An Employee of the Law Offices of Kermitt L. Water

10:11:57 1 were either false or in bad faith or just not strong. 2 So this -- this case went up to the United States Supreme Court. And the Court, in a unanimous 3 decision with no footnotes it read like a manifesto --10:12:17 said: Wait a minute. We made a big mistake in Agins 5 in saying that a taking could be a regulation that does 6 not substantially advance legitimate state interests. That's a means/ends test. That has nothing to do with 8 takings. 9 Now, your Honor, that's exactly what the --10:12:34 10 11 this -- these interrogatories are going to. This --12 it's really a substantially advance test that the Court said has no place in takings. 14 So here's what the Court said: 10:12:53 15 First, it said -- and -- and we're now in 2005. The Court has come full circle from Pennsylvania 16 17 Coal in 1922. So it was 83 years later after a lot of litigation in the Supreme Court and the lower courts, 18 19 the Court came full circle and simplified and narrowed the test for a taking and clarified that it has only to 10:13:19 20 do with economic impact and nothing to do with whether 21 22 the decision is a good or a bad decision. 23 So the Court said in Lingle: "Although our regulatory takings jurisprudence 24 10:13:37 25 cannot be characterized as unified, these three

```
inquiries (Loretto, Lucas, and Penn Central) " -- so
10:13:40
         1
         2
           it's saying that Loretto, the physical taking; Lucas,
            an excessive regulation of use that wipes out the
         3
            property, or Penn Central, the economic impact
            regulation of use doesn't have to be a wipeout.
10:13:57
         5
         6
                     It says:
         7
                     "These three inquiries share a common
            touchstone. Each claims to identify" -- "each aims to
         8
            identify regulatory actions that are functionally
         9
10:14:11 10
            equivalent to the classic taking in which government
        11
            directly appropriates private property or ousts the
        12
            owner from his domain. Accordingly, each of these
            tests focuses directly upon the severity of the burden
        13
            that government imposed upon private rights" -- "upon
        14
           private property rights."
10:14:27 15
        16
                     So what it's saying is whether you've got a
        17
            categorical claim, a wipeout, or a Penn Central which
            is something less, that it's got to be close to a
        18
        19
            wipeout; otherwise, it's not the equivalent of eminent
10:14:43 20
            domain.
        21
                     And the Court is saying otherwise it loses
        22
            contact with the Constitution, which, remember, the
        23
            takings clause was supposed to be for direct
            condemnation, for eminent domain. Well, it can be due
        24
           to regulation if it's the same function equivalent.
10:14:56 25
```

```
10:15:01
         1
           It's the same.
                            That means that the economic impact has
            to be so severe that it's the same as an eminent
            domain.
         3
         4
                     So that means under any formulation of the
10:15:10
            test, the economic burden of the regulation has to be
         5
            equivalent to eminent domain to wipe out or close to a
         6
            wipeout.
                     So what's the Court doing here?
         8
                                                       It's
           balancing the -- the right of property owners to be
         9
10:15:25 10
           free from excessive government regulation, but it also
           has to be highly deferential to the police power to
        11
        12
           regulate land use of the public good.
        13
                     And so in Lingle, the Court came out on giving
            great deference to the police power and narrowing
10:15:46 15
           takings to the extreme case where there is a wipeout or
            a near wipeout of economic value.
        16
        17
                     And then the Nevada Supreme Court follows
        18
           Lingle in the Kelly case. The Court said that
        19
            regulation is a taking if it denies all economically
           beneficial or productive use of land.
10:16:02 20
        21
                     In the Boulder case, a taking -- it's -- it
        22
            was not a taking in that case because it -- the
        23
            regulation did not destroy all viable economic value of
            the property.
10:16:18 25
                     And in State, in 2015, the Nevada Supreme
```

10:16:21 1	Court said that a regulation to be a taking must
2	completely deprive an owner of all economically
3	beneficial use of the property, quoting Lingle.
4	So what's the Court saying here? If you
10:16:35	don't don't you can't allege a taking unless you
6	can show that the regulation has wiped out the economic
7	value of the property or very close to it, period.
8	That's the test for a taking in the federal
9	courts, US Supreme Court, and in Nevada.
10:16:55 10	And the reasons for the regulation don't make
11	any difference.
12	Now, here's here's what the Court did on
13	the substantially advance test. Justice Scalia in the
14	oral argument said, you know, we're going to have to
10:17:07 15	eat humble pie on this one. The substantially advance
16	test was a big mistake.
17	The Court held that where the action was
18	arbitrary, irrational, or made in good faith has no
19	proper place in our takings jurisprudence. Why?
10:17:20 20	Because it doesn't help identify those regulations
21	whose effects are functionally comparable to government
2 2	appropriation or invasion of private property.
23	Indeed, such an so they're saying that this
2 4	inquiry is tethered neither to the next to the text
10:17:37 25	in the takings clause nor to the basic justification

10:17:40 1 for allowing regulatory actions to be challenged under 2 the clause. The Court said that the notion that a 3 4 regulation nevertheless takes property for public use 10:17:54 merely by virtue of its ineffectiveness or a 5 foolishness is untenable. Instead of addressing a 6 challenge regulation's effect on private property, the substantially advances inquiry probes the regulation's 8 underlying validity. 9 10:18:10 **10** Again, your Honor, this is directly relevant 11 to these interrogatories, because that's what they're 12 doing. Such inquiry is logically prior to and distinct from the question whether a regulation effects a 13 taking, for the takings clause presupposes that the 14 10:18:25 15 government has acted pursuant to a valid public 16 purpose. 17 The clause expressly requires compensation where government takes property for public use. 18 does not bar government from interfering with property 19 rights but rather requires compensation in the event of 10:18:38 20 otherwise proper interference amounting to a taking. 21 22 Conversely, if a government action is found to be impermissible, for instance, because it violates due 23 process, that's the end of the inquiry. No amount of compensation can authorize such an action. 10:18:54 **25**

10:18:58 1	Finally, the substantially advances formula is
2	not only doctrinally untenable as a takings test; its
3	application as such would also present serious
4	practical difficulties.
10:19:11 5	This is, again, directly relevant to these
6	interrogatories, your Honor.
7	The Court went on to say the Agins formula
8	that is the substantially advance test can be read
9	to demand heightened intense review of virtually any
10:19:23 10	regulation of private property. If so interpreted, it
11	would require courts to scrutinize the efficacy of a
12	vast array of state and federal regulations, a task for
13	which courts are not well-suited.
14	Moreover, it would empower and might often
10:19:39 15	require courts to substitute their predicted judgments
16	for those of elected legislators and expert agencies.
17	So, in sum, the reasons for the government
18	action have nothing to do with takings. Takings is
19	only concerned with the economic impact.
10:19:54 20	Whether a regulation is fair, whether it's
21	wise, completely irrelevant. If it's unfair or if the
22	claim is it's unfair or arbitrary and capricious or it
23	doesn't have good reasons, that's a due process claim,
24	not a takings claim.
10:20:14 25	So let's look at the the developer's claims

