General Guardianship that was filed by the Legal Aid Center of Southern Nevada ("LACSN") on behalf of the protected person on December 22, 2021 (hereinafter "Motion to Stay"); and represent the following to this Honorable Court:

MEMORANDUM OF POINTS AND AUTHORITIES

A. Introduction

1. This Motion to Stay is a false representation of the facts and law and is therefore meritless in its entirety and should be denied. True to form, the legal aid attorney appointed in this case files another document with this Court that removes all context, misstates the facts, rewrites the law, and provides shallow to no analysis. Further, counsel demands that her statements overrule all else (including the medical evidence and the Court's wide discretion). She demands absolute authority above questioning and investigation. To counsel, it is a violation of June's due process rights merely for this Court to question or look for independent verification of counsel's statements. This Court was to do nothing except sign orders making counsel's statements the law of the case. But that's not all. Because the legal aid attorney says that June wants Kim as guardian, then this Court was not to do any investigation into any allegations that Kim was doing anything unlawful or wrong. Now, counsel seeks to exploit June to pursue LACSN's own political agenda with a meritless appeal (as she has done twice before in this matter with a meritless appeal and petition for writ of mandamus and writ of prohibition) that stands no chance before the appellate court. To do so, counsel asks this Court to throw June into turmoil and chaos by maintaining a status quo that this Court already found to be harming June. Counsel fails to meet any and all factors in NRAP 8 and therefore this Court should deny the Motion to Stay.

i.

B. Statement of Facts

- 2. It is important to understand the complex context of this matter because without context the NRAP 8 factors cannot be evaluated. Since June's counsel provided a Motion to Stay devoid of all context, Robyn and Donna provide the context in its full.
- 3. The context proves that this Court had to appoint a guardianship to protect June because 1) the medical evidence showed that June could not care for herself (financially, legally, and medically); 2) her lack of capacity, June was actively being exploited by others; and 3) her executed Power of Attorney was inadequate to protect her against the exploiters. The context shows that the Court tried to reasonably follow June's preferences by initially appointing Kim as guardian. But once appointed, Kim violated June's bill of rights by isolating her and restricting visits between June and her children (visits that June wants to have but is mentally incapable of coordinating and scheduling on her own). The context proves that this Court went through great lengths to investigate the allegations of wrongdoing by the guardian and that ultimately the Court determined that the guardian's unlawful conduct was so extensive and harming June so greatly that the Court was left with no other choice but to remove Kim sua sponte. In doing so, the Court appointed Robyn as successor guardian after earlier vetting Robyn as temporary guardian and finding her qualified to serve as guardian.

June is a Protected Person because Medical Evidence Shows that June Lacks Capacity to Care for Herself and to Direct Her Legal Affairs

4. June's court-appointed counsel is the only individual in this matter claiming that June has the capacity to direct her legal affairs. Counsel's insistence that June has capacity to direct counsel point-blank contradicts all of the medical evidence in this matter.

5. In 2019, Robyn and Donna provided medical evidence and evaluations showing that June
is very limited in her ability to care for herself, manage her affairs, and process decision making
See Confidential Physician's Certificate filed on September 19, 2019. Dr. Gregory Brown stated
that he reviewed a June 2016 Mini-Cog Id. examination wherein June scored a 1, "a score
indicative of a dementing condition." Id. Dr. Brown also reviewed a February 17, 2016, record
that indicated that June was diagnosed with Alzheimer's dementia and a September 5, 2019 letter
from Dr. Sabbagh that said June "had a degenerative neurological condition which led her to be
unable to manage her own affairs including medical, financial, and legal decisions." <i>Id</i> .

- 6. Dr. Brown found that June suffered from "profound deficits in long-term memory and general recall of overall life historical data, with a general paucity of detail." *Id.* Specifically, Dr. Brown found that even back in 2019 June:
 - a. Was unable to provide basic information about her life including the number of marriages that she had, how many children and grandchildren she has, the location or title of any of the jobs she held as an adult;
 - b. Unable to understand paying her bills independently;
 - c. Had an inaccurate assessment of both the nature and extent of her estate;
 - d. Was completely unaware of her own medical history and her husband's medical condition; and
 - e. Was unaware of her prescribed medications and the reasons for them.
- 7. Dr. Brown concluded, "This lack of information would prevent her from being able to reasonably process decision making in multiple domains in life." *Id*.

8. Kim opposed and objected to the need for a guardianship, and alternatively, counter-
petitioned to be general guardian. See Kim's Opposition and Counter-Petition filed on October 2,
2019. However, Kim was appointed as guardian of the person and estate of June when she finally
agreed to serve as guardian and Robyn and Donna stepped aside to allow her to serve. Id.
Consistent with all the medical evidence, even Kim has acknowledged several times and in
multiple pleadings June's profound lack of capacity. In contrast, LACSN doubles down, arguing
to June's detriment and against every piece of medical evidence, the opinion of every member of
June's family and the report and testimony provided by the guardian ad litem, over and over again,
that June is able to direct her own affairs and even files appeal after appeal that is staggeringly
costly to June both in terms of potential cost to her estate and the emotional and financial toll
these proceedings cause to her children. Put simply, LACSN is ruining June's life.

9. Since being appointed as Successor Guardian, Robyn had Dr. Brown re-evaluate June on December 28, 2021, wherein Dr. Brown found that June's mental situation has only further declined since 2019. *See* Confidential Medical Records filed on January 4, 2022. Dr. Brown stated in his latest report:

[June] demonstrated an additional decline in mental functioning as demonstrated by a 2 point addition drop in the Folstein MMSE. Her long term memory demonstrated marked deterioration over the past two years. Her ability to correctly identify current responsibilities [bill paying], medications, medical conditions, financial resources, etc. is greatly diminished and largely not accurate. Although she may assent to various activities, her current functioning would suggest the inability to reasonably [weigh] the costs and benefits of many decisions. MMSE likely over represents ability based upon other deficits.

10. Dr. Brown further concluded that June "has a sufficient loss of executive function resulting in a barrier to meaningful understanding or rational response," "is unable to execute on

desires, preferences, or stated goals, preventing the ability to pursue [June's] own best interest," and "is unable to make or communicate decisions to such an extent that [June] lacks the ability to meet essential requirements for physical health, safety, or self-care without proper assistance." *Id.* at PDF p. 3. Dr. Brown opined that June requires 24-hour supervision and either requires substantial or total care in almost every aspect of her life from self-care to finances to medical care. *Id.* at PDF p. 5-6. Dr. Brown opined that June lacks capacity to enter into a contract, financial commitment, or lease arrangement, make or modify a will or power of attorney, or participate in mediation. *Id.* at PDF p. 6.

- 11. June's mental status has deteriorated so far that she told Dr. Brown that she has never heard of Legal Aid Center of Southern Nevada and stated, "I have no attorney." *Id.* at PDF p. 12. June further guessed that she speaks with an "Anna Marie" from time to time. *Id.* June reported to Dr. Brown that she has no idea what appeals are in general or in specific relative to her case. *Id.* She stated having no idea who Elizabeth Brickfield is or ever meeting with her. *Id.* She further stated having never met or seen Dr. Brown before in the past. *Id.*
- 12. June believes she is still paying all her own bills on her own though she could not state what bank she uses or what bills she pays. *Id*. She has no idea how much money she has and states that her Anaheim home is only valued at \$125,000. *Id*.
- 13. Her lack of capacity is so profound that she denied taking any medications and does not think she has any medical conditions even though she currently takes nine medications per day for various medical conditions. *Id*.
- 14. Dr. Brown opined that June lacks capacity to "provide reasonable detailed responses to questions" and has an "inability to hold information in awareness long enough to weigh the risks,

12

13

16 17

15

18 19

20

22

24

23

25

the benefits, and outcomes of decisions." *Id.* at PDF p. 13. Dr. Brown concluded that June "would have less ability to defend her own interests from the interests of others and thus have increased susceptibility to undue influence of others." *Id.*

ii. This Guardianship was Necessary to Protect June from Exploitation

15. On September 19, 2019, Robyn and Donna filed a petition for, among other relief, a temporary and general guardianship for June. In the Petition for Temporary Guardianship, Robyn and Donna alleged that June was: (1) unable to care for herself medically, financially, and legally without assistance; and (2) harmed by other individuals related by marriage ignoring June's Financial and Healthcare Power of Attorney ("POA") documents that appointed Kim as June's attorney-in-fact and exploiting June. See Ex Parte Petition filed on September 19, 2019. This alleged exploitation included: (a) transferring June's ownership interest in her home to the alleged exploiters for far less than market value, (b) the same individuals forcibly preventing Kim from bringing June home from a visit to see them in Arizona, (c) then-husband cancelling June's medical appointments, (d) the initiation of eviction proceedings against Kim who had moved into June's home to care for June, and (e) missing funds from June's bank accounts. Id. All while Robyn and Donna were made aware by medical professionals that June required 24/7 medical care and lacked testamentary and contractual capacity. Id. For these reasons, this Court granted and later extended the temporary guardianship. At the time, this Court fully vetted Robyn as guardian. Robyn's petition for temporary and general guardianship included all factors required by statute about her qualifications to act as guardian and the Court found that she was qualified to be temporary guardian. Id.

16. Through this guardianship, the pre-guardianship exploitation ceased. Moreover, June was able to receive some remedies including a settlement from a civil lawsuit pursued by Kim as guardian and negotiated the issue with the dogs. Those are two major issues that were never going to be resolved had this guardianship never been appointed.

iii. Once Appointed as Guardian, Kim Violated June's Bill of Rights by Isolating her from her Family Members and Failing to Provide Statutorily Required Information to this Court, June, and Interested Parties

17. On December 30, 2020, Robyn and Donna filed a Verified Petition for Communication, Visits, and Vacation Time with Protected Person ("Visit Petition") after enduring nearly a year of absolutely inappropriate and cruel stonewalling about visitation and other matters from the guardian. *See* Visit Petition on file herein. In the Visit Petition, Robyn and Donna stated that they were forced to bring the Visit Petition "to compel Kim, as guardian, to be more humane" and "provide the same kind of logistical support to Ms. Jones' family as Kim provides to Ms. Jones' medical professionals, legal aid attorney, this Court, friends, neighbors, gardeners, dry cleaners, the veterinarian and the dog groomer." *Id.* at p. 2-3. Robyn and Donna requested a "course correction for Kim, as the guardian of [June], to help Kim follow through with protecting [June's] right, among others, as recognized in the Protected Person's Bill of Rights, to 'receive telephone calls and personal mail and have visitors." *Id.* at p. 3 (quoting NRS 159.328(1)(n)). Robyn and Donna had and have no "desire to compel [June] to visit with them. Rather, they seek a routine or series of windows of opportunity so that all sides can plan to be available to accomplish the visits" if and only if June wants the visit to happen. *Id.* (emphasis added).

