

THE SUPREME COURT FOR THE STATE OF NEVADA

Aimee Morrison,  
Petitioner-Appellant,

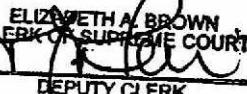

v.

Case: A 21-832762-C

Gloria Mazzoli,  
Charlene O'Neil,  
Respondent-Appellee,

FILED

OCT 14 2021

ELIZABETH A. BROWN  
CLERK OF SUPREME COURT  
BY  DEPUTY CLERK

NOTICE OF MOTION

1. The petitioner alleges that she was employed cleaning for V and D Cleaning services in Las Vegas, Nevada from October 5, 2021 until October 8, 2021. Gloria Mazzoli knowingly composed a scheme or Several schemes that violate Federal Protection for The United States Navy For Harvard University by coming within three hundred feet of me onto An employer with the intent to coerce, intimidate, threaten, interfere, and Communicate comments, opinions, and confessions regarding State and Federal litigation. Mazzoli became the supervisor. I had to contact my aunt, JoAnn O'Neil, head of The London CIA as Mazzoli starts to get "crazy" And "crazy" becomes dangerous.

2. Mazzoli made threats on October 7, 2021 in Henderson, Nevada that I Needed to go apply at Smiths Grocer. I contacted my Dr., Dr. Thom Lappas, a Federal Scientist for NASA who orders food serving employment

21-29584

In Las Vegas, Nevada only. He is a Fed and a Dr. he is also aware of human Trafficking.

3. Charlene O'Neil violated immediately after work by sending Michael Bakers to the bus stop. Michael Baker now has a warrant for his arrest, and A order for a \$250,000 child support arrears judgment. He is supposed to remain Confined to the Oswego County jail. O'Neil and Mazzoli are NOT Permitted by law to use substitute individuals without consent. These people are Getting arrested and there are several as this is a gang, 18 U.S.C.521

4. Mazzoli, when her state powers begin to erupt gets crazy and confessions Come out. It appears that Mazzoli has interest in Dr. Lappas's mother, Josephine Wahrendorf. Mazzoli asked me some very alarming questions.

Why is a 71 year old woman seeing a gynecologist and an orthodontist?

I was completely blown away with this question. Mazzoli confessed to Multiple doctor visits on Josephine Wahrendorf including why is Wahrendorf Seeing a therapist. Dr. Lappas is getting back involved as we have a serious Federal problem. Mazzoli insisted this information could not be true, I said Lets call Aunt P together, Aunt P would love to speak with Gloria Mazzoli directly Regarding Mazzoli's NEW JOB as A New York State Medical records compliance Officer, and there is more. Mazzoli also said she is following my sister, Amy. How does Mazzoli know I have a sister? Amy was given up for adoption, this Record is SEALED. See the sealed? Mazzoli also confessed to dates and hospitals On my cousin Lindasay Wahrendorfs birth and delivery records. Mazzoli Confessed Her husbands name, as this is NOT privacy, this is trespass. Mazzoli Is engaging in activity that is the criminal act of trespass and Kevin Beck needs To enforce mandatory compliance. I reported this to my Aunt, JoAnn O'Neil, head

Of The London CIA and all family members will be notified. Mazzoli has a Significant interest in Dr. Lappas's mother. All that needs to be concerned Is Dr. Lappas is my cousin. He is A federal employee for NASA and has Concluded that our DNA does not contain defective genes, as my daughter, Morgan O'Neil's skin is defective as by her father's families DNA.

5. I have a great concern that Mazzoli is attempting to pull my families mental Health records apart to abuse, exploit, harass and Ms. Wahrendorf WILL Press charges. Ms. Wahrendorf WILL PUSH this as far as Mazzoli wants to Pursue it

6. Mazzoli had this supervisor communicate shoulder issues in regards to Serving food. My physical body limitations have been identified and Discussed by PROFESSIONALS who practice medicine. Mazzoli practices the act of trespass. My shoulder surgery was of great success. I have no limitations by a PRACTICING DOCTOR. Mazzoli is a records compliance officer so she claims now and Mr. Beck better process this claim as a serious matter before this court

Dated: October 8, 2021

Patient Address: 250 KIMBARK ST 1F, Longmont, CO 80501

Patient Phone: (702) 302-0481

PCR Source: Swab, nasopharyngeal

Test	Result	Reference	Units	Facility
<b>Infectious Disease- DNA / RNA</b>				
SARS-CoV-2 (COVID-19) RT-PCR	Not Detected			NWL

[ NWL - 50D2158817 - 3548 Meridian St Ste 101, Bellingham WA ]

Performed by high-throughput nucleic acid amplification at Northwest Laboratory using TaqPath™ COVID-19 Combo Kit assay, a FDA-cleared Emergency Use Authorization (EUA) assay (details available upon request). TaqPath™ COVID-19 Combo Kit assay was validated by ThermoFisher Scientific using nasopharyngeal swab, nasopharyngeal aspirate, and bronchoalveolar lavage samples. Saliva has also been validated at NWL as an acceptable sample type; other sample types have not been independently validated by Northwest Laboratory but information on preferred and acceptable collection sites and collection procedures may be obtained at the CDC website (<https://www.cdc.gov/coronavirus/2019-ncov/lab/guidelines-clinical-specimens.html>). Room temperature stability of viral samples has been validated at NWL in all currently accepted media types for at least 8 days; the sensitivity of the assay with samples older than this has not been assessed and negative results should be interpreted with caution. False-positive and false-negative results can occur. Negative results do not preclude infection with SARS-CoV-2 virus and should not be the sole basis of a patient management decision. In some patients repeat testing at various time points or from various collection sites may be necessary for virus detection. False-negative results may arise from improper sample collection, degradation of viral RNA during shipping or storage, the presence of RT-PCR inhibitors, and/or mutation in the SARS-CoV-2 virus. Pooled testing may be used for some specimens. Pooled testing has been validated at NWL with oversight by WA state Department of Health, using no greater than four specimens per pool. Negative results from pools are reported directly while positive results are reflexed to neat (unpooled) testing of individual specimens. NWL validation studies demonstrated minimal effect on sensitivity with this level of pooling. The impact of vaccines, antiviral therapeutics, antibiotics, and chemotherapeutic or immunosuppressant drugs on assay performance has not been evaluated. Please see CDC website for updated testing algorithms and other information.

End of Report

Re: A-21-832762-C

NO. 83389

Dear Clerk of the Court,  
I am enclosing a Notice  
of Motion on the above  
listed case. Please file  
this in accordance to  
your normal filing  
procedures. I certainly  
appreciate your assistance in  
this matter.

Respectfully  
Submitted  
Annee Morrison
