APPELLANTS' OPENING BRIEF:

STATEMENT OF FACTS: Kidapped from his home in Iowa, On July 14, 2021, MATTHEW TRAVIS HOUSTON (hereinafter "Petitioner-Appellant") was abducted from his hotel room at the Best Western located at [redacted] 3041 St Rose Parkway in Henderson, Nevada, as he was not served with any sort of summons or WARRANT, nor was told or read that he had any kind of rights. This false arrest prevented Petitioner-Appellant from attending his appointment the very next day at Nevada Retina Specialists, with Dr. Tyson Ward on July 15, 2021, while this continued imprisonment of his person also prevented him from attending his medical disability rating in Reno, Nevada, on August 15, 2021, with Dr. Dwagleri. Both appointments of which had been scheduled by the abductors, SEDGWICK's Dianne Ferrante, and her alleged supervisor, Rosemarie McMorris-Alexander, as was the booking of his room.

The Petitioner-Appellant's attempt at release from CCDC was intended so that he could search for, and hopefully, retrieve his service animals. However, the now-dismissed counsel, J. Wood and Benard Little, provided misinformation regarding the lack of a directly related "City Jail Retainer Hold". Counsel had told Petitioner-Appellant, all the while coercing his client into a potential release from custody, that he "did not see a detainer hold" - when, in fact, there was. This coercion of the client by his previous representation created a second double-jeopardy - in LAS VEGAS MUNICIPAL COURT #12483J4A + #C1237802A; with the first being by J. Wood in the EIGHTH JUDICIAL DISTRICT COURT 21-CR-019840 + 21-CR-033713. A. Goldstein never visited Mr. Houston. These traumatic events are a cruel and unusual punishment being inflicted upon an abused and innocent man, who was forced into an involuntary relocation, with unnecessary hardships causing the eviction of his law office located at 435 South Linn Street #927, in Iowa City, Iowa, [illegible] 26.5 million of property damage and the destruction of his K-9(s). Due to crimes both civil and criminal, not to mention the willful omissions of Rosemarie McMorris-Alexander and Dianne Ferrante, SEDGWICK and the prosecutions' most unlawful use of overreaching [illegible] their exploitation of the innocent man has put the Petitioner-Appellant into an unmanageable state of duress, homelessness, and extensive incarceration. Not at any time did Mr. Houston make any threats or acts of harassment, extortion or aggravated stalking towards any of the parties in Mr. Houston's cases or anybody else. It is in FACT Mr. Houston who is the victim of crime.

PLEASE TAKE NOTICE that it is asked of this court, "is there a state wide conspiracy to conceal the truth about the exploitation of the injured worker(s) from the citizens of Nevada?" There surely must be in the case(s) of Matthew Travis Houston.

The temerity of dispute resolution has escalated into the most extreme sort of prejudice, which has been swept under the rug by those individuals causing a broken system. In this case involving Daniel Schwartz, with potential organized criminal operations possibly involving Scott Poisson in the State of Florida, and Alexis Plunkett out of the State of Ohio, the theory of a conspiracy causing legal, medical and judicial malpractice against the Plaintiff-in-error has been further validated externally to the now dismissed counsel with additional shady characters including but not limited to: Karen Schwartz, Lina Sakalauskas, Gene Porter and both David Jones and Tierra Danielle Jones. External to the procedural errors causing this illegal incarceration is the fact that big business was able to coerce LVMPD into acting as a modern day Gestapo. Therefore it is asked to this court, "a conspiracy is possible... is it not?" In fact, it is no conspiracy that Sedgwick's interest off of the petitioner-appellant is making quite a bit of money when not having to pay the injured worker(s) their legally and rightfully entitled benefits. (Now if you please skip ahead to page 49-55) You will PLEASE TAKE NOTICE of this now amended:

Perhaps a cause of this neglect of duty is that there are other objective factors showing cause and prejudice as there is much more case to blame besides bad lawyering. Additionally, the claim of ineffective aid of counsel was reinforced by the Supreme Court of Nevada's dismissal of DIRECT APPEAL No. 84291 on March 10th, 2022. Had either Anthony M. Goldstein, Jeremy Wood, Benard Little or the attorney from the cases in Las Vegas Municipal Court adhered to any sort of principle than the petitioner-appellant would not have been as prejudiced.

Primarily, it is the fact that the judge, prosecution and alleged "victim" in this case are females, causing a sexist bias against the petitioner-appellant who had already, while in a state of trauma been subjected to a double-jeopardy. Not only was petitioner-appellant made victim of sexist bigotry, but he became more of the scapegoat to the evil forces of stereotypical racism after being told by Benard Little that "because he was white, he would not qualify for aid from the Bail Bond Project." Social worker Cassondra Diez, also from the Clark County Public Defender's office, was also a hindrance to justice when she had informed petioner-appellant that "it would be a conflict of interest if [petitioner-appellant] authorized Benard Little [or someone from their office] to act as a POWER OF ATTORNEY so that [petitioner-appellant] could have the overly-inflated bond paid in full." But why would any of that even matter to the social worker who would not accept complete medical records from all of the petitioner-appellant's team of doctors?

