*ORDER DENYING STAY*

This is an appeal from an order granting a petition for judicial review in a worker's compensation matter. Appellants have filed a motion for stay of the district court's order pending appeal. Respondent has filed an opposition, and appellants have filed a reply. Having considered the arguments of the parties as well as the relevant factors, this court is not convinced that a stay under NRAP 8 is warranted. The motion is denied.

It is so ORDERED.