18. The Visit Petition provided numerous examples and evidence of how Kim would restrict visits and communication with June. The examples usually began when June voiced her desire to visit with Robyn on the phone. *Id.* at p. 4. "When Robyn asks when they can meet, [June] hesitates and then says she will call Robyn to set something up. However, invariably, [June] does not call, possibly because she simply does not remember to do so. When Robyn appeals to Kim for assistance in coordinating the meetings, Kim typically ignores the communications for a time and then eventually tersely refers Robyn back to their mother . . . to make the arrangements directly as if [June] realistically can carry through on any planning to set up a visit – continuing the cruel cycle." *Id*.

19. Moreover, Kim did not adhere to a prior agreement with Robyn and Donna for Kim's assistance with communication and visits with June. *Id.* at p. 8. The agreement was painstakingly negotiated at great expense to Robyn and Donna. Some of Kim's failures included disabling FaceTime on June's phone, yelling at June and Robyn in front of Robyn's child about whether June wanted to go on a vacation with Robyn, and Kim taking June to Arizona on the exact dates in July 2020 that were set apart in the agreement for Robyn to take June on vacation with no advance notice to Robyn that Kim was effectively precluding the pre-planned trip. Id. Kim did the same thing to Donna – took June to Arizona at the exact time when Kim knew that Donna, who lives in California, was going to travel to Las Vegas to see June without notifying Donna until Donna was already in Las Vegas. *Id.* at p. 10-11.

20. Robyn and Donna provided further evidence showing that Kim restricted visits and communication between June and Robyn on October 10, 2020, with a last-minute unplanned offer from Kim to drop June off at Robyn's home. *Id.* at p. 15. Desperate to see her mother, Robyn

dropped everything she was doing with her business that day to see June with no notice only to have Kim stop responding to text messages and resort to Kim's "just call June" doctrine so that the visit was very limited and short by the time Kim finally relented and allowed Robyn to see her mother that day. *Id.* Kim's "just call mom" doctrine also restricted visits on October 13, 2020, October 30, 2020, December 3, 2020, and December 14, 2020. *Id.* at p. 17-19. The "just call June" doctrine is a ruse enforced by Kim and supported by the LACSN attorney whereby family members were refused logistical help, coordination or cooperation by the then-guardian Kim and were instead accused of treating June like a child for attempting to coordinate with June's guardian, Kim. Kim would cruelly demand family members to coordinate all their visits directly with June who could not do so. When family members would occasionally get very brief moments on the phone with June, June would invariably say she wants to visit, but to call back later. When family members repeatedly tried calling later, June would say the same things and the cycle would repeat. Kim would not help to break the cycle. She would say "just call June".

- 21. Robyn and Donna alleged that Kim coordinates visits between June and her other daughter Teri Butler who lives in Arizona, with whom she agrees, but other family members get last-minute notice, if any at all, terse, vague text messages, and short phone calls. *Id.* at p. 5. Clearly Kim was able to make appointments with numerous individuals and institutions, especially some family members with whom she agreed. Obviously, calendars were utilized, and a certain level of communication was employed to accomplish the visit or appointment. But when it came to Robyn and Donna, there Kim refused to assist June in seeing her daughters.
- 22. June's court-appointed counsel filed an Opposition to the Visit Petition that did not acknowledge the myriad of allegations that Kim was restricting visits and communication in

violation of June's rights. *See* June's Opposition filed on January 25, 2021. Instead, the Opposition stated that June did not "want an imposition of anything that looks like a visitation schedule." *Id.* at p. 2. Unintuitively, June's Counsel's logic was that "[a]n additional communication tool will only isolate June from her own family." *Id.* Counsel made these representations even while acknowledging a "never-ending tug-of-war communication battle" among June's daughters wherein the daughters should be "sent to mandatory mediation to work out their communication problems" because June has paid "such a high price" for the battle. *Id.* at p. 3. Moreover, counsel acknowledged that "the only issue here is that grown women refuse to work together with what should be simple logistics for setting up communication when June wishes to see a family member." *Id.* at p. 6. Eerily, counsel remained adamant that the court should take no action to resolve the "tug-of-war communication battle" even in light of the high price June was and is paying. *Id.*

23. Kim also filed an Opposition to the Visit Petition that asked the Court not to impose any time-consuming procedures on her. *See* Kim's Opposition on file herein on January 25, 2021. Kim refused to speak directly to Robyn and Donna's allegations, but instead swept aside the allegations by contending that Robyn and Donna did not provide any evidence (defined as limited to records showing that Kim or June constantly ignored phone calls or that June had not seen or communicated with family) to support the allegations that Kim restricted access to June. *Id.* at p. 5.

24. In Reply, Robyn and Donna reiterated that they did not want June "to do things that she does not want to do" or "disregard[] [her] wishes." *See* Reply filed on February 1, 2021 at p. 4. But rather, they sought simple logistics including a framework of preset opportunities to assist

June "when she expresses her desires to her daughters that she wants to see them." *Id.* Robyn and Donna have always maintained that June should never be forced to visit with them or anyone else. Despite this, and despite the Court recognizing this, Robyn and Donna are accused in virtually every pleading by Kim and the LACSN attorney of trying to force their mother to visit with them and others. Robyn and Donna also alleged that Kim was playing favorites—if a family member agreed with Kim's position that the guardianship needed to terminate and revert back to the POA, then the family member received Kim's assistance, but family members that disagreed with Kim did not get any assistance at all—effectively weaponizing Kim's position as guardian against her own family. *Id.* at p. 8-9.

25. Moreover, the Reply detailed a "strong disconnect between reality and what counsel represents" to the Court. *Id.* at p. 3. The Reply provided verified statements and photographs showing that June enjoys the time she spends with Robyn's family. *Id.*; *see also* Supplement filed on February 3, 2021. The Reply also provided a transcript from a recording of June struggling and failing to use her own cell phone to call Kim. *See* Reply, Exhibit B. Obviously, if June can't call Kim who is with her every day, she can't call anyone reliably. The Reply further alleged that statements from June's counsel and Kim are examples of the disconnect. *Id.* at p. 4. "For example, Ms. Parra-Sandoval [the LACSN attorney] repeatedly states to the Court that [June] continues to forget that she lost [her home] and that Ms. Parra-Sandoval informed this Court that she is the one that informed [June] that her husband died." *Id.* Due to the disconnect, Robyn and Donna asked the District Court to utilize its other available tools to investigate allegations of isolation of June by the guardian. *Id.* at p. 5.

26. At a hearing on February 11, 2021, the Court acknowledged the disconnect between June's counsel's representations and Robyn and Donna's representations. June's counsel continued to represent to the court that no further investigation was necessary because June is able to direct her counsel in these legal proceedings and does not want any schedule or framework for visitation. *See* Transcript of the February 11, 2021 hearing, at p. 9-11. At the hearing, Robyn and Donna's counsel argued that Robyn and Donna tried the "just call June train" and "it doesn't work. She does not have the ability to schedule and call back on her own." *Id.* at p. 13. Further, it was explained to the court that June's other daughter Teri Butler "gets visitation" because "Kimberly arranged it. She facilitated. She helps out with that like a normal person." *Id.* at p. 13-14.

27. Additionally, Robyn and Donna stated that Legal Aid's position (including the pending appeal in Case No. 81799) undermined and was in opposition to the position taken by the guardian in the related civil case action to recover June's home. The undersigned counsel contended that any appeal in Case No. 81799 should have been brought and directed by the guardian, but that "the guardian didn't do it in this case because they recognized that saying that [June] can direct [an] appeal, it factors into whether she can consent to her house being transferred." *Id.* at p. 16. Again, taking this position in opposition to the medical evidence that June lacked the capacity to direct her legal affairs.

28. Around Mother's Day 2021, Robyn and Donna filed a Petition for a court-ordered Mother's Day visit ("Mother's Day Petition") to allow Robyn, Donna, and other family members to have a day-long celebration with June free of worry that Kim might spoil the celebration. *See generally*, Mother's Day Petition on file herein. The Mother's Day Petition alleged that the order

was necessary because Kim precluded and restricted Robyn and Donna from visiting with June a month earlier around Easter while simultaneously relocating June out of her Las Vegas home to Anaheim, California before the district court authorized the move. *Id.* at pp. 4-9.

29. Sadly, on May 5, 2021, the LACSN attorney filed a tone-deaf Petition to Approve the Protected Person's Proposed Visitation Schedule. *See* Schedule Petition on file herein. The proposed visitation schedule filed by LACSN included: any visitors who wanted to see June could only do so between 10:00 a.m. and 12:00 p.m. on Fridays with only one visitor per hour. *Id.* at p. 4. If family members wanted to see June but could not do so during the proposed two-hour time block, then they were to text Kim by Thursday morning wherein Kim would help June with a phone call during the Friday time block to the family member. *Id.* at p. 5. Any visitors had to confirm with the guardian 24 hours before the visit. *Id.* And there were to be no more overnight vacations with June. *Id.* And visits were only to take place at June's home (or volunteered Donna's home as a potential second place for visits). *Id.* at p. 4. At a later evidentiary hearing, every witness testified such an unworkable visitation schedule could not have been conceived by June as they knew her through her life.

iv. This Court Exercised its Wide Discretion to Implement Multiple Tools Available to it to Investigate Allegations that Kim was Harming June and violating June's Bill of Rights

30. In response to the serious allegations, the district court implemented multiple tools to investigate the allegations that the guardian was restricting visits between the protected person and her family in violation of NRS 159.332 and the Protected Person's Bill of Rights—NRS 159.328.

31. At the February 11, 2021, hearing, the district court appointed the guardian ad litem and investigator after stating that there was a disconnect between the medical reports and the statements from June's counsel, "I haven't been provided any evidence or suggestion that [June] is able to execute, facilitate, plan, schedule time with [Robyn and Donna]." *See* Transcript of February 11, 2021, hearing at p. 22. Further, "we have heard that she loves all of her daughters; that she wants to direct her day." *Id.* The Court stated that it was "not considering necessarily a visitation schedule that is an order that the protected person participate in or attend, but a scheduled opportunity to facilitate visitation if the protected person [would] like to take advantage." *Id.* at p. 23. To do that, the Court needed more information to determine whether things changed since the appointment of the guardianship to "make a determination about how much facilitation, how much prompting, how much encouragement, scheduling and participating and execution is appropriate given the protected person's wants." *Id.* at p. 24.

- 32. On February 12, 2021, the Court entered its order appointing the State Guardianship Compliance Officer to meet with all parties about the "visitation, time together, communications, and their needs, requests, and concerns regarding the Protected Person." Further, the Court asked the investigator to review all records of conversations and text messages "to assist the Court in determining if the Guardian has been acting unreasonably under statute."
- 33. On February 16, 2021, the Court entered its order appointing Elizabeth Brickfield, Esq. as the guardian ad litem for June. The Court asked the guardian ad litem to speak with the protected person and her children about "whether the Guardian has an obligation to facilitate, prompt, encourage, plan, schedule, and/or create an environment that promotes an opportunity

for continued communication between Protected Person and her adult daughters based upon the current level of care and needs of the Protected Person.

