Red Rock Financial Services is a debt collector and is attempting to collect a debt. Any information obtained will be used for that purpose.

In response to your request for payoff figures for the above reference account, the following accounting ledger is a breakdown for the payoff request.

The current balance is \$9,255.44 (Please collect additional \$200.00 transfer fee for new owner payable to: Spanish Trail Master Association). This demand and its balance due will expire on 2/10/12. You MUST request an update as this balance will only be valid through the date above. Payment received after the expiration date will not be accepted if the balance has changed. Failure to remit the balance by the expiration date may result in the continuation of the collection process at an additional cost. Check(s) should be made payable to Red Rock Financial Services and mailed to the address below.

Spanish Trail Master Association and/or the Management Company's transfer fees as well as other fees and costs may not be included. You must contact Spanish Trail Master Association directly for those additional amounts at 702-367-8747.

If you have any questions, please contact our office at 702-932-6887.

Regards,

Red Rock Financial Services

This letter is in response to your Notice of Default with regard to the HOA assessments purportedly owed on the above described real property. This firm represents the interests of MERS as nominee for Bank of America, N.A., as successor by merger to BAC Home Loans Servicing, LP (hereinafter "BANA") with regard to these issues. BANA is the beneficiary/servicer of the first deed of trust loan secured by the property.

As you know, NRS 116.3116 governs liens against units for assessments. Pursuant to NRS 116.3116:

The association has a lien on a unit for:

any penalties, fees, charges, late charges, fines and interest charged pursuant to paragraphs (j) to (n), inclusive, of subsection 1 of NRS 116.3102 are enforceable as assessments under this section

While the HOA may claim a lien under NRS 116.3102 Subsection (1), Paragraphs (j) through (n) of this Statute clearly provide that such a lien is JUNIOR to first deeds of trust to the extent the lien is for fees and charges imposed for collection and/or attorney fees, collection costs, late fees, service charges and interest. Dear SPANISH TRAIL MASTER ASSOCIATION:

Red Rock Financial Services is a debt collector and is attempting to collect a debt. Any information obtained will be used for that purpose.

Red Rock Financial Services correspondence to you stated that failure to reinstate the above account would result in the *Notice of Default and Election to Sell* being prepared and recorded on the above referenced property. Noted in the correspondence, additional fees and costs have been added to the account balance. Enclosed, please find a copy of the *Notice of Default and Election to Sell*.

Please contact Red Rock Financial Services to obtain an "up to date" account balance or to discuss alternative payment arrangements. All Payments must be in the form of a cashier's check or money order. Please ensure the account number is listed on any payments remitted to our office. If we receive partial payments, they will be credited to your account, however, we will continue with the collection process on the balance owed as described above.

Additional information regarding this account can be obtained at www.rrfs.com. Please contact Red Rock Financial Services at 702-932-6887 with any questions.

Regards,

Re: Property Address: 34 Innisbrook Avenue

ACCT NO.: R74507 LOAN #: 138344335 MBBW File No. 12-H0207

Dear Sir/Madame:

As you may recall, this firm represents the interests of Bank of America, N.A., as successor by merger to BAC Home Loans Servicing, LP (hereinafter "BANA") with regard to the issues set forth herein. We have received correspondence from your firm regarding our inquiry into the "Super Priority Demand Payoff" for the above referenced property. The Statement of Account provided by you in regards to the above-referenced address shows a full payoff amount of \$9,255.44. BANA is the beneficiary/servicer of the first deed of trust loan secured by the property and wishes to satisfy its obligations to the HOA. Please bear in mind that:

NRS 116.3116 governs liens against units for assessments. Pursuant to NRS 116.3116:

The association has a lien on a unit for:

any penalties, fees, charges, late charges, fines and interest charged pursuant to paragraphs (j) to (n), inclusive, of subsection 1 of NRS 116.3102 are enforceable as assessments under this section

While the HOA may claim a lien under NRS 116.3102 Subsection (1), Paragraphs (j) through (n) of this Statute clearly provide that such a lien is JUNIOR to first deeds of trust to the extent the lien is for fees and charges imposed for collection and/or attorney fees, collection costs, late fees, service charges and interest. See Subsection 2(b) of NRS 116.3116, which states in pertinent part:

- 2. A lien under this section is prior to all other liens and encumbrances on a unit except:
- (b) A first security interest on the unit recorded before the date on which the assessment sought to be enforced became delinquent...

The lien is also prior to all security interests described in paragraph (b) to the extent of the assessments for common expenses, which would have become due in the absence of acceleration during the 9 months immediately preceding institution of an action to enforce the lien.

Based on Section 2(b), a portion of your HOA lien is arguably prior to BANA's first deed of trust, specifically the nine months of assessments for common expenses incurred before the date of your notice of delinquent assessment. As stated above, the payoff amount stated by you includes many fees that are junior to our client's first deed of trust pursuant to the aforementioned NRS 116.3102 Subsection (1), Paragraphs (j) through (n).

Our client has authorized us to make payment to you in the amount of \$2,025.00 to satisfy its obligations to the HOA as a holder of the first deed of trust against the property. Thus, enclosed you will find a cashier's check made out to Red Rock Financial Services in the sum of \$2,025.00, which represents the maximum 9 months worth of delinquent assessments recoverable by an HOA. This is a non-negotiable amount and any endorsement of said cashier's check on your part, whether express or implied, will be strictly construed as an unconditional acceptance on your part of the facts stated herein and express agreement that BANA's financial obligations towards the HOA in regards to the real property located at 34 Innisbrook Avenue have now been "paid in full".

Thank you for your prompt attention to this matter. If you have any questions or concerns, I may be reached by phone directly at (702) 942-0412.

Sincerely,

Re: 34 Innisbrook Ave, Las Vegas, NV 89113 Spanish Trail Master Association / R74507

To Whom It May Concern:

Red Rock Financial Services is a debt collector and is attempting to collect a debt. Any information obtained will be used for that purpose.

Red Rock Financial Services is sending this notice as a courtesy. The above referenced homeowner is currently delinquent in paying their Homeowners Association assessments. Nevada Revised Statutes allow Homeowners Associations to engage in the non-judicial foreclosure process for nonpayment of Homeowner Association assessments.

On behalf of the above mentioned Association, Red Rock Financial Services has recorded the Lien for Delinquent Assessments on 08/04/2011 and the Notice of Default and Election to Sell Pursuant to the Lien For Delinquent Assessments on 12/06/2011. According to Nevada Revised Statutes, the Notice of Default and Election to Sell must be recorded on the property for 90 days and notification must be sent to all parties listed on the Trustee Sale Guarantee via certified mail before the Association can exercise its rights to enforce the Notice of Default and Election to Sell.

Currently, Red Rock Financial Services is approximately 60 days into the mandatory 90-day waiting period. Please consider this your final notice before the Association exercises its right to continue with the non-judicial foreclosure process by recording the Notice of Sale. The Notice of Sale will be sent via first class and certified mail to those listed on the Trustee Sale Guarantee and other parties who have a vested interest in the property.

The Association's Lien for Delinquent Assessments is Junior only to the Senior Lender/Mortgage Holder. This Lien may affect your position. To reinstate the above account, you must contact Red Rock Financial Services to obtain "up to date" payoff figures. Payment must be made payable to Red Rock Financial Services.

At this time, it is possible that we have been unable to reach the borrower. Your office may have been provided a more current mailing address. Please contact the borrower at any known addresses and have them contact our office immediately, as the above property is in default and may be subject to a foreclosure sale.

Thank you for your assistance in this matter. Additional information regarding this account can be obtained at www.rrfs.com. Please contact the office of Red Rock Financial Services at 702-932-6887 with any questions.

