MR. GUTIERREZ: Yes, Your Honor. We're going to call Shane Terry first.

THE COURT: Okay.

MR. GUTIERREZ: After Mr. Terry, we're going to have Phillip Peckman on behalf of Thrive.

THE COURT: Okay.

MR. GUTIERREZ: And after Mr. Peckman, I'll have Alex Yemenidjian on behalf of Essence.

THE COURT: Okay.

MR. GUTIERREZ: And that's all our witnesses, Your Honor.

THE COURT: So you've got three.

MR. GUTIERREZ: Yes.

THE COURT: And then after that will you be done?

MR. GUTIERREZ: We'll be done after that, Your Honor.

THE COURT: Do any of the other defendants in intervention plan on calling any witnesses today? Because we're trying to wrap up all of the evidence today.

Okay. Is there going to be a rebuttal case other than the issue I've talked about with Mr. Gentile on the bond.

MR. GENTILE: That depends on what the testimony is.

THE COURT: I understand. But right now do you think you're going to have a rebuttal case?

JD Reporting, Inc.

1 MR. GENTILE: As of right now, no.

2 THE COURT: Okay.

3 MR. CRISTALLI: And, Your Honor, with regard to
4 Mr. Terry, I know he's not an intervenor in this case. I know
5 that he is an applicant. We do not have his application. We
6 have not had an opportunity to review it even in a redacted
7 form. I think we should have an opportunity if he's going to
8 get up and testify as it relates to these proceedings, and we
9 would like that chance to be able to understand the ownership
10 structure of his company. Unless --

11 THE COURT: What's the name of his company?

12 MR. CRISTALLI: I believe it's TapRoots, and the
13 applicant name I believe is Grassroots, but I may be wrong on
14 that.

15 UNIDENTIFIED SPEAKER: That would be -- it's TapRoot.

16 MR. CRISTALLI: Well, the applicant --

17 THE COURT: So it's not NuVeda any more?

18 MR. RULIS: The LLC is --

19 No. It's TR --

20 THE COURT: Because they were here yesterday, and
21 they told me he had sold.

22 MR. RULIS: Okay. It is not NuVeda any more. It is
23 TRNV -- TRNVP098, LLC.

24 THE COURT: So does anyone have his application so
25 someone can ask him if it's okay to look at it?

1 (No audible response)

2 THE COURT: It's a yes or no.

3 UNIDENTIFIED SPEAKER: I don't know.

4 THE COURT: So I'm guessing nobody has it. All
5 right. That will be a slight delay.

6 Mr. Gutierrez, I've got to work that out before he
7 takes the stand.

8 MR. GUTIERREZ: I understand.

9 THE COURT: So are you going to --

10 MR. GUTIERREZ: I don't know that his application --

11 THE COURT: Are you going to are you going to
12 caucus --

13 MR. GUTIERREZ: -- has been produced.

14 THE COURT: That's why we're having a discussion.

15 MR. GUTIERREZ: Yeah. I think it was just the
16 parties.

17 THE COURT: So that's why we're having the
18 discussion. It needs to be made available in some form or
19 other. And so I need you all to caucus, perhaps with
20 Mr. Terry, because he's the one who will have to give some
21 consent related to that before we go forward.

22 So you guys do that while I'm sitting here waiting.

23 MR. GUTIERREZ: Do we have the -- does the State have
24 the unredacted version?

25 MR. BHIRUD: Not on me, probably back in my office.

JD Reporting, Inc.

1 MR. GUTIERREZ: Yes.

2 THE COURT: That would be at Washington and Las Vegas
3 Boulevard.

4 MR. BHIRUD: Yeah.

5 MR. CRISTALLI: And I'm assuming we're going to have
6 a redaction issue on top of that.

7 THE COURT: I don't know, Mr. Cristalli. I've got
8 multiple steps to go through.

9 (Pause in the proceedings.)

10 THE COURT: Did you have an opportunity --

11 MR. GUTIERREZ: Your Honor, Mr. Terry is getting the
12 application. I think what we would agree to is to produce the
13 same unredacted portions that have been produced by the
14 intervening defendants.

15 THE COURT: Okay.

16 MR. GUTIERREZ: He's going to email it to us that we
17 can get those portions over so maybe we can start with
18 Mr. Peckman first.

19 THE COURT: Okay.

20 MR. GUTIERREZ: And then see if we can get that
21 straightened out if that works.

22 THE COURT: Is that agreeable to everyone?

23 MR. GENTILE: Yes, Your Honor.

24 THE COURT: All right. That'll be the plan. Thank
25 you. Good solution, gentlemen.

JD Reporting, Inc.

1 So I'm still missing Mr. Khan, and since I'm four
2 minutes early, I can't start until at least 9:30.

3 (Pause in the proceedings.)

4 (Proceedings recessed at 9:27 a.m., until 9:32 a.m.)

5 THE COURT: All right. Mr. Gutierrez, are you ready
6 to start?

7 MR. GUTIERREZ: We're ready, Your Honor. We're going
8 to start with Mr. Peckman.

9 THE COURT: Perfect timing, Mr. Khan.

10 MR. KAHN: Thank you, Your Honor. Glad I'm not late,
11 but --

12 (Pause in the proceedings.)

13 THE COURT: Your next witness.

14 MR. GUTIERREZ: Your Honor, we call Phillip Peckman.

15 THE COURT: Mr. Peckman, if you'd come forward,
16 please.

17 **PHILLIP PECKMAN**

18 [having been called as a witness and being first duly sworn,
19 testified as follows:]

20 THE CLERK: Thank you. Please be seated. Please
21 state and spell your name for the record.

22 THE WITNESS: Phillip Craig Peckman. P-e-c-k-m-a-n.

23 THE COURT: Good morning, Mr. Peckman. You've been
24 here for several days. You can sit down. There are M&Ms in
25 the dispensers. There are more binders than you -- than you

 JD Reporting, Inc.

1 could possibly imagine, and there's water in the pitcher. If
2 you need a break at any time, you let us know.

3 THE WITNESS: I may have to stand up on occasion
4 because of my sore back.

5 THE COURT: Please, please feel free to stand up if
6 you need to.

7 THE WITNESS: If that's okay.

8 THE COURT: And if your voice drops or you get too
9 far from the mic, we will remind you to keep your voice up.

10 THE WITNESS: This is it right here.

11 THE COURT: Okay. But if you need to stand up, you
12 just do so, sir. And if you need a break, let us know.

13 You may proceed, Counsel.

14 MR. GUTIERREZ: Thank you, Your Honor.

15 DIRECT EXAMINATION

16 BY MR. GUTIERREZ:

17 Q Good morning, Mr. Peckman. Could you give us an
18 overview of your educational background.

19 A I'm from Iowa. I went to school at Creighton
20 University in Omaha, Nebraska. I have degrees in economics,
21 political science and accounting. I also went to University of
22 Iowa. I went to Drake Law School. I passed the bar in Iowa,
23 and I practiced law in Iowa before I moved here.

24 Q And just give us an overview of your work experience
25 after law school.

1 A After law school I practiced law. I was inclined to
2 like tax. I joined a national accounting firm called McGladrey
3 and Poland. I moved out here in 1980 where I became managing
4 partner of that firm here, and I was there, and my whole
5 experience with McGladrey was 16 years.

6 In 1990, I left McGladrey and Poland, and I joined a
7 company here called Greenspun, and, the Greenspun Corporation,
8 I joined them as the COO in 1990. I left as a CEO 16 years
9 later.

10 Q And tell us, what's your current involvement with the
11 marijuana industry?

12 A I'm one of the owners of a company called Thrive.

13 Q Do you have any other roles in addition to owners?

14 A I am one of the -- I am the advisory manager. I have
15 emphasis not in operations, but in the political side,
16 lobbying, raising money, accounting, taxation, acquisition,
17 things like that.

18 Q So those are some of the duties you perform --

19 A Yes.

20 Q -- as part of that role?

21 A Yes.

22 Q Okay. And how did you get involved with Thrive?

23 A Years ago, probably 2013, when the medical licenses
24 were coming on board, several of us talked about it, and so a
25 group of us made applications for licenses.

1 Q Okay. And who else is involved with the ownership of
2 Thrive?

3 A There's seven of us: Mitch Britten is our CEO and
4 one of the major owners; Nick Mamula, local resident; Julie
5 Murray; David Brown; myself; and Tom Hallback [phonetic].

6 Q Is Ed Findlay and owner as well?

7 A Oh, yeah. I'm sorry. Ed Findlay, yes, he's an owner
8 too.

9 Q Are you aware of the ownership structure of Thrive?

10 A Yes.

11 Q Okay. And it's my understanding there's a holding
12 company; is it CPCM Holdings LLC?

13 A Yes, there is.

14 Q And can you describe the ownership structure for us
15 from a -- for the LLCs.

16 A The owners own their interest in CPCM, and there are
17 three companies below that, all of them have licenses. One is
18 MB which is basically Mitch Britten [indiscernible] grow.

19 The other one is Commerce. That has a Springfield
20 license.

21 The other one is Cheyenne. That has a dispensary
22 license.

23 And they've been around since 2014.

24 Q Okay. So Cheyenne Medical LLC is a separate LLC with
25 its own medical marijuana license; is that correct?

1 A Yes.

2 Q And then Commerce Park Medical LLC has its own
3 license as well; is that correct?

4 A Yes.

5 Q And you said they were formed in what year?

6 A 2014.

7 Q Okay. There's been a suggestion in this Court that
8 Thrive created these LLCs, Commerce Park Medical and Cheyenne
9 Park specifically to apply for the 2018 process. Is that true?

10 A No. They been around since 2014.

11 Q Okay. So they're not newly created entities? Is
12 that fair to say?

13 A No, they're not.

14 Q Now, during the 2018 application process, did Thrive
15 apply for licenses under Commerce Park LLC and Cheyenne Medical
16 LLC?

17 A Yes.

18 Q Okay. Now, are you aware of any statute or
19 regulation that says an entity can only apply for one license
20 per jurisdiction?

21 A No.

22 Q Are you aware of other companies, including companies
23 on the plaintiffs' side had used separate LLCs to file multiple
24 applications in the same jurisdiction?

25 A Yes.

1 MR. GENTILE: Objection to foundation.

2 THE COURT: Overruled.

3 BY MR. GUTIERREZ:

4 Q Would Tryke be one of those companies?

5 A Yes.

6 Q Okay. And NuVeda as well?

7 A NuVeda, yes.

8 Q Now, Mr. Peckman, you said you did lobby on behalf of
9 the company for Thrive; is that fair?

10 A Yes.

11 Q Okay. Are you aware of the 2016 ballot initiative?

12 A Yes.

13 Q I want to ask you a few questions about it. So we
14 can turn to NRS 453D.020 -- or -020. Now, this should come up
15 on your screen, but --

16 (Pause in the proceedings.)

17 THE COURT: And, sir, if you want to look at the real
18 book too, you can if that's helpful.

19 MR. GUTIERREZ: Your Honor, do we have the book for
20 him?

21 THE COURT: I do.

22 MR. GUTIERREZ: Thank you.

23 THE COURT: At least I think I do.

24 (Pause in the proceedings.)

25 THE COURT: Sir, I apologize. This is an entire

JD Reporting, Inc.

1 replacement volume. There's no pocket part anymore. So
2 hopefully that one will work.

3 BY MR. GUTIERREZ:

4 Q All right. Mr. Peckman, if you could turn to
5 453D.020.

6 A Okay.

7 Q Let me know when you have that in front of you.

8 THE COURT: Wait, sir. I think I gave you the wrong
9 book. That's 433. And it is still in the pocket part which is
10 the very back with those little looseleaf --

11 THE WITNESS: A, B, C. These go A, B, C.

12 I have 453D here. I have --

13 THE COURT: So that book, the whole -- go all the way
14 to the back.

15 THE WITNESS: Oh, thank you. A, B, C --

16 THE COURT: Keep going. There's a looseleaf thing
17 stuck in the back.

18 THE WITNESS: Oh, back here. I'm sorry about that.

19 THE COURT: It's okay. It's a lawyer thing called a
20 pocket part.

21 THE WITNESS: Yes, I have it.

22 MR. GUTIERREZ: Okay. Excellent.

23 BY MR. GUTIERREZ:

24 Q Now, Mr. Peckman, what's your understanding of what
25 the intent is of the ballot initiative for 2016?

1 A It was on the ballot to have a vote of the people to
2 determine whether or not Nevada should have recreational
3 marijuana.

4 Q Is one of the intent to generate taxable revenue for
5 the State, specifically for public education?

6 A Yes.

7 Q Okay. And are you aware that the State eventually
8 moved forward with adopting regulations, permanent regulations
9 for recreational marijuana?

10 A Yes.

11 Q Okay. And just if you could go down to 453D.200.

12 A Are you going to put that on the screen also?

13 Q Yes.

14 A Okay.

15 Q And then we talked about this a lot, and I know
16 you've been in court, but you see the language that says,

17 The department shall adopt all
18 regulations necessary or convenient to carry
19 out the provisions of this chapter.

20 Have you seen that before?

21 A Yes, I have.

22 Q And what was your understanding as to what that
23 meant?

24 A That the State agency is responsible for getting
25 ready to implement recreational marijuana, and so they have an

1 obligation to put things in procedure so we can -- so we can
2 apply for applications and open.

3 Q The very next sentence, if you read down, it talks
4 about,

5 The regulations must not prohibit the
6 operation of marijuana establishments, either
7 expressly or through regulations, that make
8 their operation unreasonably impracticable.

9 And we've talked about that. Have you seen that
10 language?

11 A I have.

12 Q And as someone who owns a marijuana establishment,
13 can you tell us what would be unreasonably impracticable, like
14 what type of regulations could cause a burden on your company.

15 A In the application process or --

16 Q During the application process.

17 A Well, it doesn't really apply to us, but background
18 checks on all owners would be impossible, especially for large
19 public companies.

20 Q And tell us about that. If there's an imposition to
21 do background checks on every single minority-level shareholder
22 of a company, you believe that can cause a burden on a company?

23 A For larger companies it would. I mean, our company
24 is small. We have seven owners, and we have one at 1 and a
25 half percent. And all of our owners, including the small one,

JD Reporting, Inc.

1 had background checks on -- I've heard most of the testimony
2 for a large company, and it's hard to find out who the actual
3 owners are, either directly or beneficial owners.

4 Q Okay.

5 A And when you buy a piece of stock in a company, it's
6 held usually in a street name. So you buy it, and your account
7 said Merrill, and Merrill was the owner.

8 If you're the beneficial owner, you have to contact
9 Merrill to find out that I'm an owner.

10 If you're part of a mutual fund, they're the owner.
11 A mutual fund might have 200,000 beneficial owners of that
12 fund. You'd have to contact them to see if they would give you
13 the names of all of them. It's also possible a mutual fund can
14 own a mutual fund. So you'd have another 3- or 4,000 people.

15 Plus, ownership changes daily. So one day you might
16 have, if you could get to all those people, it could be
17 hundreds of thousands or maybe even a billion. If you could
18 get all those people, they would change the next day. They
19 would change the next day.

20 So there's also an ongoing process that the State
21 has, you know, to review ownership, and they can do that
22 whenever they want to.

23 Q You said something. You said that it wouldn't apply
24 to Thrive. Can you explain that more. You said earlier Thrive
25 had seven owners?

1 A We have seven owners.

2 Q Okay. And did Thrive have any owners with less than
3 5 percent ownership interest?

4 A Yes. Julie Murray.

5 Q Okay. And did Thrive have all of its owners
6 background checked for the 2018 application process?

7 A We did.

8 MR. GUTIERREZ: At this time, Your Honor, I'd like to
9 move to admit Proposed Exhibit 5062, which is a portion of
10 Thrive's application that contains Attachment B, which is the
11 owner, officer and board member attestation form.

12 THE COURT: Any objections?

13 MR. KEMP: No objection, Your Honor.

14 THE COURT: Be admitted.

15 (Defense Exhibit Number 5062 admitted)

16 THE COURT: And does Mr. Peckman have a copy?

17 MR. GUTIERREZ: May I approach?

18 THE COURT: You may.

19 BY MR. GUTIERREZ:

20 Q Mr. Peckman, have you seen this portion of Thrive's
21 application before?

22 A I have.

23 Q Okay. And on this first page, can you tell us what
24 that is.

25 A That's called the member attestation form.

1 Q And Mitch Britten is one of the owners of Thrive?

2 A He is.

3 Q So Mitch Britten signed prior on August 21st, 2018,
4 consenting to a background check; is that correct?

5 A Yes.

6 Q If you go to the next page, David Brown, is he also
7 an owner of Thrive?

8 A He is.

9 Q And did he sign agreeing for a background check?

10 A Yes.

11 Q Can you go to the next page.

12 Edward Findlay, is he also an owner of Thrive?

13 A He is.

14 Q And he agreed to a background check --

15 A He did.

16 Q -- it looks like on August 20th, 2018; is that
17 correct?

18 A Yes.

19 Q Thomas Hallback, the next page, is also an owner; is
20 that correct?

21 A Yes.

22 Q And he agreed to a background check?

23 A He did.

24 Q And the next one is Nickolas Mamula, and he agreed to
25 the background check as well?

1 A He did.

2 Q And finally, the last was Julie Murray. Did she
3 agree to have a background check?

4 A She did.

5 Q And Julie has less than a 5 percent ownership
6 interest; is that --

7 A She does.

8 Q -- in Thrive; is that correct?

9 A She does.

10 Q Okay. Hypothetically, if it was --

11 THE COURT: There are M&Ms in the trucks?

12 BY MR. GUTIERREZ:

13 Q Hypothetically, if there was a ruling that the
14 background checks were required for everybody with less than
15 5 percent ownership interest, would Thrive have complied with
16 that portion?

17 A Yes, we would.

18 Q Okay. I want to turn your attention to the
19 severability clause in the initiative which is at 453D.600.

20 A -600?

21 Q Yes. It should be on your screen as well.

22 A Yes.

23 Q Have you seen this provision in the ballot initiative
24 before?

25 A Yes.

1 Q Okay. Tell us what it is.

2 A That's pretty standard language. I'm not sure in
3 every initiative, but in most contracts, things like that,
4 there's a severability clause. You know, for some reason, you
5 know, if someone is -- if something is not enforceable or it
6 violates the Constitution or something like that, and the rest
7 of the either contract or something like this, the initiative,
8 is you can implement it without that provision. Then you -- a
9 provision you don't use.

10 Q So taking the intent of the ballot initiative, which
11 is to have recreational use marijuana, would there be a way to
12 sever a portion of the statute that would -- if it was found to
13 be unconstitutional?

14 MR. GENTILE: Objection. Calls for a legal
15 conclusion.

16 THE COURT: Overruled.

17 THE WITNESS: Of course, you could. If something was
18 just impossible to do, the overall intent of the initiative is
19 still able to be carried out, just like it basically says in
20 here, then you would do that because that would be the overall
21 intent of the initiative is to implement recreational marijuana
22 in the State.

23 BY MR. GUTIERREZ:

24 Q Now, Mr. Peckman, were you -- did you do any
25 lobbying, or did you speak on behalf of Thrive at all for any

1 of the -- during the adoption period of the permanent
2 regulations in 2018?

3 A No, I did not. We have lobbyists and lawyers that
4 participated mostly, plus various organizations in the State
5 that did that. Plus all the many of the owners, plaintiffs and
6 intervenors, all had many of them that were involved. Of
7 course, we talk all the time. The industry is small and pretty
8 close. So we all know what's going on.

9 Q So did the industry had the ability to weigh in on
10 the adoption of the permanent regulations?

11 A It had the ability and obligation obviously, and the
12 department of tax, or really any government agency before they
13 can adopt any kind of regulations, they have public hearings,
14 public input. We had workshops, and we give input to what the
15 industry says, you know.

16 Q Are you familiar with how regulations work in
17 general?

18 A Absolutely. I used to lobby on behalf of the
19 Greenspun Corporation.

20 Q Okay. Can you tell us in general how regulations are
21 adopted.

22 A It's pretty standard for every agency, and so I'll
23 just give you kind of a generality. There's obligation to have
24 all these public hearings, which they do, and an obligation for
25 these workshops, which they do. They ask people what they

1 think, not only people in the industry, but people outside the
2 industry that have concerns about whether this lab testing or
3 packaging or advertising, you know, or locations, you know,
4 where they would be better served, you know, close to this and
5 close to that. So there's all kinds of input.

6 Within the department in general they prepare some
7 kind of a draft. Obviously here they had some old regulations
8 in the medical, and they somewhat go off those because that
9 really was the intent here is to not upset medical the best you
10 can. So they prepared draft, the department, and, you know,
11 the department as part of the executive branch, obviously, and
12 so they're represented by the Attorney General. So the
13 Attorney General has one or two staff lawyers there that in
14 general would participate in the drafting of the regulations to
15 make sure they comply.

16 The executive branch, they have an obligation to
17 submit those to the legislative branch, you know, which they
18 do. After that particular process, they go to the LCB, which
19 LCB basically approves all language for laws and regulations.
20 So they send up a draft. It might be called the P draft or
21 proposed draft, something like that, and it goes to that
22 agency. They put all the numbers on it, and code sections or
23 administrative code section, things like that, and they look at
24 whether it complies -- in this case, they would look whether it
25 complied with the initiative and, or -- and/or whether it was

1 constitutional. But they do that every time they pass a law.
2 Every state agency does the same thing. So they take a look at
3 that, and then they say, hey, this works. That doesn't work.
4 You can't do that, whatever.

5 They send that back, and the department will take a
6 look at that and go, well, we can't do that. So they chat.
7 They might even chat with some of the industry members or other
8 people out there at how do you think we should do that. That
9 doesn't make sense. That doesn't apply to the initiative. It
10 doesn't work.

11 Then it goes back up, and it's renumbered again with
12 the, usually in the LCB, and then after that comes back for one
13 final, then it goes to the LCB, and so assuming the LCB has
14 approved it, it goes to the tax commission.

15 The tax commission is, I think, an independent body,
16 I believe, appointed by the governor. It's citizens. It goes
17 to the tax commission. They vote on it. They voted it on
18 here. I think it was unanimous, but again I don't really know
19 for sure. So it goes to the tax commission. Assuming they do
20 approve --

21 By the way, they could reject it if it's not
22 constitutional or does not apply with the initiative.

23 They did not. So we can assume that they thought
24 they did comply all these regulations.

25 And then it goes to the legislative commission which

1 is a group of senators and assembly members. I can't remember
2 how many, maybe 13.

3 They have --

4 By the way, each step here, there is public
5 testimony, public hearing. People have the right to say and
6 are encouraged to comment on those. The industry did. Almost
7 every single plaintiff, almost every industry association said,
8 hey, if these regulations work, please pass them. They comply.
9 We want to get started. We want to get started with the whole
10 application process, things like that. So it goes to the, as I
11 said, it goes to the commission.

12 But like I say, the commission, and they vote on it
13 too, and as soon as they vote on it, then they go back to the
14 department so they can -- they have final regulations, and so
15 they can implement those as they know they comply with the
16 initiative and with the Constitution.

17 Q You mentioned something about the regulations for
18 recreational should match the medical regulations. Is there a
19 provision in the ballot initiative or statute that discusses
20 that?

21 A The ballot initiative has a clause in there. I guess
22 I don't -- unless you want to read it to me -- basically that
23 says that the initiative is not supposed to do anything to
24 interfere with the medical marijuana.

25 Q Is that 453D200, Subsection 1K?

1 A Can I go back here? And straighten out one more
2 question here that you asked me just a minute ago?

3 Q Yes.

4 A Is that allowed?

5 Q Yes.

6 A I wanted to let you know that the thousands and
7 thousands and thousands of hours that went into public hearing
8 and workshops and back and forth that everybody participated
9 in, I don't know if it was 10,000 hours or not, but it was a
10 large number and days and days and weeks and months of trying
11 to draft regulations and give input for the regulation.

12 Q And that was through workshops and the Governor's
13 task force as well; correct?

14 A Uh-huh. Yes. That's true.

15 Q Okay. Now, this provision, this we talked about with
16 the medical matching the recreational, which is in 200,
17 453D.200(1)(k), which says,

18 Procedures and requirements to enable a
19 dual licensee to operate medical marijuana
20 establishments and marijuana establishments
21 at the same location.

22 A Yeah. The intent was people had medical licenses so
23 obviously they're going to apply for recreational licenses.
24 Then there are rules in place for med. The idea was you'd try
25 not to have different sets of rules that would interfere; you

1 know, you have to operate one way for med and one way for rec.
2 And so the idea was unless you absolutely had to was to make it
3 so the locations could have both med and rec.

4 Q And you -- you've been in court when there's been
5 testimony about diversity used as a scoring criteria?

6 A Sure.

7 Q What is your opinion on whether diversity is directly
8 and demonstrably related to the operation of marijuana
9 establishments?

10 A 100 percent it is without any question whatsoever.

11 Q Can you tell us why.

12 A I'll just defer to Frank Hawkins. His testimony,
13 very clear. Frank is an honest guy. He knows about diversity.
14 And we all do, and so yes, it is directly related to the
15 operation of a successful business.

16 Q Is there any objection by the industry prior to the
17 adoption of the regulations about the use of diversity in the
18 scoring criteria?

19 A None.

20 Q There's a provision in the statute that talks about
21 proposed location. Are you familiar with that proposed
22 location?

23 A Are you talking about the initiative?

24 Q Yes.

25 A Yes.

1 Q Could you tell us what some of the problems would be
2 with having to secure property prior to submitting an
3 application.

4 A The industry had that problem on medical marijuana,
5 and then where you had to a secure a location in order to, I
6 think, apply for a license. So some people got a location,
7 then got local government approval. Then some of those people
8 didn't get licenses. So the unintended consequences was
9 obviously litigation because local government, you know, wanted
10 to, you know, issue a license, and some people, you know,
11 obviously didn't qualify for a license. So that had to be
12 fixed just to base upon having a location.

13 That was attempted to be straightened out where it
14 was clear that you did not have to have a location in place to
15 apply for a license, and one of the significant reasons is that
16 it -- let's just say you had a location in place. Well, and
17 you bought it or paid for it or leased it, if you didn't get a
18 license, then you were out all that money.

19 But not only in addition to that, if you applied for
20 a license and you named a location, two days later, you could
21 move it, and so having a location picked out as part of the
22 application process really doesn't make any significant
23 difference in terms of selecting the quality of an applicant
24 and going through who gets a license since it's just another
25 procedure to open.

1 Q And there were 462 applications during 2018 around.

2 Does that --

3 A Yes.

4 Q -- sound about right to you?

5 A Yes, that's right.

6 Q And there were only 61 licenses awarded?

7 A I think that's right.

8 Q So under that reading, they would have -- there would
9 be 462 separate pieces of property that would have to be tied
10 up prior to an application process?

11 A I apologize. Just let me -- just a second.

12 Will you be able to hear me?

13 THE COURT: Sir, do you want us to take a break?

14 THE WITNESS: No. No. No.

15 THE COURT: Or are you just standing up?

16 THE WITNESS: No, just gravity.

17 THE COURT: If you're okay just standing up, it's
18 okay with me.

19 THE WITNESS: I'm okay. Can you hear me then okay?

20 MR. GUTIERREZ: I can hear you.

21 THE COURT: Jill says yes.

22 THE WITNESS: Okay. I'm sorry. Can you repeat that.

23 BY MR. GUTIERREZ:

24 Q The question was there was 462 applicants.

25 A Yes.

1 Q And 61 license winners. They would have to be --
2 there would be approximately 400 pieces of property that were
3 secured and tied up that would not have one license; is that
4 fair, in this -- under this process?

5 A Yes. That's exactly correct.

6 Q Now, did you have a role as an owner of Thrive in the
7 actual filling out of the application for Thrive in 2018?

8 A None.

9 Q And who was the -- who did on behalf of Thrive take
10 lead on that.

11 A Our CEO Mitch Britten with various consultants.

12 Q How many licenses did Thrive ultimately win in the
13 2018 process?

14 A We won six.

15 Q Okay. Did Thrive win a license in every jurisdiction
16 it applied for?

17 A No.

18 Q After being awarded the six licenses in December
19 of 2018, tell us what steps Thrive took to get open under those
20 licenses.

21 A To the extent that we could apply for or go to a
22 jurisdiction to seek approval and their local licensing, we
23 did. In particular, we went to the City of Las Vegas, and we,
24 with a location, went through their process for their
25 licensing, inspection and so forth, built out a location on

1 West Sahara, went through a I think we would probably call it a
2 preopening process because we already had a license from the
3 State and, you know, subject to that you have to go through a
4 process for opening.

5 And they do an inspection before you open. They're
6 making sure they do an inspection, that your plans comply, you
7 have cameras and things like that because they have a process,
8 you know, for the facility, that it complies, not the
9 particular licensees anymore because that's done, the facility
10 complies.

11 Then they inspect the product that you have when you
12 take it in because we have a system here proceed to sale, and
13 so every single product is numbered and accounted for, and the
14 State ensures that you start with that product.

15 So they do an inspection. Obviously the local
16 government does an inspection for all your building plans and,
17 you know, making sure that things follow their rules too.

18 And then so you get a local government approval.
19 Then the State comes through to walk through, and then you get
20 your final approval to open which we did and which we got 3500
21 West Sahara.

22 And then there was a injunction stopping us from
23 opening.

24 Q Okay.

25 A We had all -- everything that -- everything that you

1 needed to open by the local government or the State had been
2 done and approved.

3 Q Okay. All right. And Thrive complied with the
4 injunction and still is, but it did not open under its new
5 license from the City of Las Vegas?

6 A No, it did not.

7 Q Did Thrive have to take steps to move another license
8 in order to keep that location?

9 A We did. We had employees over there, about I think
10 27 is what I think we said, plus we had an ongoing lease of
11 about \$20,000 a month. We had an existing under a license over
12 on Commerce. So after we were -- which wasn't the best
13 location and, you know, you have it -- and like I said before,
14 you're allowed to move a location with local government
15 approval. It obviously has to be approved by the State once
16 again.

17 So as we couldn't open that location, since we had a
18 location that was modest shall we say on Commerce, and we were
19 already paying money, we decided to move that license. So we
20 went to the local jurisdiction, got their permission. We went
21 to the obviously to the State to get their permission and then
22 went through their normal procedures for opening like that, as
23 I said, testing inventory and so forth. Then we -- we did open
24 a few days ago that license, that location with an existing
25 license that had been moved.

1 Q To be clear, you had to move the Commerce Park
2 location, the license you've had since 2017, over to this
3 location?

4 A Yes. And we had to move the one that was under the
5 injunction, since we couldn't use it, back to commerce, and we
6 closed Commerce.

7 Q All right. And was there a local ordinance
8 requirement to get open by the City of Las Vegas within a
9 90-day period that you're aware of?

10 A Oh, yes, there was. Yes. And that's one of the
11 reasons we had to move on that location because the risk of
12 losing, you know, your license or trying to get it extended, by
13 the --

14 Q After obtaining notice that Thrive won six licenses,
15 did Thrive have to pay a license fee for those license?

16 A Yes. Each license had to pay a license fee to the
17 State. I think it was \$20,000. So we paid \$120,000 for our
18 licenses.

19 Q So did Thrive pay the \$20,000 per license?

20 A Yes.

21 Q Okay. Are you aware of the regulation that that
22 requires those fees to be paid within a 10 day period, or the
23 department can revoke the license?

24 A Yes. They could revoke the license if we don't pay.

25 Q Okay. And can you tell us how much money Thrive

1 spent to get open in Reno.

2 A Around \$700,000, maybe a little bit more.

3 Q What's the status of the Reno license?

4 A We're still in the application process. We're on the
5 city council I think for approval. I think that has to go a
6 couple of times, and obviously, assuming they did approve, we
7 have to go to the State for final inspection of the facility to
8 open.

9 Q Now, Mr. Peckman, you've been in court almost every
10 day during this proceeding; correct?

11 A Yes.

12 Q Were you here some time in mid July when some of the
13 cultivator owners testified about not being able to buy a
14 license?

15 A Yes.

16 Q Okay. Is that a -- as you sit here, is that a true
17 statement?

18 A Absolutely not.

19 Q Can you explain to us why that isn't.

20 A There's licenses for sale everywhere. There's two
21 licenses for sale in Reno, dispensaries, that there's at least
22 two licenses with a -- by the way, that was through a broker up
23 in Reno and a broker down here. All of our licenses are for
24 sale. I've talked to at Thrive both the old ones and the new
25 ones, I've talked to almost every single one of the

1 intervenors. They'd be happy to sell a license, new or old. I
2 can tell you that many of the plaintiffs' are for sale.

3 Tryke has hired an investment banker, and they've got
4 a book trying to sell that.

5 MedMen bought a license before. They have one of
6 their existing licenses for sale.

7 NEO, which is David Goldwater's company, their
8 company is for sale. They have a license.

9 You can look if you want to, public information,
10 through the Las Vegas Medical Association. They have a list --
11 they have a list of every single license that was bought or
12 sold in the last year, and some of the intervenors actually
13 have letters, LOIs to sell the licenses they initially got,
14 deposits. There's licenses for sale everywhere, and if you
15 don't know that, then you're not trying to buy one.

16 Q So none of the cultivators contacted you about buying
17 a license from Thrive?

18 A Never.

19 Q Have you been contacted by any of the plaintiffs at
20 all about after winning your licenses about potentially selling
21 one?

22 A Of course. I get contacted all the time by
23 plaintiffs and intervenors about wanting to sell any of our
24 licenses. Sure.

25 Q Did you ever have a meeting with Bob Groesbeck from

1 MM Development after winning your license?

2 A Sure.

3 Q And tell us about that meeting.

4 A Bob, his company MM, did not get a license. They had
5 an existing facility that they wanted to put the license in,
6 and so he's got a public company, and he didn't get one. He
7 contacted us and several of the people that got licenses asking
8 if we would sell them one, and we said, of course, we will sell
9 you one. Just make us an offer, and we'll see if we can
10 negotiate the purchase price. He never made us an offer, but
11 he did ask if we had one for sale, and we said we did, and we
12 would be happy to negotiate.

13 Q When was this meeting?

14 A It was a few days after the licenses were granted.

15 Q And Thrive would be willing -- Thrive was willing to
16 sell a license. There was just no offer made; is that correct?

17 A Absolutely. There was no offer made.

18 Q Now, Mr. Peckman, can you tell us what the harm would
19 be to your company if a Court granted injunction preventing you
20 from opening and going forward?

21 A Absent all the time and effort and all the money
22 spent on two locations for development, build-out, leasing, all
23 that money would be lost, and so it's combined, you know, if
24 you had included even the fees we paid for, probably a couple
25 million dollars.

1 Plus, plus not being able to open the new licenses,
2 at any of the six locations, and so the lost revenue and profit
3 on that, not only by us, but the entire industry and lost taxes
4 to the State, taxes to local government. If we are unable to
5 prevail in this litigation, we'll have to lay off employees.
6 So there'll be a loss of existing jobs, a loss of future jobs,
7 not only for us by anyone else.

8 Q And are you aware of a 12-month period under the
9 regulations to get open or lose your license? Under the --

10 A Yes. Yes. We are.

11 Q And is that a deadline that's still in place as you
12 sit here today?

13 A Yes, it is.

14 Q Okay.

15 A That expires in December. Without any type of
16 renewal or extension, every single license that has been
17 granted is subject to being lose it, or it's revoked or however
18 you want to say that, and it would be gone, and there would
19 have to be, assuming they would issue licenses in the future,
20 there would have to be another application process.

21 Q Has the State give you -- given you any formal
22 indication that it's going to extend that deadline?

23 A We don't know yet. We don't know if they're going to
24 extend that deadline or not.

25 Q Some of the plaintiffs have asked, testified about

1 wanting the process to be voided and redone, the entire
2 application. Can you tell us about some of the unintended
3 consequences that could happen if there is a complete redo of
4 the process given some of the exclusivity language.

5 A Well, we think that actually violates the initiative
6 by doing that. The idea of the initiative, if you want to look
7 at the language, basically said is the people of Nevada want
8 recreational marijuana, and it lists the number of licenses and
9 it asks the State to implement that. It asked the State to
10 draft the regulations, asked the State to collect all the
11 taxes.

12 And so if you, and if you understand the initiative,
13 the initiative was meant so that the existing licensees, that's
14 anybody who had a medical marijuana license, a dispensary, a
15 production license or a grow license, for the first 18 months,
16 only those people could apply. And that was, specific, that's
17 so the existing people could apply for licenses.

18 If, in fact, that was thrown out and the initiative,
19 the intent was I think violated and the people's intent was
20 violated, then the next process for an application could
21 include theoretically thousands of applications. We might not
22 get one. Any intervener, obviously, and anybody who's a
23 plaintiff may not get one. I mean, they didn't get one this
24 time around with the 400, how about 400,000 applications.

25 Q And that's because it would open it up to the entire

1 public, not just the existing entities --

2 A They have to.

3 Q One of the risks or harms that potentially could
4 affect the State would be if there's been money collected for
5 not only licensing fees, but application fees that could
6 potentially have to be returned?

7 A Yes. Yes. Absolutely.

8 Q I mean, just my rough math, at 462 applications, at
9 \$5,000 each, that's about 2.3 million?

10 A Yes. That's correct.

11 Q And 61 licenses at \$20,000 each for about
12 1.2 million; is that correct?

13 A That's correct.

14 Q Okay. You've heard testimony about a decrease in
15 market share as well from some of the plaintiffs. Do you
16 recall that?

17 A Yes, I do.

18 Q Do you think there's any way to say with certainty
19 whether there would be a decrease in market share if new
20 licenses were awarded?

21 A No, in our opinion, we applied. Obviously we all
22 applied for licenses because we wanted them, the plaintiffs and
23 the interveners. So we all think there was some value in
24 those. You know, we think the market will grow, and we know
25 there are licenses for sale. So obviously those licenses have

1 some value, and whether it's 1 million or \$20 million. So our
2 projections say that will, the entire industry and every store
3 will make money, and the old stores will make money.

4 I've heard the arguments that, you know, it takes
5 away from existing stores. There's no proof of that
6 whatsoever; right? This is -- this is even more speculative
7 than my statement that you'd be harmed that way, that your
8 market share would go down.

9 Plus, if you're a plaintiff in this case, and you're
10 a cultivator, you had no market share to begin with. So
11 nothing is going down for you, and that's a significant number
12 of the plaintiffs here.

13 MR. GUTIERREZ: Thank you, Mr. Peckman.

14 I would pass the witness, Your Honor.

15 THE COURT: Cross-examination.

16 MR. KEMP: Yes, Your Honor.

17 THE COURT: Mr. Kemp.

18 THE WITNESS: Once again, Your Honor, thank you.

19 THE COURT: Absolutely, sir.

20 If you'd rather take a break before Mr. Kemp starts,
21 we could.

22 MR. GENTILE: Your Honor, can we take just like the
23 two-minute break, seriously, so that counsel can consult?

24 THE COURT: Sure. Mr. Gentile, this is not a
25 requested break, which means the witness can talk to anybody he

1 wants.

2 Mr. Cristalli, could you come up here, please.

3 MR. CRISTALLI: Yes, Your Honor.

4 THE COURT: So five minutes, guys.

5 (Proceedings recessed at 10:15 a.m., until 10:23 a.m.)

6 THE COURT: Are we ready?

7 MR. KEMP: Yes, Your Honor.

8 THE COURT: You can sit down if you'd like. The rest
9 of you can stand up if you want. I know some people feel like
10 their backs feel better if they stand up occasionally. That's
11 okay with me.

12 Mr. Kemp, you're up.

13 CROSS-EXAMINATION

14 BY MR. KEMP:

15 Q Good morning, Mr. Peckman.

16 A Mr. Kemp.

17 Q I'd say it's good to see you again, but I've spent
18 quite a bit of time with you lately.

19 In any event, you said, quote, all of our licenses
20 are for sale referring -- that was what you said; right?

21 A 100 percent.

22 Q Okay. And prior to this application process, how
23 many licenses did Thrive have?

24 A Two.

25 Q So both of those licenses are for sale?

JD Reporting, Inc.

1 A Absolutely.

2 Q And they both have operating dispensaries?

3 A Yes, they do.

4 Q So you're not willing to sell the license without
5 selling the dispensary too, or are you?

6 A I'm sorry. I didn't understand that.

7 Q Are you willing just to sell the license and shut
8 down the dispensary?

9 A That's a negotiation between the buyer and the
10 seller. They may want to take over the location.

11 Q Has anyone ever actually made an offer on either one
12 of those two licenses?

13 A Make an offer. I guess I'd have to think what an
14 offer actually is. We probably have had eight or ten meetings
15 with various people asking if we are for sale or would we sell,
16 and at various public companies. Do I have -- did I have a
17 signed offer in place? I don't think so.

18 Q Okay. So you've never had an offer. And have you
19 listed them for sale?

20 A Other than telling the world that they're for sale, I
21 guess if that's listing, then that's listing.

22 Q So when you said all of your licenses are for sale,
23 were you meaning it in the sense that everything is for sale?

24 A No, not particularly.

25 Q Okay.

1 A No. There's -- licenses are bought and sold every
2 single day.

3 By the way, our cultivation is for sale too.

4 Q Okay. Let's refer to those two licenses. If I
5 offered you a million dollars today, would you sell them?

6 A I doubt it.

7 Q Two?

8 A No.

9 Q Five?

10 A Are you talking the two existing?

11 Q Yeah, the two existing. If I offered you 5 million,
12 would you sell it?

13 A No, I don't think so.

14 Q Ten?

15 A Are you talking cash?

16 Q Cash. If I give you 10 million cash today, would you
17 sell me the Sahara store, the 3500 West Sahara store?

18 A U.S. cash?

19 Q Is there another kind? Okay.

20 A No. No.

21 Q U.S. cash. No, you wouldn't sell?

22 A Probably not.

23 Q Okay.

24 A There is a higher price though I would sell.

25 Q A hundred million?

1 A Okay.

2 Q So when you say everything is for sale, you're
3 basically saying you haven't had any offers; you haven't listed
4 it, but in your mind everything is for sale?

5 A The people that come talk to us say would you sell a
6 license or this or that, or will you take public stock in this
7 or that since we haven't been inclined to say make us a solid
8 offer, and we'll sell it for that yet.

9 Q Okay.

10 A No.

11 Q Now, you recognize that there's 26 plaintiffs in this
12 litigation, at least 26; right?

13 A Okay. I haven't counted, but if you say there are,
14 then there are.

15 Q 25, 26, 27.

16 A Sure.

17 Q You're not testifying that all of them, even if they
18 had unlimited funds, could buy -- buy a license, do you -- are
19 you? I mean, you recognize there's a limited number of
20 licenses here?

21 A There always has been.

22 Q So you would agree with me that all 26 plaintiffs it
23 would be impossible for them each to buy a license, even if
24 they had unlimited funds; right?

25 A I don't know that. How many licenses do they want?

1 Q Okay. There were 10 licenses offered in this
2 procedure in Clark County, unincorporated Clark?

3 A Are you talking about the State?

4 Q Yeah.

5 A Well, if 26 people want licenses --

6 Q And there's only 10 -- and there's only 10 licenses.

7 A Oh, you're talking about in the county?

8 Q Uh-huh.

9 A Well, statewide there's a whole bunch of licenses for
10 sale.

11 Q Okay. Let's just focus on county by county first.

12 A Okay.

13 Q In Clark County, in this licensing procedure, there
14 were 10 licenses in unincorporated Clark, yes?

15 A Ten licenses as part of the application process, yes.
16 Yes.

17 Q And there were also 10 in the city of Las Vegas?

18 A Yes.

19 Q So you would agree with me that even if the 26
20 plaintiffs had a billion dollars a piece to offer, it's just
21 impossible for them all to buy a license because there's not
22 enough licenses?

23 A In those two jurisdictions, if we're -- but if you
24 want to go across the street you can buy a license.

25 Q What do you mean by that?

1 A Well, if you want to go over to Henderson, you can
2 buy one. North Las Vegas, usually they're separated by about a
3 thousand feet.

4 Q Henderson there's a moratorium. You can't open a
5 store in Henderson.

6 A There's a moratorium in a lot of places. It doesn't
7 mean you'll never be able to open a store.

8 Q So you would agree with me that the 26 plaintiffs,
9 even if they had unlimited funds, could not buy a license in
10 Clark County because there just aren't enough, an
11 unincorporated Clark County license?

12 A If all 26 plaintiffs wanted a license in Clark
13 County, then they couldn't get one. The same for most of the
14 intervenors too though.

15 Q Okay. And the same is true for the City of Las Vegas
16 and all the other jurisdictions if we went through?

17 A If you went one at a time, that's an accurate
18 statement.

19 Q Okay. And how about if I got the Winnemucca license?
20 Would you trade me your 3500 West Sahara license for the
21 Winnemucca license?

22 A I might. I don't know.

23 Q You would trade me a Winnemucca license for a City of
24 Las Vegas license at 3500 West Sahara?

25 A I might do that. Really, I'd have to know a little

1 bit more about Winnemucca. I'm sure it's a nice place. I
2 don't know how many people live there, or is there a store
3 there now?

4 Q No. There's a moratorium up in Winnemucca now.

5 A A moratorium doesn't mean anything to me.

6 Q A moratorium or a local government says you can't
7 open doesn't mean anything to you?

8 A Not particularly.

9 Q Why is that?

10 A Because that's subject to change. Right now the
11 county won't take licenses. As soon as this litigation is over
12 and the good guys prevail, then there will be licenses
13 available.

14 Q Meaning my clients?

15 A Of course. Of course.

16 Q All right. Now, Mr. Peckman, let's talk about the
17 3500 West Sahara store.

18 A Sure.

19 Q That's the one by the church; right?

20 A The church you go to.

21 Q If you want to come some time, then feel free.

22 A You call me. We'll go together on a Sunday morning.

23 Q It could be a marketing thing for you. Okay.

24 But anyway, with regards to the church --

25 A Yes, sir.

1 Q -- that church was subject to -- excuse me, that
2 store next to the church was subject to a TRO; correct?

3 A By this Court?

4 Q Yes.

5 A Yes, it was.

6 Q And there was a bond posted to secure that TRO in the
7 amount of \$450,000?

8 MR. GRAF: Well, objection, Your Honor. Misstates
9 evidence.

10 THE COURT: Overruled.

11 MR. GRAF: -- and is subject to a pending motion.

12 THE COURT: No speaking objections, Mr. Graf.

13 MR. GRAF: Thank you, Your Honor.

14 THE COURT: But overruled.

15 BY MR. KEMP:

16 Q There's still a bond posted for \$450,000; right?

17 A Yes. I think it's been funded. I'm not so sure, but
18 I think so.

19 Q Okay. And you've already opened a store because you
20 moved a license over to it. You opened it last week; right?

21 A Yes, we did.

22 Q So you have no damages there, and yet there's still
23 the \$450,000 bond posted?

24 A Well, we moved the license subject to the --

25 Q So you had --

1 A -- TRO to --

2 Q You would agree with me you had --

3 THE COURT: You've got to let him finish.

4 BY MR. KEMP:

5 Q Go ahead.

6 THE COURT: Sir, were you done?

7 THE WITNESS: We moved that license subject to the
8 TRO over to our location on Commerce where we can't open
9 because of the TRO. So that license is over there subject to a
10 injunction.

11 BY MR. KEMP:

12 Q Okay. But you opened the store on 3500 West Sahara
13 that you offered purported damages for to get the \$450,000
14 bond; right? You opened that store?

15 A With an existing license, yes.

16 Q So those damages that you brought to the Court with
17 regards to the 3500 West Sahara store, they don't exist
18 anymore; right?

19 A They exist over on Commerce, not on the 3500 West
20 Sahara.

21 Q The Commerce store, the one that you called not the
22 best location.

23 A No, it's not.

24 Q It's the one by the -- behind the old Wholesome Bread
25 facility? On Charleston.

1 A I didn't say behind, but it's over at Commerce and
2 Charleston.

3 Q Okay. It's close to that?

4 A Yes.

5 Q Okay. All right. Would you agree with me that the
6 bond amount for that store, if any, would be significantly less
7 than the west Sahara store?

8 A No, I wouldn't.

9 Q Do you think that --

10 A I think the bond for West Sahara was too low.

11 Q Okay. Fair enough.

12 Now, you talked about a meeting you had with
13 Mr. Groesbeck?

14 A Yes.

15 Q Okay. And you said, quote, That he never made you an
16 offer, unquote. Did I write that down right?

17 A He said to me -- I said, make us an offer. He said,
18 no. Tell me how much you want. You make me an offer first.

19 Q So you never made him an offer, and he never made you
20 an offer?

21 A He didn't want to -- he did not want to make an offer
22 because he said I don't want to negotiate with myself.

23 Q And just to make it clear, that was a provisional
24 unincorporated Clark County license that you were discussing;
25 correct?

1 A I don't know what provisional means. It's the
2 license?

3 Q Okay. It's one of the ones in the 2018 procedure?

4 A That is. True.

5 Q Okay. So let's call it a 2018 license.

6 A Right.

7 Q Fair. So he never made you an offer for the 2018
8 unincorporated Clark County license; correct?

9 A No, he did not.

10 Q And you never put a price on it?

11 A No, we did not.

12 Q Okay. Have you put a price on it for anybody at any
13 time?

14 A Someone asked if we would sell a location, existing
15 location for \$20 million. We said we would consider it. There
16 are offers out there for existing 2018 licenses and LOIs for
17 \$10 million. Would we sell one for that? That's very
18 possible, very possible.

19 Q Okay.

20 A We're waiting for an offer.

21 Q So my question was have you ever evaluated what that
22 license is worth, and you said yes, no, what?

23 A Are you talking old or new?

24 Q You, the 2018.

25 A We talk about it all the time in our company. If we

1 were to sell one and how much and to who.

2 Q So, yes, you've evaluated it?

3 A Yes. Yes, we have talked about it.

4 Q What's the number you put on it?

5 A It really depends on whether it's a cash or public
6 securities.

7 Q Let's assume it's cash as opposed to stock.

8 A 20 million.

9 Q So you think unincorporated Clark County license
10 could be had for 20 million? From your company?

11 A Yes, I do.

12 Q And once again, even if all the 25 plaintiffs had
13 20 million apiece and they wanted to buy, that's one license.
14 That's -- the other 24 get nothing or could get nothing.

15 A It depends about their financing. I'm assuming they
16 could borrow money --

17 Q I'm just talking numbers to you.

18 A -- to come up with the license that's valuable.

19 Q Assuming all 25 had 20 million, you just have one
20 license that you think could be had for that amount; right?

21 A I have one, but there's more than enough licenses in
22 the State for sale to sell to every one of the plaintiffs.

23 Q So there's -- okay. I thought we were past that.
24 There are not 26 licenses in unincorporated Clark County.

25 A Oh, I'm sorry. Yes.

1 Q Okay. If you want to go to Winnemucca and the cow
2 counties, I agree with you, but the licenses in unincorporated
3 Clark, City of Las Vegas, there are not enough to sell to all
4 the plaintiffs?

5 A In Southern Nevada there's probably 80 licenses. I'd
6 have to check for sure how many licenses there are, which
7 includes all of that.

8 Q Which includes the new 31, the 2018 ones, and the
9 existing; right?

10 A Yes, that's correct.

11 Q Okay. Now, with regards to the unincorporated Clark,
12 the 2018 licenses, other than yourself, do you know anybody
13 else in this room who's got a license that's got it up for
14 sale?

15 A Every single intervener I've talked to has
16 probably -- is willing to sell a license. I've talked to every
17 single one of them.

18 Q Okay. Is willing to sell a Clark County,
19 unincorporated Clark County 2018 license?

20 A Uh --

21 Q Every single one of them is willing to sell that?

22 A I'm not so sure every intervener got a Clark County
23 license. I'd have to check that out.

24 Q Okay. Let's talk about a couple specific
25 intervenors. It's your understanding that Essence is willing

1 to sell its two -- I think it has two -- 2018 unincorporated
2 Clark County --

3 A You'd have to talk to them, but in general.

4 Q No, I'm asking your understanding because you told
5 the Court that every single intervener is willing to sell a
6 license?

7 A I said my understanding every single, depending upon
8 the purchase price. I would -- I would suggest that if you
9 want to make an offer to Essence for a hundred million dollars,
10 they'd probably sell you a license.

11 Q So you don't know as we sit here today one way or the
12 other --

13 A What Essence --

14 Q -- whether anyone other than Thrive is willing to
15 sell a license --

16 A They're all -- they're all willing to negotiate to
17 sell a license subject to purchase price and closing and things
18 like that.

19 Q -- but you can't say under oath that anyone other
20 than Thrive is willing to sell an unincorporated Clark County
21 license for any price. You can't say that. You could
22 speculate, but you can't say that?

23 A I can only rely on what they have told me.

24 Q So Essence has told you that they would sell one of
25 the 2018 unincorporated Clark County licenses for 20 million.

1 Is that your testimony?

2 A Every single intervener I have talked to is willing
3 to negotiate to sell a license.

4 Q Has Essence told you that they're willing to sell one
5 of the 2018 --

6 A Yes, they have.

7 Q -- unincorporated Clark County licenses --

8 A That I don't know.

9 Q -- for --

10 A If you're asking about Clark County, I can't tell
11 you. The discussions are broad in terms of licenses.

12 Q Okay. Now, on location for just real quick.

13 A Sure.

14 Q Would I be correct that the -- Thrive put in five
15 applications; is that right?

16 A It put in six.

17 Q Okay. Six.

18 A Oh, I'm sorry. We put in nine and got six licenses.

19 Q And some of those applications you didn't have a
20 specific location? An identified location other than a UPS
21 store or; right?

22 A The -- you mean a place where you actually were going
23 to open it?

24 Q Right.

25 A No. No. That's true.

1 Q So did all six of them not have an identified
2 location, or five out of the six?

3 A Listen, I would say I don't think so, but you'd
4 really have to talk to our CEO.

5 Q Okay. So as I understand your testimony today, the
6 ballot initiative requires a location. The regulations
7 requires a location, but because it's hard for 462 people to
8 find a location across the State, that requirement should be
9 dismissed with --

10 MR. WIGHT: Objection. Misstates --

11 BY MR. KEMP:

12 Q -- is that your testimony?

13 MR. WIGHT: Testimony.

14 THE WITNESS: I don't understand.

15 THE COURT: Overruled.

16 THE WITNESS: I don't understand the question.

17 BY MR. KEMP:

18 Q You knew that location was required, yes?

19 A At time of applying, no, I didn't know that, and I
20 don't think that's accurate.

21 Q Okay. I don't want to -- in fact, I'm not going
22 to --

23 MR. KEMP: I'll pass the witness, Your Honor.

24 THE COURT: Thank you.

CROSS-EXAMINATION

BY MR. GENTILE:

Q Mr. Peckman, you have been an advisory manager for Thrive since its inception?

A Pretty close. Yes, I think that is accurate.

Q And would that go back to 2014?

A 2014 or '15, depending upon when we finalized all of the operating agreements, but that's pretty accurate.

Q All right. And so you have been paying attention to the accounting and the taxation since that time?

A Not as much as our CEO, but, yes, I'm aware of it.

Q Okay. Well, your testimony was that those were two of your five functions as a --

A Taxation in terms of income taxes, not State taxation.

Q Not State taxation, okay. So you're unaware of how much your Thrive stores pay the State in taxes?

A I could have a general range of State and local government.

Q Okay.

A Right. Sure.

Q You would agree, would you not, that Thrive, your store in North Las Vegas and your store on Commerce, which doesn't exist anymore, have been selling retail marijuana; right, recreational marijuana, to the public?

1 A Yes.

2 Q All right. And do you maintain a list of your
3 customers?

4 A Yes, I think we're obligated to.

5 Q Okay.

6 A That's a question for Mitch because he's the
7 operator.

8 Q All right. Do you ever interact with your customers?

9 A Do I?

10 Q Yeah, you, yourself. In other words, have you ever
11 been at a cocktail party or a country club or some kind of a
12 social event where you learn that somebody was a customer of
13 Thrive?

14 MS. SHELL: Objection. Relevance.

15 THE COURT: Overruled.

16 MR. GENTILE: I'm getting there.

17 THE COURT: You can answer.

18 THE WITNESS: I see people all the time that have
19 been into our store or other stores. Yes, I have.

20 BY MR. GENTILE:

21 Q Okay. When was the last time that you have spoken
22 with anybody, whether they were a customer of Thrive's or a
23 customer of some other store or not a customer at all of
24 anybody -- well, let me rephrase the question.

25 MS. SHELL: Please.

1 BY MR. GENTILE:

2 Q Do you know people who don't smoke marijuana?

3 A Sure.

4 Q When was the last time one of them told you that as
5 soon as a store opens closer to them they're going to start?

6 A When was the last time? Somebody -- I've had people
7 say that to me before, but I really don't have any
8 recollection.

9 Q So you don't remember when it was?

10 A No.

11 Q Did you believe them that they're really waiting for
12 a store to open closer to them so that they'll smoke marijuana
13 for the first time in their life?

14 A They said it. So I'm assuming they're not lying to
15 me.

16 Q It would seem to me, Mr. Peckman, that a person who
17 would say something like that certainly to me, I would
18 certainly remember who they were or at least where it happened.
19 Do you have any memory at all as to who it was or where you
20 were or how long ago it was that somebody said to you I've
21 never smoked marijuana, or I stopped smoking marijuana, but I'm
22 going to start as soon as a store opens closer to me?

23 MS. SHELL: Objection. Compound. Relevance. Or --
24 a whole laundry list, Your Honor.

25 THE COURT: Overruled.

1 MS. SHELL: Thank you.

2 THE COURT: You may answer.

3 THE WITNESS: I really don't know to be honest with
4 you. I don't have any recollection of that at this time. Yes,
5 that happened.

6 BY MR. GENTILE:

7 Q Before you closed your Commerce store, did you advise
8 your Commerce customers where you were relocating to?

9 A I don't know. You'd have this question for Mitch.

10 Q Okay. Do you expect that all of your Commerce
11 customers are going to now buy from you at 3500 West Sahara?
12 And when I say "you," I mean the collective you.

13 MR. GRAF: Objection, Your Honor. Vague.

14 THE COURT: Overruled.

15 THE WITNESS: I guess some could come over to us.
16 Some might find a store that's closer to them also.

17 BY MR. GENTILE:

18 Q They might.

19 A They might.

20 Q All right. And if that happens, if a store opens up
21 that's closer to them than the Commerce store, you're going to
22 lose that customer, aren't you?

23 A If they went someplace else, then yes, I guess they
24 won't come to us.

25 Q Okay. And to the extent that that happens, it might

1 be minuscule, but it reduces at least that customer from your
2 customer base?

3 A Assuming the market hasn't grown, which I believe it
4 will, so if we lose a customer --

5 Q That's a come-line bet, isn't it?

6 A Pardon me?

7 Q That's a come-line bet that this market is going to
8 grow.

9 A No different than the plaintiff's bet or my bet.

10 Q Okay. But let me ask you this. At least as far as
11 you know, at least as far as you know, anybody that wants to
12 smoke recreational marijuana and buy it from a legal source can
13 do so right now. Is that fair to say, in Nevada?

14 A Anybody -- could you say that again, please.

15 Q Sure. Anybody who wants to smoke or ingest or
16 whatever, legal marijuana in the state of Nevada who is 21 and
17 eligible, can walk into a dispensary ever since July 1st of
18 last year, and buy recreational marijuana, if they want to do
19 it.

20 A Does that include tourists?

21 Q It includes tourists.

22 A Yes, they can.

23 MR. GENTILE: I don't have anything further.

24 THE COURT: Anyone further on the plaintiff side?

25 Mr. Parker.

1 MR. PARKER: Just a few, Your Honor.

2 CROSS-EXAMINATION

3 BY MR. PARKER:

4 Q Good morning.

5 A Good morning.

6 Q How are you doing, sir?

7 A Thank you. Except for my back, I'm good.

8 Q I understand.

9 Mr. Peckman, when did you first review the statutes
10 that we've been speaking of today?

11 A Are you talking about the initiative?

12 Q No. I'm talking about NRS 453D. When did you start
13 actually reviewing that, all of those statutes that
14 Mr. Gutierrez went over with you.

15 A 453D is the initiative; is that correct?

16 Q If you want to call it that. I just called it
17 statutes.

18 A Then I'm familiar with it since it was drafted.

19 Q Okay. Did you have anything to do with the drafting?

20 A No, I didn't. Some of my friends' lawyers had most
21 of the input into that.

22 Q Did you have anything to do with the drafting of the
23 regulations?

24 A We all had input, meaning the writing them, but in
25 terms of input, absolutely.

JD Reporting, Inc.

1 Q Was your review or input relative to the regulations
2 contemporaneous with your review of the initiative for the
3 statute?

4 A Review of the regulations themselves or the drafting
5 them --

6 Q Yes, sir.

7 A -- or suggestions for them?

8 Q Yes.

9 A Of course. Sure. Sure.

10 Q Did you have a chance in reviewing or participating
11 in the preparation of the regulations and comparing those
12 regulations to what the statutes required?

13 A Either I or our consultants, lawyers or lobbyists or
14 the industry did. Yes.

15 Q Did you notice differences or disparities between the
16 regulations and the statutes?

17 A I don't understand that question.

18 Q Well, for example, the statute says, All owners.
19 Then the regulation says, Owners with 5 percent or greater
20 interest. Did you notice the difference?

21 A That 5 percent existed in medical, and the intent was
22 to adopt what you could medical, and the intent was to
23 implement the initiative.

24 Q All right. So did you notice the difference? That's
25 a yes or no, sir.

1 A Yes.

2 Q All right. Did you get some higher -- do you know of
3 some higher authority that allowed for the regulations to
4 differ from the initiative as you call it?

5 MR. SHEVORSKI: Objection. Legal conclusion.

6 THE COURT: Overruled.

7 THE WITNESS: I don't think I can answer that
8 question.

9 BY MR. PARKER:

10 Q Good enough. The Judge -- the Judge will --

11 A Because the initiative says one thing. The
12 regulations are meant to implement the initiative in whole, not
13 just a particular section.

14 Q Good enough. Yes, sir.

15 Now, you would agree with me that whether or not it's
16 practical in your opinion for all owners to go through a
17 background check that if the law or the initiative requires it
18 that you have to follow the law?

19 MR. SHEVORSKI: Same objection --

20 THE WITNESS: Yes.

21 MR. SHEVORSKI: -- Your Honor.

22 THE COURT: Overruled.

23 THE WITNESS: You must follow the law. I agree with
24 that.

25 MR. PARKER: Thank you.

1 BY MR. PARKER:

2 Q And if you're following the law and you have a
3 concern about the logistics of being able to comply with the
4 law, you simply don't have to apply for a license; right?

5 A Or your license could be rejected I suppose.

6 Q Right. And if you're not following the law, then
7 your application should be rejected; right?

8 A Not following the law. I guess that's one outcome
9 that could happen, yes.

10 Q All right. Good enough.

11 A Right. Yeah.

12 Q Now, do you believe that the State had an obligation
13 to insure that the regulations match the initiative?

14 A I wouldn't say -- I would say matched and implemented
15 the initiative.

16 Q All right. You don't believe that the State in terms
17 of creating the regulations had the right to deviate from what
18 the citizens of Nevada voted on; right?

19 A They had the right to interpret and implement.

20 Q But not deviate; right?

21 A No. They would not have that right to deviate from
22 the intent.

23 Q Thank you. Now, did you -- I believe you testified
24 earlier that you did not participate in the preparation of
25 Thrive's applications, the nine applications; is that correct?

1 A That's correct, sir. Yes.

2 Q Did you have an opportunity to review the
3 applications? Or did you review them?

4 A I think the only part I really reviewed was for the
5 personal information that we -- that each owner had to supply.
6 In terms of the rest of it, probably not much.

7 Q All right. Did you notice that there were two forms
8 of the application?

9 A No.

10 Q Were you aware of that?

11 A I've heard testimony here, but I didn't know that
12 before.

13 Q All right. And you spoke earlier, and I thought this
14 was a, you know, a very lofty statement you made. You
15 indicated that there should be I believe a -- let me see if I
16 can find it.

17 You believe that there is a reason behind having
18 diversity as a part of the criteria?

19 A Absolutely.

20 Q All right. And I think you also said, and I was
21 appreciative of the remark because I think it supported that
22 you wanted there to be a level playing field for those
23 involved, including minorities; is that correct?

24 A I'm not exactly sure what that means.

25 Q Well, let's see if we can explore it a little bit.

1 You believe that there's a benefit to having diversity as a
2 part of the criteria; is that correct?

3 A Yes, I do.

4 Q Let me have you explain the benefit to the Court,
5 please.

6 A I think that people of color or people of different
7 sex have a different view of how businesses can operate and how
8 they might appeal to different people, and that input is
9 valuable and is -- is demonstrated that if implemented it can
10 increased of the profitability of a company. Yeah. Yeah. I
11 would say, yes, absolutely.

12 Q All right. Now, would you also agree that if you're
13 going to use diversity as a criteria for the application that
14 the State should not allow the manipulation of the application
15 when people throw in or organizations throw in minorities just
16 for purposes of scoring?

17 So, for example -- let me see if I can add some
18 context to this. Let's say there are no minority owners in a
19 company.

20 A Okay.

21 Q All right. And let's say that there's no minority
22 board members.

23 A Okay.

24 Q All right. And no minority officers. Okay?

25 A Okay.

1 Q But you have a minority cashier. You have a minority
2 doorman. You have a minority bookkeeper, and you decide to
3 throw those minority individuals or add those minority
4 individuals to your application. Do you believe that's a way
5 of actually complying or satisfying the criteria for diversity?

6 A I don't think I can answer that to be honest with you
7 because I don't know exactly what the application said in terms
8 of who you -- in that particular section --

9 Q Right.

10 A -- on who you are allowed to put on there to show you
11 have diversity. I really can't answer that because I'm sure
12 there was criteria. I just don't know what it was.

13 Q Good enough. The revenues that the State was given
14 tax money, or the revenues that intervenor companies or
15 plaintiff companies would make off of marijuana is based on
16 demand; right?

17 A Based upon?

18 Q Demand.

19 A Demand. Sales. Yes.

20 Q Right.

21 A Yes.

22 Q It's not based on the supply. I mean, we haven't --
23 there's no complaint. There's sufficient supply of marijuana
24 available at this point; right, in Nevada?

25 A I think generally, I think that's the case.

1 Q That's right. So if the supply is sufficient, then
2 you don't need another 20 stores arguably, because demand is
3 being satisfied currently; isn't that correct?

4 MR. SHEVORSKI: Objection. Vague as to time.

5 THE COURT: Overruled.

6 THE WITNESS: No, I don't know that the demand is
7 being satisfied. I mean, there's proof all around the country
8 that that's not the case, and if that was the case, Starbucks
9 would have one location, not 200.

10 MR. PARKER: Well --

11 THE WITNESS: And if you get a Starbucks next to your
12 house, you drink more coffee.

13 MR. PARKER: I don't drink coffee.

14 BY MR. PARKER:

15 Q So let's get back to Nevada and not the rest of the
16 country and marijuana and not coffee. Okay?

17 So in terms of Nevada, we have -- you don't have any
18 empirical information, any data to show that the demand is
19 greater than the current supply. Is that a fair statement?

20 A Only that our own data that we applied for the
21 licenses because we thought they were valuable.

22 Q Okay. And I'm not asking that question right now,
23 sir.

24 A Okay.

25 Q Would you agree with me that at this point you have

1 no factual information, no evidence that demand for
2 recreational marijuana outweighs the supply at this point?

3 A Only our own internal projections that it does.

4 MR. PARKER: Nothing further, Your Honor. Thank you.

5 THE COURT: Any of the other plaintiffs wish to
6 examine?

7 (No audible response)

8 THE COURT: Any of the defendants and intervention
9 like to examine?

10 The State?

11 MR. SHEVORSKI: Nothing from the State, Your Honor.

12 THE COURT: Anything else, Mr. Gutierrez, on
13 redirect?

14 MR. SHEVORSKI: Just briefly, Your Honor.

15 REDIRECT EXAMINATION

16 BY MR. GUTIERREZ:

17 Q Mr. Peckman, would Thrive have applied for nine
18 licenses if it thought it was just to maintain a market share?

19 A We never had -- never even thought that. We never
20 had that discussion.

21 Q Did Thrive at least think it was going to increase --
22 why did Thrive apply for nine licenses?

23 A We thought we'd make more money. We got licenses,
24 and we got them open.

25 Q A lot of the talk about decreased market share and

JD Reporting, Inc.

1 whether it would increase or whether whatever would happen
2 would be -- and would you agree that it's pure speculation?

3 A 100 percent on both sides.

4 Q You were asked about the regulation on background
5 checks for the 5 percent threshold. Do you recall that?

6 A I was asked that, yes.

7 Q Okay. And are you familiar with that regulation,
8 NAC, I believe it's 453D.255?

9 THE COURT: That's not in the book, sir. You'll have
10 to look on the screen.

11 THE WITNESS: Okay.

12 MR. GUTIERREZ: We can pull that up.

13 THE COURT: They don't give me copies of the
14 administrative code.

15 BY MR. GUTIERREZ:

16 Q Mr. Peckman, have you seen this portion of the 2018
17 regulations?

18 A Let me see. You'll have to give me a second.

19 Yes, I am.

20 Q And specifically Subsection 2 allows that the -- in
21 the judgment of the department, the department could consider
22 an owner less than 5 percent to comply with the provisions; is
23 that correct?

24 A Of course.

25 Q Okay.

1 A It's an ongoing obligation in the department to check
2 into ownership.

3 Q And notwithstanding this 5 percent threshold, Thrive,
4 when it applied in 2018, complied with the background checks
5 fully by even listing owners with less than 5 percent; is that
6 correct?

7 A Yes.

8 MR. GUTIERREZ: Okay. No further questions, Your
9 Honor.

10 THE COURT: Anyone else?

11 (No audible response)

12 THE COURT: Thank you, Mr. Peckman. We appreciate
13 your time. You're welcome to stand up in the back row if you
14 want or --

15 THE WITNESS: Oh, thank you.

16 THE COURT: Or wherever.

17 All right. Next witness. Next witness.

18 MR. BICE: Yes, Your Honor.

19 THE COURT: Mr. Bice.

20 MR. BICE: Todd Bice on behalf of the Essence
21 entities, Your Honor. We're going to call -- our next witness
22 will be Alex Yemenidjian.

23 THE COURT: Sir, if you'd come forward, please.

24 **ALEJANDRO YEMENIDJIAN**

25 [having been called as a witness and being first duly sworn,

JD Reporting, Inc.

1 testified as follows:]

2 THE CLERK: Please be seated. Please state and spell
3 your name for the record.

4 THE WITNESS: Alejandro, A-l-e-j-a-n-d-r-o.
5 Yemenidjian, Y-e-m-e-n-i-d-j-i-a-n.

6 THE COURT: Sir, there is a pitcher of water next to
7 you. There are some M&Ms in the dispensers, and there are
8 books with exhibits.

9 I think the statute book is all the way there next to
10 you. If you need to look at a paper copy of the exhibits or
11 the statute, please feel free to do so, otherwise they will
12 display the exhibits for you on the monitor next to you.

13 THE WITNESS: Thank you.

14 THE COURT: If you want to take a break at any time,
15 you let us know, and if you need to stand up, like Mr. Peckman
16 did, please feel free to do so.

17 THE WITNESS: Okay.

18 THE COURT: Okay.

19 THE WITNESS: Thank you. Thank you, Your Honor.

20 THE COURT: Mr. Bice, you may proceed.

21 DIRECT EXAMINATION

22 BY MR. BICE:

23 Q Good -- or good morning, Mr. Yemenidjian. Can you
24 tell the Court where you are currently employed.

25 A I'm currently employed at GTI, Green Thumb

JD Reporting, Inc.

1 Industries.

2 Q All right. Do you also have another entity known as
3 Armco Holdings?

4 A I do.

5 Q Okay. Let's talk just briefly about your background.
6 Then we'll get into those entities. Where were you born, sir?

7 A I was born in Buenos Aires, Argentina.

8 Q All right. And how long have you been in the United
9 States?

10 A Approximately 50 years.

11 Q So you would have moved here approximately at what
12 age?

13 A 13.

14 Q Okay. Let's talk briefly about your educational
15 background. You have a business administration and accounting
16 degree; correct?

17 A I do.

18 Q All right. And you also have a master's degree in
19 taxation from USC?

20 A Correct.

21 Q Were you also a teacher for a period of time on
22 business?

23 A Yeah. I was adjunct professor of taxation at the USC
24 graduate school of business for a time.

25 Q All right. So after your education, did you start

1 your own accounting firm?

2 A No. After my education, I joined one of what was
3 then called the big eight firms, Peat Marwick Mitchell, now
4 KPMG.

5 Q Okay.

6 A And I worked there for three and a half years before
7 I started my own accounting firm.

8 Q All right. And then you left KPMG?

9 A I left KPMG to start my own accounting firm.

10 Q All right. And then did you subsequently join
11 another firm or start another firm?

12 A I merged with some of my colleagues, previous
13 colleagues from Peat Marwick, to form a larger firm.

14 Q Okay. And so where -- this was in Southern
15 California; correct?

16 A Correct.

17 Q Okay. And what sorts of clientele did you provide
18 services to?

19 A Mainly entertainment clients, real estate clients,
20 executives, variety.

21 Q All right. In that role did you come upon meeting an
22 individual by the name of Kirk Kerkorian?

23 A Yes.

24 Q Okay. And when approximately did you meet
25 Mr. Kerkorian?

1 A June 1989.

2 Q Okay. And ultimately did you begin working for
3 Mr. Kerkorian?

4 A I did.

5 Q What role did you have with Mr. Kerkorian and his
6 entities?

7 A Well, I started at the beginning of 1990 working for
8 his holding company, buying and selling companies for him.

9 Q Is that Tracinda?

10 A Tracinda Corporation. Correct.

11 Q Okay.

12 A And then he asked me to move to Las Vegas to oversee
13 the development of the new MGM Grand Hotel, and he also owned
14 at the time MGM Studios in Los Angeles. So I went back and
15 forth between the studio and MGM Grand Inc., which is now MGM
16 Resorts International.

17 Q Right. So were you a director of any of the MGM
18 entities?

19 A I was director of both MGM Studios and MGM Resorts.

20 Q All right. Were you ever an officer of any of the
21 MGM entities?

22 A Yes. For MGM Grand, slash, MGM Resorts, I was a
23 chief financial officer for a time.

24 Q Okay.

25 A And then I was president and chief operating officer

1 for a time, and in Metro-Goldwyn-Mayer, MGM Studios, I was
2 chairman and CEO.

3 Q All right. And you know in those roles you know a
4 little something about finance and financing, do you not?

5 A I dealt quite a bit with financing.

6 Q Okay. I mean, I know this -- from knowing you, I
7 know you do not blow your horn, sir, but you've, in fact, been
8 on the cover of Forbes magazine about financing, have you not?

9 A Once.

10 Q Once. They referred to you, as I recall, as the
11 wizard of MGM. Is that not true?

12 A That's what they said.

13 Q Okay. And that was over your saving of the -- that
14 wasn't the gaming enterprise. That was your saving of the MGM
15 Studios business; correct?

16 A That's correct.

17 Q When you took it over at Mr. Kerkorian's request,
18 what was his financial status?

19 A It was pretty dire. The company had a billion three
20 credit line. A billion two was used up.

21 Q Okay.

22 A And in that business, a hundred million dollars is
23 one movie. So it was in pretty bad shape.

24 Q And when -- did you subsequently sell that entity for
25 Mr. Kerkorian?

1 A We did, about six years after I took over as chairman
2 and CEO.

3 Q And what did you sell it for?

4 A We sold it for \$5 billion.

5 Q When did you leave the what I'll call the MGM
6 organization?

7 A Approximately 2013, 2014.

8 Q All right. And what did you do as your next act?

9 A I acquired the Tropicana Hotel on the Las Vegas
10 Strip.

11 Q You were the owner?

12 A I was the owner with a partner.

13 Q Okay. And you renovated that?

14 A We renovated the hotel. Correct.

15 Q Okay. And then you subsequently sold it; correct?

16 A We did. Yes.

17 Q Now, also you've been involved in the real estate
18 business here in Southern Nevada?

19 A We are investors in several real estate
20 development --

21 Q Shopping malls, things like that?

22 A Correct.

23 Q Okay. I also recall that you were at one point in
24 time the developer of Jersey Mike's sandwich shops here in Las
25 Vegas; is that right?

1 A Yeah. We had the exclusive franchise for Jersey
2 Mike's in the Las Vegas area.

3 Q Okay. And you subsequently sold that as well;
4 correct?

5 A Correct.

6 Q Let's talk about why you sold that. When you were in
7 these various forms of business that you've been in over the
8 years, how did you get involved in the cannabis business?

9 A When the concept of medical licenses was introduced,
10 my son and I thought that it could be a very interesting
11 business to get into, and we pursued it.

12 Q Okay.

13 A He pursued it. I advised.

14 Q All right.

15 A And at the time, it was only medical, and we had no
16 idea that recreational would ever come.

17 Q Right. But you ultimately then, along with your
18 son --

19 And, for the record, could you tell the Court your
20 son's name.

21 A Armen Yemenidjian. A-r-m-e-n.

22 Q And so you pursued that line of business, but you
23 were still in the gaming business at that point in time
24 yourself; were you not?

25 A I was, and so my son started the business.

1 Q Okay.

2 A He left the Tropicana to start the business.

3 Q So the entity that you and your son owned was
4 something called Integral Associates? Is that right?

5 A Correct.

6 Q Okay. And Integral Associates, let's jump ahead to
7 2018 in terms of the application process because that's why
8 we're here. At the time of the application process in 2018,
9 Integral had how many existing licenses?

10 A Five. Three retail licenses, one production license
11 and one cultivation license.

12 Q Okay.

13 A I'm sorry. Six. We sold -- we sold one.

14 Q All right. So at the time then there was an
15 application for recreational licenses, do you recall when that
16 was approximately when those applications were submitted?

17 A In 2018?

18 Q Yes.

19 A I believe it was September.

20 Q All right. In September then of 2018, let's talk
21 about who were the owners of Intregal, i.e., doing business as
22 Essence. Do you understand that?

23 A Sure.

24 Q Okay. So who were the owners?

25 A There were two owners, two LLCs. One was KHOD

1 Holdings LLC?

2 Q Okay.

3 A And the other was GB Health Partners LLC.

4 Q All right. And of those, of those two owners, of the
5 KHOD Holdings LLC, who were the individuals behind that entity?

6 A KHOD Holdings at the time was owned 50 percent by my
7 son.

8 Q Yes.

9 A And 50 percent by my living trust.

10 Q All right. And then you said there was another
11 entity called GB Health Partners LLC?

12 A Correct.

13 Q All right. And who owned that entity?

14 A Brian Greenspun.

15 Q Okay. So, in essence, in terms of the individuals,
16 who were the owners of Integral, it was you, your son and Brian
17 Greenspun; is that correct?

18 A Yes. To LLCs, three individuals.

19 Q All right. And the ownership is -- how is it broken
20 down?

21 A 50 percent GB Health Partners, 50 percent KHOD
22 Holdings.

23 Q All right. So there is no -- there is no one of
24 these entities that is less than 5 percent; correct?

25 A Correct.

1 Q So all of the owners behind these entities were
2 disclosed and had to be investigated; correct?

3 A Correct.

4 Q And, in fact, you'd already been investigated as part
5 of the medical as well; correct?

6 A Pardon me? Say that again.

7 Q I said your entities had already been investigated as
8 part of the medical licensing process even years before;
9 correct?

10 A That is correct.

11 Q All right. So there is no 5 percent owner here in
12 your enterprises that was not disclosed?

13 A Correct.

14 Q Do you recall when Essence -- there were two Essence
15 entities that applied for licenses; correct?

16 A Yes.

17 Q And those are owned by you; correct? Those two
18 entities?

19 A Correct.

20 Q All right. So one of them was Essence Henderson, and
21 one was Essence Tropicana; correct?

22 A Correct.

23 Q All right. Do you recall when those entities
24 ultimately received approval from the State or received their
25 recreational licenses?

1 A I believe it was December 5th when everybody got
2 their license.

3 Q Okay.

4 A Of 2018.

5 Q And how many licenses did Essence Henderson receive?

6 A Four.

7 Q And how many licenses did the Essence Tropicana
8 receive?

9 A Four also.

10 Q Okay. Now, let's jump ahead then to today, okay.
11 Today Essence is owned by someone else; correct -- I'm sorry.
12 Integral is owned by someone else?

13 A That is correct.

14 Q All right. Can you tell the Court who currently owns
15 Integral.

16 A Green Thumb Industries.

17 Q Okay.

18 A GTI.

19 Q And what is GTI?

20 A GTI is a company, multistate operator headquartered
21 in Chicago whose stock is traded on the Canadian stock
22 exchange -- sorry, the Canadian securities exchange.

23 Q All right. And when did that -- in other words, when
24 did GTI become the owner of Integral?

25 A June 4th --

1 Q What day --

2 A -- of 2019.

3 Q So just a couple of months ago; correct?

4 A Correct.

5 Q Several months after these licenses had already been
6 awarded to Intregal by the State?

7 A Correct.

8 Q All right. I want to now turn and talk to you
9 briefly about comparing the hardships that your entities are
10 faced by this threatened injunction as opposed to that of the
11 plaintiffs. All right.

12 You understand that the plaintiffs here are seeking
13 to have the Court enter an injunction that would preclude the
14 eight licenses that Essence obtained, the two Essence entities
15 obtained, from going active. Do you understand that?

16 A That's correct.

17 Q All right. When we discussed your background, you
18 have quite a bit of experience in the areas of finance;
19 correct?

20 A Yes.

21 Q Okay. And during your tenure in the gaming industry,
22 I assume you had occasions to do financial projections based on
23 operating experience; correct?

24 A Yes.

25 Q When you would be asked by Mr. Kerkorian to decide

1 whether or not to pursue another development, build another
2 hotel, you would have to look at what?

3 A Projections.

4 Q Okay. And you would have to make a judgment based on
5 those projections; correct?

6 A That's correct.

7 Q Did you view yourself as being a conservative in
8 making financial projections?

9 A Yeah. That was the prudent thing to do.

10 Q That was the -- I'm sorry the prudent --

11 A The prudent thing.

12 Q Okay. And have you lived by that motto?

13 A Yes.

14 Q All right. In fact, when you were on the board of
15 the various MGM entities or of the two MGM entities, did you
16 have to do earnings calls?

17 A Yes, I did about between the two MGMs maybe about 64
18 earnings calls.

19 Q All right. And during those earning calls, you would
20 sometimes be asked by analysts to give financial projections
21 about the future?

22 A We gave guidance usually at every call.

23 Q Okay. Did you also have to handle financing for the
24 MGM entities, to both the gaming company as well as the MGM
25 Studios?

1 A Yes. I was responsible for all debt and equity
2 financing for both entities.

3 Q All right. Well, let's -- and you would have to give
4 the lenders financial projections as part of those proposals, I
5 assume?

6 A Of course.

7 Q Okay. And would those loan amounts, are those
8 finances be in the hundreds and hundreds of millions of dollars
9 sometimes?

10 A No, usually more than a billion.

11 Q And I assume as part of your experience and when you
12 analyze deals for the Kerkorian Enterprises, sometimes the
13 finances didn't look that good, and you would pass on them; is
14 that right?

15 A That's correct.

16 Q How many today, okay. So let's talk about today.
17 How many existing retail operations does Integral, slash,
18 Essence have?

19 A Retail you said?

20 Q Yes, retail.

21 A Three.

22 Q Three. All right. And those retail licenses have
23 been in operation since the beginning of '16, or the first
24 quarter of '16?

25 A Yes. The first quarter of '16, all three were

1 opened.

2 Q Okay. And have those enterprises developed a
3 performance track record?

4 A Yes.

5 Q In fact, it was one of that performance track record
6 of those three enterprises that GTI looked at when they desired
7 to acquire your entity; correct?

8 A Clearly.

9 Q Okay. So in preparing to testify today, were you
10 able to look at the finances and come to any computations about
11 the financial harm that your enterprise would suffer in the
12 event it is not allowed to proceed with its licenses?

13 A Yes.

14 Q Okay. Can you tell us just briefly -- well, let's
15 deal with the end number, and then we'll come back. When you
16 did those forecasts, did you come to a per license EBITA per
17 year?

18 A I did, but primarily for the five licenses that are
19 in the Southern Nevada area.

20 Q Understood.

21 A And we also were awarded three licenses in Northern
22 Nevada, but I did not do a projection for those.

23 Q Okay. Well, you don't have any retail locations in
24 Northern Nevada right now; correct?

25 A We don't. Our parent company has one location.

JD Reporting, Inc.

1 Q Okay.

2 A Which I understand does very well, but I don't have
3 any personal experience and enough knowledge and empirical data
4 to feel comfortable with a projection.

5 Q All right. So let's deal then with the five -- let's
6 deal with the licenses down here just by way of an example. So
7 did you draw any conclusions based on the existing performance
8 data of how much EBITA you would lose per year per license?

9 A Yes.

10 Q And what was that number?

11 A Approximately 2.8 million.

12 Q 2.8 million?

13 A Yes.

14 Q All right. Is that -- do you think that that number
15 is conservative?

16 A I do.

17 Q All right. So let's tell the Court how you came up
18 with that number.

19 A Well, I took our lowest revenue store.

20 Q Why did you use the lowest?

21 A That's the most conservative way to do it.

22 Q Okay. And what did you do with that information?

23 A From the revenues of that lowest revenue store, I
24 discounted by approximately 24 or 25 percent.

25 Q Why?

1 A Because when the market grows, it doesn't grow dollar
2 for dollar.

3 Q Okay.

4 A There is a progression.

5 Q Sure.

6 A Of increased business until you reach a point of
7 saturation. So the prudent thing to do was to get -- to take a
8 discount or a haircut of about 25 percent off the revenues.

9 Q All right. And --

10 A I then applied the lowest profit margin that we have
11 of any store, which is not the same as the lowest revenue, at
12 different stores.

13 Q Why did you use the lowest profit margin?

14 A Because local stores have a lower profit margin than
15 stores that cater to tourists.

16 Q Okay.

17 A So the prudent thing to do would -- was to take the
18 lowest revenue, haircut it by 25 percent, and then apply to
19 that the lowest profit margin that we have.

20 Q Is this consistent, your approach consistent with
21 what we've called your conservative approach over the many,
22 many years in the gaming and movie business?

23 A I would think so.

24 Q And then based on that number, you concluded that the
25 licenses -- EBITA, EBITA, can you just for the record explain

1 what EBITA is.

2 A EBITA is earnings --

3 THE COURT: Mr. Bice.

4 MR. BICE: Well, I want the record, Your Honor.

5 We'll be up at the Nevada Supreme Court.

6 THE COURT: Okay.

7 THE WITNESS: Am I allowed to answer that?

8 THE COURT: Oh, yes. Absolutely. Somebody will not
9 know what it means.

10 THE WITNESS: EBITA is earnings before interest,
11 taxes, depreciation and amortization.

12 BY MR. BICE:

13 Q All right. And so for those licenses -- and that's
14 2.8 million per year; correct?

15 A Per year per location.

16 Q Per location. So if there's an injunction that
17 applied for 18 months or 24 months, that would be 1.5 or double
18 that number; right?

19 A That's our estimate. Yes.

20 Q Okay. Let's talk about briefly also some
21 expenditures. We heard Mr. Peckman, and I know you were in the
22 room this morning, testifying about the regulatory process and
23 the people participating in the regulations and the like. Once
24 those regulations were adopted, did you have to expend money in
25 order to apply?

1 A For the new eight licenses?

2 Q Yes.

3 A Yes, of course.

4 Q Okay. And after those licenses were awarded, did you
5 have to further expend monies?

6 A Yes.

7 Q Okay. Do you recall what types of monies you had to
8 expend?

9 A Well, we spent a lot of money on finding locations,
10 architectural and engineering costs, legal fees, negotiating
11 leases, entering into escrow to acquire properties, et cetera.

12 Q Okay. Well, let's just talk about that briefly. So
13 because of the eight new licenses and the expansion that that
14 would entail, did you hire new employees?

15 A To take care of the expansion we hired four new
16 employees.

17 Q But those are employees for the overall organization.
18 You haven't yet hired employees for each branch?

19 A No. These were employees that were required to
20 execute the expansion of eight additional stores.

21 Q Got it. Okay. And did you also then engage
22 architects?

23 A We did, yes.

24 Q Okay.

25 A Engineers, architects.

1 Q And can you just tell us just -- and I'll go into a
2 couple of these matters, but can you just tell us generally
3 approximately how much you have spent to date. Is it more than
4 a million dollars?

5 A It's about a million 60,000.

6 Q All right.

7 A And growing.

8 Q And growing. And going to continue to grow; correct?

9 A Yes.

10 Q Let's talk about one of those things where it's going
11 to continue to grow. One of the things you have done is you
12 locked up a piece of property for one of your locations;
13 correct?

14 A Yes.

15 Q And you had to put down a earnest money deposit of
16 how much money?

17 A I think it was 350,000 or thereabouts.

18 Q Okay. And you had to make then payments, right, to
19 keep that active? Is that right?

20 A Yeah.

21 Q How much have you deposited so far to date on just
22 that one location?

23 A No. The 350 is the entire --

24 Q Oh, it is. All right.

25 A The entire series of deposits to date.

1 Q Okay.

2 A Yeah.

3 Q And you're going to have to -- another payment coming
4 due?

5 A If things don't get resolved and I can't close on a
6 timely basis, I'm going to have to ask for an extension and pay
7 more money.

8 Q And is the owner going to give you an extension for
9 free?

10 A So far he's charged me for every extension.

11 Q I understand. And if you don't get -- and if you --
12 and if there's an injunction, unless you can't -- you don't
13 want to pay more money for the extension, what's going to
14 happen to your deposit?

15 A I'm going to have to walk away from it, lose it.

16 Q All right.

17 A By the way, there's no guarantee he will give me the
18 extension.

19 Q Understood. He can just keep your money and walk?

20 A Yes.

21 Q One of the other locations I want to talk to you
22 briefly about is you have a location up in Reno; correct?

23 A Yes.

24 Q And you have -- you have an approval on that;
25 correct?

1 A Yes.

2 Q And it's right across the street from the Peppermill;
3 correct?

4 A That's correct.

5 Q Within 1500 feet of the Peppermill, a gaming
6 enterprise; right?

7 A That's right.

8 Q Is your understanding the city of Reno has since
9 changed the rules so that if you don't get this open and that
10 location, let's say you're enjoined from proceeding with that
11 location, that a new change in the ordinance would preclude a
12 location within 1500 feet of a casino?

13 A Yes, it's my understanding that that goes in to
14 effect November 1.

15 Q Okay.

16 A So that after that day, if we don't get our
17 certificate of occupancy by November 1, our location would be
18 disqualified.

19 Q Okay. So I want to just -- now I'm going to briefly
20 touch on one other subject, and then we'll be done.

21 You've been involved in a lot -- well, I shouldn't
22 say a lot. How many publicly traded corporations have you been
23 on the board of?

24 A Six.

25 Q Six. You've been on the audit committee of any of

1 those?

2 A I was chairman of the audit committee of Regal
3 Cinemas.

4 Q Okay. When you are a publicly traded corporation, do
5 you know the identity of all of your stockholders?

6 A No.

7 Q Mr. Peckman used this term before. Have you ever
8 heard of stock being held in what's called street name?

9 A Yes, of course.

10 Q Okay. And that means it's being held by --

11 A A brokerage house.

12 Q And who actually is -- on the company's books and
13 records, who's the owner?

14 A A big block in the name of the brokerage house.

15 Q Merrill Lynch?

16 A Merrill Lynch.

17 Q Schwab --

18 A Goldman Sachs.

19 Q -- things like that; right?

20 A Yeah.

21 Q Okay. Does a publicly traded corporation, can it
22 find out the identity of all of its shareholders, somebody who
23 even owns a small amount?

24 A No.

25 MR. BICE: Pass the witness, Your Honor. Thank you.

1 THE COURT: Any cross-examination by the plaintiffs?

2 MR. GENTILE: I just have a couple.

3 THE COURT: Mr. Gentile.

4 CROSS-EXAMINATION

5 BY MR. GENTILE:

6 Q Mr. Yemenidjian, I think you either characterized
7 yourself or your lawyer characterized you and then you agreed
8 with him as conservative?

9 A Correct.

10 Q So I was right.

11 A Yes.

12 Q And I think that you said that you felt at least in
13 terms of doing business that that was the prudent thing to be;
14 is that correct?

15 A Correct.

16 Q Right?

17 A Correct.

18 Q When did you find out about this lawsuit?

19 A I think shortly after it was filed.

20 Q Right. January of this year; right?

21 A About that time.

22 Q Right. Did you keep spending money?

23 A Yes.

24 MR. GENTILE: Nothing further.

25 THE COURT: Any of the other plaintiffs wish to

1 examine?

2 Mr. Parker.

3 MR. PARKER: Thank you, Your Honor.

4 CROSS-EXAMINATION

5 BY MR. PARKER:

6 Q Good morning.

7 A Good morning.

8 Q How are you doing, sir?

9 A Good.

10 Q I only have a few questions for you. You were not
11 here earlier or throughout these proceedings, but during one of
12 the trial days, it was indicated by Mr. Jorge Pupo that your
13 son may have discussed with Mr. Pupo offering him a job. Are
14 you aware of that?

15 A I've heard about it, but I'm not aware of it.

16 Q Okay. How did you hear about that? And I'm not
17 asking you to give me any information you've gotten from your
18 attorney, but -- or attorneys. How did you hear about it other
19 than from your attorneys?

20 A From my attorneys.

21 Q Did you? All right. Did your son ever inform you
22 that he had extended an offer to Mr. Pupo?

23 A No.

24 Q All right. You didn't give him authority to make
25 that offer?

JD Reporting, Inc.

1 A He has even more authority than I do.

2 Q Does he?

3 A Yeah.

4 Q Sir, how long have you had an interest in Integral?

5 A Myself personally?

6 Q Yes, sir.

7 A I believe it's April of 2018.

8 Q 2018?

9 A That's when my application was approved by the
10 Department of Transportation -- the Department of Taxation.

11 Q I made that same mistake earlier on in these
12 proceedings.

13 Do you have a license with the State of Nevada, a
14 gaming license?

15 A It's dormant.

16 Q How long --

17 A I had one, but I no longer use it.

18 Q When did it become dormant?

19 A It's not a technical term. When I sold the
20 Tropicana, I didn't use the gaming license anymore.

21 Q And when was that? What year was that?

22 A August 2015.

23 Q Okay. So you still have a license, but it's dormant;
24 is that correct?

25 A I think that's the way it works. If I wanted to get

1 back into the gaming business, I would have to go in front of
2 the Gaming Control Board again, and they would have to
3 determine if I'm still suitable for licensing.

4 Q Okay. Are you aware of a resolution by the gaming --
5 the State Gaming Division that precludes an owner of a gaming
6 license to have an interest in a marijuana business?

7 A Yes.

8 Q All right. Have you divorced yourself of any gaming
9 license for purposes of complying with that resolution?

10 A Yes.

11 Q Okay. Did you review the initiative or the statutes
12 or the regulations related to recreational marijuana, sir?

13 A No.

14 Q And you didn't have any part to play in the
15 application?

16 A No.

17 Q Have you ever been a part of or overseen a
18 competitive bidding process?

19 A Yes.

20 Q Are you familiar with the reasons behind a
21 competitive bidding process?

22 A I'm not sure how to answer that question.

23 Q Let me see if I can ask it in a better way.
24 Typically competitive bidding process is for the purpose of
25 getting the best price and perhaps the best quality of service.

1 Would you agree with that?

2 A Oh, you're referring to what criteria I used --

3 Q Yes, sir.

4 A -- in a competitive bidding process?

5 Q Yes, sir.

6 A Yeah. Well, I'm sure different people use different
7 criteria, but, you know, it depends on the type of competitive
8 process it is, and usually the objective is to select those who
9 are best suited and best qualified and most experienced in a
10 particular area.

11 Q I would agree. And in order to get responses to a
12 competitive bidding process so you're judging apples to apples
13 and oranges to oranges, is to have a process that's, I would
14 say, clear to all potential bidders and provides a level
15 playing field. Would you agree with that?

16 A Yes.

17 Q All right. And would you agree with me, because it
18 appears that you have some experience with building and
19 development, certainly you've handled the MGM Resorts, and
20 you've handled the purchase and the operation of casinos here
21 in Nevada, would you agree with me that in terms of providing a
22 platform for a competitive bidding process that the owner takes
23 responsibility for the completeness and clarity of those
24 documents, be it plans, be it the scope of work, whatever that
25 bidding process is meant to perform or provide? Is that

1 correct?

2 A By the owner, you mean the entity submitting the
3 application?

4 Q The entity is -- in fact, let's start from the owner
5 first. Let's say that the MGM or the Tropicana wanted to have
6 an expansion done or a new tower added, and you did a
7 competitive process for construction companies or construction
8 managers to do it. In terms of those plans, the owner takes
9 responsibility for the adequacy and the completeness of those
10 plans; is that correct?

11 A Ultimately, yes.

12 Q Right. So if you were to compare that process to
13 this process, the State takes responsibility for the adequacy
14 or the completeness of its application; is that correct?

15 A I would imagine.

16 Q Right. And for all players participating in the
17 process, they're relying on the completeness and adequacy of
18 those plans, if we were to use your tower as an example, for
19 purposes of providing a bid that fits the scope of the process;
20 right?

21 A Yes --

22 MR. BICE: Objection.

23 THE WITNESS: -- unless.

24 MR. BICE: Object. Your Honor, I object that it
25 calls for him to speculate.

JD Reporting, Inc.

1 THE COURT: Overruled.

2 You can answer.

3 BY MR. PARKER:

4 Q Isn't that true, sir?

5 A Can you repeat the question.

6 Q Certainly. The participants in the bid process
7 depend on the adequacy and the completeness of the plans, if
8 we're using the tower as an example, for purposes of developing
9 and providing a bid; is that correct?

10 A Yes, subject to interpretation.

11 Q That's absolutely, but for the benefit of the owner,
12 if the owner wants to be able to compare these bids and really
13 figure out if they're getting an apples to apples scope and
14 price, the plans have to be clear enough to do so; right?

15 A Yes, to have a good comparison they have to be clear.

16 Q You would not give two different sets of plans to
17 applicants and expect to get the same price, would you?

18 A No.

19 Q You wouldn't expect to have two applications
20 providing for different information and expect to be able to
21 judge those bids as apples to apples bids; isn't that true?

22 A Correct.

23 Q Thank you. So in this case, and I don't know if
24 you're aware of this, there were two applications. We got an
25 Application 5, which is Exhibit 5, and we have an application

1 5A, which we learned during these proceedings. Were you aware
2 of that?

3 A No.

4 Q All right. Now, let me ask you this, because I
5 appreciate Mr. Bice bringing you here because you're someone we
6 can actually drill down a little bit on some of the criteria on
7 the nonidentifying portion of the application. Are you
8 familiar with looking at or determining where a business or a
9 location would work in terms of profitability because of the
10 community it intends to serve? So, for example, the MGM Resort
11 may do well on The Strip, but it may not do well in North Las
12 Vegas. Would you agree?

13 A Yeah. I'm sorry. You're asking me if the location
14 is important?

15 Q Yes.

16 A Yes.

17 Q All right. That was my long-winded way of asking
18 that. The Judge is over here cringing it took me so long.

19 But exactly.

20 Now, if location is important, is the impact on a
21 community equally important?

22 A That's a judgment call probably for the government to
23 make.

24 Q All right. If there was an impact in a community as
25 a part of the criteria for the application, were you aware of

1 that?

2 A No.

3 Q All right. Did you know that there was an adequacy
4 of size of building that was a part of the criteria in this
5 application?

6 A No.

7 Q Did you know that the location for the marijuana
8 establishment --

9 Did you know whether or not location of the marijuana
10 establishment proposed by the applicant was required?

11 A For the 2018 application?

12 Q Yes, sir.

13 A No.

14 Q You have no -- you have no knowledge either way?

15 A I have no knowledge.

16 Q Okay. And then finally, sir, did you in terms of the
17 conservatism in your numbers, you said you used the lowest
18 profit margin location, and you used the lowest revenue
19 location; is that correct?

20 A That's correct.

21 Q Can you tell us what those locations are.

22 MR. BICE: Objection, Your Honor.

23 THE COURT: Sustained.

24 MR. PARKER: Good enough.

25 MR. BICE: Thank you.

1 MR. PARKER: Fair enough, Your Honor.

2 THE COURT: There is certain information --

3 MR. PARKER: I agree.

4 THE COURT: -- that is still.

5 MR. PARKER: I'm not arguing the point.

6 THE COURT: -- partially commercially sensitive and
7 confidential.

8 MR. PARKER: He could have answered it.

9 THE COURT: It's all right. I got it.

10 MR. PARKER: I respect the objection.

11 BY MR. PARKER:

12 Q In either of those locations, have you ever run out
13 of marijuana to sell?

14 A I cannot tell you because I don't run the operations.

15 MR. PARKER: All right. Thank you very much, sir.

16 THE COURT: Any of the other plaintiffs have any
17 questions?

18 Mr. Bice, I would love to finish up before I break
19 for lunch.

20 MR. BICE: I have no further questions.

21 Thank you, Mr. Yemenidjian.

22 THE COURT: Thank you, sir. We appreciate your time.

23 THE WITNESS: Thank you.

24 THE COURT: How long is Mr. Terry's examination
25 anticipated?

1 MR. GUTIERREZ: Probably 20, 25 minutes.

2 THE COURT: Unfortunately I have a mental health
3 court staffing meeting --

4 You can walk, sir. You're fine.

5 -- I have a mental health court staffing meeting and
6 a bench bar meeting I'm supposed to manage to attend over the
7 lunch hour. So I don't want to start Mr. Terry and have to
8 break him in the middle. Can we start at 1:15?

9 MR. GUTIERREZ: Sounds great.

10 THE COURT: I do have two orders to show cause in
11 mental health court. So at 2:00, I have to walk next door and
12 handle those, but that's about a 15-minute break.

13 MR. BICE: I believe this is the last witness.

14 THE COURT: I believe so too.

15 MR. BICE: Thank you, Your Honor.

16 THE COURT: So 1:15.

17 All right. I am going to ask all of you a question
18 when we finish whoever the last witness is. I will ask you if
19 there are any exhibits or other documentary evidence that you
20 want admitted that has previously not been admitted.

21 / / /

22 / / /

23 / / /

24 / / /

25 / / /

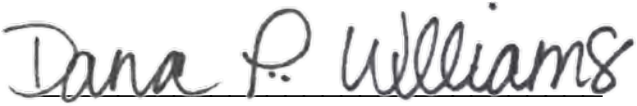

1 I would encourage all of you to spend a few minutes
2 with Dulce to see if everything on your list you think is
3 already admitted is actually on her list as admitted because
4 her list controls.

5 So I will be leaving. You all can talk to Dulce.
6 I'll see you guys at 1:15.

7 (Proceedings recessed at 11:37 a.m., until 1:05 p.m.)

II.

GENERAL ALLEGATIONS

16. Answering paragraph 16 of the Complaint, no response is required as the allegations contained therein are Plaintiffs' legal conclusions. To the extent a response is required, Defendant is without sufficient knowledge or information as to the truth or falsity of the allegations contained therein, and on that basis denies these allegations.

17. Answering paragraph 17 of the Complaint, no response is required as the allegations contained therein are Plaintiffs' legal conclusions or statements regarding the contents of laws or regulations. To the extent a response is required and the allegations

1 accurately state the laws or regulations referenced therein, Defendant admits these
2 allegations.

3 18. Answering paragraph 18 of the Complaint, no response is required as the
4 allegations contained therein are Plaintiffs' legal conclusions or statements regarding the
5 contents of laws or regulations. To the extent a response is required and the allegations
6 accurately state the laws or regulations referenced therein, Defendant admits these
7 allegations.

8 19. Answering paragraph 19 of the Complaint, no response is required as the
9 allegations contained therein are Plaintiffs' legal conclusions or statements regarding the
10 contents of laws or regulations. To the extent a response is required and the allegations
11 accurately state the laws or regulations referenced therein, Defendant admits these
12 allegations.

13 20. Answering paragraph 20 of the Complaint, no response is required as the
14 allegations contained therein are Plaintiffs' legal conclusions or statements regarding the
15 contents of laws or regulations. To the extent a response is required and the allegations
16 accurately state the laws or regulations referenced therein, Defendant admits these
17 allegations.

18 21. Answering paragraph 21 of the Complaint, no response is required as the
19 allegations therein reference a document that speaks for itself. To the extent a response is
20 required and the allegations accurately state the contents of the document referenced therein,
21 Defendant admits these allegations.

22 22. Answering paragraph 22 of the Complaint, Defendant admits these
23 allegations.

24 23. Answering paragraph 23 of the Complaint, Defendant admits these
25 allegations.

26 24. Answering paragraph 24(a)-(h) of the Complaint, no response is required as
27 the allegations contained therein are Plaintiffs' legal conclusions or statements regarding the
28 contents of laws or regulations. To the extent a response is required and the allegations

1 accurately state the laws or regulations referenced therein, Defendant denies these
2 allegations.

3 24a.¹ Answering paragraph 24a, Defendant denies these allegations.

4 25. Answering paragraph 25 of the Complaint, no response is required as the
5 allegations therein reference a document that speaks for itself. To the extent a response is
6 required, Defendant denies these allegations.

7 26. Answering paragraph 26 of the Complaint, no response is required as the
8 allegations contained therein are Plaintiffs' legal conclusions or statements regarding the
9 contents of laws or regulations. To the extent a response is required, Defendant denies these
10 allegations.

11 27. Answering paragraph 27 of the Complaint, Defendant admits that the
12 Department of Taxation announced it would issue recreational retail store licenses no later
13 than December 5, 2018. Defendant denies these allegations to the extent that it imposes a
14 legal obligation on the Department that is inconsistent or outside of the requirements set forth
15 in Nev. Rev. Stat. § 453D.210.

16 28. Answering paragraph 28 of the Complaint, Defendant admits these
17 allegations.

18 29. Answering paragraph 29 of the Complaint, Defendant is without sufficient
19 knowledge or information as to the truth or falsity of the allegations contained therein, and
20 on that basis denies these allegations.

13 **GENERAL DENIAL**

14 To the extent a further response is required to any allegation set forth in the
15 Complaint, Defendant denies such allegation.

16 **ANSWER TO PRAYER FOR RELIEF**

17 Answering the allegations contained in the entirety of Plaintiffs' prayer for relief,
18 Defendant denies that Plaintiffs are entitled to the relief sought therein or to any relief in this
19 matter.

20 **AFFIRMATIVE DEFENSES**

21 Defendant, without altering the burdens of proof the parties must bear, asserts the
22 following affirmative defenses to Plaintiffs' Complaint, and all causes of action alleged
23 therein, and specifically incorporates into these affirmative defenses its answers to the
24 preceding paragraphs of the Complaint as if fully set forth herein.

25 **FIRST AFFIRMATIVE DEFENSE**

26 The Complaint, and all the claims for relief alleged therein, fails to state a claim
27 upon which relief can be granted.

28 ///

SECOND AFFIRMATIVE DEFENSE

Plaintiffs have not been damaged directly, indirectly, proximately, or in any manner whatsoever by any conduct of Defendant.

THIRD AFFIRMATIVE DEFENSE

The State of Nevada, Department of Taxation is immune from suit when performing the functions at issue in this case.

FOURTH AFFIRMATIVE DEFENSE

The actions of the State of Nevada, Department of Taxation were all official acts that were done in compliance with applicable laws and regulations.

FIFTH AFFIRMATIVE DEFENSE

Plaintiffs' claims are barred because Plaintiffs have failed to exhaust administrative remedies.

SIXTH AFFIRMATIVE DEFENSE

The actions of the State of Nevada, Department of Taxation, were not arbitrary or capricious, and the State of Nevada, Department of Taxation had a rational basis for all the actions taken in the licensing process at issue.

SEVENTH AFFIRMATIVE DEFENSE

Plaintiffs have failed to join necessary and indispensable parties to this litigation under Nev. R. Civ. P. 19, as the Court cannot grant any of Plaintiffs' claims without affecting the rights and privileges of those parties who received the licenses at issue as well as other third parties.

EIGHTH AFFIRMATIVE DEFENSE

The claims, and each of them, are barred by the failure of Plaintiffs to plead those claims with sufficient particularity.

NINTH AFFIRMATIVE DEFENSE

Plaintiffs have failed to allege sufficient facts and cannot carry the burden of proof imposed on them by law to recover attorney's fees incurred to bring this action.

///

TENTH AFFIRMATIVE DEFENSE

Injunctive relief is not available to Plaintiffs, because the State of Nevada, Department of Taxation has already completed the task of issuing conditional licenses.

ELEVENTH AFFIRMATIVE DEFENSE

Plaintiffs have no constitutional right to obtain privileged licenses.

TWELFTH AFFIRMATIVE DEFENSE

Plaintiffs are not entitled to judicial review on the denial of a privileged license.

THIRTEENTH AFFIRMATIVE DEFENSE

Mandamus is not available to compel the members of the executive branch to perform non-ministerial, discretionary tasks.

FOURTEENTH AFFIRMATIVE DEFENSE

Declaratory relief will not give the Plaintiffs the relief they are seeking.

FIFTEENTH AFFIRMATIVE DEFENSE

Pursuant to the Nevada Rules of Civil Procedure, all possible affirmative defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of this answer and, therefore, Defendant hereby reserves the right to amend this answer to allege additional affirmative defenses if subsequent investigation warrants.

SIXTEENTH AFFIRMATIVE DEFENSE

Defendant expressly reserves the right to amend this Answer to bring counterclaims against Plaintiffs.

PRAYER FOR RELIEF

WHEREFORE, Defendant prays for judgment as follows:

1. Plaintiffs take nothing by way of their Complaint.
2. The Complaint, and all causes of action alleged against Defendant therein be dismissed with prejudice.
3. For reasonable attorney's fees and costs be awarded to Defendant.
4. For any such other and further relief the Court deems just and proper under

the circumstances.

DATED this the 17th day of July, 2019.

14 85. Answering paragraph 85, Lone Mountain denies.

15 WHEREFORE, Lone Mountain requests that Plaintiffs take nothing by way of their
16 Corrected First Amended Complaint.

17 **AFFIRMATIVE DEFENSES**

18 **First Affirmative Defense**

19 Lone Mountain adopts and incorporates herein all affirmative defenses plead by
20 Defendants and other Intervenor in this matter.

21 **Second Affirmative Defense**

22 The Corrected First Amended Complaint fails to state a claim upon which relief can be
23 granted.

24 **Third Affirmative Defense**

25 Plaintiffs have not been damaged directly, indirectly, proximately or in any manner
26 whatsoever by any conduct of Defendants.

27 //

Fourth Affirmative Defense

The State of Nevada, Department of Taxation is immune from suit when performing the functions at issue in this case.

Fifth Affirmative Defense

The actions of the State of Nevada, Department of Taxation were all official acts that were done in compliance with applicable laws and regulations.

Sixth Affirmative Defense

Plaintiffs' claims are barred because Plaintiffs have failed to exhaust administrative remedies, if any.

Seventh Affirmative Defense

Plaintiffs have failed to join necessary and indispensable parties to this litigation under NRCP 19 as the Court cannot grant any of Plaintiffs' claims without affecting the rights and privileges of those parties who received the licenses at issue as well as other third parties.

Eighth Affirmative Defense

The occurrences referred to in the Corrected First Amended Complaint and all alleged damages, if any, resulting therefrom, were caused by a third party of which Defendants had no control.

Ninth Affirmative Defense

The actions of the State of Nevada, Department of Taxation were not arbitrary or capricious, and the State of Nevada, Department of Taxation had a rational basis for all of the actions taken in the licensing process at issue.

Tenth Affirmative Defense

Plaintiffs' claims are barred, in whole or in part, by their failure to perform or satisfy required conditions precedent and by their own bad acts.

Eleventh Affirmative Defense

Plaintiffs are not in possession and/or control of the documents and/or witnesses necessary to prove its alleged causes of action against Defendants.

Twelfth Affirmative Defense

The claims, and each of them, are barred by the failure of Plaintiffs to plead those claims with sufficient particularity.

Thirteenth Affirmative Defense

Plaintiffs have failed to allege sufficient facts and cannot carry the burden of proof imposed on it by law to recover attorney's fees incurred to bring this action.

Fourteenth Affirmative Defense

Injunctive relief is unavailable to Plaintiffs, because the State of Nevada, Department of Taxation has already completed the tasks of issuing the conditional licenses.

Fifteenth Affirmative Defense

Plaintiffs have no constitutional rights to obtain privileged licenses.

Sixteenth Affirmative Defense

Mandamus is not available to compel the members of the executive branch to perform nonministerial, discretionary tasks.

Seventeenth Affirmative Defense

Plaintiffs are not entitled to judicial review on the denial of a license.

Eighteenth Affirmative Defense

Declaratory relief will not give the Plaintiffs the relief that they are seeking.

Nineteenth Affirmative Defense

Plaintiffs lack standing to seek the relief they request.

Twentieth Affirmative Defense

Pursuant to Nevada Rules of Civil Procedure, all possible affirmative defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of this answer and, therefore, Lone Mountain reserves the right to amend this answer to allege additional affirmative defenses if subsequent investigation warrants.

13 Clear River, without altering the burdens of proof the parties must bear, asserts the
14 following affirmative defenses to Plaintiffs' Complaint, and all causes of action alleged therein,
15 and specifically incorporates into these affirmative defenses its answers to the preceding
16 paragraphs of the Complaint as if fully set forth herein.

17 **FIRST AFFIRMATIVE DEFENSE**

18 The Complaint and all the claims for relief alleged therein, fails to state a claim upon
19 which relief can be granted.

20 **SECOND AFFIRMATIVE DEFENSE**

21 Plaintiffs have not been damaged directly, indirectly, proximately, or in any manner
22 whatsoever by any conduct of Clear River.

23 **THIRD AFFIRMATIVE DEFENSE**

24 The State of Nevada, Department of Taxation is immune from suit when performing the
25 functions at issue in this case.

1 **FOURTH AFFIRMATIVE DEFENSE**

2 The actions of the State of Nevada, Department of Taxation were all official acts that
3 were done in compliance with applicable laws and regulations.

4 **FIFTH AFFIRMATIVE DEFENSE**

5 Plaintiffs' claims are barred because Plaintiffs have failed to exhaust administrative
6 remedies, if any.

7 **SIXTH AFFIRMATIVE DEFENSE**

8 The actions of the State of Nevada, Department of Taxation, were not arbitrary or
9 capricious, and the State of Nevada, Department of Taxation had a rational basis for all the
10 actions taken in the licensing process at issue.

11 **SEVENTH AFFIRMATIVE DEFENSE**

12 Plaintiffs have failed to join necessary and indispensable parties to this litigation under
13 Nev. R. Civ. P. 19, as the Court cannot grant any of Plaintiffs' claims without affecting the rights
14 and privileges of those parties who received the licenses at issue as well as other third parties.

15 **EIGHTH AFFIRMATIVE DEFENSE**

16 The claims, and each of them, are barred by the failure of Plaintiffs to plead those claims
17 with sufficient particularity.

18 **NINTH AFFIRMATIVE DEFENSE**

19 Plaintiffs have failed to allege sufficient facts and cannot carry the burden of proof
20 imposed on them by law to recover attorney's fees incurred to bring this action.

21 **TENTH AFFIRMATIVE DEFENSE**

22 Injunctive relief is not available to Plaintiffs, because the State of Nevada, Department of
23 Taxation has already completed the task of issuing conditional licenses.

24 ///

ELEVENTH AFFIRMATIVE DEFENSE

Plaintiffs have no constitutional right to obtain privileged license.

TWELFTH AFFIRMATIVE DEFENSE

Plaintiffs are not entitled to judicial review on the denial of a privilege license.

THIRTEENTH AFFIRMATIVE DEFENSE

Mandamus is not available to compel the members of the executive branch to perform non-ministerial, discretionary tasks.

FOURTEENTH AFFIRMATIVE DEFENSE

Plaintiffs are not entitled to declaratory relief because declaratory relief will not give the Plaintiffs the relief they are seeking.

FIFTEENTH AFFIRMATIVE DEFENSE

Pursuant to the Nevada Rules of Civil Procedure, all possible affirmative defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of this answer and, therefore, Clear River hereby reserves the right to amend this answer to allege additional affirmative defenses if subsequent investigation warrants.

SIXTEENTH AFFIRMATIVE DEFENSE

Clear River adopts and incorporates herein all affirmative defenses by Defendants and other Intervenors in this matter.

SEVENTEENTH AFFIRMATIVE DEFENSE

The occurrences referred to in the Complaint and all alleged damages, if any, resulting therefrom, were caused by a third party of which Clear River had no control.

EIGHTEENTH AFFIRMATIVE DEFENSE

Plaintiffs lack standing to seek the relief they request.

///

NINETEENTH AFFIRMATIVE DEFENSE

Clear River expressly reserves the right to amend this Answer to bring counterclaims against Plaintiffs.

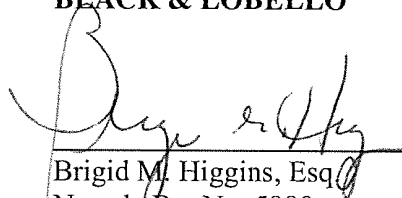

PRAYER FOR RELIEF

WHEREFORE, Clear River prays for judgment as follows:

1. Plaintiffs take nothing by way of their Complaint;
2. The Complaint, and all causes of action alleged against Clear River and Defendants therein be dismissed with prejudice;
3. For reasonable attorney's fees and costs, be awarded to Clear River; and
4. For any such other and further relief, the Court deems just and proper under the circumstances.

