To: Supreme Court Clerk
Subject: Petition To Consider Creation Of Commission To Study The Adjudication Of Nevada's Water Law Cases

The Honorable James W. Hardesty
Chief Justice of the Nevada Supreme Court
Carson City, Nevada

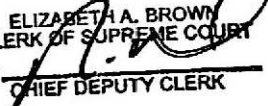

Justice Hardesty,

I have reviewed your Petition in ADK576 and support the creation of the proposed study commission. Water law cases have been a regular part of my docket for the past 8 years and there seems to be no end in sight for water litigation in Nevada. Although I enjoy sitting on water litigation cases, there is no doubt that they are complex and require a considerable amount of judicial time. Consideration of a water court or some hybrid is warranted. Thank you for considering my comments.

Judge Gary D. Fairman