Regards, Red Rock Financial Services

Miles, Bauer, Bergstrom & Winters, LLP Attn: Rock K. Jung, Esq., 2200 Paseo Verde Parkway, Suite 250 Henderson, Nevada 89052

Dear Rock K. Jung, Esq.,

Red Rock Financial Services is a debt collector and is attempting to collect a debt. Any information obtained will be used for that purpose.

Red Rock Financial Services is in receipt of numerous correspondences regarding your interpretation of NRS 116.3116 and NRS 3116.3102. Our response to your correspondence is as follows:

When our office records a Notice of Default on behalf of the Homeowners Association, we are required by NRS 116.31162 to send a copy of the Notice of Default to all who have a vested in interest in the property. As your client reflected as having a vested interest for all properties listed on Exhibit A, a copy of the Notice of Default was provided. Those that have a vested interest in the property are not required but may pay the debt that is attached to that specific Notice of Default.

In the correspondence you state that our lien is "Junior" to your client's, which we agree. However, we do not agree with your interpretation and implementation of NRS 116.3102 under the current situation.

The industry standard interpretation of NRS 116.3102 and our interpretation are as follows: The First Mortgage is "Senior" to the Homeowners Association. Therefore, when the First Mortgage forecloses, according to NRS 116.3102, the First Mortgage is responsible to pay six months of past due assessments from the time the First Mortgage foreclosed. Therefore, NRS 116.3102 only applies when someone who is "Senior" to the Homeowners Association forecloses on the property in question. Please note that as of October 1, 2009, it is a nine month super-priority lien amount.

Anyone who has a vested interest may pay the debt at any time prior to the Homeowners Association proceeding with the non-judicial foreclosure process however the debt must be paid in full. NRS 116.3102 does not apply in this situation.

If your client wishes pay, your client must submit Payoff Request in writing for each property to our office. If your client does not wish pay, please be aware that our office will continue to notify them of any further collection action we may take on the properties listed on Exhibit A as required by law.

We feel we have expressed our position in this matter clearly on numerous occasions; as such we will no longer be addressing these notices. If you feel you have any further information you wish to provide, please feel free to respond to this letter via first class mail or our website www.rrfs.com.

Sincerely,

Kimberlee Sibley Red Rock Financial Services

Re:

Property Address: 34 Innisbrook Avenue, Las Vegas, NV 89113

MBBW File No. 11-H2280

Dear Sirs:

This letter is in response to your Notice of Default with regard to the HOA assessments purportedly owed on the above described real property. This firm represents the interests of MERS as nominee for Bank of America, N.A., as successor by merger to BAC Home Loans Servicing, LP (hereinafter "BANA") with regard to these issues. BANA is the beneficiary/servicer of the first deed of trust loan secured by the property.

As you know, NRS 116.3116 governs liens against units for assessments. Pursuant to NRS 116.3116:

The association has a lien on a unit for:

any penalties, fees, charges, late charges, fines and interest charged pursuant to paragraphs (j) to (n), inclusive, of subsection 1 of NRS 116.3102 are enforceable as assessments under this section

While the HOA may claim a lien under NRS 116.3102 Subsection (1), Paragraphs (j) through (n) of this Statute clearly provide that such a lien is JUNIOR to first deeds of trust to the extent the lien is for fees and charges imposed for collection and/or attorney fees, collection costs, late fees, service charges and interest. See Subsection 2(b) of NRS 116.3116, which states in pertinent part:

SENT VIA FIRST CLASS MAIL

- 2. A lien under this section is prior to all other liens and encumbrances on a unit except:
- (b) A first security interest on the unit recorded before the date on which the assessment sought to be enforced became delinquent...

The lien is also prior to all security interests described in paragraph (b) to the extent of the assessments for common expenses...which would have become due in the absence of acceleration during the 9 months immediately preceding institution of an action to enforce the lien.

Subsection 2b of NRS 116.3116 clearly provides that an HOA lien "is prior to all other liens and encumbrances on a unit except: a first security interest on the unit..." But such a lien is prior to a first security interest to the extent of the assessments for common expenses which would have become due during the 9 months before institution of an action to enforce the lien.

Based on Section 2(b), a portion of your HOA lien is arguably senior to BANA's first deed of trust, specifically the nine months of assessments for common expenses incurred before the date of your notice of delinquent assessment dated November 21, 2011. For purposes of calculating the nine-month period, the trigger date is the date the HOA sought to enforce its lien. It is unclear, based upon the information known to date, what amount the nine months' of common assessments pre-dating the NOD actually are. That amount, whatever it is, is the amount BANA should be required to rightfully pay to fully discharge its obligations to the HOA per NRS 116.3102 and my client hereby offers to pay that sum upon presentation of adequate proof of the same by the HOA.

Please let me know what the status of any HOA lien foreclosure sale is, if any. My client does not want these issues to become further exacerbated by a wrongful HOA sale and it is my client's goal and intent to have these issues resolved as soon as possible. Please refrain from taking further action to enforce this HOA lien until my client and the HOA have had an opportunity to speak to attempt to fully resolve all issues.

Thank you for your time and assistance with this matter. I may be reached by phone directly at (702) 942-0468. Please fax the breakdown of the HOA arrears to my attention at (702) 942-0411. I will be in touch as soon as I've reviewed the same with BANA.

Sincerely,

MILES, BAUER, BERGSTROM & WINTERS, LLP

Red Rock Financial Services is a debt collector and is attempting to collect a debt. Any information obtained will be used for that purpose.

In response to your request for payoff figures for the above reference account, the following accounting ledger is a breakdown for the payoff request.

The current balance is \$15,021.48(Please collect additional \$200.00 homeowner set up fee for new owner payable to: Estates West at Spanish Trail). This demand and its balance due will expire on 2/10/12. You MUST request an update as this balance will only be valid through the date above. Payment received after the expiration date will not be accepted if the balance has changed. Failure to remit the balance by the expiration date may result in the continuation of the collection process at an additional cost. Check(s) should be made payable to Red Rock Financial Services and mailed to the address below.

Estates West at Spanish Trail Association and/or the Management Company's **homeowner set up fees** as well as other fees and costs may not be included. You must contact Spanish Trail Master Association directly for those additional amounts at 702-367-8747.

If you have any questions, please contact our office at 702-932-6887.

Re: Property Address: 34 Innisbrook Avenue

ACCT NO.: R74509 LOAN #: MBBW File No. 11-H2280

Dear Sir/Madame:

As you may recall, this firm represents the interests of Bank of America, N.A., as successor by merger to BAC Home Loans Servicing, LP (hereinafter "BANA") with regard to the issues set forth herein. We have received correspondence from your firm regarding our inquiry into the "Super Priority Demand Payoff" for the above referenced property. The Statement of Account provided by you in regards to the above-referenced address shows a full payoff amount of \$15,021.48. BANA is the beneficiary/servicer of the first deed of trust loan secured by the property and wishes to satisfy its obligations to the HOA. Please bear in mind that:

NRS 116.3116 governs liens against units for assessments. Pursuant to NRS 116.3116:

The association has a lien on a unit for:

any penalties, fees, charges, late charges, fines and interest charged pursuant to paragraphs (j) to (n), inclusive, of subsection 1 of NRS 116.3102 are enforceable as assessments under this section

While the HOA may claim a lien under NRS 116.3102 Subsection (1), Paragraphs (j) through (n) of this Statute clearly provide that such a lien is JUNIOR to first deeds of trust to the extent the lien is for fees and charges imposed for collection and/or attorney fees, collection costs, late fees, service charges and interest. See Subsection 2(b) of NRS 116.3116, which states in pertinent part:

2. A lien under this section is prior to all other liens and encumbrances on a unit except:

(b) A first security interest on the unit recorded before the date on which the assessment sought to be enforced became delinquent...

The lien is also prior to all security interests described in paragraph (b) to the extent of the assessments for common expenses...which would have become due in the absence of acceleration during the 9 months immediately preceding institution of an action to enforce the lien.