2 (Court was called to order)

3 THE COURT: All right. Good morning, Serenity
4 Wellness and others. How are you all today?

5 MR. SHEVORSKI: Good, Your Honor. Good morning.

6 THE COURT: I understand from some scheduling
7 discussions I had before we started that I've got three
8 witnesses today, Bradley, Rombough, and Zakalik. Who am I
9 starting with?

10 MR. GUTIERREZ: Your Honor, we're starting with
11 Judah Zakalik.

12 THE COURT: Okay. Mr. Zakalik, if you'd come
13 forward, please.

14 MR. CRISTALLI: Your Honor, he may need his
15 attorneys.

16 THE COURT: I think they're coming back. They're
17 coming.

18 JUDAH ZAKALIK, DEFENDANTS' WITNESS, SWORN

19 THE CLERK: Thank you. Please be seated. Please
20 state and spell your name for the record.

21 THE WITNESS: Judah Zakalik, J-U-D-A-H
22 Z-A-K-A-L-I-K.

23 THE COURT: And while we're waiting for Mr. Fetaz
24 and Mr. Bult to come back in, I'm going to tell you a couple
25 preliminary things. You notice there is a pitcher of water

1 there next to you. So if you need water, it's there for you.
2 There are also dispensers with M&Ms behind if you need M&Ms to
3 keep you going as they ask you questions, let me know. And
4 then there are also binders with a lot of exhibits. They may
5 have you look at the hard copies. They are also going to show
6 them to you on the screen. You are always welcome to look at
7 the hard copy if it's easier for you. And if they refer you
8 to the statute, I do have the version that's in the statute
9 book I can hand you to assist you.

10 THE WITNESS: Thank you, Your Honor.

11 THE COURT: Okay?

12 THE WITNESS: Yes, Your Honor.

13 THE COURT: And since your counsel's now in the room
14 and I've finished the preliminaries, I'm going to let the
15 examination begin. That was called stalling.

16 DIRECT EXAMINATION

17 BY MR. GUTIERREZ:

18 Q My name's Joe Gutierrez. I'm one of the attorneys
19 for Essence and Thrive. Tell us what your current position is
20 with Zion Gardens.

21 A Managing member.

22 Q And how long -- tell us when you started Zion
23 Gardens.

24 A 2014, I believe.

25 Q And who did you start with?

1 A Aaron McCrary.

2 Q And is Aaron McCrary an owner, as well?

3 A Yes, he is. He's a managing member, also.

4 Q Managing member. Okay. And is Zion Gardens a
5 cultivation and production company?

6 A No.

7 Q Can you explain what the company is.

8 A Cultivation, medical and recreational.

9 Q So the company's never held a dispensary license; is
10 that correct?

11 A No, sir.

12 Q And it doesn't have a production license?

13 A No, sir.

14 Q Okay. And I understand you're a licensed attorney
15 in the state of Nevada; is that correct?

16 A That is correct.

17 Q When did you pass the bar?

18 A '07, I believe. Yeah, I think '07. It's over 10,
19 12 years ago.

20 Q Can you explain for us how Zion Gardens got started.

21 A We formed a LLC with the State of Nevada.

22 Q And how did you and Aaron get together and decide to
23 form the company?

24 A I've known Aaron since he was -- since we both
25 attended University of Washington. So we're college friends.

1 Q And did he approach you about starting the company,
2 or how did that happen?

3 A I don't recall.

4 Q Do you have an active role with the management of
5 the company, or are you just part owner?

6 A No, I'm active.

7 Q Okay. Did you help complete any of the applications
8 for the 2014 process?

9 A Yes.

10 Q And who completed the applications for the 2018
11 process?

12 A It was a joint effort.

13 Q By who?

14 A By myself, by Aaron, by our attorney, by -- some of
15 my staff also helped.

16 Q And I was reading an article about Aaron McCrary.
17 He's the first African-American owner of a cultivation company
18 in Nevada; is that correct?

19 A Owner operator. That's what he's been reported as,
20 yeah.

21 Q And I think Zion Gardens reported that it's a top
22 priority for diversity, to have diversity within this company;
23 is that fair to say?

24 A Yes, it is.

25 Q Okay. Can you tell us why you believe diversity's

1 important for the operation of a marijuana establishment.

2 A Yes. Yes. I believe that people of color, black
3 and brown, have been targeted by marijuana laws prior to
4 legalization. I think there's been a lack of fairness in the
5 imprisonment of people of color, and I think that -- I've seen
6 and I continue to see people of color excluded from the legal
7 marijuana industry, either because lack of finances, maybe
8 criminal backgrounds. And so I think we see a gentrification
9 of a burgeoning multibillion-dollar industry, and that bothers
10 me.

11 Q So in the 2018 application process were you in
12 support of diversity being considered as a factor for the 2018
13 criteria?

14 A I think it's an important factor, yes.

15 Q Okay. And for the reasons we just discussed; is
16 that fair to say?

17 A For some of those reasons, yes.

18 Q Is there more reasons that we haven't discussed that
19 you believe it is an important factor?

20 A Just that I believe that -- I believe in equal
21 opportunity, I believe that -- I believe that people should be
22 given the opportunity to have a fair say in how they -- just
23 opportunity to make money in this industry. Essentially
24 that's it. And I believe that black and brown people have
25 been unfairly targeted in the past.

1 Q And can you explain for us how you believe a diverse
2 group of owners or operators is important for your operations.

3 A I think diversity is in important in any aspect of
4 any business. I think diversity is important in the law. I
5 think diversity is important in any industry. People from
6 diverse backgrounds are often very valuable in businesses,
7 because they bring different perspective. I think that --
8 it's for those reasons.

9 Q Where is your cultivation facility located?

10 A It's 3441 Precision Drive, North Las Vegas.

11 Q And how large is your facility?

12 A 6,000 square feet.

13 Q Okay. So in 2018 at some point you decided you
14 wanted to expand from cultivation into a dispensary; is that
15 correct?

16 A I think we wanted a dispensary from the outset.
17 It's just when we applied in 2014 we had to make a strategic
18 decision which was best for us, and so we decided to go down
19 that road.

20 Q Okay. And when you got your results from the 2018
21 process in December of 2018 what was your initial reaction?

22 A Disappointment.

23 Q At what point did you decide to bring a lawsuit
24 against the State of Nevada?

25 A When I had some concerns about the fairness and the

1 transparency of the overall process and when I couldn't get
2 those answers when I went to review our scores.

3 Q And with respect to transparency, is that something
4 you believe has been addressed by the passage of SB 32?

5 A Well, I'm not fully familiar with the full text of
6 SB 32. It's really hard for me to say.

7 Q Are you aware that SB 32 was passed sometime in May?

8 A I am if you say it was. I'm not sure when it was
9 passed, but I understand that SB 32 was a bill that was
10 passed.

11 Q What's your understanding as to what SB 32 was
12 related to?

13 A I don't have an understanding of what it was related
14 to.

15 Q Okay. If SB 32 was able to give more transparency
16 and that was the intent by disclosing scores and rankings, is
17 that something you've seen?

18 A I've seen scores and rankings, yes, sir.

19 Q Okay. And does that address your transparency
20 concerns?

21 A No.

22 Q What else is that that you're looking for that you
23 believe hasn't been disclosed?

24 A I'd like to know how the whole process was
25 administered. I'd like to know how the graders graded. I'd

1 like to know what criteria they would use, I'd like to know
2 how things were weighted. I'd like to know who had input in
3 that process. I'd like to know what the oversight was.

4 Q And you talked about fairness, as well, being part
5 of your reason for bringing the lawsuit; correct?

6 A Yes.

7 Q Okay. And tell us exactly what you mean by
8 fairness. What --

9 A I mean fairness that everyone has the equal
10 opportunity to get a license.

11 Q Is it your position that -- well, let me ask this.
12 Are you familiar with the regulations that govern the sale of
13 recreational marijuana?

14 A I think more familiar than some, probably less than
15 others.

16 Q And they're codified in NAC 453D. Are you familiar
17 with that statute?

18 A I am. I've read it.

19 Q Okay. And is your position today that the
20 provisions in NAC 453D don't comply with the ballot
21 initiative?

22 A Are you asking me a question?

23 Q Yes. Is it your position that the regulations in
24 NAC 453D do not comply with the ballot initiative?

25 A I can't say specifically that that's my position.

1 My position today is that I don't think the whole process was
2 fair. I think that there were some -- there's some issues in
3 how the whole licensing process was administered.

4 Q Okay. So you don't have a specific complaint as to
5 this provision in the regulations doesn't exactly match the
6 ballot initiative and NRS 453D?

7 A I leave that to my lawyers.

8 Q Your complaint was unique in that you requested
9 compensatory damage against the State of Nevada. Are you
10 aware of that?

11 A I'm sure there was.

12 Q Okay. What's your basis for the compensatory damage
13 against the State of Nevada?

14 A As a lawyer oftentimes we throw everything at the
15 wall and see what sticks. So I think it was probably just
16 that, you know, let's ask for everything and see what the
17 Court thinks is fair.

18 Q Now, we've been here for two months on an injunction
19 process. Are you familiar with an injunction process as an
20 attorney?

21 A Yes, sir, I am.

22 Q What relief are you seeking from the injunction?

23 A I'm seeking that the licensing not go forward until
24 we understand whether the process was fair. That the parties
25 that were awarded license and that the State hold off on

1 moving forward with it until we get a full view on the whole
2 process to understand that.

3 Q Are you asking the Court to award your company a
4 license?

5 A No.

6 Q Are you asking the Court to redo the process, the
7 scoring process?

8 A No.

9 Q Now, can you explain for us with this injunction
10 what you believe your harm is to Zion Gardens that would
11 warrant stopping the process of the licensees getting final
12 approval as we vet this process?

13 A Well, I think the harm is on a micro level with Zion
14 Gardens, but also on a macro level. I think if there's not
15 fairness in process, that hurts society overall. I think it
16 detracts from trust in government. The Taxation Department is
17 a department of the government, and if we can't trust that
18 they administer things fairly, I think that's an issue for
19 society overall, and I think that oftentimes one party is
20 specifically aggrieved, but that issue permeates society. So
21 that's one of the reasons why I brought this. I was raised to
22 be very -- to think of things very fairly. Whether I'm right
23 or whether I'm wrong, I always want it to be fair whether it
24 benefits me or not. So that's -- that's one of the reasons
25 why I brought this lawsuit.

1 Like I said, I think that -- going back to the
2 diversity issue, I think that people of color have been
3 unfairly targeted with drug laws in this country for decades,
4 and it's important to me that we help reverse that. And I
5 think that having a diverse company and more diverse members
6 in this -- in this industry represented helps society overall.

7 Q But with respect to Zion Gardens itself, is your
8 company going out of business if this injunction is not
9 granted?

10 A I think that the writing is on the wall that it will
11 go out of business if we cannot have the same opportunities as
12 others.

13 Q And is that an opportunity because as a cultivator
14 you believe that cultivators were not given a fair opportunity
15 during the 2018 process?

16 A I don't know. I don't know if they were or if they
17 weren't.

18 Q Okay.

19 A That's one of the reasons why I brought this
20 lawsuit, to find out.

21 Q And when you say going out of business, what do you
22 mean by going out of business if additional dispensaries open?

23 A Yeah. I believe that we've seen a concentration of
24 dispensary licenses awarded, and I believe that as we have
25 seen in other industries and perhaps even in this industry,

1 that there will be a strategic approach by those who hold the
2 majority of the licenses to stop others, to essentially put
3 them out of business.

4 Q And are you aware of the anti-monopoly provision in
5 the regulations?

6 A I can't say that I am.

7 Q Okay. If the results of the 2018 licensing process
8 complied with the regulation of anti-monopoly, would you still
9 have an objection to it?

10 A I think -- if it complied, I don't know, because I'm
11 not sure what the anti-monopoly -- specifically what those
12 provisions say.

13 Q Okay. We could turn to it now.

14 A Okay.

15 MR. GUTIERREZ: Brian, can you pull up NAC 453D.272.

16 BY MR. GUTIERREZ:

17 Q And, Mr. Zakalik, this should appear on your screen.

18 A Yes, sir.

19 Q Okay. And specifically go down to subsection (5).

20 You've seen this provision in the regulations before?

21 A Yes, I believe I have.

22 Q Okay. And if the Department -- and we could read
23 this statute. It says, "To prevent monopolistic practices the
24 Department will ensure in a county whose population is 100,000
25 or more that the Department does not issue to any person,

1 group of persons, or entity the greater of one license to
2 operate a retail marijuana store or more than 10 percent of
3 the licenses for retail marijuana stores allottable in the
4 county." Do you read that in front of you?

5 A I can read it, yes.

6 Q Yeah. If the Department has stated that the 2018
7 process has complied with this provision on anti-monopoly,
8 would you still have a reason to object as to any monopolistic
9 practices?

10 A I'm sorry. Can you ask that one more time.

11 Q Sure. If the Department has confirmed that there is
12 no company that holds more than 10 percent of the licenses in
13 any county, would you still have an objection on the anti-
14 monopolistic practices or --

15 A Yeah. I have an objection on how the Department
16 came to that conclusion. They have not been transparent on
17 how they came to that conclusion. That's my issue.

18 Q On the conclusion, or actually the enactment of this
19 regulation?

20 A My issue is more on the process and how they came to
21 that conclusion.

22 Q Understood. Okay. So your position is that it's
23 not with the actual text of this regulation, it's more the
24 results and how they came to that conclusion?

25 A I mean, look, if the State and the people passed

1 this regulation and as far as how intergovernmental policies
2 work and how we got to this I can't quite say. Whether they
3 had administered this correctly is really my concern.

4 Q Got it. So is it fair to say that and your partner
5 didn't speak at any of the public workshops or Governor's Task
6 Force meetings where these regulations were being adopted?

7 A We did not speak, no, sir.

8 Q Okay. Has your company attempted to buy a license?

9 A I have not attempted to buy a license.

10 Q Is that a possibility for Zion Gardens?

11 A I -- I don't -- possibility? I guess -- I don't
12 know. If one is available, I guess it would be a possibility.
13 I don't know if there's one available or not.

14 Q What specific jurisdiction is Zion Gardens looking
15 for a license in?

16 A Two jurisdictions, unincorporated Clark County and
17 North Las Vegas.

18 Q And has Zion Gardens put a value on what it believes
19 that license is worth in each of those jurisdictions?

20 A There is no value to me on what a license is worth.

21 Q If somebody hypothetically were to sell a license to
22 you in North Las Vegas for \$100,000, is that something that
23 Zion Gardens would do -- purchase?

24 A Would I purchase it? I guess it depends upon all
25 the other terms. I'm sure it's not -- as you know as a

1 lawyer, right, if I'm buying something like a license, it's
2 not just, here, I'll give you a hundred thousand, you give me
3 the license. I don't know what the other terms are.

4 Q If it was that simple as a purchase and sale for a
5 fixed amount of money, do you believe that's something Zion
6 Gardens would look into?

7 A I think we would look into it, yeah.

8 Q And if Zion Gardens hypothetically did complete a
9 sale where it acquired a license in North Las Vegas, would you
10 still believe that there's a harm that warrant an injunction?

11 A Yeah.

12 Q Explain that for us.

13 A As I said, I was raised to be a person that's fair
14 and that believes in equity. And that for me more important
15 than anything else. It's not just about my opportunity. It's
16 about everyone's opportunity. It's about the process being
17 fair, it's about us living in a country where we can look to
18 the government to administer things fairly and to be open and
19 to be transparent when we have questions as citizens.

20 Q Do you believe that Ballot Question 2, one of the
21 primary reasons or fundamental reasons behind it was that the
22 public wanted the sale or the taxes generated from the sale of
23 recreational marijuana to go to schools?

24 A I don't have an opinion on that.

25 Q Are you aware of that?

1 A I am not aware of that.

2 MR. GUTIERREZ: Okay. Could we go to NRS 453D.020.

3 BY MR. GUTIERREZ:

4 Q And, Mr. Zakalik, this will be on the screen, but --

5 MR. GUTIERREZ: And specifically subsection (2).

6 BY MR. GUTIERREZ:

7 Q Have you seen this provision before?

8 A Let me read it. Okay.

9 Q Have you seen this before?

10 A I can't say that I have. I may have. I just don't

11 recall off the top.

12 Q As part of this ballot initiative says, it discusses

13 that revenue will be dedicated to public education and

14 enforcement of the regulations of this chapter. Do you see

15 that?

16 A I do, sir.

17 Q And are you aware that was also part of the ballot

18 initiative?

19 A I'm not necessarily aware, but I wouldn't disagree

20 with you.

21 Q Okay. And assume that's correct. Do you agree that

22 the public has an interest in the outcome of this injunction

23 because of the taxable revenue that will be generated from the

24 sale of marijuana through the 61 licenses?

25 A I think the public has an interest in this

1 injunction because they want the process to be fair and they
2 want it to be equitable.

3 Q But specific as to taxes, you see under the statute,
4 the ballot initiative, that's one of the reasons why the
5 public enacted and voted for this ballot question; is that
6 correct?

7 A Yes, sir.

8 Q Now, if that is what the public's intent was, don't
9 you believe the public has an interest in the outcome of this
10 injunction based upon taxable revenue that may or may not be
11 lost [inaudible] the operation --

12 A I don't think taxable revenue would be lost on the
13 basis of an injunction.

14 Q Explain that.

15 A Because I don't think the number of stores open have
16 a direct correlation to the amount of cannabis sold.

17 Q Okay. And for counties such as Douglas County that
18 don't have a dispensary, but would have one under this
19 process, you're saying that Douglas County wouldn't generate
20 revenue?

21 A I'm not familiar with Douglas County. I can't say
22 I've ever been there. The majority of my time has been in
23 Clark County.

24 Q What's the cost when you get final approval to get
25 your license?

1 A The cost to get final --

2 Q Yes. When these conditional licenses obtain final
3 approval what's the cost that's paid both to the local and to
4 the State for final approval?

5 A I can't say off the top I know.

6 Q So those additional licensing fees that would be
7 generated by these 61 license holders would go to the State;
8 correct?

9 A I assume so.

10 Q And it would generate taxable revenue; correct?

11 A It would generate licensing fees, I would assume, if
12 that's what you're speaking about.

13 Q Okay. And is it your position that 61 additional
14 dispensaries that would open wouldn't generate a single dollar
15 more, it would just dilute the market?

16 A No. It's my position that the -- I don't think that
17 the licensing fees themselves generate the overall lion's
18 share of the taxes paid. You know, I think that the sales
19 taxes, both on the cultivation level and on the dispensary
20 level is the lion's share of the taxes. I think the license
21 application fees are a drop in the bucket.

22 Q Who does your cultivation facility sell to? Which
23 dispensaries?

24 A We've sold to Inyo, we've sold to Frye, we've sold
25 to Sahara Wellness, we've sold to The Apothecary Shop, The

1 Apothecarium, we've sold to Cannacopia. Those are the ones
2 that I can recall.

3 Q So you've sold to people on both sides of this case;
4 fair to say?

5 A Yeah. I would say so.

6 Q Hypothetically Thrive, which has been enjoined from
7 opening their location on Sahara Avenue --

8 A Yes, sir.

9 Q -- how does that affect Zion Gardens?

10 A It doesn't.

11 MR. GUTIERREZ: Okay. I don't have any further
12 questions, Your Honor.

13 THE COURT: Anyone else on the defendants in
14 intervention? Mr. Koch.

15 DIRECT EXAMINATION

16 BY MR. KOCH:

17 Q Few followups, sir. On the diversity point do you
18 know what the diversity score that Zion Gardens received was?

19 A I do not off the top.

20 Q It received 20 out of 20 points. Are you aware of
21 that?

22 A I'm not aware as I sit here today. But if you tell
23 me it was --

24 Q Okay. And is it a case that all owners, officers,
25 or board members of Zion Gardens would be considered either a

1 diverse individual for purposes of the scoring here, either
2 female or a minority?

3 A I don't know. I don't know what is considered
4 diverse by the State. Like I said, they haven't been open and
5 clear about that.

6 Q Since the SB 32, when that was passed back in May
7 and there was some information that was presented by the
8 Department of Taxation, did you take the time to review that
9 information that was presented?

10 A I have reviewed some of it. I'm not sure if I
11 reviewed all of it.

12 Q Do you have any -- do you believe that -- well, let
13 me ask you this. You're talking about fairness is primary
14 concern; right?

15 A Yes, sir.

16 Q Okay. And to the extent that the Department
17 conducted a process and conducted it the same for everyone,
18 whether it was good or bad process, as long as it was the same
19 and equal, is that what the concern is? Or what's the concern
20 there?

21 A Yeah, the concern that it wasn't fair and equal --

22 Q Okay.

23 A -- the concern that -- is that we don't know if it
24 was fair or equal.

25 Q Okay.

1 A Those are concerns.

2 Q So -- and I guess I'm just trying to understand the
3 allegations and the claims.

4 A Sure.

5 Q One of the allegations or claims made by some of the
6 parties at least is that the scorers themselves that the State
7 hired to conduct the scoring may not have been competent to do
8 the scoring. Are you making that allegation in this case?

9 A I don't know if they were competent or not. I think
10 it's important that we vet whether they were competent or not.

11 Q Okay. Let's assume that they are average people
12 doing -- maybe not superhuman, but maybe not the -- they're
13 able to complete their tasks all of the same sort and they all
14 scored all the applications in the same way. Would you
15 believe that that would be at least with respect to that part
16 of the process the scoring fair and equal application process?

17 A Well, I think part of it is their job, part of is
18 the whole system itself. I mean, because that bears upon
19 their job.

20 Q And let me just ask, just limiting to that "their
21 job." Are you aware of anything that we indicate that the
22 scorers that were hired by the State to conduct that scoring
23 did anything that was partial to one person and -- or partial
24 to one person and detrimental to the other in the same way?

25 A Am I aware that they were impartial in any way as we

1 sit here today?

2 Q That they were partial.

3 A That they were partial in any way as we sit here
4 today.

5 Q Right.

6 A I would say I'm not aware that they were partial,
7 but I have concerns that they were impartial -- or that they
8 just weren't well suited to do the job or that, like I said,
9 the whole process was flawed.

10 Q And that's just based upon essentially the outcome
11 of the process? You don't have any -- I'm just trying to
12 narrow this down -- any specifics to say that Scorer 5 was
13 friends with this particular dispensary or anything like that?
14 Not a specific fact, it's just a concern about the overall
15 outcome of the process?

16 A I guess one of my concerns is the amount of money
17 that each licensee or each applicant paid to the State. And,
18 you know, if we had four hundred sixty-something and with that
19 money the State hired six -- five, six temporary graders to do
20 the work, to me that seems like a poor allocation of the
21 funds, and I think they could have done a better job to make
22 sure this process was fair and that they did the most to make
23 sure that every application was considered on its merits.

24 Q All right. One of the -- one of the claims again is
25 that fairness results from the fact that some applicants -- or

1 the licenses were not distributed equally among all
2 applicants, that there wasn't more broad spread of these
3 licenses. Is that one of the allegations that you believe
4 results in the unfairness that you're claiming?

5 A I don't think the result itself may indicate whether
6 it was fair or not. It may have some play in it. I think
7 that just on a knee-jerk reaction if you see, you know,
8 16 applicants get a lion's share, I think that may be a
9 concern just on a knee-jerk reaction. But as a lawyer I know
10 there's often things that come to light in trial, and we just
11 don't have all the facts right now. And the concern is that
12 some of the things that have been spoke about in these
13 proceedings -- and I haven't been here every day, just what
14 I've heard, that there may be some concerns.

15 Q All right. And your complaint is not, again, about
16 the statutes themselves or the regulations themselves, it's
17 the administration of those statutes or regulations?

18 A To my understanding it's either the statutes or the
19 administration, but I think that the overall process needs to
20 be fair, and I believe that we need to look into that.

21 Q Lastly, with respect to diversity you understand
22 that there was a point allocation that was given to diversity?

23 A Yes, sir.

24 Q Okay. Other than the points that were given for
25 purposes of diversity, do you think that any other factors

1 should have been graded differently for applicants that may be
2 considered diverse?

3 A I don't understand the question.

4 Q For example, financial category. There was a cutoff
5 of needing to have a certain amount of liquid assets, and
6 there was a threshold, there was a number there that was
7 looked for by the graders, they looked for that number, they
8 gave points based upon those numbers. Do you believe that
9 number should have been the same for all applicants
10 irrespective of diversity or nondiversity?

11 A I think if an applicant can show that they the
12 financial wherewithal to operate the company, the dispensary
13 and that meets the State requirements, I think that should be
14 adequate.

15 Q All right. And have you looked at Zion Gardens'
16 financial score that was given in this case?

17 A I can't say that I know it offhand.

18 Q So you're not dissatisfied with the financial score
19 -- at least as you sit here today you don't have any facts to
20 that?

21 A I don't have the score in front of me, so I can't
22 say.

23 Q Okay. All right. I think it was 37 out of 40,
24 something like that. I'd have to go back and look myself.
25 But you're not aware of anything as you sit here today to say,

1 we were treated unfairly in any way on financial scoring
2 because of Zion Gardens, the name, or anything else like that?

3 A The Zion Gardens name?

4 Q That anybody -- any of scorers saw, hey, this is
5 Zion Gardens, let's treat them differently than somebody else.

6 A I can't say. I don't know.

7 Q Okay. And overall would you say that scorers
8 outside of the specific diversity category should have been
9 also evaluated equally among all applicants to determine, as
10 you said, the financial ability or other categories that they
11 would look at that that should be graded equally irrespective
12 of diversity?

13 A I think the -- if equal means fairly and equal means
14 clarity and transparency, then yes.

15 MR. KOCH: All right. Thank you.

16 THE COURT: Anyone else on the defendants,
17 defendants in intervention have any questions? Mr. Shevorski.

18 MR. SHEVORSKI: Thank you, Your Honor.

19 DIRECT EXAMINATION

20 BY MR. SHEVORSKI:

21 Q Good morning.

22 A Good morning.

23 Q Steven Shevorski of the Attorney General's Office.

24 And you mentioned Mr. McCrary is a managing member,
25 as well, of Zion; correct?

1 A Correct.

2 Q And the cultivation business that you're in, do you
3 have a warehouse?

4 A Yeah, I do.

5 Q Okay. When you say I, Zion has a warehouse?

6 A No. Zion rents a warehouse.

7 Q Okay. Thank you. And was the warehouse existing in
8 2014 in the same state and square footage as it is today?

9 A It's 6,000 square feet today. In 2014 it was
10 6,000 square feet.

11 Q Okay. If Mr. McCrary gave an interview in 2018 that
12 he was considering expanding the warehouse to meet high
13 demand, do you have any reason to disagree with that?

14 A I'd like to see the interview or the article.

15 MR. SHEVORSKI: May I approach, Your Honor?

16 THE COURT: You may.

17 And, sir, he's giving you this to refresh your
18 recollection. So read it to the extent you need it, and then
19 if you have your recollection refreshed, let us know. If you
20 don't, just let us know, too, as one of the few witnesses who
21 actually understands what that means.

22 BY MR. SHEVORSKI:

23 Q Do you have any reason to disagree with --

24 THE COURT: Sir, is your recollection refreshed?

25 THE WITNESS: It is. It is, Your Honor.

1 MR. SHEVORSKI: Thank you, Your Honor. I forgot
2 that part.

3 THE COURT: Okay.

4 BY MR. SHEVORSKI:

5 Q After your recollection was refreshed do you have
6 any reason to disagree with Mr. McCrary's statement that he
7 was considering expanding the warehouse to met high demand?

8 A I think you need to understand what -- I don't know
9 what your definition of "expansion" is. So that's my
10 question.

11 Q Well, it's not my definition, it's a statement from
12 Mr. McCrary.

13 A Okay. I can't speak upon what his thought process
14 was at that point.

15 Q Okay. Do you disagree with his statement that there
16 was high demand for Zion's products in 2018?

17 A I think there was -- in 2018 I think there was -- I
18 think there was demand for high-quality cannabis. And we
19 produce high-quality cannabis.

20 Q Okay. The customers you mentioned, Thrive, and some
21 of the others, have they told you they're going to stop buying
22 your products?

23 A Some have.

24 Q As a cultivator.

25 A Some have. Some have stopped all communication.

1 Q Some have stopped all communication. But that
2 doesn't mean they won't communicate with you in the future;
3 right?

4 A I don't know what people do in the future.

5 MR. SHEVORSKI: Neither do I.

6 Thank you, Your Honor.

7 THE COURT: Thank you.

8 At this time, counsel, I'm going to take a short
9 recess. I have two matters that I'm going to talk to. One is
10 a conference call, and the other one is some lawyers who are
11 still having trouble with something from the 9:00 o'clock
12 calendar.

13 Mr. Zakalik, if you'd like to get up and walk
14 around, this is not a requested recess.

15 (Court recessed at 10:02 a.m, until 10:10 a.m.)

16 THE COURT: Mr. Zakalik, I apologize for the
17 interruption of your testimony.

18 Mr. Shevorski, you had completed your examination.

19 Were any of the other defendants or defendants in
20 intervention interested in asking Mr. Zakalik any questions?
21 Anyone else? Anyone else?

22 Your counsel has said you did a great job, they
23 don't need to ask any questions. Thank you, sir. Have a
24 great --

25 MR. GENTILE: Your Honor, Mr. Parker's not here.

1 Mr. Parker may have a few.

2 THE COURT: Mr. Parker, do you have any questions
3 for Mr. Zakalik?

4 MR. PARKER: I do. I do. Thank you for waiting.

5 CROSS-EXAMINATION

6 BY MR. PARKER:

7 Q Good morning.

8 A Good morning.

9 Q So I was listening to your testimony regarding
10 diversity, and I wanted to ask you a few followup questions.

11 A Yes.

12 Q Do you fit within a minority category?

13 A I guess it depends upon your definition of minority.

14 Q Okay. what race or ethnicity are you?

15 A I am half Russian Jew, half Lebanese.

16 Q Okay. And are you one of many owners, or one of a
17 few owners?

18 A One of two owners.

19 Q Okay. And is the other owner also potentially a
20 racial or ethnic diverse person?

21 A I guess it depends upon your definition of
22 diversity.

23 Q What would that owner's ethnicity or race be?

24 A From my understanding, and I'm not him, but I think
25 he's -- I think he's half Caucasian and then the other half is

1 African-American. He might have some Native American.

2 Q Okay. Now, do you know of any fully racially

3 minority-owned dispensaries in the state of Nevada?

4 A I can't say that I do know. There's probably some.

5 Q Okay. I'm aware of one.

6 A Okay.

7 Q Which is my client, Nevada Wellness Center. Are you

8 familiar with Frank Hawkins?

9 A I am.

10 Q Okay. Are you aware of any other black-owned

11 dispensaries in the state of Nevada?

12 A I am not.

13 Q You own a cultivation location?

14 A Correct.

15 Q Can someone come to you and force you to sell?

16 A Force me to sell product to them, cannabis to them?

17 Q No. Force you to sell your business.

18 A No, no one -- I guess no one could force me to sell.

19 Maybe constructively, but not directly.

20 Q Right. And, conversely, you can't force someone to

21 sell you a license even if you wanted to buy a license.

22 A No, I cannot.

23 Q No matter how amount of money, you know, it could be

24 a million dollars or billion dollars, they couldn't -- you

25 could not force someone to give you a license; is that

1 correct?

2 A Correct. I cannot.

3 Q So for the last couple of hearings this side of the
4 room has been asking questions regarding irreparable harm.
5 Are you familiar with that term?

6 A I am familiar with the term, yes, sir.

7 Q All right. And you understand that this Court is
8 weighing in part a decision on whether or not there would be
9 irreparable harm suffered by the lawyers and their clients on
10 this side of the room?

11 A Correct.

12 Q Including yourself.

13 A Correct.

14 Q All right. And so one of the arguments that has
15 been made is, well, we could -- you could be satisfied through
16 money. You understand that?

17 A Yes.

18 Q All right. The process that you involved your
19 company with was an application process; is that correct?

20 A That's correct.

21 Q And it didn't force you to buy a license, it simply
22 required that you pay an application fee and present yourself
23 as a company able to act as a dispensary in the state of
24 Nevada; is that correct?

25 A That's my understanding, yes.

1 Q So when you hear questions and arguments -- let's
2 say questions regarding why money would be sufficient is it
3 your opinion that, no, money's not sufficient, because even if
4 the Court were to give you \$10 million, you still couldn't
5 turn that \$10 million into a license?

6 MR. KOCH: Objection. Legal conclusion.
7 Argumentative.

8 THE COURT: Overruled.

9 THE WITNESS: Yes. So I don't know that I could
10 take \$10 million and get a license.

11 BY MR. PARKER:

12 Q Because you can't force someone to sell a license
13 for \$10 million?

14 A No, I cannot.

15 Q There is no way of making Mr. Koch's client or Mr.
16 Gutierrez's clients sell you their license for \$10 million, is
17 there?

18 A No.

19 Q So there's no amount of money that this Court could
20 award you that would turn into a license, would it?

21 A I agree with that.

22 Q So your ability to get a license was dependent upon
23 the application process being judged fairly; is that correct?

24 A Yes, sir.

25 Q All right. So you would agree with me, sir, that

1 money does not equate to fairness?

2 A No, money does not equate to fairness.

3 Q Money does not -- ask it this way. Being white or
4 having a company owned by a majority of white owners shouldn't
5 entitle you to a better part of this process; right?

6 A I should hope not.

7 Q Because of you who you may know, relationships you
8 may have, that shouldn't entitle to some type of preference in
9 the process, should it?

10 A It should not.

11 Q So if Mr. Koch's clients or Mr. Gutierrez's clients
12 happen to know and have cell numbers of those at the
13 Department of Taxation regulating this process, that shouldn't
14 give them an advantage to you, should it?

15 A It should not.

16 Q Now, you said something I thought was very pointed.
17 If you're not awarded a license as a result of this
18 application, then constructively you may be put out of
19 business because of market share and dwindling need for your
20 product; is that correct?

21 A I believe so.

22 Q Have you looked at it in terms of minority
23 ownership? Let's take Frank Hawkins, Nevada Wellness Center.
24 He may not be able to afford to buy a license, just like you
25 may not be able to afford to buy a license; is that correct?

1 A I don't know, because I don't know that I could buy
2 a license.

3 Q Right. You shouldn't have to buy one, should you?

4 A I don't think so.

5 Q Right. So if you're not -- if you're not afforded a
6 license by a fair process, then the chance of you or Nevada
7 Wellness Center, the only black-owned dispensary in the state
8 of Nevada that I'm aware of, there's probably not chance after
9 this process to get a license. Would you agree?

10 MR. KOCH: Objection. Speculation. Lacks
11 foundation.

12 THE COURT: Overruled.

13 THE WITNESS: I think given what I've seen in this
14 industry in this state and other states, that there's a
15 consolidation of power and market share to squeeze out smaller
16 operators. And I don't think that we would have an ability to
17 even purchase a license if this process is not completed in a
18 fair and equal manner.

19 MR. PARKER: Nothing further, Your Honor.

20 THE COURT: Anyone else have any questions?

21 MR. GUTIERREZ: A few followup questions.

22 THE COURT: All right.

23 REDIRECT EXAMINATION

24 BY MR. GUTIERREZ:

25 Q Mr. Zakalik, are you aware that -- of some of the

1 factors that were put into place -- are you aware of some of
2 the factors that were -- and criteria that was used to grade
3 the 2018 application process?

4 A Some of -- yeah, I mean, diversity being one of
5 them.

6 Q What are some of the other ones that you're aware
7 of?

8 A I think financial ability, organizational structure,
9 whether your policies and procedures were adequately written
10 and well thought out, things of this nature.

11 Q And taxes paid over the last five years was one of
12 those factors, as well?

13 A I think taxes paid, yes.

14 Q Do you remember what your score was on that?

15 A I don't recall.

16 Q If I told you it was a 1 out of 10, does that
17 refresh your memory at all?

18 A No, it doesn't refresh my memory. I mean, if you
19 tell me as an officer of the court that it was 1 out of 10,
20 I'll believe you.

21 Q Have you looked at the grading evaluation sheets for
22 your company?

23 A I have looked at them.

24 Q Okay. And you've seen what the graders looked at
25 when they scored your company?

1 A I see a they were supposed to look at.

2 Q But they scored you 1 out of 10 on taxes paid;
3 correct?

4 A I don't know.

5 Q Well, you said that you looked at the sheets.

6 A I have. I just don't know as we sit here today.

7 Q What about for charitable contributions? Do you
8 recall what you received?

9 A No, sir.

10 MR. GUTIERREZ: Your Honor, if I may approach.

11 THE COURT: You may. And is this an exhibit, or are
12 you refreshing his recollection?

13 MR. GUTIERREZ: Just refreshing recollection, Your
14 Honor.

15 THE WITNESS: Okay.

16 BY MR. GUTIERREZ:

17 Q You see that? Does that refresh your memory, Mr. --

18 A As to what?

19 Q As to the point score you were given for that
20 particular category.

21 A No. Because I see a handwritten score here.

22 Q Okay.

23 A So I don't think they wrote it in hand. That'd be
24 my guess.

25 Q You've looked at the tally sheets, though; correct?

1 A Tally sheets?

2 Q The tally -- the grading sheets for the scorers.

3 You've seen this sheet before, though; right?

4 A I can't say that I have seen that sheet. It doesn't

5 ring a bell off the top of my head.

6 Q So you've been asking for transparency in this

7 process, and you haven't seen the sheets for your own scoring?

8 A I'm saying I haven't -- I don't know if I've seen

9 that sheet. If you're representing that that's the sheet that

10 they gave me, I would have an issue with that, because you

11 have handwritten notes in there. And I don't think they put

12 handwritten notes in the sheet I saw.

13 Q Well, this was the grader's handwritten notes.

14 A Okay. So I haven't -- yeah. So I don't know if I

15 recall seeing that sheet in particular. If you're telling me

16 that was the grader's handwritten notes, I don't know which

17 grader that was.

18 Q There's been sheets that have scores listed. Is

19 that what you've seen?

20 A I've seen scores lists, yes, sir.

21 Q Okay. But have you seen any sheets where they have

22 handwritten notes from the Manpower graders on your particular

23 company?

24 A As I sit here today I cannot recall.

25 Q Okay. And is that something that would give you

1 more transparency in this process if you were able to see
2 that?

3 A More as compared to when?

4 Q As to when you filed the lawsuit and you were asking
5 for transparency.

6 A I guess it gives more, maybe not adequate, though.

7 Q Okay. So when you're looking at taxes paid,
8 charitable contributions being part of the evaluation process
9 do you believe that those factors should not have been
10 considered?

11 A I think that the factors that were mandated by the
12 State should be considered. So if those were mandated by the
13 State, then, Your Honor, I think they should have considered.

14 Q Okay. Mr. Parker asked you about buying a license
15 for \$10 million, and I think you said that you can't control
16 whether somebody would sell it to you; is that right?

17 A Correct.

18 Q If Thrive and Mr. Peckman here today were to sell
19 you a license, a conditional license for \$10 million, is that
20 something you would do?

21 A It's something I would consider.

22 Q Okay. And is that something if you considered and
23 you did would solve any harm that you're claiming in this
24 case?

25 A No.

1 Q And specifically because you believe the process
2 itself and how the applications were done was incorrect?

3 A I believe that this process has to be fair, I
4 believe there has to be transparency, and there has to be
5 equality.

6 Q But yet you haven't look at your own scores for your
7 company on what the graders did for your company.

8 A I didn't say that.

9 Q You haven't looked at the tally sheets on the notes
10 that they did for your company?

11 A I didn't say that.

12 MR. GUTIERREZ: Okay. Thank you.

13 THE COURT: Anyone else? Mr. Koch.

14 REDIRECT EXAMINATION

15 BY MR. KOCH:

16 Q As a cultivator you sell to dispensaries; correct?

17 A I try to.

18 Q All right. Okay. I hope that's who you sell to.

19 A Say again.

20 Q Hopefully that's who you sell to; right? You've got
21 to sell -- that's -- your market is to sell to dispensaries,
22 licensed dispensaries in the state of Nevada?

23 A Yes, sir.

24 Q All right. And if there are more dispensaries
25 through this process, you've said it may not increase the

1 market. But you wouldn't expect it to decrease the size of
2 the retail market, would you?

3 A If there are more dispensaries, would that itself
4 decrease the market? I don't know.

5 Q Okay. I guess my question -- you said, I may get
6 driven out of business. Your actual customers are the retail
7 dispensaries who are going to buy from you. If there are more
8 retail dispensaries likely it is you'll either get more
9 business or at least stay the same?

10 A I would disagree.

11 Q Okay. You think it's going to shrink?

12 A I think that the more power that's consolidated in
13 the small number of groups leads to monopolistic issues.

14 Q All right. One of the customers you referenced was
15 Thrive; correct?

16 A Yes, sir.

17 Q And that's one of the entities that received
18 multiple licenses in this proceeding. You understand that?

19 A I do.

20 Q Okay. With respect to the valuations of these
21 licenses, have you actually looked at what retail dispensary
22 licenses have sold for since it's become legal to sell
23 marijuana in the state of Nevada?

24 A It's hard for me to say what they've sold for. I
25 mean, these deals are so convoluted, it's hard for me to say.

1 Q You're aware that multiple licenses have been sold
2 since they've been permitted to operate; correct?

3 A I believe so.

4 Q Okay. And have you looked into -- you said, I don't
5 know if I can get one for \$10 million. You haven't actually
6 made any offers for \$10 million; right?

7 A I have not made any offers.

8 Q Have you actually talked with anyone who has a
9 license to ask if they might be interested at any particular
10 price point?

11 A Before I went to even endeavor to buy a license I
12 wanted to go through the State process to see if I could earn
13 my license fairly.

14 Q And so you've had no discussion either with existing
15 license holders, for example, somebody who already has a
16 retail license, is operating outside of this application
17 process? You haven't talked to anybody in that category, have
18 you?

19 A Can you say the one more time. I'm sorry.

20 Q There's existing retail dispensaries, correct --

21 A Yes.

22 Q -- even before this application process?

23 A Correct, sir.

24 Q Have you asked any of them if they would be
25 interested in selling the license?

1 A I have not asked them.

2 Q And have you taken any steps to look at potential
3 acquisition, maybe getting funding sources from banks, from
4 anyone else in order to acquire money to purchase a license?

5 A I have not asked, I have not inquired to buy a
6 license. I first wanted to go through the State process.

7 Q Okay. And I guess my question on that, Mr. Parker
8 essentially said, if you don't get one through the State
9 process, you may never ever get a license. But you said you
10 first want to do State process and then it's possible to look
11 at the potential for buying a license afterward; is that
12 right?

13 A Before I even consider that I would go through the
14 State process. When I answered Mr. Parker's question I based
15 it upon what I've seen, what I know about human nature, things
16 of that nature.

17 Q And with that, if you came to somebody, let's say --
18 you talked about \$10 million. If you came to somebody with
19 \$100 million you may not be able to force them to sell their
20 license, but do you think somebody would sell you a license
21 for \$100 million?

22 A I don't know.

23 Q How about a billion dollars if it's --

24 A I don't know.

25 Q Okay. Have you seen any licenses that have sold for

1 a billion dollars?

2 A I have not seen a license that has sold for a
3 billion dollars.

4 Q Okay. That would be way above the market price; are
5 right?

6 A I don't know what the market price is.

7 Q So you don't have any understanding of what a
8 license might buy -- might be sold for in the current market?

9 A I don't know.

10 MR. KOCH: Thank you.

11 THE COURT: Anyone else?

12 MR. SHEVORSKI: No, Your Honor.

13 THE COURT: Thank you, sir. Have a very nice
14 afternoon.

15 THE WITNESS: Thank you.

16 THE COURT: Next witness.

17 MR. GUTIERREZ: Thank you, Your Honor. We'll call
18 Craig Rombough.

19 CRAIG ROMBOUGH, DEFENDANTS' WITNESS, SWORN

20 THE CLERK: Thank you. Please be seated. Please
21 state and spell your name for the record.

22 THE WITNESS: My name is Craig Rombough. C-R-A-I-G
23 R-O-M-B-O-U-G-H.

24 THE COURT: Sir, there's water in the pitcher that
25 you've found already. There are M&Ms in the dispensers behind

1 you, and there are exhibits in the many binders around you.
2 If you need the statute, let me know. I have a book. Counsel
3 will try to display it for you -- any exhibits for you on the
4 monitor.

5 Please proceed.

6 MR. GUTIERREZ: Thank you, Your Honor.

7 DIRECT EXAMINATION

8 BY MR. GUTIERREZ:

9 Q Good morning, Mr. Rombough. Could you tell us what
10 your current position is.

11 A I'm the president of Mother Herb.

12 Q And what type of company is Mother Herb?

13 A We're a cultivation in the state of Nevada.

14 Q And how long has Mother Herb been operating as a
15 cultivation facility in Nevada?

16 A I was one of the first open since 2014.

17 Q And does Mother Herb have a dispensary or production
18 license?

19 A We do not.

20 Q How many facilities does Mother Herb have?

21 A We have one facility.

22 Q Where is that located?

23 A 6265 Saddle Tree Drive, Las Vegas, Nevada 89118.

24 Q And in the 2014 process were you part of the
25 application process?

1 A I was.

2 Q And did Mother Herb apply for any dispensary
3 licenses in 2014?

4 A In 2014 we did not apply for a production license,
5 and we did not apply for a State dispensary license.

6 Q Why not?

7 A We felt at the time that the industry needed to
8 focus on growing, and the product is going to stem from the
9 actual flower. We thought that was the most important license
10 at the time.

11 Q And at some point did that change, where you wanted
12 to have Mother Herb get into the dispensary business?

13 A Absolutely. We always planned on getting a
14 dispensary license, and we always felt that that was the way
15 it was going to go.

16 Q And how many -- strike that.

17 How many dispensary licenses did Mother Herb apply
18 for in the 2018 process?

19 A We applied for six.

20 Q Do you know what locations Mother Herb applied for
21 dispensary licenses in?

22 A Clark County, City of Henderson, City of Las Vegas,
23 City of North Las Vegas, Reno, and Reno area.

24 Q And were -- what was your role in the 2018
25 application process?

1 A Six months of my time and countless thousands of
2 hours.

3 Q Who actually filled out your application?

4 A I did with my team of five people.

5 Q And did you believe that not having a dispensary
6 going into the 2018 process set you back when you were
7 applying?

8 A Because of the way that they created the second
9 statutes, I did feel that it was written in a way that was
10 flawed.

11 Q When you say second statutes what are you
12 discussing?

13 A I'm talking about when they did the new NRS -- they
14 had the meetings and then they did the new NRS, where we were
15 talking about anybody with a 10 percent ownership and grading
16 the dispensaries, et cetera, et cetera.

17 Q So you're talking about the regulations that were
18 adopted for the 2018 process under NAC 453D, or the --

19 A Sorry. Correct. Yes, correct.

20 Q Okay. So the record will be clear, you're speaking
21 about the regulations.

22 A I'm sorry. Correct, yes.

23 Q Okay. So you don't have an issue with the statute,
24 with NRS?

25 A No. The original statute in 2014 I don't have an

1 issue with.

2 Q Or the statute that governs recreational marijuana,
3 which is NRS 453D? Do you have an issue with that?

4 A Maybe specifically, but nothing off the top of my
5 head, no.

6 Q Okay. Well, we're talking about the regulations for
7 2018. I thought -- so your testimony and I think one of your
8 business partners testified at -- or submitted some documents
9 in support of your position on those regulations?

10 A I have no recollection of that. I don't think so,
11 though.

12 Q Okay. But you were saying that the second statute
13 or the regulations, we'll call them, was flawed?

14 A In January of 2018 I had spoke and indicated that I
15 felt they were flawed and they would create a monopoly or an
16 oligopoly.

17 Q Who did you speak to?

18 A That was at the State sessions. I should be on the
19 record with that.

20 Q And was it your position that they were flawed
21 because of how they affected cultivators?

22 A Basically that the process was flawed, it wasn't
23 fair, and, again, I felt that it would create a monopoly and
24 oligopoly, and that's essentially exactly what happened with
25 the issuing of the licenses.

1 Q But back to my question on -- did you believe that
2 the cultivators were not given a fair chance during the
3 process?

4 A [Unintelligible] say I think just cultivators, but
5 just in overall. We were one of the first to open up, we
6 opened up to 100 percent of our capacity, we paid millions of
7 dollars in taxes, and we felt that we should be given a fair
8 share opportunity for one of the licenses.

9 Q You're not in favor of the vertical integration
10 process --

11 A I'm absolutely in favor of the vertical integration
12 process.

13 Q Okay. So I read an article that you had. You
14 quoted -- where you said, "Cultivators put up a lot of money
15 up front and should be given a fair shot or even a greater
16 shot to create a fair market." Do you recall saying that?

17 A I absolutely agree with that.

18 Q And you believe that?

19 A Yep.

20 Q Who's Greg Nelson?

21 A He's one of our partners.

22 Q Greg Nelson said in the same article, "There are a
23 lot of cultivators in town that are scared to death if they
24 don't get a dispensary license." Is that your position?

25 THE COURT: Counsel, are you going to admit that

1 article, since you're reading from it?

2 MR. GUTIERREZ: I can admit it, Your Honor. We
3 have --

4 THE COURT: Is there any objection?

5 MR. CRISTALLI: I haven't seen it.

6 MR. GENTILE: I'd like to see it.

7 MR. CRISTALLI: Yeah. We haven't seen it.

8 THE COURT: Counsel, you can't read from a document
9 that's not admitted. We're going to take a short break while
10 you figure this out.

11 (Court recessed at 10:31 a.m., until 10:48 a.m.)

12 THE COURT: So did you get some proposed exhibits
13 for me? You can be seated.

14 MR. GUTIERREZ: We did, Your Honor.

15 THE COURT: Did you mark them?

16 MR. GUTIERREZ: Yes. Proposed Exhibit 5060 will be
17 an article dated --

18 THE COURT: Proposed exhibits.

19 MR. GUTIERREZ: Proposed exhibit.

20 THE COURT: Has anyone who's sitting on this side of
21 the room, besides you, seen them?

22 MR. GENTILE: No, Your Honor.

23 THE COURT: They all said no.

24 MR. GUTIERREZ: We're putting them --

25 THE COURT: What happened with the showing it to --

1 MR. GUTIERREZ: -- we're putting them out, right, as
2 we speak, Your Honor. And I showed them my digital copies,
3 but we don't have hard copies.

4 THE COURT: Okay. I guess I'll take another break,
5 Counsel. Counsel, you can't read from an un-admitted
6 document.

7 MR. GUTIERREZ: Your Honor --

8 THE COURT: I let you ask questions to -- about the
9 substance of the document before board that wasn't admitted, I
10 let you refresh a witness's recollection with it, but you
11 can't sit there and read from it.

12 MR. GUTIERREZ: I apologize, Your Honor. Just was
13 trying to get his position on cultivators that he had.

14 MR. PARKER: Mr. Gutierrez, can you simply ask him
15 the questions without having him see it -- I mean, without
16 reading it into the record?

17 MR. KEMP: Maybe we can jump to another area --

18 MR. PARKER: Yeah.

19 MR. KEMP: -- and come back to this.

20 MR. GENTILE: If you want me to address this, I can
21 do this right now.

22 THE COURT: I'd be happy to listen.

23 MR. GENTILE: Okay. It appears to me from questions
24 that I've asked of Mr. Bult that the two statements that
25 Counsel has read -- that read from this were statements of Mr.

1 Rombough and of another owner of that business. And so I
2 think that those would be admissible for purposes of an
3 adverse -- a party opponent. However, the document itself and
4 everything else in it is rank hearsay. And so I would object
5 to it on hearsay grounds.

6 THE COURT: Okay. So don't read from it.

7 THE WITNESS: I don't think those are necessarily my
8 words, either. Those might have been my partner's, but --

9 THE COURT: So the objection is sustained.

10 MR. GENTILE: Thank you.

11 THE COURT: Don't read from it, but you're allowed
12 to ask him the substance of it related to his statements.

13 MR. GUTIERREZ: Fair enough.

14 BY MR. GUTIERREZ:

15 Q Mr. Rombough, you've given statements regarding
16 vertical integration; correct?

17 A Correct.

18 Q You've given statements regarding how cultivators
19 could be affected by certain regulations; correct?

20 A Correct.

21 Q And just can you tell us generally what those
22 statements were about your position on cultivators when they
23 -- when the Nevada -- when Nevada was adopting the 2018
24 regulations for the sale of marijuana.

25 A Vertical integration is -- I don't have a problem

1 with vertical integration, but it needs to be applied to
2 everyone. So everyone needs to be able to be allowed to be
3 vertically integrated. If you take the 10 percent of people
4 that want to control all the dispensaries and they can grow
5 cultivations as large as they want, then 90 percent of the
6 cultivators are not part of the free market.

7 Q Okay.

8 A And that's a big problem for the fairness in
9 cannabis, for the original spirit of 2.

10 Q And you were making these objections to who?

11 A We made them to the State of Nevada I believe it was
12 in January of 2018.

13 Q Okay. Did you have any other objections to the
14 regulations?

15 A Not off the top of my head.

16 Q Did you have objections to the use of background
17 checks?

18 A My company was 100 percent checked. Every single
19 person on my company was checked, and I assumed that that
20 should have been applied to everybody that made applications.

21 Q Okay. The question was did you have any objections
22 that you made to background checks?

23 A I don't have any objections. It's 100 percent of
24 the people should have been checked.

25 Q Do you have any -- did you make any objections as to

1 diversity being used as a scoring criteria for the 2018
2 process?

3 A I don't have a problem with diversity. I think it
4 should be diverse.

5 Q And when you say it should be diverse, what do you
6 mean by that?

7 A Our society's diverse, people that use the product
8 are diverse, the company should be diverse.

9 Q Do you believe as a cultivator that having a diverse
10 ownership or operators is important to your operations?

11 A Absolutely.

12 Q Can you explain why.

13 A Again, our culture is diverse, society is diverse,
14 users are diverse. It's just the proper way.

15 Q Okay. What other objections did you have to the
16 adoption of the regulations?

17 A Again, none that I can think of.

18 Q Okay. At some point you received the results of
19 your application scoring in 2018?

20 A We did.

21 Q And how many licenses were you awarded?

22 A We did not receive a license.

23 Q And at what point did you decide to bring a lawsuit?

24 A When I realized that there was no way to find out
25 why we didn't get a license. And we felt that our license

1 applications were 100 percent complete and 100 accurate, and
2 we felt that because we were cultivators that were one of the
3 first to open and we did exactly our business plan, we've
4 never sold to outside investors, we've never sold to
5 corporations, we've never even changed hands at all, we felt
6 that our score should have been 250, and we should have been
7 awarded at least one license, if not six.

8 Q You mentioned that you didn't sell to any outside
9 companies. Do you have a objection to people who have sold to
10 public entities?

11 A No, but it should play to the criterion of people
12 getting a new dispensary license. I don't think it's fair
13 that somebody gets 10 licenses and turns around and sells
14 them.

15 Q One of the elements that you're seeking in your
16 complaint is compensatory damages or money from the State.
17 Can you tell us why.

18 A I do have irreparable damages to my reputation, to
19 my corporation, to all of my people that basically have a
20 move-up plan, as well as the time that I'm never going to get
21 back that I spent doing all of these applications for months
22 and many, many hours.

23 Q So let's break those down. You said reputation you
24 have damage to; is that correct?

25 A Absolutely.

1 Q How is your reputation damaged any different than
2 anybody else who didn't receive a license?

3 A Again, my reputation as a business person carrying
4 on the cannabis business.

5 Q No. I'm asking you specifically how is your
6 reputation damaged any different than anyone else who didn't
7 receive a license?

8 A I can't speak for anyone else.

9 Q So you're talking in general your reputation was
10 damaged because you did not receive a license?

11 A Absolutely.

12 Q Do have any examples of that?

13 A I think it's obvious. We've been in business since
14 the start, and we've done everything the State has of us,
15 we've paid millions in taxes, and we should have received a
16 dispensary license. Again, that was always our plan.

17 Q You said there was damage to your corporation. What
18 does that mean?

19 A Well, if we get back to the integration question,
20 there's only 60 places that we can sell our product. Those 60
21 places grow product themselves. So if we don't have an outlet
22 for our product, we don't have a business. A dispensary is an
23 outlet for our product.

24 Q Are you aware if any cultivation facilities received
25 a license in the 2018 round?

1 A I'm not aware.

2 Q You said you have damage to your people. What is --
3 or people you hired, is that what you said?

4 A My diverse group of people, they have a succession
5 plan to work in a dispensary or grow with the company.

6 Q Did you hire people before you got the dispensary
7 license specifically for a dispensary?

8 A We put together a team of people that certainly put
9 time, effort, and there were some funds, as well.

10 Q And then tell us about what relief you're seeking --

11 A We also --

12 Q Let me finish the question --

13 A Okay.

14 Q -- so we have a clear record.

15 THE COURT: Thank you.

16 BY MR. GUTIERREZ:

17 Q Tell us about the relief that you're seeking from
18 this injunction process.

19 A I just want an outlet for my product. I want it to
20 be fair. I want a transparent process. I don't think any of
21 that has happened.

22 Q Do you believe that the release of Senate Bill 32
23 has given transparency to the process?

24 A Somewhat. But it doesn't go -- it can't go
25 backwards with that. And the whole process was not

1 transparent, which created all the problems that we're at
2 today.

3 Q What's your harm going forward, though, as we sit
4 here today?

5 A I need an outlet for my product, Otherwise I'm
6 going to go out of business. And we need a fair and free
7 market. We don't need a monopoly, we don't need an oligopoly.
8 Again, I was one of the pioneers of the State of Nevada
9 cannabis program, and now I'm going to be shut out if I don't
10 have an outlet for my product.

11 Q Which dispensaries are you selling to now?

12 A We try to sell to all 60. Some of them -- some of
13 the people in the lawsuit that will no longer buy our product,
14 and if they get licenses, that's going to hurt us.

15 Q And you believe having your dispensary is your only
16 outlet for your product?

17 A I wouldn't sell to the black market. I don't --
18 that is our only outlet.

19 Q Well, have dispensaries stopped buying from you?

20 A Correct.

21 Q Okay.

22 A The whole point of the 2 vote was to put ethical
23 businesspeople in charge of cannabis. We wanted to get it
24 away from the black market. Now you've got 90 cultivators
25 that may not have an outlet for their product. That's a

1 problem. That's why we need to be transparent. We need to be
2 fair. The process needs to be fair.

3 Q Where in the ballot initiative or Statute NRS 453D
4 does it prevent vertical integration?

5 A Again, you need to have a license to have vertical
6 integration.

7 Q That's not my question, though. Where in the
8 statute does it prevent vertical integration?

9 A It doesn't.

10 Q So it's allowed by law; correct?

11 A Absolutely.

12 Q Do you have any objection to the State use of
13 independent contractors to grade the process?

14 A I think it should be people that are in the business
15 that should be doing the evaluations.

16 Q So you believe that some of the people that work for
17 the Department of Tax should have been doing the actual
18 grading?

19 A People that are in the industry should do it.

20 Q Do you believe that if somebody's in the industry
21 they may have a particular bias towards one dispensary versus
22 another?

23 A Not necessarily working for the specific businesses,
24 but knowledge of the industry.

25 Q Okay. You believe that the grading process needed

1 to be impartial to comply with the statute; correct?

2 A Again, I really don't have those answers. I just --
3 the whole process was not transparent to me. No one can tell
4 me why I don't have a dispensary license.

5 Q Okay. If you were awarded a dispensary license,
6 would you be sitting here today bringing a lawsuit?

7 A I would have to see the way the whole thing went
8 down. Again, I believe in fairness and fairness in the
9 process. I can't answer that.

10 Q Okay. But you are asking to stop the 61 licensees,
11 who received licenses from opening; is that correct?

12 A I'm asking for an outlet for my product.

13 Q No. The question is you're asking the Court to stop
14 the process from -- these 61 licensees from opening; is that
15 correct?

16 A Again, my lawyers are dealing with the injunction.
17 My job is to get an outlet for my product.

18 Q Have you attempted to buy a license --

19 A We have.

20 Q -- for a -- you have?

21 A I have.

22 Q Who did you attempt to buy a dispensary license
23 from?

24 A We tried to buy a license from day one.

25 Q Tell us who you talked to.

1 A Nobody was able to offer us a license, and we were
2 unable to purchase one.

3 Q Tell us who you spoke with about purchasing.

4 A I don't have any specific recollection, but we've
5 been trying to get one from day one.

6 Q Well, day one would have been some time in December;
7 is that fair?

8 A Are you talking December of 2018?

9 Q Yes.

10 A No, I'm talking more like we've wanted a dispensary
11 since we realized -- again, in 2014 we thought that flower was
12 the important license. Obviously, we saw the way the market
13 was going, and we understood that it was no longer a free
14 market. People were buying our product for \$600 a pound and
15 selling it for \$6,000 a pound. We realized that the
16 dispensary license was going to be the important license. We
17 needed to have an outlet for our product.

18 Q Okay.

19 A So we tried to find a way to do that, and we have
20 been unable to do that. So it's important to -- that's why we
21 applied for six licenses, that's why it's so important to us.

22 Q Okay. Let me limit the question to after you
23 received notice on December 5th, 2018, that you did not win a
24 license. What steps have you taken to purchase a license?

25 A We've contacted people. Nobody wants to sell a

1 license.

2 Q Who have you contacted?

3 A I can't name exactly, but we've contacted a bunch of

4 different corporations and different people that say they have

5 people that want to sell it. But there is not a license

6 available, and there's certainly not enough licenses available

7 for all the people that are looking for them.

8 Q You can't name one company that you've contacted?

9 A I can't. Not off the top of my head, no.

10 Q What have you offered for a license?

11 A There's none available.

12 Q You haven't spoken to Thrive, correct, about

13 purchasing a license?

14 A I have not.

15 Q You haven't spoken to Essence about purchasing a

16 license; correct?

17 A I have not. Thrive no longer buys our product and

18 is not happy with us.

19 Q How is Thrive opening a location under their

20 dispensary on Sahara affecting your business?

21 A They used to buy product from us, they no longer do.

22 Q And that's your only basis to prevent Thrive from

23 opening on their Sahara location?

24 A Again, I don't have an outlet for my product, so

25 it's certainly going to hurt me.

1 Q Besides not having an outlet for your product, do
2 you have any other claim of harm you're making?

3 A Other than what I've already stated, no.

4 MR. GUTIERREZ: Pass the witness, Your Honor.

5 THE COURT: Any of the other defendants or
6 defendants in intervention wish to ask questions? Mr. Koch.

7 DIRECT EXAMINATION

8 BY MR. KOCH:

9 Q Mr. Rombough, you've applied for six licenses; is
10 that right?

11 A Correct.

12 Q You hoped to get all six licenses?

13 A I'd be happy to get one or two.

14 Q So you applied for six, you wanted six; right?

15 A Correct.

16 Q If you were awarded six licenses, would you accept
17 all six licenses?

18 A Absolutely.

19 Q And it wouldn't be unfair if you got your six
20 licenses and you -- based on your applications, would it?

21 A Again, if the system was fair and I thought the
22 process was fair, which it wasn't, so it would have to be a
23 whole different world to understand that -- but -- the system
24 that we went through and the process was unfair. I don't
25 think it's relevant.

1 Q Well, my question I guess is if you had received all
2 six licenses through the process you would have accepted all
3 six licenses.

4 A If I thought the process was fair, I guess we would
5 have.

6 Q And what would you have done to determine whether
7 the process was fair after you received your six conditional
8 licenses?

9 A That's a good question. I don't have an answer for
10 that.

11 Q Okay. So it's the fact that you did not get the
12 licenses which is what caused you to determine the process was
13 unfair?

14 A No.

15 Q You never made a dollar offer for any of those --
16 you said you tried to get -- tried to get a license since 2014
17 or '15. You never put actual money on the table, did you?

18 A Nobody gave me -- nobody had an offer of a license
19 for sale.

20 Q Right. There wasn't somebody out on the street
21 saying, hey, I've got a license for sale. But you didn't
22 approach somebody saying, I'll give you \$10 million for your
23 license today, did you?

24 A That is a scenario that did not happen, no.

25 Q Okay. Nor any other dollar amount. You didn't go

1 to anybody with an offer of money and give them a proposed
2 dollar amount for that license since 2014; correct?

3 A There was not a license available.

4 Q So the answer to my question is, no, you did not do
5 that?

6 A There was no license available.

7 MR. KOCH: All right. No further questions.

8 THE COURT: Any further? Mr. Shevorski.

9 MR. SHEVORSKI: Thank you, Your Honor.

10 DIRECT EXAMINATION

11 BY MR. SHEVORSKI:

12 Q Good morning, Mr. Rombough.

13 A Good morning.

14 Q Does Mother Herb have an advisory board -- or strike
15 that. Did it have an advisory board when it applied for a
16 conditional license in 2018?

17 A An internal advisory board?

18 Q However Mother Herb defines its --

19 A We have a board of directors.

20 Q Do you have an advisory board?

21 A We have a board of directors that acts as an
22 advisory board.

23 Q Okay. So did you prepare the application yourself?

24 A I did, with a team of five people.

25 Q Okay. And there'd be six people on that advisory

1 board?

2 A I'd have to look at the application, but we had a

3 very thorough team that we put together for our dispensary.

4 Q Okay. Does Dr. Carmen Jones sound familiar?

5 A It does, yes. Sir, what's the first name?

6 Q Carmen Jones.

7 A Okay. Yes, yes. I thought you said Connor.

8 Q Hilda Avila?

9 A I'm sorry?

10 Q Hilda Avila?

11 A Correct.

12 Q Brian Chavez?

13 A Correct.

14 Q Zachary Paul?

15 A Yep.

16 Q Michelle Romanow?

17 A Okay.

18 Q Yes?

19 A Yep.

20 Q And Brian Romanoff?

21 A Yep.

22 Q You mentioned monopoly. Have you studied economics?

23 A I have.

24 Q Okay. Do you have --

25 Q I've got a business degree.

1 Q You've got a business degree?

2 A I do. I do. I'm actually the one that coined the

3 phrase in 2018 here about the oligopoly, because it's really

4 not a monopoly it's more of an oligopoly.

5 Q Okay. Did you attend a university?

6 A I did.

7 Q What university did you attend?

8 A I attended the University of Lethbridge.

9 Q I couldn't hear you. I'm sorry.

10 A The University of Lethbridge.

11 Q Lethbridge?

12 A Yeah.

13 Q Where is that?

14 A That's in Alberta, Canada.

15 Q After university did you attend any post -- did you

16 obtain a Doctorate in economics?

17 A I don't have a Doctorate in economics.

18 Q Do you have a Master's degree in economics?

19 A I do not, but I did study economics.

20 Q You studied economics?

21 A Correct.

22 Q Did you -- does -- in the university that you

23 attended did they have minor and major studies?

24 A They do.

25 Q Did you obtain a major in economics?

1 A I've got a minor in finance.
2 Q Minor in finance.
3 A Which is economics related.
4 Q Okay.
5 A And I have taken more than one economics course for
6 that finance degree.
7 Q More than one? How many?
8 A I can't say off the top of my head, maybe three.
9 Q Have you published any papers in economics?
10 A I have not.
11 Q Have you published any papers regarding monopoly?
12 A Maybe internal ones, but dependent on what you
13 consider published, I haven't --
14 Q Peer reviewed?
15 A Maybe peer reviewed, but not published.
16 Q What is that called?
17 A I can't think of one off the top of my head. We're
18 talking many, many years ago.
19 Q How many years ago?
20 A Let's see. I would have graduated about 1992, 1993.
21 Q Okay. Have you studied demand elasticity with
22 respect to marijuana?
23 A As part of my job as president of Mother Herb I have
24 -- I'm constantly looking at the price charts that come across
25 my desk. There's a number of sources that provide me with

1 monthly reports.

2 Q Have you looked at demand elasticity in terms of
3 marijuana with respect to monopoly?

4 A I don't know. Not specifically.

5 Q Have you done any analysis relevant to -- what are
6 the relevant factors to determine whether or not a party is
7 exercising monopoly power?

8 A All I know is that there's potentially 90
9 cultivators or cultivation licenses that need an outlet for
10 their product, and if they don't have an outlet, we have a
11 problem.

12 Q Okay. Back to my question, though. What are the
13 relevant factors that someone might look to to determine
14 whether or not an entity is exercising monopoly power?

15 A Basically if an entity gets all the dispensary
16 licenses or as -- you basically can have 10 companies that
17 have all the dispensary licenses and they can grow all their
18 own product, then that's a textbook definition of an
19 oligopoly. They're controlling all of the supply and all of
20 the sales.

21 Q Let's do it one more time. You asked -- you talked
22 about oligopoly. I'm asking about monopoly. What are the
23 factors that someone might consider to determine whether an
24 entity is exercising monopoly power?

25 A I have no additional answer to that.

1 MR. SHEVORSKI: Okay. No further questions, Your
2 Honor.

3 THE WITNESS: Thank you.

4 THE COURT: Anybody else of the defendants or the
5 defendants in intervention?

6 Any of the plaintiffs? Mr. Bult.

7 CROSS-EXAMINATION

8 BY MR. BULT:

9 Q Good morning, Mr. Rombough.

10 A Good morning.

11 Q Do you remember the testimony that you gave about
12 your efforts to purchase a license?

13 A Correct.

14 Q And I think your testimony was that you were
15 unsuccessful.

16 A Correct.

17 Q And so is it fair to say that you -- if you were
18 unsuccessful at purchasing one, there were not 25 licenses
19 available?

20 A Yeah, absolutely none.

21 Q Okay. Because you couldn't even find one for sale?

22 A Exactly.

23 Q And you made an effort?

24 A Absolutely.

25 Q Okay. And we went over those efforts; correct?

1 A Correct.

2 MR. BULT: Thank you, Mr. Rombough.

3 THE COURT: Anyone else?

4 Thank you, sir. We appreciate your time.

5 THE WITNESS: Thank you.

6 THE COURT: Have a very nice afternoon.

7 Next witness.

8 MR. GUTIERREZ: Mark Bradley.

9 MARK BRADLEY FELDGREBER, DEFENDANTS' WITNESS, SWORN

10 THE CLERK: Please be seated. Please state and

11 spell your name for the record.

12 THE WITNESS: Mark Bradley Feldgreber, M-A-R-K

13 B-R-A-D-L-E-Y F-E-L-D-G-R-E-B-E-R.

14 THE COURT: Sir, you've already found the water.

15 There's also M&M's in the dispenser. There are a ton of

16 exhibit books around you. Counsel will hopefully show you the

17 exhibits you need to look at on the screen.

18 THE WITNESS: Thank you. M&M's?

19 THE COURT: Yes. They're in the dispensers behind

20 you.

21 THE WITNESS: Thank you.

22 MR. SHEVORSKI: Take advantage, sir.

23 THE COURT: Do not let the lawyers have any.

24 THE WITNESS: Okay.

25 THE COURT: You may proceed.

1 MR. GUTIERREZ: Thank you, Your Honor.

2 DIRECT EXAMINATION

3 BY MR. GUTIERREZ:

4 Q Good morning, Mr. Bradley.

5 A Good morning.

6 Q What is your current position?

7 A CEO of Players Network and Green Leaf Farms.

8 Q And tell us what the difference is between Players
9 Network and Green Leaf Farms.

10 A Players Network is a fully reporting public company,
11 and it is the major ownership of Green Leaf Farms. One's a
12 media company, and one's cannabis.

13 Q When did you begin Green Leaf Farms?

14 A Approximately June 2014 for the application process.

15 Q For the medical application process?

16 A Correct.

17 Q And when did Green Leaf Farms and Players Network --
18 or when did Players Network acquire Green Leaf Farms?

19 A We didn't acquire it. We formed a new corporation
20 for the purpose of getting a cannabis license.

21 Q When was that formed?

22 A Approximately June 2014.

23 Q I'm sorry. My question was with relation to the
24 Players Network. At some point Green Leaf Farms was acquired
25 by Players Network; is that fair?

1 A We didn't acquire it. We started a separate
2 company, and which is a private company.

3 Q And is it publicly traded?

4 A It -- because we're the majority shareholder, it has
5 to operate under all the public rules and regulations, and the
6 revenues are consolidated under the public company.

7 Q So is there SEC filings that have to be made?

8 A Yes.

9 Q And who does that for your company?

10 A Our accountants and our attorneys, myself. We do
11 quarterly reports.

12 Q Was Green Leaf Farms awarded a medical dispensary
13 license in 2014?

14 A No.

15 Q Is it only in the business of cultivation?

16 A I'm sorry?

17 Q Is it only in the business of cultivation?

18 A We have a cultivation and a production license. We
19 have two licenses.

20 Q At some point did Green Leaf Farms and Players
21 Network decide to expand to Argentina?

22 A That's correct.

23 Q And can you tell us about that.

24 A About a year and a half ago I started looking at new
25 markets to expand to and toured several countries and met with

1 several high-ranked officials and partnered with the
2 government of Argentina, the Province of Jujuy. We're the
3 only company in the world that is partners with the government
4 for cannabis that I know of.

5 Q Okay. Partners. Your company is partners with the
6 Argentinean Government; is that correct?

7 A Correct.

8 Q We've been talking a lot in this case the last few
9 months about background checks on owners.

10 A Yes.

11 Q Is it -- do you have an objection as to how the
12 regulations are written for the 5 percent requirement for
13 background checks on owners?

14 A Absolutely not.

15 Q And can you explain why.

16 A I think everybody should have background checks if
17 they're going to have a privilege license. So I don't have
18 any problem with it.

19 Q Can you -- you believe everybody, every owner should
20 be background checked, or do you believe the 5 percent
21 requirement should be in place?

22 A The 5 percent requirement.

23 Q You believe it should be --

24 A 5 percent and above I think -- I agree that the way
25 the law is written should have a background check.

1 Q Okay. That's -- I guess we were unclear on that.
2 So tell us why you believe the law should be -- that
3 background checks should only be for owners 5 percent and
4 above.

5 A I don't really have an answer to that. I'm not --
6 you know, I've really never thought about that.

7 Q Is that something as a publicly traded company would
8 make your business difficult to run if you had to have every
9 single shareholder background checked?

10 A So public companies run by certain sets of rules and
11 regulations, and anybody that owns more than 4.9 percent of a
12 public company by law has to have a different layer of
13 disclosure. And that also goes up again at the 10 percent
14 level. So, you know, we operate for the last 30 years
15 extremely transparent, which -- you know, which is I think
16 vital to any privilege license.

17 Q Okay. So you don't have a objection to the 5
18 percent requirement in the regulations. What objections do
19 you have as to how the regulations were adopted for the 2018
20 marijuana process?

21 A Are you referring to Question 2?

22 Q No. I'm referring to the regulations in NAC 453D
23 that were adopted by the Department of Tax to carry out the
24 provisions of Question 2.

25 A They were completely flawed. They did not comply

1 with Question 2.

2 Q Explain why.

3 A There are several reasons. I'll go just kind of on
4 the high level that I can remember. There's fairness and
5 impartiality that I don't believe was followed. There wasn't
6 a disclosed numerical scoring system prior to the
7 applications. The applications were favoring existing
8 dispensary holders to get more. The applications didn't give
9 the spirit of the Question 2, which was to allow the original
10 dispensary holders and the Nevada residents to keep the money
11 and the taxes here, the advantage to be able to have the
12 priority of getting these licenses. Those are a few off the
13 top of my head.

14 Q Let's start with the last one. I think you said you
15 believe keeping the business here and not having public
16 companies was one of the intents of Question 2. Is that your
17 position?

18 A I didn't say -- well, I didn't say public companies.
19 I said Nevada.

20 Q So you believe it was the intent of the voters that
21 the companies that would operate the marijuana dispensaries
22 would be Nevada-based companies?

23 A The intent of Question 2 was for the people that
24 paid their dues to get the medical license and begin the
25 industry would have the first priority of the dispensaries.

1 The original ownership. That was the spirit of Question 2.

2 Q And do you believe that this statute doesn't reflect
3 that -- is there somewhere in Question 2 that says you need to
4 have a Nevada-based company to obtain a license?

5 A I didn't say Nevada-based company. I said
6 ownership. You scored higher in the medical round when you
7 had Nevada residents as owners. And Nevada companies are also
8 owners.

9 Q You say the applications favored existing
10 dispensaries?

11 A Correct.

12 Q Why do you believe that?

13 A Because under the initial permanent regulations that
14 were adopted gave a higher point-scoring system under
15 experience of operating a dispensary. It clearly says that.
16 So that would make me believe that dispensary owners have an
17 advantage to get more dispensaries.

18 Q So you believe in your application as a cultivator
19 and producer that you were at a disadvantage based on how the
20 application was worded, because you believe it favored
21 dispensaries?

22 A When you got the -- when the final application came
23 out that language changed a little bit, and it didn't refer to
24 specifically dispensary owners, it referred to business
25 experience. They actually changed the language in it. So I

1 can't say that I would be at a disadvantage of being a
2 cultivator in the application process of that one specific
3 thing you're asking for.

4 Q What specific section changed?

5 A I just told you. The specific language changed from
6 the Question 2 that got adopted that says you would get a
7 higher merit system for a dispensary operation experience, and
8 that changed from business experience.

9 Q So you believe somewhere in Question 2 it discusses
10 higher business experience as a factor?

11 A It didn't, no. In the application it was rewarding
12 more for higher business experience. Question 2, the
13 permanent never had anything to do with giving somebody more
14 experience with a dispensary -- giving some more points with a
15 dispensary experience. Question 2 was supposed to be fair and
16 unbiased, and that's not how the application sorted out,
17 though, the permanent regulations that were voted on.

18 Q You said -- one of the other flaws that you stated
19 was disclosure of a numerical scoring system?

20 A Correct.

21 Q Okay. Explain that.

22 A The scoring system was completely flawed. The
23 application clearly gave nine categories that you needed to
24 vote on. When you got your scores it was combined to seven
25 categories. There was no disclosure that we were going to be

1 combining categories together. It would have completely
2 changed the way somebody packaged an application. Of course
3 you want to put parts together that are supposed to go
4 together.

5 There was also areas that, you know, when you saw
6 the scores at the end, were things that unless you knew those
7 are scores you're going to get points for, nobody would have
8 ever known how to do it. So scoring system was completely
9 flawed.

10 Q Okay. Did you ever promise any of your shareholders
11 or investors that you were going to get a dispensary license
12 prior to the application process?

13 A Never promised anything. Always said, we are going
14 to apply for applications and we feel extremely good about our
15 ability to get it based on our experience and our team.

16 Q Who's Kathy Peterson?

17 A One of our minority shareholders.

18 Q Did she file a lawsuit against you and your company?

19 A We are currently in a lawsuit with Kathy Peterson.

20 Q And has she made any allegations of
21 misrepresentation against your company?

22 MR. GENTILE: Objection. Hearsay.

23 THE COURT: Overruled. You can answer.

24 THE WITNESS: Not anything I specifically recall.

25 //

1 BY MR. GUTIERREZ:

2 Q Okay. Has she submitted any affidavits in court
3 with her position on any representations you made about
4 obtaining a dispensary license?

5 A There's been no court --

6 MR. GENTILE: Objection. Hearsay.

7 THE COURT: Overruled. It's yes or no, sir.

8 THE WITNESS: Not that I know of. The answer is no,
9 there has been no court appearances regarding the case.

10 BY MR. GUTIERREZ:

11 Q That's not my question. My question is has she
12 given an affidavit in court talking about a misrepresentation
13 that she believes you made about a dispensary license?

14 MR. GENTILE: Objection. Hearsay.

15 THE WITNESS: Not that I know of.

16 THE COURT: Overruled. It's a yes or no.

17 THE WITNESS: No.

18 MR. GUTIERREZ: Your Honor, I'd like to move to
19 admit Proposed Exhibit 5059, which is an affidavit of Kathy
20 Peterson.

21 THE COURT: How do you get around the hearsay
22 objection?

23 MR. GUTIERREZ: Well, first of all, it's my
24 position --

25 THE COURT: Is the declarant available for cross-

1 examination?

2 MR. GUTIERREZ: I do not know, Your Honor. We could
3 work --

4 THE COURT: Okay.

5 MR. GUTIERREZ: We can attempt to get her available,
6 but, you know, our position is that I think that without the
7 benefit of discovery in this case and without the benefit of
8 -- we've been in an injunction hearing that we do believe that
9 under some Ninth Circuit caselaw that the hearsay requirements
10 are absolute. And I can provide the Court with that caselaw.

11 THE COURT: Anyone else wish to say anything related
12 to the offer of the document?

13 MR. KOCH: I'll say I think hearsay -- the rules for
14 hearsay are relaxed in the context of preliminary junctions.

15 THE COURT: True. Anything else?

16 MR. BULT: Your Honor, we just got a copy of what
17 he's trying to get in. We agree that it is hearsay, and to
18 the extent he wants to call that witness he should, but
19 otherwise it's hearsay.

20 THE COURT: The objection's sustained.

21 Mr. Graf, thank you for joining us today.

22 MR. GRAF: Yes, Your Honor. I apologize. I was in
23 front the of Judge Crockett this morning. Clear River would
24 also request that that document be admitted in that it is a
25 filed document with the court.

1 THE COURT: That doesn't make the declarant credible
2 or available for cross-examination. The objection's
3 sustained.

4 MR. GRAF: Thank you, Your Honor.

5 BY MR. GUTIERREZ:

6 Q Mr. Bradley, were you also sued by Michael Pratter?

7 A No.

8 Q Or was the company sued by Michael Pratter?

9 A Correct. Yes.

10 Q And what was the basis for that lawsuit?

11 A Couple years after he quit he came back and said he
12 was owed money. It was -- we won the case or settled out of
13 court.

14 Q You won the case, or it settled?

15 A It settled in our favor.

16 Q Now, is Michael Pratter a disbarred attorney?

17 A I believe he is.

18 Q And was he helping in your 2014 application?

19 A He worked as an advisor for the company. He was one
20 of -- he wasn't working in a legal capacity. He was one of
21 many people, probably eight people that worked on the
22 application.

23 Q We've talked about diversity in the case, Mr.
24 Bradley. Do you have a position or any objection as to
25 diversity being included as a scoring criteria for the 2018

1 application process?

2 A I don't have any problem with diversity. I have a
3 slightly different definition of diversity. I don't think it
4 is -- I don't believe that it's just male and female, race,
5 gender. I also believe it is diversification in the ownership
6 of the -- who gets applications and who gets the ability to be
7 in this business.

8 Q What does that mean, diversification of ownership?

9 A I think -- I think to create a free market, I think
10 the more people that have owners is going to be better for the
11 public. There's going to be more products available, more
12 prices, more options. I think we're hurting the public by
13 limiting the diversification.

14 Q Okay. But in relation to how the Department scored
15 diversity, do you have any objection to how that was done?

16 A In our particular case we had many more people. I
17 think we had nine or ten people on our application in
18 different management and board capacities. Could have been
19 eleven. I don't remember the exact number. We had quite a
20 bit of diversification on there. Probably five or six people
21 were diversified in there in the definition that you're I
22 think going for, race and gender. Other people that might
23 have had a smaller group, say someone that had three people
24 out of four owners might have scored higher on diversity
25 because three quarters of their ownership was diversified. In

1 our case we had five to six people. We had more
2 diversification, but we got a lower score because it was based
3 on percentage. So I don't really think that was a fair way of
4 assessing it.

5 Q Let me ask you this. With diversity as a scoring
6 criteria do you believe the use of diversity is directly and
7 demonstrably related to the operation of a marijuana
8 establishment?

9 A No, I don't.

10 Q Explain why.

11 A I don't think anyone's color of their skin or gender
12 has anything to do with their experience and knowledge of
13 operating a business. I think that's -- I don't think that's
14 fair.

15 Q And you heard Mr. Zakalik testified earlier,
16 correct, about his position on diversity?

17 A Yes.

18 Q And you disagree with that?

19 A Everybody has their own opinion. I don't -- you
20 know, I can't disagree with what his personal feelings are.

21 Q Okay. Did you attempt to buy a license in any way?

22 A No.

23 Q Would your company buy a license, a dispensary
24 license?

25 A That's a tough question. There's a lot of

1 considerations of going into it, whether there's one
2 available, whether it logically makes business sense for the
3 price, location, whether it comes with a building, whether
4 it's just a license, a lot of different variations of that.
5 But as far as I know there hasn't been any available.

6 Q Have you attempted to buy one?

7 A We haven't attempted to buy one. We have -- I have
8 asked around people in the industry if you know anybody
9 selling one let me know, you know, and I never got any
10 feedback.

11 Q What location -- what jurisdiction would you be
12 looking at for Green Leaf Farms?

13 A The County is our main focus.

14 Q And you applied for six licenses; is that correct?

15 A Correct.

16 Q I think Lyon and Douglas County you also applied in;
17 correct?

18 A Yeah, I did.

19 Q Did you have plans to already open a dispensary out
20 there?

21 A We had a location, we had a letter of intent for the
22 location, we spent money doing the proper research on the
23 market, on the demographics, on traffic and community impact,
24 on the operational budgets. So, yeah, we put efforts into all
25 of our locations with the intention of opening up a location.

1 Q And with respect to Douglas and Lyon County you did
2 research as far as the market out there and the type of
3 success you would have with a dispensary if you were awarded
4 the license?

5 A Yes.

6 Q Tell us about that.

7 A Our company is mainly focused in on the tourist
8 market, rather than local market. So we selected locations
9 that were in main -- off of main freeways or in main tourist
10 corridors or outside the corridors in the legal limits.

11 Q Did you do research as far as the potential market
12 in Douglas County and Lyon County?

13 A To the extent that I just told you, yes. And I've
14 been in Nevada for 30 years, and I've been to both of them.
15 I'm very familiar with the -- you know, the market overall.

16 Q And do you believe those markets would generate --
17 what type of revenue do you think those markets would
18 generate?

19 A I don't know. Your guess is mine. It depends on
20 the other competition, how many other people are open in the
21 area. I don't know.

22 Q Because we're here on an injunction process, what
23 type of harm do you believe your company, Green Leaf Farms, is
24 suffering if this injunction's not granted?

25 A It's not just our company, it's the harm that it's

1 given to the public, the citizens of Nevada for more choices,
2 more diversification. Our company is harmed in the fact that
3 I have a fiduciary obligation to 9,000 shareholders to try to,
4 you know, create as much value as I possibly can. The value
5 is having an outlet for our product. Right now we don't have
6 an outlet for our product.

7 Q Besides having an outlet for your product, is there
8 anything else?

9 A I think there's building the brand, there's a value
10 to that. There is -- you know, there's a lot of different
11 ways to perceive value.

12 MR. GUTIERREZ: Okay. Pass the witness. Thank you,
13 Your Honor.

14 THE COURT: Mr. Koch. And I'm breaking in 14
15 minutes for lunch.

16 DIRECT EXAMINATION

17 BY MR. KOCH:

18 Q Mr. Bradley, you seem like one of the first
19 witnesses who knows a fair amount about the securities
20 industry. Fair to say you're fairly familiar with securities
21 regulations and how securities markets work?

22 A I've been through 106 audits.

23 Q All right. What's the concept of holding stock in
24 street name?

25 A The concept of holding stock in street name, which

1 means an investor will keep it in the name of their brokerage
2 firm, opposed to keeping in their own name, it's called the
3 Obol list [phonetic].

4 Q And of the 9,000 shareholders that your company
5 currently has, how many of those are in street name?

6 A I'd say about 55 percent. It's called C.D. &
7 Company [phonetic].

8 Q And so if you pulled a shareholder list today
9 approximately 55 percent of the shares -- or your
10 shareholders, I should say, would show up as under the street
11 name; is that right?

12 A Correct.

13 Q And that street name might say something like
14 Merrill Lynch or Charles Schwab, something like that?

15 A Yes.

16 Q And Merrill Lynch isn't the actual owner of that
17 stock, are they?

18 A No, it would be a person.

19 Q What would you do to have to find out the name of
20 the person that actually owns the stock in street name with
21 Merrill Lynch?

22 A It's a big complicated process. It can be done by
23 asking everybody to take their shares and put it back in a
24 certificate form.

25 Q But it would be big and complicated?

1 A It can be complicated, correct.

2 Q With respect to the 5 and 10 percent cutoffs you
3 talked about in securities markets, that's something the SEC
4 imposes?

5 A Yes, it's a SEC and FINRA regulation.

6 Q Do you know why they have those thresholds? What's
7 your understanding?

8 A Disclosure.

9 Q And does a 5 or a 10 percent shareholder in your
10 opinion have more ability to affect the operation of the
11 company?

12 A Not in our case.

13 Q In general?

14 A No.

15 Q What about a let's say 51 percent shareholder,
16 right, would have a lot more influence than a 1 percent
17 shareholder; right?

18 A The 51 percent shareholder could replace the board
19 and take control of the company.

20 Q And so the more -- obviously, the more percentage of
21 share ownership you have the more likely you have to have some
22 influence on the direction of the company; is that right?

23 A In theory. But it's no in our case.

24 Q Okay. You did say that you agree the 5 percent
25 threshold that was put in place here, you believe that that

1 was a reasonable threshold of ownership?

2 A Yes.

3 Q Okay. One of the statements that you've made
4 related to the Argentinean Government is that you're
5 partnering with them; is that right?

6 A We are their operator, and we are helping them build
7 an industry in Argentina.

8 Q What does that mean exactly? What's your financial
9 relationship with them?

10 A Our financial relationship is they provided the
11 land, we're providing the operations, and we share a piece of
12 the net profit.

13 Q So you each -- each of you -- your company and the
14 Argentinean Government split profits or have some profit
15 split; right?

16 A Yes. And it's very early stage in this
17 relationship, so there is no profit yet.

18 Q And the Argentinean Government, then, they have what
19 would amount to an equity interest in the company?

20 A No, they have no equity interest in us.

21 Q The profit split is just assignment of profits?

22 A It's in lieu of taxes. They would like to -- they
23 would like us to be successful, and they're willing to share
24 profits. Instead of taxing us in the front end, they're
25 willing to -- they want to participate on the back end.

1 Q Does the Argentinean Government own any shares of
2 your company?

3 A Not that I know of.

4 Q Do you know if a background check has been performed
5 on the Argentinean Government with respect to its partnership
6 with your company?

7 A No, not that I know of. I haven't done one. And
8 it's not a partnership.

9 Q Okay. It's a financial arrangement you have with
10 Argentina to split profits. Is that how you describe it?

11 A We're a contractor for them.

12 Q Okay. Could you perform a background check on the
13 Argentinean Government?

14 A The people that we're doing business with, the
15 particular province, I think that's already been done. Its
16 very -- it's a whole political environment, and anything that
17 would be negative we would already know about.

18 Q Because you would have looked into that, done your
19 due diligence on that?

20 A We've done our due diligence. We made sure we
21 weren't walking into something we didn't think was a good
22 opportunity.

23 Q Of the 9,000 shareholders that's -- you're saying
24 the number, 55 percent of the 9,000 are held in street name is
25 that right?

1 A Approximately.

2 Q Okay. Do you know of the 9,000 shareholders how
3 many of those have had background checks conducted by the
4 Department of Taxation in Nevada?

5 A I don't think any of them have. I do want to
6 clarify. We have to be notified by law by the brokerage firms
7 of fiduciaries if someone has more than 4.9 percent. They
8 have to file -- they have to file what's called a form -- I
9 think it's called a G-12 or something. I'm not -- I can't
10 remember the exact name.

11 Q I think you're right.

12 A But they have to file a form.

13 Q Right.

14 A So if someone files a form, we're notified. But the
15 answer is we have not been notified by anyone that owns more
16 than 4.9 percent.

17 Q And of the owners -- shareholders that own less than
18 -- 4.9 percent or less, are you aware of any background checks
19 that have been conducted by the Department of Taxation for
20 those shareholders?

21 A I'm not aware of the Department of Taxation doing
22 the background check on anybody.

23 Q Have they done a background check on you?

24 A I don't know.

25 Q Have you given fingerprints?

1 A Yes.

2 Q What did you think those fingerprints were going to
3 be used for?

4 A To see if I had a criminal background.

5 Q What about those other shareholders you talked
6 about? Have they given fingerprints to the Department?

7 A I suppose if the Department -- I don't know anything
8 in the rules and regulations saying that someone that doesn't
9 have an agent card and is not a direct owner of the company
10 even needs fingerprints.

11 Q Because an agent card would mean you're working in
12 the business; right?

13 A Yeah, you're walking in the facility.

14 Q And an agent, even if they have let's say .1 percent
15 ownership, they need to have a background check; right?

16 A If they're working in the facility, yes.

17 Q Right. All right. Do you think you could have
18 background checks performed on every shareholder of your
19 company every time a share changes hands?

20 A I think it's an impossibility.

21 Q All right. Last question. What place did your
22 company come in with the rankings in the County and in Las
23 Vegas? Do you know?

24 A I don't remember the exact ranking. I do remember
25 our scores range from 139 to 149.

1 Q All right. And the scores that received licenses,
2 the bottom cutoff in the City of Las Vegas and the County were
3 approximately 210?

4 A The ones that got --

5 Q Right.

6 A I don't know.

7 Q Sound right that Green Leaf was eighty-third in the
8 County, eighty-first in Las Vegas?

9 A I have no idea.

10 MR. KOCH: No further questions.

11 THE COURT: Anyone else on the defendants,
12 defendants intervention?

13 MR. SHEVORSKI: No, Your Honor.

14 THE COURT: Plaintiffs?

15 MR. BULT: No, Your Honor.

16 THE COURT: Thank you, sir. We appreciate your
17 time. Have a nice afternoon. Does that conclude my witnesses
18 for the day?

19 MR. GUTIERREZ: Yes, Your Honor.

20 THE COURT: All right. So here's what I have a
21 concern about.

22 Thank you, sir.

23 THE WITNESS: You're welcome. Thank you.

24 THE COURT: I am concerned about waiting for Mr.
25 Gentile's rebuttal witness until August.

1 So, Mr. Gentile, tell me what you think your
2 proffered expert might add to the information I have heard as
3 part of these proceedings.

4 MR. GENTILE: Well, my expert is going to focus on
5 valuation, because that has been beat around with regard to
6 the question of irreparable harm. And I will tell the Court
7 -- and I do not mean to presuppose how this Court will rule,
8 but I suppose multiple ways, one of which would be to issue
9 the preliminary injunction. And if you do that, you're going
10 to be asked to set a bond. And the method of evaluating a
11 cannabis business is going to be -- in addition to where it is
12 now with regard to the issue of irreparable harm, is going to
13 be before you. And so my expert will testify in the following
14 specific -- well, general areas. Let me put it that way.

15 Approaches and methods to the evaluation of a
16 cannabis business; the evaluation of a startup and pre-revenue
17 cannabis business, which these all are because none of them
18 have opened; how to interpret a valuation report; and unique
19 issues with regard to evaluating a cannabis business such as
20 the Controlled Substances Act, the federal legislation;
21 Section 280(e) of the Internal Revenue Regs; the banking
22 situation and how that impacts the valuation; and the impact
23 that's being made on the industry as a whole because of
24 California and the increase in production in what it is for
25 the most part -- and I know we're focusing on Nevada -- a

1 market that is pretty much a fixed market.

2 THE COURT: Okay. So you said you had gotten some
3 dates. Tell me what those dates are.

4 MR. GENTILE: August 1st. I don't know if you're
5 available that day.

6 THE COURT: I am, because Mr. Koch's partner vacated
7 his preliminary injunction hearing witness that day.

8 MR. GENTILE: All right. Well, he's available
9 August 1st.

10 THE COURT: So is everyone else available on --
11 Mr. Kahn said he was not --

12 MR. KAHN: Yeah, I was out till August 5th, Your
13 Honor. I'm sorry.

14 MR. KOCH: On that issue, though, I would offer --
15 it sounds like what he's talking about sort of relates to the
16 calculation of a bond and not the actual determination of
17 whether an injunction is appropriate.

18 THE COURT: So if everyone is willing to stipulate
19 to do the bond hearing separately after I make a determination
20 on the injunctive relief portion, I would be happy to hear the
21 witness after I issue the decision, and then we wouldn't be in
22 this situation, I'd only be looking for a date to do closing
23 arguments.

24 MR. GENTILE: Well, let me give you some additional
25 dates that he's available.

1 THE COURT: Hold on. I'm trying to get --

2 MR. GENTILE: Okay.

3 THE COURT: -- a stipulation first. I have no
4 stipulation of such. I was waiting for somebody to say so
5 stipulate, got none of it.

6 MR. KEMP: Yeah, Judge. We think that would be a
7 good idea. We'd stipulate to that.

8 THE COURT: Yeah, but you're on the same side as Mr.
9 Gentile. So I was looking on the other side of the room.

10 MR. KEMP: Oh. Well --

11 MR. GUTIERREZ: And, Your Honor, we were operating
12 under that premise that we thought any testimony on the bond
13 would be done after. So we would stipulate, as well.

14 THE COURT: So I've got one stipulation.

15 MR. HONE: Stipulate.

16 MS. SHELL: Stipulate, Your Honor.

17 THE COURT: All right. So the defendants and
18 defendants in intervention have stipulated that what you are
19 describing is a bond issue that could be handled after I make
20 a determination.

21 MR. GENTILE: I think it's both. That's my concern.
22 My concern is with regard to irreparable harm, but --

23 THE COURT: I don't think it's an irreparable harm
24 issue, Mr. Gentile. I have heard sufficient testimony related
25 to the limited availability of marketable licenses in the

1 industry from the witnesses we've heard from. I understand
2 how limited that marketability is. There may be a value issue
3 imposed upon that impacts the bond, but I don't think it goes
4 to the irreparable harm as much as maybe others do.

5 MR. GENTILE: Well, rule number one prevails. But
6 what I would suggest, then, is that we at least look at these
7 other dates so that you can --

8 THE COURT: Well, hold on. First I want to set
9 closing arguments. When can I do closings, tomorrow? How do
10 you guys feel about tomorrow? Tomorrow's a great day.

11 MR. GENTILE: Judge, please.

12 THE COURT: Mr. Gentile said no. Okay. So tomorrow
13 doesn't work for you.

14 MR. KOCH: Next week?

15 MR. GENTILE: Your Honor --

16 THE COURT: How about next week?

17 MR. GENTILE: Well, that's my concern. I have
18 cancelled two trips this summer.

19 THE COURT: I'm sorry.

20 MR. GENTILE: But I did it without -- but this is
21 it. I can't cancel it any further. I can -- if we do it next
22 Friday, I can make it.

23 THE COURT: That'd be July 26.

24 MS. SHELL: I'm out of the jurisdiction on Friday,
25 Your Honor.

1 MR. BULT: So am I, Your Honor.
2 THE COURT: So what about tomorrow?
3 MR. PARKER: I can't do tomorrow.
4 MR. GENTILE: I'm leaving tomorrow.
5 THE COURT: Oh. You're leaving tomorrow?
6 MR. GENTILE: Yeah.
7 THE COURT: When do you get back?
8 MR. GENTILE: I will probably get back Wednesday
9 night.
10 THE COURT: What about Thursday?
11 MR. GENTILE: I suppose I could do it Thursday.
12 MR. BULT: Thursday the 25th is -- I'm out.
13 MR. KOCH: We're here on Monday for the summary
14 judgment hearing. Would you guys like to come --
15 THE COURT: Not everyone's here, I guess. Mr.
16 Gentile's going to be out of the jurisdiction.
17 MR. KOCH: Oh. You're out, Dominic.
18 MR. GENTILE: I take it "we" excluded me? That's
19 the second time in a couple of days. So it's not a problem.
20 THE COURT: Okay, guys. So it sounds like you don't
21 have the issues -- when's your expert available after August
22 1st? I can't give you any dates after --
23 MR. GENTILE: 7th?
24 THE COURT: Yeah, I can't help you.
25 MR. GENTILE: 7th, 9th, and 12th.

1 THE COURT: Can't help you. Got a new stack
2 starting the 2nd, on August 2. that's the only flexibility I
3 have. The other possibility will start after the calendar
4 calls on July 30th.

5 MR. GENTILE: Well, then August 1st if he's
6 available.

7 THE COURT: But I've got issues of other people not
8 being available. Okay. I guess I'll see you guys on Monday
9 to argue the motions. I don't have any other availability. I
10 can guarantee --

11 MR. GENTILE: Mr. Saverese is going to argue the
12 motions on behalf of our client.

13 THE COURT: That's fine. But I do not have time --
14 if I have an issue with availability among you all through
15 August 2nd, I can't give you a date until after my calendar
16 calls on July 30th.

17 MR. KOCH: Can we get, like we did last time, maybe
18 just available dates from the Court and we can by email
19 converse --

20 THE COURT: You all can get all the available dates
21 you want.

22 MR. KOCH: -- and try to get that --

23 MR. KAHN: Your Honor, we were approached by Mr.
24 Rulis to move the motion hearing on Monday due to a scheduling
25 issue. I don't know if you have availability on Tuesday

1 afternoon. I think that's when Mr. Rulis said he could be
2 available. We would be available. Otherwise I'm going to
3 have problems.

4 THE COURT: If you can confine your arguments to an
5 hour or less, I can have you come on the 23rd at 1:00 o'clock,
6 but I have mental health court that starts at 2:00, and they
7 usually try and set up at 1:45.

8 MR. GRAF: I'm available on Tuesday, Your Honor.

9 THE COURT: Can you do the argument in a half hour,
10 guys, half hour, 40 minutes?

11 MR. GENTILE: Is this summary judgment, not closing
12 argument?

13 THE COURT: No.

14 MR. KOCH: Right. Summary judgments.

15 MR. GENTILE: Okay.

16 THE COURT: The motion. Everybody okay moving the
17 motion to 1:00 o'clock on Tuesday, understanding you've got to
18 be done by 1:45 so the jail can bring the inmates for Mental
19 Health Court. Great. See you then.

20 MR. CRISTALLI: Your Honor, one issue is that there
21 is a motion to dissolve the bond that we previously addressed.
22 I think it's scheduled right now for August 15th in chambers.
23 I don't know if Your Honor wants to address that at the time
24 of our motion hearing or whether or not --

25 THE COURT: No. If Mr. Graf wants it heard in open

1 court, he'll ask.

2 MR. GRAF: We're going to file an opposition, Your
3 Honor.

4 THE COURT: Mr. Gutierrez, you need to give Dulce a
5 copy of the declaration or affidavit that you wanted to use
6 when I sustained the objection so she has it for purposes of
7 the record. Anything else? Bye.

8 (Court recessed at 11:47 a.m., until
9 a date and time to be determined)

10 THE COURT: Sir, there's water in the pitchers.
11 There's M&M's in the dispenser, and there's a ton of binders.
12 If someone refers you to the statute it's in the back of that
13 book right there. Good luck.

14 MR. GUTIERREZ: Thank you, Your Honor.

15 DIRECT EXAMINATION

16 BY MR. GUTIERREZ:

17 Q Good afternoon, Mr. Scolari. Can you tell us what
18 your current position is.

19 A General Counsel for Tryke Companies.

20 Q And how long have you been with Tryke?

21 A About four and a half years.

22 Q Since 2015?

23 A Yeah, February 2015 is when I started with Tryke.

24 Q And what are your -- the scope of your duties with
25 the company?

1 A I am General Counsel. I do the day-to-day legal
2 counseling of the company, and then I'm in charge of the
3 regulatory and compliance efforts of the company as well as
4 analyzing any markets that the company will move into.

5 Q So as part of --

6 A So a business development piece.

7 Q Is part of understanding the regulatory compliance
8 do you -- are you familiar with the regulations under NAC 453A
9 and D?

10 A Yes.

11 Q Yes? And were you involved with filling out the
12 application for Tryke in the 2018 process?

13 A I was along with certain members of our executive
14 team.

15 Q And who else would be?

16 A We had help from our marketing director, our human
17 resources director, our construction and facilities person,
18 our CEO, maybe a couple others I'm forgetting, but it was a
19 team effort.

20 Q And are you currently part of the NDA?

21 A I am.

22 Q And what are you -- what's your position with the
23 NDA?

24 A I'm a director on the board.

25 Q And how long have you been with the NDA?

1 A About two years.

2 Q Two years?

3 A Uh-huh.

4 Q And is the role of the NDA to represent the industry
5 in legislative matters before the Department?

6 A Yes, generally. It has a membership of I think the
7 majority of the industry and it advocates for legislative and
8 regulatory issues on behalf of the industry as a whole.

9 Q Now, how many medical marijuana licenses did Tryke
10 have?

11 A Are you asking how many we have now?

12 Q How many did you have about the time you applied for
13 the recreational license in 2018?

14 A We had six medical licenses prior to the Early Start
15 program operating, six medical licenses operating.

16 Q Were the medical licenses held in different LLC
17 names?

18 A Yes.

19 Q And one of those names like Tryke Companies, Reno
20 LLC, for example, is that one?

21 A Correct.

22 Q So that company held one medical license; is that
23 fair?

24 A Tryke Companies, Reno, in their initial round held
25 four provisional medical licenses. It had two dispensaries,

1 and it had a cultivation and production license in a 2015
2 allocation.

3 Q And there was also Tryke Companies Southern Nevada
4 LLC; is that correct?

5 A Tryke Companies SONV LLC, yes. It had four
6 licenses, as well. It had two medical dispensaries, a
7 cultivation and a production.

8 Q How much time, can you estimate for us, did you
9 spend on the 2018 application process?

10 A I don't know. Probably -- I'd be guessing. I don't
11 know. I didn't keep track of time. Anyway, it pretty much
12 dominated a couple of months here and there -- that I had
13 other duties, as well, obviously with operations in Arizona.
14 So it was -- it probably dominated half of my days for a
15 couple months.

16 Q You were in charge of filling out the application
17 and also gathering the information?

18 A Yeah, it was -- again, it was a group effort in the
19 company. So it was our executive team put it together.

20 Q When did you start working on the 2018 application?

21 A Well, if you -- we -- prior to the July release we
22 were probably had worked four to five months to secure
23 properties, whether in an LOI or a contingent lease to
24 identify locations that we'd be applying for licenses on. So
25 I would say early 2018 we began.

1 Q How many employees other than yourself did you have
2 dedicated for the process, the application process?

3 A Five.

4 Q Five.

5 A Five or six.

6 Q And Tryke applied for licenses in the City of Las
7 Vegas, North Las Vegas, and Clark County; is that correct?

8 A Yeah, both the Tryke Reno entity and the Tryke SONV
9 entity each applied for three licenses, and it was a mix of
10 jurisdictions in each. But they were all Southern Nevada
11 jurisdictions.

12 Q So Tryke SONV was able to apply for multiple
13 licenses in the same jurisdiction; is that correct?

14 A We applied for -- and the reason we applied for -- I
15 think Tryke SONV applied for two locations in Clark County.
16 We rank those, as the State required, with the understanding
17 that we would only get one in that location.

18 Q What was your understanding as to why you would only
19 get one in that location?

20 A It was based on what the application said.

21 Q Okay. You would follow -- you're following the
22 regulations and the Statute, correct, when you were filling
23 out the applications?

24 A Correct.

25 Q And you were familiar with the regulations?

1 A Correct.

2 Q The regulations in NRS 453D, where did it say that
3 you could only apply for one application per jurisdiction?

4 A Again, we were complying with what the -- I had the
5 understanding from the application itself that we would be
6 only awarded one in a particular jurisdiction. So the State
7 asked us to rank those. So it was my understanding, rank
8 them, because we cannot award them two in one jurisdiction.
9 So that's why we ranked them the way we did.

10 Q My question to you though is in the regulations, NAC
11 453D, where does it say you could only apply for one?

12 A I'm not familiar if it says that.

13 Q It doesn't say that; correct? There's what we call
14 a anti-monopoly provision. You're familiar with that;
15 correct?

16 A Correct.

17 Q And it talks about the percentage of ownership per
18 jurisdiction? You're nodding your head. Is that a yes?

19 A Yes.

20 Q Okay. So you're familiar with that provision, but
21 you don't know of anywhere in the regulations that discusses
22 -- that prevents an applicant from submitting multiple
23 applications in the same jurisdiction?

24 A I don't have it off the top of my head, but, again,
25 it was clear to us that you would not be awarded more than one

1 in a jurisdiction. And essentially in my mind it linked up,
2 because the State asked us to rank our applications by
3 preference.

4 Q But you submitted three in the City of Las Vegas; is
5 that correct? Three applications in the City of Las Vegas?

6 A If I recall, yeah, potentially. I don't have it in
7 front of me and don't know the breakdown.

8 Q You submitted one for Tryke Companies SONV, score of
9 189.33. Do you recall that? Is that a yes?

10 A Generally, yes.

11 Q Okay. Tryke Companies Reno LLC scored a 182. Do
12 you recall that in the City of Las Vegas?

13 A Yes.

14 Q And then Tryke Companies Reno LLC, again, in the
15 City of Las Vegas scored a 181.33. Do you recall that?

16 A Yes.

17 Q Okay. Now, you submitted all three, but you said
18 all three, and you had the understanding even after you paid
19 all the fees that you would only get one?

20 A Tryke Companies SONV could only be granted one.
21 Tryke Companies Reno could be granted one.

22 Q Okay.

23 A So, again, it was separated by company.

24 Q Now, when did you find out that Tryke did not
25 receive any licenses?

1 A I believe it was the morning that the State released
2 the results. Started seeing the rejection letters come
3 through.

4 Q And they came through to you?

5 A Yes.

6 Q Was that on December 5th, 2018?

7 A Yes, I believe it was December 5th, yes.

8 Q Do you recall communicating with other applicants
9 about the results of their licenses on that time?

10 A Yeah, we had some friendly back and forth on that
11 day.

12 Q Do you recall texting my clients, Armen Yemenidjian
13 at Essence and Mitch Britten at Thrive, on that day about the
14 results of their applications?

15 A I remember Mr. Yemenidjian texting me and asking me
16 how we did.

17 Q We can move to admit Proposed Exhibit 5047, which is
18 the text message between Mr. Scolari and Mr. Yemenidjian.

19 THE COURT: Yes. Any objection?

20 MR. SHEVORSKI: No objection.

21 THE COURT: Be admitted.

22 (Plaintiffs' Exhibit 5047 admitted)

23 THE COURT: Sir, it will be on the screen, but if
24 you want the hard copy let us know.

25 THE WITNESS: Thank you.

1 THE COURT: Mr. Hymanson, welcome to our party.

2 MR. HYMANSON: Nice to be here. Judge.

3 THE COURT: Do you need any help?

4 MR. HYMANSON: I think I'm doing all right, but
5 thanks for checking in.

6 BY MR. GUTIERREZ:

7 Q Mr. Scolari, the 5047, and you've been handed it, as
8 well, it's on your screen. Do you have that in front of you?

9 A I do.

10 Q Okay. And this is a text message between you and
11 Armen at Essence; is that fair to say?

12 A Yes.

13 Q Okay. And the right side of this would be Armen's
14 text response to you; is that correct?

15 A Yes.

16 Q And then the left would be your messages to Armen;
17 is that fair?

18 A Yes.

19 Q Okay. So on this text you ask him, right down, it
20 says, "Want to sell us a couple? We have some good sites.
21 I'm serious." So at this stage you were requesting to buy
22 some of the licenses that Essence received; is that fair?

23 A I don't think it's fair. I think it was one moment
24 in time when -- probably found out about 30 minutes before
25 these texts went out that we struck out. So it was some

1 collegial banter with a colleague who I, you know, still
2 consider a friend. I mean, it wasn't -- that never went past
3 that text.

4 Q In a text you say, "City of Las Vegas, NLV, and
5 County." Is that correct? Those are the three jurisdictions
6 you were looking to buy licenses?

7 A Those are the three jurisdictions that we had
8 secured properties for the application.

9 Q The question was, you were looking to buy licenses
10 for those jurisdictions; correct?

11 A I think Armen asked me, would you sell me some
12 sites.

13 Q Okay. So did you have specific locations and
14 licenses that you were looking for?

15 A We had specific locations locked up in the City of
16 Las Vegas, North Las Vegas, and Unincorporated Clark County.

17 Q So you're saying you got those sites already under
18 lease; is that correct?

19 A We had them under a letter of intent or a contingent
20 lease.

21 Q You had an actual signed lease?

22 A Yes.

23 Q Okay. Now, you're saying the conversation with
24 Armen didn't go farther than this; is that correct?

25 A Nope.

1 Q Okay. But you had the ability to buy licenses --
2 under the statute you could buy a license from another
3 individual or entity; correct?

4 A Yeah, I think anyone could buy --

5 Q Okay.

6 A -- willing buyer, willing seller can buy a license
7 at this -- today.

8 Q Move to admit, Your Honor, 5048, which is the next
9 text message with Mr. Scolari --

10 THE COURT: Any objection?

11 MR. SHEVORSKI: No objection.

12 THE COURT: Be admitted

13 (Plaintiffs' Exhibit 5048 admitted)

14 BY MR. GUTIERREZ:

15 Q And, Mr. Scolari, this is a text message between you
16 and Mr. Britten at Thrive; correct?

17 A Yes.

18 Q Okay. Again, you're requesting licenses or asking
19 if he's willing to sell licenses; is that fair to say?

20 A Yeah, I think at that moment in time that was my
21 thought.

22 Q What were you willing to pay for the license at that
23 time?

24 A There was not even a price in my head.

25 Q Have you tried to buy licenses since --

1 A I'm not -- I wouldn't make that decision at Tryke.

2 Q Was Tryke in the market to buy licenses after they
3 found out they were not granted licenses?

4 A Not necessarily. We were just putting the feelers
5 out, and it was all, again, preliminary discussions, and we
6 didn't have all the facts of what had happened or not had
7 happened with the licensing process.

8 Q And you also state in this -- if you look at 3:23
9 p.m., "Did you hire -- did Amanda do your applications? We
10 should have hired someone to focus exclusively on that." Do
11 you see that??

12 A Uh-huh.

13 Q Is that a yes?

14 A Yes.

15 Q You're referring to Amanda Connor?

16 A Yes.

17 Q Okay. And what was the reason you said, we should
18 have hired someone to focus exclusively on that?

19 A Just conversation, again, there wasn't really any --
20 again, we were shock, you know, probably trying to find
21 reasons why we hadn't been successful. Stoking their ego a
22 little bit, but they did it the right way and maybe had the
23 right person doing it. Again, we didn't have the -- didn't
24 have all the facts or the circumstances of -- by that time I
25 hadn't -- I didn't know that 16 companies got the lion's share

1 of all the licenses. So it was just conversation.

2 Q Do you believe that if someone that would have
3 full-time been working on the application may have helped you
4 score higher?

5 A Potentially. I don't know. I don't know. I think
6 we did a very good job on our applications. So potentially.

7 Q Potentially?

8 A Maybe someone who was a little bit closer to the
9 process and had a little bit more insight into what the
10 Division was looking for.

11 Q What does that mean?

12 A What's that?

13 Q What does that mean, more insight to what they're
14 looking for?

15 A Again, I don't -- the reason I'm sitting here and
16 our company's sitting here, we don't think there was an even
17 playing field that occurred here. There's -- so that's --
18 maybe there was other folks that had a little bit more
19 information and insight into what the Department was looking
20 for. That's all it means.

21 Q Right. But we're here -- we've been here for almost
22 two months on a hearing, and is there any evidence you have
23 that there was something that Amanda Connor did wrong?

24 A No.

25 Q You don't have any evidence of that; correct?

1 A I don't have any evidence.

2 Q All right.

3 A I'm just -- all I said was there might have been
4 folks that had -- were a little bit closer to the process than
5 others.

6 Q But you brought a lawsuit -- your company brought a
7 lawsuit against the State of Nevada; correct?

8 A Correct.

9 Q After this process was released? Is that a yes?

10 A Correct.

11 Q And what is the relief specifically your company's
12 looking for from this injunction?

13 A I think from our perspective we would like to -- we
14 don't believe that at the end of the day there was an even
15 playing field -- folks -- and it goes back, it was evident
16 here today. Even folks on our side, it was unclear whether or
17 not a physical address was required or not. And there's
18 plaintiffs that didn't put a physical address. There's
19 defendants that didn't put a physical address. So to me there
20 was a lot of confusion in the process, and it did not create
21 an even playing field, and that's why we're sitting -- that's
22 why Tryke is sitting here today.

23 Q Tryke's position was limited to the physical
24 address; is that fair to say?

25 A No.

1 Q What else is Tryke concerned with about the process?

2 A I don't think the evaluation criteria were broken
3 down in a cohesive and -- in a cohesive manner so you knew
4 exactly what points that you needed to hit. Now that I see
5 the scoring sheets, you know, obviously it was, you know,
6 obviously it was -- but that wasn't communicated at least in
7 the application itself.

8 Q What else, do you have a position on diversity being
9 included?

10 A No, I really don't have a thought on diversity. I
11 mean, our ownership's pretty simple. So, I mean, that is what
12 it is for Tryke. So I don't really have a position on that.

13 Q So you don't believe the Department deviated from
14 the statute and the valuation by including diversity as a
15 criteria for grading?

16 A I don't believe the Division laid out what diversity
17 really meant for the application. I don't really have an
18 opinion whether it -- I think that's for a brighter legal mind
19 than mine whether or not diversity was violating the statute
20 or not.

21 Q But, do you have an opinion, you've been in the
22 industry, you're part of the NDA --

23 A Uh-huh.

24 Q -- as to whether or not diversity is directly and
25 demonstrably related to the operation of a marijuana

1 establishment?

2 A I'm not sure I understand.

3 Q Have you been to any of these proceedings and heard
4 any of the argument set forth by your side?

5 A This is the first time I've been here.

6 Q Okay. Well, one of the arguments being made is that
7 diversity should not have been considered as part of the
8 application, because it's not directly or demonstrably related
9 to the operation of a marijuana establishment.