10:20:19	1	here. They have a categorical in Penn Central. They
	2	claim that the City's denial of their applications to
	3	develop the 35-acre property, which was done by a
	4	legislative body, the city council at a public hearing,
10:20:31	5	they claim that that that is a wipeout taking, a
	6	categorical taking, or a Penn Central claim, which has
	7	got to be close to a wipeout.
	8	So you look at the economic impact of that
	9	decision. What bearing could former council members'
10:20:49	10	statements a year after that decision was made on the
	11	35 acre applications, what power what opinions of
	12	Council Member Seroka, what mental impressions, who he
	13	relied on for an opinion and why, his reasons for an
	14	opinion, what possible relevance would that have to the
10:21:11	15	inquiry before this Court, which is what is the
	16	economic impact of a decision of the city council made
	17	a year in June 2017 a year before Council Member
	18	Seroka made those statements?
	19	Not only that, Council Member Seroka was not
10:21:30	20	even on the city council when the city council
	21	disapproved the 35-acre applications.
	22	Again, what relevance could his state of mind
	23	or his mental impressions or his reasons for holding an
	24	opinion have what bearing could it have on that?
10:21:50	25	Now, yes, Council Member Seroka was on the

```
10:21:52
         1
           council when the council voted to deny a master
         2
           development agreement that the developer presented.
           But this Court has said itself statements of individual
         3
            council members are not relevant, and this wasn't even
10:22:07
            a statement at the hearing on the master development
         5
         6
            agreement.
         7
                     Council Member Seroka's statements, his
            opinions are not the law. They -- his opinions alone
         8
            have no economic impact on this decision.
10:22:25 10
                     The decision is a matter of public record.
           The only thing the Court looks at in this case is that
        11
        12
            decision of the city council on the 35 acre
            applications and the master development agreement and
        13
            what the economic impact was on the property. That's
        14
           why the Court properly granted the City's motion to
10:22:43 15
            compel information about the economic impact of that
        16
        17
            regulation on the property.
                     Council Member Seroka's opinions are
        18
        19
            completely irrelevant.
10:22:57 20
                     In denying the potential for judicial review
        21
            in this case, this Court said, and I'm starting in
        22
            paragraph 33 of its --
        23
                     THE COURT: You understand that's a different
            standard; right?
        24
03:07:54 25
                          (Multiple speaker cross-talk)
```

```
10:23:08
         1
                     MR. SCHWARTZ: -- provisions of law --
         2
                     THE COURT: That's a different standard. I
            mean, that's a --
         3
         4
                     MR. SCHWARTZ: -- from November 26.
10:23:13
                     THE COURT: I don't want to go down that. I
         5
            don't want to open that up.
         6
         7
                     But go ahead, sir.
                     MR. SCHWARTZ: Well, you said in that
         8
            decision, your Honor, that the action this Court's
         9
           tasked to review is the decision of the governing body,
10:23:22 10
           not statements made by individual city council members
        11
        12
           leading up to that decision. The statements of
            individual council members are not indicative of any
            arbitrary or capricious decision making.
                     The action that the Court is tasked with
10:23:37 15
           reviewing is the decision of the governing body, not
        16
        17
            statements made by individual council members leading
        18
            up to the decision.
        19
                     The council -- the council's action occurred
10:23:49 20
           with a vote, not the prior statements made by
           individual city council members.
        21
        22
                     The Court finds -- the Court -- and I'm
            paraphrasing -- rejects the developer's contention that
        23
            the statements of individual council members require
           the Court to overturn the council's decision.
10:24:02 25
```

10:24:04 1 And, yes, this was a petition for judicial 2 review. But the principle is the same. If -- if the -- the only action of the City that's relevant here 3 is an action of the city council as a whole. 10:24:23 That principle applies whether it is -- the 5 challenge is to a petition for judicial review or in 6 takings, because what the Court focuses on is what is the economic impact of a law, a regulation. 8 9 An individual council member's statements, 10:24:38 **10** opinions, actions has nothing to do with the Court's 11 inquiry. 12 Now, the developer says, Well, we need to know whether Council Member Seroka was telling the truth 13 when he made a statement at some meeting. 10:24:54 15 No, we don't. What is -- what is -- what on earth does 16 whether his statement, well, I think this -- I think 17 that the law should be this or I think this happened, 18 what possible relevance could Judge -- Council Member 19 Seroka's, the truth or falsity of the reasons for his 10:25:11 20 opinion have to do with this case? 21 22 Now, nor are the statements that that 23 developer seeks to probe and the mental impressions relevant at all to the physical takings claim. 24 only thing relevant there is did the City pass a law 10:25:33 **25**

```
10:25:37
        1
           that required the developer to submit to the occupation
            of the property by the public. Did it? Did the law
           say that or not?
         3
         4
                     The developer relies on this bill, 2018-24,
            passed in November of 2018. They claim that it -- that
10:25:51
         5
            the -- that the law required the developer to allow the
         6
            public on its property.
                     Well, that's a decision for the Court as to
         8
            what that law means. And just -- and Council Member
         9
10:26:10 10
           Seroka's statements either in the city council
            proceeding on that law or outside have no bearing on
        11
        12
            what that law means and what its application is.
            That's a decision of the Court.
        14
                     For the nonregulatory taking, same thing.
                     Justice -- Council Member Seroka's statements
10:26:31 15
            about his opinions about things have nothing to do
        16
        17
            whether the City's actions -- actions of the City, the
        18
            City, effected a nonregulatory taking.
        19
                     The developer has never said what exactly the
10:26:48 20
           City did to commit a nonregulatory taking.
        21
                     But I can't see how it could possibly be
        22
           relevant. A nonregulatory taking is either a physical
        23
            taking. It's kind of duplicative of the Loretto
            physical taking claim. Or there has to be some
10:27:02 25
           precondemnation conduct that renders the property
```

10:27:07 1 useless or valueless. 2 Nothing that Council Member Seroka could say or do as an individual could render the 35-acre 3 property useless or valueless. It's got to be a law, something with the force of law. And that has to be 10:27:22 5 the city council voting as a group. And the Court 6 found that to be the case in denying the petition for judicial review, and it applies here. 8 9 Now, here's what -- here's what the 10:27:34 **10** developer's counsel stated at the hearing on the motion 11 to -- in opposition to the motion to compel. 12 I'm quoting here: 13 "If indeed there were no facts to support the basis of Seroka's statement, then that would create a problem for the City." 10:27:51 **15** So counsel is saying if Seroka didn't have 16 17 good reasons for making that statement, that would be a problem for the City, I guess, in its takings claims. 18 19 Another quote: 10:28:04 20 "So if there was no basis for Council Member Seroka's statements, that causes a great 21 22 concern for the developer. If there was no basis for Seroka's statements, it would be more 23 evidence to show that the City engaged in a 24 10:28:16 25 conduct to deny the developer all use of their

10:28:19 1 property." 2 So, your Honor, that's the basis of our request for these interrogatories. 3 4 So according to the developer's theory here, 10:28:31 if Council Member Seroka's statements are without basis 5 and if he didn't have good reason for making a 6 statement at any -- then the city council's decision, the decision of the entire city council itself was 8 irrational and arbitrary and invalid. 9 Now, the Court already found that that 10:28:46 **10** decision was not arbitrary or irrational and invalid. 11 12 But that's exactly what the developer is trying to do here, your Honor. It's trying to retry 13 the petition for judicial review. This is the takings claim. It has nothing to 10:29:03 15 do with whether there is substantial evidence to 16 17 support the decision of the city council. getting beyond the fact that one individual member's 19 statements have nothing to do with the action of the city council, which is at issue here, but whether the 10:29:17 **20** 21 city council's decision was a good or bad decision has 22 already been decided in the petition for judicial review in paragraphs 4 and 10, 11, 19, 22. 23 The Court went on at great length about why 24 the -- the Court doesn't step into the shoes of the 10:29:39 **25**

10:29:47 1 decision-maker and dictate policy. 2 But these questions go directly to whether a policy was a good or a bad policy. And that's why this 3 is so -- such a big problem for the City and for a 10:30:03 democratic system of government. 5 Because the reasons a legislature makes a 6 decision aren't relevant. They can't be relevant. Otherwise, you could make policy through a lawsuit. 8 9 The Supreme Court in Lingle said the inquiry about whether there's a legitimate basis for a decision 10:30:23 **10** 11 is a due process inquiry. 12 And that's exactly what this inquiry is. developer is trying to convert this case into a due 13 process case. But they haven't pled a due process 14 10:30:38 15 claim, nor could they, because the Ninth Circuit has already ruled in a case where the developer sued 16 Council Member Seroka individually that the City and --17 did not violate the developer's due process rights in 18 19 this case. 10:30:56 20 So that -- that's a -- decision is an issue preclusion bar to a due process claim and, therefore, 21 22 it also should rule out any inquiry into the state of mind or the mental impressions of a legislator to the 23 24 city. 10:31:14 25 Okay. So, that's -- that's why this is not

10:31:18 1	relevant, your Honor. And I think the Court I think
2	relevance is really crucial to understand the second
3	reason why this motion to compel be denied, because,
4	you know, recognizing that this kind of thing this
10:31:39 5	kind of inquiry into a legislator's state of mind could
6	completely undermine our system of government. We have
7	separation of powers between in all levels of
8	government, including the State of Nevada. That's a
9	very strong policy for the state is separation of
10:31:56 10	powers between the judicial branch and the legislative
11	branch and the administrative executive branches. The
12	executive administrative branches and legislative
13	branches make social policy. They decide what are the
14	laws going to be to regulate the use of land to protect
10:32:13 15	community interests.
16	Now, the Courts do have a role and that's
17	under the Constitution.
18	But the United States Supreme Court and the
19	Nevada Supreme Court has said the only role for the
10:32:23 20	Court in land use policy is to award just compensation
21	where there's been a wipeout or a near wipeout. That's
22	the only role of the Court.
23	So we have cited we have cited 15 cases as
24	to why it is improper to inquire in discovery it is
10:32:46 25	improper to inquire into the state of mind of a