34. On March 29, 2021, the Guardian ad Litem provided her report and stated that June wants to visit and communicate with her family, but "lacks the ability to manage, initiate or plan these communications or visits." *See* Report on file herein at p. 2. Specifically, "Ms. Jones' mental decline is more advanced than her physical decline, that she lacks the ability to comprehend or answer compound questions and that she lacks decision making ability or schedule management." *Id.* Although June expressed a desire not to have a schedule, Ms. Brickfield believed it is in June's best interest to have a caregiver or guardian who encourages and arranges for such visiting because June lacks the ability to initiate telephone calls or schedule and/or actually carry out visits. *Id.* at p. 3.

35. On May 12, 2021, the Court scheduled an evidentiary hearing upon determining that "there remain issues of fact that must first be determined by the Court at an Evidentiary Hearing before the Court can enter an order relative to Robyn Friedman and Donna Simmons' request for communication, access, and time with their mother, the Protected Person, pursuant to NRS 159.332 through NRS 159.337, and NRS 159.328." The Court ordered all parties to file a pretrial memorandum that focused on legal points and authorities.

36. LACSN did not object to or petition for clarification of the scope of the evidentiary hearing or request that June not be required to testify at the evidentiary hearing. LACSN filed a Pre-Trial Memo that continued to object to a visitation schedule, but did not object to the evidentiary hearing or the scope thereof. Instead, June's LACSN attorney filed the Writ Petition on the eve of the evidentiary hearing and a Motion to Stay the evidentiary hearing. *See* Motion to

Stay filed on June 2, 2021. Counsel contended that the stay was necessary to ensure that June would not be subjected to cross-examination and incur additional attorney's fees. *Id.* at p. 5.

37. On June 7, 2021, the district court entered an Order Denying Petition for Stay. The Court stated that June's Counsel asked the Court to "order a rather complicated and specific schedule." *See* Order at p. 4. Moreover, the Court took issue with June's counsel's "misleading" assertions that the Visit Petition was "simply a request for visitation orders." *Id.* at p. 5. Instead, "the allegations are that the Guardian has restricted communication, visitation and/or interaction between the Protected Person and two of her daughters in violation of NRS 159.334." *Id.* The Court was concerned that this Writ Petition "fails to reference the ramifications of a finding of restriction or refer to the statutory process allowed to a relative who believes access has been restricted." *Id.* The Court noted that the Motion to Stay was worried about whether "the Court might canvass the Protected Person or the Court might allow the daughters to cross-examine their mother during the Evidentiary Hearing" but the Protected Person's worries had "not been properly raised before the District Court" and "would have been an appropriate issue to be raised in the additional legal briefs the Court previously ordered." *Id.* at p. 8.

38. The Court proceeded with the evidentiary hearing on June 8, 2021. June's counsel did not have June appear and objected to June testifying at the hearing. The Court ruled that June would not be forced to attend or testify at the hearing.

39. Additionally, Kim has repeatedly failed to meet the statutory requirements for the first annual accounting that was initially due in December 2020. The initial Accounting submitted had numerous deficiencies. Over the last year, this Court provided Kim numerous opportunities to correct the deficiencies. She failed to do so with each supplement continually failing to meet the

statutory requirements and alleviate concerns from the Guardianship Compliance Office. Then, this Court ordered Kim to provide all receipts to support the Accounting. She did not. Instead, she turned over certain bank account statements. The Guardianship Compliance Office noted many issues with this latest supplemental accounting including thousands of dollars of transactions that the investigator could not tell whether they were for the benefit of June (for example, thousands of dollars paying a Citibank credit card not in June's name and over \$8,000 in cash withdrawals).

v. Robyn and Donna Petitioned and Requested for this Court to Consider Exercising its Sua Sponte Authority to Remove Kim as Guardian

40. Due to the serious nature of what Kim was doing, Robyn asked for this Court to sua sponte remove Kim. On April 5, 2021, Robyn and Donna filed an Opposition to Kim's Petition to Relocate Protected Person and Transfer Guardianship. In that Opposition, Robyn and Donna detailed how Kim pre-maturely relocated June out of state to Anaheim, California, without this Court's authorization and willingly chose not to provide notice to interested parties in violation of Nevada law. It is important to note that Kim claims an advanced degree is geriatric care and claims to have been involved in hundreds of court proceedings similar to this guardianship matter. The Opposition went into great detail about how the unauthorized relocation of June happened, how Robyn and Donna learned of it, and supported by emails between counsel and statements from neighbors in Anaheim that they had spoken to Kim's boyfriend Dean over the weekend in question who confirmed that he and Kim were moving into the home. Kim's boyfriend has had altercations with several family members and his presence in June's home is a major stumbling block to family visiting with their mother and grandmother, June. The Opposition further

discussed how Kim has failed since being appointed guardian to provide the information required for a budget, inventory, and care plan, and that the Petition to Relocate failed to provide the statutory required information. Based on Kim's unlawful conduct, Robyn and Donna asked this Court to consider exercising its power and authority to sua sponte remove Kim as guardian. LACSN did not file anything in response to the Opposition or otherwise responding to the request for sua sponte removal.

- 41. On April 23, 2021, Robyn and Donna filed a Petition for Visitation with the Protected Person for a scheduled visit for Mother's Day. Robyn and Donna requested that if Kim failed to allow the visit to occur, that the Court should also consider removing Kim as guardian. LACSN did not file an opposition or response to the Petition for Visitation.
- 42. On June 18, 2021, Robyn and Donna filed their Closing Brief for the Evidentiary Hearing wherein they requested that this Court consider removal pursuant to NRS 159.185 if this Court was persuaded that Kim weaponized her power as guardian or in other ways harmed June or depleted June's estate.
- 43. On July 15, 2021, Robyn and Donna filed an Objection to Kim's Accounting and First Amended Accounting. Again, Robyn and Donna asked this Court to sua sponte remove Kim as guardian for her failures to adhere to her duties, her dishonesty with the Court, June, and interested parties, and her absolute flouting of the rules and laws governing guardianship. June's counsel filed nothing in response to this request. Indeed, LACSN has taken virtually no action or stance against Kimberly in this matter and even advised the Court against allowing Robyn and Donna to produce additional text messages when it was discovered that Kim had deleted them from her doctored disclosures to both the Court and the guardianship compliance office.

C. Legal Argument

44. NRAP 8(c) reads as follows:

Rule 8. Stay or Injunction Pending Appeal or Resolution of Original Writ Proceedings

- **(c)** Stays in Civil Cases Not Involving Child Custody. In deciding whether to issue a stay or injunction, the Supreme Court or Court of Appeals will generally consider the following factors:
 - (1) whether the object of the appeal or writ petition will be defeated if the stay or injunction is denied;
 - (2) whether appellant/petitioner will suffer irreparable or serious injury if the stay or injunction is denied;
 - (3) whether respondent/real party in interest will suffer irreparable or serious injury if the stay or injunction is granted; and
 - (4) whether appellant/petitioner is likely to prevail on the merits in the appeal or writ petition.

i. LACSN has no chance of prevailing in the appeal.

45. Underlying all of LACSN's argument it intends to pursue on appeal is LACSN's contention that June has capacity to direct her court-appointed counsel. This is meritless. All of the medical evidence in this case shows that June lacks capacity to care for herself in nearly every facet of life including directing legal affairs. Back in 2019, Dr. Brown found that June's mental capacity was in serious decline requiring a guardianship to protect her from undue influence. Now on December 28, 2021, Dr. Brown found that June's mental capacity has severely deteriorated even more over the last two years. June lacks capacity to direct her legal affairs, manage her finances, and otherwise take care of herself. She requires 24/7 care and supervision. Her mental capacity is so deteriorated that she cannot weigh the costs and benefits of decisions and cannot retain information long enough to make decisions. She does not think she is taking any medications (even though she's taking nine of them) nor does she think she has any current

medical conditions (even though she is suffering from numerous conditions). She does not think she has an attorney. She does not know what an appeal is generally or what appeals are being filed on her behalf specifically. All of the medical evidence proves that June cannot be directing her counsel because she literally and quite severely cannot mentally grasp what is being presented to her long enough to make decisions. June's counsel has never provided any contradictory medical evidence. Without capacity to direct her legal affairs, June cannot and is not directing LACSN to, among other things, direct an appeal.

46. Second, LACSN contends that June's due process rights have been violated because the Court is not listening to counsel. This is meritless because it is June's counsel – not the Court – that has precluded June from appearing before this Court at hearings and the evidentiary hearing. June's counsel received notice of all the filings in this case. She was also notified and attended all the hearings. She stopped June from appearing or from speaking directly with the Court. And there have been many hearings in this case – plenty of opportunities for June to be heard – all denied by June's counsel; not the Court. Moreover, LACSN is misuses "due process" without any definition or legal authority supporting the assertions.

47. Third, LACSN contends that June's "due process" rights and bill of rights were violated when this Court appointed a guardianship rather than allowing the Power of Attorney to stand. However, it is also undisputed by June's counsel that June was being exploited prior to the appointment of guardianship in this matter. In every document filed before this Court, June's counsel has never denied that June lost the Kraft home for less than market value, had June's dogs taken from her, or any of the other serious allegations that were presented before this Court in 2019. All of which occurred while the Power of Attorney in question controlled. The Power of

Attorney was insufficient to protect June. Therefore, June's counsel has never provided this Court any reason to even contemplate that June would have been protected had the Power of Attorney continued to stand.

48. Fourth, LACSN contends that it was a violation of June's bill of rights for this Court to investigate and contemplate a "visitation schedule." Such a contention is so narrow and lacks all important context of what was really going on. Kim, as June's guardian, was restricting and precluding visits and communication between June and her family in direct violation of June's bill of rights. June's counsel never disputed Robyn and Donna's allegations that Kim was isolating June and violating her bill of rights by restricting visits. June's counsel has never told this Court that June denies having her visits and communication restricted by Kim. June's counsel has never argued that Robyn and Donna made up all the numerous specific instances in which Kim restricted or precluded visits and communication from occurring. June's counsel took no position on other serious allegations such as Kim pre-maturely relocating June to Anaheim before this Court authorized the temporary relocation. LACSN has also remained silent on Kim's statutorily deficient or entirely missing accounting, budget, care plan, and inventories. Accordingly, LACSN has never contended that Kim was not violating June's bill of rights.

49. Fifth, LACSN contends that this Court violated June's due process rights and bill of rights by removing Kim as guardian because June wants Kim to be her guardian. It is important to note that Robyn and Donna have repeatedly filed documents over the course of months with this Court asking the Court to consider removing Kim as guardian sua sponte. June's counsel never responded or objected to any of those requests. The requests also came up in numerous court hearings that June's counsel attended. She never argued against the Court's ability to sua sponte

remove a guardian or that the issue was not properly before the Court. June's counsel has had many opportunities to do so and did not. Additionally, the Motion to Stay still fails to contend or even discuss the Court's authority to sua sponte remove a guardian. The Motion to Stay does not contend that the Court lacks authority to do so and provides no legal authority against it.