10 A My understanding was that the direct and
11 demonstrative evidence of -- was your history of operating
12 establishments in the State of Nevada, and that's what we
13 tried to focus on for Tryke, because we've been established
14 since 2015.

15 Q The question is, do you believe diversity should be
16 part of that?

17 A Do I believe it should be part of that?

18 Q Yes.

19 A Again, if that was a criteria that was set out in
20 the law and it was defined as what diversity means then I
21 guess. I don't have an opinion whether that was -- we dealt
22 with it the way we dealt with on the application. I mean,
23 that's --

24 Q It was in the regulations and you dealt with it, you
25 complied with it; correct? Yes?

1 A We answered the diversity question by filling out
2 the owner, officer, board member sheets.

3 Q But what relief are you seeking for -- this is --
4 we're not in a trial, we're here for an injunction. You're
5 asking the Court to stop a certain process. What is the basis
6 for that request?

7 A Again, I'll go back to what I stated earlier. My
8 thought is that there was a lot of confusion on -- and I'm
9 picking on the proposed physical address piece, but that's the
10 one that sticks in my mind. We were under the impression you
11 needed to -- it asked for a proposed physical address. We
12 went out and secured properties, paid money, reservation fees
13 on letter of intents and contingent leases. And I think there
14 was enough confusion there to warrant that this was not a fair
15 process.

16 And the other issue that I -- that jumped out on me
17 was the amount of licenses that each company was given. I
18 don't think anyone in this industry had the impression that
19 certain companies were going to get, you know, a lion's share
20 of the licenses.

21 Q You understood that proposed location -- that the
22 location would be determined after final approval, correct,
23 for license? That was in the regulations?

24 A That wasn't my impression.

25 Q Let's go to NAC 453D.282. Are you familiar with

1 this provision of the regulations?

2 A Yes.

3 Q Okay. And that the marijuana establishment needs to
4 be -- that a license is conditional, do you see that, until
5 certain requirements for approval to begin are satisfied. Do
6 you see that?

7 A Yes.

8 Q And you read these before you did your application;
9 correct?

10 A Yes.

11 Q You read these before you went out and secured
12 property; correct?

13 A Yes. Yes.

14 Q You read these before you signed leases; correct?

15 A Yes.

16 Q So you knew that a marijuana license would be
17 conditional until local governments would approve the
18 location, and there would be then final approval by the State;
19 correct?

20 A Yes.

21 Q Okay.

22 A And, yes, we knew we would have to go get zoning
23 approval for our sites that we were paying money on.

24 Q Now, if my client sold you a license today, would
25 you still be pursuing a lawsuit against the State of Nevada?

1 A If they were to sell us a -- again, that's a
2 hypothetical. I don't make those decisions.

3 Q Hypothetically, if my clients were to sell you a
4 license at Tryke today, would you still be pursuing a lawsuit
5 against the State of Nevada?

6 A That would be a decision for our owners.

7 Q Okay.

8 A I didn't make the decision to file the suit either.

9 Q Specific to an injunction, there's been an
10 injunction against my client Thrive from opening their
11 location at Sahara, 3500 West Sahara under their City license.
12 Are you aware of that?

13 A Yes. Vaguely, yes.

14 Q Okay. Vaguely. But you are aware there's an
15 injunction in place, and there was a bond that was posted in
16 order to prevent Thrive from opening under their City of Las
17 Vegas license. Are you aware of that?

18 A Yes.

19 Q Okay. Explain to me what the harm is to your
20 company, to Tryke, if my client Thrive was able to open
21 tomorrow.

22 A Again, if we all started from what I believe to be
23 an even playing field I would have no problem with Thrive. I
24 still don't have a problem with Thrive. I think they should
25 be able to conduct their business in a fair way. So we --

1 again, the securing of these licenses, I don't believe
2 everyone is on the same playing field.

3 Q I understand that. But I'm saying, what's your harm
4 if Thrive opens tomorrow and starts generating revenue that
5 could be given to the public, tax revenue that would be given
6 to the public, which was the intent of the Ballot Initiative.
7 What's your position as to Thrive as the harm is to your
8 company if they're able to do that?

9 A Again, based on how these licenses were awarded our
10 right to a fair process and to preserve, you know, the market
11 share that we have there was -- in my opinion there was not a
12 fair process to get there. So we've been harmed by a market
13 share that could be threatened without having our fair
14 process.

15 Q What is your future harm if Thrive opens tomorrow?

16 A I don't know how to answer that. I don't know --

17 Q There isn't any; right?

18 A -- I don't even know what their -- I don't know what
19 their location -- we haven't done the analysis if it has
20 enough --

21 Q Don't you think you should have done the analysis
22 before you asked this Court to enter that injunction?

23 A Again, there was a process that we did not believe
24 was fair, and it has had a detrimental impact -- it could have
25 a detrimental impact on our business.

1 Q That wasn't the question I asked. I asked, don't
2 you think you should have done that analysis before coming to
3 this Court and asking the Court to stop Thrive from opening
4 that location?

5 A I don't have an answer for that.

6 Q You realize 27 people are ready to start working,
7 and they cannot work because there's that injunction in place,
8 are you aware of that?

9 A I was not aware of that.

10 Q Okay. Think that's fair?

11 A I don't think the process was fair.

12 Q So do you think that the process is not fair you
13 stop everybody, including Thrive, from opening to the public?

14 A Absolutely, until the industry can figure out what
15 happened and where we go from here.

16 Q But if you were sold a license today --
17 hypothetically, if you were sold a license you'd be fine with
18 the process; correct?

19 A It's not correct. I told you, I don't make those
20 decisions.

21 Q Okay. So if Tryke had a license on December 5th
22 that was sold by Thrive would you still be bringing this
23 lawsuit?

24 A I don't know the answer to that.

25 Q Okay.

1 A It's not my decision to make.

2 Q We talked about diversity, already, as a scoring
3 tool; right? You don't have an opinion that, as well, as to
4 whether or not that was part of the process or should have
5 been considered?

6 A Are you talking from a political standpoint or from
7 whether or not it should be in, I mean, diversity can mean a
8 lot of different things. We answered those questions for our
9 owners and officers and it was analyzed the way it was
10 analyzed. I don't have any more to say on that.

11 Q Right. But NAC453D.272(1)(b) says, "The diversity
12 of the owners, officers, or board members of the proposed
13 marijuana establishment could be considered as part of the
14 application process." You were aware of that; correct?

15 A Correct.

16 Q And when you read these regulations you didn't have
17 an objection to diversity being included; correct?

18 A No.

19 Q Okay. Do you have an objection now?

20 A No.

21 Q Okay. Now I want to go -- one of the considerations
22 the Court's going to have is the harm to the public if an
23 injunction's granted. You are aware that one of the arguments
24 in favor of the passage of Ballot Question 2 was that tax
25 revenue would be generated and given specifically to the

1 school district or the schools; correct?

2 A Correct.

3 Q That's in the statutes, in the Ballot Initiative;

4 correct? Was that a yes?

5 A Correct. Yes.

6 Q Do you want to go back to that or do you take me at

7 my word that that's what it says?

8 A I'll take your word on it.

9 Q Okay. I'm just -- for the record, 453D.020 NRS

10 says, "The people of the State of Nevada find and declare that

11 cultivation and sale of marijuana should be taken from the

12 domain of criminals and be regulated under a controlled

13 system, where businesses will be taxed and the revenue will be

14 dedicated to the public education and the enforcement of the

15 regulations of this chapter." You were aware of that;

16 correct?

17 A Uh-huh.

18 Q It's a yes?

19 A In a general sense, yes.

20 Q Okay. Are you aware that tax revenue's actively

21 being lost because of the injunction that is in place?

22 A I haven't done that math. I don't know to answer

23 yes or no to that question.

24 MR. GUTIERREZ: We move to admit Proposed Exhibit

25 5056, which is supplemental registration.

1 THE COURT: Any objection?

2 MR. GENTILE: Just a moment, Judge.

3 THE COURT: 56?

4 MR. GUTIERREZ: 5056.

5 THE COURT: So we're skipping from 48 to 56?

6 MR. GUTIERREZ: Yeah, we had some proposed ones,
7 Your Honor, that we haven't moved to admit yet.

8 MR. KOCH: 55 was admitted, right?

9 THE COURT: Okay.

10 MR. MILLER: Your Honor, I don't believe we were
11 provided in advance, and I'm just not sure what it is. Could
12 we have a little bit of --

13 THE COURT: It's all right, Mr. Miller. You do not
14 have to stipulate.

15 MR. MILLER: No, it's all right. I just want to
16 have a little bit of foundation as to what this is and --

17 THE COURT: We'll get some foundation for you.

18 MR. MILLER: -- if this is a public document.

19 MR. GUTIERREZ: For the record, Your Honor, this was
20 attached to our opposition to the TRO, which is a -- it's a
21 supplemental registration to the State provided by Thrive in
22 March of this year.

23 THE COURT: So, counsel, I need the foundation laid
24 by the witness.

25 MR. GUTIERREZ: Okay.

1 THE COURT: And if he doesn't know then you'll have
2 to utilize some other person to lay the foundation.

3 MR. GUTIERREZ: Oh. Just ask him about the
4 document, fair enough.

5 BY MR. GUTIERREZ:

6 Q Mr. Scolari, are you required to submit a
7 supplemental registration to the Department of Tax for your
8 companies?

9 A I believe so, yes.

10 Q And tell us what that document is.

11 A Estimates the amount of taxes for the company, for
12 their quarter or for a year.

13 Q And it's a document that you've prepared in the
14 regular course of your business for these establishments;
15 correct?

16 A Yeah, our CFO and the accounting department would do
17 that.

18 Q And you estimate the total monthly receipts that a
19 facility may make; is that correct?

20 A I believe so, yes.

21 Q And you also estimate the total monthly taxable
22 receipts, as well; correct?

23 A I believe so.

24 Q Okay. Your Honor, we just move to admit the
25 supplemental registration by Thrive that was propounded in

1 March, on March 13th of this year.

2 MR. MILLER: Judge, same objection. Lack of
3 foundation.

4 THE COURT: Same, it's overruled. Or the objection
5 is sustained. Sorry. The document's not admitted. he
6 doesn't have any information about your client's supplemental
7 filing.

8 MR. GUTIERREZ: Okay. Understood.

9 BY MR. GUTIERREZ:

10 Q Now, Mr. Scolari, if Thrive were to estimate that
11 their monthly receipts for their location at Sahara would be
12 1.3 -- taxable receipts would be 1.3 million --

13 THE COURT: You can't read from it, Mr. Gutierrez.
14 So look up while you're saying stuff.

15 BY MR. GUTIERREZ:

16 Q Mr. Scolari, if Thrive were to estimate that they
17 would have, hypothetically, \$1 million in receipts from this
18 location -- are you with me on that?

19 A Uh-huh.

20 Q -- \$1 million in receipts from the Sahara location
21 hypothetically, would you agree that would be tax revenue that
22 would be lost if they're not allowed to open?

23 A I don't know the answer to that. That could be
24 1.3 million from a competitor who didn't have a fair shot at
25 the application process.

1 Q Okay. So you think that additional dispensaries are
2 just going to dilute the whole process; is that your position?

3 A It could. I don't know if it's my position, but
4 it's a possibility.

5 Q Then why do you want more licenses?

6 A We want to compete for licenses.

7 Q The question was -- you're saying that additional
8 dispensaries are just going to dilute from the existing
9 businesses. Is that your position?

10 A I don't know. I don't know if that's my position.
11 I said it's a possibility.

12 Q And hypothetically if Thrive were to open and
13 generate \$1 million in taxable receipts, per month, you agree
14 that the public is losing out on that income; correct?

15 A I don't know that. I'm not a financial wizard. I
16 do not know whether or not -- where those revenues would come
17 from.

18 Q Okay. Let's hypothetically say that Thrive were to
19 generate even \$500,000 for taxable revenue for the State,
20 okay. How is that -- how is that harm that the public is
21 incurring from lack of revenue, how is that more important or
22 less important than the harm that you're claiming your client
23 is incurring?

24 A Again, if it was new revenue, I don't think there
25 would be a difference.

1 MR. GUTIERREZ: Okay. I'll pass the witness, Your
2 Honor. Thank you.

3 THE CLERK: Mr. Gutierrez, your actual document?

4 MR. GUTIERREZ: We didn't admit -- oh. I'll get you
5 a copy.

6 THE COURT: It doesn't matter. You offered it.

7 MR. GUTIERREZ: I'll get you a copy, Your Honor.

8 THE COURT: All right. Anyone else have questions?
9 Mr. Cristalli, you want to give yours to Dulce? Thank you,
10 Mr. Cristalli. That is very kind of you.

11 MR. CRISTALLI: You're welcome, Your Honor.

12 THE COURT: You're saving Mr. Gutierrez extra steps.

13 MR. CRISTALLI: I thought that would help.

14 THE COURT: Was there anyone who wanted to ask Mr.
15 Scolari any additional questions? Mr. Shevorski.

16 MR. SHEVORSKI: The State, Your Honor.

17 DIRECT EXAMINATION

18 BY MR. SHEVORSKI:

19 Q Good afternoon, Mr. Scolari. It's always good to
20 see a Jones Vargas alumni.

21 A Good to see you.

22 Q That was for the Judge.

23 THE COURT: I'm not a Jones Vargas alumni.

24 MR. SHEVORSKI: No, you're not.

25 THE COURT: But Mr. Kemp is.

1 MR. SHEVORSKI: Yes, he is.

2 THE COURT: Sort of.

3 MR. SHEVORSKI: Well, it was Jones, Jones, Close &
4 Brown I think at the time, Your Honor.

5 BY MR. SHEVORSKI:

6 Q Mr. Scolari, good afternoon. My name is Steven
7 Shevorski. I'm with the Attorney General's Office. Do you
8 have an email address bscolari@trykecompanies.com?

9 A Yeah.

10 Q Can you please turn to Exhibit 21. It should be --
11 may I approach, Your Honor.

12 THE COURT: You may.

13 BY MR. SHEVORSKI:

14 Q Try to help you out, but usually it's -- Dulce
15 usually helps me. Dulce, State's 21?

16 THE CLERK: [Inaudible].

17 MR. RULIS: Steve, Just to be clear, you mean 2021?

18 MR. SHEVORSKI: 2021, excuse me.

19 THE CLERK: Here, Mr. Shevorski.

20 MR. SHEVORSKI: Thank you, Dulce.

21 BY MR. SHEVORSKI:

22 Q Could you please turn to -- you're familiar with the
23 term "Bates numbers"; correct?

24 A Uh-huh.

25 THE COURT: Is that yes?

1 THE WITNESS: Yes.

2 BY MR. SHEVORSKI:

3 Q DOT044715. Read that, sir.

4 A Yes.

5 Q Do you see your email address indicated on about the

6 fifth or the sixth from the top?

7 A I do.

8 Q And the date indicated in the far right is April

9 10th, 2018?

10 A Yes.

11 Q Okay. My friend Mr. Gutierrez was asking you a few

12 questions about addresses, and you mentioned that they were --

13 properties were locked up. Do you recall that?

14 A Yes.

15 Q And you've been a lawyer for quite a long time. For

16 a letter of intent -- there are letters of intent that are

17 contracts, and there are letters of intent that are not

18 contracts. Is that familiar to you?

19 A Yes.

20 Q Okay. With respect to the Craig Road property, you

21 had a letter of intent for that property; correct?

22 A I believe so. There were some that had contingent

23 leases, some that had letter of intents, yes.

24 Q You know, with respect to the Craig Road property,

25 you would agree that that letter of intent was not an

1 agreement; correct?

2 A Correct.

3 Q Okay. And Tryke Companies was not bound by that
4 letter of intent?

5 A No, we are not.

6 Q With respect to contingent leases, are you familiar
7 with the distinction between an expressed condition that has
8 to take place before there is an agreement and a condition
9 which may occur subsequent?

10 A Yes.

11 Q Those conditional leases, was there an expressed
12 condition before that lease became a contract?

13 A Yes.

14 MR. SHEVORSKI: Okay. No further questions, Your
15 Honor.

16 THE COURT: Thank you. Anyone else from the
17 defendants, defendants' intervention wish to ask Mr. Scolari
18 any questions? Anyone from -- Mr. Miller.

19 CROSS-EXAMINATION

20 BY MR. MILLER:

21 Q Sir, I believe you indicated that you are familiar
22 with the limitation in the application that suggested that an
23 applicant could not obtain more than one license per
24 jurisdiction; correct?

25 A Yes.

1 Q Do you remember that testimony? Why did you apply
2 for and put in more than one application per jurisdiction?

3 A We did that as a strategy. We figured if we -- we
4 were only allowed one in a jurisdiction we would try to lock
5 up, because we really wanted to get another license or two in
6 Clark County so we went out and searched for properties, and
7 if they fell in the same jurisdiction then we figured we could
8 rank them for the State, and if we were awarded one we'd get
9 one that would be, you know, desirable that we had, you know,
10 we had locked up ready to go. But we had the understanding
11 that we would not get more than one in each jurisdiction.

12 Q Okay. And was that based in part upon your
13 understanding that those specific proposed physical locations
14 might have been evaluated differently through the application
15 process based on those locations?

16 A Absolutely. So what -- and this was my
17 interpretation and I did not seek any clarification with the
18 Department, but my understanding was when the State asked for
19 a proposed physical address we better have some rights to that
20 address. We didn't put TBD, we didn't put P.O. BOX, we went
21 and put actual addresses we had some rights to under those
22 LOIs and contingent leases.

23 From that, when we got to the non-identified portion
24 each of those locations we analyzed specifically for the
25 market around those locations, including whether or not the

1 square footage of those buildings that we had at least on
2 contingencies would be adequate to serve that -- serve the
3 public around it. So we analyzed 21-and-over folks in the
4 areas as well as put together, you know, some general plans
5 that showed the security and everything else that would be a
6 part of that location.

7 Q And in preparation for your testimony today did you
8 review a provision of those applications that references the
9 testimony that you just referred to under building
10 establishment information?

11 A Correct.

12 Q Okay. The Proposed Exhibit 264 that had been
13 previously provided to authorities I'd like to try to admit
14 without objection.

15 THE COURT: Any objection to 264?

16 MR. SHEVORSKI: I'm sorry, Your Honor, one second.

17 MR. MILLER: Excerpt of a --

18 THE COURT: Was it 264?

19 MR. MILLER: Yes.

20 THE COURT: I've got the number right?

21 MR. MILLER: Hope so.

22 THE COURT: Hold on a second, Shane.

23 MR. SHEVORSKI: Oh. That you -- that got the email
24 today?

25 MR. MILLER: I think Friday.

1 MR. SHEVORSKI: Yeah, no problem, Your Honor.

2 THE COURT: Any objection? Be admitted.

3 (Plaintiffs' Exhibit 264 admitted)

4 BY MR. MILLER:

5 Q Mr. Scolari, let's turn to the Bates Stamped -- I
6 believe the Bates Stamped was 536, is that correct, on the
7 first page of that?

8 A Yes.

9 Q Can you communicate what this is, and indicate what
10 it is.

11 A This is answering -- this is answering a non-
12 identified portion where we analyzed -- again, there's three
13 locations on each of our applications so we analyzed the
14 square footage, we put together how many terminals would be
15 needed, the 21-plus adults in the area, adults per square
16 foot. And then we also analyzed kind of what the stores --
17 each store would do from day to day as far as point of sale.

18 Q Okay. So on those three locations some of them have
19 different square footage that you identified; correct?

20 A Correct.

21 Q All right. And you indicated that some of them have
22 additional areas that may have been different based on the
23 proposed locations as you were able to secure; is that right?

24 A Right. So depending on square footage, because, you
25 know, we analyzed how many point of sales we could have in

1 those locations and whether it was adequate to serve the
2 community around it.

3 Q Okay. And why did you include that information as
4 part of the application?

5 A We felt the question was asked up above -- if you
6 scroll up above it's asking, "authorized to engage in the use
7 of marijuana must be included in this tab. So serve the needs
8 of persons who are authorized." So that's why we did the 21-
9 plus analysis around each site.

10 Q And with respect to adequacy of size, you testified
11 that you performed additional analysis to try to be responsive
12 to the application. Can we turn to the next page, 537. Can
13 you tell us what this page generally describes.

14 A This is kind of the backup to the chart that was on
15 the first page. So it analyzes adults per square foot, adults
16 per POS terminal based on the square footage of what we could
17 fit in those proposed sites that we had.

18 Q Okay. So say you made a specific attempt to
19 identify a number of people that might be able to purchase
20 marijuana within the radius of the proposed locations; is that
21 right?

22 A Correct.

23 Q Okay. Let me turn to page 540. What's reflected on
24 this page?

25 A This is a floor plan that -- so for a plus or minus

1 6,000 square foot, which was one of our proposed sites. This
2 is a floor plan that we would -- we were proposing to overlay
3 at that site and put together. It was part of our -- it was
4 part of the general floor plan that was requested as part of
5 the question.

6 Q Okay. And page 541. What's reflected on that page?

7 A This would show the security features of that
8 particular site. And the security camera coverage, we felt
9 that was important to show the State.

10 Q And this square footage and the security plan
11 portion are they different than the other applications that
12 you provided, different than the other locations?

13 A Yeah, because we had locations that were different
14 square footages that we had tied up in the LOIs or contingent
15 leases. So we tried to be specific to those types of square
16 footages or those sizes.

17 Q And if we go to page 542. Can you tell what this
18 floor plan indicates.

19 A This would be the floor plan for one of our sites
20 that was around 4500 square feet. So it was a little bit
21 different analysis than the 6,000 square foot facility.

22 Q Okay. And the next page, 543. Can you tell us what
23 this is.

24 A Yeah, same thing. So another 4500 square foot, a
25 little bit different analysis on cameras and point of sales,

1 et cetera.

2 Q Okay. So you changed and modified the plan based on
3 the specific proposed locations; is that correct?

4 A Correct.

5 Q Okay. And page 545. Can you tell us what -- I'm
6 sorry. Display the entirety of it. Can you see that?

7 A Yes.

8 Q Okay. Can you tell us what this page reflects.

9 A I haven't seen this in a while, but my recollection
10 is that this would show kind of the backup of our financials
11 to roll these locations out. And this talks about the actual
12 hardware and equipment that would be required to equip the
13 different size of facilities we were considering at those
14 locations. And this would tie directly into the budgets that
15 we gave the State and the financial piece.

16 Q Okay. And all of that would have been different
17 based on the proposed locations; is that correct?

18 A Yeah, it would vary on the square footage that we
19 were proposing, because the different sites that we had tied
20 up were different square footages.

21 Q So if you look on this page the point of sale, for
22 example, on Location Number 1 would be different from Location
23 2 and 3, because there is a different square foot that it
24 relates to; correct?

25 A Correct.

1 Q And when you compiled this information did you
2 expect that those applications would be evaluated differently?

3 A I would expect they would, because, again, I go back
4 to the original question. Is the adequacy of size to serve
5 the patrons, I mean, to us the location was very important,
6 because if it wasn't required we should have just all checked
7 the box to say what jurisdiction we want to be in. I don't
8 know why proposed physical address was ever asked. If the
9 intent was not to have a physical address I don't know why
10 they asked about adequacy of size and community impact,
11 because how would you know?

12 Q Can you tell us the amount of approximate resources
13 that you spent preparing these locations to be specific to a
14 proposed location.

15 A Well, I think it was a lot of staff time and then to
16 pay reservation fees on the leases and LOIs, you know, has
17 probably approached, you know, 50 or \$60,000.

18 Q And each of the applications that you submitted that
19 would have been from one applicant it's specific to a location
20 also that added a location fee that you had to pay, right,
21 application fee that you had to pay?

22 A Yes.

23 Q And did you go through that entire process because
24 you expected that this might be evaluated differently and
25 attempt to give yourself a better chance of winning one of

1 those licenses?

2 A Yeah, again, I think we were trying to answer this
3 question specific to locations, and we felt that it was
4 important to show the State that we had sites, we had a plan
5 to move forward and get these up and running in the time frame
6 that, you know, everyone was living under, which was the, you
7 know, operational by 12 months.

8 MR. MILLER: I have nothing further.

9 THE COURT: Anyone else have any questions for Mr.
10 Scolari?

11 MR. SHEVORSKI: Just one real quick, Your Honor.

12 THE COURT: Yes, Mr. Shevorski.

13 REDIRECT EXAMINATION

14 BY MR. SHEVORSKI:

15 THE COURT: So, sir, would it be fair to say you
16 expected each of your applications to be evaluated on an
17 individual basis given the differences in locations you chose?

18 THE WITNESS: Yes.

19 THE COURT: Okay.

20 MR. BULT: Your Honor, do you mind repeating the
21 question you just asked. We didn't hear you.

22 THE COURT: Why?

23 MR. BULT: We didn't hear you.

24 THE COURT: Why didn't you hear me?

25 MR. BULT: I've got it. Sorry.

1 THE COURT: I asked if he thought each of his
2 applications would be evaluated on an individual basis because
3 he went to the trouble of having an individual location and
4 plan for each one.

5 MR. BULT: Thank you, Your Honor.

6 THE COURT: It's all I asked. And he said, yes.
7 And it wasn't a leading question, but, you know --

8 MR. SHEVORSKI: May I approach, Your Honor.

9 THE COURT: You may. What's the proposed exhibit
10 number?

11 MR. SHEVORSKI: 2023, Your Honor.

12 THE COURT: Thank you.

13 MR. SHEVORSKI: It's actually --

14 THE COURT: Any objection, Mr. Miller?

15 MR. MILLER: No objection.

16 THE COURT: Be admitted.

17 (Defendants' Exhibit 2023 admitted)

18 BY MR. SHEVORSKI:

19 Q Mr. Scolari, you've just been handed Exhibit 2023.
20 Do you recognize that document?

21 A I do.

22 Q And if you look at -- is this concerning the Craig
23 Road property the we were talking about before?

24 A Yes.

25 Q Is this the letter of -- for the Craig Road property

1 the letter of intent that you were referring to?

2 A Yes.

3 Q If you look at Bates Number DOTTRYKERENO, I'll just

4 short it, 28. Can you look at that page, sir.

5 A Yes.

6 Q It says, "This proposal is not intended to ask and

7 does not constitute a binding agreement by any party, nor an

8 agreement by any party to enter into a binding agreement but

9 is merely intended to specify some of the proposed terms and

10 conditions of the transaction contemplated herein." Did I

11 read that correctly?

12 A Uh-huh. Yes.

13 MR. SHEVORSKI: No further questions, Your Honor.

14 THE COURT: Anybody else. Any more questions for

15 Mr. Scolari? Thank you, sir. Have a nice day. Next witness.

16 MR. GUTIERREZ: Your Honor, we would call Frank

17 Hawkins.

18 THE COURT: Mr. Hawkins, if you'd come on up. I

19 know you've been here almost every day. So now you get to

20 switch to a different chair.

21 FRANK HAWKINS A PLAINTIFF HEREIN, SWORN

22 THE CLERK: Please be seated. Please state and

23 spell your name for the record.

24 THE WITNESS: Frank Hawkins, F-R-A-N-K

25 H-A-W-K-I-N-S.

1 THE COURT: Thank you, Mr. Hawkins. You've been
2 here a long time, but you've heard me tell people about the
3 water in the pitcher and the M&M's in the dispensers and the
4 exhibits. If you need anything you let us know. Mr.
5 Gutierrez, you're up.

6 MR. GUTIERREZ: Thank you, Your Honor.

7 DIRECT EXAMINATION

8 BY MR. GUTIERREZ:

9 Q Good afternoon, Mr. Hawkins.

10 A Good afternoon.

11 Q Mr. Hawkins, can you just tell us the relief that
12 you're seeking in this litigation.

13 A We're asking the Judge to continue to grant TRO. At
14 the end of the day we're hoping that the process is thrown out
15 and that the process has to be redone.

16 Q You're saying keep the TRO in place, throw the
17 process out and then redo it all; correct?

18 A That's correct.

19 Q Okay. And you want to keep a TRO in place to --

20 A Well --

21 Q -- go ahead. I'm sorry. Go ahead.

22 A Basically the process has flaws. It's clear that
23 the process was manipulated and that people were manipulated,
24 and I'll just use the simple word that people cheated, and
25 therefore the awards shouldn't be able to stand and whatever

1 course the Judge takes that's what should happen.

2 Q You're saying people cheated?

3 A Well, I deem it to be cheated.

4 Q I'm sorry?

5 A Yes.

6 Q Who cheated?

7 A Whoever manipulated the process to change the
8 locations. Whoever manipulated the process to convince the
9 Deputy Director to make the changes he did to the location, I
10 mean, I've been sitting here listening. Whoever decided not
11 to follow the law, whomever all of those people were they
12 elected not to follow the law, therefore, they cheated.

13 Q You mentioned proposed location as one of them.
14 What else?

15 A First of all, I think they should have had public
16 hearings like they did in 2014. It started out a closed
17 system without people having information. We sit here, we
18 heard them talk about training the trainers. Well, obviously
19 from what we heard of the Taxation people he elected not to --
20 or did not know how to train the folks who were going to
21 evaluate the scores. I really found it interesting that when
22 we talk about the three modules that the State of Nevada used
23 to train, none of those dealt with scoring. And as we talked
24 about scoring that training was all verbal. Doesn't make
25 sense to me.

1 THE COURT: And that was sarcasm?

2 THE WITNESS: Sarcasm?

3 THE COURT: Yeah.

4 THE WITNESS: Oh. I'm sorry.

5 THE COURT: Just trying to make sure, because
6 sometimes sarcasm doesn't come clear on the printed word.
7 It's okay, I get in trouble for that all the time.

8 BY MR. GUTIERREZ:

9 Q Mr. Hawkins, you mentioned lack of public hearings?

10 A Sure.

11 Q Lack of public hearings for what, adopting the
12 regulations?

13 A No. Prior to the applications coming out, 2014,
14 there were hearings. Other states have hearings. In 2018
15 even though it was only available to those folks who currently
16 had an MMJ license there was no discussion.

17 Q With respect to the regulations that were adopted
18 under NAC 453D what are your objections, and what's your
19 position on anything the State did wrong with that?

20 A Well, I don't think the State followed that. I
21 think that's been clearly stated, as well, from the witnesses
22 that came here.

23 Q When you initially brought this lawsuit that wasn't
24 your complaint though; correct?

25 A No. My complaint was the fact that we submitted an

1 application to best of our ability based on the information
2 that we had. When the scores came out -- we received our
3 scores at the end of the day. I sent emails to the State
4 saying I would like clarification. There are inconsistencies
5 that I believe based on my score. I would like to have time
6 to sit down and go through the application. The answer was we
7 don't do that.

8 Q Okay. Go ahead.

9 A If I may. I sent four or five emails, and they say
10 you will ultimately have a hearing date after 30 or 40 days.
11 I then called my attorney and said, I have a concern because I
12 believe that if we don't do something we might lose our PO
13 rights, asked the State, they would not answer. Finally they
14 gave us a date.

15 We went to the State meeting at the State building,
16 they had a piece of paper there, and they said this all you
17 can do. You can look at the score, you can't take a picture,
18 you can't make a copy, you can't do anything. Subsequently I
19 found out through here and reading, following, tracking, that
20 they were also supposed to make the applications available,
21 which they never did for that meeting.

22 And Ms. Cronkhite said to me in that hearing, number
23 one, that diversity -- and I know in my head, but I want to
24 lay it out -- that diversity was never supposed to be a part
25 of the application. It was supposed to be used as a tie

1 breaker. Now, I don't even know what role diversity played,
2 because I hadn't been here and only saw what score we
3 received.

4 And then she told me in the meeting that she trained
5 all the trainers. I said, well, I had heard that Manpower was
6 selected; oh, we can't talk about that. So that was the end
7 of that. But no resolution from that meeting, no going
8 through our application, simply 30 minutes to write down what
9 was on that one single page.

10 Q You mentioned diversity. One of your initial
11 complaints was that you believe diversity should have been
12 scored and it wasn't. Is that your complaint as you sit here
13 today?

14 A That's what I thought. No, my complaint isn't that
15 today.

16 Q Okay.

17 A It's that today we all know it was manipulated from
18 every kind of way possible. And based on what happened --
19 based on what we know, there should not have been any
20 diversity because of the manipulation of the process.

21 Q Is it your position today as you sit here that
22 diversity should not have been included in the application
23 process as a criteria?

24 A My opinion today, Frank Hawkins's opinion is, based
25 on what I've learned in this court over the past three months

1 or however long it's been, that diversity was used,
2 manipulated as a tool to allow those people who didn't have
3 diversity to garner points through their employees who they
4 called officers, through putting people on the board that for
5 whatever reason -- but obviously certain people knew more
6 information than others. So I don't have to worry about
7 diversity, because what they were talking about is part of me,
8 okay?

9 Q I understand. Let me --

10 A Okay.

11 Q Let me -- answer --

12 A Sure.

13 Q -- the question I'm asking. You understood
14 diversity was added from AB 422 to the medical application
15 process, right, and to the NRS 453A. You understood that;
16 correct?

17 A My understanding of that was that they wanted more
18 owners, O-W-N-E-R-S, in the marijuana business, not board
19 members, not employees who are officers, owners. That's my
20 understanding.

21 Q Mr. Hawkins, I understand you've been here since day
22 one. I've seen you here every day.

23 A Yes.

24 Q Other than my client, I think you're the only two
25 that have been here every day. Can you recall back -- let's

1 go all the way back to Day 1 when John Ritter testified, and
2 he said, I don't believe diversity should be included as a
3 criteria because it's not directly or demonstrably related to
4 the operation of a marijuana establishment. You heard him
5 when he said that; right?

6 A I heard him.

7 Q And do you agree or disagree with him?

8 A He's entitled to his opinion.

9 Q So do you agree or do you disagree with him?

10 A No, I don't disagree or agree. He's entitled to his
11 opinion.

12 Q What's your opinion as to whether diversity should
13 be included?

14 A My opinion is that 422 was going to include and
15 ensure there were more ethnic minority owners in the marijuana
16 industry. That was my understanding of what 422 and Tick
17 Segerblom and the other legislators said that their intent was
18 to do, diversify the industry, not diversify the industry with
19 public companies, and I don't have a problem with that, but
20 diversify the industry with ethnic minority people.

21 Q But using diversity as a scoring tool as part of the
22 application, do you have a problem with that?

23 A No, I don't have a problem. I think it was misused
24 in this process.

25 Q When you say misused do you think it should have

1 been scored higher or lower or what's your position?

2 A No, I don't think they should have let the people
3 who manipulated the process manipulate it.

4 Q Specifically, who are you talking about?

5 A Whoever got 16 and 20 points and didn't have ethnic
6 minority people as owners.

7 Q You got a 20 out of 20, is that correct, your
8 company?

9 A No.

10 Q On diversity?

11 A No.

12 Q What did you get?

13 A Well, we got -- we ended up with 20 because of the
14 percentage.

15 Q What was your score on diversity?

16 A It ended up at 20.

17 Q Okay.

18 A But if you look at the scoring. I think they scored
19 it 1 percentage off. So it was technically 19, but, yes, 20
20 for the purposes of the points, because we had one white
21 veteran on our board. So he didn't count.

22 Q Did you ever go to any of the meetings for AB 422?
23 Did you ever testify in front of legislature for that?

24 A I called in.

25 Q And did you give testimony in support of adding

1 diversity to AB 422?

2 A Yes.

3 Q Okay. You also remember Paul Seymour, remember the
4 expert that came in from Colorado on Day 1?

5 A Yes.

6 Q He said diversity shouldn't be considered. Do you
7 disagree or agree with him?

8 A No, I disagree with him. If the legislature approved
9 it I'm for it. If I may add, if you're okay. What the
10 legislature's intention was is not what came out in the
11 reality.

12 Q Mr. Hawkins, one of your initial complaints in your
13 complaint was that you scored really well in 2014; is that
14 correct?

15 A Correct.

16 Q And that you felt because you scored well in '14 --
17 the process hadn't changed much from '14 to '18, so you
18 thought you should have scored well in '18 because you had the
19 additional criteria of diversity; is that fair to say?

20 A No.

21 Q Does that sum up what your complaint said? We could
22 read from it, if you want.

23 A Go ahead.

24 Q Okay. This is your complaint, page 4, through
25 paragraph 12. You say, "Plaintiff received a score of -- at

1 that time --" we're talking about 2014 -- or the 2015 process
2 "-- Plaintiff received a score of 198.62. It was ranked as
3 the highest applicant for the medical marijuana dispensary in
4 Las Vegas, Nevada, and received a score of 193.62." Is that
5 true?

6 A Yeah.

7 Q "And was ranked the 7th highest applicant for the
8 medical marijuana dispensary in the City of Henderson" Is
9 that true?

10 A Yes.

11 Q You also say, "The factors used for 2015 rankings
12 were substantially similar to the factors to be used by the
13 Department for the 2018 rankings for the allocated licenses."
14 Is that true?

15 A I believe so.

16 Q Okay. "The only difference," you say in paragraph
17 14, "between the factors assessed for the 2015 rankings and
18 the 2018 rankings was the addition of diversity of race,
19 ethnicity, or gender of applicants, owners, officers, or board
20 members to the existing merit criteria." Is that true?

21 A Yes.

22 Q So you're saying everything was similar, however,
23 you add diversity, you should have scored higher; correct?

24 A Yes.

25 Q And you state on paragraph 16, "On or about December

1 5th, 2018, despite its prior exceptional rankings, plaintiff
2 was informed by the Department that all of its applications to
3 operate recreational marijuana retail stores were denied."
4 Correct?

5 A Correct. Yes.

6 Q So what you were saying is you did well in '14.
7 Process is similar; correct?

8 A Correct.

9 Q '18 you send in your application, they add
10 diversity, you should score higher; correct?

11 A Yes.

12 Q But you didn't, so you believe there was something
13 that the Department did wrong; is that fair to say?

14 A That's fair to say.

15 Q Okay.

16 A And I asked the Department would you please meet
17 with me and show me. The Department said, no.

18 Q Who filled out your applications in 2015 process?

19 A I did.

20 Q And you did it yourself?

21 A Yes.

22 Q Who helped you?

23 A Who helped me?

24 Q Anyone help you gather the documents to do all that?

25 A Yeah. Yeah.

1 Q I'm sorry?

2 A Andre, my partner.

3 Q Okay.

4 A And two of our employees.

5 Q And then who helped you with the 2018 process?

6 A I did.

7 Q Okay. And you did everything by gathering the
8 information, putting -- submitting it to the Department;
9 correct?

10 A Yes.

11 Q What did you do to improve on your application from
12 '14 to '18?

13 A Read, as best I could, what they were asking for in
14 2018 and tried to answer the questions.

15 Q Anything else that you did?

16 A No.

17 Q Now, Mr. Hawkins, we're here -- you understand we're
18 here and it's not a trial, this is what they call an
19 injunction hearing; is that --

20 A Sure.

21 Q Okay. You've been here. Now, what's the harm to
22 your company if the 61 conditional license holders are able to
23 open tomorrow and get final approval and open to the public?

24 A The harm to our company. One of my partners decided
25 to come down here from Reno, Luther Mack [phonetic]. He's 80

1 years old. And he was a mentor of mine, and Andre, who has
2 been sitting in here the last couple of weeks, who's our other
3 partner, if we aren't able -- and we're all Nevadans -- to
4 open, and we aren't public, but we have a brand, we've hired
5 people from the community, and we want to be able to compete
6 like everyone else. So if we are not afforded licenses, it
7 negatively affects our ability to grow our business, to grow
8 our brand, to help the community which we give back to. And
9 we want to continue that. And more importantly, we want to
10 have a legacy. Brian Greenspun, a friend of mine, sat out
11 here for a few days. I knew his father, Hank Greenspun.
12 Great guy. But Brian is here because of Hank. That's legacy.
13 In 15 or 20 or 30 years I want my daughter to be sitting out
14 there because of legacy. And if we don't get more licenses,
15 if we can't compete, especially with the public companies,
16 they've got big money, then we may be forced out of business.
17 That's the harm we face.

18 Q Have you attempted to buy a license?

19 A No.

20 Q Why do you say that?

21 A Why would I buy a license?

22 Q It's an option, though; correct?

23 A Not for me. The option was to win licenses in the
24 process.

25 Q Okay. But it's an option for certain people who

1 didn't win licenses. They had the ability legally to buy a
2 license and have that transfer pursuant to the statute;
3 correct?

4 A Well, that's their -- I don't know. I can't speak
5 for them. It's not an option for us.

6 Q Okay. And let's use my client, Thrive, for example.

7 A Go ahead.

8 Q If Thrive's able to open say their Sahara location
9 on their City license, does that affect your existing
10 operations?

11 A You know it does.

12 Q Tell me how.

13 A It's within a mile of my operations.

14 Q So from a competitive standpoint you lose business;
15 fair to say?

16 A Right. Right. I don't know, but I'm willing to
17 compete against him.

18 Q Okay.

19 A But here's my issue with that. I believe he's on
20 300 feet of a church, so he shouldn't be able to open that
21 location.

22 Q Is that your decision, though, or is that the local
23 government's?

24 A That's the local government, and the State's
25 supposed to check it.

1 Q Okay.

2 A I don't know if they have or not, but hopefully they
3 will.

4 Q Well, assuming the local government's approved it
5 and assuming the State's approved it, would you still have an
6 objection?

7 A Sure I do. It's within 300 feet of a church.
8 That's the law.

9 Q You understand the law. You know when that church
10 came into play?

11 A No. The same time as the church in 2014 that
12 they're right next door to. The same as the one on West
13 Cheyenne that there's not only a gym, but gymnastics and
14 everything else within 300 feet.

15 Q Okay.

16 A The State's not doing nothing about that, either.
17 Neither did the local jurisdiction.

18 Q Did you appear at the local City Council meeting in
19 May when they were getting approval from the City?

20 A Not my job.

21 Q Okay. You're right, it's not your job. It's the
22 job of the City; correct?

23 A That's correct.

24 Q And if the City approved it, then you have no
25 objection; correct?

1 A That doesn't mean it's right.

2 Q Okay. And if the State approved it, then you have

3 no objection?

4 A Doesn't mean it's right.

5 Q Okay. Well, let's get back to the initial question.

6 A Okay, sir.

7 Q The initial question was the harm to your company.

8 A Right.

9 Q And you talked about competitive harm, you talked

10 about you would have no problem competing, but it would be

11 purely financial, though; correct?

12 A No, not financial.

13 Q What other harm --

14 A It's about legacy. It's about hiring new people.

15 We get four new locations, we got 29 employees. Somebody

16 talked about they have 25. We got 29 employees. That allows

17 the people that we've trained to now become managers who are

18 ethnic minorities. If that doesn't happen, then they might be

19 stagnant.

20 Q Have you hired those employees yet?

21 A They work for me now. They'll be promoted up.

22 Q I'm talking -- okay. But for those locations that

23 you don't have yet, have you hired employees for those --

24 A No. We trained our current employees to be able to

25 move to new locations.

1 Q What about the current employees from Thrive, the 27
2 people that were ready to start work on May 15th before this
3 injunction was issued? What about them?

4 A What about them? I didn't tell Thrive to go close
5 their location on Commerce. They closed that on their own.

6 Q They have a new license from the City of Las Vegas
7 that they were awarded that they have ready to open for the
8 Sahara property on 3500 West Sahara. You understand that;
9 correct?

10 A No. Is that -- okay, let me ask you a question. Is
11 that the new license, or is that the transfer license?

12 Q It's a new license.

13 A Oh. I called the City the other day and the City
14 seems to think that's a transfer from Commerce to Sahara.

15 Q The injunction's very clear that Thrive cannot open
16 under their new City license at that location. Are you aware
17 of that?

18 A Yes.

19 Q Okay. Now, if they had 27 people that are ready to
20 open at that location, they still have Commerce, they still
21 have Cheyenne, those people are out of a job; correct?

22 A Well, I don't think they should be able to open
23 3500, not only because of this case, but because it's from
24 300 feet of a church.

25 Q Okay. But you said that's the City and the State's

1 decision; correct?

2 A Or maybe they'll go look today after this meeting.

3 Q Okay. We've been here for two months, and I still
4 don't understand what's the harm to your company if these
5 licenses are allowed to open. You can still challenge the
6 process out of trial. What's the harm to your company?

7 A No, you can't. How are you going to do that and
8 they're doing business.

9 Q So fair to say stop them from doing business, stop
10 the public from getting much-needed tax revenue so that you
11 have a chance to get a license? Is that fair?

12 A So we sent on the revenue. The State is getting
13 revenue from the current operations that are open. If there
14 had been no licenses issued, no businesses open, there's no
15 loss of revenue. There's loss of what you make off projected
16 revenue, but that ain't real revenue.

17 Q But that's the reason in the ballot initiative that
18 Question 2 was passed; correct? That was how it was sold to
19 the public; correct?

20 A Well, I don't know about what they were trying to do
21 about the ballot initiative, because obviously what they
22 thought and what happened and obviously didn't happen -- well,
23 we all wouldn't be here.

24 Q But you understand the ballot initiative of the
25 statute says that marijuana was passed to generate tax revenue

1 for the school system; correct?

2 A Sure.

3 Q You understand that?

4 A Yes.

5 Q You understand there's a lawsuit going down a few
6 courtrooms down where there's an injunction to prevent the
7 deans' positions from all the schools from being eliminated?
8 Are you aware of that?

9 A No.

10 Q Are you aware of the budget shortfall that the Clark
11 County School District is facing?

12 A No.

13 Q Okay. Does it matter? It should matter in this
14 case, though; right?

15 A It shouldn't matter in this case, because has the
16 Department of Taxation given the money prior years to the
17 District, get to any of the Districts? I don't know that
18 answer. And if they haven't, my question would be why not.
19 So why are you going to promise something in the future and
20 you haven't given what you already have? I don't know the
21 answer.

22 Q Right. But the purpose of -- the only reason
23 everyone's here is because the purpose of the ballot
24 initiative was to generate tax revenue for the school system;
25 correct? You can agree on that?

1 A No. No, I don't believe that.

2 MR. GENTILE: Objection. Objection to the form.

3 THE COURT: Sustained

4 MR. GENTILE: Thank you.

5 BY MR. GUTIERREZ:

6 Q Are you aware what the ballot initiative says about

7 taxable revenue for the school, for the public schools?

8 A I'm aware that the State is supposed to give them

9 X amount of percentage of money. But those of us who have

10 some experience with government know that that money could be

11 transferred from one pot to another and the end number never

12 changes.

13 Q Right. But you're aware that's why the initiative

14 was put in place?

15 A No. I think the initiative was put in place because

16 people wanted recreational marijuana, and they pay. They got

17 the money from some other people to sponsor the initiative,

18 period. They didn't give a rat's butt about the School

19 District. Give me a break.

20 Q Right. Let's turn to Ballot Question 2, page 17.

21 THE COURT: Mr. Hawkins, thank you for making me

22 smile today.

23 THE WITNESS: You're welcome, Your Honor.

24 THE COURT: I appreciate it.

25 MR. GUTIERREZ: Actually, Brian, turn to NRS

1 453D.020.

2 BY MR. GUTIERREZ:

3 Q Mr. Hawkins, you've seen this, we've been here for a
4 while, 453D.020. Do you see that?

5 A Yes.

6 Q Subsection (2)?

7 A Yes.

8 Q Where it says, "The people of the State of Nevada
9 finally declare that the cultivation, sale of marijuana should
10 be taken from the domain of criminals and it be regulated
11 under a controlled system or business, will be taxed, and the
12 revenue will be dedicated to public education and the
13 enforcement of the regulations of this chapter."

14 A Yes.

15 Q Correct?

16 A Yes.

17 Q And that statute becomes what the ballot question
18 had?

19 A I agree.

20 Q Okay. So if that's the intent of the public, to
21 generate revenue, taxable income, that would be -- you'd
22 consider that a -- that's the interest of the public in this
23 case?

24 A Yes, as well as removing marijuana from criminals.

25 Q Okay. So let's talk about the first, and we'll get

1 to the second.

2 A Okay.

3 Q If the public's interest is to generate tax revenue,
4 how does an injunction which prevents companies from opening
5 to generate revenue, how does that help the public?

6 A Oh. I don't think it hurts the public. Once the
7 licenses are issued then -- if there are licenses issued,
8 then this process can take place.

9 Q Okay. This process, though, Thrive is already at
10 the point where it's ready to open. And you understand that
11 under their City of Las Vegas license they're a conditional
12 licensee?

13 A So why are they at that point if there was an
14 injunction? They ignored the injunction? They decided, we
15 don't care what the injunction is, we're going to sign a
16 lease, get our building ready, hire the people and open
17 anyway?

18 Q Well, yeah, the injunction's very clear. It says,
19 they cannot open to the public.

20 A Okay.

21 Q The injunction also said they're not -- Judge says,
22 I'm not preventing them from getting City approval, okay?

23 A Uh-huh.

24 Q Now, if --

25 A Didn't they get City approval?

1 Q Let me ask the question, though, Mr. Hawkins.

2 A Yes.

3 Q If the injunction was so important, why did you wait
4 until May to bring it and didn't bring it back in December
5 when you found --

6 A We brought it as soon as we could. We couldn't get
7 information from the State.

8 Q You filed your lawsuit on January 15th, 2019. The
9 injunction wasn't filed until almost May to stop them from
10 opening.

11 A Right.

12 Q Why?

13 A You mean Thrive?

14 Q I mean Thrive.

15 A Oh.

16 Q You're okay with them opening; is that what you're
17 saying?

18 A No. Yeah, no. No, of course not.

19 Q Okay. Well, then that's what I'm trying to figure
20 out. Because that's -- the law is what's the harm to your
21 company when it comes to them being able to open. You can
22 still dispute the suit. What's the harm to your company?

23 A Okay. I just want to be clear about your question.
24 So you're asking me the harm of Thrive opening at West Sahara,
25 3500, and it's not a transfer from Commerce, it's the new

1 recreational license issued by the State?

2 Q Correct.

3 A Why should they be able to open?

4 Q That's not the question. The question is what's the
5 harm to you if they do open.

6 A The harm to me is that they would be not following
7 the law.

8 Q Okay. What's the harm to you?

9 A The harm to us is that they have a potential --
10 they're going to be a friendly competitor, I've got no problem
11 with that. But they need to follow the law. They should not
12 be overawarded or rewarded or they should not be special
13 entitlement, privileged, and I'll put the word before
14 privileged privilege, they don't have that and shouldn't have
15 it. They're no different than anybody else. They followed
16 the law, too. That's what we were taught, the rich and the
17 powerful shouldn't be able to manipulate the system because
18 they're the rich and the powerful or they're connected, and
19 that's what happened as I see through my lens in this court
20 and this process from 2018.

21 Q Assuming they're following the law, should they be
22 allowed to open?

23 A No.

24 Q Okay. Thank you, Mr. Hawkins.

25 A You're welcome.

1 MR. GUTIERREZ: Pass the witness.

2 THE COURT: Anyone else haven't asked Mr. Hawkins

3 any questions? Mr. Shevorski.

4 MR. SHEVORSKI: The State, Your Honor. Thank you.

5 DIRECT EXAMINATION

6 BY MR. SHEVORSKI:

7 Q Good afternoon, Mr. Hawkins.

8 A Good afternoon, Mr. Shevorski.

9 Q Does Nevada Wellness have an email address for

10 people to contact them on its Website?

11 A I don't know.

12 MR. SHEVORSKI: May I approach, Your Honor?

13 THE COURT: You may.

14 BY MR. SHEVORSKI:

15 Q It's to refresh your recollection. Turn to the

16 third page of that document.

17 A I saw it.

18 Q nvwellnesscenter@gmail.com?

19 A Right.

20 Q Does this appear to be a true and correct copy of

21 information contained on Nevada Wellness Center's Website?

22 A Correct. It is.

23 MR. SHEVORSKI: Move for admission, Your Honor.

24 THE COURT: Any objection?

25 MR. PARKER: No objection, Your Honor.

1 THE COURT: Be admitted.
2 (State's Exhibit 2024 admitted)
3 THE CLERK: Mr. Shevorski, can I get a copy of that.
4 MR. SHEVORSKI: Yes. Of course. I'm sorry.
5 THE CLERK: And that will be 2024.
6 MR. SHEVORSKI: May I approach, Your Honor.
7 THE COURT: You may.
8 MR. PARKER: Steve, can you say the number, again,
9 please.
10 THE CLERK: 2024.
11 MR. PARKER: Thank you, Dulce.
12 THE COURT: At least you're going in order.
13 MR. SHEVORSKI: The day ain't over yet, Your Honor.
14 I can still mess it up.
15 (Pause in the proceedings)
16 BY MR. SHEVORSKI:
17 Q Mr. Hawkins, you've been handed what's now Exhibit
18 2024. And can you read what the email address says there,
19 sir.
20 A nvwellness@gmail.com.
21 Q Okay. Would you please turn to Exhibit 21 -- 2021,
22 excuse me, which should be right next to you. It's the one
23 that's open. It should be on page DOT044715.
24 A You're talking about the numbers at the bottom of
25 the page?

1 Q Yes, sir. I apologize.
2 A Okay. What's the number again?
3 Q 44715. I think it might have been opened to the
4 same page before --
5 A This is 24 to 2500.
6 Q Were you here when Mr. Scolari was here?
7 A Yes.
8 MR. SHEVORSKI: May I approach to help the witness?
9 THE COURT: You may.
10 (Pause in the proceedings)
11 MR. PARKER: Your Honor, may I approach while he's
12 on this?
13 MR. SHEVORSKI: Yeah. Of course.
14 THE COURT: Sure. Not me; right? Them?
15 MR. PARKER: Yes.
16 (Pause in the proceedings)
17 BY MR. SHEVORSKI:
18 Q Mr. Hawkins, are you at page DOT44715?
19 A Yes.
20 MR. RULIS: Steve? Sorry. Just to be clear. 2021
21 goes from 44721 to 44756. At least that's on your exhibit
22 list.
23 MR. SHEVORSKI: That's not the one he has up there.
24 MR. RULIS: Okay. Just trying to be quick.
25 THE COURT: We're using the one the guy from the

1 Department of Administration who knows how Listservs were
2 brought.

3 MR. RULIS: Thank you, Your Honor.

4 BY MR. SHEVORSKI:

5 Q If you look about 15 lines down from the top do you
6 see email address nvwellnesscenter@gmail.com?

7 A Yes.

8 Q Okay. And the date indicated across from that is
9 April 10th, 2018?

10 A Yes.

11 Q And before we -- my friend Mr. Gutierrez was talking
12 to you, and you talked about manipulating the system with
13 respect to diversity. Do you recall that?

14 A Yes.

15 Q Okay. And I know you've been here a lot, and I
16 appreciate your dedication to the suit. Part of it -- I think
17 some of the arguments you may have heard is that the system
18 was manipulated -- diversity was manipulated by advisory
19 boards; is that a fair characterization?

20 A No.

21 Q Okay. Does NV Wellness Center have an advisory
22 board?

23 A An advisory board, yes.

24 Q And NV Wellness Center is a limited liability
25 company?

1 A Yes. And if I may, the advisory board was put
2 together to help us expand into our new location so we could
3 have the same community impact as we currently have at our
4 current location.

5 Q The members of your advisory board, you also refer
6 to them as a community board; is that correct?

7 A Yes.

8 Q Okay. And on Exhibit 2024 I believe you provide a
9 paragraph that celebrates the diversity of your community
10 board; correct?

11 A Yes.

12 Q Okay. And the language skills that they have?

13 A Yes.

14 Q And perhaps their -- how their inherent diversity
15 may impact the customers they serve; correct?

16 A Yes.

17 Q You felt that was important, important enough to put
18 on your Website so that the customers, the end user of your
19 product could see that; correct?

20 A We are updating and upgrading our Website, yes.

21 MR. SHEVORSKI: No further questions, Your Honor.

22 THE COURT: Anybody else have questions for Mr.
23 Hawkins? Mr. Koch.

1 DIRECT EXAMINATION

2 BY MR. KOCH:

3 Q Good afternoon, Mr. Hawkins. I like a guy who tells
4 it like it is. It's refreshing.

5 A No, you don't. No, you don't.

6 Q I do. I try to cut to the chase like the judge
7 says. I mean, I think I agree with you. On Question 2 it's
8 your opinion that the voters were going to the polls thinking
9 yes or no on recreation marijuana. Is that what you
10 understood?

11 A Yes.

12 Q As far as the actual language of the statute, did
13 you have anyone come to you and say, hey, Frank, what do you
14 think about this language in the statute that's on the
15 Question?

16 A Of course not.

17 Q Yeah, I didn't think so. Did you ever have anybody
18 ask you any question about what a word meant in the statute,
19 the proposed statute as part of the initiative?

20 A No.

21 Q Did they ever come to you and ask about what this
22 means doing background checks or any of this kind of stuff?

23 A They didn't care about my opinion, no.

24 Q And did they -- well, you were in the business at
25 that time; right?

1 A Yes.

2 Q And so kind of like people come to me and ask me
3 about judges and I only know a little bit --

4 A Right.

5 Q -- I can only help them out a little bit, you could
6 help them out but they didn't come to you even though you were
7 operating a marijuana business?

8 A That's correct.

9 Q With respect to the manipulation that you've talked
10 about, it sounded like the manipulation you were referring to
11 was relating to setting the parameters, the rules that were
12 adopted by the Department, is that right?

13 A Yes.

14 Q Was there any manipulation that you're aware of or
15 you're claiming that the actual scores themselves, that anyone
16 went in and manipulated what the evaluators did while they
17 were scoring?

18 A If I can, I think when Mr. Pupo was here, Mr. Pupo
19 admitted going to lunch and breakfast and dinner and trips and
20 all of those things. Mr. Pupo said, But I didn't score the
21 application. And I sat back there and I said to myself, maybe
22 he doesn't understand. Whether or not he scored the
23 application, he put in motion what changed the application.
24 When he single-handedly, as he said, he decided that there
25 would be no location, he single-handedly did that. He went

1 against, in my opinion, the law.

2 Q Okay.

3 A When -- if I may, one more?

4 Q Sure.

5 A When they talked about MJ in Nevada and everyone is
6 applying for a recreational license to operate a dispensary
7 but yet they score everybody -- I can't say everybody because
8 I don't know what any scores are -- the language that they
9 used was not specific for marijuana recreation current. So
10 therefore they gave people who have never operated a
11 recreational marijuana, which is what they were talking about,
12 higher scores, obviously from what we see without going to see
13 the details.

14 And lastly, I'm not quite sure in non-identified
15 that you would know to put lighting or lights, standard, in a
16 dispensary and/or a sink in a dispensary when what they're
17 talking about, in my view, is cultivation for lighting and
18 production for sinks. So if people knew that and got points
19 and maxed that out, hmm.

20 Q It raises some suspicions?

21 A I'm just saying.

22 Q Let's talk about the sink. I thought we might be
23 done with that for this hearing --

24 A Okay.

25 Q -- but we're going to go back to the sink. Were you

1 here when we talked with Kara Cronkhite about the handwashing
2 sinks?

3 A The first day, yes.

4 Q Okay.

5 A Yes.

6 THE COURT: And Norovirus.

7 MR. KOCH: And the Norovirus.

8 THE WITNESS: Oh, yes, I was here.

9 BY MR. KOCH:

10 Q Okay. I asked her some questions. A particular
11 point is there's a regulation, are you aware, regarding
12 washing of hands by employees or volunteers at a business?

13 A Yes.

14 Q And that regulation requires employees or people
15 working at the business to wash their hands on -- I think
16 there are 11 different types of occasions that somebody needed
17 to wash their hands. Are you familiar with that?

18 A Not the 11 different types, but I'm familiar with
19 the washing of the hands.

20 Q Right.

21 A And if I may, so the washing of the hands takes
22 place when you're weighing or handling product. So throughout
23 the valley there's all different kinds of processes that we
24 all use. In the City of Las Vegas we're like a 7-Eleven. You
25 buy the marijuana already prepackaged. In the County you can

1 look at the marijuana and then you can say I want that nub and
2 they take it out with a thong and put it -- weigh it for you
3 and then you can take it and go away. We don't have that
4 process in the City and if you aren't weighing then that is
5 not applicable. However, we have a sink, anyway. But for
6 them to score that on the application makes me say hmm again.

7 Q And would it be possible for an applicant to read
8 the regulations that were adopted in January of 2018, see that
9 handwashing sinks are required not just in the toilet facility
10 but also another one outside and say, hmm, per the regulation
11 I better put a handwashing sink in there someplace? Is that a
12 possibility?

13 A Possibility. On the floor plan?

14 Q On the floor plan. Yeah, that's right, we'll put it
15 on the floor plan. That's a good place to put it.

16 A Okay. Yeah, it's possible.

17 THE COURT: For the location at the post box, the
18 Mailboxes, Etcetera or the UPS Store.

19 THE WITNESS: Right.

20 BY MR. KOCH:

21 Q So that sink is going to be there. And then what
22 was the other thing you said that you thought --

23 A The lighting.

24 Q The lighting. Okay.

25 A The lighting is typically applicable to cultivation

1 because they need special lights so the plant grows.

2 Q All right. So lighting was something that you
3 thought somebody could not have known to put on the plan
4 unless they maybe got some information from somebody, is that
5 what you're saying?

6 A That's what I'm saying. If you're writing about
7 lighting but you don't show it on your plan.

8 Q And are you aware of any regulations with respect to
9 lighting a marijuana establishment?

10 A Just that lighting is required.

11 Q Okay. You talked about Mr. Pupo saying that some of
12 the changes that he may have made to take out or put in some
13 things that may have been there. You're not saying Mr. Pupo
14 went and talked to the evaluators while they were scoring and
15 asked them to change their scores; right?

16 A Okay. No, I'm not saying that about Mr. Pupo. What
17 I'm suggesting about the evaluators, number one, they may not
18 have been qualified. We don't know because we haven't brought
19 any of them here. But that's the responsibility of the State
20 to train them. It's clear from testimony from the State that
21 they haven't trained them.

22 Q So you haven't actually talked with any of these
23 evaluators yourself, have you?

24 A No. I've been trying.

25 Q Okay. And you've read kind of what's been said

1 about them --

2 A Sure.

3 Q -- both for and against?

4 A Sure.

5 Q So there's some explanations of what their
6 qualifications are. You read those?

7 A Well, they say they're qualified, so other than
8 that, I'm going to go back to the training because that's what
9 the State showed. But when you asked the question, How did
10 you teach them to score -- We didn't. We did it verbally. So
11 if you tell me something one time, I don't know, I may or may
12 not get it.

13 Q All right. So you thought there maybe should have
14 been better training for those evaluators, possibly?

15 A For sure, without question. I think the State
16 admitted that.

17 Q And, but you're not -- I guess other than the
18 testimony that's been provided here during this hearing,
19 you're not aware of what that training encompassed, is that
20 right?

21 A If it was more than what we received or what the
22 plaintiffs have received, then Mr. Shevorski didn't give it to
23 the plaintiffs.

24 Q Let me ask you about the actual scoring, then.
25 You've seen the scores that Nevada Wellness Center got from

1 its applications; correct?

2 Q Yes.

3 Q And if you'd turn to Exhibit 5004, which is the

4 rankings, score and rankings.

5 MR. KOCH: Do you have that, Brian? All right.

6 BY MR. KOCH:

7 Q You've looked at this sheet before. I think this

8 was provided after SB32 was passed.

9 A Yes.

10 Q And Nevada Wellness Center, it looks like -- let's

11 just start with City of Las Vegas on the bottom of page 1.

12 Nevada Wellness Center applied for a license in Las Vegas;

13 correct?

14 A Yes.

15 Q And on that scoring rubric Nevada Wellness Center

16 scored 72nd, it looks like, is that right?

17 A Yes.

18 Q Okay. So out of 156 --

19 A Well, that says 72, but it's far enough down where

20 it don't matter.

21 Q Okay. And maybe that's my question. 156 points were

22 awarded, 156.51 to Nevada Wellness Center; right?

23 A Right.

24 Q And the cutoff for this rubric is 208 points was

25 Number 10 in Las Vegas; right?

1 A Yes.

2 Q Okay. So Nevada Wellness was about 52 points away
3 from falling within that top 10. Are there particular points
4 that you thought Nevada Wellness Center did not get that it
5 should have that were scored incorrectly in particular?

6 A Without the State being able to articulate how they
7 scored each section and why and how they trained the
8 evaluators, it's virtually impossible. And herein lies the
9 reason that I'm confident that we did the right thing by
10 filing the lawsuit. We could not get information and I'm not
11 sure the State knows what they were doing. And so if they
12 don't know what they were doing, how could they train the
13 evaluators to score? So, for example, they took points away
14 from us because they said when you walked into the dispensary
15 you walked right into it. Well, obviously whoever is reading
16 the plan doesn't know how to read plans. Andre Rhodes, one of
17 our partners, is a fire captain. Just because you're a
18 fireman or a fire inspector does not know you know how to read
19 plans. We have a mantrap in both locations. They deducted
20 points for that.

21 Q Okay. So there's some spots that you could look
22 back on and think they scored this incorrectly in our opinion.
23 Is that fair to say?

24 A All I would like to know -- I would have liked to
25 sit down with the State and gone through. For example, we

1 build affordable housing through the State. The State has a
2 program and they have public hearings, and they say this is
3 what we're going to do, this is how we're going to score it.
4 And at the end of the day before they make any awards they
5 send everybody their score and they say you have to sign off
6 on your score. So you say, oh, no, you scored me 158, I think
7 I should be a lot higher. So you go in and meet with them.

8 Q Right. And what --

9 A And you agree on a score and then all the scores are
10 released; there is no problem.

11 Q What department runs that process?

12 A Department of -- the Housing Division.

13 Q Okay. And the rules and regulations on that you
14 would agree are different than the Department of Taxation has
15 for the marijuana applications; correct?

16 A That's correct.

17 Q And are you aware of any rule or regulation that
18 would allow an applicant to have that same type of process,
19 get your score first, go in, sit down and walk through the
20 scores, make corrections to them in the marijuana application?

21 A Missouri is doing it right now. Everything is
22 transparent. You have the weight, how it's going to be scored
23 each section, how many words they want, how many pages they
24 want. I don't think it's going to be a problem at the end of
25 the day.

1 Q Okay. So Missouri does it differently than Nevada;
2 right? Is that right?

3 A Yes. I think Nevada did it wrong.

4 Q Okay. And if Nevada were doing this process again,
5 let's say in 2021, is it possible Nevada might look at
6 Missouri and say, hey, that was a great process, maybe we
7 should adopt some of that? Is that possible?

8 A I think because of you great lawyers Nevada is going
9 to do it right the next time.

10 Q I hope so. There will be somebody complaining, I
11 guarantee you that.

12 A That's true.

13 Q All right. So if there's different ways to do it,
14 you believe that Nevada maybe could make some improvements to
15 the way that they did it. Is that fair to say?

16 A Oh, I think they need to throw it out and start over
17 and do it properly.

18 Q And who's going to tell them how to do it properly
19 next time? Frank Hawkins or somebody else?

20 A Oh, no. I think if they involve the people in the
21 business and the public and they are transparent about this is
22 how we're going to score, this is what we want from diversity,
23 this is what we mean when we say adequacy of building, this is
24 what we mean when we say MJ in Nevada, I think it's all clear.
25 They can clarify it.

1 Q All right. You're aware that there was a Governor's
2 Task Force that worked on some of the items that you're
3 talking about there as far as what would be expected, what
4 would be scored; right?

5 A Yes.

6 Q Did you participate in that Task Force?

7 A Yes.

8 Q And how did you participate?

9 A I called in on some of those items that related to
10 retail.

11 Q Okay. And one of the overall recommendations was to
12 keep the regulations similar to medical marijuana except for a
13 few changes. You're aware of that?

14 A Yes.

15 Q And one of those items, you're probably been here,
16 you've seen a lot was similar to marijuana except for scoring
17 of a location. The location would not be scored. Are you
18 aware of that recommendation?

19 A No.

20 Q You didn't see that when Mr. Ritter was asked about
21 it?

22 A So, what Mr. Ritter was asked and my interpretation
23 of what was written is different. So what was written was
24 that the concern of the Task Force was that the local
25 governments would hinder the application process from going

1 forward. Therefore, they wanted to keep the locations in.
2 They didn't want to have the location evaluated by the local
3 government until the awards happened. They never said one
4 time that I read anywhere, and I've looked, where it says
5 don't score based on location, don't require location as a
6 part of the application.

7 Q The Task Force didn't recommend that?

8 A The Task Force didn't say that. Mr. Pupo said here
9 that he got calls from some industry friends that asked him to
10 make that change and thereby he did, if I recall correctly.

11 Q Okay. You know, we'll think about that but I think
12 it's already in as far as what the report actually said. So
13 was there any discussion about taking the location off
14 completely for purposes of scoring at the Governor's Task
15 Force that you're aware of?

16 A Not that I'm aware of.

17 Q You didn't attend any of those meetings in person,
18 it sounds like?

19 A No.

20 Q So it would surprise you if there was an express
21 recommendation that location would not be scored as part of
22 the application process?

23 A Not required to be listed or scored?

24 Q Let's just say scored first.

25 A Okay. I would be surprised on both.

1 Q Okay. Or listed, you would be surprised with that,
2 too. You talked a little bit about diversity. You said that
3 Tick Segerblom said that minorities should become owners, is
4 that --

5 A No, no. No.

6 Q Go ahead.

7 A I'm saying the concern was ownership. There is no
8 diversity of ownership. Now, what the puppetmasters spun that
9 to say, it's going to be board members and officers and all
10 this other stuff. I don't know where that came from.

11 Q Okay.

12 A But my concern and the concern of others was
13 ownership.

14 Q And practically, you're aware that in order to apply
15 in September 2018 you needed to have a medical certificate;
16 correct?

17 A True.

18 Q And the existing ownership of those medical
19 establishments was -- it was what it was in 2018 --

20 A Yes.

21 Q -- it wasn't -- I mean, there was nobody new coming
22 in; right?

23 A Right.

24 Q And so how did you envision that happening, that
25 minority ownership only would be increased through the

1 application process in September 2018?

2 A I didn't envision it. That was my concern from day
3 one and I have continued to express that.

4 Q Was there an anticipation or expectation that
5 perhaps minority ownership groups would be given substantially
6 more weight or credit than the 20 points that we've talked
7 about here?

8 A No, because as you just said, there were technically
9 no other minorities. My concern was trying to get minorities
10 into the industry.

11 Q Okay. Were there -- did you attend any discussions
12 or any potential legislation meetings, anything like that
13 where there would be a requirement for existing owners to
14 perhaps sell part of their stake to minorities in order to get
15 a new application or get a new --

16 A No. I wasn't invited to those meetings, either.

17 Q Okay. Do you know of any of them that took place?
18 I'm just --

19 A No.

20 Q -- asking for the record.

21 A I do know they had many meetings. I do know that.

22 Q Okay. A lot of meetings?

23 A Yeah, they did.

24 Q You went to some of those?

25 A No.

1 Q Oh, you didn't go to any of those?

2 A No, they didn't invite me to any meetings ever.

3 Q Who was holding these meetings?

4 A The Legislature. Tick Segerblom really was the
5 driver of the process.

6 Q All right. And did you -- you didn't expect -- the
7 fact that your company was the sole -- was it the sole 100
8 percent minority-owned business that had a medical
9 certificate?

10 A To my knowledge the only one.

11 Q All right. And by filing a recreational application
12 with that you need qualifications. Did you expect to I guess
13 automatically receive a recreational license, or how would
14 that be factored in your estimation?

15 A No. We have to be better.

16 Q So you've got to still be scored on the other
17 characteristics; right?

18 A That's correct.

19 Q You didn't expect that the other points and
20 qualifications would be scored differently because of minority
21 ownership; right?

22 A Right.

23 Q Okay. What about female ownership? Was that
24 something you thought would be scored as well as part of
25 diversity?

1 A Well, as a part of the system females are considered
2 a part of diversity. Now, I don't know how the State looked
3 at that, but in my -- what I do, typically the white guy has
4 enough money so he puts his wife in there as a minority and
5 then she benefits, so they still benefit.

6 Q So there's potential, based upon how the process
7 was, to add board members, add officers, do things to increase
8 diversity? It sounds like that's what you're saying. Right?

9 A Well, as you stated earlier, the ethnic minorities
10 were already there. So if you weren't already in the business,
11 how were you going to bring them in? The legislature, those
12 folks never asked me my opinion because I would have asked
13 some of those questions.

14 Q Okay. And I guess my question -- you saw our very
15 first witness a long, long time ago, our cannabis law expert
16 who did a bunch of different mathematical models where he put
17 diversity variations up on the board, did you see those?

18 A Wasn't that a woman?

19 Q No. The cannabis law, that was a man.

20 A Okay.

21 Q Then there was a linguistic --

22 A Okay.

23 Q -- expert who was a woman.

24 THE COURT: He was the guy from Idaho, right?

25 MR. KOCH: That was diversity.

1 THE COURT: Oh, okay.

2 MR. KOCH: He was the guy from Denver.

3 THE COURT: Oh, all right. I'm sorry.

4 MR. KOCH: Who's now in Maryland. I think he's

5 teaching school there or probably by the time we finish this

6 thing.

7 BY MR. KOCH:

8 Q So do you remember seeing some of those models where

9 he put up diversity, he took out diversity and what happens to

10 the point total?

11 A Yes. Yes.

12 Q You would agree with me based upon the rubric that

13 the State used to assign 20 points for diversity, even if all

14 the top 10 in Las Vegas that we looked at in Exhibit 5004,

15 even if all 10 of those got zero points for diversity, it

16 would not give Nevada Wellness a license, Nevada Wellness

17 would not move to the top 10; right?

18 A That is correct.

19 Q Okay. So there are other factors that kept Nevada

20 Wellness out of the top 10 aside from diversity?

21 A And that being one of many.

22 Q Say that again?

23 A That being one.

24 Q Diversity?

25 A No. You're saying if you took these 20 points away

1 --

2 Q Right.

3 A -- there are 20 points -- that doesn't help Nevada

4 Wellness. I agree.

5 Q Okay. I just want to understand because that

6 certainly has been something there's been fight -- I think

7 people on this table have taken both sides of that position.

8 Diversity shouldn't have been considered or it should have and

9 we didn't do it right. And your position is it should have

10 been considered but we just didn't do it right?

11 A Correct.

12 Q All right. And there's some potential for

13 manipulation?

14 A Yes.

15 Q Was there any understanding that you had with

16 respect to adding a board member, was there any sort of tenure

17 requirement? Did they have to have been on at any point in

18 time in order to be qualified as a board member?

19 A For the whole process?

20 Q For diversity purpose.

21 A For diversity?

22 Q Let's just say for diversity.

23 A No. No, I -- for us, and I can't speak for

24 everybody else and I'm not here to pick them apart and

25 challenge them. My bone of contention -- let me preface

1 before I make my statement. People are going to do whatever
2 they need to do to win. I'm very experienced in that. But
3 it's the government's responsibility to make sure that there
4 is a fair process or as fair as it can be. So if people added
5 people to their board, got away with adding an officer and the
6 State saw it and did nothing, shame on them. Shame on the
7 person that did it, but shame on the State because it's their
8 responsibility at the end of the day to make sure we have a
9 transparent process so that everybody can say, yeah, you know,
10 I made a mistake, he made a mistake, they made a mistake, one
11 or two, chalk it up to next time, but not the whole process.

12 Q And what about that? Let's say somebody added a
13 minority officer the day before they submitted their
14 application, sent it in, they get credit for that minority
15 officer and they keep that officer on after they get their
16 license and that officer plays an important role in the
17 business, would you agree that that increases diversity in the
18 operation of a marijuana establishment in Nevada?

19 A No.

20 Q It does not?

21 A Because I don't believe Phil Peckman back there, who
22 is a friend of mine -- he may not be after today, but I
23 consider him that -- there is nobody going to run our
24 businesses but us. So if we have a volunteer board, advisory
25 board, community board, that is a specific purpose, at least

1 for Nevada Wellness Center. It's not for them, which may be
2 different from the public standpoint, to come in and say, hey,
3 I got a vote, I got -- do this and do that. That doesn't
4 happen in the real world.

5 Q Okay. And I guess I'm trying to understand. So
6 let's say Nevada Wellness got 10 licenses, opens 10 new
7 stores.

8 A Four will be enough.

9 Q Okay.

10 A Can you say four?

11 Q We'll go four. Let's say four. Let's talk about
12 that. Opens four new stores. Would that be more difficult
13 for you individually to manage those four stores?

14 A Sure.

15 Q So it would be more work. You'd probably need to
16 bring in some more people; right?

17 A Without question.

18 Q Bring in some more people to manage the process?

19 A Yes.

20 Q And maybe hiring an officer or something to take
21 care of finances or something like that; right?

22 A We have an in-house CPA now.

23 Q Okay.

24 A But yeah, possibly another one.

25 Q And by adding that person it might be a minority, is

1 that right?

2 A Yes.

3 Q Okay. And is it your testimony, then, that adding
4 an officer in that sort of a function to now be operating in
5 the marijuana industry would not be increasing minority
6 representation or diversity in the marijuana industry?

7 A Yes. And they would be an employee. So we would be
8 hiring employees. There are only three of us. That's Dr.
9 Mack, Andre and I that are the owners. We would be building
10 our business through hiring more employees. And would they be
11 diverse and ethnic? Probably, yes.

12 Q Okay. And why would they be? Why would you make
13 that consideration in hiring?

14 A Why would we not? We're going to look for the best
15 person --

16 Q Right.

17 A -- to fill our needs.

18 Q Okay. And so when you're doing that you consider
19 the community you serve. Let's say if you're in a
20 predominantly, say, Latino neighborhood, would you look to
21 potentially hire Latino employees?

22 A Yes.

23 Q And you think that that would be a consideration in
24 the hiring to reflect the community that you're located
25 within?

1 A Yes.

2 Q Okay. You've heard a lot of questions about
3 deficiencies and questions about compliance. Nevada Wellness
4 Center, has Nevada Wellness Center ever received a statement
5 of deficiency from the Department of Taxation?

6 A You're not going to believe what I'm about to tell
7 you. No.

8 Q Never?

9 A And I was gassed when Charlie sat here and said he
10 received thirty.

11 Q So you've never received one ever in inspections
12 taking place?

13 A Not to my knowledge. And I called the State a
14 couple weeks ago and said how many deficiencies has NWC
15 received? They said based on our records, zero.

16 Q So you've never received a statement of deficiency
17 and submitted a letter of correction for that deficiency?

18 A I'm just telling you what they told me.

19 Q And were you here when Ms. Cronkhite was here when
20 she testified about deficiencies?

21 A Yes.

22 Q And as she testified that every operation has
23 received a deficiency and if one has not she would have a
24 question about the inspectors?

25 A But she never met us, did she? Never even heard of

1 us.

2 Q She never heard of your company?

3 A No.

4 Q Oh, okay. All right.

5 A Which is good.

6 Q That is good. But sends inspectors out to your

7 company; right?

8 A Right.

9 Q And they've never once found a deficiency?

10 A I'm just telling you, you know, what they --

11 Q Who is there for the inspections when those take

12 place at your company?

13 A Me.

14 Q And you've talked to the inspectors?

15 A Yes.

16 Q And they've never found anything wrong with your

17 business?

18 A I'm telling you. And before me, the other guy back

19 there, you can drag him up here, Andre.

20 Q All right. Okay, very good.

21 A He doesn't want to come. Thank you.

22 MR. KOCH: No further questions.

23 THE COURT: Any of the other defendants or

24 defendants in intervention have questions for Mr. Hawkins?

25 MR. GRAF: Yes, Your Honor.

1 THE COURT: Mr. Graf.
2 DIRECT EXAMINATION
3 BY MR. GRAF:
4 Q Good morning, Mr. Hawkins.
5 A Good morning, Mr. Graf.
6 THE COURT: It's afternoon, Mr. Graf.
7 BY MR. GRAF:
8 Q I represent Clear River in this action. Do you know
9 who the owner of Clear River is, sir?
10 A No. Can you tell me?
11 Q It's Randy Black, Sr.
12 A Oh. He's hiring right now. No, I'm just kidding.
13 All right, go ahead.
14 Q I don't know about that, but he's not in the
15 jurisdiction, I know that.
16 A I know Randy very well.
17 Q Do you know who his daughter is?
18 A Tish Black?
19 Q Yes, sir.
20 A I don't know her personally. I know who she is.
21 Q So if I understand, your testimony is in the future
22 when your daughter is old enough --
23 A Uh-huh.
24 Q And by the way, I've met your daughter --
25 A Yes, you did.

1 Q -- and she is a fine young woman.

2 A Thank you very much.

3 Q You would be willing to put her on your advisory
4 board; correct?

5 A Oh, no, no, you mis-- you misstate.

6 MR. GENTILE: Objection to the form.

7 THE COURT: Overruled.

8 MR. GENTILE: It's compound. Does he want Tisha or
9 his daughter running it?

10 THE COURT: No, he's not going to put Tisha Black on
11 his board.

12 MR. GRAF: I'll clarify, Mr. Gentile. I apologize.

13 BY MR. GRAF:

14 Q So in the future --

15 A I know what you mean. It's okay. So what I was
16 saying is --

17 Q Frances; right?

18 A Peerless.

19 Q Peerless. Sorry.

20 A I would want my daughter to be able to benefit, to
21 leave a legacy. Part of the other attorney's question, I want
22 to have legacy.

23 Q So --

24 A Andre wants to have legacy. Mr. Mack might be too
25 old to have legacy, but that's --

1 Q Never too old.

2 A Well, he's 80, so. But the goal is to be able to

3 pass something down.

4 Q So is the goal to in the future put your daughter on

5 the board of this company that you own and operate?

6 A No. I want my daughter to be an owner --

7 Q Okay.

8 A -- not a board member.

9 Q Okay. And, but you don't -- is there anything wrong

10 with a man putting his daughter on an advisory board for a

11 company that he runs and operates?

12 A It depends on the man.

13 Q Okay. Do you know that Ms. Black is also the

14 president of the NDA?

15 A No. I don't belong to the NDA.

16 Q Okay. And do you know Mr. Flintie Williams?

17 A Flintie Ray?

18 Q Yes.

19 A He's hiding, too. Yeah, I know Flintie.

20 Q But you know him, don't you?

21 A I know him.

22 Q And you've been in this community since the '70s?

23 A A long time. Not long to me, but a long time.

24 Q Okay. And do you have any problem with seeking his

25 advice in running this company, a local company in the state

1 of Nevada?

2 A Are you saying Flintie is going to run a dispensary?

3 Q That he's on the board and providing advice and

4 consent to this company, do you have a problem with that?

5 A Let me make sure I understand what you're saying.

6 So you're saying Flintie is on Randy's board?

7 Q Uh-huh.

8 A And Flintie is going to direction to Randy on how to

9 run the business?

10 Q Sure.

11 A I'd say no, that will never happen, only because I

12 know Randy and I know Flintie.

13 Q That wasn't the question.

14 A Oh, I'm sorry, then I misunderstood.

15 Q I appreciate your response, Mr. Hawkins, but that's

16 not the question.

17 A Okay. So you're saying if Randy put Flintie on the

18 board --

19 Q Sure.

20 A -- and will Randy take advice? Could he take

21 advice?

22 Q So your response is that Mr. Black won't take the

23 advice?

24 A That's my response.

25 Q Okay. Mr. Hawkins, you've been here the whole time;

1 right?

2 A Except for two days.

3 Q Have you heard any testimony during all of this

4 process that the advisory board is somehow against the Nevada

5 Revised Statutes, NRS 86 that governs LLCs?

6 A No.

7 Q And you wouldn't have done it yourself if you

8 thought it was a violation of NRS 86; right?

9 A Done what?

10 Q Created an advisory board.

11 A We have an advisory board.

12 Q Oh, I know.

13 A And we --

14 Q And you don't think that that's illegal, do you?

15 A And we had one in the very beginning in 2014.

16 Q And you don't think that that's illegal, do you?

17 A No.

18 MR. GRAF: Okay. Thank you.

19 THE WITNESS: You're welcome.

20 THE COURT: Anyone else who's a defendant or a

21 defendant in intervention have questions for Mr. Hawkins?

22 Mr. Parker.

23 MR. PARKER: Just a couple, Your Honor.

24 THE COURT: Uh-huh.

25 THE WITNESS: I don't want you asking me no

1 questions. No.

2 MR. PARKER: I will tell you Mr. Kemp has said I
3 should not because you have done so well. I will tell you
4 that up front, Mr. Hawkins. And so I'm going to be very brief
5 because I learned through my tutelage that you typically don't
6 ask many questions of your client.

7 CROSS-EXAMINATION

8 BY MR. PARKER:

9 Q So in terms of taxes, is NWC paying taxes right now
10 for its sale of recreational marijuana?

11 A Yes.

12 Q So in terms of the State or the school district or
13 whatever this money, tax money may go, people buying --
14 citizens of Nevada or people visiting Nevada can buy
15 recreational marijuana?

16 A Yes.

17 Q And that tax money is being given to the State?

18 A Yes.

19 Q And if the State wants to give it to the school
20 district, you have no qualms with that?

21 A None.

22 Q Thank you. In terms of the time it took to bring
23 your lawsuit, you indicated that you got the scores in
24 December, is that correct?

25 A Yes.

1 Q How long did it take for you to actually get a
2 meeting with the Department of Taxation to discuss your
3 scores? Do you recall that?

4 A Months.

5 Q All right. After that -- that was sometime, I
6 believe, of 2019, after that do you recall asking for an
7 appeal?

8 A Yes.

9 Q Did the Department of Taxation refuse your appeal?

10 A Yes.

11 Q After that do you recall then authorizing your
12 counsel to file a lawsuit?

13 A Yes.

14 Q After you filed the lawsuit, do you recall the
15 Department of Taxation not agreeing to accept service of
16 process?

17 A Yes.

18 Q After you -- after the filing the service, do you
19 recall authorizing your counsel to request by order of the
20 Discovery Commissioner a preservation of evidence?

21 A Yes.

22 Q Do you recall how long it took for the Department of
23 Taxation to respond to that?

24 A I don't know if they responded.

25 Q Do you recall after receiving the order from the

1 Discovery Commissioner granting your request that the
2 Department of Taxation objected to that?

3 A Yes.

4 Q All right. And then after that do you recall
5 joining in in this injunction request?

6 A Yes.

7 Q All right. And that's the process you recall?

8 A That's what I recall.

9 MR. PARKER: All right. That's all I've got. Thank
10 you very much.

11 THE COURT: Thank you, Mr. Parker. Anyone else want
12 to ask any follow-up questions to Mr. Hawkins?

13 Thank you, Mr. Hawkins.

14 THE WITNESS: Thank you.

15 THE COURT: We appreciate you and thank you very
16 much for returning us to the point kind of discussion.

17 THE WITNESS: You're welcome.

18 THE COURT: Next witness.

19 MR. CRISTALLI: Your Honor, before Mr. Gutierrez
20 calls the next witness, the one issue we have -- we have a
21 subpoena for Chad Christensen for Fidelis Holdings and I made
22 representations to Your Honor that --

23 THE COURT: He was one of the people you told me
24 earlier will be here.

25 MR. CRISTALLI: No. I said that Mr. -- Chad was out

1 of the country and then you said have a client representative
2 here.

3 THE COURT: Okay. I may have said that.

4 MR. CRISTALLI: So we do. We do. We have Daniel
5 Stewart here who's prepared to testify, but Daniel leaves on
6 Wednesday. And I just wanted to make sure, because I don't
7 think Mr. Gutierrez now wants to call Mr. Stewart or a
8 representative from Fidelis, that I have --

9 THE COURT: Can I release Mr. Stewart?

10 MR. GUTIERREZ: Yes, you can, Your Honor.

11 THE COURT: Bye, Mr. Stewart.

12 MR. GENTILE: What about anybody else?

13 MR. CRISTALLI: And, Your Honor, just before we do
14 that --

15 MR. SHEVORSKI: He can't hear you, I guarantee it.

16 MR. CRISTALLI: Before we do that, we've complied
17 with having a client representative available for testimony.

18 THE COURT: I appreciate that.

19 MR. CRISTALLI: We don't anticipate getting another
20 request for Fidelis as a witness for the intervenors or the
21 State.

22 THE COURT: Does anybody want to ask Mr. Stewart any
23 questions before he leaves? Since no one wants to ask him
24 questions now, he's leaving.

25 MR. CRISTALLI: And that would satisfy all of our

1 requirements to have --

2 THE COURT: All the people in the room said it was
3 okay. And Mr. Hone is here this afternoon, he wasn't here
4 this morning, but he's here now.

5 MR. CRISTALLI: Okay. And there will not be another
6 request for a representative of Pisos?

7 THE COURT: Fidelis. Fidelis; correct?

8 MR. CRISTALLI: Fidelis. Correct. I'm sorry.

9 THE COURT: Okay. Next witness.

10 MR. GUTIERREZ: We're calling Ben Sillitoe.

11 THE COURT: Mr. Sillitoe, if you'd come up, please.

12 We're going to take a break. Sorry, sir, my staff
13 needs a break and I forget.

14 (Court recessed from 2:59 p.m. until 3:08 p.m.)

15 THE COURT: All right. Ready now?

16 BEN SILLITOE, DEFENDANT'S WITNESS, SWORN

17 THE CLERK: Thank you. Please be seated and please
18 state and spell your name for the record.

19 THE WITNESS: Ben Sillitoe. S-I-L-L-I-T-O-E.

20 THE COURT: Sir, you know there's water in the
21 pitchers, M&Ms in the dispenser behind you and there are tons
22 of exhibits. Counsel will help you through them if you need
23 help.

24 THE WITNESS: Thank you, Your Honor.

25 THE COURT: Mr. Gutierrez, you may proceed.

1 MR. GUTIERREZ: Thank you, Your Honor.

2 DIRECT EXAMINATION

3 BY MR. GUTIERREZ:

4 Q Good afternoon. Can you tell us your current
5 position?

6 A I'm the president of CLS Nevada, which is the
7 holding company owned by the company that acquired us last
8 year that operates the Nevada arm of a multi-state operator.

9 Q Can you explain that more?

10 A So I'm the co-founder of Oasis Cannabis, Serenity
11 Wellness Center, dba Oasis Cannabis. About a year ago we were
12 acquired by CLS Holdings, USA, which is a United States public
13 company traded on the OTCQB, also dual-listed now on the
14 Canadian Stock Exchange. And they retained me as the market
15 president for Nevada in charge of operations here.

16 Q And when did that transaction go through?

17 A June 28th, 2018 was the closing date.

18 Q So your company was a publicly traded company --
19 [inaudible].

20 A Yes. It became a publicly traded company upon the
21 consummation of that sale.

22 Q And how many dispensaries does Oasis Cannabis
23 operate?

24 A Just the one.

25 Q Where is it located?

1 A On Industrial Road in the City of Las Vegas.

2 Q And what was your role with the 2018 application
3 process?

4 A I was heavily involved with the preparation of the
5 application and our law firm and the application team.

6 Q And how many licenses did your company apply for?

7 A I believe it was seven.

8 Q Seven. Now, Mr. Sillitoe, did you -- were you a
9 part of the process in testifying in front of the State when
10 the regulations were adopted?

11 A No, actually I was really busy operating the company
12 at the time. I knew a lot about what was going on. I kept
13 abreast of it but I was not involved in that. I didn't make
14 any testimony.

15 Q When the regulations were adopted in February of
16 2018, did you provide any testimony or support of the
17 regulations?

18 A No, sir.

19 MR. GUTIERREZ: Can we go to Exhibit 5045,
20 previously admitted, specifically page 7.

21 BY MR. GUTIERREZ:

22 Q Mr. Sillitoe, do you see your name there?

23 A Oh, okay, I apologize. Yes. Thank you for
24 reminding me. Yes, that was at the Tax Commission hearing.

25 Q Okay. So this was at a Tax Commissioner hearing

1 where -- on February 27, 2018 where the State is adopting the
2 regulations that are in NAC453D, is that correct?

3 A I'm sorry, can you state the question again?

4 Q Sure. This is testimony you gave in front of the
5 Tax Commission when the Department is adopting the regulations
6 in what is now NAC453D; correct?

7 A Correct.

8 Q Okay. And then can we go through what you stated on
9 this? Do you see that in front of you?

10 A Yes. I'm refreshing my memory as we speak.

11 Q You state that the -- "Oasis Cannabis Las Vegas
12 stated that the regulation process for R092-17 was followed
13 and there were adequate opportunities for input from
14 interested parties." Do you believe that?

15 A Yes.

16 Q So you believe the Department had followed -- that
17 the regulation process was followed, is what you stated;
18 correct?

19 A Correct.

20 Q And then you said they had adequate opportunities
21 from interested parties. What does that mean?

22 A They had the working groups that were a part of the
23 process to come up with the regulations and there was -- six
24 months were spent on those.

25 Q So you believe that the Department in adopting

1 regulations was thorough in getting all the recommendations
2 from the industry and the Governor's Task Force?

3 A Yes.

4 Q Do you have any objections or as you sit here today
5 anything that you believe is wrong with the regulations?

6 A No. I don't think the regulations in their form are
7 bad. I don't think that the execution of the process
8 according to the way the regulations were written was done
9 right.

10 Q So your position is not necessarily -- it's not with
11 the statute or the ballot initiative or the regulations, it's
12 how those were played out with the actual application for
13 2018?

14 A Correct.

15 Q Okay. You also state that it's your opinion that
16 "the intent of the law was to allow the best operators to be
17 the ones to face the public because public perception is
18 important." What did you mean by that?

19 A I think at the time it was in reference to
20 cultivators who were claiming that they were entitled to a
21 license, and my point was that having operated a dispensary we
22 had experience in operating dispensaries and we were scored
23 high enough in 2014 to be awarded a license. And it was in
24 reference to the ability to put together a good application
25 and then the track record of operating a compliant dispensary.

1 Q Okay. And you authorized a lawsuit to be brought
2 against the State of Nevada sometime this year, is that fair
3 to say?

4 A Yes, I was part of the group.

5 Q And what is the relief specifically that you're
6 seeking from this injunction hearing?

7 A The process needs to be redone.

8 Q And when you say the process needs to be redone,
9 everyone submit 427 applications again?

10 A Applications and scoring, yeah, done completely
11 over.

12 Q And with the scoring, do you have problems with the
13 fact that independent graders were used?

14 A I don't necessarily have a problem with the fact
15 that independent graders were used, but I do call into
16 question whether or not they were adequately trained.

17 Q Okay. So hypothetically you want new scoring. Who
18 would you want to be doing the grading?

19 A Adequately trained personnel.

20 Q Okay. So 427 applicants resubmit their applications
21 is theoretically what you are looking for; correct?

22 A If that many people want to apply.

23 Q Okay. But specific to the hearing we're at today,
24 which is an injunction to stop a certain activity, can you
25 explain what your basis is for the injunction?

1 A Well, the licenses that were granted weren't done in
2 a fair and open manner, and so therefore they're not valid.

3 Q So stop the license winners from opening; correct?
4 That's your position?

5 A No, I don't really necessarily want to stop anyone
6 from opening per se if it was done in a fair manner. If it
7 was granted in a fair manner, then by all means I would like
8 them to open their businesses.

9 Q Okay. So Thrive, for example, my client, are you
10 aware of them?

11 A Yes.

12 Q And Essence is another one of my clients. Do you
13 know who they are?

14 A Yes.

15 Q Okay. So if Thrive wants to open their Sahara
16 location under their City of Las Vegas license, you have no
17 problem with that?

18 A I mean, I think that Thrive will probably obtain a
19 license in a new round of licensing that's done fairly and
20 they should be able to open their store at that time.

21 Q Okay. So after we go through a whole new licensing?

22 A Right.

23 Q How long do you think that would take?

24 A I can't say. Four months, maybe; three or four
25 months just like before.

1 Q And in that new hypothetical round of licensing,
2 would you want diversity to be scored?

3 A I have no problem with diversity being scored.

4 Q Okay. Do you believe diversity is directly and
5 demonstratively related to the operation of a marijuana
6 establishment?

7 A Not necessarily.

8 Q But you say you have no problem with it being
9 scored. Can you explain?

10 A Yeah, I have no concern with it, but I can't see how
11 simply having a diverse set of ownership means you're going to
12 operate a better dispensary, but I'm not opposed to it being
13 included. I was in support of AB422.

14 Q You were in support of AB422, which authorized --
15 which added an amendment to add diversity to the medical
16 marijuana portion; correct?

17 A Correct.

18 Q You never objected to that being a part of this
19 process?

20 A No.

21 Q Okay. With the -- has your company tried to buy a
22 license?

23 A We've had talks but we've never entered into any
24 agreement to purchase a dispensary.

25 Q What do you value a license at? And specifically

1 we'll use the City of Las Vegas, for example.

2 A Well, that's hard to say. I mean, there are a lot
3 of things that come into play with regard to that. It's not
4 easy to just say a license is worth X, so there are a lot of
5 nuances. I'd need more details to be able to give you an
6 answer there.

7 Q Is your company looking for a license in the City or
8 the County? What specific jurisdiction?

9 A We applied in seven jurisdictions, all with
10 significant populations.

11 Q Now, would your company be looking for a -- let's
12 say hypothetically was able to buy a license in the City of
13 Las Vegas for a million dollars. Would it do that?

14 A I can't say for sure. We are -- now we have a board
15 of directors. I'm not sitting on that board of directors.
16 And so that would be a strategy decision that I would have to
17 take up with them.

18 Q Let's say a \$100,000. If someone was fire selling
19 the license, would you buy that license from them?

20 A I would wonder why they would want to sell it for
21 \$100,000 and if it's worth even anything.

22 Q Okay. Hypothetically, though, you would -- let's
23 say your company did buy a license. Would you still be
24 pursuing this lawsuit?

25 A I can't say for sure whether we would be or not.

1 Q Is this process harming any of your existing
2 locations or dispensaries, this litigation?

3 A No.

4 Q And the reason you want to redo the process and get
5 more licenses is because you're looking to obtain more
6 revenue, increase revenue for the company, is that fair to
7 say?

8 A Correct. And also to maintain our market share and
9 be able to continue competing. As a single location we are at
10 somewhat of a disadvantage to those who have multiple
11 locations. So staying a single location while other stores
12 are adding half a dozen or more, that puts us at a significant
13 disadvantage.

14 Q Got it.

15 A It's not necessarily to increase revenue. I'm not
16 of the opinion that new stores means more revenue for
17 everyone.

18 Q Increased market. Maintain your position in the
19 marketplace, market share, is that correct? You're nodding
20 your head. Is that a yes?

21 A That is a yes.

22 Q And now we've talked about taxpayer revenue and
23 that's important; correct?

24 A It is important.

25 Q You believe that that was the intent of the ballot

1 initiative; correct?

2 A No. The intent of the ballot was to legalize
3 cannabis. I think a side benefit of that was the increased
4 tax revenue and the State has seen over 70 million dollars in
5 the last fiscal year of cannabis taxes, in addition to another
6 30 million dollars in State sales taxes. So the ballot
7 initiative's desire to increase taxes for the State has been
8 satisfied through the Early Start program and the 61
9 dispensaries that are currently in existence.

10 MR. GUTIERREZ: Okay. Can we go to 5043, the ballot
11 question.

12 MR. CRISTALLI: What's the number? Oh, I'm sorry.

13 MR. GUTIERREZ: And specifically -- I believe this
14 has already been admitted.

15 THE CLERK: Yes.

16 MR. GUTIERREZ: Page 17.

17 BY MR. GUTIERREZ:

18 Q It says, "Argument for Passage." Do you recall
19 reading this when the ballot question was out?

20 A Yes.

21 Q The third bullet point up there, what does it say?

22 A "It will generate millions of dollars in new tax
23 revenue to support K to 12 education."

24 Q This is what was sold to the public when Ballot
25 Question 2 was passed; correct?

1 A It's part of it.

2 Q But that's what it says; right?

3 A Sure. It's part of it.

4 Q So if a voter is reading this and they believe I
5 don't use marijuana but I believe this is going to help our
6 schools, I'm going to vote for that?

7 A Correct. Now, it didn't make a difference. The
8 budget stayed the same. The schools aren't being given new
9 money from cannabis, they're replacing money. There's a
10 funding formula that exists that caps the amount of money that
11 goes to the schools regardless of how much cannabis money
12 flows into the system. So all we've done is replace other
13 money and the cannabis money has gone into the school system
14 and there is money left over as a result.

15 So it doesn't mean to say that more cannabis tax
16 revenue would mean more money for the schools because we all
17 know that that's not the case. Until the funding formula is
18 changed for the students, they won't have any additional
19 money, no matter if we're making a billion dollars in tax
20 revenues. Our schools will still be broke and the deans will
21 still be out of jobs and it has nothing to do with the amount
22 of money raised by the cannabis industry.

23 Q Wasn't that just addressed by the last legislature?

24 A Well, it still hasn't been fixed yet, obviously.

25 Q Okay. And we're still talking about the purpose of

1 the statute; correct? The purpose was to generate --

2 A The purpose of the statute was to provide personal
3 liberty to Nevadans and people visiting here that wanted to
4 purchase cannabis without being subjected to, you know, a
5 criminal justice system that wasn't fair.

6 Q Understood.

7 A And then one of the side benefits, the third bullet
8 point, not the first bullet point, explains how it will
9 generate millions of taxes. So if it was the most important
10 thing, it might have been the first bullet point.

11 Q Okay, fair enough. Let's go to the bottom where it
12 says, "The initiative provides for a 15 percent excise tax on
13 marijuana which will generate an estimated 20 million
14 annually." Correct?

15 A That is correct.

16 Q What's an excise tax?

17 A An excise tax is the value -- a tax on the value of
18 marijuana, on the wholesale value set by the market analysis
19 conducted by the State.

20 Q So the more people buying marijuana, the more taxes
21 raised; correct?

22 A That is correct, to a certain extent.

23 Q The next sentence says, "This will cover the cost of
24 enforcing regulations. It will also support K through 12
25 education in the State." Correct?

1 A Correct.

2 Q "In addition to this tax, legal marijuana sales will
3 generate more than 30 million annually in state and local
4 sales tax revenue." Correct?

5 A It looks like we've by far beaten that estimate
6 already with just 61 dispensaries.

7 Q Correct. And these new round of dispensaries are
8 putting -- or new round of licenses are putting dispensaries
9 where there really aren't -- haven't been; correct?

10 A In the cases where they were underserved, it could
11 grow the market, sure.

12 Q Thank you. So the next page, page 18, it talks about
13 generating tax revenue and creating thousands of jobs in the
14 state. We've talked about that; correct? And there's a
15 footnote 2. If you could go down to footnote 2, have you seen
16 this study? It's a fiscal benefits analysis, July 2016 by RCG
17 Economics. Have you read that study?

18 A I briefly recall looking through it. I don't know
19 if I read the study in its entirety.

20 Q It's very thorough and it does talk about these
21 issues; correct?

22 A To my knowledge, to my recollection it does.

23 Q And there was even a supplemental study done in
24 October of 2018. Are you aware of that?

25 A Perhaps. I don't know.

1 Q Okay. If this was one of the intents of the statute
2 and of the public, don't you believe that by preventing these
3 61 licenses from opening and operating and restricting revenue
4 that we are harming the intent of the public by --

5 A I don't believe so.

6 Q Let me finish the question. Harming the intent of
7 the public by not allowing this tax revenue to be generated?

8 A No, I don't believe so. It doesn't mean -- just
9 because you open new stores doesn't mean additional taxes will
10 be generated.

11 Q So you're of the position that others dilute the
12 market?

13 A Well, if there are underserved areas that are
14 getting new stores, then perhaps it will help grow the market
15 there. But to just place new stores in areas that are already
16 served by the existing dispensaries doesn't mean that you will
17 just automatically increase your tax base. It will take time
18 to grow the market and the market will grow with the existing
19 number of dispensaries as well.

20 Q Okay. But every month that we go by and the State
21 is not generating income from these additional licenses,
22 there's a loss to the public; correct?

23 A No. The public never had that in the first place,
24 so they're not losing anything.

25 Q So they never had it. So let's us my client, Thrive.

1 They were ready to open in May.

2 A Okay.

3 Q Correct. And let's hypothetically say they would
4 have generated a million dollars in taxable revenue per month.

5 A I don't know if that would have come from Nevada
6 Wellness Center or if that would have come from Oasis
7 customers or some of the other dispensaries that are just up
8 the street from there like The Source or Essence or Relief.
9 You know, I can name six stores within a couple miles of that
10 new location, so it's hard for me to say whether it would have
11 been new customers who just all of a sudden decided to stop
12 buying from the black market because there's a new store down
13 the street from another new store. That's a really hard
14 conjecture for me to make.

15 Q I still don't understand why you want new licenses
16 if it's just going to dilute the market.

17 A I want to maintain my market share. If there will
18 be double the number of licenses, then I'd like to double my
19 number of licenses, too.

20 Q So we've been here for two months just because
21 people want to maintain their market share? You're saying
22 you're not going to have any additional revenue generated?

23 A No, I didn't say that. I said it will take time to
24 grow revenue. You don't just automatically bring people from
25 the black market just because a new store opens. It takes

1 time.

2 Q Okay.

3 A And so time will grow the market. The number of
4 stores doesn't necessarily grow the market. There are other
5 reasons why people choose to not purchase cannabis legally
6 right now and the number of stores in their neighborhood is
7 the least of them at this point.

8 Q Now, can you articulate what the harm is to your
9 company if my client, Thrive, is allowed to open on Sahara?

10 A Well, then the unfair licensing process will have
11 been allowed to continue and there would be harm to not only
12 my store but to the public, the people of Nevada who expect a
13 fair licensing process.

14 Q Any harm to your store specifically?

15 A I can't say.

16 Q Can't say?

17 A I don't know what it would be, if anything.

18 MR. GUTIERREZ: Thank you. I'll pass the witness.

19 THE COURT: Any more defendants or defendants in
20 intervention wish to ask Mr. Sillitoe questions?

21 Mr. Koch.

22 DIRECT EXAMINATION

23 BY MR. KOCH:

24 Q 'Afternoon, Mr. Sillitoe. I know we just met in the
25 hall, and I think you know my brother from way when, so --

1 A Good afternoon, Mr. Koch.

2 Q -- good to meet you this afternoon.

3 Mr. Sillitoe, you're here on behalf of Serenity

4 Wellness; is that right?

5 A That's correct.

6 Q Okay. And Serenity --

7 MR. KOCH: If we could go to Exhibit 5029. Has that

8 been admitted?

9 THE COURT: Is it a proposed exhibit?

10 Any objection to 5029?

11 MR. CRISTALLI: I don't know what it is.

12 MR. KOCH: It's Serenity's Secretary of State

13 printout. It's just a printout from --

14 MR. CRISTALLI: No objection.

15 THE COURT: Be admitted.

16 (Defendants' Exhibit 5029 admitted)

17 BY MR. KOCH:

18 Q We'll put it up on the board for you. Exhibit 5029

19 is the Nevada Secretary of State's printout for Serenity

20 Wellness Center LLC, which shows -- lists the information for

21 Serenity. This is the entity that applied for the license; is

22 that right?

23 A That's correct.

24 Q And listed there the registered agent is Derek

25 Connor. You see that?

1 A Yes.

2 Q He's still the resident agent for the company?

3 A That's correct.

4 Q That's -- he worked with Amanda Connor?

5 A That's correct.

6 Q And we've talked about Amanda Connor. Did Amanda

7 Connor represent Serenity for purposes of the application

8 process?

9 A No, she didn't.

10 Q Okay. But Connor & Connor, that law firm, is that

11 your registered agent?

12 A Yes.

13 Q Okay. On the bottom of that page there's a listing

14 of the officers, and the only officer listed, the one active

15 one in that case Alternative Solutions LLC. Was that the only

16 manager of the company when Serenity applied?

17 A Yes. That was our holding company prior to selling

18 to CLS Holdings USA. So that is the -- that entity is a

19 wholly owned subsidiary of the public company.

20 MR. KOCH: All right. And then let's go to Proposed

21 Exhibit 5030. It's just the Secretary of State for

22 Alternative Solutions.

23 THE COURT: Any objection to 5030?

24 MR. CRISTALLI: No objection.

25 THE COURT: Be admitted.

1 (Defendants' Exhibit 5030 admitted)

2 MR. CRISTALLI: I haven't seen it yet, but I'll take

3 Mr. Koch's word that that's what it is.

4 BY MR. KOCH:

5 Q Just as exciting as the last one. So this is the

6 Secretary of State printout for -- this is the holding

7 company, as you said?

8 A Yes.

9 Q All right. Once again Derek Connor is the resident

10 agent; is that right?

11 A Right.

12 Q Okay. And the officer listed there is CLS Holdings

13 USA, Inc.; is that right?

14 A That's fair.

15 Q And then Debra Freeman, is that a current or -- it

16 looks like historical officer.

17 A That's a historical.

18 Q All right. So as of right now the only manager is

19 CLS Holdings USA?

20 A That's correct.

21 Q That's a public company?

22 A That's correct.

23 MR. KOCH: Last one, Proposed 5031, Secretary of

24 State for CLS Holdings.

25 THE COURT: Any objection?

1 MR. CRISTALLI: No objection, Your Honor.
2 THE COURT: Be admitted.
3 (Defendants' Exhibit 5031 admitted)
4 BY MR. KOCH:
5 Q All right. And this printout, CLS Holdings USA,
6 Inc., this is the public company that you've been referring
7 to?
8 A Yes.
9 Q Here you've got looks like a registered agent, it's
10 a registered agent corporate type of commercial entity; right?
11 Is that right?
12 A Yeah.
13 Q And then the officers listed below it is Jeffrey
14 Binder and Frank Tarantino; is that right?
15 A Yes.
16 Q They're both listed in Miami, Florida; is that
17 right?
18 A Correct.
19 Q Ask you to take a look at Proposed Exhibit 5033,
20 which is corporate structure that you guys have for --
21 MR. CRISTALLI: Comes from the attachment?
22 MR. KOCH: From the exhibit -- the application.
23 THE COURT: 5033? What happened to 5032?
24 MR. KOCH: I just thought I'd skip it.
25 THE COURT: Okay.

1 MR. KOCH: Do you want to see it? It's redacted.

2 MR. CRISTALLI: Okay. No objection.

3 THE COURT: Be admitted.

4 (Defendants' Exhibit 5033 admitted)

5 BY MR. KOCH:

6 Q All right. So for Exhibit 5033 is a corporate
7 structure chart that came from Serenity's application. Are
8 you familiar with this chart?

9 A Yes.

10 Q And did you help the preparation of this chart?

11 A Yes.

12 Q This chart shows Serenity Wellness Center LLC d/b/a
13 Oasis Cannabis. That was the applicant in this application?

14 A That's correct.

15 Q The individuals that are redacted there below, those
16 are all officers, it appears, of Serenity; is that right?

17 A That is correct.

18 Q Okay. Do you know why they're redacted for purposes
19 of this submission?

20 A They're in place, so I don't think their names need
21 to be on here.

22 Q All right. We can -- I won't ask you more about
23 that, but come back if we need to.

24 Up above, then, it shows -- well, on the right-hand
25 side, bottom right, there's "Wholesale Operations." Serenity

1 has wholesale operations; is that right?

2 A That's correct.

3 Q Those entities, did they apply for licenses, also?

4 A No, they did not.

5 Q Just Serenity Wellness Center d/b/a Oasis Cannabis
6 for retail?

7 A Yes.

8 Q Up above that next level is Alternative Solutions.
9 That's the one we looked at the printout for; is that right?

10 A That's correct.

11 Q And it says, "Operations managed by" redacted "CEO
12 and co-founder." I don't think that information is
13 confidential. It's --

14 A That's me.

15 Q That's you. Okay. So you're listed there.

16 A Yes.

17 Q All right. Good. So if we took those black
18 redactions off, your name would be found in --

19 A That's correct.

20 Q Perfect. Up above that, CLS Holdings USA, Inc., the
21 national parent company, "100 percent owner of Nevada
22 operations pending ownership transfer." That's the public
23 company we're talking about; right?

24 A That's correct.

25 Q And the individuals listed there, board chairman and

1 CEO, who is that?

2 A That's Jeffrey Binder

3 Q Okay. Board member. Who's that?

4 A Andrew Blascho [phonetic].

5 Q And the next board member?

6 A Frank Karetski [phonetic].

7 Q And chief financial officer?

8 A That would be Frank Tarantino.

9 Q All right. And this is the current structure of

10 your company?

11 A Frank Tarantino's no longer with us. We have a new

12 CFO.

13 MR. KOCH: All right. Go to Proposed 5035, although

14 it may have been admitted.

15 THE CLERK: It has been admitted.

16 MR. KOCH: Yeah. [Unintelligible] 5035.

17 BY MR. KOCH:

18 Q And 5035, do you recognize this letter, Mr.

19 Sillitoe?

20 A I do.

21 Q What is this letter?

22 A Well, we had a -- we had already completed the sale

23 pending the ownership transfer approval. CLS Holdings

24 purchased 10 percent of our company first, and we submitted

25 the ownership transfer request subsequent to that and worked

1 for months to try to get that done. But that was a very
2 difficult process to complete because of the lack of resources
3 the Department of Taxation had towards ownership transfers.
4 And so when the application period came up we wanted to
5 disclose to the State that we had completed the transfer and,
6 even though the ownership of record with the State was
7 different, we wanted to submit the actual ownership and make
8 sure that it was clear to -- you know, to everyone reviewing
9 the applications that these were the new owners even though it
10 doesn't match the ownership of record.

11 Q Okay. And the State --

12 MR. CRISTALLI: Mr. Koch, is 5035 a stipulated
13 admission on an exhibit?

14 THE COURT: It was admitted earlier.

15 MR. CRISTALLI: Thank you, Your Honor.

16 THE COURT: July 1st.

17 MR. CRISTALLI: Thank you.

18 THE COURT: Thank Dulce.

19 MR. CRISTALLI: Thanks, Dulce.

20 BY MR. KOCH:

21 Q So we've heard some testimony about that from the
22 Department. The ownership transfers will take some time to
23 process from the State's side; right?

24 A Correct.

25 Q And the State would keep -- or the Department would

1 keep a list of all owners, officers, and board members that
2 had been submitted to the Department and track those; is that
3 right?

4 A Yes.

5 Q Okay. And if Serenity or that other entity were
6 submitting proposed change of ownership, it would have to
7 submit that to the State, then the Department would review it
8 and approve or deny that?

9 A Correct.

10 Q And as part of that transfer you'd have to list the
11 individual owners who would be proposed, who the new owners
12 would be, and provide full information to the State?

13 A Yes.

14 Q And that was all for purposes of clarity so the
15 State can make sure the dispensary is being run and operated
16 properly by individuals who it could consider and vet; is that
17 right?

18 A That is correct.

19 Q And this letter -- who wrote this letter? Is this a
20 letter from you?

21 A I wrote that letter.

22 Q All right. So the CEO, co-founder would be, again,
23 if you pulled off the redaction, it'd be Ben Sillitoe down
24 there; is that right?

25 A Yes.

1 Q Okay. And you were referring to the transfer or the
2 purchase from CLS Holdings. And I want to ask a question
3 about the second paragraph, where it says, "All the former
4 owners and founders of Oasis Cannabis are now stockholders in
5 CLSH, and together they own about 29 percent of the
6 outstanding shares of the public company. We have included
7 information from a few significant stockholders that were part
8 of the previous ownership group. The stockholders who are
9 included are" redactions. "The remaining owner information
10 contained in this application relates to officers and board
11 members."

12 So let me ask you just a couple questions about
13 that. The prior owners and founders of Oasis now owned as of
14 the date of this letter 29 percent of the company; is that
15 right?

16 A That is right.

17 Q Who owned the rest of the 71 percent?

18 A The board members at CLS and institutional investors
19 and I assume some retail investors, as well.

20 Q Okay. How many shares outstanding did CLS have as
21 of the date this letter was written?

22 A I believe it was close to 125 million. But I'm not
23 -- I'm not certain.

24 Q Do you know how many shareholders CLS had as of the
25 date of this letter?

1 A I do not.

2 Q 125 million shares. You think it was more than
3 125 shareholders?

4 A It's pure speculation if I say anything.

5 Q So you don't know if it was more than a thousand or
6 less than a thousand?

7 A I have no idea.

8 Q Have you ever reviewed the shareholder list for CLS
9 Holdings?

10 A I have -- I've reviewed the public filings that
11 show the significant shareholders, insiders, and people over
12 10 percent, but I have not reviewed a full shareholder list.

13 Q So the public filings have a cutoff of 10 percent;
14 is that right?

15 A I believe so.

16 Q Do you know why it has that cutoff?

17 A I don't know why. I'm not an SEC attorney. But I
18 would guess that it has something to do with how practical it
19 is to list everyone.

20 Q Okay. Do you know who is redacted here when it
21 says, "The stockholders who are included are," blank, blank,
22 blank, blank, blank?

23 A I think so.

24 MR. KOCH: Okay. I don't know if there's a
25 confidentiality issue with this. I don't think so. But I'm

1 happy to ask Mr. Cristalli first if he has any objection in
2 disclosing those names.

3 MR. CRISTALLI: Your Honor, I think we submitted our
4 Attachment A, which would have all that relevant information
5 that was redacted. So Mr. Koch I think has access to that
6 material.

7 THE COURT: But that would be me that you're asking
8 about, so do you want me to have it, or not?

9 MR. CRISTALLI: Yes, Your Honor. That's fine.

10 THE COURT: Then -- okay. So answer, please.

11 BY MR. KOCH:

12 Q So can you tell us who those names are, the
13 insufficient stockholders.

14 A Well, we asked everybody to do it. Every member
15 that made up that 29 percent, we asked them to be a part of
16 it. So it was only those that were willing to have their
17 names listed who ended up on the application. And so I don't
18 know if my previous partners would be comfortable with me
19 disclosing it, but since this SB 32 came out, then I guess
20 it's all public anyways. Todd Swanson, he's a local
21 orthopedic surgeon; Debra Freeman, one of my founding
22 partners; Archie Perry, who is a significant stockholder, is
23 probably our largest passive stockholder; and Thomas Kim.