10:32:52 1 legislator or a decision-maker on a land use permit. 2 Same thing. There's the mental process and deliberative 3 4 process privileges. Take, for example, the City of Las Vegas vs. Foley. It's a Ninth Circuit case. 10:33:03 5 says that -- the Court said: 6 7 "The relevant governmental interest is determined by objective indicators as taken from the 8 face of the statute, the effect of the statute, 9 10:33:17 **10** comparison to prior law, facts surrounding enactment of 11 the statute, the stated purpose, and the record of 12 proceedings." 13 That's the only way that a Court -- that's the only evidence that a Court can look at in -- in 10:33:33 15 determining the meaning of the statute, the application of the statute, interpreting the statute. 16 17 Again, we've cited 15 cases in support of the absolute unqualified privilege of legislators against 18 19 discovery. You can't sit -- I mean, you can't sit down a member of the Nevada legislature. You challenge a 10:33:53 20 21 law passed by the legislature and sit a member of the 22 Nevada legislature down for a deposition and ask them 23 if they had good reasons to pass that law, what was their state of mind, who did they rely on. 10:34:08 25 THE COURT: But that's not -- but you know

```
10:34:08
         1
            what --
         2
                     MR. SCHWARTZ: What experts did they rely on.
                     THE COURT: Sir, that's not what they're
         3
         4
            asking for. And it's my recollection based upon the
            history of this case, this councilman wasn't part of
10:34:13
         5
            the legislative process; right?
         6
         7
                     MR. SCHWARTZ: Well, he was not part of the
            legislative process to deny the 35 acre applications.
         8
         9
                     THE COURT: Right.
                     MR. SCHWARTZ: He was for the -- for the
10:34:29 10
        11
           master development agreement.
        12
                     But if he wasn't -- if he wasn't part of
            the -- I mean, so what possible relevance could his
        13
            opinions have to the denial of the 35-acre
        14
10:34:46 15
           applications? That's what's at issue here.
                     THE COURT: Well, no, but, see --
        16
        17
                     MR. SCHWARTZ:
                                    Again --
        18
                     THE COURT: What you're doing is you're
            framing the issue. What you need to tell me is this:
        19
           How is this relevant to the affirmative defenses
10:34:53 20
        21
            alleged in this case? Because that's the position the
        22
           plaintiff is taking.
                     The plaintiff is saying, Look, Judge -- and
        23
            this is on page 10 of their opposition at line 14.
10:35:08 25
           starts:
```

10:35:09 1	"The landowner served Interrogatories 1, 2,
2	and 3 related to the City's defenses that there
3	was allegedly an open space dedication
4	requirement imposed on the 35-acre property
10:35:22 5	long ago and, as a result, the City's actions
6	cannot amount to a taking in this case."
7	MR. SCHWARTZ: Okay. The open space
8	dedication was a park and recreation open space
9	dedication in the general plan imposed by the city
10:35:41 10	council on the property in 1992.
11	And that that designation in the general
12	plan was readopted, affirmed multiple times both before
13	and after the developer acquired the property. And
14	that's our Exhibits I through Q.
10:36:06 15	Ordinances imposing a DROS general plan
16	designation on the property. That's legislation, your
17	Honor. Council Member Seroka had nothing to do with
18	that. And even if he did, his opinions are completely
19	irrelevant.
10:36:21 20	We've got an ordinance of the City that
21	imposes an open space, a PROS designation on the
22	property. And that these inquiries have absolutely
23	nothing to do with the validity or the application of
24	that ordinance. That's a job for the Courts. That's a
10:36:40 25	question of statutory interpretation, and these

```
10:36:43
         1
            facts --
         2
                          (Multiple speaker cross-talk)
                     THE COURT: But I haven't -- I haven't been
         3
         4
            asked to interpret any statutes yet. And my point is
           maybe you're right from a purpose of relevancy for the
10:36:50
         5
            purposes of trial in this case. But understand, this
         6
            is discovery. This is an inverse condemnation case.
            It's not a petition for judicial review. There's
         8
            clearly a difference in distinction there.
         9
                     If the City is taking some defenses -- and you
10:37:09 10
            can tell me if they're taking that position or not.
        11
        12
            But if they're taking a position as it relates to the
            open spaces, and it appears to me that based upon
        13
            public statements maybe this council member has some
           information on that, it might be discoverable.
10:37:27 15
            it's admissible or not, that's another analysis I have
        16
        17
            to conduct.
        18
                     But --
        19
                     MR. SCHWARTZ: What possible --
                     THE COURT: But is that part of the defense
10:37:34 20
            that the City's taking in this case?
        21
        22
                     MR. SCHWARTZ: Our defense is that there's a
            law on the books, and it's been on the books since
        23
            1992, that prevents residential use of the Badlands,
           period. So that if the City decides it's not going to
10:37:51 25
```

```
10:37:57
         1
           change the law, there's no taking. Yes, that's our
            position. Council Member Seroka's opinions about that
            law in 2018 have absolutely nothing to do with whether
         3
            that defense is valid or not.
10:38:13
                     In the petition for judicial review this Court
         5
            said this:
         6
         7
                     "The developer" --
                     THE COURT: I'm not --
         8
                          (Multiple speaker cross-talk)
         9
                     MR. SCHWARTZ: "... its interest in the
10:38:19 10
        11
            Badlands Golf Course" --
        12
                    THE COURT: Sir, I don't mind telling you
            that --
        13
        14
                          (Multiple speaker cross-talk)
10:38:22 15
                     MR. SCHWARTZ: -- "noting that the City's
            general plan --
        16
        17
                     THE COURT: Wait. Wait. Wait.
                     For the purpose of the petition for judicial
        18
        19
            review, that's not of ultimate concern with me right
            now in an inverse condemnation case. I know
10:38:30 20
        21
            specifically why I ruled the way I ruled. You don't
        22
            have to refresh my recollection on that. And I feel
        23
            fairly confident in my decision made as it pertained to
            the petition for judicial review. I don't mind saying
10:38:46 25
            that.
```

```
10:38:46
         1
                     I'm just looking at it from this perspective.
         2
           Because at the end of the day, I have to make a
            determination as to whether or not this -- for the
         3
            purposes of discovery this inquiry is relevant.
10:39:00
            Nothing more, nothing less; right?
         5
                     And we've had a very rigorous discussion in
         6
         7
            the past in this case, and I think we have a pretty
            good record on how I viewed the petition for judicial
         8
            review and whether or not that rises to a level of
         9
            issue preclusion or claims preclusion vis-à-vis the
10:39:18 10
        11
            inverse condemnation case. And I've ruled on that;
        12
            right?
        13
                     And so I'm trying to -- I want to understand
            what your position is. I don't need the history.
10:39:28 15
           understand the economic impact. I had to because, I
           mean, I don't mind saying this: The first time I've
        16
        17
            ever granted a request for Rule 56(d) relief ever in
            over 15 years in handling many, many, many, many
        18
            complex litigation cases before the motion --
        19
            opposition for the motion for summary judgment is filed
10:39:46 20
           is in this case.
        21
        22
                     Because I went back and I looked at it and I
        23
            thought about it. And to me, it just kind of made
            sense; right? It just did.
10:39:58 25
                     And just as important too, I try to be
```

```
efficient in my decision making.
10:40:00
         1
         2
                     Whether that bears fruit or not, I have no
         3
            clue.
         4
                     But I just felt the City had a right to
            conduct an inquiry on this issue; right? Over vigorous
10:40:08
         5
            objection.
         6
         7
                     And so on the flip side, here's the question:
           Does -- the plaintiff in this case, the landowner, has
         8
            a right to conduct an inquiry on this issue if it's a
           defense in this case as to not what the opinions are
10:40:25 10
        11
           but what facts this councilman was relying upon to give
        12
            that opinion. Maybe he has no facts at all. Maybe
            they didn't even come in; right? I'm not making that
        13
            decision as far as admissibility at this point. Maybe
        14
           there will be a motion in limine on that issue.
10:40:46 15
                     I mean, I don't know. But --
        16
        17
                     MR. SCHWARTZ: But, your Honor --
                     THE COURT: -- I'm going to give everyone an
        18
            opportunity to develop their claims for relief and
        19
            their defenses. I'm going to do that.
10:40:59 20
        21
                     MR. SCHWARTZ: The opinion has no relevance to
        22
            the case.
        23
                     THE COURT: Okay. I understand.
                     MR. SCHWARTZ: So the reasons for the opinion
        24
10:41:06 25
           can't have any relevance to the case.
```

```
10:41:08
         1
                     Your Honor, I do want to point out, in the
         2
            PJ -- in the decision denying the petition for judicial
            review, the Court found that the parks, recreation, and
         3
         4
            open space designation of the Badlands, which is a law,
            a law passed by the city council, the Court found that
10:41:25
         5
            that law was valid and applied.
         6
                     There can't be a valid PROS designation in the
         7
            law that -- that is valid and applicable for a PJR and
         8
            somehow that it's not a valid law or applicable for
         9
10:41:46 10
           purposes of taking it.
        11
                     Now, the remedies -- the -- what you
        12
           need to prove in a petition for judicial review is a --
        13
            you -- that there was substantial evidence -- or if
            you're the petitioner, there's a lack of substantial
        14
            evidence to support the decision. So not good reasons.
10:42:04 15
        16
                     In takings, you have to show a wipeout.
        17
                     The remedies are different.
                     THE COURT: Well --
        18
        19
                          (Multiple speaker cross-talk)
10:42:11 20
                     MR. SCHWARTZ: The form -- of the defect --
        21
                     THE COURT: I understand. But, sir, my point
        22
            is --
        23
                     MR. SCHWARTZ: But the law is the same.
                     THE COURT: But you're not listening to me.
        24
10:42:17 25 understand all that. I don't see any need to replow
```

```
10:42:19
        1
           this ground. I understand what substantial evidence
         2
           means. I'll tell you what it means: More than a
           scintilla of evidence, less than a preponderance of the
         3
            evidence. That's what it means. That's the definition
10:42:30
            of "substantial evidence." I get it. I understand all
         5
            the burdens.
         6
         7
                     And so my point is this: I want to come back
            to -- and if you say, Judge, the -- whatever he had to
         8
            say is not relevant to this inquiry. Okay. I get it.
10:42:49 10
                     MR. SCHWARTZ: Well, your Honor, just one
        11
           more --
        12
                     THE COURT: Okay.
                     MR. SCHWARTZ: -- comment on that.
        13
        14
                     The general plan designation of the property
           is a law.
10:42:59 15
                     And while there may be differences --
        16
        17
            procedural differences between the PJR and a takings
            claim, that law is the same for both.
        18
        19
                     And in the takings context, our defense to the
10:43:15 20
           takings is that property, when the developer bought the
           property -- I mean, if the judge -- you said this in
        21
        22
            the PJR. When the developer bought the property, the
            PR -- the PROS designation was the law. And it
        23
            applied. And you knew it. And that didn't allow
        24
10:43:32 25 housing on the property.
```

