accepted
REFERRAL	28 FAMILY_ID	Numeric identifier for the family linked with referral
REFERRAL	29 INVESTIGATION_CATEGORY_CODE	
REFERRAL	30 INVESTIGATION_SPECIFIC_CODE	
REFERRAL	31 OVERRIDE_WORKER_ID	Person identifier of staff
REFERRAL	32 SENSITIVE_INFORMATION_CODE	Contains person identifier of staff
REFERRAL	33 REQUESTOR_STAFF_ID	Date Request
REFERRAL	34 REQUEST_DATE	Date Supervisor approved hotline case (i.e., assessment)
REFERRAL	35 SUPERVISOR_APPROVAL_DATE	Person identifier of the supervisor that approved
REFERRAL	36 APPROVING_SUPERVISOR_ID	
REFERRAL	37 RECOMMENDED_LINK_FAMILY_REFERR	Date case accepted for assessment or screened out
REFERRAL	38 DISPOSITION_ABUSE_NEGLECT_CODE	Y/N indicator that determines if referral case was screened out (denied)
REFERRAL	39 DISPOSITION_DAYS_TB_INITIATED	Picklist that describes why referral was screened out. Basically not used only 4
REFERRAL	40 DISPOSITION_DATE	Picklist that describes why case was screened out (i.e., insufficient information)
REFERRAL	41 SCREEN_OUT_REFERRAL_SW	Override date of case
REFERRAL	42 SCREEN_OUT_REFERRAL_CODE	Numeric Unit identifier link of the staff that recorded referral
REFERRAL	43 SCREEN_OUT_REASON_CODE	Retrieval date for case
REFERRAL	44 OVERRIDE_DATE	Captures case override text
REFERRAL	45 UNIT_ID	Y/N indicator that determines if client is on police hold
REFERRAL	46 RETRIEVAL_DATE	Y/N indicator for temporary protective custody pending placement.
REFERRAL	47 OVERRIDE_COMMENT_TEXT	Person identifier of staff that received case (see also Person table)
REFERRAL	48 POLICE_HOLD_SW	Y/N indicator to determine if supervisor review conducted.
REFERRAL	49 COURTESY_HOLD_SW	Numeric identifier to officer information on declaration of arrest table
REFERRAL	50 PERSON_ID_RECEIVED_BY	Y/N indicator that determines if case has been referred to District Attorney
REFERRAL	51 SUPERVISOR_REVIEW_SW	Y/N security indicator that determines if case is considered confidential
REFERRAL	52 DECLARE_ARREST_ID	Law Enforcement Number
REFERRAL	53 DA_APPROVED_SW	Y/N indicator that determines Child Welfare Input
REFERRAL	54 CONFIDENTIAL_SW	Temporary Assistance of Needed Families form processing date
REFERRAL	55 EVENT_NUM	
REFERRAL	56 CHILD_WELFARE_INPUT_SW	
REFERRAL	57 TANF_DATE	
REFERRAL	58 TANF_INPUT_SW	
REFERRAL	59 REF_INSTITUTE_SW	
REFERRAL	60 SEARCH_KEY	
REFERRAL_CLIENT	0	
REFERRAL_CLIENT	1 REFERRAL_ID	System generated number that uniquely identifies a referral
REFERRAL_CLIENT	2 CLIENT_ID	Contains the id for the client
REFERRAL_CLIENT	3 LAST_UPDATE_DATE	
REFERRAL_CLIENT	4 LAST_UPDATE_ID	Network system id of last user to add or update record.
REFERRAL_CLIENT	5 CHILD_SW	Yes/No Switch, determines if the client is a child.
REFERRAL_CLIENT	6 PREVIOUS_HOSPITALIZED_SW	Yes/No Switch, determines if the client was in the hospital
REFERRAL_CLIENT	7 HOME_DURING_DAY_SW	Yes/No Switch, determines if the client is home during the day
REFERRAL_CLIENT	8 OCCUPATION_START_DATE	Date that the client started their job.
REFERRAL_CLIENT	9 NEED_MEDICAL_ATTENTION_SW	Yes/No Switch, determines if the client needed medical attention at check in
REFERRAL_CLIENT	10 RECEIVED_MEDICAL_ATTENTION_SW	Yes/No Switch
REFERRAL_CLIENT	11 IN_HOUSEHOLD_SW	Yes/No Switch, determines if the client resides at the main family address.
REFERRAL_CLIENT	12 MERGE_CLIENT_SW	Yes/No Switch
REFERRAL_CLIENT	13 PRIMARY_ETHNICITY_CODE	Code value
REFERRAL_CLIENT	14 SECONDARY_ETHNICITY_CODE	Code value

LVRJ826

Table Name	Field Name	Description
REFERRAL_CLIENT_AKA	12 OTHER_SSN_NUM	not used - unable to identify not used - unable to identify use previous soundex definition. use previous soundex definition.
	13 OTHER_BIRTH_DATE	
	14 SOUNDEX_LAST_NAME	
	15 SOUNDEX_FIRST_NAME	
	0	
REFERRAL_CLIENT_DRUG_RESULT	1 REFERRAL_ID	unique case number reference a referral case.
	2 CLIENT_ID	unique number identifying the person the test was performed on.
	3 SEQUENCE_NUM	A sequence in case more than one test was performed on the same client contains a picklist code relating the name of the drug being tested for
	4 DRUG_CODE	contains a picklist code relating the result of the drug test
	5 RESULT_CODE	Contains the date the drug test was done
	6 RESULT_DATE	date that the record was last updated
	7 LAST_UPDATE_DATE	id of the staff member that last updated the record
	8 LAST_UPDATE_ID	The description of the drug being tested for
	9 DRUG_DESCRIPTION	
	0	
REFERRAL_CLIENT_DRUG_TEST	1 REFERRAL_ID	Associates client drug test to referral
	2 CLIENT_ID	Client identifier of person receiving drug test.
	3 SEQUENCE_NUM	Sequence number per client drug test associate to a referral
	4 DRUG_CODE	
	5 COURT_ORDERED_SW	Yes/No indicator that determines if drug test was court ordered
	6 TOXICOLOGY_REPORT_SW	Yes/No indicator that determines if toxicology report has been received
	7 DRUG_TEST_DATE	Drug test date
	8 LAST_UPDATE_ID	User name of person that last updated record.
	9 LAST_UPDATE_DATE	Date record was last updated
	10 ADMINISTERING_AGENCY	Drop down list code that determines the agency that administered drug test
	11 OTHER_AGENCY	Text field for other agency information.
	12 RESULT_CODE	
	13 RESULT_DATE	
	14 TEST_COST	
	15 DRUG_DESCRIPTION	Comments for drug description.
	16 TEST_DESCRIPTION	
REFERRAL_CLIENT_HOSPITAL	0

REFERRAL_COMMENT_TRACKING	5 LAST_UPDATE_ID	
REFERRAL_COMMENT_TRACKING	6 REFERRAL_COMMENT_TEXT	
REFERRAL_HEARING	0	
REFERRAL_HEARING	1 LAST_UPDATE_DATE	Date a record was last updated
REFERRAL_HEARING	2 LAST_UPDATE_ID	User id of staff person that last updated record.
REFERRAL_HEARING	3 REFERRAL_ID	Referral identifier number that links record to referral case.
REFERRAL_HEARING	4 HEARING_ID	Hearing identifier number that links record to court hearing.
REFERRAL_HEARING	5 RESULT_CODE	Not Used
REFERRAL_HEARING	6 RESULT_DATE	Date of Hearing Result
REFERRAL_NARRATIVE_QUESTIONS	0	
REFERRAL_NARRATIVE_QUESTIONS	1 QUESTION_ID	FamilyTRACS generated unique question identifier for referral narrative questions
REFERRAL_NARRATIVE_QUESTIONS	2 QUESTION_TEXT	Question text
REFERRAL_NARRATIVE_QUESTIONS	3 LAST_UPDATE_DATE	Date record was last updated
REFERRAL_NARRATIVE_QUESTIONS	4 LAST_UPDATE_ID	User name of employee that last updated the record
REFERRAL_NARRATIVE_QUESTIONS	5 QUESTION_TYPE_CODE	Code that identifies the question type (i.e., Assess, Receive)
REFERRAL_NARRATIVE_QUESTIONS	6 QUESTION_CATEGORY_CODE	Code that determines the category of the question (i.e., Domestic Violence, Negl
REFERRAL_NARRATIVE_QUESTIONS	7 SORT_COL_NUM	Sort order of question per question category.
REFERRAL_ROLLBACK	0	
REFERRAL_ROLLBACK	1 REFERRAL_ID	
REFERRAL_ROLLBACK	2 SEQUENCE_NUM	
REFERRAL_ROLLBACK	3 APPROVED_BY_ID	Familytracs person id number of the supervisor that approved
REFERRAL_ROLLBACK	4 LAST_UPDATE_DATE	
REFERRAL_ROLLBACK	5 LAST_UPDATE_ID	
REFERRAL_ROLLBACK	6 APPROVING_SUPERVISOR_ID	
REFERRAL_ROLLBACK	7 ROLLBACK_CODE	Person identifier of the supervisor that approved
REFERRAL_STATUS	0

REF_FINDINGSVIEW	18 ALLEGATION_ID	Firas generated number assigned to a specific allegation
RELEASE	0	
RELEASE	1 RELEASE_ID	system generated ID for referral/arrest
RELEASE	2 REQUESTED_DT	text field to enter time of entry of release Request
RELEASE	3 REQUESTED_TIME	system generated ID for person requesting release
RELEASE	4 REQUESTED_BY_ID	yn switch whether release is permanent
RELEASE	5 PERMANENT_RELEASE_SW	yn switch indicating local law enforcement have a hold interest on the person
RELEASE	6 POLICE_HOLD_SW	text field indicating time when person released will return
RELEASE	7 RETURN_TIME	yn switch indicated the desire to release a person
RELEASE	8 REQUESTED_RELEASE_SW	text field indicating date when person released will return
RELEASE	9 RETURN_DATE	System generated number used to identify a particular arrest
RELEASE	10 ARREST_ID	system generated Referral ID
RELEASE	11 REFERRAL_ID	text field indicating who the person is being released to
RELEASE	12 RELEASE_TO_WHOM_TEXT	drop down of relationship of person individual is being released to
RELEASE	13 RELATION_SHIP	text field of address of person being released
RELEASE	14 ADDRESS	text field of time release was approved
RELEASE	15 APPROVAL_TIME	text field of time of request of release
RELEASE	16 APPROVAL_ENTERED_TIME	ID of person that is being released to
RELEASE	17 PERSON_TO_APPROVE_ID	system generated code for release of person
RELEASE	18 APPROVAL_CODE	ID of person
RELEASE	19 PERSON_APPROVED_BY_ID	Date of approval
RELEASE	20 APPROVAL_DATE	system generated code for person approving release
RELEASE	21 APPROVAL_ENTERED_BY_ID	text field of request date of release
RELEASE	22 APPROVAL_ENTERED_DATE	
RELEASE	23 LAST_UPDATE_ID	
RELEASE	24 LAST_UPDATE_DATE	
RELEASE_PERSON	0	

Table Name	Field Name	Description
RELEASE_PERSON	1 RELEASE_ID	Identifier that associates release person records to a specific release
	2 PERSON_ID	Person identifier on individual released
	3 LAST_UPDATE_ID	User name of person that last updated record.
	4 LAST_UPDATE_DATE	Date record was last updated
REPORT_AVAILABLE	0	
	1 REPORT_CONTEXT_CODE	
	2 REPORT_TITLE_CODE	
	3 REPORT_CODE	
	4 LAST_UPDATE_ID	
	5 LAST_UPDATE_DATE	
	6 REPORT_FORM_NUM	
REPORT_AVAILABLE	7 REPORT_REVISION_TYPE	
	0	
	1 ID	Unique identifier for a generated report.
	2 SEQ_NUM	Sequence number for report text
	3 TEXT	Report Text
	4 NUM01	
REPORTER	0	Associates reporter referral identifier to a specific referral.
	1 REFERRAL_ID	User name of person that last updated record
	2 LAST_UPDATE_ID	Date record was last updated
	3 LAST_UPDATE_DATE	Yes/No indicator that determines if the reporter will be considered anonymous
	4 ANONYMOUS_SW	Picklist code that determines the reporter type (i.e., Doctor, Bus Driver, Carer)
	5 REPORTER_TYPE_CODE	
	6 CHILD_NEEDS_MEDICAL_ATTENTION_	
	7 ANYONE_ELSE_KNOWS_SW	Yes/No indicator that determines if anyone else is aware of incident.
	8 WILLING_TO_TESTIFY_SW	Yes/No indicator that determines if reporter is willing to testify.
	9 PREFIX_NAME	Prefix for reporters name
	10 FIRST_NAME	First name of reporter
	11 MIDDLE_NAME	Middle name of reporter
	12 LAST_NAME	Last name of reporter
	13 SUFFIX_NAME	Suffix of reporter name
	14 REPORTER_CATEGORY_CODE	Picklist code that determines the category of the reporter (i.e., Parent, Social
	15 REPR_CHILD_NEEDS_MEDICAL_ATTTE	
	16 RELATION_TEXT	Comments to record the reports relationship to a referral client
	17 KNOWN_FAMILY_TEXT	Comments to record if the reporter knows the family.
	18 PERSON_ID	
	19 AGENCY_NAME	Name of associated agency
RESOURCE_CENTER_SERVICE_XREF	0	Resource Center to Service Cross Reference
	1 CENTER_SERVICE_XREF_ID	Service Center Xref table primary key
	2 RESOURCE_PROGRAM_ID	Resource Programs primary key
	3 RESOURCE_PROFILE_CODE	Resource Profile code
	4 SERVICE_CENTER_ID	Resource_Service_Center primary key
	5 CREATE_BY_ID	Network id of person creating the record
	6 CREATE_DATE	Date record was created
	7 LAST_UPDATE_DATE	Last date record was updated
	8 LAST_UPDATE_ID	Network id of person last updating the record
RESOURCE_CENTER_SERVICE_XREF	9 INACTIVE_SW	
	0	
RESOURCE_CONTACT_PERSON		

Table Name	Field Name	Description
RESOURCE_CONTACT_PERSON	1 RSRC_CNCTCT_ID	Family/TRACS generated unique resource contact identifier.
	2 RESOURCE_ID	Associates resource contacts to a specific resource or agency.
	3 LAST_UPDATE_DATE	Date record was last upated
	4 LAST_UPDATE_ID	User name of person that last updated record
	5 PREFIX_NAME	Prefix part of resource contact name
	6 PERSON_ID_RECORDED_BY	Person identifier of employee that recorded a resource contact record.
	7 FIRST_NAME	First name of resource contact
	8 MIDDLE_NAME	Middle name of resource contact
	9 LAST_NAME	Last name of resource contact
	10 SUFFIX_NAME	Suffix part of resource contact name
	11 START_DATE	Start date resource contact is considered active.
	12 END_DATE	End date resource contact is considered in-active.
	13 CONTACT_TYPE_CODE	Picklist/code that determines the type of contact (i.e., Directory, Liaison, Con