To date, the Appellant's "PETITION FOR JUDICIAL REVIEW OF THE EVENTS OF DECEMBER 6th, 2021" has been ignored by the courts, even before the illegal arrest of the petitioner-appellant on July 14th, 2021 because judicial ineptitude and procedural mishandlements aught NEVER happen. However, due to particular individual's acts in temerity and carelessness, these errors throw monkeywrenches into particular parts of the machine, therefore preventing the lawful turnings in the wheels of justice from working towards the forces of good, and all that it is of. It is hereby asked to this court, "are these most cruel and inhumane injustices to be accepted by our judicial system and the people of the State of Nevada?"

It was asked by the most falsly accused Appellant, (OFFICIALLY before the 13th of October, 2021) that this case be apposed and completely dismissed, as proven by the original motion's pages "1-6" which were put on record by the clerk when they were stamped "RECEIVED OCT 18TH 2021 CLERK OF COURT". The originals are at the offices of Benard Little, et al who neglected their duties in providing this court with truth, contributing to malpractice and is an additional cause of this wrongful conviction. This error shows the tendancy of judicial officers of Las Vegas to parade the elements of oppression and facism. As a result, the Appellant prays that prosecutorial malice, misconduct, wanton disregard and careless neglect be lessened, if not completely eliminated while reading of the observations and the theory of District Attorney Mr. Jim Garrison who is, most unfortunately no longer with us. May he provide this court with motivation in a reminder to all of the call of duty in encouragement to unhinder, repair and more equally balance the scale of justice in the community of Lost Wages, Nevada that is still part of the good 'ol' United States of America:

Interview With District Attorney Jim Garrison
as he is clearly in opposition to government interferance:

I was with the artillery supporting the division that took Dachau; I arrived there the day after it was taken, when bulldozers were making pyramids of human bodies outside the camp. What I saw there has haunted me ever since. Because the law is my profession, I've always wondered about the judges throughout Germany who sentenced men to jail for picking pockets at a time when their own government was jerking gold from the teeth of men murdered in gas chambers. I'm concerned about all of this because it isn't a German phenomenon; it's a human phenomenon. It can happen here, because there has been no change and there has been no progress and there has been no increase of understanding on the part of men for their fellow man.

What worries me deeply, and I have seen it exemplified in this case, is that we in America are in great danger of slowly evolving into a proto-facist state. It will be a different kind of facist state from the one of the Germans evolved; their's grew out of depression and promised bread and work, while ours, curiously enough, seems to be emerging from prospecity. But in the final analysis, it's based on power and on the inability to put human goals and human conscience above the dictates of the state. It's origins can be traced in the tremendous

war machine we've built since 1945, the "military-industrial complex" that Eisenhower vainly warned us about, which now dominates every aspect of our life. The power of the states and Congress has gradually been abandoned to the Executive Department, because of war conditions; and we've seen the creation of an arrogant, swollen bureaucratic complex totally unfettered by the checks and balances of the Constitution.

In a very real and terrifying sense, our Government is the CIA and the Pentagon, with Congress reduced to a debating society. Of course, you can't spot this trend to facism by casually looking around. You can't look for such familiar signs as the swastika, because they won't be there. We won't build Dachaus and Auschwitzes; the clever manipulation of the mass media is creating a concentration camp of the mind that promises to be far more effective in keeping the populace in line. We're not going to wake up one morning and suddenly find ourselves in gray uniforms goose-stepping off to work. But this isn't the test. The test is: What happens to the individual who dissents? In Nazi Germany he was physically destroyed; here, the process is more subtle, but the end results can be the same.

I've learned enough about the machinations of the CIA in the past year to know that this is no longer the dream world America I once believed in. The imperatives of the population explosion, which inevitably will lessen our belief in the sanctity of the individual human life, combined with the awesome power of the CIA and the defense establishment, seem destined to seal the fate of the America I knew as a child and bring us into a new Orwellian world where the citizen exists for the state and where raw power justifies any and every immoral act. I've always had a kind of knee-jerk trust in my Government's basic integrity, whatever political blunders it may make. But I've come to realize that in Washington, deceiving and manipulating the public are viewed by some as the natural perogatives of office. Huey Long once said, "Facism will come to America in the name of anti-facism." I'm afraid, based on my own experience that facism will come to America in the name of national security.