10:43:34 1	So for the City to say, no, we're not going to
2	change that and allow housing on the property,
3	that's there was substantial evidence to support
4	that decision.
10:43:44 5	For the same reasons, we're talking about the
6	same law. And that law doesn't disappear just because
7	it's a different claim. That law is the same.
8	When the developer bought the property, the
9	property was designated PROS, and the general plan
10:44:00 10	prohibits housing, so it can't be a taking.
11	If the government says, Oh, we're just going
12	to maintain the status quo, we're just going to leave
13	the property the way it was when you bought it, that
14	can't have any economic impact on the property. This
10:44:14 15	is the nub of the case. The same law.
16	And what Council Member Seroka has to say
17	about whether that PROS designation of law is a valid
18	law or applicable, his opinions, how could they
19	possibly be relevant to that? They can't.
10:44:37 20	We briefed this issue of privilege. The
21	privilege is unqualified and absolute. We cited 15
22	cases that you cannot you cannot take the deposition
23	of a legislator unless they have percipient facts that
24	are relevant. That's the only case.
10:44:54 25	THE COURT: But that's what they're trying to

```
10:44:55
         1
           inquire, as to whether or not it's --
         2
                     MR. SCHWARTZ:
                                   No.
                     THE COURT: Well, we'll listen to them, but
         3
         4
            that was my impression. They want to know what are the
            percipient facts that might be relevant to this case.
10:45:03
         5
         6
            I get that.
         7
                     MR. SCHWARTZ: Well, let me give you an
         8
            example, your Honor.
         9
                     A legislator is walking down the street and
           witnesses a car accident. The plaintiff or the parties
10:45:10 10
        11
           to that car accident can ask the legislator about what
        12
            the legislator saw.
        13
                     But you -- there is an absolute, total
            privilege against discovery from a legislator that goes
10:45:32 15
           to the reasons -- anything they did as a legislator
            with regard to the challenged matter.
        16
                     THE COURT: Yeah.
        17
        18
                     MR. SCHWARTZ: That's the question for the
        19
            Courts, to interpret --
10:45:43 20
                     THE COURT: I agree with that.
        21
                     MR. SCHWARTZ: -- the law.
        22
                     THE COURT: I don't know if that's the best
        23
            example. But in a tort case, what he did the day
           before, what bill he passed clearly is not germane to
10:45:52 25 whether or not he was following the rules of the road.
```

```
10:45:54 1 Here we have a slightly different scenario.
            claim for inverse condemnation.
                    MR. SCHWARTZ: Well --
         3
         4
                     THE COURT: Right?
10:45:59
                     MR. SCHWARTZ: -- except there -- we've cited
         5
           15 cases that say that you cannot do that. And in
         6
            their opposition to the motion, the developer didn't
           even address the argument, the privilege, your Honor.
         8
            They cited no authority, no argument, nothing.
           didn't even mention it because there is no -- there is
10:46:14 10
           no basis to oppose that. The privilege is absolute.
        11
        12
           It's total.
        13
                     Why is this important? Because any time
            someone wants to challenge the -- a law, this means
10:46:33 15
           they can -- they can sit down, the -- the elected
            representatives of the people, and ask them: Why did
        16
        17
            you vote for that law? What were your reasons?
            then show, well, they didn't have a good reason to vote
        18
        19
            for it; therefore, the Court should strike down the
10:46:47 20
           law.
        21
                     This -- this goes to the heart of the
        22
           separation of powers. It's -- it's absolutely crucial
        23
            to our form of government where we have a legislative
           branch of government, people elect -- it's a republican
10:47:03 25
           form of government. They elect people to a
```

```
10:47:06
                          They make laws.
        1
           legislature.
                                           The Courts don't make
         2
            the laws. They don't make the policies.
         3
                     THE COURT: But, sir --
         4
                          (Multiple speaker cross-talk)
10:47:11
                     MR. SCHWARTZ: -- they only interfere when it
         5
            implicates constitutional rights.
         6
                     THE COURT: Here's my -- I mean, I'm looking
         7
            here at the question -- I mean, the cases you cited.
         8
            For example, it's -- I mean, the inquiry as far as
           Mr. Seroka is concerned isn't going to go into as to
10:47:22 10
           why or was he involved in the adoption of a specific
        11
        12
            ordinance and why he adopted or voted for the
            ordinance. It's my understanding that is not what the
        13
            inquiry is going to be about.
                     MR. SCHWARTZ: Well, then that inquiry is
10:47:40 15
           totally irrelevant. The only thing that's relevant
        16
            here is what the city council did in passing a law.
        17
                                                                  So
           lit's even less relevant.
        19
                     I mean, what -- what is his -- what -- what he
           had for breakfast, what he thinks about this, what he
10:47:55 20
        21
           thinks about that, it has nothing to do with this case,
        22
            which is the city council took an action.
        23
            developer claims that it wiped out their value or near
            wiped out their value or economic use of the property.
10:48:14 25
                     Council Member Seroka's thoughts, opinions,
```

```
reasons, who he talked to, nothing whatever to do with
10:48:18
         1
         2
            that.
         3
                     And if you let them take this deposition, then
         4
            what's to stop anybody from deposing a legislator?
10:48:31
            What's the -- (indiscernible) of the fact -- to stop
         5
            them from deposing a judge, challenging a decision?
         6
         7
                     You know, the developer in this case
            challenged -- they sued Judge Crockett. What's to stop
         8
            them from sitting Judge Crockett down and asking him,
         9
           What were the reasons for your decisions, to show that
10:48:48 10
        11
           he had bad reasons. What's to stop someone from
        12
           sitting down a member of Congress or the president who
            has to sign legislation and take their deposition and
            probe the reasons for their mental processes or the
10:49:02 15
           deliberations they use or whom they relied on or what
            they consulted.
        16
        17
                     Again, this goes to the very core of our
        18
            system of government. And that's why this is so
        19
            important, your Honor. This is -- this is absolutely
            different --
10:49:15 20
        21
                     THE COURT: But, I mean --
        22
                     MR. SCHWARTZ: -- than the discovery the City
        23
            sought.
                     THE COURT: But the inquiry doesn't ask what
        24
10:49:21 25
           you're saying it asks for; right?
```

```
10:49:23
         1
                     For example, I look at Interrogatory No. 1.
         2
            And I'm assuming that this is correct. But the inquiry
            is the landowner have asked for names, addresses,
         3
            telephone numbers, and a summary of information that
            was allegedly provided by experts to Mr. Seroka.
10:49:36
         5
                     They're not asking him, Well, why did you vote
         6
         7
            this way, or why did you do this, or why did you do
                   They're not asking him that question.
         8
            that?
         9
                     MR. SCHWARTZ: Oh, no.
                                             The next
           |interrogatories say -- say, you know, What's the basis
10:49:49 10
        11
            of your opinion that the City -- the City has a right
        12
            to require some developer to set aside 20 percent of
            their property? That's what these questions ask for.
        14
                     Look, counsel said at the hearing, at the last
           hearing, if there's no basis for Council Member
10:50:08 15
            Seroka's statements, it would be more evidence to show
        16
            that the City -- they've switched from Council Member
        17
            Seroka to the City -- engaged in a conduct to deny the
        18
        19
            developer all use of the property.
10:50:28 20
                     First of all, what the City did, it passed a
                  It took -- it issued a decision on a development
        21
        22
            application.
                          It's in the public record.
                                                      What the
            City -- there's no dispute about what the City did.
        23
                     Whether that conduct denied all use of the
        24
           property, you know, that -- that may be subject to
10:50:43 25
```

```
10:50:48
           evidence. But Council Member Seroka's opinions about
         1
         2
            some -- about some -- what he thinks the City did or
            what the law is and who he relied on has absolutely
         3
            nothing to do with that.
10:51:03
                     You know, it said -- it -- Counsel said, if
         5
           indeed there were no facts to support the basis of
         6
            Council Member Seroka's statement, than that would
            create a problem for the City.
         8
         9
                     What problem for the City? The issue is city
           council takes an action. What's the economic impact on
10:51:19 10
        11
           the property?
        12
                     It has nothing to do with it, your Honor.
           mean, the City's discovery -- if you compare the City's
        13
            discovery, we want to know how much the developer paid
        14
           for the property because we want to show that the
10:51:38 15
            developer, in obtaining the City's approval for the
        16
        17
            17-acre project for the 435 units has already
        18
           multiplied its investment by six times.
        19
                     So that goes to the economic impact of the
10:51:53 20
           regulation on the property. That's what a takings
           inquiry is about.
        21
        22
                     We also wanted discovery on the physical
            taking claim. They -- the developer submitted a
        23
            declaration, said the public's walking on my property,
           and it's the City -- it's the City's fault or the City
10:52:05 25
```

```
10:52:08
         1
           told them they could do that. Well, that goes to the
         2
            physical taking claim.
         3
                     This evidence has absolutely nothing to do
         4
            with anything, and it's very dangerous. Very
10:52:19
         5
            dangerous.
                        Thank you.
                     THE COURT: All right. Thank you, sir.
         6
         7
                     THE MARSHAL: Your Honor, can we take a break?
                     THE COURT: Do you need a break, Peggy?
         8
         9
                     THE COURT REPORTER: Yeah.
10:52:29 10
                     THE COURT: Okay. What we're going to do,
           we're going to take -- we only have one matter after
        11
        12
            this; correct?
        13
                     THE COURT CLERK:
                                       This is the final morning.
        14
                     THE COURT: Oh, okay. We're going to take a
10:52:46 15
           quick 15. This is the last matter on calendar for
        16
            today, for this morning.
        17
                     THE COURT CLERK:
                                       This morning for sure.
                     THE COURT: Okay. We'll take 15. We'll give
        18
            our court reporter a break. And then we'll hear from
        19
           the plaintiff, 180, 180 Land.
10:52:55 20
        21
                                     -000-
                                    (Recess)
        22
                                     -000-
        23
                     THE COURT: Okay. We're going to go back live
            and continue on.
11:11:39 25
                     And just want to make sure everyone is
```

```
11:11:43
         1
            connected.
         2
                     Does it appear to be, CJ?
                     THE COURT CLERK: Um-hum. Three have video,
         3
         4
            and the other three are by phone.
                     THE COURT: I thought Mr. Leavitt was on, was
11:11:57
         5
            he?
         6
         7
                     THE COURT CLERK: He is. I see his video.
                     MR. LEAVITT: I'm here, your Honor.
         8
         9
                     THE COURT: All right. I guess, sir, we're
11:12:03 10
            going to pass the floor to you, sir.
        11
                     MR. LEAVITT: I appreciate it, your Honor.
        12
                     Your Honor, I'll be pointed in my response as
            this is a discovery issue. Just very quickly, as you
        13
            recall, your Honor, there is a history here where we've
           already heard this exact same issue and the exact same
11:12:16 15
            argument that Mr. Schwartz just presented to you.
        16
            There is no new facts. And there's no new law that
        17
           Mr. Schwartz has brought to you to have you change your
        19
           mind.
                     And as you recall, approximately ten days ago
11:12:26 20
           we were before you on the City's 56(d) motion. And as
        21
        22
            you mentioned, that was an unusual request. It was a
            request to not even allow us to present our summary
        23
            judgment so that the City could engage in discovery.
11:12:41 25 | Well, that goes both ways.
```