Based on Section 2(b), a portion of your HOA lien is arguably prior to BANA's first deed of trust, specifically the nine months of assessments for common expenses incurred before the date of your notice of delinquent assessment. As stated above, the payoff amount stated by you includes many fees that are junior to our client's first deed of trust pursuant to the aforementioned NRS 116.3102 Subsection (1), Paragraphs (j) through (n).

Our client has authorized us to make payment to you in the amount of \$2,025.00 to satisfy its obligations to the HOA as a holder of the first deed of trust against the property. Thus, enclosed you will find a cashier's check made out to Red Rock Financial Services in the sum of \$2,025.00, which represents the maximum 9 months worth of delinquent assessments recoverable by an HOA. This is a non-negotiable amount and any endorsement of said cashier's check on your part, whether express or implied, will be strictly construed as an unconditional acceptance on your part of the facts stated herein and express agreement that BANA's financial obligations towards the HOA in regards to the real property located at 34 Innisbrook Avenue have now been "paid in full".

Thank you for your prompt attention to this matter. If you have any questions or concerns, I may be reached by phone directly at (702) 942-0412.

Sincerely,

MILES, BAUER, BERGSTROM & WINTERS, LLP

Re: Property: 34 Innisbrook Avenue

Las Vegas, NV 89113

Borrower: N/A

File No.: 34 Innisbrook

Opinion of Value: \$ 2,000,000

Effective Date: November 07, 2014

As requested, we have prepared an analysis and valuation of the referenced property. The purpose of this assignment was to develop a value opinion based upon the assignment conditions and guidelines stated within the attached report. Our analysis of the subject property was based upon the property (as defined within the report) and the economic, physical, governmental and social forces affecting the subject property as of the effective date of this assignment.

The analysis and the report were developed and prepared within the stated Scope of Work and our Clarification of Scope of Work along with our comprehension of applicable Uniform Standards of Professional Appraisal Practice and specific assignment conditions provided by the client and intended user.

The findings and conclusions are intended for the exclusive use of the stated client and for the specific intended use identified within the report. The reader (or anyone electing to rely upon this report), should review this report in its entirety to gain a full awareness of the subject property, its market environment and to account for identified issues in their business decisions regarding the subject property.

The opinion assumes the date/time of value to be prior to the HOA lien transfer on the same date and assumes the property to be in good condition and professionally marketed under normal terms.

Use and reliance on this report by the client or any third party indicates the client or third party has read the report, comprehends the basis and guidelines employed in the analysis and conclusions stated within and has accepted same as being suitable for their decisions regarding the subject property.

The value opinion reported is as of the stated effective date and is contingent upon the Certification and Limiting Conditions attached. EXTRAORDINARY ASSUMPTION:

USPAP provides the following definition for "extraordinary assumption":

Defined as an assumption, directly related to a specific assignment, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis. (USPAP, 2016-2017 Edition)

This report was completed without an interior inspection of the subject. External sources including, but not limited to, information from a drive-by street inspection, appraiser's files, county records, and or multiple listing service data were relied upon for information used to describe the improvements and or condition of the subject.

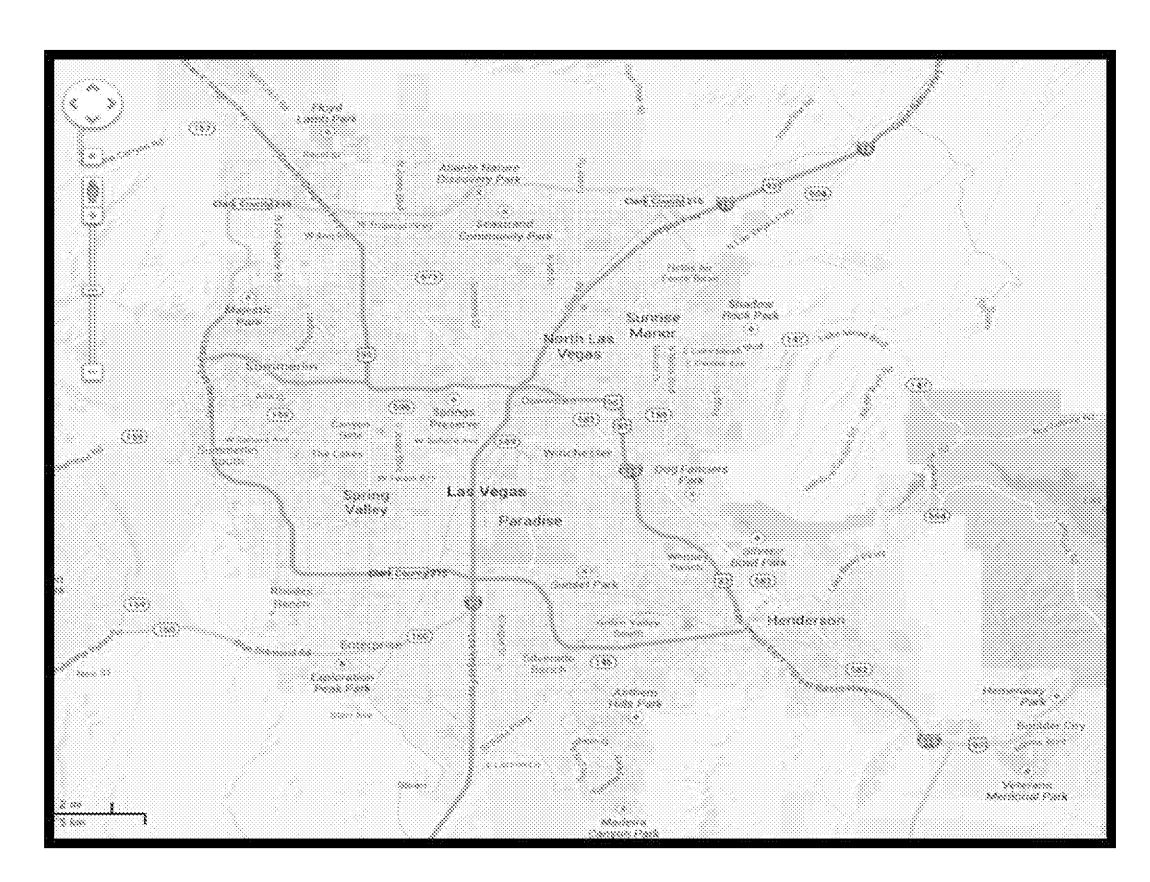

As indicated on page 1 of this report, if the assumptions invoked are found to be false, it could alter the value opinion and or other conclusions in this report. As such, the appraiser reserves the right to amend the value opinion and or conclusions based on new or revised information.

Retrospective Value: is generally defined as "A value opinion effective as of a specified historical date. The term does not define a type of value. Instead, it identifies a value opinion as being effective at some specific prior date. Value as of a historical date is frequently sought in connection with property tax appeals, damage models, lease renegotiation, deficiency judgments, estate tax, and condemnation. Inclusion of the type of value with this term is appropriate, e.g., "retrospective market value opinion." Source: Appraisal Institute, The Dictionary of Real Estate Appraisal, 6th ed. (Chicago: Appraisal Institute, 2015).

The final value within this appraisal assignment represents a "Retrospective" Market Value opinion as of the date of the HOA sale, November 7, 2014, the effective date of this report. The physical exterior inspection of the subject property was performed on February 5, 2017.

General Area Description: The economy revolves around the Las Vegas Strip and Downtown Casino center along with key employment centers such as Nellis AFB, McCarran International Airport, numerous satellite retail, office and industrial districts that employ and service a base of 2-million people. The valley covers over 600+ square miles and includes parts of unincorporated Clark County, the cities of Las Vegas, North Las Vegas and Henderson. The unincorporated county areas within the valley have "Las Vegas" addresses and access to public services, making them transparent local to residents.