SAFETY_ASSESSMENT	0	
	1 SAFETY_ASSESSMENT_ID	Unique id that ties the safety assessment to specific referral/arrest
	2 SAFETY_TYPE_CODE	
	3 CREATION_DATE	Date when assessment was originally created
	4 LAST_UPDATE_DATE	Date of last update to family assessment
	5 LAST_UPDATE_ID	Id of person doing last update
	6 ARREST_ID	System generated number used to identify a particular arrest
SAFETY_ASSESSMENT	7 PERSON_ID	Id of the person for whom the Safety assessment was created
	8 PERSON_ID_RATED_BY	Person who did the safety assessment
	9 COMMENTS_TEXT	Text box for comments not covered in assessment fields
	10 REFERRAL_ID	Unique id that ties the safety assessment to specific referral/arrest
	11 STAGE_CODE	Showing whether marked draft or final
	12 VERSION_NUMBER	
	13 OVERRIDE_TOTAL	
SAFETY_CRITERIA	0	
	1 SAFETY_ASSESSMENT_ID	Unique identifier for each assessment done
	2 QUESTION_ID	Id that designates the question in the assessment
	3 LAST_UPDATE_DATE	Date of last update
	4 LAST_UPDATE_ID	Id of Family TRACS user who did last update
SAFETY_CRITERIA	5 CRITERIA_RATING	Final rating based on assessment completed
	0

SAFETY_CRITERIA_QUESTION	1 QUESTION_ID	Associates safety criteria questions to a specific safety criteria
	2 SAFETY_CATEGORY_ID	Associates safety criteria questions to a specific safety category
	3 QUESTION_DESCRIPTION	Safety cate
	4 SORT_ORDER_NUM	Question text
	5 LAST_UPDATE_DATE	Sort order for questions per category
	6 LAST_UPDATE_ID	Date record was last updated
	7 POINT_VALUE	User name of person that last updated record
	8 START_DATE	Point value associated with question
	9 END_DATE	Start date that question would be considered active
	10 QUESTION_ABBREVIATION	Date that question would be considered in-active
SAFETY_CRITERIA_TEST	0	Comment that records an abbreviation for a question (i.e. , GR for Gun Related)

Table Name	Field Name	Description
SAFETY_CRITERIA_TEST	1 SAFETY_ASSESSMENT_ID	FamilyTRACS generated unique safety assessment identifier for safety criteria test
	2 QUESTION_ID	Associates question identifier to safety criteria questions
	3 LAST_UPDATE_DATE	Date record was last updated
	4 LAST_UPDATE_ID	User name of person that last updated record
	5 CRITERIA_RATING	Numerical safety criteria rating
SAFETY_QUESTION_CATEGORY	0	
	1 SAFETY_CATEGORY_ID	FamilyTRACS generated unique safety category identifier for safety question category
	2 SAFETY_TYPE_CODE	Code that determines a safety assessment type (i.e., Spring Mountain Youth Camp)
	3 MULTIPLE_ANSWER_SW	Yes/no indicator that determines if multiple answers are accepted
	4 LAST_UPDATE_DATE	Date record was last updated
	5 LAST_UPDATE_ID	User name of person that last updated record
	6 START_DATE	Date that safety question category record is considered active
	7 END_DATE	Date that safety question category record is considered in-active
	8 CATEGORY_DESCRIPTION	Safety category description or narrative
	9 MAXIMUM_POINT	Maximum point associated with safety category
SAS_ARREST_REPORT	10 DUMMY_SCORE	
	0	
	1 SAS_REPORT_ID	Tracs generated number assigned to each sas report that is entered in Tracs
	2 ARREST_ID	System generated number used to identify a particular arrest
SAS_ARREST_REPORT	3 LAST_UPDATE_ID	Tracs user id name of dlys staff that last update a sas report
	4 LAST_UPDATE_DATE	Date that a sas report was last updated
SAS_REPORT	0	
	1 SAS_REPORT_ID	Tracs generated number assigned to each sas report that is entered in Tracs
	2 PERSON_ID	Tracs generated person id number of the offender that the sas report was created
	3 CREATION_DATE	Date that a sas report was first created in Tracs
	4 STAFF_ID	Tracs generated person id number of the dlys staff that created a sas report
	5 FINAL_SW	Yes/no switch indicating if a sas report has been saved as final
	6 LAST_UPDATE_ID	Tracs user id name of dlys staff that last update a sas report
SAS_REPORT	7 LAST_UPDATE_DATE	Date that a sas report was last updated

SMYC_PAY_PERIOD	9 SMYC_NOTIFIED	
SMYC_PAY_PERIOD	10 SMYC_NOTIFIED_DATE	
SMYC_PAY_PERIOD	11 SMYC_NOTIFIER	

Table Name

Field Name

Description

SMYC_PAYMENT_HISTORY	0		
SMYC_PAYMENT_HISTORY	1 PERSON_ID		The number of days a client worked in a SMYC work program in a given pay period
SMYC_PAYMENT_HISTORY	2 CLI_SEQUENCE_NUM		Fracs code identifying the name of a building facility
SMYC_PAYMENT_HISTORY	3 PAY_PERIOD_ID		The amount of payment a client is to actually receive
SMYC_PAYMENT_HISTORY	4 WORK_AREA_PAY_ID		An indicated that determines if a client payment statement was printed
SMYC_PAYMENT_HISTORY	5 DAYS_WORKED		An indicated that determines if Restitution was still owed at the time of payroll
SMYC_PAYMENT_HISTORY	6 BUILDING_CODE		Identifier of staff that created record
SMYC_PAYMENT_HISTORY	7 NET_PAYMENT		Date record was created
SMYC_PAYMENT_HISTORY	8 STATEMENT_PRINTED		Identifier of staff that last modified record
SMYC_PAYMENT_HISTORY	9 RESTITUTION_OWED		Date record was last modified
SMYC_PAYMENT_HISTORY	10 CREATED_BY_ID		
SMYC_PAYMENT_HISTORY	11 CREATED_BY_DATE		
SMYC_PAYMENT_HISTORY	12 LAST_UPDATE_ID		
SMYC_PAYMENT_HISTORY	13 LAST_UPDATE_DATE		
SMYC_RELEASE_RECOMMENDATION	0		
SMYC_RELEASE_RECOMMENDATION	1 RECOMMENDATION_ID		FamilyTRACS generated unique recommendation identifier for Spring Mountain Release
SMYC_RELEASE_RECOMMENDATION	2 CLIENT_ID		Client identifier for person to which the SMYC release recommendation pertains.
SMYC_RELEASE_RECOMMENDATION	3 SEQUENCE_NUM		Sequence number that differentiates between SMYC Recommendation reports for a c
SMYC_RELEASE_RECOMMENDATION	4 STAFF_ID		Staff identifier of employee that creates report
SMYC_RELEASE_RECOMMENDATION	5 DATE_OF_REPORT		Date of smyc release recommendation report
SMYC_RELEASE_RECOMMENDATION	6 RECEIVING_SCHOOL_CODE		
SMYC_RELEASE_RECOMMENDATION	7 GRADE_CODE		
SMYC_RELEASE_RECOMMENDATION	8 CREDITS_AT_RELEASE		School education credits
SMYC_RELEASE_RECOMMENDATION	9 RECOMMENDED_RELEASE_DATE		Date to capture recommended SMYC release date
SMYC_RELEASE_RECOMMENDATION	10 BEHAVIOR_POST_TEST_SCORE		Records behavior post test score comments
SMYC_RELEASE_RECOMMENDATION	11 SKILL_POST_TEST_SCORE		Records skills post test score comments
SMYC_RELEASE_RECOMMENDATION	12 THERAPEUTIC_COMMENT		SMYC therapeutic comments
SMYC_RELEASE_RECOMMENDATION	13 BEHAVIOR_GOALS_TEXT		SMYC behavior goal comments
SMYC_RELEASE_RECOMMENDATION	14 EDUCATION_GOALS_TEXT		SMYC educational goal comments
SMYC_RELEASE_RECOMMENDATION	15 PSYCHOLOGICAL_GOALS_TEXT		SMYC psychological goal comments
SMYC_RELEASE_RECOMMENDATION	16 FIML_GOALS_TEXT		Family goal comments
SMYC_RELEASE_RECOMMENDATION	17 WORK_GOALS_TEXT		Client work goals comments
SMYC_RELEASE_RECOMMENDATION	18 ATHLETIC_GOALS_TEXT		Client athletic goal comments
SMYC_RELEASE_RECOMMENDATION	19 RECOMMENDATION_TO_PAROLE		SMYC recommendation to parole comments
SMYC_RELEASE_RECOMMENDATION	20 SUMMARY		SMYC release recommendation summary comments
SMYC_RELEASE_RECOMMENDATION	21 PROGRAM_CHANGE_SW		Yes/No indicated that determines program changes.
SMYC_RELEASE_RECOMMENDATION	22 LAST_UPDATE_ID		User name of person that last updated record
SMYC_RELEASE_RECOMMENDATION	23 LAST_UPDATE_DATE		Date record was last updated
SMYC_RELEASE_RECOMMENDATION	24 EDUCATION_PLACEMENT_CODE		Code to determine special education placement needs (i.e., Learning Disability).
SMYC_WORK_AREA_PAY	0		
SMYC_WORK_AREA_PAY	1 CODE_ID		Unique identifier that assists in identifying work area rate records
SMYC_WORK_AREA_PAY	2 WORK_AREA_PAY_ID		Rate of pay. Pay is considered to be by the day.
SMYC_WORK_AREA_PAY	3 PAY_RATE		Date that work area rate is considered active. Must not overlap end date.
SMYC_WORK_AREA_PAY	4 START_DATE		Date that work area rate is considered inactive. Must not overlap start date.
SMYC_WORK_AREA_PAY	5 END_DATE		Identifier of staff that created record
SMYC_WORK_AREA_PAY	6 CREATED_BY_ID		Date record was created
SMYC_WORK_AREA_PAY	7 CREATED_BY_DATE		Identifier of staff that last updated record
SMYC_WORK_AREA_PAY	8 LAST_UPDATE_ID		Date record was last updated.
SMYC_WORK_AREA_PAY	9 LAST_UPDATE_DATE

SURVEY_TABLE_TYPE	0	FamilyTRAC generated unique survey identifier.
SURVEY_TABLE_TYPE	1 SURVEY_ID	Survey type code
SURVEY_TABLE_TYPE	2 SURVEY_TYPE	Unit identifier associated to survey
SURVEY_TABLE_TYPE	3 UNIT_ID	Date survey comments submitted
SURVEY_TABLE_TYPE	4 SUBMIT_DATE	User identifier of person that last updated record
SURVEY_TABLE_TYPE	5 LAST_UPDATE_ID	Date records last updated
SURVEY_TABLE_TYPE	6 LAST_UPDATE_DATE	Survey comments
SURVEY_TABLE_TYPE	7 COMMENTS	
SURVEY_TABLE_VALUE	0	Links Survey Table Value records to specific Survey Table Types records
SURVEY_TABLE_VALUE	1 SURVEY_ID	Question number that is grouped by a survey identifier
SURVEY_TABLE_VALUE	2 QUESTION_NUMBER	Option number that is related to survey question number
SURVEY_TABLE_VALUE	3 OPTION_NUMBER	User identifier of person that last updated record
SURVEY_TABLE_VALUE	4 LAST_UPDATE_ID	Date record was last modified
SURVEY_TABLE_VALUE	5 LAST_UPDATE_DATE	
TAB_MENU	0	Unique FamilyTRACS menu record identifier for tab_menu records.
TAB_MENU	1 MENU_ID	Actual full name of a window menu (tab) name
TAB_MENU	2 MENU_NAME	Code that determines/groups window names by process area (i.e., Resource Directo
TAB_MENU	3 WINDOW_CODE	Short Name that is displayed on a window/tab
TAB_MENU	4 DISPLAY_NAME	
TAB_MENU	5 CHECK_BITMAP	
TAB_MENU	6 SELECT_SW	
TAB_MENU	7 WINDOW_NAME	The PowerBuilder object name for a specific window.
TAB_MENU	8 DISABLE_SW	Disable switch that determines if a window/tab should be displayed.

Table Name	Field Name	Description
TAB_MENU	9 SORT_ORDER	A number that determines the sort order for which window/tabs are displayed with
TAB_MENU	10 RETRIEVE_SW	Determines if data on screen is automatically displayed
TAB_MENU	11 LAST_UPDATE_DATE	Date record was last updated
TAB_MENU	12 LAST_UPDATE_ID	User identifier of person that last updated record
TAB_MENU	13 VISIBLE_SW	Visibility switch that determines if window/tab is viewable
TAB_MENU	14 RESTRICTED_SW	Restricted switch that determines which users can view a specific window/tab (i.
TARGET_AREA	0	
TARGET_AREA	1 TARGET_ID	Unique FamilyTRACS generated target identifier for target area records.
TARGET_AREA	2 TARGET_CODE	Target code/nomenclat that identifies target areas (i.e. Accepting Critisms, Ang
TARGET_AREA	3 ASS_SYS_ID	Associates target area records to a specific Child Haven assessment system
TARGET_AREA	4 STAFF_ID	Staff identifier responsible for creating target area record
TARGET_AREA	5 START_DATE	Start date for Target Area
TARGET_AREA	6 LAST_UPDATE_ID	User identifier of person that last updated record
TARGET_AREA	7 LAST_UPDATE_DATE	Date record was last updated
TARGET_AREA	8 END_DATE	End date for Target Area
TARGET_AREA	9 OTHER_TEXT	
TEAM	0	
TEAM	1 TEAM_ID	FamilyTRACS generated unique team record identifier
TEAM	2 BUILDING_ID	Fracs generated ID number assigned to each building
TEAM	3 TEAM_START_DATE	Start date at which a team is considered active
TEAM	4 LAST_UPDATE_DATE	Date record was last updated
TEAM	5 LAST_UPDATE_ID	User identifier of person that last updated record
TEAM	6 TEAM_END_DATE	End date at which a team is considered in-active
TEAM	7 TEAM_DESCRIPTION	Comments on the purpose or that describe a Team
TEAM	8 TEAM_NAME	Team Name
TEAM_MEMBER	0	
TEAM_MEMBER	1 TEAM_ID	Team Identifier that associates team member records to a specific team record
TEAM_MEMBER	2 PERSON_ID	Person identifier that associates a person (staff) to a team
TEAM_MEMBER	3 START_DATE	Start date that determines when an employee/staff is considered active on a team
TEAM_MEMBER	4 LAST_UPDATE_DATE	Date records last updated
TEAM_MEMBER	5 LAST_UPDATE_ID	User identifier of person that last updated record
TEAM_MEMBER	6 END_DATE	End date that determines when an employee is no-longer active on a team
TEMPORARY_REPORT	0	
TEMPORARY_REPORT	1 ID	
TEMPORARY_REPORT	2 NUM01	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	3 NUM02	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	4 NUM03	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	5 NUM04	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	6 NUM05	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	7 NUM06	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	8 NUM07	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	9 NUM08	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	10 NUM09	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	11 NUM10	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT	12 TEXT01	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT	13 TEXT02	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT	14 TEXT03	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT	15 TEXT04	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT	16 TEXT05	Stores a text value based on the report type determined by the report identifier