- 50. Sixth, LACSN contends that June's due process rights and other guardianship statutes were violated because the Court did not appropriately vet Robyn before appointing her as successor guardian. But this Court already had. It is the law of the case that Robyn meets the statutory requirements to be appointed as guardian.
- 51. Even further, LACSN has provided no legal authority supporting its legal conclusions. When the LACSN attorney cites to Nevada law, counsel rewrites the statutes in dramatic fashion that completely changes the statutes. Even the Nevada Court of Appeals acknowledge this and declined counsel's invitation to rewrite the laws pertaining to when this Court may award attorney's fees and costs. Moreover, June's counsel provides no authority contesting this Court's wide discretion to schedule evidentiary hearings or appoint guardian ad litems. Additionally, LACSN provides no authority showing that the Court had no right to investigate allegations that Kim was violating June's bill of rights.

ii. The object of the appeal will not be defeated if the stay is denied.

52. The object of the appeal is to request that the Nevada Supreme Court legislate new law from the bench that the word of counsel for a protected person is not to be questioned or verified. The object of the appeal is to elevate counsel for protected persons above all else – including the Court. The object of the appeal is to remove this Court's discretion in appointing guardian ad litems, scheduling evidentiary hearings, and investigating allegations that the court-appointed

16

20 21

19

23 24

22

25

guardian is violating Nevada law, isolating the protected person, and violating a protected person's Bill of Rights. The object of the appeal has little to do with June and everything to do with LACSN pushing its own political agenda that its attorneys' word should be supreme and unreviewable. That object will not be defeated if this Court denies the stay.

iii. June will not suffer irreparable or serious injury if the stay is denied.

53. Since Robyn has been Successor Guardian, June has been thriving and doing very well. She had a Christmas celebration with more of her family around her than she would have had with Kim as guardian - certainly more of a Christmas celebration than she would have had had this Court granted counsel's petition for a Friday morning only visitation schedule. June was also able to celebrate Donna's birthday with Donna and the rest of her family. June was smiling and having a good time during those celebrations. Additionally, Robyn learned that Kim was giving June medications off schedule from what the doctors prescribed. That mistake has been corrected and June is receiving the appropriate medications at the appropriate intervals. June is doing well with Robyn as guardian.

54. Robyn also has significant concerns whether counsel even consulted with June before filing the appeal and Motion to Stay because counsel has not reached out to Robyn to coordinate any meeting or phone call between counsel and June since Robyn has been guardian. Robyn does not know how counsel could say she was directed by June to file the appeal and Motion to Stay when: 1) counsel did not discuss this first with June and 2) June lacks the mental ability to understand what is going on. As Dr. Brown further noted, June does not even think she has an attorney and does not know what an appeal is generally or what appeals are being filed on her behalf specifically.

iv. Robyn will suffer irreparable harm should the stay be granted.

55. Since being appointed successor guardian, Robyn has incurred significant cost and time taking over the guardian duties and responsibilities from Kim. She spent a significant amount of time in California away from her husband and son. She spent a significant amount of time and money caring for June, coordinating in-home care, and undoing the mess left behind and created by Kim (including medications and finances). She has completely taken over all of the duties and responsibilities for caring for June. Accordingly, both June and Robyn would suffer extreme irreparable harm should she be required to go back to the status quo and turn everything back over to Kim. Robyn would also note that Kim has not filed a joinder to this and has not asked in any way to return to the prior status quo with her as guardian. This draws into question whether Kim even wants to return to her responsibilities as guardian.

v. The Motion to Stay includes multiple incorrect statements.

- 56. Appointed Counsel's statement on page 2 of the Motion to Stay is incorrect that this Court has continually ignored June's due process rights and her rights under the Protected Person's Bill of Rights. As was shown early in these proceedings, the steps June took to not have a guardian appointed, including June's Power of Attorney documents, were not sufficient to keep June or her finances secure. To remedy the insufficiency of the Power of Attorney documents, this Court properly appointed Temporary Guardians, and then a General Guardian to keep June and her assets secure.
- 57. Appointed Counsel's statement on page 2 of the Motion to Stay is inaccurate and misleading that this Court disregarded the plan June put into place, prior to any claim of a lack of capacity. This Court did not simply disregard June's plan. Rather, this Court, after careful

consideration of the record created appointed Temporary Guardians, and then a General Guardian because June's plan was not keeping her or her assets secure.

D. Conclusion

WHEREFORE, based on the foregoing, Robyn and Donna respectively request that the Court:

- 1. Deny the relief requested in the Motion for Stay; and
- 2. Order such other and further relief as it deems appropriate.

Uniform Residential Appraisal Report

File No. ANAVERDE

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraisar's continuing education or membership in an appraisal organization, are permitted

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum; (1) perform a complete visual inspection of the interior and exterior areas of the subject property. (2) inspect the neighborhood. (3) inspect each of the comparable sales from at least the street. (4) research, verify, and analyze data from reliable public and/or private sources. and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions" granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question. unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

- 2 I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal, I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19, I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report, If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report, therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

UNIFORM APPRAISAL DATASET (UAD) Property Condition and Quality Rating Definitions

File No.

File No. ANAVERDE

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or unkeep.

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

03

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. It's estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the tack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

UNIFORM APPRAISAL DATASET (UAD) Property Condition and Quality Rating Definitions

File No.

ANAVERDE

Quality Ratings and Definitions

01

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.

Q:

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

n

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q.

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

QE

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Requirements - Definitions of Not Updated, Updated and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixlures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the period.

Example

3.2 indicates three full baths and two half baths.

CARE PLAN IF KATHLEEN JUNE JONES LIVES IN NEVADA; AND

Department: B

Case Number: G-19-052263-A

IN THE ALTERNATIVE,

CARE PLAN IF KATHLEEN JUNE JONES LIVES IN CALIFORNIA

Robyn Friedman, Guardian, and Donna Simmons, interested party, by and through their counsel at Michaelson Law, hereby submit this *Care Plan if Kathleen June Jones Lives in Nevada; and, in the Alternative, Care Plan if Kathleen June Jones Lives in California*, regarding the Protected Person, Kathleen June Jones ("Ms. Jones").

NEVADA CARE PLAN

The following proposed Nevada Care Plan is in Ms. Jones' best interest and is far less expensive than the Alternative California Care Plan, as shown in further detail in the proposed Monthly Budgets and *Supplement to Petition to Relocate the Protected Person to Nevada* that will be filed herein.

The proposed Nevada Care Plan is for Kathleen June Jones to reside in the home of Guardian, Robyn Friedman ("Robyn"), at 1315 Enchanted River Drive, Henderson, Nevada 89012:

- 1. Ms. Jones will have her own suite with a bedroom, bathroom (wheelchair accessible) and kitchenette.
- Ms. Jones would have an excess of \$743.55 per month, and more than
 \$600,000.00 in savings if she were to sell the property located at 1054 S. Verde Street, Anaheim,
 California 92805).
- 3. Ms. Jones would have an excess of \$2,195.00 per month if she were to rent out the Anaheim Property.
- 4. A caregiver is already present in the home in Nevada (paid for by Robyn), that will assist with Kathleen June Jones at no cost to Ms. Jones' guardianship estate.
- 5. Additional in-home healthcare will be arranged as needed in consultation with Ms. Jones' physicians in or near Henderson, Nevada. The hourly rates for Nevada caregivers range from approximately \$21-\$30 per hour, depending on the service provider and the number of hours per week the caregiver is contracted to work. The cost for caregiver services to the guardianship estate is far less than similar services will cost in California as a caregiver is already present in the home that will assist with Kathleen June Jones and a lower hourly rate. To avoid caregiver costs, Robyn will try to rely on family and some of those already providing care for her child for overnight or extended care, as the first option.
- 6. Guardian, Robyn Friedman will make sure Ms. Jones attends all needed medical and/or other appointments in Nevada, either personally or with assistance.

7. Guardian can more easily plan for Ms. Jones' social schedule and family visits if Ms. Jones resides with Guardian in Nevada. Guardian believes keeping Ms. Jones physically connected to all family/friends that are willing, and/or being connected over phone/video is very important for Ms. Jones' quality of life and Guardian will personally assist with this if Ms. Jones resides with Guardian. Guardian will assist with travel costs to Nevada, and Guardian will cover the travel costs for Ms. Jones to travel to other states to stay with other family members for extended visits in their home. Additionally, Guardian will make sure, at a minimum, a weekly call/video to willing family members with Ms. Jones will be provided, although more feely open communication is encouraged and desired.

The proposed Nevada Care Plan will be implemented if the *Petition to Relocate the*Protected Person to Nevada is granted during or after the hearing scheduled for January 12,

2022.

ALTERNATIVE CALIFORNIA CARE PLAN

The Alternative California Care Plan does not promote Ms. Jones' best interest as well as the proposed Nevada Care Plan. It is far more expensive than the proposed Nevada Care Plan, as shown in further detail in the proposed Monthly Budgets. It is also not in Ms. Jones' best interest emotionally or for her safety, as shown in further detail in the *Supplement to Petition to Relocate the Protected Person to Nevada* that will be filed herein.

Continued care from Kimberly Jones is not appropriate at this time for the reasons stated in this Court's order removing her as guardian, and all of the reasons stated in the *Petition to Transfer Protected Person to Nevada*, and the *Supplement to the Petition to Transfer the Protected Person to Nevada*.

The Alternative California Care Plan is for Ms. Jones to reside in the residence located at 1054 S. Verde Street, Anaheim, California 92805:

- 1. Ms. Jones will have her own bedroom and bathroom;
- 2. Ms. Jones would have a monthly budget shortfall of -\$26,303.61 per month.
- 3. 24-hour in-home healthcare will continue to be arranged as needed in consultation with Ms. Jones' physicians in or near Anaheim, California. The hourly rates for California caregivers is approximately \$35.00 per hour depending on the number of hours per week the caregiver is contracted to work. The cost to the guardianship estate will be far more than similar services will cost in Nevada as a caregiver is already present in the home in Nevada that will assist with Ms. Jones. With Kimberly being removed as guardian, and inappropriate as a caretaker for Ms. Jones, paid 24-hour care in California would be required.
- 4. Guardian, Robyn Friedman will make sure Ms. Jones attends all needed medical and/or other appointments in California, either personally or with assistance.

The Alternative California Care Plan will be implemented if the Petition to Relocate the Protected Person to Nevada is denied during or after the hearing scheduled for January 12, 2021.

DATED this 7th day of January 2022.

1. Robyn Friedman ("Robyn" or "Guardian") was appointed as Successor Guardian on December 6, 2021.

- 2. June's Monthly Budget is subject to the outcome of the hearing on the Petition to Relocate. Guardian has given the issues of where June should live, her monthly finances, and what is in her best interest considerable thought. Guardian is mindful of all June's medical, emotional, financial and physical needs. Guardian proposes three monthly budgets to be considered by the Court. Further explanation is contained in detail in the Supplement to Petition to Relocate the Protected Person to Nevada that will be filed herein.
 - 3. The Budgets are named and cover the following scenarios:
 - a. If June is allowed to relocate to Nevada and sells the Anaheim Property.
 - b. If June is allowed to relocate to Nevada and rents out the Anaheim Property.
 - c. If June remains in California and lives at the Anaheim property with a caretaker.