The valley is compact and can be crossed from any location in less than 1 hour. Buyer preferences are less dependent on location and more a function of personal choice, neighborhood attributes and housing types. The valley is divided into seven market areas (NW, NC, NE, SW, SC, SE and Henderson), each of which is further defined by political jurisdictions along with any number of master-planned communities a buyer would consider as a neighborhood, with emphasis on lifestyle, amenities and name recognition.

Key Factors influencing Housing Market Trends in the area: People buy or sell based on affordability, investment potential or relocation. From 2004-2007, the market was influenced by speculation. From 2007 through 2012, the market declined severely, influenced by REOs, short sales and investor activity. The market over-corrected from the peak to the bottom, creating an imbalance between "market value" and "economic value." Investors recognized the "economic imbalance" (the spread between the monthly payment vs. the monthly market rent for the same property) and used "all cash sales" to dominate the market for several years.

While investors remain active in the market, recently we are seeing "end users" (owner occupants) take a greater participation in the market. End users also include second homebuyers and long-term investors that purchase homes for rental and cash flow. Unlike investors that buy and flip homes over short periods, end users are more sensitive to shifts in financing.

As interest rates move up from their historically low levels, pricing (and therefore values) will adjust as the market attempts to sort itself out and find balance. Until normal market level balances are reached (relationship between rents and mortgage payments or economic value reaches sale price), it is likely the market will experience some fluctuation between similar units at the neighborhood level.

Economics & Statistics: The economic indicators and statistics presented in this section and following pages are gathered from various public reporting agencies and data sources, and deemed to be consistent in their development methodology. From time to time, different methods may be employed to report various economic indicators. These indicators are presented to provide the reader with a broad overview of the general economy and factors affecting real estate and investment decisions.

Recent Trends: There are many reports covering the Las Vegas MSA (Metropolitan Statistical Area) that simply compare period to period and not "apples to apples." Dynamics affecting this type of data are:

2010: The market was dominated by sales of REOs, "all cash" to investors and liquidated at price points, significantly below economic value (affordability) and often 35%+/- or more below value. Physical condition ranged from average to poor.

2011: There was a shift from a market dominated by REOs to one dominated by short sales. Many short sales were in better condition and unlike 2010; lenders took an active participation in negotiations, increasing prices closer to economic value.

2012: Short sales remained dominant and investors (due to a lack of REO inventory) shifted to short sales. Legislation made it difficult for lenders to foreclose and REO inventory was limited.

2013: Observers indicate lenders are holding REO inventory (from 40,000 to 60,000 units), in effect, creating a temporary shortage. The effect of the shortage has been to increase demand and current prices. Upward shifts in mortgage rates may have a negative effect on demand from end users and could cause some cancelations in the new and resale housing market.

2014: In 2013, the market continued to correct and prices rose by 20% to 30% year over year. By year-end 2013 (and heading into 2014), the market slowed as prices reached short-term peaks and inventory adjusted to demand. YTD 2014, the market continues to sort itself out as prices adjust to demand and affordability. Lower interest rates have improved affordability and we are seeing rent levels, sale prices and the Case Shiller Index improving.

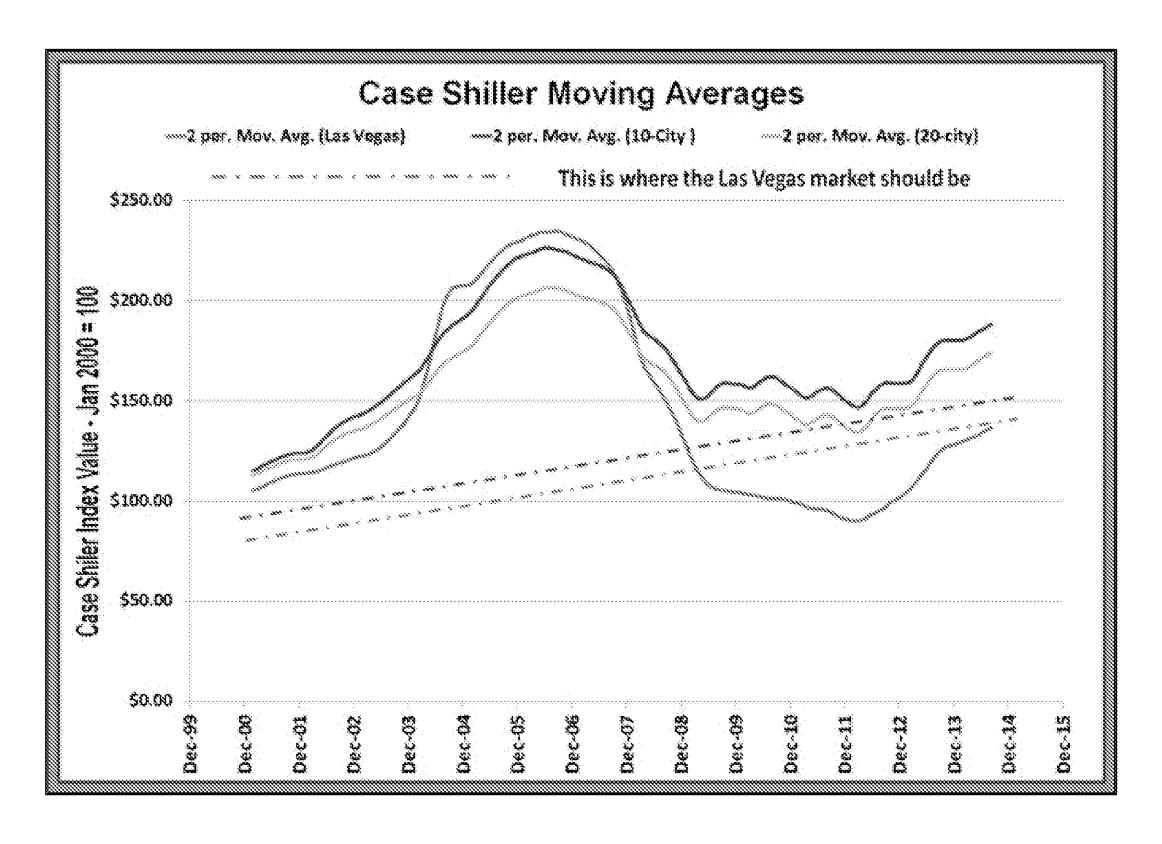

Observations and Conclusions: Statistical analysis and year over year or period-to-period comparison are not reliable as the data reflects multiple sales of the same property (but in different condition), in the same year and or subsequent year and often, a disproportionate mix of highly dissimilar sales (condition). This will give the appearance of "appreciation", when in essence you are comparing "apples to oranges." In normal years, the sales volume reflects sales of a single property to end users as opposed to sale resale of the same property.

You cannot have a sustained recovery without improvement in employment. Investors are now buying and renting more units. Employment is improving, but lagging behind other areas and the national market. The market has corrected to some degree, however, stabilized prices are not a reflection of a "price point market correction," but rather depend on an "economic correction in the market" or the ability of end users (long-term occupants) to buy.

The Case Shiller Index - compares Las Vegas to the 10 City and 20 City Averages. Historically, Las Vegas was below the 10 and 20 City, however, during 2004-2007, Las Vegas exceeded these averages and the market correction began. By 2009, the Las Vegas market over-corrected as shown below and is now attempting to correct back to market norms.

As shown above, Las Vegas still is below the 10 and 20 City averages, however, the gap has closed significantly since late 2011. What we are seeing (current market conditions), is the market sorting itself out and slowly correcting to norms. The two trend lines (red for the composites and blue for Las Vegas) illustrate the normal relationship between Las Vegas and the 10 and 20 City Composites.

The gap between the current Las Vegas market average and the blue Las Vegas trend line show the over-correction (based on buyer affordability) and the market's or recognition of over-correction during 2012 (based upon median income and housing affordability). This is what investors recognized and why investors made significant purchases in the Las Vegas market in 2009 - 2012.