24 THE COURT: So was it a cash or a stock sale?

25 THE WITNESS: Both.

1 THE COURT: Part cash, part stock?

2 THE WITNESS: Yes.

3 BY MR. KOCH:

4 Q Okay. And were there some among the 29 percent of
5 the shareholders who did not want their names to be listed in
6 the application?

7 A Yes.

8 Q And so they weren't listed?

9 A That's correct.

10 Q Okay. Do you know if they were ever -- the
11 Department was ever notified of their ownership of part of
12 that 29 percent?

13 A Absolutely. Every owner was approved by the State
14 of Nevada.

15 Q So they were approved, but they weren't put on the
16 application.

17 A That's because we had sold the company at that time
18 and they felt they were only stockholders and they had no
19 obligation to list their names.

20 Q Okay. So you didn't -- some of these individuals
21 thought as stockholders they did not need to list themselves?

22 A That's correct.

23 Q They owned equity in the company, though; right?

24 A Yes. Much less than 5 percent in some cases.

25 Q All right. And the 5 percent you thought was of

1 significance?

2 A Yes.

3 Q Why?

4 A Because we were directed to only include those over
5 5 percent.

6 Q That was part of the regulations; correct?

7 A I believe so.

8 Q And do you believe that that was a reasonable cutoff
9 for determining how could or would not be listed?

10 A I'm not making a judgment on whether it reasonable
11 or not. I only did what I was told.

12 Q Okay. Did you ever provide a shareholder list to
13 the Department irrespective of the fact that there's this
14 5 percent cutoff?

15 A I don't believe we did.

16 Q Okay. So you never said, I know there's a 5 percent
17 but I want to make sure each owner of our company is
18 background checked so here's the full shareholder list?

19 A Had the Department requested that we absolutely
20 would have done so.

21 Q Okay. So the Department never requested -- if they
22 requested it today and they said, we want to run a background
23 check on every one of your shareholders, you'd provide that;
24 right?

25 A We would.

1 Q Okay. And do you expect them to be able to complete
2 that task of background checks?

3 A I don't take anything away from the ability of the
4 Department of Taxation to accomplish difficult things.

5 Q All right. So difficult things. What about -- how
6 many shares of CLS Holdings change hands in a typical day?

7 A Oh, I think we do a couple hundred thousand in
8 volume every day.

9 Q All right. And so if somebody buys a share today,
10 you submit the shareholder list to the Department, they sell
11 that share of stock tomorrow, and then next week that
12 shareholder list will look different; right?

13 A It's very likely.

14 Q Okay. So if the Department asked you to submit a
15 shareholder list, it would depend on which say of the week or
16 month or year that shareholder list that was submitted, that
17 would change who was on there; right?

18 A I believe so.

19 Q Okay. And do you believe -- somebody said the
20 Department's capable of extraordinary feats that may seem
21 impossible. But if you submitted a shareholder list to them
22 every day, do you think they'd complete a background check on
23 each of those individuals on the shareholder list by let's say
24 the next day?

25 A I mean, I can't see how logistically they could

1 accomplish it by the next day.

2 Q What about if you actually submitted a weekly
3 shareholder list? Could that be accomplished?

4 A I can't say. I don't know.

5 Q Do you -- you still own stock in the company;
6 correct?

7 A I do.

8 Q If a shareholder in Canada sitting up there in
9 Ottawa buys 10 shares of CLS Holdings stock and they call you
10 up, say, Mr. Sillitoe, I think we should make some changes in
11 how the company is run, are you going to listen to that
12 shareholder?

13 A No. I report to the board of directors of the
14 company.

15 Q Okay. And have you had any -- strike that.

16 So as of now you're not aware of any minor
17 shareholders, less than 5 percent, that have been submitted
18 for the Department to conduct background checks; is that
19 right?

20 A Well, that's not necessarily true, because everyone
21 who owned stock in the previous company has been through a
22 background check.

23 Q Okay.

24 A And there are many -- well, we had maybe 12 members,
25 I think, of the previous company, and each one of them has

1 been through a background check, and most of them are less
2 than 5 percent.

3 Q Right. So as of now there's some prior owners that
4 continued on as owners, and they were background checked when
5 they got the medical certificate; correct?

6 A Correct.

7 Q And that background check is still in place today;
8 right?

9 A I assume so.

10 Q And the Department needs to run that background
11 check again after some period of time; is that right?

12 A Yes. I guess. If that's what you're telling me.

13 Q And that background check, do you know what that
14 entails?

15 A I do not.

16 Q Do you know if fingerprints are required?

17 A I believe so.

18 Q Currently do you have any role with respect to
19 communications with CLS Holdings USA shareholders as far as
20 reports or releases that go to them?

21 A No.

22 Q Have there been any notices to shareholders of CLS
23 Holdings that they may need to submit to background checks as
24 part of their ownership of shares of --

25 A I'm not aware.

1 Q The 5 percent rule or regulation we've talked about
2 that's found at NAB 453D.255, you were aware of that
3 regulation at the time that this application was prepared and
4 submitted?

5 A I believe so.

6 Q Because that was passed in January or February,
7 adopted in 2018; right?

8 A Yes.

9 Q Was that fairly well known in the industry, that
10 there's a 5 percent threshold?

11 A I don't know if that's fairly well known.

12 Q Among public companies do you believe that that's
13 fairly well known?

14 A I think that it's probably well known among -- or at
15 least known among who needs to know at public companies.

16 Q Is there any rule against a public company owning a
17 marijuana establishment in the state of Nevada that you're
18 aware of?

19 A Not that I'm aware of.

20 Q Do you believe that there should be a rule against
21 public companies from owning marijuana establishments?

22 A No.

23 Q That's probably -- I'd be surprised if you said yes.
24 I never know. Gotta ask.

25 Let me ask you about the scores for Serenity here.

1 You're aware of the scores that Serenity received as part of
2 this application?

3 A Yes.

4 MR. KOCH: And if we can go to Exhibit 5004. Good
5 job, Brian. And we're going to look at the first four.

6 BY MR. KOCH:

7 Q [Unintelligible] in Las Vegas; is that right?

8 A That's correct.

9 Q And if we can go to the bottom I believe is Las
10 Vegas. What place did Serenity come in in Las Vegas?

11 A I don't recall.

12 Q Forty-sixth; does that sound about right?

13 A It looks right on here.

14 Q Okay. We can zoom it in. I'm having a hard time
15 seeing it.

16 Okay. Forty-sixth, with 180.17 points; is that
17 right?

18 A That's correct.

19 Q So that was about 28 points short of getting into
20 the top 10, it looks like; correct?

21 A Yes.

22 Q Were there any -- as you sit here today do you
23 believe that Serenity was misscored? After you've seen the
24 information related to Serenity were there any misscorings
25 that you believe should --

1 A I don't have enough information to make that
2 determination.

3 Q And if we look at North Las Vegas, couple sections
4 down, we can look at thirty-ninth place. Serenity also
5 applied in North Las Vegas; correct?

6 A Correct.

7 Q And same score, 180.17; right?

8 A Yes.

9 Q And 214 is the cutoff there. So about 34 points
10 out; is that right?

11 A I'm not great at math without a calculator, but I
12 think you're right.

13 Q Okay. This lawsuit, do you believe that -- are you
14 anticipating that the Court will award Serenity a license as a
15 result of this lawsuit?

16 A I can't say what the outcome of this lawsuit will
17 be.

18 Q Okay. And I won't ask you to talk about your
19 communications with counsel, but surely you must have thought
20 about why we're filing this lawsuit and what was the purpose.
21 of filing this lawsuit.

22 A Well, the whole process was done without
23 transparency, without adequate training for the people
24 involved, and without clear scoring mechanisms that were
25 discussed with us afterwards. We had no idea why we scored

1 what we scored, were there errors that could have been
2 addressed, could more information have been requested as the
3 State indicated they would request in the application process.
4 And none of those things turned out to be true. So we believe
5 that it was not done in the proper manner and needs to be
6 thrown out, as Frank said, and redone.

7 Q So the relief that Serenity would like as a result
8 of this lawsuit is to just throw out the old process and start
9 again?

10 A Yes.

11 Q Would that be preparation of brand-new applications?

12 A You know, I don't know if we would prepare brand-new
13 applications. We might, you know, secure locations and do
14 more work with regard to that. But I don't think that we
15 would draw up the applications and start from scratch.

16 Q And with respect to securing locations, what if the
17 State came back and said, all right, we're doing brand-new
18 applications, just like last time you don't need a location,
19 just submit "to be determined," something like that, that be
20 -- change the outcome at all with respect to locations?

21 A I can't say whether or not it would.

22 MR. KOCH: Okay. In fact if we go to Exhibit 303.
23 I know this one's been admitted, so I think we're good there.
24 BY MR. KOCH:

25 Q This says a score sheet or the tracking sheet the

1 State has provided. And have you ever seen this before today?

2 A I have not.

3 Q If we go to Bates Number 41840, this has --

4 MR. KOCH: We're going to go down to the bottom,

5 Brian, where Serenity Wellness has its entries.

6 BY MR. KOCH:

7 Q Serenity is listed there as [unintelligible] from

8 RD322 to 328. You're aware of those numbers being assigned to

9 Serenity?

10 A They're familiar.

11 Q And the address that was submitted as part of

12 Attachment A for Serenity on each of those applications, can

13 you read what it says on 322.

14 A "To be determined."

15 Q All right. The same for the rest down to 328;

16 correct?

17 A Correct.

18 Q So that's what Serenity submitted, to be determined.

19 It did not submit a specific location; correct?

20 A That is correct.

21 Q You understood that that was acceptable; right?

22 A Yes.

23 Q It would not discount or disqualify Serenity from

24 obtaining a license to submit to be determined; is that right?

25 A That was my understanding.

1 Q And the process as we understand it is that a
2 conditional license would be awarded and then the applicant or
3 successful applicant would work with the jurisdiction or
4 locality to secure a final location that would be approved
5 both by the jurisdiction and then finally by the Department.
6 Did you understand that?

7 A That was my understanding.

8 Q And let me ask you this last thing. Question 2, you
9 talked about your understanding of why that question -- what
10 it was really asking. And you said it's personal liberty, the
11 ability to use marijuana products; is that right?

12 A I believe that, and to eliminate crime or reduce
13 crime.

14 Q So to get rid of black market or illegal sales of
15 marijuana, allow it to be regulated in a manner to eliminate
16 or at least limit crime in that area; correct?

17 A Nevada has a great track record of regulating things
18 which would otherwise be illegal, and it has shown to reduce
19 crime and make it safer for people who would do it without
20 regulation.

21 Q Right. So you're talking about maybe gaming?

22 A Prostitution.

23 Q Prostitution. Other areas that maybe don't fly in
24 other states, but Nevada decided let's try it?

25 A It's kind of our thing.

1 Q All right. And marijuana -- we followed some other
2 states, and some other states are now following us. You're
3 aware of that; right?

4 A Yes.

5 Q And Nevada has adopted regulations with respect to
6 recreational marijuana. Do you expect those regulations will
7 change over time?

8 A Oh, yeah. They continue to evolve all the time.

9 Q They'll hopefully improve; right?

10 A They have only improved since the beginning.

11 Q Good. Good. And same goes -- gaming regulations,
12 you're aware that gaming regulations over time or statutes
13 have improved or changed; right?

14 A I'm not an expert in gaming, but I assume that seems
15 like it would be reasonable.

16 Q And you would expect that over the passage of time,
17 10 years from now the regulations relating to the regulation
18 and licensing of marijuana may be very different from what we
19 see today?

20 A I would expect so.

21 Q And if the Department of Taxation were to adopt a
22 new process -- let's say two years from now they say, we're
23 going to submit -- we're going to allow for new applications.
24 We're going to allow people to submit new applications, that
25 those rules and regulations may be different the next time

1 around than they were this time?

2 A They may be.

3 Q And they may learn from this time and say, well,
4 here's some things we can do better, we'll improve next time;
5 correct?

6 A You would hope.

7 Q Okay. You wouldn't expect perfection the first time
8 around when they have an application process?

9 A Perfection is always an elusive thing.

10 MR. KOCH: All right. Thank you. No further
11 questions.

12 THE COURT: Anyone ones, defendants, defendants in
13 intervention?

14 MR. SHEVORSKI: Just real quick, Your Honor.

15 THE COURT: Mr. Shevorski.

16 DIRECT EXAMINATION

17 BY MR. SHEVORSKI:

18 Q Good afternoon.

19 A Good afternoon.

20 Q Quick question with respect to -- Mr. Koch's asked
21 you a few questions about retail investors and it's possible
22 for a retail investor to hold a share of the holding company
23 for one day, couple hours?

24 A Presumably so.

25 Q And you're aware that it's possible for not even a

1 human being to purchase a share; right? It could be through
2 an algorithm in the computer?

3 A I'm not aware of that.

4 Q Okay. With that, shares purchased and sold within
5 the same day and it's a small proportion, say two shares of
6 your company, during that time period has the ownership of
7 that share any threat to public health and safety in Nevada?

8 A No. That 60-cent investment is probably
9 inconsequential.

10 Q It doesn't matter who the owner is?

11 A I can't see how they would benefit from owning two
12 shares of stock.

13 Q My question was does it matter who the owner is of
14 that 60-cent investment during the time period to the public
15 health and safety of Nevada.

16 A I don't see how it would impact the public health
17 and safety of Nevada.

18 MR. SHEVORSKI: Thank you. No further questions.

19 THE COURT: Anyone else?

20 MR. GRAF: Real quick, Your Honor.

21 THE COURT: Mr. Graf.

22 DIRECT EXAMINATION

23 BY MR. GRAF:

24 Q Good afternoon, Mr. Sillitoe. My name is Rusty
25 Graf, and I represent Clear River in this action. I just want

1 to make sure I was clear and the Court was clear on something.
2 You applied for seven -- or you submitted seven applications?
3 A Correct.
4 Q Seven applications, different jurisdictions?
5 A Yes.
6 Q Okay. And in those -- or with those applications
7 were you ever given any guarantees that you were going to get
8 a license on any of those?
9 A No.
10 Q Okay. Were you ever told by anybody at the State
11 that there was a certainty that you would get a license if you
12 submitted an application?
13 A No.
14 Q Okay. You sold -- or your company sold within the
15 last year, I think you said.
16 A A little over a year ago.
17 Q Okay. And there was a price?
18 A Yes.
19 Q And that was a known price?
20 A Yes. Publicly available.
21 Q I'm sorry?
22 A It's publicly available information.
23 Q So what did it sell for?
24 A \$18,250,000. But that was all three of our
25 companies, not just the dispensary.

1 Q Okay.

2 A And I think it was a low price.

3 Q All right. And you think it could have been more?

4 A Absolutely.

5 Q And you're aware and you stay up on the sales of

6 other dispensaries, production, and cultivation facilities in

7 Nevada --

8 A Somewhat.

9 Q -- right?

10 A Somewhat. But not -- I don't follow it religiously,

11 but I am aware of some.

12 Q Okay. And they're selling for prices that you're

13 aware of; right?

14 A Yes.

15 Q And those prices are known in the public and in the

16 industry?

17 A Yes.

18 Q Okay. You said that your -- and this is my last

19 area I'm going to ask you about. You said that your problem

20 with this process is that it wasn't fair. Do you remember

21 that?

22 A Did I say fair?

23 Q I thought so.

24 A Okay. Sure.

25 Q I wrote it down.

1 A That sounds good.

2 Q Is your problem with the score that you received, or
3 the score that other applicants received?

4 A My problem is that I don't believe the scores were
5 all given out in the same manner. They weren't graded in the
6 same way, and there was probably too much subjectivity that
7 occurred with the scorers.

8 Q Okay. So your problem is with the scores that were
9 received by the other applicants that were successful?

10 A I can't speak to whether or not theirs were graded
11 fairly, but the process itself wasn't conducted in a fair
12 manner, and it's likely that many of the scores were graded in
13 an unfair way.

14 Q Okay. So --

15 A Without consistency.

16 Q And maybe I talked you into it, but I'm trying to
17 figure out what you mean by an in an unfair way. What was --

18 A Kind of the same things I said before, where there
19 was a lack of clarity on how the different scoring was given
20 out for each category and the people that were doing it, that
21 were giving out the scores, they weren't trained properly in
22 order to score effectively and correctly. So it's hard to
23 argue that they were experts that were knowledgeable enough to
24 give objective scores out. And so it just wasn't done in a
25 transparent and fair way.

1 MR. GRAF: Thank you.

2 THE COURT: Anyone else?

3 MS. SHELL: Your Honor, I --

4 THE COURT: Ms. Shell.

5 MS. SHELL: I just have a quick question for Mr.

6 Sillitoe.

7 THE COURT: No. You never ask questions. So we are

8 going to make sure that we listen.

9 MS. SHELL: That's not entirely true, Your Honor.

10 I have asked questions before when forced to.

11 THE COURT: It is rare for you to ask questions.

12 MS. SHELL: You know, my co-counsel at table here do

13 such an adequate job of thoroughly --

14 DIRECT EXAMINATION

15 BY MR. SHELL:

16 Q So, Mr. Sillitoe, my name's Alina Shell. I represent

17 GreenMart of Nevada an LLP in this matter. I just had a quick

18 question for you in response to some answers you gave to Mr.

19 Graf. Now, you said that it was not likely that the scoring

20 was conducted in a fair manner. What do you base that on?

21 A The outcome.

22 MS. SHELL: No further questions, Your Honor.

23 THE COURT: Anybody else? Anyone else?

24 Thank you, sir. We appreciate your time. Have a

25 very nice afternoon.

1 Your next witness.

2 MR. GUTIERREZ: Thank you, Your Honor. I would call
3 Sean Luse.

4 SEAN LUSE, DEFENDANTS' WITNESS, SWORN

5 THE CLERK: Thank you. Please be seated. Please
6 state and spell your name for the record.

7 THE WITNESS: Sure. My name is Sean Luse, S-E-A-N
8 L-U-S-E.

9 THE COURT: Sir, there's water there if it's still
10 in the pitcher, there are M&Ms in dispenser, and tons of
11 exhibits. So if you need a break, you let us know.

12 Mr. Gutierrez, you're up.

13 DIRECT EXAMINATION

14 BY MR. GUTIERREZ:

15 Q Good afternoon, Mr. Luse. What's your current
16 position?

17 A I am an owner of Nuleaf and also serve as the chief
18 operating officer.

19 Q And how long have you been with Nuleaf?

20 A Since the founding. So we founded the company in
21 early 2014.

22 Q When you say we who are you discussing?

23 A Well, my various co-founders.

24 Q Who were they?

25 A Specifically Tim Schick and Dan Bontan, so longtime

1 business partners of mine from California. And then local
2 people, Kenny Kuykendall, Ben Sabouri, Jeff and Paulette
3 Copoff, John Sandy III.

4 Q And how many dispensaries does Nuleaf currently
5 operate?

6 A We operate two. We also have a City of Las Vegas
7 license that's currently unoperable -- nonoperating.

8 Q Where are those two dispensaries?

9 A There's one in Incline Village. It's on the
10 Boulevard, and then one here in Clark County, unincorporated
11 Clark County, Twain and Paradise.

12 Q Okay. And were you part of the 2014 application
13 process?

14 A I was, yes.

15 Q And did you fill out the applications personally, or
16 who did that for your company?

17 A Oh. I was involved in the coordination of them.
18 You know, we had a team involved, as well as legal
19 representation. So it was a team effort.

20 Q And was Mr. Kuykendall a part of that, as well?

21 A Not in a big role, no. I mean, he was certainly at
22 that point a founder of the company and a board member, but
23 wasn't that involved in the application process.

24 Q Was he part of the 2018 process?

25 A Same thing. Still a part of the company, so

1 involved in a tangential way through board meetings and things
2 like that, but not involved intimately in the process.

3 Q And how many medical marijuana licenses did Nuleaf
4 obtain?

5 A So we were granted five initially in 2018, two
6 cultivation and three dispensary -- or 2014.

7 Q And was Nuleaf part of the State and County
8 lawsuits?

9 A That's correct.

10 Q What side was Nuleaf on?

11 A So we would have been the State [unintelligible].

12 Q So you were granted licenses by the State; is that
13 fair to say, or at that point, 2014, or is it opposite?

14 A Well, I guess -- when you say which side were we on,
15 I would say were the State [unintelligible], because we
16 initially had our special use permit denied by the County, but
17 then we ranked highly when the State rankings came out, and
18 then the resolution came during the legislative session.

19 Q And how did that whole State and County lawsuit
20 affect the development of the 2018 process?

21 A For us personally, or are you asking me more
22 broadly, like the whole process or --

23 Q More broadly for the industry. That lawsuit
24 presented some type of -- there was a -- they knew there was
25 an inconsistency with how local governments were approving

1 with the State; correct?

2 A Uh-huh.

3 Q Is that a yes?

4 A That's generally at the heart of it, yes.

5 Q But how did the industry sort of lobby or discuss
6 that with the Department in how to improve the 2018 process?

7 A You know, it's hard for me to speak on all the broad
8 swath of lobbying. I mean, I think, you know, there was court
9 cases around that, too, a case in the City of Las Vegas that
10 we were involved with that ended up at the Supreme Court. So,
11 you know, I think it probably influenced people's thinking on
12 the process some and -- about locations and who really gets to
13 decide those and things.

14 Q And that case, that was a published Supreme Court
15 decision; right? Is that correct?

16 A Uh-huh. Yeah.

17 Q Yes?

18 A Yes.

19 Q That involved you said your City of Las Vegas
20 license?

21 A Yeah, it did.

22 Q Tell me a little bit about that case.

23 A Yeah. Sure. So in 2014 the State ranked us as
24 Number 2 in the City of Las Vegas jurisdiction, but just a
25 couple weeks before that we had our special use permit denied.

1 And then -- so as we were moving forward it was our
2 understanding that we would go for a new location, you know,
3 we had a counsel member on record during the hearing saying
4 that, hey, we like these operators, we just don't like that
5 location. So our understanding was we'd just get a new
6 location and apply for another special use permit, since we
7 were ranked so highly by the State and had that provisional
8 license. Other participants felt otherwise, and they filed
9 suit with an attempt at having our provisional license
10 reassigned to another group, to the thirteenth group in the
11 City, since the top 12 received provisionals.

12 Q Who was that other group?

13 A It was originally GB Sciences, is my recollection.
14 And then at the last minute, though, there was a scoring
15 change and the group that became Acres came from way down the
16 list at 40-something and became the new 13, the new thirteenth
17 ranked applicant. And then when the District judge sided with
18 them, they -- 13 got the license, Number 2, Nuleaf, did not.
19 And then we appealed to the Supreme Court, the Supreme Court
20 reversed that decision back to us.

21 Q Supreme Court reversed that decision in your favor;
22 correct?

23 A Yeah. And now we have the City of Las Vegas
24 license.

25 Q And you just haven't got the special use permit to

1 get that operational?

2 A We have that. We just haven't completed build-out
3 and actually opened to doors, but we do have the special use
4 permit.

5 Q Okay. Now, as part of the 2018 process how much
6 time did Nuleaf spend on that application?

7 A Oh, a significant amount of time. We had multiple
8 people from Sandy Law working, working on the application for
9 months. We had multiple staff members involved. We were
10 actively engaged in real estate pursuits, trying to tie up
11 properties and get that. So there's a lot. I don't have a
12 firm number on it, but significant.

13 Q Did -- and Nuleaf did very well on the medical
14 application, correct, on their scores?

15 A Yeah, I'd say so.

16 Q And Kenny Kuykendall, it's -- did he have -- I know
17 we asked this, but what was his role with the application
18 process?

19 A I'd say in preparing the application virtually no
20 role other than filling out his attestation and, you know, the
21 required things as a minority owner and a board member. But
22 in terms of writing applications or things like that --

23 Q Were there portions of the application for Nuleaf
24 that you just did a find and replace for medical?

25 A I don't think that was our approach, no. I mean,

1 certainly we did a number of -- you know, we did edit
2 documents, we did create new documents. You know, regulations
3 changed, our operation's evolved. But I don't think it was a
4 simple find and replace, no.

5 Q But some portions you would agree that were you just
6 a find and replace?

7 A No. That's not my recollection of a process.

8 Q If Mr. Kuykendall told that to Mr. Burton, my
9 client, that would be false, that Nuleaf just did a find and
10 replace and that was one of the reasons he believed they lost?

11 A Yeah. I don't believe that's true, no.

12 Q Okay. With that application how did Nuleaf do in
13 the scoring round for the 2018?

14 A How did we do? We applied for five licenses, five
15 jurisdictions, and we received zero.

16 Q And what jurisdictions were they?

17 A It was unincorporated Clark County, City of Las
18 Vegas, North Las Vegas, Reno, and Sparks.

19 Q Okay. Now -- and you authorized this lawsuit to be
20 brought; correct?

21 A Correct.

22 Q And what was the basis for you bringing this
23 lawsuit?

24 A A feeling that the process was -- initially when we
25 started we were concerned about the opaque nature of it. We

1 really didn't know what happened. When we started to piece
2 together information we saw that it appeared that a large
3 number of licenses had accumulated in the hands of very few
4 groups and didn't -- didn't make sense to us, and we didn't
5 know what really happened, and we felt the only way to
6 preserve our rights and find out was to file the lawsuit.

7 Q And since the filing of the lawsuit SB 32 gave a lot
8 of transparency on the scoring process. Do you agree?

9 A I do agree.

10 Q And is transparency still an issue for your company
11 with this litigation?

12 A I don't believe -- transparency is not a huge issue
13 for us at this point. I do think there's been a lot, both
14 through these hearings and through that piece of legislation
15 that has come out. But the more we've learned in here I think
16 the more we've realized that our suspicions maybe were true
17 and that there was a lot inconsistent things which seemed to
18 be sloppiness, poor training, you know, a number of things
19 that have come to light now that we've shown the light on it.

20 Q Sloppiness and poor training. But one of the
21 initial allegations that came out of this was some type of
22 favoritism or corruption. You no longer believe that;
23 correct?

24 A I haven't seen any evidence of, you know, bribery or
25 corruption. I do think that what it sounds like is some

1 people had more access and maybe even personal relationships
2 with important people in the Department of Taxation that may
3 have -- may have been part of this.

4 Q You believe this was a scoring process using
5 impartial graders, though; correct?

6 MR. CRISTALLI: Objection. Calls for speculation.

7 THE COURT: Overruled. You can answer.

8 THE WITNESS: You know, I have no evidence that
9 they're not impartial, but I don't know a lot about --
10 BY MR. GUTIERREZ:

11 Q Well, let me ask it this way. The graders that were
12 used for this were independent contractors; correct?

13 A That's my understanding, yes.

14 Q They weren't part of the Department of Taxation;
15 correct?

16 A Correct.

17 Q They didn't have any knowledge as to how the
18 different companies were; is it fair to say?

19 A I would imagine that's fair.

20 Q Okay. So do you believe using an independent
21 contractor, as opposed to like a compliance officer, gives
22 that grading process more of an impartial feel?

23 A It could be more impartial, yes. But I think it may
24 also make it less informed and less likely to make the proper
25 determinations.

1 Q And do you think the scoring process is similar to
2 2014 in 2018?

3 A The scoring process, like how the actual
4 applications were judged and --

5 Q Yes.

6 A I think on paper it looks somewhat similar. But I
7 think in practice I don't believe it was similar.

8 Q Do you -- are you making any claim that NRS 453D,
9 the actual statute that adopted the ballot issue, that that is
10 flawed? Are you making that claim?

11 MR. CRISTALLI: Objection. Attorney-client.

12 THE COURT: Overruled. You can answer.

13 THE WITNESS: That Question 2 was --

14 BY MR. GUTIERREZ:

15 Q Let me ask you this way. Question 2, the ballot
16 initiative, was put into a statute, NRS 453D; correct?

17 A Correct.

18 Q Are you making the claim that NRS 453D isn't
19 consistent with the ballot initiative?

20 A Am I making that claim? I think it's likely that
21 there are some inconsistencies, yes.

22 Q Okay. Let's go through that. Let's pull up 453D
23 and ask specifically what those -- and I'm talking about
24 inconsistency with the ballot initiative and that statute. I
25 want you to explain for us -- if the book is front of you, you

1 can turn to 453D. Right to your left, sir.

2 THE COURT: It's right here, this blue book. And in
3 the paper part on the back. It's called a pocket part for
4 lawyers.

5 BY MR. GUTIERREZ:

6 Q We could pull up the ballot initiative, too, if you
7 need it. But my question's very specific as to this statute
8 in following the ballot question, are you claiming that this
9 statute is inconsistent in any way the ballot initiative?

10 MR. CRISTALLI: Objection. Calls for a legal
11 conclusion.

12 THE COURT: Overruled.

13 THE WITNESS: Yeah. I mean, I'm not going to be
14 able to read the whole thing and cross-reference it while
15 we're here. So --

16 BY MR. GUTIERREZ:

17 Q We've been talking about regulations under NAB 453D.
18 Are you aware of that?

19 A Yes, I'm aware of its existence, uh-huh.

20 Q Okay. And is your claim that the regulations don't
21 follow this statute, or is it that the statute doesn't follow
22 the ballot initiative? Just trying to be clear on this.

23 A Right. Yeah. So I'm -- I'm -- believe it's my
24 thinking is the regulations not following --

25 Q Okay. And you've been in court; right?

1 A I have. Not nearly as much as maybe some people,
2 but I've been here a few days.

3 Q Not as much as Mr. Hawkins, though. So we've been
4 talking about the regulations following the statute. But, to
5 be clear, you're not saying that the statute is not -- is
6 inconsistent with the ballot initiative?

7 A Yes, I suppose I am talking about the regulations be
8 inconsistent with the statute.

9 Q We've talked about background checks and you've been
10 here on background checks; correct?

11 A Yep.

12 Q And we've talked about diversity; correct?

13 A Uh-huh.

14 Q We also talked about the whole proposed location;
15 correct?

16 A Right.

17 Q Now, with diversity are you -- is it your position
18 that diversity's not directly or demonstrably related to the
19 operation of a marijuana establishment?

20 A Yeah. That is --

21 Q And explain why you believe that.

22 A Because I believe that absolutely no evidence or
23 studies or anything that would indicate that somebody's
24 State's Exhibit or ethnic background is an indicator or
25 predictor of how well they can operate a dispensary.

1 Q With respect to background checks and the 5 percent
2 requirement, was the 5 percent requirement in place when you
3 did the 2014 and '15 applications?

4 A I believe it was. We are a private company
5 ourselves, so it's not a focus of ours.

6 Q You said you believe it was?

7 A Yes.

8 Q Okay. You had no objection then, to the 5 percent
9 requirement?

10 A Not a formal objection.

11 Q Okay. But now you have an objection because you
12 didn't get a license, is that fair to say, because of this
13 5 percent requirement?

14 MR. CRISTALLI: Objection. Argumentative.

15 THE COURT: Overruled.

16 THE WITNESS: Yeah. I wouldn't say that, no. I
17 think that between the 2014 and 2018 a lot has changed and
18 we're seeing there's a lot more public companies, there's a
19 lot different ones, they're based in other countries. It's
20 just a -- it's whole 'nother world than there in just five
21 years, in my opinion.

22 BY MR. GUTIERREZ:

23 Q But you had the opportunity to object to any of the
24 regulations during the process when they were holding public
25 workshops or talking with the industry leaders; correct?

1 A Yeah.

2 Q And you didn't raise any issue with the 5 percent
3 requirement when they were adopting the regulations for 2018;
4 correct?

5 A No, I did not.

6 Q Okay. We've talked about irreparable harm and the
7 harm that could be incurred if there's an injunction that's
8 not granted. Can you express that -- explain that to me what
9 the harm would be to your company, Nuleaf, if an injunction is
10 not granted?

11 A Yeah. I would say that -- back to the point of
12 background checks, you know, I believe we've heard now and
13 know that many owners of companies weren't background checked,
14 weren't fully vetted. And so I worry that there could be a
15 broad backlash by the federal government that may disrupt our
16 whole program here and pull the rug out from under us and
17 perhaps everybody would lose our licenses, lose the tax money.
18 And so I think that's one potential harm that could come.

19 Q Okay. Anything else?

20 A Obviously there's the potential for financial harm
21 to our business or loss of market share, loss of revenue,
22 things like that?

23 Q Anything else?

24 A I would say the other harm is just the nature of the
25 concentration of licenses that this new round would create,

1 that there could be an oligopoly of a few operators who
2 control, you know, double digit licenses, and I think that has
3 the potential to pervert the whole market, potentially drive
4 down tax revenue, and create a competitive imbalance that
5 harms other businesses.

6 Q You're aware that the regulations for NRS 453D allow
7 that in the judgment of the Department they can do a
8 background check on a less than 5 percent owner?

9 A I am aware of that, yes.

10 Q So hypothetically, if the Department did background
11 checks on public companies tomorrow, would that satisfy your
12 concern and allow these licensees, these 61 licenses to go and
13 get opened?

14 A Not every single concern, no.

15 Q Well, then we have -- what other concern would we
16 still have?

17 A Well, there would be the concern of the entire
18 process and what we might learn farther down the line in this
19 case, and there's the comments I still made about what a
20 virtual oligopoly could create here in the market forces at
21 play, things like that. Certainly there's more. That was
22 just the main one that came to mind first.

23 Q And there is an anti-monopoly [unintelligible] in
24 the regulations; correct?

25 A That's correct.

1 Q And that 10 percent of a certain number of licenses
2 based on population; is that correct?

3 A Yeah.

4 Q And would you agree that if a company complies with
5 that regulation that they're in compliance with the anti-
6 monopoly provisions of the regulations?

7 A Yes.

8 Q Okay. We've talked a little bit about tax revenue
9 being lost. Do you think that tax revenue is actively being
10 lost with these new licenses not being able to open?

11 A I don't know, but I highly doubt it.

12 Q And you say you highly doubt it. Why do you say
13 that?

14 A Because I do believe that there -- we -- that the
15 needs of cannabis consumers are largely being met in Nevada, I
16 think like you heard from a previous witness. I don't believe
17 that there's all these people who are just waiting for another
18 dispensary to open downtown and then they'll start buying
19 cannabis. I think we've largely captured the market and that
20 there's not going to be all this new tax revenue coming.

21 Q What about in some of the counties that haven't had
22 dispensaries that will have a new dispensary?

23 A That's -- that could be different. I don't think
24 there's many of those counties that have more than ten, 20,000
25 people in them, but it could be a small amount of tax revenue.

1 Q And that could be additional tax revenue for the
2 State if they're allowed to open; correct?

3 A It could be, yes.

4 MR. GUTIERREZ: All right. I'll pass the witness,
5 Your Honor. Thank you.

6 THE COURT: Any other defendant, defendant in
7 intervention have questions?

8 MR. SHEVORSKI: Quick, Your Honor.

9 DIRECT EXAMINATION

10 BY MR. SHEVORSKI:

11 Q Good afternoon, Mr. Luse. Steve Shevorski of the
12 Attorney General's Office.

13 My friend Mr. Gutierrez was asking a few questions.
14 You mentioned locking up properties. You would agree with me
15 at the time you submitted your application you did not
16 indicate on your application that you had actual physical
17 addresses, correct, for any of the licenses you were applying
18 for?

19 A That is correct.

20 MR. SHEVORSKI: No further questions.

21 THE COURT: Any other defendant, defendant in
22 intervention have questions?

23 Anyone from the plaintiffs' side?

24 Mr. Graf, nothing from you?

25 MR. GRAF: No, no, no. [Inaudible].

1 THE COURT: All right. Thank you, sir. We
2 appreciate your time. Have a nice afternoon.
3 Next witness.
4 MR. GUTIERREZ: I think that's all of our witnesses
5 for today. We have a few witnesses. We have a few witnesses
6 with Mr. Bult's clients that will be available at the next
7 hearing.
8 THE COURT: And our next hearing for you guys is?
9 MR. KOCH: Thursday morning?
10 MR. GUTIERREZ: Thursday morning.
11 THE COURT: So we're starting Thursday morning at
12 9:30.
13 MR. GUTIERREZ: That works for me.
14 MR. GENTILE: Your Honor, what is the schedule for
15 Thursday? Are we going all day?
16 MR. PARKER: No. We can't. I've got a board
17 meeting.
18 THE COURT: Teddy has to go to a board meeting.
19 Still the Housing Authority board, Mr. Parker?
20 MR. PARKER: It is, Your Honor.
21 THE COURT: He goes to the Housing Authority board
22 apparently every time I schedule a hearing.
23 MR. PARKER: [Inaudible].
24 THE COURT: So the question is how quick are these
25 two witnesses going to be? About the same?

1 MR. GUTIERREZ: About the same, Your Honor.

2 THE COURT: Forty minutes each?

3 MR. GENTILE: Here's my problem. You were going to
4 ask by the end of the day today if we were going to call a
5 rebuttal witness. We are.

6 THE COURT: No, I'm not going to ask you that till
7 Thursday.

8 MR. GENTILE: Oh. Thursday you're going to ask.

9 THE COURT: I told you I was going to ask you when
10 those witnesses finish.

11 However, before I let you guys go for the day, since
12 I have minutes of your time still, I have a pending motion to
13 seal that was on my calendar on Friday that I was hoping I
14 would get some redacted versions of proposed exhibits from
15 some of you. Mr. Koch is prepared to discuss that issue with
16 me.

17 Do you have a proposed redaction for me, Mr. Koch?

18 MR. KOCH: The items -- the ones that we believe
19 should be sealed from Nevada Organic Remedies gave four sets
20 of Bates numbers.

21 THE COURT: Nope. Give me the actual documents with
22 the proposed redactions on them.

23 MR. KOCH: Okay. I can do that. I don't have it
24 today, but I'll --

25 THE COURT: Okay. Can you do that on Thursday?

1 MR. KOCH: We can do that.

2 THE COURT: So, Dulce, continue it to Thursday at
3 9:30.

4 MR. KOCH: And with respect to planning my
5 understanding and hope is that Thursday there's a possibility
6 of finishing witnesses. I don't know if that hope is
7 justified or not, but there's some talk about potentially
8 trying to find a day next week for closing arguments, maybe
9 schedule it now. I know we said Wednesday is a possibility.
10 I don't know if what the Court's schedule looks like.

11 MR. KEMP: Judge, I don't think that's a possibility
12 because of this rebuttal witness.

13 THE COURT: When is the -- if you call a rebuttal
14 witness -- hypothetically if you call a rebuttal witness, when
15 might they be available?

16 MR. GENTILE: He will fly in here on the 28th and
17 testify the 29th.

18 THE COURT: So are you assuming I have nothing to do
19 on the 29th?

20 MR. GENTILE: I did not. He's available on the
21 30th, as well.

22 THE COURT: You know, 'cause I have stuff the 29th,
23 30th, and 31st.

24 MR. GENTILE: I could bring him later than that. I
25 was trying to get him in as soon as he's available, and that's

1 as soon as he's available.

2 THE COURT: Can he testify by video?

3 MR. GENTILE: I don't think so. He's got
4 commitments in Colorado and in Chicago.

5 THE COURT: Hold on. Let me look at my days for the
6 29th and 30th. Because I just erased Mr. Koch's partner's
7 case on August 1 and August 2. I was able to erase those this
8 morning.

9 MR. KOCH: What case is it?

10 THE COURT: I don't know. Some preliminary
11 injunction hearing with doctors.

12 MR. GRAF: Do you know who this witness is and what
13 he's going to testify to?

14 THE COURT: Hold on. Hold on, Mr. Graf.

15 MR. GRAF: I'm crazy.

16 THE COURT: So I have one of the lovely HOA cases,
17 foreclosure cases on the 29th, and on the 30th and 1st I have
18 another lovely HOA foreclosure case.

19 MR. KOCH: I think you might have a horse case after
20 that.

21 THE COURT: No. The horse case settled. I was
22 looking forward to that one.

23 (Pause in the proceedings)

24 THE COURT: So, Mr. Gentile, those cases never
25 settle. Never, because they all want to go to the Supreme

1 Court and ask the Supreme Court what the next item they're
2 going to clarify is. And the Supreme Court keeps clarifying
3 things, which reinforces their not settling and going up
4 there.

5 I do, however, have free the 1st and 2nd. I have
6 other time free before. But if your witness isn't free, then
7 I'm not getting done this week, which was my hope.

8 MR. GENTILE: Witness told me he could be here the
9 29th or 30th. I never discussed anything after that, because
10 I said, how soon can you get here. But I'm pretty confident
11 that the 1st would probably work.

12 THE COURT: So assume for me for a minute that at
13 the end of these two witnesses on Thursday you think you need
14 to use a rebuttal witness. What subject matter do you think
15 he would be testifying on?

16 MR. GENTILE: They have raised the issue of
17 irreparable harm and the valuation of a license. That's what
18 he testifies about.

19 MR. GRAF: Your Honor, that's not raised. That's an
20 element of a preliminary injunction. I cannot believe that's
21 rebuttal.

22 THE COURT: Well, but --

23 MR. GRAF: I object. I do not think that that is a
24 witness --

25 THE COURT: It could be rebuttal under -- based on

1 the evidence you guys have presented, because I had already
2 written down my thoughts a couple of days ago on irreparable
3 harm, and I've certainly modified them since today given some
4 of the things you guys have said.

5 MR. GENTILE: That's my point. That's why I want to
6 call him.

7 THE COURT: I don't know if -- I had to ask how to
8 spell it, 'cause I was having trouble today. So you couldn't
9 find any irreparable harm, then; is that your --

10 THE COURT: Not the way I was spelling it. That was
11 good, Mr. Koch. I don't know who came up with that, but --

12 (Off-record colloquy)

13 THE COURT: So I'm not saying he can't call him as a
14 rebuttal witness, but I'm not going to ask him that question
15 till you guys finish the case. I am concerned about the
16 scheduling.

17 Assume with me for a minute that Mr. Gentile's able
18 to get the person he wants to call as a rebuttal witness here
19 on August 1st. Would you all be able to argue on August 1st
20 and 2nd?

21 MR. SHEVORSKI: State's fine with that, Your Honor.

22 MR. GENTILE: I'm sure we would. Don't you?

23 MR. KAHN: Your Honor, I'm in -- out of state until
24 the 5th. From the 25th to the 5th.

25 THE COURT: Okay. So we won't be going on August 1

1 and 2, then.

2 MR. GENTILE: Not go at all?

3 THE COURT: Not if I have people who are out of
4 state. I mean, I'm trying real hard to have every --

5 MR. GENTILE: I get it.

6 MR. KAHN: If he's not going to call the rebuttal,
7 we're all here next week for the motion for summary judgment
8 hearing. Would that work?

9 THE COURT: I'm calling a rebuttal witness, so, you
10 know, if we could get back to if a frog had wings, but I'm not
11 going there anymore.

12 THE COURT: I'm not trying to get anybody to go
13 anywhere.

14 MR. GENTILE: Okay.

15 THE COURT: If you're not back till the 5th, then I
16 won't know what I have until July 30th when I do the calendar
17 calls for the next group of cases. And it's a mess, because
18 Steve Peek wants four days on a probate motion to invoke
19 settlement -- oh, I'm sorry, a motion to approve settlement.

20 MR. GENTILE: I will inquire of my -- Your Honor,
21 I'll be able to report to you on Thursday his availability in
22 August.

23 THE COURT: All right. I will see you guys Thursday
24 morning.

25 MR. GRAF: Oh. Wait.

1 THE COURT: Yes, Mr. Graf?
2 MR. GRAF: Can we get a name?
3 MR. GENTILE: Larry.
4 THE COURT: I do not typically require disclosure of
5 true rebuttal experts, especially not in a preliminary
6 injunction hearing.
7 Anything else? Jill's off.

17 The State of Nevada ex rel. Department of Taxation (the “Department”) answers
18 Plaintiffs’ Amended Complaint as follows:

19 **PARTIES, JURISDICTION, AND VENUE**

20 1. Answering Paragraph 1, the Department is without knowledge or information
21 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
22 denies the same.

23 2. Answering Paragraph 2, the Department is without knowledge or information
24 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
25 denies the same.

26 3. Answering Paragraph 3, the Department is without knowledge or information
27 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
28 denies the same.

1 4. Answering Paragraph 4, the Department is without knowledge or information
2 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
3 denies the same.

4 5. Answering Paragraph 5, the Department is without knowledge or information
5 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
6 denies the same.

7 6. Answering Paragraph 6, the Department is without knowledge or information
8 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
9 denies the same.

10 7. Answering Paragraph 7, the Department is without knowledge or information
11 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
12 denies the same.

13 8. Answering Paragraph 8, the Department is without knowledge or information
14 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
15 denies the same.

16 9. Answering Paragraph 9, the Department is without knowledge or information
17 sufficient to form a belief as to the truth of the allegations set forth therein and, therefore
18 denies the same.

19 10. Answering Paragraph 10, the Department is without knowledge or
20 information sufficient to form a belief as to the truth of the allegations set forth therein
21 and, therefore denies the same.

22 11. Answering Paragraph 11, the Department is without knowledge or
23 information sufficient to form a belief as to the truth of the allegations set forth therein
24 and, therefore denies the same.

25 12. Answering Paragraph 12, the Department is without knowledge or
26 information sufficient to form a belief as to the truth of the allegations set forth therein
27 and, therefore denies the same.

28 ...

13. Answering Paragraph 13, the Department states that it was created under NRS 360.120 and has certain duties related to the regulation and licensing of marijuana under Nevada law, including NRS 453D and NAC 453D.

14. Answering Paragraph 14, the Department is without knowledge or information sufficient to form a belief as to the truth of the allegations set forth therein and, therefore denies the same.

15. Answering Paragraph 15, the Department is without knowledge or information sufficient to form a belief as to the truth of the allegations set forth therein and, therefore denies the same.

GENERAL ALLEGATIONS

16. Answering Paragraph 16, the Department admits the Nevada Legislature passed multiple bills governing the licensing, regulation, and operation of recreational marijuana establishments throughout the state, which would become effective after November 2019. The Department further admits Assembly Bill 422 transferred responsibility for the registration, licensing, and regulation of medical marijuana to the Department, but the Department was already responsible for the registration, licensing, and regulation of retail marijuana.

17. Answering Paragraph 17, the Department is without knowledge or information sufficient to form a belief as to the truth of the allegations set forth therein because it does not understand what Paragraph 17 is attempting to state. The Department therefore denies the allegations.

18. Answering Paragraph 18, the Department admits the allegations as NRS 453D.020 speaks for itself.

19. Answering Paragraph 19, the Department admits the allegations, except for the emphasis provided, as NRS 453D.200 speaks for itself.

20. Answering Paragraph 20, the Department admits the allegations, except for the emphasis provided, as NRS 453D.210 speaks for itself.

FIFTH CLAIM FOR RELIEF
(Petition for Writ of Mandamus)

80. Answering Paragraph 80, the Department states that this incorporating reference does not require a response.

81. Answering Paragraph 81, the Department admits the allegations as the statute speaks for itself.

82. Answering Paragraph 82, the Department denies the allegations.

83. Answering Paragraph 83, the Department denies the allegations.

84. Answering Paragraph 84, the Department denies the allegations.

85. Answering Paragraph 85, the Department denies the allegations.

WHEREFORE, the Department prays for relief from this Court as follows:

1. That Plaintiffs take nothing by way of this Corrected First Amended Complaint;

2. That Plaintiffs claims against Defendants be dismissed with prejudice;

3. That Defendants be awarded reasonable attorney fees and costs of suit; and,

4. For such other and further relief as this Honorable Court may deem just and proper.

GENERAL DENIALS

The Department denies any and all allegations in the Corrected First Amended Complaint not specifically admitted in this Answer.

The Department denies that Plaintiffs are entitled to any of the relief prayed for in the Corrected First Amended Complaint.

AFFIRMATIVE DEFENSES

The Department denies any and all liability in this matter and asserts the following affirmative defenses:

1. Plaintiffs have failed to state a claim for which relief can be granted.

2. Plaintiffs do not have a property right in a privilege license that they do not have.

- 1 3. Plaintiffs do not have a fundamental right to a privilege license.
- 2 4. Chapter 453D does not provide for a hearing when a retail marijuana license
- 3 is not issued.
- 4 5. The Nevada Administrative Procedures Act, NAC Chapter 233B, does not
- 5 provide for a hearing when a retail marijuana license is not issued.
- 6 6. The Department's actions were neither arbitrary, capricious, nor an abuse of
- 7 discretion.
- 8 7. The Department's interpretation of the statutes and regulations it is
- 9 authorized to execute is given great deference.
- 10 8. The Department used an impartial and numerically scored competitive
- 11 bidding process.
- 12 9. Plaintiffs did not have a statutory entitlement to a license.
- 13 10. The U.S. Constitution does not protect the right to engage in a business that
- 14 is illegal under federal law.
- 15 11. Plaintiffs do not have standing.
- 16 12. Plaintiffs have failed to exhaust their administrative remedies.
- 17 13. The Complaint fails to present a justiciable controversy.
- 18 14. This Court lacks jurisdiction to hear Plaintiffs' claims.
- 19 15. The Department is immune from liability pursuant to NRS 41.031, *et. seq.*
- 20 16. Plaintiff failed to name the Department properly as required by NRS
- 21 41.031(2).
- 22 17. Plaintiffs' claims, including the declaratory and/or equitable claims are barred
- 23 by the doctrines of waiver, ratification, estoppel, unclean hands and other equitable
- 24 defenses.
- 25 18. Plaintiffs' claims are barred by the applicable statute of limitations and/or the
- 26 doctrine of laches.
- 27 19. Plaintiffs' claims are barred based on impossibility.
- 28 . . .

1 20. Plaintiffs' claims have been waived because of the wrongful acts, omissions
2 and conduct of Plaintiffs.

3 21. Plaintiffs would be unjustly enriched if awarded damages.

4 22. The Department has no contractual relationship with Plaintiffs to give rise to
5 any declaratory relief.

6 23. The damages sustained by the Plaintiff, if any, were caused by the acts of
7 unknown third persons who were not agents, servants, or employees of the Department,
8 and who were not acting on behalf of the Department in any manner or form, and, as such,
9 the Department is not liable in any manner to Plaintiff.

10 24. The Department is not legally responsible for the actions and/or omissions of
11 other third parties.

12 25. Plaintiffs fail to name a party necessary for full and adequate relief essential
13 in this action.

14 26. Plaintiffs failed to comply with a condition precedent.

15 27. Plaintiffs have not suffered any damages attributable to the actions of the
16 Department.

17 28. Plaintiffs have failed to timely protect and/or enforce their alleged rights.

18 29. Plaintiffs' claims are barred as Plaintiffs have failed, refused, or neglected to
19 take reasonable steps to mitigate damages, therefore barring or diminishing the ability to
20 recover.

21 30. The Department has an objective good faith belief that it acted reasonably and
22 in good faith and the Department's actions were legally justified.

23 31. The Department substantially complied with NRS and NAC Chapter 453D.

24 32. The Department, at all relevant times, acted with due care and
25 circumspection in the performance of its duties; exercised the degree of skill and learning
26 ordinarily possessed and exercised by members of its profession in good standing,
27 practicing in similar localities and that at all times, used reasonable care and diligence in
28 . . .

1 the exercise of its skills and the application of its learning, and at all times acted according
2 to its best judgment and met the applicable standard of care.

3 33. Plaintiffs' claims for relief are barred as Plaintiff's alleged damages are
4 speculative and cannot be calculated with any certainty or reliability.

5 34. Each purported claim for relief is barred by the doctrines of *res judicata* and/or
6 collateral estoppel.

7 35. Each purported claim for relief is barred as Plaintiffs are estopped from
8 pursuing any claim against the Department in accordance with equitable principles of
9 jurisprudence.

10 36. The Department alleges that the damages, if any, alleged by the Plaintiffs
11 were the result of independent intervening acts, over which the Department had no control,
12 which resulted in the superseding cause of Plaintiffs alleged damages.

13 37. The Department avails itself of all affirmative defenses set forth in and or
14 arising out of NRS Chapter 453D and NRS Chapter 360 and all applicable regulations and
15 subparts.

16 38. All possible affirmative defenses may not have been alleged inasmuch as
17 insufficient facts and other relevant information may not be available after reasonable
18 inquiry and, pursuant to NEV. R. CIV. P. 11, the Department hereby reserves the right to
19 amend these affirmative defenses as additional information becomes available.
20 Additionally, one or more of these Affirmative Defenses may have been pled for the
21 purposes of non-waiver.

3 THE COURT: I apologize for being late. My morning
4 took longer than I anticipated for a number of reasons.

5 Have we got our first witness?

6 MR. KOCH: Robert Groesbeck.

7 THE COURT: Mr. Groesbeck, if you'd come forward,
8 please.

9 MR. KEMP: Judge, I reminded Mr. Groesbeck
10 [inaudible] at 11:20 and I've talked to Mr. Koch about it, but
11 I've offered Mr. Koch an additional witness in the event
12 Mr. Groesbeck [inaudible].

13 MR. KOCH: And --

14 THE COURT: I'm sure we're going to get done.

15 MR. KOCH: You're sure we are?

16 THE COURT: I know you. You are direct and to the
17 point.

18 MR. KOCH: Oh, I like to hear that. I try.

19 THE COURT: Raise your right hand, please,
20 Mr. Groesbeck.

21 **ROBERT GROESBECK**

22 [having been called as a witness and being first duly sworn,
23 testified as follows:]

24 THE CLERK: Thank you. Please be seated. Please
25 state and spell your name for the record.

 JD Reporting, Inc.

1 THE WITNESS: Robert Groesbeck. G-r-o-e-s-b-e-c-k.

2 THE COURT: And, sir, there's a water pitcher there
3 and M&Ms behind you and tons of exhibits.

4 THE WITNESS: Thank you, Judge. I'll take you up on
5 that.

6 DIRECT EXAMINATION

7 BY MR. KOCH:

8 Q Mr. Groesbeck, my name is David Koch, and I'm an
9 attorney representing Nevada Organic Remedies in this action.
10 Are you aware of the company known as Nevada Organic Remedies?

11 A I'm sorry, Counsel.

12 Q Are you aware of the company known as Nevada Organic
13 Remedies? Operating as The Source.

14 A Oh, indeed, yes.

15 Q Are you familiar with some of the players in the
16 marijuana industry?

17 A I think I'm familiar with most.

18 Q And your background, my understanding, is you
19 practiced law for about 25 years; is that right?

20 A That's roughly correct, yeah.

21 Q And formally the mayor of the City of Henderson also?

22 A Correct.

23 Q You're familiar with the legal system in general, how
24 the legal system of regulations work with respect to an
25 industry?

JD Reporting, Inc.

1 A I am.

2 Q And in particular, the client, the party that you're
3 here representing is MM Development operating as Planet 13; is
4 that right?

5 A That is correct.

6 Q You are one of the owners of that entity?

7 A I was an owner. Now I'm a shareholder.

8 Q Okay. A shareholder, what percentage of Planet 13?

9 A Oh, I think my interest in the Planet 13 holdings
10 group is probably right around 30 -- 28 to 30 percent. It
11 varies.

12 Q Mr. Scheffler, he's the other large shareholder of
13 that entity; is that right?

14 A That is correct.

15 Q And that's -- is that the single largest retail
16 dispensary as far as volume of sales in the state of Nevada?

17 A I'm not certain of that. I'd like to believe so.

18 Q Yeah. There's been representation I think in the
19 motion that your company filed in this case saying that it
20 sells approximately 10 percent of all recreational marijuana in
21 the state of Nevada. Does that sound about right?

22 A Excuse me. I don't know if we put that out, but
23 that's been out there certainly.

24 Q Okay. That doesn't sound too far off base, about
25 10 percent of all retail recreational marijuana sales in the

1 state of Nevada from Planet 13?

2 A I think that that's fair.

3 Q So doing pretty well. Any other company that you're
4 aware of that has more than 10 percent sales?

5 A I don't know because I don't have privy to the
6 private companies and what they're doing.

7 Q Do you consider Planet 13 or MM Development to be an
8 industry leader as far as it's practices in this business?

9 A I do.

10 Q And are you aware of the legal positions that are
11 being taken by your company or counsel in this case?

12 A Generally.

13 Q Are you aware that any legal positions that are being
14 asserted may cause Planet 13 to have to shut down its current
15 retail operation?

16 A I'm sorry. I didn't follow that question.

17 Q Do you have any awareness of any legal positions
18 being taken by your counsel in this case that may cause Planet
19 13 to have to shut down its current retail operation?

20 A No.

21 Q And Planet 13 does have a retail operation; right?

22 A That is correct.

23 Q And are you aware that that's governed by
24 NRS Chapter 453D?

25 A That is correct.

1 Q Are you generally familiar with the statutes and
2 regulations that apply to retail marijuana establishments?

3 A General.

4 Q Let's pull up NRS 453D.200.

5 THE COURT: Sir, if you'd like to look, the book is
6 there. 453D is in the pocket part.

7 BY MR. KOCH:

8 Q We'll actually put it on the screen. If you like the
9 book, let me know. I'll try to point to the parts that are --

10 A I can --

11 Q -- relevant because I know you're crunched on time.

12 A I can see it here on the computer.

13 Q All right. 453D.200, have you seen this section
14 before?

15 A Well, I'm sure I have.

16 Q It relates to the, Duties of department relating to
17 regulation and licensing of marijuana establishments,
18 information about consumers. You believe you've read this
19 before?

20 A Yeah, I believe I have.

21 Q And this relates to regulations for the licensing and
22 operation of marijuana establishments. Do you understand that?

23 A Yes.

24 Q Okay. One of the sections that we've talked about at
25 some great length in this case is Subsection 6, which is on the

1 next page. We'll take a look at it.

2 And Subsection 6 says, The department shall conduct a
3 background check of each prospective owner, officer and board
4 member of a marijuana establishment license applicant. Are you
5 aware of that section?

6 A Yes.

7 Q Okay. Has the Department of Taxation conducted a
8 background check of each of Planet 13's owners?

9 A Well, I guess it depends on owners.

10 Q Right. It depends on how we define owner; is that
11 right?

12 A Correct.

13 Q And if we took a broad view of owners, anybody who
14 owns a share of Planet 13 stock, has the department conducted a
15 background check of each of those shareholders?

16 A I'm not sure what they've done.

17 Q Has Planet 13 submitted a shareholder list to the
18 department for purposes of conducting a background list of
19 those -- a background check of those shareholders?

20 A Well, it's my understanding with respect to the
21 applications that are subject to this litigation our general
22 counsel prepared all documents responsive to the application.
23 That would've included owners, officers, directors, things of
24 that nature.

25 Q Right.

1 A And background checks.

2 Q So MM Development submitted an application. We're
3 talking about that. I'm asking general, other than the
4 application, you currently have a retail operation; correct?

5 A That is correct.

6 Q Does 453D.200 apply to the operation of your current
7 retail operation?

8 A I think it applies to all marijuana operations.

9 Q Current and prospective; is that right?

10 A Well, certainly current, yes.

11 Q Right. And so your current operation, has the
12 department conducted a background check of each of your owners,
13 officers and board members?

14 A That I don't know.

15 Q Has it conducted a --

16 Well, let me ask this: How many shares does Planet
17 13 have outstanding?

18 A On a fully diluted basis, probably 154 million.
19 Trading, probably 125, a hundred -- yeah, about 125 million
20 probably.

21 Q So about 125 million trading shares?

22 A Well, I should qualify that. The 61 percent
23 basically, most of those shares are owned by me, my co-CEO
24 Larry Scheffler and our third cofounder Chris Rin [phonetic].
25 We're basically restricted. So we aren't actively trading.

1 Q The rest of the shares at Planet 13 are owned by
2 somebody else?

3 A Yeah. They could be owned by institutional investors
4 or retail buyers.

5 Q And retail buyer, that would just be an individual
6 who might have a brokerage account, might buy him some Planet
7 13 shares; is that right?

8 A That's correct.

9 Q As you sit here today, I would expect you don't know
10 the names of all those potential individual investors, do you?

11 A I do not.

12 Q And do you know if any of those investors or owners
13 of Planet 13 stock has a felony?

14 A I do not.

15 Q Has Planet 13 put any safeguards or checks in place
16 to ensure that no one with a felony, excludable felony would be
17 an owner of Planet 13 stock?

18 A Well, I don't know if we've independently done that.
19 We've prepared documentation that is available for the
20 regulators to look at at any time. If they direct us to
21 provide that information, I'm sure we could through our trust
22 administrators.

23 Q You're talking about the transfer agent that keeps a
24 shareholder list?

25 A Well, them, yeah. Yeah. Them and our lawyers I

1 would imagine, you know. When we went out into the RTO, went
2 public in June -- I always lose track of the time -- June of
3 last year, there were probably a sum total of 250 total
4 investors at that time. So that was pretty manageable.

5 Q All right. Today there's a lot more than 250
6 investors; right?

7 A Yeah. I would agree with that now that we're selling
8 to the retail market.

9 Q Do you have any idea of how many current investors
10 you have?

11 A As we sit here now I don't. I do not know.

12 Q More than a thousand?

13 A I would think not.

14 Q You don't know. Have you looked at your shareholder
15 list recently?

16 A You know, I don't spend any time looking at the
17 shareholder list. We have a CFO and accountants and tax
18 lawyers that do all that. So --

19 Q All right. They don't -- any of those individuals,
20 your lawyers, accountants, CFOs -- they don't scan the
21 shareholder list and look for or run background checks
22 themselves for felons, do they?

23 A No, I'm not sure that they do, but we're also
24 regulated. We're a publicly traded company. We're highly
25 regulated.

1 Q Right. Have you asked any shareholders to submits
2 fingerprints for background checks?

3 A Only owners, insiders, owners, directors, officers,
4 as required by the department.

5 Q All right. So it's your understanding that only
6 those insiders, large owners, officers and board members are
7 required to submit fingerprints; is that right?

8 A Again, I don't know one way or the other. I don't
9 think that's the case.

10 Q You don't think that's the case?

11 A I don't think we've been asked to do that, to have
12 our shareholders submit to fingerprints.

13 Q Okay. Have you suggested that to the department,
14 that the statute says something, and we want to make sure as an
15 industry leader we're setting the pace for background checks?
16 Have you made that suggestion?

17 A No. I typically don't suggest to the regulators.
18 They suggest or direct me.

19 Q Very good. Let's pull up Exhibit 20 is the
20 application that MM Development submitted in this case. I just
21 want to look at Bates Number 787. This is a chart of MM
22 Development, Planet 13. Have you seen this document before?

23 A Not that I recall, but I have no reason to disbelieve
24 that it's something that we produced if you represent that.

25 Q All right. It says that MM Development Company, Inc.

JD Reporting, Inc.

1 in the bottom left corner is the entity applying for licenses.

2 A Correct.

3 Q Does MM Development Company, Inc. currently hold
4 marijuana licenses?

5 A It does.

6 Q Has it transferred any licenses to Planet 13
7 Holdings?

8 A No, it has not to my knowledge.

9 Q Even when Planet 13 opened in November 1st, 2018,
10 did it transfer any of those license to Planet 13?

11 A Excuse me. Planet 13 Holdings is a holding company.
12 It holds the assets. All the assets of the Canadian
13 corporation are held by a Nevada corporation.

14 Q Right. Okay. And that's what it shows; right?
15 Planet 13 Holdings up above MM. It shows it owns 100 percent
16 of MM Development; is that right?

17 A That is correct.

18 Q And that's the Canadian public corporation; is that
19 right?

20 A That is correct.

21 Q Above that it shows beneficial owners and
22 stockholders a hundred percent ownership, and that's what we've
23 got yourself and Mr. Scheffler as 33 percent owners here.
24 Mr. Rin is 4 percent.

25 And you read that bottom line for us. Can you read

1 that.

2 A Investors, public stockholders none 5 percent
3 individually, 29.2453 --

4 Q All right. At the time of the preparation of this
5 chart, there was 29.2-and-some-change percent of MM Development
6 stock, Planet 13 stock owned by investors public stockholders;
7 is that right?

8 A That would appear to be the case.

9 Q What about the, None greater than 5 percent? Why is
10 that on there?

11 A I couldn't answer that. That was prepared by our
12 general counsel.

13 Q What's that?

14 A That was prepared by our general counsel. I would
15 imagine he was following the directives of the department in
16 the application process.

17 Q Okay. So you believe that he was following the rules
18 and regulations that were applicable to applications submitted
19 at that time; is that right?

20 A I would agree.

21 Q That 5 percent, there's a 5 percent threshold in the
22 regulations. Are you aware of that?

23 A Yeah, I'm aware that there is a number 5 percent.

24 Q All right. Have you looked at that, considered that,
25 discussed it at all with members of your company at all?

1 A No. I've deferred to general counsel.

2 Q All right. General counsel. That's Mr. Koehler; is
3 that right?

4 A Correct.

5 Q Have any of the individuals that are listed just
6 described generally there -- investors, public stockholders,
7 none greater than 5 percent individually -- have any of them
8 submitted for a background check with the Department of
9 Taxation?

10 A I have no idea.

11 Q Have you in any of your press releases or shareholder
12 reports ever notified shareholders that they may need to submit
13 to a background check with the Nevada Department of Taxation if
14 they buy your shares?

15 A I'm not sure that we've ever done that.

16 Q Do you know if any other public company -- there are
17 other entities involved in marijuana in Nevada that are owned
18 by publicly traded companies. Are you aware of that?

19 A I am.

20 Q Okay. What other companies are you aware of that are
21 publicly traded?

22 A I believe Essence is now publicly traded. I believe
23 your company -- your client's company is now publicly traded.
24 I understand Acres [phonetic] is now sold out to an MSO. I'm
25 sure there are others. I --

1 Q How about Serenity Wellness? Do you know if they're
2 publicly traded?

3 A I'm not familiar with Serenity.

4 Q What about LivFree? That's another company that's
5 represented by your same counsel?

6 A That is true. Yeah.

7 Q There are now -- they've sold to a public company, or
8 a public company owns them?

9 A Yeah. It's my understanding they rolled into a SPAC,
10 which is a special-purpose acquisition corp. that subsequently
11 rolled into a publicly trading entity.

12 Q Do you know if any of those entities have provided
13 shareholder lists for background checks to the Department of
14 Taxation?

15 A I have no idea.

16 Q Do you have any opinion as to whether providing
17 shareholder lists for the department is necessary under the law
18 in order to be able to sell retail marijuana in the state of
19 Nevada currently?

20 A Well, I don't really have an opinion. Again, I
21 follow the directives of the department. If they tell us to do
22 something, we'll do it. So if they want to see our shareholder
23 lists, I'll instruct my general counsel and our CFO to produce
24 whatever they request.

25 Q All right. What if the department asks you every day

1 to submit a new shareholder list to the department for
2 background checks. Do you think that would be a reasonable
3 request?

4 A Well, I don't know about reasonable. I think it
5 would potentially have a chilling effect on the industry,
6 publicly traded companies. I'm not aware of any industry that
7 requires that.

8 Q Right. And so if an individual -- an individual
9 investor -- let's say I go out and decide to buy a share of
10 Planet 13, buy it this morning, price goes up, afternoon I sell
11 it. Would you expect that a background check would have been
12 performed on me during that seven or eight hours that I held a
13 share of stock?

14 A And your question?

15 Q Would you expect that a background check would have
16 been performed on me for the seven or eight hours that I held a
17 share of Planet 13 stock?

18 A No, I would not have expected that.

19 Q It wouldn't really be a reasonable way of doing
20 business because it would have a chilling effect on my desire
21 to purchase that stock perhaps?

22 A Well, particularly with a retail investor, but the
23 institutional investors, most of whom invest in sector in our
24 company, it's readily obtainable.

25 Q Let me ask about this litigation. What do you think

1 the department did wrong with respect to the applications?

2 A Well, primarily, first and foremost, they didn't
3 award us any licenses. That's -- that's why we're here. We
4 are an excellent operator with a great record, track record.
5 We've been -- great track record of providing taxes and
6 revenues and creating jobs. We've been long-standing members
7 of the community. When we originally applied for the medical
8 licenses, we ranked at the very top of the percentile list, and
9 yet this comes out, and we get nothing, and yet we see a
10 handful of operators take a lion's share of the applications.

11 Q All right.

12 A And that inherently in my opinion raised some
13 concerns.

14 Q Do you think the department should have just taken
15 the scores to the medical applications 2014 and '15 and just
16 carried them over to 2018 then?

17 A No, not necessarily.

18 Q So scores from that period of time don't matter with
19 respect to the 2018 application process; right?

20 A Well, I think they matter. I think it's an
21 application process. It's a process that they implemented in
22 '14 that seemed to work well overall. And then you
23 fast-forward a couple of years, and you've got a host of
24 licenses being issued to a handful of operators, and again, I
25 didn't feel that that was fair, that it was equitable to our

1 company, and we hired counsel, and here I sit.

2 Q All right. And I guess other than the fact that your
3 company didn't get a license, what did the department do wrong?

4 A Well, like I said, I didn't sit and micromanage what
5 the department did, but I can assure you the lack of
6 transparency. I mean, you know, I didn't even -- you know, I
7 sat over with the department after the scores were announced
8 publicly, and I couldn't even get them to address my score
9 matrix in any detail. So, yeah, it was frustrating.

10 Q Okay. So lack of transparency, you're aware that
11 SB 32 has been signed by the governor --

12 A Correct.

13 Q It seems like recently, but it's dating back in the
14 past now, back in May; right?

15 THE COURT: The first day of our hearing; right?

16 MR. KOCH: I think so. I think so.

17 MR. SHEVORSKI: I don't remember.

18 BY MR. KOCH:

19 Q You're aware of that, the passage of that law; right?

20 A I am.

21 Q That was adopted for the purpose of providing some
22 additional transparency. You're aware of that?

23 A I am.

24 Q Okay. And other than the transparency, the sort of
25 the overall issues, anything in particular that you believe the

1 department did wrong on a global scale? Because everybody here
2 at this table has the same opinion as you.

3 A Right.

4 Q It's we're here because I didn't get a license.

5 A Right.

6 Q Other than that fact or that outcome, is there
7 something specific the department did wrong other than lack of
8 transparency?

9 A Well, look, like I said, with respect to us, we were
10 unique at least in one respect. We had an operational
11 facility, Medizin, that had been operating for close to two
12 years before we transferred the license to our new superstore
13 facility. We had an operational history in that facility, and,
14 you know, we were generating, you know, our run rate was 18,
15 probably would've been \$20 million in 2018. And we get nothing
16 for that?

17 I mean, it's probably one of the best-performing
18 dispensaries in the state of Nevada.

19 Q Do you know --

20 A That was troublesome.

21 Q -- that there's been a lot of discussion about that
22 Medizin facility --

23 A Right.

24 Q -- and the fact that MM Development submitted photos
25 of that facility as part of its application? Are you aware of

1 that?

2 A I don't remember what was submitted.

3 Q All right. So you don't know whether that -- those
4 photos, any of the plans were part of the identified section or
5 part of the nonidentified section, do you?

6 A No. I'd have to direct you to Mr. Koehler and his
7 team.

8 Q So he would know what's in which part of that
9 application?

10 A Correct.

11 Q And if MM Development maybe made a mistake and put
12 something in one side of the application instead of the other,
13 he would answer those questions for us?

14 A Well, you need to talk to him because I can't speak
15 to it directly.

16 Q Let's go to Exhibit --

17 MR. KOCH: Proposed 5055.

18 MR. KEMP: No objection, Your Honor.

19 THE COURT: Be admitted.

20 (Defense Exhibit Number 5055 admitted)

21 BY MR. KOCH:

22 Q Exhibit 5055 is a recent management discussion --
23 hand the Court -- let me get my copy here.

24 THE CLERK: Mr. Koch, would you like to -- is this
25 for the witness or --

1 MR. KOCH: Oh. Sure. Thank you.

2 May I approach?

3 THE COURT: You may. Thank you.

4 THE WITNESS: Thanks.

5 BY MR. KOCH:

6 Q You can look at the screen or the hard copy if you'd
7 like. This is a management discussion and analysis report for
8 the three months ended March 31st, 2018; is that right?

9 A I have it. Yes. Thank you.

10 Q And you reviewed and assisted with the preparation of
11 this document?

12 A Well, yeah, I looked at it, for sure.

13 Q And before it was submitted -- because this is a
14 public filing; right?

15 A It is.

16 Q And for the publicly traded company?

17 A It is.

18 Q And so you want to make sure that that information
19 that's in there is correct and accurate so shareholders can
20 rely upon it?

21 A That's correct.

22 Q And we'll go to page 19, and I'm sure you've looked
23 at this, and I won't ask if you looked at this in preparation.
24 I just assume that you're familiar with this section now.

25 Page 19 talks about this litigation. Have you read

1 this paragraph before today?

2 A Well, why don't you direct me to the paragraph and
3 refresh me.

4 Q Top paragraph.

5 A Okay. Is there a section there you want me to --

6 Q Just the whole paragraph. Are you familiar with this
7 paragraph?

8 A Well, as I said, Counsel, obviously as co-CEO of the
9 company, I participated in preparation of the document with our
10 attorneys and advisers, but I don't remember exactly. So if
11 you want to --

12 Q Okay.

13 A -- send me to a section, I'm happy to address your
14 question.

15 Q Let's go there then. So fourth line down toward the
16 end, after November 1st, 2018, the sentence starts, The
17 company applied for. Do you see that?

18 A Yes, I do.

19 Q And it says,

20 The company applied for six additional
21 licenses in the state of Nevada but was
22 unsuccessful in obtaining any additional
23 licenses when the State of Nevada awarded
24 licenses on December 5th, 2018.

25 That's the applications we're talking about in this

1 case; right?

2 A That's true.

3 Q The company along with other industry participants
4 were also unsuccessful in their applications for new licenses
5 have launched a lawsuit against the State seeking to overturn
6 the licensing process.

7 A Correct.

8 Q First of all, let me ask about that. What does that
9 mean in your mind, "to overturn the licensing process"?

10 A Well, I don't know what they were referring to when
11 the drafters put the word overturn in, but it's very clear that
12 the board we moved forward and approved moving forward with the
13 lawsuit. So --

14 Q Okay. And maybe the next two sentences will help us
15 there which says,

16 There can be no certainty with respect
17 to the outcome of such a lawsuit should a
18 company not be successful with its lawsuit in
19 obtaining a license in this round of grants.

20 Let's stop there. So is it the company's intention
21 to obtain a license through the lawsuit?

22 A Yes.

23 Q Okay. Just one license or all six that it applied
24 for?

25 A Well, ideally every one we applied for, but

1 realistically, I mean, most importantly was Medizin, reopening
2 that.

3 Q Okay.

4 A I don't think we made any secret of that.

5 Q It goes on to say,

6 If the company is not successful with
7 its lawsuit in obtaining a license in this
8 round of grants, then it may seek to purchase
9 a license in the open market in order to
10 reopen the Medizin location.

11 A That's correct.

12 Q So it's the company's intention if the lawsuit is not
13 successful or if this injunction is not successful to purchase
14 a license in the open market; is that right?

15 A Well, obviously I have an obligation to the
16 shareholders to put that asset to its best use, and I can only
17 do that by opening and running it. Again, as I said earlier,
18 we had a run rate between 18 and \$20 million there. Yeah,
19 that's pretty significant.

20 Q So it is the company's intention to purchase a
21 license in the open market if it's not successful with its
22 suit?

23 A Well, yeah. I think the company's intention is to
24 reopen that facility as soon as possible.

25 Q And licenses can be bought and sold in this industry;

1 right?

2 A Well, they can, yes.

3 Q Has Planet 13 or MM Development made an effort to buy
4 a license prior?

5 A Well, we --

6 Q After December 5th through today, have you made any
7 efforts to buy a license?

8 A Well, we've had a number of groups approach us, talk
9 about selling not only the lease, but also about talking about
10 potentially buying licenses, and it hasn't gone beyond any
11 preliminary discussion.

12 Q Right.

13 A We've never entered into LOIs or term sheets or --

14 Q So there's discussions that are ongoing? And I don't
15 want to ask --

16 A No, not ongoing.

17 Q -- I guess in the context --

18 A Yeah, I'm sorry, Counsel. Not ongoing. I apologize.
19 I didn't mean to misstate.

20 Q Did MM Development, Planet 13, didn't make any
21 offers, formal offers, dollars on the table for a license?

22 A To buy one?

23 Q Right.

24 A Not that I'm aware of. We've talked in very general
25 terms. Our general counsel again has led most of those

1 negotiations and discussions. I have not been privy to all of
2 those.

3 Q Has MM Development made any proposals as far as
4 dollar amounts as to what it thinks a license is worth?

5 A Well, again, there's been a huge variance in what the
6 perceived value of these licenses are. I can assure you one
7 thing I do know, the cost to my company to tuck in a license
8 had it been awarded through this process would have been
9 substantially cheaper than going into the open market, paying
10 millions of dollars to do that.

11 Q Right. So it would have been cheaper to get a
12 license through the application, but it's still possible
13 afterwards. You just have to pay a lot more for it; is that
14 right?

15 A Yeah, of course.

16 Q Okay. And this litigation do you anticipate that
17 this litigation will be a cheaper option to obtain a license
18 through payment of fees and costs and hopefully overturning the
19 process to get a license for MM?

20 A That's a great question. I could tell you it's
21 expensive either way.

22 Q Yeah.

23 A So --

24 Q You know, I saw, and, I mean, we can for purposes of
25 time maybe skip it for now, but in the same report that the

1 company paid \$748,000 in legal fees in the first quarter of
2 this year. Are you aware of that?

3 A No, I'm not aware of the exact dollar amount, but you
4 answered my question --

5 Q Sound about right?

6 A -- very expensive.

7 I know it's very costly.

8 Q And that was before this hearing, which has gone on
9 longer than any of us would have anticipated it even began;
10 right? That went through March of this year; is that right?

11 A Yeah, I believe -- I believe this report, yeah,
12 through March.

13 Q All right. All right. I'm going to have to tell my
14 client they're getting a great deal on this case. So
15 [indiscernible].

16 A I don't think there are any great deals when your
17 bills come out.

18 Q In your -- MM's motion in this case, are you aware
19 that MM stated, let me just read from a conclusion:

20 Press reports suggest that marijuana
21 licenses may be worth as much as \$30 million
22 or more per license.

23 Do you have an opinion on that statement?

24 A They are valuable. Again, licenses are dependent --
25 you know, the value is dependent on location primarily and the

1 ability to operate in those locations.

2 Q Right.

3 A They're valuable. Do I have a fixed dollar amount?

4 I don't know. Was that represented through one of our
5 representatives? I don't know, but --

6 Q Yeah.

7 A -- they're valuable.

8 Q Yeah. A license in the City of Las Vegas would be
9 more valuable than a license in Churchill County or something
10 like that; right?

11 A Generally that would be the case, yes.

12 Q All right.

13 A For sure.

14 Q Okay. So some are some valuable than others.

15 Have you offered \$30 million, MM, for anyone's
16 license in this case?

17 A No, not that I'm aware of.

18 Q Do you think someone, if MM said or Planet 13 here's
19 a briefcase with \$30 million to buy your license, do you think
20 you'd have a potential seller?

21 A If MM offered to buy?

22 Q Right.

23 A Well, that's not going to happen. So --

24 Q Because it's too much to pay?

25 A Yeah. It wouldn't be consistent with market for one.

1 Q What about \$10 million? MM put \$10 million on the
2 table, anybody sell?

3 A Well, there have been sales. I'm aware of sales in
4 the market.

5 Q Right.

6 A Again, a lot of it has to do with the operation. Is
7 it generating revenue? Where is it located? A lot of
8 variables.

9 Q Right. So you don't -- 10 million may or may not get
10 it done depending on location.

11 \$30 million, let's say MM were willing to do that.
12 Let's say it's crazy [indiscernible]. It's going to put
13 30 million on the table. Do you think you'd have a potential
14 seller irrespective of location?

15 A Again, it's possible.

16 Q Yeah. What about a hundred million dollars? You'd
17 probably have a pretty long list of sellers; right?

18 A Yeah, I think that would change the dynamic
19 considerably.

20 Q All right. And we can go -- I can go up to a
21 billion. We could go extreme, but at some point there's a
22 price --

23 A At a billion you can have it right now. It's yours.

24 Q Good. All right. We've got a market --

25 THE COURT: We've got the upper limit now.

1 BY MR. KOCH:

2 Q We've got an upper limit. If you'd offered a dollar
3 though, probably no one would be willing to sell that; right?

4 A Look, again, we're comparing apples and oranges.
5 Until I see the asset and compare it to another, I --

6 Q So there's a price to be had. It's just a question
7 of reaching an agreement on that price?

8 A Well, but it's not that simple. You know, as I sit
9 here today, I'm losing a million and a half; a million, eight
10 per month on a mothball facility. Those are very real
11 damages --

12 Q When you say --

13 A -- they have a very real impact to my bottom line.

14 Q All right. You're losing that amount. That's in
15 potential sales from that spot; right? You're not paying a
16 million and a half in rent?

17 A No. But that's what I would have generated in
18 revenue had it been opened, had I secured one of these
19 licenses.

20 Q Right. And that's what another operator perhaps that
21 has a conditional license if they had been open something like
22 that perhaps; right? Million, million and a half?

23 A No, probably not. We had a two-year operational
24 history getting 850 customers a day. Like I said, this isn't a
25 projection. These were real dollars. These were, you know,

1 real sales.

2 Q Right. Right. Okay. Let me ask about the personnel
3 at MM Development.

4 A Okay.

5 Q Fair to say that as far as officers and board
6 members, MM is not at the high end of the scale as far as
7 diversity goes?

8 A I don't know what diversity looks for the other
9 groups.

10 Q We've talked about it a lot here. I know you haven't
11 been here. Let me just put up Exhibit 5022. Bryan will put
12 that on the screen for you.

13 All right. So this is a printout just from the
14 Planet 13 website under the tab The Team.

15 A Okay.

16 Q Are you aware of this part of the website?

17 A Well, I'm aware of all these pictures. What's the
18 time frame here those were put up?

19 Q I believe that was printed out May or June. Do know
20 if that's changed since May or June of this year in the past
21 several weeks?

22 A Well, when we filed the applications, we've had some
23 executive turnover. We had a woman Tanya Lupien] who left the
24 company in November.

25 Q Right.

1 A And then we've since when we converted MM DC from an
2 LLC into a corp, we created a board pursuant to the statute,
3 and we brought in Adrienne O'Neill.

4 Q Right.

5 A She's a very successful local entrepreneur here. And
6 she has now moved to our parent board.

7 So this is a bit old. Greg Wilson did not sit for
8 reelection. He's no longer with the company. Adrienne O'Neill
9 has stepped into his position.

10 Q Right. So Adrienne O'Neill, let me ask you about
11 here. She's African-American woman?

12 A She is.

13 Q She's a marriage and family therapist; is that right?

14 A Correct.

15 Q Okay. And --

16 THE COURT: Used to be in charge of the CCBA many,
17 many, many years ago.

18 MR. KOCH: Nice.

19 THE COURT: How's that for the way back club?

20 THE WITNESS: Very good, Judge.

21 MR. KOCH: I was wondering where she is on here.

22 BY MR. KOCH:

23 Q She was part of the application listed as one of the
24 board members; correct?

25 A I believe she was part of the Nevada board. Correct.

1 Q Okay. The Nevada board, not part of the Canadian
2 board?

3 A Again, the parent company is a Canadian holding
4 company corporation and MMDC was a wholly-owned subsidiary of
5 that parent.

6 Q She was only on the wholly-owned subsidiary; is that
7 right?

8 A At that time.

9 Q And that wholly-owned subsidiary, is it owned and
10 controlled by Planet 13 Holdings?

11 A Yes.

12 Q So it has two separate boards?

13 A Yes.

14 Q The board of MM Development, does that -- what if MM
15 Development's board decides to do something; the Planet 13
16 Holdings board says no, no, no, you're not doing that? Who has
17 authority?

18 A Well, ultimately we've got a lot of overlap between
19 the two boards. So I would be aware of that as would Larry
20 Scheffler for instance. We've never had that issue. So the
21 two boards are very similar in composition.

22 Q All right. Any reason in the report that we looked
23 at earlier, Exhibit 5055 --

24 A The MDNA?

25 Q Right. Page 29 of that document.

1 A Okay.

2 Q Page 29 has a list of the officers and directors of
3 Planet 13; is that right?

4 A Yes.

5 Q And Tanya Lupien you said she's listed there, but as
6 is indicated by the footnote, she resigned in November 2018?

7 A That's correct --

8 Q Do you know if MM Development or Planet 13 notified
9 the department in November of 2018 when she had left?

10 A I'm not sure what we did again. That would be a
11 question directed to Mr. Koehler.

12 Q Okay. Do you know if Ms. Lupien's absence from the
13 board or as an officer of the company would have affected MM
14 Developments diversity score?

15 A I have no idea.

16 Q Any other women besides Ms. Lupien listed here on
17 this list of officers and board members?

18 A No. This generally appears to be the list at the
19 time.

20 Q So there's no other women besides Ms. Lupien; is that
21 right?

22 A As owner, officer or director, no.

23 Q And Ms. O'Neill is not listed here?

24 A She doesn't appear to be on this.

25 Q Do you know why she's not listed here?

1 A No.

2 Q Any --

3 A Well, I do know why. This is ending March of this
4 year. So our annual meeting was June of this year. So I'm
5 sure that's been amended and reflected to include her
6 membership on the board.

7 Q So since this lawsuit has been pending she's been
8 pushed up to the board of Planet 13; is that right?

9 A Correct, of holdings. That is correct.

10 Q She is the only one, as I look at this list and the
11 list that MM Development filed in September of 2018, she's the
12 only one who's not on this list that was on the prior list.
13 You're aware of that?

14 A You're probably correct there.

15 Q Yeah. And is there any reason why Ms. O'Neill is not
16 part of the team that we looked at earlier at 5022?

17 A Yeah, again I'd have to direct you to Mr. Koehler for
18 that because as of March 31 of '19 I believe she was on the MM
19 DC board. I don't know if it's in a note or --

20 Q Yeah. And Planet 13 had stated in these reports
21 actually operates the facility on Desert Inn Road; right? I
22 mean, through MM, Planet 13 is the one that controls the
23 operation of that facility?

24 A Yeah, that is correct. Well, the Nevada corporation
25 operates the Nevada asset.

1 Q So decisions with respect to ownership and operation
2 will be made by the Planet 13 board; is that right?

3 A That is true.

4 Q Last area, location. Let's look at Exhibit 20, and
5 we're going to go to page --

6 MR. KOCH: Do you have that, Bryan, Exhibit 20?

7 BY MR. KOCH:

8 Q This is MM's application. We can go to page 23 of
9 Exhibit 20. Exhibit 23 is one of the attachments, attachment
10 A's, that MM Development submitted. Are you familiar with this
11 document?

12 A Well, I'm generally familiar with the application
13 form.

14 Q With respect to the City of Las Vegas, Box 2,
15 actually right above the one that was highlighted, it says,

16 Marijuana establishment's proposed
17 physical address if the applicant owns
18 property or has secured a lease and other
19 property agreement -- or other property
20 agreement.

21 Do you see that?

22 A That's correct.

23 Q What is it --

24 A I see it.

25 Q What did MM Development enter there?

1 A Well, looks to me a TBD, to be determined.

2 Q So for purposes of Las Vegas, MM Development did not
3 submit a specific address, did it?

4 A Well, according to this document, you're right.

5 Q Anything wrong with that?

6 A Well, I don't know if there's anything wrong with it.
7 I know initially the application required locations to be
8 determined. I know Mr. Koehler and the app-writing team were
9 working diligently with our counsel and Realtors to identify
10 specific addresses. And if memory serves me correctly,
11 something that the department changed or revised the rule to
12 say you didn't have to identify a spot.

13 I know Mr. Koehler was looking on all applications to
14 identify licenses or hone in specific locations in a geographic
15 area of the community because either we didn't have an LOI, or
16 we didn't have a lease finalized, you know, prior to submittal.

17 Q The inclusion of to be determined here, do you
18 believe that should have disqualified MM Development's
19 application?

20 A No, not if it was consistent with the State's
21 directives.

22 Q Let's turn to page 26 in that same document three
23 pages later. This is a discussion from MM. It says.

24 Summary. MM Development, Inc. will work
25 with the City of Las Vegas to place the

1 location on the currently underserved western
2 portions of the city's jurisdiction, such as
3 the Summerlin area.

4 Probably one of the few times underserved and
5 Summerlin are in the same sentence.

6 A I'll give you that.

7 Q So did you have an expectation that you would work
8 with Las Vegas to find a final location?

9 A Well, again I -- I don't know -- I don't want to
10 guess as to what Mr. Koehler was thinking but again I do know
11 in meetings with him and our management team that he was trying
12 to really narrow those areas in the community where we thought
13 warranted additional dispensaries.

14 Q Do you know if Summerlin has any restrictions with
15 respect to operation of marijuana facilities?

16 A You know, I don't know specifically what Summerlin
17 has.

18 Q What about limitations with respect to operation of
19 medical facilities? Do you know if there's a limitation like
20 that?

21 A I do not.

22 Q Are you aware of any CC&Rs that Howard Hughes Company
23 has in the city of Summerlin or the area of Summerlin that
24 would preclude any medical operation from opening in that area?

25 A I'm not familiar with their CC&Rs, no.

1 Q Do you know if there's any reason why any medical
2 facility, medical marijuana establishment did not open in the
3 city of Summerlin previously?

4 A No, I'm not aware.

5 MR. KOCH: No further questions. Pass the witness.

6 THE COURT: Good job.

7 Any other defendants or defendant intervenors,
8 Mr. Gutierrez.

9 MR. GUTIERREZ: Thank you, Your Honor.

10 THE COURT: And we lose the witness in nine minutes.

11 DIRECT EXAMINATION

12 BY MR. GUTIERREZ:

13 Q Mr. Groesbeck, good morning.

14 A Good morning, Counsel.

15 Q My name is Joe Gutierrez. I represent Essence and
16 Thrive. Do you know who the owners --

17 A I do.

18 Q -- and some of the operators are of Essence and
19 Thrive?

20 A Yeah. Both good operators.

21 Q Do you know Mr. Phil Peckman who's here in court
22 today?

23 A I've known Phil for many years.

24 Q Okay. At some point after you didn't receive a
25 license, did you meet with Mr. Peckman and Mitch --

JD Reporting, Inc.

1 [indiscernible] to offer to buy one of their licenses?

2 A Well, we talked generally about that, and I think
3 there was some discussion about buying our lease space as well.

4 Q Okay. And hypothetically, if you would've bought a
5 license at that point, sometime in December of 2018, would you
6 still be here bringing this litigation?

7 A If I had been able to open Medizin?

8 Q Yes.

9 A Well, that's a great question. You know, we had
10 multiple applications, but obviously that was the most
11 important one for us.

12 Q Right. But would you be bringing this litigation
13 asking the Court to stop the process through this injunction?

14 A Well, there again I think I had 20 million reasons
15 probably to make me feel better had we reopened that. I don't
16 know. Like I said, we had five other licenses I believe
17 pending throughout the State. It was part of the process. So
18 I'm not certain of that.

19 Q Right. But -- and you said what, that location is
20 making 18 to 20 million a year? Is that correct?

21 A Yeah. That was the run right then.

22 Q Okay. And you believe you would make that if you
23 were able to open it, reopen that location?

24 A Yeah, I believe that. I believe I'd be able to make
25 more.

1 Q That would generate a lot of tax revenue for the
2 State; is that correct?

3 A Of course.

4 Q Okay. And that's important to you?

5 A It is.

6 Q And that was important for the ballot initiative when
7 this was passed in 2016; isn't that right?

8 A I would agree.

9 Q It's in fact right in the statute it says that the
10 money is to go to the public school system; isn't that correct?

11 A I think you're correct.

12 Q Okay. Can you explain to me how the harm to your
13 company is outweighed by the public getting money for the
14 school system if your injunction is granted?

15 A Well, again, as I said earlier, I had an operational
16 facility for about two years there with a demonstrated track
17 record with numbers that were growing month over month, strong
18 sequential growth, and everyone would have benefited had that
19 store stayed open. As you just said earlier, I would've been
20 able to pay additional revenues or revenues through taxes that
21 could fund education.

22 But again, as a result of what happened, I was forced
23 to mothball that. So now it's an expense on my balance sheet.

24 Q My question to you though was how does the harm to
25 the public, how is that outweighed by your harm of this

1 financial harm to your shareholders?

2 A You know, that's not for me to decide. The fact
3 finder will make that decision at some point. I just know I've
4 been harmed.

5 Q Are you aware that my client Thrive was prevented
6 from opening their location on Sahara under their City of Las
7 Vegas license because of the injunction filed by your side?

8 A No.

9 Q You're not aware of that?

10 A No, I haven't spent much time. I've got my own
11 issues here.

12 Q Okay. Well, so do you agree that Thrive should be
13 able to open up their location on Sahara under their City of
14 Las Vegas license?

15 A No, Counsel, I'm not going to say I agree with that.
16 I'm going to say that there's a process here. There are
17 multiple parties involved in a litigation, not just us, and I
18 am hopeful at some point there's a resolution.

19 But my attorneys, very capable, have advised us on a
20 procedure and a process, and I'm obviously going to defer to
21 their expertise.

22 Q My question to you was about Thrive, specifically
23 their location on Sahara --

24 A Right.

25 Q -- specifically regarding their City of Las Vegas

1 license.

2 A Right.

3 Q Don't you agree that if they were able to open in May
4 when they were ready to open they would be generating much
5 needed tax revenue to the State of Nevada?

6 A Well, again I think it's pretty fair to assume that
7 had they opened they'd be generating revenue. I can't disagree
8 with that.

9 Q Okay. And what's the harm to your company
10 specifically if Thrive is not allowed open -- or if Thrive is
11 allowed to open, what's the harm to your company?

12 A Okay. You've got a handful of licenses in play here.
13 So all the operators who successfully won in the first round
14 operate. What happens at the end of the day if we were
15 successful on the merits? There's no license. They're
16 operational facilities.

17 Q I'm confused. My question to you is what is the harm
18 to your company Planet 13 --

19 A Right.

20 Q -- if Thrive is able to open their Sahara location?

21 A Again, my point is there are multiple licenses out
22 here. I've been irreparably harmed from day one, and I'm
23 harmed every day. Why should I not be allowed to participate
24 in the market and they open while we have pending litigation?

25 Q So stop Thrive from opening because you're being

1 harmed financially; is that your position?

2 A I'm not out to stop Thrive on anything. All I'm
3 trying to do is protect my company, my shareholders and my
4 interests. That's what I'm trying to do.

5 Q So as you sit here today, you have no problem if
6 Thrive were to open this week their Sahara location under their
7 City of Las Vegas license?

8 A I want Thrive to be very successful, and I want the
9 opportunity to be so as well.

10 Q And you agree if they were to open that would
11 generate tax revenue for the State; correct?

12 A Any dispensary to open up would generate tax revenue
13 for the State.

14 Q You were asked about and you said a chilling effect
15 on the industry doing background checks. Is that what you
16 said?

17 A Yeah. I said as relates specifically to a retail
18 investor who maybe owned a share or two who's buying and
19 selling on the markets.

20 MR. GUTIERREZ: Pull up 453D.200.

21 BY MR. GUTIERREZ:

22 Q You've seen this statute before?

23 THE COURT: NRS or NAC.

24 MR. GUTIERREZ: NRS. I'm sorry. Thank you, Your
25 Honor.

1 (Pause in the proceedings.)

2 BY MR. GUTIERREZ:

3 Q Mr. Groesbeck, you've seen this, correct, that the
4 department adopting these regulations need to ensure that they
5 need to adopt all regulations necessary or convenient to carry
6 out the provisions of this chapter? Do you see that?

7 A I do see it, yes.

8 Q The next sentence says,

9 The regulations must not prohibit the
10 operation of a marijuana establishment,
11 either expressly or through regulations that
12 make their operation unreasonably
13 impracticable.

14 Do you see that?

15 A I do.

16 Q And do you think requiring a public company like
17 yours to now have to do background checks on every single
18 shareholder would be unreasonably impracticable?

19 A Well, as I said earlier today, that's not my
20 decision. As the CEO -- a co-CEO of my company, if the State
21 directs me to do something, I'm going to do it. They don't
22 listen to me. They aren't interested in my input. They're the
23 regulator. I'm going to follow their directives.

24 Q My question to you is do you think that would be a
25 harm on your business if they are able to say you need to do a

JD Reporting, Inc.

1 background check on every single shareholder?

2 A Well, again, I think we need to make a distinction
3 between an institutional investor and a retail investor. It's
4 fairly simple to put together a retail list. I mean, that's a
5 couple clicks on the -- keystrokes on the computer.

6 The retail side, I'll give you that it would be a
7 little more problematic, particularly if you are widely traded
8 and, you know.

9 Q You said a chilling effect on the industry. If a
10 public company was required to do that, it would have a
11 chilling effect on the industry; don't you agree?

12 THE COURT: What he said was if you made me do it
13 every day it might have a chilling effect.

14 MR. GUTIERREZ: Okay.

15 THE WITNESS: That's correct.

16 MR. GUTIERREZ: Okay.

17 THE WITNESS: Thank you, Judge. And that's true.

18 BY MR. GUTIERREZ:

19 Q Now, Mr. Groesbeck, if you were to buy a license
20 today, my client Mr. Peckman were to sell you a license
21 today --

22 A Uh-huh. Right.

23 Q -- would you still be requesting an injection from
24 this Court?

25 A Well, there again, as I said, that's one of multiple

1 licenses that we had in play that we were looking to acquire.

2 Q Would you still be challenging the process that the
3 department took in adopting the regulations?

4 A You know, as we sit here right now, I don't know. My
5 goal, of course, is to prepare my -- protect my shareholders
6 and our interests and specifically, you know, we mentioned the
7 Medizin facility numerous times.

8 Q Uh-huh.

9 A And that's my intent.

10 Q Now, with that Medizin facility, you said 18 to
11 20 million per year --

12 A Yeah --

13 Q -- is that correct?

14 A -- roughly.

15 Q Okay. And if that facility is allowed to open, then
16 you wouldn't have any issue with this litigation against the
17 State? You wouldn't still be pursuing it?

18 A No, I didn't say that. I said that would certainly
19 make things much more palatable. We can talk about that, and I
20 could sit with my attorneys and look at it from a different
21 perspective.

22 Q Other than any financial harm, do you have -- is your
23 company going to suffer any harm if this injunction is not
24 granted?

25 A Our company has suffered tremendous harm outside of

1 the revenue side. We took a massive hit in the market. Our
2 market cap probably decreased about 40 percent initially as a
3 result of this license issue. Yeah, this was ongoing. This is
4 something I live with every day.

5 Q Financial harm is what your company has suffered; is
6 that correct?

7 A Well, at the end of the day, everything is financial.
8 We are businesses. We are in business to make money. We're
9 business to get returns for our shareholders.

10 Q I understand. And in your report, your Planet --
11 your report that we just looked at --

12 A The MDNA.

13 Q -- you would have outlined if there was some
14 immediate harm to the company if this injunction is not
15 granted; is that fair?

16 A No, I -- no, I'm not sure we would say that.

17 Q And is -- can you outlined for us what the immediate
18 harm to your company is other than financial if this injunction
19 is not granted?

20 A Well, I think we walked through that. It all ties
21 into financial. I can't operate my company.

22 MR. GUTIERREZ: Thank you, Your Honor. Pass.

23 THE COURT: Thank you.

24 It's 11:20. I lose the witness at this time I've
25 been told. If --

1 MR. KEMP: No questions, Your Honor.

2 THE COURT: Is anyone going to have additional
3 questioning for this witness?

4 Mr. Graf, how --

5 MR. GRAF: Two questions.

6 THE COURT: Quickly.

7 MR. GRAF: Yes, Your Honor.

8 THE COURT: Keep your voice up. Stay where you are.

9 MR. GRAF: I'll ask while I'm walking.

10 DIRECT EXAMINATION

11 Q Mr. Groesbeck, I represent Clear River LLC in this
12 action. You said or testified earlier that you -- the cost to
13 get a license was cheaper than buying a license. Do you
14 remember that testimony?

15 A Yes. Basically that's what I said --

16 Q Okay. So --

17 A -- to acquire a license through the application
18 process is cheaper than going to the open market.

19 Q So the people at your company have done an analysis
20 of the cost to go through the licensing process, and they've
21 done an analysis of the cost to buy a license; correct?

22 A I'm sure we have.

23 Q And they have numbers for both of those right, the
24 dollars that those would cost?

25 A I'm sure there have been multiple discussions about,

JD Reporting, Inc.

1 you know, again how to promote the company moving forward,
2 particularly with respect to the Medizin store.

3 Q And then just one other question, sir. The market
4 cap, what is the market cap for Planet 13 today?

5 A You know, I don't know today as we sit here, but the
6 market overall, the sector has been down considerably, but last
7 year at the time when these licenses issued, we were trading
8 roughly at about three, forty, Canadian. That would put us at
9 two, eighty; two, ninety U.S. That dropped all the way down to
10 less than \$2, I believe, within a matter of, you know, 60, 90
11 days.

12 Q And all of the shares that you previously testified
13 to, we could make a calculation as to what damage has been done
14 to your market cap using those numbers; right?

15 A Well, I think you can do an analysis certainly to see
16 how, you know, the trading activity and how it's trading out.

17 MR. GRAF: Thank you, Your Honor. That's it.

18 THE COURT: No one else has any questions for
19 Mr. Groesbeck?

20 MR. SHEVORSKI: The State has questions, but we don't
21 need Mr. Groesbeck for that, no.

22 THE COURT: All right. Thank you.

23 Have a nice day, Mr. Groesbeck. It appears your
24 testimony has been concluded within the time frames we were
25 able to set even though I was late.

1 THE WITNESS: Thank you, Your Honor.

2 THE COURT: If, for some reason, Mr. Shevorski, it
3 turns out you need to ask him questions, given my rush that I'm
4 giving you --

5 MR. SHEVORSKI: Yeah.

6 THE COURT: -- please talk to Mr. Kemp.

7 Bye, Mr. Groesbeck.

8 THE WITNESS: Thank you.

9 THE COURT: Next witness.

10 MR. SHEVORSKI: I thought Mr. Kemp --

11 THE COURT: Next witness.

12 MR. SHEVORSKI: -- had somebody else from --

13 (Pause in the proceedings.)

14 MR. SHEVORSKI: I just didn't want to -- their broker
15 is leaving on a plane. I don't want to hold him up, and I
16 thought he had somebody else to --

17 THE COURT: Well, let's see if he has someone else.

18 MR. SHEVORSKI: Yeah. I just wanted to explain, Your
19 Honor.

20 THE COURT: I'm not worried about it. I'm pausing.
21 The sign says patience is a virtue that's on my bench. I'm
22 trying really hard.

23 MR. SHEVORSKI: And I heard something about
24 incompetent earlier. I didn't want to be in that category.

25 THE COURT: Nope, you weren't in that group,

1 Mr. Shevorski. In fact, no one in this room has been in that
2 group. You all have been very competent, professional and
3 well-prepared. It's a joy to have you all in my courtroom as
4 practicing attorneys.

5 I'm serious. The subject matter is a little making
6 my brain work, but having you all here has been a very pleasant
7 excursion as opposed to some of the people on my 9:00 o'clock
8 calendar.

9 MR. SHEVORSKI: Fair enough, Your Honor, but I'll
10 keep it in mind that the day ain't over yet. So I'm trying to
11 stay on your right side.

12 THE COURT: Oh, you're doing fine, Mr. Shevorski.

13 If anybody needs to stand up, stretch, go to the rest
14 room real quick while we figure out what the next witness is,
15 please feel free to do so.

16 This is not a sprint; it is a marathon.

17 (Pause in the proceedings.)

18 THE COURT: How are we doing, guys? Did we find our
19 witness?

20 MR. SHEVORSKI: Yeah, he's here.

21 THE COURT: Sweet.

22 (Pause in the proceedings.)

23 THE COURT: Since Mr. Rulis is here for Mr. Kemp, I'm
24 going to go ahead and swear the witness.

25 THE CLERK: Please raise your right hand.

DIRECT EXAMINATION

BY MR. SHEVORSKI:

Q Mr. Koehler, good morning. Thank you for being here.
My name is Steven Shevorski. I'm with the office of the
Attorney General. Just a couple of quick questions for you.

Were you present for Mr. Groesbeck's testimony?

A I was.

Q And you heard him discuss the approximately -- the
approximate split. Let's call it about 70 percent insiders and
maybe 30 percent widely held of the outstanding traded shares
for MM Development. Does that sound about fair?

A Yes.

Q Okay. I'm assuming you're a lawyer?

A I am.

Q Okay. Did you take antitrust in law school?

A I may have.

Q May have. Okay. An issue has come up in this
litigation about monopoly, and I want to talk to you about

1 monopoly power. So it's a subset of an antitrust analysis the
2 Judge is aware of, and I want you to --

3 First of all, do you have a working definition of
4 what monopoly power is?

5 A Am I being called to testify about as an expert or
6 can provide opinions about legal definitions?

7 Q No, sir. There's an expert sitting right next to
8 you.

9 A Okay.

10 Q I'm just asking for your definition of, if you have
11 one, of monopoly power.

12 A As I sit here, no.

13 Q Okay. If I give you a definition that it's the power
14 to control prices or exclude competition, do you accept that
15 definition?

16 A I do.

17 Q Okay. With respect to -- and you're aware that
18 generally speaking, where a company is a corporation, its
19 owners are the shareholders; correct?

20 A Yes.

21 Q Okay. With respect to the widely held shares of
22 MM Development, does a person who is a shareholder who owns two
23 or three shares of MM -- of Planet 13 Holdings, excuse me, have
24 the power to control prices for MM Development?

25 A That's an interesting question. Since we just are

1 coming off of our annual shareholders' meeting, every
2 shareholder has a right to vote on the board members and the,
3 you know, and then the board will eventually decide who are the
4 officers. So even though it's a small amount of control, there
5 is a very small degree of control given to every shareholder as
6 of the record date. If they're a shareholder as of the record
7 date, they have a say in corporate action.

8 Q Do they have -- does a person who owns one share of
9 Planet 13 Holdings have the power to control what price you
10 sell marijuana at?

11 A Absolutely not, but if that one shareholder bands
12 together with other shareholders, then they may have an ability
13 to sway the direction of the company. They may -- they may
14 say, hey, we don't want Planet 13 to be a marijuana company
15 anymore. Shareholders control their corporations.

16 Q I think the example you have, have you heard of a
17 gentleman by the name of Carl Icahn?

18 A I've heard of him.

19 Q Bill Ackman?

20 A I've heard of him.

21 Q Are those kind of activist investors who may start
22 purchasing shares? What about T. Boone Pickens?

23 A Where are you going? I --

24 Q Do you know Mr. Pickens?

25 A I've heard some of these names.

1 Q Okay. So if Mr. Ackman starts purchasing shares, he
2 might have a little more ability to affect a company's
3 operations; correct?

4 A Potentially.

5 Q Potentially. And control the -- how the company
6 operates? The more shares he purchases, the more control he
7 gathers; correct?

8 A Potentially.

9 Q Okay. Now let's contrast that to one shareholder.
10 Assuming that person does not combine with other shareholders,
11 does one shareholder have the power to control the price that
12 MM Development sells marijuana at?

13 A I would go back to my previous answer since is this
14 the same question. Every shareholder has a say in, you know,
15 as to that share. That's what they're entitled to do with it.
16 They're entitled to vote on the corporate covenants.

17 Q How often do you have a shareholder meeting?

18 A Annually. Or in the case of special actions, there
19 may be a special meeting called.

20 Q Is the price of -- is the price of marijuana
21 something that's set annually?

22 A I don't believe that would be appropriate, no.

23 Q One more. Something Mr. Groesbeck mentioned.
24 Mr. Koch -- and you were here for the testimony mentioned in a
25 hypothetical where a person wanted to buy a couple shares,

1 let's call it two shares, on the Canadian Securities Exchange
2 for Planet 13 Holdings, and they sold it later that day, and
3 they were -- so you would agree with me that during that time
4 period, let's call it seven hours, that person was held an
5 ownership interest in Planet 13 Holdings and indirectly of
6 MM Development?

7 A That's correct.

8 Q Okay. During that time period, did that person who
9 owns two shares pose a security threat to MM Development?

10 A I certainly wouldn't think so.

11 MR. SHEVORSKI: Okay. No further questions, Your
12 Honor.

13 THE COURT: Thank you. Any other defendants or
14 defendant intervenors have questions?

15 MR. KOCH: Me.

16 THE COURT: Mr. Koch.

17 DIRECT EXAMINATION

18 BY MR. KOCH:

19 Q Mr. Koehler, I had to -- my name is David Koch.
20 We've talked on multiple occasions I believe.

21 When Mr. Groesbeck was here, we looked at that
22 corporate chart which was page 787 of Exhibit 20.

23 MR. KOCH: Put that back up one more time, Bryan.

24 UNIDENTIFIED SPEAKER: Exhibit 12?

25 MR. KOCH: Exhibit 20.

1 BY MR. KOCH:

2 Q While he's pulling that up, let me ask you, were you
3 primarily responsible for the preparation of the application
4 that MM Development submitted in September of 2018?

5 A I was.

6 Q Okay. 787, which I think is the actual page number,
7 108 or -9. All right. You've seen this chart?

8 A I prepared this chart.

9 Q All right. In that top box, we asked Mr. Groesbeck
10 about respective beneficial owners and stockholders. He
11 answered some questions about that on the bottom line there.
12 It stated, Investors, public stockholders, none greater than
13 5 percent individually. You drafted that?

14 A I did. In response to the department identifying
15 that shareholders under 5 percent were not required, and they
16 had established this through previous activities, when we had
17 transferred our license and when we went public from
18 MM Development company ownership changing, when we transferred
19 the license at the time back in June 11th of 2018, when we
20 went public, the department did not require stockholders under
21 5 percent to be reported, although we did have the exact list
22 at the time, and we were prepared to provide it, it was 243
23 shareholders exactly.

24 And since then we do check in from time to time on
25 the number of shareholders and the identity of the

JD Reporting, Inc.

1 shareholders. It was never required. So upon instructions
2 from the department, this was what went in to our -- our
3 application.

4 Q Right. Since that time -- you said 243 shareholders
5 at that time. How many do you have today?

6 A I couldn't tell you as I sit here right now.

7 Q More than 243?

8 A I would assume so.

9 Q More than a thousand?

10 A I don't know.

11 Q Okay. And I think you heard Mr. Groesbeck and the
12 Judge comment on the issue if the department asked you to
13 submit a shareholder list every day, and the department were to
14 conduct a background check on that list every day, do you think
15 that that would have an effect on MM Development or Planet 13's
16 ability to operate as a public company?

17 A Given that bizarre and -- hypothetical is what I'm
18 going to call it, I think that would have a chilling effect on
19 investors.

20 Q Right. That would be a bizarre situation?

21 A That sounds bizarre to me.

22 Q Yeah. Not a reasonable, normal situation you would
23 expect the department to carry out?

24 A Let me -- you know, I think that hypothetical does
25 sound unreasonable, but I think if we're talking in

1 hypotheticals, I think if there was a requirement annually or
2 as part of a limited opportunity license application window
3 like this, I firmly believe I could have prepared a
4 comprehensive shareholder list and identified everybody.

5 I think one of the, if I may, I think where this
6 heads is, you know, doing background checks, providing a list
7 of names is doable, and it always has been. If the department
8 directed our company to do that, we would do it, and that's the
9 end. I mean, that's what would be required. We're going to
10 protect those licenses, and we would do what we're told.

11 Q Good. Good. And if you provided that list, would
12 you expect the department to actually perform a background
13 check on each of those shareholders on the list you provide?

14 A What's your definition of background check?

15 Q Well, that's a good question. The statute says
16 background check. It doesn't define it, and I'm asking you if
17 you've ever talked with your stockholders about the fact that
18 they may be subject to background checks for purchasing a share
19 of Planet 13 stock?

20 A I haven't.

21 Q Okay. And you said it may be reasonable to do it on
22 an annual basis. So you may take an annual list, submit that
23 list. The department could review it, do whatever it's going
24 to do. What about somebody who buys on Day 2 of the year and
25 sells on day 364; they have a felony; it's a drug lord from

1 Mexico; he buys 4 percent of the company stock? Would that
2 person be on the list if you provided an annual list?

3 A I don't know, and to go back and clarify what I said
4 earlier is I said, as part of a license application process or
5 annually or, you know, some reasonable establishment of
6 providing shareholder lists, if that were required by the
7 department, we could comply.

8 Obviously there's a certain level if every minute I
9 have to provide a shareholder list where the cost is
10 prohibitive and the company closes, and if that's where the
11 State of Nevada heads, that's tragic, but this is something we
12 can do, and we were never asked to.

13 Q Okay. And the 5 percent item there, did you ever
14 you, yourself, go to the department and say, you know what,
15 5 percent, that's unreasonable; I think we should go to
16 1 percent or maybe 10 percent or provide some other percentage?

17 A No.

18 Q Okay. So the 5 percent was part of the regulation.
19 You understood it, and you submitted your application in
20 accordance with that regulation?

21 A I don't know that it was part of the regulation. As
22 we sit here, I don't know if it is part of the regulation.
23 What I'm going to say is this was the requirement that the
24 department informed us as an applicant of and that we met.

25 Q Right. NAC 453D.255, that's the regulation regarding

1 5 percent. Have you ever read that?

2 A I have.

3 Q Okay. And that is the regulation that was in place
4 beginning in January or February of 2018. You're aware of
5 that?

6 A I am.

7 Q Okay. And so this 5 percent that you included in the
8 corporate ownership structure, that didn't just come from
9 nowhere. That came from somewhere. That was a decision that
10 was made based upon something that you read. Right?

11 A Not based on something that I read, that we were
12 informed by the department that ownership under 5 percent we
13 weren't going to be required to submit.

14 I might add though that we were ready and prepared to
15 provide this if it ever came up. My assumption, although
16 incorrect, was that if there were follow-up questions after
17 submitting the application that the department would reach out.
18 I don't know if they were understaffed or that they just rushed
19 through the process. There was no follow up on the
20 applications.

21 Q So if the department -- let's say you got a
22 conditional license and the department came back to you and
23 said that 29.2453 percent that you got listed there, we need to
24 follow up on them. The department could then make that
25 request, and you could provide that list of shareholders, and

1 they could do whatever they needed to do with it at that time;
2 right?

3 A Well, it blows my mind that there would be a
4 conditional license awarded if that was a question that was
5 going to be asked instead of coming to us before awarding the
6 license and then saying, well, we need you to follow up and
7 verify this for us, and then we're going to award, you know,
8 even the conditional because there's a limited number of
9 licenses, and only, you know, winning applicants, you know, the
10 people that deserve these licenses should get them.

11 Q Right.

12 A So --

13 Q The pool of conditional license recipients is smaller
14 than the total number of applicants; right?

15 A I believe so.

16 Q And so if the department decided to only run
17 background checks on conditional applicant recipients,
18 conditional license recipients, it would be a smaller burden on
19 the department; is that right?

20 A Potentially. But maybe there's a window between --
21 and I don't know exactly what happened inside the black box as
22 it appears to have been treated. Once a scoring determination
23 was made, there could have been a reasonable follow-up period
24 where they verify and validate; look at compliance history,
25 which I don't know if they ever did -- I haven't been here

1 every day -- follow up on ownership issues. There's so many
2 things that could have been done that I don't think were.

3 Again not my place here. I'm here to answer your
4 questions. So --

5 Q Right. So the department could have done a lot of
6 things. You're not here to say what they should have done, but
7 they could have done other things; right?

8 A Maybe.

9 Q With respect to the last topic, those locations, you
10 saw that application with respect to the City of Las Vegas that
11 the MM on Exhibit 20, page 23, and this is where MM listed to
12 be determined for its City of Las Vegas location. You're
13 familiar with that?

14 A I am.

15 Q Okay. And you understood that it was permitted at
16 this stage to put something like to be determined on the
17 application with respect to a potential location; is that
18 right?

19 A Again, it was my understanding that that was
20 permitted, but that was only after the Department of Tax
21 started announcing that this was no longer a requirement. Even
22 after they announced that this was no longer a requirement,
23 because of the community-impact portion and also my mistaken
24 belief that having specific locations identified would be
25 helpful, we worked diligently up to even a week before the

1 application was filed, narrowing in locations.

2 We were in lease negotiations with landlords. I was
3 talking with multiple city departments, and we were trying to
4 identify and be forward looking as to places that were
5 underserved and, you know, meet the needs of the State and the
6 people of the State who were going to be participating with us
7 that, you know, were our customers. We tried.

8 Q Okay. And that's, I won't turn to it, but page 26
9 where we read Mr. Groesbeck saying that MM would work with the
10 City of Las Vegas to find a location that would serve the
11 community; is that right?

12 A I drafted this.

13 Q Okay.

14 A And some of what you were saying today in court when
15 you were talking with Bob Groesbeck, that was news to me.

16 Some of what I put in this was aspirational. It was
17 my desire and remains my desire to work with that section of
18 town and see if a dispensary could be opened. My understanding
19 was is that it couldn't at the time of the application, but it
20 definitely was our intent to work on this.

21 Q And the fact that MM included "to be determined" on
22 its location, you did not believe that that would disqualify MM
23 from potentially receiving a conditional license, did you?

24 A I did not believe that, but only because of
25 instructions given by Department of Tax.

1 Q And you said that was an announcement that the
2 Department of Tax made; is that right?

3 A Yes.

4 Q That wasn't -- you didn't invite Jorge Pupo to
5 dinner, did you, and he gave you that secret information?

6 A No. Unlike others, I did not have that type of
7 relationship with Mr. Pupo.

8 Q And that was information that had been given to all
9 applicants, not at a dinner, not anywhere else, but it was
10 actually announced; right?