BUDGET IF JUNE LIVES IN NEVADA AND THE ANAHEIM PROPERTY IS SOLD

- 4. The Proposed Nevada Monthly Budget if Protected Person Lives in Nevada and the Anaheim Property is Sold is attached hereto as Exhibit 1.
 - 5. Under this proposal, June would have an excess of \$743.55 per month.
- 6. This proposed monthly budget shows this is the most affordable option for June as a caregiver is already present in the home in Nevada (paid for by Robyn) that will assist with June at no cost to June's estate. Robyn is at home to care for June and her child and has assistance throughout the day.
- 7. This budget provides for 24 hours of caregiver services per month at \$21/hour.

 Though it is not anticipated, if Robyn needed to go out of town and her mother could not travel with her, Robyn would arrange for in-home care while she was away. And there may be no cost

at all in such instances, depending upon caretakers already in place or if Guardian arranges for care from other family members.

BUDGET IF JUNE LIVES IN NEVADA AND THE ANAHEIM PROPERTY IS RENTED

- 8. The Proposed Nevada Monthly Budget if Protected Person Lives in Nevada and the Anaheim Property is Rented is attached hereto as Exhibit 2.
 - 9. Under this proposal, June would have an excess of \$2,202.03 per month.
- 10. This proposed monthly budget brings in more income to June's estate. However, it also requires more out of pocket expenses and would require significant, necessary code repairs to the Anaheim Property before a renter could be obtained.
- 11. This budget provides for 24 hours of caregiver services per month at \$21/hour. Though it is not anticipated, if Robyn needed to go out of town and her mother could not travel with her, Robyn would arrange for in-home care while she was away. Robyn may also simply arrange for care from family members.

BUDGET IF JUNE LIVES IN CALIFORNIA AT THE ANAHEIM PROPERTY

- 12. The Proposed California Monthly Budget if Protected Person Lives in California in the Anaheim Property is attached hereto as Exhibit 3.
- 13. Under this proposal, June would have a shortfall of -\$27,010.17 to -\$27,610.17 per month.
 - 14. This proposed monthly budget shows this is the least affordable option for June.
- 15. Living in California would require caregiver services 24 hours per day, 7 days per week. June would only be able to maintain this for approximately six (6) months before her entire cash estate was depleted. Continued care from Kimberly Jones is not appropriate at this time for the reasons stated in this Court's order removing her as guardian.

///

A Proposed Budget will be implemented depending on the outcome of Petition to Relocate the Protected Person to Nevada scheduled for January 12, 2021.

DATED this 7th day of January 2022.

	TOTAL MONTHLY EXPENSES	\$2,473.60
ш	DIFFERENCE (income – expenses)	\$2,195.40

The monthly income is enough to cover monthly expenses. There is no shortfall to calculate how long the shortfall could be maintained.

Assets will not need to be sold or liquidated to pay for the Protected Person's monthly expenses.

No assets need to be sold or liquidated, thus no calculation is needed to show how long such sale or liquidation would cover the Protected Person's monthly expenses.

The foregoing monthly budge represents a true and accurate estimate of the Protected Person's ongoing monthly sources of income and monthly income if the Protected Person moves to Nevada, resides with the Guardian, and rents the Anaheim House for \$3,115.00 per month.

DATED this 7th day of January, 2022.

Based on the amount ntory filed herein, the shortfall could be maintained for approximately six (6) months.

After the Protected Person resides in the Anaheim House for approximately six (6) months, it would need to be sold or liquidated to pay for the Protected Person's monthly expenses thereafter, and she would have to move to a different residence, most likely the Guardian's residence.

The foregoing monthly budget represents a true and accurate estimate of the Protected Person's ongoing monthly sources of income and monthly income if the Protected Person continues to reside in the Anaheim House.

DISTRICT COURT

CLARK COUNTY, NEVADA

N THE MATTER OF THE GUARDIANSHIP)	
OF THE PERSON AND ESTATE OF:)	
)	Case Number: G-19-052263-A
Kathleen June Jones,)	Department: B
)	_
An Adult Protected Person.)	
)	

SUPPLEMENT TO PETITION TO RELOCATE THE PROTECTED PERSON TO NEVADA

Robyn Friedman ("Guardian"), and Donna Simmons, Interested Party, by and through their counsel at Michaelson Law, submit this *Supplement to Petition to Relocate the Protected Person to Nevada* regarding the Protected Person, Kathleen June Jones ("June").

- 1. In addition to the information and reasoning provided in the *Petition to Relocate* the *Protected Person to Nevada* filed December 15, 2021, to request that Guardian be authorized to relocate June to reside with her in Henderson Nevada, the Court should grant said request also based upon the following:
- 2. Guardian can more easily plan for June's social schedule and family visits if June resides with Guardian in Nevada. Guardian believes keeping June physically connected to all family/friends that are willing, and/or being connected over phone/video is very important for

-1-

June's quality of life and Guardian will personally assist with this if June resides with Guardian. Guardian will assist with travel costs to Nevada, and Guardian will cover the travel costs for June to travel to other states to stay with other family members for extended visits in their home. Additionally, Guardian will make sure, at a minimum, a weekly call/video to willing family members with June will be provided, although more freely open communication is encouraged and desired.

- 3. Guardian cannot reside with June in the Anaheim House.
- 4. Guardian cannot provide June with low-cost caretakers if June continues to reside in the Anaheim House.
- 5. The Proposed California Monthly Budget if Protected Person Lives in California in the Anaheim House filed herein ("Proposed California Monthly Budget") shows that June will experience a financial monthly shortfall between -\$27,010.17 and -\$27,610.17 if she resides in the Anaheim House with 24-hour caretakers. This is largely a result of the fact that the cost of caretakers will be approximately \$25,200.00 per month if June continues to reside in the Anaheim House. It is also the result of the additional monthly expenses June will have if she continues to reside in the Anaheim House, as documented in the Proposed California Monthly Budget.
- 6. In stark contrast, the *Proposed Nevada Monthly Budget if the Protected Person Lives in Nevada and the Anaheim Property is Rented* ("*Proposed Monthly Budget and Rental of Anaheim Property*") shows that June will have very low monthly expenses if she resides with Guardian in Guardian's residence in Nevada.
- 7. The *Proposed Monthly Budget and Rental of Anaheim Property* also shows that renting the Anaheim House for the rate of \$3,115.00 would provide June with excess funds of

approximately \$2,195.40 each month. This will preserve the guardianship estate for June's future needs.

- 8. Also in stark contrast, the *Proposed Nevada Monthly Budget if the Protected Person Lives in Nevada and the Anaheim Property is Sold* filed herein ("*Proposed Monthly Budget and Sale of Anaheim Property*") shows, again, that June will have very low monthly expenses if she resides with Guardian in Guardian's residence in Nevada.
- 9. The *Proposed Monthly Budget and Sale of Anaheim Property* also shows that even foregoing monthly rental income from the Anaheim House, and instead selling the property, would provide June with excess funds of approximately \$743.55 per month. This also would preserve the guardianship estate for June's future needs given that the sale of the Anaheim House at the current time, even after payment of needed repairs that will cost approximately \$60,000, should net more than \$600,000 for the guardianship estate, as shown by the *Inventory, Appraisal, Oath and Verified Record of Value* filed herein. These sale proceeds could then be invested to produce income for the Protected Person to be saved against a future day when June may need to utilize her estate for her ongoing care, maintenance, and support. Additionally, selling the property would protect the estate from potential maintenance costs and/or other liability that can arise from owning a rental property. Many people in June's position are looking to simplify their estates.
- 10. The foregoing shows that it is in June's best interest to relocate to Nevada to reside with the Guardian for as long as possible, and either rent, or sell the Anaheim House.
- 11. In contrast, it is not in June's best interest to reside in the Anaheim House and pay for 24-hour caretakers.

/

JUNE CHOSE TO RESIDE IN NEVADA

- 12. While she still had capacity, June chose to reside in Nevada, in the Kraft House, for more than two decades.
- 13. The statements by attendees at the last hearing regarding June having resided in California for an extended period, and her choosing to reside in California, were incorrect.
- 14. The settlement of the A-Case allegedly caused former Guardian Kimberly Jones to move June to California, and to do so without the Court's authority for the relocation. It was not really a choice June made. Had she so desired, June could have relocated to California anytime in the past 20 plus years. She did not.
- 15. Although the Court sanctioned Kim's move to California after the fact, it has never authorized or directed a permanent move. The move was authorized for the time being pending further review, investigation of Kimberly and further findings of the Court.
- 16. At the last hearing, June's friend Marilyn indicated curiously that June wants to stay in California, even though she has lived in Nevada for over 20 years. Since the last hearing, on or about December 26, Kimberly asked Guardian to facilitate a call between June and Kim. When June got on the phone, Kimberly had Marilyn on a three-way call without telling June or Guardian Marilyn was on the call. In response to Marilyn's question regarding living in Nevada, June expressed to Marilyn that June is happy living in Nevada.

KIMBERLY JONES' BEHAVIORS CREATE AN UNSAFE ENVIRONMENT FOR JUNE TO CONTINUE TO LIVE AT THE ANAHEIM HOUSE

17. Kimberly Jones' ongoing bad behaviors create an unsafe environment for June to continue to live at the Anaheim House, as explained further in the sections below.