Investors realized what the rest of the market did not, housing in Las Vegas "economically under-valued." The combination of supply, purchasing power (interest rates) and utility (in many cases the condition of the property), made buying a home far more affordable than renting a home or an apartment. An investor could by an "unoccupiable REO" for \$100,000, invest an additional \$25,000 in to it for repairs and sell it for \$150,000, all within 90 days and make a \$25,000 profit. Annualized, the \$25,000 becomes \$100,000 or an 80% annual return. This is why the majority of sales in many markets have been "all cash."

With historic low interest rates, even smaller profit margins, and holding onto and renting homes vs. fixing and flipping homes, makes economic sense to many investors. While single-family rentals are not averaging much more than Class A apartments, they are more attractive to renters (yards, features, size, garages, privacy, etc.), and the resale market value for housing is rising.

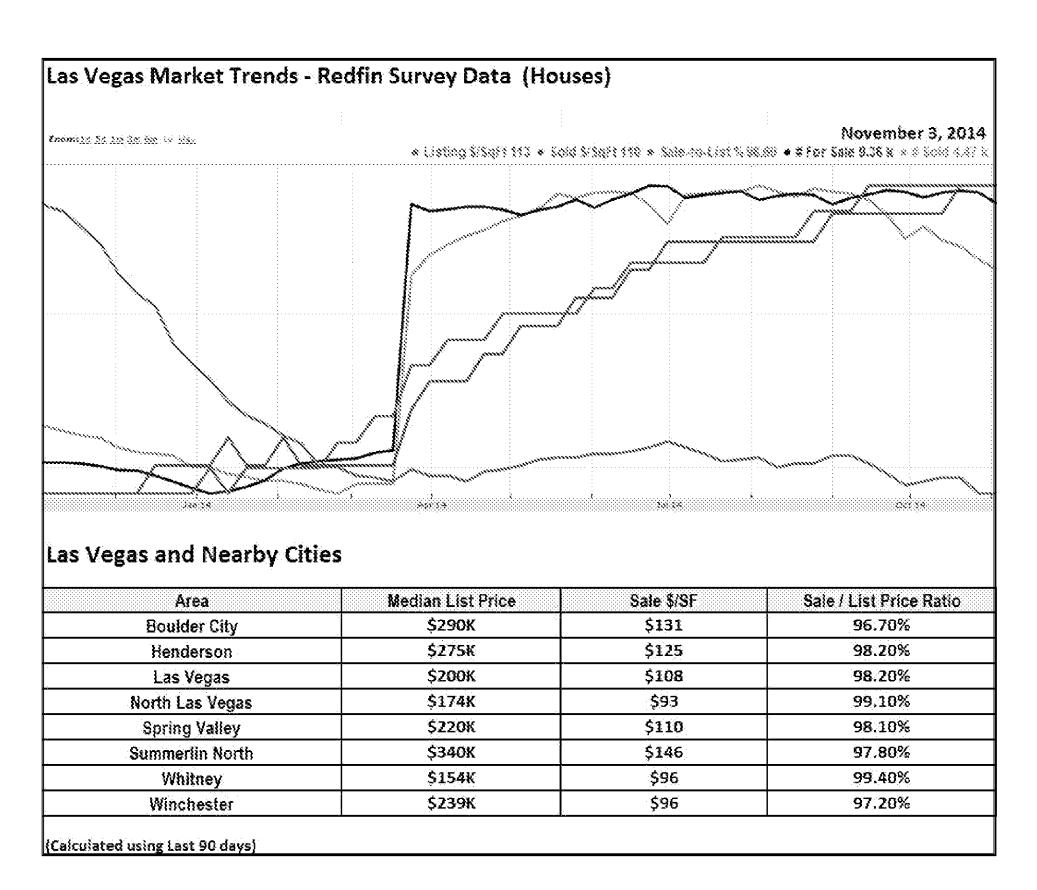

Market conditions is an adjustment for market changes over time, supply and demand conditions and other factors (short or long-term) affecting the market, including financing, affordability, etc. The increase or decrease in property values is the cause, and time is the measurement of the adjustment. During a market correction, there can be short-term spikes in market prices requiring a "market conditions" adjustment.

The Las Vegas housing market correction from 2006-2014, the excessive supply of homes (REO's and short sales) combined with unprecedented low interest rates, combined to create a buyer's market, essentially, conditions whereby buying a house is more affordable than renting one. The interest rates are so low, that an extra 10% increase in price is marginal in terms of additional monthly payment. We cannot project the sustainability of a market shift, only evidence an imbalance, to support a market conditions adjustment at this point.

The chart below from Redfin contrasts listing and sale activity in the Las Vegas Valley over the past 12 months.

Measuring and Reporting Market Conditions: The appraiser's assignment is to identify the risk and place it into context of the market. It is the client's responsibility to measure and underwrite that risk. When reviewing the Las Vegas, NV market data, several things are clear. 1) Demand for underpriced units exceeds supply with demand bolstered by investors; 2) Purchasing power is greater than normal due to historically low interest rates; 3) Single family housing provides greater utility than apartments; and 4) Future supply (shadow inventory) is not on the market and 5) Some housing is not selling due to obsolescence. Essentially, we have inventory available that is not "market acceptable" as it is outdated in design, features, location and price points and the market simply isn't interested, reflected in the number of listings without an offer.

This combination of factors acting in the market is creating a housing shortage (for some market segment) driving prices upwards and closing the gap between where we should have been and where we have been over the past few years. This is evident in the Case-Shiller Index. The market is not in balance and therefore, this combination of influences (rates, investors, supply, demand) creates conditions that affect the market value criteria and the value opinion. Similarly, some market segments (locations, products, etc.) suffer from obsolescence and are effectively, unsalable inventory. This inventory gives the allusion of "inventory available" that really isn't acceptable to the market.

Anyone relying upon the value opinion must consider these factors and take steps to understand and mitigate the risk associated with unknown future market conditions, the speculative activities and influence of investors in the marketplace along with "shadow inventory" (REOs held by lenders). The key factors that influence value are supply and demand, interest rates and jobs. Investors are active in this market area and affect market trends and "prices". Value influences could easily shift and market prices (and eventually values) will shift as well.