11 A Well, I can't testify as to that. What I can say is
12 that I was made aware by outside counsel that this was a
13 development. I might have missed it but for outside counsel
14 telling me, hey, this just changed. Let's see where we head in
15 our application strategy.

16 Q Who was your outside counsel?

17 A Jay Brown.

18 MR. KOCH: All right. Thank you.

19 No further questions.

20 THE COURT: Anyone else from the defendants,
21 defendant intervenors have questions?

22 (No audible response)

23 THE COURT: Anybody from the plaintiff side?

24 (No audible response)

25 THE COURT: Sir, I have a couple questions.

JD Reporting, Inc.

1 You said the department informed you of the 5 percent
2 limit on the application for shareholders?

3 THE WITNESS: Yes, Your Honor.

4 THE COURT: Can you tell me how you learned of that
5 from the department.

6 THE WITNESS: Outside counsel was in contact with the
7 department, and so a week before the announcement, outside
8 counsel was made aware, and then they told me. So around July
9 31st I received an email from outside counsel. I may have
10 the date a little bit off.

11 THE COURT: It's okay.

12 THE WITNESS: But around then I got a --

13 THE COURT: And that was from Mr. Brown?

14 THE WITNESS: That was from Mr. Brown's office.

15 THE COURT: Okay. So give me a couple other areas.
16 You recently had an annual meeting probably April or March?

17 THE WITNESS: Just in June 24th.

18 THE COURT: June. Okay. What was the record date
19 for that meeting?

20 THE WITNESS: Oh, I don't have that off the top of my
21 head. That was about a month before.

22 THE COURT: About a month.

23 THE WITNESS: Sometime in May.

24 THE COURT: So how many shareholders did you have on
25 your record date before the annual meeting?

1 THE WITNESS: I don't have that number, but I can --

2 THE COURT: Best estimate?

3 THE WITNESS: I can't. I have no idea.

4 THE COURT: Okay. So give me an order of magnitude.
5 250? 20,000?

6 THE WITNESS: I'm guessing --

7 THE COURT: I don't want you to guess.

8 THE WITNESS: -- and if I'm guessing, then it is a
9 thousand or more.

10 THE COURT: Okay. So somewhere between a thousand
11 and 2,000?

12 THE WITNESS: Total guess, Your Honor. That's --

13 THE COURT: Okay.

14 THE WITNESS: I --

15 THE COURT: I don't want you to totally guess. I'm
16 trying to spark your memory.

17 THE WITNESS: There's no memory to spark here. I do
18 not know the exact number of shareholders as of that date, and
19 part of that process is, is that we reach out through a --
20 through our trust company and a mailing company. Some of those
21 are maintained anonymously through their brokerage accounts.
22 So our retail --

23 THE COURT: They're beneficial interest holders;
24 right?

25 THE WITNESS: Some of them.

1 Now, all of those go through -- and just to be clear,
2 there is a verification and a know-your-customer vetting
3 process for all investors in, you know, with brokerage accounts
4 and indeed with any retail investor where they have to go
5 through and attest source of funds, their activities. I don't
6 know if that rises to the level of what the State might
7 consider a background check, but it might be an indication of a
8 type of background check being conducted on the shareholders.

9 THE COURT: So let me try and approach it slightly
10 differently. Because you're traded on the Canadian markets and
11 I don't usually deal with people traded on the Canadian
12 markets, I'm trying to get a little bit of information from you
13 about the process.

14 THE WITNESS: Got it.

15 THE COURT: Do you prepare proxy statements that go
16 to your shareholders prior to an annual meeting?

17 THE WITNESS: We do.

18 THE COURT: And are those sent out?

19 THE WITNESS: Yes.

20 THE COURT: And how are they sent out?

21 THE WITNESS: They're sent out through a third party
22 proxy statement mailer service that we engage.

23 THE COURT: So I know now that in the American system
24 some are sent out electronically. Some are sent out on
25 listserv, and some are still sent out by snail mail. Do you

1 know how your trust company and proxy service sends the proxy
2 notices for your shareholders?

3 THE WITNESS: I do. It was very expensive. We
4 mailed it.

5 THE COURT: Okay. And you mailed it to all record
6 owners on the record date?

7 THE WITNESS: Yes.

8 THE COURT: And some of those would be institutional
9 investors; some of them would be brokerage account; and some of
10 them would be individuals?

11 THE WITNESS: Yes, Your Honor.

12 THE COURT: And if you were to be required to provide
13 the shareholder list on a particular date every year, how
14 burdensome would that task be?

15 THE WITNESS: Slightly burdensome, but very doable.

16 THE COURT: As opposed to the every day that Mr. Koch
17 had referred to?

18 THE WITNESS: That's correct, Your Honor.

19 THE COURT: Okay. Those were all my questions.
20 Thank you.

21 Anybody else have questions?

22 MR. KEMP: No, Your Honor.

23 THE COURT: All right. Thank you, sir. We
24 appreciate your time. Very nice afternoon.

25 THE WITNESS: Thank you, Your Honor.

1 THE COURT: It's 11:51. Do we have a nine minute
2 witness?

3 MR. GUTIERREZ: We can call the next witness, Your
4 Honor, and go as far as we can.

5 THE COURT: I'm not going to even get him sworn in in
6 nine minutes. Who is our next witness?

7 MR. GUTIERREZ: Bret Scolari.

8 THE COURT: Okay. So we have -- wait. Stay where
9 you are, sir.

10 I've got Mr. Scolari. Who else I got today?

11 Mr. Kemp, who else I got?

12 MR. KEMP: Mine are done, Your Honor.

13 THE COURT: Okay. Mr. Cristalli? Mr. Miller?

14 MR. CRISTALLI: We have Sean Lewis, who is available;
15 and Ben Sillitoe, who is also available.

16 THE COURT: And they're coming this afternoon?

17 MR. CRISTALLI: Yes, Your Honor.

18 THE COURT: All right.

19 MR. CRISTALLI: They'll be prepared to go.

20 THE COURT: Okay.

21 MR. CRISTALLI: And also one other, Your Honor,
22 Danielle Stewart [phonetic] from Fidelis.

23 THE COURT: Okay. So I got four more of the --

24 MR. GUTIERREZ: And Frank Hawkings --

25 THE COURT: And Mr. Hawkings is here. I'm not

1 worried about him. He will be easy for us to get up here.

2 Anybody else?

3 (No audible response)

4 THE COURT: Okay. So after you finish these
5 witnesses, Mr. Kemp and Mr. Gentile, I will ask you the
6 following questions: Do you have a rebuttal case? I'll then
7 anticipate you'll tell me what the timing is related to that.

8 MR. GENTILE: Okay.

9 THE COURT: I'm not asking yet. Okay. So I've got
10 these witnesses, and then we're going to be done with the
11 defendants and defendant intervention cases.

12 MR. GUTIERREZ: Your Honor, there was one or two
13 witnesses from Mr. Bult's clients that we're trying to get for
14 or Thursday morning that we're coordinating on, but again the
15 timing wouldn't be as long as the witnesses we have today.

16 MR. BULT: Your Honor, and that was only because of
17 our understanding we're dark tomorrow and Wednesday.

18 / / /

19 / / /

20 / / /

21 / / /

22 / / /

23 / / /

24 / / /

25 / / /

1 THE COURT: I'm not dark tomorrow and Wednesday.
2 It's just none of you guys can all come. I'm here. Mr. Graf
3 has hearings all day tomorrow. Okay.

4 So we're not going to be done with the witnesses the
5 defense intends to call today. So I won't ask you the
6 question, Mr. Gentile. Sorry.

7 Okay. I guess I will see you guys at 1:00.

8 (Proceedings recessed at 11:53 a.m., until 12:59 p.m.)

9 -oOo-

10 ATTEST: I do hereby certify that I have truly and correctly
11 transcribed the audio/video proceedings in the above-entitled

1 LAS VEGAS, NEVADA, FRIDAY, JULY 12, 2019, 10:02 A.M.

2 (Court was called to order)

3 THE COURT: Good morning, everyone. Remember our
4 plan today is to get Ms. Contine out of here by 2:45, even if
5 she's not finished. Okay. Come on up, Ms. Contine. I didn't
6 want anybody to forget.

7 MR. SHEVORSKI: I took care of business on my end,
8 as well, the question you asked me.

9 DEONNE CONTINE, DEFENDANT, STATE'S WITNESS, SWORN

10 THE CLERK: Please be seated. Please state and
11 spell your name for the record.

12 THE WITNESS: My name is Deonne, D-E-O-N-N-E,
13 Contine, C-O-N-T-I-N-E.

14 THE CLERK: Thank you.

15 THE COURT: Mr. Kemp, you may continue.

16 CROSS-EXAMINATION (Continued)

17 BY MR. KEMP:

18 Q Good morning, ma'am. Let's go back to what I call
19 the Memorex question. You remember those Memorex commercials
20 back in the old days?

21 THE COURT: Ah, Mr. Kemp.

22 MR. KEMP: Judge, come on, Judge. I'm testing the
23 depths --

24 THE COURT: I remember them, but --

25 MR. KEMP: -- of your memory.

1 THE COURT: I remember them, but not everybody's as
2 old as me and you and Mr. Gentile.

3 BY MR. KEMP:

4 Q Do you remember them, ma'am?

5 A No.

6 Q Basically it was a commercial that says is it
7 Memorex or is it the original, and Memorex was the copy.
8 Okay. Are you kind of with me so far?

9 A Yes, I think I am.

10 Q So yesterday my questions were asking whether the
11 Department just copied the medical marijuana regulation, and
12 you said, no, that you and Mr. Pupo and others drafted a new
13 regulation after Question 2 in the Government's Task Force;
14 correct? That was the testimony yesterday; right?

15 A So I guess if I could try to clarify what I --
16 because I think there was some miscommunication that we had
17 yesterday.

18 Q Well, yesterday your position was it wasn't a
19 copy --

20 THE COURT: Wait. Let her finish, please.

21 MR. KEMP: Judge, I'd rather not have the
22 clarification of --

23 THE COURT: Counsel, I need her to finish her
24 answers. I understand you may disagree with what she's saying
25 and cross-examine her extensively and aggressively, but give

1 her the courtesy of answering the question --

2 MR. KEMP: Yes, Your Honor.

3 THE COURT: -- and then we'll keep going. And we
4 may get done next week.

5 MR. KEMP: We may

6 THE COURT: All right. Keep going, Ms. Contine.

7 THE WITNESS: So the physical process of taking all
8 of the ideas and the concepts that we were working with and
9 putting it on a piece of paper was QuantumMark. So they --
10 BY MR. KEMP:

11 Q That's it?

12 A If that's what you consider to be a draft then they
13 drafted putting the pen to paper as you said yesterday.

14 Q Yesterday I was suggesting to you that there was
15 testimony from Mr. Gilbert and others that you just copied the
16 medical marijuana reg, and you disagree with that; right?

17 A I didn't disagree with that. I didn't -- I don't
18 know what you mean by just copied.

19 Q Did the Department not, in fact, simply copy the
20 medical marijuana reg especially with regards to the 5 percent
21 ownership section?

22 A So with respect to the 5 percent ownership section
23 specifically there's testimony, there's written documentation
24 that was a Task Force recommendation. It was discussed
25 extensively at the Task Force based on that recommendation.

1 The consensus, the fact that it was in the -- also part of the
2 medical it was put into that original draft document that the
3 Department of Taxation then workshopped and took input on and
4 then went through with adoption.

5 Q They copied the 5 percent directly from the medical;
6 yes?

7 A Yes.

8 Q Yes?

9 A Yes.

10 Q Okay. So there was no big discussion about whether
11 it should be 5 percent or 3 percent or 7 percent, right, no
12 discussions such as that?

13 A There was discussion about the 5 percent both at the
14 working group, the Task Force, the regulation process, and
15 that discussion indicated that it was something that had been
16 working for the industry. It wasn't unduly burdensome, and it
17 was a way that we could move forward and implement the
18 program.

19 Q Were alternatives such as 3 percent, 7 percent
20 explored?

21 A I don't know.

22 Q Okay. And did you do any studies to focus on the
23 complexities of 5 percent as opposed to the Question 2 mandate
24 of every owner?

25 MR. SHEVORSKI: Objection. Vague.

1 THE COURT: Overruled.

2 THE WITNESS: No. I mean, we didn't do any studies
3 on the 5 percent, because, again, there was a significant
4 consensus around that.

5 BY MR. KEMP:

6 Q So because the industry and whoever was on the study
7 group liked the 5 percent you went with the 5 percent, that
8 was the reason?

9 A We analyzed internally whether we could make that
10 regulation in the recreational under the initiative, and we
11 considered whether we had the authority and then whether it
12 would be unduly burdensome and whether using that 5 percent
13 would also protect the public safety part.

14 Q And unduly burdensome, did you do any studies as to
15 the cost --

16 A No.

17 Q -- of using a different figure other than 5 percent?

18 A No.

19 Q So as we sit here today you can't tell me whether or
20 not in terms of cost there's any undue burden on checking
21 everyone as opposed to 3 percent, 5 percent, 7 percent, you
22 can't tell me?

23 A I can't tell you the difference, no.

24 Q You can't even tell me if there is a difference?

25 A Well, I can tell you what people testified to --

1 Q Okay.

2 A -- in which I think I have.

3 THE COURT: And when you say testify you mean before

4 the Task Force?

5 THE WITNESS: The Task Force --

6 THE COURT: Okay.

7 THE WITNESS: -- all the various public meetings

8 that were conducted.

9 THE COURT: Thank you. We don't use that as

10 testimony as litigators --

11 THE WITNESS: Oh. Okay. Sorry.

12 THE COURT: -- I know that in administrative you do.

13 So I just wanted to make sure we were clear.

14 BY MR. KEMP:

15 Q And are you suggesting that there was testimony that

16 anything less than 5 percent would be unduly burdensome?

17 A I don't recall if there was, but --

18 Q And are you suggesting that there was testimony that

19 requiring a background check of some sort on every owner would

20 be unduly burdensome?

21 A I believe that there was testimony to that

22 effect.

23 Q Okay. And why would that be? Why would that be

24 unduly burdensome --

25 A Well, you mean --

1 Q -- based on the testimony as you understood it?

2 A So my understanding in the examples that I've given
3 previously was that it was difficult with small owners that
4 maybe lived out of the jurisdiction to facilitate operation of
5 the business because of the requirements.

6 Q As I understand, those people were already licensed,
7 because they already had to have a medical license if they
8 were applying in this round; correct?

9 A Yes.

10 Q So these people were already licensed, and you
11 thought it was unduly burdensome to do background checks?

12 A The way that the program had been run up until that
13 point was that every year annually there was a background
14 check requirement. And every time there was a transfer of
15 ownership the information had to be submitted and that that
16 was -- the requirements to have everyone who had any kind of
17 investment in the company to submit to those requirements was
18 difficult to operate the business.

19 Q Basically they had to go and have their fingerprints
20 taken somewhere and then send it to the Department. That's
21 basically what they had to do; right?

22 A Yes, they had to have fingerprints annually.

23 Q Anything else?

24 A They had to file the application -- I can't remember
25 -- or file the renewal. I don't know everything that was on

1 the renewal. I never did the renewal.

2 Q You're not suggesting to me they had to have new
3 fingerprints annually as opposed to some sort of updated form,
4 or are you suggesting that?

5 A They had to have new fingerprints annually.

6 Q That's your understanding?

7 A That's my understanding.

8 Q All right.

9 A In fact, I believe in Assembly Bill 422 in the 2017
10 session the industry had that changed.

11 Q Okay. And Mr. Koch brought up the subject of public
12 companies yesterday. Do you remember that?

13 A Yes.

14 Q And he was implying that there's some extreme
15 difficulty in ascertaining the ownership of a public company.
16 Do you recall those questions?

17 A Yes.

18 Q And do you know how difficult it is for a public
19 company to send a list of shareholders to someone upon
20 request?

21 A I don't know how difficult that is, but I guess I
22 was thinking of it a little differently in that if you're --
23 the way that a public market works the ownership changes all
24 the time with the rules the way that they are if you are
25 required to submit something, you know, if somebody makes a

1 trade right now it could be different than, you know, in an
2 hour from now. So just the vast number of people that would
3 be coming in and out for a really small portion.

4 Q Okay. Before we get to coming in and out let's get
5 to identifying the owners, see how difficult that is. Do you
6 know, as we sit here today, how difficult it is for a public
7 company to identify all of its shareholders?

8 MR. SHEVORSKI: Objection. Vague.

9 THE COURT: Overruled.

10 THE WITNESS: I don't.

11 BY MR. KEMP:

12 Q And have you ever heard of a transfer agent?

13 A No.

14 Q So if told you that most public companies can log
15 in on Odyssey and print out all their shareholders in less
16 than 10 minutes, prepare a list, that'd be news to you?

17 THE COURT: Odyssey or EDGAR?

18 MR. KEMP: It's Odyssey, Your Honor.

19 THE COURT: Okay.

20 MR. KEMP: Well, I guess it depends on which company
21 it is. Okay.

22 THE WITNESS: Yeah. I mean, I've never used a
23 service like that. I wouldn't have -- I wouldn't know about
24 those services .

25 //

1 BY MR. KEMP:

2 Q Okay. Do you think that's an unreasonable burden
3 that someone spends 10 minutes giving their list of
4 shareholders?

5 A But how good is that list? How long is that list
6 good for I guess. That's the question. And, you know, how
7 long is that list good for? How do those people submit the
8 information that's required those types of things. I just, I
9 mean, the process of implementing something like that and the
10 process of getting that information would be.

11 Q In this rhetorical question you just asked me, how
12 long is the list good for. That was not discussed at any time
13 by anyone at the Department of Taxation, right, because you
14 didn't know they could get the list?

15 A Well, I guess just conceptually the way markets
16 work, the way that the trading happens there was a general
17 understanding of that and the difficulty of obtaining accurate
18 information in real time, and, again, balancing those burdens
19 and the abilities to review all of that to get all of that and
20 submit all of that with the recognition that we could still
21 protect public health and safety I think.

22 Q I just told you you could generate the list in 10
23 minutes, and you said there were difficulties in getting that
24 in real time. Is 10 minutes what you consider to be a
25 difficulty?

1 MR. SHEVORSKI: Objection. Foundation.

2 THE COURT: Overruled.

3 THE WITNESS: Yes.

4 BY MR. KEMP:

5 Q So you didn't want to impose the burden on any of
6 the applicants that were public companies that they would
7 spend 10 minutes. That's the reason you disregarded Question
8 2 say to everyone -- every owner. Is that what you're telling
9 me?

10 MR. KOCH: Objection. Argumentative. Misstates --

11 THE COURT: Overruled.

12 MR. KOCH: -- the initiative, as well.

13 THE WITNESS: No, that's not what I'm saying. What
14 I'm saying is that, again, we were trying to balance the
15 request and what the industry was saying at various meetings
16 on the public that would be -- that we would consider
17 testimony but not legal testimony, and balance that burden
18 with also the internal, you know, how do you implement a
19 process like this that is going to essentially review and sign
20 off of every single person at one point in time who has an
21 ownership interest because they own whatever and how many
22 ever, you know, pieces of stock or whatever they own when
23 tomorrow that might be different.

24 So even as you're reviewing it you couldn't have
25 that accurate information. And so given that situation and

1 that makeup those burdens and the, again, the policy to kind
2 of work and implement this program with public safety in mind,
3 that's why it was chosen.

4 BY MR. KEMP:

5 Q Okay. Getting back to the question three questions
6 ago that hasn't been answered yet. These considerations were
7 never discussed by the Department; correct? These specific
8 considerations of the difficulty of updating the public list
9 of shareholders were not discussed by the Department?

10 A It was discussed generally, but the specifics of a
11 list and how long we could get a list that was not discussed.

12 Q Okay. Do you know what the Gaming Control Board
13 does?

14 A No.

15 Q You don't know that they require a shareholder's
16 list to be filed on a I believe it's a quarterly basis and
17 updated by the public companies?

18 A No, I don't know that.

19 Q Okay. That'd be a reasonable thing for the
20 Department to do, do you think?

21 MR. KOCH: Objection. Lacks foundation.
22 Argumentative.

23 THE COURT: Overruled.

24 MR. SHEVORSKI: Also misstates the law.

25 THE COURT: Overruled.

1 THE WITNESS: I don't know. I don't know enough
2 about it to know if it'd be reasonable.

3 BY MR. KEMP:

4 Q Well, it would be one option that could be employed,
5 right, you could do that, because the Gaming authorities do it
6 and you can do it?

7 MS. SHELL: Objection. Calls for speculation.

8 THE COURT: Overruled.

9 THE WITNESS: Again, I don't know. I don't know if
10 it's reasonable. I don't know.

11 BY MR. KEMP:

12 Q Okay. So you think it's potentially unreasonable to
13 require a marijuana company that's a public company to provide
14 an updated shareholder list once a quarter. You think it's
15 potentially unreasonable?

16 A I don't know.

17 Q Okay. And you don't know because the Department
18 didn't study any difficulties with regards to public companies
19 identify their ownership; right?

20 A Again, no.

21 Q Okay. Yes, I'm right, you did not study that?

22 A Again, no.

23 Q No, you did study that?

24 A No, we did not study it.

25 Q Okay. Thank you.

1 A I'm answering the question.

2 Q All right. Now getting back to Question 2.

3 Question 2 required background checks for everyone, right;

4 yes?

5 MR. KOCH: Objection. Misstates the initiative.

6 THE COURT: Overruled.

7 BY MR. KEMP:

8 Q That's your understanding?

9 A I don't -- can I have the language.

10 THE COURT: The book's right there, ma'am.

11 THE WITNESS: What specific provision are you

12 talking about?

13 THE COURT: Ma'am, 453D's in the pocket part.

14 BY MR. KEMP:

15 Q The background check --

16 A I don't know if the language says each or every. I

17 don't know the exact provision, and I can't find it quickly.

18 So -- but, yes, it required background checks on each or every

19 owner.

20 Q Okay. But it didn't require any specific type of

21 background check; right?

22 A No.

23 Q So, for example, it didn't require you to

24 fingerprint every single owner; right?

25 A Right.

1 Q Okay. So if someone were to suggest that the
2 statute or that Question 2 couldn't be complied with because
3 it demanded fingerprinting every owner, that would be wrong;
4 right?

5 A I don't think fingerprinting is in the initiative,
6 no, or in the chapter.

7 Q Now, are you familiar with what's known here in
8 Nevada as the Black Book?

9 A No.

10 Q It's a book that they maintain at the Gaming Control
11 Board that has a list of undesirables, you know, people that
12 were in the Mob, slot cheats, you know --

13 MS. SHELL: Objection. relevance.

14 THE COURT: Overruled.

15 BY MR. KEMP:

16 Q You're not familiar with that at all?

17 A Okay. I mean, I'm familiar with it now.

18 Q Okay.

19 A You just explained it.

20 Q Let's say there's 100 names in the Black Book. As
21 we sit here today do you know whether or not the Gaming
22 Control Board uses an optical scanner to compare those 100
23 names in the Black Book to lists of shareholders of public
24 gaming companies?

25 A I don't know.

1 Q That'd be a reasonable thing to do; right?

2 MR. KOCH: Objection. Lacks foundation. Personal
3 knowledge.

4 THE COURT: Overruled.

5 THE WITNESS: I don't know. I don't know.

6 BY MR. KEMP:

7 Q If you did that you could tell at least from the
8 gaming perspective you could tell if these 100 people had
9 bought shares in a gaming company; right?

10 A I think if you did what you just explained I think
11 you probably could tell that.

12 Q And that's a pretty simple thing to do now and use.
13 I mean I can't do it, but I watch Nate do it all the time.
14 You know, he pushes a button and he does an optical scan and,
15 you know, we search through thousands of pages of transcript
16 and things pop up right away. That's pretty simple nowadays;
17 right?

18 A I'll take your word for it.

19 Q So if they wanted to, the Department of Taxation
20 could have required the public companies to update their list
21 periodically even weekly, and they could have run some sort of
22 optical scan on names of undesirables if they wanted to. They
23 could have done that; right?

24 MR. SHEVORSKI: Objection. Foundation.

25 THE COURT: Overruled.

1 THE WITNESS: I, you know, I don't know. I mean,
2 it's a large process to go through and, you know, it could
3 have been an idea that would -- as explored, yes.

4 BY MR. KEMP:

5 Q Okay. And you could have taken situations where
6 people maybe had five shares of a \$2 a share marijuana stock,
7 \$10 worth of stock. You could have done a really minimal type
8 of background check on that; right?

9 MR. SHEVORSKI: Objection. Foundation.

10 THE COURT: Overruled.

11 BY MR. KEMP:

12 Q I mean, there was nothing that said you had to do
13 the same degree of background check on every particular owner;
14 right? Nothing in Question 2 made you do that?

15 A Yeah, there could have been regulations that were
16 made that took certain different characteristics into --

17 Q Okay. So in general you would agree with me you
18 could have complied with Question 2 in ways other than just
19 having a 5 percent cutoff?

20 A Right. Yes. The regulations could have been
21 different, yes.

22 Q Okay. And getting back to those regulations. I
23 don't want to belabor the Memorex point, but I told you
24 yesterday that Mr. Gilbert testified that they just copied the
25 medical marijuana regs. It was actually Mr. Pupo who said

1 that, okay. So your position is that that testimony is
2 erroneous?

3 A My -- I think I've explained the process quite a
4 bit. There was different information that was taken from
5 different areas. There were different states that were
6 considered, and all of the information with respect to the
7 regulations that were compiled as a draft was done by -- was
8 put into a document by QuantumMark.

9 Q Okay.

10 A And the analysis and the work and the revisions and
11 the process was done throughout that whole process from when
12 the Task Force started until the Legislative Commission
13 adopted the regs.

14 Q Well, let's pop up Mr. Pupo's exact testimony, and
15 we'll see if you think it's wrong and if we've got to bring
16 you back for some reason, okay?

17 MR. PARKER: Can we have that, please, Shane.

18 THE COURT: Can you give us the date of the
19 testimony, please. Because he was here for more than one day.
20 And that'd be you, Mr. Rulis, upon whom lauds have been given
21 for your ability to use OCR systems.

22 MR. RULIS: July 1st, Your Honor. We're talking
23 about the transcripts from July 1st.

24 THE COURT: Thank you. And, ma'am, you can see it
25 on the screen. I'm sure --

1 THE WITNESS: Yes.

2 THE COURT: -- Mr. Kemp will read it to you.

3 BY MR. KEMP:

4 Q Okay. Let's take a look at page 78, line 9, Shane.
5 And the Court asked Mr. Pupo a question.

6 "I'm trying to understand the process the Department
7 used in implementing Ballot Question 2 so I can make
8 a determination as to whether it was reasonable and
9 being compliant with Ballot Question 2."

10 Says, "Yes, Your Honor."

11 "Okay."

12 Answer, "So the majority or a lot of the regulation
13 came over -- came from what was brought over from
14 453A and incorporated in these regulations. And
15 then, you know, we looked at the initiative to see
16 what differences there were, cut out what applied
17 and what didn't apply."

18 So Mr. Pupo says you started with the med mal -- or,
19 excuse me, medical marijuana regulations, copied them, and
20 took some things out.

21 MR. SHEVORSKI: Objection. Misstates testimony.

22 THE COURT: Overruled.

23 THE WITNESS: I think I've explained the process
24 extensively. I'm not disagreeing that 453A wasn't considered
25 and wasn't a place to begin the analysis after reading the

1 initiative, but there were other provisions that had to be
2 done and dealt with that were -- and in addition to these the
3 provisions that were in 453A were discussed at the Task Force,
4 discussed through the regulatory process. So, yes, there were
5 provisions from 453A that were used in 453D.

6 BY MR. KEMP:

7 Q Okay. And specifically the 5 percent was just a cut
8 and paste, wasn't it?

9 MS. SHELL: Objection. Argumentative.

10 THE COURT: Overruled.

11 THE WITNESS: I don't know. I'd have to go and --

12 MS. SHELL: Misstates prior testimony.

13 THE COURT: Overruled.

14 BY MR. KEMP:

15 Q Well, we will go to it in a second. But it was a
16 cut and paste, wasn't it?

17 A I don't know.

18 Q Okay. Let's take a look at page 82, line 8, Shane.
19 Again, this is Mr. Pupo answering another question by the
20 Judge.

21 "So did it appear to you that the Department just
22 took 453A and made a few changes and then developed
23 regulations for 453D?"

24 Answer, "We took -- we took a good portion of 453A,
25 yes, Your Honor."

1 The Court, "So tell me why the Department decided
2 that it was going to use a 5 percent level for
3 owner?"

4 Answer, "Well, you know, I don't know if that came
5 over from 453A, as well."

6 And then he continues talking about the Governor's
7 Task Force. So basically Mr. Pupo was saying that you took
8 the regulation 453A and you used it for 453D.

9 MR. SHEVORSKI: Objection. Misstates testimony.

10 THE COURT: Overruled.

11 BY MR. KEMP:

12 Q Right?

13 A No. I think --

14 Q No?

15 A -- I think he's saying -- what I'm saying and what he
16 is saying are consistent. And, again, I talked extensively
17 about the process.

18 MR. KEMP: Okay. Let's pop up 453A, the 5 percent
19 requirement with the changes, Shane, please. I have prepared
20 for you 453A, the 5 percent requirement -- pull up the one
21 that Nate had this morning, yeah. Okay. The 5 percent
22 requirement with all the changes -- I can't remember what the
23 word is --

24 THE COURT: Redline.

25 MR. KEMP: Compare right. Yeah, redline.

1 THE COURT: Redline.

2 MR. KEMP: Okay. Redline compare right.

3 BY MR. KEMP:

4 Q So you can see what the Department actually did,
5 okay? And then we'll get back to the cut and paste question,
6 all right? So could you show it to her, please.

7 Maybe I should just show it to you.

8 THE COURT: Jill, can you let him have the Elmo.

9 MR. KEMP: Judge, we're done with Memorex. We might
10 as well go to the Elmo.

11 THE COURT: It's better than an overhead projector.

12 BY MR. KEMP:

13 Q Okay. So you see, we started with 453A on one side,
14 and they cross that out and it becomes 453D; right? See the
15 change that was made?

16 A Okay.

17 Q Why don't we start with paragraph (1). The only
18 changes made were they took the word "medical" out twice;
19 right?

20 A Yes, it looks like on this document.

21 Q That's cut and paste; right?

22 A Yes.

23 Q You would agree with me that's a cut and paste?

24 MR. SHEVORSKI: Objection. Vague.

25 THE COURT: Overruled.

1 THE WITNESS: I mean -- yeah, it was a starting
2 point, yes.

3 BY MR. KEMP:

4 Q Okay. Cut and paste, okay. And (2), same thing,
5 you took the word "medical" out twice. That was a cut and
6 paste; right?

7 MR. SHEVORSKI: Objection. Vague.

8 THE COURT: Overruled.

9 THE WITNESS: Yes. I mean, that's what this
10 document shows. I don't know what this document --

11 THE COURT: Mr. Kemp, I need you to mark that as a
12 demonstrative exhibit, please, since it's not otherwise part
13 of my record. Thank you.

14 BY MR. KEMP:

15 Q And if I'm correct, the medical marijuana statute
16 was enacted in 2014.

17 A 2013.

18 Q 2013?

19 A I think.

20 Q So this would have been three years before
21 Question 2 passed?

22 A Right.

23 Q So the determination to use 5 percent was made three
24 years before the voters' initiative passed?

25 A I'm not sure when the regulations were adopted. So,

1 yeah. Yeah.

2 Q Okay. Two or three years; is that fair?

3 A Yes.

4 Q Okay. Two or three years. So would I be correct
5 that -- the 5 percent ownership requirement for background
6 checks that the Department imposed in the 2018 regs, would I
7 be correct that they really weren't related in any way, shape,
8 or form to the voters' initiative?

9 MR. KOCH: Objection. Vague. Argumentative.

10 THE COURT: Overruled.

11 THE WITNESS: Can you kind of rephrase that. I'm
12 not -- I'm not sure what you're getting at.

13 BY MR. KEMP:

14 Q You were using the 5 percent in the medical
15 marijuana statute; right?

16 A Well, that was what was in the statute, yes.

17 Q In 2013, 2014; right?

18 A I believe -- I'm going to --

19 MR. SHEVORSKI: Objection. Misstates the law.

20 THE COURT: Overruled.

21 THE WITNESS: I don't know exactly --

22 BY MR. KEMP:

23 Q Give me a range. It was before the voters'
24 initiative; right?

25 A Well, the medical program was enacted before the

1 voters' initiative, yes.

2 Q Okay. So the reason the 5 percent was used had
3 nothing to do with Question 2 in its -- which referenced to
4 every owner. It was just because you took it from the medical
5 marijuana; right?

6 MR. SHEVORSKI: Objection. Misstates the
7 initiative.

8 THE COURT: Overruled.

9 THE WITNESS: No.

10 BY MR. KEMP:

11 Q No?

12 A No.

13 Q No, it was not.

14 THE COURT: Mr. Kemp, you still have the Elmo on, so
15 your notes, they aren't very good.

16 (Pause in the proceedings)

17 BY MR. KEMP:

18 Q Okay. Let's turn to another area. Are you familiar
19 in general with the litigation that ensued after the medical
20 marijuana licenses were initiated -- issued?

21 A No.

22 Q Did you know that there was litigation?

23 A I knew at some point.

24 Q At some point when?

25 A I'm not sure.

1 Q At some point when you were --

2 A I mean, so the Department of Public and Behavioral
3 Health managed the medical marijuana. So there would have
4 been no nexus to what I did. So at some point I was aware
5 there was litigation, but I don't know when.

6 Q Okay. When the decision was made to issue new
7 licenses were you aware that there was the potential for some
8 people to be disappointed and some people to perhaps bring
9 lawsuits?

10 A Yes.

11 Q So you were aware that there was the potential for
12 some applicants to say that they were not scored properly or
13 that the scoring mechanism was improper, make such argument?

14 A Anybody can file a lawsuit, yes.

15 Q Well, that's true. But you at the Department knew
16 that this was a potential problem?

17 A I knew that there could be potential disputes, yes.

18 Q Okay. And did the Department have any discussions
19 as to the procedure that would be employed in the case there
20 was an acknowledged error in the scoring?

21 A No, not that -- I mean, I wasn't around during that
22 period of time so I don't -- I don't -- but there wasn't --
23 there wasn't a discussion about that in 2017.

24 Q Okay. Well, let's put marijuana licensing process
25 aside and just talk about the Department in general for a

1 second. In general the Department is overseen by something
2 called the Tax Commission?

3 A Yeah, there's an -- yes.

4 Q And as I understand it, there's some sort of
5 appellate process from decisions made by the Department to the
6 Tax Commission?

7 A Yes.

8 Q And can you explain to me what that is.

9 A So generally it's taxpayer disputes or decisions
10 made by the Department, and they can be reviewed by the Tax
11 Commission.

12 Q Okay. So if a taxpayer thinks he's paying too much,
13 he can take that up to the Tax Commission and argue his case?

14 A Well, generally the way it works is if there's an
15 audit performed or if somebody's designated to be a
16 responsible person for liability or there's been a deficiency
17 issued that a taxpayer will dispute. There's a process that
18 it goes through the Department for review and then up through
19 the Tax Commission.

20 Q Okay. And the Tax Commission meets once a month or
21 once every two months?

22 A Yeah.

23 Q So there's a lot of appeals that go up to it?

24 A There's a few, yeah.

25 Q Usually there's about 20 or 30, sometimes as many as

1 40 items on their agenda?

2 A Well, yes. But the agenda includes things other
3 than appeals. There's other things in the statute that
4 require -- that the Department is required to have the Tax
5 Commission review. Generally the largest thing is the consent
6 agenda, which is just general administrative work that's done
7 under -- is required by the statute to be reviewed by the
8 Commission.

9 Q When you were the director of the Department of
10 Taxation did you attend Tax Commission meetings?

11 A Yes.

12 Q On a regular basis?

13 A Yes.

14 Q So you've been to dozens of them?

15 A Yes.

16 Q So in addition to disputes to amount, they hear
17 appeals about other things?

18 A Generally they can hear any type of taxpayer dispute
19 with the Department.

20 Q Let's say, for example, that Mr. Pupo or someone in
21 a position of authority at the Department decided, we want to
22 suspend someone or cancel their license totally apart from
23 this process. Is there an appellate right to the Tax
24 Commission?

25 MR. SHEVORSKI: Objection. Vague. Calls for a

1 legal conclusion.

2 THE COURT: Overruled.

3 THE WITNESS: In what context?

4 BY MR. KEMP:

5 Q Mr. Pupo goes in and he says, your license is
6 suspended. Is that it? Can that person appeal?

7 A License for what? I guess.

8 Q License for a marijuana establishment.

9 A I can't remember the process that's in the regs at
10 this point.

11 Q There's some process for some sort of review; right?

12 A I think there is, yes.

13 Q In other words, Mr. Pupo, as nice of a fellow as he
14 is, is not the sole arbiter of what is and isn't to be done
15 with regards to marijuana licenses; correct?

16 A In that context I think that there's a -- the
17 regulation provides a process for review.

18 Q Okay. What is the process of review for disputes
19 such as scoring in the present [inaudible]?

20 A There's not a process in the regulation.

21 Q No process of review?

22 A Correct.

23 Q Okay. And why is that? Why is Mr. Pupo the sole
24 arbiter -- arbitrator in this case, whereas in other cases if
25 you are arguing about \$1,000 tax liability he's not the sole

1 arbitrator?

2 A Well, I think -- first of all, I don't think Mr.
3 Pupo's the sole arbitrator of the licenses. I mean, I think
4 that, again, there's the process, and the process was applied.
5 Generally there's no -- in licensing statutes and other --
6 there's no -- there's no appeal process through the
7 administrative agency. So the appeal -- so we're in the
8 appeal process I guess is my point.

9 Q We are in the appeal process. You mean the Court
10 review?

11 A Yes.

12 Q So there's no --

13 A There's no administrative review.

14 Q Okay. All right. Let me just give you a
15 hypothetical. And you understand we have all the scores now
16 of every applicant and all the subparts. We have the graders'
17 notes, and we can see --

18 A Okay. I -- yeah.

19 Q Did you know that?

20 A I knew there was some stuff out there, but I didn't
21 know the extent of it.

22 Q Let's say we went through all of that and we found
23 one applicant that a grievous mistake was made. You know, a
24 mathematical mistake that, instead of adding correctly, they
25 were 20 points undercounted, okay, aAnd that everybody who

1 looked at it, Mr. Pupo, the director at the time, everybody
2 who looked at it says, wow, there was a 20-point mistake here,
3 okay. You're telling me that there's no procedure to fix
4 that?

5 A There's no administrative procedure that I know of.

6 Q So that's just tough luck --

7 A I mean, there's no administrative procedure. I
8 mean, I don't know what kind of internal communication would
9 occur at an agency, but there might be some consideration and
10 a review of it, but I don't -- there's no -- there's no
11 administrative procedure in the regulations. I mean, I don't
12 know --

13 Q So basically if there's an arithmetic error like I
14 hypothesized and someone loses 20 points and that causes them
15 to lose five marijuana licenses that we've heard some wild
16 evaluations about, there's nothing that can be done
17 administratively. Is that what you're saying?

18 A I'm not saying that there's nothing that can be
19 done, because I don't know what could be done. But I'm saying
20 there's no administrative procedure.

21 Q Okay. There's no administrative procedure by
22 appealing it to the Tax Commission?

23 A Right.

24 Q That's your position?

25 A Well, there's no regulatory -- there's no

1 regulations that provide for that, and so that's yes.

2 Q And do you know whether or not members of the Tax
3 Commission have taken the position that Mr. Pupo should allow
4 errors like that to come to them?

5 A I don't know.

6 MR. KEMP: Okay. Here. Let's pop up --

7 Your Honor, I'd move to admit Proposed 133 and
8 Proposed 134, which are transcripts from -- 133 is the
9 transcript from the Tax Commission dated January 14th, 2019.
10 And 134 is the transcript from the Tax Commission dated
11 March 4th, 2019.

12 THE COURT: Any objection?

13 MR. SHEVORSKI: No objection from the State.

14 THE COURT: Be admitted.

15 (Plaintiffs' Exhibits 133 and 134 admitted)

16 MR. KEMP: Okay. Can we pop up I guess it's --

17 THE COURT: Would you like a hard copy, or are you
18 okay looking at it on the screen?

19 THE WITNESS: I'm fine with the screen. Thank you.

20 THE COURT: Okay.

21 BY MR. KEMP:

22 Q Let's start with 133. And I would like to focus
23 your attention to page 65, lines 6 through 21. And these are
24 comments by Commissioner Kelesis. Am I saying that right,
25 ma'am? Is it Kelesis?

1 A I think so.

2 Q Okay. All right. You know who that is?

3 A Yes.

4 Q He's a lawyer?

5 A Yes, I know who he is.

6 Q He's been on the Tax Commission for quite some time?

7 A Right.

8 Q Okay. And he says, "And we're going to from the

9 issuance of the license directly to court. It's like they're

10 skipping us. Somebody is under the distinct impression that

11 we as a commission do not have jurisdiction over this. I

12 suggest they read 360 real close." I assume he's referring to

13 some sort of regulation. "We are the head of the Department,

14 and we are the head of Division and it comes to us. So that's

15 why I'm asking for the action on it as soon as possible, not

16 to wait, because it seems like anytime -- and I'm frustrated

17 and disappointed. I'm told we're going to have something -- I

18 don't even get the courtesy of a phone call, told we're taking

19 it off. I've got to find out myself. Well, you know, that's

20 an insult. So having said that, that's my request for a

21 special meeting. And I'll give Ms. Oliver the email."

22 Okay. With regards to his position there that the

23 Tax Commission has jurisdiction over appeals concerning these

24 licenses, do you agree or disagree with that?

25 A Would I agree that the Department -- I'm sorry, the

1 Tax Commission has jurisdiction to hear an appeal?

2 Q Yes.

3 A No.

4 Q So you think Mr. Kelesis -- Commissioner Kelesis is
5 wrong?

6 A Yes.

7 Q Okay. Why is that?

8 A Because there's no process for that.

9 Q Okay. Let's take a look at the next section, 134,
10 page --

11 A So just -- can I make a note. I didn't actually see
12 it on the screen. So --

13 Q Do you want to look -- do you want to read it?

14 A I mean, I'm going to take your word for it.

15 Q Okay.

16 A I just wanted to make that for the record that it
17 didn't pop up.

18 MR. SHEVORSKI: You have to turn it off and on.
19 It's called Plaskoning.

20 THE WITNESS: So it was on a minute -- a little bit
21 ago. Do I need to turn it on, again?

22 MR. KOCH: Turn it off and on.

23 THE WITNESS: Oh. I see.

24 THE COURT: Is it on now?

25 THE WITNESS: It says, "Out of range."

1 THE COURT: Can we put it back up real quick just to
2 test, Shane.

3 IT TECHNICIAN: Yes.

4 THE COURT: Is it visible now with the big yellow
5 line?

6 THE WITNESS: No.

7 THE COURT: Okay. Ramsey --

8 THE WITNESS: Now. Thank you.

9 THE COURT: Okay. Let us know when you're done
10 reading, Ms. --

11 BY MR. KEMP:

12 Q You want to just read the first paragraph to confirm
13 that what I read was accurate.

14 A Okay.

15 Q So Commissioner Kelesis says they have jurisdiction;
16 right?

17 A I think he believes that, yes.

18 Q Okay. And in the hierarchy here how does this work?
19 Are they technically your bosses, or is it co-equal, or how
20 does that work?

21 A Under statute the Department -- the Tax Commission
22 is head of the Department. That's the actual language in the
23 statute. But -- so they do review -- again, they review
24 disputes with taxpayers, they adopt the regulations, and those
25 types of things. They're not involved in the day-to-day

1 operations of the agency, and they're appointed by the
2 Governor.

3 Q And since they're the head of the Department, that's
4 why you took the temporary regs in for approval; right?

5 A Right. Or all regs, essentially.

6 Q Okay.

7 A So -- and I was -- and there -- it's an eight-member
8 body.

9 Q Okay.

10 A So, you know, what Mr. Kelesis wants to do or not do
11 is really subject to his discussion with the others on the
12 Commission. And I guess if they would have thought as a
13 majority that they would have -- they wanted to review that,
14 they could have done that.

15 Q Okay. So you're saying there is a procedure now to
16 appeal. Is that what you're saying?

17 A Well, again, the Tax Commission can, you know,
18 nobody's going to tell the Tax Commission that they can't do
19 something.

20 Q Except Mr. Pupo.

21 A But he didn't tell --

22 MR. SHEVORSKI: Objection. Argumentative.

23 THE COURT: Overruled. You can continue.

24 THE WITNESS: But obviously it's an eight-member
25 board. They act in an open meeting. They have to agree on

1 what they can do. I would maintain that in licensing across
2 the board that it's generally that the licensing agencies do
3 not take license denial disputes to the board or Commission
4 that is -- oversees them.

5 BY MR. KEMP:

6 Q In competitive bidding process they don't take it to
7 the board that oversees it. Is that what you're telling me?

8 A In competitive bidding?

9 Q When you have competitive bidders for either a
10 government contract or government licenses they don't take
11 disputes to the board that oversees it? That's what you're
12 telling me?

13 MR. KOCH: Objection. Vague.

14 THE COURT: Overruled.

15 THE WITNESS: Well, generally, I mean, I -- there
16 might be some specific provisions in some specific chapters,
17 but even in State contract awards there's no -- there's a
18 limited review that happens, and it's provided by in the
19 statute and regulation.

20 BY MR. KEMP:

21 Q Well, let's start with County contract awards. I
22 think Mr. Parker may add to what I'm going to say on this. In
23 County contract awards there is a bid protest procedure that
24 in some cases ultimately go to the Clark County Commission; am
25 I right?

1 A I don't know.

2 Q So when you say generally there's no appeal you're
3 not saying there's no appeal in these cases of County
4 contracts or --

5 A I'm saying at the State level generally there's no
6 appeal process unless it's specifically provided for --
7 there's no administrative process for appeal unless it's
8 specifically provided for in the statute.

9 Q Okay.

10 A In this case it's not specifically provided for.

11 Q Did you know Mr. Pupo wrote a letter when appeals
12 were filed saying, no appeal, that's it, we're done? Did you
13 know that?

14 A No.

15 Q Did he have authority to do that?

16 A I don't know. I didn't know he wrote a letter, so I
17 don't know.

18 Q Okay. I mean, if you had been the director at the
19 time, would he have had authority to make that decision
20 without consulting you?

21 MR. KOCH: Objection. Lacks foundation.

22 THE COURT: Overruled.

23 THE WITNESS: I don't think he would have, but --

24 BY MR. KEMP:

25 Q That would have been something that would have had

1 to be run by the director of the Department; right?

2 A I mean, I -- you know, that's the kind of
3 relationship that I have with my staff. I would have expected
4 at least a heads up, so --

5 Q Okay. And the situation that I've outlined in the
6 hypothetical, if someone just lost 20 points because of a
7 mathematical error, would it have been your practice to look
8 at that?

9 MR. KOCH: Objection. Incomplete hypothetical.

10 THE COURT: Overruled.

11 THE WITNESS: I mean, I -- you know, I'd like to
12 think that I would have, you know, been concerned if there was
13 truly an error. I don't know if there -- at that point if
14 there was anything I would have been able to do about it, but
15 I would have looked into it and tried to figure it out.

16 BY MR. KEMP:

17 Q So even if there's a pure mathematical error of
18 20 points and it's recognized by everybody, you're not going
19 to fix it?

20 MR. KOCH: Objection. Incomplete hypothetical.

21 THE COURT: Overruled.

22 THE WITNESS: I think that's the opposite of what I
23 just said. If I could --

24 BY MR. KEMP:

25 Q Well, you said you'd look at it. You didn't say --

1 MR. SHEVORSKI: I'm sorry, Your Honor. He's got to
2 let her finish.

3 THE COURT: Ma'am, were you done?

4 THE WITNESS: What I was trying to express is that
5 if there was a true error and the people that work for me made
6 an error, as the person who reviews their work I would look
7 into that error potentially. If there was something within
8 the processes and the laws that govern us that the State could
9 do on that, I would try to figure it out and make -- but if
10 there was not something -- because that's a little bit
11 different than just appealing a denial. That's -- if it's
12 truly an error, then, you know, look into that and see what
13 are the possibilities there.

14 BY MR. KEMP:

15 Q Okay. And you said if the people that work for you
16 made that error. That was the phrase you used?

17 A Well, if an error was made under my watch I guess.

18 Q Okay. And I assume that in this case since we had
19 temporary employees, the Manpower employees doing the grading,
20 you would include errors by them as being people that work for
21 you?

22 A Yeah. I think they were contractors of the
23 Department. I would have considered them to be the same.

24 Q Okay. And just briefly on that subject. You had
25 nothing to do with that?

1 A No.

2 Q Okay. And in general you would agree with me that
3 most government employees are pretty professional people. A
4 lot of them have Doctorates and the like?

5 MR. KOCH: Objection. Vague.

6 THE COURT: Overruled.

7 THE WITNESS: I think most -- yes, I think most
8 people that do work for the State have a professional
9 competency.

10 BY MR. KEMP:

11 Q Okay. And most of them have been there for years;
12 right?

13 A Not anymore.

14 Q Okay. Is that something you need to address with
15 the Governor or the past Governor or what?

16 A Well, people get, you know, they retire. That's --

17 Q You do recognize that there is a potential -- when
18 you get temporary workers doing a task that's normally done by
19 a corporation's own employees, you do recognize that there's a
20 higher potential for mistakes to be made?

21 MR. KOCH: Objection. Incomplete hypothetical and
22 vague.

23 THE COURT: Overruled.

24 THE WITNESS: I don't know. I mean, as I said just
25 a second ago, I think that everybody, you know, that is

1 qualified to do work for the State has a level of competency
2 to do their job.

3 BY MR. KEMP:

4 Q Okay. Let's explore this hypothetical. since Mr.
5 Koch objects that it's vague. Are you familiar with the
6 Boeing Air Max cases where the two airplanes went up and down
7 and --

8 A Yeah.

9 Q -- then they crashed?

10 A Yes.

11 Q Okay. Five hundred people got killed?

12 MS. SHELL: Objection as to relevance.

13 THE COURT: Sustained. Okay. I need you to tell me
14 why that's relevant. Ms. Shell is celebrating.

15 MR. KEMP: Have you read the news reports that the
16 Boeing --

17 THE COURT: No. Okay. So assume for a minute that
18 all of us have read those news reports of the tragic accidents
19 relating to the Max.

20 MR. KEMP: I'm getting to the temporary workers,
21 Your Honor.

22 BY MR. KEMP:

23 Q Have you reads the news reports that Boeing subbed
24 out the engineering function on that particular part on that
25 plane --

1 A No.

2 Q -- to temporary workers in India?

3 A No.

4 MS. SHELL: The same objection, Your Honor.

5 THE COURT: Overruled.

6 MS. SHELL: Oh.

7 THE COURT: Temp workers.

8 BY MR. KEMP:

9 Q Have you read those news reports?

10 A No, not in that detail.

11 Q Okay. And that was in Bloomberg last week, okay.

12 Bloomberg was the one that came out with that revelation.

13 MR. KEMP: In fact, here's the article, Your Honor,

14 if you want to look at it.

15 THE COURT: No. That's okay. I don't need to. I'm

16 not handling that litigation.

17 MR. KEMP: All right. Well, not yet.

18 BY MR. KEMP:

19 Q So they outsourced an engineering function to \$9-an-

20 hour engineers in India. You think there's something wrong

21 with that?

22 MR. KOCH: Objection. Personal knowledge.

23 MR. SHEVORSKI: Objection. Relevance.

24 THE COURT: Overruled.

25 THE WITNESS: I don't know.

1 BY MR. KEMP:

2 Q Do you recognize that when you outsource a function
3 that's traditionally done by the State to someone like
4 Manpower that there's a higher potential for error?

5 MR. KOCH: Objection. Foundation.

6 THE COURT: Overruled.

7 THE WITNESS: No.

8 BY MR. KEMP:

9 Q And are you familiar with the way the 2014
10 applications were graded?

11 A I think they used contractors, if I remember right.

12 Q Well, actually that grading process was led by Chad
13 Sorrenson. Do you know him?

14 A No.

15 Q You don't know him?

16 A Chad Sorrenson?

17 Q Right. Weston. I'm sorry.

18 A No. I know Chad Weston, yes.

19 Q Okay. Chad Weston. And he's the Department --

20 A I mean, I -- yeah, I know him. I never really
21 worked with him, but I know him.

22 Q Okay. And he was the head of the Department of
23 Health and Human Services?

24 A No.

25 Q What was he the head of?

1 A I think he was a deputy administrator maybe in the
2 Department of Public and Behavioral Health.

3 Q Okay. And he and approximately 25 other full-time
4 State employees graded the last application with the
5 assistance of several temporary workers. Is that your
6 understanding?

7 A I don't know.

8 Q Okay. But assuming I'm right, you -- someone you,
9 and when I say you I mean DOT, made the decision to use
10 temporary workers instead of full-time State employees to
11 grade; right?

12 A The Department of Taxation did that, yes.

13 Q Okay. You weren't part of that decision?

14 A No, I wasn't there.

15 Q Okay. Would you have made a different decision?

16 A I don't know.

17 Q Okay. All right. Now, we talked a little bit about
18 this building address requirement. The regulations required
19 the applicants to provide a building address; right?

20 MR. KOCH: Objection. Misstates the regulations.

21 THE COURT: Overruled.

22 THE WITNESS: No.

23 BY MR. KEMP:

24 Q You don't know one way or the other?

25 A No. No, I don't think it does require a building

1 address.

2 Q A physical address?

3 A Yes.

4 Q Okay. And a physical address in your mind could not
5 be a Post Office box?

6 A Right.

7 Q Or one of these companies that maintains Post Office
8 -- fake Post Office places. Couldn't be that, either; right?

9 A I think the idea was to have an office address
10 essentially.

11 Q Right. So you couldn't use -- I can't remember what
12 it is, UPS.

13 THE COURT: UPS Stores.

14 BY MR. KEMP:

15 Q You couldn't use a UPS Store, because that's not a
16 real physical address; right?

17 A I don't think -- I don't think that it would be
18 allowed.

19 Q Okay. And if you'd been the director at the time,
20 you would have disqualified those applications?

21 A I wouldn't have even reviewed the applications.

22 Q Okay. Because it was disqualified, or because you
23 wouldn't be the person doing the review?

24 A Well, I don't know. I mean, I --

25 Q And let me ask it --

1 A -- I would --

2 Q Let me ask it better. Your staff would have been

3 instructed that if they didn't have a physical address apart

4 from a Post Office box or a UPS Store that that application

5 should not be accepted; right?

6 A I think that would be the direction.

7 Q Okay. So the answer to my question is yes?

8 A Yes.

9 Q Okay. And the reason for that is because the

10 statute required it; right?

11 MR. KOCH: Objection. Misstates the law.

12 THE COURT: Overruled.

13 BY MR. KEMP:

14 Q I mean, the reason for your position is because the

15 statute says that?

16 A Right.

17 Q Okay. All right. Okay. I'm going to go to my last

18 area. Mr. Gutierrez asked you some questions about

19 extenuating circumstances. Do you recall those?

20 A Yes.

21 Q And your answer said, and I wrote it down -- I tried

22 to write it down verbatim. You said, if they were enjoined,

23 that would be beyond their control. Do you recall saying

24 that?

25 A I guess what I -- yes, I recall saying that.

1 Q Okay. Now, am I correct that extenuating
2 circumstances in this context, which is whether you need more
3 time to open a marijuana dispensary than a year, am I correct
4 that extenuating circumstances is determined on a case-by-case
5 basis?

6 A Yes.

7 Q So, in other words, you look at things like whether
8 they've applied with the local municipality for approval, when
9 they applied, whether they started construction, the
10 construction process, all those factors are looked at to
11 determine whether or not there truly are extenuating
12 circumstances?

13 A I think that would be part of it, yes.

14 Q Okay. Now, let's take a case where an applicant --
15 and the initial licenses came out say December 6th or 5th;
16 right?

17 A Okay.

18 Q Okay. And today is July 12th, okay. Let's take the
19 case of an applicant who has done -- a winning applicant who
20 has done absolutely nothing to move the ball forward as of
21 this date. They haven't applied in a local jurisdiction, they
22 haven't got a lease, they haven't started building their
23 project. Under those circumstances where someone lets seven
24 or eight months go by without even starting would you agree
25 with me that there would not be extenuating circumstances for

1 an extension in that case?

2 MR. SHEVORSKI: Objection. Incomplete hypothetical.

3 THE COURT: Sustained. Can you rephrase your
4 question.

5 BY MR. KEMP:

6 Q Assuming for the sake of argument that we had
7 someone given a conditional license on December 6th and we
8 come to today, July 12th, and they have not applied for
9 approval nor gotten approval from the local jurisdiction where
10 they intend to build the store, they haven't retained a
11 contractor, they haven't started construction, and they
12 haven't even entered into a lease. Would you agree with me
13 that there's not extenuating circumstances in that situation?

14 MR. SHEVORSKI: Same objection. Incomplete
15 hypothetical.

16 THE COURT: Overruled.

17 THE WITNESS: No.

18 BY MR. KEMP:

19 Q You would not agree with me, or would agree with me?

20 A I would not agree with you. I mean, it's not the
21 end of the 12 -- it's not the end of the 12-month period, so
22 you don't --

23 Q Okay. Fair. But those factors would mitigate
24 against a determination of extenuating circumstances; correct?

25 MR. KOCH: Objection. Vague. Speculation.

1 THE COURT: Overruled.

2 THE WITNESS: Yeah, I think a totality of the
3 circumstances type of analysis would occur and --

4 BY MR. KEMP:

5 Q Okay. So let's say an injunction entered on
6 December 4th, the day before they were supposed to be done,
7 and they hadn't done anything, hadn't done any of these
8 things, okay. Would you agree that there's no extenuating
9 circumstances in that case?

10 A I don't know all the circumstances, so I can't agree
11 that there's not extenuating circumstances.

12 Q Okay. What are the other circumstances you would
13 want to review?

14 A I don't know.

15 Q Okay. Getting local jurisdiction approval would be
16 one; right? Were there efforts in that regard?

17 A I mean, yes. Like what efforts have you --
18 basically they would demonstrate -- under that reg the purpose
19 was to demonstrate that you've made efforts to open and that
20 despite your best efforts there were circumstances that were
21 beyond your control and you couldn't do that. So you would
22 talk about your efforts, and then you'd talk about your
23 circumstances.

24 Q And having a signed lease would be another one?
25 That'd be another thing you'd look at potentially?

1 A I don't know.

2 Q Okay. Starting construction, would that be
3 something else you'd look at?

4 A Again, it would be a totality of the entire package.
5 So I don't know what would be in there and what wouldn't be in
6 there. It would be based on a case-by-case basis.

7 Q Okay. Is that determination made in the discretion
8 of the Department?

9 A Yes.

10 Q So, in other words, the Department has the
11 discretion to decide whether or not there's extenuating
12 circumstances?

13 A Yes.

14 Q And if that decision is made one way or the other,
15 yes there are, no there aren't, is the appealable to the Tax
16 Commission?

17 A I don't know. I'm not sure. I'd have to look at
18 360.

19 Q So if you automatically -- and your understanding is
20 if they don't build in 12 months, they automatically lose the
21 license?

22 A Essentially.

23 Q So whether or not there's extenuating circumstances
24 that would result in a termination of a license in your view
25 is potentially appealable to the Tax Commission, but the first

1 step, the application for the license itself, is not
2 appealable. Is that what you're telling me?

3 A I don't know.

4 Q Don't know one way or the other?

5 A I don't know the second part, the extenuating
6 circumstances. I'd have to look into that and get some advice
7 and --

8 Q Okay. Have you ever been involved in a case where
9 you've given -- not just in marijuana, but given anyone an
10 additional period of time to do something under this
11 extenuating circumstance criteria?

12 A No. You mean personally involved?

13 Q Yeah, personally involved.

14 A I don't think so.

15 Q Okay. And when you were the director of the
16 Department of Taxation do you know of any instances where the
17 Department of Taxation gave anyone more time to do something
18 because of extenuating circumstances?

19 A I don't recall. I don't -- I don't know. It wasn't
20 -- I don't recall.

21 Q In general do you believe that men are better
22 operators of marijuana establishments than women?

23 A No.

24 Q In general do you believe that women are better
25 operators of marijuana establishments than men?

1 A No.

2 Q And in general do you believe that people that were
3 born in Spain would be better operators of marijuana
4 establishments than people born in France?

5 A Not necessarily.

6 Q And in general do you think people born in France
7 would be better operators of marijuana establishments than
8 people born in Spain?

9 A No. I don't know.

10 Q Okay. So in your view those factors, whether you're
11 a man or a woman, whether you're born in Spain or born in
12 France, those aren't related to the operation of a marijuana
13 establishment in your view?

14 MR. KOCH: Objection. Misstates testimony.

15 THE COURT: Overruled.

16 THE WITNESS: I don't -- they're not related to -- I
17 don't -- that's not what I said. You said who would be
18 better.

19 BY MR. KEMP:

20 Q Okay.

21 A And I don't know who would be better.

22 Q Well, if one is not better than the other, would you
23 agree with me that you shouldn't favor one as opposed to the
24 other in selecting persons to operate a marijuana
25 establishment?

1 A No.

2 Q No, you would not agree with me, or yes, you would
3 agree with me?

4 A No, I would not agree with you.

5 Q Okay. So you think even though someone from Spain
6 is not better than someone from France, that it's okay to
7 favor one category or the other?

8 A I think that there are considerations to go into the
9 total analysis of a person. And I think it's fine to consider
10 -- I think you're getting at the diversity, and I think it's
11 -- diversity, it's fine to consider the diversity.

12 Q Okay. So let's just give you a more complete
13 hypothetical. Let's say you had 10 owners of a marijuana
14 establishment and they're all Spaniards, and you had 10 owners
15 of a marijuana establishment and they're all French, okay.
16 You think it's fair that just because these people are born in
17 Spain, that they -- and just because the people are born in
18 France, that one group gets more points than the other group?

19 A No.

20 Q Okay. That's not fair, is it?

21 A I don't know if it's fair. I don't understand the
22 question.

23 Q Okay. Well, that's not related to the operation of
24 a marijuana establishment, whether they're born in France or
25 Spain; right?

1 A I don't know what people being born in France and
2 Spain has to do with anything. But --

3 Q I don't, either. But I didn't establish the program
4 here, okay? You would agree with me, though, that whether
5 they're born in Spain or France doesn't have anything to do
6 with the operation of a marijuana establishment?

7 MR. KOCH: Objection. Vague.

8 THE COURT: Overruled.

9 THE WITNESS: I don't know anything about those
10 people. There needs to be a totality analysis of different
11 people in their roles and what's going on and considering all
12 the other criteria, I think.

13 BY MR. KEMP:

14 Q Okay. Well, let's slow down a little bit, then. If
15 you merely knew where they were born, if they were born in
16 France or born in Spain, you would agree with me that that
17 does not relate to the operation of a --

18 A It could.

19 Q It could, but it doesn't necessarily?

20 A Yeah, but it could if you knew more about the person
21 and --

22 Q It could in some cases, but it doesn't in all cases,
23 does it?

24 MR. KOCH: Objection. Incomplete hypothetical and
25 vague.

1 THE COURT: Overruled.

2 THE WITNESS: Yes. You could consider it or you
3 could not consider it.

4 BY MR. KEMP:

5 Q Because you would agree with me that there are some
6 cases where they're born in France or Spain, but that doesn't
7 have anything to do with their ability to operate a marijuana
8 establishment; right?

9 A I don't know.

10 Q Okay. And from that remark I'm assuming that you
11 would not endorse an application procedure that favored people
12 born in France, as opposed to people born in Spain or vice
13 versa. You wouldn't endorse that, would you?

14 A I don't think so. Just that one factor, I don't
15 know.

16 Q And the reason you wouldn't endorse it is because it
17 really doesn't have anything to do with the operation of a
18 marijuana establishment; right?

19 A I mean, it could if you knew more about the person
20 and the experience, so --

21 Q It could, but the mere birth in a specific country
22 doesn't have anything to do with the operation of a marijuana
23 establishment?

24 A No.

25 MR. KEMP: Okay. Thank you.

1 THE COURT: Ma'am, do you need a break before I go
2 to Mr. Gentile?

3 THE WITNESS: Can we?

4 THE COURT: Yes.

5 THE WITNESS: I would like that.

6 THE COURT: You're allowed to ask for a break
7 anytime.

8 THE WITNESS: Thank you. I'd appreciate it.

9 THE COURT: They're not, but you are.

10 All right. So the witness has requested a recess.
11 This is a requested recess under BrightSource-Coyote Springs.

12 MR. SHEVORSKI: Understood, Your Honor.

13 (Court recessed at 11:06 a.m., until 11:17 a.m.)

14 THE COURT: Okay. Ms. Contine, are you ready?

15 THE WITNESS: Yes.

16 THE COURT: Okay. Mr. Miller, you're up.

17 CROSS-EXAMINATION

18 BY MR. MILLER:

19 Q Ms. Contine, I believe you testified that you went
20 to Colorado in an attempt to learn a little bit about that
21 regulatory process to assist in the development of
22 regulations, is that right?

23 A Yes.

24 Q Did you go to any other states?

25 A No.

1 Q Okay.

2 A Well, I have gone to other states since then, yes.
3 I went to Oregon. I've been to a few -- I've been to Colorado
4 again for conferences that regulator-type conferences. I've
5 been to a few of those.

6 Q Was that prior to the drafting or the implementation
7 of the regulations?

8 A During.

9 Q So when you looked at other states' requirements,
10 how many states did you review in terms of how they chose to
11 regulate things like ownership?

12 A I think -- well, I think at the time we only looked
13 at probably Colorado, Washington and Oregon, and maybe not
14 specifically with respect -- if issues would come up and
15 wanted to see -- so I don't know specifically if we looked to
16 ownership, but if issues would come up and we kind of thought,
17 oh, well this is unique and maybe there's something we could
18 borrow from something else.

19 Q Okay. Do you recall whether or not you looked at
20 the provisions in Colorado as they apply to a determination of
21 suitability and ownership requirements?

22 A I don't think so.

23 Q Do you recall whether or not you looked at those
24 provisions in any other jurisdictions?

25 A I don't recall specifically, no.

1 Q Okay. When the Department moved forward with
2 proposing a regulation with a definition of the requirement
3 that they conduct a background check on each owner to instead
4 define that as 5 percent ownership interest, 5 percent or
5 more, right?

6 A Right.

7 Q The Department could have adopted any number of
8 other regulations that would have more closely resembled the
9 intent of the ballot question, is that correct?

10 MR. KOCH: Objection. Argumentative.

11 THE COURT: Overruled.

12 THE WITNESS: I think, yes, we could have adopted a
13 different regulation. Yes.

14 BY MR. MILLER:

15 Q So you could have, for example, imposed a limitation
16 to a regulation that said if you have an ownership interest
17 that includes a publicly traded corporation, the Department
18 won't consider this application?

19 A That could have been, you know, part of the process
20 in workshop and gone through regulation, yes.

21 Q Okay. And if you had adopted such a provision, you
22 might have been able to background check all ownership
23 interest; correct?

24 MR. KOCH: Objection. Speculation.

25 THE COURT: Overruled.

1 THE WITNESS: I don't know.

2 BY MR. MILLER:

3 Q You could have adopted a regulation that limited the
4 number of owners that an applicant could provide for in an
5 application, is that correct?

6 A I don't know. I don't know if we could have done
7 that. I don't know.

8 Q Why wouldn't you have been able to?

9 A Well, I don't know -- again, it's a process.
10 Everybody has their input in your point of review and it goes
11 to LCB. So I don't know at this point right now if that would
12 have been a possibility.

13 Q But you didn't explore any of those possibilities --

14 A No.

15 Q -- is that right?

16 A Not that possibility, no.

17 Q But you would agree that the Department's definition
18 of the background check provision expands or puts in place a
19 more lax regulatory structure than a background check on each
20 owner; correct?

21 A I think it keeps in the spirit of protecting the
22 public safety when interpreting that provision with that 5
23 percent.

24 Q But maintaining strict regulatory control is
25 obviously an important provision; correct?

1 A Right. And again, balancing that with the burden
2 and the -- you know, the time frame that everything takes and
3 all of that. So keeping those -- balancing those different
4 concerns.

5 Q Okay. So if you're saying balancing, when there's a
6 provision in the ballot question that says you're going to
7 background check each owner, right, and you had an obligation
8 to maintain strict regulatory compliance on the regulatory
9 structure, what weighed against background checking every
10 owner?

11 A I think, you know, not making regulations that make
12 the operation, you know, difficult or impractical or
13 burdensome, so making your regulations in a way that recognize
14 that business needs to operate as well and balancing those
15 things, okay. Can you do this and is this still going to take
16 care of the public safety aspect of it.

17 Q But you would agree that only background checking
18 ownership interest of greater than 5 percent is a more lax
19 regulatory structure than background checking each owner, is
20 that right?

21 MR. KOCH: Objection. Vague.

22 THE COURT: Overruled.

23 THE WITNESS: More lax? I guess. I don't -- I
24 wouldn't characterize it like that, but it's basically, again,
25 balancing those two provisions. If the people that you're

1 looking at have so little interest in a company, I don't know
2 that it's more safe to necessarily -- or less safe to
3 background check them. But, so I don't know -- yeah, it's not
4 as high a burden for compliance.

5 BY MR. MILLER:

6 Q You wouldn't say that was more lax? I mean, if an
7 ownership interest that had not been background checked and it
8 turned out to be member of the Sinaloa cartel, that would be a
9 significant problem for the Department, wouldn't you agree?

10 MR. KOCH: Objection. Vague.

11 THE COURT: Overruled.

12 THE WITNESS: I think, again, to the extent that
13 that interest has the ability to control the business was
14 weighed in the case of the 5 percent rule.

15 BY MR. MILLER:

16 Q At any point when you were drafting the regulations
17 or at any point when you were the head of the Department did
18 you review the Cole memorandum or any of the associated
19 documents that outlined some of the federal concerns?

20 A Yes.

21 Q And you're aware that the Cole memo priorities
22 talked about ownership interest that would include criminal
23 elements?

24 A Right. The State should try to prevent that.

25 Q Should try?

1 A Yeah. Well, if -- yeah.

2 Q States have an obligation to, do they not?

3 A Well, I think it was some guidance that said if the
4 states do these regulations then the Federal Government is not
5 going to be involved in the business of the state -- at that
6 time.

7 Q And part of those provisions were intended to make
8 sure that criminal elements did not have ownership interest?

9 A Right.

10 Q And so when you expanded the definition from
11 background checking each individual to ownership interest of
12 over 5 percent, you opened the door, didn't you, to that
13 possibility that there could be ownership interest that could
14 trigger federal scrutiny?

15 MR. SHEVORSKI: Objection. Vague. Misstates the
16 law.

17 THE COURT: Overruled.

18 THE WITNESS: Again, the thinking along those lines
19 was that the interest would be so insignificant that they
20 would not be able to control the business operations, but yes.
21 BY MR. MILLER:

22 Q Did you read that anywhere in the Cole memo, that
23 so long as there might be some criminal elements that had
24 ownership interest that are so insignificant that the federal
25 authorities might not care about that?

1 A I don't think the Cole memo addresses that, no.

2 Q Are you aware that provisions -- the provisions in
3 Colorado law until only recently imposed a ban on ownership
4 interest of marijuana establishment from publicly traded
5 corporations?

6 A No.

7 Q You're not aware that only recently that they
8 removed that ban?

9 A I don't know.

10 Q Okay. So when you went to Colorado and you were
11 reviewing their provisions, you didn't look into how they
12 might have dealt with the determination of --

13 A No, not that I recall.

14 Q I'm going to read to you a provision of the law, the
15 previous law before they made the recent changes. It says,
16 "A medical marijuana business under this subsection 3B is
17 limited to no more than 15 direct beneficial owners, including
18 all parent and subsidiary entities, all of whom are natural
19 persons." There would have been nothing that prevented you
20 from adopting a regulation similar to that in Nevada; right?

21 MR. SHEVORSKI: Objection. Foundation.

22 THE COURT: Overruled.

23 THE WITNESS: I think one of the other key points is
24 that only people that have licenses were going to be able to
25 get licenses initially. So any change to a structure would

1 have meant that they would have essentially had to change that
2 structure as well for the medical. So I think there was some
3 consideration of that and to the extent that the medical
4 provision, as I've discussed with Mr. Kemp, were working And
5 there was consensus built around them and they were applied
6 and were able to be dealt with by the agency and the industry
7 that those provisions were carried forward. So, yeah, I mean,
8 there was nothing that could have restricted us, I think, but
9 there's other parts of the initiative that we had to take into
10 consideration as well.

11 BY MR. MILLER:

12 Q Like what?

13 A Like the fact that only people that are licensed
14 medical establishments would get recreational licenses.

15 Q So you don't think it was possible, then, under
16 those confines to adopt provisions that would have somehow
17 allowed for you to still background check each owner?

18 A No, that's not what I'm saying.

19 Q What are you saying?

20 A I was saying that we were considering a totality of
21 the whole initiative and figuring out how do we implement this
22 as we transition from this medical to rec and recognizing that
23 there's provisions that apply that seemingly have been working
24 that have been vetted, that have been discussed extensively,
25 and what provisions of those make sense to carry forward.

1 Q I'm going to read to you -- Colorado, in fact,
2 attempted to repeal the provisions banning publicly traded
3 ownership and interest and the cap that marijuana
4 establishments have of more than 15 direct beneficial owners
5 and the first measure was vetoed by Governor Hickenlooper.
6 I'm going to read to you his veto message dated June 5th,
7 2018.

8 It says, "Today I vetoed House Bill 18-1011
9 concerning measures to allow greater investment flexibility in
10 a marijuana business at 4:56 p.m. House Bill 18-1011 modifies
11 the statutory ownership and investment definitions for medical
12 and retail marijuana licenses and allows publicly traded
13 corporations to invest in marijuana businesses." He goes on
14 to state the rationale for it, which in part includes that
15 "while recreational and medical marijuana are legal under
16 Colorado law, however federal law constraints continue to
17 exist. With such uncertainty, expansion of the capital
18 availability of this industry must be done methodically and
19 incrementally." Do you remember any of those kinds of
20 concerns being discussed before you expanded the definition
21 of who that background check would apply to?

22 A No. Not that, no.

23 Q So nobody raised the concern that if we didn't
24 maintain strict regulatory compliance and background check
25 each owner that maybe this would subject us to additional

1 federal scrutiny?

2 A No. I think we thought we were doing strict
3 regulatory compliance.

4 Q By expanding the definition from each owner to
5 ownership interest of over 5 percent?

6 A By interpreting the provision in conjunction with
7 the other provisions in the initiative and looking at what had
8 been working under medical, yes.

9 Q You also did not put any restrictions in place that
10 might have constrained out-of-state ownership interest;
11 correct?

12 A I don't think so, no.

13 Q Are you aware that that was a specific concern that
14 was outlined on the ballot question itself by opponents of the
15 measure?

16 A No, I don't.

17 Q Did you review the ballot question prior to the --

18 A Yes.

19 Q Yes?

20 A Yes. Oh, did I review the arguments or the --

21 Q Yes, the arguments.

22 A Yes, probably.

23 Q Okay.

24 A I don't remember the exact time of reviewing it, but
25 I probably reviewed it when I --

1 Q Because yesterday I believe you testified that you
2 didn't believe that maybe the voters were aware of any
3 requirement that there would be a background check.

4 A I don't know. I mean, I did review the ballot. I
5 just don't know what level of review happens when people
6 decide to vote. That was the point of that.

7 Q But the presumption is that they read the materials
8 and then go and cast a form ballot, right?

9 A I guess, yeah.

10 Q You weren't going to give deference to the voters as
11 to whether or not they were sufficiently educated on whether
12 or not a background check might have been important to them?

13 A That's not what I was saying, no.

14 Q Another would be a provision, the regulations that
15 mandate that an establishment's track record of operating in
16 compliance with the laws for an adequate period of time to
17 demonstrate success would have been a scored criteria as part
18 of the application; right?

19 A Okay. Yeah.

20 Q Why is that included as part of the criteria?

21 A I think the thinking behind that I that
22 demonstrating that you're operating -- again, it was only the
23 medical establishments that were applying for licenses at this
24 point, and so demonstrating that you understand a regulated
25 market, you've operated in a regulated market, you've been

1 compliant in a regulated market is evidence of your ability to
2 do that in the future. That was the rationale.

3 Q And do you believe that should have been strongly
4 considered as part of the applications?

5 A I believe -- I mean, it was put in the regulations,
6 so.

7 Q In fact, you've testified to that several times
8 through different forms, haven't you?

9 A Testified to?

10 Q To the fact that the track record of regulatory
11 compliance is an important criteria and those individuals who
12 have shown that they can operate in compliance with the
13 regulations and demonstrate success should be rewarded. You
14 testified to that; right?

15 A Well, yeah, it should be considered in moving
16 forward I think, yes.

17 Q I'll show you, just so we're clear, Exhibit 235,
18 page 15. This is the minutes of the Tax Commission hearing
19 where your proposed regulation was adopted. Do you recall
20 that meeting?

21 A Yes.

22 Q Do you recall that there was a public comment period
23 and during those public comments there were a number of
24 objections raised about those regulations; right?

25 A There were objections along the way, yes.

1 Q And there were people that testified about specific
2 concerns about what the regulations may or may not have
3 specified for; right?

4 A Yes.

5 Q Okay. Can you read for me -- this is your statement
6 in response when the commissioners asked you to respond to
7 those public comments, the sentence that begins, "From a
8 regulatory standpoint" midway through the paragraph.

9 THE COURT: Do we need to blow it up or can you see
10 it on the screen, ma'am?

11 THE WITNESS: Right. Right.

12 BY MR. MILLER:

13 Q Can you read it out loud?

14 A Oh, sorry. "From a regulatory standpoint I don't
15 know how I cannot give some type of scoring criteria to an
16 entity that has been operating an establishment in compliance
17 with the rules, doesn't have violations, follows the rules,
18 doesn't have civil penalties, is paying their taxes, is doing
19 all the things that they have been asked to do in a regulated
20 market up until now. We will consider that and we will
21 consider the work that the people who testified today have
22 been doing as well. We have a situation where only marijuana
23 establishments can apply for licenses, so we have to set --
24 we have one set of people that are being favored."

25 Q That's essentially what we were just talking about;

1 right?

2 A Yes.

3 Q You responded to concerns about public comment by
4 showing people that there was a requirement that you reward
5 the applicants that have shown a track record of compliance;
6 right?

7 A Well, yeah, because it was part of the regulation.
8 Yes.

9 Q Okay.

10 A And then the last sentence, just to clarify that,
11 what I was referring to there is that we already are starting
12 with a category of people that are being favored because the
13 initiative only allows those that have been operating in the
14 industry to go forward at that point, so -- to apply at that
15 point. So that was -- that last sentence had to do with that.

16 Q All right. Was it your expectation, then, that that
17 provision of the regulation of evaluating and scoring a
18 history of regulatory compliance would have been followed by
19 the Department?

20 A I think it was a scoring criteria, yes. I mean, it
21 was in the regulation so, yes, I think it would have been part
22 of the process.

23 Q Okay. You believe that that was part of the scoring
24 criteria?

25 A Yes.

1 Q And what are you using to -- what basis do you have
2 to believe that that was part of the scoring criteria?

3 A Actually, I don't know -- I don't know all the
4 categories in the scoring criteria, but in the regulation that
5 was given some --

6 Q Okay. But it would surprise you if regulatory
7 compliance was not scored, would it not?

8 A Yeah, I think it's in the regulation.

9 Q So they should have followed the law?

10 A I don't know if they didn't follow the law.

11 Q Again, the same statute or regulation, 453.272,
12 subsection (h): "The experience of key personnel that the
13 applicant intends to employ in operating the type of marijuana
14 establishment for which the applicant seeks a license."

15 A Right.

16 Q What do you interpret that provision to mean?

17 A In addition to the other people that you've listed,
18 do you have anybody else that's helping you along the way to
19 establish your business -- that you're going to use to
20 establish your business. I think that was the purpose of that.

21 Q A business. But this does not say -- "for which the
22 applicant seeks a license," so that would mean that it's the
23 experience on operating a retail establishment, correct, or a
24 dispensary?

25 A Well, yeah. Or, you know, I guess you could include

1 somebody if you thought that was relevant and make a
2 connection into whatever -- how what they had done in the past
3 was relevant to them being considered a key person in this
4 capacity. But, yeah, I mean, it would be the person -- what
5 type of experience did that person have.

6 Q That would apply towards a dispensary application;
7 correct?

8 A Right.

9 Q Would it surprise you to learn that that provision
10 was not evaluated or scored as part of the application?

11 MR. KOCH: Objection. Lacks foundation.

12 THE COURT: Overruled.

13 THE WITNESS: I don't know. I don't know. I mean,
14 I assume that that was in the scoring criteria and that came
15 from the reg. I just don't have the reg in front of me, and
16 so if it was in the reg and it was in the criteria, I would be
17 surprised if it wasn't scored, yes.

18 Q When you say the criteria, what are you referring
19 to?

20 A The application and the scoring criteria in the
21 regulation.

22 Q All right. Have you reviewed the application?

23 A Yeah, but I don't have it memorized. I reviewed the
24 regulations, but I don't have everything memorized. But I
25 guess the answer to your question is if it was in the

1 regulation and if it was part of the scoring criteria, then I
2 would be surprised if it wasn't evaluated.

3 Q That wasn't my question. You said if it was
4 included in the application. Are you aware whether or not it
5 was included in the application?

6 A My memory says that it was part of -- that it was in
7 the criteria, but -- so I don't know. If you give me a
8 document to look at I'll tell you, but I just don't -- just
9 from my memory I just don't remember everything.

10 Q Okay. The ballot question itself said that upon
11 receipt of a complete marijuana establishment license
12 application, the Department shall within 90 days, A) Issue the
13 appropriate license if the license application is approved.
14 And it says the Department shall approve a license application
15 if 80 licenses already issued in a county with a population
16 greater than 700,000. Do you remember that provision?

17 A Yes.

18 Q When you adopted the reg, it added an additional
19 restriction that allowed the Department to rank applicants by
20 individual localities, is that right?

21 A No. I don't think they were ranked, but the
22 licenses were -- there was a regulation, I believe, that
23 provided for the allocation of licenses to jurisdictions based
24 on population.

25 MR. MILLER: Can we pull up NAC 453D.272(1).

1 BY MR. MILLER:

2 Q Do you see where it says, "The Department will rank
3 the applications within each applicable locality for any
4 applicants which are in a jurisdiction that limits the number
5 of retail marijuana stores"?

6 A Right.

7 Q But the ballot question didn't impose any such
8 restrictions, did it?

9 A Well, that's an interpretation of the statute and
10 that there's no way to issue licenses within a county in any
11 proportion. So if you looked at just the language it says in
12 Clark County, so you need to come up with some type of a
13 format to determine where in Clark County those licenses go.

14 Q Where does it say that in the ballot question?

15 A You need to have a regulation on it for
16 interpretation. I mean, I don't know how -- you just would
17 give them to only unincorporated Clark County entities or -- I
18 mean, there has to be a way to hand out licenses proportionate
19 to the population within the county. It was the responsibility
20 of the State to hand out the licenses, so.

21 Q Right. And I believe you testified that you
22 understood that it was the responsibility of the State to hand
23 out the licenses and that a lot of the other determinations
24 should be left to the local jurisdictions. Is that right?

25 A Well, the determinations regarding zoning and land

1 use.

2 Q Okay. So when the ballot question itself said that
3 the Department shall approve a license application if -- and
4 it provides a cap of 80 licenses issued in a county with a
5 population greater than 700,000 like Clark, where is the
6 authority to impose an additional limitation on that?

7 A I don't see that as a limitation. It's a function
8 of the process to hand out the licenses and it lets everybody
9 know that what jurisdictions are going to get licenses based
10 on the population. I mean, there's another reg that explains
11 that.

12 Q Right. But I'm talking about the ballot question
13 itself. It doesn't mention anything about jurisdictions or
14 localities being a consideration of the applicants in terms of
15 ranking; right?

16 A The statute specifically says in the county, but if
17 you read that you would say, oh, well only the county gets
18 licenses, and I don't think that was -- we didn't think that
19 was the intent, that they would be issued throughout the
20 county and then you have to figure out a proportionate way to
21 issue them. The Department made a regulation to say that the
22 licenses would be issued proportionately to the various
23 jurisdictions based on population. And then --

24 Q That was done through the regulatory process; right?

25 A Right.

1 Q The language adding that it had to be done
2 proportionately, there's nothing in there in the ballot
3 question that specified that; right?

4 MR. SHEVORSKI: I'm sorry, Your Honor. He's got to
5 let her finish.

6 THE COURT: Were you finished, ma'am?

7 THE WITNESS: Yes, I'm finished.

8 THE COURT: Okay.

9 THE WITNESS: I don't know how to -- I mean, you had
10 to have -- you have to have regulation on carrying out the
11 provisions of the statute and this is one of the -- I don't
12 know how you would have just issued 80. We would have just
13 had to issue -- then are you suggesting to just issue 80
14 licenses only in Clark County? So this is how you hand out
15 the licenses. The ranking piece of it is -- relates to the
16 ranking that was required under the initiative and so when --
17 the intent was when the applicants applied they would list
18 their jurisdictions and they would be -- as the applications
19 were reviewed and approved, do they want a license in
20 Henderson or do they want a license in Clark County
21 unincorporated. And so this was the process to implement the
22 handing out of the licenses, to interpret that provision and
23 create a process by which the licenses could be handed out to
24 the various jurisdictions.

25 //

1 BY MR.MILLER:

2 Q Could you not have just said we're going to issue
3 80 licenses that can be used in Clark County?

4 A Well, somewhere in Clark County? You mean some
5 jurisdiction in Clark County?

6 Q Just Clark County. Right. Any jurisdiction they
7 want to go to. That's what the plain language says, does it
8 not?

9 A Well, I guess there could have been -- that could
10 have been in the regulation, yes, if the --

11 Q Why would it need to be in the regulation? It says
12 it right there in the plain meaning. If the plain meaning is
13 clear, you don't need to turn to the regulations; right?

14 MR. SHEVORSKI: Objection. Argumentative.

15 THE COURT: Overruled.

16 THE WITNESS: Well, again, I don't -- I mean, I
17 think -- I don't know how it's possible. Do you just give
18 them to Clark County and then Clark County gives them out? I
19 just -- like, how do you proportionately give out the -- if
20 you have the State responsible for issuing the licenses, you
21 have to come up with some proportional way to distribute the
22 licenses within the jurisdiction that the initiative calls
23 for, so that's what we were attempting to do. That was my
24 understanding of the language and that's what we were
25 attempting to do.

1 BY MR. MILLER:

2 Q Where is that in the ballot question about the
3 proportionality of individual jurisdictions within a county?

4 A It's not in the ballot.

5 Q Okay.

6 A Again, it was the process by which we were
7 interpreting distribution of the licenses within the
8 jurisdictions.

9 Q But you determined that you were going to -- the
10 State was going to impose a limitation as to which
11 jurisdictions and how many licenses would be given out in each
12 jurisdiction; right?

13 MR. SHEVORSKI: Objection. Misstates testimony.

14 THE COURT: Overruled.

15 THE WITNESS: We were attempting to apply the
16 initiative as written by developing the system by which the
17 licenses would be allocated within the jurisdiction. That's
18 what we were doing.

19 BY MR. MILLER:

20 Q And in that interpretation were you not supposed to
21 adopt regulations that could not be unnecessarily impractical
22 towards the issuance of licenses?

23 A Yes.

24 Q So by imposing an additional limitation that granted
25 these licenses by jurisdiction, aren't you in effect limiting

1 how some of those applications could be used?

2 A No. I didn't see it -- we didn't see it that way.

3 Q Some of these jurisdictions had moratoriums, did
4 they not?

5 A I don't know the status now.

6 Q But like the City of Henderson, for example, at one
7 point had a moratorium on issuing licenses; correct?

8 A Yes.

9 Q So when the Department chose to further define the
10 provision that said we're going to give out 80 licenses in
11 Clark County and instead say it means 80 licenses in Clark
12 County which means X have to be awarded to Henderson, that
13 restricted the number of licenses that were issued in Clark
14 County that could be opened, is that right?

15 A Well, not necessarily. If the -- if you got a
16 license in Henderson and you couldn't get open, the license
17 could go back into the -- I mean, I think at that time, you
18 know, there wasn't an understanding of moratoriums or not
19 moratoriums. I think, again, there were a certain number of
20 licenses available to a county. We interpreted that provision
21 within the regulations to distribute the licenses within that
22 county based on a reasonable determination of population and
23 that's how it came about. I don't see that it was limiting.
24 I think it was interpreting that provision.

25 Q Is there any authority either in the ballot question

1 or the regulations to then additionally limit the applications
2 so that any applicant could only obtain one license per
3 jurisdiction?

4 MR. SHEVORSKI: Objection. Misstates the statute.

5 THE COURT: Overruled.

6 THE WITNESS: The regulation says that you can have
7 one or 10 percent in a county, I think.

8 MR. MILLER: Could you pull up Exhibit 5, page 8.

9 I.T. TECHNICIAN: Ross, what page?

10 MR. MILLER: Sorry, page 8; 433.

11 BY MR. MILLER:

12 Q Talking about this -- it's a provision on the
13 application that's in red letter. Have you read that?

14 A Okay.

15 Q What do you interpret that to mean?

16 A It's basically saying you wouldn't necessarily be
17 entitled to more than one license.

18 Q It says, "No applicant may be awarded more than one
19 retail store license in a jurisdiction/locality unless there
20 are less applicants than licenses allowed in the
21 jurisdiction." So what do you interpret that to mean?

22 A I don't know. I wasn't here. I wasn't at the
23 Department. I wasn't involved in any of this. So I think
24 it's meant to apply a regulation, but I don't know exactly
25 where it is and I don't know -- I wasn't involved in any of

1 that.

2 Q I understand you weren't involved, but you drafted
3 the regulations and that's where the authority to impose rules
4 come from, do they not?

5 A Right. But I wasn't involved in kind of how it was
6 put together and what was in that, so I don't know the
7 thinking behind putting it together this way or any of that.
8 I think it means that you're just notifying people that you're
9 not necessarily entitled to more than one license.

10 Q Not necessarily entitled to more than one license?
11 That's the way you interpret that provision?

12 A Uh-huh.

13 Q It says, "No applicant may be awarded." That's a
14 strict requirement, isn't it?

15 A Yeah. And so jurisdiction/locality, I guess that
16 would apply to the different jurisdictions within the county.

17 Q So would you interpret that to mean that an
18 applicant could not obtain more than --

19 A Yeah, so like one in Henderson, one in Vegas, one in
20 Clark County, one in North Las Vegas.

21 Q So if you had -- if an applicant with identical
22 ownership structure who had applied for two licenses in
23 unincorporated Clark County, they would only be given one
24 license; right?

25 A I think so, yes.

1 Q And if they had been given more than one license,
2 that would be a violation of that provision presumably; right?

3 A Again, I'm not exactly sure where that provision
4 comes from, so if it's a provision in the regulation -- again,
5 I didn't put that there and I don't know what the intent of
6 that was.

7 Q Right. But you're familiar, obviously, with the
8 fact that an agency can conduct ad hoc rule making; right?

9 A Right.

10 Q What is ad hoc rule making?

11 A Generally it's when you do -- you make a decision
12 that should have been made by regulation.

13 Q Right. And so --

14 A And there's lots of legal case law that addresses
15 what that is.

16 Q So if this was the intention of the Department to
17 further limit how many licenses could be issued to an
18 applicant in a jurisdiction, it should have been put in the
19 regulations; isn't that right?

20 A I think yes. I mean, I don't know -- I think this
21 is interpreting a regulation. I don't -- again, I'm not
22 completely familiar with how that got there and why it's
23 there, so. But generally, yes, the regulations should be
24 applied.

25 Q The regulations should be applied. And I understand

1 your testimony is that if this was an additional rule that
2 isn't in the regulations, it should have gone through the
3 regulatory process; right?

4 A I don't -- generally, yes, but I don't really know
5 -- Yes. I don't really know what this is or why it was
6 included.

7 Q You now oversee the Purchasing Division; right?

8 A Yes.

9 Q And what's the purpose of -- what's the mission of
10 the Purchasing Division?

11 A It's the internal State contracting division, so if
12 somebody wants a contract with the State, an agency wants a
13 contractor, they go through a process that's in the statute.

14 Q And they have provisions that are designed to make
15 sure that that process is an impartial and a fair process;
16 right?

17 A Yes.

18 Q And part of those provisions is the Department that
19 is issuing a contract designate a sole point of contact for
20 all questions to be submitted by potential applicants; right?

21 A Yes.

22 Q And then once those questions are submitted, then
23 there's a number of processes that the Division could follow
24 but generally they're giving the same information or responses
25 to all applicants; right?

1 A Right.

2 Q And if a department such as Marijuana Division was
3 issuing an application, they can use the resources of the
4 Purchasing Division, right, to assist in the administration of
5 that application?

6 A No.

7 Q They can't use additional resources --

8 A No.

9 Q -- within the State in order to assist?

10 A They can't use Purchasing. Purchasing only does
11 work under Chapter 333, so it would have to be in compliance
12 with that and it's not. No.

13 Q So resources such as the RFP template that might
14 have been provided to any State agencies aren't available to
15 this marijuana process?

16 A Yeah, I don't -- no, I wouldn't say that it would
17 be. They're not -- the State isn't issuing a contract for
18 somebody to provide services to the State or goods to the
19 State, so you wouldn't use the provisions of 333 in this case.

20 Q You wouldn't use any of the provisions that outline
21 things like maintaining a sole point of contact for questions
22 and answers?

23 A I mean, I think you could designate a sole point of
24 contact, but you wouldn't use the Purchasing Division for
25 that.

1 Q You're familiar with the provisions of NAC 333.155?
2 A No.
3 Q Okay. It's communication with contact person and it
4 indicates that the agency "designate a person to answer
5 questions concerning the contract to be awarded by competitive
6 selection pursuant to the request for proposals." And it
7 says, "A person who wishes to submit a proposal or a
8 representative of such a person shall not ask questions of or
9 otherwise discuss the contents of a request for proposals with
10 an employee or representative of an agency." It goes on to
11 say that if they do that they can be disqualified from the
12 application process. Are you familiar with that provision?
13 A Yes. You just read it to me, so yeah.
14 Q Right. But in fact you've had contested bids and
15 application of awards only recently in the Department; right?
16 A Yeah. There has been in Purchasing, yes, before I --
17 Q And there's been allegations that there was
18 violations of that provision; right?
19 A Yes.
20 Q And to the extent that there were violations of
21 those provisions that would have resulted in some individuals
22 potentially getting information from the Department that
23 wasn't provided on an equal basis to all applicants, they can
24 be disqualified; right?
25 A I think so, yes. I'm not -- you know, I'm not 100

1 percent. I don't know what their process is if that happens,
2 but maybe it could be rebid or -- I don't know exactly because
3 disqualified is a different term than just going out for
4 rebid. So there's something that could happen, yes.

5 Q We talked about -- I understand you were not present
6 at the adoption hearing in front of the Legislative Commission
7 when the regulations were adopted; right?

8 A I wasn't. Right.

9 Q But you're generally aware of what happened at that
10 meeting?

11 A Not really. I didn't watch it. I knew that at the
12 end of the day the regulations were adopted by or approved by
13 the Legislative Commission, but I wasn't there.

14 Q You talked a little about the timing that's
15 necessary in order to adopt the permanent regulations
16 yesterday, and based on the timing and the requirement that
17 the Department adopt the regulations prior to January 1st,
18 2018, the Legislative Commission could not have revised those
19 -- these regulations in any manner, right, and still comply
20 with that timeline?

21 A Oh, well they wouldn't have revised them, they would
22 have just not approved them and sent them back. They do that
23 on a regular basis. But, yeah, I mean, there were issues with
24 the timing because of the way that this all came together.

25 MR. MILLER: Can you pull up Exhibit 236, page 12.

1 THE CLERK: That's proposed.

2 THE COURT: Any objection?

3 MR. SHEVORSKI: No objection from the State, Your
4 Honor.

5 THE COURT: It will be admitted.

6 (Plaintiffs' Exhibit 236 admitted)

7 BY MR. MILLER:

8 Q And here is -- can you read the provision that
9 pertains to the response from Brenda Erdos that you read
10 before that -- actually I think Jason Frierson asked a
11 question about the timing of the regulations and whether or
12 not they could address any of the concerns outlined in the
13 public comment. I think it's at the bottom of this. "Senator
14 Hammond commented on" -- maybe you can read it because the
15 microphone I don't think will pick it up.

16 A "Senator Hammond commented on the overall lack of
17 transparency regarding the regulation process and he
18 questioned the distance between legislating, regulating and
19 the relationship with industry lobbyists. He also expressed
20 concern regarding the Department's ability to keep up with the
21 regulations. Chair Frierson asked Brenda Erdos, previously
22 identified, to confirm whether the regulation could be
23 extended."

24 Q Next page.

25 A "Ms. Erdos explained that shortly after the 2017

1 session the Department adopted a temporary reg which was set
2 to expire in November. The Department then adopted an
3 emergency regulation that was effective for 120 days that
4 cannot be extended, which will expire on March 1st, 2018. She
5 said that if R092-17 is not approved, there will be no
6 marijuana regulations." Do you want me to stop?

7 Q So despite the public comments and concerns about
8 provisions of the regulations or the individuals identified
9 areas that they thought could be further defined, there was
10 really no effective ability for the Legislative Commission to
11 revise any of the proposed regulations in response to the
12 concerns; right?

13 A Well, I think they could have if they wanted to. I
14 mean, it's within their power to do so. I think there were
15 some concerns and some criticism at public comment, but I
16 think there was general consensus and that's reflected as
17 well. So I think they could have. If they really wanted to,
18 they could have. That would have stopped the program,
19 essentially, but.

20 Q But do you disagree with Brenda Erdos that it would
21 affect -- not having any regulations; right?

22 A Right.

23 Q And if you didn't have any regulations, would you
24 have been able -- do you believe the Department would have
25 been able to carry out the application process?

1 A No.

2 Q So in effect they were faced with the decision of
3 trying to revise the regulations or not have any regulations
4 and not having an application period process at all; right?

5 A Right. Or they could have said, you know, there
6 doesn't seem to be enough consensus here or we want these
7 issues to be further explored. They could have given future
8 direction to start regulations again or they could have --
9 you know, they could have done various things.

10 Q They could have done any number of things, but doing
11 any of those number of things would have resulted in no
12 application process being conducted; right?

13 A Right. So there wouldn't have been an application
14 process, so the program would have been on hold.

15 Q And where is the authority for the legislature to be
16 involved in this process at all?

17 A It's in 233B.

18 Q Okay. And where is the authority for the provision
19 within 233B? Are you familiar with that?

20 A Where is -- I don't understand.

21 Q Who gave the legislature the authority to review
22 regulations or make the determination at all? Where does that
23 come from?

24 A It comes from --

25 Q It comes from Article 3 of the Constitution; right?

1 A Okay. It comes from legislation.
2 MR. MILLER: Can we pull up Article 3?
3 I.T. TECHNICIAN: What was that?
4 MR. MILLER: Do you have Article 3 of the
5 Constitution?
6 MR. SHEVORSKI: The United States Constitution?
7 MR. MILLER: Yes.
8 THE COURT: That would be the Nevada Constitution.
9 MR. SHEVORSKI: I'm sorry, I went to school with
10 him. I had to.
11 MR. MILLER: I just -- I forgot he --
12 THE COURT: You just ignore him, don't you?
13 MR. MILLER: I forgot he's sarcastic. No, I'm so
14 used to him always having the right answer, so if he says
15 something, yes, and I'm not even listening.
16 MR. SHEVORSKI: I'm sorry, Your Honor.
17 THE COURT: It's okay. I just knew it wasn't under
18 the judiciary section.
19 MR. MILLER: He's throwing it out. He knows from
20 law school I'm easy to trick.
21 BY MR. MILLER:
22 Q So it says, Separation of Powers. It says, "If the
23 legislature authorizes the adoption of regulations by an
24 executive agency which bind persons outside the agency, the
25 legislature may provide by law for the review of those

1 regulations by a legislative agency." Right?

2 A Yes.

3 Q And are you familiar that that provision resulted
4 from a ballot question that was put in front of the voters in
5 1996?

6 A No.

7 Q You're familiar, obviously, the legislature only
8 meets 120 days every two years?

9 A Yes.

10 Q And that in the interim the Legislative Commission
11 has reviewed regulations that are adopted by executive
12 agencies, but that's not the entire legislature; right?

13 A Right.

14 Q It's just a subset of legislators?

15 A Yes.

16 Q And so they needed a constitutional provision that
17 would allow review of regulations by the subset of the
18 legislature; right?

19 A Okay.

20 Q Does that make sense? Yes?

21 MR. MILLER: Can we pull up, Shane, NRS 233B.0633(1).

22 IT TECHNICIAN: I have .633.

23 MR. MILLER: Yeah. The one I emailed yesterday.

24 BY MR. MILLER:

25 Q "Upon the request of a legislator, the Legislative

1 Commission may examine a temporary regulation adopted by an
2 agency that is not yet effective pursuant to subsection 2 of
3 NRS 233B.070 to determine whether the temporary regulation
4 conforms to the statutory authority pursuant to which it was
5 adopted and whether the temporary regulation carries out the
6 intent of the legislature in granting that authority." Right?

7 A Yes.

8 Q But this was an initiative; right?

9 A Yes.

10 Q The entire purpose of an initiative is to take it
11 outside the hands of the legislative process; right?

12 A Yes. Or it is outside the hands of the legislative
13 process.

14 Q There's no authority at all --

15 MR. PARKER: I'm sorry. Could you repeat what you
16 said? You kind of trailed off.

17 THE COURT: She said it is outside the legislative
18 process. Right?

19 THE WITNESS: Yes.

20 MR. PARKER: Thank you.

21 BY MR. MILLER:

22 Q There's no authority at all for any legislative
23 review of these regulations, is there?

24 A That's kind of out of my pay grade. I mean, I was
25 following the law. I think if I would have said I don't have

1 to use 233B to make these regulations that there would have
2 been a lot of disagreement, so.

3 Q But you don't know whether or not the Legislative
4 Counsel Bureau's review of the regulations that you talked
5 about at length yesterday were substantively the same as any
6 other -- the review of any other regulations; that they could
7 have been looking at it through the lens and saying our
8 purpose is to follow the statute that says we're supposed to
9 look to make sure it matches the legislative intent?

10 MS. SHELL: Objection.

11 BY MR. MILLER:

12 Q And that would have been impossible to do in this
13 context; right?

14 MS. SHELL: It's compound and argumentative, Your
15 Honor.

16 THE COURT: Overruled.

17 THE WITNESS: Well, I think they would have still
18 done the review that they're required to do by the statute.
19 It also says that it conforms to the statutory authority, so
20 I think they would have looked at that and I think they did.

21 BY MR. MILLER:

22 Q The statutory authority by which it was adopted.
23 They would not have had any ability as a legislative body to
24 review the intent behind an initiative petition; right?

25 A I think they have the authority, yes.

1 MR. MILLER: Nothing further, Your Honor.

2 THE COURT: All right. It's 12:10. How much more
3 do we have, Mr. Parker?

4 MR. PARKER: I have about 35, 40 minutes, Your Honor.

5 THE COURT: Okay. I have a one o'clock conference
6 call that will be very short. I would like to go until 12:30
7 or so and then take a break so everybody can walk around, get
8 something to drink or eat if you want to shortly and then
9 resume at 1:10. And remember, we are breaking at 2:45.

10 Mr. Parker, you're up.

11 MR. PARKER: Thank you, Your Honor.

12 THE COURT: I'm sorry. Mr. Bult, Mr. Fetaz, did you
13 have --

14 MR. BULT: No, Your Honor.

15 THE COURT: Okay. Goodbye, Mr. Hymanson.

16 MR. HYMANSON: I'm just going to wish Mr. Parker
17 luck.

18 MR. PARKER: Thank you. Thank you, Phil, I
19 appreciate that.

20 CROSS-EXAMINATION

21 BY MR. PARKER:

22 Q All right. Good afternoon.

23 A Good afternoon.

24 Q I have a couple questions for preliminarily, and
25 then we'll get into the meat of my questions, okay.

1 A Sure.

2 Q Are you familiar with any of the applicants -- and I
3 don't know if you are familiar with any of the applicants,
4 because you said you weren't a part of the application
5 process; is that correct?

6 A Well, I'm familiar with the industry, with generally
7 the main people who have participated in the regulatory
8 process, participated in the work -- the Governor's Task
9 Force, the workshops related to that.

10 Q Can you tell me some of the people that you're
11 familiar with that you would include in the general
12 description "within the industry" by applicants perhaps.

13 A I don't know everybody's affiliation and how people
14 are related, but John Ritter was on the Governor's Task Force;
15 Amanda Connor worked -- works in -- you know, has clients;
16 Riana Durette, I guess she's not a -- but she's the
17 association. I know Brett Scolari, I know -- I mean, I know a
18 lot of people -- I know most of the people who were involved
19 in the regulatory process. I couldn't really list everybody
20 at this point, because I would be -- I would be afraid to not
21 include somebody. But anybody that has been involved in the
22 process through the working group and the Task --

23 Q How about Andrew Jolley?

24 A I know him, yes.

25 Q Brian Greenspun?

1 A I've never met him. I mean, I know who he is,
2 but --
3 Q Armand?
4 A Armand -- yes, I know Armand.
5 Q What's his last name?
6 A I don't know.
7 Q Okay. All I know is Armand, as well.
8 A Armand -- I don't know. Somebody who understands
9 his last name better could probably say it. I don't know.
10 Q Phil Peckman?
11 A I know him.
12 Q Do you know the names of any of the marijuana
13 establishments that may have applied?
14 A I know -- I mean, I know -- I don't -- when I looked
15 at -- I didn't look too closely at the caption here.
16 Q How about Essence?
17 A Is Essence Armand? I'm not sure.
18 Q Thrive?
19 A Thrive I think is Mr. Peckman and his group.
20 Q Nevada Organics?
21 A I don't know who that is.
22 Q Okay. Have you had lunch, dinner, or even coffee
23 with any of these people that you listed?
24 A Yes.
25 Q On more than one occasion?

1 A Yes.

2 Q Tell me who you recall having lunch with.

3 A I think I've had lunch with Mr. Ritter --

4 Q Anyone else?

5 A -- a couple times. I've known Brett Scolari for

6 years before marijuana. I've had lunch or coffee with him in

7 the past.

8 Q How about dinner?

9 A Brett. I don't -- I don't know.

10 Q All right.

11 A I think I've had dinner with Mr. Ritter, as well.

12 Or lunch or dinner. I can't recall.

13 Q Okay. Would any of these people have your cell

14 phone number?

15 A Yes.

16 Q Would that include Amanda Connor?

17 A Yes.

18 Q Phil Peckman?

19 A I don't know.

20 Q Andrew Jolley?

21 A I don't know. I mean, generally I worked to make

22 the regulations, to create the process. So I will have had

23 some contact and know pretty much anyone that was involved in

24 that process.

25 Q Okay.

1 A Either -- yeah.

2 Q Did you run for political office?

3 A Yes.

4 Q And what position did you run for?

5 A I ran for the Nevada State Assembly.

6 Q And when did you run?

7 A In 2018.

8 Q Okay. Did you have any fundraisers for that

9 campaign?

10 A Yes.

11 Q Were any of the people you listed a participant or a

12 contributor to your campaign?

13 A Yes.

14 Q Can you tell me which people, entities contributed

15 to your campaign?

16 A No, I can't -- I mean, I know some. I can't -- I

17 can't list them all.

18 Q Can you tell me of the applicants that are involved

19 in the marijuana business which ones contributed to your

20 campaign?

21 A I don't know.

22 Q You don't know any of them by name?

23 A Well, I know some of them by name, but I can't give

24 you -- I know TGIG did, I think Essence did, Thrive, Tryke.

25 Q Anyone else?

1 A There were others, but I just can't remember.

2 Q All right. And do you remember because you remember
3 them attending, or do you remember them because you remember
4 checks coming to you with their names on them? Or both?

5 A I mean, I remember -- I remember people attending
6 and then generally contributions, but I don't remember -- but
7 I don't necessarily know who everybody's group was, and so I
8 might have to look that up. So --

9 Q Did you ever receive any inquiries, or has anyone
10 ever hypothecated to you perhaps hiring you, any of the
11 applicants?

12 A I did -- no. Not in this case.

13 Q I'm sorry. You did what?

14 A No. No, not in this case.

15 Q Not in this case. What do you mean by that?

16 A Do you mean anybody?

17 Q Anybody.

18 A Yeah. I did some -- a little of application work --

19 Q And when did you do this application work?

20 A In July to November.

21 Q July what?

22 A To November.

23 Q Of what year?

24 A 2018.

25 Q When did you leave the State originally?

1 A January.

2 Q Of 2018?

3 A Yes.

4 Q Isn't there a one-year cooling-off period?

5 A I didn't work on any -- there's not a one-year

6 cooling off. There's a -- not representing people that

7 appeared before the Department. And that's what I -- that's

8 what I didn't -- I didn't work on any issues that were pending

9 for the Department when I left.

10 Q Okay. Let me make sure we're clear. You left in

11 January of 2018, but you did some work on applications between

12 July of 2018 and November 2018.

13 A Yes. Yes, I did.

14 Q Is that correct?

15 A Yes.

16 Q And certainly that's within a year, right, of you

17 leaving?

18 A Yes.

19 Q All right. And applications would be for purposes

20 of some applicant attempting to get a license; is that

21 correct?

22 A Yes.

23 Q And that license and that application would be

24 derivative of the Administrative Code that you'd been working

25 on until you left.

1 A But I wasn't --

2 MR. KOCH: Objection. Legal conclusion.

3 THE COURT: Overruled.

4 THE WITNESS: I wasn't involved in the application
5 -- in applying the application -- for the applications. I
6 didn't review any applications, I'd never been part
7 application process.

8 BY MR. PARKER:

9 Q Okay. Let's go back. Between July and November
10 2018 what did you specifically do in terms of assisting with
11 applications?

12 A Assisting gathering information, pulling information
13 together.

14 Q And for whom?

15 A For WSCC.

16 Q WFC --

17 A --SCC.

18 Q WS, as in Sam, CC?

19 A Right.

20 Q All right. And was that company applying for a
21 recreational marijuana license?

22 A Yes.

23 Q Now, you would agree with me that although you did
24 not put the application together, you created the regulations
25 upon which we've heard multiple State employees say the

1 application was supposed to be based upon; isn't that correct?

2 A I didn't regulate the license applications.

3 Q I didn't ask that you did that. Let's focus on the
4 question I'm asking you. Please answer that question, okay.

5 A Okay.

6 Q All right. So we've had Mr. Pupo, Mr. Gilbert, Mr.
7 Plaskon, and Ms. Cronkhite all testify that the application
8 was supposed to be consistent with the ballot question, the
9 statutes, and then the Administrative Code.

10 A Yes.

11 Q Would you agree with that?

12 A Yes.

13 Q Right. So, although you may not have put pen to
14 paper in terms of creating the application, you created the
15 Code upon which the application was supposed to be tied to; is
16 that correct?

17 A Yes. Well, I was involved in the process, yes.

18 Q Yes, you were. In fact, although I was not here
19 yesterday, I got pretty good notes indicating that you took
20 quite a bit of responsibility in putting those Codes together,
21 the Administrative Code together with regards to 453D. Is
22 that correct?

23 A Yes.

24 Q So within six months of leaving the State you were
25 already helping an applicant put together their application,

1 which, again, would have been modeled at least derivatively
2 from the Administrative Code that you put together; is that
3 correct?

4 A Yes.

5 Q Thank you. Did you seek clearance from the Attorney
6 General's Office before you began doing that?

7 A No, I didn't. I didn't work for the State.

8 Q Did you hire Mr. Pupo?

9 A He worked for the Department. He's worked for the
10 Department for about 14 years.

11 Q Okay. Did you have anything to do with him --

12 A Yes. He took the -- he became the deputy under --

13 Q Continue.

14 A He promoted to that position, yes.

15 Q After you left?

16 A No, no. When I was there.

17 Q Okay. Did you have anything to do with his
18 promotion?

19 A Yes.

20 Q Did you also know that he had lunches and dinners
21 with some of the applicants?

22 A Yes.

23 Q Was that the culture?

24 A Well, I -- I don't -- I don't know when, but I know
25 at some time there was -- I don't know if it was during the

1 application or -- but I do know that he had been to lunch or
2 two.

3 Q Was that the culture within that Department, to be
4 entertained by applicants, be it lunch, dinner, coffee,
5 whatever the case may be?

6 A Well, I wouldn't have called them applicants at the
7 time. You know, there was a culture of openness and, you
8 know, that you would grab a cup of coffee or something like
9 that. And it wouldn't be being entertained, it would be
10 everybody paying for themselves.

11 Q Well, did you ever go to dinner with Mr. Hawkins?

12 A No, I don't think so.

13 Q Mr. Pupo said he didn't, as well. Did you -- do you
14 believe or do you have any understanding whether or not Mr.
15 Gilbert or anyone else within that Department had lunch,
16 dinner, or coffee with any of the applicants?

17 A I don't. Maybe.

18 Q All right. Did you put together any policies or
19 procedures or any checks in place to make sure that the Code
20 was consistent with the ballot?

21 A Other than the procedure of the Task Force and the
22 regulation making, no. Not other than that.

23 Q Well, the Task Force didn't review the
24 Administrative Code that you put together, did they?

25 A No.

1 Q Right. So that's not a check. Was there something
2 internally done to make sure that you kept taking proposed
3 Administrative Code sections back to the ballot to make sure
4 they were consistent?

5 A Yes. I mean, we would look at the authority in the
6 initiative and determine if we could make a regulation, and
7 then we'd draft the regulation and it would go through the
8 process.

9 Q All right. So Mr. Miller pointed out at least a
10 couple of occasions where there were -- appeared to be
11 liberties taken in terms of creating the Administrative Code
12 not based expressly on the ballot question. For example, he
13 discussed with you ranking. Do you recall that?

14 A Just now?

15 Q Yes.

16 A Yes.

17 Q All right. Did you see the word "ranking" in the
18 ballot question?

19 A I think there's a requirement for the Department to
20 rank the applicants if there's more than one applicant in the
21 initiative.

22 Q Okay. So you recall seeing it in the initiative.

23 A Yes.

24 Q All right. And did you see how that was supposed to
25 be done? Was there any manner of ranking described?

1 A It was supposed to be done by regulation.

2 Q Okay. And Mr. Miller discussed with you
3 similarities or comparisons with the purchasing statutes of
4 Nevada. Do you recall that?

5 A Yes.

6 Q All right. Now, Mr. Kemp briefly referred to you
7 the -- what the County and State may do when it comes to bids.
8 Are you familiar with any State, County, City, for example,
9 construction bidding processes?

10 A No.

11 Q All right. Those are done typically by the lowest
12 response of a responsible bidder. Are you familiar with that?

13 A Part of one of the agencies within my Department is
14 the Department of Public Works, and I'm not -- I haven't dealt
15 with any issues with them on that. But I understand that
16 that's part of the process.

17 Q Okay. We'll come back to that, because that's going
18 to take a little longer than before we take this break.

19 I want to go back for one second to your campaign.
20 You reported all of the contributions you received?

21 A Yes.

22 Q So that would identify all the people who gave you
23 money --

24 A Yes.

25 Q -- some of which would be these applicants we've

1 been talking about; is that correct?

2 A Yes.

3 Q Okay. Do you have any recollection in terms of
4 amount of money any one applicant may have given you, for
5 example, Essence or Thrive or Tryke or TGIG?

6 A I don't remember, no.

7 Q Do you remember if anyone gave you over \$5,000?

8 A No. I don't -- I don't think so. I don't know,
9 though.

10 Q You don't remember? All right.

11 Now, have you spoken to any of these contributors to
12 your campaign since the litigation has begun?

13 A No. I don't think so.

14 Q When was the last time you recall speaking to Amanda
15 Connor?

16 A I don't recall the last time I spoke to her. Maybe
17 the fall.

18 Q During the application process?

19 A Yeah, probably.

20 Q All right. And did Amanda Connor represent Essence,
21 Thrive, Tryke, or TGIG?

22 A I think so. I'm not sure, though.

23 Q All right. So purchasing is under 333; is that --

24 A Chapter for State purchasing is under Chapter 333.

25 Q And under NRS 233B, that refers to what?

1 A That's the Administrative Procedures Act, so rule
2 making and adjudicating contested cases.

3 Q Are you aware that NRS 233B is referred to in the
4 NAC 453D?

5 A Yes.

6 Q Okay. Do you know the purpose by which --

7 A I think it's the -- for the -- I'm sorry.

8 Q Go ahead.

9 A Oh. I think it's for purposes of contested cases.

10 Q Do you know whether or not the words "contested
11 cases" are defined in the regulation or the Administrative
12 Code?