Table Name	Field Name	Description
TEMPORARY_REPORT_TEMP	13 NUM12	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	14 NUM13	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	15 NUM14	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	16 NUM15	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	17 NUM16	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	18 NUM17	Stores a numeric report total based on the report type determined by the report
TEMPORARY_REPORT_TEMP	19 NUM18	Stores a numeric report total based on the report type determined by the report

TEMPORARY_REPORT_TEMP	44 TEXT08	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT_TEMP	45 TEXT09	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT_TEMP	46 TEXT10	Stores a text value based on the report type determined by the report identifier
TEMPORARY_REPORT_TEMP	0	
TEMPORARY_REPORT_TEMP	1 ID	Management Report Identifier
TEMPORARY_REPORT_TEMP	2 REPORT_NAME	Name of Management Report
TEMPORARY_REPORT_TEMP	3 START_DATE	Start Date of when report was generated.
TEMPORARY_REPORT_TEMP	4 END_DATE	End Date of when report generation was completed.
TEMPORARY_REPORT_TEMP	5 START_TS	Start Time of when report was generated
TEMPORARY_REPORT_TEMP	6 END_TS	End Time of when report generation completed
TEMPORARY_REPORT_TEMP	7 LAST_UPDATE_ID	User identifier of person that last updated record
TEMPORARY_REPORT_TEMP	0	
TEMPORARY_REPORT_TEMP	1 TERMINATION_EVALUATE_ID	FamilyTRACS generated unique termination evaluation identifier for termination ev
TEMPORATION_EVALUATE	2 DELIVER_ID	Delivery identifier that associates termination evaluation records to a specific De
TEMPORATION_EVALUATE	3 TYPE_CODE	Type code determines if termination evaluation is related to a Probation or SMCY
TEMPORATION_EVALUATE	4 HOME_INVOLVEMENT_CODE	Code that determines the level of home involvement (i.e., SSM was generally code
TEMPORATION_EVALUATE	5 PEERS_INVOLVEMENT_CODE	Code that determines client involvement in peer groups (i.e., SSM has made past
TEMPORATION_EVALUATE	6 HOME_PEERS_TEXT	Comments related to home and peer involvement
TEMPORATION_EVALUATE	7 PARENTAL_INVOLVEMENT_CODE	
TEMPORATION_EVALUATE	8 PARENTAL_INVOLVEMENT_TEXT	Comments related to parental involvement

Table Name	Field Name	Description
TERMINATION_EVALUATE	9 LAST_UPDATE_ID	User identifier of person that last updated record.
TERMINATION_EVALUATE	10 LAST_UPDATE_DATE	Date records last updated
TERMINATION_EVALUATE	11 PERSON_ID	Person identifier of the client that termination evaluation relates to.
TERMINATION_EVALUATE	12 FINAL_SW	
TERMINATION_EVALUATE_FACT	0	
TERMINATION_EVALUATE_FACT	1 TERMINATION_EVALUATE_ID	Termination evaluate identifier associates termination evaluate fact records to a
TERMINATION_EVALUATE_FACT	2 FACT_TYPE_CODE	Code that determines if an termination evaluation fact relates to a Summary/Eval
TERMINATION_EVALUATE_FACT	3 FACT_CODE	
TERMINATION_EVALUATE_FACT	4 LAST_UPDATE_ID	User identifier of person that last updated record.
TERMINATION_EVALUATE_FACT	5 LAST_UPDATE_DATE	Date records last updated
TERMS_REPORT	0	
TERMS_REPORT	1 TERM_RPT_ID	FamilyTRACS generated unique identifier for terms report records.
TERMS_REPORT	2 PERSON_ID	Person identifier that terms report relates too.
TERMS_REPORT	3 REPORT_STATUS_CODE	Code that determines whether a terms report is considered Final or Draft
TERMS_REPORT	4 CREATION_DATE	Date when terms report was created.
TERMS_REPORT	5 REPORT_TYPE_CODE	Code that determines the type of a terms report (i.e. SMYC Parole Agreement, Ter
TERMS_REPORT	6 DELETE_SW	Yes/No switch that indicates if the terms report record should be considered del
TERMS_REPORT	7 LAST_UPDATE_ID	User identifier of person that last updated record.
TERMS_REPORT	8 LAST_UPDATE_DATE	Date records last updated
TERMS_REPORT	9 CREATED_BY	Person identifier of staff that created terms report record.
TICKLER	0	
TICKLER	1 TICKLER_ID	FamilyTRACS generated unique tickler record identifier.
TICKLER	2 SOURCE_CODE	Code that determines the origin of a tickler record (i.e. Worker, Case)
TICKLER	3 TICKLER_CODE	Code that determines the type of a tickler (i.e. Assessment Initiation).
TICKLER	4 DUE_DATE	Due date for ticklers.
TICKLER	5 LAST_UPDATE_ID	User identifier of person that last updated record.
TICKLER	6 LAST_UPDATE_DATE	Date records last updated
TICKLER	7 FAMILY_OR_REFERRAL_ID	Associates tickler to either a family or referral record.
TICKLER	8 CLIENT_ID	Client identifier for which the tickler relates to
TICKLER	9 OTHER_ENTITIES_ID	Tickler comments
TICKLER	10 DESCRIPTION_TEXT	Person identifier of person that owns/generated tickler.
TICKLER	11 PERSON_ID_OWNED_BY	Determines the stage in the case where the tickler was generate
TICKLER	12 ENTITY_FOR_CODE	
TRACS_ERROR_MESSAGE	0	
TRACS_ERROR_MESSAGE	1 ERROR_ID	Processing error number identifier.
TRACS_ERROR_MESSAGE	2 OBJECT_NAME	Name of Object that generated error number identifier.
TRACS_ERROR_MESSAGE	3 OBJECT_TYPE	Object type (i.e. function, package or trigger) that generated error number ide
TRACS_ERROR_MESSAGE	4 CREATED_BY	Name of person running process when error number identifier was generated.
TRAFFIC_DETAIL	0	
TRAFFIC_DETAIL	1 CHARGE_ID	Associates traffic details with a specific charge record
TRAFFIC_DETAIL	2 ACCIDENT_SW	Yes/No indicator that determines if an accident is related to incident
TRAFFIC_DETAIL	3 VEHICLE_TYPE_CODE	Code which determines the type of vehicle involved (i.e. Automobile, Moped, Mot
TRAFFIC_DETAIL	4 ACTUAL_SPEED	Number of the actual speed of the vehicle
TRAFFIC_DETAIL	5 POSTED_SPEED	Number for the posted speed limit.
TRAFFIC_DETAIL	6 SPEED_TRACK_CODE	Code which determines the name of the speed tracking device (i.e., Radar, VASCaR
TRAFFIC_DETAIL	7 LAST_UPDATE_DATE	Date records last updated
TRAFFIC_DETAIL	8 LAST_UPDATE_ID	User identifier of person that last updated record

Table Name	Field Name	Description
TREAT_PLAN_CL_SERVICE	0	Person Identifier for individual associated to treatment plan services
TREAT_PLAN_CL_SERVICE	1 PERSON_ID	Sequence number counter that distinguishes between the services received by a cl
TREAT_PLAN_CL_SERVICE	2 SEQUENCE_NUM	Code with determines the type of services received (i.e., Community Service, CaS
TREAT_PLAN_CL_SERVICE	3 SERVICE_CODE	Date that Wardship started
TREAT_PLAN_CL_SERVICE	4 WARDSHIP_START_DATE	Date that Wardship ended
TREAT_PLAN_CL_SERVICE	5 WARDSHIP_END_DATE	Service Start Date
TREAT_PLAN_CL_SERVICE	6 START_DATE	Service End Date
TREAT_PLAN_CL_SERVICE	7 END_DATE	System generated number used to identify a particular arrest
TREAT_PLAN_CL_SERVICE	8 ARREST_ID	Associates Treat Plan Client Service record to a specific Referral Identifier
TREAT_PLAN_CL_SERVICE	9 REFERRAL_ID	
TREATMENT_PLAN	0	Associates Treatment Plan to a specific Family through a family Identifier
TREATMENT_PLAN	1 FAMILY_ID	Family/TPACS generated unique identifier for treatment plan records.
TREATMENT_PLAN	2 TREATMENT_PLAN_ID	Date treatment plan was created
TREATMENT_PLAN	3 PLAN_CREATION_DATE	Code that categorizes a court decision in relation to a treatment plan
TREATMENT_PLAN	4 COURT_DECISION_CATEGORY	Estimated completion date of treatment plan
TREATMENT_PLAN	5 ESTIMATED_PLAN_COMPLETION_DATE	Yes/No indicator that determines if a fair notice was submitted
TREATMENT_PLAN	6 FAIR_HEARING_NOTICE_SUBMITTED	User identifier of person that last updated record
TREATMENT_PLAN	7 LAST_UPDATE_ID	Date records last updated
TREATMENT_PLAN	8 LAST_UPDATE_DATE	Request date of treatment plan
TREATMENT_PLAN	9 REQUEST_DATE	Person identifier number for the requestor of the treatment plan
TREATMENT_PLAN	10 REQUESTOR_ID	Date of approval
TREATMENT_PLAN	11 APPROVAL_DATE	Person identifier of the supervisor that approved
TREATMENT_PLAN	12 APPROVING_SUPERVISOR_ID	Treatment Plan comments
TREATMENT_PLAN	13 COMMENT_TEXT	
TREATMENT_PLAN	14 WORD_DOC_TEXT	
TREATMENT_PLAN	15 DFYS_SERVICE_TEXT	
TREATMENT_PLAN	16 NEXT_HEARING_DATE	
TREATMENT_PLAN	17 CONSEQUENCE_TEXT	
TREATMENT_PLAN	18 REVIEWED_WITH_FAMILY_SW	Year/No indicator that determines if treatment plan was review with family
TREATMENT_PLAN	19 FAMILY_REVIEW_DATE	Date that treatment plan was reviewed with family
TREATMENT_PLAN	20 REFERRAL_ID	Associates treatment plan to a specific referral
TREATMENT_PLAN	21 ARREST_ID	System generated number used to identify a particular arrest
TREATMENT_PLAN_CL_SERVICE	0	
TREATMENT_PLAN_CL_SERVICE	1 TRTCL_NEED_ID	
TREATMENT_PLAN_CL_SERVICE	2 SEQUENCE_NUM

TREATMENT_PLAN_CL_SERVICE	7 LAST_UPDATE_ID	
TREATMENT_PLAN_CL_SERVICE	8 COURT_ORDERED_SW	
TREATMENT_PLAN_CL_SERVICE	9 ATTENDANCE_CODE	Code that indicates the status of attendance
TREATMENT_PLAN_CL_SERVICE	10 PARTICIPATION_CODE	
TREATMENT_PLAN_CL_SERVICE	11 PROGRESS_NOTES_TEXT	
TREATMENT_PLAN_CL_SERVICE	12 CHARGE_ID	
TREATMENT_PLAN_CL_SERVICE	13 RESOURCE_ID	
TREATMENT_PLAN_CLIENT	0	Treatment Plan Identifier that associates treatment plan client records to specif
TREATMENT_PLAN_CLIENT	1 TREATMENT_PLAN_ID	Person Identifier for an individual that is specified on a treatment plan
TREATMENT_PLAN_CLIENT	2 PERSON_ID	Date records last updated
TREATMENT_PLAN_CLIENT	3 LAST_UPDATE_DATE	

Table Name	Field Name	Description
UNIT	1 UNIT_ID	contains a unique value for each record
	2 UNIT_GROUP_CODE	this appears to use the code table to show the unit.
	3 CENTER_ID	contains the id for the center the unit is assigned to
	4 LAST_UPDATE_ID	Staff ID of last person to update arrest
	5 LAST_UPDATE_DATE	Date of last up-date
	6 CURRENT_SUPERVISOR_ID	contains the id for the current supervisor of the unit
	7 INACTIVE_SW	Y/N switch, determines if the unit is active
	8 UNIT_NAME	Contains the name of the unit
	9 WORKLOAD_TYPE_CODE	this determines what workload screen the unit appears on.

Database Schema

- About Database Schema, on page 1
- Data Model Diagram, on page 2
- Unified Customer Voice Portal Reporting Data Model, on page 5
- Cisco Unified Customer Voice Portal Database Tables, on page 8
- Call Tables, on page 9
- VXML Tables, on page 14
- Summary / Aggregate Tables, on page 24
- Lookup and Reference Tables, on page 32
- Courtesy CallBack Tables, on page 43

About Database Schema

The Cisco Unified Customer Voice Portal (Unified CVP) reporting server hosts an IBM Informix Dynamic Server (IDS) database, which stores reporting data in a defined database schema. Customers who choose to deploy Cisco Unified Intelligence Center (Unified Intelligence Center) as their reporting platform must add the Informix database as a data source in Unified Intelligence Center.

The schema is fully published so that customers can develop custom reports. Customers may not, however, extend the schema for their own purposes.

The schema provides Unified CVP customers with the ability to:

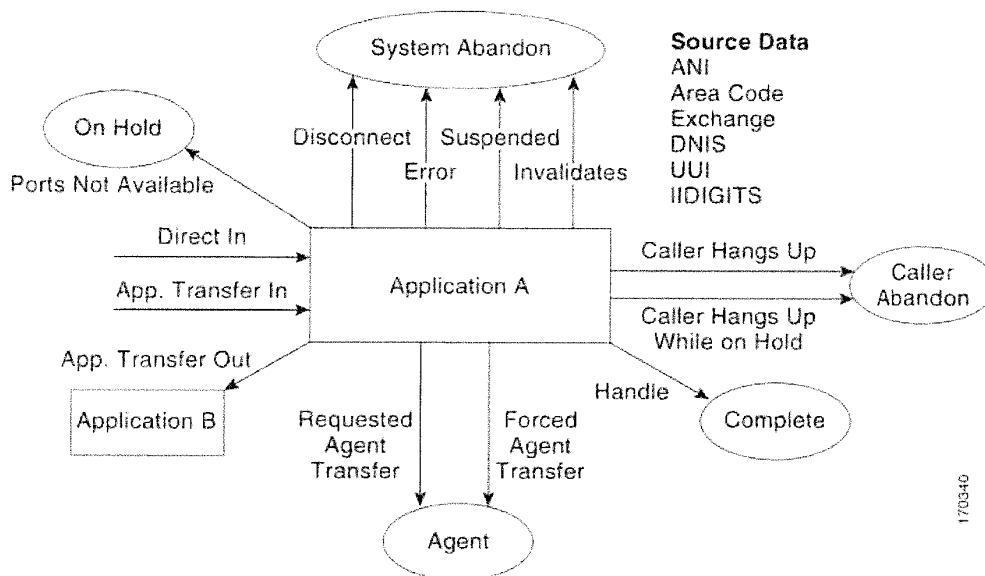

- Establish database connectivity with Unified Intelligence Center and to import and run the Unified CVP templates with Unified Intelligence Center.
- Establish database connectivity with other commercial off-the-shelf reporting and analytics engines and then build custom reports against the Unified CVP database schema.