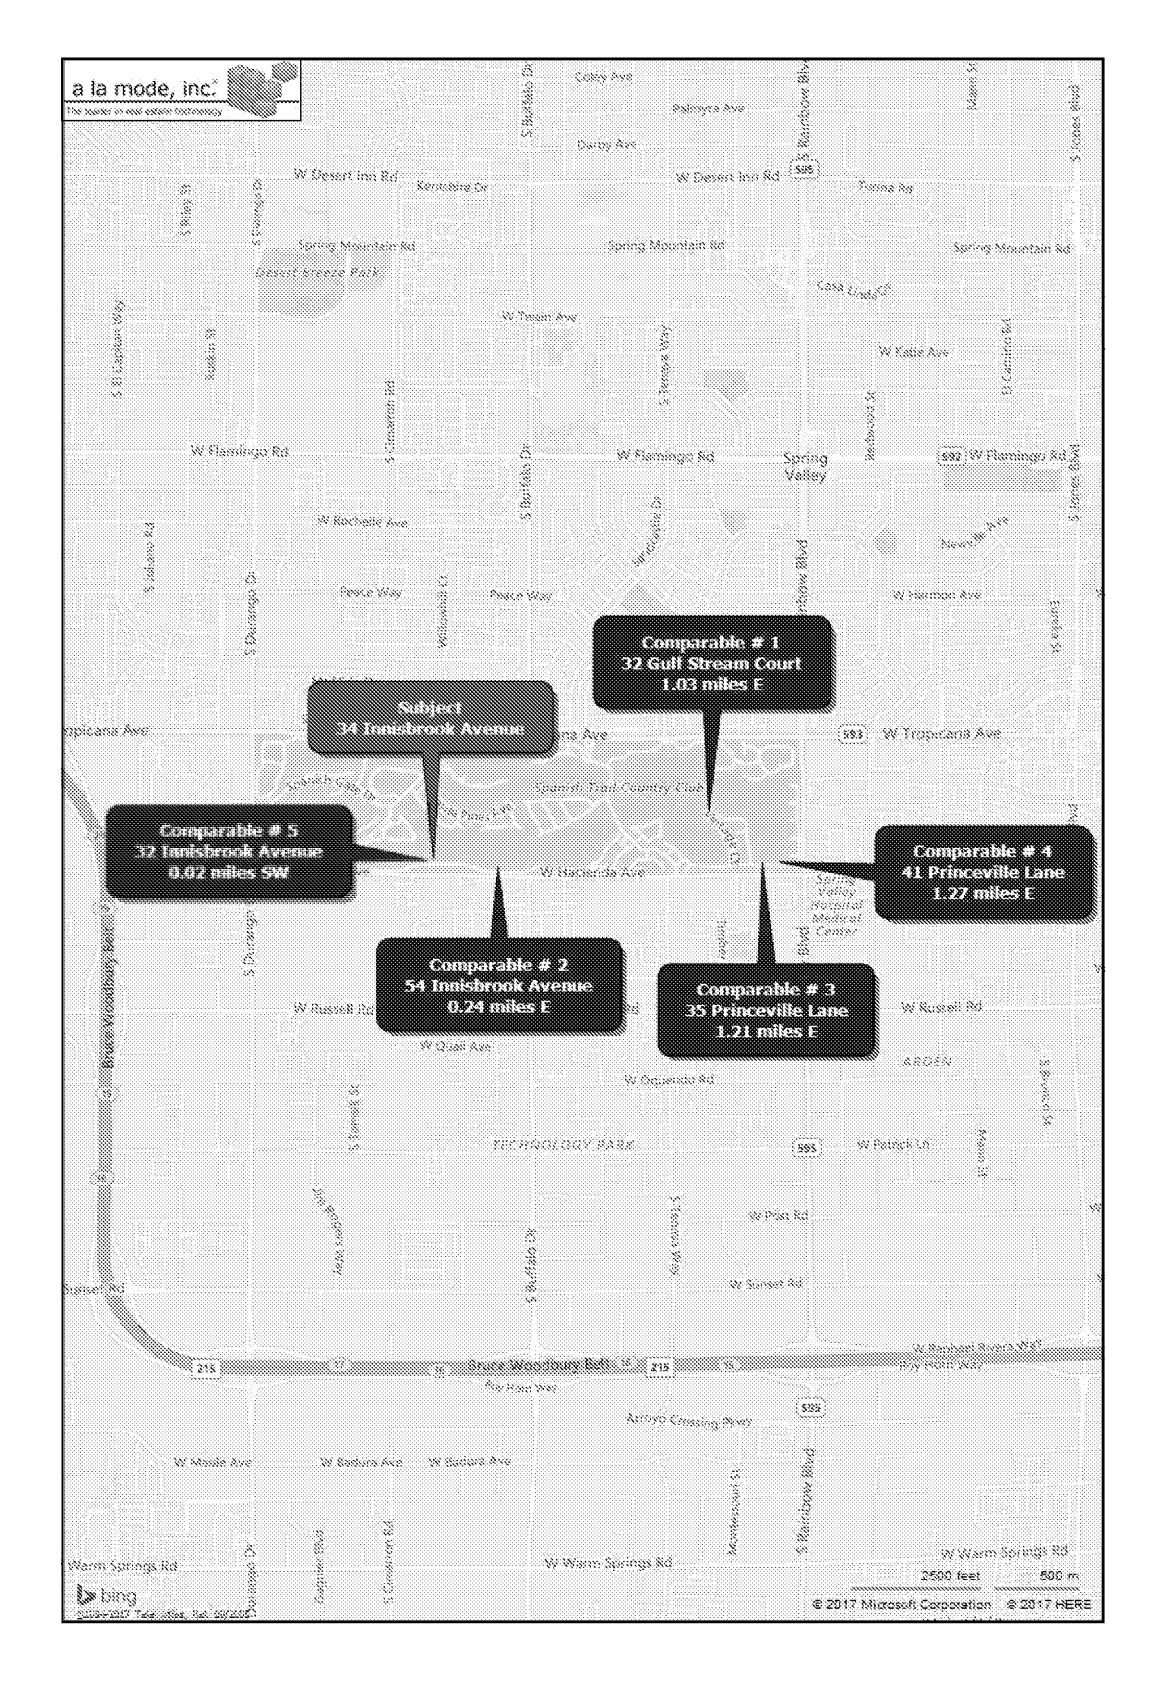

During a correction, sales may not reflect the "collective market" (as required by the definition of "market value"). Over the short-term, market value (most probable price), is tied to the individual market segment and the subject property's position in that segment. Reliability of statistical housing trends is affected by short-term shifts in supply and demand, investor activity and lender liquidations. This translates to sales data that is less reliable than it would be under balanced market conditions.

CLARIFICATION OF SCOPE OF WORK

(Rev. 09/08/2014)

This following, explanatory comments are not a modification of the assumptions, limiting conditions or certifications in the appraisal report, but a "clarification" of the appraiser's actions with respect to generally accepted appraisal practice and the requirements of this assignment. The intent is to clarify and document what the appraiser did and or did not do in order to develop the value opinion.

Limitations of the Assignment: The appraisal process is technical and therefore requires the intended user or anyone relying on the conclusions, to have a general understanding of the appraisal process to comprehend the limits of the applicability of the value opinion to the appraisal problem. Real estate is an "imperfect market" and one that can be affected by many factors. Therefore, supplemental reporting requirements and the realities of the market, including the reliability of the data sources, inability to verify key information and the reliance on information sources as being factual and accurate, can affect the conclusions within the report. Those relying on the report and its conclusions must understand and factor these limitations into their decisions regarding the subject property.

The "single point of value" (SPV) is based on the definition of value (stated within the report) which has criteria that may or may not be consistent in the marketplace. Value definitions often assume "knowledgeable buyers and sellers" or "no special motivations," when these and other criteria cannot be verified. For most assignments, guidelines require the selection and reporting of a SPV, taken from a range of value indicators that may vary high or low from the SPV due to factors that cannot be quantified or qualified within the constraints of the data, market conditions and time limits imposed in the development of the report and associated scope of work.

The SPV conclusion is a "benchmark" in time, provided at the request of the client and or intended user of this report and for the purpose stated. Anyone relying upon the conclusions should read the report in its entirety, to comprehend and accept the assignment conditions as suitable and reliable for their purpose. The definition of market value and its criteria is not universal in its application, nor consistent from one intended use to another.

This report was prepared to the intended user's requirements and only for their stated purpose. The analysis and conclusions are unique to that purpose and should not be relied upon for another purpose or use, even though they may seem similar. Decisions related to this property should only be made after properly considering all factors including information not within the report, but known or available to the reader and comprehending the process and guidelines that shape the appraisal process.

SCOPE OF WORK (SOW): Is "the type and extent of research and analysis in an assignment." This is specific to each appraisal given the appraisal problem and assignment conditions. The SOW is generally similar for most assignments, however, the property type or assignment conditions may require deviations from normal procedures. With some assignments, it is not possible to complete an interior inspection of the subject property. Likewise, with a retrospective date of value, the subject property and comparables may appear different than they were as of the effective value date.

For these and other reasons, this "clarification of scope of work" (COSOW) is intended as a guide to general tasks and analysis performed by the appraiser. These statements are a guide for comparison purposes (as part of the valuation process) and do not represent a detailed analysis of the physical or operational condition of these items. This report is not a home inspection. Any statement is advisory based only upon casual observation. The reader or intended user should not rely on this report to disclose hidden conditions and defects.