11:12:43 1	Now that the City has won that after the
2	City won that decision, now the City is saying it
3	doesn't want to engage in discovery, and it doesn't
4	want to respond to certain interrogatories.
11:12:52 5	Your Honor, this is a two-way street. And
6	when we lost that 56(d) motion, we lived with it.
7	Judge, we didn't bring a motion to reconsider. We're
8	going to go through discovery. We're going to comply
9	with the Court's order, and we'll refile that motion
11:13:04 10	for summary judgment at an appropriate time after
11	discovery is done.
12	But if the City is going to be able to engage
13	in discovery, so should the landowner. We should be
14	given that opportunity. And you heard what the City
11:13:15 15	said at the very beginning of their argument. I wrote
16	it down. They said the City is not concerned about
17	responding to the interrogatories.
18	The City didn't say it's overburdensome. The
19	City didn't say it would take too much time. The City
11:13:29 20	didn't say, Hey, this is going to be a big problem for
21	us, Judge.
22	The City said, We're not concerned about
23	responding to this interrogatory. And it won't.
24	It's very telling, your Honor, that the City
11:13:41 25	asked for the $56(d)$ motion. The City gets the time to

```
11:13:44
        1
           do discovery. The City is not concerned about
            responding to this interrogatory, but the City simply
            won't do it.
         3
         4
                     That tells us, your Honor, that there's
            something there that the City does not want to disclose
11:13:51
         5
            which is adverse to the City's case.
         6
         7
                     Now, moving to Councilman Seroka, your Honor,
           he stated -- it's in writing. We have the recording.
         8
            He stated that he has facts to show that there's an
         9
11:14:09 10
           open space or a PROS designation on the property. He
        11
           then told the surrounding homeowners that he has these
        12
           facts. And he told the surrounding homeowners because
            of the facts that he has, the surrounding homeowners
            can go onto the landowner's property and use it for
        14
           open space and recreation.
11:14:24 15
                     We are certainly entitled to those facts
        16
        17
           because that is -- that goes to the very core of two
            things, which I'll address, your Honor. It not only
            goes to the core of the taking, but it also goes to the
        19
           core of the City's defense that there's this PROS.
11:14:37 20
           We're certainly entitled to get the facts that
        21
        22
           Mr. Seroka said that he knew about. And Mr. Seroka
            said he received facts from an expert. We're entitled
        23
            to know the facts of who those experts are. We're
11:14:50 25
           entitled to know the facts of what those experts told
```

11:14:54	him. He said he has facts that there's a 20 percent
2	requirement on the property. We're entitled to know
3	what those facts are. We're entitled to know where
4	those facts come from.
11:15:03	Now, counsel said that he cited to 15 cases
6	where there's a privilege that we're not entitled to
7	know these facts.
8	Well, Judge, we don't need to cite to 15
9	cases. We only need to cite to one case. It's a
11:15:18 1 0	Nevada Supreme Court case, and we cite it in our brief.
11	It's the DR Partners vs. Board of County Commissioners
12	case, a 2000 case. This is what the Court held in
13	regards to Mr. Schwartz' argument.
14	He said:
11:15:30 1	"The privilege is not, at least in general,
16	designed to protect purely factual matters."
17	And that's what we're asking for here. We're
1.8	not asking to go into what Mr. Seroka knew or didn't
19	know or what he was what was in his mind at the time
11:15:46 2 0	he made these statements. We're asking to find out the
2 1	facts that he said that he had at that time. That's
22	all we're asking for at this time.
23	And counsel keeps saying that we're not
2 4	entitled to depose him. At this point in time, we're
11:15:59 2	not asking for a deposition. All we're asking for are

11:16:03 1 the facts that he said he has. 2 We saw the words come out of his mouth --3 they're in a transcript -- that he has these facts. Wе want to see those facts. 11:16:13 Judge, let me tell you how these facts are 5 They're relevant in two ways, despite what 6 relevant. counsel tells you. We have asserted a per se regulatory taking 8 That per se regulatory taking claim clearly 9 claim. 11:16:27 **10** states that if the government engages in an action that authorizes the public to use private property or 11 12 preserves private property for use by the public, then that's a taking. 13 14 Mr. Seroka told the surrounding homeowners 11:16:41 **15** that the landowner's 250-acre property was their recreation property. Mr. Seroka told the surrounding 16 17 landowners that they could enter onto the landowner's 18 property and use it. And we have the affidavit of Don 19 Richards where he has submitted hundreds of photos and spoken to numerous of these individuals, showing 11:16:57 **20** 21 numerous of these individuals entering onto the 22 property, that asked them, Why are you on this 23 property? And they said, Because the City authorized us 24 11:17:07 **25** to be on your property.