Note Your support provider cannot assist you with custom reports or with commercial (non-Cisco) reporting products.

The following diagram indicates a common set of incoming and outgoing entry and exit states for a call to a self-service application.

Figure 1: Call Flow

Note When basic video is transferred to an audio-only agent, the call remains classified as basic video accepted.

Data Model Diagram

The following entity-relationship diagrams depict the Unified CVP database schema.

Figure 2: Call Tables

Figure 3: Callback Tables

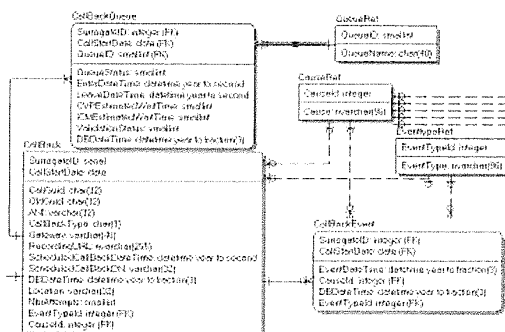

Figure 4: Summary Tables

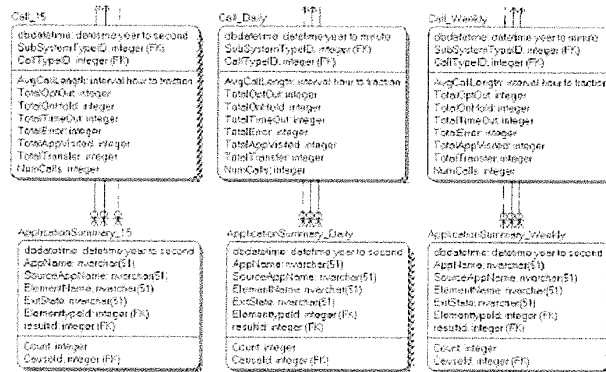

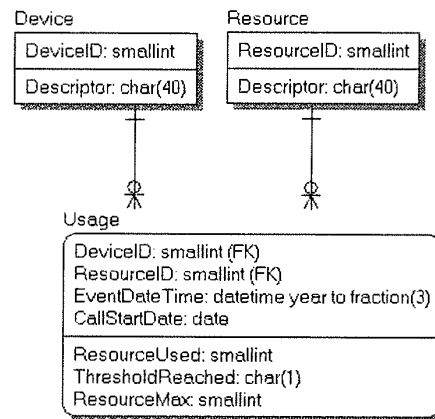

Figure 5: Trunk Group Utilization Tables

Keys

The documentation for the reporting schema lists fields as PK, FK, A, or No.

Fields are designated in this document as Primary Key (PK), Foreign Key (FK), or Alternate Key (AK) for informational purposes only. For performance reasons, the schema does not enforce Primary, Foreign, or Alternate keys. When the Index column for a field shows FK or AK, it means that a field can be looked up to return a text explanation of the code in another table.

Primary and Alternate Keys are in fact supported by an index. Major Foreign Keys (CallGUID, SessionID, ElementID) have a supporting index. Foreign Keys which refer to lookup tables are not supported by an index.

Unified Customer Voice Portal Reporting Data Model

The following section provides information on the following topics:

- **DateTime Columns**, on page 5
- **Informix Dates and Times**, on page 5
- **SIP Calls**, on page 7
- **Trunk Utilization**, on page 8

DateTime Columns

Most major tables have three columns to assist in managing the reporting server itself.

- **CallStartDate** - This column is used for partitioning and purging data.

This is the date and time the call started and is meant to ensure that detail data, which may cross a date boundary, are tied to the original call and can all be stored and removed together.

- **EventDateTime** - This is the date and time that the recorded event transpired. This is recorded in UTC time.

The Call Table table has two EventDateTime fields, recorded as *StartDateTime* and *EndDateTime*.

- **DBDateTime** - This is the date and time that the recorded event was written to the database. It is meant to contrast with the EventDateTime. A marked difference between these values indicates a delay in the data arriving at the reporting server. This delay should either be allowed for or investigated.

Informix Dates and Times

The Informix engine that hosts the Unified CVP reporting database supports three concepts of time:

- Dates
- DateTimes
- Intervals

Dates

A date (for example CallStartDate) has no time element to it. It is specified between single quotes as 'MM/DD/YYYY'.

```
SELECT count(*)
FROM Call
WHERE CallStartDate='05/31/2012';
```

This date format can be modified to suit the locale with the DBDATE environment variable: in this case DBDATE=MDY4/, or Month/Day/Year(4) with a forward slash separator. These can be arranged in any order (DMY4-, or DMY2/ or Y4MD/) by modifying the DBDate enumeration variable.

Date also supports: key words such as 'TODAY' and date arithmetic.

For example, this returns a count of calls received yesterday:

```
SELECT count(*)
  FROM Call
 WHERE CallStartDate=Today-1;
```

Functions such as YEAR(), MONTH() and WEEKDAY().

```
SELECT count(*)
  From Call
 WHERE WEEKDAY(CallStartDate)=1
```

Note Days of the week are numbered from 0 through 6 where 0 is Sunday and 6 is Saturday.

DateTimes

DateTimes include a time component and use the ANSI standard: 'YYYY-MM-DD HH:MM:SS.FFF' where FFF are fractions of seconds. For example, this returns a count of calls received in a given 48 hours:

```
SELECT count(*)
  FROM Call
 WHERE Call.StartDateTime between '2009-05-01 00:00:00' AND '2009-05-3
    23:59:59';
```

These support the same YEAR(), MONTH() and WEEKDAY() functions as the Date datatype. The Current date and time is specified as 'CURRENT YEAR TO SECOND' and also supports date arithmetic.

```
SELECT count(*)
  FROM Call
 WHERE Call.StartDateTime > CURRENT YEAR TO SECOND - 2 UNITS DAY;
```

Unified CVP DateTimes are all recorded as UTC time, with the exception of *dbdatetime* which is recorded as a local time. *Localtimezoneoffset* is a column in the Call table that contains the number of minutes offset from UTC to derive the Local Time. This can be used as an interval. (In the example below, *localtimezoneoffset* is -240 minutes).

```
select first 10 enddatetime, enddatetime + localtimezoneoffset units
minute as LocalTime from call;
```

enddatetime	localtime
2010-02-09 15:03:54.453	2010-02-09 11:03:54.453
2010-02-09 15:03:54.453	2010-02-09 11:03:54.453
2010-02-09 15:03:54.469	2010-02-09 11:03:54.469
2010-02-09 15:01:23.125	2010-02-09 11:01:23.125
2010-02-09 15:03:54.469	2010-02-09 11:03:54.469
2010-02-09 15:01:23.141	2010-02-09 11:01:23.141
2010-02-09 15:03:54.500	2010-02-09 11:03:54.500
2010-02-09 15:01:23.156	2010-02-09 11:01:23.156
2010-02-09 15:01:23.156	2010-02-09 11:01:23.156

```
2010-02-09 15:01:23.156 2010-02-09 11:01:23.156
```

An aggregation function `lastperiod(datetime, Period)` is supported. *Period* can be: 15, 30, 60, DD, WW, or MM. This will convert the datetime into the date and time at which the current period started. Hence:

`Lastperiod(2009-10-14 12:46:56, 15)` returns *2009-10-14 12:45:00*

`Lastperiod(2009-10-14 12:46:56, 30)` returns *2009-10-14 12:30:00*

`Lastperiod(2009-10-14 12:46:56, 60)` returns *2009-10-14 12:00:00*

`Lastperiod(2009-10-14 12:46:56, DD)` returns *2009-10-14 00:00:00*

`Lastperiod(2009-10-14 12:46:56, WW)` returns *2009-10-11 00:00:00 (Sunday)*

`Lastperiod(2009-10-14 12:46:56, MM)` returns *2009-10-1 00:00:00 (1st day of the month)*

Intervals

An Interval is a span of time and can be specified as *n UNITS period* where *period* can be:

- YEAR
- MONTH
- DAY
- HOUR
- MINUTE
- SECOND

A database query with an interval must be sent in the preceding format. When returned from the database, the interval will look like a datetime (YYYY-MM-DD HH:MM:SS.FFF). The components that are returned depend on the interval definition. It is unlikely that a DAY component will be returned from Unified CVP intervals; instead, expect a format like HH:MM:SS.FFF.

For a full discussion of Informix, refer to the Informix Guide to SQL: Reference Manual.

SIP Calls

SIP calls are recorded in the Call Table along with VXML calls.

They can be distinguished from VXML calls with the CallTypeID column. (Contains "4". Refer to the CallTypeRef Table, on page 33, where 4 is a SIP call.)

Events for these calls (such as start and end) are recorded in the CallEvent Table.

Sample Query and SIP Calls

Details for a SIP call could be retrieved using the following query:

```
SELECT Call.*, CallEvent.*
FROM Call, CallEvent
WHERE Call.CallGUID=CallEvent.CallGuid
AND Call.CallGuid='CallGuid';
```

where CallGuid is replaced by the value of the CallGuid for which information is desired.

Trunk Utilization

Trunk utilization is a record of state messages from various devices linked to the reporting server and their current status. The frequency in which these messages are written is controlled by the IOS Gateway (Gateway Utilization). This data captures a point-in-time over time. It is laid out in a fact table (Usage Table) with three dimensions - Resource, Device, and Time.

Because time is not likely to be consistent across all devices, the Usage table has not been codified as an official dimension table, but rather as a date and time. Queries for usage should aggregate from this table.

Sample Queries, Trunk Utilization

Query for average CPU across all devices for the month of May:

```
SELECT avg(ResourceUsed)
FROM Usage, Resource
WHERE Resource.ResourceID=Usage.ResourceID
AND Resource= 'CPU'
AND Usage.EventDateTime between '2009-05-01 00:00:00' AND '2009-05-31
23:59:59';
```

Note that BETWEEN is inclusive. This query can also be written as:

```
AND Usage.EventDateTime >= '2009-05-01 00:00:00' AND Usage.EventDateTime <=
'2009-05-31
23:59:59';
```

Query for a list of devices and a count of the number of times they exceeded a threshold during the month of May:

```
SELECT Device, Resource, count(*)
FROM Device, Resource, Usage
WHERE Resource.ResourceID=Usage.ResourceID
AND Device.DeviceID=Usage.DeviceID
AND Usage.ThresholdReached= 'Y'
AND month(Usage.EventDateTime) = 5
GROUP BY Device, Resource;
```

Note the use of the Month() function in *AND month (Usage.EventDateTime) = 5*.

Cisco Unified Customer Voice Portal Database Tables

This section lists the Unified CVP tables that hold reporting data.

Tables are categorized as follows:

- Call Tables, on page 9
- VXML Tables, on page 14
- Summary / Aggregate Tables, on page 24

- Lookup and Reference Tables, on page 32
- Courtesy CallBack Tables, on page 43

Call Tables

The following Call tables are described in this section:

- Call Table
- CallEvent Table
- CallICMInfo Table

Call Table

This table is the primary record of a call and contains the basic metrics for each call. It contains one record per call.

Any drill into a specific call should start here to obtain the proper CallGUID.

On occasion, messages are dropped, even for an otherwise successful call. In such cases, EndDateTime is set to the same value as StartDateTime. Thus, if a call appears to be of 0 duration, report writers will know to exclude such a call from consideration in cases where it would otherwise skew metrics.

Table 1: Call Table

Field	Type	Null	Index	Description
CallGUID	char(32) for new installations char(35) for upgrades	No	PK (Composite CallGUID, CallStartDate)	The global unique id of a call.
CallStartDate	date	No	PK (Composite CallGUID, CallStartDate)	The date of the call, for data purging purposes.
StartDateTime	datetime YEAR to FRACTION(3)	No	Yes	EventDateTime for the date and time a call was made.
EndDateTime	datetime YEAR to FRACTION(3)	Yes	Yes	EventDateTime for the date and time a call ended with hang-up or disconnect.
ANI	varchar(32)	Yes	No	The ANI of the caller sent by telephony provider
DNIS	varchar(32)	No	No	The DNIS of a call sent by telephony provider.
UUI	varchar(100)	Yes	No	The UUI of the originating caller sent by telephony provider.

Field	Type	Null	Index	Description
Idigits	varchar(100)	Yes	No	The IIDIGITS of the originating caller sent by telephony provider
UID	varchar(50)	Yes	No	The external UID of the caller if the call is associated with a user.
Numoptout (deprecated)	int	No	No	The number of times that the call is opted out to an agent.
NumTimeOut	int	No	No	The number of times the call timed out.
NumError	int	No	No	The number of errors that occurred during the call.
NumOnHold	int	No	No	The number on hold within a VXML application.
NumAppVisited	int	No	No	The number of applications visited during the life of the call.
TotalTransfer	int	No	No	The total number of times the call is transferred out. A transfer includes transfers to agents as well as a transfer to the VRU leg.
DBDateTime	datetime YEAR to FRACTION (3)	No	Yes	The date and time of the database operation (when the record was inserted).
CallTypeID	smallint <i>Formerly char(1)</i>	No	Non-Indexed FK	The type of call. See CallTypeRef Table.
SubSystemTypeID	int	No	Non-Indexed KX	The type of Unified CVP Service, such as SIP, IVR, VXML.
LocalTime ZoneOffset	smallint		No	The offset in minutes of the local timezone from UTC timezone. <i>Replaces LocalTimeZone.</i>

CallEvent Table

This table tracks each event that occurs within a call.

This table is populated for SIP calls. VXML calls will be recorded in the analogous VXMLSession Table.