 \parallel'

KIMBERLY JONES SHOULD NOT ACT AS JUNE'S CARETAKER

- 18. Kimberly Jones should not act as June's caretaker in California or Nevada.
- 19. Kimberly Jones was removed as Guardian for the reasons established in this Court's Findings of Fact and Conclusions of Law and Order Regarding Visitation, First Annual Accounting, Guardian's Fees, Caretaking Fees, Attorney's Fees and Costs, and Removal of the Guardian entered December 6, 2021, and for many of the same reasons Kimberly Jones is still creating an unsafe environment of June and she should not act as June's caretaker.
- 20. Additionally, Kimberly Jones wanted to be paid for her caretaking services for June even while Kimberly Jones was guardian. Kimberly Jones has advised the Court she cannot and will not be June's caregiver if she is not paid. Guardian, in contrast, does not want to be paid for her caretaking services for June, or for her services as Guardian.
- 21. Kimberly Jones has not filed anything to show that she can and will now provide caretaking services for a lower cost than what Guardian can provide in Nevada.
- 22. Kimberly Jones is continuing to fail to act in June's best interest, in part, by failing to comply with this Court's *Order from December 20, 2021 Hearing*.
- 23. Said *Order* states, "Kimberly Jones shall endeavor to provide the information necessary to ensure a smooth transition between the guardians and make sure that the Protected Person continues to have access to medical treatment, prescriptions, and other resources." As she has done in the past with many other orders and directives from the Court, and contrary to what is routinely expected of any ethical person, much less someone who professes an advanced degree in geriatric care and experience in hundreds of similar cases, Kimberly Jones is ignoring this mandate in the following ways:

a. Kimberly was admonished to attend the cardiologist appointment with Robyn and June on January 5, 2021. Kimberly showed up at the facility lobby for the appointment but did not go into the actual exam when June was being evaluated. Kimberly was advised by the front desk personnel that because she had established the entire medical engagement with this provider, and had not advised the provider of the existence of a guardianship, her permission would be needed to update all emails, access codes and other permissions to transition access from Kimberly to Guardian. Kimberly was asked to stay to resolve those matters so that Guardian would have complete access and permissions on a go forward basis. Rather than remaining to cooperate as she was asked, and as the Court directed her to do, Kimberly waited until Guardian and June went in to see the doctor, and then she left. This is one of the literally thousands of ways Kimberly uses subterfuge to undermine Guardian and the rest of her family on a regular basis. Kimberly's leaving delayed the cardiologist's office allowing access to Guardian because Kimberly had not previously identified herself as Guardian of June. The cardiologist's office was not aware that June was under a guardianship, nor that Kimberly was previously acting as Guardian when she attended the visits with June. Additionally, and as discussed further below in sub-section (c), when Guardian and her husband Perry Friedman attempted to reset online access points, the PIN or other verifications codes needed for the resets were sent to Kimberly. Instead of providing the codes promptly (the reset protocols had limited time durations before new codes are sent), Kimberly slowly but eventually only advised that she had received codes. When asked what those codes were, she did not respond.

- b. Kimberly is also acting contrary to June's best interest by not providing a copy of June's medical records, in part, by not providing Guardian with June's original vaccination cards/records. **Exhibit 1** attached hereto and incorporated herein by reference shows that such records exist. It is a *copy* of June's COVID vaccination card. Kimberly needs to provide June's original vaccination cards to Guardian.
- c. As explained more briefly above, on January 5, 2022, Kimberly refused to go to the medical records department at UCI to empower Guardian to get medical records. Then, on January 6, 2022, Kimberly Jones did finally send verification codes for the medical records to Guardian, but with only one (1) and three (3) minutes remaining to enter the codes. **Exhibit 2** attached hereto and incorporated herein by reference is a copy of the email Kimberly Jones sent to Guardian with the verification codes. Exhibit 2 shows Kimberly withholding from Guardian the power to access the records transferred to Guardian, either in person, or even by providing the email associated with the account to Guardian.
- d. On January 5, 2022, Guardian learned at the cardiologist appointment that June was only supposed to wear her heart monitor for two weeks from when it was applied. This is totally different from Kimberly's representation to this Court in the last hearing that June was supposed to wear the monitor until the next appointment. As a result, June wore the monitor for weeks, and maybe even a month longer than she was supposed to wear it. This was contrary to June's best interest as the monitor caused her stress, discomfort, she continually tried to remove it, and the tape irritated her skin from prolonged use. Kimberly knew all this and did not assist June's situation by providing

simple, accurate information. Once again, Kimberly lied, and June suffered because of her lie.

- e. This is another of the almost limitless ways in which Kimberly's negligence and refusal to attend to any detail whatsoever, even as a supposedly seasoned and educated professional, has hurt June.
- f. Also on January 5, 2022, Guardian learned from the cardiologist that June's blood pressure was supposed to be monitored twice a day to get an accurate assessment of her heart. Kimberly provided a blood pressure cuff, but no instruction on the record that was supposed to be kept for June. Once again, Kimberly acted contrary to June's best interest by failing to provide this information to Guardian. This interfered with June getting an accurate heart assessment back to her cardiologist, again, due to Kimberly, a supposedly trained professional in geriatric care, failing to provide in good faith basic information about June's care.
- g. Kimberly's modus operandi is to provide no information at all. Then, wait to be compelled to assist or provide information after costly and exhaustive legal battles, following which she will provide only partial information or assistance. Whereupon the cycle begins again with more expensive and exhaustive litigation, and so forth, as she causes it to continue.
- h. Kimberly put all utilities for the Anaheim House in her individual name.

 Guardian is now in the process of converting the utilities from Kimberly's name to June's name. This is an extremely frustrating and time-consuming process now forced on the Guardian because Kimberly did not property set up the utilities in June's name.

21

22

23

24

25

KIMBERLY JONES AND/OR DEAN LOGGANS ARE IMPROPERLY RECORDING THE PROTECTED PERSON AND THE GUARDIAN, DEAN LOGGANS IS CONTINUALLY AROUND THE ANAHEIM HOUSE, AND KIMBERLY HAS FURTHER ISOLATED JUNE BY PLACING ALL OR SUBSTANTIALLY ALL JUNE'S UTITLITIES IN KIM'S NAME

24. As set forth in additional detail in the Petition to Relocate the Protected Person to Nevada, paragraph 35, on December 14, 2021, Dean Loggans or Kimberly placed a cell phone recording in the garage of the Anaheim House when Guardian and a locksmith opened the building and found him inside. This was after Kimberly told Guardian the garage was her office but that no one had a key so no one could access the garage. Guardian was suspicious so first thing in the morning Guardian had a locksmith meet them at the Anaheim House. Donna Simmons' daughter Samantha who is afraid of Dean Loggans had stayed the night at the house to help care for June, her grandmother. After a few minutes, the locksmith opened the garage door, and Dean Loggans was found inside with his Corvette, several statues of naked women and boxes of property that do not belong to June, and upon information and belief, do not belong to Kimberly. To date, the boxes that do not belong to June are still in the garage and should be removed immediately. Obviously, Dean Loggans could have simply opened the door at any time rather than let the locksmith struggle to get the door open. All, including Donna's daughter, who had spent the night just a few feet away, were astonished to find a man inside. Furthermore, there were absolutely none of the usual trappings of an office, such as a desk, a phone, a chair, any loose papers, etc. Kimberly has always maintained that Dean does not live at either June's Anaheim House or previously June's Kraft House in Las Vegas. However, other parties in these proceedings and statements from neighbors have frequently indicated Kimberly has not been truthful. It is odd that a man who does not live at a property would store his vehicle there, or at least frequently drive in and park his vehicle and store his property in the garage of a protected

person to whom he is not related. This is especially odd while Kimberly simultaneously claims no one can get into the garage because all keys to the garage are lost, or alternatively that even if a key were to be found, no one can go into June's garage because it is Kimberly's office.

Nothing in the lease on the property authorizes Kimberly to sublease or takeover additional parts of June's home for her business.

- 25. All of this is troubling because a central feature of the pleadings and testimony in this case is that many in June's family, if not most, are afraid of Dean and do not want him around their mother and will not visit if he is constantly there or frequently and randomly dropping by. Dean Loggans' *continued* unwillingness, especially after the recent evidentiary and other hearings, to leave June alone is shocking and hurts June.
- 26. When Dean left the day he was found in the garage, he calmly walked out of the garage, while leaving his phone, which was recording, in a cabinet in the garage. He also locked the garage door leading to the house, and shut and locked the large door leading to the street, thus making the garage completely inaccessible again. The locksmith had to be retained a second time to reopen the door. The locksmith rekeyed the Anaheim House because Kimberly refused to provide keys to any of the rooms including the garage, except for the very front door. The cost of the locksmith in total was \$2,280.00. Kimberly should be made to pay for these expenses. Receipts of the payment Guardian paid out of her funds and is requesting the Court have Kimberly reimburse Guardian is attached hereto as **Exhibit 3**.
- 27. Oddly, all of this happened after Guardian gave Kimberly many days notice of the exact date and time she would show up at the Anaheim House to takeover care of June.
- 28. On or about Christmas Eve, December 24, 2021, after Guardian dropped June off to visit Kimberly at the Anaheim House, Kimberly texted Guardian, stating she has Guardian's

statements "on audio." **Exhibit 4** attached hereto and incorporated herein by reference is a copy of the text from Kimberly admitting to recording Guardian.

- 29. In that same section of text thread, it is documented that as Guardian drove away she observed Dean Loggans parked in his Corvette on the street behind June's home. This was the second time in the few days since arriving that Guardian observed Dean Loggans parked in his Corvette on streets near June's home. Guardian and other witnesses, including Donna Simmons' daughter Tiffany, observed Dean drive by in his white Corvette several times. Guardian texted Kimberly about these incidents, noting it is "super creepy," as Dean Loggans was parked where he could watch June's house. Exhibit 4. Guardian also objected to Kimberly recording her without her knowledge. Exhibit 4.
- 30. Guardian reports that it is earlie that each time she shows up at the Anaheim House, almost without fail, Kimberly and/or Dean will miraculously show up within minutes, seeming to indicate the house is being watched or monitored in some way that Guardian is not aware of.
- 31. On January 5, 2022, while June, Guardian and Kimberly were at Bank of America discussing June's bank accounts, Guardian observed Kimberly take her cell phone out of her purse, press record on the video function, and slide the phone back into her purse. Guardian stated she was not comfortable with Kimberly recording the conversation. The bank employee they were meeting with, Marisol, stated recording was not okay. Kimberly ignored her. Eventually, however, she removed the phone from her purse and stopped recording. Guardian stated she believed Kimberly was probably still recording, possibly with another device, that Guardian was not comfortable with that, and asked if the bank could ask Kimberly to leave her

24

25

bag somewhere else. Kimberly held up her phone, stated she was not recording, and then walked away.

- 32. Although neither Guardian, nor her counsel is admitted to practice law in California, upon information and belief, the California Penal Code, Part 1, Title 15, Chapter 1.5 governing Invasion of Privacy makes it a crime to audio or video record unless it is "for the purpose of obtaining evidence reasonably believed to relate to the commission by another party to the communication of the crime of extortion, kidnapping, bribery, any felony involving violence against the person, including, but not limited to, human trafficking...". Cal. Penal Code § 630-638.55. Guardian has steadfastly objected and continues to object to Kimberly and/or Dean constantly recording June and those near her. Kimberly has not claimed, nor could she reasonably claim, she is recording June or those near June to obtain evidence of one of the crimes listed in the statute. Guardian suspects June may be the subject of video and audio recording frequently at the hands of Kimberly and/or Dean or others they allow to record June. Kimberly has expressed to Guardian in years past on more than one occasion her desire and consideration of secretly recording people such as at places she has worked for the purpose of writing a book or making a tell-all type documentary. This is NOT in June's best interest as she has always remained an exceptionally private person and would only result in personal gain for Kimberly and others at June's expense.
- 33. Guardian asks the Court to admonish the parties and interested persons and direct that whereas June lacks the capacity to judge for herself when, where and how she may be recorded, that all parties are to cease and desist from making any such recordings, and if any have been made, except any such that have already been filed in this proceeding, to delete them immediately.