11:17:08 1	Your Honor, those are facts that go directly
2	to the taking claim that the landowners have made in
3	this case. They're facts that go directly to show that
4	the City authorized the public to enter onto the
11:17:23 5	landowner's property.
6	Now, I can see Mr. Schwartz's writing. I know
7	exactly what Mr. Schwartz is going to say here. He's
8	going to say, Judge, that's not that's not the
9	standard. Judge, you have to show a physical
11:17:35 10	appropriation or a total wipeout.
11	Okay. That's simply not true, and you've
12	already decided that issue.
13	And in your order, Judge, that was filed on
14	May 15th, 2019, you listed the landowner's taking
11:17:47 15	actions or taking causes of action. You listed all
16	five of them. And you listed the standard. And I'm
17	not going to rehash it here other than to read what one
18	of those standards is.
19	"To constitute a taking under the Fifth
11:17:59 20	Amendment, it's not necessary that the property
21	be absolutely taken in the narrow sense of that
22	word. It is sufficient if the action by the
23	government involves a direct interference with
24	or disturbance of property rights."
11:18:13 25	That's the law of this case.

11:18:14 1	And the law of this case is based upon the
2	State versus Eighth Judicial District Court case that
3	you cited in your order, and it's a correct statement
4	of the law, that the government engages in actions that
11:18:25 5	directly interfere with or disturb property rights,
6	that is a taking.
7	That's a direct quote from case law. That's a
8	direct quote from this order. And the Court does not
9	need to find the total wipeout or a physical
11:18:37 10	appropriation under Nevada law.
11	And these actions that Mr. Seroka engaged in
12	while he was a councilman telling the public that the
13	landowner's property is their property is one of the
14	aggregate of government actions that results in a
11:18:52 15	taking.
16	Now, what counsel is going to also say is
17	statements by councilpersons are irrelevant. I
18	probably heard that ten times during the argument.
19	That is patently untrue. In the Sisolak case,
11:19:06 20	your Honor, the Nevada Supreme Court has a long list of
21	the actions, and it goes through the facts and detail
22	in the Sisolak case.
23	Here's what the Court found was one of the
24	relevant facts to find a taking in the Sisolak case:
11:19:20 25	Sisolak spoke with Bill Keller, a principal

11:19:23 1 planner with the Department of Aviation. 2 So, Judge, we have, in the Sisolak case, Bill Keller, he's a principal planner. He's not the highest 3 level person. He's not on the Board of County 11:19:35 Commissioners. He's not a councilperson. He's simply 5 a planner. I'm not degrading that. I'm just telling 6 you he's not one of the councilpersons. Keller told Mr. Sisolak not to bother asking 8 for a variance to build above more than 75 feet because 9 the county wouldn't approve it. Keller stated that 11:19:48 **10** height estimates would having -- would have -- given 11 12 Sisolak would have been in response to hypothetical situations, not specific to Sisolak's property. 13 14 So the Court in the -- in the Sisolak case relied upon statements by Bill Keller, a principal 11:20:01 **15** planner, to assist it to find a taking in that case. 16 17 So for counsel to tell you that statements by even higher level people at the City of Las Vegas, 18 councilpersons, are entirely irrelevant is patently 19 contrary to Nevada law, because Nevada law -- we don't 11:20:19 **20** 21 even have to say what Nevada law says. We see in the 22 decision that the Nevada Supreme Court relied upon the statements by principal planner Mr. Keller. 23 Okay. So the first -- the first purpose for 24 obtaining this information is to help establish the 11:20:36 **25**

24

11:21:45 **25**

11:20:39 1 taking itself. 2 These facts go to the very core of one of the landowner's taking claims. And, Judge, you also hit it 3 right on the head. 11:20:48 You said, Well, wait a minute, Mr. Schwartz. 5 You're claiming as a defense this property has always 6 been an open space. You're claiming as a defense that this property has always been PROS. These facts that 8 we want to discover, that we're asking for in these 9 interrogatories, go to those very issues. 11:21:02 **10** I cannot think of anything more relevant than 11 12 the fact of who the experts were that Mr. Seroka spoke to that told him this PROS and open space around the 13 property, the fact that the experts -- who those experts are, their names, addresses, and telephone 11:21:18 **15** numbers, the facts that Mr. Seroka said that 20 percent 16 17 of the property must be reserved for open space, we're entitled to know the factual basis for that. Was it --18 was it the Nevada Revised Statute? Was it City code? 19 |Was it an ordinance? Was it a regulation? Who 11:21:32 20 provided him that 20 percent requirement? And all of 21 22 the developments in the City of Las Vegas that have 23 that 20 percent requirement.

Peggy Isom, CCR 541, RMR (702)671-4402 - DEPT16REPORTER@GMAIL.COM Pursuant to NRS 239.053, illegal to copy without payment.

problem responding to this. This is an easy thing to

Again, Mr. Schwartz said that the City has no

11:21:48 1 respond to, that -- that -- the words that he used was 2 that the City is not concerned about responding to the interrogatories. So there's no prejudice to the City. 3 There's no overburdensome. The City can provide this 11:22:00 data, which is clearly -- clearly discoverable, your 5 Honor, but clearly goes to these two incredibly 6 important issues in this case. Now, one other issue that I want to address is 8 that Mr. Schwartz repeatedly is citing to the petition 9 for judicial review order. And, Judge, I know you've 11:22:16 **10** 11 heard this. You have three orders, Judge. 12 three -- not one, not two, but three orders where you lay out in detail why the petition for judicial review 13 orders are entirely irrelevant in this inverse 14 condemnation case. 11:22:31 **15** You said it several times. We're going to ask 16 17 that it be put in this order also. Because this will 18 now be the fourth time that the City is trying to argue the petition for judicial review order in this case. 19 You said it's not relevant. You said it three times. 11:22:43 20 This will be the fourth time. 21 22 Let me -- let me -- let me explain a little bit more just very quickly, again, why that petition 23 for judicial review order is specifically not relevant 11:22:57 **25** to the PROS issue, which Mr. Schwartz either forgot

11:23:00 1	about or didn't mention, is we appeared before you at
2	the end of 2020. In November 2020, there's an order
3	that's been entered in this case. And that order is on
4	the property rights issue. You'll recall, your Honor,
11:23:12 5	we had an argument over what the property rights are
6	that the landowner had prior to the government
7	interference. And you entered an order, and you held
8	that the property rights are that the property that
9	zoning must govern the determination of the property
11:23:24 10	rights. The zoning is R-PD7. And under R-PD7, the
11	landowners have the legally permissible right to use
12	the property for residential purposes.
13	And, therefore, the 35-acre property has the
14	right or is permitted by right to be used for
11:23:41 15	residential purposes. That's the order you entered.
16	Why did the Court not hang its hat on the PROS
17	that Mr. Schwartz is saying you already decided?
18	Here's why, Judge. Is because subsequent to or as
19	part of your PJR order, you relied upon the Crockett
11:23:56 20	order. You remember the Crockett order has been
21	adopted, and the Crockett order adopted the PROS
22	argument. We then appealed the Crockett order to the
23	Nevada Supreme Court, and the Nevada Supreme Court
24	reversed the Crockett order. It reversed the PROS
11:24:12 25	issue in the Crockett order.