Table 2: CallEvent Table

Field	Type	Null	Index	Description
CallGUID	char(32) for new installations char(35) for upgrades	No	Indexed FK (Composite CallGUID, CallStartDate)	The global unique id of a call
CallStartDate	date	No	FK (Composite CallGUID, CallStartDate)	The date of the call, for data purging purposes
CallLegID	varchar(255,43) <i>Formerly Varchar(43)</i>	Yes	No	A call id assigned by a Service
MessageBusName	varchar(42)	No	No	The name of the Call Server (its message adapter name) with which the event is associated
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the event
EventTypeID	int	No	Non-Indexed FK	The mechanism used to generate the call event. See EventTypeRef Table.
CauseID	int	No	Non-Indexed FK	The reason that the call event was generated. See CauseRef Table.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted).
TransferTypeID	integer	No	Non-Indexed FK	A unique id of the transfer type. See TransferTypeRef Table.
SubSystemTypeID	int	No	Non-Indexed FK	The type of the Service. See SubSystemTypeRef Table.
SubSystemName	varchar(41)	No	No	The name of the Service the event originated from
MediaFileName	nvarchar(255)	Yes	No	<i>This is always null.</i>

Field	Type	Null	Index	Description
TransferLabel	varchar(32)	Yes	No	This is the destination to which CVP transfers the call. The label is received from ICM via the TEMPORARY_CONNECT or CONNECT message
LocalTimeZoneOffset	smallint	NULL	No	The offset in minutes of this the local timezone from UTC timezone.

CallICMInfo Table

This table contains information to associate a Unified CVP call to ICM. It stores the ICM Call RouteCallKey, RouterCallKeyDay and RouterCallSequenceNumber for a call.

The CallICMInfo table is populated when the call is on the switch leg. This table is populated by SIP or VXML subsystems.

Note Currently the system does not capture the VRU leg of the call; thus if you have a Capture element and multiple Termination Call Detail (TCD) records are cut, the RouterCallKeySequenceNumber will increment in Historical Data Server (HDS) but will not be captured in the Unified CVP database. This is a known limitation.

Refer to the *Configuration Guide for Cisco Unified Customer Voice Portal* for further explanation about using the ReqICMLabel element to pass data to a Unified ICME script.

Table 3: CallICMInfo Table

Field	Type	Null	Index	Description
CallGUID	char(32) for new installations char(35) for upgrades	No	Indexed FK (Composite CallGUID, CallStartDate)	The global unique id of a call
CallStartDate	date	No	FK (Composite CallGUID, CallStartDate)	The date of the call, for data purging purposes

Field	Type	Null	Index	Description
RouterCallKey	Integer	No	AK (Composite index RouterCallKey, RouterCallKey Day)	<p>ICM Router CallKey - single value per call.</p> <p>This value does not increment if the call is transferred from switch leg to VRU leg or if the call is transferred to an agent.</p> <p>If the call is a consult or conference, then Unified CVP will see two different callguids for the same call in its database.</p> <ul style="list-style-type: none">• The first callguid is the incoming callguid when the call is established.• The second callguid is for an agent originated/consult call. <p>The RouterCallKey and RouterCallKey Day will act as a binder/glue between the two callguids for that single call as these values will not change between the two legs of the call.</p>

Field	Type	Null	Index	Description
RouterCallKeyDay	Integer	No	AK(Composite index RouterCallKey, RouterCallKey Day)	<p>ICM RouterCallKeyDay</p> <p>Typically this number changes on the switch and VRU leg of a call.</p> <p>You will see 0 for the switch leg of the call and 1 for the VRU leg of the call.</p> <p>This number usually does not change for basic CVP calls, but will increment if customers are using the capture node in their ICM script or when there is a transfer to an agent on the switch leg. In this scenario, Unified CVP sends a new call to Cisco Unified Communications Manager (Unified CM). This comes back via JTAPI and is on a separate Peripheral Gateway (PG). As the new call shows on a separate PG, Unified ICM cuts a new TCD record when the call ends. The RouterCallKeySequenceNumber increments on that switch leg.</p>
RouterCallKeySequenceNumber	int	Yes	Yes	ICM RouterCallKeySequenceNumber.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the event.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted).

VXML Tables

The following VXML tables are described in this section:

- VXMLCustomContent Table, on page 15
- VXMLElement Table, on page 16
- VXMLElementDetail Table, on page 17

- VXMLElementFlag Table, on page 18
- VXMLError Table, on page 18
- VXMLHotEvent Table, on page 19
- VXMLHotLink Table, on page 20
- VXMLSession Table, on page 21
- VXMLSessionVariable Table, on page 22
- VXMLVoiceInteractDetail Table, on page 24

The data for VXML treatment is much richer than that which is available for SIP calls. Events can be captured from VXML for anything that occurs inside of the VXML script. These calls start at the Call Table, on page 9 and are linked to the VXMLSession Table, on page 21 using the CallGUID column.

The VXMLSession is made up of a series of elements that are visited within the context of an application. Each element may have multiple ancillary attributes such as flags that can be set in an element. Values for these flags may be found in the VXMLElementFlag Table, on page 18 and are linked to using the ElementID.

VXMLElementFlags information for a call can be retrieved using the following query:

```
SELECT VXMLElementFlag.Name
FROM Call, VXMLSession, VXMLElement, VXMLElementFlag
WHERE Call.CallGuid= CallGuid
AND Call.CallGuid=VXMLSession.CallGuid
AND VXMLSession.SessionID=VXMLElement.SessionID
AND VXMLElement.ElementID=VXMLElementFlag.ElementID;
```

where CallGuid is replaced by the value of the CallGuid for which information is desired.

VXMLCustomContent Table

This table contains one record for each VXML custom event. This event occurs if a custom component programmatically calls the AddToLog method of the Session API. The event will also occur when an element whose configuration contains entries in the Add To Log table in the General tab is run.

Table 4: VXMLCustomContent Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique ID of a visited element.
CallStartDate	date	No	FK (Composite index ElementID, CallStartDate)	The date of the call, for data purging purposes.
VarName	nvarchar(51)	No	No	The name of the custom event variable.

Field	Type	Null	Index	Description
VarValue	nvarchar(255)	Yes	No	The value of the custom event variable.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the variable is changed.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

VXMLElement Table

This table contains one record for each VXML script element visited by a call. For example, if the same element is visited twice in an application script during a call, there will be two separate element records.

Table 5: VXMLElement Table

Field	Type	Null	Index	Description
ElementID	int8	No	PK (Composite ElementID, CallStartDate)	The unique id of a visited element.
CallStartDate	date	No	PK (Composite ElementID, CallStartDate)	The date of the call, for data purging purposes.
SessionID	int8	No	Indexed FK	The unique id of a VXML application session.
CallGUID	char(32) for new installations char(35) for upgrades	No	FK	The global unique id of a call.
ElementName	nvarchar(51)	No	No	The name of an element.
ElementTypeID	int	No	Non-Indexed FK	The type of element.
EnterDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the element was entered.

Field	Type	Null	Index	Description
ExitDateTime	datetime YEAR to FRACTION(3)	Yes	No	Date and time when the element was exited.
ExitState	nvarchar(51)	Yes	No	The exit state of the element.
NumberOfInteractions	int	Yes	No	The number of interactions while the user visited this element.
ResultID	int	Yes	Non-Indexed FK	Indicates how an element ended.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

VXMLElementDetail Table

This table contains one detail record for each script element variable. VarValue holds the String value of the variable and VarDataTypeID specifies the data type of the variable to which the String value can be converted.

Table 6: VXMLElementDetail Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique id of an element.
CallStartDate	date	No	Yes (Composite index ElementID, CallStartDate)	The date of the call, for data purging purposes.
VarName	nvarchar(51)	No	No	The name of the element variable.
VarValue	nvarchar(255)	Yes	No	The String value of the element variable.

Field	Type	Null	Index	Description
VarDataTypeID	int	No	Non-Indexed FK	The data type of the element variable, such as String, Integer, Boolean.
ActionTypeID	int	No	Non-Indexed FK	The type of action for an element that changes data.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	Date and time when the variable was changed.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted).

VXMLElementFlag Table

This table contains one record for each element in which a flag was activated. The Name field holds the name of the flag.

Table 7: VXMLElementFlag Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique id for the element in which the flag activated.
CallStartDate	date	No	Yes (Composite index ElementID, CallStartDate)	The date of the call, for data purging purposes.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the flag activated.
Name	nvarchar(51)	No	No	The flag name.
PreviousElementName	nvarchar(51)	Yes	No	The name of the previous application element.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted).

VXMLError Table

This table contains VXML errors that occurred during the life of the VXML application session. The table contains one record for each element in which an error occurred. The ErrorName field holds the name of the error.

Table 8: VXMLError Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique id for the element in which the error occurs.
CallStartDate	date	No	FK (Composite index ElementID, CallStartDate)	The date of the call, for data purging purposes.
ErrorName	varchar(12)	No	No	Name of an error.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the error occurred.
Description	nvarchar(255)	No	No	The detailed error message.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

VXMLHotEvent Table

HotEvent is a global event that when caught, executes developer-specified actions. This table contains information (HotEvent name, HotEvent DateTime and the ElementID) about the HotEvent occurred in an element.

Table 9: VXMLHotEvent Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique id for the element in which the HotEvent occurred.
CallStartDate	date	No	Yes (Composite index ElementID, CallStartDate)	The date of the call, for data purging purposes.

Field	Type	Null	Index	Description
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when HotEvent occurred.
Name	nvarchar(51)	No	No	The name of the HotEvent.
DBDateTime	datetime YEAR to FRACTION(3)	No	No	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

VXMLHotLink Table

Hotlink is a globally accessible utterance key press that immediately brings the call to a specific part of the call flow or throws an event. This table contains information (HotLink name, HotLink DateTime and the ElementID) about the HotLink that occurred in an element.

Table 10: VXMLHotLink Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique id for the element in which the hotlink activated.
CallStartDate	date	No	FK (Composite index ElementID, CallStartDate),	The unique id for the element in which the HotLink activated.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date of the call, for data purging purposes
Name	nvarchar(51)	No	No	The name of the HotLink.

Field	Type	Null	Index	Description
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

VXMLSession Table

This table contains one record for each application visited by a VXML call. For example, if a call has transferred from one application to another one, the call with the same CallGUID will have two session records.

SIP calls are recorded in the CallEvent Table, on page 10.

Table 11: VXMLSession Table

Field	Type	Null	Index	Description
SessionID	int8	No	PK (Composite SessionID, CallStartDate)	The unique ID of a VXML application session.
CallStartDate	date	No	PK (second field in PK and Composite indexes)	The date of the call, for data purging purposes.
SessionName	nvarchar(96)	No	No	The name of the session assigned by VXML Server.
CallGUID	char(32) for new installations char(35) for upgrades	No	Indexed FK (Composite index CallGUID, CallStartDate);	The global unique id of a call.
StartDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when session starts.
AppName	nvarchar(51)	No	Yes	The name of the VXML application.
EventTypeID	int	No	Non-Indexed FK	The mechanism used to end the application visit.

Field	Type	Null	Index	Description
CauseID	int	No	Non-Indexed FK	The reason that the application visit ended.
EndTime	datetime YEAR to FRACTION(3)	Yes	No	The end date and time of the session.
SourceAppName	nvarchar(51)	Yes	No	The name of the application that transferred to this one.
SubSystemName	varchar(41)	No	No	The name of the VXML Service.
MessageBusName	varchar(42)	No	No	The name of the message bus that delivers the VXML data feed message.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).
Duration	int	Null	No	The length of the session.
LocalTimeZoneOffset	smallint	No	No	The offset in minutes of this the local timezone from UTC timezone. <i>Replaces LocalTimeZone.</i>

VXMLSessionVariable Table

This table contains one record for each instance of a session variable. For example, if the same session variable was modified once in an application script during a call, there will be two separate records, one for its initial value when it was created and another for the updated value.

Table 12: VXMLSessionVariable Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The identifier of the element in which the session variable changes.
SessionID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique ID of an IVR application session.
CallStartDate	date	No	Yes (second field in Composite indexes)	The date of the call, for data purging purposes.
VarName	nvarchar(51)	No	No	The name of the session variable that was exited.
VarValue	nvarchar(255)	Yes	No	The value of the session variable.
ActionTypeID	int	No	Non-Indexed FK	The type of action for a session variable that changes data.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the session variable changed.
VarDataTypeID	int	No	Non-Indexed FK	The data type of the session variable, such as Integer, String, Boolean.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

Field	Type	Null	Index	Description
FromICM	Boolean	No	No	Indicates whether this session variable change originated from Unified ICME; Informix stores these values as 1 or 0, but represents these values as "t" or "f"

VXMLVoiceInteractDetail Table

This table has one record for each Voice Interaction with the caller.

Table 13: VXMLVoiceInteractDetail Table

Field	Type	Null	Index	Description
ElementID	int8	No	Indexed FK (Composite index ElementID, CallStartDate)	The unique ID of a visited element.
CallStartDate	date	No	FK (Composite index ElementID, CallStartDate);	The date of the call, for data purging purposes.
ElapsedTimeMillisecond	int	No	No	The time since the last interaction.
VoiceActionTypeID	int	No	Non-Indexed FK	The type of interaction.
Value	nvarchar(255)	Yes	No	The value of interaction.
DBDateTime	datetime YEAR to FRACTION(3)	No	No	The date and time of the database operation (when the record was inserted).

Summary / Aggregate Tables

The Summary / Aggregate tables are described in the following section:

- ApplicationSummary__15 Table
- ApplicationSummary__Daily Table
- ApplicationSummary__Weekly Table
- ApplicationSummary__Monthly Table, on page 28
- Call__15 Table

- Call_Daily Table
- Call_Weekly Table

Unified CVP reporting server includes a summary process that aggregates data from the Call and VXMLElement tables into new summary tables. These six tables hold summary data on Call metrics and on elements visited in Unified CVP applications.

These metrics include:

- The datetime of the beginning of the summary period.
- The average call length for the calls in this period
- Various totals, including the total number of opt outs, timeouts, and on holds for the calls in this period; the total number of transfers; and the total number of applications visited for the calls in this period

Summary tables use a star schema. Each summary table has a collection of non-numeric attributes and one or more numeric attributes that can be aggregated according to their type. Adding or removing an attribute from a query in a report definition allows a drill up or drill down into the data presented.

For example: the Application Summary tables have the following non-numeric attributes: Dbdatetime | Appname | Sourceappname | Elementname | Elementtypeid | Resultid | Causeid | Exitstate.

The numeric data available to report on those dimensions are: Avg_elapsed and Count.

Select Appname, avg(avg_elapsed), sum(count) will yield the average elapsed time and number of occurrences for an application. Adding ElementName to the Select clause (Select Appname, ElementName, avg(avg_elapsed), sum(count)) will further elaborate on where time was spent within the application. This can be further qualified by checking for specific Results, Causes, or Exit states.

These summary tables are not pure fact tables in cases where the dimensions are not always ID columns which refer to dimension or lookup tables.