Complete Visual Inspection Includes: A visual inspection of only the readily accessible areas of the property and only those components that were clearly visible from the ground or floor level. List amenities, view readily observable interior and exterior areas, note quality of materials/workmanship and observe the general condition of improvements. Determine the building areas of the improvements; assess layout and utility of the property. Note the conformity to the market area. Perform a limited check and or observation of mechanical and electrical systems. Photograph interior/exterior, view site, observe and photograph each comparable from the street.

Complete Visual Inspection Does/Did NOT Include: Observation of spaces or areas not readily accessible to the typical visitor; building code compliance beyond obvious and apparent issues; testing or inspection of the well or septic system; mold and radon assessments; moving furniture or personal property; roof condition report beyond observation from the ground level.

No Interior Inspection: Some assignment conditions preclude inspection of the interior and or improvements on the site. Drive-by, review assignments, proposed construction and other assignment factors may affect the ability to view the improvements from the interior and at times, the exterior. In these cases, the appraiser has disclosed the "non-inspection" and used various sources of information to determine the property characteristics and condition as of the effective date of value. When applicable, these assignment conditions are stated in the report.

Inspect The Neighborhood: Observations were limited to driving through a representative number of streets in the area, reviewing maps and other data and observing comparables from the street to determine factors that may influence the value of the subject property. "Neighborhood" boundaries are not exact and are defined by the influence of physical, social, economic

and governmental characteristics (the same criteria used to define census tracts). Over time, small areas merge and once distinct boundaries become less defined. Comparable data was selected based upon the area proximate to the subject that a buyer would consider directly competitive.

Repairs or Deterioration: Deficiency and livability are subjective terms. The value considers repair items that (in his/her opinion), affect safety, adequacy, and marketability of the property. Physical deterioration has not been itemized, but considered in the approaches to value.

Construction Defects: Construction defect issues (even when widely publicized) are not consistently reported in the MLS data. State law requires disclosure by the seller to a buyer of known defects and or prior issues. The definition of value assumes "informed buyer" and disclosure to the buyer is mandated by law. The analysis and conclusions presume the prices reported in the market data reflect the buyer's knowledge of prior or current defect related issues (if any).

Satisfactory Completion: The work will be completed as specified and consistent with the quality and workmanship associated with the quality classification identified and physical characteristics outlined within the report.

Cost Approach: Is applicable when the improvements are new or relatively new and when sufficient building sites are available to provide a buyer with a "construction alternative" to purchasing the subject. In areas where similar sites are not available and or in cases where the economy of scale from multi-unit construction is not available to a potential buyer, reliability of the cost approach is limited. Applicability of the cost approach in this assignment is specifically addressed in that section of the appraisal report.

If the cost approach was used it represents the "replacement cost estimate." If used, its inclusion was based on one of the following: request by the client; age requirement under FHA/HUD guidelines; or deemed appropriate for use by the appraiser for "valuation purposes." Regardless of the condition or reason for its use, it should not be relied upon for insurance purposes. The definition of "market value" used within this report is not consistent with the definition of "insurable value."

Income Approach: Is applicable when investors regularly acquire properties that are similarly desirable to the subject for the express purpose of the income they provide. While rentals may exist in any area, their presence alone is not proof of a viable rental and investor marketplace. Use or exclusion of the income approach is specifically addressed in that section of the appraisal report.

Gross Living Area (GLA): The Greater Las Vegas Association of Realtors ® MLS auto-populates the GLA from Clark County Assessor (CCAO) records. Assessors in Nevada are granted (by statute), leeway in determination of the GLA via several commonly employed methods to measure properties and typically rounds measurements to the nearest foot. Therefore, it is common to have variances between the "as measured" GLA by the appraiser and the "as reported" GLA from the CCAO. The GLVAR MLS handles more than 90% of the transactions in this area. Buyers and sellers rely on the MLS and therefore, the GLAs therein are the de-facto standard used by the market as a decision making factor. The appraiser deems the CCAO reported GLA as being reasonable and reliable for comparison purposes, regardless of any other standard used by builders, architects, agents, etc. The appraiser has considered these facts in the analysis and reconciled in the value opinion, only differences in GLA that would be "market recognized" and contribute to greater utility or function in the subject or comparable and greater value by the buying and selling public.

Extent of Data Research-Comparable Data: The appraiser used reasonably available information from city/county records, assessor's records, multiple listing service (MLS) data and visual observation to identify the relevant characteristics of the subject property. Comparables used were considered relevant to the analysis of subject property and applicable to the appraisal problem. The data was adjusted to the subject to reflect the market's reaction (if any and in terms of value contribution) to differences. Photographs taken by the appraiser are originals and un-altered, unless physical access was unavailable. In some cases, MLS photographs may be used to illustrate property conditions, views, etc.

Public and Private Data: The appraiser has access to public records and data available on the internet, the Multiple Listing Service, various cost estimating services, flood data, maps and other property related information, along with private information and knowledge of the market that is pertinent and relevant for this assignment.

Adverse Factors: Based upon the standards of the party observing the property, a range of factors internal or external to the property may be "adverse" by their viewpoint. The appraiser noted factors that may affect the marketability and livability to potential buyers, based upon knowledge of the market and as evidenced by sales of properties with similar or comparable conditions. These items are noted in the report and the valuation approaches that were applied to the analysis. Some buyers in the market may consider factors such as drug labs, registered sex offenders, criminal activity, interim rehabilitation facilities, halfway houses or similar uses as "adverse". No attempt was made to investigate or discover such activities, unless such factors were readily apparent and obviously affecting the subject property as evidenced by market data. If the intended user or a reader has concerns in these areas, it is recommended that they secure this information from a reliable source.

Easements: Major power transmission and distribution lines, railroad and other services related easements, including utility easements, limited common areas and conditions that grant others the right to access the subject property and or travel adjacent to the private areas of the subject property. The term adverse applies to individual perspective. It may or may not be negative, dependent upon the individual. One perspective may hold easements to be unappealing visually or disruptive. From another, such easements and corridors provide open space and ensure greater privacy (due to the size of the easement) from neighboring properties. Unless the easement affects the utility or use of the site or improvements, any impact was only considered from the perspective of marketability. In cases where the site abuts a major power transmission easement, the towers are generally centered within the right of-way and engineered to collapse within the easement. The effect or impact is inconsistent (as measured in the market) and therefore unless compelling evidence was found in comparable data, no adjustment was made, only the presence stated.

Valuation Methodology: The data presented in the report is considered to be the most relevant to the valuation of the subject property (and its market segment) based on its current occupancy and market environment. In areas influenced by foreclosure, short-sale and REO activity, and motivated (or impacted) by factors that cannot be qualified or quantified, the transactional characteristics of those sales may not fully meet the definition of market value criteria and therefore may be misleading. Verifications and drive-by inspections frequently reveal inconsistencies between the MLS and public records. Through this process, the appraiser can present the rationale supporting the final value opinion within the reconciliation and the reader can comprehend the logic and its application to the valuation process.

The Value Opinion: The value opinion may not be valid in another time-period. It is important for anyone relying on the report to comprehend the dynamic nature of real estate and the validity of the single value point or value range reported. The reported value is a benchmark or reference in time (as of a specific date) and subject to change (sometimes rapidly), based upon many factors including market conditions, interest rates, supply and demand. Therefore, anyone relying on the reported conclusions should first comprehend and accept the assignment conditions, assumptions, limiting conditions and other factors stated within the report as being suitable and reliable for their purpose and intended use.

Specific Reporting Guidelines: Market participants have unique appraisal reporting guidelines. The COSOW is supplemental to the forms stated scope of work, providing an overview of the appraiser's actions with respect to general appraisal practice and the stated requirements of the assignment. The intent is to clarify what the appraiser did and or did not do in order to develop the value opinion. Guidelines require the borrower receive a copy of the appraisal report, however, the borrower is not an intended user. The appraisal process and specific reporting requirements are highly technical and in most cases, beyond the comprehension of most readers. Anyone choosing to rely upon the appraisal should read the report in its entirety and if needed, consult with professionals that can assist them with understanding the basis of this report and the required reporting requirements, prior to making any decisions based upon the conclusions and or observations stated within.