11:24:13 1	Now, there's other bases that you have in your
2	PJR order to uphold it. For example, you said that
3	there were three bases to uphold your PJR order. One
4	of them was that the City relied upon the surrounding
11:24:27 5	landowners complaining that they they didn't want
6	this property developed. And you held that that was
7	substantial evidence for the City to deny the
8	application on the PJR side. Okay?
9	And you also said the PROS. But, again, that
11:24:40 10	PROS Crockett order has been reversed by the Nevada
11	Supreme Court. The Nevada Supreme Court reversed the
12	Crockett order in the 17-acre case.
13	And, your Honor, if I may say, that PJR
14	finding where you found that the City of Las Vegas
11:24:57 15	denied the applications based upon what the surrounding
16	property owners told them more fully supports the
17	taking action here because, again, one of the standards
18	to find a taking is if the government preserves
19	property for use by the surrounding property owners.
11:25:11 20	Your Honor, I could go on. I could go on and
21	I could respond to the the discussion that
22	Mr. Schwartz just presented to you about takings
23	jurisprudence. We don't need to do that right now,
24	Judge. All we need to know is that this these
11:25:29 25	facts, this evidence that we want to discover, is

11:25:32 1	relevant to help establish the per se regulatory taking
2	claim, and it's relevant to rebut the City's continual
3	representation that there's some open space or PROS on
4	this property.
11:25:43 5	Now, Mr. Schwartz said, Hey, Judge, we don't
6	need to know this because there is an ordinance that
7	found that there is a PROS. They made that argument to
8	you in the end of 2020 in the property interest motion,
9	and it was rejected. The reason that argument was
11:25:57 10	rejected is because there is no ordinance that adopts a
11	PROS on the landowner's property.
12	Which brings into question: Why did
13	Mr. Seroka say this? Why did he say, Hey, I have all
14	these facts, I have all these experts, I have this
11:26:12 15	20 percent requirement. We should be able to obtain
16	those facts to help more fully rebut the City's
17	argument that there is this PROS and to more fully
18	establish the taking actions by the City of Las Vegas
19	in this matter.
11:26:25 20	Your Honor, if there's anything else you want
21	me to respond to, I can respond to it.
22	I will conclude by saying we've been down this
23	road. We've discussed it with the City. You entered
24	your order. The City didn't bring to you one fact or
11:26:41 25	one law different than it argued to you before. The

11:26:43	1	Courts have held that it's only under very rare
	2	circumstances that a Court should reconsider its
	3	holding, especially under this circumstance where the
	4	City is asserting a continual defense and these facts
11:26:56	5	go directly to that defense.
	6	And, your Honor, we're not talking here
	7	about Mr. Schwartz has talked about how critically
	8	important this is. Let's talk about how critically
	9	important this is to the landowner. In the Knick
11:27:08	10	decision, a 2018 decision out of the United States
	11	Supreme Court, the United States Supreme Court said
	12	that these Fifth Amendment rights that these landowners
	13	have in this case should be held in the highest regard
	14	on the same level as other rights in the Bill of
11:27:23	15	Rights, the First Amendment, the Fourth Amendment, the
	16	Sixth Amendment. Those are pretty important rights.
	17	The Second Amendment. These are pretty important
	18	rights that we have in our Bill of Rights. And the
	19	Nevada United States Supreme Court said these Fifth
11:27:35	20	Amendment rights must be held at that same level.
	21	And what we have here today is we have a
	22	governmental entity wanting to make a defense to a
	23	taking and not allow discovery on that defense in a
	24	constitutional proceeding where constitutional rights
11:27:54	25	are at issue.

11:27:55 1	Your Honor, we have important rights here
2	also. We have rights here to the payment of just
3	compensation when our property is being taken by the
4	government that is held to the highest regard. The
11:28:06 5	government hasn't cited a a a policy which is
6	higher than what's found in the Bill of Rights.
7	So, your Honor, we think it's critical in
8	order to protect that right not I think. I know
9	it's critical in order to protect that right we be
11:28:21 10	given a full opportunity to engage in discovery the
11	same as the Court has given to the City by granting
12	that 56(d) motion.
13	And I can answer any questions, if you'd like,
14	your Honor.
11:28:32 15	THE COURT: None at this time, sir.
16	MR. LEAVITT: All right. Thank you.
17	THE COURT: We'll hear from the City in reply.
18	THE COURT CLERK: I can see Mr. Schwartz.
19	THE COURT: Mr. Schwartz, are you on, sir?
11:29:03 20	You might have to unmute.
21	MR. SCHWARTZ: I am, your Honor.
22	THE COURT: Okay.
23	MR. SCHWARTZ: Your Honor, counsel didn't cite
24	this DR Partners case in their opposition to the
11:29:16 25	motion. But I did look at the case while counsel was

arguing, and it doesn't apply, your Honor. 11:29:21 1 2 That was a case where litigants sought to show that the government -- government employees were 3 misusing cell phones, were misusing public funds on cell phone use. And they requested documents from the 11:29:37 5 city manager, not a legislator, but it's the city 6 manager. And the Court found that the city manager and 8 the staff's discussions and use of those cell phones 9 was relevant -- of course was relevant in that case. 11:29:55 **10** 11 It has nothing to do with this case where 12 there is an absolute rule that a legislator cannot be deposed or required to answer interrogatories or 13 produce documents. It's an unqualified, absolute rule. We cited 15 cases for that rule. If the Court 11:30:16 15 were to allow these depositions or these 16 17 interrogatories -- require that these interrogatories 18 be answered, it would be completely unprecedented and 19 against the law. 11:30:31 20 Now, I think this issue of the PROS designation goes to the heart of this case. Counsel 21 said the PROS designation does not exist. He said that 22 there is no such ordinance. 23 I refer the Court to the City's Exhibits I 24 through Q which are ordinances imposing the PROS 11:30:53 **25**

```
11:31:00 1 designation. And that goes to the heart of this case,
           your Honor.
                    The -- whether the PROS designation applies to
         3
         4
            the property, it clearly does. It's right there in the
            ordinance. Nothing that Council Member Seroka or
11:31:16 5
            anyone -- anyone can effect whether that designation
         6
         7
            exists, whether it applies to the property. Again,
            this Court has already determined that that PROS
            designation is valid, that the developer knew about it
            at the time they bought the property, and that the City
11:31:38 10
        11
           had no obligation to lift that designation.
        12
                    That -- those facts, those issues are not only
            irrelevant to the PJR claim, but they also go to the
        13
        14
            inverse claim. And I spent a large part of this
11:31:57 15 hearing explaining why, yeah, the law of inverse
            condemnation is no different than the law of PJR.
        16
        17
            There is no -- there is no case law that says the law
            is different when they're both based on the same
        18
        19
            ordinance.
11:32:14 20
                    THE COURT: Wait. Wait. Wait.
        21
                    MR. SCHWARTZ: The same law.
        22
                    THE COURT: The law as it relates to petitions
        23
            for judicial review are much different than a civil
            litigation seeking compensation for inverse
        24
11:32:23 25 condemnation, sir.
```

```
11:32:26
         1
                     MR. SCHWARTZ: Well --
         2
                     THE COURT: The standards are different. I
         3
            mean, for example, they got to meet their burden by a
         4
            preponderance of the evidence. It's substantial -- I
            mean, it's a totally different -- it's an
11:32:33
         5
            administrative process versus a full-blown jury trial
         6
         7
            in this case. It's different completely.
                     MR. SCHWARTZ: But the underlying issue, your
         8
            Honor -- the underlying issue is, is there a PROS
         9
            designation?
11:32:45 10
                     THE COURT: Well, wait a second.
        11
        12
                          (Multiple speaker cross-talk)
        13
                     MR. SCHWARTZ: Does it apply to the --
        14
                     THE COURT: I'm going to tell you what the
            underlying issue was in the other matter whether or not
11:32:49 15
            there was substantial evidence in the record to support
        16
            the actions of the board or the city council.
        17
                     MR. SCHWARTZ: That's correct.
        18
        19
                     THE COURT: And that's a much different
11:32:58 20
            analysis than what's going on in this case.
        21
                     If that's the case then, if you lose on
        22
            petition for judicial review, then you have no right to
        23
            a jury trial as a matter of law in an inverse
            condemnation case.
11:33:10 25
                     And I don't think there's any law that says
```

```
11:33:12
         1
            that.
         2
                     MR. SCHWARTZ: You don't have a right to a
            jury trial in -- for liability for an inverse
         3
            condemnation case, only on damages. But, your Honor --
11:33:20
                     THE COURT: That's what I'm talking about.
         5
                                                                  Ι
            understand what my role will be. I get it. I get
         6
            that.
                     But at the end of the day, when it comes to
         8
            damages, I'm not going to decide that; right?
         9
                                         The point is that the
11:33:28 10
                     MR. SCHWARTZ: No.
           basis for the Court to find that there was substantial
        11
        12
           evidence and no abuse of discretion by the city council
           in denying the 35-acre applications was the PROS
        13
            designation which the Court expounded on in its order
        14
11:33:49 15
           denying the petition for judicial review. The Court
            said what that holds, that they had to apply for an
        16
        17
            amendment, that it was discretionary for the City to
           lift it.
        18
        19
                     The basis for their inverse claim is the same.
11:34:03 20
            They've got to show that the City, in denying that
            application, wiped out the economic value.
        21
        22
                     The fact and the law --
        23
                     THE COURT: But what about the per se
            regulatory taking?
        24
03:07:54 25
                          (Multiple speaker cross-talk)
```