In an upgrade situation, the summary process will start aggregation at the earliest data date within the Call and VXMLElement tables. At most, once every 15 minutes, the summary process will aggregate one day's worth of data from historical records to avoid overtaxing the system by attempting to process too much data.

This means that in a single 24-hour period, the system can summarize 96 days of data at most.

- _Daily tables will be populated one day behind the _15 minute tables.
- _Weekly tables will be populated from _Daily tables once those have been fully populated for the week in question.
- _Monthly tables will be populated from _Weekly tables once those have been fully populated for the month in question.

Retention for summary tables is hardcoded to 60 days for 15 minute summaries, 18 months for daily summaries, 10 years for weekly data, and 40 years for monthly aggregation.

**Note**

- Take into consideration that it can take some time to collect aggregate-level data from the reporting server.
- Summary tables are built in 15-minute increments using the local time of the reporting server. Latency of source data is not guaranteed. In the event of a failover situation, data may arrive hours after it was initially created. For this reason all summary time periods reflect the time that the source data arrived at the database, which will generally be close to the time that it was created.

ApplicationSummary_15 Table

The ApplicationSummary_15 table is a 15-minute summary of Application/element data, useful for Dominant Path analysis.

Table 14: ApplicationSummary_15 Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to second	Yes	PK	The start of the time period for this row.
AppName	nvarchar(51)	Yes	PK	The name of the VXML application.
SourceAppName	nvarchar(51)	Yes	PK	The name of the application that transferred to this one.
ElementName	nvarchar(51)	No	PK	The name of the element.
ExitState	nvarchar(51)	Yes	PK	The exit state of the element.
ElementTypeID	integer	Yes	PK: FK	The unique ID of an element type.
ResultID	integer	Yes	PK, FK	The unique ID of a result
Count	integer	Yes	No	The number of occurrences for this time period.
CauseID	int	Yes	FK	The unique ID of a cause.
Avg_elapsed	int	yes	No	The average elapsed time for this element.

ApplicationSummary_Daily Table

The ApplicationSummary_Daily table provides a daily summary of Application/element data, useful for Dominant Path analysis.

Table 15: ApplicationSummary_Daily Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to second	Yes	PK	The start of the time period for this row.
AppName	nvarchar(51)	Yes	PK	The name of the VXML application.
SourceAppName	nvarchar(51)	Yes	PK	The name of the application that transferred to this one.
ElementName	nvarchar(51)	Yes	PK	The name of the element.
ExitState	nvarchar(51)	Yes	PK	The exit state of the element.
ElementTypeID	integer	Yes	PK, FK	The unique ID of an element type.
ResultID	integer	Yes	PK, FK	The unique ID of a result.
Count	integer	Yes	No	The number of occurrences for this time period.
CauseID	int	Yes	FK	The unique ID of a cause.
Avg_elapsed	int	yes	No	The average elapsed time for this element.

ApplicationSummary_Weekly Table

A weekly summary of Application/element data, useful for Dominant Path analysis.

Field	Type	Null	Index	Description
dbdatetime	datetime year to second	Yes	PK	The start of the time period for this row
AppName	nvarchar(51)	Yes	PK	The name of the VXML application
SourceAppName	nvarchar(51)	Yes	PK	The name of the application that transferred to this one
ElementName	nvarchar(51)	Yes	PK	The name of the element
ExitState	nvarchar(51)	Yes	PK	The exit state of the element

Field	Type	Null	Index	Description
ElementTypeID	integer	Yes	PK, FK	The unique id of an element type
ResultID	integer	Yes	PK, FK	The unique id of a result
Count	integer	Yes	No	The number of occurrences for this time period
CauseId	int	Yes	FK	The unique id of a cause
Avg_elapsed	int	yes	No	The average elapsed time for this element

ApplicationSummary_Monthly Table

The ApplicationSummary_Monthly table displays a monthly summary of Application/element data, useful for Dominant Path analysis.

Table 16: ApplicationSummary_Monthly Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to second	Yes	PK	The start of the time period for this row.
AppName	nvarchar(51)	Yes	PK	The name of the VXML application.
SourceAppName	nvarchar(51)	Yes	PK	The name of the application that transferred to this one.
ElementName	nvarchar(51)	Yes	PK	The name of the element
ExitState	nvarchar(51)	Yes	PK	The exit state of the element.
ElementTypeID	integer	Yes	PK, FK	The unique ID of an element type.
ResultID	integer	Yes	PK, FK	The unique ID of a result.
Count	integer	Yes	No	The number of occurrences for this time period.
CauseId	int	Yes	FK	The unique id of a cause.
Avg_elapsed	int	yes	No	The average elapsed time for this element.

Call_15 Table

The Call_15 table displays a 15-minute summary of call activity by SubSystemType and CallType.

Table 17: Call_15 Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to second	Yes	PK	time in 15-minute increments.
SubSystemTypeID	integer	Yes	PK, FK	The unique ID of a Service type.
CallTypeID	smallint	No	PK, FK	The unique ID of a Call type.
AvgCallLength	interval HOUR (3) to FRACTION (3)	Yes	No	The average call length for this period.
TotalOptOut	integer	Yes	No	The total number of Opt Outs in this period.
TotalOnHold	integer	Yes	No	The total number of Holds in this period.
TotalTimeOut	integer	Yes	No	The total number of Time Outs in this period.
TotalError	integer	Yes	No	The total number of errors in this period.
TotalAppVisited	integer	Yes	No	The total number of applications visited in this period.
TotalTransfer	integer	Yes	No	The total number of transfers in this period.
NumCalls	integer	Yes	No	The total number of calls in this period.

Call_Daily Table

The Call_Daily table displays a daily summary of call activity by SubSystemType and CallType

Table 18: Call_Daily Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to minute	Yes	PK	The time in daily increments.

Field	Type	Null	Index	Description
SubSystemTypeID	integer	Yes	PK, FK	The unique ID of a Service type.
CallTypeID	smallint	Yes	PK, FK	The unique ID of a Call type.
AvgCallLength	interval HOUR (3) to FRACTION (3)	Yes	No	The average call length for this period.
TotalOptOut	integer	Yes	No	The total number of Opt Outs in this period.
TotalOnHold	integer	Yes	No	The total number of Holds in this period.
TotalTimeOut	integer	Yes	No	The total number of Time Outs in this period.
TotalError	integer	Yes	No	The total number of errors in this period.
TotalAppVisited	integer	Yes	No	The total number of applications visited in this period.
TotalTransfer	integer	Yes	No	The total number of transfers in this period.
NumCalls	integer	Yes	No	The total number of calls in this period.

Call_Weekly Table

The Call_Weekly table displays a weekly summary of call activity by SubSystemType and CallType.

Table 19: Call_Weekly Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to minute	Yes	PK	The time in weekly increments.
SubSystemTypeID	integer	Yes	PK, FK	The unique ID of a Service type.
CallTypeID	small int	Yes	PK, FK	The unique ID of a Call type.
AvgCallLength	interval HOUR (3) to FRACTION (3)	Yes	No	The average call length for this period.

Field	Type	Null	Index	Description
TotalOptOut	integer	Yes	No	The total number of Opt Outs in this period.
TotalOnHold	integer	Yes	No	The total number of Holds in this period.
TotalTimeOut	integer	Yes	No	The total number of Time Outs in this period.
TotalError	integer	Yes	No	The total number of errors in this period.
TotalAppVisited	integer	Yes	No	The total number of applications visited in this period.
TotalTransfer	integer	Yes	No	The total number of transfers in this period.
NumCalls	integer	Yes	No	The total number of calls in this period.

Call_Monthly Table

The Call_Monthly table displays a monthly summary of call activity by SubSystemType and CallType.

Table 20: Call_Monthly Table

Field	Type	Null	Index	Description
dbdatetime	datetime year to minute	Yes	PK	The time in weekly increments.
SubSystemTypeID	integer	Yes	PK, FK	The unique ID of a Service type.
CallTypeID	small int	Yes	PK, FK	The unique ID of a Call type.
AvgCallLength	interval HOUR (3) to FRACTION (3)	Yes	No	The average call length for this period.
TotalOptOut	integer	Yes	No	The total number of Opt Outs in this period.
TotalOnHold	integer	Yes	No	The total number of Holds in this period.
TotalTimeOut	integer	Yes	No	The total number of Time Outs in this period.

Field	Type	Null	Index	Description
TotalError	integer	Yes	No	The total number of errors in this period.
TotalAppVisited	integer	Yes	No	The total number of applications visited in this period.
TotalTransfer	integer	Yes	No	The total number of transfers in this period.
NumCalls	integer	Yes	No	The total number of calls in this period.

Lookup and Reference Tables

The Lookup and Reference tables are discussed in the following sections:

- ActionTypeRef Table
- CallTypeRef Table
- CauseRef Table
- Device Table
- ElementtypeRef Table
- EventTypeRef Table
- OutgoingECCVariable Table
- QueueRef Table
- Resource Table
- ResultRef Table
- SubSystemTypeRef Table
- TransferTypeRef Table
- Usage Table
- UserInputModeRef Table
- VarDataTypeRef Table
- VoiceActionTypeRef Table

ActionTypeRef Table

This is a reference table that resolves an ActionTypeID to the text value for an element that changes data.

Table 21: ActionTypeRef Table

Field	Type	Null	Index	Description
ActionTypeID	int	No	PK	The unique id of an action type.
ActionType <i>Formerly Name</i>	nvarchar(96)	No	No	The name of the action type.

Table Values (ID, Action Name):

1. "Initialize"
2. "Update"
3. "Return"

CallTypeRef Table

This is a reference table that resolves CallTypeID to a text value.

Table 22: CallTypeRef Table

Field	Type	Null	Index	Description
CallTypeID	small int	No	PK	The unique ID of a call type reference.
CallType	char(32)	No	No	The Call Type.

Table Values (ID, CallType):

1. "Legacy Audio"
2. "Legacy Video"
4. "SIP"
5. "VRU"
6. "VXML"
7. "Basic Video"
8. "Full Video"

CauseRef Table

This table maps a CauseID to the text value for the cause.

Table 23: CauseRef Table

Field	Type	Null	Index	Description
CauseID	int	No	PK	The unique ID of a call event cause.
Cause	nvarchar(96)	No	No	The cause of the event. <i>Formerly Name</i>

Table Values (ID, Cause):

- 0 = "None"
- 1. "Normal Completion"
- 2. "Call Abandon"
- 3. "Call Transferred"
- 4. "New Transaction"
- 5. "Busy"
- 6. "No Answer"
- 7. "Maintenance"
- 8. "Net Congestion"
- 9. "Net Not Obtainable"
- 10. "Reorder Tone"
- 11. "Resources Not Available"
- 12. "Trunks Busy"
- 13. "Called Party Disconnected"
- 14. "Max Ports"
- 15. "Suspended"
- 16. "Time Out"
- 17. "Invalidated"
- 18. "Error"
- 19. "Video Answered"
- 20. "Post Call Answer"
- 21. "Invalid"
- 22. "Failure"
- 23. "Audio Recording Start"
- 24. "Audio Recording Stop"
- 25. "No Response"
- 26. "Invalid Number"

27, "Connected"	
28, "Caller Canceled"	
29, "Whisper Start"	
30, "Whisper Done"	
31, "Whisper Setup Failed"	
32, "Abandon In Whisper"	
33, "Whisper Media Error"	
1001, "Hang Up"

Device Table

The device for which this resource is measured. This is an IP Address.

Table 24: Device Table

Field	Type	Null	Index	Description
DeviceID	smallint	No	PK	Unique identifier of this device.
Descriptor	char(40)	Yes	No	The IP address of this device.

ElementtypeRef Table

This table maps an ElementTypeID to a text value for the VXML element type.

Table 25: ElementtypeRef Table

Field	Type	Null	Index	Description
ElementTypeID	int	No	PK	The unique id of an element type.

Field	Type	Null	Index	Description
ElementType	nvarchar(96)	No	Yes	The name of the element type . <i>Formerly Name</i>

Table Values (ID, ElementType):

- 0, "Start"
- 1, "End"
- 2, "Subdialog_Start"
- 3, "Subdialog_Return"
- 4, "Decision"
- 5, "Action"
- 6, "Custom"
- 7, "HotLink"
- 8, "HotEvent"
- 9, "ElementFlag"
- 10, "Voice"
- 11, "VXMLInsert"
- 12, "ReqICMLLabel"
- 13, "General"

EventTypeRef Table

This is the table to map an EventID to the text value for its name (event type).

Field	Type	Null	Index	Description
EventTypeID	int	No	PK	The unique id of a call event type
EventType	nvarchar(96)	No	No	The name of the event type <i>Formerly Name</i>

Table Values (ID, EventType):

- 0, "New Call"
- 1, "Connect Failure"
- 2, "Busy"
- 3, "No Answer"
- 4, "Answer"

5. "Abandon"
6. "Disconnect"
7. "Hang Up"
8. "App Transfer"
9. "App Session Complete"
10. "Call Transfer"
11. "Run Script"
12. "Agent Recording"
13. "ICM Recording"
14. "Agent Video"
15. "ICM Video"
16. "Bridge Transfer"
17. "Blind Transfer"
18. "ReqICMLabel"
19. "Audio Recording"
20. "Callback Canceled"
21. "Callback Pending"
22. "Callback In Progress"
23. "Callback Tentative"
24. "Callback Complete"
25. "Callback Recover"
26. "Callback Created"
29. "Max allowed callbacks to this ANI exceeded"

OutgoingECCVariable Table

This table stores the ECC Variables that are returned from Unified CVP to an ICM script.

At present, this table is populated by the courtesy callback studio application element and when the ReqICMLabel element is used in a Call Studio script. Refer to the *CVP Administration and Configuration Guide* for further explanation about using the ReqICMLabel element to pass data to a Unified ICME script.

Table 26: OutgoingECCVariable Table

Field	Type	Null	Index	Description
CallGUID	char(32) for new installations char(35) for upgrades	No	Indexed FK (Composite index CallGUID, CallStartDate)	The global unique id of a call.

Field	Type	Null	Index	Description
CallStartDate	date	No	FK (Composite CallGUID, CallStartDate)	The date of the call, for data purging purposes.
SessionID	int8	No	Yes	The identifier of the session in which the ECC variable changes.
ElementID	int8	No	Yes	The identifier of the element in which the ECC variable changes.
ECCVarName	char(12)	No	No	The name of session variable that was exited.
ECCVarValue	nvarchar(255)	No	No	The value of session variable.
EventDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time when the ECC variable changed.
DBDateTime	datetime YEAR to FRACTION(3)	No	Yes	The date and time of the database operation (when the record was inserted). This is useful for debugging purposes to determine lags between when the event occurred versus when it was written to the database (for example, a long lag may indicate problems with the reporting server).

QueueRef Table

QueueRef is a callback lookup table. This table maps QueueID to a text value for the queue in which a callback is waiting. The QueueName stores whatever you decide to call the queues.

