COUNTY OF CLARK)

STATE OF NEVADA)

Case No. 81184

I, Baron Jones, with free intentions, state that the following is true and correct to the best of my ability under penalty of perjury

1. On or about May 21, 2020, while housed at Clark County Detention Center, between or around 11:00am, an officer came to my cell and told me to pack up my stuff. I asked where I was going; he said a mental health hospital. I explained that I did a habeas corpus, how could they move me. he said I am going to STEIN (SNAMHS), and I will do fine there.
2. On or about May 21, 2020, at or around 1:00pm, I was transferred to STEIN (SNAMHS); during the preliminary interview questions they asked if I knew why I was here. I explained and further explained how I understood the charges.
3. On or about May 26, 2020, after lunch, Dr. Abu Kamil (my doctor here) came to my room. He asked me if I understood the charges; I said yes I did and almost verbatim recited the statute (about receiving a positive test result approved by the Nevada Department of Health and then engages in a sexual act without full disclosure of the positive test result). I disclosed to him about the probable cause being erroneous and someone else's medical records. The criminal complaint being in violation of N.R.S. 4.320 because it was unsigned, and about how the justice court exceeded its jurisdiction by ordering me to complete a mental evaluation prior to a preliminary hearing which is in violation of *Urbener v Justice Court*, and N.R.S. 171.196 [hereinafter "3H", for 3 grounds for Habeas]. I had to explain this to him several times because he kept talking about the original charge. I also asked him if I could get the Nevada Disability Law Center phone number, he referred me to another staff to get the number.
4. On or about May 28, 2020, I called the Nevada Disability Advocate and Law Center (NDALC). The lady explained that they could not help me; which I found to be an ambiguous answer.
5. On or about June 2, 2020, before lunch I met with my treatment team at STEIN. They asked if I understood the charges. I answered in the affirmative. I also disclosed to them the three egregious errors upon which this petition is filed; 3H: (1) Erroneous Probable Cause (being someone else's medical records); (2) How the criminal complaint is unsigned in violation of N.R.S. 4.320; and (3) How the Justice Court exceeded its jurisdiction by ordering me to complete a mental evaluation prior to my preliminary hearing (when I specifically asked for one) in violation of *Urbener v Justice Court*, and N.R.S. 171.196. The treatment team came to a consensus: contact my attorney.
6. I explained how they are all mandated reporters and my rights are being violated and now I am suffering abuse because I contacted my attorney. Christie Craig, her supervisor Melissa Alvarez, and her supervisor Virginia Eichacker, and how none of them contacted me, and that was several months ago, prior to the order for mental competency evaluation. Now I left a message for my attorney Claudia [redacted] who represented me on May 8, 2020, mental competency hearing, according to Civil Order of Commitment on May 19, 2020, regarding 3H - over two weeks later I have not heard anything. I also explained to them, I believe I had, that the

district judge, Linda Marie Bell, had ensured, on the record, to her clerk, that she would have my attorney, Christie Craig contact me (I have not heard from Craig still to date) [thereinafter, "AE", for Attorney Errors].

7. On or about June 2, 2020, between or around 1:50pm - 4:50pm, I called my attorney Claudia Romney (according to the Public Defenders Office, she's Christie Craig's supervisor), and her Supervisor Virginia Eichacker and left messages regarding 3H. I called back to the public defenders office and asked if Eichacker had a supervisor (because I already contacted her several times several months ago about Craig's behavior back in March and April 2020), the receptionist said that she did not, and I found that peculiar and said so, and I stated that everyone has someone that they report to, she said that Eichacker did not. I proceeded to explain to the receptionist my reason for my asking: AE. And she transferred me to Jason Ryer, I left a message regarding the 3H and AE.
8. On or about June 2, 2020, between or around 1:30pm - 4:30pm, I called the patient advocate here at STEIN and left a message about 3H and AE; I called the Disability Advocacy and Care Center again, I explained how I am a vulnerable adult and disabled and receive disability benefits SSDI, and told her about 3H and AE she said she would forward my complaint to the proper person and they would contact me back (this receptionist lady was different from the last one); I called the Center for Medicare and Medicaid Services and told them about 3H and AE, they said they may not be able to help me but still filed a complaint for me (I disclosed how I am also a vulnerable adult and disabled), Case No. NV674336Q, she transferred me to the Central Improvement Organization and I told her the same thing; she explained that they may not be able to help, and that I should not be being denied access to my attorney (she later told me her name is Mary J.); she said she would contact my case worker here to help expedite my concerns to my attorney and to have my attorney call me back; I called the Dept. of Public and Behavior Health about 3H and AE by leaving a message to have them contact me; I also contacted the State Bar and Judicial Discipline Committee and left messages for them to mail me the complaint forms.
9. On or about June 3, 2020, before lunch, Dr. Abu Rami (psychiatrist) came to see me. He asked: AI understood the charges. I said yes. He explained to me the process of restoration of competency (e.g., classes, therapy groups if necessary, test and medication). Our conversation was a recap of what was talked about with the treatment team; how he wanted to get my medical records from Seven Hills; he wanted to place me on some medication, but I declined. I explained to him again 3H and AE and how I believe they are joint - to ct reasons in violating my rights. He said he would contact my attorney about what I told him regarding AE. I believe there is a breakdown in communication between me and Dr. Abu Rami, because he is refusing to believe 3H and AE, and that that could happen. He ultimately agreed that he would contact my attorney and have her send him the probate Cause evidence (I asked him to do that so that he could believe me). He told me my treatment team is: Leah Riley, psychologist; Lisa Johnson social worker; Corey H. Support; Marco M. nurse; and Jessica C. intern; there was no other individual who had said his name during introductions that Dr. Abu Rami failed to mention; Edward McNeil, social services.
10. On or about June 3, 2020, after lunch, I called the patient advocate here at STEIN again, Laura Phelps, and told her about how I am disabled and a vulnerable adult, 3H and AE; she also said she would contact my attorney; I told her about AE again, she said she would contact my social worker here, Lisa Johnson, so that my attorney would contact me.

11. On or about June 5, 2020, I took several legal competency test.
