a Young Hearing if a continuance of Opening Brief has not been accomidated yet.

ELIZABETH A. BROWN
CLERK OF SUPREME COURT
DEPUTY CLERK

You see, consultation with my attorney, Victoria Oldenburg, has not taken place, though I have repeatedly requested such private consultation. Again, my ability to aid and assist my attorney has been cut off.

There seems to be some confusion concerning this subject, as Mz. Oldenburg has written that she is unable to contact me through the prison. However, I came to learn that attorneys absolutely can contact their clients at the prison via video or telephonic conference. I shared that peice of information with Mz. Oldenburg via voicemail, but still have not recieved word of any meetings ~~seed~~ scheduled.

Court trial. Though that hearing has been postponed. Now the Opening Brief is just days away. I've been completely left in the dark regarding what Mz. Oldenburg has drafted for the Opening Brief to my own defense; left in the dark as to if it actually represents me. I have previously been left in the dark by Scott W. Edwards, who grossly, grossly misrepresented me and my case.

I am not trying to offend the courts or Mz. Oldenburg in any way by requesting this Young Hearing. But am only trying to ensure that my best interest is represented appropriately. I wish to be involved in aiding and assisting in my own defense, though as it stands, I have not been afforded that opportunity. Please Help.

Sincerely,

Katherine D. Fletcher