Table 27: QueueRef Table

Field	Type	Null	Index	Description
QueueID	smallint	No	PK	The unique ID of a queue.
QueueName	char(40)	Yes	No	The name of the queue.

Resource Table

The resources that are measured include Memory, CPU, DSO and DSP.

Table 28: Resource Table

Field	Type	Null	Index	Description
ResourceID	smallint	No	PK	Unique Identifier.
Descriptor	char(40)	Yes	No	The name of the resource we are measuring (CPU, Memory, DSP, DSO, System).

ResultRef Table

This table maps a ResultID to a text value for a result.

Table 29: ResultRef Table

Field	Type	Null	Index	Description
ResultID	int	No	PK	The unique ID of a result.
Result	nvarchar(96)	No	No	The name of the element result. <i>Formerly Name</i>

Table Values (ID, Result):

1. "Normal"
2. "Invalidated"
3. "HotEvent"
4. "HotLink"
5. "Hang Up"
6. "Error"
7. "Transfer"

SubSystemTypeRef Table

This table maps a SubSystemTypeID to a Unified CVP Service type.

Table 30: SubSystemTypeRef Table

Field	Type	Null	Index	Description
SubSystemTypeID	int	No	PK	The unique ID of a Service type.
SubSystem	nvarchar(96)	No	No	The name of the Service type.

Table Values (ID, Name):

- 0. "SIP"
- 1. "IVR"
- 2. "VXML"
- 3. "OAMP" [Operate, Administer, Maintain, Provision = Operations Console]
- 4. "Controller"
- 5. "RPT"
- 6. "ICM"
- 7. "ORM" [Element with Unified CVP components that allows the Operations Console to manage the components]
- 8. "System"

TransferTypeRef Table

This is a reference table to resolve TransferTypeID to a text value.

Table 31: TransferTypeRef Table

Field	Type	Null	Index	Description
TransferTypeID	integer	No	PK	A unique ID of the transfer type.
TransferType	varchar(30)	Yes	No	The type of transfer performed.

Usage Table

This is a fact table of device/resource measurements.

Field	Type	Null	Index	Description
DeviceID	smallint	No	FK	Unique identifier of this device
ResourceID	smallint	No	FK	Unique Identifier

Field	Type	Null	Index	Description
EventDateTime	datetime year to fraction(3)	No	PK	Date and time of this measurement
CallStartDate	date	No	PK	The date of this measurement for purge purposes
ResourceUsed	smallint	Yes	No	The amount of resource used
ThresholdReached	char(1)	Yes	No	True/False. Was the maximum threshold for this resource reached?
ResourceMax	smallint	Yes	No	The amount of this resource available on this device

UserInputModeRef Table

This table maps a UserInputModeID to the name of the user input mode.

Table 32: UserInputModeRef Table

Field	Type	Null	Index	Description
UserInputModeID	int	No	PK	The unique ID of a user input mode.
UserInputMode	nvarchar(96)	No	No	The name of the user input mode. <i>Formerly Name</i>

Table Values (ID, Name):

- 1, "DTMF"
- 2, "Voice"
- 3, "DTMF Voice"

VarDataTypeRef Table

This table maps a VarDataTypeID to the data type of a variable.

Table 33: VarDataTypeRef Table

Field	Type	Null	Index	Description
VarDataTypeID	int	No	PK	The unique ID of a variable data type.

Field	Type	Null	Index	Description
VarDataType	nvarchar(96)	No	No	The name of the variable data type. <i>Formerly Name</i>

Table Values (ID, Name):

0. "String"
1. "Int"
2. "Float"
3. "Boolean"

VoiceActionTypeRef Table

This table maps a VoiceActionTypeID to a text value.

Field	Type	Null	Index	Description
VoiceActionTypeID	int	No	PK	The unique ID of a VoiceActionTypeRef.
VoiceActionType	nvarchar(96)	No	No	The name of the call state. <i>Formerly Name</i>

Table Values (ID, Name):

1. "No Match"
2. "No Input"
3. "Audio Group"
4. "Input Mode"
5. "Utterance"
6. "Interpretation"
7. "Confidence"

Courtesy Callback Tables

The following sections describe the Courtesy Callback tables:

- Callback Table
- CallbackEvent Table
- CallbackQueue Table

These tables support Courtesy Callback functionality.

Since this data is of an online-transaction-processing (OLTP) nature, it is retained in its own database, the callback database. When the caller registers a request for a callback, that request is stored in the CallBack Table.

A row is placed into the CallBackQueue Table for the call to manage timing and sequencing of calls.

Events that occur during the callback are registered in the CallBackQueue Table. This information can be retrieved using the following query:

```
SELECT Callback.*, CallBackEvent.*,
       CallBackQueue.*
FROM Callback, CallBackEvent,
       CallBackQueue
WHERE Callback.CallGuid= CallGuid
      AND Callback.SurrogateID=CallBackEvent.SurrogateID
      AND Callback.SurrogateID=CallBackQueue.SurrogateID;
```

Where CallGuid is replaced by the value of the CallGuid for which information is desired.

Query for number of callbacks currently pending:

```
SELECT count(*)
FROM Callback, EventTypeRef
WHERE Callback.EventTypeID=EventTypeRef.EventTypeID
      AND EventType in (Callback Pending);
```

Query for a list of failed callbacks with telephone number and failure reason code:

```
SELECT CallGuid, ANI, WbrAttempts, Cause
FROM Callback, CauseRef, EventTypeRef
WHERE Callback.CauseID=CauseRef.CauseID
      AND Callback.EventTypeID=EventTypeRef.EventTypeID
      AND EventType in (Callback Canceled);
```

CallBack Table

The callback table is a view of two tables: Callback_Current and Callback_Historical. The two tables are identical: every 30 minutes, data for completed calls is pulled from Callback_Current and moved to Callback_Historical.

One row is generated in this table for each callback that is made.

Table 34: CallBack Table

Field	Type	Null	Index	Description
SurrogateID	serial	No	PK	A unique generated key to replace the CallGuid throughout the Callback schema.
CallStartDate	date	No	PK	The date of the callback for data purging purposes.

Field	Type	Null	Index	Description
OldGuid	char(32)	Yes	No	The Guid for the original scheduled callback. Used by the DB servlet to retrieve information about the old scheduled callback in order to create a new record for the pre-emptive callback.
ANI	varchar(32)	Yes	No	The number to which the callback will be placed.
CallBackType	char(1)	Yes	No	P = preemptive. S = scheduled
Gateway	varchar(40)	Yes	No	The identifier for the gateway. Can be an IP address or other string identifier.
RecordingURL	nvarchar(255)	Yes	No	The URL that points to a wav file of the recorded name of the caller.
ScheduledCallBack DateTime	datetime year to second	Yes	No	The Datetime (including timezone) for a scheduled callback. Not included for preemptive callbacks.
ScheduledCallBackDN	varchar(32)	Yes	No	The DN to which the scheduled callback will be placed. This will invoke an ICM script with this DN.
DBDateTime	datetime year to fraction(3)	Yes	No	The date and time of the database operation.
Location	varchar(32)	Yes	No	The location name assigned to a set of gateways. Used in scheduled callback to select applicable egress gateways for the callback.
NbrAttempts	smallint	Yes	No	The number of attempts made to call back.
EventTypeId	integer	Yes	FK	The unique ID of a event type.
CauseId	integer	Yes	FK	The unique ID of a cause.

CallBackEvent Table

This table holds a record of each callback event that occurs for the call.

This table holds seven days worth of data. Purge daily.

Table 35: CallBackEvent Table

Field	Type	Null	Index	Description
SurrogateID	integer	No	PK, FK	A unique generated key to replace the CallGuid throughout the Callback schema.
CallStartDate	date	No	PK	The date of the callback for data purging purposes
EventDateTime	datetime year to fraction(3)	No	No	The date and time of the event
CauseId	integer	Yes	Yes	See Values below. CauseRef Table
DBDateTime	datetime year to fraction(3)	No	No	The date and time of the database operation.
EventTypeId	integer	No	FK	The unique ID of an event type. See ElementtypeRef Table.

Table Values (ID, CauseID)

- 0, "busy"
- 1, "noanswer"
- 2, "noresponse"
- 3, "invalid_number"
- 4, "connected"
- 5, "caller_canceled"
- 6, "trunksbusy"
- 7, "error"

CallBackQueue Table

This table holds data for the queue in which the call sits until its scheduled time or until a slot becomes available.

Table 36: CallBackQueue Table

Field	Type	Null	Index	Description
SurrogateID	integer (serial)	No	PK, FK	
CallStartDate	date	No	PK	The date of the callback for data purging purposes.
CallGuid	char(32) for new installations char(35) for upgrades	Yes	No	Unique ID for the call.
QueueID	smallint	No	FK	
QueueStatus	smallint	No	No	Status in queue: 0 = in_queue, 1 = not_in_queue 2 = Zombie
EnterDateTime	datetime year to second	No	No	The Datetime entered queue.
LeaveDateTime	datetime year to second	Yes	No	The Datetime left queue.
CVPEstimatedWaitTime	smallint	No	No	The CVP-calculated estimated wait time (in seconds) Since enterdatetime. This is generated during the insert, it will not be maintained.
ICMEstimatedWaitTime	smallint	No	No	Unified ICM-calculated estimated wait time (in seconds) Since enterdatetime. This is generated during the insert, it will not be maintained.
ValidationStatus	smallint	No	No	The bitmask result obtained from the Validation method. See sample code that follows this table.
DBDateTime	datetime year to fraction(3)	No	No	The date and time of the database operation.

Validation Method sample code.

This is an example of a bitmask result obtained from the Validation method:

