Statement of Facts. Explain the facts of your case. (Your answer must be provided in the space allowed.)

I was sentenced to a burglary class "B". Currently the burglary statute was revised AB 236 I think that since the revision narrows the meaning of a criminal statute via Welch v. U.S. 136 S.Ct. 1252 (2016) also see Montgomery v. Louisiana 136 S.Ct. 718 (2016), where it is established that the supreme court requires state courts to apply this exception in the manner in which they apply it. The only

requirement for determining whether an interpretation of a criminal statute applies retroactively is whether the interpretation narrows the class of individuals who can be convicted of the crime. In petitioner's case, here, Petitioner can no longer be convicted of a class "B" burglary as that class is reserved for residential burglary, etc. In C-19-344594-1 Defendant Crow Petitioner was engaged in the burglary of a business is what the state alleged. This AB 236 narrows my class to a burglary of a business which is a class "C". Therefore giving the court was within its power to pass the sentence but now with other legislation and upon petitioner's request this sentence should be amended as that class has been narrowed so new law should be implemented in this collateral review. "Substantive function test looks at the function of the new rule. It has a 'substantive function' when it alters the range of conduct or class of persons that the law punishes". MRS 209.4465 is a liberty interest created by the state. The class of your crime is a great factor in how this statute is implemented for parole. Giving time off of the front for class "C" and not class "B". And even that law to my understanding changed in the Petitioner favor on Oct. 11 2021 making retroactive changes that favor

release of non violent B offenders. Challenging the guilty verdict was not my intent, as I undertook the habeas corpus (post-conviction) the modification of my class, thereby giving me the correct considerations post conviction for classification and release, since those were my real time eventualities was my goal. The statutes and rules aforementioned decrease the time that my specific crime carries in effect and reduces the prison population and the considerations of severity in the state and peoples minds, that is why they made it less severe.

Statement of District Court Error. Explain why you believe the district court was wrong. Also state what action you want the Nevada Supreme Court to take. (Your answer must be provided in the space allowed).

The courts were wrong in not giving me time and capabilities in research and invocation of the ideals that I am not familiar with. I never had a legal representative even though my forma pauperis was denied, citing that I had counsel. I never got a chance to speak with a judge or had representation in court. As I was not transported, I had no direct access to law library as TLCC only had correspondence that was slow and encumbering, I should have been afforded more liberties. The ruling was not inclusive

of my arguments put forth in my response to the D.A.'s response to my claim. Nor was the information that I scribbled to present at evidentiary hearing ever allowed. They have no electronic means of service and I responded in the quickest fashion I could due to 7 day waits for research materials, another 7 day wait for copies, and even not being able to respond to allegation here in the facility of mishandling correspondence and being cut off from 'access to courts' altogether at times. The case C-18-330150-1 was a dispute between me and an acquaintance that is portrayed as a attempted home invasion because I banged on a door and it came open in my angry tirade. I do not burgle houses and have not for a long time. These two incidents are separate. This is a business that the state accused me of shoplifting from and I pled to a burglary for. With the resources I had I tried to marshal an appeal to an injustice that was done to me. My original judge Miley, Stephanie in district court 23 whom had knowledge of my case was not even the same judge that heard my post-conviction habeas as it should have been. I've never been in front of Judge Ballou, she signed the denial of a modification of sentence that my public defender never argued and I was not present for, that

is the only time I saw her name on my paperwork. And my public defender never talked to me about that motion. I wrote it up and never had a chance to defend it. My public defender Alexander Henry was inefficient from trial/arraignment and did nothing that I asked him, short of requesting a better plea deal and asking for a restitution hearing when I explained to him how they messed up on fiscal calculations. He told me he knew nothing of AB 236 at the time of my court proceedings. I believe it is manifest injustice to know exactly what I am trying to say but having none to say it how it should be said. I've been learning everyday and pray this court intervenes to apply proper rule and statute to my proceeding. As most of my reason for the original court being wrong was in my statement of facts I also refer you to that.