13 A I think that -- I think the term "contested case" is
14 defined in NRS Chapter 233B.

15 Q Okay. But you don't believe it's defined in the
16 regulation or the statute?

17 A In --

18 Q 453D NAC.

19 A I think it's referencing to 233B.

20 Q Well, we can take a look at it. It's referenced in
21 NAC 453D.996, judicial review. Are you familiar with that?

22 A Well --

23 MR. PARKER: Can you put that up on the screen,
24 Shane.

25 Your Honor, we've got -- it's right there at 12:30.

1 What do you want to do?

2 THE COURT: I was going to take a break after you
3 finished this particular exhibit.

4 BY MR. PARKER:

5 Q Okay. So, looking at paragraph (2), the words
6 "contested case" is used at the end of that sentence. Do you
7 see it?

8 A Yes.

9 Q All right. If you look at the definitions contained
10 in the NAC 453D, the words "contested case" is not defined;
11 would you agree?

12 A I don't think it is.

13 Q All right. Do you know why you did not define
14 "contested case" in the NAC?

15 A I think the NAC 233B defines "contested case."

16 Q Well, that statute does not reference the marijuana
17 application process, does it? NRS 233B?

18 A No.

19 Q Okay. And you did not include a definition in terms
20 of the marijuana application process under "contested case" or
21 in any --

22 A Yeah. There's no -- I don't believe there's a
23 definition.

24 MR. PARKER: All right. We'll stop there, Your
25 Honor.

1 THE COURT: All right. So 1:10, please. That way
2 you guys can move around, get something to drink, maybe get a
3 little snack. I'm sure Capriotti's is downstairs and ready to
4 serve you if you want a quick sandwich or soup.

5 (Court recessed at 12:31 p.m., until 1:17 p.m.)

6 THE COURT: All right. Are we ready, guys?

7 MR. PARKER: Yes, Your Honor.

8 THE COURT: The witness and I are both getting our
9 water pitchers refilled. We're going to stay hydrated. You
10 guys keep going.

11 MR. PARKER: All righty.

12 BY MR. PARKER:

13 Q So, Ms. Contine, is it Contine?

14 A It's Contine.

15 Q Contine. When you left in January of 2018 from the
16 State did you take any of the information you worked on
17 relative to creating the NACs with you?

18 A No.

19 Q Did you take any of the scoring guides or the
20 evaluation guides?

21 A No, those weren't done at that point.

22 Q How about any of the training guides?

23 A No.

24 Q Okay. You don't recall taking anything away, be it
25 electronic or hard copies, relative to the 453D to either the

1 statute or the Administrative Code?

2 A I might have had a printed-out copy of the regs that
3 I took with me. But other than that, I don't -- there was
4 nothing.

5 Q All right. Now, do you specifically recall any
6 differences between -- and this is a general question --
7 between 453A and 453D that you in particular created?

8 A Well --

9 MR. SHEVORSKI: Object to vague, Your Honor.

10 THE COURT: Overruled.

11 THE WITNESS: Some of the differences from the
12 initiative were some additional requirements such as the civil
13 penalties. That's not, I don't believe, in 453A. There was a
14 new licensing structure and a few other things that maybe
15 there wouldn't have been other regulations or -- is that what
16 you're asking?

17 BY MR. PARKER:

18 Q Yeah. Generally.

19 A Okay.

20 Q Were there any requirements under 453A regarding the
21 location, the physical location of the proposed establishment?

22 A I think so.

23 Q Okay. Does 453D have any differences in respect to
24 the physical location requirement than 453A?

25 A I think the way that it's worded it has a slightly

1 different application in that I think there was some confusion
2 under medical. Again, I know there was some litigation. I
3 was aware at some point that there was some litigation about
4 whether the County approved first or the State approved first,
5 and so I think there was some language in 453C that was
6 interpreted to essentially require the location to be
7 determined after the marijuana license was essentially
8 determined.

9 Q Okay.

10 A So -- okay. Go ahead. Sorry.

11 Q Let's go back. In terms of suitability of location,
12 you know, certain distances from schools, churches, is that
13 the same for 453A and 453D?

14 A Well, 453D has provisions in the actual statute.

15 Q Right.

16 A And I'm not sure if they're the same.

17 Q Okay. Is there a definition of a retail marijuana
18 establishment in the Administrative Code?

19 THE COURT: Is everybody okay?

20 MS. HAAR: I just dropped my water bottle.

21 THE COURT: All right, Ms. Haar.

22 MS. HAAR: Apology.

23 THE WITNESS: I'm not sure. I think there is, but I
24 think it would be based on the definition in the statute -- or
25 the initiative.

1 BY MR. PARKER:

2 Q Okay. Well, we can pull up the NAC definitions, and
3 you can take a look and tell me if you see the definitions of
4 "retail" or "recreational marijuana establishment" in the
5 definitions.

6 THE COURT: And they're also in the book that you
7 have, as well, if you'd prefer that way.

8 BY MR. PARKER:

9 Q You can tell -- you can go to -- since it's
10 alphabetically arranged, you can go to between T and S.
11 There's only one definition that has an R before "registry."
12 Is that correct?

13 A Okay. So -- I'm sorry.

14 Q You don't see the definition of a "retail" or
15 "recreational marijuana establishment" in the NAC --

16 A Right.

17 Q -- is that correct?

18 A Right.

19 Q But for some reason you have the definition of a
20 medical marijuana establishment in the NAC under 453D. Do you
21 know why you didn't include a recreational or retail marijuana
22 establishment in the definitions?

23 A I think that's a drafting issue with the Legislative
24 Council Bureau so that -- because the definition of "retail
25 marijuana store" is in NRS 453D. So they didn't put it in the

1 reg, they wouldn't -- and there's probably some reference in
2 this regulation to a medical marijuana establishment, and so
3 they defined it in this reg. That would be my understanding.

4 Q Okay. So why would you include a definition of
5 "medical marijuana" under 453D?

6 A There's -- someplace else there's a reference. I
7 don't know exactly where it is, but there's a reference to
8 "medical marijuana establishment."

9 Q Okay.

10 A And that might have been a drafting that LCB did.
11 When they looked through the regs they see that there's a
12 definition and then they would clarify that -- or it might
13 have come in in the original.

14 Q You have no idea why it's still in there?

15 A Well, I don't -- I could look through the reg and
16 probably find a definition or a reference to "medical
17 marijuana establishment," but from my memory I don't know
18 exactly where it is.

19 Q Good enough. Can you go to NAC 453D.210. Are you
20 familiar with this?

21 A Yes.

22 Q Okay. Did you have anything to do with creating
23 this regulations?

24 A Yes.

25 Q All right. It says here that "The Department can

1 collect fees for investigating a complaint." Do you see that?

2 A Yes.

3 Q Now, could the Department also charge fees for doing
4 background checks for owners?

5 A I believe the background check fees would be
6 incorporated in the license fees.

7 Q Okay.

8 A So that's probably why there's not a separate one.
9 But I guess an argument could be made there could be a
10 separate regulation for that.

11 Q Right. And so when comments were made earlier about
12 not having the resources to do background checks for all
13 owners, the Department of Taxation could have created a
14 regulation that included the cost of doing so; isn't that
15 correct?

16 A I mean, I think that it was created by the license
17 fee, yes.

18 Q Okay. So there was enough money in the license fee
19 to do the background checks?

20 A There's money in the license fee, yes.

21 Q Enough money to do the background checks?

22 A Yes.

23 Q All right. So when I -- we've heard arguments
24 earlier in this process or these hearings that it would be too
25 onerous for the Department of Taxation to do background checks

1 on all owners, that's not a true statement, is it?

2 MR. KOCH: Objection. Argumentative.

3 THE COURT: Overruled.

4 THE WITNESS: I think it is a true statement.

5 BY MR. PARKER:

6 Q Well, you just told me the money was in the fees and
7 there was sufficient money to do background checks; right?

8 A Well, money's not everything. Oh. Wait. Maybe it
9 was.

10 Q Oh. All right.

11 MR. GENTILE: Your Honor, I move for a competency
12 examination.

13 THE WITNESS: I'm a public servant.

14 THE COURT: This is not a criminal proceeding.

15 MR. GENTILE: Oh. Okay.

16 THE WITNESS: I think just in -- in addition to the
17 money, that you have to have people that can process things.
18 And when you're balancing those types of issues with the
19 issues related to it being burdensome on the industry and the
20 ability to protect the public it's basically, you know, again,
21 it's just weighing all of that together.

22 BY MR. PARKER:

23 Q Ms. Contine, I'm going to bring you back in, okay?
24 So when I first asked the question if the money was available
25 you said, yes, it's in the fees.

1 A Well, there's money in the fees.

2 Q To do the background checks. So then --

3 A It doesn't say specifically that the money for the
4 fees goes to the background check, but the point I was trying
5 to make is that that's -- it's my assumption that that's why
6 there's not a separate provision for that. It would --

7 Q Good enough. So, Ms. Contine, let me start all
8 over, again. I asked you the question whether or not there
9 was sufficient money to do background checks for all owners.
10 You said, yes, it's in the fees. Do you recall saying that?

11 A There's money to do the work, yes.

12 Q Thank you. And then after I told you what I'd heard
13 before from other members of the Department of Taxation then
14 you seemed to give me conditions and caveats to your position.
15 So I want to bring us back to a clear answer, and I'm going to
16 try to give you a very clear question, okay?

17 A Okay. Thank you.

18 Q If the Department of Taxation wanted to charge more
19 for background checks of the owners, could it have done so?

20 A It could have created -- gone through the regulatory
21 process to do that. I don't know if it ultimately would have
22 been approved or how that would have shaken out during
23 discussion, but it would be possible to make the regulation --
24 to at least go through the process of making a regulation.

25 Q Right. And, Ms. Contine, when it was determined

1 what the fee would be for the application the Department of
2 Taxation believed that was sufficient to do the background
3 check of owners; is that correct?

4 A The Department didn't determine the fee. The fee
5 was determined in the initiative.

6 Q Okay. So at that point the initiative said "all
7 owners," and it established the fee; is that correct?

8 MR. KOCH: Objection. Misstates the initiative.

9 THE COURT: Overruled.

10 THE WITNESS: It says -- it provides the fees for
11 the various license types, yes.

12 BY MR. PARKER:

13 Q For all owners; is that correct?

14 MR. KOCH: Objection. Misstates the initiative.

15 THE COURT: Overruled.

16 THE WITNESS: For the establishments for their
17 applications.

18 BY MR. PARKER:

19 Q The owners of those establishments; is that correct?

20 A I don't -- I don't read it that way. It's related
21 to something different than the owners.

22 Q Do you have a different recollection of what the
23 statute says or the initiative says in terms of doing
24 background checks for all owners?

25 A No.

1 Q So let's take a look at 453D.205(1). This way I can
2 remind you of it. NRS 453D.205(1). Do you see that, Ms.
3 Contine?

4 A Yes.

5 Q It says, "Each prospective owner, officer, and board
6 member"; is that correct?

7 A Right.

8 Q All right. So the amount was established in terms
9 of the fee, and the scope was established by the initiative
10 and the statute; is that correct?

11 MR. KOCH: Objection. It's not part of the
12 initiative.

13 THE COURT: Overruled.

14 THE WITNESS: I'm sorry. Can you restate that.

15 BY MR. PARKER:

16 Q Yes. You see in the statute where the scope in
17 terms of officers, owners, and board members are listed there.
18 Can you see it?

19 A Yes.

20 Q And we know the fee was \$5,000; is that correct?

21 A I don't -- there's different licenses and there were
22 different license fees.

23 Q Okay. For whatever the license fee amount was was
24 that established by the initiative, or by the statute?

25 A By the initiative -- by the statute essentially.

1 Q All right. So within that amount of money and based
2 upon the scope we saw just a second ago under the statute the
3 Department of Taxation should have been able to do what's
4 described there, is that correct, in terms of background
5 checks?

6 A Yes.

7 Q Good. Now, did the Department of Taxation ever
8 complain or ask for additional money to do background checks
9 to accomplish the scope identified in the statute?

10 A Not specifically to that, no.

11 Q Right. Now let's take a look at NAC 453D.239. And
12 this is the annual reimbursement of costs to local
13 governments. Do you see that?

14 A Yes.

15 Q Are you familiar with that regulation?

16 A Yes.

17 Q What's the point of that regulation?

18 A The initiative said that the cost should be paid to
19 the Department and to each locality in administering the
20 provisions of this chapter. And so that was a -- that was the
21 regulation that determined how much the local governments
22 would get.

23 Q All right. And the local governments got or
24 allocated these amounts based on the number of licenses you
25 anticipated for those jurisdictions?

1 A There was ongoing discussion through the working
2 group and the legislature about the -- what essentially that
3 provision meant. And the legislature essentially determined
4 that in 453A and D that that was the amount of money based on
5 the testimony that had occurred.

6 Q Okay.

7 A So they were making the change -- or they were doing
8 it with respect to 453D, and a certain amount of money was put
9 in the budget. So that's reflecting that.

10 Q All right. Good enough. Now, NAC 453D.250 says,
11 "Designation of persons responsible for providing information,
12 signing documents, and ensuring certain actions are taken."
13 Do you see that?

14 A Yes.

15 Q Were you responsible in part for preparing or
16 creating this regulation?

17 A Yes, I was involved in the process.

18 Q 1(b) says that, "If a corporation is applying for a
19 license for a marijuana establishment, a natural person who's
20 an officer of the corporation shall provide the information";
21 is that correct?

22 A Right.

23 Q All right. I don't see a distinction between
24 corporation and public corporation within this chapter. Do
25 you?

1 A I don't see the language, no.

2 Q Do you see within the definition of -- the
3 definitions portions of this chapter a definition for the word
4 "owner"?

5 A No.

6 Q Would you agree with me that there is no distinction
7 in terms of this chapter between public corporations and any
8 other corporation in how it's treated?

9 A I don't think there's a distinction there.

10 Q Which means if you have a corporation with 10
11 people, you do background for those 10. If you have a
12 corporation with 100 people, you do background on 100; is that
13 correct?

14 MR. KOCH: Objection. Incomplete hypothetical.

15 THE COURT: Overruled.

16 THE WITNESS: Right. And then the regulation
17 addressed the 5 percent.

18 BY MR. PARKER:

19 Q Well, we'll get to that. But in terms of this
20 section there is no distinction, and it doesn't even say the
21 5 percent in terms of this type of corporation; right? It
22 doesn't mention 5 percent in this part of NAC 453D.250; right?

23 A Right. And this is just a single person who can
24 sign documents on behalf of the entities.

25 Q Understood. Understood.

1 A Okay.

2 Q I'm just making sure that at this point there is no
3 distinction between a corporation and a public corporation; is
4 that correct?

5 A Okay.

6 Q Is that correct?

7 A Yes.

8 Q All right.

9 A Well, that's what it -- there's no definition there,
10 yes.

11 Q Thank you. And if the Department of Taxation wanted
12 to draw a distinction between the two in treating them
13 differently, they should have done so in this regulation;
14 right?

15 A It could have, yes.

16 Q But chose not to?

17 A I don't know if there was a choice in that context
18 to do that.

19 Q Let's just say it didn't. How about that?

20 A Did not.

21 Q Good enough. Looking at 2(a) it says, "For purposes
22 of this chapter and Chapter 453D of the NRS the following
23 persons must comply with the provisions governing owners,
24 officers, and board members of a marijuana establishment." Do
25 you see that?

1 A Yes.

2 Q Again, there's no distinction between corporation
3 and public corporation; right?

4 A Correct.

5 Q All right. Let's take a look at 453D.255. Now,
6 this is the 5 percent that you were speaking of earlier;
7 right?

8 A Right. Yes.

9 Q Okay. Now, how do you reconcile 453D.255 and
10 NRS 453D.210?

11 MR. SHEVORSKI: Objection. Asked and answered, Your
12 Honor.

13 THE COURT: Overruled.

14 THE WITNESS: Again, as -- I know you weren't here
15 yesterday.

16 BY MR. PARKER:

17 Q I was not.

18 A As I've explained extensively, the regulation
19 interprets and applies the provisions, and in making the
20 5 percent regulation it was a recommendation through the
21 Governor's Task Force, through the working group, through the
22 Task Force that was then -- it was a requirement or it was
23 asked to be a requirement in 453A, as well, and then it was
24 put into the regulations in 453D looking at what is the
25 purpose -- what are we trying to protect here and if we have

1 this 5 percent are we still able to protect the public safety
2 by only evaluating those people who have more than 5 percent.
3 I mean, I've said -- I've testified extensively on this and --

4 Q So what happens if someone who owns 4 percent has a
5 felony conviction not allowed under the Administrative Code?
6 Have you protected the public when you've done so -- when you
7 failed to do the background check with someone less than
8 5 percent?

9 MR. KOCH: Objection. Argumentative.

10 THE COURT: Overruled.

11 THE WITNESS: I think the rationale in the
12 discussion that occurred throughout the process was that there
13 would be such a low amount of ownership interest that the
14 public health or safety would be protected.

15 BY MR. PARKER:

16 Q Let me ask it one more time. I'm not concerned
17 right now with all of the backdrop that you're giving me. I
18 want you to answer the question directly. If someone had a
19 4 percent interest in the company but had a felony conviction,
20 a Category 1 under the Administrative Code --

21 You're familiar with that, are you not? Is that a
22 yes?

23 A Yes. Sorry.

24 Q Okay. -- would you agree with me that by failing to
25 do what the statute did you failed to protect the public?

1 Because the statute said every owner, every prospective owner.

2 MR. KOCH: Objection. Misstates the statute.

3 THE COURT: Overruled.

4 THE WITNESS: No.

5 BY MR. PARKER:

6 Q So you think it's okay to have a 4 percent owner
7 have a Category 1 felony conviction prohibited by the
8 Administrative Code to be an owner?

9 MR. KOCH: Objection. Misstates testimony.

10 THE COURT: Overruled.

11 THE WITNESS: No. I think that -- as I've explained
12 before, again, the thought process in developing the
13 regulation and having it go through the process, there would
14 still be a level of protection. Interpreting the provisions
15 and applying them, there would still be a level of protection
16 that would exist that would protect the public health and
17 safety.

18 BY MR. PARKER:

19 Q Ms. Contine, I'm going to assume that you are doing
20 your best, and I'm going to re-ask the question. Because the
21 Judge has been kind enough to allow us to ask questions as
22 long as we are trying to get answers.

23 A Right.

24 Q So I'm going to ask it one more time. If you
25 allowed a 4 percent owner -- if you failed to do a background

1 check on a 4 percent owner who has a felony conviction
2 prohibited under the Administrative Code, did you fail in
3 carrying out the NAC or the NRS?

4 A No.

5 Q Tell me why not. Should that owner be allowed to
6 have --

7 A I don't have any other -- I don't have anything to
8 add to this. I've mentioned -- I've spoken --

9 THE COURT: Ma'am, can you answer the question,
10 please.

11 MR. PARKER: Thank you.

12 THE WITNESS: I've spoken to this. It's the same
13 answer that I've provided.

14 THE COURT: Ma'am, answer the question, please.

15 MR. PARKER: Thank you.

16 THE WITNESS: That there was the balance of the
17 unduly burdensome and the public safety and making the
18 regulation and having the regulation go through the process.
19 I believe that it was protecting the public health and safety.
20 And the regulations complied with the statute.

21 THE COURT: So, Ma'am, you believed you could
22 substitute your judgments for the voters' of the State of
23 Nevada?

24 THE WITNESS: I believe that we went through the
25 process that we went through and we interpreted the provisions

1 and we considered all the responsibilities that we had under
2 the initiative. And I believe that the regulation was validly
3 adopted and it is valid, yes.

4 THE COURT: Okay. Thanks.

5 BY MR. PARKER:

6 Q Should a 4 percent owner with a felony conviction be
7 allowed to be an owner of a retail marijuana establishment in
8 the state of Nevada?

9 A Yes. Under the regulation and the statute, yes.

10 Q Let's take a look at that. Category 1 is under NAC
11 453D.905. Are you familiar with that?

12 A Yeah.

13 Q And Category 1 is under Section (3)(a). Are you
14 familiar with that?

15 MR. PARKER: So, Shane, it's 453D.905(3).

16 BY MR. PARKER:

17 Q It says here "Category 1 violations are violations
18 of a severity that make a person ineligible to receive a
19 license, including, without limitation, conviction of an
20 excluded felony offense." That's number (3)(a)(1). Is that
21 correct?

22 A Yes.

23 Q So if a 4 percent owner is an excluded -- has a
24 conviction of an excluded felony offense, doesn't the Code say
25 he cannot be an owner? It says, "ineligible"; is that

1 correct?

2 A That's what the statute says, yes.

3 Q And it doesn't say in this part of the statute
4 5 percent or 2 percent. It just says an owner; is that
5 correct?

6 A Yes.

7 Q So do you believe -- let's take what you said
8 earlier as being correct. So, Ms. Contine, under this section
9 that 4 percent owner is ineligible if he has a conviction --
10 he or she has a conviction of an excluded felony offense;
11 isn't that correct?

12 A Yes.

13 Q Thank you. And the only way you would have known
14 that that person had that conviction of that excluded felony
15 offense is to actually do a background check for all
16 prospective owners; isn't that correct?

17 A Yes.

18 Q That's right.

19 MR. PARKER: Took a while, Your Honor.

20 BY MR. PARKER:

21 Q All right. So let's take a look at NAC 453D.265,
22 and I'm interested in (1)(b)(3). Do you see the physical
23 address requirement?

24 A Right.

25 Q All right. Now, I know you said you didn't work on

1 the application. When you created this part of the
2 Administrative Code did you believe that the physical address
3 was important for the proposed marijuana establishment?

4 A Yes.

5 Q And tell me why you believed it was important to
6 have a physical address.

7 A Well, you'd have to have a physical address to have
8 local government review.

9 Q Good answer. I looked through your definitions and
10 I don't see the word "locality" defined. Do you know why
11 "locality" was not defined in your definition?

12 MR. SHEVORSKI: Objection. Vague.

13 THE COURT: Overruled.

14 THE WITNESS: You mean with respect to jurisdiction?

15 BY MR. PARKER:

16 Q And see, that's different, and I was going there
17 next. Because some parts of the Code says "locality," others
18 said "jurisdiction." Some they even use it in the same
19 paragraph. So is there a distinction in your mind between
20 locality and jurisdiction? Neither are defined in the
21 Administrative Code.

22 A The locality, I would interpret that to be the local
23 government jurisdiction. So --

24 Q Okay. And what would you consider jurisdiction,
25 then?

1 A I mean, it's the -- it's the local government.

2 Q So you think they're interchangeable?

3 A I don't know if they're interchangeable, but I think

4 of them the same way.

5 Q Okay. So as the creator of the Administrative Code

6 you don't know if there's a difference between jurisdiction

7 and locality?

8 A I think of them as the same way.

9 Q They're the same?

10 A So the local government jurisdiction.

11 Q They're the same to you?

12 A I think of them in the same way, yes.

13 Q All right. So when you created this provision

14 453D.265, in particular (1)(b)(3) you had an idea of why a

15 physical address was important, and I think you just said that

16 a second ago; correct?

17 A Yes.

18 Q And did you notice that the statute also placed an

19 importance on the physical address?

20 A Right.

21 Q Did you also notice that the Ballot placed an

22 importance on the physical address?

23 A Yes.

24 Q So do you have any explanation why the Department of

25 Taxation, after you left, changed the application to remove

1 physical address? Do you have any information on that?

2 A I don't know about that, no.

3 Q All right.

4 A But I --

5 Q If you don't know I'm going to move on. Look at
6 NRS 268 -- it's 453D.268 --

7 THE COURT: NRS, or NAC?

8 MR. PARKER: NAC. I'm sorry, Your Honor.

9 THE COURT: Okay.

10 BY MR. PARKER:

11 Q -- (2)(e). And in this portion -- this provision it
12 says the physical address where the proposed marijuana
13 establishment will be located, as well. Is that correct?

14 A Yes.

15 Q Is this another reinforcement of the importance of
16 the physical address for the purposes of the application?

17 A I think it's discussing each individual application,
18 yes.

19 Q Good. Looking at 453D.268(3), it says, "evidence of
20 the amount of taxes paid." How is that -- why was that added
21 to this provision?

22 A It demonstrates the ability to operate a business,
23 that you've operated a business in compliance, that you
24 followed the rules, that you've contributed to the community
25 so that there can be some analysis of community or economic

1 stability.

2 Q Okay. Let's take those individually. We've learned
3 that one of the applicants and owners had over 30 deficiencies
4 noted. Certainly taxes doesn't equate to compliance, does it?

5 A Regulatory or --

6 Q Yeah. Deficiencies noted by the Marijuana
7 Enforcement Division, over 30, including selling to a minor.
8 So you would agree with me that paying taxes doesn't equate to
9 compliance?

10 MR. KOCH: Objection. Misstates testimony.

11 THE COURT: Overruled.

12 THE WITNESS: I don't know specifically what you're
13 talking about. I just -- I tried to express my understanding
14 and the rationale behind one piece of the puzzle that you can
15 demonstrate an economic stability.

16 BY MR. PARKER:

17 Q Well, you can -- the only thing you can decide or
18 determine from that is that you paid taxes; right? That's it,
19 it's just the amount of money you've paid; isn't that correct?

20 A Right.

21 Q Thank you. It doesn't make you a better operator
22 just because you pay taxes; right?

23 A Well, it demonstrates that you've complied with the
24 provisions, that you've been involved in the community, that
25 you -- and it's just -- it's not just --

1 Q Let me -- we can use our own president. We don't
2 know how much Mr. Trump paid, but I doubt that any of us would
3 equate how much taxes he paid with compliance; right?

4 A Right. Other beneficial financial contributions, I
5 mean, it's -- yeah, I think that -- what I explained -- the
6 rationale behind that is what I would say. I don't know --
7 regulatory compliance, no.

8 Q So if you were a strip club owner and you paid a lot
9 of taxes, does that necessarily mean that you're going to be a
10 good marijuana establishment owner?

11 THE COURT: And you're referring to live
12 entertainment taxes?

13 MR. PARKER: Yes. Sounded a lot cleaner when you
14 said it, Your Honor.

15 BY MR. PARKER:

16 Q That's exactly what I meant, Ms. Contine.

17 A Not necessarily, no.

18 Q Right. The amount of money you pay in taxes does
19 not determine whether or not you're going to be a better
20 marijuana operator, will it?

21 A It's going to demonstrate an economic stability that
22 is an indication of whether you can operate a business.

23 BY MR. PARKER:

24 Q All right. Ms. Contine, we got, you know,
25 interrupted twice now.

1 The amount of money you pay in taxes, if it's not a
2 marijuana establishment, does it really have any relationship
3 to how you operate a marijuana retail establishment?

4 MR. KOCH: Objection. Asked and answered.

5 THE COURT: Overruled.

6 THE WITNESS: I think it's one piece that can go
7 into the analysis.

8 BY MR. PARKER:

9 Q All right. So if you continue to 453D.268(5)(2), it
10 says, "Any previous experience at operating other businesses
11 or nonprofit organizations." Do you see that?

12 A Right.

13 Q Was that your brainchild to include nonprofit
14 organizations, or did someone else come up with that?

15 A I think it might have been a discussion in the
16 working group or maybe somebody -- I don't, I mean, I don't
17 know that I sat down and typed that up. I don't think I did,
18 but I didn't say, oh, we should include nonprofits. I don't
19 recall that I said that, but throughout the process it might
20 have been discussed and it was incorporated.

21 Q And did someone believe working at a thrift store
22 would be helpful to running a marijuana establishment?

23 A I don't think so. I don't know.

24 Q Did you see it in the ballot initiative?

25 A No.

1 Q Did you see it in the statutes?

2 A No.

3 Q So this is something -- a deviation from both
4 created by someone during the working group?

5 MR. KOCH: Objection. Argumentative.

6 THE COURT: Overruled

7 THE WITNESS: I don't think it's necessarily a
8 deviation. I think that -- that specifically is so that a
9 person can demonstrate that they have some experience in
10 running a business or a nonprofit or some level of, again,
11 experience that creates stability. Again, we're going through
12 a process where we're trying to develop ways that people can
13 distinguish themselves because there's ranking. So you have
14 to have some categories in there that gives people opportunity
15 to distinguish themselves, and I think that was the thought
16 behind that provision and some of the others. So --

17 BY MR. PARKER:

18 Q Wouldn't a way of distinguishing yourself as a owner
19 of a medical marijuana establishment is to show that you have
20 fewer deficiencies than someone else, did you run your
21 operation with less compliance issues than the next person?

22 A I think that would be relevant, yes.

23 Q Wouldn't that be relevant to show that you had a
24 spotless four or five years, whereas someone who's had over
25 30 compliance issues, that would be a way of differentiating

1 two operations; right?

2 A Right. I mean, if you were -- you know, you'd have
3 to look at the level of the violations. And what spotless
4 means I'm not sure.

5 Q Right. Well, that means none, zero.

6 A Okay.

7 Q All right. Or even if somebody had five and someone
8 had 35?

9 A Yeah, in that particular category you'd look at
10 that, yes.

11 Q Right. That is a better way of judging how someone
12 will operate a marijuana establishment in the future based
13 upon how many deficiencies they've had in the past; isn't that
14 correct?

15 A And that was a consideration, yes.

16 Q Well, that was taken out of the application; did you
17 know that?

18 A No.

19 Q Yeah, it sure was. Someone thought it was more
20 important to consider nonprofit organizations and your
21 contributions towards those, as opposed to how many
22 deficiencies you may have had over four years. That was not
23 your decision, was it?

24 MR. KOCH: Objection. Misstates the evidence.

25 THE COURT: Overruled.

1 THE WITNESS: I don't think I would have decided to
2 take something out that was in the regulation, but I don't
3 know all the facts behind what you're talking about.

4 BY MR. PARKER:

5 Q Because you know under 453D.272 compliance is an
6 important factor, isn't it?

7 A Yes.

8 Q Isn't that correct, ma'am?

9 A It's in the regulation, and it was part of the
10 ongoing discussions that -- there's a lot of testimony. I
11 think I read some today even where I testified to such.

12 Q That's right. Let me take a look at Exhibit 96,
13 please, so you can see what your successor did in terms of
14 deficiencies. Are you familiar with Nevada Organics?

15 A No.

16 Q You're familiar with Andrew Jolley?

17 A Yes.

18 Q Okay. That's the same -- that's his company, I
19 believe.

20 A Oh. Okay.

21 Q And you can read that to yourself. So this is May
22 2018, approximately four, five months after you left. And Ms.
23 Kara Cronkhite --

24 Do you know her?

25 A Yes.

1 Q She's indicating that an investigation, SOD
2 regarding -- a self-reported event regarding the sell -- or
3 sale of marijuana to a minor be removed. Do you see that?
4 A So -- yes.
5 Q And you would agree with me selling marijuana to a
6 minor is a serious offense?
7 A Yes.
8 Q And you would agree with me that that's something
9 that the initiative said was prohibited?
10 A Yes.
11 Q And in fact it's reinforced in the statute?
12 A Yes.
13 Q And in fact it's a Category 2 violation under the
14 Code; is that correct?
15 A Under the civil penalties you mean?
16 Q Yes, under 905 -- NAC 453D.905; is that correct?
17 A Uh-huh.
18 Q Is that a yes?
19 A I'd have to --
20 Q You keep saying uh-huh, and I keep saying is that a
21 yes.
22 A Sorry. I apologize for that.
23 What did you reference?
24 Q In terms of selling to a minor?
25 A Well, you just said it's in 453D --

1 Q 453D.905.

2 A Okay. In the regulation, then?

3 Q Category 2. And I'll tell you exactly where it is.

4 A Yeah. Okay. I would say that if you're

5 representing that it's in the regulation, yes, I think it's --

6 Q You think it's a serious offense, do you not?

7 A Well, it's a Category 2 violation in the regulation,

8 so yes.

9 Q Yeah. I can show it to you if you want to take a

10 look at that. It's under --

11 A It's on the screen here.

12 Q Yeah. All right. Good. Yeah, it's (3)(b)(7).

13 Well, is it (7)?

14 A Yes.

15 Q Yeah. Somewhere in there.

16 A Oh. Wait. No. I'm sorry. Yeah, it's (b)(7).

17 Q Oh. Okay.

18 A Yeah.

19 THE COURT: Shane had it for us.

20 MR. PARKER: Yeah, I know it's in here.

21 THE COURT: It's on the screen, Mr. Parker. It's in

22 yellow on the screen.

23 BY MR. PARKER:

24 Q Here we go. It's actually under (c). "For failing

25 to verify the age or selling or otherwise providing marijuana

1 to persons less than 21 years of age." Do you see that?

2 A Yes.

3 Q All right. So it's a Category 2(b) violation, to be
4 exact. So that type of violation and deficiencies, that's a
5 way of determining who will be a better operator. Would you
6 agree as you did previously?

7 A It could be considered in that category, yes.

8 Q Isn't that more important, to know how a operator
9 has done over the past several years when considering whether
10 or not to give them a license for recreational, to know they
11 had deficiencies and these types of violations?

12 MR. KOCH: Objection. Argumentative.

13 THE COURT: Overruled.

14 THE WITNESS: I think the regulation anticipates
15 that there would be some review of compliance.

16 BY MR. PARKER:

17 Q Thank you.

18 A In that email -- I'm not saying that -- I don't know
19 for a fact that they didn't get some type of a violation. It
20 looked like there was some other language about applying a
21 different process, like allowing for a plan of correction,
22 which is what comes after the deficiencies. So I don't really
23 know the ins and outs of all of that.

24 Q No worries. So look at NAC 453D.272. This is one
25 of the provisions where I've indicated to you that the word

1 "locality" and "jurisdiction" is used in the same paragraph,
2 and in fact the same sentence. So 453D.272(1). It says,
3 "Within each applicable locality for any applicants which are
4 in a jurisdiction that limits the number of retail marijuana
5 stores." Do you see that?

6 A Yes.

7 Q What was your understanding or meaning behind
8 "locality" and then "jurisdiction" in this provision?

9 A I think that would be the local government locality
10 in the County. So they wouldn't be in the -- they wouldn't be
11 -- well, that's what I understand it to be.

12 Q So that would be Henderson within Clark County?

13 A Yes.

14 Q So there would be no locality you could use to the
15 City of Las Vegas?

16 A The City of Las Vegas is in Clark County.
17 Henderson's in Clark County. Unincorporated Clark County is
18 in Clark County.

19 Q Okay.

20 A North Las Vegas is in Clark County.

21 Q Okay.

22 A I think that's the --

23 Q But aren't they also in separate jurisdictions for
24 purposes of applying for a license?

25 A Well, they're in separate local government

1 jurisdictions, yes.

2 Q Right. Okay. Now, 453D.305, did you prepare or
3 create this regulation?

4 A Yes. I mean, it's part of the process, yes.

5 Q Okay. And under (1) -- I'm sorry, (2)(d) it says --
6 first it says, "A person or entity that wishes to renew a
7 license for a marijuana establishment must annually submit to
8 the Department," and it says (d), "A list and description of
9 each of the following which has not been previously reported
10 to the Department. A conviction of an owner --"

11 Do you see that?

12 A Yes.

13 Q "-- officer or board member." See that?

14 A Yes.

15 Q Now, if the Department required such would, you
16 agree with me that this provision does not limit it to
17 5 percent owners, board members, or officers?

18 A Not in that language, no.

19 Q Right. So if it was required annually to provide
20 that information for all owners, all officers, and all board
21 members, why wouldn't it be required in the initial
22 application process?

23 A I think it would be interpreted that that provision
24 would apply in this case, as well.

25 Q It doesn't say it?

1 A No, it doesn't.

2 Q In fact, the 5 percent is not mentioned anywhere
3 else in chapter 453D; isn't that correct?

4 A I don't know.

5 Q You don't recall seeing it anywhere else?

6 A I don't recall if it -- if you're telling me that it
7 doesn't, at this point in time I don't have any basis to say
8 that you're not telling the truth.

9 Q It also requires you to report -- or requires the
10 licensee to report a civil penalty or judgment entered against
11 an owner, officer, or board member; isn't that correct?

12 A That's what it says, yes.

13 Q Now, let me tell you why I believe that 5 percent
14 makes no sense, okay. Why would you differentiate between a
15 5 percent owner, but require every officer and board member to
16 provide the information? Wouldn't the owner be more important
17 than the officer or board member? Wouldn't you want to know
18 more about the owners than an officer and a board member?

19 MR. KOCH: Objection. Argumentative.

20 THE COURT: Overruled.

21 THE WITNESS: I don't know that it says that.

22 BY MR. PARKER:

23 Q Well, you would agree with me, if we go back to NAC
24 453D.255, it says, "An ownership interest of less than
25 5 percent"; right? It doesn't say a 5 percent or lesser of an

1 officer or lesser of a board member. It does not qualify or
2 -- it doesn't qualify the type of officer or board member;
3 right? Which means all officers and all board members; right?
4 A Yes.
5 Q Right. Wouldn't you agree with me that an owner is
6 the more important person in terms of the hierarchy of a
7 business?
8 MR. KOCH: Objection. Vague.
9 THE COURT: Overruled.
10 THE WITNESS: I don't know.
11 BY MR. PARKER:
12 Q So a board can fire an officer; right?
13 MR. SHEVORSKI: Objection. Vague.
14 THE COURT: Overruled.
15 BY MR. PARKER:
16 Q Isn't that true?
17 A I don't know.
18 Q You don't know? Wait a second. You're an attorney;
19 right?
20 A Yeah. but I --
21 Q You're telling me -- wait a second. Wait. Wait.
22 Wait. Wait. You're an attorney; right?
23 A Yes.
24 Q You had corporate law as a requirement in law
25 school; right?

1 A No.

2 THE COURT: Mr. Parker, we don't need to go through

3 this.

4 MR. PARKER: All right. All right. no worries.

5 THE COURT: I've had lots of lawyers who don't know

6 who can fire who.

7 THE WITNESS: I don't know.

8 BY MR. PARKER:

9 Q If you don't know, that's fine. I will skip it. I

10 just -- I'm surprised.

11 A I don't know that an owner -- I don't know if an

12 owner can -- you're asking me can an owner fire an officer?

13 Q Yes. Can I go -- I own my practice. Can I go in

14 and fire anyone in that office?

15 MR. KOCH: Objection. Need to look at his

16 documents.

17 THE COURT: Very good, Mr. Koch. Sustained.

18 THE WITNESS: Yeah. I mean, I'm guessing that's the

19 point. I don't understand how everybody's structures are set

20 up and that type of thing.

21 BY MR. PARKER:

22 Q Okay. That's fine, Ms. Contine. That is fine. You

23 don't know if an owner can fire an officer. Then that's based

24 on not knowing the organizational setup of a particular

25 company. Is that your position?

1 A Right.

2 Q All right. Good enough. If there's a 100 percent
3 owner with three officers and the owner of this corporation is
4 the president, he has a vice president, he has a treasurer,
5 that's the three officers and one owner, do you believe that
6 that owner could fire the treasurer?

7 A And there's no board or --

8 Q No board. I'm trying to make this simple.

9 A I would think that they could at that point.

10 Q All right. Which would make the owner more
11 important in terms of the running of that operation -- at
12 least the ownership of that operation than the treasurer,
13 right, or any other officer?

14 MR. KOCH: Objection. Vague.

15 THE COURT: Overruled.

16 BY MR. PARKER:

17 Q Isn't that true? This is a simple concept.

18 A I don't know.

19 Q All right.

20 A More important, I don't know how -- I don't know.

21 Q The point is, Ms. Contine, you did not have any
22 restrictions or limitations on checking the background of all
23 officers and board members; right?

24 A Right.

25 Q Which means that every officer and every board

1 member under the regulation had to be checked based upon the
2 regulation; right?

3 A Yes.

4 Q Both at license applications and at renewals; right?

5 A Yes.

6 Q And here, unlike 453D.255, .305 says at renewal
7 there is -- as far as all owners. It doesn't say the
8 5 percent owners; right?

9 A Right.

10 Q Thank you. And if you wanted it to be 5 percent on
11 renewals under the Administrative Code, you could have put it
12 in this section; right?

13 A It could have been in that section, but it could
14 also be interpreted under the other section.

15 Q All right. Good enough. And the same in terms of
16 fingerprinting under .305(3). So if you go to paragraph (3),
17 it says, "Each person who is an owner, officer or board member
18 of a marijuana establishment must complete a set of person's
19 fingerprints and written permission of the person authorizing
20 the Department to forward the fingerprints to the Central
21 Repository for Nevada." Do you see that? 453D.305(3).

22 A Yes.

23 Q Now, if you -- how would you know you're getting all
24 of the owners, officers, and board members if the applicant
25 has not identified all of them, not just those that are

1 5 percent? Because when you're doing a renewal this provision
2 doesn't say 5 percent. So how would you be able to cross-
3 reference if you'd gotten fingerprints for all of the owners
4 if you limited in part for the application to 5 percent or
5 greater but not limited specifically or expressly in the
6 renewals?

7 MS. SHELL: Your Honor, misstates the regulations.

8 THE COURT: Overruled. You can answer.

9 THE WITNESS: Yeah. I don't -- I don't know if
10 that's how it would be applied. I think that there would be a
11 requirement to list everybody whether they had a 5 percent or
12 not.

13 BY MR. PARKER:

14 Q Good enough. And that's what I tried to get to.

15 A But I'm not -- but I've never -- I don't know what
16 the documents look like, and so I'm not --

17 Q That's fine. But you just said you have an
18 obligation to list them all, otherwise you could not know; is
19 that correct?

20 A I don't think you could know.

21 Q Perfect. So even if you did not do a background
22 check of those with less than 5 percent, the only way you
23 could know who the owners were were for them -- for the
24 applicant to list them all?

25 A Right.

1 Q And if they failed to list them all, then they
2 didn't comply with your regulation. I'm not talking about the
3 application. I'm divorcing myself from the application, since
4 you didn't prepare it.

5 A I think there's an expectation that they would
6 provide them all because of the second part of that provision
7 that gives the Department the authority to look at it globally
8 and decide whether they thought there was a need to --

9 Q That's what I thought, too. Thank you so much.

10 Okay. Look at 453D.312. And these are the grounds
11 for denial of issuance or renewal of license, grounds for
12 revocation, and notice or opportunity to correct situation.
13 Do you see that?

14 A Yes.

15 Q Ground (1)(a) says, "The application or the
16 marijuana establishment is not in compliance with any
17 provision of chapter 453D of the NRS."

18 A Uh-huh. Yes.

19 Q So is that an indication that the Administrative
20 Code is deferring to the statute, it would have priority in
21 terms of compliance obligations?

22 A Yeah, if there were -- if they weren't -- you know,
23 if they weren't operating in compliance with the provisions
24 that they operate under, yes.

25 Q Okay. And so if an applicant is not compliant with

1 the statute that says, provide all owners' information, then
2 they're not in compliance with the Code, as well, because the
3 Code defers to the statute; right?

4 MR. KOCH: Objection. Argumentative. Legal
5 conclusion.

6 THE COURT: Overruled.

7 BY MR. PARKER:

8 Q Isn't that correct?

9 A I mean, if you weren't -- if you weren't in
10 compliance and the Department knew, yes, I think that
11 provision would come into play.

12 Q All right. So tell me, and this is kind of getting
13 towards the end now, how do you --

14 MR. PARKER: Don't give me that look.

15 [Unintelligible]

16 BY MR. PARKER:

17 Q How can you reconcile NRS 453D.200, which expressly
18 says, "All -- each prospective owner," and 453D.255 when
19 453D.312 requires you to be compliant with the NRS? Do you
20 understand the question?

21 A Yes. And this has been the ongoing question in the
22 -- again, the regulations were fully vetted, discussed,
23 adopted, gone through the whole process, reviewed for
24 compliance, and based on that authority and also the
25 understanding that the Department was looking at the various

1 balancings, that balancing that had to take place under the
2 initiative, that that would be valid.

3 THE COURT: What do you mean by balancing?

4 THE WITNESS: Well, looking at the requirement to
5 not have -- to not apply the statute as to make it impractical
6 for businesses to operate, to have regulations that were
7 necessary and compliant, looking at protecting the public
8 health and safety, and making sure the regulations did that.
9 So all those factors that went into that.

10 THE COURT: And when you were mentioning the burdens
11 on the industry you're referring to the definition of
12 "unreasonably impracticable"?

13 THE WITNESS: Right.

14 BY MR. PARKER:

15 Q The problem I have with your response, Ms. Contine,
16 is that you speak of the impracticalities on the problems
17 associated from the establishment's point of view. But you
18 started your conversation today and, from what I've read in
19 the notes, you were talking about how difficult it would be
20 for the Department of Taxation to undertake certain things.
21 So I want to make sure we have those separated, okay.

22 A And I think they both go into the analysis.

23 Q But the statute trumps the Administrative Code;
24 right?

25 A I believe that the regulations are valid under the

1 process under 233B that we went through.

2 Q All right. But the regulation defers to the statute
3 under .312, 453D.312, which we just read in the record; right?

4 A Yeah.

5 Q Isn't that correct?

6 A I'm sorry. I don't --

7 MR. KOCH: Objection. Vague.

8 THE WITNESS: I don't know.

9 THE COURT: Overruled.

10 MR. PARKER: Can you put that right back up, Shane,
11 just quick.

12 THE COURT: There it is. It's on the screen, again.

13 BY MR. PARKER:

14 Q 453D.312(1)(a). Yeah. It says, "The application or
15 the marijuana establishment is not in compliance with any
16 provision of Chapter 453D of the NRS." Isn't that correct?

17 A Yes.

18 Q So in terms of compliance of any applicant or
19 licensee the Administrative Code refers back to compliance
20 with the statute; right?

21 A Right. And I -- I mean, I understand what you're
22 getting at, but I believed at that time and I believe now that
23 the regulations were adopted under the statute in that they
24 interpret or carry out the provisions of the statute. And
25 based on that process I believe they're valid. So you would

1 look at that globally.

2 MR. PARKER: No further questions, Your Honor.

3 THE COURT: Okay. Anyone else from the plaintiffs'
4 side wish to ask any questions? Anyone else from the
5 defendants' or the defendants in intervention?

6 Mr. Gutierrez, Mr. Shevorski would like to go before
7 you. He has not had an opportunity.

8 MR. SHEVORSKI: Thank you, Your Honor.

9 THE COURT: And we're breaking in a half hour so the
10 witness can make it to where she needs to be.

11 MR. SHEVORSKI: I only have a few, Your Honor.

12 It won't be like my promise with the Gilbert
13 situation where I got a similar look to -- now I remember his
14 name -- Mr. Parker. And I did confess to him earlier that I
15 blew it.

16 DIRECT EXAMINATION

17 BY MR. SHEVORSKI:

18 Q So I'd like to talk a little bit about -- I believe
19 Mr. Parker, my friend Mr. Parker, who I remember, asked you
20 about the differences between 453A and 453D, and I'm referring
21 to the statute. Do you recall that?

22 A Yes.

23 Q Can you go to 453A.370.

24 THE COURT: And I don't know if that's in the pocket
25 part or the regular part.

1 THE WITNESS: Okay. 453A.370?
2 BY MR. SHEVORSKI:
3 Q .370.
4 A Okay.
5 Q It says, "The Department shall adopt such
6 regulations as it determines to be necessary or advisable to
7 carry out the provisions of NRS 453A.320 to 453A.370,
8 inclusive." Now, if you compare that back to NRS 453D.200,
9 that is a distinction, isn't it?
10 A Yes. The language is different.
11 Q Right. It's broader.
12 A Right.
13 Q It gives the Department broader authority to
14 regulate, doesn't it?
15 A Yes.
16 Q There's a great deal about background checks, and
17 cost, and burden. Let's assume -- let's take our friends the
18 publicly traded companies again. And I believe Mr. Parker,
19 and I accept his -- that it's -- there's a one-time
20 nonrefundable \$5,000 fee.
21 A Okay.
22 Q And some of that money was going to be used to cover
23 background checks, or the Department could -- let's say the
24 Department could charge a fee. Now I want you to assume a
25 hypothetical, that there's a publicly traded corporation with

1 a daily volume of trade shares or a willing buyer to a willing
2 seller and that is traded 500,000 times a day. You with me?

3 A Yes.

4 Q Do you have an estimate of how much that's going to
5 cost to run, to do a background check?

6 A No.

7 Q Every single day?

8 A No.

9 Q Every single time that share changes hand?

10 A Right. No. I don't know how that would be
11 estimated.

12 Q Who's going to bear the burden of that -- of that
13 cost? It could either be the applicant, or it can be the
14 Department. Can the Department afford to absorb that cost
15 itself every single day?

16 A Well, you know, the money is the one thing, but it's
17 also the time and how long that could take and the things that
18 are outside of the control of the Department when it came to
19 that. And it would basically -- how I would see it playing
20 out, it would basically shut down the ability to operate.

21 Q Let's start with -- before we get to effort
22 externalities is how I'll call them, and a nod to my friend
23 the economist, Mr. Bhirud, let's talk about the money first.

24 Could the Department afford to absorb the cost of
25 running itself 500,000 background checks a day?

1 A No. I mean, they'd have to get budgetary authority.
2 And that's a process. There wouldn't be enough money to do
3 it.

4 Q What about the manpower, the -- setting aside the
5 money, what about the administrative cost to run those
6 background checks?

7 A That's kind of what I was talking about. I was
8 talking about it globally. I just -- I don't know how
9 administratively you do that.

10 Q And my friend Mr. Kemp mentioned that the Department
11 could have chose a less burdensome background check than going
12 to the Central Repository and then to the FBI. Do you
13 remember that?

14 A Oh, yes.

15 Q Okay. What was the process that the voters gave to
16 the Department in 453D.205(1)? It says --

17 A Yeah. It says to -- "the Department to forward the
18 fingerprints to the Central Repository for Nevada Records of
19 Criminal History for submission to the FBI."

20 Q Submission to the FBI.

21 THE COURT: That's not exactly what it says, is it,
22 ma'am? It says, "When conducting a background check pursuant
23 to --"

24 THE WITNESS: Right.

25 THE COURT: "-- subsection of NRS 453D.200 the

1 Department may require each prospective owner, officer and
2 board member of a marijuana establishment license applicant to
3 submit a complete set of fingerprints and written permission
4 authorizing" it to go to a central repository.

5 MR. SHEVORSKI: That's right.

6 THE WITNESS: Yes. That's right.

7 BY MR. SHEVORSKI:

8 Q It may.

9 A Right.

10 Q The voters gave that choice to the Department, did
11 they not?

12 A Yes.

13 Q Can the Department in terms of how long it takes the
14 Federal Bureau of Investigation -- can it tell the FBI how
15 long to take to do its job?

16 A No.

17 Q And the voters -- the voters put that in there, you
18 would presume to know -- they would know that the State of
19 Nevada cannot tell the FBI how long it takes to do a
20 background check and do its report.

21 A I would think that they would know that they're
22 different, different branches of government, different levels
23 of government.

24 Q Was there a time period for these applications to be
25 submitted and scored?

1 A Yes; 90 days is when the Department had to issue the
2 -- under the initiative.

3 Q And the Department can't control how long the FBI is
4 going to take to do those background checks, can they?

5 A No.

6 Q So you would have to come up with some
7 interpretation to effectuate the voters' intent; correct?

8 A Yes.

9 Q There was a lot of talk about public safety and
10 owners being more important. But owners of public
11 corporations, if there are -- for example, I'll represent to
12 you that there happens to be a company called Microsoft with
13 over a billion shares outstanding, and there's a person out
14 there who owns one share and that person has a felony
15 conviction. Does that person pose any threat to public safety
16 if Microsoft becomes an owner of a licensee?

17 A I don't think so.

18 Q My friend Mr. Kemp put up before the -- he said
19 there was a cut and paste between various provisions of
20 NAC 453A and NAC 453D with respect to background checks. Do
21 you recall that?

22 A Yes.

23 Q Is that a fair representation of how the regulatory
24 process works in Nevada?

25 A Well, generally you don't start from nowhere. You

1 have some type of -- either some type of outside -- so when we
2 implemented the commerce tax we looked at other states that
3 have revenue taxes, we looked at how they regulated and
4 borrowed that. So you usually are not starting from a blank
5 screen per se, you're kind of pulling stuff together and then
6 having it go through the process for the discussion, at the
7 workshop, and then to the -- to review, and then to adoption.

8 Q My friend Mr. Miller mentioned the Cole memo and the
9 importance to Nevada of keeping undesirable persons out of the
10 marijuana industry. He mentioned, you know, people who might
11 have ill intent. And the Cole memo, if I recall correctly,
12 mentions suspicious activity reports that the Judge, I'm sure,
13 is well aware of.

14 If a member of the Sinaloa Cartel purchases a share
15 of a Canadian publicly traded corporation and it's under
16 \$5,000 and that financial institution actually knows it's the
17 Sinaloa Cartel, do you know if under federal law that
18 financial institution has any obligation to report that as a
19 suspicious activity report?

20 A I think they would, yes. It's like -- I think
21 there's some various components, and know your client is kind
22 of one of them, so they would -- if they knew that, they would
23 have to report it, I believe.

24 Q Would it surprise you to learn that they don't?

25 A That financial institutions don't?

1 Q Because there is a monetary limit, and it only
2 applies to transactions over \$5,000.

3 A Oh. Yeah. Okay.

4 MR. SHEVORSKI: No further questions, Your Honor.

5 THE COURT: Thank you.

6 Mr. Gutierrez.

7 MR. GUTIERREZ: Thank you, Your Honor.

8 REDIRECT EXAMINATION

9 BY MR. GUTIERREZ:

10 Q I'll be brief, Ms. Continue. You've been here for a
11 while.

12 A Thank you.

13 Q We talked about this, and I just want to be clear,
14 the regulations that you worked on, they went through
15 Legislative Council Bureau; correct?

16 A Correct.

17 Q They went through the Tax Commission; correct?

18 A Right.

19 Q You had multiple public workshops; correct?

20 A Yes.

21 Q You had a lot of input from the Governor's Task
22 Force, including some of the plaintiffs, like Mr. Ritter, who
23 had input on the 5 percent requirement; correct?

24 A Yes.

25 Q And then they were ultimately adopted; is that fair?

1 A Yes.

2 Q And in your opinion did the regulations follow the
3 recommendations of the Task Force and all the input that you
4 received?

5 A Yes.

6 Q And did the regulations follow the ballot
7 initiative?

8 A Yes.

9 Q And the statute NRS 453D?

10 A Yes.

11 MR. GUTIERREZ: Okay. No further questions.

12 THE COURT: Anybody else have any more questions?
13 She has a meeting, and we're going to let her go.

14 MR. KOCH: I have a couple.

15 THE COURT: Mr. Koch.

16 REDIRECT EXAMINATION

17 BY MR.KOCH:

18 Q Ms. Contine, you have been asked a lot of questions
19 about your post-Department activities, and you referenced you
20 had helped a company with an application; is that right?

21 A Yes.

22 Q And that was WSCC?

23 A SCC, yeah.

24 Q Okay. And in fact you're actually listed as an
25 officer of the WSCC when you quit the Department; is that

1 right?

2 A Yes.

3 Q And WSCC, did it get any license granted as part of
4 this application process?

5 A No.

6 Q WSCC got no licenses?

7 A No licenses.

8 Q The companies that Mr. Miller asked you about,
9 Tryke, TGIG, that made campaign donations, any of those
10 companies get licenses that you're aware of?

11 A I don't think so. Because they're part of the
12 litigation, so I'm assuming they did not.

13 Q Right. Now, Mr. Ritter, you talked about you may
14 have gone to lunch with him or met with him one time -- from
15 time to time.

16 A Dinner.

17 Q Do you know if his companies got any licenses?

18 A I don't think so. I don't -- I don't.

19 Q So even the fact that you're an officer of a
20 company, you may have helped them with the application, there
21 was no undue influence or partiality given because of the fact
22 that you are an officer of WSCC, was there?

23 A No.

24 Q Were you aware of any partiality with respect to the
25 scoring and ranking process that you observed or learned about

1 at any point in time?

2 A No.

3 Q With respect to the provisions in the drafting of
4 the regulations did anyone in any of these meetings say, look,
5 I know what the Initiative says, but we're going to do
6 something completely different?

7 A No. Along the way we were attempting to make
8 regulations that implemented the initiative reasonably and
9 without undue burden, but still protecting public health and
10 safety.

11 Q And --

12 A And we thought we were doing that.

13 Q There was some talk about the Colorado and its
14 regulatory legal structure with respect to public companies,
15 and Mr. Miller, I think, read you part of the governor's veto.
16 Have you heard that in recent weeks Colorado's actually
17 adopted a statute that provides for disclosure of 10 percent
18 ownership in a publicly traded company that's part of a
19 marijuana establishment?

20 A I haven't heard that, no.

21 Q Would it surprise you if Colorado in fact determined
22 that 10 percent was a reasonable threshold for disclosure of
23 ownership of publicly traded companies?

24 A No.

25 Q Is -- the threshold for ownership, is that something

1 in your experience that is unique to marijuana establishments
2 or regulation?

3 A I think there's -- no. There's other licensing,
4 liquor and other things like that where there's ownership
5 that's required to be presented.

6 Q And in fact in the medical marijuana regulation
7 NAC 453A contained a 5 percent threshold already --

8 A Right.

9 Q -- starting in 2014; is that right?

10 A Yes, I think so. I'm not 100 percent sure when
11 things changed in 453A, but --

12 Q Okay. Well, I did -- looking at it yesterday I
13 think we established that a regulation under 453A NAC provided
14 the one that I think Mr. Parker showed you earlier, that was
15 -- maybe I'm getting them confused, showed it to you, somebody
16 showed it to you, and that was actually regulated and adopted
17 2014 and that had the 5 percent threshold; is that right?

18 A (No audible response)

19 Q Yes?

20 A Okay. I believed that that was what is reflected in
21 the documents, yes.

22 Q There's some questions about scoring errors, and Mr.
23 Kemp asked if there's a 20-point error someplace might you do
24 something about that. If you found out that there was a
25 20-point math error for one of the entities that filed an

1 application, would you have gone in and said, hey, we're
2 throwing out the whole process because of this math error?
3 What would you have potentially done?

4 A I mean, I'd like to think I would have looked at it,
5 you know, looked at the issue, tried to confirm if something
6 had happened, and then work on a problem related to that one
7 entity, not disrupting the whole -- you know, working on
8 solving the problem that was related to that one entity.

9 Q And Mr. Parker asked you about this compliance
10 issues. Are you aware of anyone in the industry who did not
11 have a single deficiency on their record?

12 A I don't know. I don't know the number of
13 deficiencies.

14 Q That wasn't your --

15 A You know, it's been communicated that deficiencies
16 are handed out pretty liberally, at least under the medical
17 and as we transition into recs. So I don't -- I don't know.

18 Q Last, with respect to background checks. An
19 applicant -- the background checks that are called for under
20 the statute, those could be conducted after an application was
21 submitted; correct?

22 A Right.

23 Q For example, a conditional license -- with the
24 timing of that conditional license there's some things that
25 have to happen before that license is finalized; is that

1 right?

2 A That's right.

3 Q And a background check if -- let's suppose an
4 applicant submits their application and then a month later
5 somebody comes in, buys 25 percent of the company, would you
6 anticipate running a background check on that new 25 percent
7 owner?

8 A So in the process?

9 Q So there -- let's say right now my client has
10 received a conditional license, somebody else comes in and
11 buys a portion of that company in the meantime. Would you
12 still run a background check on that new owner that came in
13 after the fact?

14 A So that transfer of ownership couldn't occur until
15 there was compliance with the other regulations that deal with
16 transfer of ownership. So that would be dealt with in that
17 process. I don't know the timing and how it would all work
18 together, but you would have to notify of a transfer of
19 ownership.

20 Q Right. And so any owner, whether they purchased
21 before or purchased after, a background check would have to be
22 run on those individuals; is that right?

23 A Right. At the 25 percent you're talking about, yes.

24 Q And you're aware the regulations would allow the
25 Department to check the background of any owner irrespective

1 of the 5 percent threshold; is that right?

2 A Yes.

3 Q And so if the Department has reason to check into
4 that background, they'll do it?

5 A I would -- they would have the authority to do it,
6 yes.

7 Q There's also -- are you aware that there's an
8 attestation form that each individual owner, officer, or board
9 member was required to submit as part of the application?

10 A Right.

11 Q And part of that attestation stated specifically
12 that they have not been convicted of an excludable felony; is
13 that right?

14 A Correct.

15 Q May or may not be true. You've got to have some
16 trust in that attestation form, otherwise, why even have it,
17 though; right?

18 A Right.

19 Q Okay. Thank you.

20 THE COURT: Anybody else have any more questions for
21 her before I let her leave to go to her meeting?

22 And thank you very much for your time. We
23 appreciate it. Sorry you had to come back today.

24 THE WITNESS: Thank you. That's okay.

25 THE COURT: Good luck.

1 THE WITNESS: Thank you.

2 THE COURT: And thank you for making the computer
3 systems for the State run smoothly.

4 All right. Guys, what's our plan for Monday, 10:00
5 o'clock?

6 MR. KEMP: They've given us five witness, I think.
7 So we're going to try and get them all here on Monday.

8 MR. KOCH: 10:00 o'clock starting with Mr.
9 Groesbeck?

10 MR. KEMP: Well, depending on whose schedule is
11 what.

12 THE COURT: We're starting at 10:00 o'clock with a
13 bunch of representatives from different plaintiffs. Do you
14 anticipate getting through all of those witnesses on Monday?

15 MR. KEMP: Well, Mr. Koch --

16 MR. KOCH: I anticipate it.

17 MR. KEMP: Mr. Koch said yesterday Mr. Groesbeck was
18 20 to 30 minutes.

19 MR. KOCH: Just like Teddy's 20 to 30.

20 THE COURT: My eye roll did not make the record.
21 But Teddy can't do anything in 20 to 30 minutes.

22 MR. KEMP: Seriously, Your Honor, that is important,
23 because I've told Mr. Koch already that Mr. Groesbeck has to
24 be somewhere afterwards. So if he's telling me now that he
25 thinks it's going to be a lot more than 20 or 30 minutes --

1 MR. KOCH: I don't think it's going to be a lot
2 more. The plaintiffs, I don't know what they're going to ask.
3 I don't know. My examination is going to be quick.

4 THE COURT: Okay. So we'll take Mr. Groesbeck first
5 if he's here. How's that?

6 MR. KEMP: The's fine, Your Honor.

7 THE COURT: Otherwise, we'll do somebody else first,
8 and he'll have to wait.

9 MR. KEMP: If not, we'll have someone else here.

10 THE COURT: So what I'm trying to say, Mr. Kemp, is
11 if he wants to be out of here, the only way he's going to have
12 control is if he's first.

13 MR. KEMP: I have told him that.

14 THE COURT: Okay. So we will take him first when he
15 gets here. Then Tuesday I understand some people cannot come
16 because they have other obligations.

17 MR. SHEVORSKI: And Wednesday, Your Honor.

18 THE COURT: And Wednesday.

19 MR. PARKER: And Thursday, and Friday. So I'm
20 hoping we're done on Monday, Your Honor.

21 THE COURT: When are we going to do closing
22 arguments?

23 MR. PARKER: I can do Thursday morning. I have a
24 board meeting in the afternoon. I can do Thursday morning.

25 THE COURT: How long do you need for closing

1 arguments?

2 MR. KEMP: I would say about two hours.

3 MR. PARKER: I can do it tomorrow. I mean, I can do

4 Tuesday and Wednesday, and Thursday morning.

5 MR. KEMP: Judge, I'd like to finish the testimony

6 Monday first, before we --

7 MR. KOCH: Right.

8 MR. KEMP: Because, you know, we've joked about 20

9 or 30 minutes apiece turns into a little bit longer. So --

10 THE COURT: I am aware of that, Mr. Kemp. That's

11 why I'm trying to plan. That's why I told you guys I had all

12 week next week, except Tuesday afternoon.

13 MR. KOCH: Thursday, I don't know that Thursday

14 morning's --

15 MR. PARKER: I can do Thursday morning.

16 THE COURT: I can do Thursday morning.

17 MR. PARKER: I don't think I'm going to take very

18 long. The Court knows the case.

19 MR. BHIRUD: Could we go all day Thursday? Teddy's

20 got the morning, but everybody else is here.

21 You will need to be here?

22 MR. PARKER: I'd like to be here.

23 Well, is it going to take that long for us to sum

24 this case up?

25 MR. BHIRUD: I mean, you're not going to be

1 objecting or anything.

2 MR. KEMP: Judge, Mr. Rulis reminded me we have the
3 MSJ set for the 22nd.

4 THE COURT: Yeah. This is a preliminary injunction
5 hearing.

6 (Colloquy among counsel)

7 THE COURT: Guys, just tell me when you want me to
8 listen to your closing arguments.

9 MR. PARKER: Could we do the following week, Your
10 Honor? I mean, all of our witnesses will be done.

11 MR. CRISTALLI: Well, I don't know if Mr. Gentile's
12 going to be here the following week.

13 THE COURT: The following week, which is the week of
14 July 22nd, I have some time available that week, not as much
15 as next week.

16 MR. GENTILE: Can we have until Monday to decide, or
17 do you need to hook it up now?

18 THE COURT: No, I don't. I've been putting people
19 off, and I will put them off some more.

20 MR. GENTILE: I'll do what you guys want to do.

21 THE COURT: Are we done? Have a lovely weekend.
22 Enjoy spending time with your families and relaxing. And I
23 will see you all Monday at 10:00 o'clock.

24 (Court recessed at 2:37 p.m., until the following
25 Monday, July 15, 2019, at 10:00 a.m.)

1 LAS VEGAS, NEVADA, THURSDAY, JULY 11, 2019, 2:09 P.M.

2 (Court was called to order)

3 UNKNOWN: Your Honor, too, we want to take care of
4 it. We do have that motion to seal our Exhibit F. We have
5 the documents that we think should --

6 THE COURT: Let's wait a second. Let me get through
7 what I've got on my mind first. I'm looking for plaintiffs'
8 lawyers. I've got a Mr. Kemp. That's pretty close.

9 UNKNOWN: Some are coming. I haven't seen Dominic.

10 THE COURT: I don't need Dominic. I need one person
11 from his office, any one of them.

12 Thank you, Ms. Haar.

13 MR. KEMP: Judge, they went over their -- Judge, I
14 know Mr. Cristalli --

15 THE COURT: Mr. Cristalli is walking in right now.

16 Thank you, Mr. Rulis. You're very fine at your
17 fashion advice.

18 All right. So my trial for next week settled. So
19 how many more days you guys need?

20 MR. KOCH: Five.

21 MR. KEMP: Judge, we were going to rest as soon as
22 we came back. And I've talked to Mr. Parker, and we just want
23 to formally rest the plaintiffs' case.

24 THE COURT: I've got to finish this -- oh. Before
25 this witness finishes?

1 MR. KEMP: Yeah.

2 THE COURT: Okay. That's fine.

3 MR. KEMP: Because we thought --

4 THE COURT: Wait. So I'm looking at this side of
5 the room. How many more days do you guys need?

6 MR. KOCH: The only witness that I have is Mr.
7 Groesbeck, and we've had discussions. He's potentially going
8 to be here tomorrow, but Mr. Kemp says maybe not. Tomorrow
9 I'll know. But he's a relatively brief witness. I don't know
10 if the State has --

11 THE COURT: Other than finishing Ms. Contine and
12 getting Mr. Groesbeck, what else?

13 MR. GUTIERREZ: Your Honor, we would -- on behalf of
14 Essence and Thrive we want to call at least five or six of the
15 plaintiffs' principals.

16 THE COURT: You can call anybody you want. I'm
17 trying to figure --

18 MR. GUTIERREZ: It's more coordination, Your Honor.
19 We've been coordinating with counsel, so if you have
20 availability next week we can just make sure by tonight --

21 THE COURT: Well, that's what I'm trying to do right
22 now.

23 MR. GUTIERREZ: What's the availability next week?
24 Is it every day?

25 THE COURT: It's like Monday through Friday.

1 MR. GUTIERREZ: Perfect. Okay.

2 THE COURT: I just made a doctor's appointment for
3 Tuesday afternoon, though, because I didn't have Mental Health
4 Court. So I took the time to make a doctor's appointment. So
5 other than that, I'm at your disposal. I don't know if I have
6 a settlement conference on Monday. Hold on. Let's see. I
7 don't have a settlement conference on Monday, so I can start
8 as early as 10:30. The question, though, is do you have
9 witnesses that you would like to call?

10 MR. KOCH: Tomorrow -- if Mr. Groesbeck is not
11 available tomorrow, I'd like to call him on Monday. Is he
12 available Monday?

13 MR. KEMP: I'd have to check with him, Your Honor.
14 I'd kind of like to know why all of a sudden we're -- as of
15 yesterday we were hoping to try to get done tomorrow, and last
16 night they substituted --

17 THE COURT: Nobody told me that.

18 MR. KEMP: Judge, I've been trying to get this thing
19 done for two weeks, okay. So, Judge, last night is the first
20 we hear all of a sudden they want four more plaintiffs. I
21 just don't understand why they think they need --

22 THE COURT: Mr. Kemp, it's okay. As I think you've
23 recognized, no discovery occurred in this case prior to us
24 starting this hearing. As a result of no discovery happening
25 in this case, I have certainly allowed everybody in the room

1 enough rope to hang themselves or call the witnesses that they
2 want to. If people want to call some more witnesses, I'm
3 going to let them call them so that we have a full and
4 complete record given the lack of discovery that was done
5 prior to this hearing starting.

6 Now I'm just trying to figure out what to do,
7 because I want to finish up next week.

8 MR. KOCH: And I think the witnesses that are
9 potentially going to be called will be relatively brief. Mr.
10 Groesbeck, for example, my questioning of him would be done in
11 20, 25 minutes --

12 THE COURT: Great.

13 MR. KOCH: -- whatever additional -- I think all the
14 witnesses would be of that type --

15 MR. GUTIERREZ: That's correct, Your Honor. Every
16 witness we would propose is 20 or 30 minutes.

17 MR. KOCH: -- if they're all available.

18 MR. GUTIERREZ: Just it's availability.

19 THE COURT: All right. So --

20 MR. KOCH: We could get them -- frankly, we could
21 get them done today, but, you know, I'm not counting on that.

22 MR. KEMP: Judge, can we at least see why we're
23 calling these witnesses while we've got time.

24 THE COURT: Hold on a second. So has anyone heard
25 from Mr. Gentile?

1 MR. CRISTALLI: Yeah. Your Honor, Mr. Miller and
2 myself were up there. He looks like he's completing his
3 testimony now. He should be back I would imagine very
4 shortly.

5 THE COURT: Okay. So we've got a half hour.

6 MR. CRISTALLI: Next week is a little concerning,
7 but he did -- I think Mr. Gentile -- listen, we could continue
8 to go forward without his presence with the witnesses that are
9 remaining. That's not an issue. But I think he really wants
10 to be present, so he may vacate his travel plans. So I don't
11 want to speak on his behalf. I'm just anticipating that he
12 will say that.

13 THE COURT: I'll listen to it if he says it.

14 MR. CRISTALLI: Yeah.

15 THE COURT: So we had Mr. Groesbeck?

16 MR. KOCH: Right.

17 THE COURT: Who else?

18 MR. GUTIERREZ: Frank Hawkins.

19 THE COURT: Okay.

20 MR. GUTIERREZ: Brett Scolari from Tryke, one of the
21 plaintiffs; John Matos from ETW; Jesse McCrea, one of the
22 plaintiffs; and Riana Durrett, who's part of the NDA, but
23 she's out of the country, Your Honor.

24 THE COURT: So other than Mr. Groesbeck can you tell
25 me, because Mr. Kemp requested it, the purpose for which you

1 intend to call each of those witnesses.

2 MR. GUTIERREZ: Absolutely. We're talking about
3 irreparable harm. We have to talk to the plaintiffs about
4 their -- what they've done, what they're doing to buy
5 licenses, which we think goes directly against the irreparable
6 harm problem. We also want to talk about some of their
7 applications. We also want to talk about some of the things
8 that they've done and told our clients when it comes to the
9 application process. So, you know, it's not going to take
10 long, Your Honor. At least estimated 30 minutes each one.
11 It's just about scheduling and getting them in. Once we do
12 that I think we'll be fine.

13 THE COURT: Okay. All right.

14 MR. CRISTALLI: If I could just inquire, then, Mr.
15 Gutierrez. I think that also Damon Hernandez is on the
16 witness list. And then there were two yesterday, that was
17 Chad Christensen and Shawn Luz [phonetic] and Ben Sillitoe.
18 So are -- 'cause you just mentioned Brett. Are you intending
19 to call all of those additional witnesses, as well?

20 MR. GUTIERREZ: My intent is to call at least
21 somebody from the plaintiffs' side. We'll talk with you about
22 that. But, like I said, each one, Your Honor, wouldn't be
23 more than 20 minutes, 30 minutes.

24 THE COURT: If I can get them in the room.

25 MR. CRISTALLI: And what about Hernandez?

1 MR. SHEVORSKI: The State is not calling Mr.
2 Hernandez.

3 MR. CRISTALLI: Yes, but he's also on --

4 MR. GUTIERREZ: We're not calling Mr. Hernandez,
5 either.

6 MR. CRISTALLI: Okay.

7 MR. SHEVORSKI: I'm sorry.

8 THE COURT: You're just down to plaintiff party
9 representatives at this point from the defendants in
10 intervention. Okay.

11 MR. GUTIERREZ: That's correct. With the exception
12 of Riana Durrett, who's part of the NDA. But that's -- the
13 rest will be plaintiff party witnesses, Your Honor.

14 THE COURT: Okay. All right. Thanks.

15 Now I'm going to go to Mr. Kemp. Mr. Kemp, you
16 wanted to tell me something.

17 MR. KEMP: I have eight, which is Groesbeck,
18 Scolari, Hawkins, Matso, Riana Durrett, Christensen, Losee,
19 and Hilltop.

20 THE COURT: No reason I can't finish that in four
21 and a half days?

22 MR. KEMP: I would think not, Your Honor, especially
23 if they're promising in Mr. Koch's case 20 or 25 minutes and
24 Mr. Gutierrez's case 20 to 30 minutes. So I would think you
25 could get done in four days.

1 But getting back to what we started with, we would
2 rest our case.

3 THE COURT: Okay. Does that include all of the
4 plaintiff parties that have participated in the preliminary
5 injunction hearing?

6 MR. GENTILE: I just heard Mr. Gutierrez say
7 something that tells me that I can use my expert in rebuttal.
8 Let me lay it out for you. If he's going to go into in his
9 case in chief the concept of irreparable harm and he intends
10 to do it through these four, then I have retained a gentleman
11 from Colorado who is an expert in the evaluation of cannabis
12 businesses.

13 THE COURT: Okay.

14 MR. GENTILE: So I'll call him in rebuttal.

15 THE COURT: Then you would have a rebuttal witness.
16 It's okay. But I'm only on case in chief. All of the
17 plaintiff parties who've been participating in our preliminary
18 injunction hearing, all of you agree to rest at this point for
19 purposes of this hearing?

20 Max -- I'm sorry. Mr. Fetaz.

21 MR. FETAZ: On behalf of ETW plaintiffs, yes, we
22 rest.

23 THE COURT: Mr. Gentile?

24 MR. GENTILE: We rest.

25 THE COURT: Mr. Kemp, you already rested.

1 MS. TURFLEY: We rest.

2 THE COURT: Okay. So the plaintiffs' group has
3 rested with the understanding that, depending upon what you
4 guys put on in your case in chief, they may have a rebuttal
5 witness. So are we ready to continue with our current
6 witness?

7 MR. GUTIERREZ: Yes, Your Honor.

8 THE COURT: Can you all, and those are you all
9 sitting at the plaintiffs' table, check with your respective
10 clients about their availability for next week. I understand
11 that Mr. Gentile may have some travel challenges, but --

12 MR. GENTILE: I'm going to forgo it. This is far
13 more important.

14 MS. TURFLEY: I can represent Mr. Parker does have
15 his board meeting on Thursday.

16 THE COURT: We'll let him get to his board meeting.
17 I've broken for board meetings for Mr. Parker before.

18 DEONNE CONTINE, DEFENDANTS' WITNESS, PREVIOUSLY SWORN

19 Ms. Contine, are you ready? You're still under
20 oath.

21 THE WITNESS: Yes. Okay.

22 MR. CRISTALLI: And, Your Honor, before we start
23 with Ms. Contine, I didn't address this prior to her beginning
24 her testimony, but -- and I did speak to Mr. Gutierrez with
25 regard to this issue prior to the testimony starting -- Ms.

1 Contine, after her employment with the Department I believe
2 went into private practice for a period of time with Kaempfer
3 Crowell, and during that period of time, it was March of 2018,
4 represented the interests of Nevada Pure, Shango. And so we
5 talked about some concern that may exist with regard to
6 privileged communications and potential conflict as it relates
7 to her representation of that company during that period of
8 time. We haven't gotten there yet. I don't know whether or
9 not we will or not, but I wanted to make the Court aware of
10 it.

11 THE COURT: I am sure she will respect the attorney-
12 client privilege and any communications she had with the
13 client. It's one of the problems with litigating in the State
14 of Nevada. Some of you may have read a report from
15 Massachusetts. They don't understand that when you're in a
16 state as small as Nevada it is impossible to avoid having
17 relationships with people.

18 MR. CRISTALLI: Yes, Your Honor.

19 THE COURT: Okay. Anything else? Now you may
20 continue.

21 MR. GUTIERREZ: Thank you, Your Honor.

22 DIRECT EXAMINATION (Continued)

23 BY MR. GUTIERREZ:

24 Q Ms. Contine, when we left we were talking about the
25 final report of the Governor's Task Force. Do you have that

1 still in front of you?

2 A Yes.

3 Q Okay. And I want you to turn -- if you can, turn to
4 page 19.

5 THE CLERK: I'm sorry, Mr. Gutierrez. Is this
6 Exhibit 2009?

7 MR. GUTIERREZ: Yes. I'm sorry. It's 2009, which
8 was previously admitted.

9 THE CLERK: Thank you.

10 MR. GUTIERREZ: Thank you.

11 BY MR. GUTIERREZ:

12 Q And are you there, Ms. Contine, on page 19?

13 A Yes.

14 Q Okay. And the first paragraph talks about
15 application and licensing requirements, and there's several
16 recommendations. And one of the recommendations is about the
17 impact of ownership interest below 5 percent and the most
18 effective way of issuing agent cards. Do you recall having
19 discussions with the Governor's Task Force about ownership
20 interest less than 5 percent?

21 A Yes.

22 Q Okay. Can you tell us about those discussions.

23 A So there were several discussions along the way in
24 various processes about the difficulty that the industry had
25 faced in the medical program in obtaining -- and essentially

1 the burden that it was to actually get anything done through
2 the process when they had to get a signature or a background
3 check from somebody that maybe was a -- had like a, you know,
4 half a percent interest or something like that and lived in
5 Ohio. And so that was an ongoing discussion with the industry
6 about making that process a little bit less burdensome.

7 Q So the concern when discussing background checks of
8 owners less than 5 percent was to make sure it wasn't
9 burdensome on the industry; is that fair to say?

10 A Right. And it was their request. And our -- the
11 Department's, you know, the State's interest was kind of
12 looking at the overall purpose of the regulations and, you
13 know, protecting public health and safety and kind of coming
14 to this conclusion that there could be some give on that,
15 because if you have a really small interest in a company,
16 you're not going to be able to dictate actions that may lead
17 to black market sales or things like that. So it was kind of
18 a balance between, again, as I spoke of before, like balancing
19 that public health and safety in the interest of the industry
20 and the interest of the State in trying to come up with
21 something that the State could work with and that the industry
22 could also work with.

23 Q And when you were having those discussions was --
24 did the Department and the Task Force look at the ballot
25 initiative and NRS 453D to make sure that was in compliance?

1 A Yes.

2 MR. GUTIERREZ: Okay. And if we can, turn to,
3 Brian, NRS 453D.

4 Judge, do you mind if I hand her the --

5 THE COURT: You may. Sure. It's right there.

6 THE WITNESS: Okay.

7 (Pause in the proceedings)

8 BY MR. GUTIERREZ:

9 Q Ms. Contine, are you at -- can you turn to NRS
10 453D.200.

11 A Okay.

12 Q And you've seen this and read the statute before;
13 correct?

14 A Yes.

15 Q Okay. Now. the statute says. "The department shall
16 adopt all regulations necessary or convenient to carry out the
17 provisions of this chapter." We discussed already what you
18 stated was your interpretation of necessary or convenient; is
19 that correct?

20 A Correct.

21 Q But the next sentence, tell me what you -- what your
22 position is on the next sentence that says, "The regulations
23 must not prohibit the operation of a marijuana establishment
24 either expressly or through the regulations that make their
25 operation unreasonably impracticable."

1 A And that's kind of in line with what I discussed
2 earlier, which is -- well, I think the -- I'm making an
3 assumption, but I think that I've even had discussions with
4 maybe some of the drafters is that the fear that going forward
5 if somebody didn't like -- if there was -- if somebody didn't
6 like the fact that marijuana had been voted in, legalized by
7 the public, you could make -- you could theoretically make
8 regulations so unreasonable that it would eliminate the
9 ability to operate. So I think that language is meant to
10 address some of that. And so, again, as I testified before,
11 there's always this kind of balance between what's reasonable
12 in terms of regulatory structure, but which still allows the
13 agent -- or the entities to operate the establishments.

14 Q So in your interpretation the Department in looking
15 at this provision of the statute also had to consider a
16 balancing, not adopting regulations that would make the
17 operation of an establishment impossible or impracticable as
18 it says; is that correct?

19 A Right. Correct.

20 Q And then if you could turn to the definition of
21 "unreasonably impracticable," which is 453D.030(19). And do
22 you have that in front of you, Ms. Contine?

23 A Yes.

24 Q Okay. And is that definition of unreasonably
25 impracticable, was that used by the Department in adopting

1 regulations to ensure that the marijuana businesses -- that
2 regulations weren't adopted they were going to put them out of
3 business or increase costs unnecessarily high?

4 A Correct.

5 Q Could you explain that a little more for us about
6 how this was utilized with the adoption of the regulations.

7 A So I guess the way that it was utilized was to
8 really consider what were some of the barriers that the
9 industry had faced in the past and how that was affecting how
10 they could operate and whether they could do their business.
11 And so, I mean, the basis for that -- I mean, I think the
12 language is meant to basically say, you know, you can't say,
13 you know, you can't sell edibles or you can't -- you know, so
14 that people couldn't come in and do those types of things.
15 But I think -- but in addition to that it was really kind of
16 having that input that, you know, these are some of the
17 challenges that we face in just operating the business and
18 considering those as we went forward under that section and,
19 you know, the reasonable -- you know, making the regulations
20 reasonable and necessary and convenient to carry out the
21 provisions of the chapter.

22 Q And you said you spoke -- or you thought you had
23 discussions with some of the drafters. Who would those be --
24 those people be?

25 A Well, or some of the people that were involved in

1 the initiative. I don't know everybody's involvement. Matt
2 Griffin, Joe Bresnie [phonetic], Will Adler, they were all
3 really involved in Question 2 from -- in some sort.

4 Q Did you ever speak to Heather Azzi at the Cannabis
5 Trade Federation?

6 A I don't think so.

7 Q Does that name ring a bell to you?

8 A No. But she might have been associated with one of
9 the other people, and maybe there was a conversation that
10 occurred in a group or -- but I don't -- I don't recall her.

11 Q She stated that the intent behind the "necessary or
12 convenient" language was to give the regulatory authority to
13 regulate the cannabis industry. Is that consistent with what
14 the Department looked at?

15 A Yes.

16 Q Okay. Do you believe the Department had some
17 deference when interpreting NRS 453D.200 in adopting
18 regulations?

19 A Yes.

20 Q Can you explain that for us.

21 A Well, generally, you know, a chapter has a lot of
22 provisions in it, and the agency goes about trying to
23 interpret and apply those provisions. With respect to the
24 initiative it was somewhat of a shell and gave kind of the
25 Department the broad authority to do maybe some work that

1 would have been done legislatively if it had been legislation.
2 And so to really hone in and fine tune the points of the
3 regulatory responsibilities, especially the categories of
4 regulatory responsibility, and then also look more broadly at
5 how -- you know, what would be necessary and/or convenient to
6 carry out the initiative.

7 Q Great. And if you could turn back to 453D.200. In
8 adopting the regulations the statute gave a list of criteria
9 that the regulations shall include. Do you see that --

10 A Yes.

11 Q -- under (a) through (m)?

12 A Yes.

13 Q And under (b) it discusses qualifications for
14 licensure. Do you see that?

15 A Yes.

16 Q And it says, "qualifications for licensure that are
17 directly and demonstratively related to the operation of a
18 marijuana establishment."

19 A Right.

20 Q How did the Department interpret that particular
21 provision of the statute in adopting the regulations?

22 A Well, I think the term related to -- so just looking
23 at -- it's kind of a more general provision and then just
24 narrowing it down within the regulations and what's related to
25 operation in a marijuana establishment similar to how you'd

1 look at other businesses and then what other specific
2 provisions maybe that are directly related to and that are
3 directly -- there is some broadness in it, I guess. And so I
4 think in the categories under the regs there's categories for
5 involvement in, you know, operating a marijuana business, and
6 then there's more general categories for other -- you know,
7 for other things to consider more generally in operating
8 businesses.

9 Q Okay. And did you receive input from operators of
10 marijuana establishments as you adopted the regulations to
11 interpret that provision?

12 A Yes.

13 Q Okay. Do you recall how diversity as a merit for
14 scoring was included in the regulations?

15 A So I think, you know -- frankly, I think the -- you
16 know, there's an ongoing discussion throughout the country,
17 really, on the effects of marijuana legalization and the
18 effects of the war on drugs in communities of color or
19 underserved or underrepresented communities, and they've
20 somehow bore the brunt of that. So the discussion in -- you
21 know, there was legislative discussion during that same time
22 in 2017 and I think AB422, which was a broad marijuana bill
23 where they talked about that.

24 And then just considering that, you know, the
25 importance of, you know, different types of diversity and

1 different -- different ways of thinking, different
2 perspectives, where you're coming from. If you have a diverse
3 group of people in your organization, you might be more
4 willing to operate in a community that is -- you know, has
5 been underserved or has been disserved by the war on drugs or,
6 you know, you have a more friendly face to some communities
7 like that. And I think there was just -- you know, that was
8 how it was related to the marijuana industry.

9 Q Did the Department receive input from the marijuana
10 industry on diversity either through the Task Force or through
11 AB422?

12 A Well, I -- you know, I think it would have been
13 discussed through the regulatory process. I mean, it could
14 have been -- I believe it was probably discussed in almost
15 every forum, so that through the Task Force, through the
16 legislature, through the workshops and the adoption hearings
17 for the regulations. So I think it was an ongoing discussion
18 that was happening at the time.

19 Q Did you have input or recall testifying at the --
20 either the Assembly or Senate when AB422 was being proposed?

21 A I don't think I testified.

22 Q Okay.

23 A I'm not 100 percent sure, but I don't think I did.
24 I think I would have only come to the table if I was called by
25 the Committee. I didn't --

1 Q Got it. And AB422, correct me if I'm wrong, was to
2 amend NRS 453A; is that correct?

3 A Yes, that's correct.

4 Q And added diversity to 453A?

5 A So -- yes. And they did amend some provisions in
6 453D that made them effective on January 1st of 2020.

7 Q And can you explain that. Where in 453D did they --

8 A I'm sorry. So in AB422 they made those changes. I
9 think -- I'm not 100 percent sure of all of them. I want to
10 say some related to advertising and maybe some other
11 provisions. But because they weren't going to be effective
12 with respect to -- so they weren't going to be relevant to
13 what we were doing necessarily, although, again, you know, I
14 would try not to make regulations that, you know, would have
15 to be changed once -- you know, there was a desire to have
16 some consistency in the regulations at that point, because if
17 we made -- if the State made a regulation and the legislature
18 had already made a decision on something that would be
19 effective later, you know, then you'd have to go through the
20 whole regulatory process. So to the extent that those
21 provisions complied with the initiative and were reasonable to
22 implement the chapter and the vote of the people, you know, we
23 consider that as important.

24 Q So to be clear, diversity wasn't added to 453D;
25 correct?

1 A No.

2 Q Okay. It was added to the regulations under NAC
3 453; is that correct?

4 A Yes.

5 Q The consideration of diversity?

6 A Yes. So the bill I believe added that diversity
7 provision only with respect to 453A. I could be wrong on
8 that. They could have made it effective to 453D on January
9 1st, 2020. I'm not 100 percent sure. But with respect to
10 that requirement for licensing it was added through the
11 regulatory process into NAC 453D.

12 Q And in putting diversity in NAC 453D did the
13 Department look at the "directly and demonstratively related"
14 language as for qualifications to include diversity?

15 A Yeah. I mean, it would have to be -- yes, it would
16 have to be within that -- within that criteria to advance and
17 go through the process and be approved.

18 Q And is that the reason why -- or is that the basis
19 or one of the bases the Department felt it can add diversity
20 as a qualification for licensure or a scoring criteria under
21 the regs?

22 A I mean, I think the initial analysis was that this
23 would -- our own internal analysis would be that this -- you
24 know, these regulations, the drafts that we're putting forward
25 comply with the statute. And then it goes through that legal

1 process and review, and, again, that's the kind of the second
2 check.

3 Q Okay. And on 453D.200 it says, "The regulations
4 shall include" when it's discussing adoption of the regs. Did
5 you believe that language was limited to only (a) through (m)
6 as what's in there, or did you believe that language gave the
7 Department the ability to say, this isn't an exhaustive list,
8 this is a list that the Department can, if it falls under this
9 qualification for directly and demonstratively related, we can
10 add this in the regulations?

11 A Yes. So the interpretation is that these are the
12 categories for which the State must -- the Department must
13 make regulations, and then they can make all other regulations
14 within the provisions as long as they comply with the
15 provisions of the -- as long as they're reasonable and not
16 unduly burdensome and not -- I wouldn't say that the State is
17 limited to this.

18 I'll make one kind of caveat on this, is that there
19 was discussion -- so Colorado, when they initiated they had a
20 more expansive -- kind of a more expansive public health
21 provisions, and so the Department did not make public-health-
22 related regulations. And it's not because, you know, they
23 weren't necessarily important or that they -- it's just it was
24 out of the expertise of that department and it wasn't
25 specifically called for. So I guess if there was a case where

1 we could have made regulations on something and other states
2 maybe did, and I thought that it would -- you know, it would
3 be to the legislature to kind of flesh that out. And so I
4 didn't want to -- I was trying not to over -- I was trying to
5 be -- you know, have a reasonable interpretation of these
6 provisions and then whatever was reasonable and necessary
7 outside of that without going too broadly outside of kind of
8 the authority that we had.

9 Q And in doing that you took the recommendations of
10 the people in the industry, correct, on how they handled their
11 day-to-day operations and what was important to them; is that
12 correct?

13 A Yes.

14 Q And you also took -- go ahead.

15 A And also, I mean, you know, again, the Task Force
16 was made up of public health professionals, public safety
17 professionals, industry, local governments, the Department of
18 Public and Behavioral Health. So just taking -- and many of
19 those people testified in the regulatory process, too. So
20 just having that broad -- you know, everybody having a seat at
21 the table.

22 Q Okay. I want to turn to background checks, which is
23 on 453D.200(6) if you turn down there. Do you have that in
24 front of you, Ms. Contine?

25 A Yes.

1 Q Okay. It says, "The Department shall conduct a
2 background check of each prospective owner, officer, and board
3 member of a marijuana establishment license applicant." How
4 did the Department interpret that provision when adopting the
5 regulations?

6 A So, again, that was slightly limited by the
7 5 percent rule, and so -- I mean, do you -- like the process
8 or how -- you want me to explain?

9 Q Yeah. And actually you mentioned the 5 percent
10 rule. Let's look at that. Let's look at NAC 453D.255. You
11 wouldn't have that in front of you, but we'll put it up on the
12 screen. You mentioned the 5 percent rule. Do you see it on
13 the screen, Ms. Contine?

14 A Yes.

15 Q Is this the 5 percent rule you were talking about
16 under 453D.255?

17 A Yes.

18 Q Okay. And in looking at this particular provision
19 of the regulation it says, "Except as otherwise required in
20 subsection (2), the requirements of this chapter concerning
21 owners of marijuana establishments only apply to a person with
22 an aggregate ownership of 5 percent or more in a marijuana
23 establishment." Do you see that?

24 A Yes.

25 Q And if you go to section (2), it says, "If in the

1 judgment of the Department the public interest will be served
2 by requiring any owner with an ownership interest of less than
3 5 percent in a marijuana establishment to comply with any
4 provisions of this chapter concerning owners of marijuana
5 establishments, the Department will notify that owner and he
6 or she must comply with these provisions." Do you see that?

7 A Yes.

8 Q Does subsection (2) of this give the Department some
9 discretion when it comes to potentially checking, if it needs
10 to, the background checks of owners under 5 percent interest?

11 A Yes.

12 Q And do you recall discussions regarding that
13 particular provision of the regulation?

14 A Well, yeah. I mean it -- yes, I mean, again, the
15 whole -- the whole idea behind the process was to balance the
16 public safety, you know, related to public health and safety
17 and then the interest of the industry. So that was a way that
18 we could craft -- you know, we could interpret that -- that
19 provision to allow -- you know, to not be as burdensome on the
20 industry, but also still take into account that there may be a
21 time when the department may see something and think ooh, you
22 know, I'm not sure about this, there might be something fishy
23 going on or -- you know, I mean, the whole goal is to keep a
24 regulated, robust market and to not have potential for a black
25 market. It's to bring this -- you know, an unregulated, you

1 know, illegal market into a legal market. And so that was the
2 intent of that.

3 Q Do you believe that the regulation under NAC
4 453D.255 is consistent with the ballot initiative in NRS
5 453D.200 on background checks?

6 A Yes.

7 THE COURT: So can you explain why.

8 BY MR. GUTIERREZ:

9 Q Can you explain why.

10 A Yeah, sure. I think it interprets the provisions.
11 Again, I think the process that the regulations went through,
12 the overall discussion, the input into it, the requirement to
13 make regulations that aren't unduly burdensome and going
14 through that whole process is -- you know, the State has the
15 ability to interpret the provisions when it makes -- to
16 reasonably interpret the provisions to make regulations, and
17 that's what --

18 THE COURT: So you think changing the interpretation
19 of the word "each" to "each who owns 5 percent or more" is
20 reasonable?

21 THE WITNESS: I think -- yes. I think it's the
22 ability to alleviate a burden as the statute -- or as the
23 initiative requires, but also make sure that the interests of
24 the State are protected, as well, with respect to the public
25 safety part.

1 THE COURT: But this wasn't a regulation that was
2 being imposed by the Department, it's part of the ballot
3 question. That's why I'm trying to ask why you thought you
4 had authority to make that change.

5 THE WITNESS: I think we that had -- for a couple of
6 reasons. I think we have authority because the agencies
7 generally have authority and deference in interpreting the
8 provisions that they are responsible for regulating or
9 enacting, and that that was an interpretation of that
10 provision.

11 THE COURT: So you think "each," which was approved
12 by the voters in Ballot Question 2, could be interpreted by
13 the Department to be "each with 5 percent or more"?

14 THE WITNESS: Right. And that --

15 THE COURT: Okay. Thanks.

16 THE WITNESS: That's because of the other language
17 within the statute -- or the initiative that required the
18 Department to not have unduly burdensome processes and to
19 effectively not make regulations that prohibited businesses
20 from operating.

21 THE COURT: Okay. Thanks.

22 BY MR. GUTIERREZ:

23 Q And was the Department getting feedback from the
24 members of the industry that background checks for owners with
25 less than 5 percent interest would have been unduly

1 burdensome?

2 A Yes.

3 Q Okay. Can you explain that.

4 A Yeah. I mean, it was a major issue in terms of
5 discussion. I think it was a discussion at the Task Force, it
6 was discussion through the regulatory process. Again, as I
7 mentioned when I first -- when you first started asking about
8 this, this was, you know, the examples of having, you know, a
9 half a percent owner that lived in Ohio that had nothing to do
10 with the operation of the business, that didn't live in
11 Nevada, the burdens that industry was having in complying with
12 those provisions, and how long everything was taking because
13 of that.

14 Q And with that, Ms. Contine, can we go back to the
15 Governor's Task Force report -- final report --

16 MR. GUTIERREZ: Which is 2009, Brian, and go to
17 page 114.

18 BY MR. GUTIERREZ:

19 Q Do you have that in front of you, Ms. Contine? The
20 title would be "Ownership Issues, Licensing Requirements."
21 Ms. Contine, is that the page you have in front of you?

22 A Yes.

23 Q Okay. And we talked about this 5 percent and where
24 it came from. And we have here the Task Force recommending
25 this 5 percent standard. Do you see that?

1 A Yes.

2 Q Okay. And who's on the -- who are the sponsors of
3 that?

4 A So this is the taxation revenue regulatory structure
5 working group. The individuals are John Ritter and David
6 Goldwater. And the recommendation is that they require only
7 owners with 5 percent or more cumulative ownership to be
8 fingerprinted, to be required to undergo a background check,
9 and resubmit any application for license renewal.

10 Q And that's the recommendation from John Ritter and
11 David Goldwater on behalf of the Governor's Task Force; is
12 that correct?

13 A So they would have been on that working group. So
14 some of the Task Force members were also on individual working
15 groups. So in that working group there would have been many
16 other people on that working group, and I think that when --
17 as issues were discussed various people within the working
18 group were responsible for working on an individual or a
19 singular recommendation, and that would have been -- in this
20 case it would have been John Ritter and David Goldwater who
21 were tasked from their working group members.

22 Q Okay. And go to the next page. Under section (4)
23 it talks about what guiding principles that those
24 recommendations support. Do you see that?

25 A Right.

1 Q And it says "to be responsive to the needs and
2 issues of consumers, non-consumers, local governments, and the
3 industry."

4 A Right.

5 Q And the Guiding Principle 4, "Propose efficient and
6 effective regulation that is clear and reasonable and not
7 unduly burdensome." Is that correct?

8 A Right.

9 Q And that's what you've been talking about, not being
10 unduly burdensome with this 5 percent requirement?

11 A Right.

12 Q Okay. And John Ritter, he's a plaintiff in this
13 particular case. We had the opportunity to hear from him
14 early on. Would it surprise you if he testified that his
15 definition of "owner" was that it meant that, "Every owner
16 flows to the initiative, the statute, the regulation and the
17 application, and it's my understanding that the intent was
18 that every single owner in every single company, every single
19 applicant was to be background checked." Is that consistent
20 with what he just -- he recommended as part of his work on the
21 Task Force?

22 A I mean, the recommendation is what it is. I mean,
23 it's clear to me. I mean, based on my experience and all the
24 discussions that occurred I think it was clear that people
25 were in agreement that the 5 percent would help lessen the

1 burden.

2 Q And Mr. Ritter went on and said, "Every single owner
3 in our company, whether they had a minute percentage of
4 ownership, was background checked." But yet he's here in the
5 Governor's Task Force saying -- recommending 5 percent or more
6 as part of the regulations that are going to be adopted; is
7 that correct?

8 A Yes.

9 Q Okay. Now, part of the Task Force's job, as we
10 discussed, was to go through and look and to see what
11 provisions of Ballot Question 2 were implicated; is that
12 correct?

13 A Right.

14 Q And that's done on number (5), is that what your
15 understanding is?

16 A Right. Yes.

17 Q It talks under (5) -- section (5), paragraph (1) of
18 IP1 states that, "The regulations must not prohibit the
19 operation of a marijuana establishment either expressly or
20 through regulations that make their operation unreasonably
21 impracticable." And that's what we've been talking about; is
22 that correct?

23 A Yes.

24 Q Is it fair to say that the Governor's Task Force
25 took Ballot Question 2 into consideration when they

1 recommended this 5 percent threshold within the adoption of
2 the regulations?

3 A Yes.

4 Q Was there any dissent on the group under number (7)?

5 A No.

6 Q Number (6) discusses "What issues does the
7 recommendation resolve?" Do you see that?

8 A Yes.

9 Q The State said, "To allow companies that own
10 marijuana establishment licenses in which there are multiple
11 owners that own less than 5 percent and in some cases far less
12 to be able to operate practically and efficiently." Is that
13 consistent with the Ballot Question 2 and the Statute NRS
14 453D?

15 A Yes. I mean, if you consider, you know, it's kind
16 of the opposite of unduly burdensome or not reasonable.

17 Q It goes on to say, "To allow companies that own
18 marijuana establishment license to function based on their
19 governing documents as companies are allowed to with other
20 industries." That was a consideration, correct, as well?

21 A Yes.

22 Q And it didn't want to have a standard that would
23 have put unduly burdensome pressure on a marijuana
24 establishment; is that correct?

25 A Yes.

1 Q Okay. So as we sit here do you believe that the
2 regulations on the 5 percent threshold complied with Ballot
3 Question 2 and the Statute --

4 A I do.

5 Q -- 453D?

6 A Yes, I do.

7 Q Okay. One of the other provisions we've been
8 talking about -- if you can turn on this report to page 109,
9 the same exhibit. Ms. Contine, you testified earlier that you
10 left the Department in January of 2018; is that correct?

11 A Yes.

12 Q And you went into private practice for about a year;
13 is that correct?

14 A A little bit less than that, yes.

15 Q Okay. And did you have any involvement in the
16 creation of the application for the 2018 recreational
17 application process?

18 A No.

19 Q Okay. So any questions about the application itself
20 would be outside of your scope and knowledge. Is that fair to
21 say?

22 A Yes.

23 Q You don't have personal knowledge, because you
24 didn't create that application. Is that fair to say?

25 A No, I did not. In fact, when I left the regulations

1 hadn't been fully adopted.

2 Q And if you could explain that more for us.

3 Q So they hadn't been -- so earlier when I explained

4 the process the regulations hadn't gone to the Legislative

5 Commission.

6 Q They had been drafted. They hadn't gone through the

7 Legislative Commission for feedback?

8 A Well, they hadn't gone -- the Legislative Commission

9 is the last --

10 Q I'm sorry. They'd already gone through Legislative

11 Council Bureau --

12 A Right.

13 Q -- and they just haven't gone to the Legislative

14 Commission?

15 A They hadn't gone to the Legislative Commission. So

16 they weren't fully adopted.

17 Q Do you know when they were fully adopted?

18 A February, I think, sometime.

19 Q February. Okay. And it was after you were gone --

20 A Right.

21 Q -- is that correct? Okay.

22 A Or -- yeah.

23 THE COURT: February 27th, 2018.

24 MR. GUTIERREZ: February 27th?

25 //

1 BY MR. GUTIERREZ:

2 Q So any questions that I may have or anyone may have
3 about the application itself and the scoring criteria, is that
4 something that you have no knowledge on?

5 A I have no knowledge of it.

6 Q Okay. Any questions about how certain companies
7 were graded or the use of Manpower, for example, is that
8 something you would have knowledge on?

9 A No.

10 Q Okay. So we'll limit your questions on this to the
11 Task Force and with the regulations; is that fair?

12 A I guess I should say that there were some -- you
13 know, as you plan for something there were some discussions
14 about, you know, that some need to staff up and to, you know,
15 be able to complete the process. So I wouldn't say that I --
16 but I wasn't involved in that decision making ultimately.

17 Q Were you involved with any of the decisions to, when
18 you talked about staffing, to outsource and hire Manpower or
19 independent contractors to grade the applications?

20 A Well, I want to -- I'm not going to say I wasn't
21 involved in any conversations, but it wasn't under my purview
22 by the time that happened. I wasn't responsible for that.

23 Q You didn't make the decisions; is that fair to say?

24 A Exactly.

25 Q Okay. And you also didn't make decisions that were

1 part of the interview process for --

2 A No.

3 Q -- graders? Okay. And you don't have knowledge as

4 to whether they were qualified or any questions as to that?

5 A I don't have any internal knowledge, no.

6 Q Do you even know who some of the graders were?

7 A No.

8 Q Okay.

9 A I don't know who anybody is.

10 Q So let's go back. We're on page 109 on the

11 application and licensing requirement. And could you just

12 tell us what this particular recommendation is for.

13 A On page 109? I'm sorry. That same --

14 Q It's 109. It should say "Application and Licensing

15 Requirements" up top. Do you see that?

16 A Right.

17 Q And I believe they were talking about at least

18 Bullet Point Number 2 where the Department will not require

19 zoning approval --

20 A Right.

21 Q -- to be submitted in the marijuana establishment

22 application. Do you see that?

23 A Yes.

24 Q Do you recall some of the discussions regarding

25 zoning approval and requiring that as part of the application

1 process?

2 A So in the initiative the zoning and land use
3 determinations were reserved for the local government.

4 Q And can you explain why.

5 A I think because the State isn't in the community and
6 the State isn't responsible for, you know, issuing special use
7 permits or the like, and so it was determined that the State
8 wouldn't review the land use.

9 Q That bullet point number -- I'm sorry. Go ahead.

10 A Well, at the time of the initial application.

11 Q It would still be required as part of the final
12 approval; is that fair to say?

13 A Yes.

14 Q Okay. And what was the reason why it wouldn't be
15 required as part of the initial application?

16 A I think this is another lesson learned from medical
17 and also just a slightly different wording in the initiative
18 than the wording in the medical statute was intended to take
19 into consideration, that you would get your marijuana license
20 -- your State marijuana license, and then you would make the
21 investment in the local government process, which also can be
22 expensive and a long process. So -- and, you know, it's
23 difficult -- well, the local governments, you know, could make
24 some determinations on location and the like, but not really
25 knowing if somebody had a -- would ultimately have a license

1 for operation.

2 Q And, again, this was an adopted regulation. This
3 was something that the Department looked for input from the
4 industry on what's the most practical and efficient and not
5 unduly burdensome way to adopt; is that fair to say?

6 A Correct.

7 Q And you had people at least that are listed here
8 that are part of the industry. We have John Ritter, again; is
9 that correct?

10 A Yes.

11 Q Okay. Amanda Connor?

12 A Right.

13 Q Steve Gilbert was part of this process, at least
14 this Task Force; is that correct?

15 A Yes.

16 Q Okay. And if you go back down to Bullet Point 2, it
17 says, "No extra point of merit will be awarded for it being
18 included," regarding zoning approval?

19 A Right.

20 Q So was it clear in adopting the regulations that
21 that was the intent, that we want to make sure that any zoning
22 gets left to the local governments and that it's not done
23 until the final application -- or the final approval is done?

24 A Yes, that's correct. And this was another -- there
25 was some internal discussions between the State -- between the

1 executive --

2 THE COURT: Hold on a second. We need a five-minute

3 break.

4 I need a five-minute break? Why do I need a five-

5 minute break?

6 Oh. I'm sorry. I have to talk to some lawyers

7 who've been bad. Please feel free to get up and move around.

8 MR. SHEVORSKI: You don't mean us, though; right?

9 THE COURT: No. You guys have all been good today.

10 (Court recessed at 2:58 p.m., until 3:06 p.m.)

11 THE COURT: Okay. We ready?

12 MR. GUTIERREZ: Ready. Thank you, Your Honor.

13 THE COURT: I'm going to stand up because my back's

14 hurting. So you keep going.

15 BY MR. GUTIERREZ:

16 Q Ms. Contine, before we continue with the Governor's

17 Task Force report, you were talking earlier about the

18 different steps and adopting regulations. Do you recall that?

19 A Yes.

20 Q And the regulations are always sent to LCB for

21 review. Do you recall --

22 A Permanent regulations, yes.

23 Q Permanent regulations. Now, these regulations under

24 453D were sent to LCB for review?

25 A Yes.

1 Q And that reviews for constitutionality to make sure
2 it complied with the Nevada Constitution?

3 A Yeah. It's for intent and to make sure it's within
4 the scope of the chapter essentially.

5 Q So the provision that we've been talking about with
6 background checks and the 5 percent threshold and the proposed
7 location was all sent to LCB for review; is that correct?

8 A Yes.

9 Q And LCB did not find any type of constitutional
10 violation with that; is that correct?

11 A Right.

12 Q Do you recall any back and forth with LCB on the
13 issue, on these particular points that we've been talking
14 about?

15 A So one thing I would mention, I think I mentioned
16 earlier that the -- in the temporary regulations the
17 regulation, which doesn't require Legislative Council review
18 or the Legislative Commission review but gives the legislature
19 the option to pull the regulations in within that 45-day
20 period, there was some conversation with Legislative Council
21 regarding the wording of one of the provisions, and it was
22 specifically related to the issue of zoning and land use and
23 whether the Department would require that that happen first
24 before the issue -- the license was conditionally issued. And
25 it was their -- the way they read the reg it didn't seem to

1 comport with the initiative. And so when I explained that
2 that wasn't our intent and that, you know, the language was
3 maybe just off a little bit they were fine with it. We
4 recognize that you don't have to have a local government
5 approval. Our interpretation of the initiative was you don't
6 have to have local government approval prior to getting your
7 marijuana establishment license. And so as long as they -- as
8 long as -- they wanted to confirm that that was the intent and
9 that we understood that so that they could give their elected
10 bosses some comfort that we were complying with the initiative
11 and that that regulation wouldn't be pulled into that 45-day
12 period.

13 Q Thank you. So that back and forth happened in order
14 to get clarification --

15 A During the temporary regulation period, yes.

16 Q During the temporary regulation. Okay. Do you
17 recall who that was with?

18 A Brenda Erdos and Brian Fernly, I think.

19 Q Okay. Now we're back on the Governor's Task Force.
20 You have that in front of you, Ms. Contine?

21 A Yes.

22 Q I think we're at page 109. Now, this is talking
23 about application licensing requirements and the application
24 process, correct, with zoning?

25 A Yes.

1 Q Okay.

2 A So that was what I was going to explain about this
3 section.

4 Q Oh. Great. Okay. So that's what you were going to
5 cover on that issue. And the guiding principles list for the
6 Task Force, again, health, safety, well being of the Nevada
7 communities, do you see that?

8 A Yes.

9 Q To be responsive of needs and issues of the
10 consumers, non-consumers, and local governments industry.
11 That was considered; correct?

12 A Yes.

13 Q And regarding Principle 3 it says, "This
14 recommendation will improve upon the medical marijuana
15 application process that was already successfully used."

16 A Correct.

17 Q "These minor improvements will make it clear to the
18 applicant, the Department, and remove ambiguity." Can you
19 explain that.

20 A That goes back to what I was just talking about. So
21 there was -- I think there was some -- and I don't know,
22 because I wasn't really involved in the medical, but I know
23 there was some issue with the timing and whether -- whether
24 the local government or the State had final sign off and those
25 types of issues. So I think that was to clarify that. And so

1 -- and to also, you know, relieve any burden of investment in
2 a local -- in a local establishment at the local level if the
3 applicant was not going to receive a State license. So it's
4 to clarify that you couldn't actually operate without the
5 State license, and so once you had that condition that you've
6 passed the general requirements, then you'd work on your local
7 government stuff.

8 Q And the Department relayed that to LCB and had the
9 discussion for the permanent regs, or just for the temporary
10 regs?

11 A No. Just for the temporary regs, because there is
12 no legislative review. And so that was the issue, was that
13 there wasn't a requirement for legislative review, but in
14 order to advise their own elected bosses they wanted to make
15 sure that we were all on the same page so that they could say,
16 hey, these don't need to be pulled in.

17 Q That makes sense. And then by the time you were
18 brought the permanent regulations, 453D, those regulations
19 still got run through LCB on these issues to ensure
20 constitutionality; is that correct?

21 A Yes.

22 Q Can you turn to 112, page 112 on the same document,
23 which is rating criteria on applications. Now, this document
24 discusses the rating criteria for the applications for the
25 2018 process and the recommendations from the Task Force. Do

1 you see that?

2 A Yes.

3 Q Now, John Ritter, Amanda Connor again on discussing
4 this. Do you see that?

5 A Yes.

6 Q Okay. So although you weren't involved with the
7 application process, when it came to the adoption of the
8 regulations for the application process do you recall having
9 discussions with the Task Force or with people within the
10 Department about this criteria?

11 A Yes. Lots of discussion about the process and how
12 -- the requirements. I mean, I think, you know, initially it
13 was the preference of the Department to flip a coin, but that
14 was outside of the authority in the initiative, so, you know,
15 just recognizing that there had to be, you know, criteria that
16 were put into the regulation, that that could be -- that could
17 distinguish people, because there was only a limited number of
18 licenses.

19 Q And with the limited license and trying to
20 distinguish between winners and losers on this process you
21 have to go through and the statute required the qualifications
22 for licensure that are directly and demonstrably related to
23 the operation of a marijuana establishment; is that correct?

24 A Right. Yes.

25 Q Now, when determining those qualifications that were

1 directly and demonstrably related to the operation of a
2 marijuana establishment did the Department rely also on the
3 Task Force and on working groups and public input?

4 A Yes.

5 Q Okay. And it took those considerations in when
6 developing the regulations or 453D; is that correct?

7 A Yes.

8 Q And if you go to the next page, 113 --

9 A Okay.

10 Q -- the guiding principles, again the Department --
11 the Task Force, I'm sorry, was providing guiding principles to
12 promote these qualifications. Do you see that?

13 A Yes.

14 Q Again, number (4), propose efficient and effective
15 regulation that is clear and reasonable, not unduly
16 burdensome, is that your understanding as to these
17 qualifications being complaint with the statute?

18 A Yes.

19 Q Section (5) talks about what provision of Question 2
20 does this apply to.

21 A Right.

22 Q And it discusses the provision of NRS 453D.200 that
23 we've been talking about; is that correct?

24 A Yes.

25 Q Okay. And after this -- there's no dissent;

1 correct?

2 A Right.

3 Q After this is done and the regulations are drafted
4 it's sent again to LCB for their review to ensure compliance;
5 is that correct?

6 A Right. So the Task Force made recommendations, and
7 then the Task Force recommendations along with additional
8 analysis and research and going through the entire regulatory
9 process would ultimately lead to what would be the regulations
10 that were approved by the Leg Commission.

11 Q Talk to me a little about the Governor's Task Force
12 reports dated May 30th, 2017.

13 A Yes.

14 Q After you received those recommendations back from
15 Task Force can you walk us through how the regulations are
16 then -- the permanent regulations are then adopted.

17 A Sure. So I think once we got the recommendations we
18 again used QuantumMark, as they had facilitated the Task Force
19 and the medical Task Force -- or the medical process, and they
20 basically put all the categories together and did some
21 benchmarking from other states. So just look at -- because by
22 then, you know, there'd been a few other states that were
23 coming online and with legalization. So looking at some other
24 states and what other states were doing. And then, you know,
25 there would be a decision -- you know, then there would be

1 communications, meetings between them on the different
2 sections of the regulations and asked myself and staff
3 internally to kind of -- you know, when there were decisions
4 points that had to be made. So, you know, hey, you know,
5 Washington does it this way and Colorado does it this way,
6 we've done it this way here before, and kind of just the
7 discussions would revolve around, you know, what was the best
8 language to come up with for the draft of the regulations.
9 And that's how -- so that's internally how we did it, and then
10 I'm pretty sure -- well, I can't remember. So under the
11 permanent regulation process you can, of course, go and have a
12 workshop without any language. And I -- but I don't think we
13 did that in this case. I can remember, though. We might have
14 just had a general workshop to get input or maybe we had
15 really rough language, but I can't remember.

16 But then we did have the general -- once we sent the
17 language off to LCB and it was put in the format that, you
18 know, that goes how they format it and do all the things that
19 they do in the review, then it comes because and then we would
20 have a workshop. So in this case we had a series of
21 workshops, so I think we had like a week's worth of workshops
22 on various categories of regulation in July of 2017, and after
23 that we took into consideration, you know, the various
24 comments, additional issues. I think -- I don't -- I think
25 there were -- there were some categories of regulation or some

1 decisions that were to be made that weren't completely fleshed
2 out, so we might have done some work on those. And then we
3 sent them to LCB. And then LCB reviewed and sent them back.
4 And then we noticed the adoption hearing.

5 Q Now could we turn to Exhibit 5045, which has already
6 been admitted.

7 Actually, I think I gave you two copies.

8 Ms. Contine, these are what is Commission minutes
9 dated February 27, 2018. Have you ever seen these minutes?

10 A I have.

11 Q Okay. Now, you've already -- you'd already left the
12 Department and went in private practice when these minutes
13 were submitted.

14 A I had left the Department, yes.

15 Q Okay. But if you could turn -- this is -- turn to
16 page 3. Will Adler, do you know who that is?

17 A Yes.

18 Q Okay. He made some comments. He said that the
19 regulation was reviewed at length in multiple hearings. He
20 concluded -- I'm going to the very end -- he concluded the
21 Department of Taxation has done a great job and he fully
22 supports R02-17 as written. Do you see that?

23 A Yes.

24 Q Was it your understanding as those regulations were
25 in the process of being adopted that you were getting full

1 support from the marijuana industry?

2 A I don't know about full support, but I think there
3 was a lot of work that had gone on during the regulatory
4 process to build a consensus to, you know -- again, I think
5 everybody was on board with balancing, you know, the public
6 health and safety concerns of the State with the
7 reasonableness to be able to operate. And I think in general
8 the industry wanted the same thing, a tightly controlled,
9 tightly regulated market with strict control because they
10 don't -- they didn't want a black market, as well. So I think
11 it was -- I think it was a -- you know, a group -- a group
12 effort. I don't think that everybody was supportive of it,
13 because I know that some of the people on there didn't offer
14 support in their comments. But I think there was a really
15 strong consensus that all the work that had been done led to a
16 workable and reasonable and legal set of rules.

17 Q And would you agree that everybody had an
18 opportunity to be heard throughout the regulation adoption
19 process with the workshops and public --

20 A I would say the there were -- yes, there were plenty
21 of public avenues to discuss your concerns and have your voice
22 heard, yes.

23 Q If you could turn to page 6. Do you know who
24 Nicholas Spirtos is?

25 A No, not really. I've never met him.

1 Q Okay.

2 A I mean, I just know the name.

3 Q Well, I'll represent that he's one of the plaintiffs

4 suing the State of Nevada in these cases. But he said there

5 are no perfect regulations under number (1). Do you see that?