- TOD, Time of Day Error, meaning the callback was scheduled for a time of day when the queue is not open.
- EWT, Estimated Wait Time, indicates if the agent wait time for an agent is long enough to warrant a callback.

```

00000000 00000001 OK
00000000 00000010 ICM_NO_SCHEDULED_ALLOWED
00000000 00000100 ICM_NO_PREEMPTIVE_ALLOWED
00000000 00001000 NOT_IN_QUEUE
00000000 00010000 TOD

Subject: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Hi Maggie-

We have had to the opportunity to speak with our client regarding the proposals and suggestions discussed during our meet and confer on Wednesday. The following are the proposals for the stipulation and order:

1. **Investigative Files:** You and your client have proposed to do a trial for one month for the investigative Vice files for December 2016.
 - a. LVMPD has agreed to provide Brian with a list of the defendants for the December files in return for a list of the witnesses that testified. Our clients did raise a concern that they would not know if your client truly obtained the name of the witness from court records without double checking. So, in addition to the list of witnesses, could he provide a short declaration saying that the list witnesses testified in court proceedings is true and correct?
 - b. LVMPD has agreed to inspection of the records and, without waiving any rights, has agreed for the December 2016 records to provide the records on a flat fee basis of \$150.Just to confirm our conversation, the purpose of this trial is to determine the time and cost it is going to take in producing the other records. If you are agreeable to this, we can work on getting you the list on Monday and time frame in producing the records.
2. **Statistical Information:** The employee that can give me the stats relates to arrests for Johns, arrests for Prostitutes, and trick rolls investigated for 2013-2018 has been out, but is expected to return on Monday. I will forward those figures as soon as I have them. I was able to confirm that Vice does not have a database for its records.
3. **Arrest Reports:** Your client agreed to limit the arrest reports to solicitation for 2015-2017. For these years, there were a total of 6,863 arrest for solicitation. We propose a test run similar to the investigative files. You can choose a particular month and we can provide you with the arrest reports on a flat fee basis. Once we know the number of arrest reports, we can come up with a number.
4. **SCOPE:** I was able to contact Clark County IT and they confirmed that CCIT is responsible for the database fields. I provided them with a copy of the records you had sent us (data dictionary and schema) and was told that they are the ones that would provide that information.
5. **Unit Assignments:** Your client had agreed to limit its request for unit assignments to patrol officers on January 1, 2017. It is LVMPD's position that the unit assignments of its officers are confidential.

I am going to begin preparing the stipulation and wait for any comments or suggestions you have regarding the above topics. We also discussed including language regarding the LVRJ's right to pursue all records it requested and LVMPD's right to preserve its previous objections and arguments. I think we should also include language regarding supplemental briefing, specifically that the Parties reserve the right to supplemental briefing. Of course, I'll add language regarding the Parties agreement to continue to work in good faith.

Jacqueline V. Nichols, Esq.

Subject: RE: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Jackie: Thank you for getting back to me. Notes follow and are also below. What supplemental briefing are you referring to? I think we should submit a stipulation and each do our brief Monday regarding costs and related issues. We have already briefed the applicability of the NPRA to the records at issue, and I am not inclined to agree to (or want to waste further resources) on supplemental briefing about whether they are public records; we can each lay out our position on future briefing separately if need be. Or we can just propose another status check to set forth a **process** for production of the additional records. I wanted to get back to you quickly but this email and the below is subject to further discussion with my client (will follow up quickly). Would you please provide me with a copy of the cost study without further delay. As for the stipulation, I believe I was preparing it but that's great. When can you get me the draft? It needs to be a stipulation and proposed order.

Subject: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Hi Maggie-

We have had to the opportunity to speak with our client regarding the proposals and suggestions discussed during our meet and confer on Wednesday. The following are the proposals for the stipulation and order:

1. **Investigative Files:** You and your client have proposed to do a trial for one month for the investigative Vice files for December 2016.
 - a. LVMPD has agreed to provide Brian with a list of the defendants for the December files in return for a list of the witnesses that testified. Our clients did raise a concern that they would not know if your client truly obtained the name of the witness from court records without double checking. So, in addition to the list of witnesses, could he provide a short declaration saying that the list witnesses testified in court proceedings is true and correct? We will provide the court records if need be. Will you log the remaining redactions briefly so we can figure out what else requires redactions?
 - b. LVMPD has agreed to inspection of the records and, without waiving any rights, has agreed for the December 2016 records – just the limited items we discussed at first- to provide the records on a flat fee basis of \$150. We also reserve all rights of course.

Just to confirm our conversation, the purpose of this trial is to determine the time and cost it is going to take in producing the other records and whether the process I proposed works.. If you are agreeable to this, we can work on getting you the list on Monday and time frame in producing the records.

We also agreed that, subject to resolution regarding costs, LVMPD would begin providing the records.

2. **Statistical Information:** The employee that can give me the stats relates to arrests for Johns, arrests for Prostitutes, and trick rolls investigated for 2013-2018 has been out, but is expected to return on Monday. I will forward those figures as soon as I have them. Okay. I was able to confirm that Vice does not have a database for its records.
3. **Arrest Reports:** Your client agreed to limit the arrest reports to solicitation for 2015-2017 for now/ for the list of records that need to be produced right away. For these years, there were a total of 6,863 arrest for

solicitation. We propose a test run similar to the investigative files. I don't think one is necessary. You can choose a particular month and we can provide you with the arrest reports on a flat fee basis. We didn't discuss a flat fee when we met and conferred but I have previously proposed this and am open to it.. Once we know the number of arrest reports, we can come up with a number.

4. **SCOPE:** I was able to contact Clark County IT and they confirmed that CCIT is responsible for the database fields. I provided them with a copy of the records you had sent us (data dictionary and schema) and was told that they are the ones that would provide that information. I don't think that CCIT is responsible is the same thing as LVMPD does not have them. I also didn't hear back about whether LVMPD has any SCOPE manuals or training materials.
5. **Unit Assignments:** Your client had agreed to limit its request for unit assignments to patrol officers on January 1, 2017. Without waiving rights, we agree this is a way for us to get the information now. It is LVMPD's position that the unit assignments of its officers are confidential.

I am going to begin preparing the stipulation and wait for any comments or suggestions you have regarding the above topics. We also discussed including language regarding the LVRJ's right to pursue all records it requested and LVMPD's right to preserve its previous objections and arguments. I think we should also include language regarding supplemental briefing, specifically that the Parties reserve the right to supplemental briefing. Of course, I'll add language regarding the Parties agreement to continue to work in good faith.

Cc: Nick Crosby; pharan@nvlitigation.com
Subject: RE: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Thanks for your quick response.

1. Supplemental Brief: You mention we should submit a brief on costs and related issues? What are the costs and related issues? This is why I suggested pushing the briefing out because we have not had the opportunity to discuss each of the requests and that this stipulation serves as a starting point for the parties to act in good faith in moving forward. Based on the trial run, LVMPD is willing to work on costs. But if you want to submit additional briefing on that issue, it's almost as if the stipulation means nothing. I think we can reserve the cost issue until we know the exact cost and time at issue in producing the requests, which is the purpose for the test runs. LVMPD has agreed to produce the records on a flat fee basis and will base the costs of future production on the test runs. If you disagree, please let me know what you mean by costs and related issues to be included in the supplemental brief.
2. Investigative Files: As to logging the redactions, are you referring to a privilege log? I believed that you agreed that personal information such as DOB and SSN would need to be redacted. I think a log is another unnecessary step. If there is more than that information redacted, we can agree to provide information (i.e., that it is a witness) of the redacted information.
3. Arrest Reports: While it is your position that it is not necessary for a trial run, it is going to take a significant time to review nearly 7,000 case files. And, because cost seems to be an issue, I do think that a month trial will assist in assessing the value of production. Please let me know if your client will agree to a trial run with a flat fee.
4. SCOPE: The data dictionary and schema is not in the possession or control of LVMPD and the request is more properly directed to CCIT. As far as
5. Additional Public Records Requests: As far as SCOPE training manuals and your request for the cost study, I hope to get you more information on that next week.

Jackie: Thank you for getting back to me. Notes follow and are also below. What supplemental briefing are you referring to? I think we should submit a stipulation and each do our brief Monday regarding costs and related issues. We have already briefed the applicability of the NPRA to the records at issue, and I am not inclined to agree to (or want to waste further resources) on supplemental briefing about whether they are public records; we can each lay out our position on future briefing separately if need be. Or we can just propose another status check to set forth a **process** for production of the additional records. I wanted to get back to you quickly but this email and the below is subject to further discussion with my client (will follow up quickly). Would you please provide me with a copy of the cost study without further delay. As for the stipulation, I believe I was preparing it but that's great. When can you get me the draft? It needs to be a stipulation and proposed order.

Subject: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Hi Maggie-

We have had to the opportunity to speak with our client regarding the proposals and suggestions discussed during our meet and confer on Wednesday. The following are the proposals for the stipulation and order:

1. **Investigative Files:** You and your client have proposed to do a trial for one month for the investigative Vice files for December 2016.
 - a. LVMPD has agreed to provide Brian with a list of the defendants for the December files in return for a list of the witnesses that testified. Our clients did raise a concern that they would not know if your client truly obtained the name of the witness from court records without double checking. So, in addition to the list of witnesses, could he provide a short declaration saying that the list witnesses testified in court proceedings is true and correct? We will provide the court records if need be. Will you log the remaining redactions briefly so we can figure out what else requires redactions?
 - b. LVMPD has agreed to inspection of the records and, without waiving any rights, has agreed for the December 2016 records – just the limited items we discussed at first- to provide the records on a flat fee basis of \$150. We also reserve all rights of course.

Just to confirm our conversation, the purpose of this trial is to determine the time and cost it is going to take in producing the other records and whether the process I proposed works.. If you are agreeable to this, we can work on getting you the list on Monday and time frame in producing the records.

We also agreed that, subject to resolution regarding costs, LVMPD would begin providing the records.

2. **Statistical Information:** The employee that can give me the stats relates to arrests for Johns, arrests for Prostitutes, and trick rolls investigated for 2013-2018 has been out, but is expected to return on Monday. I will forward those figures as soon as I have them. Okay. I was able to confirm that Vice does not have a database for its records.
3. **Arrest Reports:** Your client agreed to limit the arrest reports to solicitation for 2015-2017 for now/ for the list of records that need to be produced right away. For these years, there were a total of 6,863 arrest for solicitation. We propose a test run similar to the investigative files. I don't think one is necessary. You can choose a particular month and we can provide you with the arrest reports on a flat fee basis. We didn't discuss a flat fee when we met and conferred but I have previously proposed this and am open to it.. Once we know the number of arrest reports, we can come up with a number.
4. **SCOPE:** I was able to contact Clark County IT and they confirmed that CCIT is responsible for the database fields. I provided them with a copy of the records you had sent us (data dictionary and schema) and was told that they are the ones that would provide that information. I don't think that CCIT is responsible is the same thing as LVMPD does not have them. I also didn't hear back about whether LVMPD has any SCOPE manuals or training materials.
5. **Unit Assignments:** Your client had agreed to limit its request for unit assignments to patrol officers on January 1, 2017. Without waiving rights, we agree this is a way for us to get the information now. It is LVMPD's position that the unit assignments of its officers are confidential.

I am going to begin preparing the stipulation and wait for any comments or suggestions you have regarding the above topics. We also discussed including language regarding the LVRJ's right to pursue all records it requested and LVMPD's right to preserve its previous objections and arguments. I think we should also include language regarding supplemental briefing, specifically that the Parties reserve the right to supplemental briefing. Of course, I'll add language regarding the Parties agreement to continue to work in good faith.

Subject: RE: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Thanks for your quick response.

1. Supplemental Brief: You mention we should submit a brief on costs and related issues? What are the costs and related issues? This is why I suggested pushing the briefing out because we have not had the opportunity to discuss each of the requests and that this stipulation serves as a starting point for the parties to act in good faith in moving forward. Based on the trial run, LVMPD is willing to work on costs. But if you want to submit additional briefing on that issue, it's almost as if the stipulation means nothing. I think we can reserve the cost issue until we know the exact cost and time at issue in producing the requests, which is the purpose for the test runs. LVMPD has agreed to produce the records on a flat fee basis and will base the costs of future production on the test runs. If you disagree, please let me know what you mean by costs and related issues to be included in the supplemental brief.

December of 2016 is just a month. We have been trying to resolve this case for some time and cannot continue to be in a holding pattern. Once we see if the process we proposed (in which we are taking on Metro's job of figuring out what isn't actually protected) works, we need to start moving on getting more records.

As we agreed during the meeting, we should submit supplemental briefing on the costs issue. The stipulation does not "mean nothing;" where we can agree, we should do so and limit court intervention to where we don't.

2. Investigative Files: As to logging the redactions, are you referring to a privilege log? I believed that you agreed that personal information such as DOB and SSN would need to be redacted. I think a log is another unnecessary step. If there is more than that information redacted, we can agree to provide information (i.e., that it is a witness) of the redacted information.

I think a simple "only redactions were for SSN and DOBs" is fine.

3. Arrest Reports: While it is your position that it is not necessary for a trial run, it is going to take a significant time to review nearly 7,000 case files. And, because cost seems to be an issue, I do think that a month trial will assist in assessing the value of production. Please let me know if your client will agree to a trial run with a flat fee.

We are not expecting (or wanting to wait for) Metro to produce all 2015-2017 solicitation arrest reports. We did not discuss a limitation on these, or a test run. Redactions are not an issue and we can even receive these electronically, right?

4. SCOPE: The data dictionary and schema is not in the possession or control of LVMPD and the request is more properly directed to CCIT.

This does not seem possible. Again, not delaying re providing the manual would assist us in solving this mystery.

5. Additional Public Records Requests: As far as SCOPE training manuals and your request for the cost study, I hope to get you more information on that next week.

I indicated you could consider these additional requests but also that I thought they were necessary to help resolve the confusion at hand. Please get them to me first thing Monday.

EXHIBIT *77*

From: maggie
Sent: Sunday, August 19, 2018 2:08 PM
To: Jackie V. Nichols
Cc: Nick Crosby; pharan@nvlitigation.com
Subject: RE: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Subject to final review by client, below is my understanding of the areas we have been able to resolve. Let me know if you have any questions or concerns. Jackie: Hopefully this can help you with the stipulation.

<p>2/17 request for investigative case files for sex trafficking cases closed in 2014, 2015 and 2016 with the names of victims who have not testified in court redacted (Petition Exh. ("Pet. Exh.") 1.)</p>	<p>Subject of stipulation.</p> <p>During the meet and confer, the parties agreed: (1) initial productions would be limited to arrest reports, case reports, and requests for prosecution (the "Limited File") – LVRJ free to subsequently request additional records; (2) due to passage of time since LVRJ made requests, request would be read as including 2017 and 2018 files; (3) files would be produced on a rolling basis (months/years to be provided to be decided by LVRJ); (4) parties to start with a "test-run" for December of 2016, using the following process suggested by the LVRJ:</p> <ul style="list-style-type: none">• LVMPD will provide a list of case file names for December of 2016 (Metro's counsel to check when this could be done by;• LVRJ will then provide LVMPD information regarding whether case was prosecuted and provide names of any victim witnesses who testified ("Redaction Information"), probably within one business day;• LVMPD to use the Redaction Information to avoid unnecessary redaction and would produce arrest• To avoid waiting on resolution of fees issues, LVRJ agreed to pay a flat fee of \$150 for the December of 2016 Limited File only; otherwise, costs to be determined by this Court• Then, this process (with any adjustments) to be applied to other months.• The parties later agreed that if the only redactions in a file were for dates of birth or social security numbers, LVMPD would indicate that. Other redactions to be specifically listed on a log.
--	--

2/17 request for request reports for solicitation or trespass that were produced in calendar years 2014, 2015, and 2016 (Pet. Exh. 1.)	<p>Subject of Stipulation</p> <p>During the Meet and Confer, the parties agreed that: (1) this request would be understood as including 2017, and (2) the LVRJ could later also ask for 2018. Without waiving future rights, the LVRJ also agreed to narrow this request to solicitation arrests.</p> <p>The parties discussed: (a) a rolling production; and (b) starting production with 2017.</p> <p>LVMPD subsequently suggested a “test run” for these records by month (Ex: Friday email); LVRJ contends that these records should be produced on a rolling basis without further delay.</p>
9/7/17 Statistical information pertaining to the total numbers of men and women arrested for engaging in prostitution, soliciting for prostitution, and sex trafficking for 2014, 2015, and 2016 (ex 51)	<p>Subject of Stipulation</p> <p>During the Meet and Confer, the parties agreed that: (1) this request would be read as including “trick roll” data (subject to Metro counsel checking with client that “trick roll” data existed) and (2) including 2017 and 2018. Metro agreed to provide the data by Monday via letter form.</p> <p>The LVRJ has asked for information regarding the source of the data Metro intends to provide via letter/</p>

Subject: Sex Trafficking - Meet and Confer Update [IWOV-iManage.FID1013982]

Hi Maggie-

We have had to the opportunity to speak with our client regarding the proposals and suggestions discussed during our meet and confer on Wednesday. The following are the proposals for the stipulation and order:

1. **Investigative Files:** You and your client have proposed to do a trial for one month for the investigative Vice files for December 2016.
 - a. LVMPD has agreed to provide Brian with a list of the defendants for the December files in return for a list of the witnesses that testified. Our clients did raise a concern that they would not know if your client truly obtained the name of the witness from court records without double checking. So, in addition to the list of witnesses, could he provide a short declaration saying that the list witnesses testified in court proceedings is true and correct? We will provide the court records if need be. Will you log the remaining redactions briefly so we can figure out what else requires redactions?
 - b. LVMPD has agreed to inspection of the records and, without waiving any rights, has agreed for the December 2016 records – just the limited items we discussed at first- to provide the records on a flat fee basis of \$150. We also reserve all rights of course.

Just to confirm our conversation, the purpose of this trial is to determine the time and cost it is going to take in producing the other records and whether the process I proposed works.. If you are agreeable to this, we can work on getting you the list on Monday and time frame in producing the records.

We also agreed that, subject to resolution regarding costs, LVMPD would begin providing the records.

2. **Statistical Information:** The employee that can give me the stats relates to arrests for Johns, arrests for Prostitutes, and trick rolls investigated for 2013-2018 has been out, but is expected to return on Monday. I will forward those figures as soon as I have them. Okay. I was able to confirm that Vice does not have a database for its records.
3. **Arrest Reports:** Your client agreed to limit the arrest reports to solicitation for 2015-2017 for now/ for the list of records that need to be produced right away. For these years, there were a total of 6,863 arrest for solicitation. We propose a test run similar to the investigative files. I don't think one is necessary. You can choose a particular month and we can provide you with the arrest reports on a flat fee basis. We didn't discuss a flat fee when we met and conferred but I have previously proposed this and am open to it.. Once we know the number of arrest reports, we can come up with a number.
4. **SCOPE:** I was able to contact Clark County IT and they confirmed that CCIT is responsible for the database fields. I provided them with a copy of the records you had sent us (data dictionary and schema) and was told that they are the ones that would provide that information. I don't think that CCIT is responsible is the same thing as LVMPD does not have them. I also didn't hear back about whether LVMPD has any SCOPE manuals or training materials.
5. **Unit Assignments:** Your client had agreed to limit its request for unit assignments to patrol officers on January 1, 2017. Without waiving rights, we agree this is a way for us to get the information now. It is LVMPD's position that the unit assignments of its officers are confidential.

I am going to begin preparing the stipulation and wait for any comments or suggestions you have regarding the above topics. We also discussed including language regarding the LVRJ's right to pursue all records it requested and LVMPD's right to preserve its previous objections and arguments. I think we should also include language regarding supplemental

briefing, specifically that the Parties reserve the right to supplemental briefing. Of course, I'll add language regarding the Parties agreement to continue to work in good faith.
