ELIZABETH A. GRAY
CLERK OF SUPREME COURT
BY  DEPUTY CLERK

It just isn't fair for the tenants to have all the rights. They can destroy your place, not pay rent and they'll know they can stay free for X amount of months.

Please, do not become like Los Angeles. I have a tenant who has a lot of money Plus has collected \$18,000 from unemployment. and is living off me for the last nine months and it will continue.

They need no proof of their hardship they just don't have to pay, and I know I will never see that money plus I have to put up with her living on my property.

Fair is fair and I feel that the landlord side is not being represented.

Please take this into consideration, right now the tenants have all the rights Sincerely Leslie Steadman