6 A Yes.

7 Q Do you agree with him?

8 A Yes.

9 Q Okay.

10 A Yes. As much as I'd like to be perfect.

11 Q Number (2) he says, "Not everyone got what they

12 wanted during discussions on R092-17, but everybody was

13 heard." And that's what you said; is that correct?

14 A Yes.

15 Q He then says, "There should be flexibility in the

16 legislature and the Department of Taxation." Do you agree

17 with that?

18 A Yes.

19 Q And on number (5) he says, "If R092-17 is not

20 adopted, the dispensary industry would be operating without

21 guidance." What does that mean? Do you know what he was

22 talking about?

23 A Yes. Because the -- like I said, there's a time

24 frame for the temporary regulations, and also without the

25 permanent regulations you couldn't go forward and do -- and do

1 another application period under the permanent regs. So
2 without some -- without rules in place you're not able to
3 operate the industry, essentially.

4 Q And the Department had the time to adopt these
5 regulations? Did it have enough time to go through thoroughly
6 and vet these regulations?

7 A Yes.

8 Q Okay.

9 A I mean, I don't know about time. I don't know if
10 there was enough time. It's difficult to get the work done in
11 the time period, but because we started with kind of multiple
12 processes and had discussion and basically started talking
13 about it at the beginning of the year, I think the process
14 played out as well as could be expected. It's very, very
15 difficult to get regulations, permanent regulations adopted
16 within a year. The process is a little cumbersome. And with
17 respect -- I think I mentioned that I implemented the commerce
18 tax right before that, and the commerce tax became effective
19 on July 1st, 2015, and the regulations became effective about
20 a little bit more than a year later, but before the first
21 return was due. So that was the -- that was the level of
22 success we were shooting for. So it's just a -- it's a
23 cumbersome process with a lot of, you know, discussion and
24 meetings and things that have to occur [inaudible].

25 Q And in this process, though, you said the Governor's

1 Task Force was -- do you consider that very helpful in moving
2 this process along for the Department?

3 A Yes.

4 Q And having Legislative Council Bureau to make sure
5 that these regulations complied with the ballot initiative and
6 all the legal requirements, that's also very helpful for the
7 Department; correct?

8 A Yes.

9 Q This isn't a decision you were making on your own
10 whether it complied legally; is that correct?

11 A Correct.

12 Q That you had inputted a lot of people; fair to say?

13 A Yeah.

14 Q Okay. I want to -- if you can -- if we could pull
15 up NAC 453D.295. I want to ask you about this, Ms. Contine.
16 Do you see it on your screen, discussing "Surrender of a
17 license of a marijuana establishment who's not received final
18 inspection"?

19 A Yes.

20 Q Are you familiar with this provision in the
21 regulations?

22 A Yes.

23 Q And it states that, "If a marijuana establishment
24 has not received a final inspection in 12 months after the
25 date the Department issued a license to the marijuana

1 establishment, the marijuana establishment must surrender the
2 license to the Department."

3 A Right.

4 Q Then it says, "The Department may extend the periods
5 specified in this subsection if the Department in its
6 discretion determines the extenuating circumstances --" I'm
7 sorry "-- that extenuating circumstances prevented the
8 marijuana establishment from receiving a final inspection
9 within the period specified in this subsection." See that?

10 A Yes.

11 Q And then the next section talks about the -- that
12 the fee paid would be nonrefundable. You see that?

13 A Yes.

14 Q So what would constitute extenuating circumstances,
15 in your opinion?

16 A So it's fairly vague in this provision, but the
17 Department of Taxation has other provisions that deal with
18 extenuating circumstances, especially with respect to tax
19 liability. And so we would look -- probably in interpreting
20 that we'd look to those like provisions, which are act of God,
21 nature, things that are really beyond the person's control of
22 getting their business up and running. So -- and this was --
23 this provision was -- and do you want me to explain the
24 background of kind of how this --

25 Q Please.

1 A So under the medical program the Department of
2 Public and Behavioral Health gave 18 months to get
3 operational, and then would basically for almost any reason as
4 long as the applicant could show that they were making
5 reasonable steps to be operational, the DPBH would just --
6 would essentially extend that deadline. So the result of that
7 is that there were a lot of provisional certificates as we
8 moved into -- as we moved into recreational. And so in order
9 to deal with that on the recreational side, kind of putting
10 this basically hard and fast rule but also recognizing that
11 sometimes that there are just things that are beyond the
12 control of the -- of the applicant or the establishment as
13 they're working to get things going. And so extenuating
14 circumstances, again, would just be it's not within your
15 control to become operational.

16 Q Not within the applicant's control?

17 A Yes.

18 Q Would this litigation and these lawsuits that have
19 been filed against the State of Nevada constitute extenuating
20 circumstances that would justify an extension?

21 THE COURT: Are you asking her to speak for the
22 Department of Taxation, since she's no longer in charge of it
23 and she's now with the Department of Administration, who's in
24 charge of the computers at the Listserv?

25 MR. GUTIERREZ: I'm asking for her opinion as a

1 former head of the Department of Taxation with knowledge of
2 this particular statute -- or regulation.

3 THE WITNESS: I guess there would have to be -- so
4 your question is is litigation an extenuating circumstance?
5 BY MR. GUTIERREZ:

6 Q Correct. Would this litigation that's been the
7 reason we've been here for six weeks, there's seven other
8 lawsuits against the State of Nevada, there's an injunction
9 against my client Thrive currently. Would that be extenuating
10 circumstances as you interpret NAC 453D.295 that justifies an
11 extension of the 12-month requirement?

12 A I think it's -- it's somewhat beyond your control to
13 -- when you're enjoined from doing the things that you need to
14 do under the statute to get your license. So I think there
15 would be some consideration there.

16 Q Who's the person from the Department now that would
17 -- that would make the decision as to the extending the
18 12-month requirement. Do you have -- do you know?

19 A I don't know.

20 Q Okay. Jorge Pupo worked with --

21 A Yeah.

22 Q -- underneath you. He answered to you; is that fair
23 to say?

24 A Yes.

25 Q How much involvement did he have in the adoption of

1 the regulation process?

2 A All of the staff -- it was kind of all hands on deck
3 for the -- for the whole process. So it would have been -- I
4 mean, all of us -- there were -- it was a limited staff in
5 marijuana initially, so everybody had a role in it. I mean,
6 we all -- we all went to the workshops, we all went to the
7 Task Force meetings, we all -- we all participated.

8 Q But when it came to the decision of interpreting the
9 ballot initiative and deciding whether it complied or the regs
10 complied with that, that was something -- was that something
11 Mr. Pupo did, or was it something that was done as a group
12 effort and included LCB and [inaudible]?

13 A Yeah. I mean, it was done -- you know, ultimately
14 it was done by myself. I mean, I wouldn't put it -- I
15 wouldn't put something out there that I didn't think was
16 legally compliant, and then if I did, then there would be
17 discussion either with -- or, you know, sometimes if I wasn't
18 sure, I could even ask the AG's Office or, you know, along the
19 way. But generally, you know, I was the director of the
20 Department, and I approved, you know -- I mean, we all worked
21 on it, we all contributed, we had, you know, hours of
22 discussion and analysis, but if essentially, you know, if --
23 the buck stopped with the Governor, but right below him then
24 it would have stopped with me.

25 Q So the buck stops with you when it came to adoption

1 of the regulations; fair to say?

2 A Yeah.

3 Q And --

4 A Yeah. Making sure it happened, the process, making
5 sure issues were addressed.

6 Q And making those decisions you relied heavily on
7 Legislative Council Bureau, the AG, and everyone else when it
8 came to --

9 A Well, I wouldn't -- I wouldn't necessarily say that
10 I relied on the Legislative Council Bureau, but I relied on
11 the process. And the process is very specific, and we
12 followed the process. So it wasn't like I was calling them
13 every day and saying, are you guys good with this. But if
14 there were issues back and forth, we all discussed them and
15 made sure that we were on the right track.

16 Q But having Legislative Council Bureau involved
17 helped?

18 A Having that -- well, knowing that -- and under the
19 provisions in .233(b) that they review for legislative intent
20 or statutory intent.

21 Q Great. And then, Ms. Contine, as you sit here the
22 regulations for the 2018 marijuana recreational process, do
23 you believe that they followed and complied with the ballot
24 initiative and statute 453D?

25 A I do.

1 MR. GUTIERREZ: And I'll pass the witness.

2 THE COURT: I have some questions before we go,
3 because I want to make sure I get my issues addressed before
4 these guys bog us down.

5 So do you know how the initiative process of writing
6 the initiative occurred?

7 THE WITNESS: I believe -- I believe that maybe the
8 lady that he had mentioned earlier did some drafting and some
9 other people that I mentioned, so Matt Griffin and some of the
10 other people were involved in it. I think they did the
11 drafting. I think they pulled a lot from Colorado, but that's
12 just what I've been told.

13 THE COURT: And when you say they, those are people
14 who are in the industry?

15 THE WITNESS: I don't -- yeah. I don't know exactly
16 what their relationship with the industry, but they work in --
17 you know, they worked in legalization essentially. And --
18 yeah. There was something else I was going to say, but I
19 forgot. I don't remember.

20 THE COURT: All right. So let's skip ahead, then,
21 and the --

22 THE WITNESS: Oh. I'm sorry.

23 THE COURT: I'm sorry.

24 THE WITNESS: I remembered. I remember at one point
25 when I was the deputy director that there was some

1 conversations with the drafter about them wanting to draft and
2 put the program in the Department of Taxation, and the
3 director at the time not agreeing to it, but basically saying,
4 we're not going to fight you over this. So there was some
5 even communication before.

6 THE COURT: As long as you fund us, we're not going
7 to fight you about it. I've had those discussions at
8 legislative hearings.

9 So let me skip ahead to ballot question passes.
10 When the ballot question passes you've already had an idea the
11 summer before that there might be a situation where you're
12 going to have to gear up to be ready.

13 THE WITNESS: Uh-huh.

14 THE COURT: Who did you assign within the Department
15 to start the regulatory process for the recreational
16 marijuana?

17 THE WITNESS: So at that time there was nobody to
18 assign, so I assigned myself.

19 THE COURT: Okay.

20 THE WITNESS: So I started doing the initial
21 groundwork, having some additional conversations with people,
22 figuring out -- and, again, I had already met with some
23 people, kind of figuring out what we needed to do. And then
24 -- so then we need some money because we need to hire people,
25 so I need to go to the Interim Finance Committee, so preparing

1 all of that work. People in my office do that kind of work.
2 But essentially those initial steps. And then basically
3 telling people within the agency, hey, you know, we're doing
4 this and this and this and so I'm going to need all hands on
5 deck. And, again, we had just come off of an implementation
6 process for one whole year, so everybody was used to like the
7 franticness of all the deputies. So the Department of
8 Taxation has four deputies, compliance -- at that time it did,
9 compliance, IT, administration, and local government. And so
10 at that time there was no marijuana deputy. So what do we --
11 how do we implement this from a -- from a legal perspective,
12 from, you know, the rules. That's just one part of it. We
13 have to -- we have to create a system that allows collection
14 of tax, we have to, you know, consider those types of things.
15 We have a budgeting issue, so who in budget, you know,
16 somebody is going to have to come up with a budget and then
17 we're going to have to present that. So it's basically -- I
18 mean, we developed a timeline and we worked. So it was
19 essentially initially just me and the four deputies that were
20 in my staff at that time.

21 THE COURT: And at some point Behavioral Health let
22 you have their marijuana people from medical marijuana.

23 THE WITNESS: Okay. So that was a legislative
24 decision. That wasn't -- they didn't let us have them. The
25 legislature decided to move that program into the Department

1 of Taxation, and that happened on July 1st. So after the
2 legislature had convened that became effective on July 1st.
3 Theoretically they worked for the Department at that point.
4 There was still structure with budget and space and all of
5 that that had to happen in order for the transition to be
6 fully done. By that time I did have the deputy, and I think
7 we got -- I don't know exactly what other positions. We
8 probably got some tax-related positions. So we have like tax
9 examiners, things like that. And then the DPBH staff became
10 part of the Department of Taxation staff on July 1st of 2017.
11 However, they were somewhat involved in the whole process
12 because they didn't work for the Department before that, but
13 they were the experts in the area of like -- you know, we
14 didn't have a -- I think Kara has some type of an
15 environmental science type background, so with respect to --

16 THE COURT: Epidemiology.

17 THE WITNESS: Yeah. So like with lab stuff and all
18 of -- you know, that was part of the process, as well, like
19 regulating the labs. So having that level of expertise and
20 the people that had regulated the market going into that. So
21 they were involved in that process, as well.

22 THE COURT: Okay. So did the drafting of the
23 regulations begin before or after the team moved over?

24 THE WITNESS: Pretty much a bit simultaneously.

25 THE COURT: About the time they got there.

1 THE WITNESS: Yeah.

2 THE COURT: Had you assigned the task?

3 THE WITNESS: So -- so the -- so the -- the
4 regulations, we hired QuantumMark, essentially. So what they
5 did is they took a lot of the information from the Task Force
6 and then they benchmarked it -- or they -- then they looked at
7 other states and provided kind of information what other
8 states were doing, and then we would collectively, so myself,
9 Jorge, Kara, Steve, and maybe a few others -- the deputy, the
10 chief deputy, we would all get together and kind of discuss
11 like, okay, well, what is the best -- because this is the
12 drafting phase, right, so we're just looking for the best
13 draft that we can put out there for review and public comment.
14 And so discussing some of the issues that had occurred in
15 medical.

16 And I thought back on one of the issues that Dr.
17 Spirtos I knew was not happy about, was the inclusion of
18 testing, lab testing for aspergillus, which had been reported
19 to -- somebody had died in California, and, you know, he
20 didn't like that, because he's like, there's aspergillus
21 everywhere so I think I --

22 THE COURT: That's that desert fever bacteria?

23 THE WITNESS: Yeah. It's some -- I don't know. You
24 would have to ask Kara for more. But it guess the point is
25 like he was concerned about that. Kara was the subject matter

1 expert. She wanted it. I ultimately decided I think I said
2 at a meeting, like I know there's some controversy over this,
3 but I think in terms of going forward, you know, I'm going to
4 err, if this is an error, on the side of public health. And
5 so those were kind of -- you know, that was the process that
6 we went through internally before we got to this draft, which
7 was who's worked on this or who's an expert in an area and,
8 you know, pulling it all together, having those conversations,
9 weighing what, you know, concerns of industry are with the,
10 you know, concerns for public health and safety, and, you
11 know, not being unduly burdensome. And so that was kind of
12 the process, internal process. And then it went out for --

13 So when we did the workshops we all sat at the
14 table, and so there were different questions --

15 THE COURT: I'm still before workshops. I'm not
16 there yet.

17 THE WITNESS: Oh.

18 THE COURT: So who was your point person?

19 THE WITNESS: For?

20 THE COURT: Drafting the internal version of the
21 regs. I'm still back a couple steps behind you. Somebody has
22 to be point person in rule drafting. You've got a whole team
23 of people you've got working on it, but somebody's got to be
24 in charge.

25 THE WITNESS: Well, I was the point person.

1 THE COURT: Okay. So you're point person. How did
2 you as the point person make sure that the regulations your
3 team and QuantumMark were pulling from every place else, other
4 states, medical, other things that it complied with Ballot
5 Question 2?

6 THE WITNESS: Well, I read Ballot Question 2 and I
7 looked at the plain language of the statute, and then I looked
8 at some regulations that existed and decided, well, can we use
9 these regulations. So, for instance, in the initial -- in the
10 initial process there's a -- under Question 2 there's a new
11 license category that didn't exist before, so we can't borrow
12 -- at least for the temporary regs, you know, we -- no way
13 could we borrow from another -- from that process or there was
14 nothing to kind of guide us. So then the thinking was, how do
15 we -- how do we move forward with that. So then moving
16 forward with that and addressing it in the regulation it was
17 something that was new and different.

18 So recognizing that there were things within the
19 initiative that were going to be different than the medical
20 program and so we couldn't always rely on that or we couldn't
21 always rely on those states, and so identifying those by
22 reading the language of the initiative and figuring out what
23 we could use from all the -- based on all the information that
24 I've already talked about.

25 THE COURT: Okay. So let me go to the first part of

1 my questions related to Ballot Question 2. The voters decided
2 that they wanted marijuana to be regulated similar to liquor.
3 How did you investigate the way that liquor is regulated to
4 make a determination that you would regulate recreational
5 marijuana in the same way?

6 THE WITNESS: Okay. So I have a couple things to
7 say on that. So first of all, the Department of Taxation
8 regulates liquor partly.

9 THE COURT: They tax liquor. It's regulated on a
10 local level.

11 THE WITNESS: Well, you can't get a wholesale -- you
12 can't get a wholesale liquor license without applying to the
13 Department of Taxation. The liquor scheme is a three-tiered
14 system, so you can't -- you can't regulate marijuana like you
15 regulate liquor, because the initiative also says that the
16 Department can only issue licenses to entities that are part
17 of the medical program. And in the medical program there's
18 vertical integration. So the way I interpreted that is that,
19 you know, they wanted it to be taxed like liquor, essentially.
20 So the tax -- the tax provision is a 15 percent at wholesale,
21 and that's how the Department taxes liquor, as well. And
22 because there's not -- it's not possible to regulate it like
23 liquor under the current scheme knowing that there's already
24 vertical integration. So if the people that you can only give
25 licenses to are already vertically integrated, you know, you

1 can't undo that. You can't say, oh, well, you can't be
2 vertically integrated when you're already vertically
3 integrated. And so I think that was -- it was -- I mean, in
4 all honesty, frankly, I believe it was a way to communicate to
5 voters that marijuana should be considered a recreational
6 device just like alcohol.

7 THE COURT: So that's why in (3)(b) the voters said,
8 business owners are subject to review by the State of Nevada
9 to determine if the business owners and the business location
10 are suitable to produce or sell marijuana; right?

11 THE WITNESS: Right. And so that's the local
12 portion, I believe.

13 THE COURT: Okay. So let me go to my next part.
14 I'm just getting your answers.

15 THE WITNESS: Okay.

16 THE COURT: You don't get to ask me questions or the
17 lawyers, but we'll get there some day.

18 So why, if the voters decided we were going to
19 handle it like alcohol and liquor are handled, did the
20 Department determine that you did not need to conduct a
21 background check of each prospective owner, officer, and board
22 member of a marijuana establishment license applicant similar
23 to liquor and alcohol applicants?

24 THE WITNESS: So I would -- I think -- I believe
25 that that is similar to how we treat liquor and -- how the

1 Department treated liquor applicants. Because there's a
2 recognition in the liquor context that pretty much every
3 liquor wholesaler has some public component. So there's not
4 this ability to have every single entity that has some small
5 piece of ownership reviewed, essentially.

6 And, again, in interpreting that provision, kind of
7 creating a framework under which the industry could operate
8 that would still be true to the overall goals and the purpose
9 in regulating the industry is to make sure we have a regulated
10 market, make sure that we don't have people coming into this
11 regulated market that have, you know, ill intent or bad
12 intent, and in applying that 5 percent rule that that would
13 allow the Department to -- and also allowing the Department to
14 do its work over time, that it would be -- it would be based
15 on also the feedback from the industry and the reasonableness
16 of it. That's how we got there. And I believe that it
17 complies with that provision, because of what I just explained
18 and then also I think the value of the process and going
19 through the process and having all those levels of review,
20 especially legislative review and then the Legislative
21 Commission review.

22 THE COURT: Legislative Council, or Legislative
23 Commission?

24 THE WITNESS: Both.

25 THE COURT: Okay. Tell me what your definition of

1 "owner" is.

2 THE WITNESS: Well, owner is individual or entity
3 that maybe has individuals in it, so those types of
4 individual. But if there's a -- if there's an entity that
5 owns another entity, then you would look down to those -- to
6 that level at some point.

7 THE COURT: Okay. Can you maybe use in more
8 layman's terms for me how you define "owner."

9 THE WITNESS: John Ritter is an owner.

10 THE COURT: I don't need examples.

11 THE WITNESS: I mean, that's how -- I mean, at that
12 time there were individuals, and so I think that's what the
13 interpretation is. You can't -- you can't background an
14 entity. So it was individual entity -- or the individual
15 person within an entity at that 5 percent limit.

16 THE COURT: So you --

17 THE WITNESS: By regulation.

18 THE COURT: -- read "owner" as someone who had an
19 equity interest in the financial proceeds of the business.

20 THE WITNESS: Yes. Yes.

21 THE COURT: Okay. I'm just trying to get the right
22 words. What about --

23 THE WITNESS: Somebody who had invested some money.

24 THE COURT: Or sweat equity.

25 THE WITNESS: Right.

1 THE COURT: Let's go to officer. What was your
2 definition of "officer"?

3 THE WITNESS: So like secretary, president, vice
4 president, traditional corporate officers.

5 THE COURT: Chapter 78 corporate officers?

6 THE WITNESS: Right.

7 THE COURT: Okay. What about "board member"?

8 THE WITNESS: Somebody who was -- who served on the
9 board that was -- participated in board meetings as a board
10 member or an officer. I mean, sometimes officers participate
11 in the board meetings.

12 THE COURT: Like a board of director.

13 THE WITNESS: Yes.

14 THE COURT: Okay. Like a Chapter 78 corporate board
15 member.

16 THE WITNESS: Yeah.

17 THE COURT: All right. So how did you treat LLCs or
18 believe LLCs should be treated when you were drafting the
19 regulations to implement 453D.200(6), which is the part about
20 each owner and every owner?

21 THE WITNESS: Right. And so I guess that that's
22 what I get to -- you go to essentially the individual with a
23 5 percent ownership interest. So 5 percent equity interest.

24 THE COURT: And how did you determine that 5 percent
25 was the way to comply with the ballot question that says, each

1 perspective owner?

2 THE WITNESS: Again, in balancing kind of the
3 requirement to create reasonable rules that businesses can
4 operate under and thinking about the public health and safety
5 aspect of the goals, you know, the public health and safety
6 interests of the state, especially public safety, and the
7 thinking was a person with less than a 5 percent ownership is
8 not going to have an ownership interest such that they could
9 sway or there could be situations where they have enough
10 control to bring in -- to sell product out the back door. And
11 so that was a reasonable amount based on feedback from the
12 industry and concerns that they had about how the process had
13 become so burdensome to them, and then also balancing that
14 with the public safety piece.

15 THE COURT: Okay. The ballot question has a lot of
16 information about locations on where operations could be
17 located. Can you tell me how you implemented that in the
18 regulations.

19 THE WITNESS: I'm not quite sure I understand.

20 THE COURT: So the ballot question has a lot of
21 restrictions as to whether marijuana establishments can be
22 located.

23 THE WITNESS: Right.

24 THE COURT: And that requires a specific
25 identification of a location to be able to do that; right?

1 THE WITNESS: Right.

2 THE COURT: Whether there's zoning issues or not,
3 that's a local government issue.

4 THE WITNESS: Right.

5 THE COURT: But, you know, you do have other issues
6 that are in the ballot question related to location.

7 THE WITNESS: Right.

8 THE COURT: How did you as the point person in
9 developing the regulations implement that provision?

10 THE WITNESS: Well, I didn't implement these
11 regulations, but I -- you know, I helped --

12 THE COURT: Created them. You drafted them.

13 THE WITNESS: I helped in the process. And I think
14 that there's something in the regulation regarding distance
15 requirements.

16 THE COURT: There are.

17 THE WITNESS: And so developed those distance
18 requirements. I think there was general input in that
19 category from local governments because they, you know, they
20 do that, as well. The -- you know, and being mindful of the
21 State has this overall structure that we're trying to create,
22 but these businesses are actually located in a local
23 government. So trying to be true to their -- you know, their
24 -- some of the distance requirements that they have in place
25 or looking to them for feedback. And, you know, when you guys

1 are okaying a business are you talking about the -- like how
2 that would be approved, or --

3 THE COURT: I'm only trying to find out your process
4 as the point person in taking Ballot Question 2 and creating
5 regulations that are reasonably and convenient to carry out
6 the provisions of this statute -- of this chapter. And I keep
7 reading back to the statute to [inaudible].

8 THE WITNESS: So yeah. I -- so that -- so thinking
9 about that and looking at distance requirements that have been
10 used in terms of location in the past and providing the
11 guidance in that in regulation and having -- having the public
12 process and doing -- taking the input from the various
13 stakeholders that I've already mentioned, the local
14 government, the industry.

15 THE COURT: So part of what the ballot question also
16 requires is that you adopt regulations with conditions that
17 are demonstrably related to operation of a marijuana
18 establishment. Tell me how you implemented that provision in
19 drafting the regulations.

20 THE WITNESS: So are you talking about the licensing
21 piece of it?

22 THE COURT: No. I'm talking about the application
23 process, because that's what --

24 THE WITNESS: Right. Yeah. Okay.

25 THE COURT: -- it's all coming down to in this part

1 of the hearing.

2 THE WITNESS: So -- right. So some of the -- some
3 of the considerations in that section were, you know, fairly
4 -- fairly board. Like do -- you know, do you have -- are --
5 you know, can you plan for the safekeeping product and things
6 like that. So -- but then some of the other categories were
7 looked at under the guise of like we -- the Department is
8 going to have to distinguish people in some ways. And so then
9 looking at the categories -- so looking at -- so diversity,
10 for instance, how is diversity related to that. And as I
11 discussed earlier, kind of some of those policy considerations
12 and kind of how we viewed them to be related to the operation
13 of the establishment and also would provide some ways -- some
14 ways for people to distinguish themselves in various
15 categories. So having some categories that you might be able
16 to distinguish yourself and then some -- having some general
17 categories that just looked at are we going to -- are -- you
18 know, what are they doing and how is that related to
19 protecting -- to their business and then how is it related to
20 protecting the public health and safety.

21 THE COURT: Okay. Tell me what the taxes paid have
22 to do with that.

23 THE WITNESS: The taxes paid?

24 THE COURT: That's part of the regulations that got
25 adopted.

1 THE WITNESS: Well, the taxes -- there's a provision
2 in there that provides -- that requires the tax in Question 2,
3 the 15 percent.

4 THE COURT: Well, no. We all know that we have to
5 pay taxes, and the marijuana business got sold to the public
6 because of the taxes it was going to pay. I understand. But
7 the taxes that an individual pays unrelated to a marijuana
8 business, how is that demonstrably related to the operation of
9 a marijuana business?

10 THE WITNESS: Oh. You mean the requirement to
11 provide information about taxes paid? I think that that isn't
12 -- so is that what you're talking about within that? So the
13 taxes, the education, the civic --

14 THE COURT: Those kind of things, yep.

15 THE WITNESS: -- those kind of things, those are
16 basically to show that you -- that you're invested in the
17 business, that you've been invested in the business, that you
18 are -- again, we're only looking at right now the people who
19 have already been in the business, so that you can follow the
20 rules, essentially that you can -- that you've followed rules
21 in the past, that you've contributed when you were required
22 to, that you -- that you have some type of economic
23 involvement, that you -- that in all of those categories, the
24 education, as well, are related to your operation of the
25 business and being -- being -- having these levels of

1 stability within the process. And I believe that there's that
2 provision that you have to read, and then you have to read the
3 overall other provisions within the chapter together and you
4 have to be able to rank people, so you have to have some
5 categories where people can distinguish themselves. And so
6 those all relate to operation of the business, and so that's
7 why those were put into the regulations.

8 THE COURT: Okay. Why did you decide to hire
9 QuantumMark to assist you with the drafting of the
10 regulations?

11 THE WITNESS: Because they had assisted in the
12 drafting of the medical. They had also assisted in the Task
13 Force, and they -- and they had a level of expertise from
14 those processes. And -- but mostly because they're really
15 good at process organization. So because we had to get
16 through these processes fairly quickly -- like the most
17 tedious and burdensome thing about the process is that you --
18 pulling everything together. So just --

19 THE COURT: Right. That's why I asked who the point
20 person was.

21 THE WITNESS: Yes. So they -- they pulled all the
22 information together and made -- based on all the conversation
23 that was happening throughout the way and made -- and put it
24 in a format that it could be easily reviewed by the decision
25 makers. And that was really the reason to have them, is that

1 they created the process that allowed us to facilitate it
2 quickly.

3 THE COURT: And who were the decisions makers?

4 THE WITNESS: Well, I mean, I was the end decision
5 maker on what we would put out for regulation to be
6 workshopped in conjunction with, again, the various people in
7 the office. The industry had a role in that, the -- you know,
8 if there were things that were -- you know, I wasn't sure of,
9 I'd take it up the chain of command. So there was, you know,
10 a level of back and forth.

11 THE COURT: Okay.

12 THE WITNESS: But, again --

13 THE COURT: Who decided you were going to use temp
14 employees to do the application review process?

15 THE WITNESS: So I wasn't involved in that.

16 THE COURT: Okay. So you wouldn't be involved in
17 the decision on how many you've asked Interim Finance and how
18 many you actually utilized. That's was after you left.

19 THE WITNESS: Right. That was after me.

20 THE COURT: I have a note to myself that refers to a
21 statute number, so I've got to look at it and see what my
22 question was. Hold on a second.

23 When you in regulations, which you don't have a copy
24 of, that said after you get the applications somebody's going
25 to review them to determine if they are complete, why was that

1 included in the regulation?

2 THE WITNESS: I think so that if they weren't
3 complete the person could be notified and cure.

4 THE COURT: Okay. And so was there an anticipation
5 by you as the point person on the regulations that somebody
6 was actually going to look at them to see if they were
7 complete?

8 THE WITNESS: Yes.

9 THE COURT: And that something would happen if they
10 weren't complete?

11 THE WITNESS: Yes.

12 THE COURT: Whether it's a cure period or a letter
13 saying, we got your application, it's not complete, sorry.

14 THE WITNESS: I mean, there would be some -- well,
15 yes. I mean, and I think that there would be -- if somebody
16 just didn't provide a whole section of the -- of the
17 application or, you know, I think there would be some -- some
18 initial review and -- yes.

19 THE COURT: Did you anticipate when you created the
20 regulations and identified owners that there would be accurate
21 information as to the owners that would be provided to the
22 Department?

23 THE WITNESS: Yes.

24 THE COURT: Okay. And was there any way the
25 Department was to in reviewing an application for completeness

1 to determine if the information provided by the applicant on
2 the ownership was accurate?

3 THE WITNESS: I don't -- I don't know, because I
4 wasn't --

5 THE COURT: I'm just asking about if -- the
6 intent --

7 THE WITNESS: Yeah.

8 THE COURT: -- as you drafted them. Because you
9 have a plan on how you're going to implement it, you're on
10 short time, how are you going to get this done.

11 THE WITNESS: Right.

12 THE COURT: Okay. And you don't know the last one,
13 since you'd already left. Okay. I'm done. Thank you.

14 Who's up next?

15 MR. SHEVORSKI: Mr. Koch.

16 THE COURT: Mr. Koch wants to go next.

17 MR. KOCH: I'll be quick.

18 THE COURT: I was not quick. I tried, but.

19 MR. KOCH: Those are the most questions I think
20 you've asked.

21 THE COURT: Well, I found the decision-maker.

22 MR. KOCH: We got answers. The buck stops here.

23 THE COURT: I got something that wasn't "I don't
24 know." Thank you, by the way.

25 MR. KOCH: Thank you.

1 DIRECT EXAMINATION

2 BY MR. KOCH:

3 Q Ms. Contine, my name is David Koch. I represent one
4 of the applicants or licensees here. I just have a few
5 follow-up questions, maybe a few additional items. You were
6 asked about the taxes paid and those kinds of things. Was
7 economic stability for applicants, was that a concern or
8 consideration that the Department had?

9 A Yes.

10 Q Would it concern the Department if an entity got a
11 license but was unable to financially operate its business?

12 A Yes.

13 Q Why would that be a concern?

14 A Well, for a couple of reasons. You know, when you
15 issue a license or when you regulate businesses, which the
16 Department of Taxation does, you necessarily are concerned
17 about tax revenue so you want to give a license or, you know,
18 you want to have people that are actually going to use a
19 license that they give you -- that you give them or that they
20 receive. So you have to demonstrate some ability to do that,
21 that you can actually operate an establishment, so that's part
22 of it.

23 Also, kind of just a recognition generally that, you
24 know, in this case specifically like -- you know, that there's
25 competition, so if there's competition you have to have a way,

1 again, to distinguish people. And so looking at that economic
2 stability and then also, as I've mentioned in the past, you
3 know, looking at -- having a public safety component to it
4 that if you don't have the money to operate, then how are you
5 going to get the money? And then there could be -- and
6 because all of these entities already have some sort of
7 license, there could be some, you know, temptation to operate
8 outside the regulated market.

9 Q Okay. During these discussions that took place
10 regarding potential regulations that may be adopted, were
11 there any proposed regulations that were considered but not
12 adopted or not put in, even the workshop regulations?

13 A I'm not sure. I mean, I think we tried to be fairly
14 broad and to take consideration, but you have to start with
15 the drafts. I'm sure there were some ideas or some desires
16 that came about that were just not included, but I can't
17 identify them specifically at this time.

18 Q In that decision whether -- if something were not
19 included, would that be something that would be discussed
20 among the group that was considering those regulations?

21 A Yes.

22 Q And would part of the discussion be -- pertain to
23 whether that proposal related or complied with the initiative
24 and the ballot question?

25 A Yes. And some of the other concerns, too, like

1 having -- you know, the other concerns that I've already
2 talked about. I mean, if you -- you know, if you were
3 thinking, you know, controlled market, you know, ability to
4 have a black market and protecting that public health and
5 safety, so some of those considerations.

6 Q Okay. And one of the lines of questions or
7 considerations that's been talked about during this hearing
8 was this possibility that somehow cartels or some criminal
9 organizations may come in and infiltrate Nevada's market. Was
10 that a concern?

11 A No. I don't think that was a huge concern. I think
12 more the concern was having businesses be viable so they
13 wouldn't -- well, I guess ultimately down the line that could
14 be a concern, but if the business is not viable then what are
15 the possibilities that they could leave the regulated market
16 and go to the black market.

17 Q Okay. Would you say by that, would that be if a
18 business isn't viable, they'd take their inventory and sell
19 it?

20 A Yeah. Or they're not financially viable and they're
21 not making money, so they figure out another way to earn money
22 off their product.

23 Q All right. So selling it out the back door
24 perhaps, or doing something else?

25 A Yeah.

1 Q Was there any consideration to this 5 percent
2 requirement and a concern that maybe a whole bunch of cartel
3 members may buy up 4 percent of a marijuana establishment so
4 they could slip under the 5 percent?

5 A I mean, that wasn't specifically considered. You
6 know, the discussions along the way did not involve any type
7 of people gaming that system to create some illegal activity.
8 But again, I think that second part of that regulation that
9 allows the Department to have some flexibility in reviewing
10 below the 5 percent addresses that and also would address
11 other concerns that may come about.

12 Q So if the Department, for example, received an
13 application that had twenty-five 4 percent owners and they
14 said please don't check our backgrounds, would you anticipate
15 the Department would check those backgrounds still?

16 A I would anticipate if they saw something that was
17 out of the ordinary or irregular in the application. They
18 would still be required to put the people on the list; that
19 they would -- that would warrant further review. I would
20 expect that, yes.

21 Q All right. And you talked -- the fact that alcohol,
22 there are public companies that own entities that operate
23 liquor or alcohol establishments, is that right?

24 A Yes.

25 Q And the Department was aware of that?

1 A Yes.

2 Q And the Department regulates at least in part
3 alcohol in the state of Nevada?

4 A Right.

5 Q And you're aware the ballot initiative, I think the
6 judge asked you about that, the fact that it says that
7 marijuana would be regulated in a manner similar to alcohol.
8 Are you aware of that?

9 A Right.

10 Q Did you understand there to be a requirement that it
11 would be regulated identically to alcohol?

12 A No. And as I explained earlier, I didn't think that
13 was possible.

14 Q Okay. There are seven items listed in the ballot
15 initiative that talk about the characteristics or the
16 similarities. You reviewed those as part of your process?

17 A Yes.

18 Q And did you believe that what was being proposed
19 with respect to regulations carried out those considerations
20 as far as similar regulations to alcohol?

21 A Yes.

22 Q For example, not operating a vehicle while you're
23 intoxicated or impaired; right?

24 A Right.

25 Q Or not selling products to somebody who's under the

1 age of 21, that was a consideration, is that right?

2 A Right.

3 Q Okay. So based upon the regulations that were
4 submitted prior to the time that you left, you believe that
5 those regulations were in compliance with that section of the
6 ballot initiative?

7 A With the section you just read or --

8 Q Regarding the similarity, regulations similar to
9 alcohol, that you believe that that aspect was considered and
10 applied in drafting the regulations?

11 A Yeah. Yes.

12 Q Okay. A lot of discussion has been had during this
13 hearing about these physical locations and whether the
14 physical location itself had to be part of the application
15 score as part of that process. You were at least involved or
16 aware of some discussion of that prior to the regulations
17 being drafted, is that right?

18 A Yes.

19 Q That was part of the Task Force?

20 A Yes. Well, and again, as I mentioned before, the
21 way that the initiative was written I think was slightly
22 different than it had been applied before and it was
23 attempting to clarify that -- you know, clarify the timing of
24 the various licenses. So, you know, you can't -- you
25 obviously can't operate in a local government without local

1 government approval and you can't sell marijuana without a
2 marijuana license. So kind of determining, you know, kind of
3 how those two systems -- I mean, we had to regulate for those
4 two systems to work together because both of them required
5 some work from different regulating entities.

6 Q Did you anticipate that there would be a process to
7 review specific locations after conditional licenses were
8 granted?

9 A The regulations specifically say that you can't open
10 an establishment unless you have final Department inspection,
11 so that would be the final say in whether you can operate.

12 Q Okay.

13 A And with respect to providing the location, I think
14 the intent was if you have a location and you know your
15 location and you want to tell the State about it, that
16 information would be available. But again, in the regulation
17 with identifying that, it wouldn't be scored.

18 Q So the State or the Department was not actually
19 going out and looking at the proposed location if you had one
20 and say, well, this is a great spot, let's give them extra
21 points or anything like that?

22 A Well, I don't know what they did in the review
23 because I wasn't there, but the intent in the regulation was
24 that there would not be a review of a specific address within
25 that initial review. And it would be the applicants would

1 apply for a jurisdiction because the licenses were allocated
2 to the jurisdictions proportionate to population in that
3 county. So if you didn't identify on the application, we
4 didn't provide a place to identify -- if the Department didn't
5 request some identification of the jurisdiction, then you
6 wouldn't know how many licenses were in that jurisdiction.

7 Q Okay. I want to ask you about a provision in the
8 statute. If we can pull up NRS 453D.210. And we'll put this
9 on the screen for you or if you have it in the book --

10 A Yeah, I have it right here.

11 Q -- if it's easier for you there. And NRS 453D.210,
12 subsection 5 where it says, "The Department shall approve a
13 license application if."

14 A Right.

15 Q You've reviewed this subsection of the statute
16 before?

17 A Yeah. Yes.

18 Q Okay. And it says -- it has a number of items
19 there. Let me ask you about (e), which -- I just want to get
20 a little bit more understanding of how you interpret that. It
21 says, (e) if "the locality in which the proposed marijuana
22 establishment will be located does not affirm to the
23 Department that the proposed marijuana establishment will be
24 in violation of zoning or land use rules adopted by the
25 locality." What does that mean? It's a little confusing to

1 me, but what do you understand that to mean?

2 A It essentially means that they have to be properly
3 zoned at the local level.

4 Q And did the locality have to affirm that the
5 marijuana establishment was in compliance with zoning and land
6 use?

7 A No. I think this is kind of the provision that I've
8 been talking about in some ways that was the difference,
9 essentially, in the drafting of this from medical, which made
10 it clear that there was a local government responsibility
11 essentially to say that people aren't -- they don't have the
12 proper zoning. I think the way -- you know, the way that it
13 would be applied essentially is that the applicant at some
14 point -- you know, after the initial approval, we've reviewed
15 it, then the applicant would -- there would be some
16 discussion, they would be -- they would show that, you know,
17 they had the local government sign off, so in the final
18 inspection. I mean, I'm not sure how. There's various ways
19 to apply that and to insure that, but I guess in its most
20 basic -- the way that it's written that would mean that the
21 Department didn't do anything at all unless the local
22 government said we're not doing X.

23 So in some cases like when initially the letters
24 were sent from the local government saying we're not going to
25 have an Early Start or we're not going to expand or those

1 types of things. So there was some of that communication, but
2 there's other ways to determine that information other than
3 getting an affirmance or nonaffirmance from the local
4 government.

5 Q So did the Department ask local jurisdictions, then,
6 to submit an affirmance or nonaffirmance as part of the -- did
7 you anticipate that would be part of the application process
8 itself in order to approve an application that the local
9 government would first have to affirm that that location was
10 okay?

11 A Well, I think it would happen during the process
12 after a conditional license was reviewed or issued.

13 Q And so when this section 5 of subsection or .210
14 says shall approve a license application, did you anticipate
15 that constituted final approval and not just conditional
16 approval?

17 A Yes.

18 Q So it would be some future action taken after
19 conditional approval?

20 A Yes.

21 Q And staying in that same section, 5(c), it says a
22 license application will be approved if "the property is not
23 located within: (1) One thousand feet of a public or private
24 school that provides formal education traditionally associated
25 with preschool or kindergarten through grade 12 and that

1 existed on the date on which the application for the proposed
2 marijuana establishment was submitted to the Department." And
3 I'm interested in that last phrase where it says and which
4 "existed on the date on which the application was submitted."
5 Do you know what that referred to or how did you understand
6 that?

7 A That statute, that provision?

8 Q Right.

9 A So basically at the time that they submitted the
10 application to the Department if then they had received a
11 conditional license they'd go look at wherever they were going
12 to locate it and that analysis would be done at that time.

13 Q Okay. And so that was anticipated that it would
14 look back when the application was submitted --

15 A Right.

16 Q -- and then the final approval would be issued after
17 the fact?

18 A Right.

19 Q We looked at the Task Force report. Go to Exhibit
20 2009 again. I think you may have that in front of you or
21 we'll put it up on the screen. And let's go to page 19, Bates
22 number 2515. Mr. Gutierrez looked at a couple of these
23 sections with you. I just want to ask about one or two of
24 them. On the application process it says, "The Task Force
25 recommends the qualifications for licensure of a marijuana

1 establishment and the impartial numerically-scored bidding
2 process for retail marijuana stores be maintained as in the
3 medical marijuana program except for a change in how local
4 jurisdictions participate in selection of locations."

5 And so first, the item on qualifications for
6 licensure being maintained as the medical marijuana program,
7 did the Department look at the qualifications for licensure
8 that were outlined in the medical marijuana program?

9 A Yes. I mean, it was part of discussion, you know,
10 through the process.

11 Q And what we're talking about, drafting these
12 regulations, it sounds like the medical marijuana
13 establishment regulations were used as kind of a starting
14 point; right?

15 A Right.

16 Q You didn't just sit down yourself and say, okay, I'm
17 going to take a blank page and start writing regulations, did
18 you?

19 A I mean, partially yes. So the basis -- again, a lot
20 of discussion -- I mean, you can see from the Task Force that
21 there's identification of issues that had come up, things that
22 didn't really work that were either unduly burdensome or
23 weren't, you know, able to be -- you know, that were just
24 difficult or weren't, you know, looking at the policy behind
25 it, you know, didn't make sense. So there was a lot of that

1 analysis that went into it. But, yes, the medical, especially
2 considering that everybody that was going to be getting a
3 license initially was going to be already in that regulated
4 market.

5 Q All right. And so it sounds like the Task Force
6 recognized that we'll use medical as a starting point, but
7 maybe we can make some improvements?

8 A Right.

9 Q And what else is referenced there, it says, "Except
10 for a change in how local jurisdictions participate in
11 selection of locations." So that -- is that what we've been
12 talking about with respect to the selection of locations?

13 A Yes.

14 Q And that was something that was talked about in the
15 Task Force and among the industry?

16 A Right.

17 Q And was there anybody that was vehemently opposed to
18 that?

19 A To --

20 Q To changing so that the selection of the locations,
21 that that modification was proposed. Did anybody come forth
22 and say, no, no, no, no, no, it was perfect under medical, we
23 want to keep it just like it was, we want to have locations
24 all locked up?

25 A Well, I think under the initiative the wording was a

1 little bit different. So there was a recognition that that
2 process would be a little bit different because of that
3 affirmance language. So it wasn't like the local government
4 could say no, they could just, you know, not say yes. You
5 know, the way that it's worded was a little awkward.

6 Q Yeah.

7 A But the understanding of that was that -- was to
8 eliminate some of the initial problems that had occurred under
9 the medical licensing wherein the State issued licenses and
10 the County issued licenses to different people. And so
11 basically if you -- you need an overall marijuana license and
12 when you've been, you know, deemed to have met some of those
13 requirements then you go -- you do the local government piece.
14 And, you know, because it's -- again, because specifically in
15 the initiative there's land use and zoning requirements that
16 are left to the local government, you have to figure out how
17 the two pieces can work together. And so there was in the
18 Task Force and in other -- the regulatory process there was
19 the discussion that the State does the initial review and
20 issues the conditional -- you know, does the ranking, issues
21 the conditional approval and then the local government does
22 its piece.

23 Q Okay. And there was -- during this Task Force and
24 during the workshops and during the lead up to the adoption of
25 the regulations, was there consideration or discussion about

1 maybe we should require specific locations and grade those and
2 consider those as part of the ranking of the applications?

3 A Uh, you know, I think there was some consideration,
4 but just looking at the language of the initiative, you know,
5 and again the conversations that I had with various legal
6 counsel, including at the legislature, that the process was to
7 be the State reviews and then the local government does their
8 piece.

9 Q All right. And I guess just in sum it sounds to me
10 like this wasn't just on a lark I'm going to make a decision
11 and just put it as part of the regulations, it was discussed
12 quite a bit.

13 A Yeah. Everything was discussed extensively.

14 Q Let's go to page 114, Bates number 2610 of that same
15 exhibit. And this is the section regarding -- from the
16 working group for taxation revenue, regulatory structure,
17 ownership issues and licensing requirements. And I believe
18 Mr. Gutierrez asked you about a couple of these spots where
19 the sponsor was, among others, John Ritter. Do you see that?

20 A Yes.

21 Q Okay. And the recommendations here -- before we
22 talk about the text of the actual recommendations, there are
23 several items that are bracketed below in bold. And the first
24 one says, "In order to make the medical program consistent,
25 you need to change NRS 453A.332, paragraph 5." And the next

1 one under B says, "In order to make the medical program
2 consistent, you need to change NRS 453A." So was there a
3 concern or consideration about consistency between medical and
4 recreational regulations and statutes?

5 A Well, to the extent that initially only -- Yes, I
6 mean, that was a consideration. I mean, the entities had been
7 working under one process and, you know, how would they go and
8 work under another process, so there was some attempt to be
9 consistent.

10 Q And those -- you're talking about the entities. All
11 these entities were essentially the same entities?

12 A Yes, they were the same.

13 Q They had to have a medical license?

14 A Yeah. Yes.

15 Q And one of the recommendations here, then, it
16 specifically says under 5A: "Require only owners of 5 percent
17 or more cumulatively -- see below for a definition of
18 cumulatively -- officers and board members of the company
19 holding license to be fingerprinted, be required to undergo a
20 background check and resubmit a new application for license
21 renewal." So that was specifically something discussed by the
22 Task Force and recommended as part of the Task Force, the 5
23 percent requirement?

24 A Yes.

25 Q Do you know, by the time that you left, were any of

1 the marijuana establishments that you're aware of, did they
2 have any public ownership, publicly traded companies?

3 A I don't -- I don't recall. I wouldn't know.

4 Q Okay. Based upon the requirement to perform
5 background checks and do fingerprints, do you have an opinion
6 of whether it would be reasonable to expect the Department to
7 conduct background checks and obtain fingerprints if a company
8 had let's say millions of shareholders? Would that be
9 possible for the Department to do that?

10 A No.

11 Q What was that?

12 A No.

13 Q Okay. And would you expect --

14 A I mean, it would be possible, but it would take a
15 really, really long time.

16 Q It would maybe be --

17 A Longer than it does already. I know that's a
18 complaint.

19 Q It might be impractical?

20 A Yes.

21 Q And if you turn to the next page, 2611 Bates number,
22 when that 5 percent of the ownership recommendations were
23 considered, the Task Force appears to have considered Guiding
24 Principles there under Item 4. Do you see that?

25 A Yes.

1 Q And Guiding Principle 2 is being responsive to the
2 needs and issues of consumers, non consumers, local
3 governments and the industry. And then Guiding Principle 4,
4 to propose efficient and effective regulation that is clear
5 and reasonable and not unduly burdensome. Did you believe
6 that those guiding principles were satisfied with respect to
7 this 5 percent requirement?

8 A Yes.

9 Q And it actually says in Item 5, "What provision or
10 provisions of Question 2 does this recommendation apply to?"
11 And then it points to section 2(b) of I.P. 1, stating that the
12 business owners must be suitable. And then in section 5 of
13 paragraph 1 of I.P. 1, that the regulations should not be
14 unreasonably impracticable. So these specific sections of the
15 initiative were considered in making this recommendation, is
16 that right?

17 A Yes.

18 Q And then lastly, Item 6, "What issue does the
19 recommendation resolve?" It states, "To allow companies that
20 own marijuana establishment licenses in which there are
21 multiple owners no less than 5 percent, in some cases far
22 less, to be able to operate practically and efficiently; to
23 allow companies that own marijuana establishment licenses to
24 function based on their governing documents as companies are
25 allowed to do in other industries." So did you believe that

1 this proposed regulation did allow marijuana establishments to
2 operate as companies are allowed to do in other industries --

3 A Yes.

4 Q -- such as alcohol?

5 A Yes.

6 Q Any of the regulations that you believe were adopted
7 did you consider them to be arbitrary?

8 A No.

9 Q Did you believe them to be reasonably related to the
10 operation of marijuana establishments?

11 A Yes.

12 MR. KOCH: Thank you. No further questions.

13 THE COURT: Anybody else on the defendants in
14 intervention team? Mr. Shevorski?

15 MR. SHEVORSKI: No questions, Your Honor.

16 THE COURT: Anyone from the plaintiff side? We've
17 got 18 minutes before we break for the day.

18 MR. KEMP: Might as well, Your Honor.

19 THE COURT: Thank you, Mr. Kemp.

20 CROSS-EXAMINATION

21 BY MR. KEMP:

22 Q Good afternoon, ma'am.

23 A Good afternoon.

24 Q Now, when we were discussing -- when Mr. Gutierrez
25 was discussing the phrase "unreasonably impracticable," you

1 brought up three times an example of someone in Ohio that
2 owned .5 percent that had to sign something. Do you recall
3 that?

4 A Yes.

5 Q And so that was the example that you gave and that
6 was .5 percent; right?

7 A Well, it was just a random thing. It was based on
8 a cumulation of examples or discussions that had occurred
9 with --

10 Q Okay. Well, maybe it was random, but that was the
11 random one that you used three different times, .5 percent;
12 right?

13 A Yeah.

14 Q Now, as the Court went on with you that the
15 initiative petition said "every," it didn't say everyone with
16 50 percent; right?

17 A Right.

18 Q And if the Department wanted to it could have done
19 background checks on, say, everyone over 51 percent ownership;
20 right?

21 A Well, I think it would have had to go through the
22 regulatory process. I mean -- you mean it could have adopted
23 -- it could have --

24 Q Sure. Sure.

25 A Yes, it could have proposed that, I guess, yes.

1 Q And you think over 51 percent would have met the
2 standard of unreasonably impracticable that would have allowed
3 you to do that; right?

4 A Well, I think that that's one prong of it, making
5 regulations that -- to carry out -- that are necessary and
6 convenient to carry out the provisions. And also looking at
7 some of the other guiding principles and the overall public
8 health and safety issues related to implementation.

9 Q And obviously it would have been more convenient
10 just to do background checks on people with 51 percent
11 ownership because there would be less of them; right?

12 A Well, then you're not looking at necessarily the
13 public health and safety component.

14 Q So you think the public health requirement should be
15 somewhat under 51 ownership for background checks?

16 A I think that some discussion throughout this process
17 that occurred was what provision --

18 Q Could you answer my question first and then I'll let
19 you explain out -- expand.

20 A I think the Department could say they wanted 51
21 percent. I don't think that that regulation would go through
22 the process and be approved because of the balancing of --

23 Q You think 51 percent would be inconsistent with
24 Question 2?

25 A Well, I think if the Department had to apply -- if

1 the Department was only going to background somebody that had
2 51 percent, then they wouldn't be looking at any other factors
3 within the initiative. And so I think, yes, it would be
4 inconsistent.

5 Q How about 50 percent?

6 A I think the discussion was around this 5 percent
7 that was proposed.

8 Q I'm not asking what the discussion was around. I'm
9 asking whether you thought 50 percent would be inconsistent
10 with Question 2?

11 A Uh, if 50 percent would be inconsistent with
12 Question 2? I think it would be, yes.

13 Q How about 40 percent?

14 A I don't know.

15 Q So 40 percent could have been --

16 A I think --

17 Q -- consistent with Question 2 in your view?

18 A I don't know. I'd probably have to do a little bit
19 more research. I think that the 5 percent was a suggestion
20 and then there was some analysis that went in looking at it
21 and making sure that, you know, it would still be consistent
22 and that it would fall under the Department making -- you
23 know, not making regulations that prohibited operations of the
24 industry.

25 Q So 40 percent could have been consistent, but you'd

1 have to think about it? Is that where we wind up?

2 A Yes.

3 Q And so I guess 35, 30, 25, those all could have been
4 consistent, too, but you'd have to think about them, too?

5 A Five percent is a relatively low amount of ownership
6 traditionally. If somebody has a 5 percent ownership of a
7 company they're not making decisions, they're not -- they
8 don't have enough influence over what is happening, and that
9 was the analysis that kind of went into that. So I guess if
10 you threw out a number, then you'd have to kind of do that
11 same type of analysis along the way and determine if --

12 Q Okay. But just to be clear here, 40, 35, 30, 25,
13 20, 15, 10 percent, your position is that they could all be
14 consistent with Question 2, but you'd have to think about it;
15 right?

16 A Right.

17 Q Okay. And I guess -- let's go to 10 --

18 A I mean, based on kind of the parameters that I just
19 explained.

20 Q Let's go to 10 percent. Ten percent you would agree
21 would probably be consistent in your mind with Question 2?

22 A I don't know.

23 Q Okay. Now, the voters voted on every owner having
24 background checks; right? Right?

25 A Yes.

1 Q They didn't vote on 1 percent, 5 percent, 10
2 percent, 51 percent. That's not what they voted on, did they?
3 A No.
4 Q Okay. And you remember that that was a pretty close
5 vote, ten thousand?
6 A Right.
7 Q So do you think it would have been the same vote if
8 you had every person having to have a background checked as
9 opposed to only 51 percent owners have background checks? Do
10 you think that might have changed some voters?
11 MS. SHELL: Objection. Calls for speculation.
12 THE COURT: Overruled.
13 THE WITNESS: I don't know.
14 BY MR. KEMP:
15 Q Could it change --
16 A I don't -- honestly, I don't believe the owners even
17 knew about this provision, but --
18 Q Owners or voters?
19 A I mean the voters.
20 Q So was one of the reasons the Department discarded
21 the language every owner should have background checks was
22 because you didn't think the voters understood that?
23 MS. SHELL: Objection. Misstates the testimony.
24 THE COURT: Overruled.
25 MR. KOCH: Lacks foundation. Argumentative.

1 THE COURT: Overruled.

2 MS. SHELL: Thank you.

3 THE WITNESS: I don't think that the Department

4 disregarded that language.

5 BY MR. KEMP:

6 Q Well, it didn't apply that language, did it?

7 A I think the Department applied the language in

8 interpreting the statute to make the regulation. When it did

9 so it was also balancing that provision with the provision

10 that it not make rules that are impractical or unreasonable or

11 unduly burdensome. And so --

12 Q Can you really testify under oath that it would have

13 been unreasonably burdensome to background checks on 4.5, 5,

14 5.5, 6? Can you really say under oath that that would have

15 made a difference to the Department?

16 MS. SHELL: Objection.

17 MR. SHEVORSKI: Objection. Argumentative.

18 THE COURT: Overruled.

19 THE WITNESS: I don't know. I'm saying that the

20 Department was taking into consideration and concern some of

21 the feedback that the industry had with respect to the burden

22 that each -- that everybody operating, even in a very

23 inability to control any kind of aspect of the business. And

24 so --

25 //

1 BY MR. KEMP:

2 Q Okay, listen to my question. My question was --

3 THE COURT: Wait. Let her finish.

4 MR. KEMP: Go ahead.

5 THE COURT: You can finish.

6 THE WITNESS: And so the analysis that went into
7 that percentage was, okay, is there some ability for the
8 Department to still protect the public safety of -- does this
9 still protect public safety? Does this allow us to -- allow
10 the Department to have information with respect to a
11 background check of the people that are essentially in control
12 of what happens at the establishment as opposed to somebody
13 that doesn't live in the state or --

14 BY MR. KEMP:

15 Q Would 4.5 percent or 5.5 percent be in your view any
16 more unreasonably impracticable than 5 percent?

17 A No.

18 Q 3.5 percent to 6.6 percent, any more unreasonably
19 impracticable than 5 percent?

20 A I don't know. I mean, as you start to get to 10, I
21 think we'd have to look at some additional analysis. I don't
22 know all the constructs of what goes into a company, so I
23 think there would have to be some advice that we'd seek.

24 Q Okay. Well, earlier you told me that .5 percent
25 was, in your words, random. Do you recall that?

1 A Yes.

2 Q Five percent is random, too, isn't it?

3 A Well, again, it was -- as I've stated, the analysis
4 went along the lines of what is burdening the industry and
5 Question 2 says that we don't make rules that are impractical
6 or unduly burdensome. This is something that has said -- that
7 the industry has said is burdensome to them. And then looking
8 at what our responsibility was in order to maintain -- to make
9 sure that people were vetted that could affect the operations
10 of the business and could -- to have an overall say in the
11 business that could lead to some type of criminal activity.
12 Five percent is a low enough percentage that the Department
13 felt that it could balance those competing interests.

14 Q So is that a yes answer to my question that 5
15 percent is random or was that a no answer to my question as to
16 5 percent being random?

17 A No.

18 Q So that was a no. You don't think 5 percent was
19 just a random figure that the Department pulled out of the
20 air?

21 A It was not random in the context of the explanation
22 that I gave.

23 Q Okay. You keep talking about this analysis that the
24 Department -- the Department supposedly did at 5 percent;
25 right?

1 A Well, through --

2 Q That's what you said --

3 A Yes.

4 Q -- the Department did an analysis of the 5 percent

5 figure. The Department did it; right? Right? That's what

6 you said. Is that what you said?

7 A Yes.

8 Q Mr. Gilbert testified that he drafted the temporary

9 regulations. Is that true or not?

10 MR. KOCH: Objection. Misstates the testimony.

11 THE COURT: Overruled.

12 THE WITNESS: I'm sorry, the question is did --

13 BY MR. KEMP:

14 Q Mr. Gilbert said that he was the primary

15 draftsperson of the temporary regulations. True or false?

16 Was he or was he not?

17 A I don't know what he means by primary. Again, I

18 think I've explained the process. I mean, he was involved.

19 Q Well, actually you haven't explained the process.

20 You said, quote, "We drafted temporary regulations." You

21 never said who put pen to paper to draft them. Did you do

22 that?

23 A Yes, as part --

24 Q You were the one who took -- you put pen to paper

25 and drafted it?

1 MR. SHEVORSKI: Objection. He's got to let her
2 finish her answer, please.

3 THE COURT: You do have to let her finish it.

4 MR. KEMP: Go ahead.

5 THE WITNESS: So as I explained the process before,
6 it was a group effort. And nobody put pen to paper because
7 they put fingers to keyboards. So we all had, you know, kind
8 of different categories. Maybe some person drafted -- I don't
9 remember who drafted every single piece of information. There
10 was a drafting process internally within the agency and those
11 provisions were submitted for public review.

12 BY MR. KEMP:

13 Q So as we sit here today, you don't remember if you
14 drafted it, if Mr. Gilbert drafted it, if Mr. Pupo drafted it
15 or someone else drafted it, is that correct?

16 MR. SHEVORSKI: Objection. Vague.

17 THE COURT: Overruled.

18 THE WITNESS: Drafted what?

19 BY MR. KEMP:

20 Q The regulations.

21 A The temporary regulations?

22 Q The temporary regulations.

23 A We all drafted the temporary regulations.

24 Q Okay. With regards to the 5 percent provision, who
25 drafted that?

1 A I guess I'm -- you mean who typed it up?

2 Q What do you understand the word draft to mean?
3 Writing apparently is not what was used. Typing? Who typed
4 it up originally?

5 A So as I've explained the process, so the Task Force
6 met. There were the recommendations. Those recommendations
7 were typed up by QuantumMark. They were adopted. Then
8 information from those regulations were copied and pasted into
9 a separate document, along with other information that was
10 gathered along the way, or if somebody in staff was like, hey,
11 look at what they're doing in Colorado or look at what they're
12 doing this. And then the document was put all together and
13 the document was actually physically put together and
14 information was sent to the compiler and then once everything
15 was compiled the agency made some decisions on what the final
16 draft would look like that we would workshop.

17 Q So my question was who drafted the 5 percent. Can
18 you answer that?

19 A The 5 percent came out of a recommendation from the
20 working group.

21 Q So the government's advisory task force drafted the
22 5 percent?

23 A Well, the recommendation --

24 Q Who first drafted --

25 THE COURT: Wait. You've got to let her finish,

1 Mr. Kemp.

2 MR. KEMP: Your Honor, I'm getting flashbacks of --

3 THE COURT: I know, but we've still got to let her
4 finish.

5 THE WITNESS: Well, I guess I'm just having trouble
6 with what you mean by drafted. As I've explained, the process
7 is --

8 Q Okay. Let's try --

9 THE COURT: Wait. Let her finish.

10 THE WITNESS: The process initiated with the
11 Governor's Task Force. There were recommendations that came
12 out of that. The process also considered -- so it reviewed
13 those recommendations and it also -- the process also
14 considered what was in 453A, what other states were doing.
15 An original draft was compiled. So nobody just sat down on a
16 blank slate and started writing. There was information that
17 was all compiled together and then the agency went through and
18 made decision points on the 5 percent. So based on the
19 recommendation from the Task Force that was drafted into a
20 document that a lot of people had input into drafting and then
21 it went through the workshop process.

22 BY MR. KEMP:

23 Q So if Mr. Gilbert said it was copied from the
24 medical marijuana provision, that's a mistake, that's wrong;
25 right?

1 A I don't know about -- I don't know where -- again,
2 medical was a basis. The Task Force was a basis. Other
3 states was a basis. At this point I'm not sure where
4 everything -- you know, what decision points happened at which
5 time and how things were pulled together, but that was the
6 process that we went through.

7 Q So is it fair to say you don't know who drafted the
8 5 percent or what the basis of it was? Is that fair to say?

9 A No.

10 Q Okay. Then who drafted it? Who was the first
11 person that wrote 5 percent after Question 2 was passed?

12 MR. KOCH: Objection. Asked and answered many
13 times.

14 THE COURT: Overruled.

15 THE WITNESS: That basically took the recommendation
16 and put it in written form?

17 BY MR. KEMP:

18 Q Question 2 was passed; yes? Yes?

19 A Yes.

20 Q Who was the first person at the Department of
21 Taxation to draft 5 percent for background checks?

22 A So, the contractor compiled information in writing
23 based --

24 Q That would be QuantumMark?

25 A Yes. Based on --

1 Q So -- Go ahead.

2 A Based on the work in the working group, it was
3 reduced to writing. Maybe John Ritter wrote some of it. I
4 don't know because I wasn't in every working group. But that
5 process then was reduced to this -- the recommendation within
6 the Task Force, that was then presented to the overall Task
7 Force for review and approval. And then -- so I guess the
8 answer to your question would be the first time such a
9 recommendation was reduced to writing would have been the
10 recommendation of the working group. And then --

11 Q Which would have been in the year 2017, is that
12 right?

13 A Yes.

14 Q Is that right?

15 A Yes.

16 Q Okay. So the fact that it's basically identical to
17 the medical marijuana one in 2014, that's a mere coincidence?

18 A I don't -- it's not a coincidence.

19 Q So that was not the source of the 5 percent?

20 A Well, again, like I just said, I don't know where
21 everything came from, but -- and I explained kind of where
22 different things came from. And once the information was all
23 compiled, then the discussion happened about what would be in
24 and what would be out and then we went through the working
25 group.

1 Q Okay. Let's stay away from --

2 THE COURT: This is our -- wait. This is our place

3 for breaking for the day. It's 4:45. I have an argument on

4 closing on another trial tomorrow morning at 8:30. I should

5 be ready for you by ten o'clock.

6 MR. KEMP: Ten o'clock, Your Honor.

7 THE COURT: What's my plan for next week, guys?

8 MR. KOCH: Can I ask first, are we -- tomorrow after

9 finishing Ms. Contine, is there anybody else that is going to

10 be called?

11 THE COURT: Is Mr. Groesbeck coming tomorrow or any

12 of the other people who were identified coming tomorrow?

13 MR. KOCH: I've been told he's not coming tomorrow.

14 MR. KEMP: Your Honor, let's --

15 THE WITNESS: I just wanted to know about tomorrow a

16 little bit, like when we might be done, because I do have some

17 actual work.

18 THE COURT: Real work?

19 THE WITNESS: Yeah.

20 THE COURT: How long have you got, Mr. Kemp, at the

21 pace you're going?

22 MR. KEMP: At the pace I'm going, I probably have

23 five hours, Your Honor. I'm serious, Your Honor. This is

24 turning into another --

25 THE COURT: Mr. Kemp, that's okay.

1 What obligations do you have, ma'am? Because I've
2 got next week, too. So unless you're going to be on vacation
3 next week, we could call Friday off and see you on Monday.

4 THE WITNESS: I kind of have to clear it with my
5 boss, too.

6 THE COURT: Isn't your boss the Governor now?

7 THE WITNESS: Yes. And he expects me to do my --

8 THE COURT: He wanted this thing about transparency.

9 THE WITNESS: Tomorrow I have a one o'clock and a
10 three o'clock. If I have to move them -- well, the three
11 o'clock is a large conference call on an issue.

12 THE COURT: Is it easier for you to come Monday or
13 tomorrow?

14 THE WITNESS: Tomorrow.

15 THE COURT: Okay.

16 THE WITNESS: But can I be done by three?

17 MR. KEMP: Judge, it's up to her, it's not up to me.

18 THE COURT: I'm going to work through lunch.

19 THE WITNESS: Or 2:45 because I have to make -- I
20 have to be on a large conference call.

21 MR. GENTILE: Your Honor, we have no problem if she
22 leaves at three and comes back on Monday, but I don't see any
23 way she's done by three.

24 THE COURT: Okay. So I will have you talk with Mr.
25 Shevorski and the team --

1 THE WITNESS: Okay.

2 THE COURT: -- to see what the other options are if
3 we do not finish. In any case, we will break you at 2:45
4 tomorrow so you can get to your conference call.

5 THE WITNESS: Okay. Thank you.

6 THE COURT: How's that?

7 THE WITNESS: Yes.

8 THE COURT: And then you and Mr. Shevorski are going
9 to work out because poor Mr. Gilbert I think sat here for four
10 days. Some of the time he was just in the audience.

11 MR. SHEVORSKI: Over several weeks.

12 THE COURT: Yeah. All right, what else have you
13 got? What's my plan for next week, guys?

14 MR. KOCH: We have Monday available. Is everyone
15 available Monday? Is Mr. Groesbeck available?

16 THE COURT: I've got to have witnesses. Having you
17 guys show up without witnesses is not productive.

18 MR. KEMP: Judge, I want to talk about --

19 MR. KOCH: I understand Mr. Groesbeck to be the next
20 witness.

21 MR. KEMP: He keeps saying Mr. Groesbeck. I told
22 him if we were going to get done today, which was the original
23 plan, that I would have Mr. Groesbeck cancel ten different
24 business appointments and be here tomorrow so we can get done.
25 Last night, knowing that, they added five more plaintiff's

1 witnesses -- witnesses of plaintiffs. So I told Mr. --

2 THE COURT: They did. They did. You've got
3 different groups. Remember, it was over there.

4 MR. KEMP: Yeah, they did. So I told Mr. Groesbeck
5 that, you know, there's really no need to cancel his
6 appointments because he's going to -- you know, they're going
7 to go on through next week, so I've not talked to him about
8 what day. But this isn't my case-in-chief, this is their
9 case-in-chief.

10 THE COURT: Well, all I'm trying to figure out is
11 scheduling. There was an identification of five to six people
12 that needed to still testify in their case. I have given the
13 plaintiffs a lot of latitude because no discovery was done
14 prior to this evidentiary hearing. I am going to extend the
15 same courtesy to the defendants because that's the fair thing
16 to do. So since they're your client representatives, I just
17 need to know what day you want me here to hear them next week.

18 MR. KEMP: Judge, I would say Tuesday for Mr.
19 Groesbeck, without talking to him, because I don't think we're
20 going to get done with Ms. Contine until --

21 THE COURT: She says she can't come back on Monday.
22 Assume for a minute she can't come back on Monday but maybe
23 can come later in the week.

24 MR. KEMP: I thought she said she could come on
25 Monday.

1 THE COURT: No, which is why I told her to talk to
2 Mr. Shevorski because I don't want to get involved in the
3 prioritization of State business.

4 MS. HIGGINS: Your Honor, neither I nor Mr. Graf is
5 available Tuesday. I have ten hearings and he has hearings
6 all day on Tuesday.

7 MR. KEMP: Judge, I can try and get Mr. Groesbeck
8 here on Monday, but he's only one of the eight.

9 THE COURT: I know. That's why I'm asking.
10 Mr. Gentile.

11 MR. GENTILE: We have agreed to accept service with
12 regard to Mr. Scolari, not to the others, so I don't know if
13 service has been had.

14 THE COURT: Well, they don't need to subpoena your
15 client representative.

16 MR. GENTILE: Well, it's --

17 THE COURT: Okay.

18 MR. GENTILE: I haven't even been able to --

19 THE COURT: Pick a client representative to show up,
20 you know.

21 MR. GENTILE: Any client representative?

22 THE COURT: It's like he's going to ask them --

23 MR. GENTILE: Well, he's asked for specific people.

24 THE COURT: I know, but he's got a list of six
25 questions to ask and they're basically the same, so it doesn't

1 really -- I know what he's trying to do and I'm going to let
2 him do it, but we just need to have the people show up.

3 MR. GENTILE: Well, believe it or not --

4 THE COURT: Really?

5 MR. GENTILE: -- we found Jimmy Hoffa.

6 THE COURT: Did you?

7 MR. GENTILE: Yes.

8 THE COURT: Good.

9 MR. GENTILE: And he will be there on the stand.

10 THE COURT: Good. Great. I'm so glad to hear that.

11 So what day -- you don't need me on Tuesday because we have a
12 conflict with Clear River's counsel not being able to be here.
13 And since I made a doctor's appointment that day, it's going
14 to be okay. So do you guys want to plan to do at least one
15 witness on Monday and then try to do the rest on Wednesday?

16 MR. KOCH: I think we do as many as we can on
17 Monday. I'm not available on Wednesday, but Monday if we can
18 do as many -- Mr. Groesbeck and as many of the other
19 individuals. Maybe we can get them all done if they're all
20 here. If Ms. Contine is not available on Monday, we can get
21 the rest of them done, finish her up, if necessary. I don't
22 think she needs to go past tomorrow, but that's not my call.
23 I would ask --

24 THE COURT: I know it's not.

25 MR. KOCH: Keep arguing with her. So I think we can

1 get that done tomorrow, get the other witnesses done on Monday
2 and I think we're pretty close.

3 THE COURT: So, Mr. Shevorski, I'm going to task you
4 with talking to Ms. Contine because I understand she does have
5 other responsibilities. And since she's no longer with the
6 Department of Taxation, I'm not going to do what I did to Mr.
7 Gilbert and just make her sit in the room the whole time. I
8 would like you to try and -- your team to try and figure out
9 when a convenient day next week is if she doesn't finish
10 tomorrow before 2:45 so I know what the plan is because I'm
11 just trying to figure out my week next week. So if I have to
12 volunteer to help other judges with settlement conferences I
13 will have that, since I've gotten the third email today asking
14 if I can help out and I keep ignoring them.

15 MR. SHEVORSKI: We'll get it done.

16 THE COURT: Okay. Will you tell me tomorrow?

17 MR. SHEVORSKI: Yes, Your Honor.

18 THE COURT: Okay.

23 each and every allegation contained therein.

24 47. Answering Paragraph 47 of the Counterclaim, Plaintiffs/Counter Defendants admit
25 that they did not initially name Defendants-in-Intervention as defendants in this action, however,
26 Plaintiffs have sought relief that might limit or preclude Defendants-in-Intervention from being
27 able to move forward with obtaining final inspections for marijuana establishments under current
28 regulations. As to the remaining allegations, Plaintiffs deny.

48. Answering Paragraph 48 of the Counterclaim, Plaintiffs/Counter Defendants deny each and every allegation contained therein.

AFFIRMATIVE DEFENSES

1. The Counterclaim fails to state a claim against Plaintiffs upon which relief may be granted.

2. Defendant-in-Intervention's claim is barred due to the absence of any legitimate controversy between Defendant-in-Intervention and Plaintiffs.

3. Defendants-in-Intervention failed to mitigate, minimize, or otherwise avoid their losses, damages, or expenses.

4. If Defendants-in-Intervention were injured and damaged as alleged, which is specifically denied, then the injuries and damages were caused, in whole or in part, by the acts or omissions of others, whether individuals, corporate or otherwise, whether named or unnamed in the Counterclaim, for who conduct Plaintiffs are not responsible.

5. Defendants-in-Intervention's claim is barred by waiver.

6. Defendants-in-Intervention's claim is barred by the doctrine of unclean hands.

7. Defendants-in-Intervention are barred from seeking equitable relief because it has adequate legal remedies form any alleged injuries.

8. Defendants-in-Intervention have been unjustly enriched to the injury and detriment of the Plaintiffs, and therefore, are not entitled to any relief by way of Defendant-in-Intervention's claim.

9. In preforming the actions complained of, the Plaintiffs acted in the ordinary course of business.

10. Defendants-in-Intervention's claim fails because of intervening and superseding cause for the injury alleged in the Counterclaim.

11. Pursuant to Nevada Rules of Civil Procedure ("NRCP") Rule 11, all possible affirmative defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of this Answer, and therefore, Plaintiffs / Counter Defendants reserves the right to amend their Answer to add affirmative defenses should

1 the necessity arise.

2 12. It has been necessary for Plaintiffs / Counter Defendants to retain the services of
3 an attorney to defend this action and a reasonable sum should be allowed Plaintiffs / Counter
4 Defendants as for the attorney's fees, together with his costs expended in this action.

5 13. Some affirmative defenses may have been pled for purposes of non-waiver.
6 Plaintiffs / Counter Defendants reserves the right to amend the affirmative defenses as discovery
7 progresses.

8 **WHEREFORE**, Plaintiffs/ Counter Defendants pray that Defendant/Counterclaimant
9 take nothing by way of their Counterclaim on file herein and that Plaintiffs/Counter Defendants
10 be awarded reasonable attorney's fees and costs and such other and further relief as the Court
11 may deem just and proper for having to defend this action.

6 GENERAL ALLEGATIONS

7 16. The Nevada State Legislature passed a number of bills during the 2017
8 legislative session that affected the licensing, regulation, and operation of recreational marijuana
9 establishments in the state of Nevada. One of those bills, Assembly Bill 422, transferred
10 responsibility for the registration, licensing, and regulation of marijuana establishments from the
11 State of Nevada's Division of Public and Behavioral Health to the Department of Taxation.

12 17. This legislation was added to the voters' approval at the 2016 General Election of
13 2016 initiative petition, Ballot Question No. 2; is known as the "Regulation and Taxation of
14 Marijuana Act"; and is codified at NRS 453D.010, *et seq.* Nevada Revised Statutes ("NRS")
15 pursuant to

16 18. NRS 453D.020 (Findings and declarations) provides:

17 "1. In the interest of public health and public safety, and in
18 order to better focus state and local law enforcement resources on
19 crimes involving violence and personal property, the People of the
20 State of Nevada find and declare that the use of marijuana should
be legal for persons 21 years of age or older, and its cultivation and
sale should be regulated similar to other legal businesses.

21 2. The People of the State of Nevada find and declare that the
22 cultivation and sale of marijuana should be taken from the domain
23 of criminals and be regulated under a controlled system, where
businesses will be taxed and the revenue will be dedicated to
public education and the enforcement of the regulations of this
chapter.

24 3. The People of the State of Nevada proclaim that marijuana
should be regulated in a manner similar to alcohol so that:

25 (a) Marijuana may only be purchased from a business that is
26 licensed by the State of Nevada;

27 (b) Business owners are subject to a review by the State of
28 Nevada to confirm that the business owners and the business
location are suitable to produce or sell marijuana;

(c) Cultivating, manufacturing, testing, transporting and selling marijuana will be strictly controlled through state licensing and regulation;

(d) Selling or giving marijuana to persons under 21 years of age shall remain illegal;

(e) Individuals will have to be 21 years of age or older to purchase marijuana;

(f) Driving under the influence of marijuana will remain illegal; and

(g) Marijuana sold in the State will be tested and labeled.”

19. NRS 453D.200 (Duties of Department relating to regulation and licensing of marijuana establishments; information about consumers) provides:

“1. Not later than January 1, 2018, the Department shall adopt all regulations necessary or convenient to carry out the provisions of this chapter. The regulations must not prohibit the operation of marijuana establishments, either expressly or through regulations that make their operation unreasonably impracticable. The regulations shall include:

(a) Procedures for the issuance, renewal, suspension, and revocation of a license to operate a marijuana establishment;

(b) *Qualifications for licensure that are directly and demonstrably related to the operation of a marijuana establishment;*

....

2. The Department shall approve or deny applications for licenses *pursuant to NRS 453D.210*” (emphasis added).

20. NRS 453D.210 (Acceptance of applications for licensing; priority in licensing; conditions for approval of application; limitations on issuance of licenses to retail marijuana stores; competing applications), in turn, provides, in pertinent part:

“4. Upon receipt of a complete marijuana establishment license application, the Department shall, within 90 days:

(a) *Issue the appropriate license if the license application is approved.*

5. The Department shall approve a license application if:

(a) The prospective marijuana establishment has submitted an application in compliance with regulations adopted by the Department and the application fee required pursuant to NRS 453D.2;

6. When competing applications are submitted for a proposed retail marijuana store within a single county, the Department shall use an *impartial and numerically scored competitive bidding process* to determine which application or applications among those competing will be approved” (emphasis added).

1 21. According to an August 16, 2018 letter from the Department, pursuant to
2
3 Section 80(3) of Adopted Regulation of the Department of Taxation, LCB File No. R092-17
4 ("R092-17"), the Department was responsible for allocating the licenses of recreational
5 marijuana retail stores "to jurisdictions within each county and to the unincorporated area of
6 the county proportionally based on the population of each jurisdiction and of the
7 unincorporated area of the county."

8 22. The Department issued a notice for an application period wherein the
9 Department sought applications from qualified applicants to award sixty-four (64) recreational
10 marijuana retail store licenses throughout various jurisdictions in Nevada.

11 23. The application period for those licenses, including thirty-one (31) licenses in
12 Clark County, seven (7) licenses in Washoe County and one (1) license in Nye County, opened
13 on September 7, 2018 and closed on September 20, 2018.

14 24. Pursuant to Section 6.2 of the Recreational Marijuana Establishment License
15 Application ("the Application") issued by the Department, as enabled under the above-quoted
16 provisions of NRS 453D.210, if the Department received more than one application for a license
17 for a recreational marijuana retail store and the Department determined that more than one of the
18 applications was complete and in compliance with R092-17, Sec. 78 and NRS 453D, the Department
19 was required to rank the applications within each applicable locality for any applicants in a
20 jurisdiction that limits the number of retail marijuana stores in order from first to last, with ranking
21 being based on compliance with the provisions of R092-17 Sec. 80, NRS 453D and on the content of
22 the applications relating to the following specifically-enumerated and objective published criteria:

- 23 a. Operating experience of another kind of business by the owners, officers or board
24 members that has given them experience which is applicable to the operation of a
25 marijuana establishment.
26 b. Diversity of the owners, officers or board members.
27 c. Evidence of the amount of taxes paid and other beneficial financial contributions.
28 d. Educational achievements of the owners, officers or board members.

- 1 e. The applicant’s plan for care, quality and safekeeping of marijuana from seed to
2 sale.
3 f. The financial plan and resources of the applicant, both liquid and illiquid.
4 g. The experience of key personnel that the applicant intends to employ.
5 h. Direct experience of the owners, officers, or board members of a medical
6 marijuana establishment or marijuana establishment in this State.

7 24. However, no numerical scoring values are assigned to any of the foregoing
8 criteria enumerated in the Application.

9 25. Moreover, Section 6.3 of the Application further provides that “[a]pplications
10 that have not demonstrated a sufficient response related to the criteria set forth above will not
11 have *additional [unspecified, unpublished] criteria* considered in determining whether to issue a
12 license *and will not move forward in the application process*” (emphasis added).

13 26. Thus, by necessary implication, conversely, Section 6.3 of the Application
14 textually subjects an Application which *has* in fact demonstrated a “sufficient” response related
15 to the specific, published criteria set forth above to “*additional [unspecified, unpublished]*
16 *criteria*,” consideration of which by the Department will determine whether or not a license is
17 issued and whether or not a license Application will “*move forward in the application process*,
18 notwithstanding the textual requirement of NRS 453 D. 200.1(b) that the Department shall adopt
19 only regulations that prescribe “[q]ualifications for licensure that are directly and *demonstrably*
20 related to the operation of a marijuana establishment” (emphasis added).

21 27. No later than December 5, 2018, the Department was responsible for issuing
22 conditional licenses to those applicants who score and rank high enough in each jurisdiction to be
23 awarded one of the allocated licenses in accordance with the impartial competitive bidding process
24 mandated by NRS 453D.210.

25 28. The Department allocated ten (10) licenses for unincorporated Clark County,
26 Nevada; ten (10) licenses for Las Vegas, Nevada; six (6) licenses for Henderson, Nevada; five (5)
27 licenses for North Las Vegas, Nevada; six (6) licenses for Reno, Nevada; one (1) license for Sparks,
28 Nevada; and one (1) license for Nye County, Nevada.

29. Plaintiffs submitted Applications for licenses to own and operate recreational marijuana retail stores in compliance with the specified, published requirements of Department regulations together with the required application fee in accordance with NRS 453D.210.

30. Plaintiffs have been informed by the Department that all of their Applications to operate recreational marijuana retail stores were denied.

31. In each instance, Plaintiffs were informed by letter from the Department stating that a license was not granted to the applicant “because it did not achieve a score high enough to receive an available license.”

32. On information and belief, Plaintiffs allege that the Department's denial of their license applications was not properly based upon actual implementation of the impartial and objective competitive bidding process mandated by NRS 453D.210, but rather, was in fact based upon the arbitrary and capricious exercise of administrative partiality and favoritism.

33. On information and belief, Plaintiffs allege conversely that that the Department improperly granted licenses to other competing applicants, likewise without actual implementation of the impartial and objective competitive bidding process mandated by NRS 453D.210, but rather, based upon the arbitrary and capricious exercise of administrative partiality and favoritism.

34. On information and belief, Plaintiffs allege that the Department has improperly granted more than one recreational marijuana store license per jurisdiction to certain applicants, owners, or ownership groups.

III.

CLAIMS FOR RELIEF

FIRST CLAIM FOR RELIEF **(Violation of Civil Rights)**

(Due Process: Deprivation of Property)

(U.S. Const., Amendment XIV; Nev. Const., Art. 1, Sec. 1, 8; Title 42 U.S.C. § 1983)

35. Plaintiffs repeat and re-allege all prior paragraphs as though fully set forth herein.

1 36. The provisions of NRS 453D.200.2 and NRS 453D.210.4-6, affirmatively
2 mandating that the Department “shall” approve and issue the appropriate license within a time
3 certain if the prospective establishment submits an Application in compliance with published
4 Department regulations promulgated in accordance with the limitations imposed by NRS 453.
5 D.200.1(b) together with the required application fee; and, in the case of competing
6 Applications, outranks competing applicants in accordance with an objective, impartial and
7 numerically scored competitive bidding process, serve to create, as a matter of legislative intent,
8 a *statutory entitlement* to receipt of the license by applicants who comply with and prevail
9 competitively in accordance with those objective and impartial standards and procedures.

10 37. Such a statutory entitlement constitutes a “property interest” within the meaning
11 and subject to the due process protections of the Fourteenth Amendment to the Constitution of
12 the United States and Article 1, Sections 1 and 8 of the Constitution of the State of Nevada; and
13 therefore, by definition, may not be denied arbitrarily, capriciously, corruptly or based upon
14 administrative partiality or favoritism.

15 38. However, acting under color of state law, the Department has effectively nullified
16 and rendered illusory the legislative statutory entitlement to licensure of applicants who comply
17 with and prevail competitively in accordance with the objective and impartial standards and
18 procedures prescribed by the provisions of NRS 453D.200.2 and NRS 453D.210.4-6, by
19 textually subjecting an Application which in fact provides “sufficient” responses related to the
20 published, enumerated and specific criteria set forth in the Application to approval pursuant to
21 further, unpublished, unspecified and unascertainable “additional criteria” which are not set forth
22 therein, as a silent supplemental condition of licensure, thereby rendering the administrative
23 regulation governing the Application and licensing process susceptible to *ad hoc*, non-
24 transparent, arbitrary, capricious or corrupt decision-making based upon administrative partiality
25 or favoritism which cannot be discounted; thereby rendering that regulatory scheme
26 unconstitutional on its face.

27 39. On information and belief, Plaintiffs further allege that pursuant to the
28 implementation of the foregoing constitutionally-repugnant licensing process, the denial of their

1 Applications for licensure, were in fact affected by actual arbitrary, capricious or corrupt
2 decision-making based upon administrative partiality or favoritism; and therefore, that that
3 licensing process has thereby been rendered unconstitutional in its application as well as to
4 Plaintiffs.

5 40. Plaintiffs have therefore been deprived of property without due process under
6 color of state law in violation of the Fourteenth Amendment to the Constitution of the United
7 States and Article 1, Sections 1 and 8 of the Constitution of the State of Nevada.

8 41. The Constitutional infirmity of the entire licensing process renders the denial of
9 Plaintiffs' Applications for licensure void and unenforceable, and Plaintiffs are entitled to a
10 declaration as to the ineffectiveness thereof and an order enjoining the enforcement of those
11 license denials.

12 42. Plaintiffs are entitled to declaratory relief with respect to the forgoing federal
13 constitutional infirmities of the administrative licensing scheme pursuant to the provisions of
14 Title 42, United States Code ("U.S.C."), Section 1983 and otherwise.

15 43. Plaintiffs are entitled to declaratory relief because a justiciable controversy exists
16 that warrants a declaratory judgment pursuant to Nevada's Uniform Declaratory Judgments Act,
17 codified at NRS 30.010 to 30.160, inclusive.

18 44. Plaintiffs and Defendant have adverse and/or competing interests in that the
19 Department, through its Marijuana Enforcement Division, has denied Plaintiffs' Applications in
20 in violation of Plaintiff's constitutional rights, Nevada law, and state policy.

21 45. The Department's refusal to issue licenses to Plaintiffs affects Plaintiffs' rights
22 under NRS 453D, NAC 453D, R092-17, and other Nevada laws and regulations.

23 46. Further, the Department's improper ranking of other applicants for licensure and
24 subsequent, improper issuance of licenses to such other applicants adversely affects the rights of
25 Plaintiff under NRS 453D, NAC 453D, R09217, and other Nevada laws and regulations.

26 47. The Department's actions and/or inactions also have created an actual justiciable
27 controversy ripe for judicial determination between Plaintiffs and the Department with respect to
28 the construction, interpretation, and implementation of NRS 453D, NAC 453D, and R092-17,

1 and Plaintiffs have been harmed, and will continue to be harmed, by the Defendants' actions
2 and/or inactions.

3 48. The Department's actions and/or inactions have further failed to appropriately
4 address the necessary considerations and legislative intent of NRS 453D.210, designed to restrict
5 monopolies.

6 49. Accordingly, Plaintiff seeks a declaration from this Court that, *inter alia*:

- 7 a. The Department improperly denied Plaintiffs' license Applications for the
8 operation of a recreational marijuana establishment.
- 9 b. The denial of such licenses to Plaintiffs was void *ab initio*;
- 10 c. The procedures employed in denying Plaintiffs' license Applications violated
11 Plaintiffs' procedural and substantive due process rights and entitlement to
12 equal protection of the law (as set forth *infra*) under the Nevada and United
13 States Constitutions and, therefore, those license denials are void and
14 unenforceable;
- 15 d. The denials are void for vagueness and therefore unenforceable;
- 16 e. Defendant acted arbitrarily and capriciously or in contravention of a legal duty
17 and Plaintiffs are therefore entitled to a writ of mandamus;
- 18 f. Plaintiffs are entitled to judicial review; and
- 19 g. The Department's denial of Plaintiffs' license Applications lacked substantial
20 evidence.

21 50. Plaintiffs also seek a declaration from this Court that the Department must issue
22 licenses to Plaintiffs for the operation of a recreational marijuana establishment as applied for in
23 that Plaintiffs' would have been entitled to receive said licenses had the Department properly
24 applied the provisions of NRS 453D, NAC Chapter 453D, and R092-17.

25 51. Plaintiffs contend that a declaratory judgment is both necessary and proper at
26 this time for the Court to determine the respective rights, duties, responsibilities and liabilities
27 of Plaintiffs under NRS 453D, NAC Chapter 453D, R092-17, and other Nevada laws and
28 regulations.

1 52. Plaintiffs are also entitled to injunctive relief from the foregoing federal
2 constitutional violations pursuant to the provisions of 42 U.S.C. Section 1983 and otherwise.

3 53. The Department's flawed interpretation of the provisions of NRS 453D, NAC
4 Chapter 453D, and R092-17, and refusal to issue "conditional" licenses in accordance with the
5 law constitute and cause continuing and irreparable harm to Plaintiffs, who have no adequate
6 remedy at law.

7 54. The purpose of this administrative refusal was and is to unreasonably interfere
8 with Plaintiffs' business and cause Plaintiffs to suffer irreparable harm.

9 55. The Department will suffer no harm by following the law with respect to issuing
10 the licenses in question.

11 56. The Department's interpretation of NRS 453D, NAC Chapter 453D, and R092-17
12 is flawed and Plaintiffs are likely to succeed on the merits in this litigation.

13 57. The public interest favors Plaintiffs because in the absence of injunctive relief, the
14 consumers who would have benefitted by Plaintiffs' licensure will have less available options
15 from which they can receive recreational marijuana in accordance with legislative intent.

16 58. Therefore, Plaintiffs are entitled to preliminary injunctive relief, and after a trial
17 on the merits, permanent injunctive relief, ordering the Department to issue the subject licenses
18 to Plaintiffs in accordance with NRS 453D, NAC 453D, and R092-17.

19 59. Plaintiffs are also entitled to damages attributable to the above-identified due
20 process violations pursuant to the provisions of 42 U.S.C. Section 1983 and otherwise.

21 60. As the actions of the Department have necessitated that Plaintiffs retain the legal
22 services of Gentile Cristalli Miller Armeni Savarese, and incur fees and costs to bring this action,
23 Plaintiffs are also entitled to an award of attorneys' fees and costs of suit.

24 **SECOND CLAIM FOR RELIEF**
25 **(Violation of Civil Rights)**

26 **(Due Process: Deprivation of Liberty)**

27 **(U.S. Const., Amendment XIV; Nev. Const., Art. 1, Sec. 1, 8; Title 42 U.S.C. § 1983)**

28 61. Plaintiffs repeat and re-allege all prior paragraphs as though fully set forth herein.

1 62. The fundamental constitutional right to pursue a lawful occupation constitutes a
2 “liberty interest” within the meaning and subject to the due process protections of the Fourteenth
3 Amendment to the Constitution of the United States and Article 1, Sections 1 and 8 of the
4 Constitution of the State of Nevada; and therefore, by definition, may not be denied arbitrarily,
5 capriciously, corruptly or based upon administrative partiality or favoritism.

6 63. However, acting under color of state law, the Department has effectively nullified
7 and rendered illusory the legislative statutory entitlement to licensure of applicants who comply
8 with and prevail competitively in accordance with the objective and impartial standards and
9 procedures prescribed by the provisions of NRS 453D.200.2 and NRS 453D.210.4-6, by
10 textually subjecting an Application which in fact provides “sufficient” responses related to the
11 published, enumerated and specific criteria set forth in the Application to approval pursuant to
12 further, unpublished, unspecified and unascertainable “additional criteria” which are not set forth
13 therein, as a silent supplemental condition of licensure, in violation of NRS 200.D.1(b) thereby
14 rendering the administrative regulation governing the Application and licensing process
15 susceptible to *ad hoc*, non-transparent, arbitrary, capricious or corrupt decision-making based
16 upon administrative partiality or favoritism which cannot be discounted; thereby rendering that
17 regulatory scheme unconstitutional on its face.

18 64. On information and belief, Plaintiffs further allege that the pursuant to the
19 implementation of the foregoing constitutionally-repugnant licensing process, the denial of their
20 Applications for licensure, were in fact affected by actual arbitrary, capricious or corrupt
21 decision-making based upon administrative partiality or favoritism; and therefore, that that
22 licensing process has thereby been rendered unconstitutional in its application as well.

23 65. Plaintiffs have therefore likewise been deprived of liberty without due process
24 under color of state law in violation of the Fourteenth Amendment to the Constitution of the
25 United States and Article 1, Sections 1 and 8 of the Constitution of the State of Nevada.

26 66. The Constitutional infirmity of the entire licensing process renders the denial of
27 Plaintiffs’ Applications for licensure void and unenforceable, and, for the reasons set forth supra
28 in Plaintiffs’ FIRST CAUSE OF ACTION at paragraphs 30 through 47, inclusive, Plaintiffs are

1 entitled to a declaration as to the ineffectiveness thereof and an order enjoining the enforcement
2 of those license denials.

3 67. Plaintiffs are also entitled to damages for these due process violations pursuant
4 to the provisions of 42 U.S.C. Section 1983 and otherwise.

5 68. As the actions of the Department have necessitated that Plaintiffs retain the legal
6 services of Gentile Cristalli Miller Armeni Savarese, and incur fees and costs to bring this action,
7 Plaintiffs are also entitled to an award of attorneys' fees and costs of suit.

8 **THIRD CLAIM FOR RELIEF**

9 **(Violation of Civil Rights)**

10 **(Equal Protection)**

11 **(U.S. Const., Amendment XIV; Nev. Const., Art. 1, Sec. 1; Title 42 U.S.C. § 1983)**

12 69. Plaintiffs repeat and re-allege all prior paragraphs as though fully set forth herein.

13 70. By improperly denying Plaintiffs' Applications for licensure under the provisions
14 of NRS 453D.200.2 and NRS 453D.210.4-6 while improperly granting the Applications of other
15 applicants under color of state law as set forth *supra* in Plaintiffs' FIRST CAUSE OF ACTION
16 and SECOND CAUSE OF ACTION, the Department has, without justification, disparately
17 treated Plaintiffs' Applications absent rational basis, and has thereby violated Plaintiffs' rights to
18 equal protection of the law as guaranteed by the Fourteenth Amendment to the Constitution of
19 the United States and Article 1, Section 1 of the Constitution of the State of Nevada.

20 71. The constitutional infirmity of the entire licensing process and the resulting denial
21 of equal protection renders the denial of Plaintiffs' Applications for licensure void and
22 unenforceable, and, for the reasons set forth *supra* in Plaintiffs' FIRST CAUSE OF ACTION at
23 paragraphs 30 through 47, inclusive, Plaintiffs are entitled to a declaration as to the
24 ineffectiveness thereof and an order enjoining the enforcement of those license denials.

25 72. Plaintiffs are also entitled to damages for these equal protection violations
26 pursuant to the provisions of 42 U.S.C. Section 1983 and otherwise.

27 73. As the actions of the Department have necessitated that Plaintiffs retain the legal
28 services of Gentile Cristalli Miller Armeni Savarese, and incur fees and costs to bring this action,

1 Plaintiffs are also entitled to an award of attorneys' fees and costs of suit.

2 **FOURTH CLAIM FOR RELIEF**

3 **(Petition for Judicial Review)**

4 74. Plaintiffs repeat and re-allege all prior paragraphs as though fully set forth
5 herein.

6 75. The Department, in misinterpreting and incorrectly applying the provisions of
7 NRS 453D, NAC 453D and the related Nevada laws and regulations, has exceeded its
8 jurisdiction by improperly issuing licenses to applicants that do not merit licenses under the
9 provisions of NRS 453D, NAC 453D, and R092-17.

10 76. Plaintiffs are aggrieved by the decision of the Department to deny Plaintiffs'
11 Applications without proper notice, substantial evidence, or compliance with NRS 453D, NAC
12 453D, R092-17, and other Nevada state laws or regulations.

13 77. There is no provision in NRS 453D, NAC 453D, or R092-17 allowing for an
14 administrative appeal of the Department's decision, and apart from injunctive relief, no plain,
15 speedy, and adequate remedy for the Department's improper actions.

16 78. Accordingly, Plaintiff petitions this Court for judicial review of the record on which
17 the Department's denials were based, and an order providing *inter alia*:

- 18 a. A determination that the decision lacked substantial evidence;
19 b. A determination that the denials are void *ab initio* for non-compliance with
20 NRS 453D, NAC 453D, R092-17, and other Nevada laws or regulations; and
21 c. Such other relief as is consistent with those determinations.

22 79. As the actions of the Department have necessitated that Plaintiffs retain the legal
23 services of Gentile Cristalli Miller Armeni Savarese, and incur fees and costs to bring this action,
24 Plaintiffs are also entitled to an award of attorneys' fees and costs of suit.

25 **FIFTH CLAIM FOR RELIEF**

26 **(Petition for Writ of Mandamus)**

27 80. Plaintiffs repeat and re-allege all prior paragraphs as though fully set forth herein.

28 81. When a governmental body fails to perform an act "that the law requires" or acts

1 in an arbitrary or capricious manner, a writ of mandamus shall issue to correct the action. Nev.
2 Rev. Stat. § 34.160.

3 82. The Department has failed to perform various acts that the law requires including
4 but not limited to:

- 5 a. Providing proper pre-hearing notice of the denial; and
- 6 b. Arbitrarily and capriciously denying the applications for no legitimate reason.

7 83. The Department acted arbitrarily and capriciously in the denial by performing
8 and/or failing to perform the acts set forth *supra*, and because, *inter alia*:

- 9 a. The Board lacked substantial evidence to deny Plaintiffs' Applications; and
- 10 b. The Board denied Plaintiffs' Applications in order to approve the Applications
11 of other competing applicants without regard to the merit of Plaintiffs'
12 Applications and the lack of merit of the Applications of other competing
13 applicants.

14 84. These violations of the Defendants' legal duties were arbitrary and capricious
15 actions that compel this Court to issue a Writ of Mandamus directing the Department to review
16 Plaintiffs' Applications on their merits and/or approve them.

17 85. As a result of the Defendants' unlawful and arbitrary and capricious actions,
18 Plaintiff has been forced to retain legal counsel to prosecute this action and is therefore also
19 entitled to its damages, costs in this suit, and an award of attorneys' fees pursuant to NRS
20 34.270.

21 **PRAYER FOR RELIEF**

22 WHEREFORE, PLAINTIFFS pray for relief as follows:

- 23 1. For declaratory relief as set forth above;
- 24 2. For a preliminary and permanent injunction enjoining the enforcement of the
25 denial of their Applications for licensure;
- 26 3. For judicial review of the record and history on which the denial of those
27 Applications was based;
- 28 4. For the issuance of a writ of mandamus;

5. For compensatory and special damages as set forth herein;
6. For attorneys' fees and costs of suit; and
7. For all other and further relief as the Court deems just and proper.

DEMAND FOR JURY TRIAL

2 *** * * * ***

3 THE COURT: Anything outside -- anything
4 housekeepingwise? Since I have no jury, there's nothing
5 outside the presence.

6 MR. RULIS: Your Honor, I think we're just trying to
7 talk scheduling today because we may have to, depending on how
8 long we're going to go with redirect, we may need to take a
9 break between --

10 MR. SHEVORSKI: Just in terms of Director Contine's
11 schedule.

12 THE COURT: Okay. So Ms. Cronkhite is here, and I
13 told her yesterday as I left the courtroom that today would not
14 be as bad. So let's work to make sure that I'm not a liar.

15 For those of you who just walked in, I told
16 Mr. Gentile as he walked in that my lunch arrangements have
17 canceled. So we can, if everyone's agreeable, work in to the
18 lunch hour. I asked my staff already so that we will have less
19 of a loss of time while he goes over to visit with Judge
20 Crockett. Is everybody okay that, taking a late lunch?

21 I see a bunch of nods of the head. Nobody says no.
22 Great.

23 MR. SHEVORSKI: It's only -- I think -- when is
24 Director Contine coming?

25 MR. BHIRUD: We -- she was available at noon, but we

JD Reporting, Inc.

1 told her to come at 12:45 since we knew about the lunch --

2 MR. RULIS: And I think that's the issue is we'll
3 have to have a gap between when we finish up with Ms. Cronkhite
4 and, depending on how long it takes, and Ms. Contine.

5 (Pause in the proceedings.)

6 THE COURT: Mr. Rulis, how much is your continued
7 examination of Ms. Cronkhite?

8 MR. RULIS: Five, ten minutes.

9 THE COURT: Who else has examination?

10 Mr. Gentile told me that he had none yesterday, but
11 said remember Rule 1, which we all mean -- knows mean things
12 happen. So that means we may be done with Ms. Cronkhite this
13 morning.

14 And then if Mr. Hernandez is testifying, we have him,
15 but I heard yesterday we were withdrawing him, and I crossed
16 him off my list.

17 We may need Ms. Contine this morning.

18 MR. GENTILE: Your Honor, she's available at noon
19 apparently.

20 THE COURT: I heard that. Did you like how I said we
21 may need her this morning? Because I was just trying to do
22 math and I'm running out of people, but, you know, I can go
23 stay in my office and do things.

24 (Pause in the proceedings.)

25 THE COURT: Okay. So are we ready to resume?

1 Ms. Cronkhite, if you'd come on back up, we're going
2 to reswear you since it's a new day. It sounds like from our
3 math you will be up here for the morning.

4 Remember, if you need a break you're to let us know,
5 okay, otherwise, the lawyers will know they don't really get a
6 break unless it's an emergency.

7 **KARALIN CRONKHITE**

8 [having been called as a witness and being first duly sworn,
9 testified as follows:]

10 THE CLERK: Thank you. Please be seated.

11 Please state and spell your name for the record.

12 THE WITNESS: Karalin Cronkhite. K-a-r-a-l-i-n,
13 C-r-o-n-k-h-i-t-e.

14 THE COURT: Mr. Rulis, you may continue your
15 cross-examination.

16 MR. RULIS: Thank you, Your Honor.

17 CONTINUED CROSS-EXAMINATION

18 BY MR. RULIS:

19 Q Good morning, Ms. Cronkhite.

20 A Good morning.

21 Q Now, yesterday you were talking about during your
22 testimony using portions of the 2014 applications to go over
23 with the Manpower graders part of the training. Do you
24 remember that?

25 A Yes.

 JD Reporting, Inc.

1 Q And those, the specific portions that you were going
2 through with the Manpower graders, those were for the building
3 plans sections?

4 A Yes.

5 Q And those would have been for the medical marijuana
6 applications from 2014, just so we're clear?

7 A Yes.

8 Q Now, you are aware that the applicants in 2014 were
9 required to have actual physical locations as a part of their
10 application; right?

11 A Yes.

12 Q And as a matter of fact, if they didn't have physical
13 locations, their applications were rejected in 2014; right?

14 A That sounds right.

15 Q Okay. Now, did you convey that information to the
16 Manpower graders?

17 A I don't believe that came up because it wasn't listed
18 in that section.

19 Q Okay. So you didn't discuss with them the fact that
20 physical locations were required and that -- in the
21 applications that they were reviewing?

22 A They were informed and trained that physical
23 locations were not required for the 2018 application period,
24 but I don't recall if that came up during my portion of the
25 training at all, but it was part of their general training.

1 Q But nothing about whether physical locations were
2 required in 2014?

3 A Right. I don't believe so.

4 MR. RULIS: All right. That's all I have, Your
5 Honor.

6 THE COURT: Anyone else have further examination of
7 Ms. Cronkhite.

8 (No audible response)

9 THE COURT: Redirect.

10 REDIRECT EXAMINATION

11 BY MR. SHEVORSKI:

12 Q Good morning again, Ms. Cronkhite.

13 A Good morning.

14 Q My friend Mr. Parker asked you quite a bit about, and
15 the Court indeed asked you quite a bit about which took
16 precedent: The stat -- and the initiative, the statute and the
17 code. Do you recall that? And whether or not the department
18 was aware that the initiative controlled? Do you recall that?

19 A Yes.

20 Q Okay. Can you, hopefully I can help you with this,
21 go to Exhibit 235. There should be a binder.

22 MR. SHEVORSKI: May I help, Your Honor?

23 THE COURT: You may.

24 MR. SHEVORSKI: Or attempt.

25 THE CLERK: Mr. Shevorski, it's on the cart next to

JD Reporting, Inc.

1 her on the witness stand, and it's probably going to be in the
2 second or third level of that cart.

3 MR. SHEVORSKI: On the cart.

4 (Pause in the proceedings.)

5 BY MR. SHEVORSKI:

6 Q Ms. Cronkhite, you've been handed what's been marked
7 as Exhibit 235. It's already in evidence. Would you please --
8 and I believe you're at page 14.

9 A Yes.

10 Q And you under -- if you wouldn't mind just flipping
11 back to the first page real quick. If you could hold that,
12 just hold it. Keep your hand on 14 though.

13 A Okay.

14 Q And obviously in part of your job you're aware of who
15 the Nevada Tax Commission is?

16 A Yes.

17 Q Okay. Does this appear to be minutes of a public
18 hearing?

19 A Yes.

20 Q And the date is January 16th, 2018?

21 A Yes.

22 Q Look at the bottom of page 14. It starts, Director
23 Contine stated.

24 A Uh-huh. Yes.

25 Q Do you see where that's indicated?

1 A Yes, I do.

2 Q If you look at the second to let's call it maybe the
3 third to last sentence, it says, There are limitations.

4 A Yes.

5 Q Do you see where that's indicated?

6 A Yes, I do.

7 Q It says, There are limitations that we have by
8 statute. The initiative cannot change for three years?

9 A Yes.

10 Q Did I read that correctly?

11 A Yes, you did.

12 Q So based on that, was the department aware that it
13 could not change the initiative in January of 2018?

14 A Yes, we were.

15 Q My friend Mr. Parker asked you about NRS 453D.210,
16 specifically Subpart 5. Do you remember that?

17 A Yes.

18 Q It says, The department shall approve a license
19 application if, and then it has a colon. I'm not going to ask
20 you to pull up the book again.

21 A Yes, I remember.

22 Q Okay. And Subpart D talks about a physical address,
23 and it's a physical address that is owned by the applicant or
24 has written permission of the property owner; is that correct?

25 A Yes.

1 Q In 2016, was retail marijuana legal in Douglas
2 County?

3 A I believe they had a moratorium at that time.

4 Q In 2017 is that true?

5 A Yes.

6 Q In 2018?

7 A I believe so, yes.

8 Q In 2019, as we sit here today?

9 A I believe that they never lifted the moratorium.

10 Q Okay. Do you know if someone could lawfully give
11 permission to operate a marijuana establishment in Douglas
12 County?

13 A No, not with their moratorium.

14 Q Okay. Do you believe it's the intent of this statute
15 for someone to put a false address into their application if
16 they were applying for Douglas County?

17 A No, it's not.

18 Q Because they couldn't get written permission, could
19 they?

20 A Correct.

21 Q In the city of Henderson, was retail marijuana
22 approved in 2016?

23 A No. They had a moratorium at that time.

24 Q And then in 2017, I believe in September of 2017,
25 they approved I think five retail licenses. Does that sound

1 about right?

2 A Yes, that sounds right.

3 Q Okay. And the requirement was that they be
4 co-located with a medical marijuana establishment?

5 A Correct.

6 Q I'm going to propose a hypothetical to you. If --
7 And the applications are submitted in September 2018;
8 correct?

9 A Yes.

10 Q And they were scored in October of 2018?

11 A Yes.

12 Q If the city council met in Henderson in October
13 of 2018 and changed its requirement for address and said it's
14 no longer required to be co-located, should we just throw out
15 the application process and not have scoring because the city
16 of Henderson has changed its zoning laws?

17 A I would say no.

18 Q And you've testified that you're familiar with
19 NRS 453D. We talked about some of its provision. In Subpart
20 5 of 210 that we just talked about, it uses the word
21 "approve" --

22 THE COURT: Just in case.

23 THE WITNESS: Thank you.

24 BY MR. SHEVORSKI:

25 Q -- the department shall approve. Do you know if

1 there's any definition of what approve means?

2 A Not to my knowledge.

3 Q In Subpart 453D.200, Subpart 1A, it says, Procedures
4 for issuance renewal suspension, revocation of a license. Do
5 you know if there's any definition in the statute that defines
6 what procedures the department shall use?

7 A I believe it says that it gives us authority to make
8 that determination.

9 Q The Judge asked you about one provision in particular
10 in Subpart 6 of 453D.200. It says, The department shall
11 conduct a background check of each prospective owner, officer
12 and board member.

13 With respect to the word "owner," I want you to
14 presume that the applicant is owned by a publicly traded
15 corporation. In order to do that background check, wouldn't
16 you have to know how often the company gets its list of
17 shareholders from the transfer agent?

18 A I suppose.

19 Q Because otherwise the company wouldn't know who owns
20 its shares, the public company, would it?

21 A Correct.

22 Q Now, it says "prospective owners." Does that mean
23 you don't background check current owners?

24 A We do background check current owners, but it does
25 read that way.

JD Reporting, Inc.

1 Q Okay. So you'd have to interpret that, wouldn't you?

2 A Yes.

3 Q All the time when my friend Mr. -- oh, I forgot his
4 name --

5 MR. GENTILE: He's got too many friends.

6 BY MR. SHEVORSKI:

7 Q -- Mr. Parker -- when Mr. Parker was --

8 UNIDENTIFIED SPEAKER: Not much of a friend.

9 THE COURT: Will you make sure Teddy finds that out.
10 Just send him an email.

11 MR. SHEVORSKI: I'll call him, Your Honor.

12 BY MR. SHEVORSKI:

13 Q Mr. Parker is talking to you about consistency. He
14 never used the word interpretation. Wasn't it up to the
15 department to interpret the statute?

16 A Correct.

17 Q Do you know if anything in the statute will require
18 the department to reject an application that contained a
19 misspelling and therefore was incomplete or it misdescribed a
20 board member?

21 A No, not to my knowledge.

22 Q If they had misstated the address, if they put in a
23 proposed address, and they misstated it and misspelled it, is
24 there anything in the statute that says, and I'm talking about
25 453D here, that requires the department to reject that

1 application?

2 A No, not to my knowledge.

3 Q My friend Mr. Parker talked about my beloved
4 community of Summerlin and Sun City, and he didn't mention
5 Sienna. He mentioned some other age-restricted communities.
6 Are they all residential neighborhoods?

7 A I believe so, yes.

8 Q He mentioned The Ridges. Is that a residential
9 neighborhood?

10 A I think so. I'm not completely familiar with The
11 Ridges.

12 Q What about The Willows? Is that a residential
13 neighborhood?

14 A Again, I believe so, but I'm not completely sure.

15 Q Does Summerlin allow retail marijuana?

16 A They don't have a moratorium to my knowledge,
17 although I'm not aware of any dispensaries or facilities
18 whatsoever involving marijuana in the Summerlin area.

19 And I am a resident of Summerlin. So I would think I
20 would know.

21 Q I was going to make a statement about the head of
22 architecture for Howard Hughes Corporation, but I'll keep it to
23 myself.

24 THE COURT: Thank you.

25 / / /

1 BY MR. SHEVORSKI:

2 Q With respect to some of the rural counties, Douglas
3 County, is there a metropolitan neighborhood that might be
4 distinct from the rest of a rural county, in, for example,
5 Humboldt county?

6 A No. I believe they're pretty consistent. They're
7 out --

8 Q So you don't need to know which street the retail
9 dispensary is on in Humboldt County to know the community
10 impact, do you?

11 A Correct.

12 THE COURT: Do you mean in Winnemucca?

13 MR. SHEVORSKI: You know what, yes, where Mr. --

14 Where Mr. Jenae [phonetic] is from, another one of my
15 friends.

16 THE WITNESS: Correct.

17 MR. SHEVORSKI: No further questions, Your Honor.

18 THE COURT: Any further questions for Ms. Cronkhite?
19 Yes, Mr. Koch?

20 MR. KOCH: Yes.

21 REDIRECT EXAMINATION

22 BY MR. KOCH:

23 Q Good morning, Ms. Cronkhite. My name is David Koch.
24 I represent Nevada Organic Remedies in this matter. I just
25 want to follow up on a few of the things I think you were asked

JD Reporting, Inc.

1 about by Mr. Parker.

2 You were asked about the deficiencies. So you have,
3 well, you're aware of what the deficiency is in the context of
4 a marijuana establishment?

5 A Correct.

6 Q What is a deficiency?

7 A A deficiency is any -- any violation of the
8 regulations, and it could be anything from, you know, a hole in
9 the wall to a light out to even, you know, something more
10 extreme, like, selling products that weren't tested for
11 contaminants or something like that.

12 Q So there's a range of deficiencies; is that right?

13 A Absolutely.

14 Q And how is a deficiency -- what's the process for the
15 department to issue a deficiency? How does that take place?

16 A The inspectors and auditors go out into the facility.
17 They conduct their inspection and audit. After they're
18 complete, they go back to the office and type up their report.
19 We call that a statement of deficiencies, also termed SOD.

20 That gets sent to the facility, and the facility has
21 10 business days to respond with all their corrective action
22 plans for every single deficiency, and then the -- they send
23 that back to the inspector and auditor. They review that
24 information and determine if it's acceptable or if it needs
25 more attention.

1 Q And so there's a process for the statement of
2 deficiency to be issued and then the establishment to
3 propose -- is it a plan to fix that deficiency?

4 A Correct. It's either what they have already done or
5 what they're going to do going forward.

6 Q All right. And what happens if an establishment just
7 doesn't even respond to the statement of deficiency?

8 A We would send them several reminders, follow up
9 regularly, and if they never responded to that, eventually it
10 would lead to a suspension, and they'd be closed for operation.

11 Q All right. Has that ever occurred with any existing
12 medical establishment? Have they ever been suspended for
13 failure to respond to a statement of deficiency?

14 A One to my knowledge.

15 Q Okay. Do you know which one? Can you --

16 I don't know if it's public or private. Is it public
17 information?

18 A It was a dispensary. I can't remember the name. I
19 think they go by ShowGrow.

20 Q ShowGrow?

21 A I know their facility ID. I just don't know the
22 name.

23 Q Okay. So you don't know which entity that is,
24 ShowGrow?

25 A Correct.

1 Q Is it GB --

2 A That sounds; right.

3 Q All right. And that's Mr. Viellion. Do you know --
4 have you heard that name?

5 A No, that doesn't sound familiar.

6 Q Have any other dispensaries ever had their license
7 suspended or put on hold for any period of time?

8 A Yes, several.

9 Q Several. How many others would you estimate?

10 A At least 10 suspensions I would guess.

11 Q Okay. And have those establishments had their
12 licenses been put back into good standing after that period?

13 A Yes. They took necessary corrections and were
14 approved to resume operations.

15 Q Okay. Do you know which dispensaries were actually
16 suspended?

17 A Not off the top of my head I don't.

18 Q When an inspection takes place, how common is it for
19 at least one deficiency to be issued by the department?

20 A It's extremely common, almost always. I would say no
21 deficiency letters are very rare.

22 Q How often do inspections take place?

23 A The inspectors go out in the field approximately
24 three days a week and conduct three inspections per day, so
25 approximately nine a week, unless there's something else going

1 on that needs their attention in the office.

2 Q And is that nine a week of the same establishment, or
3 how many times is an establishment inspected?

4 A Actually, that would be nine a week per inspector.
5 We have eight inspectors statewide. All different facilities,
6 each facility inspected at least once a year. We shoot for
7 twice a year, sometimes more based on complaints and
8 investigations.

9 Q All right. So each establishment would be inspected
10 at least once a year?

11 A Correct.

12 Q Probably more?

13 A Correct.

14 Q But not like every week or every month or anything
15 like that?

16 A Correct.

17 Q All right. I'm going to show you Exhibit 96.

18 (Pause in the proceedings.)

19 BY MR. KOCH:

20 Q Exhibit 96 is an email we looked at earlier. I think
21 you talked about this for a few minutes with Mr. Parker. So
22 this email, it's kind of interesting. It doesn't look like an
23 electronic print out. It looks like it might be some sort of a
24 photo or screenshot or something like that. Did you produce
25 this to the plaintiffs in this case?

1 A No, I did not.

2 Q The blacked out section there, the "To" and the "CC,"
3 do you know why that's blacked out?

4 A I am not sure. I'm assuming the person that did send
5 it didn't want their name to be on it. I do have the original
6 email though. So I do know who it was sent to. The original
7 email --

8 This copy also cut off the very bottom where I have
9 my confidentiality statement saying that it cannot be
10 distributed without my permission.

