Re: **ESTATE OF POWELL VS. VALLEY HEALTH SYS., LLC**
Case No. 84861

Dear Sir or Madam:

We represent the respondent on this appeal, Valley Health System, LLC, the moving party on the instant pending motion to require or increase supersedeas bond. Upon review of the plaintiffs-appellants' opposition to the aforesaid motion, we request that the Court reject same as it fails to comply with NRAP 27(d)(2) by exceeding the permitted page limit.

Moreover, we request that plaintiffs-appellant be given no more time to file any opposition to the instant motion as they have committed multiple rule violations, dragged out every required filing by requesting multiple extensions for required filings, and each time were granted courtesies by this Court. At a certain point, the professional courtesies need to end and the fact that they cannot comply with this Court's rules twice on this motion alone, forgetting about the multiple previous delays surrounding this appeal, and this motion should be decided without opposition. A mere rejection and further extension of time to correct the litany of procedural indiscretions by plaintiffs' counsel will only encourage the improper practice in which he has been permitted to engage.

Very truly yours,

/s/ Adam Garth