- 34. Ultimately, because the bank realized the accounts were set up while June was under a guardianship but that the guardianship was not disclosed by Kimberly, the bank is refusing access to the accounts now, even to Guardian, without a further specific order, despite Guardian showing her Letters of Guardianship to the bank. Furthermore, the bank cannot speak to June as she is under guardianship. This leaves Kimberly as the only person to have access to June's accounts.
- 35. To date, though it has been 30 days since the Court's order, Guardian still does not have emails or PIN numbers associated with the bank accounts.
- 36. Kimberly claims to be a seasoned professional, took an oath to properly represent the protected person and signed an acknowledgement of her duties. Her failure to disclose the guardianship and properly set up guardianship accounts and relationships with medical providers has caused, as is her modus operandi, a lot of extra effort, emotional, financial and medical turmoil, and Kimberly should have to pay legal and other expenses her misconduct has caused and continues to cause.
- 37. Moreover, upon information and belief, most or all of June's utilities, including her phone and internet service, were set up under Kimberly and not June, making transition to anyone else, not to mention transparency to the Court, much more difficult. As soon as Kimberly was removed as guardian, she shut off internet access at June's Anaheim House, claiming it is her own business. No internet makes it impossible to run June's "Ring" doorbell or access any history that might show who has been visiting. Likewise, external security cameras are now non-operational, and no video or audio history can be obtained. Kimberly often escapes personal responsibility for her conduct. However, at this time, she should be held personally liable for the expense her conduct is causing, including for Guardian being forced to file this lengthy

23

24

25

supplement and other filings to get Kimberly to help June by cooperating in the transition of information. Guardian will provide an affidavit of fees with a *Brunzell* analysis when appropriate and/or directed to do so.

- Kimberly also created problems by placing June's mobile phone records under 38. Kimberly. Guardian has answered at least one phone call for June where the person calling, curiously, asked for Dean. Guardian explained who she was and the caller, who sounded like an adult male, seemed confused. The caller said repeatedly he has this down as Dean's number. The caller asked if Guardian was Kimberly. Guardian said she was not. The caller said "tell Dean, 'you're running out of time'". Guardian has since called the number back and learned it belongs to Dean's brother, Rex Loggans. Guardian is concerned about how anyone would have June's number listed as Dean's contact. Guardian is very interested in reviewing call logs from June's phone to learn who istrying to reach June, both to help June stay in touch with friends, and also to protect June from people who may think her phone belongs to Dean. Guardian has asked Kimberly for phone records. Kimberly has refused. Unfortunately, without Kim's cooperation, these records are extremely difficult if not impossible to obtain at this time. It would hurt June and would be a shame to have to obtain a new phone number for June for her safety, since presumably, many friends and family who know June use her existing number. Kimberly should be held personally responsible for any legal fees spent trying to access these records as she added June's line to her personal line and used June's number as Dean's personal cell phone. Again, Guardian will provide an affidavit of fees with a Brunzell analysis when appropriate and/or directed to do so.
- 39. On the subject of isolation, neither Guardian, nor anyone else in June's family has found any evidence of a landline being installed or existing at the Anaheim House. Neither of

Donna Simmons' daughters, Tiffany or Samantha, has seen a landline, much less one near June that she could access. Kimberly testified repeatedly that such a line existed and that she provided the number to all the family. However, when the number provided was called, a recorded message stated that the number was not in service. Kimberly has not provided any records of the landline or how it was being paid for.

- 40. Also, Guardian observed that Kimberly activated location tracking on June's Apple Watch. **Exhibit 5** attached hereto and incorporated herein by reference is a photo of June's Apple Watch showing Kimberly Jones set up location tracking.
- 41. On January 6, 2022, Kimberly again texted to Guardian that she recorded Guardian. **Exhibit 6** attached hereto and incorporated by reference is a copy of the text message Kimberly and Guardian exchanged. On that occasion, Guardian who has been staying some nights at a hotel for her safety, brought June to the Anaheim House. Kimberly was not there. When Guardian and June were leaving the neighborhood, they saw Kimberly arriving. Guardian returned to the home so June could visit Kimberly. Guardian went back inside to see if Kimberly wanted to visit with June, but Kimberly had gone to her room and locked the door without speaking to anyone. Then, when June called Kimberly, Kimberly did not answer. Kimberly responded later that Guardian was silly, and Kimberly had it all on audio tape.
- 42. The foregoing shows Kimberly is improperly recording June and Guardian, attempting to track June's location, and Dean Loggans is continually parking in his Corvette near the Anaheim House in such a way that he can watch the house. None of this is appropriate and all of it is creating an unsafe, creepy, stressful environment for June. It is contrary to June's best interest to remain in California. It is also having an extremely chilling effect on other family

members' desire to visit June under the current circumstances. Past altercations and issues between Dean and the family are well-documented in this case.

KIMBERLY JONES ACTED CONTRARY TO JUNE'S BEST INTERESTS WHILE GUARDIAN, AND IS CONTINUING TO DO SO WHILE RESIDING IN JUNE'S HOME

- 43. While she was guardian, Kimberly Jones established joint accounts with June at Bank of America, rather than guardianship accounts, in violation of her duties as guardian. It is good the Court has already appointed an investigator to investigate and report on June's and Kimberly's finances.
- 44. While she was guardian, Kimberly failed to notify financial institutions that June was a protected person and in fact Kimberly herself was the guardian.
- 45. While she was guardian, Kimberly placed all the utilities at the Anaheim house in her own name, with no indication June was under guardianship, thereby making it extremely difficult, especially without Kim's cooperation, to transition the accounts to anyone else, or for the Court to obtain full transparency about expenditures.
- 46. While she was guardian, Kimberly failed to notify UCI and other medical professionals that June was a protected person and Kimberly was her guardian.
- 47. Now, as June's former guardian, and despite court orders to the contrary, as explained above, Kimberly is failing to provide needed information to Guardian, is recording Guardian and June without their knowledge or permission, is attempting to track June, and Dean Loggans is continually parking in his Corvette in locations where he can watch the Anaheim House.
- 48. Under these circumstances, the Anaheim House is no place for June, or Guardian, or any other person that would like to visit June.

KIMBERLY JONES IS EXHIBITING ONGOING CONTEMPT FOR JUNE IN NOT COMPLYING WITH THE ORDERS OF THIS COURT

- 49. In the *Order from December 20, 2021 Hearing*, Kimberly Jones ("Kimberly") was ordered to provide all ordered information to Robyn via email on or before Monday, December 27, 2021 at 5:00 pm. Kimberly did not follow the order of this Court. Instead, after the Court-imposed deadline, Kimberly sent partial answers and incorrect information via email to James Beckstrom, Esq., her attorney, and Maria Parra-Sandoval, Esq. from the Legal Aid Center of Southern Nevada, only.
- 50. Information was not provided to Robyn, or Robyn's Counsel until Wednesday, December 29, 2021, contrary to the Court's simple direction.
- 51. In the month that Robyn has been Guardian, she has made many phone calls to doctor's offices, utility companies, financial institutions, government agencies and other institutions and/or individuals that are associated with June to obtain information regarding to medical, financial and physical aspects of June's care and well-being.
- 52. Guardian continues to receive misinformation, or complete refusal and silence from Kimberly, the former guardian, as she works to make the transition.
- 53. Attached hereto as **Exhibit 7** is a breakdown of the items Kimberly was ordered to provide by December 27, 2021 but has failed to do so.
- 54. Furthermore, Kimberly has failed to provide Robyn with critical information regarding the remodel of the Anaheim House. This Court ordered that Kimberly could use individuals qualified to make repairs on the home. Some of the repairs to the home have been in place less than a year, but already need to be replaced. For example, the floor that was replaced a little over seven months ago is already coming up in places and will need to be either corrected or redone. Given the relatively short time from the installation of the flooring until now,

Guardian hopes there may be a warranty on the installation of the flooring that may fix the issues without using any more of June's funds. Guardian has asked Kimberly for the information on who installed the flooring many times, but has not received any information. If June continues to live in the home, the flooring creates a potential tripping hazard and will need to be corrected or replaced. If the home is to be rented or sold, the floor would need to be corrected or replaced. Kimberly failing to give the Guardian needed information on the flooring may cost June's estate thousands of dollars to pay to replace, rather than invoke a warranty to get the repairs done under the original contract.

55. Guardian asks the Court to order Kimberly, again, to comply with the *Order from December 20, 2021 Hearing* and to order Kimberly to pay attorney's fees and costs personally for Guardian having to ask this Court to compel information that should have been turned over already under the *Order from December 20, 2021 Hearing*. Providing the information and documentation explicitly referenced in the Order as well as logically related or additional information that becomes pertinent is both the ethical thing to do and the least that should be expected of Kimberly who took an oath to serve as guardian, boasts an advanced degree in geriatric care and who claims to have been involved in hundreds of similar cases in California courts.

ATTORNEY'S FEES AND COSTS

- 56. Guardian requests that fees for being forced to bring the *Petition to Relocate*Protected Person to Nevada and this Supplement be assessed to Kimberly to the extent the Court finds her responsible for delays and misconduct.
- 57. Kimberly Jones believed and still believes she can engage in misconduct and be passive aggressive with no cost to her, despite orders of this Court. This Court should order

Kimberly Jones to pay Guardian's attorney's fees and costs for having to request in this *Supplement* again, that this Court admonish Kimberly Jones to provide information, documents, etc. as previously ordered in the *Order from December 10, 2021 Hearing*.

A. Law – Attorney's Fees and Costs

58. NRS 18.010 establishes as follows:

NRS 18.010 Award of attorney's fees.

- 1. The compensation of an attorney and counselor for his or her services is governed by agreement, express or implied, which is not restrained by law.
- 2. In addition to the cases where an allowance is authorized by specific statute, the court may make an allowance of attorney's fees to a prevailing party:
 - (a) When the prevailing party has not recovered more than \$20,000; or
- (b) Without regard to the recovery sought, when the court finds that the claim, counterclaim, cross-claim or third-party complaint or defense of the opposing party was brought or maintained without reasonable ground or to harass the prevailing party. The court shall liberally construe the provisions of this paragraph in favor of awarding attorney's fees in all appropriate situations. It is the intent of the Legislature that the court award attorney's fees pursuant to this paragraph and impose sanctions pursuant to Rule 11 of the Nevada Rules of Civil Procedure in all appropriate situations to punish for and deter frivolous or vexatious claims and defenses because such claims and defenses overburden limited judicial resources, hinder the timely resolution of meritorious claims and increase the costs of engaging in business and providing professional services to the public.
- 3. In awarding attorney's fees, the court may pronounce its decision on the fees at the conclusion of the trial or special proceeding without written motion and with or without presentation of additional evidence.
- 4. Subsections 2 and 3 do not apply to any action arising out of a written instrument or agreement which entitles the prevailing party to an award of reasonable attorney's fees.