11:34:14 1	MR. SCHWARTZ: The law
2	THE COURT: What about but tell me, what
3	about the per se regulatory taking claim for relief in
4	this case?
11:34:21 5	MR. SCHWARTZ: That the PROS designation has
6	nothing to do with the physical takings claim.
7	The developers characterized their physical
8	takings claim as a per se regulatory taking.
9	The PROS designation has nothing to do with
11:34:40 10	that claim. That claim is whether the City passed a
11	law that required persons that required the
12	developer to allow the City or the public on their
13	property, physically on their property.
14	That is a question of interpretation for the
11:35:00 15	judge. Now, the developer relies on the Sisolak case,
16	which was a physical takings case. In that case, that
17	was a per se regulatory takings case where the
18	developer claimed that government regulation allowed
19	the public to use their air space.
11:35:21 20	Here's what the Court said in Sisolak:
21	"In determining whether a property owner
22	has suffered a per se taking by physical
23	invasion, a court must determine whether the
24	regulation has granted the government physical
11:35:34 25	possession of the property or whether it merely

11:35:36 1	forbids certain private uses of the space."
2	That could be the owner's use.
3	"If the regulation forces the property
4	owner to acquiesce to a permanent physical
11:35:48 5	occupation, compensation is automatically
6	warranted, since this constitutes a per se
7	taking. 'This element of required acquiescence
8	is at the heart of the concept of occupation.
9	The second type of per se taking, complete
11:36:05 10	deprivation of value, is not at issue in this
11	case because Sisolak never argued that the
12	Ordinances completely deprived him of all
13	beneficial use of his property."
14	So Sisolak is clearly a physical takings case.
11:36:21 15	In that case, the Court interpreted ordinances which on
16	their face on their face require the property
17	owner to allow airplanes to fly in their airspace, to
18	physically occupy their property.
19	In the background section of the opinion, the
11:36:38 20	Court noted this discussion between the planner of a
21	planner and someone representing the property owner.
22	But it was background. It had nothing to do with the
23	Court's decision, which was to interpret an ordinance
24	on its face.
11:36:54 25	We have the same situation here. What what

11:37:00 1 Council Member Seroka told the public about who owned 2 what property and what they could do has nothing to do with whether the City adopted an ordinance that 3 required the property owner to allow the City or the public on their property. 11:37:15 5 Now, that's what's alleged. And we're going 6 7 to prove that the ordinance in question did not require the developer to allow the public on their property. 8 That's for our motion for summary judgment. But as far as what Seroka claims was the 11:37:28 **10** regulation that required some set-aside of property for 11 12 open space is not at all relevant to the physical takings claim. It's only potentially relevant to the 13 regulatory claim, the categorical claim, or the Penn 11:37:50 **15** Central claim where the developer argues that regulation prevented the developer's use of the 16 17 property. However, the law is the law. You've looked at 18 Exhibits I through Q. They're ordinances. 19 They say PROS designation of the Badlands. It defines what PROS 11:38:03 **20** It says you can open it and use it for these 21 means. 22 uses, but you can't use it for housing. That's the 23 law. And that applies to an inverse condemnation claim or a PJR or any other claim for relief regardless of whether the claim -- the standard is substantial 11:38:21 25

11:38:24 1 evidence or liability, that's the law. And the Court 2 has already recognized that law. And in his closing remark, counsel said 3 4 these -- these statements go directly to our defense, to the City's defense. He didn't say what that defense 11:38:36 5 6 was. We -- we're not claiming that there was some 7 20 percent set-aside rule that Council Member Seroka 8 may have believed existed. We're showing the Court the law, which is Exhibits I through Q, which are City 11:38:57 **10** 11 ordinances passed by the city council as a whole. The 12 City can only act through the city council to affect property. Can only make laws through the city council. 13 These are the laws that apply in this case. And the Court has never found that the 11:39:12 15 property owner has a property right to build 16 17 residential units in the subject property regardless of 18 the general plan. It's never found it has a property right under zoning to do anything. In fact, the Court 19 found the opposite in the PJR. 11:39:34 20 21 So either the property owner has a property 22 right or not. And it doesn't matter whether it's a PJR or inverse condemnation. If both claims are based on 23 the claim that the property owner has a property right 11:39:51 25 under zoning, which is an absurd proposition and

11:39:54 1	contradicted by all all authority, and, again, this
2	Court found that it does not, and the Ninth Circuit
3	found that it does not, which we contend is an issue
4	preclusion bar on that issue.
11:40:05 5	But these are all legal issues. They're for
6	the Court to decide based on ordinances and other
7	official City actions of the city council, which are
8	all in the public record. What Council Member Seroka
9	says about those actions or any other actions has
11:40:24 10	absolutely nothing to do with this case.
11	And, again, there is no precedent for allowing
12	a discovery from a legislator on a matter in
13	controversy, no precedent at all. All the cases are
14	the other way. And for very good reason, because to do
11:40:41 15	so would break down the separation of powers, and it
16	would have severe adverse effects on our republican
17	form of government.
18	Thank you.
19	THE COURT: All right. Okay. This is what
11:40:53 20	I'm going to do. And I want to make sure the record is
21	clear in this regard.
22	Number one, I see a distinct difference
23	between the mental processes of a member of the
24	legislature when it comes to enacting ordinances and/or
11:41:06 25	state statutes.

```
11:41:08
         1
                     And that's not really what we're talking about
         2
            here, and that's not what the thrust of the
            interrogatories really focus on.
         3
                     Just as important too, and I want to say this
         4
            for the record: I don't believe in a "what's good for
11:41:18
         5
            the goose is good for the gander" argument when it
         6
            comes to any issue.
                     For example, I remember in one of my earlier
         8
            jury trials a lawyer said, Look, Judge, you sustained
         9
11:41:36 10
           their objection eight times in a row. Well, that's not
            part of the analysis, because I've had cases where I've
        11
        12
           had over a hundred pretrial motions.
                                                  I don't sit there
            and say, Well, I'm going to give some to one side and
        13
            some to the other. You just -- you just look at it
        14
11:41:50 15
           from an umpire's perspective, and you look at that one
            pitch. And if that pitch is a strike, it's a strike.
            If it's a ball, it's a ball.
        17
                     Just as important, maybe you have a talented
        18
            pitcher on the mound like Sandy Koufax, who is known
        19
           for striking -- you know, striking -- throwing -- he
11:42:06 20
            was known for his efficiency as a pitcher as it
        21
        22
           pertains to strikeouts. And so that's my point.
        23
                     Just as important too, this isn't a petition
           for judicial review. It's not a motion for summary
        24
           judgment. All we're talking about here is a simple
11:42:21 25
```

11:42:24 1	discovery motion, more or less.					
2 And the law is pretty clear as it relate						
3	discovery. And that's much broader than admissibility					
4	at the time of trial.					
11:42:36 5	Here, the plaintiff is alleging a per se					
6	regulatory taking.					
7	And I don't see any change in the law or facts					
8	that would be the basis for me to grant a motion for					
9	reconsideration under the facts of this case.					
11:42:50 10	And so what I am going to do is this regarding					
11	the City's motion for rehearing and also for					
12	reconsideration, I'm going to grant the motion for					
13	reconsideration and let the three interrogatories					
14	stand.					
11:43:03 15	That doesn't mean, Mr. Leavitt, that what you					
16	find out will necessarily be admissible automatically					
17	at the time of trial. I think you understand that.					
18	But it's a simple discovery motion, nothing more,					
19	nothing less.					
11:43:17 20	And that's going to be the basis for my					
21	decision today, gentlemen.					
22	All right. And, Mr. Leavitt, can you prepare					
23	the order, sir?					
24	MR. LEAVITT: Yes, your Honor. I'll prepare					
11:43:28 25	the order.					

```
11:43:28
          1
                      And thank you for your time.
                      THE COURT: All right. Everyone enjoy your
          2
          3
             day.
          4
                      MR. LEAVITT:
                                     Thank you.
11:43:33
          5
                      MR. OGILVIE:
                                     Thank you.
          6
                      MS. HAM: Thank you, your Honor.
          7
          8
          9
                            (Proceedings were concluded.)
         10
         11
         12
         13
         14
         15
         16
         17
         18
         19
         20
         21
         22
         23
         24
         25
```