11 Q All right. So you didn't give authority for this to
12 be distributed to the plaintiffs in this case?

13 A No, I did not.

14 Q Do you know how they got it?

15 A It would have had to have come from somebody who I
16 emailed it to initially, or it would have been forwarded from
17 someone they sent it to.

18 Q All right. And do you know as you sit here today who
19 actually sent this or forwarded this email?

20 A I have an idea, but I don't know for certain.

21 Q All right. Does that raise any concern with you that
22 a document like this with your confidentiality provision there
23 removed was provided to entities in this case?

24 A Yes, it is concerning.

25 Q All right. Well, let's take a look at what they said

JD Reporting, Inc.

1 because this has been offered as an exhibit in this case as
2 apparently an important thing for the plaintiffs here. And you
3 talked about it for a few minutes yesterday. This was relating
4 to Investigations Letter on the subject -- or sorry, the
5 attachment's investigations letter, and you said that it
6 related to Henderson Organic Remedies. I'm looking at the
7 attachments Routine Nevada Organic and Investigations SOD
8 letter to Integral Associates. Were there three letters that
9 were at issue there? Do you know?

10 A I believe there were three letters, yes.

11 MR. KOCH: Okay. Let's put that back up. Keep that
12 up.

13 EXHIBIT TECHNICIAN: 96?

14 MR. KOCH: 96, yeah.

15 BY MR. KOCH:

16 Q And Mr. Parker asked you a little bit about this
17 letter, but can you just tell us why you sent this email --

18 A Yeah.

19 Q -- what was the purpose of this email?

20 A Absolutely. We had just started a incident report
21 form that's available on our website which gave facilities the
22 opportunity to basically tell us if something went wrong before
23 we come out and find it ourselves. I gave them the opportunity
24 to report any deficiency that might have occurred to us and let
25 us know that they already took care of it; it's not a problem;

JD Reporting, Inc.

1 here's what happened.

2 It's also required for situations like power outages
3 where their security systems go down for an extended period of
4 time or something to that effect. So we had just initiated
5 this plan and this form.

6 We had situations where three different facilities
7 had self-reported. I don't know if they were all for sales to
8 a minor or if it was a variety of things. The auditors or
9 inspectors that were assigned to those investigations started
10 writing up statements of deficiencies.

11 After myself and Jorge Pupo discussed it, it -- we --
12 and I believe other people may have been in the discussion as
13 well, but we were talking about how writing them up and issuing
14 civil penalties for self-reporting would discourage
15 self-reporting, and that really wasn't the intention of this.

16 If we continued taking corrective -- or taking action
17 against facilities that went out of their way to tell us that
18 something went wrong, how they fixed it and how it won't happen
19 again, if we took action against them, then there would be no
20 incentive for them to self-report ever again, and we just would
21 never have that information. So we decided it's more important
22 that we have the information, we know it occurred, rather than
23 penalizing them.

24 So we said just send an acknowledgment letter and
25 thank them for notifying us. All the information is still in

JD Reporting, Inc.

1 their file, and it's something that we still keep track of, but
2 it just wasn't any longer listed as an open investigation on
3 the complaint and investigation log.

4 Q Okay. And were these three self-reports by Henderson
5 Organic Remedies, Nevada Organic Remedies and Integral
6 Associates, were these the first of the self-reports that you
7 received?

8 A I believe so.

9 Q So these three entities were jumping right in and
10 reporting any issues that they perceived?

11 A Absolutely, yes.

12 Q And do you believe that that was, the self-reporting,
13 do you believe that's a necessary part of the compliance
14 process?

15 A I do.

16 Q And is compliance -- do you view compliance as --
17 well, let me ask you what do you view the purpose of compliance
18 to be, the compliance process as a whole?

19 A The process, the purpose of being compliant is to
20 protect the public health and safety, make sure that product
21 isn't ending up in the wrong hands, making people sick,
22 basically protection of the public is the main point of
23 compliance.

24 Q All right. And would you view an entity that
25 self-reported a potential issue to be more compliant than an

1 entity that did not self-report but tried to conceal that
2 violation?

3 A Absolutely.

4 Q The issue you state in the email here, you talk about
5 the letter, and it goes on in the middle to say, We received
6 your incident report. This was -- I'm sorry. This was the
7 letter. It should state something to the effect of, We
8 received your incident report. The corrective actions taken
9 were deemed appropriate or not, parentheses.

10 And so would it be possible that the corrective
11 action suggested by the self-reporting party would not be
12 deemed appropriate?

13 A It's possible, and so what we would do at that point
14 is work with the facility to come up with an appropriate
15 corrective action that would be acceptable to the department.

16 Q All right. It goes on to say, No further action is
17 necessary at this time, parenthetical, or please take the
18 following actions to remedy the issue.

19 Again, there appears to be -- the department still
20 considered the corrective action to determine if they were
21 appropriate or not; is that correct?

22 A Correct.

23 Q And then it states, These investigations should be
24 removed from the log. There's been insinuation by certain
25 parties in this case that the removal of the investigations

1 from the log was somehow unduly influenced by either the
2 entities that are listed here or somebody else. Do you believe
3 that the removal of investigations from the log was in any way
4 improper based upon what you've testified to?

5 A No, I don't believe it was improper because that is
6 just an internal document only. There's actually probably only
7 four people that really look at it in the office.

8 I'm the person that maintains the log.

9 My administrative assistant is the one who enters the
10 information into it and marks investigations as open or closed
11 or adds them and removes them.

12 Q And so if an entity self-reported an incident,
13 proposed a corrective action, that corrective action were
14 approved and corrective action were taken, would you consider
15 that entity to be compliant with that, with respect to that
16 incident?

17 A Yes, I would. And I -- I mean, things happen at
18 facilities that are out of their control sometimes, and so we
19 take that into consideration.

20 Q And that was something Mr. Parker made -- asked you
21 questions about the fact that Nevada Organic Remedies may have
22 had 30 deficiencies during the course of its operation, and you
23 said that was about normal. Is that what you said?

24 A Correct, especially considering the amount of time
25 that Nevada Organic Remedies has been operational. They

1 were -- they've been open for several years now, and so I'm
2 including the medical days. So with that amount of time being
3 operational, the number of facilities that they have, yes, I
4 would say that's -- that's probably on the lower end.

5 Q Are there any establishments that have been open
6 since the time of medical that have never received a deficiency
7 from the department?

8 A I would be surprised if there was, but it's possible
9 that maybe a facility that doesn't actually operate but
10 maintains their license could potentially do that, but it
11 would -- it would surprise me if there was one.

12 Q All right. What about a facility that actually
13 operates? Would you be surprised if a facility that actually
14 operates did not have a deficiency?

15 A I would be surprised. I'd probably have to go there
16 for myself and verify.

17 Q And maybe the investigators weren't doing their job
18 very well?

19 A Yeah. I'd probably have a question or two for them.

20 Q All right. Have you ever -- do you know the entity
21 Nevada Wellness Center, Mr. Parker's client?

22 A Yes, I do.

23 Q Has that entity ever received deficiency?

24 A I believe they have, yes.

25 Q Do you know how many?

1 A No, I don't off the top of my head.

2 MR. KOCH: Let me -- I'm going to -- I could read
3 them to you, but I'm just going to provide you a list if I can,
4 Your Honor --

5 THE COURT: Sure.

6 MR. KOCH: -- to the plaintiffs in this case.

7 THE COURT: Could you please show counsel for
8 Mr. Hawkins. Can we drop off a copy there.

9 Thank you.

10 MR. KOCH: Does the Court want one?

11 THE COURT: No.

12 MR. KOCH: All right.

13 THE COURT: If it's not admitted, I don't want it.

14 MR. KOCH: Just a list of names.

15 BY MR. KOCH:

16 Q Ms. Cronkhite, this I believe is a list of the
17 entities that are plaintiff's in the actions that have been
18 coordinated for purposes of this hearing. I think it's
19 complete, but correct me if I'm wrong, anyone, on this.

20 As you look at this list of names, are there any of
21 these entities that have been operational that have never
22 received a deficiency?

23 A Not to my knowledge.

24 Q And if any of these entities that are plaintiffs in
25 this case are operational, you would expect that they have at

1 least one or more deficiencies?

2 MR. GENTILE: Objection. That's speculation.

3 THE COURT: Overruled.

4 You can answer.

5 THE WITNESS: I would expect that, yes.

6 BY MR. KOCH:

7 Q All right. And so the fact that an entity or an
8 establishment had a deficiency at some point in time was not a
9 disqualifying factor when the applications for retail licenses
10 came -- were submitted in September 2018; is that right?

11 A Correct.

12 Q But you're aware that an establishment needed to have
13 an existing medical certificate to apply in 2018?

14 A Correct.

15 Q And if that medical certificate were not in good
16 standing or suspended, would that applicant be able to apply
17 and receive a recreational license?

18 A If they were currently suspended during the time of
19 application, no, I don't believe they were allowed to apply,
20 but I could be mistaken.

21 Q All right. As you look at that list of names there,
22 do you know if any of those entities have had a suspended
23 license --

24 A Yes.

25 Q -- at any point in time?

1 Which ones?

2 A Fidelis is the first one I see. I know that they've
3 had multiple facilities suspended.

4 I believe Libra Wellness has had a suspension. I
5 can't say for sure, but I do think that they have.

6 MR. GENTILE: Object and move to strike.

7 THE COURT: Overruled.

8 THE WITNESS: And I believe Rombough may have had a
9 suspension, but I believe that was for a taxation issue.

10 MR. GENTILE: Same objection. Move to strike.

11 THE COURT: Overruled.

12 THE WITNESS: I think THC Nevada also. I know they
13 had some major issues. I believe it led to a suspension, but
14 again I could be mistaken.

15 MR. GENTILE: Object and move to strike.

16 THE COURT: Overruled.

17 BY MR. KOCH:

18 Q All right. That is as far as your review as you sit
19 here today?

20 A Yes.

21 Q Okay. All right. Let me move on to a different
22 topic. You were asked a lot of questions about one of the
23 statutes we've spent a lot of time with, and that's
24 NRS 453D.200.

25 MR. KOCH: And, Bryan, if you could put that up.

1 BY MR. KOCH:

2 Q And this statute describes, is titled Duties of the
3 Department Relating Regulation and Licensing of Marijuana
4 Establishments. When Mr. Parker was asking you questions, you
5 drew a distinction between regulation and licensing. What is
6 that distinction in your mind?

7 A Between regulation and licensing or application and
8 licensing?

9 Q Well, you said -- I think you said -- look back at my
10 notes -- that there was licensure and regulation, and they may
11 be two different things. If you could at least explain what
12 you were thinking along those lines.

13 A I think, yeah, well, licensure is the process of
14 becoming -- so I'll just go over the process real quick if
15 that's easier.

16 Initially they apply for a conditional license. That
17 doesn't give them the license. It doesn't give them approval
18 to operate. It's just saying that your application is
19 acceptable, and you can start the process to become
20 operational.

21 Q And let me stop you there. So in this case, we've
22 had a lot of discussion about the fact that the licenses that
23 were issued in December 2018 were conditional. You're aware of
24 that?

25 A Yes.

1 Q And what is the condition or what are the conditions
2 that -- why is it called a conditional license based on what
3 you've explained?

4 A It's called a conditional license at that point
5 because they have not yet met all the conditions to become
6 operational. So they have -- we have a checklist they have to
7 follow, and they have to get their business licenses, both
8 state and local. They have to get their special land use
9 permit that says that the location has been surveyed and meets
10 all of the legal requirements. They have to get their
11 certificate of occupancy for the building. They have to have
12 fire and building inspections. Their scales have to be
13 certified for example.

14 There's a lot of different things that go into it.
15 We have to verify that all of the owners, officers and board
16 members had their background check and agent cards completed
17 and any other information that we require.

18 Once we get all that information, we go through it,
19 verify that it's all there and complete. I would sign off for
20 the southern facilities. Steve Gilbert would sign off for the
21 northern facilities, and then we would notify the
22 administrative assistant to print and finalize their
23 certificate, and then they would be allowed to start operating,
24 and at that point we would begin regulating them in compliance
25 with the administrative code.

1 Q Okay. So let me ask I guess a couple questions on
2 that. One, let's say my client, Nevada Organic Remedies, they
3 had a conditional license, and they submit a location that is
4 directly -- let's say it's inside of a church. Got a big
5 church building. They say we're going to take one of the
6 kiosks there, and that's where our establishment will be. Will
7 that be approved?

8 A No.

9 Q And if they insist that that's the only location they
10 want to have, what happens to their conditional license after
11 the time period ends?

12 A It would expire.

13 Q So they're not able to actually sell marijuana; is
14 that right?

15 A Correct.

16 Q What if my client he has a conditional license, has
17 not got an approved location but they just start selling
18 marijuana from somewhere? Again, just put a kiosk on the
19 street and they start selling marijuana. Are they permitted to
20 do that?

21 A No. That would be illegal.

22 Q What would happen -- do you know what the penalty or
23 the provision would be if somebody did that?

24 A That would be a revocation of their license if they
25 had one with the conditional we would revoke -- well, I don't

1 know if you revoke a conditional, but we would remove the
2 conditional. They would not be allowed to get their final
3 license, and we would notify law enforcement for that area as
4 well, as well as the local jurisdiction for business licensing.

5 Q Okay.

6 A I believe the fine is -- or the, not fine, sorry, the
7 civil penalty is \$30,000 for doing so.

8 Q Let's look at the bottom of this section 453D.200,
9 Number 7, Subsection 7.

10 MR. KOCH: It should be the next page, Bryan.

11 BY MR. KOCH:

12 Q The very last Subsection here which says,
13 The department shall inspect marijuana
14 establishments as necessary to enforce this
15 chapter or the regulations adopted pursuant
16 to this section.

17 A client such as mine, Nevada Organic Remedies, that
18 has a conditional license, before they are approved and
19 finalized, can you inspect their establishment?

20 A Yes. It's actually one of the requirements. They
21 can ask for a preliminary walk-through in which we would give
22 them advice on how to proceed and if they're going in the right
23 direction. If they choose not to do so, they don't have to.
24 It's not required.

25 And then prior to becoming operational, prior to

1 finalizing that file, the inspector and auditor assigned to
2 that facility would conduct a -- we call it a preopening
3 inspection. It's always required. You cannot become
4 operational without it, and at that point they would conduct a
5 full inspection as they would on any unannounced inspection
6 except there's no product on site at that time.

7 Q Did you conduct any inspections, did the department
8 conduct any inspections of any applicants when their
9 applications were submitted in September of 2018 of their
10 establishment?

11 A During the time that they submitted an application?

12 Q Right.

13 A I -- I don't believe so. If we did, it wasn't
14 associated with the application. It was just a routine
15 unannounced inspection.

16 Q There wasn't a requirement to have an inspection
17 conducted in connection with the application itself; right?

18 A No, it was not.

19 Q And would there be an inspection -- if the
20 application were denied, didn't score high enough, would there
21 be any reason to conduct an inspection?

22 A No.

23 Q And so the inspection referenced in paragraph 7,
24 Subsection 7 could only take place after at least a conditional
25 license was issued; is that right?

1 A Right. Correct.

2 Q Let's go back a little bit in that statute. We're
3 going to go up to Item 3, Subsection 3 of 453D.200. And
4 Item 3 says,

5 The Department may by motion or on
6 complaint, after investigation, notice of the
7 specific violation, and an opportunity for
8 hearing, pursuant to the provisions of 233B
9 of NRS, suspend, revoke, or fine a licensee
10 for the violation of this chapter or for a
11 violation of a regulation adopted by the
12 Department pursuant to this section.

13 The way that that's written it talks about a
14 licensee; is that right?

15 A Correct.

16 Q And can an entity have a -- can you conduct an
17 investigation of an entity that does not have a license? Can
18 the department do that?

19 A Only if they have a conditional license and they ask
20 for an inspection stating that they are ready to become
21 operational and we do a preopening inspection.

22 Q Okay. And so this investigation, notice of a
23 specific violation, do you anticipate that that process would
24 happen before or after at least a conditional license were
25 awarded?

1 A It would have to be after.

2 Q What about before or after the establishment becomes
3 operational in some fashion?

4 A It would likely be after the -- during the preopening
5 inspection is basically a pass or fail.

6 Q Okay. So Item 3 and Item 7 are both after the
7 conditional license has been awarded. That's what the
8 department [indiscernible] 4.

9 The Department may immediately suspend
10 the license of any marijuana establishment if
11 the marijuana establishment knowingly sells,
12 delivers, or otherwise transfers marijuana in
13 violation of this chapter.

14 It goes on, et cetera, from there. Again, to suspend
15 a license, I assume that an entity has to have a license?

16 A Yes, they would have to have received their final
17 license by that time.

18 Q Okay. So Item 4 under 453D.200 also would be a power
19 the department would have after licenses were issued and
20 finalized?

21 A Correct.

22 Q And what about 5?

23 To ensure the individual privacy is
24 protected, the department shall not require a
25 consumer to provide a retail marijuana store

JD Reporting, Inc.

1 with identifying information other than
2 government-issued identification to determine
3 the consumer age --

4 Et cetera. Would you expect that provision relating
5 to the provision of information -- identifying information take
6 place before or after a license was finalized?

7 A That would have to be after the final license was
8 issued and they were operational.

9 Q I think we've established that all of these
10 subsections here -- 3, 4, 5 and 7 -- would all take place after
11 a license, either a conditional or more likely final were taken
12 place.

13 What about Number 6?

14 The department shall conduct a
15 background check of each prospective owner,
16 officer and board member of the marijuana
17 establishment license applicant.

18 Do you know if that background check had to take
19 place before or after a license was awarded?

20 A For a conditional license, I'm not sure if that was
21 part of the ID section of the application. I can't say, but I
22 know that it is required prior to issuing a final license.

23 Q All right. And do you believe that that's a
24 reasonable requirement to have a background check? Is that
25 right?

JD Reporting, Inc.

1 A Yes, I do.

2 Q And an owner, officer, board member can't have a
3 felony, can they?

4 A They cannot have specific felonies. They're
5 restricted felonies.

6 Q Right. Excludable --

7 A Yes.

8 Q Excluded felonies?

9 A Yes. Uh-huh.

10 Q And that would come up in the background check
11 presumably?

12 A Yes.

13 Q Does the department have a process for conducting
14 background checks that you're aware of?

15 A Yes. Fingerprints go to DPS, Department of Public
16 Safety, for processing, and we get the report back from them.

17 Q And do you know what the authority for the department
18 to take fingerprints, where that comes from?

19 A I believe it's NRS, but I can't say for sure.

20 Q Do you know if it came from the initiative?

21 A I don't recall.

22 Q All right. Let's jump back up to the top of that
23 section, 453D.200, and we're just going to look at Item 1, and
24 this is one again we spent a lot of time on. This talks about,
25 The Department shall adopt all

1 regulations necessary or convenient to carry
2 out the provisions of this chapter.
3 Regulations must not prohibit the operation
4 of marijuana establishments, either expressly
5 or through regulations that make their
6 operation unreasonably impracticable.

7 So first of all, I understand based on your testimony
8 from Mr. Parker that you took part -- you're part of the group
9 that did endeavor to adopt regulations to carry out the
10 provisions of the chapter; is that right?

11 A Yes.

12 Q And that group was aware of the initiative; is that
13 right?

14 A Yes.

15 Q It was aware of NRS 453D, which encoded the
16 initiative; is that right?

17 A Yes.

18 Q And when the group was meeting, was there discussion
19 about regulations and whether they were compliant with 453D?

20 A Yes.

21 Q Let's suppose somebody in that group, Jorge comes in
22 and says, hey, I've got a great idea for regulation, proposes a
23 regulation and he says, I don't know if this complies with the
24 statute or not, but let's just throw it in there. Would the
25 group just say, okay, fine, let's just throw it in?

1 A No. We would express our concerns.

2 Q Would there be discussion about whether that section
3 or the proposed regulation complied with the law?

4 A Yes.

5 Q And so if somebody just arbitrarily came in and said,
6 hey, let's have every -- every marijuana establishment, let's
7 make their names all start with the letter N. Would that be
8 something that the department would have put into place just
9 because somebody came in and asked for that?

10 A No, we would not.

11 Q Okay. Do you think that would be kind of a silly
12 regulation?

13 A Yes.

14 Q All right. The other items that are listed here,
15 let's look at what it says here because I think Mr. Parker
16 asked you about a few of these things, and his question I think
17 was more about the fact that all these had to be a part of the
18 application, that these all need to be considered then.

19 So first of all, the regulation shall include, A,
20 procedures for the issuance, renewal, suspension and revocation
21 of a license to operate a marijuana establishment.

22 Which of those words listed there would come into
23 play before an application or concurrent with an application?

24 A The only one would be "issuance"?

25 Q The renewal, suspension, and revocation will be

1 afterward; is that right?

2 A Yes.

3 Q The qualifications for licensure that are directly
4 and demonstrably related, the operation of a marijuana
5 establishment, was that discussed by the department as part of
6 the regulation process?

7 A I believe so.

8 Q Okay. Were there any -- do you remember any
9 qualifications that were proposed that -- brought up by
10 somebody and somebody said, no, I don't think that relates to
11 the operation of a marijuana establishment?

12 A Not that I recall.

13 Q Okay. And to determine this qualification, do you
14 remember what the department considered in order to decide upon
15 potential qualifications?

16 A I know we relied heavily upon the medical
17 requirements. So that was used as a template.

18 Q Let's actually look at that. We'll come back to this
19 in a minute, and if we can, the medical regulations, if we
20 could go to -- or it's actually the statute, NRS 453A.328, the
21 criterium.

22 MR. KOCH: Bryan, do you have that? You can take the
23 other one off for now and just blow this one up.

24 BY MR. KOCH:

25 Q All right. So this was a medical marijuana

1 regularity -- or sorry, statute; is that right?

2 A Yes.

3 Q And if we look at the bottom of the statute, there's
4 a date. It says added by NRS-- to the NRS by 213, and in the
5 section there and then amended in 2017. So when the department
6 was considering regulations for adoption in January of 2018,
7 did the department had this statute that had been passed by the
8 legislature in 2013 and then amended in 2017?

9 A Yes. And if it had not yet been codified, then we
10 would still have the senate bills and assembly bills that
11 would've gone into that.

12 Q All right. So we look at the items there if we can
13 go up to the top. It states that,

14 In determining whether to issue a
15 medical marijuana establishment registration
16 certificate pursuant to NRS 453A.322, the
17 department shall in addition to the other
18 factors set forth in that section consider
19 the following criteria of merit.

20 Did the department, did you or anyone else in your
21 group look at what was listed here as criteria of merit?

22 A Yes. It appears that it's very similar.

23 Q Including Item 1, the financial resources, both
24 liquid and illiquid?

25 A Correct.

JD Reporting, Inc.

1 Q The previous experience of the persons?

2 A Correct.

3 Q And here it talks about operating other businesses or
4 nonprofit organizations. Did anyone say, hey, I know the
5 legislature says criteria under merit, but I don't think so, so
6 let's get rid of it?

7 A No, we did not.

8 Q All right. So some of the direction was taken
9 apparently from the legislature; is that right?

10 A Yes.

11 Q Educational achievements in Number 3, that was a
12 criterium that the department believed would be part of the
13 process?

14 A Yes.

15 Q I think Number 4 is about compassionate use of
16 marijuana to treat medical conditions. That wouldn't be
17 necessarily directly related to recreational, would it?

18 A Correct.

19 Q Okay. And then 5 is also about medical use. Let's
20 go down a little bit more. We have likely impact of the
21 proposed medical marijuana establishment on the community and
22 which it is proposed if you locate it.

23 If you -- that word "community," and you were asked a
24 lot about it, and some people have some view of how why that
25 community is, some people have -- do you know if there's a

1 definition of community in the statute?

2 A There's a definition of community facility --

3 Q Right.

4 A -- but I don't think that the word community itself
5 is defined.

6 Q What's a community facility? Do you understand how
7 that's defined?

8 A Yeah. That would be like a place where the community
9 gathers of all age groups, so like a church, a playground, and
10 things of that nature.

11 Q Right. And that's in NRS 453D; correct?

12 A Yes, I believe so.

13 Q If it's .030, it's the definition section?

14 A You're better than I am at that.

15 Q All right. Well, we probably looked at it more than
16 we need to.

17 Community though itself is not defined; right?

18 A Not to my knowledge, no.

19 Q There's no radius for a community or anything like
20 that?

21 A No.

22 Q It doesn't say the community is the township in which
23 the establishment will be located?

24 A No, not that I'm aware of.

25 Q It doesn't have anything about the city blocks or

1 anything like that, does it?

2 A No.

3 Q Okay. So the department have to exercise some
4 discretion in deciding what the community would be or the
5 community impact would be?

6 A Correct.

7 Q All right. Item 7, and maybe we'll come back to this
8 but it says,

9 The adequacy of the size of the proposed
10 medical marijuana establishment to serve the
11 needs of the persons who are authorized to
12 engage in the medical use of marijuana.

13 What is a medical marijuana establishment?

14 A A medical marijuana establishment is any cultivator,
15 producer, dispensary or laboratory that's affiliated with the
16 growing, processing, dispense, selling or testing of medical
17 marijuana.

18 Q Okay. Is an establishment -- there's a lot of talk
19 about the adequacy of the size of the building. Do you know if
20 there's any regulation either here or in medical or in
21 recreational that specifically says the adequacy or the size of
22 the building is important?

23 A I don't know off the top of my head.

24 Q All right. Well, we'll come back to that then.

25 And then we have a few other items that are listed

1 here.

2 Integrated plan, in Number 8, for the care, quality
3 and safekeeping from seed to sale. That was something that was
4 considered in recreational; is that right?

5 A Yes.

6 Q The amount of taxes paid to the State of Nevada.
7 That was something that was considered as well?

8 A Yes.

9 Q And the 10, diversity on the basis of race, ethnicity
10 or gender of the applicant.

11 A Yes.

12 Q That was something that was incorporated in the
13 recreational license; is that right?

14 A Yes, it was.

15 Q And did the department come up with the diversity
16 component on its own, just decided, hey, this would be
17 something we want to include?

18 A No. We got the guidelines from the Equal Employment
19 Opportunity guidelines. We used those.

20 Q Okay. But what about the decision just to simply
21 consider diversity at all? Was that something that somebody
22 just said, hey, this would be a good idea, or where did that
23 come from?

24 A No, it came from -- I believe it was from one of the
25 bills that passed through legislation, but it was very clear

1 during all the hearings that and the drafting of 453D that it
2 was very important to legislation and the public that diversity
3 be included.

4 Q All right. Could it have been this actual section
5 where this was added as a criterium of merit?

6 A Yes.

7 Q In 2017?

8 A Yes.

9 Q Was that addition made after the initial medical
10 license requirements were drafted in earlier 2014?

11 A Yes.

12 Q And was there discussion about getting rid of
13 diversity because it may not be related to the operation of
14 medical -- or to a marijuana establishment?

15 A No, that was not discussed.

16 Q All right. And then it says, Item 11, lastly, Any
17 other criteria of merit that the department determines to be
18 relevant.

19 So any criteria that was discussed or considered, was
20 there discussion among the group about that criteria?

21 A Yes.

22 Q Was there ever disagreement about potential criteria?

23 A Possibly. I don't recall specifics. It was quite a
24 while ago.

25 Q Okay. Then let's go back if we could to NRS 453D.200

1 where we were looking a minute ago. And so those
2 qualifications for licensure in Subsection 1B that are directly
3 and demonstrably related to the operation of medical -- or with
4 marijuana establishment, we looked at that.

5 Item C requires the security of marijuana
6 establishments. Was that something that was considered as part
7 of the application process?

8 A Yes. We had sections about building security and
9 product security and inventory control.

10 Q What about D: Requirements to prevent the sale or
11 diversion of marijuana and marijuana products to persons under
12 21 years of age?

13 A Yes. That was under the verification section of the
14 application.

15 Q And these regulations were in place prior to the
16 applications being submitted; is that right?

17 A Yes.

18 Q And so an applicant would be aware of these
19 requirements and be expected to submit a plan that would
20 address these requirements?

21 A Yes.

22 Q What about Item E: Requirements for the packaging of
23 marijuana and marijuana products, including requirements for
24 child-resistant packaging? Was that part of it?

25 A Yes, that was in there.

1 Q Okay. And child-resistant packaging, is that
2 something that's regulated by the department?

3 A Yes, it is.

4 Q Even after a license is issued; is that right?

5 A Yes.

6 Q And so regulations that relate to child-resistant
7 packaging don't just apply to applications; they apply
8 throughout the operation of that business. Is that right?

9 A Correct.

10 Q Okay. What about Item F: Requirements for testing
11 and labeling of marijuana and products, including numerical
12 indication of potency? Is that something that the department
13 regulates?

14 A Yes, we do. The labels have to state the potency.

15 Q And that's --

16 A From the lab report.

17 Q After a licensee is operational, they need to put
18 those labels on?

19 A Correct.

20 Q And if they don't, they could be penalized for that?

21 A Correct.

22 Q Recordkeeping, Item G, that something -- is that --
23 was that part of the application, the recordkeeping
24 requirements?

25 A Yes. There was a section in policies and procedures

1 for recordkeeping?

2 Q Okay. And the restrictions on signage, marketing,
3 display and advertising, is that something that is regulated by
4 the department?

5 A Yes.

6 Q Was signage scored in the application? Do you know?

7 A There was a part in the building adequacy about
8 having a professional appearance.

9 Q All right. And so signage would have been a part of
10 that?

11 A Yes.

12 Q Procedure for the collection of taxes in Item I, fees
13 and penalties imposed by this chapter, was that something that
14 needed to be addressed in the application?

15 A Taxes paid was part of the application, and I believe
16 that they looked at if they owed taxes.

17 Q Okay. And then future taxes, did the applicant need
18 to provide a plan to pay future taxes?

19 A They did have to provide a budget, and certain taxes
20 were supposed to be listed in there, yes.

21 Q Okay. What about in J, Procedures and requirements
22 to enable the transfer of a license for a marijuana
23 establishment to another qualified person and to enable a
24 licensee to move the location of its establishment to another
25 suitable location? Did you expect or did you see I guess in

1 any application a proposal to transfer the license being
2 applied for?

3 A I didn't review the 2018 applications. I wasn't part
4 of the scoring team; however, in previous applications, I've
5 scored that's never been something that we saw or looked for.

6 Q And the relocation from one spot to another, another
7 suitable location, without be something you would expect to be
8 before or after a license were granted?

9 A After a license is granted, at least a conditional,
10 we wouldn't -- we wouldn't process change of location for a
11 facility that doesn't have a conditional or final license.

12 Q So if somebody got their application rejected or
13 didn't score high enough, you wouldn't worry about transfer of
14 licenses; right?

15 A Yeah. There would be nothing to move. Yeah.

16 Q Or transfers of location either?

17 A Correct.

18 Q All right. But if someone's operational and they
19 wanted to move, they'd have to get that approved by the
20 department; right?

21 A Yes, they do.

22 Q And the department has regulations about that?

23 A Yes, we do.

24 Q And those regulations are adapted in accordance with
25 this section; is that right?

1 A Yeah.

2 Q Okay. Just lastly then, let's go down to L:
3 Procedures to establish the fair market value of wholesale of
4 marijuana. Is that something that was part of the application?

5 A No. That's actually something determined by the
6 department that all operational facilities are held to.

7 Q All right. So this would be something that
8 operational facilities would have to look to based on
9 regulations after they're operational?

10 A Yes. Correct.

11 Q So if we looked at, and then N talks about the civil
12 penalties for failure to comply. Civil penalties -- are civil
13 penalties imposed on nonlicensees?

14 A No, it is not.

15 Q Okay. So it appears to me A through M on 453D.200,
16 Subsection 1, that there are a number of items there. Some of
17 them were part of the application process. Some of them were
18 regulations that would only apply after a licensee was actually
19 operational; is that right?

20 A Yes.

21 Q And I think as we established also they would also
22 apply to the subsequent Sections 2 -- well, actually 2 we
23 didn't talk about, 3, 4, 5, 6 and 7?

24 A Yes.

25 Q Right? Okay.

1 MR. KOCH: While we've got 200 up, if we could scroll
2 up to the first paragraph, Subsection 1.

3 BY MR. KOCH:

4 Q There's language there that says, The regulations in
5 the second to last line, shall not -- sorry. I'll just read
6 it:

7 The regulations must not prohibit the
8 operation of marijuana establishments, either
9 expressly or through regulations that make
10 their operation unreasonably impracticable.

11 Was there ever any discussion about regulations that
12 may be unreasonably impractical?

13 A Yes, there were several, and we got statements from
14 industry as well as public with their concerns.

15 Q Do you recall what any of those potential regulations
16 may have been?

17 A There was one specifically that stands out to me. We
18 had included that laboratories needed to test for Clostridium
19 botulinum. Then we discovered that that is a federally
20 regulated bacteria, and they can't legally obtain it because
21 they're federally illegal with marijuana. So there was a
22 contradiction there. So they were unable to do so legally.

23 Q Okay. Any others that you recall?

24 A Not to -- not that I can remember.

25 Q What about these inspections? You talked about

1 earlier that those were going to take place on a regular basis.
2 What if there is a proposal that an establishment be inspected
3 on a daily basis? Would there be a discussion about whether
4 that's practical or not?

5 A Yes. We would absolutely discuss that. That would
6 be impractical both for the facility and for our staffing.

7 Q Okay. And so a decision was made that a reasonable
8 periodic inspection would take place based upon what the
9 department could do and not to interfere with the businesses;
10 is that right?

11 A Correct.

12 Q And you believe that the regulations that were
13 considered and eventually adopted by the department were
14 overall reasonable?

15 A I do.

16 Q And those regulations were considered or sent to
17 the -- is it the Legislative Counsel Bureau? Is that --

18 A Yes. That's correct.

19 Q -- who you talked to, the LCB?

20 A Uh-huh.

21 Q Okay. And did the LCB have any comments on the
22 regulations that you're aware of?

23 A They made several minor revisions. I'm not aware of
24 any major revisions that were made where they completely
25 changed anything.

1 Q All right. And as you consider the regulations that
2 are in place today, do you believe that those regulations are
3 necessary for the department to carry out it's role regulating
4 and overseeing the marijuana industry?

5 A Yes, I do.

6 Q Do you believe that those regulations are suitable to
7 the circumstances of the industry as it is today?

8 A Yes, I do.

9 Q The ownership requirements, there were some questions
10 yesterday about regulations relating to a threshold of
11 ownership in order to qualify as an owner of the regulated
12 [indiscernible]. Are you aware of those regulations?

13 A I'm familiar with them, yes.

14 Q You're aware that there's a 5 percent threshold in
15 the Nevada administrative code for owners?

16 A Yes.

17 Q Was that something that was discussed among the group
18 as part of the process of adopting regulations?

19 A That discussion was more with upper management. I
20 know I was given the direction, but I don't believe I was
21 involved in the decision-making process.

22 Q Okay. Are you aware of any similar regulation in the
23 medical marijuana side?

24 A Yes. I believe it's the same.

25 MR. KOCH: Okay. If we could pull up NAC 453A.302.

1 THE COURT: -302?

2 MR. KOCH: -302, yes.

3 BY MR. KOCH:

4 Q NAC 453A.302 is titled Applicability of Requirements
5 of Chapter to Certain Owners of Establishments, and it appears
6 based upon the phrasing on the bottom that it was added March
7 28th, 2014, and effective April 1st, 2014. Do you know
8 when the initiative itself went to the voters, the initiative
9 for recreational went to the voters?

10 A I know it -- I believe 2016 is when it went to the
11 voters.

12 Q Okay. This section here about the 5 percent
13 ownership -- and I guess I didn't present it to you, but
14 Item 1 says,

15 Except as otherwise required in
16 Subsection 2, the requirements of this
17 chapter concerning owners of medical
18 marijuana establishments only apply to a
19 person with an aggregate ownership interest
20 of 5 percent or more in a medical marijuana
21 establishment.

22 Are you aware of that limitation as it relates to
23 medical?

24 A Yes.

25 Q Okay. Do you believe that that's a reasonable

JD Reporting, Inc.

1 regulation with respect to ownership?

2 A Yes, I do.

3 Q Is there any reason that you think it's a necessary
4 regulation?

5 A There are publicly traded companies where there are
6 hundreds to thousands of people who have 0.01 percent interest
7 or somewhere around there that would be impossible to contact
8 everybody for background checks.

9 Also, I know that there was some discussion, when I
10 was given direction, I was informed of some discussion
11 regarding owners with less than 5 percent interest tended to be
12 hands-off and not physically in the facilities.

13 Q They wouldn't have control over the operation of the
14 facility; is that right?

15 A Correct.

16 Q And Item 2 here says,

17 If in the judgment of the department the
18 public interest will be served by requiring
19 any owner with an ownership interest of less
20 than 5 percent in a medical marijuana
21 establishment to comply with any provisions
22 of this chapter concerning owners of medical
23 marijuana establishments, department will
24 notify that owner, and he or she must comply
25 with those provisions.

JD Reporting, Inc.

1 Were you aware of that ability for the department to
2 essentially reach out and require less than 5 percent owners to
3 comply?

4 A Yes, I am.

5 Q Do you know if that's -- the department has ever sent
6 out a notice like that? Would you be privy to that?

7 A If an owner of less than 5 percent is physically
8 working in the facility, yes, we would require them to do that.

9 Q So if an owner is physically working in the facility,
10 they would need an agent card; right?

11 A Correct.

12 Q They would need to apply for that agent card?

13 A Yes.

14 Q Is that right?

15 And even if they owned .1 percent, they couldn't work
16 in the facility, couldn't be there unless they had an agent
17 card; right?

18 A Correct.

19 Q Each of the applicants in 2018 were licensed under
20 the medical program; correct?

21 A Yes.

22 Q And so this regulation, as you understood it, applied
23 to each of those applicants starting in 2014; is that right?

24 A Yes.

25 Q And did -- was there any discussion among the group

1 in discussing regulations for recreational to say, hey, we
2 should have different ownership requirements; we ought to just
3 do 10 percent or 20 percent as a threshold? Is anything like
4 that?

5 A No. We made our best effort to keep it the same and
6 consistent with medical on all possible levels to make it
7 easier for the operators.

8 Q And, in fact, if we put the language side by side,
9 and we won't do that, but I'll just represent to you if we look
10 at 453D.255, I believe, relating to 5 percent ownership under
11 NAC 453D.255, it has essentially the same language except for
12 medical is not there. Are you aware of that?

13 A Yes.

14 Q Okay. And that essentially that regulation of the
15 threshold was consistent with the previous medical and taken
16 over to recreational; is that right?

17 A Yes.

18 Q Did anyone ever tell you that we should regulate
19 recreational much differently than medical?

20 A No. In fact, I heard repeatedly the opposite.

21 Q You read the task force, the Governor's task force
22 report?

23 A Yes.

24 Q And did you read anything in there to the extent that
25 the task force proposed or recommended that recreational be

1 regulated much the same way as medical?

2 A Yes. That was consistent throughout.

3 Q And did anyone, was there any outcry from industry or
4 anybody else that we should regulate recreational differently?

5 A No, not that I'm aware of.

6 Q Okay. You were asked about buildings quite a bit.

7 A Yes.

8 Q Do you remember that discussion of building plans and
9 things like that?

10 Was there a magic number -- let say in financial. I
11 know in financial, that section of the application, there are
12 some thresholds there. If somebody had more than 3.5 million
13 in assets, they would get a certain number of points. If they
14 had a different range, they would get another number of points.

15 When it came to the size of the establishment, was
16 there a square footage that said, hey, if your facility is
17 bigger than 5,000 square feet you get a certain number of
18 points or any sort of cut off there?

19 A No.

20 Q So the square footage itself, was that specifically
21 relevant? Did you just look at the number?

22 A No.

23 Q When we talk about the size of the establishment,
24 what did that -- what is adequacy of size of the establishment?
25 What were the scorers looking at?

1 A They were looking at the ability for flow of the
2 people, the consumers visiting the facility, the staff working
3 in the facility and the flow of product through the facility
4 and the adequate space to store product in the facility.

5 MR. KOCH: Okay. And let's pull up NAC 453D.268.

6 EXHIBIT TECHNICIAN: Say that again.

7 MR. KOCH: NAC 453D.268.

8 BY MR. KOCH:

9 Q And while he's doing that, so if somebody had an
10 application that says, hey, we're going to have a 100,000
11 square-foot building and somebody else said, oh, we're just
12 going to have a 5,000 square-foot building, that hundred
13 thousand square-foot building does not automatically get more
14 points, does it?

15 A No, they would not. We would look at the way that
16 they laid out the facility and make sure that there was
17 adequate space for a typical operation.

18 Q Okay. So NAC 453D.268 talks about the submission of
19 an application by a person who holds medical marijuana
20 establishment registration certificate for marijuana
21 establishment of same type or different type. Okay. So this
22 regulation, are you familiar with this regulation?

23 A Yes.

24 MR. KOCH: Okay. Let's look at Item 6 if we can.

25 Keep going. I think that's -- I don't know why we do

1 our statutes this way. Number. Number.

2 BY MR. KOCH:

3 Q All right. Item Subsection 6 states,

4 As part of the application there should
5 be documentation concerning the size of the
6 proposed marijuana establishment, including,
7 without limitation, building and general
8 floor plans with supporting details.

9 The proposed marijuana establishment, is that the
10 same thing as a building structure?

11 A I suppose it could be.

12 Q Right. It could be. You could have a stand-alone
13 building that's housed as the establishment; right?

14 A Yes.

15 Q Can you have an establishment within a building that
16 also houses other businesses?

17 A Yes, as long as they're completely separated within
18 the building.

19 Q Right. So, for example, my client Nevada Organic
20 Remedies has an establishment on Eastern Avenue. I guess it's
21 Henderson Organic Remedies. Let's look at that one. I'm more
22 familiar with it. Establishment that's in the one of these
23 shopping centers there. It's in a shopping center. There's
24 other tenants and other stores around it. That's okay?

25 A Yes.

1 Q Okay. So they don't have to have a stand-alone
2 building?

3 A Correct.

4 Q All right. And then when it says -- goes on to say
5 the size of the proposed establishment, were you looking for my
6 client to submit the size of the entire building structure
7 within which the establishment would be housed?

8 A Just the portion that their physical establishment
9 would be consuming.

10 Q Okay. And it goes on to say, Including, without
11 limitation, building and general floor plans with supporting
12 details. Do you know if the word building is defined in the
13 statute or the regulation anywhere?

14 A No, I don't believe so.

15 Q Yeah, I don't think it is. I think there's actually,
16 well, very few places that it's listed there, but it's
17 certainly not defined as a structure.

18 What would be a building and general floor plan then
19 as you read this provision of the regulations?

20 A So the floor plan would be a portion of the building
21 plan. That's the aerial view. That's the most important part.
22 It shows the layout of all the rooms, the equipment, and you
23 can easily see the flow of the process through that floor plan.

24 Building plans would also potentially include you'd
25 have the elevator floor plans. You'd have the -- the finish

1 schedules, which would show the materials of the floors, walls,
2 ceilings, if they had base coating for cleanability, things of
3 that nature, plumbing lines, where they're getting their water
4 source from, sewage lines, things like that.

5 Q Was there a requirement -- let's say if an applicant
6 did not have an existing facility. There's empty lot, and they
7 say that's where we want to put it. Would they be required to
8 submit a plan to actually construct their facility within the
9 12 months?

10 A Yes.

11 Q And would these scorers look at the feasibility of
12 building that facility within 12 months?

13 A Yes. That was one of the criteria was if it was
14 reasonable within the time frame.

15 Q And so if my client again had proposed to put their
16 spot in one section of a building that houses many other
17 companies, do they need to submit an architectural drawing for
18 the entire building? Let's say they're in the mall. If my
19 client was to put his place in the mall, that's going to be the
20 location, do they need to submit architectural drawings of the
21 mall?

22 A No, they would not.

23 Q And if I said, well, my -- my location is going to be
24 in the mall, that's a really big building. Size is definitely
25 adequate. So would that get me extra points because the mall

1 is big?

2 A No, it would not.

3 Q It would just be the adequacy of the actual space
4 that I'm going to occupy; is that right?

5 A Correct.

6 Q Now, if we look at -- let's go to NAC 453D.446.

7 THE COURT: -446?

8 MR. KOCH: -446.

9 BY MR. KOCH:

10 Q So NAC 453D.446 says, Requirements for building used
11 as marijuana establishment or by dual licensee.

12 All right. So here we had a discussion more about
13 the building, and that seems to imply the talking about the
14 structure; is that right?

15 A Yes.

16 Q Okay. It says, Item 1,

17 A building used as a marijuana
18 establishment or by a dual licensee must
19 have, A, at least one toilet facility which
20 must contain a flushable toilet, mounted
21 toilet tissue and a hand sink with running
22 water which is capable of delivering hot
23 water --

24 With the temperatures described there, a bunch of
25 other things related to the rest room, which we probably don't

1 need to get into too much detail with.

2 But let's suppose somebody says, hey, I'm in a big
3 building. I'm in the mall again, and there's a rest room.
4 There's a toilet facility as it's called here down by
5 Dillard's, you know, a few hundred feet down there. That's
6 what I'm going to submit here as part of my plan. Would that
7 be adequate?

8 A No. It would need to be within their facility.

9 Q Okay. And it actually references the hand sink there
10 needs to be part of the -- in the toilet facility, but then
11 let's look at Subsection B, under 1:

12 Except for a marijuana distributor, the
13 building must have at least one hand-washing
14 sink not located in a toilet facility and
15 located away from any area in which edible
16 marijuana products are cooked or otherwise
17 prepared to prevent splash contamination.

18 We've talked probably more about hand-washing sinks
19 in this proceeding than I expected to, but here we go. You
20 talked yesterday about the need for a hand-washing sink.

21 A Yes.

22 Q There is a need for that; right?

23 A Yes.

24 Q And not just in the rest room for going -- after you
25 go to the bathroom, you wash your hands, but for other reasons

1 too; right?

2 A Correct.

3 Q And so if an applicant submitted their plan, they're
4 in a big building with lots of other tenants and they say, hey,
5 there's a sink outside by the food court in the mall, it's not
6 in a toilet, it's just out in the open, would that be adequate?

7 A No, it would not be.

8 Q It would have to be inside the establishment area
9 itself?

10 A Yes.

11 Q Okay. And there's a lot of requirements about
12 washing hands, aren't there?

13 A Yes, there are.

14 Q If we go to 453D.442, 453D.442 talks about
15 cleanliness and health of marijuana establishment agents, and
16 it says that each marijuana establishment must ensure that each
17 agent who's employed by or volunteers or provides labor in a
18 marijuana establishment does the following, and Item A is
19 cleans his or her hands or exposed portions of his or her arms
20 in hand-washing sink.

21 So there's a specific regulation about washing hands
22 and a hand-washing sink; right?

23 A Yes.

24 Q How you can't just do it in a drinking fountain, can
25 you?

1 A No, you cannot.

2 Q All right. It has to be a standalone sink?

3 A Yes.

4 Q There's been some implication that the sink needs to
5 be sitting in the middle of the retail area like a fountain in
6 the middle. Is that expected?

7 A No, it is not.

8 Q It just needs to be somewhere that's not in the
9 toilet facility; is that right?

10 A Correct. Ideally it would be conveniently located
11 for staff to wash their hands as needed.

12 Q Okay. And if we go on to look at these requirements
13 here, there's actually 11 items where if somebody needs to wash
14 their hands. I won't look at them all, but immediately upon
15 entrance into the establishment, immediately before working
16 with plants, before preparing concentrated marijuana,
17 et cetera, et cetera, coughing, sneezing. You talked about
18 that. So there are 11 different provisions for washing hands
19 and why somebody would need to do that; is that right?

20 A Correct.

21 Q And so having a hand-washing sink in a reasonable,
22 accessible place for all agents of the marijuana establishment
23 would be something that the department would be looking for?

24 A Yes. It would be required for compliance.

25 Q Is there any department think ever propose throwing

1 in a hand washing requirement just as a gotcha for people that
2 may not plan for hand-washing sinks properly?

3 A No, that's not the reason.

4 Q All right. There was a reason for that?

5 A Yes.

6 Q And then diversity. Mr. Parker asked you if you were
7 aware of any establishments that were 100 percent minority
8 owned that received a license in this recreational period. Did
9 you say -- did you have any knowledge about that?

10 A I said I didn't know of -- no, I think he asked how
11 many. I don't know the number. I am aware of one that's
12 all-female owned, but that's the only one that comes to my head
13 at the moment. I don't -- I don't -- I wasn't really involved
14 in that process.

15 Q Okay. And was there ever any discussion among the
16 group in considering regulations of simply saying, well, let's
17 just give a -- if somebody is 100 percent minority owned, let's
18 just give them a license because they're -- they've got
19 diversity?

20 A No. That would not automatically make them a
21 qualified applicant.

22 Q And when the applications were scored with respect to
23 let's say the floor plan, the establishment, the plan that's
24 there, did applicant's who had more diversity, were they scored
25 differently for those floor plans?

1 A No. That information wouldn't have been available to
2 the scorer because the floor plans were in the nonidentified
3 section whereas diversity was in the identified section.

4 Q Okay. Even in the identified section were you aware
5 of any different rubrics or frameworks for scoring diverse
6 applicants versus perhaps what we'll call nondiverse
7 applicants?

8 A The only section where it came into effect was the
9 diversity section itself.

10 Q Okay.

11 A No other sections were impacted by diversity.

12 Q And was there ever any discussion to do that, to say
13 let's change the financial thresholds for applicants that have
14 a diversity of ownership?

15 A No, there was not.

16 Q It was just one of many requirements?

17 A Yes.

18 Q They still have to comply with the rest of the
19 requirements?

20 A Correct.

21 Q And now, you know, you've been asked a lot of
22 questions. You've been able to sit back and think about this.
23 As you look back at the process, do you believe that the
24 department conducted the process of adopting regulations and
25 the application and scoring process in a manner that you

1 thought was reasonable under the circumstances?

2 A I believe so, yes.

3 Q Do you think it's perfect?

4 A No. I -- that's hard to say.

5 Q Okay.

6 A There's always room for improvement.

7 Q If you are running this application process again in
8 a couple years, do you think the department would do it exactly
9 the same way as it did in 2018?

10 A We would probably make some revisions.

11 Q Okay. And learn from the process in 2018 and
12 hopefully make it better the next time around?

13 A Absolutely.

14 Q And do you believe that in your consideration and
15 conversations with other department members as part of your
16 process that they use their good-faith judgment and discretion
17 in carrying out their functions in this process?

18 A Yes, I do believe that.

19 Q Do you believe that the process was impartial in the
20 scoring of the applications?

21 A Yes, I believe so.

22 Q You said you did not have any conversations with any
23 of the evaluators after the applications are submitted, did
24 you?

25 A No, I did not.

1 Q Those evaluators though, you did have a chance to
2 communicate with them prior to that time; is that right?

3 A Yes, I did.

4 Q Did you believe them to be competent?

5 A Yes, I do.

6 Q Did they believe -- appear to you to be reasonably
7 intelligent individuals?

8 A Yes, very much.

9 Q And some of those items that were talked about, the
10 floor plans and some of those things, some of those could be
11 kind of beyond the scope of a normal layperson. Did you
12 believe those individuals had experience to be able to properly
13 consider those characteristics of the application?

14 A Yes, I do.

15 Q All right. Did you see any partiality in the
16 application scoring process where someone was graded
17 differently than someone else simply because of who they were?

18 A Not that I'm aware of, but again I wasn't involved in
19 the scoring process.

20 Q All right. Thank you. I have no further questions.

21 THE COURT: Anyone else?

22 All right. Mr. Gentile --

23 MR. GENTILE: Your Honor, can I get --

24 THE COURT: -- I assume you now have questions.

25 MR. GENTILE: Yes. I now have questions. They were

1 opened up.

2 THE COURT: That's Rule 1.

3 MR. GENTILE: Can I get a five-minute break before we
4 start?

5 THE COURT: Yes, you may have a biological break.

6 I just told my assistant it looked like we would go
7 until 12:45 to break so Mr. Gentile can then walk across the
8 street to the Phoenix building to see Department 24, and then
9 we'll resume when he gets back hopefully around --

10 MR. GENTILE: Who knows.

11 THE COURT: Oh, my gosh.

12 MR. GENTILE: Well, in reality we are oh for about 20
13 in terms of predicting witnesses, like in this case, and I
14 don't even know what they're going to ask me over there.

15 THE COURT: Okay.

16 UNIDENTIFIED SPEAKER: He's not asking the questions.

17 THE COURT: No, he's answering the questions. So
18 maybe he will use the pretext or the advice we give to people:
19 Yes or no is good, and keep your answers short.

20 UNIDENTIFIED SPEAKER: Maybe.

21 THE COURT: But I don't know.

22 Ma'am, we're going to take a short break so they can
23 all use the rest room.

24 Maybe 10 minutes, guys?

25 (Proceedings recessed at 11:07 a.m., until 11:17 a.m.)

1 THE COURT: Are we ready?

2 (No audible response)

3 THE COURT: Okay. You're still under oath.

4 THE WITNESS: Yes.

5 THE COURT: Mr. Gentile --

6 MR. GENTILE: Ms. --

7 THE COURT: -- your examination.

8 RECROSS-EXAMINATION

9 BY MR. GENTILE:

10 Q Ms. Cronkrighty -- Cronkhite, is your middle name
11 spelled N-i-c-h-o?

12 A No.

13 Q It is not.

14 A It is N-i-c-h-o-l-e.

15 Q Oh, okay. Well, that makes sense. Okay.

16 You ever been to San Luis Obispo?

17 A Yes.

18 Q Okay. I want to call your attention to Exhibit 96,
19 which you've testified about. You created this document if I
20 understand your testimony.

21 A Oh, that's not on my --

22 Q Is that on your screen?

23 A No. But, yes, I see the document you're referring
24 to.

25 Q Well, I want to -- let's get you the hard --

1 THE COURT: Hold on a second. Jill is coming.

2 (Pause in the proceedings.)

3 THE COURT: It's okay. Jill is coming, and she knows
4 what to do.

5 (Pause in the proceedings.)

6 THE COURT: Better?

7 THE WITNESS: Yes. Thank you.

8 THE COURT: All right. The technology is back
9 working.

10 THE WITNESS: Yes.

11 BY MR. GENTILE:

12 Q Okay. Exhibit 96, it's dated May 2nd of last year.
13 Am I right?

14 A Yes.

15 Q Okay. And with regard to this document, it appears
16 that you are communicating with somebody about the sale of
17 marijuana to minors --

18 A Yes.

19 Q -- having occurred; am I correct?

20 A Yes.

21 Q And it appears as though it is three separate events
22 where marijuana was sold to minors?

23 A It appears that way. I don't recall if they were all
24 related to that.

25 Q Well, it's the only thing that is mentioned in this,

1 in the body of this letter. Am I correct?

2 A Correct.

3 Q All right. Now, do you consider yourself to be a law
4 enforcement officer?

5 A No, I do not.

6 Q Okay. Have you any experience with the criminal
7 justice system?

8 A Work experience, no, I do not.

9 Q You say "work experience"?

10 A No, I don't have any experience with the criminal
11 justice --

12 Q At all?

13 A I don't believe so.

14 Q Ever?

15 A I don't understand your question.

16 Q Ever? Ever means all the time you've been on the
17 planet.

18 A I don't understand it what you mean by do I have any
19 experience with them.

20 Q With them --

21 A I do work with people involving criminal justice, but
22 I personally do not work in criminal justice. No.

23 Q Okay. And you have no experience with the criminal
24 justice system outside of work?

25 A Correct.

1 Q Okay. With regard to these episodes, how did they
2 come to your attention?

3 A They were incident reports submitted by the facility
4 themselves.

5 Q Okay. And what did you do in response to the
6 reports?

7 A We accepted them --

8 Q No. I don't want to hear we. We is a -- when I use
9 the word you, I'm using it in the second person singular. Do
10 you understand?

11 A Yes.

12 Q All right. What did you do in response to receiving
13 these incident reports?

14 A I did not personally receive the incident reports.
15 They go to a separate email address. The administrative
16 assistant intakes them. I assigned them to people to
17 investigate. I was then directed to hold off on that. I had a
18 discussion with Jorge Pupo, and then I gave the direction to
19 the assigned people investigating to send acknowledgment
20 letters or look through them and see if there was room for
21 improvement.

22 Q Okay. You said you received a directive not to
23 assign these cases for investigation. From whom did you
24 receive that directive?

25 A Jorge Pupo.

1 Q All right. At the time that you -- now, are these
2 the only three times that you -- that it has come to your
3 attention that marijuana was sold to a minor by a dispensary in
4 Nevada?

5 A I can't say for certain. It may have occurred since
6 then.

7 Q Okay. Let's think about what you can't -- I want to
8 know if you remember even one other time that it came to your
9 attention that marijuana was being sold by a dispensary to a
10 minor.

11 A I believe it may have occurred another time.

12 Q What other time?

13 A I don't know for certain --

14 Q But then you're speculating. Am I right?

15 A I would have to check my files.

16 Q Okay. As of right now, on the stand, without
17 refreshing memory, you can't recall any other events?

18 A I can --

19 Q Such as these?

20 A I believe there may have been one.

21 Q Yeah, you're guessing. You believe. I'm not asking
22 you to believe. I'm not asking you to speculate. Here's what
23 the question I'm asking you to answer: Is it correct that as
24 of this moment you cannot remember another one?

25 A No.

1 Q That's not correct?

2 A No.

3 Q What is correct?

4 A I would say it's more likely that we have received
5 them than we haven't.

6 THE COURT: So wait. Let me --

7 THE WITNESS: I would have to check my files.

8 THE COURT: Let me, just so I can keep this on the
9 right playing field. Mr. Gentile is asking if you have a
10 specific recollection as you sit here. If you don't have a
11 specific recollection, you can tell him, no, and then
12 Mr. Shevorski will be happy to refresh your recollection with
13 any specifics that might help you remember, but Mr. Gentile is
14 just trying to get your memory as you sit here, and he doesn't
15 really mean to be argumentative. That's just the way he is.

16 THE WITNESS: No, I do not remember a specific
17 occurrence at this time.

18 BY MR. GENTILE:

19 Q Okay. You are aware, are you not, that the sale of
20 marijuana to anybody is a federal offense? Am I right?

21 A Yes.

22 Q Are you aware as to whether someone who knows of a
23 crime being committed has a duty to report it to law
24 enforcement?

25 A I'm not sure. I -- that sounds fair.

1 Q It "sounds fair"?

2 A That sounds right.

3 Q Sounds right. All right. You received an incident
4 report, and you were going to assign it for investigation, but
5 you did not. Am I right?

6 A I did assign it for investigation.

7 Q I thought you told me that -- I thought you said
8 under oath on the record to everybody in this courtroom that
9 you were told not to assign it?

10 A I did assign them, and then I was told to have them
11 just send acknowledgment letters.

12 Q I see. So with regard to the assignment of the only
13 three sales to minors that you can remember, what was it that
14 you were asking the investigators to do that ultimately you
15 changed?

16 A I was asking them to look into how it occurred and
17 what they're going to do going forward to prevent it from
18 occurring. The only thing that really changed is the facility
19 was not issued a statement of deficiency, and it was not on the
20 open investigation log, otherwise it was still followed
21 through.

22 Q Would it be correct to assume that had this been
23 assigned for investigation, and that investigation being
24 carried out, that you would learn from that investigation who
25 the specific person was that sold marijuana to a minor?

1 A We already had that information from the incident
2 report.

3 Q Okay. When you received that information, now, I
4 take it was it one person that sold it in three different
5 places, or was it different people that sold it in each of
6 these places?

7 A I believe it was different people.

8 Q Okay. You understand that oops is not a defense to a
9 criminal violation?

10 A Yes.

11 MR. KOCH: Objection. Argumentative.

12 THE COURT: Overruled.

13 BY MR. GENTILE:

14 Q And when you learned who the people were who sold
15 marijuana to a minor, you reported them to the Las Vegas
16 Metropolitan Police Department?

17 A I did not personally report them, no.

18 Q Did you direct that they be reported to the Las Vegas
19 Metropolitan Police Department?

20 A I don't recall if they had been reported or not.
21 It -- I don't remember.

22 Q That doesn't answer my question. Did you direct
23 someone to report them to law enforcement?

24 A I don't remember.

25 Q You don't remember if you -- what was the name of the

1 three people that sold marijuana to a minor?

2 A I don't remember.

3 MS. SHELL: Objection. Relevance.

4 THE COURT: Overruled.

5 THE WITNESS: I don't remember three specific names
6 from over a year ago.

7 BY MR. GENTILE:

8 Q Okay. How about one name? Can you remember one?

9 A No, I do not.

10 Q No, not even one?

11 A No.

12 Q Okay. And you can't remember whether you called it
13 to the attention of the Henderson Police Department. Am I
14 right?

15 A I personally did not. I do not know if I directed
16 the facilities to do so.

17 Q Well, let me ask you this. Do you have in place a
18 procedure in your Department of Taxation Marijuana Unit for
19 reporting crimes that are committed by dispensaries to law
20 enforcement?

21 A I'm not aware.

22 Q So you don't know of any procedure. Am I right?

23 A Correct.

24 Q Hang on.

25 Do you have any idea --

1 Now, you have a health background. Do you have any
2 idea the kind of damage that marijuana can do to a teenager?

3 A I believe that information is not fully researched at
4 this time.

5 Q Okay. So is your answer that there's no proof that
6 any damage can occur to a brain under 23 years old by using
7 marijuana?

8 A I don't have that information off the top of my head.
9 I know there's been suggestions that it can impact brain
10 development, but I can't say for certain that it's proven fact
11 at this time, but there -- there are suggested risks, and we do
12 have warnings in place. Yes.

13 Q And you have those warnings in place because there's
14 a health concern.

15 A There's a concern, yes.

16 Q Right. And you don't want to see that occur; right?

17 A Correct.

18 Q And you don't want to see people sell marijuana to
19 minors?

20 A Correct.

21 Q But you did not, to the best of your memory, report
22 any of these three sellers to law enforcement in the
23 jurisdiction --

24 MS. SHELL: Objection. Asked and answered.

25 BY MR. GENTILE:

1 Q -- in which --

2 THE COURT: Overruled.

3 BY MR. GENTILE:

4 Q -- in the jurisdiction in which they sold it?

5 A I don't recall if they were reported to law
6 enforcement or not. I did not personally report them.

7 Q All right. And as far as you know, nobody did.
8 Isn't that fair to say?

9 A They may have been.

10 Q Yeah, you're speculating. I said as far as you know,
11 not as far as you speculate, not what you wish would have
12 happened, as far as you know, none of these people were
13 reported to law enforcement for prosecution?

14 MS. SHELL: Objection. Argumentative.

15 THE COURT: Overruled.

16 THE WITNESS: Not that I can remember at this time.

17 BY MR. GENTILE:

18 Q Do you know what immunity is? Not in the health
19 sense but in the legal sense?

20 THE COURT: Because she does have a degree with
21 epidemiology. So --

22 THE WITNESS: In the legal sense I'm not as familiar.

23 BY MR. GENTILE:

24 Q As far as you know, does the Department of Taxation
25 Marijuana Unit, and if you picked up medical, I am withdrawing

1 it, okay. As far as you know, does the Department of Taxation
2 Marijuana Enforcement Unit have the power to grant immunity for
3 a criminal offense?

4 MR. SHEVORSKI: Objection. Legal conclusion.

5 THE COURT: Overruled.

6 If you know.

7 THE WITNESS: I don't know.

8 BY MR. GENTILE:

9 Q Now, you do have a relationship with the Attorney
10 General's office. Am I right?

11 A Yes.

12 Q Okay. And the Attorney General of the State of
13 Nevada is a law enforcement officer. Am I right?

14 A I -- I don't know.

15 Q He is the chief law enforcement officer of the State
16 of Nevada. Do you understand that?

17 A Yes.

18 Q Do understand that they prosecute criminal cases?

19 A Yes.

20 Q You do?

21 A If you say so, that sounds right.

22 THE COURT: You don't have to take it as true because
23 he said it. If you don't know, you can say I don't know.

24 THE WITNESS: I don't know. I don't really deal with
25 the Attorney General's office personally.

1 / / /

2 BY MR. GENTILE:

3 Q Ever?

4 A That's not part of my position. No.

5 Q So during the course of the framing of the
6 regulations that you participated in, you didn't deal with the
7 Attorney General's office?

8 A We dealt with Robert Rybicki [phonetic].

9 Q I didn't ask you about we. Understand when I say you
10 I mean the first -- the second person singular. Okay?

11 A I worked with Robert Rybicki, the Deputy Attorney
12 General. That is the only person I worked with.

13 Q Okay. Did you report to the attorney general, your
14 department's lawyer, the chief law enforcement officer of the
15 State of Nevada, that you had information that identified the
16 person who sold marijuana to a minor?

17 A No. I --

18 MR. SHEVORSKI: Objection. Vague.

19 THE COURT: Overruled.

20 THE WITNESS: No. I communicated that with Jorge
21 Pupo.

22 BY MR. GENTILE:

23 Q Okay. And Jorge Pupo said stop investigating, just
24 send the letter?

25 A Yes. And take corrective actions. Make sure

1 corrective actions were taken. Yes.

2 Q Corrective action in the sense of compliance,
3 administrative compliance; right?

4 A Yes.

5 Q Did he say anything at all to you about reporting the
6 person who sold the marijuana to a minor to law enforcement?

7 A Not that I recall.

8 Q Did you give any thought whatsoever to the fact,
9 forget about that a federal crime had been committed, did you
10 give any thought at all to the fact that a State crime under
11 Chapter 453, felony, had been committed?

12 A Yes, I thought about it.

13 Q And you chose then not to report it to law
14 enforcement?

15 A I don't remember if it had been reported or not.

16 Q You know you did not report it?

17 A I did not report it.

18 Q And to the best of your memory, you can't tell me
19 that anybody reported it. Am I right?

20 A I can't say. Correct.

21 Q Okay. And you have no experience with the criminal
22 justice system in your entire life?

23 A I would need you to be more specific with the
24 question.

25 Q What, about your life?

1 A I mean, I -- I communicate with law enforcement
2 sometimes, yes. I don't know what you mean.

3 Q Have you ever been convicted of shoplifting?

4 A Yes.

5 MR. GENTILE: Thank you.

6 Nothing further.

7 THE COURT: Anybody else?

8 MR. GENTILE: Oh, wait, there is something further.

9 BY MR. GENTILE:

10 Q When you applied for your job, did you disclose to
11 your employer that you had been convicted of shoplifting?

12 A My case was dismissed. So -- and it was over 10
13 years old.

14 Q So you didn't report it?

15 A It wasn't required.

16 MR. GENTILE: Thank you.

17 THE COURT: Anyone else?

18 Mr. Rulis.

19 MR. GENTILE: Wait a minute.

20 UNIDENTIFIED SPEAKER: Seriously.

21 MR. GENTILE: Well, I've got to correct this.

22 BY MR. GENTILE:

23 Q When did you apply for your job?

24 A Like -- 2015.

25 Q Just to refresh your memory, your shoplifting was in

1 2008. It wasn't over 10 years old.

2 A My case was dismissed.

3 MR. GENTILE: Thank you.

4 Nothing further.

5 THE COURT: All right. Mr. Rulis.

6 (Pause in the proceedings.)

7 RECROSS-EXAMINATION

8 BY MR. RULIS:

9 Q All right. Ms. Cronkhite, I'm going to take you back
10 to some of the questions that Mr. Shevorski was asking you
11 before.

12 A Okay.

13 Q And he had asked you about in NRS 453D there was no
14 definition of the word approved. Do you remember that
15 question?

16 A I believe so.

17 Q Okay. Now, at the end of the application period
18 here, 2018, the department did tell applicants that their
19 applications were approved; right?

20 A At the end of when? I'm sorry.

21 Q So at the end of the application period in 2018? I
22 believe --

23 A Yes.

24 Q -- I believe the date was December 5th of 2018.

25 A That sounds correct.

JD Reporting, Inc.

1 Q And now the department told certain applicants that
2 their applications were approved; right?

3 A Yes.

4 Q And that's -- I would say approved is actually the
5 word the department used; right?

6 A I believe so, yes.

7 Q That's -- I mean, if we want to -- I'll just show it
8 to you just so we can confirm it.

9 MR. RULIS: Shane, can you pull up Exhibit 131.

10 BY MR. RULIS:

11 Q So this is actually a letter that went from the
12 department to Clear River LLC. You know that Clear River LLC
13 is one of the applicants that had their application approved?

14 A Okay. Yes.

15 Q Okay. So if you go down in that first paragraph
16 there, it's actually the end of the second line, the beginning
17 of the third line, they actually say, This is to inform you of
18 the intent to conditionally approve, in all caps, your
19 application. So that's the department using the words that are
20 in the actual statute saying they're approving an application;
21 right?

22 A Conditionally approving, yes.

23 Q Still, you're approving it. I mean, it says, Approve
24 your application, does it not?

25 A Yes.

1 Q So to the extent that approve is defined or not,
2 that's the word that the department is using; right?

3 A Yes.

4 Q Now, Mr. Shevorski was also asking you questions
5 about the City of Henderson and a moratorium that they may have
6 had. Was there a requirement in NRS 453D that the department
7 allocate licenses to the City of Henderson?

8 A I don't --

9 MR. SHEVORSKI: Objection. Vague.

10 THE WITNESS: -- recall.

11 THE COURT: Overruled.

12 THE WITNESS: I don't recall. It doesn't specify
13 specific jurisdictions, but it does discuss populations.

14 BY MR. RULIS:

15 Q Right. It discusses populations, but it doesn't talk
16 about local jurisdictions, does it? It talks about counties?

17 A I believe so, yes.

18 Q Right. So to the extent that the city -- or excuse
19 me, the department is allocating to particular local
20 jurisdictions, that's not part of NRS 453D; right?

21 A I guess not, no.

22 Q So to the extent that they're talking about -- that
23 Mr. Shevorski was talking about there may have been a
24 moratorium in the City of Henderson, the department wasn't
25 required to allocate to the City of Henderson; right?

1 A No.

2 Q So he also talked to you about putting in false
3 addresses in Douglas County, and he said that, I think -- and
4 I'm going to paraphrase because I can't specifically quote, but
5 that applicants couldn't put in a false address in Douglas
6 County because of the moratorium there. Do you remember that,
7 those questions?

8 A Yes.

9 Q But an applicant could put in a false address for
10 jurisdictions like the City of Las Vegas; right? Because there
11 was no moratorium in the City of Las Vegas, was there?

12 A I think the point of what he was saying was that they
13 would have had to use a false address because nothing would
14 have been legally approved.

15 Q And that's not my question.

16 A I'm sorry. I don't understand.

17 Q There was no moratorium in the City of Las Vegas, was
18 there?

19 A No, there was not.

20 Q So there was no reason why they couldn't use a real
21 address; right?

22 A Correct.

23 Q Same with unincorporated Clark County, there's no
24 moratorium -- there was no moratorium there, was there?

25 A Correct.

1 Q So there was no restriction on finding an actual
2 physical location for the proposed dispensary, was there?

3 A Correct.

4 Q Now, Mr. Koch was asking you questions about
5 NRS 453A, and you understood that NRS 453A is different than
6 NRS 453D; right?

7 A Yes, I do.

8 MR. SHEVORSKI: Objection. Vague.

9 THE COURT: Overruled.

10 BY MR. RULIS:

11 Q And I believe you even said there were discussions
12 within the department that those were different statutes;
13 right? Different statutory schemes?

14 A Yes, I believe so.

15 Q And that just because something was in 453A didn't
16 mean that it complied with the requirements for 453D; right?

17 A Correct.

18 Q So just because something is included in NRS 453A
19 doesn't necessarily mean that it complies with the requirements
20 of NRS 453D?

21 A Correct.

22 Q So, for example, one of the questions that Mr. Koch
23 was asking you about was in the list of items talked about in
24 NRS 453A was diversity.

25 A Yes.

1 Q Diversity is nowhere in NRS 453D, is it?

2 A I don't believe so.

3 Q But even though it's not in NRS 453D, the department
4 decided to go ahead and include that because it was part of NRS
5 453A?

6 A Yes, and legislation was very clear that they wanted
7 it included.

8 Q Well, but again we get back to you understand with
9 the ballot initiative that can't be changed for three years;
10 right?

11 A Correct.

12 Q And so if there's legislature that's changing
13 NRS 453A, that doesn't apply to NRS 453D; right?

14 A Correct.

15 Q Now, one of the other things that Mr. Koch was asking
16 you about is changes of location, and you talked about changes
17 of location of licensees.

18 A Yes.

19 Q Is the department processing changes of location or
20 conditional licensees?

21 A Yes, we can for a conditional license, yes.

22 Q Well, you can.

23 A Yes.

24 Q Are you?

25 A Yes, we will. Yes. We do.

1 Q That's -- have you had conditional licensees that
2 have applied for a change of location already?

3 A For this current round, I'm not aware, but in the
4 past, yes, we have.

5 Q Okay. Well, that's -- and that's -- thank you for
6 clarifying. I want to be specific, and I'm talking about this
7 particular round because now you understand that there are
8 certain conditional licensees that have addresses on their
9 application that were for a UPS store?

10 A I've heard that, yes.

11 Q Okay. So do you -- are you aware that any of the
12 applicants that listed a UPS store, have they applied for a
13 change of location from that UPS store to open up a new
14 location?

15 A I'm not aware. I'm not involved with location
16 changes very much.

17 Q Now, you also talked about floor plans, and here's
18 one question that I have, is to the extent that floor plans
19 were submitted to the department as part of the applications,
20 was it the department's expectation that if an applicant was
21 granted a conditional license that the dispensary they were
22 going to build was compliant with the floor plan that was
23 submitted to the department as part of their application?

24 A Yes.

25 Q And if they are not building their dispensary in

1 compliance with the floor plan that was submitted to the
2 department, what is the department doing about that?

3 A They are to submit a facility modification request to
4 the department. We process and review and either approve or
5 make recommendations for modification.

6 Q So if they're not being held to the floor plans that
7 were submitted as part of the application, what's the point of
8 grading those floor plans?

9 A I can't answer that question.

10 Q Now, you also mentioned part of the -- and I might
11 need a little clarification here, but you talked about the
12 building plans and the training that you gave to the Manpower
13 graders as far as building plans go. One of the things you
14 talked about was they were supposed to evaluate the flow of the
15 building. Is that --

16 A Yes.

17 Q Is that accurate?

18 A Yes.

19 Q So where in the grading criteria is the word flow
20 mentioned?

21 A I would have to look at the grading criteria to see
22 where it's discussed.

23 Q Let's do that. If you take a look at Exhibit 9, and
24 it may be easier for me to get you the physical document so you
25 can flip through it.

1 MR. RULIS: And --

2 THE COURT: You may.

3 MR. RULIS: Thank you, Your Honor.

4 (Pause in the proceedings.)

5 THE COURT: Are you going to help her clean up the
6 area?

7 MR. RULIS: I'm going to try.

8 THE COURT: Thank you.

9 (Pause in the proceedings.)

10 BY MR. RULIS:

11 Q So did you have a chance to flip through there?

12 A Yes.

13 Q So I was looking at it. I don't see the word flow in
14 there anywhere; do you?

15 A It doesn't specifically say the word flow; however,
16 on page 3 it says,

17 Have a single public entrance and
18 demonstrate strict security measures to deter
19 and prevent theft and unauthorized entrance.
20 That's where I was talking about the flow of
21 product and the flow of people.

22 It also says,

23 Is of suitable size, construction and
24 location to facilitate cleaning, maintenance
25 and proper operation. The adequate space for

JD Reporting, Inc.

1 orderly placement of equipment and materials
2 to prevent misuse.

3 So to prevent misuse and to maintain operations and
4 facilitate cleaning, that to me is what I meant by flow.

5 Q Okay. So when you're talking about flow, what you're
6 really talking about is one part of one of the subparts of the
7 building plans section; right?

8 A Yes.

9 Q Because that's -- I mean, that's -- on page 3, that's
10 one of the parts that is also included with I think the next
11 Section which is adequate lighting --

12 A Yeah.

13 Q -- et cetera, and that all adds up to 10 points?

14 A Yes.

15 Q But that's separate from the prior section which
16 talks about things like work tasks, required resources, the
17 stuff we were talking about yesterday when Mr. Gilbert said the
18 basic idea was that the building could be completed within 12
19 months; right?

20 A Yes.

21 Q So have you ever been to the MM Development facility,
22 the one on Sunset, the medicine facility?

23 A It's possible, but I don't recall being there.

24 Q Okay. So you wouldn't know if there were any flow
25 issues with that particular facility?

1 A No, I wouldn't.

2 Q And Mr. Koch was also asking you about hand sinks. I
3 agree with him we've talked more about hand sinks than is
4 probably necessary. I'll limit my questions on it, and
5 that's -- under that NAC, I didn't see anything in there, and I
6 think you said this yesterday, but I want to confirm, there's
7 nothing that requires a hand sink to be in or on the retail
8 floor; right?

9 A No. And we would never require that. No.

10 Q Okay. So to the extent that flow is part of the
11 grading, the scoring that was used here for floor plans, the
12 Manpower graders are grading on flow based on floor plans that
13 are submitted, but what you're telling me is they get points
14 for flow, but it doesn't really matter because they can go out
15 and build a different facility anyway; right?

16 A I suppose that that would be accurate.

17 Q So essentially they get points for a floor plan
18 that's submitted, and then they go out and change that floor
19 plan, but they got the points anyway. They got the license
20 anyway. So it doesn't really matter. It doesn't affect their
21 score; does it?

22 A No. But we would have to review and approve those
23 revisions to the floor plans.

24 Q Right. But you wouldn't go back -- what you're
25 telling me is it wouldn't change their score; would it?

1 A No, it would not.

2 Q So their score is based on aspirational floor plans,
3 but not actual plans?

4 A Correct.

5 MR. RULIS: Nothing further, Your Honor.

6 THE COURT: Anything further?

7 MR. SHEVORSKI: Very briefly.

8 THE COURT: As I see our next witness is here.

9 MR. SHEVORSKI: Understood, Your Honor. I got it
10 yesterday, and I understand now.

11 THE COURT: Okay.

12 MR. SHEVORSKI: We're moving.

13 FURTHER REDIRECT EXAMINATION

14 BY MR. SHEVORSKI:

15 Q My friend Mr. Rulis talked to you and showed you a
16 letter where the word approve was. That was issued -- that's
17 the 90-day letter?

18 A Yes.

19 Q Okay. And we talked about NRS 453D.210 until we're
20 blue in the face.

21 A Yes.

22 Q Subpart B of 4A says, Issue appropriate license if
23 the application is approved. Is the word appropriate defined
24 anywhere?

25 A No, I don't believe so.

JD Reporting, Inc.

1 Q So you would -- reading those together, approved and
2 appropriate, it's up for the department to determine that;
3 correct?

4 A Yes.

5 Q And the department determines procedures for issuance
6 of licenses?

7 A Yes.

8 MR. SHEVORSKI: No further questions.

9 THE COURT: Anyone else?

10 (No audible response)

11 THE COURT: Thank you, Miss. We appreciate your
12 time. Have a very nice afternoon. Drive safely.

13 THE WITNESS: Thank you, Your Honor.

14 THE COURT: Our next witness.

15 Who's my --

16 MR. GUTIERREZ: Your Honor, we'll be calling Deonne
17 Contine.

18 THE COURT: Ms. Contine, if you'd come forward,
19 please. You are being called out of order because something
20 happened, and I'm not entirely sure, and we don't have one of
21 the plaintiff's witnesses. So we're up to you.

22 THE CLERK: Please raise your right hand.

23 **DEONNE CONTINE**

24 [having been called as a witness and being first duly sworn,
25 testified as follows:]

JD Reporting, Inc.

1 THE CLERK: Thank you. Please be seated. Please
2 state and spell your name for the record.

3 THE WITNESS: My name is Deonne. It's D-e-o-n-n-e.
4 Contine, C-o-n-t-i-n-e.

5 THE CLERK: Thank you.

6 THE COURT: Thank you. And there is a pitcher of
7 water there. If you get hungry, we've been asked to work
8 through the lunch hour so Mr. Gentile can make it to a
9 1:00 o'clock hearing across the street. There's M&Ms if you
10 need some. If you need a break, let us know.

11 There's a bunch of exhibits. Counsel will hope to
12 help you through them, whether it's by the video next to you or
13 one of the binders. And the statute book, in case you need it,
14 is sitting on the bar between you and I.

15 THE WITNESS: Okay. Thank you.

16 THE COURT: Uh-huh.

17 MR. GUTIERREZ: Thank you, Your Honor.

18 DIRECT EXAMINATION

19 BY MR. GUTIERREZ:

20 Q Good morning, Ms. Contine.

21 A I need to get my glasses out just in case.

22 All right. Go ahead.

23 Q Okay. Good morning. Ms. Contine, what's your -- my
24 name is Joe Gutierrez. I represent Essence and Thrive in this
25 case. Tell us, what's your current position with the State of

JD Reporting, Inc.

1 Nevada?

2 A I'm the director of the Nevada Department of
3 Administration, which is the department that has most of the
4 internal agencies of state government. So there's 11 agencies
5 within the department.

6 Q How long have you been in that position?

7 A Since February 25th of 2019.

8 Q And what are your duties as a director of Department
9 of Administration?

10 A I oversee the HR, IT, state purchasing, public works,
11 the grant office, the state library, fleet services, risk
12 management, the hearings and appeals division. So I'm the kind
13 of point person for the governor and the governor's staff with
14 respect to those agencies.

15 Q And what was your previous position with the State of
16 Nevada?

17 A I've had several previous positions with the State.
18 My most recent previous position was director of the Nevada
19 Department of Taxation. I was also a deputy director at the
20 Nevada Department of Taxation, and I also was a senior deputy
21 Attorney General where I represented the Department of Taxation
22 and other state agencies and other state clients.

23 Q What was the time frame that you were employed as
24 executive director of the Department of Taxation?

25 A I was appointed in November of 2014, and I left in

1 January of 2018.

2 Q And what were your duties as executive director of
3 the department tax?

4 A Basically I had -- when I was initially appointed the
5 director, it was during the legislation that became known as
6 the commerce tax. So I participated in the legislative process
7 with respect to that and then implemented the commerce tax.

8 And then I implemented question 2 to some degree
9 before I left.

10 And then overall was responsible for the collection
11 and distribution of the state's revenue, about \$6 billion of
12 state and local taxation revenue and including all the systems
13 that went into that, processing people that, you know, people
14 filing returns, people being audited, people being, you know,
15 having revenue issues, a local government piece, and so I was
16 over pretty much all of that.

17 Q And who do you report to as executive director?

18 A Now?

19 Q No. As the executive director of the Department of
20 Tax.

21 A So the way that it's set up is that there's
22 governor's staff, and they all have liaisons to state agencies.
23 So my liaison is kind of -- has always generally been the chief
24 of staff or the general counsel.

25 Q And who was that in 2017 or 2018?

1 A The chief of staff was Mike Willden [phonetic], and
2 the general counsel was -- at that time I was the liaison with
3 the chief of staff. Towards the end I -- you know, towards as
4 the administration came -- was coming to an end, there were
5 various people who served at general counsel. I can't remember
6 who was general counsel -- oh, Katie Reynolds was general
7 counsel at the end. I think Joe Reynolds was there for a
8 period of time Mishawn [phonetic] Martin. But Mike was
9 consistent through the -- pretty much the end of the
10 administration.

11 Q Can you just give us a brief overview of your
12 educational background after high school.

13 A Sure. I actually worked for 10 years in the San
14 Francisco Bay area as a legal secretary. After working for
15 about seven years, I decided to go to college. I went to
16 junior college in Redwood City, California. I transferred to
17 UC Berkeley where I obtained my undergrad degree in 1999.

18 I'm from Nevada. I moved back here in 2000 for a
19 temporary job, which ended up being a more permanent situation,
20 and I ended up going to Boyd for law school. And after law
21 school, I clerked here in the Eighth JD for Judge Adair.

22 And then after about a year I moved to Northern
23 Nevada in 2007, and that's when I started working for the
24 Attorney General.

25 Q And are you a licensed attorney in the State of

1 Nevada?

2 A Yeah. Yes, I am.

3 Q And tell us about your experience with the attorney
4 general's office. What type of work were you doing?

5 A When I first started at the attorney general's
6 office, my main client was the State health plan. So I -- I
7 sat with the board, the agency on day-to-day issues, and I
8 participated in litigation that the board -- that the program
9 was involved in at that time.

10 And then I also represented real estate related
11 commissions, so real estate division, appraisal division and
12 common interest community commission as board counsel. I sat
13 with the board when they heard disciplinary actions.

14 And I did -- and I had other just kind of semi, you
15 know, projects that were -- I wasn't the official person, or I
16 just did work for them for a while. I represented the state
17 treasurer for a period, business and industry. Any state
18 agency client that needed some help, I would help out on if I
19 had time, and sometimes you just go in and do projects for --
20 to help your other -- to help your colleagues. So I did a few
21 of those.

22 I wrote Attorney General -- I drafted Attorney
23 General opinions and provided day-to-day advice.

24 Q Did you have experience when you were at the attorney
25 general's office in giving advice on the adoption of

1 regulations?

2 A Not too much, but as I would sit with the board, the
3 boards, the various boards or -- there would all -- there could
4 be adoption hearings for regulations so, but the AG's office
5 doesn't have -- when I was at the AG's office, we didn't spend
6 a lot of time working on regs with the agency. If the agencies
7 needed help, they would come to us, and we would help them.

8 Q Tell us about your experience as you got into working
9 with the department in adopting regulations.

10 A Okay. I'm sorry. The -- when I was the lawyer, or
11 when I became --

12 Q As you got into working with the Department of Tax.

13 A So when I became the deputy director, that was one of
14 my areas that -- so I worked with staff to oversee any
15 regulatory changes that needed to come about. And then when
16 the commerce tax was enacted in the 2015 legislation, it was a
17 brand-new tax scheme. So it needed a whole set of regulations.
18 So I shepherded that process and then worked on the regulations
19 to implement the various programs in marijuana.

20 Q What are the purpose of regulations?

21 A To interpret the provisions of statute and to provide
22 some, in some cases to provide process that's not in the
23 statute, to clarify concepts sometimes if the term's not clear
24 or -- that's it.

25 Q Okay. I'll let you drink your water. You look like

1 you were trying to do that for a while.

2 Ms. Contine, can you walk us through the steps in how
3 regulations are adopted by the department.

4 A Sure. So I'll go way back and start kind of a big
5 macroview review, and you can just tell me if you don't want
6 this information. I'm not quite sure what you want. So --

7 So under 233B is the regulatory process, the
8 administrative procedures act for adopting regulations.

9 There's three types of regulations: Emergency,
10 temporary and permanent.

11 Temporary regulations can only be adopted during
12 the -- so temporary regulations are for adoption during
13 legislative sessions because there's a process for legislative
14 review on permanent regulation. So when the legislature is in,
15 there is no legislative review of regulations. So from July
16 1st of the even-numbered year through June 30th of the
17 odd-numbered year, that's the temporary regulation period.
18 From July 1st of the odd-numbered year through June 30th of
19 the even-numbered year, that's the permanent regulation
20 process.

21 And emergency regulations are essentially emergency
22 is not defined in the statute. It's often been said that
23 emergency is what the governor says is an emergency because the
24 governor has to sign off on emergency regs, and those can be
25 made at any time, and they're good for 120 days.

1 So the temporary regulations expire. I can't
2 remember the time frame, but they expire. If you make a
3 temporary regulation, they expire after a time period; however,
4 when you go into the permanent regulation process, you can
5 essentially shortcut a little bit of the permanent process by
6 just if there were no changes and you just wanted to make the
7 temporary regulations permanent.

8 The permanent regulatory process is a little bit more
9 involved, and it takes a lot more time, and so by statute
10 you're required to have one public workshop. It's supposed to
11 be 15 day's notice. You can or cannot have draft language for
12 review.

13 You take public comment. There's no specific period
14 of public comment, but you would work to have public comment at
15 the hearing. You notice the meeting, and then you can accept
16 public comment after that.

17 Then the regulations -- so generally the way it
18 works, you have language, you go to workshop, and then you --
19 after you've cleaned up the language, taken public comment,
20 considered input from different groups, people, you know, and
21 what they have to say about the regulations, think about it a
22 little bit more, do some analysis, maybe get some legal review.
23 You also have to perform -- prepare a small business impact
24 statement and generally discuss how it's going to affect
25 businesses.

JD Reporting, Inc.

1 And then -- and then the language will go to the
2 Legislative Counsel Bureau, the legal division, and they --
3 they review the language for statutory intent and to make sure
4 the process has been followed up to that point.

5 Then they put it into the fancy format that you would
6 see if a regulation was adopted, and they send it back to the
7 agency. That's a process too along the way. So sometimes
8 you'll have some communication with the legislative counsel,
9 and they'll give you feedback or say like I don't think you can
10 do this under this statute, or I don't know if this is the
11 intent. Did you consider this or look at this? So there's
12 some kind of back and forth along the way sometimes.

13 Once the language comes back to the agency, the
14 agency can -- well, once the agency receives the language from
15 LCB and only when they receive the language from LCB can they
16 notice it for adoption, and you have to give 30 days for an
17 adoption hearing.

18 And then if it's adopted, either depending on whether
19 the law says you adopt by a board or, you know, sometimes
20 directors have authority to adopt, but if there's a board
21 involved, it would go before the board. The board or
22 commission would adopt the regulations, and then it goes back
23 to the legislature to be reviewed by the legislative
24 commission.

25 The legislative commission is -- I think it's a

1 permanent commission within the legislative structure that --
2 by permanent I mean not an interim. It meets all year round.
3 They review regulations and give a final approval, and they
4 also have a subcommittee for regulations. So I think they can
5 delegate some of that work to the subcommittee.

6 And once the legislative commission reviews the
7 regulations, then it goes to essentially the Secretary of State
8 for filing, and then they become.

9 Q Great. And I want to back up where you said there's
10 a back and forth between the department and LCB --

11 A Yes.

12 Q -- to look for statutory intent.

13 A Yes. Well, they do a review to make sure that the
14 regulations that you're making are within the legal provisions,
15 so whether that be the statute or initiative.

16 Q And when they make that review, do they put like a
17 number, like an I next to the regulation when they send it
18 back? Is there some sort of symbol that shows they did a
19 review?

20 A Yeah. So there's -- if you look at how the
21 regulation has been through the -- I don't know all the -- I
22 don't know all the letters that go in to their numbering system
23 because it's their numbering system. So it'll be LCB file
24 number, and then you'll have various numbers, and then
25 sometimes it'll be just the agency's version. And as it goes

1 through that position -- I'm sorry. As it goes through that
2 process, it will indicate in some way that it had been sent
3 back, and that's the language that's been reviewed by the
4 Legislative Counsel.

5 Q Who were you working with at the Legislative Counsel
6 Bureau for the adoption of the permanent regulations for 453D?

7 A I think Asher Killian [phonetic] or maybe Bryan
8 Fernley [phonetic] and maybe even Brenda Erdose [phonetic].

9 Q Asher Killian. I know that name was mentioned by
10 Kara earlier. Who's that?

11 A He's a -- he's a lawyer at the Legislative Counsel.
12 He's -- he -- I think he's drafted most of the regulations
13 related to the marijuana program.

14 And Bryan Fernley is a tax -- well, he sits with the
15 revenue and taxation committees at the legislature. He's -- so
16 it might have been one or both of them and occasionally maybe
17 Brenda Erdose, who is the director.

18 Q And is Asher the person who actually drafted the
19 regulations, or was there somebody within the department who
20 does that?

21 A No --

22 Q And I'm focusing on --

23 A The agencies -- the agencies submit their draft
24 language, and then the LCB reviews it and changes it and puts
25 in, you know, makes -- you know, does its review, and then

1 there's certain drafting conventions that they are confined to.
2 So they make some of those changes.

3 I mean, sometimes an agency will get back a
4 regulation, and there will be something in the regulation that
5 wasn't in the original regulation, and then you say well,
6 what's the point of this? And then it turns out that it was a
7 drafting error -- or drafting decision made by LCB that it
8 made, you know, that they're trying to -- they're thinking of
9 this regulation in the context of all regulations.

10 Q How are those discussions, those back-and-forth
11 discussions on intent done between the department and LCB? Is
12 it over the phone? Are they made in person? How was that
13 done?

14 A Over the course of my career, both.

15 Q Okay. And the steps that you just outlined for us,
16 those are the steps that were taken when the regulations for
17 the recreational marijuana process were adopted?

18 A Yes.

19 Q Okay. Now, when you're adopting regulations, can you
20 tell us a difference when you're dealing with adopting
21 regulations that are focusing on the ballot initiative versus a
22 legislative amendment?

23 A It's basically the same process. There might be a
24 little bit more legislative intent if you're looking at a
25 statute that was enacted by the legislature, but it may not

1 surprise you to know that sometimes there's no legislative
2 intent. So it's kind of a similar process.

3 Q And when you're adopting regulations that need to
4 comport with the ballot initiative, is it your understanding
5 that there can't be any modification or amendments to those, to
6 that statute?

7 A Well, in the case -- in this case, there's no --
8 there was no ability to make the change to what was Question
9 2 for three years.

10 Q Okay. And that was followed by the department as the
11 department adopted regulations; is that correct?

12 A Well, we weren't -- at the department we weren't
13 making changes to the legislation. I mean, we -- the
14 department didn't ask for any changes to the statute.

15 Q I guess, okay, my question is, in adopting the
16 regulations, is it your understanding that the regulations need
17 to comport with the statute under Ballot Question 2?

18 A Yes.

19 Q Okay. Now, what was your involvement with the 2018
20 process for adopting the regulations for the recreational
21 marijuana process?

22 A So starting at the beginning or starting in 2016?

23 Q Start at the beginning, in the beginning when what
24 were you tasked with in adopting those regulations, and what
25 was your involvement?

1 A So I think the first time that I became involved in
2 kind of what might happen at the State was in the summer of
3 2016 thinking that possibility -- that there was a possibility
4 that the initiative would pass and trying to kind of get in
5 front of what was likely to be a pretty quick process.

6 I went to Denver with on like a fact-finding group,
7 with a group of, you know, regulators and legislators and other
8 people in the state that were interested in the process, just
9 kind of understanding what they're doing and trying to learn as
10 best as I could, as we could about what might be coming our
11 way.

12 And then in one of the concepts that Denver -- or
13 that Colorado had used for legalization was to create this task
14 force. So after the initiative passed, then recommending that
15 we use -- recommending to the governor that we use this, a
16 similar type of process.

17 And then also, you know, when the governor -- there
18 was some discussions between November and January about the
19 revenue picture and what, you know, what that expectation was.
20 So in January, the governor issued the -- you know, did the
21 state of the state where he included revenue from marijuana
22 starting on July 1st and talked about an additional tax, and
23 so that was really kind of the policy. You know, that was the
24 level up for me that meant we're going to go forward and do
25 this now essentially. So starting in -- so basically starting

1 to review the initiative, looking at the language, deciding,
2 kind of comparing it to medical, deciding what we could use and
3 what we couldn't use as we moved forward.

4 Also at this same period of time -- so this is the
5 January, February. This is the early 2017 time period. So the
6 legislation -- the legislature's in session. The work -- the
7 task force is formed. We're working on temporary regulations
8 essentially to get the program going, and I can --

9 Do you want me to briefly talk about each of those,
10 or --

11 Q Yes. Well, we'll walk through those, but back up
12 really quick to your trip to Colorado. When was that? Was
13 that --

14 A June of -- I think it was June or July of 2016.

15 Q And that was in preparation in case the ballot
16 initiative passed?

17 A Yes.

18 Q And who -- when you went to Colorado, was one of your
19 purposes to see how Colorado's system in adopting regulations
20 was implemented, what they looked at and how to improve on
21 that?

22 A Yes. I mean, one of -- it was just to -- I mean,
23 honestly, we knew nothing at that time. So just kind of how
24 to -- so basically what happened was the regulators in Colorado
25 kind of put together a team of people to speak to us. So

1 somebody from taxation, somebody from the regulatory, a
2 legislator. They took us on tours of facilities. You know,
3 just a general fact-finding, like what's going on here? What's
4 working? What's not working? I think one of the things that
5 we discussed specifically at that time was when they went from
6 medical to rec and how they -- how they set that up with, like,
7 separate -- you had to have a separate facility or a separate
8 entrance and what issues came about because of that. So just
9 kind of understanding the transition and how they worked
10 through those issues and some of the things that -- that they
11 have done along the way.

12 Q How long was that trip?

13 A A couple days, two, three days.

14 Q And who was on the trip with you?

15 A Well, with me, there was somebody else from my
16 office. I mean, and then there was a -- do you want a -- I
17 could try to tell you. I think Nelson Araujo, who was an
18 assemblyman, was there. John Ritter was on that trip.

19 I can't remember anybody else.

20 Q Okay.

21 A I mean, but it was a -- it was a -- oh, I think Joe
22 Pollock -- he was from the Department of Public and Behavioral
23 Health -- was on the trip.

24 I'm sure there was a couple of other legislators.

25 Patty Farley. She was a legislator at the time.

1 She's not now. She was on the trip.

2 And Amanda Connor.

3 So it was a broad group of people that went on the
4 trip.

5 Q Okay. And going back to January 2017, the ballot
6 initiative passes, and now the governor has tasked you with
7 moving forward with not permanent -- I'm sorry, temporary, then
8 permanent regulation; is that correct?

9 A Correct. I mean, he tasked me with implementing the
10 program, and then I kind of developed I guess the strategy to
11 do that in the confines of the regulatory structure that we
12 had, and then also in an attempt to have a lot of transparency
13 and to get a lot of input from people by using the task force
14 process.

15 Q So the task force was adopted because that's how
16 Colorado had -- that was one of the things you saw from
17 Colorado that worked for them; is that correct?

18 A I think, yeah. I mean, I recommended that the
19 governor do it because I thought it would give a level of
20 transparency. It would allow a place for people that, you
21 know, wanted to see the program go forward go forward, but
22 also, you know, with all the public meetings people could
23 indicate their concerns, and just it was a place where
24 everybody could be at the table.

25 Q And what was your position with the governor's task

1 force?

2 A I was the chair of the task force.

3 Q What were your duties as chair of the task force?

4 A I guess my main duty was to run the task force
5 meetings.

6 Q Go ahead.

7 A I mean, yeah. Well, I ran the meetings. We
8 developed the agenda, you know, checked in on the process
9 making sure that all of the working groups were assigned, that
10 the working groups were actually working, you know, being --
11 overseeing that process. I mean, I -- we ended up hiring a
12 contractor that helped facilitate. So just making sure that
13 they were doing their -- the things that they were supposed to
14 be doing during the process as well so that when we came to the
15 end we would have the report, a good draft of the report that
16 could be reviewed and sent to the governor.

17 Q And what was -- what was the purpose of the task
18 force? Was one of the purposes to ensure that any regulations
19 adopted were in compliance with the ballot initiative?

20 A I think it was more to be a basis for the
21 regulations. So some of the discussion that occurred within
22 the task force was -- and the various working groups were, you
23 know, what worked in the medical program, what didn't work in
24 the medical program, what were some concerns that people still
25 had or issues that they would like to see addressed during that

1 process that we could potentially address in regulation. So it
2 was a basis and a starting point for conversation.

3 MR. GUTIERREZ: Okay. And if you could pull up
4 exhibit -- Proposed Exhibit 5049. Move to admit. March 3rd,
5 2017, minutes from the governor's task force.

6 THE CLERK: Mr. Gutierrez, here's the hard copy for
7 the --

8 THE COURT: And you can either look at it on the
9 monitors which work okay but are really small, or at the hard
10 copy if you'd like it from counsel.

11 THE CLERK: That's proposed.

12 MR. GUTIERREZ: We move to admit it, Your Honor.

13 THE COURT: Any objection to Exhibit 5049?

14 MR. SHEVORSKI: No objection.

15 UNIDENTIFIED SPEAKER: No objection.

16 THE COURT: Be admitted. Thank you.

17 (Defense Exhibit Number 5049 admitted)

18 MR. GUTIERREZ: And, Bryan, can we pull that up.

19 BY MR. GUTIERREZ:

20 Q Ms. Contine, what we have are March 3rd, 2017,
21 minutes from the governor's task force. I think your name is
22 right under the members present. Do you see that?

23 A Yes.

24 Q Okay. I want to walk through this with you. You
25 called the meeting that day. Who's Daniel Stewart? And is --

1 A Yeah. So Daniel Stewart at the time was general
2 counsel to the governor.

3 Q Okay. So was he the person that you were working
4 with in adopting the temporary regulations or the permanent
5 regulations? Who -- what was his role?

6 A I actually think his role was really pretty limited
7 in that day. He was just there. I think this was the first
8 meeting kind of welcome everybody and indicate kind of where
9 the governor was coming from, so to be a presence from the
10 governor's office.

11 If there would have been -- so he -- he left -- if
12 there would've been any issues, I probably would have dealt
13 with Mike Willden, and then Mike would have dealt with Daniel
14 Stewart, or, I mean, I could have been in meetings with Daniel,
15 but I don't remember specifically.

16 Q Okay. If you could turn to page 2, and I'm going to
17 focus on the bottom where it says, Madam Chair identified the
18 role of the task force. Do you see that?

19 A Yes.

20 Q Okay. What was the second role that the task force
21 was supposed to implement?

22 A Offer suggestions and proposals for legislative and
23 regulatory actions to be taken for the effective and efficient
24 implementation of Question 2.

25 Q Did you believe the task force accomplished that

1 goal?

2 A Yes.

3 Q And can you explain that. What -- how did the task
4 force go through with ensuring that Question 2 was going to be
5 complied with when adopting regulations and making
6 recommendations for regulations?

7 A So if you want more than, like, process, just let me
8 know.

9 Q Definitely.

10 A But first was setting up the process, you know, what
11 are the working groups, identifying -- identifying the
12 categories of what needed to be addressed, kind of going
13 through each one of those, assigning working group members to
14 those working groups, facilitating some of that discussion and,
15 you know, looking at the initiative, looking at how the
16 initiative was again like how -- what we could use from their
17 medical program and what we could use from other jurisdictions
18 and kind of having discussions of programs across the board and
19 how -- how we might implement Question 2.

20 One of the -- one of the things that I think might be
21 important and relevant is that there was some discussion
22 initially that somebody that opposed marijuana legalization
23 would be on the task force, and I asked that that not happen
24 because I kind of felt like we need to have feedback from
25 people that, you know, care about public health and safety, and

1 we made every effort to make sure that those types of people
2 were included, but having somebody that opposed legalization as
3 a task force member I thought wouldn't be in conjunction with
4 implementing this program.

5 I mean, the voters had decided, and so it was just --
6 so that was one issue where, like, looking at the initiative
7 and that it had passed and what it meant and how we needed to
8 go forward, you know, I was concerned if we had somebody that
9 was -- that was vocally opposed to the initiative and was
10 actually a task force member that that would not allow us to
11 get the work done that we needed to get done.

12 So it was basically like looking at the initiative,
13 looking, reviewing some of the regulations, reviewing kind
14 of -- and, you know, there were industry members on the various
15 task force working groups, looking at how the process had
16 worked for them within the medical, what were some challenges,
17 what were some regulatory challenges, could they be addressed
18 under this -- under Question 2 as we moved forward, you know,
19 and those types of kind of back-and-forth discussions that
20 occurred during that process.

21 Q So having someone on the task force that would oppose
22 Question 2 wouldn't be beneficial if you're trying to implement
23 Question 2 effectively; is that correct?

24 A Right. And it wouldn't be true to, I mean, the task
25 of this body was to help kind of deal with issues after

1 legalization had been decided by the voters, and so to have
2 somebody that was -- that was vocally opposed to it, you know,
3 I was just concerned that we'd get bogged down in overall
4 discussion on whether marijuana should be legal or not and not
5 how we would go about regulating it and providing the, you
6 know, the structure for businesses to operate, the state to
7 collect its revenue and to protect public health and safety.

8 Q And can you go to the next page, page 3. On the top
9 you introduce the staff that's facilitating the task force. Do
10 you see that under --

11 A Yes.

12 Q And I want to walk through who some of these people
13 are. Who's Shelley Hughes?

14 A She's the chief deputy of the department.

15 Q What was her role with assisting you with the task
16 force?

17 A She was the second -- she would, you know, she was
18 the second in command of the department. So she would -- in my
19 absence she would be in charge, or she would, you know, she --
20 we basically worked hand in hand on some things.

21 Q And she worked in helping with the adoption of the
22 regulations?

23 A Some, yeah, but more would be the position of the
24 deputy director of marijuana.

25 Q And who was that?

1 A Well, so at that time it was Anna Thornley
2 [phonetic]. And then -- and then -- do you want me to just go
3 through --

4 Q Yes, please.

5 A Anna left I think mid -- she left before the session
6 was over. So she left pretty early on. She was only with the
7 department for a couple months.

8 So that says Pauline Oliver, but it should say
9 Paulina. And she's the deputy director of compliance.
10 Compliance is revenue and audit. So she's responsible for
11 making sure the people that don't voluntarily comply with tax
12 provisions are taken care of.

13 Jorge Pupo was the tax manager of revenue at the
14 time. He's now the deputy director of the marijuana program.

15 Stephanie Clappstein [phonetic] was the public
16 information officer for the Department of Taxation. So she
17 handled all press inquiries and public facing questions, and I
18 think she developed the website, interacted with people in that
19 regard.

20 Tina was my assistant or is the -- she's the
21 executive assistant for the director.

22 And Kelly, Jesse and Mike Kratz [phonetic] were
23 consultants with QuantumMark, and that was the -- that was the
24 company that we used to help facilitate the process of the task
25 force.

1 Q What was the role of QuantumMark in this process?

2 A So they prepared agendas. They attended all of the
3 task force meetings, all of the working group meetings. They
4 prepared the minutes. They, you know, would prepare the
5 initial draft of the minutes, and they would be reviewed by
6 staff and -- or actually, you know what, I'm not sure about
7 that now that I say that.

8 Tina might have done the initial draft of the
9 minutes.

10 And then they -- they gathered -- so basically we had
11 a worksheet. So you'd have a working group meeting. There was
12 a worksheet that they developed, that they helped develop that
13 kind of walked through the recommendation from the working
14 group and indicated the discussion that occurred, if there was
15 any disagreements, you know, generally recorded in summary the,
16 you know, the proceedings that were happening, and then -- and
17 then they would prepare that document for the task force. And
18 a task force member who was on the working group or maybe
19 somebody who wasn't on the task force would use that document
20 as the presentation of the recommendation from the working
21 group to the task force.

22 Q Okay.

23 A So they facilitated all of the -- all of the process
24 of that.

25 Q Okay. Great. And the next section, it says,

1 Discussion and approval of guiding principles under Section 3.

2 Do you see that? We're on page 3.

3 A Oh, yeah.

4 Q Okay. Where did these guiding principles come from?

5 A So I think, if I remember right, and I'm trying to go
6 on my memory -- I think a lot of the principles came from the
7 executive order setting up the task force. So they were kind
8 of the governor's principles, and I think many of them were
9 borrowed from the Colorado process.

10 Q Do you know if Colorado's marijuana -- recreational
11 marijuana laws were passed through ballot initiative?

12 A Yes, they were.

13 Q Number 4 on the task force says, Propose efficient
14 and effective regulation that is clear and reasonable and not
15 unduly burdensome. What does that mean?

16 A I'm sorry. Can I go back to the last question?

17 Q Yes. Go ahead.

18 A I'm not a hundred percent sure if the legalization,
19 but under Colorado law, every tax has to go through an
20 initiative process. So that's what makes me think that the
21 marijuana and the taxation were probably together, and they had
22 to -- so they had to go to initiative, but I -- so that's my
23 explanation.

24 Q Okay. No, that's all fine. In Colorado, the
25 Department of Taxation runs recreational marijuana; is that --

1 A The department of -- so they have a department of
2 revenue. Within the department of revenue they have marijuana
3 enforcement. Nevada doesn't have a department of revenue. We
4 have just taxation, and then there's tax collections from other
5 various other agencies in Nevada as well.

6 Q Okay. Great. And my question, my prior question was
7 on Number 4 under the guiding principles proposing efficient
8 and effective regulation that is clear and reasonable and not
9 unduly burdensome. What does that mean to you?

10 A So basically making sure that we have, you know, a
11 strict enforcement, a tightly controlled market that's -- that
12 promotes a stable market but also allows businesses to operate
13 and isn't -- isn't so restrictive that it is unreasonable to
14 think that a licensee or establishment would be able to comply
15 with the -- with the rules.

16 And I think that language is partially from
17 Question 2 because I --

18 Q Go ahead.

19 A You know, I think there was some concern in the
20 initiative that if they didn't have some language like that,
21 they might get a governor and/or a regulator that didn't like
22 the concept of marijuana and might try to regulate it out of
23 existence. So I think there was -- it was being mindful of we
24 have, you know, we need, you know, there's public health and
25 safety concerns, but there's also industry operational

1 concerns, and then there was the revenue concern after the
2 money was put in the budget.

3 Q That's an important point. So what you said is that
4 you're mindful of not regulating the companies out of business.
5 Is that fair to say?

6 A Yes.

7 Q And that's where the unduly burdensome language comes
8 in as far as this task force guideline?

9 A Yes.

10 Q Okay. The next one, Number 5, says, the beginning, A
11 discussion between the state and local governments regarding
12 the cost of carrying out Question 2. Tell us about that.

13 A So in Question 2, there is a provision that says the
14 revenue generated from the 15 percent wholesale tax would go to
15 support the Department of Taxation and local governments in
16 carrying out the provisions of Question 2, and so there was
17 discussion about what local government responsibilities would
18 be and what money essentially from that 15 percent tax the
19 local governments would be entitled to.

20 Q And did the local governments have a say in some of
21 the task force recommendations?

22 A Yes.

23 Q Number 7 talks about taking action that is faithful
24 to the text of Question 2?

25 A Right.

1 Q Explain that for us.

2 A So just making sure that we're complying with
3 Question 2. I mean, some of it is fleshed out a little bit
4 more in the provisions above, you know, but, you know, read the
5 language of the -- or read the language of the initiative, and
6 then work off of that in terms of regulation.

7 Q And go to page 6 and specifically on your discussion
8 of future meeting dates and timelines, do you see that, where
9 it talks about Senator Segerblom?

10 A Uh-huh. Yes.

11 Q Recommending that -- it gives -- there's a May
12 30th, 2017, deadline. Do you see that?

13 A Yes.

14 Q What was the -- were there deadlines that you were
15 working underneath during this time frame when adopting some of
16 the regulations or getting -- I'm sorry. Strike that.
17 Deadlines and getting task force recommendations back to the
18 governor?

19 A There -- you know, we were trying to get the work
20 done within a few months; however, what I -- what he's
21 referring to there is the -- the process was going on during
22 the legislative session, and he wanted -- if there was going to
23 be legislation, that he wanted, you know, he wanted people to
24 be mindful. I mean, the session ends the first Monday in June.
25 So he was trying to suggest that any legislative changes would

1 need to be made, you know, would need to be put forth by then.

2 And, I mean, with all due respect to Senator
3 Segerblom, I don't know that he really quite understand --
4 quite understood with respect to Question 2 that there wouldn't
5 be a legislative change, but his concern, I believe just based
6 on his testimony in public and in private, is that he wanted
7 there to be an early start. So he was working on a bill that
8 if the -- if the executive branch wasn't going to do an early
9 start, that he wanted to have a separate bill that would
10 require an early start.

11 Q And --

12 A Because he thought that would -- or I think there was
13 some discussion as to whether that would be, you know, because
14 Question 2 said by January 1st, 2018. So then the question
15 was could you have a separate legislation that said before
16 then, before it would be up and operational before then.

17 Q And were you put in charge of the early start program
18 and helping getting the regulations for that --

19 A Yeah.

20 Q -- off the ground?

21 A Yes.

22 Q Okay. And tell us about that. How were those
23 temporary regulations developed?

24 A So basically the temporary regulation process isn't
25 as restrictive, but you do have a draft of the regulations, and

1 I, you know, we drafted those internally with some, you know,
2 if we needed -- if we had legal questions, we would ask the
3 attorney general's office or others. They were workshops so
4 that you still have to have a workshop, and they were still
5 adopted by the Nevada Tax Commission, but they don't have to
6 go -- they don't have to do that intermediate review by the
7 legislature.

8 There is a provision, however, that after the
9 regulations were adopted by the agency that the legislative
10 commission has 45 days where they can pull the regulations in
11 to a ledge [phonetic] commission process review. So because of
12 that, I had internal discussions with legislative counsel about
13 the regulations and whether they -- whether the legislative
14 counsel was comfortable, you know, recommending to their bosses
15 that the -- those regulations not be pulled into legislative
16 review.

17 Q Okay. And can you -- how did the medical marijuana
18 regulations help shape what eventually became the permanent
19 regulations under NAC 453D?

20 A Well, they were part of -- so the permanent
21 regulations looked at what -- so the permanent regulations
22 looked at the work of the task force in some ways and also and
23 as that related to the medical. So what is -- what was working
24 in medical? Again, what wasn't, you know, what are some --
25 given the language of the initiative, what's different in the

1 language of initiative in the initiative, you know, and how do
2 we have to plan for that because there were some key
3 differences, provisions that were new that had to be regulated
4 that weren't regulated in -- in the medical program.

5 So basically looking at the language of the
6 initiative, deciding what is the basis that we can start with
7 at least initially and then what can we build off from that as
8 we move forward. So and that involved all those discussions
9 that went into the working group, the regulatory process both
10 in the temporary process, which is the workshop and the
11 adoption hearings and then the permanent process that started
12 after July 1st.

13 Q And let's turn to what's previously been admitted as
14 Exhibit 2009, which is the governor's task force final report?

15 MR. GUTIERREZ: And may I approach?

16 THE COURT: You may.

17 THE CLERK: Mr. Gutierrez, 2009 is at the very bottom
18 of the cart. It should say 2000 onward.

19 BY MR. GUTIERREZ:

20 Q Ms. Contine, I've handed you the final report for the
21 governor's task force dated May 30th, 2017. Do you see that?

22 A Yes.

23 Q Okay. Turn to page 1 of the document.

24 MR. GUTIERREZ: Where it says, Letter from the
25 chairs, May 30th, 2017, Bryan.

1 Do you have that, Bryan?

2 THE WITNESS: Yeah.

3 MR. GUTIERREZ: Okay.

4 EXHIBIT TECHNICIAN: Letter of the chair?

5 MR. GUTIERREZ: Yes. Do you have the actual page,
6 Bryan? Page 1?

7 EXHIBIT TECHNICIAN: What's the Bates stamp number on
8 the bottom right?

9 MR. GUTIERREZ: I don't have it on mine.

10 There we go. Okay.

11 BY MR. GUTIERREZ:

12 Q Is that the document you have in front of you,
13 Ms. Contine, that's on the screen?

14 A Yes.

15 Q Okay. Now, this is a letter from you and Chuck
16 Calloway to the governor; is that correct?

17 A Yes.

18 Q And what's the purpose of this letter? Just to
19 summarize the reports?

20 A Yeah, summarize the report, talk about the work that
21 everybody does, did and recognize that process and that work
22 that was involved.

23 Q And what was Chuck Calloway's role with the task
24 force?

25 A Chuck Calloway was the vice chair.

1 Q Okay. And now let's go to page 3, and, specifically
2 right where it says, The act directs the Nevada Department of
3 Taxation. Do you see that paragraph?

4 A Yes.

5 Q It says, The act directs the department -- the Nevada
6 Department of Taxation should adopt all regulations necessary
7 or convenient to carry out the provisions of this act. What
8 was your understanding as to what that meant, Necessary or
9 convenient to carry out the provisions of the act?

10 A Well, it means that the act had some specific
11 provisions where the department was required to make
12 regulations so that it would be necessary to make regulations
13 on those.

14 And then convenient is whatever other regulations
15 that needed to be made, and this is broad language in almost
16 every agency statute.

17 Q Explain that for me. What do you --

18 A So if you have -- so the -- the -- the statute that
19 creates an agency or a board will almost always have the
20 provision that says the agency or the department or whatever it
21 is, the board may make all regulations necessary or convenient
22 to carry out the provisions of this statute. So it's across
23 the board you look in. In many statutes that have to deal with
24 the creation of state agencies you'll see that provision.

25 Q Okay.

1 A So it basically means that they make the regulations
2 to interpret and operate or give process or somehow interpret
3 or in some way the provisions of that chapter so that people
4 know what they have to do or what the expectations are.

5 Q Okay. Great.

6 THE COURT: Is this a good place to break for lunch?

7 MR. GUTIERREZ: Yes, it would be, Your Honor.

8 THE COURT: All right. So we're going to break
9 until --

10 I just looked at the minutes from what Judge Crockett
11 used to set your hearing, Mr. Gentile. I don't think an hour
12 is going to be long enough.

13 MR. GENTILE: I really don't know. I know that the
14 issue deals with alter ego.

15 THE COURT: Yeah.

16 MR. RULIS: And, you know, I don't know the answer.

17 / / /

18 / / /

19 / / /

20 / / /

21 / / /

22 / / /

23 / / /

24 / / /

25 / / /

1 THE COURT: Okay. So we're going to shoot for you
2 being gone until 2:00 o'clock.

3 So we'll be back here at 2:00 o'clock, which gives us
4 an hour and 15 minutes, which is our usual lunch break time.
5 So I apologize for the late lunch.

6 But good luck.

7 (Proceedings recessed at 12:43 p.m., until 2:08 p.m.)