[1911 CPA § 434; A <u>1951, 59</u>] — (NRS A <u>1957, 129; 1967, 1254; 1969, 435, 667; 1971, 165, 802; 1975, 309; 1977, 774; 1985, 327; 1999, 903; 2003, 3478)</u>

59. NRS 18.020 establishes as follows:

NRS 18.020 Cases in which costs allowed prevailing party. Costs must be allowed of course to the prevailing party against any adverse party against whom judgment is rendered, in the following cases:

- 1. In an action for the recovery of real property or a possessory right thereto.
- 2. In an action to recover the possession of personal property, where the value of the property amounts to more than \$2,500. The value must be determined by the jury, court or master by whom the action is tried.

- 3. In an action for the recovery of money or damages, where the plaintiff seeks to recover more than \$2,500.
- 4. In a special proceeding, except a special proceeding conducted pursuant to NRS 306.040.

B. Analysis and Conclusion - Attorney's Fees and Costs

- 60. Under NRS 18.010(2)(a), Guardian's payment of attorney's fees as the prevailing party is available, and should be ordered, if Guardian recovers less than \$20,000.00 for the guardianship estate.
- Guardian's attorney's fees without regard to the recovery sought, given that this Court is able to find that Kimberly or any other party who opposes the relocation has brought and maintained opposition to the relocation of June and ignored the requirements of this Court's order without reasonable grounds, or to harass Guardian. This Court can find that Kimberly Jones has no good reason for failing to provide required information. This is especially true given that NRS 18.010 is written such that the Court is required to liberally construe it in favor of awarding attorney's fees in this, an appropriate situation for same. NRS 18.010 explains further that the Legislature intends the Court to award attorney's fees pursuant to NRS 18.010(2)(b) in this appropriate situation to punish for and deter frivolous or vexatious claims and defenses because such claims and defenses overburden limited judicial resources, hinder the timely resolution and meritorious claims and increase the costs of engaging in business and providing professional services to the public.
- 62. Under NRS 18.020, upon becoming the prevailing party, Guardian's costs should also be allowed in this action.
- 63. Guardian will provide an affidavit of fees with a *Brunzell* analysis when appropriate and/or directed to do so.

RELIEF REQUESTED

WHEREFORE, based upon the foregoing, Successor Guardian Robyn Friedman, and Interested Party, Donna Simmons, request:

- 1. That this Court grant the relief requested in *Petition to Relocate the Protected Person to Nevada* and authorize Robyn to relocate Ms. Jones from her residence located at 1054 S. Verde Street, Anaheim, California to Robyn's home located at 1315 Enchanted River Drive, Henderson, Nevada 89012.
- 2. That to protect Ms. Jones, this Court enter an Order in this case that no person is to record the Protected Person without this Court's permission.
- 3. That this Court admonish Kimberly Jones to provide the information required of her in the *Order from December 10, 2021 Hearing* and as outlined in the updated information in this Supplement.
- 4. That inasmuch as the *Petition to Relocate the Protected Person to Nevada* and this *Supplement* are opposed with arguments brought or maintained without reasonable ground or to harass, that the party bringing such arguments be ordered to pay Guardian's attorney's fees and costs.
- 5. That this Court order Kimberly Jones to pay Guardian's attorney's fees and costs for having to request in this *Supplement* that Kimberly Jones provide information this Court already required of her in the *Order from December 10, 2021* hearing.
- 6. That this Court order Kimberly Jones to pay \$2,280 to Guardian as repayment of the out-of-pocket expense Guardian incurred to hire the locksmith to access the garage and rekey the locked doors that Kimberly claimed she did not have the keys to unlock.

-21-

7. That this Court grant such other and further relief as it deems necessary and

DATED this 8th day of January 2022.

ITEMS KIMBERLY WAS TO PROVIDE PURSUANT TO COURT ORDER AND DID NOT

- 2. Did Not Complete doctors missing: gastroenterologist, ENT, gynecologist, dentist
- 4. Lied Did not list what the medications were given for causing great stress, time and some money to refill prescriptions
- 6./7. Lied said there were no caregivers for my mom. We didn't just ask for them at the present. We know they exist per court documents KIM filed. Who are they, what company, what rate of pay, when did they work, phone numbers and emails, contracts for tax filing? Kim also said in court documents she had set up services with another company for my mom. Who are they, phone address, account number, service rep. and all other information. She provided vague information about this in court record so she can't say there aren't/weren't any.
- 9. Did Not Complete = No passwords, associated emails or other required information given.
- 10. Lied Only provided one single key that ONY worked for the front door. All other keys (upwards of 5) were not given even though they were newly installed after Scott moved out. We were told there were ZERO keys for the garage door, yet somehow, they very next morning, Dean was found in the very same garage that had no key and was currently locked by a locksmith after they were called to the home. This was an approximate \$2000 expense.
- 11. Did Not Complete Utilities were in Kim's name instead of June's name. Even though, Kim provided no account information and did not provide the landscapers phone number and he is not listed as business on the internet and also no rate of pay or services he provides.
- 12. Did Not Complete didn't provide password or any other identifying information for this account and did not provide the most recent statement which we have since come to find out, the insurance is being cancelled later this month because the roof of the home is being visibly neglected.
- 13. Did Not Complete Kim's actions have resulted in June and Robyn being effectively locked out of some the accounts with Kim remaining as the only one with access to Junes funds (Bank of America) because it wasn't informed properly, per their rules, that this had become a guardianship with a protected person with a capacity change. One account was set up recently and was not a guardianship account. The bank PINS still have not been provided and neither have the credit card pins. None were informed there was a change in capacity or guardianship properly.
- 14. Lied My mom has more than 14 people that she stays in contact with. Some of them send Christmas cards each year and their addresses and names and who they are would be nice for my mom. While her circle is small it is NOT 3 people. To assist with this, if Kim insists that there are only 3 people, we would like access to my mom's phone records, that Kim had on her personal account, instead of my mom's own account.

. . .

- 15. Did Not Complete Or even try to provide a list of foods beyond that she doesn't like vegetables. Yet she has commented since then that Weinerschnitzel is her favorite, and that she loves Costco chicken directly to my mom. Kim has a recording of one of these taken of the Costco chicken conversation in the UCI cardio waiting room. It's abhorrent that Kim wouldn't even try to do this to make life better for my mom as my mom does not generally have the capacity or recall to tell you what she wants to eat or likes regularly and then relies solely on suggestions to be made. My mom didn't need to suffer this disruption to her nutrition when it could have taken 20 seconds for Kim to make a list. She has been the person exclusively feeding her for years. This, singularly, in my opinion, shows why Kim is a danger to my mom. She would rather my mom suffer than give simple information that doesn't cost Kim a penny.
- 16. Did Not Complete Did not provide the general size even of the disposable underwear resulting in multiple packs of \$30 plus underwear needing to be purchased and tried out. Did not provide toothpaste she uses or deodorant or shampoo or soap, all causing a change for my mom as she can't tell you what products she has used and liked.
- 17. Did Not Complete and Lied: Did not provide my mom's bra size or shoe size, resulting in shoes and bras being purchased at additional expense until the proper size was found. Provided inaccurate sizing for my mom's shirt (she's a large, never an XL, she has a petite frame and the sleeves would cover her entire hand in an XL), and there weren't a single pair of pants in an 18-20 (standard xxl) nor were ANY pants beyond one pair of XL produced upon request, zero pants in her closet in December, just shorts. This disappearing wardrobe phenomenon occurred prior when Kim was the guardian and we were made temporary guardians. My mom had more than one pair of pants and two pair of pajamas. Period. Again, this is just cruelty to my mom and lack of effort along with taking or disposing of my mom's property.
- 19. Did Not Complete mentions bingo that's a senior center but refuses to say or list which one when directly asked in order to continue something June enjoys. Again, this information would cost Kim NOTHING, she has just refused to give the information to play games and satisfy her own needs.
- 21. Did Not Complete Multiple doctors and dentist missing
- 25. Lied There were past safety deposit boxes mentioned in court records. Donna and was involved and spoke with Kim as Kim attempted to access safety deposit boxes in CA and was denied. What banks were these at and ALL records to verify should be provided.
- 26. CONCERCNING The mortgage was not informed that there was a lack of capacity OR a guardianship and we believe the refinance was signed ONLY by the protected person without the guardian's signature which quite possibly is about to result in the mortgage being called due under false pretense of the loan being made. Kim was well aware that she, alone, should be signing and that the bank should be made aware of the guardianship and incapacity of the client. This may result in an immediate \$157,000 plus demand from June that she can't pay without selling the home. It's absurd and possibly illegal to have done what Kim allowed while she was the guardian. The current guardian will not be involved with this deception upon a financial institution.

17

18

19

20

21

22

23

24

26. B - CONCERNING - Incomplete or Innacurrate Information - we have reason to believe after seeing the phone and the case that the phone that Dean represented to the police as his that was found recording and that Kim then represented as one she had and left in the cabinet to be June's old phone. That it was not "exchanged" for the Apple watch, but rather was taken and if any phone was exchanged it was not June's. Furthermore - the phone number was added to Kim (or Dean's) personal cell phone account versus being handled properly and retained as June's sole account. This has caused a complete lack of access needed for June's phone records, which are needed to determine if June's phone number has been recently used in activity for Dean. People have called June's phone asking for Dean or expecting him to answer when called from June's number - including his brother, Rex Loggans. WHY? is Dean in any way connected to June's cell phone number or Apple Watch. Exceptionally concerning given the suspicion of illegal theft activities occurring previously at the Anaheim house on behalf of neighbors and family due to suspicious activity while there was a renter there and with Dean there. Kim will not answer these questions when asked and will not provide access to the phone records. If this has to be done through a court order, Kim, personally, should have to pay the legal costs associated as she could easily provide access and NEVER should of added June to someone else's account when June is completely capable financially and otherwise of retaining her own account. Finally - the pin and information given for the number to be transferred did not work and the store employee had to call Kim directly to get the release. IF the phone number needs to be changed because of other people using her number for who knows what communication, this will cause a complete loss of contact with people that have had my mom's number for many years. Especially considering Kim will only provide information for 3 people my mom has known.

26. C. CONCERNING - Did Not Complete - PIN numbers to access the accounts NEVER given. Accounts not operating as guardianship accounts as properly required, including for transfers of tens of thousands of dollars. June currently locked out completely of these funds. The financial cost of this knowing neglect to act properly as the guardian in regards to June's finances has yet to be determined but has already been costly legally. This burden should be borne solely by the person causing it, Kim. Legal Aid should also have great concern over these financial issues and inappropriateness and act on June's behalf to rectify and recoup any losses to June through legal costs and not having access to her own assets. Every last penny of her liquid assets. Effectively leaving June penniless in liquidity.

List of times Kimberly should have but states she does not:

- 1. Social security card
- 2. Insurance cards
- 3. Birth certificate
- 4. Passport
- 5. Medicaid card
- 6. Handicap Placard

Further items needed:

- 1. Pins for Citibank and Wells Fargo
- 2. FULL and continued access to Bank of America accounts
- 3. Veterinary information, including chips, shots, etc.
- 4. Pet food brand/type