Use of Electronic Appraisal Delivery Services: If the client directed that the appraiser transmit the content of this report via Appraisal Port or a similar delivery portal service, pursuant to user agreements, these services disclaim any warranty that the service provided will be error free and that these services may be subject to transmission errors. Accordingly, the client should make its own determination as to the accuracy and reliability of any such service they employ. The appraiser makes no representations and specifically disclaims any warranty regarding the accuracy or portrayal of content transmitted via Appraisal Port or any similar service or their reliability. The appraiser uses such technology at the specific direction and sole risk of the client. At its request, the client may obtain a true copy of the original report directly from the appraiser via email (PDF), mail or other means.

Appraiser:	R. Scott Dugan, SRA	Address: 8930 West Tropicana Avenue, Su	uite 1. Las Vegas	s. NV 89147	

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

Additional Comments (Scope of Work, Extraordinary Assumptions, Hypothetical Conditions, etc.):

Important – Please Read – The client should review this report in its entirety to gain a full awareness of the subject property, its market environment and to account for identified issues in their business decisions. This appraisal report includes comments, observations, exhibits, maps, explanatory comments, and addenda that are necessary for the reader to comprehend the relevant characteristics of the subject property. The Expanded Comments and Clarification of Scope of Work provides specifics as to the development of the appraisal along with exceptions that may have been necessary to complete a credible report.

INTENDED USE/USER:

The intended user of this appraisal report is the lender/client. No additional intended users are identified by the appraiser. This report contains sufficient information to enable the client to understand the report. Any other party receiving a copy of this report for any reason is not an intended user; nor does it result in an appraiser-client relationship. Use of this report by any other party(ies) is not intended by the appraiser.

SCOPE OF WORK:

In the normal course of business, the appraiser attempted to obtain an adequate amount of information regarding the subject and comparable properties. Some of the required standardized responses, especially those in which the appraiser has not had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Consequently, this information should be considered an estimate unless otherwise noted by the appraiser.

Examples include condition and quality ratings, as well as comparable sales and listing data. Not every element of the subject property was viewable, and comparable property data was generally obtained from third-party sources (real estate agents, buyers, sellers, public records, and the Greater Las Vegas Board of Realtors Multiple Listing Service).

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

Additional Certifications:

<u>Supplemental Certification:</u> In compliance with the Ethics Rule of USPAP, I hereby certify that I have not performed any services with regard to the subject property within the 3-year period immediately preceding the engagement of this assignment.

<u>Supplemental Certification:</u> The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives. The reported analyses, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute. As of the date of this report, I, R. Scott Dugan, SRA, Certified General Appraiser, have completed the continuing education program for Designated members of the Appraisal Institute.

Definition of Market Value: (X) Market Value () Other Value

Source of Definition: FDIC Interagency Appraisal and Evaluation Guidelines (December 2, 2010) Appendix D

As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1. Buyer and seller are typically motivated;
- 2. Both parties are well informed or well advised, and acting in what they consider their best interest;
- 3. A reasonable time is allowed for exposure in the open market;
- 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
- *The definition of market value above is the most widely cited by federally regulated lending institutions, HUD and VA. Absent a specific definition from the client, this definition was used in the assignment.

RESPONSE TO REQUEST NO. 18: 2 Admit. **REQUEST FOR ADMISSION NO. 19:** 4 Admit YOU have entered into a lease agreement concerning the use of the Property. **RESPONSE TO REQUEST NO. 19:** 6 Admit that the property has been leased. **REQUEST FOR ADMISSION NO. 20:** Admit YOU have received income through leasing YOUR interest in the Property. 9 **RESPONSE TO REQUEST NO. 20:** 10 Admit. 11 **REQUEST FOR ADMISSION NO. 21:** Admit YOU have no evidence that THORNBURG had actual notice prior to the HOA Sale that 13 the HOA was asserting a lien against the Property for unpaid HOA assessments, dues and/or fines. **RESPONSE TO REQUEST NO. 21:** 16 Deny. **REQUEST FOR ADMISSION NO. 22:** 18 Admit YOU have no evidence that THORNBURG had actual notice, prior to the HOA Sale, that the HOA recorded a Notice of Delinquent Assessment (Lien) against the Property. 20 **RESPONSE TO REQUEST NO. 22:** 21 Deny. 22 **REQUEST FOR ADMISSION NO. 23:** 23 Admit YOU have no evidence that THORNBURG was notified, prior to the HOA Sale, that the HOA recorded a Notice of Default and Election to Sell Under Homeowners Association Lien against the 26 Property. RESPONSE TO REQUEST NO. 23: 28 Deny.

REQUEST FOR ADMISSION NO. 24: Admit YOU have no evidence that THORNBURG had actual notice, prior to the HOA Sale, that 2 the HOA recorded a Notice of Foreclosure Sale against the Property. **RESPONSE TO REQUEST NO. 24:** 5 Deny. **REQUEST FOR ADMISSION NO. 25:** Admit that the HOA Sale was not commercially reasonable as to the manner of the sale. **RESPONSE TO REQUEST NO. 25:** 9 Objection. Commercial reasonableness is not required in a foreclosure sale conducted pursuant 10 to NRS Chapter 116. Without waiving this objection the plaintiff denies this request. The auction and sale was conducted pursuant to Chapter NRS 116, and as a matter of law was commercially reasonable. Plaintiff therefore denies. **REQUEST FOR ADMISSION NO. 26:** 15 Admit that the HOA Sale was not commercially reasonable as to the method of the sale. **RESPONSE TO REQUEST NO. 26:** 17 See response to request no. 26. 18 **REQUEST FOR ADMISSION NO. 27:** 19 Admit that you were the only prospective purchaser to bid on the Property. 20 **RESPONSE TO REQUEST NO. 27:** 21 Deny. 22 **REQUEST FOR ADMISSION NO. 28:** Admit that Thornburg's predecessor in interest attempted to make a payment in an amount equal to 9 months of assessments to the HOA prior to the HOA foreclosure sale. **RESPONSE TO REQUEST NO. 28:** Objection, ambiguous as to time. 27

1	REQUEST FOR ADMISSION NO. 28:(sic)
2	Admit that Thornburg's predecessor in interests' attempted payment equal to 9 months of
3	assessments constitutes the super-priority amount for the Property.
4	RESPONSE TO REQUEST NO. 28:
5	See response to prior request.

MEMORANDUM OF POINTS AND AUTHORITIES

I. PARTIAL OPPOSITION TO MOTION FOR SUMMARY JUDGMENT

a. LEGAL STANDARD

NRS 444.520(3) affords special properties to Republic's liens: "Until paid, any fee or charge levied pursuant to subsection 1 constitutes a perpetual lien against the property served, superior to all liens, claims and titles other than liens for general taxes and special assessments. The lien is not extinguished by the sale of any property on account of monpayment of any other lien, claim or title, except liens for general taxes and special assessments. The lien may be foreclosed in the same manner as provided for the foreclosure of mechanics' liens." (See NRS 444.520(3)). (Emphasis added).

b. ARGUMENT

Pursuant to NRS 444.520(3), Republic's liens are not extinguished by the sale of the property, and given the super-priority status of Republic's liens, none of the parties in this matter are above Republic. Thus, Republic is simply asking the Court to stay consistent with Nevada law, and formally order that Republic maintains the priority position it would be in regardless of the outcome of this lawsuit.

c. CONCLUSION

Therefore, Republic respectfully requests that any Order the Court may enter as a result of Plaintiff's Motion clarifies that Republic's liens remain in place and are superior to the interests of the other parties.
